This is a new system and it is difficult to predict the number of coupons that will be returned. Landowners will get payments for deer harvested on their land. Hunters who take deer on public land or do not take a deer can send in their own coupon for a \$5 refund.

**3. State fiscal effect detail:** For information shown under state fiscal effect in 1A, please:

**A. Revenues:** Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.

The five dollar increase in the big game license fee would increase game and fish revenue by about \$505,000 per year based on 90,000 gun lottery tags(not gratis) and 11,000 archery tags. This would be for only one year of the 2003-2005 biennium.

**B. Expenditures:** Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.

Initially there will be major computer and printing costs. This will be less after the first year. Each year there will be administrative costs to process the coupon payments. The estimated first year setup and administrative costs are \$100,000.

If appropriations are provided, there will be a maximum of about \$550,000 in payments made for coupons for each year. As written, gratis license holders will also qualify for \$5 coupon payments even though they do not pay for their license. A certain percentage of the coupons will not be returned, but this number is not know.

**C. Appropriations:** Explain the appropriation amounts. Provide detail, when appropriate, of the effect on the biennial appropriation for each agency and fund affected and any amounts included in the executive
