 - e. Materials including information it may be possible to reverse the effects of an abortion-inducing drug but time is of the essence. The amount of the permit fee must relate to the department's actual cost of administration, annual review, and enforcement of the permit process, but may not exceed twenty-five dollars annually. The permit process may not be affected by the content of a publication. The director shall require permittees to comply with appropriate indemnification, insurance, and other risk management provisions of the permit. The permittee is solely responsible to ensure that any trash, wrapping, boxes, or debris, generated when stocking or servicing vending machines is not left on or at the rest area. The director may dispose of or sell machines not retrieved within thirty days of removal, but removal costs must be satisfied only to the extent of proceeds received by the director. The director has a cause of action to recover any deficiency, attorney's fees, and litigation expenses. Should the director determine that removal of vending machines is necessary to conduct repairs, construction, surveys, or other duties of the department, the permittee, at the permittee's expense, shall remove all vending

machines in a manner that does not damage state property, upon fourteen days' notice. The current address and telephone number where customer service or business is conducted by the permittee must be legibly and prominently posted upon the vending machine. The director shall cancel the permit should the permittee remove vending machines, except as provided in this section. The cost of any removal must be borne by the permittee.
