115 SECTION 2. A new subsection to section 39-12-02 of the North Dakota Century Code is created and enacted as follows:

There is created in the state treasury a fund known as the motor carrier electronic permit transaction fund. All money in the fund is appropriated on a continuing basis to the highway patrol to defray the costs of establishing and maintaining an online electronic permit system for permitting and routing oversize and overweight vehicles in this state. The highway patrol may contract with a private entity to establish, operate, and maintain an online electronic permit system. The online electronic permit system includes the issuance of permits under this section and an automated routing system. The automated routing system must include integration of department of transportation traveler information system information, all other data required for the automated routing system, and integration of the highway patrol computer-aided dispatch system.

SECTION 3. A new section to chapter 39-12 of the North Dakota Century Code is created and enacted as follows:

114 Section 39-12-02 was also amended by section 1 of House Bill No. 1254, chapter 283, section 2 of Senate Bill No. 2308, chapter 284, and section 1 of Senate Bill No. 2044, chapter 282.

115 Section 39-12-02 was also amended by section 1 of House Bill No. 1254, chapter 283, section 1 of Senate Bill No. 2308, chapter 284, and section 1 of Senate Bill No. 2044, chapter 282.
The Bank of North Dakota shall extend a line of credit not to exceed two million five hundred sixty thousand dollars to the highway patrol until June 30, 2015, to establish an online electronic permit system. The highway patrol may access this line of credit and shall repay the line of credit with funds in the motor carrier electronic permit transaction fund.

SECTION 4. PROJECT PLANNING AND IMPLEMENTATION. The highway patrol shall involve the information technology department in the study and planning of the motor carrier electronic permit project, for the biennium beginning July 1, 2011, and ending June 30, 2013. The highway patrol shall include representatives of the information technology department on the project team responsible for the study and planning of the project and receive approval from the information technology department prior to proceeding with any study recommendations relating to the project.

AN ACT to create and enact section 39-12-24 of the North Dakota Century Code, relating to cooperative regional permit agreements on excess size or weight vehicles.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. Section 39-12-24 of the North Dakota Century Code is created and enacted as follows:

39-12-24. Authority for cooperative regional permit agreements on excess size or weight vehicles.

1. The superintendent and the director, or the director's designee, may enter cooperative regional permit agreements with any state that has enacted a law authorizing the agreement for the regional operation or movement of nondivisible oversize or overweight vehicles and to facilitate the uniform application, administration, and enforcement of laws concerning nondivisible oversize or overweight vehicles.

2. The agreement may include the establishment of a regional permit system for the operation or movement of nondivisible oversize or overweight vehicles from one state in the region to or through other states in the region under a single-trip permit in accordance with the requirements of any state that is a party to the agreement.

3. The North Dakota highway patrol and the department may enter the agreement with any state that has enacted a law authorizing the agreement to:

   a. Authorize any state to issue regional permits for nondivisible oversize or overweight vehicles to operate on North Dakota state highways. A regional permit issued by any state must conform to North Dakota permit requirements in chapter 39-12, the rules and regulations implementing chapter 39-12, and as required in the agreement;

   b. Issue regional permits for nondivisible oversize or overweight vehicles to operate on highways of any state that has enacted laws authorizing the agreement in accordance with the laws of the state and as required in the agreement; and

   c. Agree to the administration of the agreement by any state that is party to the agreement.

4. The North Dakota highway patrol may enforce the terms of any regional permit concerning the operation of the permitted vehicle on North Dakota state highways according to North Dakota law.
5. The agreement must provide that employees and officials of any state that is party to the agreement who administer or enforce the agreement, or who otherwise act under the terms of the agreement, may not be eligible for compensation, employee rights, or benefits from North Dakota and may not be considered employees or officials of North Dakota.

6. The agreement may provide for uniform procedures and standards for nondivisible oversize and overweight vehicles and regional permits, including enforcement procedures, safety inspection standards, operational standards, permit and application form procedures, and driver qualifications.

7. The North Dakota highway patrol shall deposit all fees it may collect for regional permits on behalf of any state included in the agreement into a fund established as the regional permit fund. All moneys collected by the North Dakota highway patrol as fees for the issue of a regional permit and deposited into the regional permit fund are appropriated on a continuing basis for the purpose of paying each state included in the agreement for each state's respective share of the total fees collected for the regional permit. The North Dakota highway patrol shall deposit all moneys collected on behalf of North Dakota for regional permits issued under this section into the state highway fund in accordance with section 39-12-02.

8. Notwithstanding any provision of this section to the contrary, all North Dakota statutes and rules and regulations prescribing size or weight vehicle requirements, or relating to permits for oversize or overweight vehicles, remain in full force and effect until amended or repealed by law, and the agreement entered under this section must comply with North Dakota statutes and rules and regulations.

