Agricultural property includes land on which a greenhouse or other building is located if the land is used for a nursery or other purpose associated with the operation of the greenhouse. The time limitations contained in this section may not be construed to prevent property that was assessed as other than agricultural property from being assessed as agricultural property if the property otherwise qualifies under this subsection.

 - (1) The land is platted by the owner.

 - (4) Property is zoned other than agricultural.
 - (5) Property has assumed an urban atmosphere because of adjacent residential or commercial development on three or more sides.
 - (6) The parcel is less than ten acres [4.05 hectares] and not contiguous to agricultural property.
 - (7) The property sells for more than four times the county average true and full agricultural value.
 - b. Land that was assessed as agricultural property at the time the land was put to use for extraction of oil, natural gas, or subsurface minerals as defined in section 38-12-01 must continue to be assessed as agricultural property if the remainder of the surface owner's parcel of property on which the subsurface mineral activity is occurring continues to qualify for assessment as agricultural property under this subsection.

Abbreviations used in describing real estate may be as follows:

1. In all proceedings, lists, advertisements, records, notices, and documents relative to assessing, advertising, or selling real estate for taxes or special assessments, it is sufficient to describe such real estate by the use of initial letters, abbreviations, and figures to designate the township, range, section, or part of section, and the number of a lot or block.
2. Whenever the letters N., E., S., or W. are used, they must be construed to mean north, east, south, and west, respectively.
3. Whenever there are used the initial letters N.W., S.W., N.E., or S.E., whether in capital letters or small letters, and whether each letter is followed by a period or the two are written connectedly without a period to signify the same to be an abbreviation of two words, and whenever said letters are used in connection with section numbers to designate land descriptions, and in the absence of proof to the contrary, it must be presumed that the same are abbreviations for and mean "northwest", "southwest", "northeast", and "southeast", respectively.
4. When two or more sets of such abbreviations are used connectedly, as for example N.E. S.E., the same must be presumed to mean the "northeast quarter of the southeast quarter".
5. When any such initial letters are followed with a numeral placed in the position of an algebraic exponent, as N.W.⁴, S.W.⁴, N.E.⁴, or S.E.⁴, with the figure placed on or above the line, the description must be taken to mean the "northwest quarter", "southwest quarter", "northeast quarter", or "southeast quarter", respectively. The abbreviation N.², S.², E.², or W.² must be presumed to mean the "north half", "south half", "east half", or "west half", respectively, of the section or quarter or other portion of land designated immediately following it.

6. Combinations of such letters and figures must be read accordingly, as S.² N.E.⁴ must be taken as intended to mean and describe the "south half of the northeast quarter", and similar combinations of such letters and exponents must be construed accordingly.
7. In the absence of such figure placed in the position of an exponent, whenever abbreviations N.W., S.W., N.E., or S.E. are used alone or with similar abbreviations, they must be presumed to mean and be read as "northwest quarter", "southwest quarter", "northeast quarter", or "southeast quarter", respectively, unless it appears clearly from the context that another meaning is intended.
8. The abbreviation sec. must be taken as meaning "section", the letters "t" or "twp" or "tp" must be taken to mean "township", the letters "r" or "rg" or "rge" must be taken to mean "range", the abbreviations "b" or "blk" or "bk" must be taken to mean "block", the abbreviations "add" or "ad" must be taken to mean "addition", and the abbreviations "sub" or "subd" must be taken to mean "subdivision".
9. The abbreviation "do" or the characters "·" or other similar abbreviation or character, must be construed to mean the same name, word, initial, letter, abbreviation, or figure as the last preceding one written or the one written immediately above.
10. No description in which the foregoing abbreviations, symbols, initial letters, figures, or characters definitely can be understood by the application of the definitions and rules in this section may be held defective because such abbreviations are used instead of words or figures symbolized thereby.

For purposes of this paragraph, "farmer" includes a:
 - (a) "Beginning farmer", which means an individual who has begun occupancy and operation of a farm within the three preceding calendar years; who normally devotes the major portion of time to the activities of producing products of the soil, poultry, livestock, or dairy farming in such products' unmanufactured state; and who does not have a history of farm income from farm operation for each of the three preceding calendar years.
 - (b) "Retired farmer", which means an individual who is retired because of illness or age and who at the time of retirement owned and occupied as a farmer the residence in which the person lives and for which the exemption is claimed.
 - (c) "Surviving spouse of a farmer", which means the surviving spouse of an individual who is deceased, who at the time of death owned and occupied as a farmer the residence in which the surviving spouse lives and for which the exemption is claimed. The exemption under this subparagraph expires at the end of the fifth taxable year after the taxable year of death of an individual who at the time of death was an active farmer. The exemption under this subparagraph applies for as long as the residence is continuously occupied by the surviving spouse of an individual who at the time of death was a retired farmer.
 - (3) "Net income from farming activities" means taxable income from those activities as computed for income tax purposes pursuant to chapter 57-38 adjusted to include the following:
 - (a) The difference between gross sales price less expenses of sale and the amount reported for sales of agricultural products for which the farmer reported a capital gain.
 - (b) Interest expenses from farming activities which have been deducted in computing taxable income.

- (c) Depreciation expenses from farming activities which have been deducted in computing taxable income.
 - (4) When exemption is claimed under this subdivision for a residence, the assessor may require that the occupant of the residence who it is claimed is a farmer provide to the assessor for the year or years specified by the assessor a written statement in which it is stated that fifty percent or more of the net income of that occupant, and spouse if married and both spouses occupy the residence, was, or was not, net income from farming activities.
 - (5) In addition to any of the provisions of this subsection or any other provision of law, a residence situated on agricultural land is not exempt for the year if it is occupied by an individual engaged in farming who had nonfarm income, including that of a spouse if married, of more than forty thousand dollars during each of the three preceding calendar years. This paragraph does not apply to a retired farmer or a beginning farmer as defined in paragraph 2.
 - (6) For purposes of this section, "livestock" includes "nontraditional livestock" as defined in section 36-01-00.1.

