COMMUNICATION FROM GOVERNOR DOUG BURGUM

This is to inform you that on April 27, 2023, I have signed the following: HB 1011, HB 1158, HB 1239, HB 1310, and HB 1477.

POINT OF PERSONAL PRIVILEGE

REP. STEINER rose on a point of personal privilege.

REMARKS OF REPRESENTATIVE STEINER

MR. SPEAKER: Thank you Mr. Speaker. Members of the assembly...

In February this year, a 7-year-old representing the Dickinson Wrestling Club in the 62-pound division competed at the ND Team qualifier tournament in Bismarck. At 7 years of age, he took first in the 10 and under Team ND Qualifier competition to go compete at the national folkstyle tournament. Ashton then traveled to Waterloo, Iowa representing Team ND to wrestle other qualifiers from states such as Florida and Arizona in hopes of a win.

On March 25, Ashton won his first match against the Iowa state champion by 7 points. He beat the Indiana state champion, by just 2 points and finally, on the championship match, Ashton was losing by 1 point with 20 seconds left and reversed the Wisconsin wrestler to go up by 1 point and he held on to win the national championship representing Team ND.

Ashton has already taken first place in folkstyle in ND. And he is on his way today to Jamestown to try to win a triple crown, by taking first place in Greco and freestyle. He likes to play Spiderman with his younger brothers, and he hopes to become a Navy Seal someday.

Ashton's great grandparents are Doug and Lila Dehne from Mandan, constituents of District 34 Rep. Toman and Rep. Porter. Ashton's parents are Luke and Ashley Steiner. And of course, he's our grandson and we are proud of him. Congratulations to Ashton Steiner, and 3 other national champions Leandro (LJ) Araujo, Eyston Racine and Benjamin DeForest and all the other wrestlers representing Team ND.

Thank you Mr Speaker.

REQUEST

REP. ROHR REQUESTED that the remarks of Rep. Steiner be printed in the Journal, which request was granted.

POINT OF PERSONAL PRIVILEGE

REP. DOBERVICH rose on a point of personal privilege.

REMARKS OF REPRESENTATIVE DOBERVICH

MR. SPEAKER: Today, Workers Memorial Day, we remember the North Dakotans who died at work. North Dakotans who went to work one day and never returned to their loved ones due to an often preventable workplace fatality. In 2022, 34 workers were killed on the job in North Dakota, while many more suffered from occupational illnesses or were injured on the job, making North Dakota the 2nd most deadly state in which to work.

Workers Memorial Day is observed every year on April 28th, which is the anniversary of the day that the Occupational Safety and Health Act went into effect back in 1971, promising every worker the fundamental right to a safe job. We must all do our part to ensure this promise is a reality for all workers. Today is a heavy reminder to recommit to the task of improving workplace safety in North Dakota. All North Dakotans deserve to go home to their families at the end of their workday.

REQUEST

REP. ISTA REQUESTED that the remarks of Rep. Dobervich be printed in the Journal, which request was granted.

Total	(\$1,437,480)	(\$987,520)	(\$2,425,000)

The Conference Committee did not change one-time funding items adjusted by the Senate.

⁸ One-time funding of \$500,000 from the general fund for information technology inflationary increases is reduced to provide a total of \$7,325,000, of which \$2,350,000 is from the general fund, \$325,000 is from the PowerSchool fund, and \$4,650,000 is from the ITD operating service fund, the same as the Senate version. The House approved \$7,825,000 for information technology inflationary increases, including \$2,850,000 from the general fund.

This amendment also:

- Removes a section that would have appropriated additional income available from federal funds in excess of funding appropriated in Section 1 to ITD during the 2023-25 biennium. The Senate did not remove this section.

- Amends a section identifying \$15 million appropriated from SIFF, the same as provided by the Senate. The House provided \$16.5 million.

This section was amended by the Senate to provide an exemption for \$18 million of the \$45 million appropriation and did not include grant application requirements.
- Adds a section to require the Office of Management and Budget (OMB) to transfer any uncommitted federal Coronavirus Capital Projects Fund appropriation authority from ITD to the Department of Career and Technical Education (CTE) for the purpose of multipurpose community facility inflationary costs during the 2023-25 biennium. The funding may only be spent by CTE if the federal government approves a state plan amendment on the planned use of moneys in the fund. If the state plan amendment is not approved, OMB shall transfer the uncommitted funding to ITD for broadband infrastructure grants. The Department of Career and Technical Education is required to report to the Legislative Management on the use of this funding and OMB is required to report to the Legislative Management regarding appropriation authority transferred pursuant to this section. ² Funding from other funds for an administrative assistant position is decreased by \$118,622 from \$300,943 to \$182,321, the same as the Senate. This provides the same level of funding as a grant administration position. The House provided \$300,943 for the administrative assistant position.

