Additionally, the board may contract for and accept private contributions, gifts, and grants-in-aid from the federal government, private industry, and other sources. The income received
from these sources must be spent for the purpose designated in the gift, grant, or donation.

19-03.1-02. Authority to control.
1. The board shall administer this chapter and may add substances to or delete or reschedule all substances enumerated in the schedules in sections 19-03.1-05, 19-03.1-07, 19-03.1-09, 19-03.1-11, or 19-03.1-13 pursuant to the procedures of chapter 28-32. In making a determination regarding a substance, the board shall consider the following:
   a. The actual or relative potential for abuse;
   b. The scientific evidence of its pharmacological effect, if known;
   c. The state of current scientific knowledge regarding the substance;
   d. The history and current pattern of abuse;
   e. The scope, duration, and significance of abuse;
   f. The risk to the public health;
   g. The potential of the substance to produce psychic or physiological dependence liability; and
   h. Whether the substance is an immediate precursor of a substance already controlled under this chapter.
2. After considering the factors enumerated in subsection 1, the board shall make findings with respect thereto and issue a rule controlling the substance if it finds the substance has a potential for abuse.
3. If the board designates a substance as an immediate precursor, substances which are precursors of the controlled precursor are not subject to control solely because they are precursors of the controlled precursor.
4. If any substance is designated, rescheduled, or deleted as a controlled substance under federal law and notice thereof is given to the board, the board shall similarly control the substance under this chapter after the expiration of thirty days from publication in the federal register of a final order designating a substance as a controlled substance or rescheduling, or deleting a substance, unless within that thirty-day period, the board objects to inclusion, rescheduling, or deletion. In that case, the board shall publish the reasons for objection and afford all interested parties an opportunity to be heard. At the conclusion of the hearing, the board shall publish its decision, which is final unless altered by statute. Upon publication of objection to inclusion, rescheduling, or deletion under this chapter by the board, control under this chapter is stayed until the board publishes its decision.

In determining the public interest, the board shall consider the following factors:
   a. Maintenance of effective controls against diversion of controlled substances into other than legitimate medical, scientific, or industrial channels;
b. Compliance with applicable state and local laws;
c. Any convictions of the applicant under any federal and state laws relating to any controlled substance;
d. Past experience in the manufacture or distribution of controlled substances and the existence in the applicant's establishment of effective controls against diversion;
e. Furnishing by the applicant of false or fraudulent material in any application filed under this chapter;
f. Suspension or revocation of the applicant's federal registration to manufacture, distribute, or dispense controlled substances as authorized by federal law; and
g. Any other factors relevant to and consistent with the public health and safety.

2. Registration under subsection 1 does not entitle a registrant to manufacture and distribute controlled substances in schedule I or II other than those specified in the registration.

3. Practitioners must be registered to dispense any controlled substances or to conduct research with controlled substances in schedules II through V if they are authorized to dispense or conduct research under the laws of this state. The board need not require separate registration under this chapter for practitioners engaging in research with non-narcotic controlled substances in schedules II through V where the registrant is already registered under this chapter in another capacity. Practitioners registered under federal law to conduct research with schedule I substances may conduct research with schedule I substances within this state upon furnishing the department evidence of that federal registration.

4. Compliance by manufacturers and distributors with the provisions of the federal law respecting registration (excluding fees) entitles them to be registered under this chapter.

19-03.1-17.1. Criminal history record checks.
The board may require an applicant for registration or a registrant whose registration is subject to revocation or suspension or employees or officers of an applicant or registrant to submit to a statewide and nationwide criminal history record check. The nationwide criminal history record check must be conducted in the manner provided by section 12-60-24. All costs associated with obtaining a background check are the responsibility of the applicant or registrant.

19-03.1-18. Revocation and suspension of registration.
1. A registration under section 19-03.1-17 to manufacture, distribute, or dispense a controlled substance may be suspended or revoked by the board upon a finding that the registrant:
   a. Has furnished false or fraudulent material information in any application filed under this chapter;
   b. Has been convicted of a felony under any state or federal law relating to any controlled substance; or
   c. Has had the registrant's federal registration suspended or revoked to manufacture, distribute, or dispense controlled substances.
2. The board may limit revocation or suspension of a registration to the particular controlled substance with respect to which grounds for revocation or suspension exist.
3. If the board suspends or revokes a registration, all controlled substances owned or possessed by the registrant at the time of suspension or the effective date of the revocation order may be placed under seal. No disposition may be made of substances under seal until the time for taking an appeal has elapsed or until all appeals have been concluded unless a court, upon application therefor, orders the sale of perishable substances and the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final, all controlled substances may be forfeited to the state.
4. The board shall promptly notify the bureau of all orders suspending or revoking registration and all forfeitures of controlled substances.