 - b. Any permanently and totally disabled person who is permanently confined to use of a wheelchair, or, if deceased, the unremarried surviving spouse of a permanently and totally disabled person. If the spouse of a permanently and totally disabled person owns the homestead or if it is jointly owned by them, the same reduction in assessed valuation applies as long as both reside thereon. The provisions of this subdivision do not reduce the liability for special assessments levied upon the homestead. The phrase "permanently confined to use of a wheelchair" means that the person cannot walk with the assistance of crutches or any other device and will never be able to do so and that a physician selected by the local governing board has so certified.

Any person claiming an exemption under this subsection for the first time shall file with the county auditor an affidavit showing the facts herein required and a description of the property. The affidavit must be open for public inspection. A person thereafter shall furnish to the assessor or other assessment officials when requested to do so any information that is believed will support the claim for exemption for a subsequent year.

subsection whether or not the person is the head of a family. The board of county commissioners is hereby authorized to cancel the unpaid taxes for any year in which the qualifying owner has held title to the exempt property.

23. All, or any portion of structural improvements other than paving and surfacing to land used exclusively for the business of operating an automobile parking lot within a city open for general public patronage. For purposes of this subsection, "homestead" has the meaning provided in section 47-18-01 except that it also applies to any person who otherwise qualifies under the provisions of this subsection whether or not the person is the head of a family.  - (2) The property is owned by a qualified nonprofit entity, as defined in section 42 of the Internal Revenue Code [26 U.S.C. 42]. If under a partnership agreement or other legally enforceable instrument, a for-profit entity, such as a limited partner, has an ownership interest in the property, then the agreement must provide that the nonprofit entity must have the right of first refusal in any transfer of the ownership interest in the property. The partnership agreement or other legally enforceable instrument also must provide that any transfer of the ownership interest by the for-profit entity must be without financial gain; and
 - (3) The general partner or other ownership entity is owned or controlled by a nonprofit entity or a political subdivision.

 - c. If part of the residential rental property is not eligible to receive assistance through local, state, or federal affordable housing programs, the exemption under this section is calculated by dividing the number of income and rent-restricted units by the total number of rental units.
 - d. In lieu of the ad valorem taxes that would otherwise be assessed, the project owners shall make a payment equal to five percent of the balance of the total annual rents collected during the preceding calendar year, minus the utility costs for the property paid by the owner of the property.

Any person sixty-five years of age or older or permanently and totally disabled, in the year in which the tax was levied, with an income that does not exceed the limitations of subdivision c is entitled to receive a reduction in the assessment on the taxable valuation on the person's homestead. An exemption under this subsection applies regardless of whether the person is the head of a family.
- b. The exemption under this subsection continues to apply if the person does not reside in the homestead and the person's absence is due to confinement in a nursing home, hospital, or other care facility, for as long as the portion of the homestead previously occupied by the person is not rented to another person.

- c. The exemption must be determined according to the following schedule:
 - (1) If the person's income is not in excess of twenty-two thousand dollars, a reduction of one hundred percent of the taxable valuation of the person's homestead up to a maximum reduction of five thousand six hundred twenty-five dollars of taxable valuation.
 - (2) If the person's income is in excess of twenty-two thousand dollars and not in excess of twenty-six thousand dollars, a reduction of eighty percent of the taxable valuation of the person's homestead up to a maximum reduction of four thousand five hundred dollars of taxable valuation.
 - (3) If the person's income is in excess of twenty-six thousand dollars and not in excess of thirty thousand dollars, a reduction of sixty percent of the taxable valuation of the person's homestead up to a maximum reduction of three thousand three hundred seventy-five dollars of taxable valuation.
 - (4) If the person's income is in excess of thirty thousand dollars and not in excess of thirty-four thousand dollars, a reduction of forty percent of the taxable valuation of the person's homestead up to a maximum reduction of two thousand two hundred fifty dollars of taxable valuation.
 - (5) If the person's income is in excess of thirty-four thousand dollars and not in excess of thirty-eight thousand dollars, a reduction of twenty percent of the taxable valuation of the person's homestead up to a maximum reduction of one thousand one hundred twenty-five dollars of taxable valuation.
 - (6) If the person's income is in excess of thirty-eight thousand dollars and not in excess of forty-two thousand dollars, a reduction of ten percent of the taxable valuation of the person's homestead up to a maximum reduction of five hundred sixty-three dollars of taxable valuation.
- d. Persons residing together, as spouses or when one or more is a dependent of another, are entitled to only one exemption between or among them under this subsection. Persons residing together, who are not spouses or dependents, who are co-owners of the property are each entitled to a percentage of a full exemption under this subsection equal to their ownership interests in the property.
- e. This subsection does not reduce the liability of any person for special assessments levied upon any property.
- f. Any person claiming the exemption under this subsection shall sign a verified statement of facts establishing the person's eligibility.
- g. A person is ineligible for the exemption under this subsection if the value of the assets of the person and any dependent residing with the person exceeds five hundred thousand dollars, including the value of any assets divested within the last three years.
- h. The assessor shall attach the statement filed under subdivision f to the assessment sheet and shall show the reduction on the assessment sheet.
- i. An exemption under this subsection terminates at the end of the taxable year of the death of the applicant.
- 2. a. Any person who would qualify for an exemption under subdivisions a and c of subsection 1 except for the fact that the person rents living quarters is eligible for refund of a portion of the person's annual rent deemed by this subsection to constitute the payment of property tax.
- b. For the purpose of this subsection, twenty percent of the annual rent, exclusive of any federal rent subsidy and of charges for any utilities, services, furniture, furnishings, or personal property appliances furnished by the landlord as part of the rental agreement, whether expressly set out in the rental agreement, must be considered as payment made for property tax. When any part of the twenty percent of the annual rent exceeds four percent of the annual income of a qualified applicant, the applicant is entitled to receive a refund from the state general fund for that amount in excess of four percent of the person's annual income, but the refund may not be in excess of four hundred dollars. If the

calculation for the refund is less than five dollars, a minimum of five dollars must be sent to the qualifying applicant.

