~~1 — **6-09.4-06. Lending and borrowing powers generally.**~~

~~2 — 1. The public finance authority may lend money to political subdivisions or other
3 contracting parties through the purchase or holding of municipal securities which, in
4 the opinion of the attorney general, are properly eligible for purchase or holding by the
5 public finance authority under this chapter or chapter 40-57 and for purposes of the
6 public finance authority's capital financing program the principal amount of any one
7 issue does not exceed five hundred thousand dollars. However, the public finance
8 authority may lend money to political subdivisions through the purchase of securities
9 issued by the political subdivisions through the capital financing program without
10 regard to the principal amount of the bonds issued, if the industrial commission
11 approves a resolution that authorizes the public finance authority to purchase the
12 securities. The capital financing program authorizing resolution must state that the
13 industrial commission has determined that private bond markets will not be responsive
14 to the needs of the issuing political subdivision concerning the securities or, if it
15 appears that the securities can be sold through private bond markets without the
16 involvement of the public finance authority, the authorizing resolution must state
17 reasons for the public finance authority's involvement in the bond issue. The public
18 finance authority may hold such municipal securities for any length of time it finds to
19 be necessary. The public finance authority, for the purposes authorized by this chapter
20 or chapter 40-57, may issue its bonds payable solely from the revenues available to
21 the public finance authority which are authorized or pledged for payment of public
22 finance authority obligations, and to otherwise assist political subdivisions or other
23 contracting parties as provided in this chapter or chapter 40-57.~~

~~24 — 2. The public finance authority may lend money to the Bank of North Dakota under terms
25 and conditions requiring the Bank to use the proceeds to make loans for agricultural
26 improvements that qualify for assistance under the revolving loan fund program
27 established by chapter 61-28.2.~~

~~28 — 3. The public finance authority may transfer money to the Bank for allocations to the
29 long-term care facility loan fund under chapter 6-09.16. The obligation of the state to
30 pay the bond payments is subject to the biennial appropriations by the legislative
31 assembly. Neither the obligation of the state to pay the bonds nor the obligation of the~~

~~issuer to pay debt service will constitute a debt of the state or any agency or political subdivision of the state within the meaning of any constitutional or statutory provision. The issuance of the bond does not directly or contingently obligate the state to pay the bond payments beyond the appropriation for the current biennium of the state. The issuer has no taxing power.~~

~~4. Bonds of the public finance authority issued under this chapter or chapter 40-57 are not in any way a debt or liability of the state and do not constitute a loan of the credit of the state or create any debt or debts, liability or liabilities, on behalf of the state, or constitute a pledge of the faith and credit of the state, but all such bonds are payable solely from revenues pledged or available for their payment as authorized in this chapter. Each bond must contain on its face a statement to the effect that the public finance authority is obligated to pay such principal or interest, and redemption premium, if any, and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on such bonds. Specific funds pledged to fulfill the public finance authority's obligations are obligations of the public finance authority.~~

~~5. All expenses incurred in carrying out the purposes of this chapter or chapter 40-57 are payable solely from revenues or funds provided or to be provided under this chapter or chapter 40-57 and nothing in this chapter may be construed to authorize the public finance authority to incur any indebtedness or liability on behalf of or payable by the state.~~

~~**6-09.4-10. Reserve fund.**~~

1 including a letter of credit or similar instrument, and any other moneys made available
2 to the public finance authority only for the purposes of the fund from any other source
3 or sources. Moneys in the reserve fund must be held and applied solely to the
4 payment of the interest on and the principal of bonds and sinking fund payments as
5 the same become due and payable and for the retirement of bonds, including payment
6 of any redemption premium required to be paid when any bonds are redeemed or
7 retired prior to maturity. Moneys in the reserve fund may not be withdrawn therefrom if
8 the withdrawal would reduce the amount in the reserve fund to an amount less than
9 the required debt service reserve, except for payment of interest then due and payable
10 on bonds and the principal of bonds then maturing and payable and sinking fund
11 payments and for the retirement of bonds in accordance with the terms of any contract
12 between the public finance authority and its bondholders and for the payments on
13 account of which interest or principal or sinking fund payments or retirement of bonds,
14 other moneys of the public finance authority are not then available in accordance with
15 the terms of the contract. The required debt service reserve must be an aggregate
16 amount equal to at least the largest amount of money required by the terms of all
17 contracts between the public finance authority and its bondholders to be raised in the
18 then current or any succeeding calendar year for the payment of interest on and
19 maturing principal of outstanding bonds, and sinking fund payments required by the
20 terms of any contracts to sinking funds established for the payment or redemption of
21 the bonds.

22 ~~2.~~ If the establishment of the reserve fund for an issue or the maintenance of an existing
23 reserve fund at a required level under this section would necessitate the investment of
24 all or any portion of a new reserve fund or all or any portion of an existing reserve fund
25 at a restricted yield, because to not restrict the yield may cause the bonds to be
26 taxable under the Internal Revenue Code, then at the discretion of the public finance
27 authority no reserve fund need be established prior to the issuance of bonds or the
28 reserve fund need not be funded to the levels required by other subsections of this
29 section or an existing reserve fund may be reduced.

