

CHAPTER 16.1-02 CENTRAL VOTER FILE

16.1-02-01. Permanent central voter file.

A permanent, centralized electronic database of voters, to be known as the central voter file, is established with the offices of the secretary of state and county auditors linked together by a centralized statewide system. The county auditor is chief custodian of the central voter file records in each county. The secretary of state shall maintain the central voter file and provide training and documentation that users who have been granted access to the system shall follow. The central voter file must be accessible by the secretary of state and all county auditors for purposes of preventing and determining voter fraud, making changes and updates, and generating information, including pollbooks, reports, inquiries, forms, and voter lists.

16.1-02-02. Costs of creating and maintaining a central voter file.

The offices required to perform the functions and duties of this chapter shall bear the costs incurred in performing those duties, and the secretary of state shall pay the costs of operating and maintaining the central voter file. As used in this section, costs of maintaining the central voter file mean costs of annual software licenses, costs for software hosting, costs of necessary enhancements to the software, database updates, and the costs for implementing the duties and responsibilities of the secretary of state's office relating to the central voter file.

16.1-02-03. Secretary of state to establish the central voter file with department of transportation and county auditors.

1. Not later than the primary election in 2008, the secretary of state shall establish the central voter file in cooperation with the department of transportation and county auditors.
2. The secretary of state shall establish the initial central voter file from records maintained by the department of transportation. Each county auditor shall compare the initial central voter file against all precinct pollbooks used in the auditor's county during and created from the general elections in the two previous election years and any reasonably reliable updates made by the county auditor since the general elections in the two previous election years. Any individual contained in the initial central voter file who voted at either of the general elections in the two previous election years must be designated as "active" in the initial central voter file. Any individual contained in the initial central voter file who did not vote at either of the general elections in the two previous election years must be designated as "inactive" in the initial central voter file.
3. Each individual contained in the initial central voter file must be assigned a unique identifier. An individual's unique identifier must be randomly generated and assigned to the individual.
4. When establishing the initial central voter file from the records maintained by the department of transportation and the pollbooks from the general elections in the two previous election years, the secretary of state and county auditors shall attempt to correct address errors and misspellings of names.

16.1-02-04. Precinct boundaries changed - Change to the central voter file.

When the boundaries of a precinct are changed, the county auditor shall immediately update the voter records for that precinct in the central voter file to accurately reflect those changes. The county auditor shall provide to the secretary of state all materials requested for existing precincts or to assist in making or verifying the required changes.

16.1-02-05. Entry of new voters into the central voter file - Query of the central voter file for double voting - Postelection verification.

1. Before the meeting of the county canvassing board following an election, the county auditor shall enter the name and required information of each individual who voted at the last election who is not already contained in the central voter file and update any

required information requested and obtained at the last election for any individual contained in the central voter file.

2. The secretary of state, with the assistance of the county auditors, before the meeting of the state canvassing board, shall query the central voter file to determine if any individual voted more than once during the preceding election. The secretary of state shall immediately notify the county auditor and state's attorney in each affected county for further investigation.
3. Upon return of any nonforwardable mail from an election official, the county auditor shall ascertain the name and address of that individual. If the individual is no longer at the address recorded in the central voter file, the county auditor shall transfer the voter to the correct precinct in the central voter file or notify the county of the voter's new residence so the voter record can be transferred to the correct county. If a notice mailed at least sixty days after the return of the first nonforwardable mail is also returned by the postal service, the county auditor shall designate the individual as "inactive" in the central voter file.

16.1-02-06. Reporting deceased individuals and changes of names - Changes to records in the central voter file.

1. The department of health and human services shall provide for the regular reporting to the secretary of state the name, address, date of birth, and county of residence, if available, of each individual eighteen years of age or older who has died while maintaining residence in this state since the last report.