- c. Persons who reside together, as spouses or when one or more is a dependent of another, are entitled to only one refund between or among them under this subsection. Persons who reside together in a rental unit, who are not spouses or dependents, are each entitled to apply for a refund based on the rent paid by that person.
 - d. Each application for refund under this subsection must be made to the tax commissioner before the first day of June of each year by the person claiming the refund. The tax commissioner may grant an extension of time to file an application for good cause. The tax commissioner shall issue refunds to applicants.
 - e. This subsection does not apply to rents or fees paid by a person for any living quarters, including a nursing home licensed pursuant to section 23-16-01, if those living quarters are exempt from property taxation and the owner is not making a payment in lieu of property taxes.
 - f. A person may not receive a refund under this section for a taxable year in which that person received an exemption under subsection 1.
3. All forms necessary to effectuate this section must be prescribed, designed, and made available by the tax commissioner. The county directors of tax equalization shall make these forms available upon request.
 4. A person whose homestead is a farm structure exempt from taxation under subsection 15 of section 57-02-08 may not receive any property tax credit under this section.
 5. For the purposes of this section:
 - a. "Dependent" has the same meaning it has for federal income tax purposes.
 - b. "Homestead" has the same meaning as provided in section 47-18-01.
 - c. "Income" means income for the most recent complete taxable year from all sources, including the income of any dependent of the applicant, and including any county, state, or federal public assistance benefits, social security, or other retirement benefits, but excluding any federal rent subsidy, any amount excluded from income by federal or state law, and medical expenses paid during the year by the applicant or the applicant's dependent which is not compensated by insurance or other means.
 - d. "Medical expenses" has the same meaning as it has for state income tax purposes, except that for transportation for medical care the person may use the standard mileage rate allowed for state officer and employee use of a motor vehicle under section 54-06-09.
 - e. "Permanently and totally disabled" means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or has lasted or can be expected to last for a continuous period of not less than twelve months as established by a certificate from a licensed physician or a written determination of disability from the social security administration or any federal or state agency that has authority to certify an individual's disability.

57-02-08.2. Homestead credit - Certification.

1. Prior to the first of March of each year, the county auditor of each county shall certify to the state tax commissioner on forms prescribed by the state tax commissioner the name and address of each person for whom the homestead credit provided for in section 57-02-08.1 was allowed for the preceding year, the amount of exemption allowed, the total of the tax mill rates of all taxing districts, exclusive of any state mill rates, that was applied to other real estate in such taxing districts for the preceding year, and such other information as may be prescribed by the tax commissioner.
2. On or before the first of June of each year, the tax commissioner shall audit the certifications, make the required corrections, and certify to the state treasurer for

payment to each county, the sum of the amounts computed by multiplying the exemption allowed for each such homestead in the county for the preceding year by the total of the tax mill rates, exclusive of any state mill rates, that was applied to other real estate in such taxing districts for that year.

3. The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute it without delay to the county and to the local taxing districts of the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
4. The tax commissioner shall annually certify to the state treasurer the amount computed by multiplying the exemption allowed for all homesteads in the state for the preceding year by one mill for deposit into the state medical center fund.
5. Supplemental certifications by the county auditor and by the state tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed in this section to make such corrections as may be necessary because of errors or because of approval of any application for abatement filed by a person because the exemption provided for in section 57-02-08.1 was not allowed in whole or in part.

57-02-08.3. Homestead credit for special assessments - Certification - Lien.

1. Any person who has qualified for the property tax credit provided for in section 57-02-08.1 may elect to also qualify for an additional homestead credit against that person's homestead for the portion of any special assessment levied by a taxing district which becomes due for the same year. The total amount of credits allowed for any one property must not exceed six thousand dollars excluding any interest charged by the body levying the special assessment. This credit may be granted only at the election of the qualifying person. The person making the election shall do so by filing with the county auditor a claim for the special assessment credit on a form prescribed by the tax commissioner. The claim must be filed with the county auditor on or before February first of the year in which the special assessment installment thereof becomes payable.
2.
 - a. By March first of each year, the county auditor of each county shall certify to the state tax commissioner, on forms prescribed by the tax commissioner, the following information:
 - (1) The name and address of each person for whom the special assessment credit provided for in subsection 1 was allowed for the preceding year.
 - (2) The amount of credit allowed for the special assessment installment thereof due for the preceding year.
 - (3) The total amount of the special assessment credits due in each special assessment district.
 - (4) Other information that the tax commissioner requires.
 - b. The tax commissioner shall audit the certifications, make such corrections as may be required, and certify to the state treasurer for payment to each county by June first of each year the sum of the amounts computed by adding the credits allowed for portions of special assessments which were due for each homestead in the county for the preceding year. No more than the portion of special assessments due for the preceding year shall be allowed as a credit for any homestead in any year.
 - c. The county treasurer upon receipt of the payment from the state treasurer shall forthwith apportion and distribute the payment to each special assessment district in the county according to the total credits allowed for each respective special assessment district.
 - d. Supplemental certifications by the county auditor and by the state tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed herein to make such corrections as may be necessary because of errors therein.

3. a. Any credit allowed under subsection 1, plus interest in the amount of nine percent per year from June first of the year for which the special assessment installment for which a credit is taken becomes payable, creates a lien in favor of the state against the property upon which the special assessment credit is allowed and remains a lien upon the property from the time the credit is allowed until the lien is fully satisfied by depositing the amount of the lien in the state general fund. If the amount of the lien exceeds the market value of the property, the state may accept the amount of the market value of the property as payment in full on the lien.
- b.
 - (1) Except as otherwise provided in this subdivision, a transfer of title to the homestead because of sale, death, or otherwise may not be made without the lien being satisfied. When a credit under subsection 1 is allowed, the county auditor shall cause a notice of lien of record to be filed against subject property with the recorder.
 - (2) The recorder may not record any deed for property on which the county auditor has determined that there is an unsatisfied lien created under this section, except for a transfer between spouses because of the death of one of them as provided in paragraph 3.
 - (3) When a transfer occurs between spouses because of the death of one of them, the lien allowed by this section need not be satisfied until the property is again transferred.
- c. This lien has precedence over all other liens except general tax liens and prior special assessment liens and shall not be divested at any judicial sale. A mistake in the description of the property covered by this lien or in the name of the owner of the property does not defeat the lien if the property can be identified by the description in the special assessment list.

