

**Simplify** your Communication

The **no-cost physician's mobile app** that helps you save time, money, and improve patient care.

Built from the ground up by and for physicians, all major DocbookMD features are designed to streamline your tasks and improve communication between you and your colleagues.

DocbookMD helps protect you from HIPAA violations and assists in building your network to increase referrals and improve care coordination.

DocbookMD is a secure messaging application for smartphone and tablet devices. Designed by and for physicians, it creates a secure community to share patient information and collaborate with colleagues.

## Search your medical society's **Physician Directory**

DocbookMD partners with medical societies to ensure the most accurate and up-to-date physician directory is always at your fingertips.

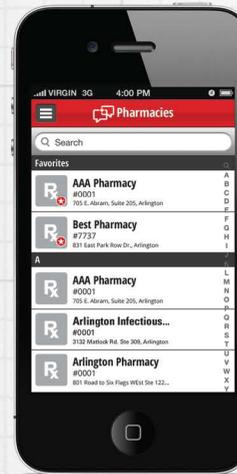

## Send a **Message**

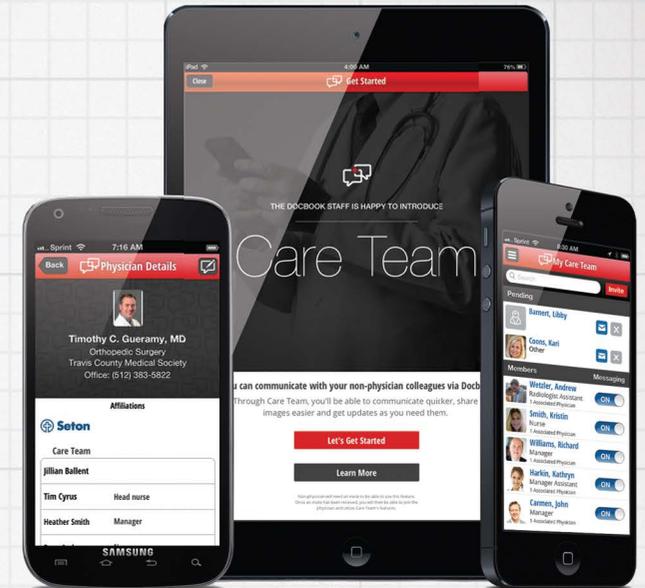

- HIPAA-secure messaging.
- Attach images of X-rays, EKGS, photos of wounds and more.
- Request a priority response.
- Coordinate patient care from anywhere.

## Find a **Pharmacy**

- Easily find contact information for local pharmacies.
- Search by name, address, or zip.
- Find the pharmacy most convenient to you and your patients.

## Involve the Entire **CareTeam**

- Invite nurses, PAs, and other office staff to join DocbookMD.
- The entire care team can send and receive messages, reports, and images.
- Physicians control who is on their team and who can send them messages.

Download **DocbookMD** today. To register:

1. Go to the App Store or Google Play from your mobile device and download DocbookMD.
2. Complete the registration process. If you need your society member ID, please contact your medical society.
