

CHAPTER 57-15
TAX LEVIES AND LIMITATIONS

57-15-01. Levy in specific amounts - Exceptions.

With the exception of special assessment taxes and such general taxes as may be definitely fixed by law, all state, county, city, township, school district, and park district taxes must be levied or voted in specific amounts of money.

57-15-01.1. Protection of taxpayers and taxing districts. (Effective for the first two taxable years beginning after December 31, 2016)

Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
2. For purposes of this section:
 - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year;
 - b. "Budget year" means the taxing district's year for which the levy is being determined under this section;
 - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the property exempt by local discretion or charitable status, calculated in the same manner as the taxable property; and
 - d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.
 - b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
 - c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district. For purposes of this subdivision, an expired temporary mill levy increase does not include a school district general fund mill rate exceeding one hundred ten mills which has expired or has not received approval of electors for an extension under subsection 2 of section 57-64-03.
 - d. Reduced by the amount of state aid under chapter 15.1-27, which is determined by multiplying the budget year taxable valuation of the school district by the lesser of the base year mill rate of the school district minus sixty mills or fifty mills, if the base year is a taxable year before 2013.
 - e. Reduced by the base year human services county levy in dollars if the base year is a taxable year before 2017.

4. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
5. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
 - a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
 - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
6. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
7. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

Protection of taxpayers and taxing districts. (Effective for taxable years beginning after December 31, 2018) Each taxing district may levy the lesser of the amount in dollars as certified in the budget of the governing body, or the amount in dollars as allowed in this section, subject to the following:

1. No taxing district may levy more taxes expressed in dollars than the amounts allowed by this section.
2. For purposes of this section:
 - a. "Base year" means the taxing district's taxable year with the highest amount levied in dollars in property taxes of the three taxable years immediately preceding the budget year;
 - b. "Budget year" means the taxing district's year for which the levy is being determined under this section;
 - c. "Calculated mill rate" means the mill rate that results from dividing the base year taxes levied by the sum of the taxable value of the taxable property in the base year plus the taxable value of the property exempt by local discretion or charitable status, calculated in the same manner as the taxable property; and
 - d. "Property exempt by local discretion or charitable status" means property exempted from taxation as new or expanding businesses under chapter 40-57.1; improvements to property under chapter 57-02.2; or buildings belonging to institutions of public charity, new single-family residential or townhouse or condominium property, property used for early childhood services, or pollution abatement improvements under section 57-02-08.
3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:
 - a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.
 - b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or

- charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.
- c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district. For purposes of this subdivision, an expired temporary mill levy increase does not include a school district general fund mill rate exceeding one hundred ten mills which has expired or has not received approval of electors for an extension under subsection 2 of section 57-64-03.
 - d. Reduced by the amount of state aid under chapter 15.1-27, which is determined by multiplying the budget year taxable valuation of the school district by the lesser of the base year mill rate of the school district minus sixty mills or fifty mills, if the base year is a taxable year before 2013.
 - e. Increased by the highest amount received by the taxing district in a taxable year under chapter 50-34.
4. In addition to any other levy limitation factor under this section, a taxing district may increase its levy in dollars to reflect new or increased mill levies authorized by the legislative assembly or authorized by the electors of the taxing district.
 5. Under this section a taxing district may supersede any applicable mill levy limitations otherwise provided by law, or a taxing district may levy up to the mill levy limitations otherwise provided by law without reference to this section, but the provisions of this section do not apply to the following:
 - a. Any irrevocable tax to pay bonded indebtedness levied pursuant to section 16 of article X of the Constitution of North Dakota.
 - b. The one-mill levy for the state medical center authorized by section 10 of article X of the Constitution of North Dakota.
 6. A school district choosing to determine its levy authority under this section may apply subsection 3 only to the amount in dollars levied for general fund purposes under section 57-15-14 or, if the levy in the base year included separate general fund and special fund levies under sections 57-15-14 and 57-15-14.2, the school district may apply subsection 3 to the total amount levied in dollars in the base year for both the general fund and special fund accounts. School district levies under any section other than section 57-15-14 may be made within applicable limitations but those levies are not subject to subsection 3.
 7. Optional levies under this section may be used by any city or county that has adopted a home rule charter unless the provisions of the charter supersede state laws related to property tax levy limitations.

57-15-02. Determination of rate.

The tax rate of all taxes, except taxes the rate of which is fixed by law, must be calculated and fixed by the county auditor within the limitations prescribed by statute. If any municipality levies a greater amount than the prescribed maximum legal rate of levy will produce, the county auditor shall extend only such amount of tax as the prescribed maximum legal rate of levy will produce. The rate must be based and computed on the taxable valuation of taxable property in the municipality or district levying the tax. The rate of all taxes must be calculated by the county auditor in mills, tenths, and hundredths of mills.

