- 2 A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

This bill includes a requirement that the state investment board (SIB) give preference to qualified investment firms with a presence in the state when investing Legacy Fund assets. It also sets specific targets for investing Legacy Fund assets within the state and within specified asset classes.

- B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

Sections 2 & 3 of the bill would require that the SIB give preference to qualified investment firms with a presence in the state when investing Legacy Fund assets. This would require the Retirement and Investment Office (RIO) to have a staff member who would be familiar with qualified ND firms, develop procedures for assessing those qualifications and determine a process to apply preference metrics to those firms.

Section 4 of the bill sets specific target allocations for in-state investments within the Legacy Fund. This would require RIO staff to continually seek out possible in-state opportunities to meet those targets while the Legacy Fund continues to grow in size. Because the opportunity set may not be as robust, this will require significantly more due diligence to ensure the assets are deployed to appropriate investments.

RIO anticipates the need for one additional FTE for an investment analyst to focus on the development, implementation and monitoring of the in-state investment program.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

- A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

Not applicable.