30 ~~3.~~ No bonds may be issued by the public finance authority unless there is in the reserve
31 fund the required debt service reserve for all bonds then issued and outstanding and

1 the bonds to be issued. Nothing in this chapter prevents or precludes the public-
2 finance authority from satisfying the foregoing requirement by depositing so much of
3 the proceeds of the bonds to be issued, upon their issuance, as is needed to achieve
4 the required debt service reserve. The public finance authority may at any time issue
5 its bonds or notes for the purpose of providing any amount necessary to increase the
6 amount in the reserve fund to the required debt service reserve, or to meet such
7 higher or additional reserve as may be fixed by the public finance authority with
8 respect to such fund.

9 ~~4.~~ In order to assure the maintenance of the required debt service reserve, there shall be
10 appropriated by the legislative assembly and paid to the public finance authority for
11 deposit in the reserve fund, such sum, if any, as shall be certified by the industrial
12 commission as necessary to restore the reserve fund to an amount equal to the
13 required debt service reserve. However, the commission may approve a resolution for
14 the issuance of bonds, as provided by section 6-09.4-06, which states in substance
15 that this subsection is not applicable to the required debt service reserve for bonds
16 issued under that resolution.

17 ~~5.~~ If the maturity of a series of bonds of the public finance authority is three years or less
18 from the date of issuance of the bonds, the public finance authority may determine that
19 no reserve fund need be established for that respective series of bonds. If such a
20 determination is made, holders of that respective series of bonds may have no interest
21 in or claim on existing reserve funds established for the security of the holders of
22 previously issued public finance authority bonds, and may have no interest in or claim
23 on reserve funds established for the holders of subsequent issues of bonds of the
24 public finance authority.

25 ~~6.~~ The industrial commission may determine that this section is inapplicable in whole or
26 in part for bonds issued under section:

27 ~~a.~~ Section 6-09.4-06;

28 ~~b.~~ Section 6-09.4-24; or under the

29 ~~c.~~ The public finance authority's state revolving fund program.

24 **SECTION 16. AMENDMENT.** Subsection 1 of section 6-09-49 of the North Dakota Century

9 applicants that provide reasonable assurance of sufficient future income to repay the
10 loan.

11 4. The Bank shall deposit in the infrastructure revolving loan fund all payments of interest

13 Bank may use a portion of the interest paid on the outstanding loans as a servicing fee

4 | **Water infrastructure revolving loan fund - State water commission - Continuing**
5 **appropriation.**

- 6 | 1. There is created in the state treasury the water infrastructure revolving loan fund to

10 moneys in the fund are appropriated to the Bank of North Dakota on a continuing
11 basis for loan disbursements and administrative costs.
- 12 | 2. The state water commission shall approve eligible projects for loans from the water
13 infrastructure loan fund. The state water commission shall consider the following when
14 evaluating eligible projects:
- 15 | a. A description of the nature and purposes of the proposed infrastructure project,

2 accounting firm to audit the fund. The cost of the audit must be paid from the fund.

3 **SECTION 19. AMENDMENT.** Section 6-09.4-05.1 of the North Dakota Century Code is
4 amended and reenacted as follows:

5 **6-09.4-05.1. Administrative agreements with state agencies.**

6 The public finance authority and any state agency authorized by state or federal law to
7 make an allocation of bonds or bonding authority or to make loans, or to issue bonds to obtain
8 funds for the purpose of making loans, ~~to political subdivisions~~ or grants, may enter into an
9 administrative agreement, which may authorize the public finance authority to administer the
10 loan or bond program for the state agency. The agreement may delegate to the public finance
11 authority the authority to make loans, or to issue bonds to obtain funds for the purpose of
12 making loans, ~~to political subdivisions~~ or grants.

13 **SECTION 20. AMENDMENT.** Section 6-09.4-06 of the North Dakota Century Code, as
14 amended by section 3 of House Bill No. 1431, as approved by the sixty-seventh legislative
15 assembly, is amended and reenacted as follows:

16 **6-09.4-06. Lending and borrowing powers generally.**

- 17 1. The public finance authority may lend money to political subdivisions or other
18 contracting parties through the purchase or holding of municipal securities which, in
19 the opinion of the attorney general, are properly eligible for purchase or holding by the
20 public finance authority under this chapter or chapter 40-57 and for purposes of the
21 public finance authority's capital financing program the principal amount of any one
22 issue does not exceed five hundred thousand dollars. However, the public finance
23 authority may lend money to political subdivisions through the purchase of securities
24 issued by the political subdivisions through the capital financing program without
25 regard to the principal amount of the bonds issued, if the industrial commission
26 approves a resolution that authorizes the public finance authority to purchase the
27 securities. The capital financing program authorizing resolution must state that the
28 industrial commission has determined that private bond markets will not be responsive
29 to the needs of the issuing political subdivision concerning the securities or, if it
30 appears that the securities can be sold through private bond markets without the
31 involvement of the public finance authority, the authorizing resolution must state

1 reasons for the public finance authority's involvement in the bond issue. The public
2 finance authority may hold such municipal securities for any length of time it finds to
3 be necessary. The public finance authority, for the purposes authorized by this chapter
4 or chapter 40-57, may issue its bonds payable solely from the revenues available to
5 the public finance authority which are authorized or pledged for payment of public
6 finance authority obligations, and to otherwise assist political subdivisions or other
7 contracting parties as provided in this chapter or chapter 40-57.