57-15-02.1. Property tax levy increase notice and public hearing. (Repealed effective January 1, 2018)

Notwithstanding any other provision of law, a taxing district may not impose a property tax levy in a greater number of mills than the zero increase number of mills, unless the taxing district is in substantial compliance with this section.

1. The governing body shall cause publication of notice in its official newspaper at least seven days before a public hearing on its property tax levy. A public hearing under this section may not be scheduled to begin earlier than six p.m. The notice must have at least one-half inch [1.27 centimeters] white space margin on all four sides and must be at least two columns wide by five inches [12.7 centimeters] high. The heading must be capitalized in boldface type of at least eighteen point stating "IMPORTANT NOTICE

TO (name of taxing district) TAXPAYERS". The proposed percentage increase must be printed in a boldface type size no less than two points less than the heading, while the remaining portion of the advertisement must be printed in a type face size no less than four points less than the heading. The text of the notice must contain:

- a. The date, time, and place of the public hearing.
 - b. A statement that the public hearing will be held to consider increasing the property tax levy by a stated percentage, expressed as a percentage increase exceeding the zero increase number of mills.
 - c. A statement that there will be an opportunity for citizens to present oral or written comments regarding the property tax levy.
 - d. Any other information the taxing district wishes to provide to inform taxpayers.
2. At least seven days before a public hearing on its property tax levy under this section, the governing body shall cause notice of the information required under subsection 1 to be mailed to each property owner who received notice of an assessment increase for the taxable year under section 57-02-53.
 3. If the governing body of the taxing district does not make a final decision on imposing a property tax levy exceeding the zero increase number of mills at the public hearing required by this section, the governing body shall announce at that public hearing the scheduled time and place of the next public meeting at which the governing body will consider final adoption of a property tax levy exceeding the tax district's zero increase number of mills.
 4. For purposes of this section:
 - a. "New growth" means the taxable valuation of any property that was not taxable in the prior year.
 - b. "Property tax levy" means the tax rate, expressed in mills, for all property taxes levied by the taxing district.
 - c. "Taxing district" means a city, county, school district, or city park district but does not include any such taxing district that levied a property tax levy of less than one hundred thousand dollars for the prior year and sets a budget for the current year calling for a property tax levy of less than one hundred thousand dollars.
 - d. "Zero increase number of mills" means the number of mills against the taxing district's current year taxable valuation, excluding consideration of new growth, which will provide the same amount of property tax revenue as the property tax levy in the prior year.
 5. For the taxable year 2013 only, for purposes of determining the zero increase number of mills for a school district, the amount of property tax revenue from the property tax levy in the 2012 taxable year must be recalculated by reducing the 2012 mill rate of the school district by the lesser of:
 - a. Fifty mills; or
 - b. The 2012 general fund mill rate of the school district minus sixty mills.

57-15-02.2. Estimated property tax and budget hearing notice. (Effective for taxable years beginning after December 31, 2017)

1. On or before August tenth of each year the governing body of a taxing district shall provide to the county auditor in each county in which the taxing district has taxable property a preliminary budget statement and the date, time, and location of the taxing district's public hearing on its property tax levy, which may be no earlier than September seventh. A taxing district that fails to provide the information required under this subsection on or before August tenth may not impose a property tax levy in a greater amount of dollars than was imposed by the taxing district in the prior year.
2. By August thirty-first of each year the county treasurer shall provide a written notice to the owner of each parcel of taxable property with a total estimated property tax of at least one hundred dollars. The text of the notice must contain:
 - a. The date, time, and location of the public budget hearing for each of the taxing districts in which the property owner's parcel is located, which anticipate levying