³ Funding for new FTE positions and estimated savings from vacant FTE positions is removed as shown below, the same as the Senate. These amounts are available to the agency if needed by submitting a request to the Office of Management and Budget for a transfer from the new and vacant FTE funding pool.

- \$300,000 from other funds for carbon capture and utilization education and marketing, including \$100,000 from the lignite research fund, \$100,000 from the oil and gas research fund, and \$100,000 from the renewable energy development fund.

One-time funding, which was added in the House version, is removed by the Conference Committee and Senate as follows:

- \$25 million from the strategic investment and improvements fund for a transmission line grant.

An appropriation of \$20 million from the federal State Fiscal Recovery Fund from the November 2021 special legislative session is amended to provide up to \$5.3 million for the research project with the remaining amount available for hydrogen development grants. The Senate also included these adjustments, but the House provided \$22 million from the strategic investment and

- improvements fund for the research project.
- Designates \$500,000 from the lignite research fund for a study of future lignite electrical generation facilities, the same as the Senate. The House did not designate funding for this study.

15.1-27-04.1. Baseline funding - Establishment - Determination of state aid. (Effective through June 30, 2025)

1. To determine the amount of state aid payable to each district, the superintendent of public instruction shall establish each district's baseline funding. A district's baseline funding consists of:
 - a. All state aid received by the district in accordance with chapter 15.1-27 during the 2018-19 school year;
 - b. An amount equal to the property tax deducted by the superintendent of public instruction to determine the 2018-19 state aid payment;
 - c. An amount equal to seventy-five percent of the revenue received by the school district during the 2017-18 school year for the following revenue types:
 - (1) Revenue reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
 - (2) Mineral revenue received by the school district through direct allocation from the state treasurer and not reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
 - (3) Tuition reported under code 1300 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08, with the exception of revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition received for the provision of an adult farm management program, and beginning in the 2021-22 school year, seventeen percent of tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid, and an additional seventeen percent of tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid each school year thereafter, until the 2024-25 school year when sixty-eight percent of tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid must be excluded from the tuition calculation under this paragraph;

- (4) Revenue from payments in lieu of taxes on the distribution and transmission of electric power;
 - (5) Revenue from payments in lieu of taxes on electricity generated from sources other than coal; and
 - (6) Revenue from the leasing of land acquired by the United States for which compensation is allocated to the state under 33 U.S.C. 701(c)(3);
 - d. An amount equal to the total revenue received by the school district during the 2017-18 school year for the following revenue types:
 - (1) Mobile home tax revenue;
 - (2) Telecommunications tax revenue; and
 - (3) Revenue from payments in lieu of taxes and state reimbursement of the homestead credit and disabled veterans credit; and
 - e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2.
 - a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted student units to determine the district's baseline funding per weighted student unit.
 - b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
 - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3. The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent.

However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.

3. a. For the 2021-22 school year, the superintendent shall calculate state aid as the greater of:
 - (1) The district's weighted student units multiplied by ten thousand one hundred thirty-six dollars;
 - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand one hundred thirty-six dollars; or
 - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by fifteen percent and then the difference added to the amount determined in paragraph 1.
- b. For the 2022-23 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
 - (1) The district's weighted student units multiplied by ten thousand two hundred thirty-seven dollars;
 - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand two hundred thirty-seven dollars; or
 - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by thirty percent for the 2022-23 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:
 - (1) For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
 - (2) For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
 - (3) For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and

one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.

- (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
 - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
 - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
- a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district, except the amount in dollars subtracted for purposes of this subdivision may not exceed the previous year's amount in dollars subtracted for purposes of this subdivision by more than twelve percent, adjusted pursuant to section 15.1-27-04.3; and
 - b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
 - (1) Tuition revenue shall be adjusted as follows:
 - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, tuition received for the education of high-cost and special education students, and tuition received

under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of subsection 1, the superintendent of public instruction also shall reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and

- (b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.
- (2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in 2020 by the school district for sinking and interest relative to the total mills levied in 2020 by the school district for all purposes.
- 5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
- 6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
- 7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
 - a. The amount of revenue received by each school district in the county during the previous school year for each type of revenue identified in subdivisions c and d of subsection 1;
 - b. The total number of mills levied in the previous calendar year by each school district for all purposes; and
 - c. The number of mills levied in the previous calendar year by each school district for sinking and interest fund purposes.