57-02-08.4. Conditional property tax exemption for owners of wetlands.

Wetlands qualifying under this section are exempt from taxation. To qualify for the tax exemption, the owner of wetlands must annually file with the county director of tax equalization, on a form prescribed by the state tax commissioner, a legal description of the wetlands for which an exemption is claimed and an agreement to not drain, fill, pump, or concentrate water in a smaller and deeper excavation in the wetland basin or alter the physical nature of the wetland in any manner that reduces the wetland's ability to function as a natural system during the year for which the exemption is claimed. To qualify for the exemption the agreement must be filed by June thirtieth of the year for which the exemption is claimed. The exemption is not available for years prior to filing of the agreement or for any year in which the terms of the agreement are violated. The county director of tax equalization shall certify to the county auditor, for each landowner receiving the exemption, the landowner's name, the amount of tax which would have been due on the exempt acreage for the most recent past tax year, and that the landowner has filed the required agreement. The amount of the wetlands exemption must be reflected upon the property tax statement of each eligible taxpayer.

For purposes of this section, "wetlands" means all types 3, 4, and 5 wetlands, as determined by the agriculture commissioner and the director of the game and fish department, in accordance with United States fish and wildlife service circular no. 39 (1971 edition), drainage of which would be feasible and practical.

When wetlands are drained or altered so the land no longer qualifies for the exemption provided by this section, the land is subject to additional taxes which would have been assessed if the property had not qualified for the exemption provided by this section. The taxes which would have been due on the land without the exemption for the ten years preceding the year in which the exemption is terminated must be computed, and the property owner shall pay the difference between this amount and the taxes which were actually paid on the property in addition to taxes currently due. Absence of water on property qualifying for the exemption under this section, caused by drought conditions, does not disqualify the property from the exemption under this section.

The wetlands tax exemption provided by this section does not grant the public any additional or greater right of access to the wetlands or diminish any right of ownership to the

wetlands. The owner of property exempt under this section may use the property in any manner which does not violate the agreement filed with the county director of tax equalization.

No property is exempt under this section unless the tax commissioner has certified to the county auditor of each county by December tenth of the taxable year that funds are available in the state treasury which may be used for payment in full of any state obligations under section 57-02-08.5.

57-02-08.5. Wetlands tax exemption payment - Certification.

Prior to November first of each year, the county auditor of each county shall certify to the state tax commissioner on forms prescribed by the commissioner the total amount of property tax which would have been due on property exempt under section 57-02-08.4 within the county and other information as may be prescribed by the commissioner. The county auditor shall forward to the commissioner copies of all agreements described in section 57-02-08.4 in effect in the county.

The commissioner shall audit the claims for exemption, make corrections as required, and certify to the state treasurer for payment to each county on or before June thirtieth of each year the sum of property taxes due on property exempt under section 57-02-08.4 for the county in the preceding year.

The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute it to the county and local taxing districts on the basis on which the general real estate tax for the preceding year is apportioned and distributed.

Supplemental certifications by the county auditor and the state tax commissioner and supplemental payments by the state treasurer may be made after the date prescribed in this section to make corrections as may be necessary.

No certifications must be made and no apportionment or distribution of payments to political subdivisions may be made under this section unless property was exempt under section 57-02-08.4 in the preceding year.

57-02-08.6. Authorization for receipt of funds.

The state treasurer is authorized to receive funds for this program by legislative appropriation and by gift, grant, devise, or bequest of any money or property from any private or public source. Funds appropriated from any source for this purpose are not subject to section 54-44.1-11 and all income and moneys derived from the investment of the funds must be credited to the fund for this program. The director of the game and fish department, the agriculture commissioner, and the state engineer shall work with the governor, the United States fish and wildlife service, nonprofit conservation organizations, and any other public official or private organization or citizen to develop a source of funding to implement sections 57-02-08.4 and 57-02-08.5.

57-02-08.7. License fee in lieu of property taxes on leases for tourism or concession purposes.

Payment of the license fee as provided in this section by the lessee of any leasehold interest in state-owned property leased from the director of the state historical society or the director of the parks and recreation department is a payment in lieu of all ad valorem taxes on the leasehold interest or any associated building or other improvement if the lessee uses the property, building, or other improvement primarily for tourism or concession purposes. The director of the state historical society or the director of the parks and recreation department shall establish the license fee at an annual amount not less than one dollar and not more than one percent of the gross receipts from the tourism or concession enterprise. The lessee shall pay the license fee to the treasurer of the county in which the tourism or concession enterprise is located and all fees received under this section must be deposited in the county general fund. The lease must indicate that the director of the state historical society or the director of the parks and recreation department approves use of the property primarily for tourism or concession purposes and intends the license fee paid by the lessee to be in lieu of ad valorem taxes.

57-02-08.8. Property tax credit for disabled veterans - Certification - Distribution.