CHAPTER 288

SENATE BILL NO. 2113

(Judiciary Committee)
(At the request of the Attorney General)

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 20.1-13.1-01 of the North Dakota Century Code is amended and reenacted as follows:

Any person individual who operates a motorboat or vessel in this state is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test, or tests, of the blood, breath, saliva, or urine for the purpose of determining the alcoholic, other drug alcohol concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, or urine. As used in this chapter, "operates" means to be in motion, en route, but not at anchor or aground; "vessel" means any watercraft used or designed to be used for navigation on the water such as a boat operated by machinery, either permanently or temporarily affixed, a sailboat other than a sailboard, an inflatable manually propelled boat, a canoe, kayak, or rowboat, but does not include an inner tube, air mattress, or other water toy; "drug" means any drug or substance or combination of drugs or substances which renders a person individual incapable of safely operating a motorboat or vessel; and "chemical test" means any test or tests to determine the alcoholic, or other drug alcohol concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, saliva, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the person individual, except person individuals mentioned in section 20.1-13.1-04, under arrest and informing that person individual that the person individual is or will be charged with the offense of operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the person individual charged that refusal of the person individual to submit to the chemical test determined appropriate will result in that person individual being prohibited from operating a motorboat or vessel for up to
three years. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section 20.1-13-07, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter.

SECTION 2. AMENDMENT. Section 20.1-13.1-03 of the North Dakota Century Code is amended and reenacted as follows:

20.1-13.1-03. Persons qualified to administer chemical test and opportunity for additional test.

Only an individual medically qualified to draw blood, acting at the request of a game warden or a law enforcement officer, may withdraw blood for the purpose of determining the alcoholic, drug, or alcohol concentration or presence of other drugs, or combination thereof, in the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood and shall issue a list of approved designations, including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, saliva, or urine specimen. The director of the state crime laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The person tested may have an individual of that person's own choosing, who is medically qualified to draw blood, administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the person charged. The failure or inability to obtain an additional chemical test by a person does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the person who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, or urine, or saliva sample test taken at the direction of the game warden or law enforcement officer must be made available to that person by the department or law enforcement agency that administered the chemical test.

SECTION 3. AMENDMENT. Subsections 2 and 3 of section 20.1-13.1-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If a chemical test administered under section 20.1-13.1-01 or 20.1-13.1-04 was by saliva or urine sample or by drawing blood as provided in section 20.1-13.1-03 and the person tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the director of the state crime laboratory or the director's designee and if the analysis shows that person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the person resides. On that
notification, that game warden or law enforcement agency shall immediately issue a statement of intent to prohibit the person from operating a motorboat or vessel. The issuance of a statement of intent to prohibit the person from operating a motorboat or vessel serves as the director’s official notification to the person of the director’s intent to prohibit the person from operating a motorboat or vessel in this state.

3. The game warden or law enforcement officer, within five days of issuing the statement of intent, shall forward to the director a certified written report in the form required by the director. If the statement was given because of the results of a chemical test, the report must show that the game warden or officer had probable cause to believe the person had been operating a motorboat or vessel while in violation of section 20.1-13-07, that the person was lawfully arrested, that the person was chemically tested under this chapter, and that the results of the test show that the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the game warden or officer.

SECTION 4. AMENDMENT. Subsections 2 and 4 of section 20.1-13.1-08 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns the prohibition from operating a motorboat or vessel for operating a motorboat or vessel while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had probable cause to believe the person had been operating a motorboat or vessel in violation of section 20.1-13-07; whether the person was placed under arrest; whether the person was tested in accordance with section 20.1-13.1-01 or 20.1-13.1-04 and, if applicable, section 20.1-13.1-03; and whether the chemical test results show the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, or urine, or saliva sample from the director of the state crime laboratory or the director’s designee, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the person was informed that that person may be prohibited from operating a motorboat or vessel based on the results of the chemical test is not an issue.

4. At a hearing under this section, the regularly kept records of the director and state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and state crime laboratory: any
a. Any copy of a certified copy of an analytical report of a blood, or urine, or saliva sample received by the director from the director of the state crime laboratory or the director's designee or a game warden or a law enforcement officer, or a certified copy of the checklist and test records received by the director from a certified breath test operator, and any

b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol, other drug concentration or the presence of other drugs, or a combination thereof concentration, received by the director from the director of the state crime laboratory or the director's designee, or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.

SECTION 5. AMENDMENT. Section 20.1-13.1-10 of the North Dakota Century Code is amended and reenacted as follows:

Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any person while operating a motorboat or vessel while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol, concentration or presence of other drugs, or a combination thereof, in the person's blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after operating a motorboat or vessel is under the influence of intoxicating liquor, drugs, or a combination thereof, in the person's blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible.

2. Alcohol concentration is based upon grams of alcohol per one hundred cubic centimeters milliliters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven cubic centimeters milliliters of urine.

3. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the person requested to take the chemical test.

4. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing
motor vehicles 57

equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the persons qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and file electronically a written record of the approval with the director and the recorder in each county, unless the board of county commissioners designates a different official. The state crime laboratory division of the attorney general at the attorney general website, and shall include in the record:

a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.

b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.

c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.

d. The material filed certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has the same force and effect as the records that are supplemented.

e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.

5. Copies of the state crime laboratory certified records referred to in subsections 3 and 4, certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website must be admitted as prima facie evidence of the matters stated in the records.

6. A certified copy of the analytical report of a blood, or urine, or saliva test issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical test performed under this chapter.

7. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the person who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol, concentration or presence of other drugs, or a combination thereof, in the defendant's blood, breath, saliva, or urine at the time of the alleged act.

8. A signed statement from the nurse or medical technician drawing the blood sample for testing as set forth in subsection 3 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of such evidence may be required.
SECTION 6. AMENDMENT. Section 20.1-15-01 of the North Dakota Century Code is amended and reenacted as follows:

Any person who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test of the blood, breath, saliva, or urine for the purpose of determining the alcoholic, drug alcohol concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, or urine. As used in this chapter, "drug" means any drug or substance or combination of drugs or substances which renders a person incapable of safely hunting or being afield with a gun or other firearm or a bow and arrow, and "chemical test" means any test or tests to determine the alcoholic, drug alcohol concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, saliva, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The chemical test must be administered at the direction of a game warden or a law enforcement officer only after placing the person under arrest and informing that person that the person is or will be charged with the offense of being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a minor under section 27-20-13 satisfies the requirement of an arrest. The game warden or law enforcement officer shall also inform the person charged that refusal of the person to submit to the chemical test determined appropriate will result in a revocation for up to four years of the person's hunting privileges. The game warden or law enforcement officer shall determine the chemical test to be used. When a minor is taken into custody for violating section 20.1-01-06, the game warden or law enforcement officer shall diligently attempt to contact the minor's parent or legal guardian to explain the cause for the custody and the implied consent chemical testing requirements. Neither the game warden or law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter.

SECTION 7. AMENDMENT. Section 20.1-15-03 of the North Dakota Century Code is amended and reenacted as follows:

20.1-15-03. Persons qualified to administer chemical test and opportunity for additional test.

Only an individual medically qualified to draw blood, acting at the request of a game warden or a law enforcement officer, may withdraw blood for the purpose of determining the alcoholic, drug alcohol concentration or presence of other drugs, or combination thereof, content of the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood and shall issue a list of approved designations, including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, saliva, or urine specimen. The director of the state crime laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The person tested may have an individual of that person's choosing, who is
medically qualified to draw blood, administer a chemical test in addition to any administered at the direction of a game warden or a law enforcement officer with all costs of the additional chemical test to be the responsibility of the person charged. The failure or inability to obtain an additional chemical test by a person does not preclude the admission of the chemical test taken at the direction of a game warden or a law enforcement officer. Upon the request of the person who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, or urine, or saliva sample test taken at the direction of the game warden or law enforcement officer must be made available to that person by the department or law enforcement agency that administered the chemical test.

SECTION 8. AMENDMENT. Subsections 2 and 3 of section 20.1-15-05 of the North Dakota Century Code are amended and reenacted as follows:

2. If a chemical test administered under section 20.1-15-01 or 20.1-15-04 was by saliva or urine sample or by drawing blood as provided in section 20.1-15-03 and the person tested does not reside in an area in which the game warden or law enforcement officer has jurisdiction, the game warden or law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the director of the state crime laboratory or the director's designee and if the analysis shows that person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the game warden's or officer's jurisdiction or notify a game warden or law enforcement agency having jurisdiction where the person resides. On that notification, that game warden or law enforcement agency shall immediately issue a statement of intent to revoke, suspend, or deny hunting privileges and take possession of the person's hunting license if it is then available and, within twenty-four hours, forward the license to the game warden or law enforcement agency making the arrest or to the director. The issuance of a statement of intent to revoke, suspend, or deny hunting privileges and the taking of possession of the person's hunting license serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny hunting privileges in this state.

3. The game warden or law enforcement officer, within five days of issuing the statement of intent and taking possession of the hunting license, shall forward to the director a certified written report in the form required by the director and the person's hunting license taken under subsection 1 or 2. If the notice was given and the license was taken because of the results of a chemical test, the report must show that the game warden or officer had reasonable grounds to believe the person had been afield with a gun or other firearm or a bow and arrow while in violation of section 20.1-01-06, that the person was lawfully arrested, that the person was chemically tested under this chapter, and that the results of the test show that the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. In addition to the report, the game warden or law enforcement officer shall forward to the director a certified copy of the operational checklist and test records of a breath test and a copy of the certified copy of the analytical report for a blood, saliva, or urine test for all tests administered at the direction of the game warden or officer.
SECTION 9. AMENDMENT. Subsections 2 and 4 of section 20.1-15-08 of the North Dakota Century Code are amended and reenacted as follows:

2. If the issue to be determined by the hearing concerns suspension of hunting privileges for being afield with a gun or other firearm or a bow and arrow while having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting warden or officer had reasonable grounds to believe the person had been afield with a gun or other firearm or bow and arrow in violation of section 20.1-01-06; whether the person was placed under arrest; whether the person was tested in accordance with section 20.1-15-01 or 20.1-15-04 and, if applicable, section 20.1-15-03; and whether the chemical test results show the person had an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, or urine, or saliva sample from the director of the state crime laboratory or the director's designee, or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol, other drug, or a combination thereof concentration shown therein. Whether the person was informed that the privilege to hunt might be suspended based on the results of the chemical test is not an issue.

