## Senate Appropriations Committee

House Bill 1380 Committee Hearing March 31, 2021

### Testimony of Ken Royse, ND Water Coalition Chairman

Chairman Holmberg and Members of the Committee:

I am Ken Royse, the chair of the North Dakota Water Coalition. The North Dakota Water Coalition supports House Bill 1380, as a way to pay for the bonds authorized in HB 1431.

The North Dakota Water Coalition is an organization of water projects and political subdivisions—including water and irrigation districts, regional and rural water systems, flood control projects, and city and state water groups. Included in our membership are the cities of Bismarck, Mandan, Dickinson, Williston, Minot, Grand Forks, Fargo, West Fargo, Devils Lake, Grafton, Lisbon, and Valley City.

Since 1994, our members have worked towards a common interest and goal: to collaborate on identifying and prioritizing construction of water projects with a coordinated voice to the State Water Commission and State Legislature. Our mission is to complete North Dakota's water infrastructure. We appreciate the responsiveness and substantial investment that the state has made in water cost-share funding.

Today, the number and collective scale of the water projects exceeds the revenues anticipated in the Resources Trust Fund, which historically funds water projects. Major water management projects including the Fargo Moorhead Diversion Project, the Mouse River Flood Control Project, the Lower Heart Flood Control Protection, and the Sheyenne River Flood Control Project; combined with the needs of municipal and rural water systems and local water management projects, all compete for these limited resources. All these projects provide health, safety, economic, and social benefits to our State.

As you heard previously, the Water Coalition supports HB 1431's bonding proposal to complete the state's long-term intent to support the Fargo Moorhead Diversion Project and the Mouse River Flood Control Project. In like manner, we support HB 1380 as the pay-for for the bonds authorized in HB 1431.

Thank you for this opportunity to offer this testimony, I will respond to any questions.