1. A disabled veteran of the United States armed forces with an armed forces service-connected disability of fifty percent or greater or a disabled veteran who has an extra-schedular rating to include individual unemployability that brings the veteran's total disability rating to one hundred percent as determined by the department of veterans' affairs, who was discharged under honorable conditions or who has been retired from the armed forces of the United States, or the unremarried surviving spouse if the disabled veteran is deceased, is eligible for a credit applied against the first six thousand seven hundred fifty dollars of taxable valuation of the homestead owned and occupied by the disabled veteran or unremarried surviving spouse equal to the percentage of the disabled veteran's disability compensation rating for service-connected disabilities as certified by the department of veterans' affairs for the purpose of applying for a property tax credit. An unremarried surviving spouse who is receiving department of veterans' affairs dependency and indemnity compensation receives a one hundred percent credit as described in this subsection.
2. If two disabled veterans are married to each other and living together, their combined credits may not exceed one hundred percent of six thousand seven hundred fifty dollars of taxable valuation of the homestead. If a disabled veteran co-owns the homestead property with someone other than the disabled veteran's spouse, the credit is limited to that disabled veteran's interest in the homestead, to a maximum amount calculated by multiplying six thousand seven hundred fifty dollars of taxable valuation by the disabled veteran's percentage of interest in the homestead property and multiplying the result by the applicant's certified disability percentage.
3. A disabled veteran or unremarried surviving spouse claiming a credit under this section for the first time shall file with the county auditor an affidavit showing the facts herein required, a description of the property, and a certificate from the United States department of veterans' affairs, or its successor, certifying to the amount of the disability. The affidavit and certificate must be open for public inspection. A person shall thereafter furnish to the assessor or other assessment officials, when requested to do so, any information which is believed will support the claim for credit for any subsequent year.
4. For purposes of this section, and except as otherwise provided in this section, "homestead" has the meaning provided in section 47-18-01 except that it also applies to a person who otherwise qualifies under the provisions of this section whether the person is the head of the family.
5. This section does not reduce the liability of a person for special assessments levied upon property.
6. A credit under this section terminates at the end of the taxable year of the death of the applicant.
7. The board of county commissioners may cancel the portion of unpaid taxes that represents the credit calculated in accordance with this section for any year in which the qualifying owner has held title to the homestead property. Cancellation of taxes for any year before enactment of this section must be based on the law that was in effect for that tax year.
8. Before the first of March of each year, the county auditor of each county shall certify to the tax commissioner on forms prescribed by the tax commissioner the name and address of each person for whom the property tax credit for homesteads of disabled veterans was allowed for the preceding year, the amount of credit allowed, the total of the tax mill rates of all taxing districts, exclusive of any state mill rates, that was applied to other real estate in the taxing districts for the preceding year, and such other information as may be prescribed by the tax commissioner.
9. On or before the first of June of each year, the tax commissioner shall audit the certifications, make the required corrections, and certify to the state treasurer for payment to each county the sum of the amounts computed by multiplying the credit allowed for each homestead of a disabled veteran in the county by the total of the tax

mill rates, exclusive of any state mill rates that were applied to other real estate in the taxing districts for the preceding year.

10. The county treasurer upon receipt of the payment from the state treasurer shall apportion and distribute the payment without delay to the county and to the local taxing districts of the county on the basis on which the general real estate tax for the preceding year is apportioned and distributed.
11. On or before the first day of June of each year, the tax commissioner shall certify to the state treasurer the amount computed by multiplying the property tax credit allowed under this section for homesteads of disabled veterans in the state for the preceding year by one mill for deposit in the state medical center fund.
12. Supplemental certifications by the county auditor and by the tax commissioner and supplemental payments by the state treasurer may be made after the dates prescribed in this section to make such corrections as may be necessary because of errors or because of approval of an application for abatement filed by a person because the credit provided for the homestead of a disabled veteran was not allowed in whole or in part.

57-02-09. Basis of exemptions.

The exemptions provided for in section 57-02-08 must be made in each case on the basis of the full cash valuation both of the exemption and of the property upon which such exemption is allowed.

57-02-10. Inundated and highway easement lands exempt from taxation.

The board of county commissioners is authorized and directed to remove from the tax rolls and to declare as exempt from taxation all inundated lands upon which the owner thereof has granted or hereafter shall grant a permanent easement to the United States of America, its instrumentalities, or agencies, for the purpose of constructing, maintaining, and operating water or wildlife conservation projects, and all lands upon which the owner thereof has granted or hereafter shall grant an easement for a highway or road right of way to the United States, its instrumentalities or agencies, or to the state or its political subdivisions, and such lands so removed from the tax rolls shall remain exempt until such time as such water or wildlife conservation projects or highway shall have been abandoned. Such lands shall not be removed from the tax rolls and declared exempt from taxation until such time as the construction of such water or wildlife conservation projects or highway thereon shall have been completed.

57-02-11. Listing of property - Assessment thereof.

Certified assessment officials must list and assess property as follows:

1. All real property subject to taxation must be listed and assessed every year with reference to its value, on February first of that year.
2. An individual property record must be kept by the appropriate assessment official for each parcel of taxable property. The record may be in electronic or paper form and must include identifying information as prescribed by the state supervisor of assessments. Assessors shall prepare the records and provide copies of all property records prepared by the assessor to the county director of tax equalization. The county director of tax equalization shall maintain those records for ten years from the date the records were received from the assessors. A city with an assessor who holds a current certification as a class I assessor under section 57-02-01.1, and which has been determined by the state supervisor of assessments to have enough sales for an adequate sales ratio study, may elect to maintain the records required under this subsection on behalf of the county. A city that makes this election must include these records in a city database of taxable property to be maintained in the office of city assessor for ten years from the assessment date.
3. Whenever after the first day of February and before the first day of April in any year, it is made to appear to the assessor by the oath of the owner that any building, structure, or other improvement, or tangible personal property, which is listed for taxation for the

current year has been destroyed or damaged by fire, flood, tornado, or other natural disaster, the assessor shall investigate the matter and deduct from the valuation of the property of the owner of such destroyed property an amount which in the assessor's judgment fairly represents such deduction as should be made.

57-02-11.1. Townhouses - Common areas - Assessment and taxation.

Townhouse property must be classified and valued as is other property except that the value of the townhouse property must be increased by the value added by the right to use any common areas in connection with the townhouse development. The common areas of the development may not be separately taxed. The value of a common area of the townhouse development must be assessed in an equal amount to each townhouse in the development unless a declaration setting out a different apportionment is recorded in the office of the county recorder. The total value of the townhouse property, including the value added as provided herein, must have the benefit of any homestead credit under section 57-02-08.1 or other special classification if the townhouse otherwise qualifies.

57-02-11.2. Confidentiality of information provided by commercial property owners for assessment purposes.

