Colleen Weltz
NIBRS/UCR Program Manager
2016

INTRODUCTION

The North Dakota Incident-Based Reporting (IBR) program involves the collection, compilation, and analysis of crime and arrest statistics reported by the various local law enforcement agencies throughout the state. Fifty-three sheriffs' departments, 54 police departments, 10 Task Forces and the ND Highway Patrol reported to the ND IBR program in 2015.

Every effort is taken to include the homicide offenses that occur on the Tribal Law Enforcement jurisdictions. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the state ND IBR program.

INCIDENT-BASED REPORTING: North Dakota law enforcement agencies use a standard incident form or RMS software to collect data on each incident reported to their respective agencies. Data collected includes: type of incident, where and when the incident took place, victim characteristics, suspect/arrestee characteristics, property involved in the incident, etc.

To allow for comparison among several geographic or jurisdictional areas with differing populations or to allow comparisons across time in an area undergoing population fluctuations, the ND IBR program provides for the calculation of crime rates to remove any potential biases created by population differences. Because a rate relates the incidence of activity to population, it is possible to measure annual fluctuations in criminal activity by comparing rates of crime reported in any given year with those reported in other years. National publications report crime rates calculated based on the number of reported offenses per 100,000 population. This publication provides crime rate information calculated in the same manner.

Trends

The 2015 Crime in North Dakota is based solely upon incident data. Data submitted by ND IBR to the FBI is converted from incident based statistics to the summary system of reporting. In the FBI data, only the most serious of the eight Index crimes are reported. The number of victims is counted in the most serious offenses of homicide, assault, kidnapping or rape. We strongly discourage attempting to compare the ND IBR data to any previously UCR Summary data released by North Dakota or the FBI in the Crime in the United States publications. The data sets are not comparable due to the number of types of crimes reported and that all offenses in the incident are reported in ND IBR.

Differences between ND IBRS and FBI released data

The Crime in North Dakota 2015 is a crime statistic publication using the National Incident-Based Reporting System (NIBRS). There are important factors that must be considered when reading or using this report as well as crime statistic reports available from the FBI or other sources:

1. The data used to compile this report are based on a “snapshot” of the ND state repository database as of June 5, 2016. In NIBRS, there are no ‘fixed’ statistics because law enforcement agencies update their incidents as new information becomes available
2. The data used in this report are based on the NIBRS method of submitting crime statistics. It is more comprehensive and detailed than the Summary Reporting System used in the past so the statistics in NIBRS and Summary Reporting should not be compared.
3. The data displayed in this report should not be compared to the FBI Crime in the US 2015 report which will be published later this year. Even though North Dakota forwards the crime data submitted via NIBRS to the FBI, the FBI converts that data to the Summary Reporting System and the offenses are counted differently.
4. The data displayed per agency in this report should not be used to compare to other agencies or compile “ranking” of cities and counties. There are several variables which contribute to crime in a particular jurisdiction, including the demographics/economics/cultural make-up of the population, the local industrial/economic base, its dependence upon neighboring jurisdictions, the transportation system, its economic dependence on non-residents (such as tourists, shoppers, or other day-time visitors), and its proximity to military installations, correctional facilities, universities/colleges, or state hospitals.

Classification of Offenses

All offenses are classified on the basis of law enforcement investigation in accordance with national NIBRS offense definitions and are not necessarily identical to the NDCC definitions. Because NIBRS identifies and tallies law enforcement contact, offense classifications are not based on filings of the prosecutor, court, medical examiner, jury, or other judicial or subsequent findings.

National Incident-Based Reporting System (NIBRS)

NIBRS divides offenses into two (2) categories of offenses designated as Group A - Incident and Group B -Arrest.

1. The Group A offenses collected in the NIBRS program are: Arson; Assault; Bribery; Burglary; Counterfeiting/Forgery; Destruction/Damage/Vandalism of Property; Drug/Narcotic Offenses; Embezzlement; Extortion/Blackmail; Fraud; Gambling Offenses; Homicide Offenses; Human Trafficking; Kidnapping/Abduction; Larceny/Theft Offenses; Motor Vehicle Theft; Pornography/Obscene Material Offenses; Prostitution Offenses; Robbery; Sex Offenses; Non-Forcible Sex Offenses; Stolen Property Offense and; Weapon Law Violations. Group A offenses include statistical data on the incident, all offenses committed, property involved, weapons involved, victim and offender demographics, arrest information, and clearance status.
2. Group B offenses, for which only arrest data are collected, include: Bad Checks; Curfew/Vagrancy Violations; Disorderly Conduct; Driving Under the Influence; Non-Violent Family Offenses; Liquor Law Violations; Peeping Tom; Trespass of Real Property; and All Other Non-Traffic Offenses.

