Data Steward

Jane Hovda, former PowerSchool Manager hired

Data Privacy

Training sessions set at fall conferences for K-12 leaders, keeping online resources current and supporting annual re-authorization/FERPA training for K-12 SLDS users.

EduTech

PowerSchool

Upgrade to Version 10 complete

Active Directory & Office 365

- Tools to assist schools in troubleshooting accounts and changing passwords without HelpDesk are in place
- Additional features in O365 geared for classroom collaboration have been released

EduTech

E-rate

Under Program Integrity Assurance review on state application

Professional Learning

Invited to White House event on the Maker Movement based on our work with ND teachers and classrooms

ND Center for Distance Education

Enrollments

Slight increase compared to last year so far-too early to tell

Observations

- Small school examples
- IT allows for more efficient registration processes and course delivery each year. Adaptive curriculum continues to be put in place to better serve students. Adaptions for students are embedded and automated.
