Physician Quality Measurement

Physician Quality Measurement (PQM)

PQM is the program Blue Plans across the nation will be using to support making measured performance information available to consumers, based on national research showing consumers value access to the kind of information and tools that can help them assume a more active role in managing care for themselves and their families. This program will launch July 1, 2012, and consumers will be able to access this information on the redesigned Blue National Doctor and Hospital Finder website.

The PQM program complements your practice improvement efforts and highlights your commitment to providing safe, evidence-based and patient-centered care in your community. The program aligns with our belief that care improvement comes from a combination of measuring what can be measured, promoting ongoing practice improvement and recognizing the champions of care delivery.

- The vertical integration of local measurement into a national display considers the local patient population and physician demographics, access to care, resources and other local factors.
- PQM is based on select physician performance measures that are displayed to assist patients in choosing a doctor.
- The PQM program will display these nationally endorsed and evidence-based physician quality performance measures along with supporting data, local comparison norms and educational consumer information.
- PQM is based on a core set of HEDIS® physician measures selected by Blue Cross and Blue Shield companies' clinical measurement experts. BCBSND has selected the following nationally endorsed and evidence-based measurements which align with industry and federal health care improvement and reporting initiatives. These measures are:

Category	Measure
Cancer Screening	• Breast cancer screening • Cervical cancer screening • Colorectal cancer screening
Diabetes	• HgA1C testing • LDL-C screening
Heart Disease	• Cholesterol screening for patients with cardiovascular conditions
Women's Health	• Breast cancer screening • Cervical cancer screening

- Using a three-star display, BCBSND can communicate if a group practice is below (1 star), meets (2 stars) or exceeds (3 stars) the performance level score for each measure as compared to the local average for the same measure and comparable peer group.
- Additional information is also available to help Blue members determine how this information can be useful in their health care decision making.

The Local Comparison Score provides a benchmark for performance in North Dakota and is compared to the group's performance score to determine the PQM rating. The local comparison score can vary by measure and is determined by BCBSND. The group practice's score will be based on data taken from the MediQHomeSM Quality Program.

Attachment 12

Attachment 12

Blue Physician Recognition

Blue Physician Recognition (BPR)

BPR is designed to provide more meaningful and consistent information to consumers, and is complementary to the Physician Quality Measurement initiative. This program will launch July 1, 2012, and consumers will be able to access this information on the redesigned Blue National Doctor and Hospital Finder website.

- Group practices who participate in the MediQHome℠ Quality Program will be submitted for display on the Blue National Doctor and Hospital Finder with the BPR icon.
- The BPR program recognizes participation in quality improvement efforts across multiple disciplines and care settings and also highlights group practices as champions of quality care in the community.
- North Dakota providers not participating in the MediQHome Quality Program will be designated as "not eligible" for BPR in the Blue National Doctor & Hospital Finder.

BCBSND believes that care is improved through a combination of measuring what can be measured, promoting ongoing practice improvement and recognizing the champions of care delivery. BPR supports this philosophy by providing a national display for group practices committed to delivering quality and patient-centered care based on BPR program guidelines.

Attachment 13

Attachment 13

Attachment 13

Patient Review of Physicians

Patient Review of Physicians (PRP)

PRP allows Blue Cross Blue Shield of North Dakota (BCBSND) members to view and post reviews of doctors and other professional providers based on their patient experiences. After the program launches, July 1, 2012, members will initiate physician reviews through our member portal. Once complete, reviews will be published on the redesigned Blue National Doctor and Hospital Finder website.

While patient reviews are just one of many factors to consider when choosing a health care provider, research shows that online patient review capabilities are in high demand. User-generated patient reviews are one of the most sought after pieces of information for consumers looking for a new doctor, and approximately 85-90 percent of patient reviews are positive. To assure that your overall score accurately reflects the quality of your patient experiences, encourage your patients to contribute to your reviews.

- To ensure accountability and validity, BCBSND has implemented a rigorous process that authenticates, verifies and moderates reviews prior to posting online.
- Members respond to a core set of questions covering their overall experience, and reviews are checked for appropriateness prior to display.
- This process helps ensure that only authenticated BCBSND members who verify they have seen the doctor can contribute reviews.

BCBSND will distribute additional information about this program as it becomes available, including screen shots and more information about how a patient will be able to write physician reviews.

MediQHome Clinical Suites

Clinical Suites

Asthma

5 – 50 years

Process Measures:

Severity classified using the NAEPP guidelines

Inhaled corticosteriod (or alternative steroid sparing control medication) for patients with persistent asthma (moderate to severe).

Inhaled short-acting beta-agonist for patients with persistent (all grades) asthma.

Attention Deficit Hyperactivity Disorder (ADHD)

< 18 years

Process Measures:

2 BMI documented in the medical record.

Breast Cancer Screening

50 – 74 years (female)

Process Measures (every 2 years):

Breast MRI -OR-

BSGI -OR-

Mammogram

Cervical Cancer Screening

21 – 65 years (female)

Process Measures:

Pap test (once every 3 years)

Chronic Heart Failure

18 – 75 years

Process Measures:

BP exam

Ejection fraction (once within 24 months)

Pulse exam

Serum Creatinine

Outcome Measures:

ACEi/ARB therapy if LVF ≤ 40

Beta-blocker therapy if LVF ≤ 40

BP ≤ 130/80

If Afib, heart rate ≤ 80

If Afib, presence of an anticoagulant

Tobacco free

Child Diabetes

0 – < 13 years

Process Measures:

BP exam

HgA1C exam

Outcome Measures:

BP < 130/80

HgA1C ≤ 8.5

Colorectal Cancer Screening

50 – 75 years

Process Measures:

Colonoscopy (every 10 years) -OR-

CT Colonography (every 5 years) -OR-

Double Contrast Barium Enema (every 5 years) -OR-

Fecal Immunochemical-based testing (FIT) -OR-

Flexible Sigmoidoscopy (every 5 years) -OR-

FOBT

Coronary Artery Disease

18 – 75 years

Process Measures:

Beta-blocker therapy in patients with history of MI

BMI

BP exam

LDL exam (every 15 months)

Outcome Measures:

BP < 140/90

Daily ASA

LDL < 100

Tobacco free

"Optimal Vascular Care"

Adult Diabetes

18 – 75 years

Process Measures:

BP exam

Diabetic foot exam

HgA1C exam

LDL exam

Microalbumin exam

Retinal exam

Outcome Measures:

BP< 140/90

HgA1C < 8

LDL < 100

Tobacco free

"Optimal Diabetes Care"

Daily ASA if presence of IVD

Adolescent Diabetes

13 – <18 years

Process Measures:

BP exam

HgA1C exam

Microalbumin exam

Outcome Measures:

BP < 130/80

HgA1C ≤ 8

Adult Hypertension

18 years and older

Process Measures:

ACEi/ARB therapy if GFR < 60

BP exam

Outcome Measures:

BP < 140/90

Child & Adolescent Hypertension

< 18 years

Process Measures:

BMI

BP exam

Fasting blood glucose

Serum Creatinine

Total cholesterol exam

Urine analysis/microalbumin

Outcome Measures:

BP ≤ 120/80

Fasting blood glucose ≤ 100

Total Cholesterol ≤ 200

Adult & Adolescent Immunizations

> 11 years

Process Measures:

Herpes Zoster if > 60, (once)

Human Papilloma Vaccine (HPV) if female ages 18-26 (3 doses, ever)

Influenza-A (Flu Vaccine)

Pneumococcal if > 65, (once every 10 years)

Tetanus, diphtheria and acellular pertussis (Td/Tdap) (once every 10 years)

Varicella (VZV) (2 doses, ever)

Child Immunizations

0 – 2 years

Process Measures (by the 2nd birthday):

4 Diphtheria, tetanus and pertussis (DTaP)

3 Haemophilus influenza type B (HIB)

2 Hepatitis A (Hep-A)

3 Hepatitis B (Hep-B)

2 Influenza A (Flu Vaccine) (annually)

1 Measles, mumps, rubella (MMR)

4 Pneumococcal vaccine

3 Polio vaccine (IPV)

1 Varicella/chicken pox (VZV)

Vitals

All Ages

Process Measures:

Total Blood Pressure

Height

Weight

BMI

HDL

LDL

GFR

Serum creatinine

Triglycerides

Fasting Blood Glucose

Tobacco use indicated

Tobacco free

Total cholesterol

Tobacco

< 13 years

Process Measures:

Tobacco Assessment

Advised to quit

Willing to quit

Counseling/assistance given

Follow-up scheduled

Clinical Suites

Chronic diseases, such as diabetes, hypertension and coronary artery disease, are the dominant drivers of morbidity in today's health care environment. Blue Cross Blue Shield of North Dakota (BCBSND) believes that cost-effective chronic disease management will have the greatest effect on the long-term health of North Dakotans and the cost of health care for the entire state. That's why all patients will be a part of the MediQHome quality program, regardless of the patient's health insurance coverage.

The program measures are clinically relevant and endorsed by the National Quality Forum and the National Committee for Quality Assurance. The Care Center will initially track asthma, attention deficit hyperactivity disorder (ADHD), breast cancer screening, cervical cancer screening, chronic heart failure, colon cancer screening, coronary artery disease, adult and pediatric diabetes, adult and pediatric hypertension and adult and pediatric immunizations.

Table of Contents

- 3 Asthma
- 5 Attention deficit hyperactivity disorder (ADHD)
- 7 Breast cancer screening
- 9 Cervical cancer screening
- 11 Chronic heart failure
- 13 Colorectal cancer screening
- 15 Coronary artery disease
- 17 Diabetes
  - adult
  - adolescent
  - child
- 23 Hypertension
  - adult
  - child and adolescent
- 27 Immunizations
  - adult and adolescent
  - child

Asthma

The American Medical Association (AMA) describes asthma as a chronic respiratory disease that places a considerable burden on those affected and results in substantial morbidity and use of health care services. The AMA estimates more than 30 million people in the United States have been diagnosed with asthma, with 12 million experiencing an asthma attack in the previous year.

Purpose of the Clinical Suite

The purpose of the Asthma Clinical Suite is to aid in the management of patients with asthma by identifying and tracking the severity of asthma and ensuring the provision of appropriate evidence-based pharmacological interventions. These interventions have been clinically proven to reduce the risk of worsening or acute exacerbation of asthma.

Clinical Suite Measures

The Asthma Clinical Suite is designed to capture the process and outcome measures that are relevant for successful treatment of patients with asthma.

This suite will be reported for patients ages 5 to 50 as follows:

Process measures (once per 12-month program period)

- Asthma severity classified using the National Asthma Education & Prevention Program guidelines:
  - Intermittent
  - Mild persistent
  - Moderate persistent
  - Severe persistent
- Inhaled corticosteroid – patients with persistent asthma (moderate to severe) are prescribed a long-term control medication (inhaled corticosteroid) or alternative steroid sparing control medication
- Inhaled short-acting beta-agonist – patients with persistent (all grades) asthma are prescribed a short-acting beta-agonist

The following exclusions have been defined for the suite:

Asthma

- Allergic disease without lower airway involvement
- COPD or emphysema
- Allergy to inhaled steroid or beta-agonist
- Patient refusal for economic, religious or social reasons

Attention Deficit Hyperactivity Disorder (ADHD)

The American Medical Association emphasizes that people with ADHD experience substantial impairment in peer, family and academic functioning and that a diagnosis of ADHD is associated with significant educational and social impairment, an increased risk of accident and injury, and increased use of health care resources. Research continues to show that ADHD should be managed in a manner similar to other childhood chronic conditions.

Purpose of the Clinical Suite

The purpose of the ADHD Clinical Suite is to monitor the appropriate diagnosis and treatment of these patients. Follow-up care is considered as important as the initiation of the care and should be equally monitored.

Clinical Suite Measures

The ADHD Clinical Suite is designed to capture the process measures associated with the appropriate diagnosis, treatment and follow-up of these patients. The guidelines have been adopted from the National Quality Forum and the Institute for Clinical Systems Improvement.

This suite will be reported for patients younger than 18 as follows:

Process Measures

- 2 Body Mass Index (BMI) documented in the medical record within the reporting period

No exclusions have been defined for this suite.

Breast Cancer Screening

Breast cancer is the most common female cancer in the United States and the second most common cause of cancer death in women. Several risk factors have been identified, the most important of which are family history and endogenous as well as exogenous hormonal factors.

Purpose of the Clinical Suite

The purpose of the Breast Cancer Screening Clinical Suite is to increase screening compliance of female patients ages 50 to 74 to allow for early detection and treatment of breast cancer.

Clinical Suite Measures

The Breast Cancer Screening Clinical Suite is designed to capture the process measures that are relevant for successful breast cancer screening of female patients.

This suite will be reported on female patients ages 50 to 74 as follows:

- Mammogram: checked and reported once in a 12-month program period or one year prior OR
- Breast MRI: checked and reported once in a 12-month program period or one year prior OR
- Breast-specific gamma imaging (Scintamammogram): checked and reported once in a 12-month program period or one year prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

The following exclusions have been defined for the suite:

- Absence of both breasts
- Patient refusal for economic, religious or social reasons

Cervical Cancer Screening

The National Cancer Institute estimated that in 2008 more than 11,000 U.S. women would be diagnosed with cervical cancer and 3,800 of these women would die of the disease. Efforts to increase the number of women who get Pap tests has led to a 70 percent decrease in the number of cervical cancer cases since the test was introduced in the 1950s.

Purpose of the Clinical Suite

The purpose of the Cervical Cancer Screening Clinical Suite is to increase the cervical cancer screening rates in female patients ages 21 to 65 to allow for early detection and treatment of cervical cancers.

Clinical Suite Measures

The Cervical Cancer Screening Clinical Suite is designed to capture the process measure of Pap test exams in female patients.

This suite will report on female patients ages 21 to 65 as follows:

- Pap Test: checked and reported once in a 12-month program period or two years prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

The following exclusions have been defined for the suite:

- Hysterectomy
- Patient refusal for economic, religious or social reasons

Chronic Heart Failure

An aging population and modern therapeutic innovations that prolong the lives of cardiac patients have made chronic heart failure (CHF) more common. Despite improvements in therapy, the mortality rate in patients with CHF is high.

Purpose of the Clinical Suite

The purpose of the Chronic Heart Failure Clinical Suite is to identify and comprehensively manage patients with chronic heart failure by pinpointing and tracking interventions that have been clinically proven to reduce the risk of developing complications.

Clinical Suite Measures

The Chronic Heart Failure Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful treatment of patients with CHF.

This suite will be reported on patients ages 18-75 as follows:

Process Measures

- Ejection fraction (checked and reported once within 24-month reporting period)
- Serum Creatinine (checked and reported once within 12-month reporting period)
- Blood pressure exam
- Pulse exam

Outcome Measures

- Blood pressure (BP) ≤ 130/80 (most recent)
- If presence of Atrial Fibrillation, heart rate ≤ 80 (most recent)
- Tobacco free
- Presence of ACEi/ARB therapy when Left Ventricular Function (LVF) ≤ 40%
- Presence of Beta-blocker therapy when LVF is ≤ 40%
- If presence of Atrial Fibrillation, patient is on an anticoagulant*.

The following exclusions have been defined for the suite:

Anticoagulant

- Allergy to medication
- Contraindication to anticoagulation
- Patient refusal for economic, religious or social reasons

ACEi/ARB

- Allergy to ACEi *and* ARB
- Moderate to severe aortic stenosis
- Patient refusal for economic, religious or social reasons**Beta Blocker**

- Allergy to beta blocker
- Contraindication to use
- Patient refusal due to economic, religious or social reasons

Colorectal Cancer Screening

Colorectal cancer is a common and lethal disease, with the risk of development being influenced by both environmental and genetic factors. According to the American Medical Association, screening exams can reduce the mortality rate from this disease by at least 30 percent.

Purpose of the Clinical Suite

The purpose of the Colorectal Cancer Screening Clinical Suite is to increase screening rates for colorectal cancer in patients to reduce the morbidity and mortality associated with this condition.

Clinical Suite Measures

The Colorectal Cancer Screening Clinical Suite is designed to capture the process measures that are relevant to successful colorectal cancer screening of patients.

This suite will be reported on patients ages 50 to 75 as follows:

- Fecal Occult Blood Test (FOBT): checked and reported once in a 12-month program period OR
- Fecal Immunochemical-based testing (FIT): checked and reported once in a 12-month program period OR
- Flexible Sigmoidoscopy: checked and reported once in a 12-month program period or four years prior OR
- Double Contrast Barium Enema (DCBE): checked and reported once in a 12-month program period or four years prior OR
- Colonoscopy: checked and reported once in a 12-month program period or nine years prior OR
- CT Colonography: checked and reported once in a 12-month program period or four years prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

Claims data for BCBSND members will be available in patient care summary reports and identified as data from claims.

The following exclusions have been defined for the suite:

- History of a total colectomy
- Patient refusal for economic, religious or social reasons

Coronary Artery Disease

Coronary artery disease (CAD), which includes coronary heart disease (CHD), stroke and peripheral vascular disease, is the leading cause of death in the United States and accounts for more than 900,000 deaths annually. The American Heart Association identifies the following major modifiable risk factors for coronary heart disease: smoking, hypertension, dyslipidemia, physical inactivity, obesity and diabetes.

