#### FIRST ENGROSSMENT

Sixty-fifth Legislative Assembly of North Dakota

### **ENGROSSED HOUSE BILL NO. 1390**

Introduced by

Representatives Headland, Blum, Brandenburg, Kading Senators Meyer, Rust, Wanzek

- 1 A BILL for an Act to create and enact a new section to chapter 11-11 and section 61-32-03.2 of
- 2 the North Dakota Century Code, relating to a limitation on county authority and subsurface
- 3 water management on land that qualifies for prevented planting insurance coverage; to amend
- 4 and reenact sections 61-16-07, 61-16-08, and 61-16-09 and subsection 8 of section 61-16.1-09
- 5 of the North Dakota Century Code, relating to water resource district board members and
- 6 subsurface water management projects; and to provide for a legislative management study.

#### 7 BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

- 8 **SECTION 1.** A new section to chapter 11-11 of the North Dakota Century Code is created and enacted as follows:
- 10 <u>Limitation on authority Discharging water.</u>
- 11 Notwithstanding any other provision of law, a county may not require a resident to provide
- 12 <u>thirty days' notice before discharging water from a subsurface outlet into a legal drain.</u>
- 13 **SECTION 2. AMENDMENT.** Section 61-16-07 of the North Dakota Century Code is
- 14 amended and reenacted as follows:
- 15 **61-16-07. Water resource board <u>members</u> Appointment and number.**
- When a water resource district has been created, and the state water commission has filed
- 17 notice with the county auditor of a county where the district or a part thereof is situated, a water
- 18 resource board shallmust be appointed within ninety days, as provided herein. If the district's
- 19 boundaries are confined to one county, the board of county commissioners shall appoint a water
- 20 resource board consisting of three or five managers board members. When a district includes
- 21 two counties, the water resource board shallmust consist of five managers board members,
- 22 three appointed by the board of county commissioners of the county having the larger
- aggregate taxable valuation of property, and two appointed by the board of county
- 24 commissioners of the other county. If a district includes three counties, the water resource board

- shallmust consist of five managersboard members, one appointed by the board of county commissioners having the lowest aggregate taxable valuation of property in the district, and two appointed by the board of county commissioners of each of the other two counties. If a district includes four or six counties, the water resource board shallmust consist of two board members from the county having the largest aggregate taxable valuation of property in the district, and one managerboard member from each of the other counties. If a district includes five or seven counties, the water resource board shallmust consist of one managerboard member from each county. Appointments to the water resource board shallmust be made by the boards of county commissioners of the respective counties.
  - **SECTION 3. AMENDMENT.** Section 61-16-08 of the North Dakota Century Code is amended and reenacted as follows:

## 61-16-08. Eligibility for appointment to board - Term of office - Removal - Filling vacancies - Compensation of managers board members.

- When a water resource district has been created, any resident landowner in the district, except a county commissioner, is eligible, subject to the provisions of this section, for appointment to the water resource board. After June 30, 1985, when the term of office of a district manager has expired, the manager's successor shall hold office for three years from the first day of January next following the date of the successor's appointment. The term of office of a manager does not terminate until the successor in office is appointed and qualified. In case the office of any district manager becomes vacant, the manager appointed to fill the vacancy shall serve the unexpired term of the manager whose office became vacantBefore the start of an individual's term as a water resource board member, the individual shall attend a course on water management, and each board member shall attend a course on water management once every three years during the member's term on the board.
- 2. Each member of a water resource board shall receive the sum of at least seventy-five dollars but not more than one hundred thirty-five dollars per day while performing duties as a member of the board, and an allowance for meals and lodging expenses at the same rate and under the same conditions as provided for state officials and employees. The allowance for travel expenses shall be at the same rate as provided

- by section 11-10-15 and shall be evidenced by a subvoucher or receipt as provided by section 21-05-01.
  - 3. A managerboard member may be removed from the board by the board of county commissioners after it appears to the board of county commissioners by competent evidence, and after a public hearing, if so requested by the managerboard member subject to removal, at which hearing the managerboard member must be apprised of and allowed ample opportunity to repudiate the evidence, that the managerboard member has been guilty of misconduct, malfeasance, crime in office, neglect of duty in office, habitual drunkenness, gross incompetency, nonattendance at board meetings, refusal to carry out duties required by law, or inability to perform the duties of office for reasons of health.

**SECTION 4. AMENDMENT.** Section 61-16-09 of the North Dakota Century Code is amended and reenacted as follows:

# 61-16-09. Oath of office - Organization of water resource board - Appointment of employees - Meetings.

Upon receiving notice of appointment as member of the water resource board, such appointee shall take the oath of office prescribed for civil officers. Such oath shallmust be filed with the secretary of the board. Notice of the appointment of a member or members of a water resource board shallmust be mailed to the state water commission. Such notice shall state the name and post-office address of each appointee and the date of appointment.