19-03.1-19. Order to show cause.
1. Before denying, suspending, or revoking a registration, or refusing a renewal of registration, the board shall serve upon the applicant or registrant an order to show cause why registration should not be denied, revoked, or suspended, or why the renewal should not be refused. The order to show cause must contain a statement of the basis therefor and must call upon the applicant or registrant to appear before the board at a time and place not less than thirty days after the date of service of the order, but in the case of a denial or renewal of registration the show cause order must be served not later than thirty days before the expiration of the registration. These proceedings must be conducted in accordance with chapter 28-32 without regard to any criminal prosecution or other proceeding. Proceedings to refuse renewal of registration do not abate the existing registration which remains in effect pending the outcome of the administrative hearing.

2. The board may suspend, without an order to show cause, any registration simultaneously with the institution of proceedings under section 19-03.1-18, or where renewal of registration is refused, if it finds that there is an imminent danger to the public health or safety which warrants this action. The suspension continues in effect until the conclusion of the proceedings, including judicial review thereof, unless sooner withdrawn by the board or dissolved by a court of competent jurisdiction.

Persons registered to manufacture, distribute, or dispense controlled substances under this chapter shall keep records and maintain inventories in conformance with the recordkeeping and inventory requirements of federal law and with any additional rules the board issues.

The registrant shall immediately, within one business day, notify the state board of pharmacy of any theft or significant loss of controlled substances. This report may be telephoned, faxed, or electronic mailed to the state board of pharmacy. In addition, significant loss has been further defined to include a list of factors that are relevant in deciding whether a loss was significant. This list is as follows:
1. The actual quantity of controlled substances lost in relation to the type of business;
2. The specific controlled substances lost;
3. Whether the loss of the controlled substances can be associated with access to those controlled substances by specific individuals, or whether the loss can be attributed to unique activities that may take place involving the controlled substances;
4. A pattern of losses over a specific time period, whether the losses appear to be random, and the results of efforts taken to resolve the losses; and, if known
5. Whether specific controlled substances are likely candidates for diversion; and
6. Local trends and other indicators of the diversion potential of the missing controlled substance.

Controlled substances in schedules I and II must be distributed by a registrant to another registrant only pursuant to an order form. Compliance with the provisions of federal law respecting order forms must be deemed compliance with this section.

1. Except when dispensed directly by a practitioner, other than a pharmacy, to an ultimate user, no controlled substance in schedule II may be dispensed without the written prescription of a practitioner. When the patient is a hospice patient or resides in a licensed long-term care facility and the prescription has been signed by the practitioner
before faxing, the facsimile may serve as the original prescription without another signature. The prescription may not be filled more than six months after the date it was written.

2. In emergency situations, as defined by rule of the board, schedule II drugs may be dispensed upon oral prescription of a practitioner, reduced promptly to writing, and filed by the pharmacy. Prescriptions must be retained in conformity with the requirements of section 19-03.1-20. No prescription for a schedule II substance may be refilled.

3. Except when dispensed directly by a practitioner, other than a pharmacy, to an ultimate user, a controlled substance included in schedule III or IV, which is a prescription drug as determined under this chapter or chapter 19-02.1, may not be dispensed without a written or oral prescription of a practitioner. The prescription may not be filled or refilled more than six months after the date thereof or be refilled more than five times, unless renewed by the practitioner. Any oral prescription for such drugs must be promptly reduced to writing by the pharmacist, intern, or technician on a new prescription blank. When the patient is a hospice patient or resides in a licensed long-term care facility and the prescription has been signed by the practitioner before faxing, the facsimile may serve as the original prescription without another signature.

4. Except when dispensed directly by a practitioner, other than a pharmacy, to an ultimate user, no controlled substance included in schedule V must be dispensed without the written or oral prescription of a practitioner. The prescription may not be filled or refilled more than six months after the date thereof or be refilled more than five times unless renewed by the practitioner. Any oral prescription for such compound, mixture, or preparation must be promptly reduced to writing by the pharmacist, intern, or technician on a new prescription blank. When the patient is a hospice patient or resides in a licensed long-term care facility and the prescription has been signed by the practitioner before faxing, the facsimile may serve as the original prescription without another signature.

An individual is guilty of a class A misdemeanor if that individual violates this section for a third or subsequent offense within one year of the first offense. For a third or subsequent offense, the sentence must include an order for an addiction evaluation by, and compliance with recommendations from, an appropriate licensed addiction treatment program.