4. At a hearing under this section, the regularly kept records of the director and the state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and the state crime laboratory: any

   a. Any copy of a certified copy of an analytical report of a blood, or urine, or saliva sample received by the director from the director of the state crime laboratory or the director's designee or a game warden or a law enforcement officer, or a certified copy of the checklist and test records received by the director from a certified breath test operator, and any

   b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol, other drug concentration or the presence of other drugs, or a combination thereof concentration, received by the director from the director of the state crime laboratory or the director's designee, or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.

SECTION 10. AMENDMENT. Section 20.1-15-11 of the North Dakota Century Code is amended and reenacted as follows:

Upon the trial of any action or proceeding arising out of acts alleged to have been committed by any person while being afield with a gun or other firearm or a bow and arrow while under the influence of intoxicating liquor, drugs, or a combination
thereof, evidence of the amount of alcohol, concentration or presence of other drugs, or a combination thereof, in the person’s blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having, at that time, an alcohol, other drug, or a combination thereof concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor, drugs, or a combination thereof.

2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol, other drug, or a combination thereof concentration in a person is relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of intoxicating liquor, drugs, or a combination thereof.

3. A person having an alcohol, other drug, or a combination thereof concentration of at least ten one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after being afield with a gun or other firearm or a bow and arrow is under the influence of intoxicating liquor, drugs, or a combination thereof at the time of being afield with a gun or other firearm or bow and arrow.

4. Alcohol concentration is based upon grams of alcohol per one hundred cubic centimeters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven cubic centimeters of urine.

5. The results of the chemical test must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical tests and determine the qualifications of individuals to conduct such tests, and shall issue a certificate to every qualified operator. An operator shall exhibit the certificate upon demand of the person requested to take the chemical test.

6. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the person qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and electronically post a written record of the approval with the director and the recorder in each county, unless the board of county commissioners designates a different official state crime laboratory division of the attorney general at the attorney general website, and shall include in the record:
a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.

b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.

c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.

d. The material filed certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has the same force and effect as the materials that it supplements.

e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.

7. Copies of the state crime laboratory certified records referred to in subsections 5 and 6, certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website must be admitted as prima facie evidence of the matters stated in the records.

8. A certified copy of the analytical report of a blood, or urine, or saliva test issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical test performed under this chapter.

9. Notwithstanding any statute or rule to the contrary, the defendant in any criminal proceeding may subpoena, without cost to the defendant, the person who conducted the chemical test referred to in this section to testify at the trial on the issue of the amount of alcohol, concentration or presence of other drugs, or a combination thereof in the defendant's blood, breath, saliva, or urine at the time of the alleged act.

10. A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.

SECTION 11. AMENDMENT. Section 20.1-15-15 of the North Dakota Century Code is amended and reenacted as follows:

Any person who is afield with a gun or other firearm or a bow and arrow is deemed to have given consent to submit to an onsite screening test of the person's breath for the purpose of estimating the alcohol, other drug, or a combination thereof content of concentration in the person's blood at the time of the alleged act.

A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.
An individual may not be required to submit to a screening test of breath while at a hospital as a patient if the medical practitioner in immediate charge of the individual's case is not first notified of the proposal to make the requirement or objects to the test on the ground that such would be prejudicial to the proper care or treatment of the patient. The screening test must be performed by a game warden or an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of the screening test must be used only for determining whether a further test is to be given under the provisions of section 20.1-15-01. The officer shall inform the individual that refusal of the individual to submit to a screening test will result in a revocation for up to four years of that individual's hunting privileges. If the individual refuses to submit to the screening test, none may be given, but the refusal is sufficient cause to revoke the individual's hunting privileges in the same manner as provided in section 20.1-15-06, and a hearing as provided in section 20.1-15-08 and a judicial review as provided in section 20.1-15-09 must be available. However, the director may not revoke an individual's hunting privileges for refusing to submit to a screening test requested under this section if the individual provides a sufficient breath, blood, or urine sample for a chemical test requested under section 20.1-15-01 for the same incident. This section does not supersede any provisions of sections 20.1-15-01 through 20.1-15-14, nor does any provision of sections 20.1-15-01 through 20.1-15-14 supersede this section except as provided herein. For the purposes of this section, "chemical test operator" means a person certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol, other drugs, or a combination thereof in a person's blood, breath, saliva, or urine.

SECTION 12. AMENDMENT. Subsection 4 of section 39-06.2-10.6 of the North Dakota Century Code is amended and reenacted as follows:

4. At a hearing under this section, the regularly kept records of the director and the state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and the state crime laboratory:

   a. Any copy of a certified copy of an analytical report of a blood or urine sample received by the director from the director of the state crime laboratory or the director's designee or a law enforcement officer, a certified copy of the checklist and test records received by the director from a certified breath test operator, and any

   b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol concentration received by the director from the director of the state crime laboratory or the director's designee, or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website.

SECTION 13. AMENDMENT. Section 39-20-01 of the North Dakota Century Code is amended and reenacted as follows:
39-20-01. Implied consent to determine alcohol concentration and drug content/presence of blood/drugs.

