"SECTION 2. AMENDMENT. Section 11-23-01 of the North Dakota Century Code is amended and reenacted as follows:

11-23-01. Officers required to furnish commissioners with departmental budget.

1. Every officer in charge of any institution, office, or undertaking supported wholly or in part by the county shall file with the board of county commissioners a departmental budget that is prescribed by the state auditor. The departmental budget must include an itemized statement of the estimated amount of money that will be required for the maintenance, operation, or improvement of the institution, office, or undertaking for the ensuing year. The board of county commissioners may require additional information to clarify the departmental budget.

2. a. The departmental budget submitted by the county social service board in 20142019 for the 20162020 budget may not exceed an amount determined using the departmental budget submitted in 20142016 by the county social service board as a starting point, subtracting the reduction in the county’s social service funding responsibility for 20142016 derived from transferring the county
social service costs identified in this subdivision from the county social service board to the department of human services, and applying to the resulting amount the percentage salary and benefits increase provided by legislative appropriations for state employees for taxable year 2015. For purposes of this subdivision, the reduction in the county's social service funding responsibility derived from transferring the county social service costs identified in this subdivision from the county social service board to the department of human services includes the following:

1. Foster care and subsidized adoption costs that would have been paid by the county after December 31, 2015;

2. The county's share of grant costs for medical assistance in the form of payments for care furnished to recipients of therapeutic foster care services which would have been paid by the county after December 31, 2015;

3. The county's share of the costs for service payments to the elderly and disabled which would have been paid by the county after December 15, 2015;

4. The county's share of salary and benefits for family preservation services pursuant to section 50-06-05.8 which would have been paid by the county after December 31, 2015;

5. The county's share of the cost of the electronic benefits transfers for the supplemental nutrition assistance program which would have been paid by the county after December 31, 2015; and

6. The computer processing costs which would have been paid by the county after December 31, 2015, which exceed the county's costs of operation of the technical eligibility computer system in calendar year 1995 increased by the increase in the consumer price index for all urban consumers (all items, United States city average) after January 1, 1996.

b. The departmental budget submitted by the county social service board in 2016 for the 2017 budget may not exceed an amount determined using the 2015 departmental budget as a starting point and applying to that amount the percentage salary and benefits increase provided by legislative appropriations for state employees for 2016.

e. The budget must include a statement identifying the total savings to the county as shown by a reduction in the amounts that otherwise would have been paid by the county to the department of human services for the costs identified in subdivision a. The department of human services shall determine the appropriate amount of what each county's costs would have been to help identify each county's total savings.

The county share of the human service budget must be funded entirely from the county's property tax levy for that purpose and the county may not use funds from any other source to supplement the human services budget, with the exception that the county may make use of the identifiable amount of other sources the county has used to supplement its human services budget for 2015 and the county may use grant funds that may be available to the county under section 50-06-20.1.

d-e. The department of human services shall develop a process to review a request from a county social service board for any proposed increase in staff needed as a result of significantly increased
caseloads for state-funded human services programs, if the increase in staff would result in the county exceeding the budget limitation established under this subsection. As part of its review process, the department shall review countywide caseload information and consider the option of multicounty sharing of staff. If the department approves a request for a proposed increase in staff, the county budget limitation established under subdivision b may be increased by the amount determined necessary by the department to fund the approved additional staff.”

"SECTION 5. AMENDMENT. Section 50-06-05.8 of the North Dakota Century Code is amended and reenacted as follows:

50-06-05.8. Department to assume certain costs of certain social service programs.

Notwithstanding section 50-06.2-05, or any other provision in title 50 to the contrary, and in addition to the programs identified in section 50-06-20, the department of human services shall pay the local expenses of administration incurred by a county after December 31, 2019, for family preservation programs; a county’s share of the cost of the electronic benefits transfers for the supplemental nutrition assistance program incurred after December 31, 2019; and the computer processing costs incurred by the county after December 31, 2019, which exceed the county’s costs of operation of the technical eligibility computer system in calendar year 1995 increased by the increase in the consumer price index for all urban consumers (all items, United States city average) after January 1, 1996.