2. This section does not apply to inhalations specifically prescribed for medical, dental, or optometric treatment purposes or to controlled substances described in this chapter. For the purposes of this section, "volatile chemical" includes the following chemicals or their isomers:

Unless a greater penalty is otherwise provided by law, a person who violates subsection 2, and a child or vulnerable adult actually suffers bodily injury by exposure to, ingestion of, inhalation of, or contact with a controlled substance, chemical substance, or drug paraphernalia, is guilty of a class B felony unless the exposure, ingestion, inhalation, or contact results in the death of the child or vulnerable adult, in which case the person is guilty of a class A felony.

4. It is an affirmative defense to a violation of this section that the controlled substance was provided by lawful prescription for the child or vulnerable adult and that it was administered to the child or vulnerable adult in accordance with the prescription instructions provided with the controlled substance.

19-03.1-22.3. Ingesting a controlled substance - Venue for violation - Penalty.

1. Except as provided in subsection 2, a person who intentionally ingests, inhales, injects, or otherwise takes into the body a controlled substance, unless the substance was obtained directly from a practitioner or pursuant to a valid prescription or order of a practitioner while acting in the course of the practitioner's professional practice, is guilty of a class A misdemeanor. 2. A controlled substance that is a prescription drug may not be delivered, distributed, or dispensed by means of the internet without a valid prescription, but nothing in this subsection may be construed to imply that one in-person medical evaluation by itself demonstrates that a prescription has been validly issued for a legitimate medical purpose within the usual course of professional practice.

3. This section applies to the delivery, distribution, and dispensing of a controlled substance by means of the internet from a location whether within or outside this state to a person or an address in this state.

The defendant had a firearm in the defendant's actual possession at the time of the offense.
The defendant sells, distributes, delivers, or conspires to deliver a controlled substance to an individual which results in the death of the individual due to the use of that controlled substance and the death of the individual would not have occurred in the absence of the defendant's conduct. This subdivision does not apply to an individual who is immune from prosecution under section 19-03.1-23.4.

The offense is:
A class A felony if the violation of section 19-03.1-23 is designated as a class B felony.
A class B felony if the violation of section 19-03.1-23 is designated as a class C felony.
A class C felony if the violation of section 19-03.1-23 is designated as a class A misdemeanor.

19-03.1-23.2. Mandatory terms of imprisonment - Deferred or suspended sentence limited.

19-03.1-23.3. Drug currency forfeiture.
There is a presumption of forfeiture for money, coin, currency, and everything of value, furnished or intended to be furnished, in exchange for a controlled substance in violation of chapter 19-03.1 or imitation controlled substance in violation of chapter 19-03.2, if the state offers a reasonable basis to believe, based on the following circumstances, that there is a substantial connection between the property and an offense listed in chapter 19-03.1 or 19-03.2:
The property at issue is currency in excess of ten thousand dollars which, at the time of seizure, was being transported through an airport, on a highway, or at a port-of-entry, and the property was packaged or concealed in a highly unusual manner, the person transporting the property provided false information to any
law enforcement officer who lawfully stopped the person for investigative purposes, the property was found in close proximity to a measurable quantity of any controlled substance, or the property was the subject of a positive alert by a properly trained dog;

b. The property at issue was acquired during a period of time when the person who acquired the property was engaged in an offense under chapter 19-03.1 or 19-03.2 or within a reasonable time after the period, and there is no likely source for the property other than that offense;

c. The property at issue was, or was intended to be, transported, transmitted, or transferred to or from a major drug-transit country, a major illicit drug-producing country, or a major money-laundering country, and the transaction giving rise to the forfeiture:
   (1) Occurred in part in a state or foreign country whose bank secrecy laws render this state unable to obtain records relating to the transaction; or
   (2) Was conducted by, to, or through a corporation that does not conduct any ongoing and significant commercial or manufacturing business or any other form of commercial operation which was not engaged in any legitimate business activity; or

d. A person involved in the transaction giving rise to the forfeiture action has been convicted in a federal, state, or foreign jurisdiction of an offense equivalent to an offense under chapter 19-03.1 or 19-03.2 or a felony involving money laundering, or is a fugitive from prosecution for any of these offenses.

2. The presumption in this section does not preclude the use of other presumptions or the establishment of probable cause based on criteria other than those set forth in this section.

