- 23 m. Any combination of entities set forth in subdivisions a through j; or
- 24 n. Any federally designated state peer review organization; or

- 1 o. Any state designated multi-disciplinary peer review entity designated to evaluate
2 controlled substance practices in a referred case.
- 3 2. "Health care provider" means a physician or other ~~person~~individual licensed, certified,
4 or otherwise authorized by the law of this state to provide health care services.
- 5 3. "Peer review organization" means:
6 a. A health care organization; or
7 b. A committee of a health care organization which:
8 (1) Is composed of health care providers, employees, administrators,
9 consultants, agents, or members of the health care organization's governing
10 body; and
11 (2) Conducts professional peer review.
- 12 4. a. "Peer review records" means:
13 (1) Data, information, reports, documents, findings, compilations and
14 summaries, testimony, and any other records generated by, acquired by, or
15 given to a peer review organization as a part of any professional peer
16 review, regardless of when the record was created; and
17 (2) Communications relating to a professional peer review, whether written or
18 oral, between:
19 (a) Peer review organization members;
20 (b) Peer review organization members and the peer review organization's
21 staff; or
22 (c) Peer review organization members and other ~~persons~~individuals
23 participating in a professional peer review, including the
24 ~~person~~individual who is the subject of the professional peer review.
- 25 b. The term does not include original patient source documents.
- 26 5. "Professional peer review" means all procedures a peer review organization uses or
27 functions it performs to monitor, evaluate, and take action to review the medical care
28 provided to patients by health care organizations or health care providers and includes
29 procedures or functions to:
30 a. Evaluate and improve the quality of health care;

Sixty-fifth
Legislative Assembly

- 1 b. Obtain and disseminate data and statistics relative to the treatment and
- 2 prevention of disease, illness, or injury;
- 3 c. Develop and establish guidelines for medical care and the costs of medical care;
- 4 d. Provide to other affiliated or nonaffiliated peer review organizations information
- 5 that is originally generated within the peer review organization for the purposes of
- 6 professional peer review;
- 7 e. Identify or analyze trends in medical error, using among other things a
- 8 standardized incident reporting system; and
- 9 f. Provide quality assurance.