Any person/individual who operates a motor vehicle on a highway or on public or private areas to which the public has a right of access for vehicular use in this state is deemed to have given consent, and shall consent, subject to the provisions of this chapter, to a chemical test, or tests, of the blood, breath, saliva, or urine for the purpose of determining the alcohol, other drug concentration or presence of other drugs, or combination thereof, content of in the individual's blood, breath, or urine. As used in this chapter, the word "drug" means any drug or substance or combination of drugs or substances which renders a person/individual incapable of safely driving, and the words "chemical test" or "chemical analysis" mean any test to determine the alcohol, or other drug concentration or presence of other drugs, or combination thereof, content of in the individual's blood, breath, saliva, or urine, approved by the director of the state crime laboratory or the director's designee under this chapter. The test or tests must be administered at the direction of a law enforcement officer only after placing the person/individual, except persons/individuals mentioned in section 39-20-03, under arrest and informing that person/individual that the person/individual is or will be charged with the offense of driving or being in actual physical control of a vehicle upon the public highways while under the influence of intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter, the taking into custody of a child under section 27-20-13 or a person/individual under twenty-one years of age satisfies the requirement of an arrest. The law enforcement officer shall also inform the person/individual charged that refusal of the person/individual to submit to the test determined appropriate will result in a revocation for up to four years of the person/individual's driving privileges. The law enforcement officer shall determine which of the tests is to be used. When a person/individual under the age of eighteen years is taken into custody for violating section 39-08-01 or an equivalent ordinance, the law enforcement officer shall attempt to contact the person/individual's parent or legal guardian to explain the cause for the custody. Neither the law enforcement officer's efforts to contact, nor any consultation with, a parent or legal guardian may be permitted to interfere with the administration of chemical testing requirements under this chapter. The law enforcement officer shall mail a notice to the parent or legal guardian of the minor within ten days after the test results are received or within ten days after the minor is taken into custody if the minor refuses to submit to testing. The notice must contain a statement of the test performed and the results of that test; or if the minor refuses to submit to the testing, a statement notifying of that fact. The attempt to contact or the contacting or notification of a parent or legal guardian is not a precondition to the admissibility of chemical test results or the finding of a consent to, or refusal of, chemical testing by the person/individual in custody.

SECTION 14. AMENDMENT. Section 39-20-02 of the North Dakota Century Code is amended and reenacted as follows:

39-20-02. Persons/Individuals qualified to administer test and opportunity for additional test.

Only an individual medically qualified to draw blood, acting at the request of a law enforcement officer, may withdraw blood for the purpose of determining the alcohol-drug concentration or presence of other drugs, or combination thereof, content therein in the individual's blood. The director of the state crime laboratory or the director's designee shall determine the qualifications or credentials for being medically qualified to draw blood, and shall issue a list of approved designations including medical doctor and registered nurse. This limitation does not apply to the taking of a breath, saliva, or urine specimen. The director of the state crime
laboratory, or the director's designee, shall electronically post a copy of the certified list of approved designations, including medical doctor and registered nurse, with the state crime laboratory division of the attorney general at the attorney general website and shall make the certified records required by this section available for download in a printable format on the attorney general website. The person tested may have an individual of the person's choosing, who is medically qualified to draw blood, administer a chemical test or tests in addition to any administered at the direction of a law enforcement officer with all costs of an additional test or tests to be the sole responsibility of the person charged. The failure or inability to obtain an additional test by a person does not preclude the admission of the test or tests taken at the direction of a law enforcement officer. Upon the request of the person who is tested, a copy of the operational checklist and test record of a breath sample test or analytical report of a blood, urine, or saliva sample test taken at the direction of the law enforcement officer must be made available to that person by the law enforcement agency that administered the test or tests.

SECTION 15. AMENDMENT. Subsections 2, 3, and 4 of section 39-20-03.1 of the North Dakota Century Code are amended and reenacted as follows:

2. If a test administered under section 39-20-01 or 39-20-03 was by saliva or urine sample or by drawing blood as provided in section 39-20-02 and the person tested is not a resident of an area in which the law enforcement officer has jurisdiction, the law enforcement officer shall, on receiving the analysis of the saliva, urine, or blood from the director of the state crime laboratory or the director's designee and if the analysis shows that the person had an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, either proceed in accordance with subsection 1 during that person's reappearance within the officer's jurisdiction, proceed in accordance with subsection 3, or notify a law enforcement agency having jurisdiction where the person lives. On that notification, that law enforcement agency shall, within twenty-four hours, forward a copy of the temporary operator's permit to the law enforcement agency making the arrest or to the director. The law enforcement agency shall issue to that person a temporary operator's permit as provided in this section, and shall sign and date the permit as provided in subsection 1.

3. If the test results indicate an alcohol concentration at or above the legal limit, the law enforcement agency making the arrest may mail a temporary operator's permit to the person who submitted to the blood, urine, or saliva test, whether or not the person is a resident of the area in which the law enforcement officer has jurisdiction. The third day after the mailing of the temporary operator's permit is considered the date of issuance. Actual notice of the opportunity for a hearing under this section is deemed to have occurred seventy-two hours after the notice is mailed by regular mail to the address submitted by the person to the law enforcement officer. The temporary operator's permit serves as the director's official notification to the person of the director's intent to revoke, suspend, or deny driving privileges in this state.