Unless directed otherwise by judicial order or as otherwise provided by law, records and information provided by the owner or occupant of commercial property with regard to income and expenses of the property in connection with an assessment are confidential. This section does not apply to property of the United States, this state, or a political subdivision of this state or farm buildings or farm residences exempt from property taxes by law.

57-02-14.1. Tax exemption certificate for real property to be filed - Exceptions.

Any person, corporations, limited liability companies, associations, or organizations owning real property located within a municipality which claims that such real property is exempt from assessment and taxation shall file with the assessor and with the county auditor a certificate setting out all facts on which the claim for exemption is based, including the names of owners, the date such property was acquired, the legal description, the use to which the property was put during the twelve months preceding the assessment date, and any other information which the assessor may request. This certificate shall be filed with the assessor and the county auditor each year before the assessment date. If the certificate is not filed as provided herein, the assessor shall regard the property as nonexempt property and shall assess it as such. The provisions of this section shall not apply in any case when the real property is owned by the United States or the state of North Dakota or any of its departments, institutions, agencies, or political subdivisions.

57-02-15. Place of listing personal property.

57-02-26. Certain property taxable to lessee or equitable owner - Exception.

1. Property held under a lease for a term of years, or under a contract for the purchase thereof, belonging to the United States or to the state or a political subdivision thereof, except such lands upon which the state makes payments in lieu of property taxes, or to any religious, scientific, or benevolent society or institution, whether incorporated or unincorporated, or to any railroad corporation whose property is not taxed in the same manner as other property, must be considered, for all purposes of taxation, as the property of the person so holding the same.
2. Property held under an easement or a lease for a term of years and any improvements upon that property which are used for any purpose relating to discovery, exploration, processing, or transportation of oil or gas must be considered the property of the lessee or easement holder. For the purposes of this subsection, "improvements" does not include property subject to the provisions of chapter 57-06 or property subject to the in lieu of ad valorem tax provisions of chapter 57-51.
3. Property owned by the state and held under a lease and any structure, fixture, or improvement located on that property is not taxable to the leaseholder if the structure, fixture, or improvement is used primarily for athletic and educational purposes at any state institution of higher education.

57-02-26.1. Assessment to lessee of personal property owned by a bank.

Repealed by S.L. 1973, ch. 446, § 4.

57-02-27. Property to be valued at a percentage of assessed value - Classification of property - Limitation on valuation of annexed agricultural lands.

All property subject to taxation based on the value thereof must be valued as follows:

1. All residential property to be valued at nine percent of assessed value. If any property is used for both residential and nonresidential purposes, the valuation must be prorated accordingly.
2. All agricultural property to be valued at ten percent of assessed value as determined pursuant to section 57-02-27.2.
3. All commercial property to be valued at ten percent of assessed value.
4. All centrally assessed property to be valued at ten percent of assessed value except as provided in section 57-06-14.1.

The resulting amounts must be known as the taxable valuation. In determining the assessed value of real and personal property, except agricultural property, the assessor may not adopt a lower or different standard of value because the same is to serve as a basis of taxation, nor may the assessor adopt as a criterion of value the price at which said property would sell at auction, or at forced sale, or in the aggregate with all the property in the town or district, but the assessor shall value each article or description by itself, and at such sum or price as the assessor believes the same to be fairly worth in money. In assessing any tract or lot of real property, there must be determined the value of the land, exclusive of improvements, and the value of all taxable improvements and structures thereon, and the aggregate value of the property, including all taxable structures and other improvements, excluding the value of crops growing upon cultivated lands. In valuing any real property upon which there is a coal or other mine, or stone or other quarry, the same must be valued at such a price as such property, including the mine or quarry, would sell for at a fair voluntary sale for cash. Agricultural lands within the

corporate limits of a city which are not platted constitute agricultural property and must be so classified and valued for ad valorem property tax purposes until such lands are put to another use. Agricultural lands, whether within the corporate limits of a city or not, which were platted and assessed as agricultural property prior to March 30, 1981, must be assessed as agricultural property for ad valorem property tax purposes until put to another use. Such valuation must be uniform with the valuation of adjoining unannexed agricultural land.

57-02-27.1. Property to be valued at true and full value.

All assessors and boards of equalization shall place the values of all items of taxable property at the true and full value of the property except as otherwise specifically provided by law, and the amount of taxes that may be levied on such property must be limited as provided in this chapter. For the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04, the term "true and full value" has the same meaning as provided in subsection 15 of section 57-02-01, except that "true and full value" of agricultural lands must be as determined pursuant to section 57-02-27.2.

The governing body of the city or township may establish valuations that recognize the supply of vacant lots available for sale.

57-02-27.2. Valuation and assessment of agricultural lands.

1. "True and full value" of agricultural lands must be their agricultural value for the purposes of sections 57-02-27, 57-02-27.1, 57-02-27.2, and 57-55-04. Agricultural value is defined as the "capitalized average annual gross return", except for inundated agricultural land. The "annual gross return" must be determined from crop share rent, cash rent, or a combination thereof reduced by estimated property taxes and crop marketing expenses incurred by farmland owners renting their lands on a cash or crop share basis.
2. For purposes of this section, "annual gross return" for cropland used for growing crops other than sugar beets and potatoes means thirty percent of annual gross income produced, "annual gross return" for cropland used for growing sugar beets and potatoes means twenty percent of annual gross income produced, and "annual gross return" for land used for grazing farm animals means twenty-five percent of an amount determined by the department of agribusiness and applied economics of North Dakota state university to represent the annual gross income potential of the land based upon the animal unit carrying capacity of the land.
3. The "average annual gross return" for each county must be determined as follows:
 - a. Total the annual gross returns for the ten years immediately preceding the current year for which data is available and discard the highest and lowest annual gross returns of the ten.
 - b. The department of agribusiness and applied economics of North Dakota state university shall establish a base year index of prices paid by farmers using annual statistics on that topic compiled by the national agricultural statistics service for the seven-year period ending in 1995, discarding the highest and lowest years' indexes, and averaging the remaining five years' indexes. The department of agribusiness and applied economics shall gather the national agricultural statistics service annual index of prices paid by farmers for the ten years ending with the most recent year used under subdivision a, discard the highest and lowest years' indexes, average the remaining eight years' indexes, and divide the resulting amount by the base year index of prices paid by farmers. This amount must be divided into the amount determined under subdivision a.
 - c. Divide the figure arrived at in subdivision b by eight.
4. To find the "capitalized average annual gross return", the average annual gross return must be capitalized by a rate that is a ten-year average of the gross agribank mortgage rate of interest for North Dakota. The ten-year average must be computed from the twelve years ending with the most recent year used under subdivision a of subsection 3, discarding the highest and lowest years, and the gross agribank mortgage rate of interest for each year must be determined in the manner provided in