Purpose of the Clinical Suite

The purpose of the Adult Stable Coronary Artery Disease Clinical Suite is to aid in the identification of patients with known CAD and provide a platform for the identification and management of the major risk factors associated with progression of CAD. The suite also identifies and tracts interventions that have been clinically proven to reduce the risk of complications associated with CAD.

Clinical Suite Measures

The Adult Stable Coronary Artery Disease Clinical Suite is designed to capture the process and intermediate outcome measures that are relevant to the successful management of patients age 18-75 with a diagnosis of CAD, including obstructive and non-obstructive CAD. The intermediate outcome measures are risk-adjusted to reflect underlying co-existing clinical conditions that affect treatment. The measures adopted, with the exception of optimal vascular care combined intermediate measure, are congruent with the AHA endorsed Chronic Stable Coronary Artery Disease Clinical Performance Measures.

This suite will be reported on patients ages 18-75 as follows:

Process Measures *(checked and reported once per reporting period)*

- Body Mass Index (BMI)
- LDL exam
- Beta-blocker therapy in patients with history of myocardial infarction (MI)
- Blood pressure exam

Outcome Measures

- BP < 140/90
- Most recent LDL < 100
- Patient is tobacco free
- Daily aspirin therapy *
- Optimal vascular care**

The following exclusions have been defined for the measure:

Aspirin

- Asthma
- Active bleeding/history of ASA - induced bleeding
- Allergy/anaphylaxis to medication
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

Beta-blocker therapy

- Allergy/anaphylaxis to medication
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

NOTE: No exclusions for tobacco status should exist in terms of reporting purposes.

American Medical Association: www.ama-assn.org

*Plavix, Ticlid and Aggrenox will be considered equivalent to aspirin and an exclusion for aspirin will be considered legitimate exclusion for other antiplatelet agents.

**Optimal vascular care is defined as BP < 140/90 for patients with IVD *and* LDL < 100 *and* tobacco free *and* daily aspirin use if appropriate. This combined intermediate outcome measure is being adopted unchanged from the Minnesota Community Measure Project.

Diabetes, Adult

Diabetes is considered the fifth deadliest disease in the United States, according to the American Medical Association. It is associated with microvascular and macrovascular disease and accounts for almost 14 percent of U.S. health care expenditures, at least half of which are related to complications, such as myocardial infarction, stroke, end-stage renal disease, retinopathy and foot ulcers.

Purpose of the Clinical Suite

The purpose of the Adult Diabetes Clinical Suite is to aid in the management of patients with diabetes by identifying and tracking the major clinical factors associated with outcomes in diabetes. The suite also identifies and tracks additional clinical data that have been shown to reduce the risk of complications associated with poor management in this high-risk group of patients.

Clinical Suite Measures

The Adult Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on patients ages 18-75 as follows:

Process Measures *(within the 12-month reporting period)*

- Blood pressure exam
- Diabetic foot exam
- Hemoglobin A1C (HgA1C) exam
- Low-density lipoprotein (LDL) exam
- Microalbumin exam
- Retinal exam

Outcome Measures

- Blood pressure (BP) < 140/90 (most recent)
- HgA1C < 8% (most recent)
- LDL < 100mg/dL (most recent)
- Patient is tobacco free
- "Optimal Diabetes Care"*

The following exclusions have been defined for the measure:

Microalbumin Exam

- Renal replacement therapy
- Diagnosis of nephropathy
- Macroscopic proteinuria
- Renal insufficiency
- Patient refusal for economic, religious or social reasons

Retinal Exam

- Blindness
- Diagnosis of retinopathy
- No retinopathy-exam deferred to next year
- Patient refusal for economic, religious or social reasons

* "Optimal Diabetes Care" is defined as HgA1C < 8 *and* LDL <100 *and* BP < 140/90 *and* tobacco free.

Diabetes, adolescent

Recent Blue Cross Blue Shield of North Dakota (BCBSND) research shows the incidence and prevalence of childhood diabetes continue to rise. Most significant is the rise in Type 2 diabetes. This data emphasizes the need for early detection and prevention of diabetes and its co-morbid conditions.

Purpose of the Clinical Suite

The purpose of the Adolescent Diabetes Clinical Suite is to aid in the management of patients age less than 18 who have diabetes by identifying and tracking the major clinical factors associated.

This clinical suite is designed to improve the detection, evaluation and management of diabetes complications in children and adolescents by tracking clinical and non-clinical factors, based on age stratification, that have an effect on the successful management of this condition.

Clinical Suite Measures

The Adolescent Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on the American Diabetes Association (ADA) 2008 recommendations:

Age 13 – <18 years:

Process Measures *(within the 12-month reporting period)*

- Blood pressure exam
- HgA1C exam
- Microalbumin exam

Outcome Measures

- BP ≤ 130/80 (most recent)
- HgA1C ≤ 8% (most recent)

The following exclusions have been defined for the suite:

Microalbumin Exam

- Renal replacement therapy
- Diagnosis of nephropathy
- Macroscopic proteinuria
- Renal insufficiency
- Patient refusal for economic, religious or social reasons

Diabetes, child

Recent Blue Cross Blue Shield of North Dakota (BCBSND) research shows the incidence and prevalence of childhood diabetes continue to rise. Most significant is the rise in Type 2 diabetes. This data emphasizes the need for early detection and prevention of diabetes and its co-morbid conditions.

Purpose of the Clinical Suite

The purpose of the Child Diabetes Clinical Suite is to aid in the management of patients younger than 13 who have diabetes by identifying and tracking the major clinical factors associated.

This clinical suite is designed to improve the detection, evaluation and management of diabetes complications in children and adolescents by tracking clinical and non-clinical factors, based on age stratification, that have an effect on the successful management of this condition.

Clinical Suite Measures

The Child Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on the American Diabetes Association (ADA) 2008 recommendations:

Age 0 – < 13 years:

Process Measures *(within the 12-month reporting period)*

- Hemoglobin A1C (HgA1C) exam
- Blood pressure exam

Outcome Measures

- HgA1C ≤ 8.5% (most recent)
- Blood pressure (BP) < 130/80 (most recent)

No exclusions have been defined for this suite.

Hypertension, adult

Hypertension is a major independent, modifiable risk factor for the development of CAD, stroke and renal failure. At least 65 million adult Americans, or nearly one-fourth of the adult population of the United States, have hypertension. The risk of cardiovascular disease in the patient with hypertension can be greatly reduced with effective hypertension management.

Purpose of the Clinical Suite

The Adult Hypertension Suite is designed to improve the detection, evaluation and management of hypertension in patients 18 and older. The suite also identifies and tracks interventions that have been clinically proven to reduce the risk of developing complications associated with poor hypertension control.

Clinical Suite Measures

The Adult Hypertension Clinical Suite is designed to capture the process and intermediate clinical outcome measures that are relevant to the successful management of patients 18 and older with known hypertension (Stage I or II). The intermediate outcomes measures being tracked are risk-adjusted based on the presence or absence of chronic kidney disease (CKD), defined as an estimated glomerular filtration rate (eGFR) of less than 60 mL/min, the presence thereof, significantly impacting patient management. In addition, the suite will track patient demographics, associated laboratory values, medications and laboratory values associated with the management of these patients.

The Adult Hypertension Suite will be activated only within the Care Center in instances where blood pressure control is not being tracked as an intermediate outcomes measure in another suite, such as diabetes or chronic heart failure. In the event where blood pressure control is being tracked as an intermediate outcomes measure in another suite, that suite's measures will reflect the patient's hypertension control.

The suite will report patients 18 and older who have been diagnosed with hypertension (Stage I & II) as follows:

Process Measures

- Annual blood pressure (BP) measurement
- ACEi/ARB therapy if GFR < 60
- Blood pressure exam

Outcome Measures

- BP < 140/90 or BP < 130/80 if GFR < 60 or microalbumin exclusion

The following exclusions have been defined for the suite:

Microalbumin

- Renal replacement therapy
- Macroscopic proteinuria
- Chronic renal failure

ACEi

- ACEi Allergy
- Hypotension
- Cough
- Patient intolerance
- Aortic Stenosis
- Patient refusal for economic, religious or social reasons

ARB

- ARB Allergy
- Hypotension
- Patient intolerance
- Aortic Stenosis
- Patient refusal for economic, religious or social reasons

The measures above will allow treating physicians the ability to identify additional co-morbidities, as well as clinical factors that may impact treatment decisions, thus allowing for a more comprehensive management plan for individual patients.

Hypertension, child and adolescent

The American Heart Association reports that high blood pressure in childhood can be a major predictor of chronic high blood pressure in adulthood. The AHA goes on to state that elevated blood pressure (prehypertension and hypertension) can lead to a number of more serious health problems and affects about 60 percent of American children and adolescents.

Purpose of the Clinical Suite

The Child and Adolescent Hypertension Suite is designed to improve the early detection of hypertension in patients who are 18 years and younger. The suite also tracks risk factors for associated co-morbidities such as hyperglycemia, obesity and hyperlipidemia.

Clinical Suite Measures

The Child and Adolescent Hypertension Clinical Suite is designed to capture the process and intermediate clinical outcome measures that are relevant to the successful management of patients younger than 18 with known hypertension (Stage I or II, as established by the National High Blood Pressure Education Program).

The Child and Adolescent Hypertension Suite will only be activated within the Care Center in instances where blood pressure control is not being tracked as an intermediate outcomes measure in another suite. In the event where blood pressure control is being tracked as an intermediate outcomes measure in another suite, that suite's measures will reflect the patient's hypertension control.

The suite will report patients with a diagnosis of hypertension (Stage I & II) who are younger than 18 as follows:

Process Measures

- Annual blood pressure (BP) measurement
- Annual body mass index (BMI) calculation
- Annual urine analysis/microalbumin
- Annual serum creatinine
- Annual fasting blood glucose
- Annual total cholesterol exam

Outcome Measures

- BP ≤ 120/80*
- Total cholesterol ≤ 200
- Fasting blood glucose ≤ 100

The following exclusions have been defined for the measure:

Microalbumin

- Renal replacement therapy
- Macroscopic proteinuria
- Chronic renal failure
- Patient refusal for economic, religious or social reasons

National Kidney Disease Education Program:
www.nkdep.nih.gov

* The complexity of defining hypertension in children necessitates an elective decision to define hypertension in this age group to a chronic elevation in blood pressure above 120 systolic and/or 80 diastolic.

Immunizations, adult and adolescent

Technology has allowed an array of vaccines to be developed. Disease prevention provides both health benefits and helps control the rising cost of medical care. Adult immunizations are heavily related to the co-morbid conditions of the patient.

Purpose of the Clinical Suite

The purpose of the Adult Immunizations Clinical Suite is to encourage all adults to have immunizations recommended by the Centers for Disease Control and Prevention (CDC).

Clinical Suite Measures

The Adult Immunizations Clinical Suite is designed to show care opportunities for adult immunizations recommended by the CDC.

This suite will be reported for patients older than 11 on the CDC guidelines as follows:

Process Measures

- Influenza-A (Flu Vaccine): 1 in the past 12-month reporting period
- Tetanus, diphtheria and acellular pertussis (Td/Tdap): 1 booster every 10 years
- Varicella (VZV): 2 doses, ever
- Human Papilloma Vaccine (HPV): female patients 18 to 26 with 3 HPV before 26th birthday
- Herpes Zoster Vaccination: 1 for patients 60 and older, ever
- Pneumococcal Vaccine: 1 for patients older than 65, 1 every 10 years

NOTE: These standards are recommended for the average healthy adult patient. Certain disease states may require modifications to these recommendations.

The following exclusions have been defined for the suite:

All immunizations

- Anaphylactic reaction to the vaccine or its components
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

Immunizations, child

Technology has allowed an array of vaccines to be developed. Disease prevention provides health benefits and helps control the rising cost of medical care.

Purpose of the Clinical Suite

The purpose of the Childhood Immunizations Clinical Suite is to encourage all children and adolescents to receive immunizations recommended by the Centers for Disease Control and Prevention (CDC), while taking into consideration the social, economic and religious preferences of each child's parents.

Clinical Suite Measures

The Childhood Immunizations Clinical Suite is designed to show the care opportunities for immunizations for the child and adolescent population as recommended by the CDC. The complexity of clinical risk-adjustment and application of the CDC immunization recommendations necessitates that only general guidelines be applicable to the average healthy child.

This suite will be reported on the CDC guidelines as follows:

Children birth to 2

Process Measures *(to be completed on or before the second birthday)*

- 4 Diphtheria, tetanus and pertussis (DTaP)
- 3 Polio vaccine (IPV)
- 1 Measles, mumps, rubella (MMR)
- 3 Haemophilus influenza type B (HIB)
- 3 Hepatitis B (Hep-B)
- 1 Varicella/chicken pox (VZV)
- 4 Pneumococcal vaccine
- 2 Hepatitis A (Hep-A)
- 2 Influenza-A, annually

The following exclusions have been defined for the suite:

All immunizations

- Anaphylactic reaction to the vaccine or its components
- Medical contraindication to use
- Parent refusal for economic, religious or social reasons

Pharmacy Carve-In

Study Shows Advantages of Carve-in Pharmacy Benefits

FACT SHEET

BlueCross BlueShield Association

Accounts purchasing health insurance products can choose between packages with integrated medical and pharmacy benefits or those with separate medical and pharmacy benefits. Health insurance products with integrated medical and pharmacy benefits are defined as having carve-in pharmacy benefits, while health insurance products with separate medical and pharmacy benefits are defined as having carve-out pharmacy benefits. Both carve-in and carve-out pharmacy benefit programs may include clinical and cost-saving components such as mail order pharmacy services, specialty pharmacy services, formulary management, prescription drug utilization review and disease management programs.

Carve-In Program	Carve-Out Program
May include services such as mail-order and specialty pharmacy services, formulary management, drug utilization review and care management. Plan may use a pharmacy benefit manager (PBM), but PBM is integrated with health plan.	May include services such as mail-order and specialty pharmacy services, formulary management, drug utilization review and care management. Pharmacy benefits manager contracts separately with account to provide services.
Health plan **HAS DIRECT ACCESS** to pharmacy data.	Health plan **DOES NOT HAVE DIRECT ACCESS** to pharmacy data.
Health plan **CONTROLS** copayments, drug benefit tiers and formulary.	Health plan **DOES NOT CONTROL** copayments, drug benefit tiers and formulary.

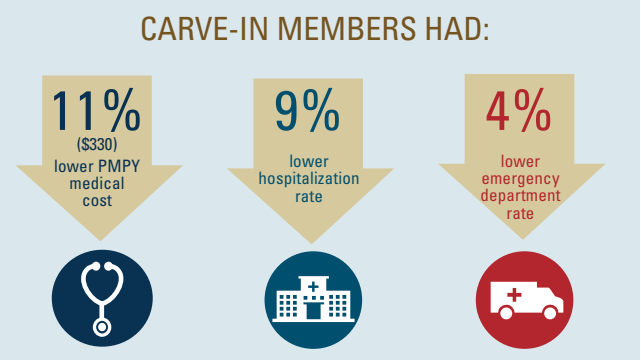
Study Overview

The Blue Cross Blue Shield Association commissioned a study comparing the medical costs of members with carve-in pharmacy benefits with those of members with carve-out pharmacy benefits, as well as the rate of hospitalization and emergency department visits for members in both types of plans. In July 2013, Prime Therapeutics, a pharmacy benefits management company owned by a consortium of Blue Plans, conducted the study. The Prime Therapeutics health outcomes team compared the medical costs, hospital admissions and emergency department visits in 2010 and 2011 for **1.8 million Blue members in self-funded plans** administered by **25 Blue Plans**. Members were **roughly evenly divided between carve-in and carve-out plans** and were **matched by age, gender and geographic region**.

KEY RESULTS

The study indicated that members with carve-in pharmacy benefits had lower per member per year (PMPY) medical costs, fewer hospitalizations and fewer emergency department visits.

Results were consistent with those of three regional Blue studies comparing medical costs for carve-in and carve-out members.[1-3]



Blue Cross Blue Shield Association is an association of independent Blue Cross and Blue Shield companies.

ANALYSIS

The lower medical costs for members with carve-in pharmacy benefits may be due to one or more factors, including:

- Integration of medical and pharmacy data in carve-in arrangements enables health plans to take a **holistic approach to controlling medical costs**, in which prescription drug costs are considered in the context of effective overall management of the patient's condition.[4]
- Plans can design the prescription drug formulary to include medications that result in the **best overall clinical outcomes,** instead of designing the formulary based solely on cost or rebates.
- Pharmacy data available through carve-in pharmacy benefits **improves healthcare coordination and data integration**, thus enabling providers to offer quicker and more targeted health interventions to patients.[5-6]
- Carve-in health plans can design the prescription drug benefit to encourage appropriate utilization by therapeutic class, instead of designing the benefit to drive use of the most profitable drugs. Lowering copayments have been shown to increase medication adherence but raising copayments too high may increase medication abandonment and effectively combining these strategies may contribute to lower medical costs.[7] **Lower copayments have been shown to increase member compliance with drug therapy**.[8-10]

For more detailed study information, please contact your Blue Cross Blue Shield Plan.