**19-03.1-23.4. Overdose prevention and immunity.**

An individual is immune from criminal prosecution under sections 19-03.1-22.1, 19-03.1-22.3, 19-03.1-22.5, subsection 7 of section 19-03.1-23, subsection 3 of section 19-03.2-03, and section 19-03.4-03 if in good faith that individual seeks medical assistance for another individual in need of emergency medical assistance due to a drug overdose. To receive immunity under this section, the individual receiving immunity must have remained on the scene until assistance arrived, cooperated with the medical treatment of the reported drug overdosed individual, and the overdosed individual must have been in a condition a layperson would reasonably believe to be a drug overdose requiring immediate medical assistance. Neither the individual who experiences a drug-related overdose and is in need of emergency medical assistance nor the cooperating individual seeking medical assistance may be charged or prosecuted for the criminal offenses listed in this section or for the sharing of controlled substances among those present. Immunity from prosecution under this section does not apply unless the evidence for the charge or prosecution was obtained as a result of the drug-related overdose and the need for emergency medical assistance. Good faith does not include seeking medical assistance during the course of the execution of an arrest warrant or search warrant or during a lawful search.

Any registrant who shall use, administer, or dispense or cause to be used, administered, or dispensed any drug or controlled substance in a manner requiring the use of any type of syringe, needle, eyedropper, or other similar paraphernalia shall destroy and dispose of said syringe, needle, eyedropper, or other similar paraphernalia in a manner that will prevent its reuse by any person other than the registrant. The board may adopt rules pursuant to chapter 28-32 setting out the specific manner in which the provisions of this section must be carried out. Any registrant who violates the provisions of this section is guilty of a class A misdemeanor.

19-03.1-27. Penalties under other laws.
Any penalty imposed for violation of this chapter is in addition to, and not in lieu of, any civil or administrative penalty or sanction otherwise authorized by law.

If a violation of this chapter is a violation of a federal law or the law of another state, a conviction or acquittal under federal law or the law of another state for the same act is a bar to prosecution in this state.

19-03.1-29. Distribution to persons under age eighteen.

19-03.1-30. Conditional discharge for possession as first offense.

3. Any officer authorized to execute a search warrant, without notice of the officer's authority and purpose, may break open an outer or inner door or window of a building, or any part of the building, or anything therein, if the judge or magistrate issuing the warrant has probable cause to believe that if such notice were to be given the property sought in the case may be easily and quickly destroyed or disposed of, or that danger to the life or limb of the officer or another may result, and has included in the warrant a direction that the officer executing it is not required to give such notice. Any officers acting under such warrant, as soon as practicable after entering the premises, shall identify themselves and state the purpose of entering the premises and the authority for doing so.

19-03.1-33. Administrative inspections and warrants.  
1. Issuance and execution of administrative inspection warrants must be as follows:
   a. A district judge within a district judge's jurisdiction, and upon proper oath or affirmation showing probable cause, may issue warrants for the purpose of conducting administrative inspections authorized by this chapter or rules hereunder and seizures of property appropriate to the inspections. For purposes of the issuance of administrative inspection warrants, probable cause exists upon showing a valid public interest in the effective enforcement of this chapter or rules thereunder, sufficient to justify administrative inspection of the area, premises, building, or conveyance in the circumstances specified in the application for the warrant.

   b. A warrant may issue only upon an affidavit of a designated officer or employee having knowledge of the facts alleged, sworn to before the judge or magistrate and establishing the grounds for issuing the warrant. If the judge or magistrate is satisfied that grounds for the application exist or that there is probable cause to believe they exist, the judge or magistrate shall issue a warrant identifying the area, premises, building, or conveyance to be inspected, the purpose of the inspection, and, if appropriate, the type of property to be inspected, if any. The warrant must:
      (1) State the grounds for its issuance and the name of each person whose affidavit has been taken in support thereof;
      (2) Be directed to a person authorized to execute it;

      (4) Identify the item or types of property to be seized, if any; and
      (5) Direct that it be served during normal business hours and designate the judge or magistrate to whom it shall be returned.

   c. A warrant issued pursuant to this section must be executed and returned within ten days of its date unless, upon a showing of a need for additional time, the
court orders otherwise. If property is seized pursuant to a warrant, a copy must be given to the person from whom or from whose premises the property is taken, together with a receipt for the property taken. The return of the warrant must be made promptly, accompanied by a written inventory of any property taken. The inventory must be made in the presence of the person executing the warrant and of the person from whose possession or premises the property was taken, if present, or in the presence of at least one credible person other than the person executing the warrant. A copy of the inventory must be delivered to the person from whom or from whose premises the property was taken and to the applicant for the warrant.

d. The judge or magistrate who has issued a warrant shall attach thereto a copy of the return and all papers returnable in connection therewith and file them with the clerk of the district court for the county in which the inspection was made.