A majority of the managers shall constitute board members constitutes a quorum for the transaction of such business as may come before the board, but any number may adjourn a meeting for want of a quorum. The water resource board shall appoint a secretary and treasurer and such other employees as needed for the efficient conduct of the district's business and shall fix their compensation. The offices of secretary and treasurer may be held by the same person. Officers and employees shall hold office at the pleasure of the board.

The board shall provide an office suitable for its use as a meeting place and for conducting the affairs of the district. It shall adopt such rules for transacting the business of the district as it may deem necessary, including the time and place of holding regular meetings of the board. Special meetings may be called by the secretary on order of the chairman of the board or upon written request of two members of the board. Notice of a special meeting shallmust be mailed to

- 1 each member of the board at least five days before any such meeting provided, that a special
- 2 meeting may be held whenever all members of the board are present or consent thereto in
- 3 writing.

- 4 **SECTION 5. AMENDMENT.** Subsection 8 of section 61-16.1-09 of the North Dakota
- 5 Century Code is amended and reenacted as follows:
- 8. Make rules and regulations concerning the management, control, regulation, and conservation of waters and prevent the pollution, contamination, or other misuse of the water resources, streams, or bodies of water included within the district. However, the
- 9 <u>board may not make a rule regarding subsurface water management system permits</u>
- 10 <u>unless expressly required or allowed under this title.</u>
  - **SECTION 6. AMENDMENT.** Section 61-32-03.1 of the North Dakota Century Code is amended and reenacted as follows:
    - 61-32-03.1. Permit to drain subsurface waters required Permit form Penalty.

Installation of an artificial subsurface drainagewater management system comprising eighty acres [32.37 hectares] of land area or more requires a permit. The state engineer shall develop an application form for a permit for subsurface drainage of waterwater management. A person seeking to construct an artificial subsurface drainagewater management system must submit an application to the water resource district within which is found a majority of the land area for consideration and approval. Water resource districts may attach any necessary conditions, except a requirement to locate the project a minimum distance from rural water supply lines beyond an existing easement for the lines, to an approved permit, but may not deny an application unless the water resource district determines, based on technical evidence, the application is of statewide significance or the proposed drainagewater management system will flood or adversely affect lands of downstream landowners within one mile [1.61 kilometers] of the proposed subsurface drainage. Water resource districts must forward copies of all approvedpermits to the state engineerwater management system. For purposes of this section, "technical evidence" means written information regarding the proposed water management system prepared after consideration of the design and physical aspects of the proposed system, and any adverse hydrological effects, including erosion, flood duration, crop loss, and downstream water control device operation impacts, which may occur to land downstream. Water resource districts shall determine if the application proposes drainagesubsurface water management of

1	statewide significance. If so, the application must be referred to the state engineer for
2	consideration and approval, and the state engineer shall make a determination within thirty
3	days. If the state engineer has not approved or denied the permit within thirty days after receipt
4	of the permit application, the application must be deemed approved by the state engineer. The
5	permit applicant shall provide a thirty-day notice to downstream property owners within one mile
6	[1.61 kilometers] of the proposed subsurface drainagewater management system. If an
7	investigation by a water resource district or a downstream landowner within one mile [1.61
8	kilometers] shows that proves, based on technical evidence, the proposed drainagesystem will
9	flood or adversely affect lands of downstream landowners within one mile [1.61 kilometers], the
0	water resource district may require flowage easements the applicant to obtain from the
11	downstream landowners notarized letters approving the system before issuing a permit. If all
2	adversely affected landowners provide the notarized approval letters, the board may waive the
3	thirty-day notice period for the meeting to approve or deny the permit. A landowner may not be
4	required to provide a United States department of agriculture highly erodible land conservation
5	and wetland conservation certification for the investigation. If an artificial subsurface
6	drainagewater management system drains into an assessment drainwater management
7	system, natural watercourse, or pond, slough, or lake, a flowage easementa notarized letter of
8	approval is not required. Flowage easements must be filed for record in the office of the
9	recorder of the county or counties in which the lands are situated. A person that installs an
20	artificial subsurface drainagewater management system without first securing a permit to do so,
21	as provided in this section, is liable for all damage sustained by a person caused by the
22	drainingsystem, and is guilty of an infraction.
23	SECTION 7. LEGISLATIVE MANAGEMENT STUDY - NUTRIENT MANAGEMENT PLAN.
24	During the 2017-18 interim, the legislative management shall consider studying and monitoring
25	the nutrient management plan developed by the state department of health. The legislative
26	management shall report its findings and recommendations, together with any legislation
27	required to implement the recommendations, to the sixty-sixth legislative assembly.