STUDY DESIGN

- Used de-identified Blue Health Intelligence®[11] data on 1.8 million members under age 65 in 25 Blue Plans for 2011 and 2012. Members who had changes in benefit design or who had lapses in coverage were excluded from the study.
- Compared medical costs, hospitalization rates, and emergency department visit rates for 818,054 carve-in and 1,042,029 carve-out members.
- Used a general linear model with gamma distribution to measure the difference in average PMPY total medical costs between carve-in and carve-out patients and a multivariate logistic regression model to compare the percentage of carve-in and carve-out members who were hospitalized or visited the emergency department.
- These methods were used to adjust for baseline differences in member age, gender, diagnostic cost group scores, presence of one or more of six chronic diseases, insurance product type, urban or rural geographic region, and group size.

Introduction

Formulary

The goal of the Blue Cross Blue Shield of North Dakota (BCBSND) formulary is to provide our members broad access to drugs and supplies at a reasonable overall cost. The BCBSND Drug Formulary is the list of products (drugs and supplies) that reflect the current recommendations of the BCBSND Pharmacy & Therapeutics (P&T) Committee. The formulary is intended for use in the ambulatory setting. Drugs are selected for addition to the formulary after considering safety, efficacy, uniqueness, and market considerations. **Providers are encouraged to prescribe formulary drugs.**

Benefits are not limited to the drugs on this formulary list. Products not listed in this formulary are non-formulary (NF). Exception: most diabetic supplies are covered at the highest benefit for plans that cover them. The P&T committee may choose to not add a drug or remove a drug from formulary for reasons including safety or efficacy concerns, or because a clinically similar, more cost-effective drug is already on formulary. Newly marketed drugs are non-formulary until reviewed by the P&T Committee. The entire formulary is reviewed annually by the P&T Committee. This formulary list is subject to change. **Drug coverage is dependent on individual plan benefits**.

Members

To save the most money on prescription drugs, take this Formulary with you each time you visit your physician. Consider asking your physician to prescribe drugs listed in this Formulary, if appropriate. Any and all decisions that require or pertain to independent professional medical judgment or training, or the need for, and dosage of, a prescription drug, must be made solely by you and your physician in accordance with the patient/physician relationship.

The current version and recent changes to this Formulary is available at the BCBSND website at **www.bcbsnd.com** or by calling the customer service number listed on your identification card. **Online pharmacy tools** are available through the Prime Therapeutics® website at **www.MyPrime.com**. BCBSND members can find drug cost estimates or check if a particular drug is on the BCBSND formulary.

Under some circumstances, formulary drugs may be excluded from coverage under the drug benefit (e.g., oral contraceptives, nicotine replacement therapy, Retin-A, various injectables, etc.). In all cases, plan inclusions/exclusions determine specific coverage regardless of formulary status. Drugs not listed are non-formulary. Exception: most diabetic supplies are covered at the highest benefit level for plans that cover them. However, only the preferred products are included on this list.

Providers

Generic Utilization

The BCBSND Committee encourages generic utilization as a way to provide high-quality drugs at a reduced cost. By prescribing drugs listed in this formulary that are available generically, you are providing a product that can be expected to have the same effectiveness and safety profile as the brand product while lowering overall medical insurance costs for your patients. In addition, your patient will likely have a lower cost share for generic drugs because most benefit plans are based on a tiered or brand/generic copayment and coinsurance structure.

Prior Approval

Use of some products identified by **PA** may be approved only after certain criteria are met. If prior approval is not obtained, benefits may be denied. A physician (or clinic personnel) should submit a written request to the address shown below for prior approval consideration. The Prior Approval Request form is available at https://www.thorconnect.org/docs/wcmd_014232.pdf. A list of the products requiring prior approval may be found at **www.bcbsnd.com** under pharmacy.

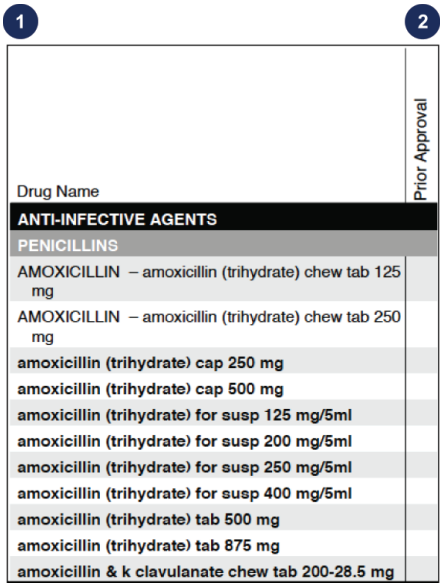
Fargo, ND 58121

How to use this list

The Formulary is organized into broad categories (e.g. Anti-Infective drugs). Within most categories, drugs are sub-grouped by drug class (e.g. Penicillins) or by use for a specific medical condition (e.g. Diabetes). These categories can help determine which specific product is on formulary.



1. The first column of the chart lists the drug name. Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

   Brand prescription drugs are shown in capital letters followed by the generic name.

2. The second column indicates the Utilization Management (UM) program(s) that apply to the prescription drug (e.g., Prior Approval). If an indicator is present in the column(s), then the UM program noted is possibly applied to your benefit. Some plans may have UM on additional medications beyond those noted in this document.

Abbreviation/acronym key

caps.....capsules
chew.....chewable
conc.....concentrate

cephalexin cap 500 mg (Keflex)	
cephalexin for susp 125 mg/5ml	
cephalexin for susp 250 mg/5ml	
SUPRAX – cefixime tab 400 mg	
SUPRAX – cefixime for susp 100 mg/5ml	
SUPRAX – cefixime for susp 200 mg/5ml	
SUPRAX – cefixime for susp 500 mg/5ml	

Drug Name	Prior Approval
MACROLIDES	
AZITHROMYCIN – azithromycin powd pack for susp 1 gm	
azithromycin for susp 100 mg/5ml (Zithromax)	
azithromycin for susp 200 mg/5ml (Zithromax)	
azithromycin tab 250 mg (Zithromax)	
azithromycin tab 500 mg (Zithromax)	
azithromycin tab 600 mg (Zithromax)	
clarithromycin for susp 125 mg/5ml	
clarithromycin for susp 250 mg/5ml (Biaxin)	
clarithromycin tab sr 24hr 500 mg (Biaxin xl pac)	
clarithromycin tab 250 mg (Biaxin)	
clarithromycin tab 500 mg (Biaxin)	
E.E.S. 400 – erythromycin ethylsuccinate tab 400 mg	
ERY-TAB – erythromycin tab delayed release 250 mg	
ERY-TAB – erythromycin tab delayed release 333 mg	
ERY-TAB – erythromycin tab delayed release 500 mg	
ERYTHROCIN STEARATE – erythromycin stearate tab 250 mg	
ERYTHROMYCIN BASE – erythromycin tab 250 mg	
ERYTHROMYCIN BASE – erythromycin tab 500 mg	
ERYTHROMYCIN ETHYLSUCCINA – erythromycin ethylsuccinate tab 400 mg	
erythromycin w/ delayed release particles cap 250 mg	
ZITHROMAX – azithromycin powd pack for susp 1 gm	
TETRACYCLINES	
demeclocycline hcl tab 150 mg	
demeclocycline hcl tab 300 mg	
doxycycline hyclate cap 100 mg (Vibramycin)	
doxycycline hyclate cap 50 mg	
doxycycline hyclate tab 100 mg	
doxycycline hyclate tab 20 mg	

Drug Name	Prior Approval
doxycycline monohydrate cap 100 mg (Monodox)	
doxycycline monohydrate cap 150 mg (Adoxa)	
doxycycline monohydrate cap 50 mg	
doxycycline monohydrate cap 75 mg (Monodox)	
doxycycline monohydrate tab 100 mg (Adoxa pak 1/100)	
doxycycline monohydrate tab 150 mg (Adoxa pak 1/150)	
doxycycline monohydrate tab 50 mg (Adoxa)	
doxycycline monohydrate tab 75 mg (Adoxa)	
minocycline hcl cap 100 mg (Minocin)	
minocycline hcl cap 50 mg (Minocin)	
minocycline hcl cap 75 mg (Minocin)	
minocycline hcl tab 100 mg	
minocycline hcl tab 50 mg	
minocycline hcl tab 75 mg	
TETRACYCLINE HCL – tetracycline hcl cap 250 mg	
TETRACYCLINE HCL – tetracycline hcl cap 500 mg	
FLUOROQUINOLONES	
CIPRO – ciprofloxacin for oral susp 250 mg/5ml (5%) (5 gm/100ml)	
CIPRO – ciprofloxacin for oral susp 500 mg/5ml (10%) (10 gm/100ml)	
ciprofloxacin hcl tab 100 mg (base equiv)	
ciprofloxacin hcl tab 250 mg (base equiv) (Cipro)	
ciprofloxacin hcl tab 500 mg (base equiv) (Cipro)	
ciprofloxacin hcl tab 750 mg (base equiv)	
ciprofloxacin-ciprofloxacin hcl tab sr 24hr 1000 mg(base eq) (Cipro xr)	
ciprofloxacin-ciprofloxacin hcl tab sr 24hr 500 mg (base eq) (Cipro xr)	
levofloxacin oral soln 25 mg/ml (Levaquin)	
levofloxacin tab 250 mg (Levaquin)	
levofloxacin tab 500 mg (Levaquin)	
levofloxacin tab 750 mg (Levaquin)	
ofloxacin tab 200 mg	

Drug Name	Prior Approval
ofloxacin tab 300 mg	
ofloxacin tab 400 mg	
AMINOGLYCOSIDES	
neomycin sulfate tab 500 mg	
paromomycin sulfate cap 250 mg	
tobramycin nebu soln 300 mg/5ml (Tobi)	
TUBERCULOSIS	
ethambutol hcl tab 100 mg (Myambutol)	
ethambutol hcl tab 400 mg (Myambutol)	
ISONIAZID – isoniazid syrup 50 mg/5ml	
isoniazid & rifampin cap 150-300 mg	
isoniazid tab 100 mg	
isoniazid tab 300 mg	
PRIFTIN – rifapentine tab 150 mg	
pyrazinamide tab 500 mg	
rifabutin cap 150 mg (Mycobutin)	
RIFAMATE – isoniazid & rifampin cap 150-300 mg	
rifampin cap 150 mg (Rifadin)	
rifampin cap 300 mg (Rifadin)	
FUNGAL INFECTIONS	
fluconazole for susp 10 mg/ml (Diflucan)	
fluconazole for susp 40 mg/ml (Diflucan)	
fluconazole tab 100 mg (Diflucan)	
fluconazole tab 150 mg (Diflucan)	
fluconazole tab 200 mg (Diflucan)	
fluconazole tab 50 mg (Diflucan)	
flucytosine cap 250 mg (Ancobon)	
flucytosine cap 500 mg (Ancobon)	
griseofulvin microsize susp 125 mg/5ml	
griseofulvin microsize tab 500 mg (Grifulvin v)	
itraconazole cap 100 mg (Sporanox)	
LAMISIL – terbinafine hcl oral granules packet 125 mg	
LAMISIL – terbinafine hcl oral granules packet 187.5 mg	

Drug Name	Prior Approval
NOXAFIL – posaconazole susp 40 mg/ml	•
nystatin tab 500000 unit	
terbinafine hcl tab 250 mg (Lamisil)	
voriconazole for susp 40 mg/ml (Vfend)	•
voriconazole tab 200 mg (Vfend)	•
voriconazole tab 50 mg (Vfend)	•
VIRAL INFECTIONS	
Cytomegalovirus	
VALCYTE – valganciclovir hcl tab 450 mg	
VALCYTE – valganciclovir hcl for soln 50 mg/ml (base equiv)	
Hepatitis	
adefovir dipivoxil tab 10 mg (Hepsera)	
BARACLUDE – entecavir tab 0.5 mg	
BARACLUDE – entecavir tab 1 mg	
BARACLUDE – entecavir oral soln 0.05 mg/ml	
EPIVIR HBV – lamivudine oral soln 5 mg/ml	
lamivudine tab 100 mg (Epivir hbv)	
OLYSIO – simeprevir sodium cap 150 mg (base equivalent)	•
PEGASYS – peginterferon alfa-2a inj 180 mcg/ml	
PEGASYS – peginterferon alfa-2a inj 180 mcg/0.5ml	
PEGASYS – peginterferon alfa-2a inj kit 180 mcg/0.5ml	
PEGASYS PROCLICK – peginterferon alfa-2a inj 135 mcg/0.5ml	
PEGASYS PROCLICK – peginterferon alfa-2a inj 180 mcg/0.5ml	
ribavirin cap 200 mg (Rebetol)	
ribavirin tab 200 mg (Copegus)	
SOVALDI – sofosbuvir tab 400 mg	•
Herpes	
acyclovir cap 200 mg (Zovirax)	
acyclovir susp 200 mg/5ml (Zovirax)	
acyclovir tab 400 mg (Zovirax)	
acyclovir tab 800 mg (Zovirax)	

Drug Name	Prior Approval
famciclovir tab 125 mg (Famvir)	
famciclovir tab 250 mg (Famvir)	
famciclovir tab 500 mg (Famvir)	
valacyclovir hcl tab 1 gm (Valtrex)	
valacyclovir hcl tab 500 mg (Valtrex)	
HIV/AIDS	
abacavir sulfate tab 300 mg (base equiv) (Ziagen)	
abacavir sulfate-lamivudine-zidovudine tab 300-150-300 mg (Trizivir)	
APTIVUS – tipranavir cap 250 mg	
APTIVUS – tipranavir oral soln 100 mg/ml	
ATRIPLA – efavirenz-emtricitabine-tenofovir df tab 600-200-300 mg	
COMPLERA – emtricitabine-rilpivirine-tenofovir df tab 200-25-300 mg	
CRIXIVAN – indinavir sulfate cap 200 mg	
CRIXIVAN – indinavir sulfate cap 400 mg	
didanosine delayed release capsule 125 mg (Videx ec)	
didanosine delayed release capsule 200 mg (Videx ec)	
didanosine delayed release capsule 250 mg (Videx ec)	
didanosine delayed release capsule 400 mg (Videx ec)	
EDURANT – rilpivirine hcl tab 25 mg (base equivalent)	
EMTRIVA – emtricitabine caps 200 mg	
EMTRIVA – emtricitabine soln 10 mg/ml	
EPIVIR – lamivudine oral soln 10 mg/ml	
EPZICOM – abacavir sulfate-lamivudine tab 600-300 mg	
FUZEON – enfuvirtide for inj 90 mg	
INTELENCE – etravirine tab 25 mg	
INTELENCE – etravirine tab 100 mg	
INTELENCE – etravirine tab 200 mg	
INVIRASE – saquinavir mesylate cap 200 mg	

Drug Name	Prior Approval
INVIRASE – saquinavir mesylate tab 500 mg	
ISENTRESS – raltegravir potassium tab 400 mg (base equiv)	
ISENTRESS – raltegravir potassium chew tab 25 mg (base equiv)	
ISENTRESS – raltegravir potassium chew tab 100 mg (base equiv)	
KALETRA – lopinavir-ritonavir tab 100-25 mg	
KALETRA – lopinavir-ritonavir tab 200-50 mg	
KALETRA – lopinavir-ritonavir soln 400-100 mg/5ml (80-20 mg/ml)	
lamivudine tab 150 mg (Epivir)	
lamivudine tab 300 mg (Epivir)	
lamivudine-zidovudine tab 150-300 mg (Combivir)	
LEXIVA – fosamprenavir calcium tab 700 mg (base equiv)	
LEXIVA – fosamprenavir calcium susp 50 mg/ml (base equiv)	
nevirapine tab sr 24hr 400 mg (Viramune xr)	
nevirapine tab 200 mg (Viramune)	
NORVIR – ritonavir cap 100 mg	
NORVIR – ritonavir tab 100 mg	
NORVIR – ritonavir oral soln 80 mg/ml	
PREZISTA – darunavir ethanolate tab 75 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 150 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 400 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 600 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 800 mg (base equiv)	
PREZISTA – darunavir ethanolate susp 100 mg/ml (base equiv)	
RESCRIPTOR – delavirdine mesylate tab 100 mg	
RESCRIPTOR – delavirdine mesylate tab 200 mg	

