The legacy fund was created in 2010 when the voters of North Dakota approved a constitutional amendment to provide that 30 percent of oil and gas production and oil extraction taxes on oil and gas produced after June 30, 2011, be transferred to the legacy fund. The principal and earnings of the legacy fund may not be spent until after June 30, 2017, and any expenditure of principal after that date requires a vote of at least two-thirds of the members elected to each house of the Legislative Assembly. Not more than 15 percent of the principal of the fund may be spent during a biennium. Interest earnings accruing after June 30, 2017, are transferred to the general fund at the end of each biennium. The June 30, 2013, balance of the fund was estimated to be \$618.6 million at the end of the Legislative Assembly in 2011. As of July 31, 2012, \$446.2 million of oil and gas tax collections has been deposited in the legacy fund.

AMERICAN COLLEGE TESTING PROGRAM SCORES

The American College Testing (ACT) program scores are designed to predict a student's potential for success in college. Below are average composite scores out of a possible 36 for North Dakota students as well as the average scores for regional states and the nation.

Comparison of Average ACT Scores

¹The 2011 graduating class in North Dakota was the first class required to take either the ACT or WorkKeys assessment in the 11th grade, resulting in an increase in the number of students taking the examination. The regional composite average includes only one other state that requires all students be tested--Wyoming--which has an average composite score of 20.3 in 2012.

²The regional composite is the average composite scores posted by students tested in Iowa, Minnesota, Montana, South Dakota, and Wyoming.

NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS

The national assessment of educational progress (NAEP) is the only nationally representative and continuing assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, and writing. However, because mathematics and reading are the only assessments required every two years by "No Child Left Behind" legislation, North Dakota tests science and writing in alternating years, resulting in four years between test years for science and writing.

Since NAEP assessments are administered uniformly using the same sets of test booklets across the nation, NAEP results serve as a common metric for all states.

Average NAEP Scores - Eighth Grade

¹The region NAEP score is the average of the Iowa, Minnesota, Montana, South Dakota, and Wyoming posted scores.

Average NAEP Scores - Fourth Grade

¹The region NAEP score is the average of the Iowa, Minnesota, Montana, South Dakota, and Wyoming posted scores.
