   b. The placement of the electronic monitoring device is focused only on the area occupied by the resident and not on the area occupied by the resident’s roommate and protects the privacy and dignity of the resident;

   e. All costs, except for electricity, associated with the authorized electronic monitoring device, including installation, operation, removal, repairs, room damage, and maintenance, are paid by the resident or resident representative who initiated the use of the authorized electronic monitoring device;

   g. The notice to the facility of a resident’s or resident representative’s intent to place and use authorized electronic monitoring, as well as the consent of any resident, or that resident’s resident representative, occupying the same room must include a release of liability for the facility for a violation of the resident’s right to privacy and for any potential disclosure of protected health information as defined by title 45, Code of Federal Regulations, part 160, section 103, to the extent the use of the authorized electronic monitoring device is concerned.
2. The facility shall cooperate to accommodate the placement of the authorized electronic monitoring device, unless doing so would place undue burden on the facility.

   a. The resident's or the resident representative's consent may limit the use of an authorized electronic monitoring device, including the time of operation, direction, focus, and use of visual or audio recording or transmission.

4. If a resident or resident representative withdraws consent, the resident or resident representative who initiated the use of the authorized electronic monitoring device shall disable the authorized electronic monitoring device until accommodations can be made.

5. The facility shall make a reasonable attempt to accommodate a resident if a resident or resident representative of a resident who is residing in a shared room wants to have an authorized electronic monitoring device placed in the room and another resident living in the same shared room refuses to consent to the use of the authorized electronic monitoring device. A reasonable attempt to accommodate includes the facility offering to move either resident to another shared room that is available at the time of the request. The facility shall continue to review options of roommates and room sharing.

6. If authorized electronic monitoring is being conducted in the room of a resident, the facility shall make a reasonable attempt to not move another resident into the room.
unless the resident or resident representative has consented to the use of the existing authorized electronic monitoring.