Drug Name	Prior Approval
REYATAZ – atazanavir sulfate cap 100 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 150 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 200 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 300 mg (base equiv)	
SELZENTRY – maraviroc tab 150 mg	
SELZENTRY – maraviroc tab 300 mg	
stavudine cap 15 mg (Zerit)	
stavudine cap 20 mg (Zerit)	
stavudine cap 30 mg (Zerit)	
stavudine cap 40 mg (Zerit)	
stavudine for oral soln 1 mg/ml (Zerit)	
STRIBILD – elvitegrav-cobicis-emtricitab-tenofov tab 150-150-200-300 mg	
SUSTIVA – efavirenz cap 50 mg	
SUSTIVA – efavirenz cap 200 mg	
SUSTIVA – efavirenz tab 600 mg	
TIVICAY – dolutegravir sodium tab 50 mg (base equiv)	
TRUVADA – emtricitabine-tenofovir disoproxil fumarate tab 200-300 mg	
VIDEX – didanosine for soln 2 gm	
VIDEX – didanosine for soln 4 gm	
VIRACEPT – nelfinavir mesylate tab 250 mg	
VIRACEPT – nelfinavir mesylate tab 625 mg	
VIRAMUNE – nevirapine susp 50 mg/5ml	
VIRAMUNE XR – nevirapine tab sr 24hr 100 mg	
VIRAMUNE XR – nevirapine tab sr 24hr 400 mg	
VIREAD – tenofovir disoproxil fumarate tab 150 mg	
VIREAD – tenofovir disoproxil fumarate tab 200 mg	
VIREAD – tenofovir disoproxil fumarate tab 250 mg	
VIREAD – tenofovir disoproxil fumarate tab 300 mg	
VIREAD – tenofovir disoproxil fumarate oral powder 40 mg/gm	
ZIAGEN – abacavir sulfate soln 20 mg/ml (base equiv)	
zidovudine cap 100 mg (Retrovir)	
zidovudine syrup 10 mg/ml (Retrovir)	
zidovudine tab 300 mg	
Influenza	
RELENZA DISKHALER – zanamivir aero powder breath activated 5 mg/blister	
TAMIFLU – oseltamivir phosphate cap 30 mg (base equiv)	
TAMIFLU – oseltamivir phosphate cap 45 mg (base equiv)	
TAMIFLU – oseltamivir phosphate cap 75 mg (base equiv)	
TAMIFLU – oseltamivir phosphate for susp 6 mg/ml (base equiv)	
MALARIA	
atovaquone-proguanil hcl tab 250-100 mg (Malarone)	
ATOVAQUONE/PROGUANIL HCL – atovaquone-proguanil hcl tab 62.5-25 mg	
chloroquine phosphate tab 250 mg	
chloroquine phosphate tab 500 mg (Aralen)	
COARTEM – artemether-lumefantrine tab 20-120 mg	
DARAPRIM – pyrimethamine tab 25 mg	
hydroxychloroquine sulfate tab 200 mg (Plaquenil)	
MALARONE – atovaquone-proguanil hcl tab 62.5-25 mg	
mefloquine hcl tab 250 mg	
PRIMAQUINE PHOSPHATE – primaquine phosphate tab 26.3 mg	
WORM INFECTIONS	
ALBENZA – albendazole tab 200 mg	
BILTRICIDE – praziquantel tab 600 mg	
STROMECTOL – ivermectin tab 3 mg	
SULFONAMIDES	

Drug Name	Prior Approval
sulfamethoxazole-trimethoprim susp 200-40 mg/5ml	
sulfamethoxazole-trimethoprim tab 400-80 mg (Bactrim)	
sulfamethoxazole-trimethoprim tab 800-160 mg (Bactrim ds)	
OTHER ANTI-INFECTIVES	
ALINIA – nitazoxanide tab 500 mg	
ALINIA – nitazoxanide for susp 100 mg/5ml	
clindamycin hcl cap 150 mg (Cleocin)	
clindamycin hcl cap 300 mg (Cleocin)	
clindamycin hcl cap 75 mg (Cleocin)	
clindamycin palmitate hcl for soln 75 mg/5ml (base equiv) (Cleocin pediatric gr)	
DAPSONE – dapsone tab 25 mg	
DAPSONE – dapsone tab 100 mg	
erythromycin-sulfisoxazole for susp 200-600 mg/5ml	
metronidazole tab 250 mg (Flagyl)	
metronidazole tab 500 mg (Flagyl)	
NEBUPENT – pentamidine isethionate for nebulization soln 300 mg	
trimethoprim tab 100 mg	
vancomycin hcl cap 125 mg (Vancocin hcl)	
vancomycin hcl cap 250 mg (Vancocin hcl)	
XIFAXAN – rifaximin tab 550 mg	
ZYVOX – linezolid tab 600 mg	•
ZYVOX – linezolid for susp 100 mg/5ml	•
IMMUNIZING AGENTS	
BCG VACCINE – bcg vaccine inj	
CANCER DRUGS	
ACTIMMUNE – interferon gamma-1b inj 100 mcg/0.5ml (2000000 unit/0.5ml)	•
AFINITOR – everolimus tab 2.5 mg	•
AFINITOR – everolimus tab 5 mg	•
AFINITOR – everolimus tab 7.5 mg	•
AFINITOR – everolimus tab 10 mg	•

Drug Name	Prior Approval
AFINITOR DISPERZ – everolimus tab for oral susp 2 mg	•
AFINITOR DISPERZ – everolimus tab for oral susp 3 mg	•
AFINITOR DISPERZ – everolimus tab for oral susp 5 mg	•
ALKERAN – melphalan tab 2 mg	
anastrozole tab 1 mg (Arimidex)	
bicalutamide tab 50 mg (Casodex)	
BOSULIF – bosutinib tab 100 mg	•
BOSULIF – bosutinib tab 500 mg	•
capecitabine tab 150 mg (Xeloda)	•
capecitabine tab 500 mg (Xeloda)	•
CAPRELSA – vandetanib tab 100 mg	•
CAPRELSA – vandetanib tab 300 mg	•
CEENU – lomustine cap 10 mg	
CEENU – lomustine cap 40 mg	
CEENU – lomustine cap 100 mg	
COMETRIQ – cabozantinib s-malate cap 3 x 20 mg (60 mg dose) kit	•
COMETRIQ – cabozantinib s-mal cap 1 x 80 mg & 1 x 20 mg (100 dose) kit	•
COMETRIQ – cabozantinib s-mal cap 1 x 80 mg & 3 x 20 mg (140 dose) kit	•
CYCLOPHOSPHAMIDE – cyclophosphamide tab 25 mg	
CYCLOPHOSPHAMIDE – cyclophosphamide tab 50 mg	
EMCYT – estramustine phosphate sodium cap 140 mg	
ERIVEDGE – vismodegib cap 150 mg	•
ETOPOSIDE – etoposide cap 50 mg	
exemestane tab 25 mg (Aromasin)	
FARESTON – toremifene citrate tab 60 mg (base equivalent)	
flutamide cap 125 mg	
GILOTRIF – afatinib dimaleate tab 20 mg (base equivalent)	•

Drug Name	Prior Approval
GILOTRIF – afatinib dimaleate tab 30 mg (base equivalent)	•
GILOTRIF – afatinib dimaleate tab 40 mg (base equivalent)	•
GLEEVEC – imatinib mesylate tab 100 mg (base equivalent)	•
GLEEVEC – imatinib mesylate tab 400 mg (base equivalent)	•
HEXALEN – altretamine cap 50 mg	
HYCAMTIN – topotecan hcl cap 0.25 mg (base equiv)	•
HYCAMTIN – topotecan hcl cap 1 mg (base equiv)	•
hydroxyurea cap 500 mg (Hydrea)	
ICLUSIG – ponatinib hcl tab 15 mg (base equiv)	•
ICLUSIG – ponatinib hcl tab 45 mg (base equiv)	•
IMBRUVICA – ibrutinib cap 140 mg	•
INLYTA – axitinib tab 1 mg	•
INLYTA – axitinib tab 5 mg	•
JAKAFI – ruxolitinib phosphate tab 5 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 10 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 15 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 20 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 25 mg (base equivalent)	•
letrozole tab 2.5 mg (Femara)	
LEUCOVORIN CALCIUM – leucovorin calcium tab 10 mg	
LEUCOVORIN CALCIUM – leucovorin calcium tab 15 mg	
leucovorin calcium tab 25 mg	
leucovorin calcium tab 5 mg	
LEUKERAN – chlorambucil tab 2 mg	
LOMUSTINE – lomustine cap 10 mg	
LOMUSTINE – lomustine cap 40 mg	
LOMUSTINE – lomustine cap 100 mg	
LYSODREN – mitotane tab 500 mg	
MATULANE – procarbazine hcl cap 50 mg	
megestrol acetate susp 40 mg/ml (Megace oral)	
megestrol acetate tab 20 mg	
megestrol acetate tab 40 mg	
MEKINIST – trametinib dimethyl sulfoxide tab 0.5 mg (base equivalent)	•
MEKINIST – trametinib dimethyl sulfoxide tab 2 mg (base equivalent)	•
mercaptopurine tab 50 mg (Purinethol)	
MESNEX – mesna tab 400 mg	
methotrexate sodium tab 2.5 mg (base equiv)	
MYLERAN – busulfan tab 2 mg	
NEXAVAR – sorafenib tosylate tab 200 mg (base equivalent)	•
NILANDRON – nilutamide tab 150 mg	
POMALYST – pomalidomide cap 1 mg	
POMALYST – pomalidomide cap 2 mg	
POMALYST – pomalidomide cap 3 mg	
POMALYST – pomalidomide cap 4 mg	
SOLTAMOX – tamoxifen citrate oral soln 10 mg/5ml (base equivalent)	
SPRYCEL – dasatinib tab 20 mg	•
SPRYCEL – dasatinib tab 50 mg	•
SPRYCEL – dasatinib tab 70 mg	•
SPRYCEL – dasatinib tab 80 mg	•
SPRYCEL – dasatinib tab 100 mg	•
SPRYCEL – dasatinib tab 140 mg	•
STIVARGA – regorafenib tab 40 mg	•
SUTENT – sunitinib malate cap 12.5 mg (base equivalent)	•
SUTENT – sunitinib malate cap 25 mg (base equivalent)	•
SUTENT – sunitinib malate cap 50 mg (base equivalent)	•

Drug Name	Prior Approval
SYLATRON – peginterferon alfa-2b for inj kit 296 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 444 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 888 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 296 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 444 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 888 mcg	
TABLOID – thioguanine tab 40 mg	
TAFINLAR – dabrafenib mesylate cap 50 mg (base equivalent)	•
TAFINLAR – dabrafenib mesylate cap 75 mg (base equivalent)	•
tamoxifen citrate tab 10 mg (base equivalent)	
tamoxifen citrate tab 20 mg (base equivalent)	
TARCEVA – erlotinib tab 25 mg	•
TARCEVA – erlotinib tab 100 mg	•
TARCEVA – erlotinib tab 150 mg	•
TARGRETIN – bexarotene cap 75 mg	
TASIGNA – nilotinib cap 150 mg	•
TASIGNA – nilotinib cap 200 mg	•
temozolomide cap 100 mg (Temodar)	
temozolomide cap 140 mg (Temodar)	
temozolomide cap 180 mg (Temodar)	
temozolomide cap 20 mg (Temodar)	
temozolomide cap 250 mg (Temodar)	
temozolomide cap 5 mg (Temodar)	
tretinoin cap 10 mg	
TYKERB – lapatinib ditosylate tab 250 mg (base equiv)	•
VANDETANIB – vandetanib tab 100 mg	•
VANDETANIB – vandetanib tab 300 mg	•
VOTRIENT – pazopanib hcl tab 200 mg (base equiv)	•
XALKORI – crizotinib cap 200 mg	•
XALKORI – crizotinib cap 250 mg	•
XTANDI – enzalutamide cap 40 mg	•
ZELBORAF – vemurafenib tab 240 mg (base equivalent)	•
ZOLINZA – vorinostat cap 100 mg	•
ZYKADIA – ceritinib cap 150 mg	
ZYTIGA – abiraterone acetate tab 250 mg	•
HORMONES, DIABETES AND RELATED DRUGS	
CORTICOSTEROIDS	
budesonide cap sr 24hr 3 mg (Entocort ec)	
CORTISONE ACETATE – cortisone acetate tab 25 mg	
DEXAMETHASONE – dexamethasone tab 1 mg	
DEXAMETHASONE – dexamethasone tab 2 mg	
DEXAMETHASONE – dexamethasone soln 0.5 mg/5ml	
dexamethasone elixir 0.5 mg/5ml	
DEXAMETHASONE INTENSOL – dexamethasone conc 1 mg/ml	
dexamethasone tab 0.5 mg	
dexamethasone tab 0.75 mg	
dexamethasone tab 1.5 mg	
dexamethasone tab 4 mg	
dexamethasone tab 6 mg	
fludrocortisone acetate tab 0.1 mg	
hydrocortisone tab 10 mg (Cortef)	
hydrocortisone tab 20 mg (Cortef)	
hydrocortisone tab 5 mg (Cortef)	
methylprednisolone tab 16 mg (Medrol)	
methylprednisolone tab 32 mg (Medrol)	
methylprednisolone tab 4 mg (Medrol)	
methylprednisolone tab 4 mg dose pack (Medrol dosepak)	
methylprednisolone tab 8 mg (Medrol)	

Drug Name	Prior Approval
prednisolone sod phosph oral soln 6.7 mg/5ml (5 mg/5ml base) (Pediapred)	
prednisolone sod phosphate oral soln 15 mg/5ml (base equiv)	
prednisolone syrup 15 mg/5ml (usp solution equivalent) (Prelone)	
PREDNISONE – prednisone tab 50 mg	
PREDNISONE – prednisone oral soln 5 mg/5ml	
PREDNISONE – prednisone tab 5 mg dose pack	
PREDNISONE – prednisone tab 10 mg dose pack	
prednisone tab 1 mg	
prednisone tab 10 mg	
prednisone tab 10 mg dose pack	
prednisone tab 2.5 mg	
prednisone tab 20 mg	
prednisone tab 5 mg	
prednisone tab 5 mg dose pack	
MALE HORMONES	
ANDRODERM – testosterone td patch 24hr 2 mg/24hr	
ANDRODERM – testosterone td patch 24hr 4 mg/24hr	
ANDROGEL – testosterone td gel 25 mg/2.5gm (1%)	
ANDROGEL – testosterone td gel 50 mg/5gm (1%)	
ANDROGEL – testosterone td gel 20.25 mg/1.25gm (1.62%)	
ANDROGEL – testosterone td gel 40.5 mg/2.5gm (1.62%)	
ANDROGEL PUMP – testosterone td gel 12.5 mg/act (1%)	
ANDROGEL PUMP – testosterone td gel 20.25 mg/act (1.62%)	
ANDROXY – fluoxymesterone tab 10 mg	
danazol cap 100 mg	
danazol cap 200 mg	
danazol cap 50 mg	

Drug Name	Prior Approval
DEPO-TESTOSTERONE – testosterone cypionate im in oil 100 mg/ml	
DEPO-TESTOSTERONE – testosterone cypionate im in oil 200 mg/ml	
testosterone cypionate im in oil 100 mg/ml (Depo-testosterone)	
testosterone cypionate im in oil 200 mg/ml (Depo-testosterone)	
testosterone enanthate im in oil 200 mg/ml	
ESTROGENS	
CLIMARA PRO – estradiol-levonorgestrel td patch weekly 0.045-0.015 mg/day	
DIVIGEL – estradiol td gel 0.25 mg/0.25gm (0.1%)	
DIVIGEL – estradiol td gel 0.5 mg/0.5gm (0.1%)	
DIVIGEL – estradiol td gel 1 mg/gm (0.1%)	
estradiol & norethindrone acetate tab 0.5-0.1 mg (Activella)	
estradiol & norethindrone acetate tab 1-0.5 mg (Activella)	
estradiol tab 0.5 mg (Estrace)	
estradiol tab 1 mg (Estrace)	
estradiol tab 2 mg (Estrace)	
estradiol td patch weekly 0.025 mg/24hr (Climara)	
estradiol td patch weekly 0.0375 mg/24hr (37.5 mcg/24hr) (Climara)	
estradiol td patch weekly 0.05 mg/24hr (Climara)	
estradiol td patch weekly 0.06 mg/24hr (Climara)	
estradiol td patch weekly 0.075 mg/24hr (Climara)	
estradiol td patch weekly 0.1 mg/24hr (Climara)	
ESTROPIPATE – estropipate tab 3 mg	
estropipate tab 0.75 mg	
estropipate tab 1.5 mg	
PREFEST – estradiol tab 1 mg(15)/estrad-norgestimate tab 1-0.09mg(15)	
PREMARIN – estrogens, conjugated tab 0.3 mg	
PREMARIN – estrogens, conjugated tab 0.45 mg	
PREMARIN – estrogens, conjugated tab 0.625 mg	

Drug Name	Prior Approval
PREMARIN – estrogens, conjugated tab 0.9 mg	
PREMARIN – estrogens, conjugated tab 1.25 mg	
PREMPHASE – conj est 0.625(14)/conj est-medroxypro ac tab 0.625-5mg(14)	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.3-1.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.45-1.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.625-2.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.625-5 mg	
VIVELLE-DOT – estradiol td patch biweekly 0.025 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.0375 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.05 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.075 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.1 mg/24hr	
PROGESTINS	
medroxyprogesterone acetate tab 10 mg (Provera)	
medroxyprogesterone acetate tab 2.5 mg (Provera)	
medroxyprogesterone acetate tab 5 mg (Provera)	
norethindrone acetate tab 5 mg (Aygestin)	
progesterone micronized cap 100 mg (Prometrium)	
progesterone micronized cap 200 mg (Prometrium)	
BIRTH CONTROL Most generic oral contraceptives are formulary products; exceptions are noted. Selected brands that are not available generically are also on the formulary and appear as: TRADE NAME followed by the generic name, e.g., OGESTREL – norgestrel/ethinyl estradiol.	