4. The law enforcement officer, within five days of the issuance of the temporary operator's permit, shall forward to the director a certified written report in the form required by the director. If the person was issued a temporary operator's permit because of the results of a test, the report must show that the officer had reasonable grounds to believe the person had been
driving or was in actual physical control of a motor vehicle while in violation of
section 39-08-01, or equivalent ordinance, that the person
individual was lawfully arrested, that the person
individual was tested for alcohol concentration under this chapter, and that the results of the test show that the person
individual had an alcohol concentration of at least eight one-hundredths
of one percent by weight or, with respect to a person
individual under twenty-one years of age, an alcohol concentration of at least two
one-hundredths of one percent by weight. In addition to the operator's license
and report, the law enforcement officer shall forward to the director a certified
copy of the operational checklist and test records of a breath test and a copy
of the certified copy of the analytical report for a blood, saliva, or urine test for
all tests administered at the direction of the officer.

SECTION 16. AMENDMENT. Subsections 2 and 3 of section 39-20-03.2 of the
North Dakota Century Code are amended and reenacted as follows:

2. If the test was administered by saliva or urine sample or by drawing blood, the
law enforcement officer, on reviewing the alcohol concentration analysis
showing the person
individual had an alcohol concentration of at least eight
one-hundredths of one percent by weight or, with respect to a person
individual under twenty-one years of age, an alcohol concentration of at least
two one-hundredths of one percent by weight, shall mail or issue to the person
individual a notification of the test results, a temporary operator's permit
extending nonresident operating privileges in this state for twenty-five days
from the date of mailing or issuance or until earlier terminated by the decision
of a hearing officer under section 39-20-05, and notice of the intent to revoke,
suspend, or deny driving privileges in this state, together with the notice
provided under section 39-06.1-07 of the procedures available under this
chapter. The temporary operator's permit must be signed and dated by the
officer. The third day after the mailing of the temporary operator's permit is
considered the date of issuance.

3. The law enforcement officer, within five days of issuing the temporary
operator's permit, shall forward to the director a certified written report in the
form required by the director and a certified copy of the operational checklist
and test records of a breath test and a copy of the certified copy of the
analytical report for a blood, saliva, or urine test for all tests administered at
the direction of the officer. If the person
individual was issued a temporary
operator's permit because of the person's
individual's refusal to submit to a test
under sections 39-20-01 and 39-20-14, the report must include information as
provided in section 39-20-04. If the person
individual was issued a temporary
operator's permit because of the results of a test, the report must show that
the officer had reasonable grounds to believe the person
individual had been
driving or was in actual physical control of a motor vehicle while in violation of
section 39-08-01, or equivalent ordinance, that the person
individual was
lawfully arrested, that the person
individual was tested for alcohol
concentration under this chapter, and that the results of the test show that the
person
individual had an alcohol concentration of at least eight one-hundredths
of one percent by weight or, with respect to a person
individual under
twenty-one years of age, an alcohol concentration of at least two
one-hundredths of one percent by weight.

SECTION 17. AMENDMENT. Subsections 2 and 4 of section 39-20-05 of the
North Dakota Century Code are amended and reenacted as follows:
2. If the issue to be determined by the hearing concerns license suspension for operating a motor vehicle while having an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight, the hearing must be before a hearing officer assigned by the director and at a time and place designated by the director. The hearing must be recorded and its scope may cover only the issues of whether the arresting officer had reasonable grounds to believe the person individual had been driving or was in actual physical control of a vehicle in violation of section 39-08-01 or equivalent ordinance or, with respect to a person individual under twenty-one years of age, the person individual had been driving or was in actual physical control of a vehicle while having an alcohol concentration of at least two one-hundredths of one percent by weight; whether the person individual was placed under arrest, unless the person individual was under twenty-one years of age and the alcohol concentration was less than eight one-hundredths of one percent by weight, then arrest is not required and is not an issue under any provision of this chapter; whether the person individual was tested in accordance with section 39-20-01 or 39-20-03 and, if applicable, section 39-20-02; and whether the test results show the person individual had an alcohol concentration of at least two one-hundredths of one percent by weight or, with respect to a person individual under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight. For purposes of this section, a copy of a certified copy of an analytical report of a blood, or urine, or saliva sample from the director of the state crime laboratory or the director's designee or a certified copy of the checklist and test records from a certified breath test operator establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein. Whether the person individual was informed that the privilege to drive might be suspended based on the results of the test is not an issue.

4. At a hearing under this section, the regularly kept records of the director and state crime laboratory may be introduced. Those records establish prima facie their contents without further foundation. For purposes of this chapter, the following are deemed regularly kept records of the director and state crime laboratory: any

a. Any copy of a certified copy of an analytical report of a blood, or urine, or saliva sample received by the director from the director of the state crime laboratory or the director's designee or a law enforcement officer, or a certified copy of the checklist and test records received by the director from a certified breath test operator establish prima facie the alcohol concentration or the presence of drugs, or a combination thereof, shown therein. Whether the person individual was informed that the privilege to drive might be suspended based on the results of the test is not an issue.

b. Any copy of a certified copy of a certificate of the director of the state crime laboratory or the director's designee relating to approved methods, devices, operators, materials, and checklists used for testing for alcohol concentration or the presence of drugs received by the director from the director of the state crime laboratory, or the director's designee, or the recorder, unless the board of county commissioners has designated a different official to maintain the certificate that are being electronically posted with the state crime laboratory division of the attorney general at the attorney general website.

