

**MEMORANDUM  
OFFICE OF ATTORNEY GENERAL  
FIRE MARSHAL DIVISION**

**TO:** Senator Gary A. Lee  
Chairman, Budget Section Committee

**Re:** Distribution and Expenditures of ND Insurance Premium Funds to Fire Departments and Rural Fire Protection Districts

**Date:** December 14, 2015

Mr. Chairman, Members of the Budget Section Committee,

I am Ken Sisk, North Dakota State Deputy Fire Marshal. I am here to provide you with an update on ND Century Code Section 18:04:02 that provides the standards and guidance for the distribution of insurance premium dollars to fire departments and fire protection districts throughout the State of North Dakota.

Annually the State Fire Marshal's office certifies or recertifies each of the fire departments, rural fire departments, and fire protection districts within the State of North Dakota. With the changes to Chapter 18:04:02 during the 2013 legislative session which requires reporting on the distribution and expenditures of these funds by this office, a certification packet was mailed to each fire service within the State of North Dakota the later part of August, 2015. Added to this certification packet was a form requesting information on the distribution of insurance premium dollars to be returned to this office with the certification letters by the 31<sup>st</sup> of October as required by statute. The information requested under 18:04:02 was funds received for 2014 and amount spent to date, remaining funds to date, committed funds, purpose of committed funds, and time frame for use of the committed funds to include uncommitted funds still remaining to be spent. To date, this office has received back approximately three hundred twenty (320), approximately eighty-five percent, of the certificates sent out with the expenditure report. Attached for your review is an itemized complete listing of the reports received by this office at this time.

As an overview, three hundred twenty (320) departments have returned completed forms to this office to date totaling over \$6,780,000. The amount spent to date totals over \$5,620,000. Remaining funds of what has been submitted to this office shows the amount of \$1,160,000 yet to be spent. The total amount committed is over \$1,000,000. The purposes of the committed funds varies from the purchasing of new fire trucks, building improvements, building replacement, fire fighters retirement plan, daily operational expenses of the fire department, fire-fighting personal protective gear, and others that are listed on the form for your review. Time frame for use of these committed funds varies from already spent to longer range planning up to about four years. The uncommitted funds, money yet to be spent, the amount is approximately \$160,000. In the overview, it appears that the funds received and expenditures are in line with what is specified under the North Dakota Century Code for allowable expenditure and use of these dollars. Also as seen to date, we have received approximately eighty-five (85) percent of the departments responding back to this office with approximately fifty (50) departments still yet to respond with the reply date of October 31, 2015. According to the North Dakota Insurance Department, the total amount distributed was \$7,268,193.

Mr. Chairman, Members of the Committee, I would be glad to address any specific questions that you may have at this time. Thank you for the opportunity to present this information to you.

Ken Sisk  
North Dakota State Deputy Fire Marshal

## Expenditure of ND Insurance Tax Distribution Funds

Fire Department Data Received As Of December 10, 2015

Funds Distributed 2014 Year End

FIRE DEPARTMENT	FUNDS RECEIVED END OF 2014	AMOUNT SPENT TO DATE	REMAINING FUNDS TO DATE	COMMITTED FUNDS	PURPOSE FOR COMMITTED FUNDS	TIMEFRAME FOR USE OF COMMITTED FUNDS	UNCOMMITTED FUNDS