8 2. The public finance authority may lend money to the Bank of North Dakota under terms
9 and conditions requiring the Bank to use the proceeds to make loans for agricultural
10 improvements that qualify for assistance under the revolving loan fund program
11 established by chapter 61-28.2.

12 3. The public finance authority may transfer money to the Bank of North Dakota for
13 allocations to infrastructure projects and programs. Bonds issued for these purposes
14 are payable in each biennium solely from amounts the legislative assembly may
15 appropriate for debt service for any biennium or from a reserve fund established for
16 the bonds. ~~This section may not be construed to require the state to appropriate funds~~
17 ~~sufficient to make debt service payments with respect to the bonds or to replenish a~~
18 ~~related reserve fund. The bonds are not a debt of the Bank of North Dakota or the~~
19 ~~state. The full faith, credit, and taxing powers of the state are not pledged to the~~
20 ~~payment of the bonds. As of the date appropriated funds and reserves are not~~
21 ~~sufficient to pay debt service on the bonds, the obligation of the public finance~~
22 ~~authority with respect to the bonds must terminate, and the bonds are no longer~~
23 ~~outstanding. In addition to providing funds for the transfers, the public finance authority~~
24 ~~may use the bond proceeds to pay the costs of issuance of the bonds and establish a~~
25 ~~reserve fund for the bonds.~~Neither the obligation of the state to pay the bonds nor the
26 obligation of the issuer to pay debt service will constitute a debt of the state or any
27 agency or political subdivision of the state within the meaning of any constitutional or
28 statutory provision. The issuance of the bond does not directly or contingently obligate
29 the state to pay the bond payments beyond the appropriation for the current biennium
30 of the state. The issuer has no taxing power. In addition to providing funds for the

transfers, the public finance authority may use the bond proceeds to pay the costs of issuance of the bonds, capitalized interest, and establish a reserve fund for the bonds.

4. Bonds of the public finance authority issued under this chapter or chapter 40-57 are not in any way a debt or liability of the state and do not constitute a loan of the credit of the state or create any debt or debts, liability or liabilities, on behalf of the state, or constitute a pledge of the faith and credit of the state, but all such bonds are payable solely from revenues pledged or available for their payment as authorized in this chapter. Each bond must contain on its face a statement to the effect that the public finance authority is obligated to pay such principal or interest, and redemption premium, if any, and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on such bonds. Specific funds pledged to fulfill the public finance authority's obligations are obligations of the public finance authority.

5. All expenses incurred in carrying out the purposes of this chapter or chapter 40-57 are payable solely from revenues or funds provided or to be provided under this chapter or chapter 40-57 and nothing in this chapter may be construed to authorize the public finance authority to incur any indebtedness or liability on behalf of or payable by the state.

SECTION 21. AMENDMENT. Section 15-11-40 of the North Dakota Century Code is amended and reenacted as follows:

25 enhancement, and any reserve funds required by agreements with or for the benefit of
26 holders of the evidences of indebtedness for the purposes for which the authority is
27 created under this chapter. The amount of any refinancing, however, may not be
28 counted toward the two hundred forty million dollar limitation to the extent the amount
29 does not exceed the outstanding amount of the obligations being refinanced. No more
30 than thirty percent of the total project costs or the appraised value, whichever is
31 greater. for any single transmission facility project may be financed by bonds issued

1 under this section which are supported by the debt service reserve fund approved by
2 the commission under this subsection. To ensure the maintenance of the required debt

5 reserve fund any sum, certified by the commission as necessary to restore the reserve
6 fund to an amount equal to the required debt service reserve fund approved by the
7 commission.

8 **SECTION 23. AMENDMENT.** Subsection 1 of section 38-22-14 of the North Dakota
9 Century Code is amended and reenacted as follows:

- 10 1. Storage operators shall pay the commission a fee on each ton of carbon dioxide
11 injected for storage. The fee must be in the amount set by commission rule. The
12 amount must be based on the contribution of the storage facility and the source of the
13 carbon dioxide to the energy and agriculture production economy of North Dakota and
14 the commission's anticipated expenses that it will incur in regulating storage facilities
15 during their construction, operational, and preclosure phases.

16 **SECTION 24. AMENDMENT.** Subsection 1 of section 38-22-15 of the North Dakota
17 Century Code is amended and reenacted as follows:

- 18 1. Storage operators shall pay the commission a fee on each ton of carbon dioxide
19 injected for storage. The fee must be in the amount set by commission rule. The
20 amount must be based on the contribution of the storage facility and the source of the
21 carbon dioxide to the energy and agriculture production economy of North Dakota and
22 the commission's anticipated expenses associated with the long-term monitoring and
23 management of a closed storage facility.