Drug Name	Prior Approval
DEPO-PROVERA CONTRACEPTIV – medroxyprogesterone acetate im susp 150 mg/ml	
desogest-eth estrad & eth estrad tab 0.15-0.02/0.01 mg(21/5) (Mircette)	
desogest-ethin est tab 0.1-0.025/0.125-0.025/0.15-0.025mg-mg (Cyclessa)	
desogestrel & ethinyl estradiol tab 0.15 mg-30 mcg (Desogen)	
drospirenone-ethinyl estradiol tab 3-0.02 mg (Yaz)	
drospirenone-ethinyl estradiol tab 3-0.03 mg (Yasmin 28)	
ELLA – ulipristal acetate tab 30 mg	
ethynodiol diacetate & ethinyl estradiol tab 1 mg-35 mcg	
levonorg-eth est tab 0.1-0.02mg(84) & eth est tab 0.01mg(7) (Loseasonique)	
levonorgestrel & ethinyl estradiol (91-day) tab 0.15-0.03 mg	
levonorgestrel & ethinyl estradiol tab 0.1 mg-20 mcg	
levonorgestrel & ethinyl estradiol tab 0.15 mg-30 mcg	
levonorgestrel tab 0.75 mg (Plan b)	
levonorgestrel tab 1.5 mg (Plan b one-step)	
levonorgestrel-eth estra tab 0.05-30/0.075-40/0.125-30mg-mcg	
medroxyprogesterone acetate im susp 150 mg/ml (Depo-provera contrac)	
MIRENA – levonorgestrel releasing iud 20 mcg/24hr (52 mg total)	
NECON 1/50-28 – norethindrone & mestranol tab 1 mg-50 mcg	
NECON 10/11-28 – norethindrone-eth estradiol tab 0.5-35/1-35 mg-mcg (10/11)	
norelgestromin-ethinyl estradiol td ptwk 150-35 mcg/24hr (Ortho evra)	
norethindrone & ethinyl estradiol tab 0.4 mg-35 mcg (Ovcon-35)	

Drug Name	Prior Approval
norethindrone & ethinyl estradiol tab 0.5 mg-35 mcg (Brevicon-28)	
norethindrone & ethinyl estradiol tab 1 mg-35 mcg (Norinyl 1+35)	
norethindrone ac-ethinyl estrad-fe tab 1-20/1-30/1-35 mg-mcg (Estrostep fe)	
norethindrone ace & ethinyl estradiol tab 1 mg-20 mcg (Loestrin 1/20-21)	
norethindrone ace & ethinyl estradiol tab 1.5 mg-30 mcg (Loestrin 1.5/30-21)	
norethindrone ace & ethinyl estradiol-fe tab 1 mg-20 mcg (Loestrin fe 1/20)	
norethindrone ace & ethinyl estradiol-fe tab 1.5 mg-30 mcg (Loestrin fe 1.5/30)	
norethindrone tab 0.35 mg (Nor-qd)	
norethindrone-eth estradiol tab 0.5-35/0.75-35/1-35 mg-mcg (Ortho-novum 7/7/7)	
norethindrone-eth estradiol tab 0.5-35/1-35/0.5-35 mg-mcg (Tri-norinyl 28)	
norgestimate & ethinyl estradiol tab 0.25 mg-35 mcg (Ortho-cyclen)	
norgestimate-eth estrad tab 0.18-35/0.215-35/0.25-35 mg-mcg (Ortho tri-cyclen)	
norgestrel & ethinyl estradiol tab 0.3 mg-30 mcg	
NUVARING – etonogestrel-ethinyl estradiol va ring 0.120-0.015 mg/24hr	
OGESTREL – norgestrel & ethinyl estradiol tab 0.5 mg-50 mcg	
ORTHO EVRA – norelgestromin-ethinyl estradiol td ptwk 150-35 mcg/24hr	
ORTHO TRI-CYCLEN LO – norgestimate-eth estrad tab 0.18-25/0.215-25/0.25-25 mg-mcg	
SKYLA – levonorgestrel releasing iud 13.5 mg	
ZOVIA 1/50E – ethynodiol diacetate & ethinyl estradiol tab 1 mg-50 mcg	
INFERTILITY	
BRAVELLE – urofollitropin purified for inj 75 unit	
CETROTIDE – cetrorelix acetate for inj kit 0.25 mg	

Drug Name	Prior Approval
CETROTIDE – cetrorelix acetate for inj kit 3 mg	
chorionic gonadotropin for inj 10000 unit	
clomiphene citrate tab 50 mg (Clomid)	
FOLLISTIM AQ – follitropin beta inj 75 unit/0.5ml	
FOLLISTIM AQ – follitropin beta inj 150 unit/0.5ml	
FOLLISTIM AQ – follitropin beta inj 300 unit/0.36ml	
FOLLISTIM AQ – follitropin beta inj 600 unit/0.72ml	
FOLLISTIM AQ – follitropin beta inj 900 unit/1.08ml	
GANIRELIX ACETATE – ganirelix acetate inj 250 mcg/0.5ml	
GONAL-F – follitropin alfa for inj 450 unit	
GONAL-F – follitropin alfa for inj 1050 unit	
GONAL-F RFF – follitropin alfa for inj 75 unit	
GONAL-F RFF PEN – follitropin alfa inj 300 unit/0.5ml	
GONAL-F RFF PEN – follitropin alfa inj 450 unit/0.75ml	
GONAL-F RFF PEN – follitropin alfa inj 900 unit/1.5ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 300 unit/0.5ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 450 unit/0.75ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 900 unit/1.5ml	
LUVERIS – lutropin alfa for subcutaneous inj 75 unit	
MENOPUR – menotropins for subcutaneous inj 75 unit	
OVIDREL – choriogonadotropin alfa inj 250 mcg/0.5ml	
REPRONEX – menotropins for inj 75 unit	
DIABETES	
acarbose tab 100 mg (Precose)	
acarbose tab 25 mg (Precose)	
acarbose tab 50 mg (Precose)	
BYDUREON – exenatide extended release for inj susp 2 mg	

Drug Name	Prior Approval
BYETTA – exenatide soln pen-injector 5 mcg/0.02ml	
BYETTA – exenatide soln pen-injector 10 mcg/0.04ml	
glimepiride tab 1 mg (Amaryl)	
glimepiride tab 2 mg (Amaryl)	
glimepiride tab 4 mg (Amaryl)	
glipizide tab sr 24hr 10 mg (Glucotrol xl)	
glipizide tab sr 24hr 2.5 mg (Glucotrol xl)	
glipizide tab sr 24hr 5 mg (Glucotrol xl)	
glipizide tab 10 mg (Glucotrol)	
glipizide tab 5 mg (Glucotrol)	
glipizide-metformin hcl tab 2.5-250 mg	
glipizide-metformin hcl tab 2.5-500 mg	
glipizide-metformin hcl tab 5-500 mg	
GLUCAGON EMERGENCY KIT – glucagon (rdna) for inj kit 1 mg	
GLYBURIDE – glyburide tab 1.25 mg	
GLYBURIDE – glyburide tab 2.5 mg	
GLYBURIDE – glyburide tab 5 mg	
glyburide micronized tab 1.5 mg (Glynase)	
glyburide micronized tab 3 mg (Glynase)	
glyburide micronized tab 6 mg (Glynase)	
glyburide tab 1.25 mg	
glyburide tab 2.5 mg	
glyburide tab 5 mg	
glyburide-metformin tab 1.25-250 mg (Glucovance)	
glyburide-metformin tab 2.5-500 mg (Glucovance)	
glyburide-metformin tab 5-500 mg (Glucovance)	
JANUMET – sitagliptin-metformin hcl tab 50-500 mg	
JANUMET – sitagliptin-metformin hcl tab 50-1000 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 50-500 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 50-1000 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 100-1000 mg	
JANUVIA – sitagliptin phosphate tab 25 mg (base equiv)	
JANUVIA – sitagliptin phosphate tab 50 mg (base equiv)	
JANUVIA – sitagliptin phosphate tab 100 mg (base equiv)	
JUVISYNC – sitagliptin-simvastatin tab 50-10 mg	
JUVISYNC – sitagliptin-simvastatin tab 50-20 mg	
JUVISYNC – sitagliptin-simvastatin tab 50-40 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-10 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-20 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-40 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 2.5-1000 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 5-500 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 5-1000 mg	
metformin hcl tab sr 24hr 500 mg (Glucophage xr)	
metformin hcl tab sr 24hr 750 mg (Glucophage xr)	
metformin hcl tab 1000 mg (Glucophage)	
metformin hcl tab 500 mg (Glucophage)	
metformin hcl tab 850 mg (Glucophage)	
nateglinide tab 120 mg (Starlix)	
nateglinide tab 60 mg (Starlix)	
ONGLYZA – saxagliptin hcl tab 2.5 mg (base equiv)	
ONGLYZA – saxagliptin hcl tab 5 mg (base equiv)	
pioglitazone hcl tab 15 mg (base equiv) (Actos)	
pioglitazone hcl tab 30 mg (base equiv) (Actos)	
pioglitazone hcl tab 45 mg (base equiv) (Actos)	
pioglitazone hcl-metformin hcl tab 15-500 mg (Actoplus met)	
pioglitazone hcl-metformin hcl tab 15-850 mg (Actoplus met)	

Drug Name	Prior Approval
SYMLINPEN 120 – pramlintide acetate pen-inj 2700 mcg/2.7ml (1000 mcg/ml)	
SYMLINPEN 60 – pramlintide acetate pen-inj 1500 mcg/1.5ml (1000 mcg/ml)	
VICTOZA – liraglutide soln pen-injector 18 mg/3ml (6 mg/ml)	
DIABETES - INSULINS	
Rapid-Acting Insulins	
HUMALOG – insulin lispro (human) soln cartridge 100 unit/ml	
HUMALOG – insulin lispro (human) inj 100 unit/ml	
HUMALOG KWIKPEN – insulin lispro (human) soln pen-injector 100 unit/ml	
NOVOLOG – insulin aspart inj 100 unit/ml	
NOVOLOG FLEXPEN – insulin aspart soln pen-injector 100 unit/ml	
NOVOLOG PENFILL – insulin aspart soln cartridge 100 unit/ml	
Short-Acting Insulins	
HUMULIN R – insulin regular (human) inj 100 unit/ml	
HUMULIN R U-500 (CONCENTR – insulin regular (human) inj 500 unit/ml	
NOVOLIN R – insulin regular (human) inj 100 unit/ml	
NOVOLIN R RELION – insulin regular (human) inj 100 unit/ml	
Intermediate-Acting Insulins	
HUMALOG MIX 50/50 – insulin lispro prot & lispro (human) inj 100 unit/ml (50-50)	
HUMALOG MIX 50/50 KWIKPEN – insulin lispro prot & lispro sus pen-inj 100 unit/ml (50-50)	
HUMALOG MIX 75/25 – insulin lispro prot & lispro (human) inj 100 unit/ml (75-25)	
HUMALOG MIX 75/25 KWIKPEN – insulin lispro prot & lispro sus pen-inj 100 unit/ml (75-25)	
HUMULIN N – insulin isophane (human) inj 100 unit/ml	
HUMULIN N KWIKPEN – insulin isophane (human) susp pen-injector 100 unit/ml	
HUMULIN N U-100 PEN – insulin isophane (human) susp pen-injector 100 unit/ml	
HUMULIN 70/30 – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
HUMULIN 70/30 KWIKPEN – insulin isophane & regular susp pen-inj 100 unit/ml (70-30)	
HUMULIN 70/30 PEN – insulin isophane & regular susp pen-inj 100 unit/ml (70-30)	
NOVOLIN N – insulin isophane (human) inj 100 unit/ml	
NOVOLIN N RELION – insulin isophane (human) inj 100 unit/ml	
NOVOLIN 70/30 – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
NOVOLIN 70/30 RELION – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
NOVOLOG MIX 70/30 – insulin aspart prot & aspart (human) inj 100 unit/ml (70-30)	
NOVOLOG MIX 70/30 PREFILL – insulin aspart prot & aspart sus pen-inj 100 unit/ml (70-30)	
Basal Insulins	
LANTUS – insulin glargine inj 100 unit/ml	
LANTUS SOLOSTAR – insulin glargine soln pen-injector 100 unit/ml	
LEVEMIR – insulin detemir inj 100 unit/ml	
LEVEMIR FLEXPEN – insulin detemir soln pen-injector 100 unit/ml	
LEVEMIR FLEXTOUCH – insulin detemir soln pen-injector 100 unit/ml	
THYROID REGULATION	
levothyroxine sodium tab 100 mcg (Synthroid)	
levothyroxine sodium tab 112 mcg (Synthroid)	
levothyroxine sodium tab 125 mcg (Synthroid)	
levothyroxine sodium tab 137 mcg (Synthroid)	
levothyroxine sodium tab 150 mcg (Synthroid)	
levothyroxine sodium tab 175 mcg (Synthroid)	
levothyroxine sodium tab 200 mcg (Synthroid)	
levothyroxine sodium tab 25 mcg (Synthroid)	

Drug Name	Prior Approval
levothyroxine sodium tab 300 mcg (Synthroid)	
levothyroxine sodium tab 50 mcg (Synthroid)	
levothyroxine sodium tab 75 mcg (Synthroid)	
levothyroxine sodium tab 88 mcg (Synthroid)	
liothyronine sodium tab 25 mcg (Cytomel)	
liothyronine sodium tab 5 mcg (Cytomel)	
liothyronine sodium tab 50 mcg (Cytomel)	
methimazole tab 10 mg (Tapazole)	
methimazole tab 5 mg (Tapazole)	
propylthiouracil tab 50 mg	
GROWTH HORMONE	
INCRELEX – mecasermin inj 40 mg/4ml (10 mg/ml)	•
OMNITROPE – somatropin inj 5 mg/1.5ml	•
OMNITROPE – somatropin inj 10 mg/1.5ml	•
OMNITROPE – somatropin for inj 5.8 mg	•
OTHER HORMONES AND RELATED DRUGS	
ALENDRONATE SODIUM – alendronate sodium tab 40 mg	
alendronate sodium tab 10 mg	
alendronate sodium tab 35 mg	
alendronate sodium tab 5 mg	
alendronate sodium tab 70 mg (Fosamax)	
cabergoline tab 0.5 mg	
calcitriol cap 0.25 mcg (Rocaltrol)	
calcitriol cap 0.5 mcg (Rocaltrol)	
calcitriol oral soln 1 mcg/ml (Rocaltrol)	
desmopressin acetate inj 4 mcg/ml (Ddavp)	
desmopressin acetate nasal soln 0.01% (refrigerated) (Ddavp)	
desmopressin acetate nasal spray soln 0.01% (Ddavp)	
desmopressin acetate nasal spray soln 0.01% (refrigerated)	
desmopressin acetate tab 0.1 mg (Ddavp)	
desmopressin acetate tab 0.2 mg (Ddavp)	

Drug Name	Prior Approval
ETIDRONATE DISODIUM – etidronate disodium tab 200 mg	
ETIDRONATE DISODIUM – etidronate disodium tab 400 mg	
FORTEO – teriparatide (recombinant) inj 600 mcg/2.4ml	•
ibandronate sodium tab 150 mg (base equivalent) (Boniva)	
KUVAN – sapropterin dihydrochloride soluble tab 100 mg	•
levocarnitine oral soln 1 gm/10ml (10%) (Carnitor)	
levocarnitine tab 330 mg (Carnitor)	
LUPANETA PACK – LEUPROLIDE (1 MON) INJ 3.75 MG & NORETHINDRONE TAB 5 MG KIT	
LUPANETA PACK – LEUPROLIDE (3 MON) INJ 11.25 MG & NORETHINDRONE TAB 5 MG KIT	
methylergonovine maleate tab 0.2 mg	
octreotide acetate inj 100 mcg/ml (0.1 mg/ml) (Sandostatin)	
octreotide acetate inj 1000 mcg/ml (1 mg/ml) (Sandostatin)	
octreotide acetate inj 200 mcg/ml (0.2 mg/ml) (Sandostatin)	
octreotide acetate inj 50 mcg/ml (0.05 mg/ml) (Sandostatin)	
octreotide acetate inj 500 mcg/ml (0.5 mg/ml) (Sandostatin)	
paricalcitol cap 1 mcg (Zemplar)	
paricalcitol cap 2 mcg (Zemplar)	
paricalcitol cap 4 mcg (Zemplar)	
raloxifene hcl tab 60 mg (Evista)	
SANDOSTATIN – octreotide acetate inj 50 mcg/ml (0.05 mg/ml)	
SANDOSTATIN – octreotide acetate inj 100 mcg/ml (0.1 mg/ml)	
SANDOSTATIN – octreotide acetate inj 200 mcg/ml (0.2 mg/ml)	
SANDOSTATIN – octreotide acetate inj 500 mcg/ml (0.5 mg/ml)	