Counting Offenses

For counting purposes, agencies should count one offense for each victim of a Crimes Against Persons, one offense for each distinct operation of a Crimes Against Property (with the exception of motor vehicle theft, where one offense is counted for each stolen vehicle), and one offense for each Crimes Against Society. All crimes committed within the same incident by the same person or group of persons, without a significant time or space interval separating them, are reported in NIBRS - a hierarchy rule does not exist as it does in Summary Reporting. For example, if a rape case involves crimes of motor vehicle theft and kidnapping, all crimes are reported. However, if a crime is an inherent part of another crime, only one crime may be appropriately reported. For example, larceny is inherent in the crime of burglary and would not be reported as a separate crime in the incident; however, if the suspect, upon leaving the residence, takes items outside the structure, larceny would be reported as a second crime. As another example, assault is an element in robbery and would not be reported as a crime separately from the robbery; however, if the suspect forces the victim to engage in a sexual act, both a robbery and sex offense would be reported because a sexual act is not an element of robbery.

Arrests

In NIBRS, the law enforcement agencies collect detailed data elements related to incidents and arrests. The Group A - Incident Reports are comprised of segments (Administrative, Offense, Property, Victim, Offender, and Arrestee) and within the segments are multiple data elements identifying the incident, such as originating agency identifier (ORI), incident number, date, location, offense, demographics, and other relevant segment categories. Therefore, unlike Summary Reporting, NIBRS arrests and clearances can be submitted as updates to the Group A - Incidents reported.

Clearances

In NIBRS, clearances are based on the incident-level rather than the offense-level. If one offense within an incident is cleared, all offenses in that incident are cleared. Likewise, the arrest of one offender in an incident will clear it even if other offenders have not been arrested yet. Clearances by arrest are automatically created when an Arrest Segment is submitted with a Group A - Incident. An incident cannot be cleared exceptionally if there has been an arrest. Not all crimes are cleared within the calendar year in which the offense occurs.

Clearances by Exceptional Means allow an agency to clear an incident without an arrest. The criteria include: 1) the identity of at least one offender must be known; 2) sufficient probable cause must have been developed to support the arrest and prosecution of the offender; 3) the offender's exact location must be known, and; 4) there must be a reason, outside of law enforcement's control, which prevents the arrest. For example, the death of the offender or the offender is in the custody of another jurisdiction.

NORTH DAKOTA CRIME SUMMARY, 2015

In 2015, 48,288 Group A offenses were reported by local law enforcement agencies. This is an increase of 12.4 percent from the total of 42,968 reported in 2014.

The Census Bureau estimate of North Dakota's population for 2015 is 756,927. The crime rate per 100,000 population for 2015 is 6379.5. The crime rate for 2014 was 5810.6 per 100,000 population. This is a 9.8 percent increase in the crime rate of the Group A offenses.

The total number of reported Crimes Against Persons (e.g. murder, rape, and assaults) was 9,469. This represents an increase of 9.5 percent from the total of 8,645 reported in 2014. In 2013, 8,788 Crimes Against Persons were reported.

Crimes Against Persons offenses comprised 19.6 percent of reported Group A crime offenses in North Dakota in 2015.

Collectively, Crimes Against Property (e.g. burglary, robbery, larceny/theft and motor vehicle theft) increased by 14 percent from 23,712 reported in 2014 to 27,032 reported in 2015.

Crimes Against Property accounted for 56 percent of total Group A crime offenses reported in 2015.

In 2015, the total number of Crimes Against Society (e.g. drug/narcotics violations, drug equipment violations, and weapon violations) reported 11,787. This is an increase of 11.1 percent from 2014 total of 10,611. In 2013, 8,622 Crimes Against Society were reported.

North Dakota law enforcement agencies reported 31,648 arrests in 2015. A total of 30,406 arrests was reported in 2014.

In 2015, juvenile arrests accounted for 12 percent of the total arrests.

The number of reported arrests in 2015 for DUI decreased to 6,229 from 6,705 reported in 2014.

Arrests for Drug/Narcotics Violations increased 9.6 percent from a 2014 total of 4,000 to 4,382 in 2015.

Group A Offenses

Group A offenses includes the crimes of Arson; Assaults; Bribery; Burglary; Counterfeiting/Forgery; Homicide Offenses; Destruction/Damage/Vandalism of Property; Drug/Narcotic Offenses; Embezzlement; Extortion/Blackmail; Fraud; Gambling Offenses; Robbery; Kidnapping/Abduction; Larceny/Theft Offenses; Motor Vehicle Theft; Pornography/Obscene Material Offenses; Human Trafficking Offenses; Prostitution Offenses; Sex Offenses; Non-Forcible Sex Offenses; Stolen Property Offenses and; Weapon Law Violations.

In 2015, 48,288 Group A offenses were reported by local law enforcement agencies. This is an increase of 12.4 percent from the total of 42,968 reported in 2014.

The Census Bureau estimate of North Dakota's population for 2015 is 756,927. Based on that total, the crime rate per 100,000 population for 2015 was 6379.5, as compared to 5810.6 for 2014.

