Subsection 1 of section 39-20-01 of the North Dakota 14 Century Code is amended and reenacted as follows: 15 1. Any individual who operates a motor vehicle on a highway or on public or private 16 areas to which the public has a right of access for vehicular use in this state is deemed 17 to have given consent, and shall consent, subject to the provisions of this chapter, to a 18 chemical test, or tests, of the blood, breath, salivaoral fluid, or urine for the purpose of 19 determining the alcohol concentration or presence of other drugs, or combination 20 thereof, in the individual's blood, breath, salivaoral fluid, or urine. As used in this 21 chapter, the word "drug" means any drug or substance or combination of drugs or 22 substances which renders an individual incapable of safely driving, and the words 23 "chemical test" or "chemical analysis" mean any test to determine the alcohol 24 concentration or presence of other drugs, or combination thereof, in the individual's 25 blood, breath, or urine, approved by the director of the state crime laboratory or the 26 director's designee under this chapter. 27 SECTION 13. AMENDMENT. Section 39-20-14 of the North Dakota Century Code is 28 amended and reenacted as follows: 29 39-20-14. Screening tests. 30 1. Any individual who operates a motor vehicle upon the public highways of this state is 31 deemed to have given consent to submit to an onsite screening test or tests of the

1 individual's breath or oral fluid for the purpose of estimating the alcohol concentration 2 or presence of drugs or substances in the individual's breath or oral fluid upon the 3 request of a law enforcement officer who has reason to believe that the individual 4 committed a moving traffic violation or a violation under section 39-08-01 or an 5 equivalent offense, or was involved in a traffic accident as a driver, and in conjunction 6 with the violation or the accident the officer has, through the officer's observations, 7 formulated an opinion that the individual's body contains alcohol or other drugs or 8 substances that render the individual incapable of safely operating a motor vehicle. 9 2. An individual may not be required to submit to a screening test or tests of breath or

10 <u>oral fluid</u> while at a hospital as a patient if the medical practitioner in immediate charge 11 of the individual's case is not first notified of the proposal to make the requirement, or 12 objects to the test or tests on the ground that such would be prejudicial to the proper 13 care or treatment of the patient.

14 3. The screening test or tests must be performed by an enforcement officer certified as a 15 chemical test operator by the director of the state crime laboratory or the director's 16 designee and according to methods and with devices approved by the director of the 17 state crime laboratory or the director's designee. The results of such screening test 18 must be used only for determining whether or not a further test shall be given under 19 the provisions of section 39-20-01. The officer shall inform the individual that North 20 Dakota law requires the individual to take the screening test to determine whether the 21 individual is under the influence of alcohol or other drugs or substances and that 22 refusal of the individual to submit to a screening test may result in a revocation for at 23 least one hundred eighty days and up to three years of that individual's driving 24 privileges. If such individual refuses to submit to such screening test or tests, none 25 may be given, but such refusal is admissible in a court proceeding if the individual was 26 arrested in violation of section 39-08-01 and did not take any additional chemical tests 27 requested by the law enforcement officer. Such refusal is sufficient cause to revoke 28 such individual's license or permit to drive in the same manner as provided in section 29 39-20-04, and a hearing as provided in section 39-20-05 and a judicial review as 30 provided in section 39-20-06 must be available.
