This is to inform you that on March 15, 2007, I have signed the following: HB 1061, HB 1094, HB 1137, HB 1140, and HB 1156.

POINT OF PERSONAL PRIVILEGE

REP. KOPPELMAN: Mr. Speaker: I rise on a point of personal privilege.

The West Fargo Packatahnas wrapped up their competitive season in fine style at the UPA Americup Dance Championship at the Minneapolis Convention Center on February 24th and 25th. The team competed in several categories and came home with first place finishes in both Pom and High Kick, and a second place finish in Jazz. The team moved on to win second place in the Grand Champion event, in which the teams with the highest scores in all categories compete for the best overall routine.

UPA was the last competition of the season for the Packatahnas and their final performances were at the North Dakota State Class A Basketball Tournaments at the Fargodome. The team bid farewell to seven very special members at the end of the school year: Seniors Kelly Clark, Elizabeth Erickson, Dani Mehus, Kallista Nilson, Sarah Parkhouse, Jessica Roth, and Kelsey Stroh have helped to bring two national champion titles to North Dakota and numerous state titles to West Fargo.

Congratulations Packatahnas!

Page 1, after line 5, insert:

"SECTION 1. A new chapter to title 49 of the North Dakota Century Code is created and enacted as follows:

Definitions. In this chapter, unless the context otherwise requires:

1. "Commercial wind energy conversion facility" means a wind energy conversion facility of equal to or greater than five hundred kilowatts in total nameplate generating capacity.
2. "Commission" means the public service commission.
3. "Wind turbine" means a wind turbine of equal to or greater than five hundred kilowatts in total nameplate generating capacity.

Jurisdiction of the commission for decommissioning of commercial wind energy conversion facilities. The commission has continuing jurisdiction and authority over all persons and property necessary to enforce this chapter. The commission may:

1. Investigate all methods and practices of commercial wind energy conversion facilities, subject to this chapter.
2. Require the filing and determine the amount of a bond or other assurance, conditioned upon the full compliance with this chapter and the rules and orders of the commission. The commission may accept under the terms and conditions as the commission may prescribe a surety bond, collateral bond, self-bond, escrow account, or any alternative form of security or other financial assurance, or combination thereof, by which an owner or operator assures faithful performance of all requirements of this chapter and the rules and orders of the commission.
3. Regulate the decommissioning of a commercial wind energy conversion system.
4. Adopt and enforce rules and orders to effectuate the purposes and the intent of this chapter.

Decommissioning of commercial wind energy conversion facilities.

1. The owner and operator, at its expense, shall complete decommissioning of the commercial wind energy conversion facility, or individual wind turbines, within twelve months after the end of the useful life of the commercial wind energy conversion facility or individual wind turbines. The commercial wind energy conversion facility or individual wind turbine is presumed to be at the end of its useful life if no electricity is generated for a

continuous period of twelve months unless a plan is developed and submitted to the commission outlining the steps and schedule for returning the turbine to service.

2. Decommissioning of commercial wind energy conversion facilities includes removal of all physical material pertaining to the wind energy conversion facility to a depth of forty-eight inches [1.219 meters] beneath the soil surface and restoration of the disturbed area to substantially the same physical condition that existed immediately before construction.
3. Disturbed earth must be graded and reseeded, unless the landowner requests in writing that the access roads or other land surface areas not be removed and restored to substantially the same physical condition that existed immediately before construction.
4. The commission may require a performance bond to provide for the decommissioning and removal of a commercial wind energy conversion facility. The performance bond may be in the form of a surety bond, collateral bond, self-bond, cash, or any alternative form of security or other financial assurance as prescribed by the commission by rule. The commission shall consider the anticipated life of the project, the estimated decommissioning costs in current dollars, the method and schedule for updating the costs of decommissioning and restoration, the method of ensuring that funds will be available for decommissioning and restoration, and the anticipated manner in which the project will be decommissioned and the site restored when adopting rules that detail the bond requirements and when determining the amount of any required bond.
5. If the commercial wind energy conversion facility owner or operator does not complete decommissioning, the commission may take any action necessary to complete decommissioning, including requiring forfeiture of the bond. The execution of a participating landowner agreement constitutes agreement and consent of the parties to the agreement, their respective heirs, successors, and assigns, that the commission may take such action as may be necessary to implement the decommissioning plan, including the exercise by the commission, commission staff, and contractors of the right of ingress and egress for the purpose of decommissioning the commercial wind energy conversion facility.
6. An easement or lease between a landowner and the owner or operator of a commercial wind energy facility or wind turbine may contain provisions for decommissioning that are more restrictive than this chapter."