Baseline funding - Establishment - Determination of state aid. (Effective after June 30, 2025)

- 1. To determine the amount of state aid payable to each district, the superintendent of public instruction shall establish each district's baseline funding. A district's baseline funding consists of:
 - a. All state aid received by the district in accordance with chapter 15.1-27 during the 2018-19 school year;
 - b. An amount equal to the property tax deducted by the superintendent of public instruction to determine the 2018-19 state aid payment;
 - c. An amount equal to seventy-five percent of the revenue received by the school district during the 2017-18 school year for the following revenue types:
 - (1) Revenue reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as

- developed by the superintendent of public instruction in accordance with section 15.1-02-08;
- (2) Mineral revenue received by the school district through direct allocation from the state treasurer and not reported under code 2000 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08;
 - (3) Tuition reported under code 1300 of the North Dakota school district financial accounting and reporting manual, as developed by the superintendent of public instruction in accordance with section 15.1-02-08, with the exception of revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition received for the provision of an adult farm management program, and beginning in the 2025-26 school year, eighty-five percent of tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid, until the 2026-27 school year, and each school year thereafter, when all tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid must be excluded from the tuition calculation under this paragraph;
 - (4) Revenue from payments in lieu of taxes on the distribution and transmission of electric power;
 - (5) Revenue from payments in lieu of taxes on electricity generated from sources other than coal; and
 - (6) Revenue from the leasing of land acquired by the United States for which compensation is allocated to the state under 33 U.S.C. 701(c)(3); and
- d. An amount equal to the total revenue received by the school district during the 2017-18 school year for the following revenue types:
- (1) Mobile home tax revenue;
 - (2) Telecommunications tax revenue; and
 - (3) Revenue from payments in lieu of taxes and state reimbursement of the homestead credit and disabled veterans credit.
- e. Beginning with the 2020-21 school year, the superintendent shall reduce the baseline funding for any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2012-13 school year. The reduction must be proportional to the number of weighted student units in the grades that are offered through another school district relative to the total number of weighted student units the school district offered in the year before the school district became an elementary district. The reduced baseline funding applies to the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter. For districts that become an elementary district prior to the 2020-21 school year, the superintendent shall use the reduced baseline funding to calculate state aid for the 2020-21 school year and for each year thereafter.
2. a. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's 2017-18 weighted

student units to determine the district's baseline funding per weighted student unit.

- b. For any school district that becomes an elementary district pursuant to section 15.1-07-27 after the 2017-18 school year, the superintendent shall adjust the district's baseline funding per weighted student unit used to calculate state aid. The superintendent shall divide the district's baseline funding determined in subsection 1 by the district's weighted student units after the school district becomes an elementary district to determine the district's adjusted baseline funding per weighted student unit. The superintendent shall use the district's adjusted baseline funding per weighted student unit in the calculation of state aid for the first school year in which the school district becomes an elementary district and for each year thereafter.
 - c. Beginning with the 2021-22 school year and for each school year thereafter, the superintendent shall reduce the district's baseline funding per weighted student unit. Each year the superintendent shall calculate the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit provided in subsection 3. The superintendent shall reduce the district's baseline funding per weighted student unit by fifteen percent of the amount by which the district's baseline funding per weighted student unit exceeds the payment per weighted student unit for the 2021-22 school year. For each year thereafter, the reduction percentage is increased by an additional fifteen percent. However, the district's baseline funding per weighted student unit, after the reduction, may not be less than the payment per weighted student unit provided in subsection 3.
3. a. For the 2021-22 school year, the superintendent shall calculate state aid as the greater of:
 - (1) The district's weighted student units multiplied by ten thousand one hundred thirty-six dollars;
 - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand one hundred thirty-six dollars; or
 - (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by fifteen percent and then the difference added to the amount determined in paragraph 1.
 - b. For the 2022-23 school year and each school year thereafter, the superintendent shall calculate state aid as the greater of:
 - (1) The district's weighted student units multiplied by ten thousand two hundred thirty-seven dollars;
 - (2) One hundred two percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units, not to exceed the district's 2017-18 baseline weighted student units, plus any weighted student units in excess of the 2017-18 baseline weighted student units multiplied by ten thousand two hundred thirty-seven dollars; or

