

Chairman Klemin and members of the House Judiciary Committee.

My name is Tyler Glasser. I live in Bismarck and work in Mandan.
Thank you for allowing me to submit testimony in support of HCR 3032.

I am asking for a do pass recommendation. With many states passing online sports betting including many states around North Dakota I think it puts North Dakota at a disadvantage by not doing the same. Most people that wish to bet on sports will find a way to do it thus taking money away from the state of North Dakota. With the fluctuating price of oil and North Dakota being so reliant on the amount of money oil does bring into our state I think this is just another way to bring money to our state.

Thank you Chairman Klemin and members of the committee for considering my testimony.