Drug Name	Prior Approval
SANDOSTATIN – octreotide acetate inj 1000 mcg/ml (1 mg/ml)	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 10 mg	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 20 mg	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 30 mg	
SENSIPAR – cinacalcet hcl tab 30 mg (base equiv)	•
SENSIPAR – cinacalcet hcl tab 60 mg (base equiv)	•
SENSIPAR – cinacalcet hcl tab 90 mg (base equiv)	•
STIMATE – desmopressin acetate nasal soln 1.5 mg/ml	
SYNAREL – NAFARELIN ACETATE NASAL SOLN 2 MG/ML	
HEART AND CIRCULATORY DRUGS	
ANGIOTENSIN CONVERTING ENZYME (ACE) INHIBITORS AND COMBINATIONS	
benazepril & hydrochlorothiazide tab 10-12.5 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 20-12.5 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 20-25 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 5-6.25 mg	
benazepril hcl tab 10 mg (Lotensin)	
benazepril hcl tab 20 mg (Lotensin)	
benazepril hcl tab 40 mg (Lotensin)	
benazepril hcl tab 5 mg	
captopril tab 100 mg	
captopril tab 12.5 mg	
captopril tab 25 mg	
captopril tab 50 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 25-15 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 25-25 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 50-15 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 50-25 mg	
enalapril maleate & hydrochlorothiazide tab 10-25 mg (Vaseretic)	
enalapril maleate & hydrochlorothiazide tab 5-12.5 mg	
enalapril maleate tab 10 mg (Vasotec)	
enalapril maleate tab 2.5 mg (Vasotec)	
enalapril maleate tab 20 mg (Vasotec)	
enalapril maleate tab 5 mg (Vasotec)	
fosinopril sodium & hydrochlorothiazide tab 10-12.5 mg	
fosinopril sodium & hydrochlorothiazide tab 20-12.5 mg	
fosinopril sodium tab 10 mg	
fosinopril sodium tab 20 mg	
fosinopril sodium tab 40 mg	
lisinopril & hydrochlorothiazide tab 10-12.5 mg (Zestoretic)	
lisinopril & hydrochlorothiazide tab 20-12.5 mg (Zestoretic)	
lisinopril & hydrochlorothiazide tab 20-25 mg (Zestoretic)	
lisinopril tab 10 mg (Prinivil)	
lisinopril tab 2.5 mg (Zestril)	
lisinopril tab 20 mg (Prinivil)	
lisinopril tab 30 mg (Zestril)	
lisinopril tab 40 mg (Zestril)	
lisinopril tab 5 mg (Prinivil)	
moexipril hcl tab 15 mg (Univasc)	
moexipril hcl tab 7.5 mg (Univasc)	
moexipril-hydrochlorothiazide tab 15-12.5 mg (Uniretic)	
moexipril-hydrochlorothiazide tab 15-25 mg	
moexipril-hydrochlorothiazide tab 7.5-12.5 mg	

Drug Name	Prior Approval
perindopril erbumine tab 2 mg	
perindopril erbumine tab 4 mg (Aceon)	
perindopril erbumine tab 8 mg (Aceon)	
quinapril hcl tab 10 mg (Accupril)	
quinapril hcl tab 20 mg (Accupril)	
quinapril hcl tab 40 mg (Accupril)	
quinapril hcl tab 5 mg (Accupril)	
quinapril-hydrochlorothiazide tab 10-12.5 mg (Accuretic)	
quinapril-hydrochlorothiazide tab 20-12.5 mg (Accuretic)	
quinapril-hydrochlorothiazide tab 20-25 mg (Accuretic)	
ramipril cap 1.25 mg (Altace)	
ramipril cap 10 mg (Altace)	
ramipril cap 2.5 mg (Altace)	
ramipril cap 5 mg (Altace)	
trandolapril tab 1 mg (Mavik)	
trandolapril tab 2 mg (Mavik)	
trandolapril tab 4 mg (Mavik)	
ANGIOTENSIN II RECEPTOR ANTAGONISTS (ARBS) AND COMBINATIONS	
candesartan cilexetil tab 16 mg (Atacand)	
candesartan cilexetil tab 32 mg (Atacand)	
candesartan cilexetil tab 4 mg (Atacand)	
candesartan cilexetil tab 8 mg (Atacand)	
candesartan cilexetil-hydrochlorothiazide tab 16-12.5 mg (Atacand hct)	
candesartan cilexetil-hydrochlorothiazide tab 32-12.5 mg (Atacand hct)	
candesartan cilexetil-hydrochlorothiazide tab 32-25 mg (Atacand hct)	
DIOVAN – valsartan tab 40 mg	
DIOVAN – valsartan tab 80 mg	
DIOVAN – valsartan tab 160 mg	
DIOVAN – valsartan tab 320 mg	
EXFORGE HCT – amlodipine-valsartan-hydrochlorothiazide tab 5-160-12.5 mg	
EXFORGE HCT – amlodipine-valsartan-hydrochlorothiazide tab 5-160-25 mg	
EXFORGE HCT – amlodipine-valsartan-hydrochlorothiazide tab 10-160-12.5 mg	
EXFORGE HCT – amlodipine-valsartan-hydrochlorothiazide tab 10-160-25 mg	
EXFORGE HCT – amlodipine-valsartan-hydrochlorothiazide tab 10-320-25 mg	
irbesartan tab 150 mg (Avapro)	
irbesartan tab 300 mg (Avapro)	
irbesartan tab 75 mg (Avapro)	
irbesartan-hydrochlorothiazide tab 150-12.5 mg (Avalide)	
irbesartan-hydrochlorothiazide tab 300-12.5 mg (Avalide)	
losartan potassium & hydrochlorothiazide tab 100-12.5 mg (Hyzaar)	
losartan potassium & hydrochlorothiazide tab 100-25 mg (Hyzaar)	
losartan potassium & hydrochlorothiazide tab 50-12.5 mg (Hyzaar)	
losartan potassium tab 100 mg (Cozaar)	
losartan potassium tab 25 mg (Cozaar)	
losartan potassium tab 50 mg (Cozaar)	
valsartan-hydrochlorothiazide tab 160-12.5 mg (Diovan hct)	
valsartan-hydrochlorothiazide tab 160-25 mg (Diovan hct)	
valsartan-hydrochlorothiazide tab 320-12.5 mg (Diovan hct)	
valsartan-hydrochlorothiazide tab 320-25 mg (Diovan hct)	
valsartan-hydrochlorothiazide tab 80-12.5 mg (Diovan hct)	
BETA BLOCKERS AND COMBINATIONS	
acebutolol hcl cap 200 mg (Sectral)	
acebutolol hcl cap 400 mg (Sectral)	

Drug Name	Prior Approval
atenolol & chlorthalidone tab 100-25 mg (Tenoretic 100)	
atenolol & chlorthalidone tab 50-25 mg (Tenoretic 50)	
atenolol tab 100 mg (Tenormin)	
atenolol tab 25 mg (Tenormin)	
atenolol tab 50 mg (Tenormin)	
bisoprolol & hydrochlorothiazide tab 10-6.25 mg (Ziac)	
bisoprolol & hydrochlorothiazide tab 2.5-6.25 mg (Ziac)	
bisoprolol & hydrochlorothiazide tab 5-6.25 mg (Ziac)	
bisoprolol fumarate tab 10 mg (Zebeta)	
bisoprolol fumarate tab 5 mg (Zebeta)	
carvedilol tab 12.5 mg (Coreg)	
carvedilol tab 25 mg (Coreg)	
carvedilol tab 3.125 mg (Coreg)	
carvedilol tab 6.25 mg (Coreg)	
DUTOPROL – metoprolol & hydrochlorothiazide tab sr 24hr 25-12.5 mg	
DUTOPROL – metoprolol & hydrochlorothiazide tab sr 24hr 50-12.5 mg	
DUTOPROL – metoprolol & hydrochlorothiazide tab sr 24hr 100-12.5 mg	
labetalol hcl tab 100 mg (Trandate)	
labetalol hcl tab 200 mg (Trandate)	
labetalol hcl tab 300 mg (Trandate)	
metoprolol & hydrochlorothiazide tab 100-25 mg (Lopressor hct)	
metoprolol & hydrochlorothiazide tab 100-50 mg	
metoprolol & hydrochlorothiazide tab 50-25 mg (Lopressor hct)	
metoprolol succinate tab sr 24hr 100 mg (Toprol xl)	
metoprolol succinate tab sr 24hr 200 mg (Toprol xl)	
metoprolol succinate tab sr 24hr 25 mg (Toprol xl)	
metoprolol succinate tab sr 24hr 50 mg (Toprol xl)	
metoprolol tartrate tab 100 mg (Lopressor)	
metoprolol tartrate tab 25 mg	
metoprolol tartrate tab 50 mg (Lopressor)	
nadolol & bendroflumethiazide tab 40-5 mg (Corzide)	
nadolol & bendroflumethiazide tab 80-5 mg (Corzide)	
nadolol tab 20 mg (Corgard)	
nadolol tab 40 mg (Corgard)	
nadolol tab 80 mg (Corgard)	
pindolol tab 10 mg	
pindolol tab 5 mg	
PROPRANOLOL HCL – propranolol hcl oral soln 20 mg/5ml	
PROPRANOLOL HCL – propranolol hcl oral soln 40 mg/5ml	
propranolol hcl cap sr 24hr 120 mg (Inderal la)	
propranolol hcl cap sr 24hr 160 mg (Inderal la)	
propranolol hcl cap sr 24hr 60 mg (Inderal la)	
propranolol hcl cap sr 24hr 80 mg (Inderal la)	
propranolol hcl tab 10 mg	
propranolol hcl tab 20 mg	
propranolol hcl tab 40 mg	
propranolol hcl tab 60 mg	
propranolol hcl tab 80 mg	
PROPRANOLOL/HYDROCHLOROTH – propranolol & hydrochlorothiazide tab 40-25 mg	
PROPRANOLOL/HYDROCHLOROTH – propranolol & hydrochlorothiazide tab 80-25 mg	
TIMOLOL MALEATE – timolol maleate tab 5 mg	
TIMOLOL MALEATE – timolol maleate tab 10 mg	
TIMOLOL MALEATE – timolol maleate tab 20 mg	
CALCIUM CHANNEL BLOCKERS AND COMBINATIONS	
amlodipine besylate tab 10 mg (Norvasc)	
amlodipine besylate tab 2.5 mg (Norvasc)	

Drug Name	Prior Approval
amlodipine besylate tab 5 mg (Norvasc)	
amlodipine besylate-atorvastatin calcium tab 10-10 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 10-20 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 10-40 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 10-80 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 2.5-10 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 2.5-20 mg (Caduet)	
amlodipine besylate-atorvastatin calcium tab 2.5-40 mg (Caduet)

felodipine tab sr 24hr 2.5 mg	
felodipine tab sr 24hr 5 mg	
nifedipine tab sr 24hr osmotic 30 mg (Procardia xl)	
nifedipine tab sr 24hr osmotic 60 mg (Procardia xl)	

Drug Name	Prior Approval
nifedipine tab sr 24hr osmotic 90 mg (Procardia xl)	
nifedipine tab sr 24hr 30 mg (Adalat cc)	
nifedipine tab sr 24hr 60 mg (Adalat cc)	
nifedipine tab sr 24hr 90 mg (Adalat cc)	
VERAPAMIL HCL – verapamil hcl tab 40 mg	
verapamil hcl cap sr 24hr 100 mg (Verelan pm)	
verapamil hcl cap sr 24hr 120 mg (Verelan)	
verapamil hcl cap sr 24hr 180 mg (Verelan)	
verapamil hcl cap sr 24hr 200 mg (Verelan pm)	
verapamil hcl cap sr 24hr 240 mg (Verelan)	
verapamil hcl cap sr 24hr 300 mg (Verelan pm)	
verapamil hcl cap sr 24hr 360 mg (Verelan)	
verapamil hcl tab cr 120 mg (Calan sr)	
verapamil hcl tab cr 180 mg (Calan sr)	
verapamil hcl tab cr 240 mg (Calan sr)	
verapamil hcl tab 120 mg (Calan)	
verapamil hcl tab 80 mg (Calan)	
CHEST PAIN (ANGINA)	
ISOSORBIDE DINITRATE – isosorbide dinitrate tab 30 mg	
isosorbide dinitrate tab 10 mg	
isosorbide dinitrate tab 20 mg	
isosorbide dinitrate tab 30 mg	
isosorbide dinitrate tab 5 mg (Isordil titradose)	
isosorbide mononitrate tab sr 24hr 120 mg (Imdur)	
isosorbide mononitrate tab sr 24hr 30 mg (Imdur)	
isosorbide mononitrate tab sr 24hr 60 mg (Imdur)	
isosorbide mononitrate tab 10 mg	
isosorbide mononitrate tab 20 mg	
NITRO-BID – nitroglycerin oint 2%	
nitroglycerin cap cr 2.5 mg	
nitroglycerin cap cr 6.5 mg	
nitroglycerin cap cr 9 mg	
nitroglycerin td patch 24hr 0.1 mg/hr (Nitro-dur)	

Drug Name	Prior Approval
nitroglycerin td patch 24hr 0.2 mg/hr (Nitro-dur)	
nitroglycerin td patch 24hr 0.4 mg/hr (Nitro-dur)	
nitroglycerin td patch 24hr 0.6 mg/hr (Nitro-dur)	
NITROSTAT – nitroglycerin sl tab 0.3 mg	
NITROSTAT – nitroglycerin sl tab 0.4 mg	
NITROSTAT – nitroglycerin sl tab 0.6 mg	
CHOLESTEROL LOWERING	
atorvastatin calcium tab 10 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 20 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 40 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 80 mg (base equivalent) (Lipitor)	
cholestyramine light powder packets 4 gm	
cholestyramine light powder 4 gm/dose (Questran light)	
cholestyramine powder packets 4 gm (Questran)	
cholestyramine powder 4 gm/dose (Questran)	
choline fenofibrate cap dr 135 mg (fenofibric acid equiv) (Trilipix)	
choline fenofibrate cap dr 45 mg (fenofibric acid equiv) (Trilipix)	
colestipol hcl granule packets 5 gm (Colestid flavored)	
colestipol hcl granules 5 gm (Colestid flavored)	
colestipol hcl tab 1 gm (Colestid)	
CRESTOR – rosuvastatin calcium tab 5 mg	
CRESTOR – rosuvastatin calcium tab 10 mg	
CRESTOR – rosuvastatin calcium tab 20 mg	
CRESTOR – rosuvastatin calcium tab 40 mg	
fenofibrate micronized cap 130 mg (Antara)	
fenofibrate micronized cap 134 mg (Lofibra)	
fenofibrate micronized cap 200 mg (Lofibra)	
fenofibrate micronized cap 43 mg (Antara)	
fenofibrate micronized cap 67 mg (Lofibra)	

Drug Name	Prior Approval
fenofibrate tab 145 mg (Tricor)	
fenofibrate tab 160 mg (Lofibra)	
fenofibrate tab 48 mg (Tricor)	
fenofibrate tab 54 mg (Lofibra)	
gemfibrozil tab 600 mg (Lopid)	
JUXTAPID – lomitapide mesylate cap 5 mg (base equiv)	•
JUXTAPID – lomitapide mesylate cap 10 mg (base equiv)	•
JUXTAPID – lomitapide mesylate cap 20 mg (base equiv)	•
lovastatin tab 10 mg	
lovastatin tab 20 mg (Mevacor)	
lovastatin tab 40 mg (Mevacor)	
LOVAZA – omega-3-acid ethyl esters cap 1 gm	
niacin tab cr 1000 mg (antihyperlipidemic) (Niaspan)	
niacin tab cr 500 mg (antihyperlipidemic) (Niaspan)	
niacin tab cr 750 mg (antihyperlipidemic) (Niaspan)	
omega-3-acid ethyl esters cap 1 gm (Lovaza)

albuterol sulfate syrup 2 mg/5ml	
albuterol sulfate tab sr 12hr 4 mg (Vospire er)	
albuterol sulfate tab sr 12hr 8 mg (Vospire er)	
albuterol sulfate tab 2 mg	
albuterol sulfate tab 4 mg	
ANORO ELLIPTA – umeclidinium-vilanterol aero powd ba 62.5-25 mcg/inh	
ASMANEX 120 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 14 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 30 METERED DOSES – mometasone furoate inhal powd 110 mcg/inh (breath activated)	
ASMANEX 30 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 60 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ATROVENT HFA – ipratropium bromide hfa inhal aerosol 17 mcg/act	
BREO ELLIPTA – fluticasone furoate-vilanterol aero powd ba 100-25 mcg/inh	
budesonide inhalation susp 0.25 mg/2ml (Pulmicort)	
budesonide inhalation susp 0.5 mg/2ml (Pulmicort)	
COMBIVENT – ipratropium-albuterol aerosol 18-103 mcg/act (20-120mcg/act)	

