Morgan Rennie

Minutes:

Rep. Boehning: Testimony attached.

Rep. Boehning: *Last session we had pretty much the same resolution. The county Veteran's service office does a very good job for us. There is one amendment that I passed out. On page 1 line 11 we want to change 'do' with 'may'. There is quite a few that are well funded. I did bring this forward again because I think it is something that we need to be studying. We have a lot of veteran's as you look at one of my handouts. That gives you the office hours of a lot of the offices. Some have regular hours. All the officers are on call. We are trying to find a way to have a study to fund Veteran's service offices. There are so many programs out there that it is so difficult for a part time officer that has no training to direct all the multiple funds. There are so many different funding sources out there. As you look on the handout you can see the ones that have applied for it and the amount of money that was distributed in those counties. There is a lot of counties where there hasn't been any loans applied for. There are a lot of topics out there that Veteran's can go to their service offices and find out information on how to get loans and this is just an example of that. I guess one of my biggest concerns is that we've got approximately 60,000 veterans in the state of ND. I think that we have to serve them better. I think we have to study the whole Veteran's offices in ND to see if we need more funding*

because there is a limited levy to fund these offices. I think if we can study them we can come back with something to put a funding source together if there needs to be one. Or we'll have to look at some other type of assistance.

Rep. Haas: This sheet that you distributed, what does that reflect? Is this the veteran's service officers?

Rep. Boehning: From my understanding with that is that it is the veteran's population and total expenditures which is the total amount of money, pensions, benefits, compensation, etc.

Rep. Kasper: Is the purpose of this resolution to look for ways to provide more funding? Or is it to improve what is already being done? Or is it a combination?

Rep. Boehning: It is a combination. I think we need to serve the veteran's the best we can. If we can study this I think if we see a need we can work on that.

Sen. Nelson: We had a number of these bills on veteran's services and such. There are a number of issues. I think a study like this would be a benefit to the entire veteran's community. I would encourage this study and I would take a look on who is on there.

Bob Hanson: As we did last session we also support this resolution. We think it can be very beneficial to find out what is happening out there. I think what Rep. Boehning did with showing the dollar amounts, one thing to keep in mind is that you need to add three more 0's to those numbers. Most of that comes from the compensation for their disabilities and the medical side. We think this is a good idea. You were very helpful last session by allowing county service officers to be used by more than one county. That has been very helpful. It has just been helpful. We have veterans now in this state ranging from teenagers to people in their 90's. Each different group has different problems.

Rep. Froseth: I remember last session we allowed a consolidation of services. I'm glad to hear there is some of that done. You've mentioned the federal funding is all administration costs to

the county. Is that absorbed by the county? Or is there federal money that is available to the county?

Bob Hanson: It is the counties responsibility to do that.

Rep. Haas: So the veteran's service officers in every county are funded exclusively with the county funds?

Bob Hanson: That is correct.

Rep. Potter: With the paper that we went over before, I'm a little confused. Let's take the first one that says Adams county. It says the veteran's population is 216. The total expenditures are 872. Is that thousand? Is this the paper you were referring to?

Bob Hanson: Yes. This is the one I was referring to when you have to add three 0's to all of those numbers beyond the veterans.

Rep. Potter: Ok that makes me feel better.

Rep. Meier: What are some of the concerns right now that are not being addressed?

Bob Hanson: One of the things that we are concerned about and we have requested support for this, is to do more outreach for the county service officers to provide more training for them. It is really hard for the service officer who gets one day a week to be able to handle all the necessary needs that they will have.

Rep. Kasper: As you know my father was a service officer for many years in Mercer County. I remember when he was there at least once a year I would attend a service officers training meeting. He was there for two or three days and I know that it was a good training. Are those things not being done anymore to train them?

Bob Hanson: We do two of them now. They are about two to three days. One is in Bismarck and the other is In Fargo in the fall. What we do there is bring a lot of experts in to help them with understanding various things. We get a lot of newer service officers coming in. If they

happen to miss one of those training sessions they are basically out. We want to have regional meetings with them so we can train them with those issues that come up.

Rep. Kasper: Are the service officers familiar with computerization where you can communicate back and forth? Is the budgeting in the various counties not enough to provide for that?

