25 **SECTION 20. AMENDMENT.** Section 57-15-01.1 of the North Dakota Century Code is  
26 amended and reenacted as follows:

27 **57-15-01.1. (Effective for the first two taxable years beginning after December 31,**  
28 **2012) Protection of taxpayers and taxing districts.**

29 Each taxing district may levy the lesser of the amount in dollars as certified in the budget of  
30 the governing body, or the amount in dollars as allowed in this section, subject to the following:

- 1           1. No taxing district may levy more taxes expressed in dollars than the amounts allowed  
2           by this section.
- 3           2. For purposes of this section:
  - 4           a. "Base year" means the taxing district's taxable year with the highest amount  
5           levied in dollars in property taxes of the three taxable years immediately  
6           preceding the budget year. For a park district general fund, the "amount levied in  
7           dollars in property taxes" is the sum of amounts levied in dollars in property taxes  
8           for the general fund under section 57-15-12 including any additional levy  
9           approved by the electors, the insurance reserve fund under section 32-12.1-08,  
10          the employee health care program under section 40-49-12, the public recreation  
11          system under section 40-55-09 including any additional levy approved by the  
12          electors, forestry purposes under section 57-15-12.1 except any additional levy  
13          approved by the electors, pest control under section 4-33-11, and handicapped  
14          person programs and activities under section 57-15-60;
  - 15          b. "Budget year" means the taxing district's year for which the levy is being  
16          determined under this section;
  - 17          c. "Calculated mill rate" means the mill rate that results from dividing the base year  
18          taxes levied by the sum of the taxable value of the taxable property in the base  
19          year plus the taxable value of the property exempt by local discretion or  
20          charitable status, calculated in the same manner as the taxable property; and
  - 21          d. "Property exempt by local discretion or charitable status" means property  
22          exempted from taxation as new or expanding businesses under chapter 40-57.1;  
23          improvements to property under chapter 57-02.2; or buildings belonging to  
24          institutions of public charity, new single-family residential or townhouse or  
25          condominium property, property used for early childhood services, or pollution  
26          abatement improvements under section 57-02-08.
- 27          3. A taxing district may elect to levy the amount levied in dollars in the base year. Any  
28          levy under this section must be specifically approved by a resolution approved by the  
29          governing body of the taxing district. Before determining the levy limitation under this  
30          section, the dollar amount levied in the base year must be:

- 1           a.   Reduced by an amount equal to the sum determined by application of the base  
2           year's calculated mill rate for that taxing district to the final base year taxable  
3           valuation of any taxable property and property exempt by local discretion or  
4           charitable status which is not included in the taxing district for the budget year but  
5           was included in the taxing district for the base year.
- 6           b.   Increased by an amount equal to the sum determined by the application of the  
7           base year's calculated mill rate for that taxing district to the final budget year  
8           taxable valuation of any taxable property or property exempt by local discretion or  
9           charitable status which was not included in the taxing district for the base year  
10          but which is included in the taxing district for the budget year.
- 11          c.   Reduced to reflect expired temporary mill levy increases authorized by the  
12          electors of the taxing district. For purposes of this subdivision, an expired  
13          temporary mill levy increase does not include a school district general fund mill  
14          rate exceeding one hundred ten mills which has expired or has not received  
15          approval of electors for an extension under subsection 2 of section 57-64-03.
- 16          d.   If the base year is a taxable year before 2013, reduced by the amount of state aid  
17          under chapter 15.1-27, which is determined by multiplying the budget year  
18          taxable valuation of the school district by the lesser of:  
19               (1)   The base year mill rate of the school district minus sixty mills; or  
20               (2)   Fifty mills.
- 21          4.   In addition to any other levy limitation factor under this section, a taxing district may  
22          increase its levy in dollars to reflect new or increased mill levies authorized by the  
23          legislative assembly or authorized by the electors of the taxing district.
- 24          5.   Under this section a taxing district may supersede any applicable mill levy limitations  
25          otherwise provided by law, or a taxing district may levy up to the mill levy limitations  
26          otherwise provided by law without reference to this section, but the provisions of this  
27          section do not apply to the following:  
28               a.   Any irrepealable tax to pay bonded indebtedness levied pursuant to section 16 of  
29               article X of the Constitution of North Dakota.  
30               b.   The one-mill levy for the state medical center authorized by section 10 of article X  
31               of the Constitution of North Dakota.

- 1           6. A school district choosing to determine its levy authority under this section may apply  
2           subsection 3 only to the amount in dollars levied for general fund purposes under  
3           section 57-15-14 or, if the levy in the base year included separate general fund and  
4           special fund levies under sections 57-15-14 and 57-15-14.2, the school district may  
5           apply subsection 3 to the total amount levied in dollars in the base year for both the  
6           general fund and special fund accounts. School district levies under any section other  
7           than section 57-15-14 may be made within applicable limitations but those levies are  
8           not subject to subsection 3.
- 9           7. Optional levies under this section may be used by any city or county that has adopted  
10          a home rule charter unless the provisions of the charter supersede state laws related  
11          to property tax levy limitations.

13           ~~Protection of taxpayers and taxing districts.~~ Each taxing district may levy the lesser of the

6            a. In any school district having a total population in excess of four thousand