Drug Name	Prior Approval
COMBIVENT RESPIMAT – ipratropium-albuterol inhal aerosol soln 20-100 mcg/act	
cromolyn sodium soln nebu 20 mg/2ml	
DULERA – mometasone furoate-formoterol fumarate aerosol 100-5 mcg/act	
DULERA – mometasone furoate-formoterol fumarate aerosol 200-5 mcg/act	
FLOVENT DISKUS – fluticasone propionate aer pow ba 50 mcg/blister	
FLOVENT DISKUS – fluticasone propionate aer pow ba 100 mcg/blister	
FLOVENT DISKUS – fluticasone propionate aer pow ba 250 mcg/blister	
FLOVENT HFA – fluticasone propionate hfa inhal aero 44 mcg/act (50/valve)	
FLOVENT HFA – fluticasone propionate hfa inhal aer 110 mcg/act (125/valve)	
FLOVENT HFA – fluticasone propionate hfa inhal aer 220 mcg/act (250/valve)	
FORADIL AEROLIZER – formoterol fumarate inhal cap 12 mcg	
ipratropium bromide inhal soln 0.02%	
ipratropium-albuterol nebu soln 0.5-2.5(3) mg/3ml (Duoneb)	
levalbuterol hcl soln nebu conc 1.25 mg/0.5ml (base equiv) (Xopenex concentrate)	
levalbuterol hcl soln nebu 0.31 mg/3ml (base equiv) (Xopenex)	
levalbuterol hcl soln nebu 0.63 mg/3ml (base equiv) (Xopenex)	
levalbuterol hcl soln nebu 1.25 mg/3ml (base equiv) (Xopenex)	
MAXAIR AUTOHALER – pirbuterol acetate breath activated inhal aerosol 200mcg/inh	
montelukast sodium chew tab 4 mg (base equiv) (Singulair)	
montelukast sodium chew tab 5 mg (base equiv) (Singulair)	
montelukast sodium oral granules packet 4 mg (base equiv) (Singulair)	

Drug Name	Prior Approval
montelukast sodium tab 10 mg (base equiv) (Singulair)	
PROAIR HFA – albuterol sulfate inhal aero 108 mcg/act (90mcg base equiv)	
PULMICORT – budesonide inhalation susp 1 mg/2ml	
QVAR – beclomethasone dipropionate inhal aero soln 40 mcg/act	
QVAR – beclomethasone dipropionate inhal aero soln 80 mcg/act	
SEREVENT DISKUS – salmeterol xinafoate aer pow ba 50 mcg/dose (base equiv)	
SPIRIVA HANDIHALER – tiotropium bromide monohydrate inhal cap 18 mcg (base equiv)	
SYMBICORT – budesonide-formoterol fumarate dihyd aerosol 80-4.5 mcg/act	
SYMBICORT – budesonide-formoterol fumarate dihyd aerosol 160-4.5 mcg/act	
terbutaline sulfate tab 2.5 mg	
terbutaline sulfate tab 5 mg	
theophylline tab sr 12hr 100 mg	
theophylline tab sr 12hr 200 mg	
theophylline tab sr 12hr 300 mg	
theophylline tab sr 12hr 450 mg	
theophylline tab sr 24hr 400 mg	
theophylline tab sr 24hr 600 mg	
VENTOLIN HFA – albuterol sulfate inhal aero 108 mcg/act (90mcg base equiv)	
XOLAIR – omalizumab for inj 150 mg	•
zafirlukast tab 10 mg (Accolate)	
zafirlukast tab 20 mg (Accolate)	
OTHER RESPIRATORY DRUGS

*Specialty metrics are derived from Prime's standard specialty drug management list

2.2%	11.9%	6.8%	22.2%
utilization	**inflation**	**mix**	**drug trend**
change in number of drugs used	change in unit cost of drugs	change in high cost verses low cost drugs	change in total cost per member, per month

Despite the small number of specialty drugs used, they will have a huge impact on total costs. Specialty drugs represent 0.61% of all prescriptions, but still account for 24.0% of total drug cost.

Key Performance Indicators

	YTD Q4, 13	YTD Q4, 12	Chg	Prime BoB

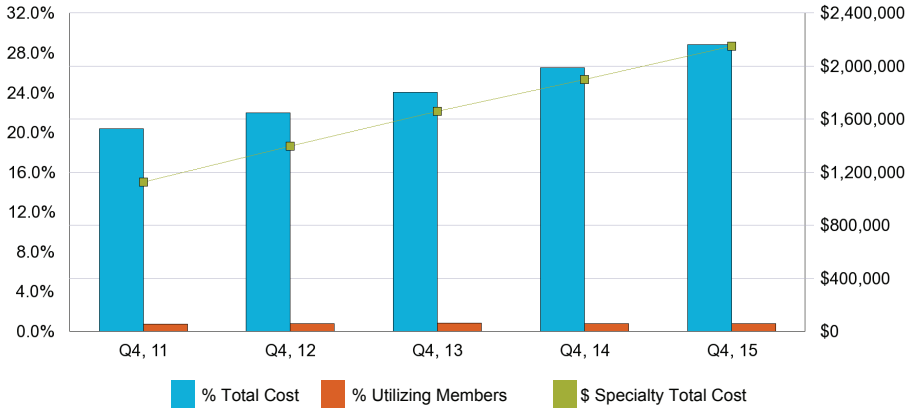
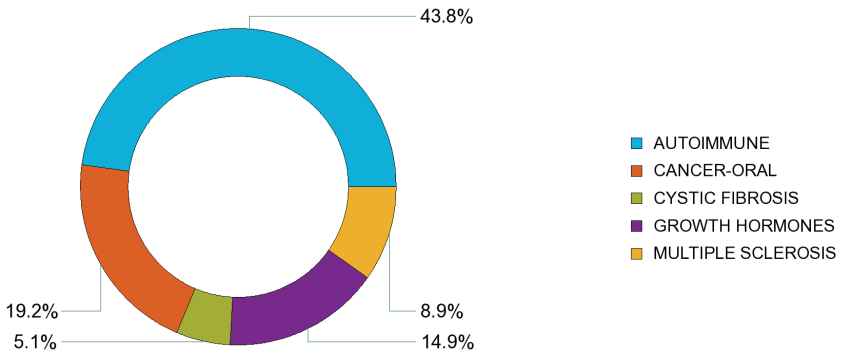
Specialty Trend



Top Therapeutic Classes account for 91.8% of all Specialty Cost



Specialty costs are expected to push overall drug trend into double digits soon. As costly new drugs continue to emerge, we can help keep medicine affordable — for you and your members. Our national scale, experience and big-picture view will work for you to deliver superior service and lower costs.

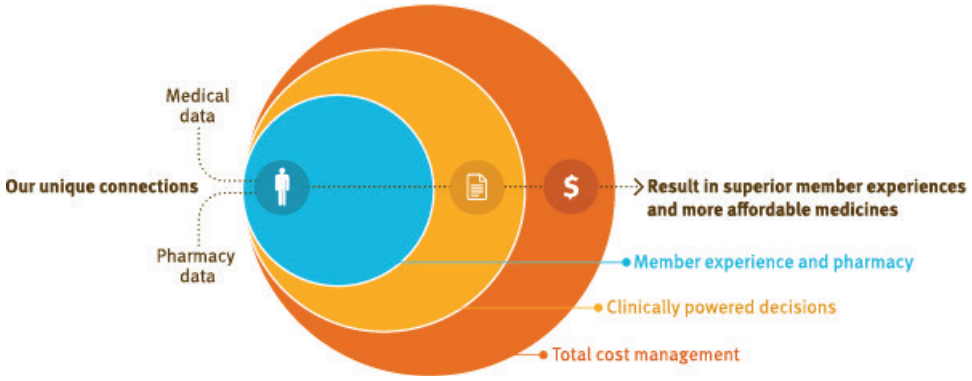
Prime Therapeutics Specialty Pharmacy™ (Prime Specialty Pharmacy) is a state-of-the-art, full-service pharmacy backed by major accreditation and more than 100 experts.

Prime Specialty Pharmacy

- Benefit design consultation
- Formulary options
- Utilization management options
- Member-centered support services
- Specialty drug pipeline analysis



Our in-house specialty pharmacy has everything you need to drive better outcomes, experiences and savings. People using Prime Specialty Pharmacy are shown to have higher adherence, which can lead to improved outcomes and fewer costly hospital stays. And they're supported 24/7/365 by nurses and pharmacists, so when questions arise, answers are always just a call away.

Prime serves 25 million members nationwide, and we handle over 200 million claims each year. Our size, market share and expertise result in market-leading generic rates, net-ingredient costs and drug trend. And that means sizable savings for you. Because of our unique ownership structure, we pass savings on to clients — not shareholders.

Thank you for choosing Prime. This report is part of our efforts to help you gauge the financial performance of your pharmacy benefit. We're dedicated to helping you clearly see the whole picture and drive down your total cost of care — so your employees can get the medicine they need to feel better and live well.

Connected specialty drug management

With specialty costs projected to double in the next five years, proactively managing these expenses now is crucial. Our end-to-end specialty pharmacy, high-touch care management and suite of clinical solutions can help you lower the total cost of care while delivering superior member experiences.

Mail-delivery pharmacy services

Are you taking full advantage of mail-order pharmacy services savings? PrimeMail® offers sizable savings through bulk purchasing, elimination of dispensing fees and improved adherence. Plus, it provides added convenience and privacy for members.

Traditional drug management

They don't garner as much attention as specialty medicines, but traditional drugs account for 99 percent of claims. With a leading generic rate, a big-picture perspective and the expertise that comes along with serving more than 25 million members, we can help you streamline and save in this arena.

Utilization management (UM) programs

Our programs are built on the fact that members who adhere to their drug therapy are more likely to have better health outcomes and lower overall care costs. Through UM, we can help you manage your members' drug use patterns to help you achieve both of these goals.

Specialty Drug Listing

Blue Cross Blue Shield of North Dakota
Specialty Drug List

Specialty Drug – medications or drugs that are generally high cost and may have other considerations such as special drug administration, limited availability, unique delivery and dispensing or unique and/or required patient support or monitoring.

Use of some products identified by **[PA]** may be approved only after certain criteria are met. If prior approval is not obtained, benefits may be denied if criteria are not met. A physician (or clinic personnel) should submit a written request to the address shown below for prior approval consideration. **Both brand name drugs and generic equivalents require Prior Approval.**

Cheryl Stockert
Manager, Administrative Services
North Dakota Public Employees Retirement System
400 East Broadway
Suite 505
Bismarck, ND 58502

Dear Ms. Stockert:

We value our partnership with the North Dakota Public Employees Retirement System (NDPERS). Our organizations have had a long and mutually beneficial relationship that has served NDPERS members well throughout the years.

Blue Cross Blue Shield of North Dakota (BCBSND) recently sent you our Fully Insured group proposal for the NDPERS Request For Proposal (RFP). We are pleased to provide you with BCBSND's enclosed Self Funded group proposal for the NDPERS RFP.

Some of the advantages of choosing the Self Funded option with BCBSND include:

- Less regulatory uncertainty in regards to Affordable Care Act (ACA) impacts.
- Predictable risk through creditable experience and performance guarantees.
- Exemption from many of the taxes imposed on Fully Insured plans.
- The best health insurance value for state employees with a BCBSND Self Insured plan.

We have enjoyed working collaboratively with NDPERS and continue to address the costs associated with providing you with the quality health care coverage your employees have come to expect from BCBSND. We also continue to work together with you to encourage wellness and improving the health of NDPERS employees. Our continued collaborative relationship and deep respect for NDPERS is reflected in this proposal.

NDPERS is the largest group of employees in the state of North Dakota, with members spread throughout the state. As North Dakota's oldest, most respected and largest health insurance company with the state's largest network of participating health care providers, BCBSND is best positioned to meet your member's health insurance needs. As a not-for-profit mutual company, our top priority is serving members and member groups like yours. We provide your group with the best value, including:

- A provider network of more than 99 percent of North Dakota providers (supplemented with BlueCard, Blue Cross Blue Shield's broad national network).
- A dedicated service team, while still maintaining low administrative costs.
- More than 800 North Dakota based employees providing local service and expertise.

This proposal also includes solutions to help hold down costs, while encouraging employees to live healthy lifestyles:

- **A focus on wellness** — We have included in-depth details on wellness programs we created specifically for NDPERS and are facilitating to encourage a culture of prevention rather than treatment, such as the dedicated HealthyBlue portal for NDPERS.
- **Pharmacy benefits management and options** — Because of rising pharmacy costs we included additional pharmacy coverage options and guarantees, such as discounts, fees and rebates. The cost proposal is priced with an integrated medical/pharmacy benefit.

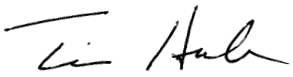
- **Quality and outcome-based collaboration with providers** — BCBSND continues to successfully collaborate with providers and help move North Dakota's health care system toward a model that reimburses facilities more based on the quality of health outcomes and less on the quantity of services provided. BCBSND's Total Cost of Care contracts with North Dakota's integrated health care systems and our MediQHome innovative medical home program are ongoing initiatives that demonstrate our commitment to providing quality care to NDPERS members.

BCBSND has the staffing, infrastructure and contracts in place to continue the successful administration of the NDPERS Health plans and Wellness programs, without member disruption.

On behalf of BCBSND, I acknowledge receipt of the group health RFP specifications and addenda, and confirm that the BCBSND proposal enclosed conforms to the RFP's minimum requirements.

Finally, I would like to sincerely and personally thank you and everyone at NDPERS for the long relationship our organizations have enjoyed. I look forward to further discussions regarding our proposal and continued collaboration in the future.

Sincerely,



Tim Huckle
President and CEO

Attachment: Certification of compliance to provisions of the RFP.

Summary of Proprietary, Confidential and/or Trade Secret Information

Summary of Proprietary, Confidential and/or Trade Secret Information

The responses provided to the following questions include trade secret, proprietary, commercial or financial information that is of a privileged nature and has not been previously publicly disclosed. This information is confidential and is prohibited from being opened to the public.

Question 37	Question 51	Question 60	Question 61
Question 64			

Attachment 9 – Geo Access

Appendix H (Partial as noted in Appendix H)	Appendix I	Appendix K

The information contained in these responses is proprietary information and also includes trade secrets and commercial information as defined under North Dakota law. This information is proprietary in that the information contained within this response involves financial and marketing information, owned and controlled by BCBSND, that is intended to be and is treated by BCBSND as private, the disclosure of which would cause harm to BCBSND's business. The information contained in these responses includes trade secrets in that they set forth information describing patterns, compilations, methods or processes that BCBSND derives independent economic value from because this information is not generally known to (or readily ascertainable by) other entities that could obtain economic value from its disclosure and this information is subject to efforts, reasonable under the circumstances, to maintain the secrecy. These responses also include commercial information involving the purchase of services that has not been previously publicly disclosed and, if the information were to be disclosed, would impair the ability of BCBSND to obtain necessary information or cause substantial competitive injury. As such, this information is confidential and is not subject to disclosure under the North Dakota open records laws. Improper disclosure of this confidential information by a public entity, its agents or assigns is a punishable offense subject to criminal and civil penalties.

Minimum Contract Provisions

Appendix A:

Sample Contract/Minimum Contract Provisions

BCBSND has received the Minimum Contract Provisions. BCBSND is including a redlined version of this document in Appendix F, Exhibit F3. BCBSND currently includes Privacy Use and Disclosure Responsibility in our standard Business Associate Agreement (BAA). We are including a redlined version of the BAA with the Minimum Contract Provisions for the NDPERS consideration.

2. Minimum Requirements (please identify if you would be able to meet this existing service and if not what you would propose.

Minimum Requirements	Response
Electronic Data Collection and Reporting Requirements: Respondents must, at a minimum, meet the data collection and reporting requirements described in Section 1 under Reporting Requirements of the RFP.	As the incumbent, BCBSND will continue to meet all NDPERS data collection and reporting requirements described in Section 1 under Reporting Requirements
Vendor must be able to take current 834 electronic enrollment file (containing member eligibility) at no cost.	As the incumbent, BCBSND will continue to take current electronic enrollment at no cost.
Effective Date of Coverage: Respondents must be able to provide required coverages and services by July 1, 2015 and January 1, 2016 for the PDP.	Acknowledged and Agreed.
Licensure: Respondents must have all applicable licenses required by North Dakota or agree to obtain necessary licensure prior to the effective dates of coverage.	BCBSND currently meets all necessary license requirements.
Term of Contract: NDPERS is required by state statute to solicit bids for medical benefit coverage for a specified term for a fully-insured arrangement and every other biennium for a self-funded arrangement (i.e., 4-year contract with a renewal after 2 years). NDPERS reserves the right to extend the agreement subject to negotiation with the successful vendor if the board deems it necessary.	Acknowledged and Agreed.
Administrative and Premium Rate Guarantees: For all proposals stop loss premium rates and administrative fees must be guaranteed for a period of two years, from July 1, 2015 to June 30, 2017. Recommended PDP rates will be developed each year based upon the federal subsidy.	Acknowledged and Agreed. BCBSND reserves the right to adjust stop-loss, administrative fees premium and applicable benefits with 90 days notice based on any significant benefit changes or new taxes applied due to federal or state regulations
Recommended PDP rates: Must be submitted to NDPERS by end of September of each year.	BCBSND typically submits the renewal rates in August for NDPERS Board review with Board approval no later than their September meeting. We will continue to submit no later than September of each year.
Renewals: Renewals must be submitted to NDPERS in August of the year preceding the contract renewal date and in September of each year for the PDP.	Acknowledged and Agreed.
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	Acknowledged and Agreed.

