4 conservation measures recommended in the report is not likely to exceed the amount to be
5 saved in energy and operation costs over a period not exceeding fifteen years from the date of
6 installation if the recommendations in the report are followed. The contract must include a

8 or exceed the costs of the system, a list of subcontractor pricing, the financing costs for the
9 project, and any provider fees. The written guarantee must be for a period equal to the financing

12 less than three years, the governmental unit may request a waiver of the guaranteed portion of
13 the contract for the remainder of the financing term. A guarantee waiver request must be
14 approved by a committee administered by the division of community services. If the contract
