HB 1250

ND Agricultural Products Utilization Commission

Farm Diversification Grant Application

The North Dakota Agricultural Products Utilization Commission invites farmers/ranchers to apply for a farm diversification grant. Priority is given to projects dealing with the diversification of a family farm to non-traditional crops or to livestock or on-farm value-added processing of agricultural commodities. Traditional crops and livestock are generally defined as those for which the North Dakota Agricultural Statistics Service regularly reports and maintains statistics. The project will usually be judged on traditional/non-traditional grant request guidelines, but does not necessarily have to be a totally new crop, livestock or value-added processing venture. The proposed project must have the potential to create additional income for the farm unit. Sustainability of the new venture is considered.

Already existing diversification enterprises are eligible if the project proposal is to significantly expand or otherwise upgrade the enterprise and if the project has not received prior funding from APUC.

To qualify for a Farm Diversification Grant you must be a current producer (25 head of cattle or more, and/or 100 acres or more and 51% of your total income must come from on farm operation).

- **Proposals must demonstrate a well-prepared plan of action to offer the commission.**
- **Markets for the product must have been researched and possible income must be projected.**
- **New and innovative plans for marketing products must also be evident.**
- **A sound business plan must show potential profits from diversifying.**

Applicants applying for these grants can receive help and must receive a letter of endorsement from one of following agricultural specialists, indicating that they have reviewed the projections in the grant request:

Adult Farm Management Instructors	Agricultural Loan Officers
Agricultural Mediation Service Negotiators	County Agents
Local Economic Developers	RC&D Coordinators

Regional Councils

The Applicant Advisor/Fiscal Agent may charge a 5% fee for help received. Use any of the above-listed individuals; the fee should be included in the proposal budget.

Generally Farm Diversification grants will not exceed \$5,000 per application, plus 5% Fiscal Agent Fee.

Grant funds will be paid in two separate installments.

Grantees will be required to submit a final written report prior to the final disbursement; the results will be made available to other farmers.

Each project will be considered on an individual basis and on its own merits.

Please submit 2 copies of the Farm Diversification application form

The Commission reserves the right to reject any grant application
