11		than the proposed crossing being a serious threat to the safe operations of the railroad	
12		or to the current use of the railroad right of way, or imposes additional requirements on	
13		a utility for crossing its lines, the utility may object to one or more of the requirements.	
14	<u>2.</u>	If a utility objects under subsection 1, the utility shall provide notice of the objection

23		which necessitate additional requirements for the placement of the crossing. The order	
24		may be appealed in accordance with chapter 28-32. The commission shall assess its

26	<u>49-0</u>	49-09.1-09. Operational relocation.	
27	<u>1.</u>	A railroad may require a utility to relocate a facility if the railroad determines relocation	
28		is essential to accommodate railroad operations, and the relocation is not arbitrary or	
29		unreasonable. Before agreeing to the relocation, a utility may require a railroad to	
30		provide a statement and supporting documentation identifying the operational	

1 necessity for requesting the relocation. A utility shall perform the relocation within a 2 reasonable period of time following the agreement. 3 2. The relocation must be to a location mutually agreed upon by the railroad and utility, 4 within the railroad right of way. 5 Relocation is at the expense of the utility. The crossing fee under section 49-09.1-05 3. 6 may not be imposed for relocation. 7 49-09.1-10. Removal of equipment. 8 Upon completion of any facility, the utility shall remove, or cause to be removed, all tools, 9 equipment, or other property used in the construction of the facility and, if railroad property was 10 moved or disturbed, restore that property to the condition of the property before being moved or 11 disturbed. 12 49-09.1-11. Assignment. 13 A utility may assign or otherwise transfer any rights to cross a railroad right of way to 1. 14 any financially responsible entity controlled by, controlling, or under common control of 15 the utility or to any entity into or with which the utility is merged or consolidated or 16 which acquires ownership or control of all or substantially all of the transmission 17 assets of the utility. 18 2. Notice of the assignment or transfer must be given to the railroad within thirty days. 19 Any other transfer or assignment may not take place without the written permission of 20 the railroad, which permission may not be unreasonably withheld. 21 49-09.1-12. Prohibition against mechanic's liens. 22 A utility may not create, permit, or cause a mechanic's lien or other lien to be created 1. 23 or enforced against the railroad's property for any work performed by the utility in 24 connection with the utility's facilities located in the railroad's right of way. 25 2. A railroad may not create, permit, or suffer a mechanic's lien or other lien of any kind 26 or any nature to be created or enforced against a utility's property located in the 27 railroad's right of way for any work performed by the railroad in connection with the 28 railroad's facilities. 29 49-09.1-13. Taxes. 30 A utility promptly shall pay or discharge all taxes and charges levied upon the utility's 31 facilities located in the railroad's right of way. If any taxes or charges can not be separately

- 1 made or assessed to the utility, but are included in the taxes or charges assessed to the
- 2 railroad, the utility shall pay to the railroad an equitable portion of the taxes, determined by the
- 3 value of the utility's facilities located on railroad right of way as compared with the entire value
- 4 of the railroad property.
- 5 <u>49-09.1-14. Existing agreements Eminent domain.</u>
- This chapter does not prevent a railroad and a utility from continuing under an existing
 agreement or otherwise negotiating the terms and conditions applicable to a crossing
 or the resolution of any disputes relating to the crossing.
- 9 <u>2.</u> This chapter does not impair the authority of a utility to secure crossing rights by
- 10 <u>easement pursuant to the exercise of the power of eminent domain.</u>
- 11 **SECTION 2. APPLICATION.** This Act applies to any:
- 12 1. Crossing existing before August 1, 2019, if an agreement concerning the crossing has
- 13 expired or is terminated. In such instance, if the collective amount of seven hundred
- 14 fifty dollars has been paid to the railroad during the existence of the crossing, no
- 15 additional fees are required; and
- 16 2. Crossing commenced after July 31, 2019.