2. The board may make administrative inspections of controlled premises in accordance with the following provisions:

a. For purposes of this section only, "controlled premises" means:
   (1) Places where persons registered or exempted from registration requirements under this chapter are required to keep records; and
   (2) Places, including factories, warehouses, establishments, and conveyances in which persons registered or exempted from registration requirements under this chapter are permitted to hold, manufacture, compound, process, sell, deliver, or otherwise dispose of any controlled substance.

b. When authorized by an administrative inspection warrant issued pursuant to subsection 1, an officer or employee designated by the board, upon presenting the warrant and appropriate credentials to the owner, operator, or agent in charge, may enter controlled premises for the purpose of conducting an administrative inspection.

c. When authorized by an administrative inspection warrant, an officer or employee designated by the board may:
   (1) Inspect and copy records required by this chapter to be kept;
   (2) Inspect, within reasonable limits and in a reasonable manner, controlled premises and all pertinent equipment, finished and unfinished material, containers and labeling found therein, and, except as provided in subdivision e, all other things therein, including records, files, papers, processes, controls, and facilities bearing on violation of this chapter; and
   (3) Inventory any stock of any controlled substance therein and obtain samples thereof.

d. This section does not prevent the inspection without a warrant of books and records pursuant to an administrative subpoena issued in accordance with section 28-32-33, nor does it prevent entries and administrative inspections, including seizures of property, without a warrant:
   (1) If the owner, operator, or agent in charge of the controlled premises consents;
   (2) In situations presenting imminent danger to health or safety;
   (3) In situations involving inspection of conveyances if there is reasonable cause to believe that the mobility of the conveyance makes it impracticable to obtain a warrant;
   (4) In any other exceptional emergency circumstances in which time or opportunity to apply for a warrant is lacking; or
   (5) In all other situations in which a warrant is not constitutionally required.

e. An inspection authorized by this section may not extend to financial data, sales data, other than shipment data, or pricing data unless the owner, operator, or agent in charge of the controlled premises consents in writing.
19-03.1-34. Injunctions.
1. The district courts of this state shall have jurisdiction to restrain or enjoin violations of this chapter.
2. The defendant may demand trial by jury for an alleged violation of an injunction or restraining order under this section.

19-03.1-35. Cooperative arrangements and confidentiality.
1. The board shall cooperate with federal and other state agencies in discharging its responsibilities concerning traffic in controlled substances and in suppressing the abuse of controlled substances. To this end, it may:
   a. Arrange for exchange of information among governmental officials concerning the use and abuse of controlled substances.
   b. Coordinate and cooperate in training programs concerning controlled substance law enforcement at local and state levels.
   c. Cooperate with the bureau by establishing a centralized unit to accept, catalog, file, and collect statistics, including records of drug-dependent persons and other controlled substance law offenders within the state, and make the information available for federal, state, and local law enforcement purposes. It may not furnish the name or identity of a patient or research subject whose identity could not be obtained under subsection 3.
   d. Conduct programs of eradication aimed at destroying wild or illicit growth of plant species from which controlled substances may be extracted.
2. Results, information, and evidence received from the bureau relating to regulatory functions of this chapter, including results of inspections conducted by it, may be relied and acted upon by the board in the exercise of its regulatory functions under this chapter.
3. A practitioner engaged in medical practice or research is not required or compelled to furnish the name or identity of a patient or research subject to the board nor may the practitioner be compelled in any state or local civil, criminal, administrative, legislative, or other proceedings to furnish the name or identity of an individual that the practitioner is obligated to keep confidential.

19-03.1-36. Forfeitures.
1. The following are subject to forfeiture:
   a. All controlled substances which have been manufactured, distributed, dispensed, or acquired in violation of this chapter.
   b. All imitation controlled substances as defined by sections 19-03.2-01 and 19-03.2-02.
   c. All raw materials, products, and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled substance in violation of this chapter.
   d. All property which is used, or intended for use, as a container for property described in subdivision a, b, or c.
   e. All conveyances, including aircraft, vehicles, or vessels, which are used, or intended for use, to transport, or in any manner to facilitate the transportation, for the purpose of sale or receipt of property described in subdivision a, b, or c, but:
      (1) No conveyance used by any person as a common carrier in the transaction of business as a common carrier is subject to forfeiture under this section unless it appears that the owner or other person in charge of the conveyance is a consenting party or privy to a violation of this chapter.
      (2) No conveyance is subject to forfeiture under this section by reason of any act or omission established by the owner thereof to have been committed or omitted without the owner's knowledge or consent.
      (3) A conveyance is not subject to forfeiture for a violation of subsection 7 of section 19-03.1-23 or subsection 3 of section 19-03.2-03.
(4) A forfeiture of a conveyance encumbered by a bona fide security interest is subject to the interest of the secured party if the secured party neither had knowledge of nor consented to the act or omission.