Bob Hanson: Most all of them now have computers. We still have probably about a half of dozen that don't have computers. We have to do a lot of stuff by mail and phone.

Rep. Haas: Is there any other testimony for HCR 3063? If not we will close the hearing on HCR 3063.

Minutes:

Rep. Boehning: I Move amendment

Rep. Karls: I second that.

Rep. Haas: That changes the word do to may on line 11. We will take a voice vote on the amendment. All in favor say 'aye' all opposed say 'no'. The amendment is carried.

Rep. Meier: I move a do pass as amended.

Rep. Kasper: I second that.

Rep. Haas: Is there any discussion on the do pass as amended? If not we will take a roll call vote on HCR 3063. The do pass motion for HCR 3063 passes with a vote of 12-0-1. Is there a volunteer to carry the bill?

Rep. Karls: I will.

Hearing Date: 03/15/07

Recorder Job Number: 5149

Committee Clerk Signature

Nancy Spaulding

Minutes:

All members of the committee were present.

Senator Dever, Chairman, opened the hearing on HCR 3063.

Representative Randy Boehning from District 27 introduced the bill. See attachments #1, #2 and #3. He said attachment #3 was the most important of the handouts because it gives information about the inconsistency of the hours of availability. It is hard to help the veterans when the contact person is not available to the veterans. Maybe consolidation of some of these county offices would make it easier to staff them. He feels the quality of the services is good but the availability of the services is not always good. With an increasing number of veterans due to more wars and with new programs being created for veterans, there is an increasing need to have people available to explain the programs and help the veterans get signed up. Maybe a study of Legislative Council could find out what would be the most effective.

Senator Nelson said all courthouses in the state having email access provided to them so there should always be an email address that can be used.

Representative Boehning stated that some of the service officers work out of their homes.

There may also be a need to upgrade the technology and county budgets may not allow for that.

Senator Horne asked who provides these service officers and who funds this service to veterans.

Representative Boehning said it is paid for by the local county. They are allowed to levy two mills and use some general fund money.

Senator Horne asked if they get any state or federal money.

Rep. Boehning said as far as he knows they do not.

There was more discussion about the service people working out of their homes and that it is possible some of the people they serve aren't in a position to go to an office so email access is very important. The needs might be more regular hours, more training, consolidating services, updated technology, or state funding. A resolution could hopefully get to the bottom of that.

Some veterans are going to a service center in a different county to get services. Maybe there could be a system of the counties paying one another.

Senator Marcellais said he feels this study is a good idea because many veterans don't even know that there is a bonus available or know what programs are available.

Representative Boehning said there isn't enough funding in the counties to make the veterans aware of what is available. A service officer should be making contact with a returning veteran as he comes back and making him aware of what is available.

There was discussion about funding it according to population rather than through mill levies.

There was a reminder by Senator Dever that most benefits are federal benefits. The purpose of the veterans' service officers is to provide an education and an advocacy for veterans to access those services.

Senator Dever said when he was discharged from the service he had an orientation of what veterans' services were available to him. After they get out, they can access their veterans' county service officer, their State Veterans' Service Affairs in Fargo with a branch office in Bismarck, or one of the federal service officers. When a veteran goes to a VA hospital or goes for services it can be a frustrating experience but the better educated they are, the better equipped they are to assert their rights. Maybe having veterans' county service officers is not the best way to handle it. Maybe just having eight full time officers for the state is better. They could be more knowledgeable and more available.

Rep. Boehning said maybe a regional director could go from county to county. A study could determine how to provide the best service to our veterans. He pointed out on page 2 of attachment #2 that there was \$155 million spent on services for North Dakota veterans in 2005. This brings in a lot of money to the state. If veterans' service officers are effective in helping our veterans this number could increase.

Senator Dever mentioned that the Commissioner of Veteran Affairs has plans to better educate the county service officers.

Senator Horne asked if the state studies this and decides there are changes needed will the state have the authority to require the counties to offer services without giving the county the money to do it.

Rep. Boehning said that would all be part of the considerations of the study.

David Boeck from North Dakota Protection and Advocacy Project spoke in favor of the resolution. He said if a study would find gaps his office would look for ways to fill those gaps.

Senator Dever asked if they often work as an advocate for veterans.

David said they do not do that very often.