- section 20.2032A-4(e)(1) of the United States treasury department regulations for valuing farm real property for federal estate tax purposes, except that the interest rate may not be adjusted as provided in section 20.2032A-4(e)(2).
5. The department of agribusiness and applied economics of North Dakota state university shall compute annually an estimate of the average agricultural value per acre [.40 hectare] of agricultural lands on a statewide and on a countywide basis; shall compute the average agricultural value per acre [.40 hectare] for cropland, noncropland, and inundated agricultural land for each county; and shall provide the tax commissioner with this information by December first of each year. Fifty percent of the annual gross income from irrigated cropland must be considered additional expense of production and may not be included in computation of the average agricultural value per acre [.40 hectare] for cropland for the county as determined by the department of agribusiness and applied economics. Before January first of each year, the tax commissioner shall provide to each county director of tax equalization these estimates of agricultural value for each county.
 6. For purposes of this section, "inundated agricultural land" means property classified as agricultural property containing a minimum of ten contiguous acres if the value of the inundated land exceeds ten percent of the average agricultural value of noncropland for the county, which is inundated to an extent making it unsuitable for growing crops or grazing farm animals for two consecutive growing seasons or more, and which produced revenue from any source in the most recent prior year which is less than the county average revenue per acre for noncropland calculated by the department of agribusiness and applied economics of North Dakota state university. Application for classification as inundated agricultural land must be made in writing to the township assessor or county director of tax equalization by March thirty-first of each year. Before all or part of a parcel of property may be classified as inundated agricultural land, the board of county commissioners must approve that classification for that property for the taxable year. The agricultural value of inundated agricultural lands for purposes of this section must be determined by the department of agribusiness and applied economics of North Dakota state university to be ten percent of the average agricultural value of noncropland for the county as determined under this section. Valuation of individual parcels of inundated agricultural land may recognize the probability that the property will be suitable for agricultural production as cropland or for grazing farm animals in the future. Determinations made under this subsection may be appealed through the informal equalization process and formal abatement process provided for in this title.
 7. Before February first of each year, the county director of tax equalization in each county shall provide to all assessors within the county an estimate of the average agricultural value of agricultural lands within each assessment district. The estimate must be based upon the average agricultural value for the county adjusted by the relative values of lands within each assessment district compared to the county average. In determining the relative value of lands for each assessment district compared to the county average, the county director of tax equalization shall use soil type and soil classification data from detailed and general soil surveys.
 8. Each local assessor shall determine the relative value of each assessment parcel within the assessor's jurisdiction and shall determine the agricultural value of each assessment parcel by adjusting the agricultural value estimate for the assessment district by the relative value of the parcel. Each parcel must then be assessed according to section 57-02-27. If either a local assessor or a township board of equalization develops an agricultural value for the lands in its assessment district differing substantially from the estimate provided by the county director of tax equalization, written evidence to support the change must be provided to the county director of tax equalization. In determining the relative value of each assessment parcel, the local assessor shall apply the following considerations, which are listed in descending order of significance to the assessment determination:
 - a. Soil type and soil classification data from detailed or general soil surveys.

- b. The schedule of modifiers that must be used to adjust agricultural property assessments within the county as approved by the state supervisor of assessments under subsection 9.
 - c. Actual use of the property for cropland or noncropland purposes by the owner of the parcel.
9. Before February first of each year, the county director of tax equalization in each county shall provide to all assessors of agricultural property within the county a schedule of modifiers that must be used to adjust agricultural property assessments within the county and directions regarding how those modifiers must be applied by assessors. Before the schedule of modifiers is provided to assessors within the county, the county director of tax equalization shall obtain the approval of the state supervisor of assessments for use of the schedule within the county.
10. For any county that has not fully implemented use of soil type and soil classification data from detailed or general soil surveys by February first of any taxable year after 2011, the tax commissioner shall direct the state treasurer to withhold five percent of that county's allocation each quarter from the state aid distribution fund under section 57-39.2-26.1 beginning with the first quarter of 2013, and continuing until the tax commissioner certifies to the state treasurer that that county has fully implemented use of soil type or soil classification data. The amount withheld from the allocation must be deposited into the agricultural land valuation fund. The amount withheld from the allocation must be withheld entirely from the portion of the allocation which may be retained by the county and may not reduce allocations to any political subdivisions within the county.

57-02-28. Basis for computation of tax.

The value of all property subject to a general property tax to be used in the computation of taxes levied thereon is its taxable valuation as computed pursuant to section 57-02-27.

57-02-29. Bond and oath of district assessor.

Every person elected or appointed to the office of assessor in an assessor district consisting of unorganized territory, at or before the time of receiving the assessment books, must be bonded for the faithful discharge of the duties of the office, in the state bonding fund or by a corporate surety company authorized to do business in this state, in the penal sum of one thousand dollars. The assessor shall take and subscribe the oath prescribed for civil officers. Failure to be bonded or to take such oath must be deemed a refusal to serve and creates a vacancy in the office.

57-02-30. Assessor may administer oaths.

The assessor may administer oaths to all persons who are required to swear to any statement or return in connection with the assessment and may examine, under oath, any person whom the assessor may believe to have knowledge of the amount or value of the personal property of any person refusing to list or to verify the list of personal property.

57-02-31. Auditor to furnish books to assessors at meeting.