f. All books, records, and research products and materials, including formulas, microfilm, tapes, and data which are used, or intended for use, in violation of this chapter.

g. All drug paraphernalia as defined in chapter 19-03.4.

h. All money, coin, currency, and everything of value furnished, or intended to be furnished, in exchange for a controlled substance in violation of this chapter or an imitation controlled substance in violation of chapter 19-03.2, and all real and personal property, assets, profits, income, proceeds, or an interest therein, acquired or derived from the unlawful purchase, attempted purchase, delivery, attempted delivery, manufacturing, or attempted manufacturing of any controlled substance or imitation controlled substance.

2. Property subject to forfeiture under this chapter, except conveyances, may be seized by the board upon process issued by any district court having jurisdiction over the property. A conveyance subject to forfeiture under this chapter may be seized by a state, county, or city law enforcement agency upon process issued by any district court having jurisdiction over the conveyance. Seizure without process may be made if:
   a. The seizure is incident to an arrest or a search under a search warrant or an inspection under an administrative inspection warrant.
   b. The property subject to seizure has been the subject of a prior judgment in favor of the state in a criminal injunction or forfeiture proceedings based upon this chapter.
   c. The board or a law enforcement agency has probable cause to believe that the property is directly or indirectly dangerous to health or safety.
   d. The board or a law enforcement agency has probable cause to believe that the property was used or is intended to be used in violation of this chapter.

3. In the event of seizure pursuant to subsection 2, proceedings under subsection 4 must be instituted promptly.

4. Property taken or detained under this section is not subject to replevin, but is deemed to be in custody of the board or a law enforcement agency subject only to the orders and decrees of the district court having jurisdiction over the forfeiture proceedings as set out in subsection 2. When property is seized under this chapter, the board or a law enforcement agency may:
   a. Place the property under seal.
   b. Remove the property to a place designated by it.
   c. Require the attorney general to take custody of the property and remove it to an appropriate location for disposition in accordance with law.

5. When property is forfeited under this chapter, the board or a law enforcement agency may:
   a. Retain it for official use or transfer the custody or ownership of any forfeited property to any federal, state, or local agency. The board shall ensure the equitable transfer of any forfeited property to the appropriate federal, state, or local law enforcement agency so as to reflect generally the contribution of that agency participating directly in any of the acts that led to the seizure or forfeiture of the property. A decision to transfer the property is not subject to review.
   b. Sell that which is not required to be destroyed by law and which is not harmful to the public. The proceeds must be used for payment of all proper expenses of the proceedings for forfeiture and sale, including expenses of seizure, maintenance of custody, advertising, and court costs, with any remaining proceeds to be deposited, subject to section 54-12-14, in the appropriate state, county, or city general fund. When two or more law enforcement agencies are involved in seizing a conveyance, the remaining proceeds may be divided proportionately.
   c. Require the attorney general to take custody of property and remove it for disposition in accordance with law.
d. Forward it to the bureau for disposition.

e. Use the property, including controlled substances, imitation controlled substances, and plants forfeited under subsections 6 and 7, in enforcement of this chapter. However, in a case involving the delivery of a forfeited controlled substance by a law enforcement officer or a person acting as an agent of a law enforcement officer, no prosecution or conviction for simple possession of a controlled substance under subsection 5 of section 19-03.1-23 may be based upon the forfeited controlled substances supplied by the law enforcement officer or the officer's agent.

6. Controlled substances as defined in this chapter and imitation controlled substances as defined in chapter 19-03.2 that are possessed, transferred, sold, or offered for sale in violation of this chapter and drug paraphernalia as defined in chapter 19-03.4 are contraband and must be seized and summarily forfeited to the state. Controlled substances as defined in this chapter and imitation controlled substances as defined in chapter 19-03.2, which are seized or come into the possession of the state and drug paraphernalia as defined in chapter 19-03.4, the owners of which are unknown, are contraband and must be summarily forfeited to the state.

7. Species of plants from which controlled substances in schedules I and II may be derived which have been planted or cultivated in violation of this chapter, or of which the owners or cultivators are unknown, or which are wild growths, may be seized and summarily forfeited to the state.

