Chairman Lyson: Opened the hearing on SB 2186.

Senator Rich Wardner from District 37: Introduced the bill brought forward by the Energy Development and Transmission Committee. The way it is laid out in the bill, is the way it is right now. This bill just extends it. There are twelve members on the committee studying energy related issues. We are looking for ways to advance all types of energy, fossil fuels and renewable.

Chairman Lyson: What we are looking at is taking out the end date so it keeps going?

Senator Rich Wardner: That is correct.

Senator Schneider: Why the overstrike on line 21 and 22?

Senator Rich Wardner: I can't answer that.

There was no one to testify in opposition to the bill.

Chairman Lyson: Closed the hearing on SB 2186.

Senator Triplett: I am interested in the answer to Senator Schneider's question.

Chairman Lyson: Opened the discussion on SB 2186.

Senator Schneider: Did we decide why that was overstruck or did we just collectively decide that it was too specific when the rest of the legislation is pretty general?

Chairman Lyson: It seemed Legislative Council didn't even know why it was overstruck.

Senator Uglem: Do Pass motion

Senator Triplett: Seconded the motion.

no "attached testimony."

Rep. Porter: We will open the hearing on SB 2186. We don't need the taxation on shallow gas anymore because it is in the tax code.

Sandy Tabor: I represent the North Dakota Lignite Energy Council. We are here regarding the removal of the sunset clause so that the Energy Development and Transmission Interim Committee will become a permanent interim committee. With regards to the elimination of the taxation of the shallow gas to reduce energy cost for all North Dakota citizens, on lines 21 and 22 Rep. Porter just explained that to you and I won't elaborate on it. We are in support of the interim committee.

Rep. Porter: Is there any opposition to SB 2186? We will close the hearing.

Rep. Hofstad: I move a Do Pass on SB 2186.
