Format:
In the body of the bill, the listing sequence differs from that in the title

Created and amended sections must be arranged in numerical order by Century Code section number, without regard to whether the sections are created or amended
When creating an unnumbered section in a bill that also amends numbered sections...

The unnumbered section is placed among the numbered sections in the logical placement of the new section in the Century Code.
For example, if your bill has 3 sections:

- One amending Section 6-08-01
- One amending Section 6-08-28
- One creating a new section to Chapter 6-08

If the new section logically belongs between these two sections, it should be placed as “SECTION 2.” of the bill.

The amended sections become “SECTION 1.” and “SECTION 3.”
Use of overstrike and underscore:

- First rule: **overstrike** existing law you want to remove or replace
- Second rule: **underscore** new language you want to add to the law
NOTE: when replacing existing law with new language, new language follows old law.

- Correct: This is old\textcolor{red}{new}.
- Wrong: This is new\textcolor{red}{old}.

- Remember to consider the existing punctuation as you overstrike or underscore.
SECTION 1. AMENDMENT. Subsection 3 of section 23-01-03 of the North Dakota Century Code is amended and reenacted as follows:

   3. Establish rules, and regulations which are found necessary for the maintenance of public health, including sanitation and disease control.

SECTION 2. A new subsection to section 61-28-03 of the North Dakota Century Code is created and enacted as follows:

   The department shall provide the board with copies of maps, plans, documents, studies, surveys, and all other information necessary to advise the board in the development of programs for the prevention and control of pollution of waters in the state.

SECTION 3. AMENDMENT. Subsection 4 of section 61-28-08 of the North Dakota Century Code is amended and reenacted as follows:
SECTION 1. AMENDMENT. Subsection 3 of section 23-01-03 of the North Dakota Century Code is amended and reenacted as follows:

3. Establish standards, rules, and regulations which are found necessary and appropriate for the maintenance of public health, including sanitation and disease control.

SECTION 2. A new subsection to section 61-28-03 of the North Dakota Century Code is created and enacted as follows:

The department shall provide the board with copies of maps, plans, documents, studies, surveys, and all other information necessary to advise the board in the development of programs for the prevention and control of pollution of waters in the state.

SECTION 3. AMENDMENT. Subsection 4 of section 61-29-08 of the North Dakota Century Code is amended and reenacted as follows:

Sixty-sixth Legislative Assembly

4. Any person who violates this chapter, or any permit condition, rule, order, limitation, or other applicable requirement implementing this chapter, is subject to a civil penalty not to exceed twenty-five thousand five hundred dollars per day per violation.
Only language that will be removed or added to the Century Code is overstruck or underscored.

Do not underscore:

- Title
- Creating or Amending Clauses
- Any special clauses: effective/expiration date; emergency, repeal, Legislative Management studies, appropriations
When a new section is created, a descriptive caption should be included.

A caption gives a brief notice of the content of a section.

Section 1-02-12 provides that a caption is not part of the law.

Wording of a caption is important because Century Code index entries are based on the caption.

SECTION 4. A new section to chapter 61-28 of the North Dakota Century Code is created and enacted as follows:

1. An action may not be brought under either chapter 32-40 or 61-28 against an owner or operator of a water transfer used to control flooding for violation of the state’s water pollution control laws if the water transfer:
   a. Does not require a national pollutant discharge elimination system permit; and
   b. Complies with the conditions in the state’s water quality standards established to protect aquatic life.

2. For purposes of this section, “water transfer” means an activity that conveys or connects waters of the state without subjecting the transferred water to intervening industrial, municipal, or commercial use.
Usually are not published as permanent law in the Century Code.

Examples:
- Repeal
- Appropriation
- Application
- Effective date
- Expiration date
- Emergency clause

• Generally do not have to be underscored.
A clause intended to protect the validity of certain portions of an Act is usually termed a savings, severability, or constitutionality clause. Do not use these clauses. Courts will generally hold all portions of an Act which stand alone to be constitutional even though some other portion of the Act may be unconstitutional. See *State ex rel. Link v. Olson*, 286 N.W.2d 262 (N.D. 1979). Also, Section 1-02-20 is a statutory savings clause.
Repealer Clause

- Sections and chapters of the Century Code may be repealed.
- Do not repeal parts of sections such as subsections, subdivisions, paragraphs, or subparagraphs.
- Preferred method is to amend if below section level

[www.legis.nd.gov]
• When repealing, deleting, or renumbering, check the Century Code for references that may need to be changed.

• If you are uncertain how to do this, contact the Legislative Council staff before completing the bill draft.

16  **SECTION 5. REPEAL.** Chapter 23-19 and section 61-28-30 of the North Dakota Century Code are repealed.

17  **Code are repealed.**
A provision for a penalty must be noted in the title of the bill.