8. The failure, upon demand by the board, or its authorized agent, of the person in occupancy or in control of land or premises upon which the species of plants are growing or being stored to produce an appropriate registration, or proof that the person is the holder thereof, constitutes authority for the seizure and forfeiture of the plants.

19-03.1-36.1. Manner of forfeiture.

Property subject to forfeiture under this chapter, other than property that may be summarily forfeited, may be forfeited by order of a district court only after:

1. A written consent to forfeiture executed by the owner of the property and all persons with a legal interest in the property to be forfeited has been filed with the court; or

2. Commencement of forfeiture proceedings.

19-03.1-36.2. Forfeiture proceeding as civil action - Standard of proof.

1. Forfeiture proceedings are civil actions against the property to be forfeited and the standard of proof is clear and convincing evidence.

2. Forfeiture proceedings are separate and distinct from any related criminal action, and may not be initiated until the owner of the property has been convicted of or pled guilty to a criminal offense, or the individual has died, fled the jurisdiction, been deported by the United States government, been granted immunity or a reduced sentence in exchange for testifying or assisting a law enforcement investigation or prosecution, has abandoned the property, or it can be established beyond a reasonable doubt the property was used in the commission of a crime or constituted the proceeds of criminal activity. As used in this subsection, "abandoned the property" or "fled the jurisdiction" means for a period of more than one year, the owner has not responded to any of the reasonable efforts made by the seizing agency to contact the owner or has not contacted the seizing agency.

3. Two or more law enforcement agencies and courts from different jurisdictions may coordinate, cooperate, and engage in interjurisdictional prosecution under this section.

19-03.1-36.3. Summons and complaint for forfeiture of property - Contents of complaint - Notice.

When property described in subsection 1 of section 19-03.1-36 is to be forfeited, other than property described in subsection 6 of section 19-03.1-36, and in the absence of a written consent to forfeiture, forfeiture proceedings must be commenced by the filing of a summons and
complaint for forfeiture of the property in the district court of the county in which the property
was seized, is being held, or is located. In the case of real property, the summons and complaint
must be filed in the county in which the real property, or some part of the real property, is
located. The proceedings must be brought in the name of the state. The complaint must
describe the property, state its location, state its present custodian, state the name of each
owner if known, state the name of each party with a legal interest in the property if known or of
legal record, allege the essential elements of the violation that is claimed to exist, and must
conclude with a prayer to enforce the forfeiture. Notice of the forfeiture proceedings must be
given to each known owner and known person with a legal interest in the property to be forfeited
by serving a copy of the summons and complaint in accordance with the North Dakota Rules of
Civil Procedure. The procedure governing the proceedings, except as otherwise provided in this
chapter, is the same as that prescribed for civil proceedings.

19-03.1-36.4. Answer by claimant of property - Time for filing.
Within twenty days after the service of the summons and complaint for forfeiture, the owner
of the property to be forfeited and any other person with a legal interest in the property may file
an answer claiming an interest in that property and claiming that person's interest is not subject
to forfeiture under this chapter.

19-03.1-36.5. Disposition of property if no answer filed.
If at the end of twenty days after the summons and complaint have been served there is no
answer filed with the court against the complaint for forfeiture, the court shall order the forfeiture
and disposition of the property as prayed for in the complaint.

19-03.1-36.6. Hearing on contested forfeiture - Order releasing or forfeiting property.
1. If an answer is filed within the time limits in this chapter, the forfeiture proceedings
must be set for hearing before the court. At the hearing, the state shall establish a valid
seizure of the property to be forfeited, and the property meets the requirements of
subsection 2 of section 19-03.1-36.2. Following the state's case, any owner or person
with a legal interest in the property to be forfeited who has filed an answer to the
complaint has the burden of proving that the property to be forfeited is not subject to
forfeiture under this chapter. If the court finds that the property is not subject to
forfeiture under this chapter, the court shall order the property released to the owner or
other person with a legal interest in the property as that person's right, title, or interest
appears. The court shall order the property forfeited if it determines that such property
or an interest therein is subject to forfeiture.
2. A court ordering property forfeited under subsection 1 may order only the forfeited
property or proceeds from the sale of forfeited property to be deposited with a political
subdivision if the political subdivision has created a civil asset forfeiture fund. If the
political subdivision does not have a civil asset forfeiture fund, any forfeited property
and proceeds from the sale of forfeited property must be deposited in the attorney
general's asset forfeiture fund.
3. A political subdivision that has a civil asset forfeiture fund shall establish an application
process, including eligibility criteria, to accept and process applications from law
enforcement agencies within the political subdivision's jurisdiction for an appropriation
from the civil asset forfeiture fund.
4. This section does not prohibit the state and a political subdivision from entering an
agreement to divide forfeited property and the proceeds from the sale of forfeited
property.

