The board’s investigative panels may:

1. Subpoena witnesses and physician and hospital records relating to the

board.
b. Effective August 1, 2019, the North Dakota medical imaging and radiation therapy board shall issue a fluoroscopy technologist license to every individual qualified under this subsection to be automatically licensed.

2. The scope of practice of a licensed fluoroscopy technologist is limited to gastrointestinal fluoroscopy of the esophagus, stomach, and small and large intestines.

3. Fluoroscopy services provided by a licensed fluoroscopy technologist must be provided under the supervision of a primary supervising physician.

4. If a fluoroscopy technologist performs a fluoroscopy procedure outside the presence of the technologist’s primary supervising physician, the technologist must be supervised by an onsite supervising physician who is immediately available to the technologist for consultation and supervision at all times the technologist is performing a fluoroscopy procedure.

5. Under this section, a supervising physician may not designate the fluoroscopy technologist to take over the physician’s duties or cover the physician’s practice. During an absence or temporary disability of a primary supervising physician, the fluoroscopy technologist is responsible to the substitute primary supervising physician.

6. To qualify for biennial license renewal, a fluoroscopy technologist shall submit to the board with radiography license renewal:
   a. Evidence of completion of at least six hours of continuing education on fluoroscopy safety and relevant radiation protection; and

SENATE AMENDMENTS TO HOUSE CONCURRENT RESOLUTION NO. 3055

Page 1, line 1, after "resolution" replace the remainder of the resolution with "directing the Legislative Management to consider studying the potential uses of legacy fund earnings, including the use of earnings to provide tax relief, provide for reinvestment of legacy fund earnings, fund research and technological advancements, promote economic growth and diversification, and promote workforce development and career and technical education.

WHEREAS, the legacy fund was created with the understanding that oil and gas resources are finite and tax revenues related to oil and gas production eventually will decline; and

WHEREAS, investments in research and technological advancements in energy and agriculture, workforce development and recruitment, career and technical education, and business growth initiatives are key to expanding the state's economic potential; and

WHEREAS, the use of legacy fund earnings to reduce the tax burden on taxpayers and reduce taxpayer liability to fund government services, without creating an expansion of government, could have a positive impact on economic growth; and

WHEREAS, taking a balanced approach to spending and reinvesting legacy fund earnings could lead to growth in the state's economy and growth in the principal of the legacy fund, as evidenced by the operation of Norway's sovereign wealth fund; and

WHEREAS, the people of North Dakota created the legacy fund through a public vote and the public should be allowed to engage in discussion and recommend ideas for policies and directives related to the use of legacy fund earnings, including recommendations to fund unique projects that leave a legacy for future generations; and

"SECTION 10. FARGO FLOOD CONTROL PROJECT DOWNSTREAM IMPACT MITIGATION. The Fargo Moorhead metropolitan flood risk management project operations may not cause a downstream federal emergency management agency accredited flood protection system in North Dakota to lose its accreditation. The metropolitan flood diversion authority shall take reasonable measures to mitigate downstream impacts to accredited flood protection systems, existing as of April 1, 2019, located in North Dakota bordering the Red River resulting from the operations of the Fargo Moorhead diversion. For purposes of this section, negative downstream impacts to accredited flood protection systems are caused when the water surface profile passing through such systems is raised by more than one-tenth of one foot for the one hundred-year event or when the ability of the accredited flood protection system to protect against a two hundred-year or five hundred-year event is compromised. The metropolitan flood diversion authority shall collaborate with the state engineer and accredited flood protection systems in North Dakota to implement this requirement.

The state water commission may select a basinwide plan submitted under this subsection for funding and enter into one cooperative agreement with the water resource districts and joint water resource districts that submitted the plan.

2. The cooperative agreement must include the amount of funding the state water commission will provide, the applicable cost-share requirements, a prohibition on using funds provided under the agreement for planning or any purpose other than implementation of the basinwide plan, and the obligations of the state water commission and each water resource district and joint water resource district in the basin in implementing the basinwide plan. The agreement also must provide for monitoring and oversight of the basinwide plan's implementation.
