2A. Bill and fiscal impact summary: *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

SB 2221 creates a credit against coal conversion privilege taxes for facilities that achieve a required level of carbon dioxide capture.

B. Fiscal impact sections: *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

We are uncertain which facilities will meet the requirements specified in the bill. However, one company representative has provided estimates for one plant, and has indicated that this plant will undertake the requirements and meet the specifications in the bill during the 2009-11 biennium. The fiscal note has been revised to show the loss to the state general fund associated with this one facility. It is not known if others will also qualify.
