Process & Outcome Measures

	Process Measures	Outcome Measures
What is it?	Describes what was <i>DONE</i>	Identifies <i>RESULTS</i>
What is an Example?	How many individuals were served or how many individuals completed treatment.	What percentage of individuals experienced improvement in health, home, community, and purpose?
How is it captured?	Questions will be imbedded into the Individual SUD Voucher Application and Prior Authorization and Continued Stay Forms.	Providers will complete a Pre and a Post SUD Voucher Service Data Form found on-line.
Why is this important?	Process Measures will assist with identifying what services were provided across ND and who has accessed the SUD Voucher.	Outcome measures will identify the effectiveness of the services provided under the SUD Voucher.

Ultimately, process and outcome measures will assist with future planning and funding, identify where targeted training and technical assistance is needed, and to provide information to the ND Legislature and Stakeholders