- Any penalty clause to be codified outside of Title 12.1--the Criminal Code--must contain culpability language or the offense may be considered a strict liability offense.

- An example of a penalty clause for a law to be codified within Title 12.1 (thus not containing culpability language) is:

  **SECTION 2. Penalty.** Any person who violates this section is guilty of a class B misdemeanor.
Appropriations

• An appropriation must be noted in the title
• Standard form for a lump sum general fund appropriation is:

```
22 SECTION 7. APPROPRIATION. There is appropriated out of any moneys in the general fund in the state treasury, not otherwise appropriated, the sum of $10,000,000, or so much of the sum as may be necessary, to the legislative council for the purpose of providing tropical vacations to the hardest working state employees in the state, for the biennium beginning July 1, 2017, and ending June 30, 2019.
```
Appropriations

Other examples of appropriations on page 18:

• Involving more than one fund, such as special funds
• With more detail regarding estimated expenditures
• Whether the appropriation includes a transfer
Application /Retroactive Application Clauses

- An application clause may be used to indicate a date or occurrence to which the bill or a portion of the bill applies:

  SECTION 4. APPLICATION. This Act applies to construction contracts executed on and after the effective date of this Act.

  SECTION 8. APPLICATION. Sections 1 and 2 of this Act apply to any public improvement project for which a contract or agreement for plans, drawings, or specifications is executed after the effective date of this Act.

  SECTION 9. APPLICATION. The change in term limits for board members under section 1 of this Act applies to board member appointments and reappointments made after July 31, 2019.

- The application of an Act or part of an Act may be made retroactive. An emergency clause is not required.

  SECTION 1. RETROACTIVE APPLICATION. This Act applies retroactively to cases arising after July 31, 2017.

  SECTION 2. RETROACTIVE APPLICATION. This Act is retroactive in application.
Effective Date Clauses

• An effective date clause is necessary **ONLY** if you want a date other than the date provided for by law.

• Most bills – **August 1**

• Bill that changes tax rates and appropriation bills – **July 1**

• If a bill is to become effective **BEFORE** the date it could normally become effective, the bill must have an emergency clause.
Effective Date Examples

SECTION 1. EFFECTIVE DATE. This Act is effective for taxable years beginning after December 31, 2018.

SECTION 2. EFFECTIVE DATE. This Act becomes effective on January 1, 2020.

SECTION 3. CONTINGENT EFFECTIVE DATE. This Act becomes effective on the date the governor certifies to the secretary of state and to the director of the department of transportation and the legislative council that the federal restrictions on speed limits exceeding fifty-five miles per hour are no longer in effect, but only if that day is before August 1, 2021.

SECTION 4. EFFECTIVE DATE. Sections 4 and 5 of this Act become effective immediately upon its filing with the secretary of state and sections 1, 2, and 3 of this Act become effective on August 1, 2019.

SECTION 5. CONTINGENT EFFECTIVE DATE. Section 4 of this Act becomes effective on the date that the proposed amendment to section 21 of article X of the Constitution of North Dakota as contained in Senate Concurrent Resolution No. 4037, as agreed to by the sixty-sixth legislative assembly and approved by the electors, becomes effective.

SECTION 6. CONTINGENT EFFECTIVE DATE. This Act is contingent on the passage of Senate Concurrent Resolution No. 4002 by the sixty-sixth legislative assembly and approval of that resolution by the electors of this state. If this Act takes effect, it becomes effective on January 1, 2021.
An expiration date clause provides a time a bill, or a specified provision of the bill, expires:

SECTION 1. EXPIRATION DATE. This Act is effective through July 31, 2020, and after that date is ineffective.

SECTION 2. EXPIRATION DATE - SUSPENSION. This Act is effective through July 31, 2021, and after that date is ineffective. North Dakota Century Code sections 9-10-07 and 32-03-07 are suspended from the effective date of this Act through July 31, 2021. Sections 9-10-07 and 32-03-07 as they existed on the day before the effective date of this Act become effective as of August 1, 2021.
Emergency Clause

- To be passed as an emergency measure a bill must have a reference to the emergency in its title.
- The preferred terminology is and declaring an emergency or and to declare an emergency at the end of the title.

**NOTE:** If a bill with an emergency clause receives a constitutional majority but fails to get the necessary 2/3 vote, the bill passes but the emergency clause will be removed.
Emergency Clause Examples

SECTION 1. EMERGENCY. This Act is declared to be an emergency measure.

SECTION 2. EMERGENCY. Sections 3 and 4 of this Act are declared to be an emergency.
Do not use short title clauses:

Short Title Clause

Short titles should not be used. With statutory codification, every codified section has a Century Code number and is placed with provisions reflecting the subject matter involved. In addition, a chapter caption is developed based upon the chapter’s content. Such clauses are usually not codified as part of the Century Code.

