At any time in an election year, any qualified elector who satisfies the requirements of section 16.1-17-01 may apply to the county auditor, the auditor or clerk of the city, or the business manager of the school district, as the case may be, by personal delivery, facsimile, electronic mail or otherwise, for an official ballot to be voted at that election. A voter eligible to vote by absentee ballot may obtain an application form approved by the secretary of state, for an absent voter's ballot for a general, special, primary, county, city, or school election from the secretary of state, or a county or city auditor, a candidate, a political party, or a political committee. The application form must include a space for the applicant to indicate whether the application is for all statewide elections in the calendar year or only for the election that is immediately after the date of the application.

2. No auditor or clerk may not issue ballots for absentee voters on the day of the election except to individuals prevented from voting in person on the day of the election due to an emergency. An individual requesting an absentee ballot on the day of the election due to an emergency satisfying one of the eligibility requirements in section 16.1-17-01 must do so through an agent as set forth in this chapter. An agent may represent only one individual. The absentee ballot must be returned to the county auditor's office by four p.m. on the day of the election.
3. A completed application must be submitted to the appropriate election official in a timely manner so as to allow the applicant to receive, complete, and mail the absent voter's ballot before the day of the election.

4. The secretary of state shall adopt rules for the secretary of state, county and city auditors, and election officials to follow to verify whether an individual who submits an application for an absentee voter ballot is eligible to vote by absentee ballot.

SECTION 6. AMENDMENT. Subsection 1 of section 16.1-07-06 of the North Dakota Century Code is amended and reenacted as follows:

1. Application for an absent voter's or mail ballot must be made on a form, prescribed by the secretary of state, to be furnished by the proper officer of the county, city, or school district in which the applicant is an elector, on any form, approved by the secretary of state, or any blank containing the following:

   h. The applicant's signature.
   i. The designation of the individual's status as a citizen of this country and resident of this state living outside the United States, a uniformed service member living away from the individual's North Dakota residence, or an immediate family member of the uniformed service member living away from the individual's North Dakota residence.
   j. The applicant's date of birth.
   k. The identification number from one of the applicant's valid forms of identification, a copy of the applicant's long-term care certificate, and, if necessary, a copy of the applicant's supplemental identification under section 16.1-01-04.1.
An affirmation the applicant meets one of the requirements for obtaining an absentee ballot under section 16.1-07-01.

SECTION 7. AMENDMENT. Section 16.1-07-12 of the North Dakota Century Code is amended and reenacted as follows:

At any time beginning on the day before election day and the closing of the polls on election day, the election clerks and board members of the relevant polling place first shall compare the signature on the application for an absent voter's ballot with the signature on the voter's affidavit provided for in section 16.1-07-08 to ensure the signatures correspond. If the applicant is then a duly qualified elector of the precinct, meets one of the requirements for voting by absentee ballot under section 16.1-07-01, and has not voted at the election, they, the election clerk or board member shall open the absent voter's envelope in a manner as not to destroy the affidavit thereon. They shall take out the secrecy envelope containing the ballot or ballots contained therein without unfolding the same, or permitting the same to be opened or examined, and indicate in the pollbook of the election that the elector has voted. The election board members not participating in the comparing of signatures and entering voters into the pollbook shall remove the ballot or ballots from the secrecy envelope, unfold and initial the same ballot, and deposit the ballot in the proper ballot box for tabulation. The votes from these cast ballots may not be tallied and the tabulation reports may not be generated until the polls have closed on election day. If the affidavit on the outer envelope of a returned absentee ballot is found to be insufficient, or that the signatures on the application and affidavit do not correspond, or that the applicant is not then a duly qualified elector of the precinct, or the applicant fails to satisfy the eligibility criteria to vote by absentee ballot, the vote may not be allowed, but without opening the absent voter's envelope, the election inspector or election judge shall mark across the face thereof "rejected as defective" or "rejected as not an elector", as the case may be. These rejected ballots are then turned over to the county canvassing board for final determination of eligibility. The subsequent death of an absentee voter after having voted by absentee ballot does not constitute grounds for rejecting the ballot.

SECTION 8. AMENDMENT. Section 16.1-15-04 of the North Dakota Century Code is amended and reenacted as follows:

The election board shall generate at least one canvass report from the electronic voting system. The ballots may not be sealed, nor may the canvass report be signed, by the election board or poll clerk until the counts in the poll clerks' books and in the canvass report shows the same totals for ballots cast.

In the case of the absentee ballot precinct as authorized in section 16.1-07-12.1, early-voting precincts as authorized in section 16.1-07-15, and mail ballot precinct as authorized in section 16.1-11.1-06, if the work of the election board is completed prior to close of the polls on election day, the election board shall create and sign a statement consisting of a reconciliation of the number of voters recorded in the pollbook and the number of ballots processed through the tabulators. The voting system must be secured in a manner prescribed by the county auditor that will protect the system and ballots from tampering. Prior to generating the canvass report from one of these three types of precincts, an election judge representing each political party, or two election judges in the case of an election that does not include a political party contest, shall verify that the system and ballots remain secure and the statement created by the election board is still accurate.

SECTION 9. Section 37-17.1-05.1 of the North Dakota Century Code is created and enacted as follows:

Governor's authority - Elections.

Notwithstanding section 37-17.1-05, the governor may not suspend, amend, or revoke any statute related to the right to vote or conducting elections.