SECTION 6. AMENDMENT. Section 50-06-20.1 of the North Dakota Century Code is amended and reenacted as follows:

50-06-20.1. Human services grant program - Eligible counties - Reports.

1. An eligible county is one that historically has utilized the emergency expenditures process set forth in chapter 50-03 and which is adjacent to or part of an Indian reservation in this state, which contains Indian trust lands within the service area of a federally recognized Indian tribe which are occupied by enrolled members of that tribe, or which includes the state hospital created pursuant to subsection 8 of section 12 of article IX of the Constitution of North Dakota.

2. The grant program established in this section must be implemented through rulemaking under chapter 28-32. The department may adopt emergency rules, without application of the grounds for emergency rulemaking otherwise required under section 28-32-03, to set out the policies and procedures for the disbursement of grants and may not award more than one million nine hundred thousand dollars during the first year of a biennium, and no more than two million dollars during the second year of a biennium. The department shall notify a county of its approved funding no later than September first of each year of the biennium. The department shall issue an annual payment to counties receiving funds under this chapter in January of each year of the biennium.

3. The department shall report to the budget section annually and to the appropriations committees of the sixty-fifth and sixty-seventh legislative assembly and each succeeding legislative assembly on the funding approved under this section."

1. The department of human services shall administer a statewide pilot program for state funding of staffing and administrative costs related to the administration of economic assistance and social service programs.

2. Payments must be distributed to service areas pursuant to the formula in section 50-34-05 with the first formula payment distributions commencing in January 2018.

3. Services areas shall cooperate with the department of human service to adopt administrative and operational cost savings methodologies and determine options for consolidations.

4. The director shall appoint a committee to study the operation of the pilot program and develop a plan for the permanent implementation of the formula established in section 50-34-05.

5. Before November 1, 2018, the department of human services shall report to the legislative management on the status of the pilot program and the development of a plan for permanent implementation of the formula established in section 50-34-05. The implementation plan must include recommendations for caseloads and outcomes for social services, designated child welfare services, and economic assistance; considerations regarding the delivery of county social services to ensure appropriate and adequate levels of service continue; options for efficiencies and aggregation; analysis of the potential reduction in social service offices, organizations, and staff due to consolidations; the timeline for transitioning county social service staff to the department of human services; and considerations for oversight and chain of command within social services and human services. The implementation plan must be submitted to the sixty-sixth legislative assembly as part of the department of human services budget request and identify the estimated biennial cost of the plan.

3. A taxing district may elect to levy the amount levied in dollars in the base year. Any levy under this section must be specifically approved by a resolution approved by the governing body of the taxing district. Before determining the levy limitation under this section, the dollar amount levied in the base year must be:

a. Reduced by an amount equal to the sum determined by application of the base year's calculated mill rate for that taxing district to the final base year taxable valuation of any taxable property and property exempt by local discretion or charitable status which is not included in the taxing district for the budget year but was included in the taxing district for the base year.

b. Increased by an amount equal to the sum determined by the application of the base year's calculated mill rate for that taxing district to the final budget year taxable valuation of any taxable property or property exempt by local discretion or charitable status which was not included in the taxing district for the base year but which is included in the taxing district for the budget year.

c. Reduced to reflect expired temporary mill levy increases authorized by the electors of the taxing district. For purposes of this subdivision, an expired temporary mill levy increase does not include a school district general fund mill rate exceeding one hundred ten mills which has expired or has not received approval of electors for an extension under subsection 2 of section 57-64-03.

d. If the base year is a taxable year before 2013, reduced by the amount of state aid under chapter 15.1-27, which is determined by multiplying the budget year taxable valuation of the school district by the lesser of:
