13 more than one hundred twenty days after delivery of the notice of intent to change the
14 water supplier and the mediation has been terminated.~~

~~15 2. If the district and the city are unable to reach an agreement, then the fair
16 compensation to the district must be determined in the following manner:~~

- 19 ~~all reasonable costs of integrating the remaining water system facilities of~~
- 20 ~~the water supplier whose rights are terminated; and~~

- 22 ~~_____ b. At least two of the three arbitrators must agree to written findings and~~
- 23 ~~conclusions that must be presented to the city for payment and the district for~~
- 24 ~~acceptance.~~
- 25 ~~_____ 3. The compensation required by this section must be paid to the district whether or not~~
- 26 ~~the city actually utilizes the facilities of the district for the delivery of water to property~~
- 27 ~~within the city. The compensation must be paid within one hundred twenty days~~
- 28 ~~following the date upon which the fair market value of the facilities are certified to the~~
- 29 ~~city and district, or at a later date as may be mutually agreed upon by the city and~~
- 30 ~~district or as determined by the district court.~~

1 ~~4. In any event, the district may elect to retain facilities located within the city and used~~

4 ~~facilities it elects to retain.~~

5 ~~5. Except as otherwise provided, this section does not limit the authority of a city to select~~

14 ~~service must transfer to the city's designated supplier. The district and the city shall~~
15 ~~cooperate to minimize the inconvenience to water customers because of the transfer.~~
16 ~~The city shall give written notice to each customer of the district for whom water~~
17 ~~service is being transferred, specifying the new supplier's name and address, the~~
18 ~~effective transfer date, the reason for the transfer, and an applicable rate schedule.~~
19 ~~During the negotiation period, the district may not discontinue or limit service to~~
20 ~~customers who were supplied water by the district at the time of annexation unless the~~
21 ~~customer has violated district bylaws, rules, or regulations.~~

22 ~~7. Following the transfer of water service, the annexed land for which water service has~~
23 ~~been transferred to the city must be deleted from the district's territory and all benefit~~
24 ~~units attached to the land must be canceled without compensation. The district shall~~
25 ~~provide notice of the deletion of territory to the state engineer.~~

30 ~~consider whether a district and city within a district have developed a mutually acceptable water~~
31 ~~service agreement to accommodate anticipated future growth of a city within a district, but the~~

1 ~~commission may not have these considerations affect the funding of other projects within a~~
2 ~~district.~~

8 promote economic growth and development. In order to meet this objective in the most
9 economical way, water service districts and city water service systems shall coordinate their
10 service plans. Competition for users and duplication of service must be avoided whenever
11 possible.

27 as follows:

28 **61-35-26.3. State water commission funding.**

1 agreement may not affect the funding by the commission of other projects for a district or city
2 which are not related to potable water service and are not located within the extraterritorial
3 zoning jurisdiction.