SECTION 18. AMENDMENT. Section 39-20-07 of the North Dakota Century Code is amended and reenacted as follows:
39-20-07. Interpretation of chemical tests.

Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle while under the influence of intoxicating liquor, drugs, or a combination thereof, evidence of the amount of alcohol concentration or presence of other drugs, or a combination thereof, in the person's blood, breath, or urine at the time of the act alleged as shown by a chemical analysis of the blood, breath, saliva, or urine is admissible. For the purpose of this section:

1. A person having, at that time, an alcohol concentration of not more than five one-hundredths of one percent by weight is presumed not to be under the influence of intoxicating liquor. This presumption has no application to the administration of chapter 39-06.2.

2. Evidence that there was at that time more than five one-hundredths of one percent by weight alcohol concentration in a person is relevant evidence, but it is not to be given prima facie effect in indicating whether the person was under the influence of intoxicating liquor.

3. A person having an alcohol concentration of at least eight one-hundredths of one percent by weight or, with respect to a person under twenty-one years of age, an alcohol concentration of at least two one-hundredths of one percent by weight at the time of the performance of a chemical test within two hours after driving or being in physical control of a vehicle is under the influence of intoxicating liquor at the time of driving or being in physical control of a vehicle.

4. Alcohol concentration is based upon grams of alcohol per one hundred milliliters of blood or grams of alcohol per two hundred ten liters of end expiratory breath or grams of alcohol per sixty-seven milliliters of urine.

5. The results of the chemical analysis must be received in evidence when it is shown that the sample was properly obtained and the test was fairly administered, and if the test is shown to have been performed according to methods and with devices approved by the director of the state crime laboratory or the director's designee, and by an individual possessing a certificate of qualification to administer the test issued by the director of the state crime laboratory or the director's designee. The director of the state crime laboratory or the director's designee is authorized to approve satisfactory devices and methods of chemical analysis and determine the qualifications of individuals to conduct such analysis, and shall issue a certificate to all qualified operators who exhibit the certificate upon demand of the person requested to take the chemical test.

6. The director of the state crime laboratory or the director's designee may appoint, train, certify, and supervise field inspectors of breath testing equipment and its operation, and the inspectors shall report the findings of any inspection to the director of the state crime laboratory or the director's designee for appropriate action. Upon approval of the methods or devices, or both, required to perform the tests and the persons qualified to administer them, the director of the state crime laboratory or the director's designee shall prepare, certify, and file electronically post a written record of the approval with the director and the recorder in each county, unless the board of county commissioners designates a different official.
laboratory division of the attorney general at the attorney general website, and shall include in the record:

a. An annual register of the specific testing devices currently approved, including serial number, location, and the date and results of last inspection.

b. An annual register of currently qualified and certified operators of the devices, stating the date of certification and its expiration.

c. The operational checklist and forms prescribing the methods currently approved by the director of the state crime laboratory or the director's designee in using the devices during the administration of the tests.

d. The material filed certified records electronically posted under this section may be supplemented when the director of the state crime laboratory or the director's designee determines it to be necessary, and any certified supplemental material has the same force and effect as the material that it supplements.

e. The state crime laboratory shall make the certified records required by this section available for download in a printable format on the attorney general website.

7. Copies of the state crime laboratory certified records referred to in subsections 5 and 6, certified by the recorder, or designated official, that have been electronically posted with the state crime laboratory division of the attorney general at the attorney general website must be admitted as prima facie evidence of the matters stated in the records.

8. A certified copy of the analytical report of a blood, urine, or saliva analysis referred to in subsection 5 and which is issued by the director of the state crime laboratory or the director's designee must be accepted as prima facie evidence of the results of a chemical analysis performed under this chapter. The certified copy satisfies the directives of subsection 5.

9. Notwithstanding any statute or rule to the contrary, a defendant who has been found to be indigent by the court in the criminal proceeding at issue may subpoena, without cost to the defendant, the person who conducted the chemical analysis referred to in this section to testify at the trial on the issue of the amount of alcohol, concentration or presence of other drugs, or a combination thereof in the defendant's blood, breath, saliva, or urine at the time of the alleged act. If the state toxicologist, the director of the state crime laboratory, or any employee of either, is subpoenaed to testify by a defendant who is not indigent and the defendant does not call the witness to establish relevant evidence, the court shall order the defendant to pay costs to the witness as provided in section 31-01-16. An indigent defendant may also subpoena the individual who withdrew the defendant's blood by following the same procedure.

