

**From:** Leadbetter, Linda  
**Sent:** Tuesday, May 17, 2016 1:14 PM  
**To:** Walstad, John M.  
**Subject:** Natural Gas Pipeline statistics from 2015

John:

The taxable value for natural gas pipelines certified for 2015 was 181,788,653. With an estimated consolidated levy of 280 mills, the property would have generated approximately \$51,000,000.00 in property tax collections.

Attached is a spreadsheet containing the values for each Natural Gas pipeline company assessed in 2015. Please note the yellow highlighted cell indicates NMF (no meaningful figure). This is due to Petro Hunt submitting its line lengths in feet and in miles.

Let me know if you have additional questions and how you would like this information presented next week. I can have someone prepare information from this division if you need it.

*Linda Leadbetter*

\*\*\*\*\* Petro Hunt submitted length of line in a combination of miles and length feet. Verification of length of pipe is needed from the company to determine proper line lengths in miles.