19-03.1-36.7. Legal interest in property.
1. A person alleging a bona fide legal interest in property to be forfeited must establish by
a preponderance of the evidence that such legal interest existed at the time of seizure
or taking of custody of the property. In the case of a claimed bona fide security interest
in the property, the person claiming such interest must establish by a preponderance
of the evidence that the security interest in the property to be forfeited existed or was of public record at the time of seizure or taking of custody of the property.

2. Upon a determination by the court that property is subject to forfeiture, the owner of the property to be forfeited or any other person with a legal interest in the property may petition the court to determine whether the forfeiture is unconstitutionally excessive.
   a. A vehicle valued at less than two thousand dollars may not be forfeited unless the court finds the vehicle has been modified to conceal contraband or currency.
   b. Real property constituting a homestead may not be forfeited.
   c. In determining whether a forfeiture is excessive, the court shall consider all factors, including the fair market value of the property, the extent to which the owner or person participated in the offense, the extent to which the property was used or received in committing the offense, and the possible penalty that could be imposed for the alleged or committed offense subject to forfeiture.
   d. The court may not consider the value of the property to the state in determining whether the forfeiture is unconstitutionally excessive.

1. As used in this section, "law enforcement agency" means a nonfederal public agency authorized by law or by a government agency or branch to enforce the law and to conduct or engage in investigations or prosecutions for violations of law, including the authority to conduct or engage in seizure and forfeiture of property or to collaborate with a federal agency under federal law to conduct or engage in seizure and forfeiture of property. The term includes a multijurisdictional task force.

2. Every civil forfeiture judgment issued by a district court must be made publicly available and include the following information in the findings of fact:
   a. Case number of the forfeiture proceeding and the district court where the case was filed.
   b. Location of the seizure, including whether the location was a residence or business or occurred during a traffic stop.
   c. The crime with which the suspect was charged.
   d. The disposition of the suspect's criminal case.
   e. Who filed a claim or counterclaim for the seized property, or whether there was a default in the litigation of the seized property.
   f. Date the forfeiture order was issued.
   g. Whether a forfeiture settlement agreement was reached.
   h. The date and the final disposition of the property.
   i. Estimated value of the forfeited property.
   j. Estimate of the total costs accrued by the law enforcement agency for storage and disposal of the civilly forfeited property.
   k. Amount of any attorney fees awarded to owners of seized and forfeited property.

3. Annually, any law enforcement agency that seizes property shall provide to the attorney general a completed civil asset forfeiture case report form for every seizure and the total value of the forfeited property held by the agency at the end of the reporting period.

4. By November first of each year, the attorney general shall submit to the legislative management and the governor a written report summarizing activity in the state for the preceding fiscal year, the type, approximate value, and disposition of any civilly forfeited property, and the amount of proceeds received.
   a. Summary data and civilly forfeited property must be disaggregated by agency.
   b. The attorney general shall make the report available on the attorney general's website.
   c. The report must include the case reports provided by the law enforcement agencies.

5. The attorney general may recover any costs under this section by withdrawing money from the asset forfeiture fund.

11. A state's attorney may establish a minimum value amount for seizures in the interests of justice and efficient use of governmental resources in the state's attorney's jurisdiction. The minimum value amount may be based on the state's attorney's determination of the:
   a. Type and number of occurrences of offenses that include the seizure of property; and
   b. Average value of seized property less the costs to seize and forfeit the property.

1. It is not necessary for the state to negate any exemption or exception in this chapter in any complaint, information, indictment, or other pleading or in any trial, hearing, or other proceeding under this chapter. The burden of proof of any exemption or exception is upon the person claiming it.

6. In all cases of conspiracy to violate chapter 19-03.1, 19-03.2, or 19-03.4, the state is not required to prove or establish that a conspirator knew the other person to the agreement intended to deliver or possess with intent to deliver a controlled substance, an imitation controlled substance, or drug paraphernalia to a third person.

The board may authorize persons engaged in research on the use and effects of controlled substances to withhold the names and other identifying characteristics of individuals who are the subjects of the research. Persons who obtain this authorization are not compelled in any civil, criminal, administrative, legislative, or other proceeding to identify the individuals who are the subjects of research for which the authorization was obtained.