- in excess of one hundred thousand dollars in the current year, and the location at which the taxing district's budget is available for review;
- b. The true and full value of the property based on the best information available;
 - c. A column showing the actual property tax levy in dollars against the parcel by the taxing district that levied taxes against the parcel in the immediately preceding taxable year and a column showing the estimated property tax levy in dollars against the parcel by the taxing district levying tax in the taxable year for which the notice applies based on the preliminary budget statements of all taxing jurisdictions;
 - d. A column indicating the difference between the taxing district's total levy from the previous year and the taxing district's estimated levy with the word "INCREASE" printed in boldface type if the proposed tax levy is larger in dollars than the levy in dollars in the previous year;
 - e. Information identifying the estimated property tax savings that will be provided pursuant to section 57-20-07.1 based on the best information available; and
 - f. A statement that there will be an opportunity for citizens to present oral or written comments regarding each taxing district's property tax levy.
3. Delivery of written notice under this section must be by personal delivery to the property owner, mail addressed to the property owner at the property owner's last-known address, or electronic mail to the property owner directed with verification of receipt to an electronic mail address at which the property owner has consented to receive notice. If a parcel of taxable property is owned by more than one owner, notice must be sent to only one owner of the property. Failure of an owner to receive a notice under this section will not relieve the owner of property tax liability or modify the qualifying date under section 57-20-09 for which an owner may receive a discount for early payment of tax.
 4. The tax commissioner shall prescribe suitable forms for written notices under this section.
 5. The direct cost of providing taxpayer notices under this section may be allocated in a manner proportionate to the number of notices mailed on behalf of each taxing district that intends to levy in excess of one hundred thousand dollars in property taxes in the current year.

A county that levied more than sixty mills for taxable year 2015 for the combined number of mills levied for general fund purposes plus the number of mills levied for other purposes which were combined into the general fund for taxable years after 2014 may levy for general fund purposes for taxable year 2016 the same number of mills that was levied for those purposes for

taxable year 2015. A county may levy for general fund purposes for taxable year 2017 sixty mills plus seventy-five percent of the combined number of mills exceeding sixty that was levied for those purposes for taxable year 2015. The levy authorized by this section may not be increased to a levy of more than one mill under the authority of this section unless approved by a vote of a majority of the qualified electors of the county or city voting on the question. The governing body shall put the issue before the qualified electors either on its own motion or when a petition in writing, signed by qualified electors of the county or city equal in number to at least ten percent of the total vote cast in the county or city for the office of governor of the state at the last general election, is presented to the governing body.

The written report must be received by the state treasurer on or before February first of each year following a year in which the reporting county received grant funds under this subsection. A matching fund grant must be provided from the senior citizen services and programs fund to each eligible county equal to eighty-seven and one-half percent of the amount appropriated in dollars in the county under this section for the taxable year, but the matching fund grant applies only to an amount equal to a levy of up to one mill under this section.

57-15-61. Economic growth districts.

In counties that are part of a joint job development authority, an economic growth district may be established by resolution approved by the board of county commissioners of each county that will be part of the economic growth district. The resolution approved by each board of county commissioners must specify which of the counties in the economic growth district will have the responsibility to administer the economic growth increment pool, unless the boards of county commissioners otherwise agree in writing to different terms and conditions.

1. Upon establishment of an economic growth district, the auditor of each county in the economic growth district shall compute and certify the taxable value of each lot or parcel of commercial property, as defined in section 57-02-01, in that county as most recently assessed and equalized. In each subsequent year, the county auditor of each county in an economic growth district shall compute and certify the amount by which the taxable valuation of all commercial lots and parcels of real property in that county, as most recently assessed and equalized, has increased in comparison with the original taxable value of all commercial lots and parcels. The amount of increase determined is the gross commercial growth of that county. If there is a decrease or no increase in gross commercial growth, the auditor shall certify the gross commercial growth as zero. The auditor shall compute and certify the net commercial growth of the county as thirty percent of the gross commercial growth.
2. The county auditor of each county in an economic growth district shall exclude the net commercial growth determined under subsection 1 from the taxable valuation upon which the auditor computes the mill rates of taxes levied in that year by the state and every political subdivision having power to levy taxes on the property. The auditor shall extend the aggregate mill rate against the net commercial growth as well as the taxable valuation upon which the aggregate mill rate was determined. The amount of taxes received from application of the aggregate mill rate against the net commercial growth is the economic growth increment revenue for that year.
3. The county auditor of each county in an economic growth district shall segregate all economic growth increment revenue in a special fund.
4. The county treasurer shall remit the economic growth increment revenue to the county auditor of the county that administers the economic growth increment pool when the county treasurer distributes collected taxes to the state and to political subdivisions.
5. Before annual certification of county tax levies to the county auditor, the county auditor in the county that administers the economic growth increment pool shall distribute to the county auditors of the other counties in the economic growth district the proportion of the economic growth increment pool which the population of the receiving county bears to the total population of all counties in the economic growth district. Revenue received by a county under this subsection must be deposited in the county general fund.
6. An economic growth district may be dissolved by discontinuation of a joint job development authority or by approval of a resolution by the board of county commissioners of each county in the economic growth district. Upon dissolution of an economic growth district, any funds remaining in the economic growth increment pool must be distributed in accordance with subsection 5.
