SECTION 4. A new section to chapter 43-28 of the North Dakota Century Code is created and enacted as follows:
Standard of care and professional ethics - Telehealth.

A dentist is held to the same standard of care and ethical standards, whether practicing traditional in-person dentistry or telehealth. The following apply in the context of telehealth:

1. Professional ethical standards require a dentist to practice only in areas in which the dentist has demonstrated competence, based on the dentist's training, ability, and experience.

2. A dentist may not practice telehealth unless a bona fide dentist-patient relationship is established in person or through telehealth. A dentist practicing telehealth shall verify the identity of the patient seeking care and shall disclose to the patient the dentist's identity, physical location, contact information, and licensure status.

3. Before a dentist initially diagnoses or treats a patient for a specific illness, disease, or condition, the dentist shall perform an examination or evaluation. A dentist may perform an examination or evaluation entirely through telehealth if the examination or evaluation may be performed in accordance with the standard of care required for an in-person dental examination or evaluation. A dentist may not use telehealth to perform an initial examination or evaluation in circumstances in which the standard of care necessitates an in-person dental examination.

   a. An appropriate telehealth examination or evaluation may include an examination utilizing secure videoconferencing in conjunction with store-and-forward technology or appropriate diagnostic testing that would be required during an in-person examination or evaluation or an examination conducted with an appropriately licensed intervening dental health care provider, practicing within the scope of the dental health care provider’s profession, providing necessary physical findings to the dentist during a live, two-way telehealth encounter. An examination or evaluation consisting only of a static online questionnaire or an audio conversation does not meet the standard of care.

   b. The use of telehealth does not expand the scope of practice for a dental health care provider, and may not be used to circumvent the licensure requirements established for dental health care providers in this state.

   c. A dentist who practices telehealth in this state must have adequate knowledge of the availability and location of local dentists and dental health care providers to provide followup care to a patient following a dental telehealth encounter, including emergent and acute care facilities, in order to enable a patient to receive followup care. Once a dentist conducts an appropriate examination or evaluation, whether in-person or by telehealth, and establishes a patient-dentist relationship, subsequent followup care may be provided as deemed appropriate by the treating dentist, or by another dentist licensed by the board designated by the treating dentist to act temporarily in the treating dentist’s absence.

4. A dentist practicing telehealth is subject to all North Dakota laws governing the adequacy of dental records and the provision of dental records to the patient and other dental health care providers treating the patient.

5. A dentist practicing telehealth must have procedures for providing in-person services or for the referral of a patient requiring dental services that cannot be provided by telehealth to another dentist who practices in the area of the state and the patient can readily access.

SECTION 5. A new section to chapter 43-28 of the North Dakota Century Code is created and enacted as follows:
Prohibition - Waivers.

A dentist practicing dentistry may not require a patient to sign a form or statement waiving the patient's right to file a complaint against the dentist with an appropriate state entity or shielding the dentist from liability for injury resulting from a dental encounter.

SECTION 6. APPLICATION. The governor shall appoint the members of the board for staggered terms so no more than two members’ terms expire each year. Notwithstanding section 43-28-03, a member appointed under this section may not serve more than two full five-year terms but may serve more than ten years.
This certifies that the within bill originated in the House of Representatives of the Sixty-seventh Legislative Assembly of North Dakota and is known on the records of that body as House Bill No. 1151.