PART 5 –
STYLE AND GRAMMAR GUIDELINES

Statements of intent or purpose – don’t use

Definitions –
• Clear and concise. If you define a term, use it
• Chapter 1-01 contains principles and definitions that apply throughout NDCC
• “Means” = exhaustive
• “Includes” = partial list
• DO NOT USE: “includes, but is not limited to”

Note: p. 91
• **Consistency** – use the same term or phrase; consistency trumps variety/creativity

• **Gender** – avoid he/she and his/her. Use sex-neutral nouns: Applicant, Individual, Director

• **Singular** – Section 1-01-35 – singular includes the plural and vice versa. Use singular whenever possible

• Note: p. 92
Active voice

• Use the active voice for conciseness and clarity.
• Voice indicates the relationship between the verb and its subject.
• The active voice emphasizes the one performing the action and is more direct.
• The passive voice emphasizes the receiver of the action and generally results in longer sentences with greater opportunity for ambiguity.

• Begin a sentence with a subject and consider who is being authorized, directed, or prohibited to act.
• Note: p. 92
IF YOU CAN ADD "BY ZOMBIES" AFTER THE VERB

IT'S PASSIVE VOICE
Passive: The fee must be paid by the applicant.

(The fee must be paid by zombies.)

Active: The applicant shall pay the fee.
USE OF SHALL, MUST, MAY, MAY NOT, AND IS ENTITLE TO

- **Shall** is used to qualify an active verb.
- **Must** is used to qualify an inactive verb or an inactive verb in the passive voice.
- Use **shall** when you are imposing a duty on a person or body that is the subject in the sentence.
- Example: “The licensee **shall** give the debtor a copy of the signed contract.”
- Use **must** in reference to a thing rather than a person and to express status requirements, that is, statements about what people or things must be rather than what they must do.
  - Examples: “The contract **must** contain two signatures.”
  - “A candidate **must** be a resident of the county.”
- Note: p. 92-93
• Use **may** to confer a power, privilege, or right.

Examples:
"The applicant **may** demand (power) an extension of time."

"The applicant **may** renew (privilege) the application."

• If a right, privilege, or power is intended to be denied, **may not** should be used.

Example: "The applicant **may not** submit (active voice) more than one application."

Note: p. 93
USE OF WHICH AND THAT

• Use **which** to introduce a nonrestrictive clause. Example: “The application, which need not be verified, must be signed by the applicant.”

• Use **that** to introduce a restrictive clause modifying the nearest antecedent. Example: "An application to renew a license that has been revoked . . . ."

• Use **which** to modify a remote antecedent in a restrictive clause. Example: "An application to renew a license which has been rejected . . . .“

Note: p. 93
Use of “fewer” or “less”

LESS vs. FEWER

If something can't be counted, use LESS.
(e.g. less stress, less air, less water, etc.)

If something CAN be counted, use FEWER.
(e.g. fewer napkins, fewer cups, fewer straws, etc.)

TheYUNiversity.tumblr.com
• Use of “such” – p. 93

• If, When, Whenever, and Where – p. 93

• Use of “of this Act” – p. 94

• Federal Statute and Regulation References – p. 94

• Citations – p. 94
Divisions of Statutory Material

The first word in every subsection, subdivision, paragraph, and subparagraph should be capitalized. The following example illustrates the indented block style to be used when a section is broken down to less than subdivisions:

(Subsection) 1. "Employment" includes:
(Subdivision)   a. Service performed:
(Paragraph)     (1) In any calendar quarter in the employ of any organization exempt from income tax under section 501 of the federal Internal Revenue Code, if all of the following requirements are met:
(Subparagraph) (a) The remuneration for the service exceeds fifty dollars.
(b) The service is not in connection with the collection of dues or premiums for a fraternal benefit society, order, or association, and is performed away from the home office.
• Official Titles or Public Entitles — p. 96-99

• Word usage — keep it simple and precise — p. 100-101

• Abbreviations and Acronyms — don’t use

• Capitalization — when in doubt, don’t capitalize — p 102-104

• Clock times — spell out

• Dollar amounts — spell out, except in appropriations bills
• **Hyphenation** – don’t hyphenate “ly” words used as modifiers

• Example: “commonly used words” (no hyphen)

*But hyphenate when the words modify the noun*

• Example: “state-owned entity”
• **Metric equivalent** – required by NDCC 46-03-10

• **Numbers** – spell out numbers

• **Orthography** – preferred word spellings
Punctuation – we use the Oxford comma. Use commas to separate a series of more than two. Last two units ARE separated by comma.

My heroes are my parents, Superman and Wonder Woman.

Use the extra comma.
Keep it real.
Let's eat grandpa.
Let's eat, grandpa.

correct punctuation can save a person's life.

I like cooking my family and my pets.

Use commas. Don’t be a psycho.