The county auditor annually shall provide the necessary books and blanks at county expense for each assessment district or township in the county. Every year, the county auditor shall enter in the real property assessment book a complete list of all lands or lots subject to taxation. The list must show the name of the owner, if known, the number of acres [hectares], and the lots and parts of lots or blocks included in each description. On or before the second Wednesday in February of each year, following notice by mail from the county auditor, all the assessors in the county shall meet in the county auditor's office for a conference on their duties as assessors, and the county auditor shall then deliver to each assessor the assessment books

and blanks for each assessor's assessment district. Each assessor must be allowed a sum not to exceed twenty dollars a day, at the discretion of the board of county commissioners, for each day's attendance at the conference and mileage in the amounts provided in section 11-10-15.

57-02-32. Auditor to furnish tax list.

The auditor of each county shall make and transmit to the township clerk of each civil township within such county, on the first day of March of each year, a copy of the tax list of such township for the preceding year showing the owner and description of each piece or parcel of land assessed and the valuation thereof.

57-02-33. Assessor services for unorganized territory.

Any area not within an organized township or city must be assessed by a certified assessor under the supervision and direction of the county director of tax equalization. The county director of tax equalization may serve as an assessor of property under this section. Every individual performing assessor services under this section is entitled to compensation and mileage and travel expenses determined by the board of county commissioners for the time actually and necessarily employed in assessment of property. The compensation and expenses must be paid from the treasury of the county in which the assessed property is located only upon submission of an itemized statement setting forth the actual time spent in the work of the assessor and mileage traveled, approved by the board of county commissioners.

57-02-34. When and how assessment made.

The assessor shall perform the duties required of the office during the twelve-month period prior to April first in the manner provided in this section. The assessor shall determine both the true and full value as defined by law and the assessed value of each tract or lot of real property listed for taxation, and shall enter those values in separate columns, and the true and full value and assessed value of all improvements and structures taxable thereon in separate columns, opposite such description of property, and in another column shall show the total assessed value of the property by adding the totals of the two previous assessed value columns.

57-02-38. Units of real property for assessment.

In all assessment books and tax lists and in all proceedings for the collection of taxes and proceedings founded thereon, unplatted land and undeveloped land platted before March 30, 1981, not situated within the limits of an incorporated city must be described in subdivisions not exceeding quarter sections. Real property in the platted portion of a city or real property platted on or after March 30, 1981, that is located outside any city and is not agricultural property under the conditions set out in subsection 1 of section 57-02-01, must be assessed separately as to each lot. When a building or structure covers two or more contiguous lots or parts of lots owned by the same person the assessment may not be entered separately as to each lot or part of lot, but the tract upon which the building is located must be described and assessed as one parcel. A block which has not been subdivided may be described, assessed, and taxed in a unit of one block. A failure to comply with the provisions of this section does not impair the validity of taxes.

57-02-39. Irregularities of land to be platted into lots if required.

If any tract or lot of land is divided into irregular shapes which can be described only by metes and bounds, or if any addition or subdivision which already has been platted into blocks and lots and subsequently sold into parts of blocks or lots which can be described only by metes and bounds, or if the courses, distances, and sizes of each lot or fractional lot are not given or marked upon the plat so that the precise location of each lot and fractional lot can be ascertained accurately, surveyed, or laid out, the owner of such tract or tracts, upon the request of the county auditor, shall have such land platted or replatted, as the case may be, into lots or blocks according to deeds on record. If such plat cannot be made without an actual survey of the land, the same must be surveyed and platted and the plat thereof recorded. If the owners of any such tract refuse or neglect to cause such plat and survey, when necessary, to be made and recorded within thirty days after such request, the county surveyor, or some other competent surveyor, upon the request of the county auditor, shall make out such plat from the records of the recorder if practicable, but if it cannot be made from such records, then the surveyor shall make the necessary survey and plat thereof, and the county auditor shall have the same recorded, but no such plat may be recorded until approved by the city engineer of the city affected thereby, and if there is no city engineer, then by the county surveyor. A certificate of the approval of such plat must be made by the officer making the same endorsed on the plat or map. Such certificate also must be recorded and forms a part of the record. When such plat has been duly certified and recorded, any description of the property in accordance with the number and description set forth in such plat must be deemed a good and valid description of the lots or parcels of land so described. No such plat or description may bear the name or number which already has been applied to any plat or description previously made and recorded as a part of any such city. When the owner of such land fails to comply with the provisions of this section, the cost of surveying, platting, and recording must be paid by the county, upon allowance by the board of county commissioners, and the amount thereof must be added to the taxes upon such tracts or lots the ensuing year. Such taxes, when collected, must be credited to the county general fund. The surveyor making such survey or plat is entitled to receive for services in making the same the compensation allowed by law for doing other county surveying or platting, and such fees become a legal charge upon such tracts of land.

57-02-41. Attachment of tax lien and prorating taxes as between vendor and purchaser.

All taxes, as between vendor and purchaser, become a lien on real estate on and after the first day of January following the year for which such taxes were levied. If taxable real property is acquired in any year after the assessment date by an owner in whose hands it will be exempt from taxation, the taxes on it for the portion of the year that it was not exempt, computed to the nearest month, constitute a personal charge against the person from whom it was acquired and all of the provisions of law for payment and collection of personal property taxes are applicable to such prorated taxes.

If exempt real property is acquired in any year after the assessment date by an owner in whose hands it is taxable, it must be assessed as omitted property and the taxes on it for that portion of the year that it is not exempt, computed to the nearest month, are subject to all of the provisions for payment and collection that are applicable to taxes for the same year on other real property.

1.
 - a. When any assessor has increased the true and full valuation of any lot or tract of land and improvements to an amount that is an increase of three thousand dollars or more and ten percent or more from the amount of the previous year's assessment, the assessor shall deliver written notice of the amount of increase and the amount of the previous year's assessment to the property owner at the expense of the assessment district for which the assessor is employed. The written notice under this subdivision must be mailed or delivered at the expense of the township, city, or county that made the assessment increase or at the expense of the township, city, or county that was ordered to make the increase by the state board of equalization.
