Minutes:

Chairman Price: We will open HCR 3038.

Representative Shirley Meyer, District 36: See attached testimony. The elderly can not afford many of the prescription drugs. They often cut them in half or take one every other day, or go into the nursing home. There is a concern with the rising cost of drugs; they are falling into the programs like Medicare.

Linda Wurtz AARP of ND: Many of the elderly can not afford the prescription drugs. We urge your support.

Chairman Price: Anyone else to testify in favor of HCR 3038? Anyone in opposition? If not we will close the hearing on HCR 3038.

Mary K. Monson

Minutes:

Chairman Senator J. Lee opened the hearing on HCR 3038 supporting the efforts to make prescription drugs safer and more affordable.

Senator Heckaman (#23) explained that she was speaking on behalf of Rep. Shirley Meyer who was unable to be present but wanted the committee to have a copy of the original resolution as she had presented and supported it. (Attachment #1)

Linda Johnson Wurtz (AARP) spoke in support of HCR 3038. She pointed out that prescription drug prices continue to increase at nearly twice the rate of inflation in our country. The national priority of AARP is to maintain costs of prescription drugs so they support this resolution.

Senator Dever noted that the initial resolution recognized the democrat members of congress and the second version was to acknowledge the efforts of republicans Poolman, Stenehjem, and Bush. He asked if it would be a further enhancement if it was amended to include the efforts of the legislature that created the prescription section through bipartisan efforts.

Ms. Wurtz said they appreciate the efforts of all of those who try to put conversation forward to contain costs in prescription drugs. Absolutely, all of those people should be recognized.

Senator J. Lee referred to an article she had seen that said the congressional budget office has reported Medicare Part D has cost a lot less than it was originally estimated (meter 03:52). Cal Rolfson (PhRMA) testified in support of HCR 3038. He thought the problem of the issue with the original resolution is that it was clearly intended to be partisan. He understood the amended version is intended to make it show credit where there are others deserving credit. Senator Heckaman had a problem with line 19. When dealing with a resolution that talks about prescription drug safety, she had difficulty connecting that with drug misuse. She asked him if he approved of that line.

Mr. Rolfson replied that he did approve of the language because the illegal use of drugs is probably what helps drive some of the costs of drugs. (Meter 07:00)

Senator J. Lee said that the last paragraph on the first page ought to apply to Rep. Devlin because it was through his efforts that the prescription connection was originally proposed and is administered through the insurance department.

Mr. Rolfson said she was absolutely right.

There was no opposing or neutral testimony.

The hearing on HCR 3038 was closed.

Minutes:

Chairman Senator J. Lee opened HCR 3038.

Senator Heckaman moved a Do Not Pass on HCR 3038.

Senator Erbele seconded the motion.

A short committee discussion indicated that there was dislike for the resolution mixing prescription drugs with drug abuse. Also, it was felt it was more of a thank you note. They couldn't anticipate any good coming as a result of the resolution.

Roll call vote 6-0-0. Motion carried. Carrier is Senator Dever.

2007 TESTIMONY

HCR 3038

Testimony on HCR 3038
Shirley Meyer
District 36, State Representative

Madam Chairman and committee members HCR 3038 wants to reinforce the North Dakota Congressional Delegation's efforts to make prescription drugs more affordable not only to North Dakotans, but to all Americans.

Last year Senator Conrad sponsored an event in Dickinson to discuss elder care issues, and I don't think I realized until that time what a serious impact the high cost of drugs was having on the elderly population in our state. Many stories were relayed concerning the ramification and consequences of the high prescription drug costs.

Doctors were treating people for various diseases and giving them monthly prescriptions. When the diseases or illness would get worse or the prescription drugs would not be as effective as the health professionals had hoped, that's when many of their patients confessed that because of living on a fixed income they were either cutting their pills in half or taking them every other day. This was leading to increased nursing home admissions and emergency mental health services.

We also heard of multiple trips to Canada and the price discrepancy of the exact same medicines. As one elderly lady stated, "Why do you make me travel all the way to Canada when I could purchase the same drug here if you would just lower the cost?" Rising prescription drug costs in the US are having significant impact on our Medicare recipients, state and federal Medicaid expenditures, CHIPS program expenditures, our elderly, and all uninsured individuals and because of this I would encourage you to support the efforts of our North Dakota Congressional Delegation by giving HCR 3038 a "Do Pass" recommendation.
