HB 1236 raises the minimum legal age to purchase and use tobacco products from eighteen to nineteen.

- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

If enacted, HB 1236 will increase the minimum legal age (MLA) for purchasing and using cigarettes and tobacco products to age nineteen. Studies indicate that approximately twelve percent of high school students are daily or occasional smokers. If this bill is enacted, some of the consumption of tobacco products by these individuals will cease, and some eighteen year-olds will delay smoking for one or more years. Others will find other means to purchase their cigarettes, including using older friends, or cross-border purchases in surrounding states with MLA's of eighteen.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

- A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

Assuming 550 young adults stop purchasing cigarettes in the state, each consuming an average of 1.5 fewer packages per week, there would be an estimated drop in wholesale cigarette tax of \$38,000 for the 2019-21 biennium.

- B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

- C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation or a part of the appropriation is included in the executive budget or relates to a continuing appropriation.*
