12 1. As used in this section, unless the context otherwise requires:

13 a. (1) "Environmental upgrade" means an investment greater than twenty-five  
14 million dollars or one hundred thousand dollars per megawatt of  
15 installed nameplate capacity, whichever is less, in machinery,  
16 equipment, and related facilities for reducing emissions or increasing  
17 efficiency at an existing power plant.

18 (2) "Environmental upgrade" for purposes of a process unit means an  
19 investment greater than one hundred thousand dollars in machinery,  
20 equipment, and related facilities for reducing emissions, increasing  
21 efficiency, or enhancing reliability of the equipment at a new or existing  
22 process unit.

23 b. "Operator" means any person owning, holding, or leasing a power plant or  
24 process unit.

c. "Power plant" means:

- (1) An electrical generating plant, and all additions to the plant, which processes or converts coal ~~from~~ in its natural form or beneficiated coal into electrical power and which has at least one single electrical energy generation unit with a capacity of fifty thousand kilowatts or more.
- (2) A wind-powered electrical generating facility, on which construction is completed before January 1, 2011, and all additions to the facility, which provides electrical power through wind generation and which has at least one single electrical energy generation unit with a nameplate capacity of one hundred kilowatts or more.
- (3) Any other type of electrical power generating facility excluding the types of power plants identified in paragraphs 1 and 2 which has a capacity of one hundred kilowatts or more and produces electricity for resale or for consumption in a business activity.

d. "Process unit" means an oil refinery or gas processing plant and all adjacent units that are utilized in the processing of crude oil or natural gas.

e. "Production equipment" means machinery and attachment units, other than replacement parts, directly and exclusively used in the generation, transmission, or distribution of electrical energy for sale by a power plant.

f. "Repowering" means an investment of more than two hundred million dollars or one million dollars per megawatt of installed nameplate capacity, whichever is less, in an existing power plant that modifies or replaces the process used for converting coal ~~from~~ in its natural form or beneficiated coal into electrical power.