- (3) The district's baseline funding as established in subsection 1 less the amount in paragraph 1, with the difference reduced by thirty percent for the 2022-23 school year and the reduction percentage increasing by fifteen percent each school year thereafter until the difference is reduced to zero, and then the difference added to the amount determined in paragraph 1.
- c. The superintendent also shall adjust state aid determined in this subsection to ensure the amount does not exceed the transition maximum as follows:
- (1) For the 2021-22 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
 - (2) For the 2022-23 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, multiplied by the district's weighted student units from the previous school year.
 - (3) For the 2023-24 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus twenty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
 - (4) For the 2024-25 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus forty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
 - (5) For the 2025-26 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus sixty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.
 - (6) For the 2026-27 school year, the transition maximum rate is one hundred ten percent of the district's baseline funding per weighted student unit, as established in subsection 2, plus eighty percent of the difference between the rate under paragraph 1 of subdivision b of this subsection and one hundred ten percent of the district's baseline funding per weighted student unit. The transition maximum is determined by multiplying the transition maximum rate, which may not

exceed the rate under paragraph 1 of subdivision b of this subsection, by the district's weighted student units from the previous school year.

4. After determining the product in accordance with subsection 3, the superintendent of public instruction shall:
 - a. Subtract an amount equal to sixty mills multiplied by the taxable valuation of the school district; and
 - b. Subtract an amount equal to seventy-five percent of all revenue types listed in subdivisions c and d of subsection 1. Before determining the deduction for seventy-five percent of all revenue types, the superintendent of public instruction shall adjust revenues as follows:
 - (1) Tuition revenue shall be adjusted as follows:
 - (a) In addition to deducting tuition revenue received specifically for the operation of an educational program provided at a residential treatment facility, tuition revenue received for the provision of an adult farm management program, tuition received for the education of high-cost and special education students, and tuition received under an agreement to educate students from a school district on an air force base with funding received through federal impact aid as directed each school year in paragraph 3 of subdivision c of subsection 1, the superintendent of public instruction also shall reduce the total tuition reported by the school district by the amount of tuition revenue received for the education of students not residing in the state and for which the state has not entered a cross-border education contract; and
 - (b) The superintendent of public instruction also shall reduce the total tuition reported by admitting school districts meeting the requirements of subdivision e of subsection 2 of section 15.1-29-12 by the amount of tuition revenue received for the education of students residing in an adjacent school district.
 - (2) After adjusting tuition revenue as provided in paragraph 1, the superintendent shall reduce all remaining revenues from all revenue types by the percentage of mills levied in 2020 by the school district for sinking and interest relative to the total mills levied in 2020 by the school district for all purposes.
5. The amount remaining after the computation required under subsection 4 is the amount of state aid to which a school district is entitled, subject to any other statutory requirements or limitations.
6. On or before June thirtieth of each year, the school board shall certify to the superintendent of public instruction the final average daily membership for the current school year.
7. For purposes of the calculation in subsection 4, each county auditor, in collaboration with the school districts, shall report the following to the superintendent of public instruction on an annual basis:
 - a. The amount of revenue received by each school district in the county during the previous school year for each type of revenue identified in subdivisions c and d of subsection 1;
 - b. The total number of mills levied in the previous calendar year by each school district for all purposes; and

- c. The number of mills levied in the previous calendar year by each school district for sinking and interest fund purposes.

POINT OF PERSONAL PRIVILEGE

REP. SCHREIBER-BECK AND REP. MITSKOG rose on a point of personal privilege.

REMARKS OF REPRESENTATIVE SCHREIBER-BECK

MR. SPEAKER: North Dakota State Offensive Tackle Cody Mauch has been drafted by the Tampa Bay Buccaneers with the 48th pick in the second round of the 2023 NFL Draft. A two-time FCS All-American Tackle, Mauch has started thirty-nine consecutive games over the past three seasons, appearing in every game from 2019-2022.

Cody Mauch is an experienced college player who enters the NFL with an intriguing resume. A former walk-on tight end, Mauch transitioned to the offensive line where he quickly developed into one of the best left tackles in the country.

The 6-foot-5, 302-pound Mauch is hard to miss, especially with his long red hair and missing front teeth.

From Hankinson, North Dakota, Cody attended Hankinson High School and was a three-year starter who played numerous positions, including tight end, quarterback, and defensive end. He was also an All-Conference Basketball Player and a standout track star. At North Dakota, he majored in Agricultural Engineering with a minor in Crop and Weed Science and Precision Agriculture.
