The removal of the full-time equivalent position in the administration and support division does not preclude the department of human services from employing a deputy director. The department may use an existing full-time equivalent position for the purpose of a deputy director position.

SECTION 16. LEGISLATIVE INTENT - ELECTRONIC HEALTH RECORDS.

Because the electronic health records system is needed for the state hospital to maintain accreditation, the removal of the funding in the information technology division does not preclude the department of human services from procuring an electronic health records system if the department can initiate the project within its

2013-15 biennium appropriation for the information technology division or field services division.

SECTION 17. APPROPRIATION - DEPARTMENT OF COMMERCE. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of \$100,000, or so much of the sum as may be necessary, and from special funds, derived from private gifts and grants, the sum of \$150,000, or so much of the sum as may be necessary, to the department of commerce for the purpose of funding the activities of the health care consortium under section 18 of this Act, as part of the North Dakota 2020 and beyond initiative, for the biennium beginning July 1, 2013, and ending June 30, 2015. The department of commerce may spend funding from the general fund only to the extent special funds from private gifts and grants are received on a dollar-for-dollar basis.

SECTION 18. HEALTH CARE CONSORTIUM - REPORT TO LEGISLATIVE MANAGEMENT AND GOVERNOR.

1. The governor shall appoint a consortium that includes a broad scope of private sector stakeholders, members of the senate and the house of representatives, and representation from the statewide vision and strategy partnership for a healthier North Dakota and the university of North Dakota school of medicine and health sciences advisory council. The consortium shall receive and review information provided by the statewide vision and strategy partnership for a healthier North Dakota and the university of North Dakota school of medicine and health sciences advisory council, including the second annual report of the council. The consortium shall provide direct input to the legislative management interim committee that conducts the study provided for under House Bill No. 1034, as approved by the sixty-third legislative assembly. The consortium shall focus its efforts on addressing the immediate needs and challenges of the North Dakota health care delivery system, implementing the healthy North Dakota initiative, examining medicaid reform, and developing a plan for a private health care model that will comply with federal health care reform in a manner that will provide high quality, accessible, and affordable care for North Dakota citizens.
2. In developing the model health care system, the health care consortium shall:
 - a. Consider population shifts, facility needs, personnel needs, rural access, regulatory public health functions, and vulnerable populations.
 - b. Determine the scope of the weaknesses in the current health care system and the scope of the model health care system.
 - c. Take into account the ongoing impact that federal health care reform under the federal Affordable Care Act is having on state delivery of health care and on state delivery of medicaid.
 - d. Work to forge partnerships with federal payers and regulators in order to work toward addressing medical reimbursement system reform.
3. The department of commerce shall contract with a consultant to assist the health care consortium in developing a model health care system as required under subsection 2.
4. The health care consortium shall report to the budget section of the legislative management on the status of funding available and anticipated uses of the funding for the consortium during the 2013-14 interim. Before June 1, 2014, the health care consortium shall report to the governor and to the legislative management on the status of the development of the model health care system as well as any recommendations."