More than 42.5 percent of Group A crime offenses were reported as cleared by arrest or exceptional means. The NIBRS program defines an offense as "cleared" by law enforcement when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. Several crimes may be cleared by the arrest of one person, while the arrests of many persons may clear only one offense. Law enforcement agencies may clear a crime by exceptional means when some element beyond law enforcement control precludes the placing of formal charges against the offender. Examples of circumstances that allow such clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to cooperate with prosecution after the offender has been identified; or the denial of extradition.

In 2015, 14,992 arrests were reported for Group A crime offenses. Of that total, 12.5 percent were arrests of juveniles.

More than \$44.6 million worth of property was reported stolen in 2015, with 33.9 percent of that amount reported as recovered by law enforcement officials.

Group A Offense Summary

Year	Population	Group A Offense Total	% Change in Number from Previous Year	Crime Rate per 100,000 Population	% Change in Rate from Previous Year	Percent Cleared

* More than one category may be chosen for each offense so number will not equal the total offense counts.

Crimes Against Persons

Crimes Against Persons offenses are classified according to victim type which includes the offenses of murder/non-negligent manslaughter, rape, and assaults. For counting purposes, agencies should count one offense for each victim of a Crimes Against Persons (See the NIBRS offense definitions section beginning on page 161 of this publication for definitions of these and other offenses.)

In 2015, 9,469 Crimes Against Persons were reported in North Dakota. This is a 9.5 percent increase from the 2014 total of 8,645 crimes reported. In 2013, 8,788 crimes were reported.

Crimes Against Persons offenses comprised 20 percent of reported Group A crime offenses in North Dakota in 2015.

The Crimes Against Persons crime rate for 2015 is 1251.0 per 100,000, as compared to 1169.1 per 100,000 in 2014. This is a 7 percent increase in the Crimes Against Persons crime rate. In 2013, the Crimes Against Persons crime rate was 1214.8 per 100,000 population.

Over 50 percent of Crimes Against Persons offenses in 2015 were reported as cleared by arrest or exceptional means.

Of the 3,169 total arrests reported for Crimes Against Persons offenses, 13.6 percent were arrests of juveniles.

ARREST ANALYSIS

Arrests in 2015

Although primarily an indication of law enforcement activity, the number of arrests reported does provide a limited profile of the perpetrators of crime, especially for those crimes that have high clearance rates. Differing arrest practices, policies, and enforcement emphasis among agencies influence the volume of arrests for various offenses, particularly those against public order such as vagrancy, disorderly conduct, and related violations. However, arrests for serious crimes, e.g., robbery or burglary, are more likely to be uniform throughout all jurisdictions across the state.

The NIBRS program requires that an arrest be counted for each separate occasion an individual is taken into custody. Although several charges may be lodged against a person at the time of the arrest, only one arrest is counted for each time the person is taken into custody.

North Dakota law enforcement agencies reported 31,648 arrests in 2015. A total of 30,406 arrests was reported in 2014.

In 2015, over 12 percent of total arrests were arrests of juveniles. More than 73 percent of the total was arrests of males.

The total of 9,354 reported arrests for DUI and liquor law violations represents 29.6 percent of the total arrests reported in the state of North Dakota in 2015. Arrests for DUI decreased from 6,705 in 2014 to 6,229 in 2015. Liquor law violation arrests decreased 11.5 percent from 3,531 in 2014 to 3,125 reported in 2015.

More than 74 percent of total arrests were white; over 14 percent were Native American.

These statistics are provided by local law enforcement agencies that contribute to the North Dakota IBR program. No arrest figures for reservations in the state are included in these totals. Tribal law enforcement agencies do not participate in the ND IBR program.

Drug/Narcotics Violation Analysis

Drug/Narcotic Violations offenses increased by 9.6 percent from a total of 5,154 in 2014 to 5,648 in 2015.

More than 52 percent of the drug types for 2015 involved marijuana.

Drug/Narcotic Violations arrests increased by 9.6 percent from a total of 4,000 in 2014 to 4,382 in 2015. The arrest totals shown should not be interpreted as the number of individuals arrested for drug offenses because it is possible that some individuals may have been arrested on more than one occasion for this offense.

Seventy-three percent of drug arrests in 2015 were arrests of males.

Juveniles (persons under the age of 18) comprised 8.5 percent of the total in 2015.

DUI Analysis

Reported DUI arrests decreased 7.1 percent from 6,705 in 2014 to 6,229 in 2015. The arrest totals should not be interpreted as the number of individuals arrested for DUI offenses because it is possible that some individuals may have been arrested on more than one occasion.

Nearly eighty percent of the DUI arrests in 2015 were arrests of males.

Juveniles, persons under the age of 18, made up 0.6 percent of the total in 2015.

DUI Arrests 2010-2015

Year	DUI Arrests Reported	Percent Change from Previous Year
2010	6,070	-.
2011	6,675	10.0%
2012	7,382	10.6
2013	7,117	-3.6
2014	6,705	-5.8
2015	6,229	-7.1
