- 1. Shall provide, supervise, and regulate information technology of all executive branch state entities, excluding the institutions under the control of the board of higher education.
- 22 Shall provide network services in a way that ensures the network requirements of a 23 single entity do not adversely affect the functionality of the whole network, facilitates 24 open communications with the citizens of the state, minimizes the state's investment in 25 human resources, accommodates an ever-increasing amount of traffic, supports rapid 26 detection and resolution of problems, protects the network infrastructure from damage 27 and security breaches, provides for the aggregation of data, voice, video, and 28 multimedia into a statewide transport mechanism or backbone, and provides for the 29 network support for the entity to carry out its mission.
 - 3. May review and approve additional network services that are not provided by the department.

- 4. May purchase, finance the purchase, or lease equipment, software, or implementation services or replace, including by trade or resale, equipment or software as may be necessary to carry out this chapter. An agreement to finance the purchase of software, equipment, or implementation services may not exceed a period of five years. The department shall submit any intended financing proposal for the purchase of software, equipment, or implementation services under this subsection, which is in excess of one million dollars, to the budget section of the legislative management or the legislative assembly before executing a financing agreement. If the budget section or the legislative assembly does not approve the execution of a financing agreement, the department may not proceed with the proposed financing arrangement. The department may finance the purchase of software, equipment, or implementation services only to the extent the purchase amount does not exceed seven and one-half percent of the amount appropriated to the department during that biennium.
 - 5. Shall review requests for lease, purchase, or other contractual acquisition of information technology as required by this subsection. Each executive branch agency or institution, excluding the institutions under the control of the board of higher education, shall submit to the department, in accordance with guidelines established by the department, a written request for the lease, purchase, or other contractual acquisition of information technology. The department shall review requests for conformance with the requesting entity's information technology plan and compliance with statewide policies and standards. If the request is not in conformance or compliance, the department may disapprove the request or require justification for the departure from the plan or statewide policy or standard.
 - 6. Shall provide information technology, including assistance and advisory service, to the executive, legislative, and judicial branches. If the department is unable to fulfill a request for service from the legislative or judicial branch, the information technology may be procured by the legislative or judicial branch within the limits of legislative appropriations.
 - 7. Shall request and review information, including project startup information summarizing the project description, project objectives, business need or problem, cost-benefit analysis, and project risks and a project closeout information summarizing

- the project objectives achieved, project budget and schedule variances, and lessons learned, regarding any major information technology project of an executive branch agency. The department shall present the information to the information technology committee on request of the committee.
 - 8. May request and review information regarding any information technology project of an executive branch agency with a total cost of between one hundred thousand and five hundred thousand dollars as determined necessary by the department. The department shall present the information to the information technology committee on request of the committee.
- 9. Shall study emerging technology and evaluate its impact on the state's system ofinformation technology.
 - 10. Shall develop guidelines for reports to be provided by each agency of the executive, legislative, and judicial branches, excluding the institutions under the control of the board of higher education, on information technology in those entities.
 - 11. Shall collaborate with the state board of higher education on guidelines for reports to be provided by institutions under control of the state board of higher education on information technology in those entities.
- 18 12. Shall perform all other duties necessary to carry out this chapter.
- 13. May provide wide area network services to a state agency, city, county, school district,
 20 or other political subdivision of this state. The information technology department may
 21 not provide wide area network service to any private, charitable, or nonprofit entity
 22 except the information technology department may continue to provide the wide area
 23 network service the department provided to the private, charitable, and nonprofit
 24 entities receiving services from the department on January 1, 2003.
- Shall assure proper measures for security, firewalls, and internet protocol addressing
 at the state's interface with other facilities.
- 15. Notwithstanding subsection 13, may provide wide area network services for a period not to exceed four years to an occupant of a technology park associated with an institution of higher education or to a business located in a business incubator associated with an institution of higher education.

Sixty-fourth Legislative Assembly
