NOTE: This proposed rules amendment is in response to the following question:

Under Senate Rule 701, what is the vote requirement for confirmation of executive nominations?

Senate Rule 701 is silent on the vote requirement to consent to executive nominations. Senate Rule 318(1)(m) provides for questions to be decided by a majority of the members present if no other vote is required by the constitution or rule.

Article VIII, Section 6, of the Constitution of North Dakota is the only constitutional provision concerning a vote requirement for confirmation of executive nominations, and that provision requires a vote by a majority of the members-elect.

The statutes governing Senate confirmation requirements are silent as to a vote requirement of a majority of members present or members-elect.

The proposed amendment establishes the requirement of a majority of the members-elect. Thus, any ambiguity or distinction of vote requirements among different nominees is eliminated.