10. A signed statement from the individual medically qualified to draw the blood sample for testing as set forth in subsection 5 is prima facie evidence that the blood sample was properly drawn and no further foundation for the admission of this evidence may be required.
SECTION 19. AMENDMENT. Section 39-20-14 of the North Dakota Century Code is amended and reenacted as follows:

Any person who operates a motor vehicle upon the public highways of this state is deemed to have given consent to submit to an onsite screening test or tests of the person's breath for the purpose of estimating the alcohol content of the person's breath upon the request of a law enforcement officer who has reason to believe that the person committed a moving traffic violation or was involved in a traffic accident as a driver, and in conjunction with the violation or the accident the officer has, through the officer's observations, formulated an opinion that the person's body contains alcohol. A person may not be required to submit to a screening test while at a hospital as a patient if the medical practitioner in immediate charge of the person's case is not first notified of the proposal to make the requirement, or objects to the test or tests on the ground that such would be prejudicial to the proper care or treatment of the patient. The screening test or tests must be performed by an enforcement officer certified as a chemical test operator by the director of the state crime laboratory or the director's designee and according to methods and with devices approved by the director of the state crime laboratory or the director's designee. The results of such screening test must be used only for determining whether or not a further test shall be given under the provisions of section 39-20-01. The officer shall inform the person that refusal of the person to submit to a screening test will result in a revocation for up to four years of that person's driving privileges. If such person refuses to submit to such screening test or tests, none may be given, but such refusal is sufficient cause to revoke such person's license or permit to drive in the same manner as provided in section 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as provided in section 39-20-06 must be available. However, the director must not revoke a person's driving privileges for refusing to submit to a screening test requested under this section if the person provides a sufficient breath, blood, or urine sample for a chemical test requested under section 39-20-01 for the same incident. No provisions of this section may supersede any provisions of chapter 39-20, nor may any provision of chapter 39-20 be construed to supersede this section except as provided herein. For the purposes of this section, "chemical test operator" means a person certified by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol in the individual's blood, breath, saliva, or urine.

SECTION 20. AMENDMENT. Section 39-24.1-01 of the North Dakota Century Code is amended and reenacted as follows:

A person who operates a snowmobile on any public land or private land with public access is deemed to have given consent, and shall consent, subject to this chapter, to a chemical test, or tests, of the blood, breath, saliva, or urine for the purpose of determining the alcohol, other drug concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, or urine. As used in this chapter, the definitions in section 39-24-01 apply, and in addition, "chemical test" means any test or tests to determine the alcohol, or other drug concentration or presence of other drugs, or combination thereof, content of the individual's blood, breath, saliva, or urine, approved by the director of the state crime laboratory or the director's designee as qualified to perform analysis for alcohol in the individual's blood, breath, saliva, or urine.
laboratory or the director's designee under this chapter; and "drug" means any drug
or substance or combination of drugs or substances which renders a person
capable of safely operating a snowmobile. The chemical test must be
administered at the direction of a law enforcement officer only after placing the
person under arrest and informing that person that the person is or will be
charged with the offense of operating a snowmobile while under the influence of
intoxicating liquor, drugs, or a combination thereof. For the purposes of this chapter,
the taking into custody of a minor under section 27-20-13 satisfies the requirement of
an arrest. The law enforcement officer shall also inform the person charged
that refusal of the person to submit to the chemical test determined
appropriate will result in that person being prohibited from operating a
snowmobile for up to three years. The law enforcement officer shall determine the
chemical test to be used. When a minor is taken into custody for violating
subsection c of subsection 5 of section 39-24-09, the law enforcement officer shall
diligently attempt to contact the minor's parent or legal guardian to explain the cause
for the custody and the implied consent chemical testing requirements. Neither the
law enforcement officer's efforts to contact, nor any consultation with, a parent or
legal guardian may be permitted to interfere with the administration of chemical
testing requirements under this chapter.

SECTION 21. AMENDMENT. Section 39-24.1-03 of the North Dakota Century
Code is amended and reenacted as follows:

39-24.1-03. Persons qualified to administer chemical test and
opportunity for additional test.

Only an individual medically qualified to draw blood, acting at the request of a law
enforcement officer, may withdraw blood for the purpose of determining the alcohol-
concentration or presence of other drugs, or combination thereof, content of
the individual's blood. The director of the state crime laboratory or the director's
designee shall determine the qualifications or credentials for being medically qualified
to draw blood, and shall issue a list of approved designations including medical doctor
and registered nurse. This limitation does not apply to the taking of a breath, saliva,
or urine specimen. The director of the state crime laboratory, or the director's designee,
shall electronically post a copy of the certified list of approved designations, including
medical doctor and registered nurse, with the state crime laboratory division of the
attorney general at the attorney general website and shall make the certified records
required by this section available for download in a printable format on the attorney
general website. The person tested may have an individual of that person's own choosing, who is medically qualified to draw blood,
administer a chemical test in addition to any administered at the direction of a law
enforcement officer with all costs of the additional chemical test to be the
responsibility of the person charged. The failure or inability to obtain an
additional chemical test by a person does not preclude the admission of
the chemical test taken at the direction of a law enforcement officer. Upon the request
of the person who is tested, a copy of the operational checklist and test
record of a breath sample test or analytical report of a blood, or urine, or saliva
sample test taken at the direction of the law enforcement officer must be made
available to that person by the law enforcement agency that administered the
