

HOUSE BILL NO. 1493
with Senate Amendments
HOUSE BILL NO. 1493

Introduced by

Representatives Weisz, Beltz, Fegley, Skroch

Senator Lee

1 A BILL for an Act to provide for ambulance service operation funding.

2 **BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:**

3 **SECTION 1. AMBULANCE SERVICE OPERATION FUNDING DISTRIBUTION.**

4 Notwithstanding section 23-46-04, during the biennium beginning July 1, 2021, and ending
5 June 30, 2023, the state department of health, in consultation with the emergency medical
6 services advisory council, shall provide state financial assistance annually to each eligible
7 ambulance service operation pursuant to the following calculation:

- 8 1. The minimum reasonable budget for each operation must be determined by adding
9 the product of the operation's average number of runs for the two most recent
10 calendar years multiplied by the median cost of a run. The cost of a run is determined
11 using statewide data. The minimum budget for each ambulance service operation may
12 not be less than \$60,000, or other base amount determined by the department.
- 13 2. The operation's grant amount must be determined by deducting the following amounts
14 from the operation's budget calculated under subsection 1:
 - 15 a. The product of the operation's average number of runs for the two most recent
16 calendar years multiplied by the median amount of reimbursement for a run. The
17 reimbursement amount for a run is determined using statewide data; and
 - 18 b. The product of the property tax valuation, as provided to the state department of
19 health by the county auditor no later than July thirty-first of each year, of the
20 operation's response area for the most recent taxable year multiplied by five
21 mills. If the response area covers multiple counties, the county auditor with the
22 most response area is responsible for coordinating with the other county auditors.
- 23 3. The department shall distribute a prorated share of the operation's calculated grant
24 amount if legislative appropriations for state financial assistance for emergency

- 1 medical services is not sufficient to provide full grant funding calculated under this
2 section.
- 3 4. An operation is not eligible to receive funding under this section if the operation's
4 average number of runs for the two most recent fiscal years is more than seven
5 hundred.