Minimum Requirements	Response
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	Acknowledged and Agreed.
Replicate Coverage: Respondent should replicate the existing coverage and financial terms (if applicable under a self-insured arrangement) for two years including an HSA arrangement. NDPERS recognizes that different financial arrangements will be necessary to implement a self-insured program. Variances and exceptions to existing coverage can be offered in appendix F item F2.	Acknowledged and Agreed. BCBSND has the ability to replicate all aspects of the current program. Variations are based on state and federal law to comply with regulatory updates. In addition BCBSND will modify Financial arrangements as necessary to implement a self-insured program. These variations are noted in Appendix F – Deviations.
Legislative Compliance: Respondents agree to comply with all provisions of the Health Insurance Portability Act of 1996 including, but not limited to providing certificates of creditable coverage. Respondents must also be in compliance with all HIPAA Privacy and HIPAA EDI requirements and be able to conduct all applicable employer/plan sponsor and provider transactions consistent with those requirements. Respondents will be expected to meet HIPAA security requirements when applicable to NDPERS. Respondents will also be expected to be in compliance with all ACA requirements	BCBSND currently meets all applicable provisions of Part I of the Health Insurance Portability and Accountability Act of 1996 that apply to health insurance carriers as required and that pertain to the NDPERS uniform group insurance program including, but not limited to, providing certificates of creditable coverage, and agrees to comply with any provisions that may be changed or amended in the future, including any requirements imposed through the ACA. BCBSND also currently complies with all HIPAA Part II Privacy and HIPAA Part II EDI requirements and conducts all applicable employer/plan sponsor and provider transactions consistent with these requirements. BCBSND currently meets insurance carrier HIPAA security requirements when applicable to NDPERS. BCBSND implemented the requirements of the HIPAA privacy rule as of April 13, 2003, as required under federal law, and the Electronic Transactions and Code Set Standards were implemented by the October 16, 2003, extended compliance date. The NPI standard was implemented on May 23, 2008. Requirements of the HIPAA security rule were implemented by April 20, 2005, and BCBSND is compliant with the provisions recently enacted under HITECH. BCBSND currently meets all applicable provisions of the ACA that have become effective and apply to health insurance carriers as required and that pertain to the NDPERS uniform group insurance program including, but not limited to, early implementation requirements and other provisions as these become required, and agrees to comply with any provisions that may be changed or amended in the future.

Minimum Requirements	Response
Transition Management: Respondents agree, should they be selected, they will proactively manage the transition of coverage (e.g. claim accumulators, lifetime maximums, etc.) from the current carrier.	As the incumbent, this is not applicable.
Administration: Respondents must agree to comply with existing administration of NDPERS. Any modifications needed to accommodate NDPERS data will be done at the vendor's own expense.	Acknowledged and Agreed.
Audit: NDCC 54-52-04 (10) relating to the audit authority of NDPERS.	BCBSND acknowledges the authority of the board contained in Section 54-52-04(10), N.D.C.C., and is prepared to comply with these requirements subject to any limitations or restrictions imposed under federal law and to agreements in place between BCBSND and any third-party vendor performing administrative services on behalf of BCBSND. BCBSND agrees to submit to the audit authority of NDPERS set forth in Section 54-52-04(10), N.D.C.C., subject to any contract limitations existing at the time of the submission of BCBSND responses to this RFP contained in agreements existing between BCBSND and its vendors or providers during the terms of the health insurance included in this proposal. For the purposes of this provision, the term "providers" shall mean any vendors under contract with BCBSND to provide benefits and/or services utilized in the administration of the NDPERS uniform group insurance program. This term shall not be interpreted to permit any direct audit of health care providers under contract with BCBSND. Subject to the provisions set forth above, BCBSND will work with NDPERS to audit within reason (i.e. time, expense and frequency). In 2010, BCBSND allowed an audit of Prime Therapeutics for NDPERS pharmacy claims. The purpose of the audit completed by Tricast was to insure claims adjudication accuracy, proper rebate administration and pharmacy network performance. The audit results reported to the NDPERS Board were very favorable.

Minimum Requirements	Response
North Dakota Legislation Requirements: Respondent must meet all requirements in the North Dakota Century Code including 54-52; 54-52.1; 54-52.4 and all requirements in the North Dakota Administrative Code including 71-03 and other applicable State Laws. Specific recognition of 54-52.1-12 should be acknowledged.	BCBSND agrees to meet all requirements of the North Dakota Century Code included in chapter 54-52.1, N.D.C.C., and all corresponding requirements in the North Dakota Administrative Code, including chapter 71-03, N.D.A.C., and other applicable state Laws pertaining to the administration of the NDPERS uniform group insurance program, subject to any limitations or restrictions imposed under federal law and those contained in the agreements in place between BCBSND and any third-party vendor performing administrative services or extending covered services on behalf of BCBSND to NDPERS. BCBSND extends specific recognition of and acknowledges Section 54-52.1-12, N.D.C.C., related to the ownership of medical records and related data of NDPERS employees, retirees and dependents, again subject to any limitations or restrictions imposed under federal law or contained in the agreements in place between BCBSND and any third-party vendor performing administrative services or extending covered services on behalf of BCBSND to NDPERS, particularly the directives included in the HIPAA privacy requirements as these relate to covered entities and the ownership, use and control of such data.
Ability to meet the specifications outlined in the RFP unless specifically noted	Acknowledged and Agreed.
Subject matter experts and other appropriate personnel will be available to attend board meetings, legislative hearings, etc. as needed	BCBSND teams of subject matter experts are available to NDPERS to attend board meetings, legislative hearings, etc. Our team of local professionals includes clinical, legal, compliance, actuarial, IT, and marketing. Your dedicated Account Manager will facilitate any requested attendance on behalf of NDPERS.

3. Affidavit of Non-collusion

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);

2. That the attached proposal submitted in response to the Group Medical Coverage Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;

3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and

4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

Responder's Firm Name: Noridian Mutual Insurance Company

Authorized Signature: 
Date: 10/7/2014

Subscribed and sworn to me this _____ day of _____

Notary Public: _____

My commission expires: _____

4. Conflicts of interest list

Responders must provide a list of all entities with which it has relationships that create, or appear to create, a conflict of interest with the work that is contemplated in this request for proposals. The list should indicate the name of the entity, the relationship, and a discussion of the conflict.	To the best of our knowledge, BCBSND is not aware of any entities with which we have a relationship that creates, or appears to create, a conflict of interest with the work contemplated in this proposal.

5. Compliance with Federal and State Laws Form

NDPERS — Federal and State Law Compliance Certification

1. The company shown below is or will be in compliance with Federal and State laws and does not knowingly violate North Dakota or United States Laws. The company shown below will obtain this certification from all subcontractors who will participate in the performance of this contract; and

I certify that the company shown below is in compliance with items 1 above and that I am authorized to sign on its behalf.

Name of Company: Noridian Mutual Insurance Company Date: 10/7/14

Authorized Signature:  Telephone Number: (701) 282-1539

Printed Name: Tim Huckle Title: President and CEO

6. Location of Service Disclosure and Certification

STATE OF NORTH DAKOTA

LOCATION OF SERVICE DISCLOSURE AND CERTIFICATION

LOCATION OF SERVICE DISCLOSURE

Check all that apply:

❑ The services to be performed under the anticipated contract as specified in our proposal will be performed ENTIRELY within the State of North Dakota.

❑ The services to be performed under the anticipated contract as specified in our proposal entail work ENTIRELY within another state within the United States.

✔ The services to be performed under the anticipated contract as specified in our proposal will be performed in part within North Dakota and in part within another state within the United States.

❑ The services to be performed under the anticipated contract as specified in our proposal DO involve work outside the United States. Below (or attached) is a description of

(1) the identity of the company (identify if subcontractor) performing services outside the United States;

(2) the location where services under the contract will be performed; and

(3) the percentage of work (in dollars) as compared to the whole that will be conducted in each identified foreign location.

CERTIFICATION

By signing this statement, I certify that the information provided above is accurate and that the location where services have been indicated to be performed will not change during the course of the contract without prior, written approval from the State of North Dakota.

Name of Company: Noridian Mutual Insurance Company

Authorized Signature: Tim Huckle

Printed Name: Tim Huckle

Title: President and CEO

Date: 10/7/14

Telephone Number: (701) 282-1539

Appendix C:
Questionnaire

Appendix C:

Questionnaire

In order for your proposal to be considered and accepted, your organization must provide answers to the questions presented in this section. Each question must be answered specifically and in detail. Include both the question and the answer in your proposal response. An electronic copy of this questionnaire has been provided to facilitate your response.

Reference should not be made to a prior response unless the question involved specifically provides such an option. Proposers should refer to the earlier sections of this RFP before responding to any of the questions, to ensure that you have a complete understanding of the requirements with respect to your organization's proposal.

Vendors may include additional information that you consider relevant or useful to NDPERS. However, responses to all of the questions set forth below must be provided.

NDPERS is interested in evaluating financial arrangements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of this Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements. **When answering questions and completing exhibits related to your financial proposal, please indicate if your answer would differ under a transparent or a traditional pricing arrangement.** NDPERS will give greater preference to transparent proposals. Please also note that the separate pharmacy questionnaire posted as Appendix L must be completed.

If this proposal results in your company being awarded a contract and if, in the preparation of that contract, there are inconsistencies between what was proposed and accepted versus the contract language that has been generated and executed, any controversy arising over such discrepancy will be resolved in favor of the language contained in the proposal or correspondence relating to your proposal. Vendors are reminded that **any and all deviations must be clearly identified and described in the RFP and the deviations worksheet provided in Appendix F.**

The questionnaire is broken down into the following 12 (twelve) categories:

- Organizational Background, Strength, and Experience
- Implementation and Account Management
- Communications and Website
- Plan Administration
- Eligibility
- Customer/Member Service
- Claims Administration
- Reporting
- Case/Utilization Management
- Health Risk Management and Wellness Programs
- Provider Network
- Performance Standards and Guarantees

BCBSND has provided comprehensive responses to all questions presented. BCBSND has provided additional detail to certain questions that we believe would be pertinent to NDPERS in the evaluation process.

Transparent (Pass-Through) Pricing Summary

Two standard types of Pharmacy offers are most common in the Pharmacy Benefit Manager (PBM) industry: Traditional and Pass-through.

Traditional pharmacy bids are typically characterized by "Spread" pricing where by the PBM will offer flat discount and dispensing fee guarantees accompanied by a $0 or very low fixed cost. The "Spread" represents the difference in discount quoted to the employer group versus the actual reimbursement by the PBM to the pharmacy. This Spread can be applied to both Brand and Generic drugs and dispensing fees and is a source of revenue generation for the PBM. This "Spread" revenue is typically utilized by the PBM to subsidize a higher Brand discount and to offer a low pharmacy fixed admin cost. By design, a Traditional deal is structured to generate a revenue stream for the PBM off variable claims costs that exceeds any subsidization to Brand discount and fixed pharmacy administrative costs. This excess revenue stream generation is not passed through or completely disclosed to the employer group.

Traditional pricing may be particularly appealing to employer groups that are focused on fixed costs and those that desire a very low pharmacy admin but are willing to experience higher variable claims spending. Since variable pharmacy claim spending is greater than 90% of the total spending associated with most employer groups pharmacy benefits, BCBSND groups typically elect for a Pass-Through (PT) pricing arrangement rather than a Traditional approach because of savings associated with variable claims spending .

In addition to Traditional "Spread" pricing, PBMs have the ability to manipulate their Brand and Generic definitions when they reconcile to discount guarantees. This strategy is utilized to quote a higher perceived Brand and Generic discount on a spread-sheet but does not translate into lower net drug spending. Most commonly, a PBM may re-bucket or exclude single source (generics from a single manufacturer), dual source (generics from 2 manufacturers), or tertiary source (generics from 3 manufacturers) generics from discount guarantee reconciliations to achieve artificially inflated discounts. This strategy is often used with Traditional "Spread" pricing arrangements to demonstrate perceived discount value and to mask the revenue streams associated with "Spread".

In contrast to Traditional pricing, BCBSND offers NDPERS a Pass-through (PT) pricing arrangement. A PT pricing arrangement is characterized by minimum effective discounts and dispensing fee guarantees and does not include Spread pricing. Since these are minimum effective guarantees, NDPERS would receive the full value of all BCBSND contracted pharmacy network rates and dispensing fees based upon the pharmacies that your members elect to utilize. Additionally, as Prime Therapeutics renegotiates the BCBSND pharmacy network, NDPERS would benefit from the full pass-through of any network enhancements we achieve for BCBSND throughout the year rather than upon anniversary date. This extra value is not typically passed through to an employer group in a Traditional bid. BCBSND's PT offer does not include any manipulation of Brand and Generic for discount reconciliation. This strategy is often used by other PBMs to artificially inflate their perceived discounts as documented above.

BCBSND currently offers what we define as a "transparent" approach to NDPERS based on our fully integrated Pharmacy Benefit Manager (PBM), Prime Therapeutics. The current model varies compared to the "transparent" model described in the RFP. Currently, BCBSND offsets Prime's administrative fee with a combination of funding levers in order to be revenue neutral while simplifying the administrative burden for NDPERS. BCBSND will provide pricing to illustrate both the current arrangement as well as the requested approach.

The true value of transparent vs. traditional pricing can be found in the Ingredient Cost Fact Sheet, found in Attachment 1 – Ingredient Cost Fact Sheet.

BCBSND understands that should an inconsistency be found, that favor would be given to the terms in this proposal. We are comfortable with this approach. As the incumbent, BCBSND administers all aspects of the current program with the only deviations noted based on regulatory changes.

1.1 Organizational Background, Strength and Experience

1. Provide a brief description of your organization, including your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).

Company History
More than 70 years ago, Blue Cross Blue Shield of North Dakota (BCBSND) began as two separate pre-paid health care plans for hospital and physician services. The two companies merged in 1986 and, in 1998, converted to a not-for-profit mutual insurance company.

Organizational Structure
In 1998, BCBSND changed its corporate structure to a nonprofit, mutual insurance company and its name to Noridian Mutual Insurance Company (NMIC). The new structure gave members more ownership, plus allowed the company to pursue business in neighboring states as NMIC, while continuing to do business within North Dakota as BCBSND.

Throughout the history of Noridian Mutual Insurance Company, the corporation has established subsidiary and affiliated companies.

In 2002, NMIC established the wholly owned subsidiary Noridian Administrative Services, LLC (NAS) in order to pursue additional Medicare business and other government contracts. In 2013, Noridian Administrative Services, LLC was rebranded as Noridian Healthcare Solutions (NHS). Today, NHS processes over 119 million claims annually. They serve over 13.1 million beneficiaries in all 50 states and work with over 290,000 healthcare providers. NHS has 1808 employees, of which 1306 reside in North Dakota.

In 2008, NMIC bought a 51 percent controlling interest in Discovery Benefits, Inc. (DBI). DBI provides reimbursement accounts including flexible benefits, health savings accounts, health reimbursement arrangements, transportation/parking accounts and COBRA administrative services.

In early 2009, BCBSND together with Blue Cross Blue Shield of Nebraska, launched a health care technology company named CoreLink Administrative Solutions. The joint venture processes claims for the North Dakota, Nebraska and Wyoming Blue plans, and results in significant administrative efficiencies by delivering core systems solutions at lower costs and greater performance capability.

In 2011, NMIC acquired MDdatacor, Inc., a Georgia-based technology company that provides data-driven solutions for health care insurers and providers. MDdatacor has the ability to collect, store, manage and analyze patient medical information from the most comprehensive data sets available in the industry. The acquisition was part of NMIC's ongoing strategy to collaborate and innovate to find local solutions that will sustain accessible, high-quality health care for all North Dakotans for years to come. MDdatacor owns MDinsight, the primary technology platform that facilitates highly secure HIPAA-compliant information sharing among care providers participating in MediQHome, BCBSND's quality program based on patient-centered medical home concepts.

In 2014, NMIC sold MDdatacor to Symphony Technology Group, a technology and services-focused private equity firm. Symphony will integrate the MDinsight tool with other population health management and data analytics technology to offer new high value analytical software. NMIC will continue to utilize the MDinsight platform to power MediQHome and will evaluate other Symphony tools to determine their value in the North Dakota market.

Services Provided
BCBSND has expanded to a full-service benefits administrator and offers dental and vision insurance, group life insurance, disability benefits and flex benefit administration. Operations currently include actuarial, communications, claims processing, finance, information technologies, legal, marketing, medical management, member services, provider relations, provider services and even more sub-specialty services under each category, such as quality control and cost containment efforts.

Location of Headquarters
BCBSND began with a small office located in downtown Fargo in 1940. The corporate office is now located at 4510 13th Ave. S., Fargo, with additional service offices located across the state in Bismarck, Devils Lake, Dickinson, Grand Forks, Jamestown, Minot, Valley City, Wahpeton and Williston.

Future Organizational Developments
The Company continues to make investments to streamline administrative and operational expenses.

2. Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.

   Please see Attachment 2 – Audited Financials for a copy of our 2013 Audited Financials. The name and address of our public accounting firm is listed on the fourth page of the attachment. Our primary banking relationship is with Wells Fargo. The address is 406 Main Avenue, Fargo, N.D., 58103

3. Provide a copy of any State or Federal regulatory audit performed within the last two years.

   A Targeted Market Conduct Examination was conducted October 2013 through May 2014. As of September 16, 2014, NMIC has not yet received a draft report from the North Dakota Department of Insurance with the final audit results. BCBSND will provide NDPERS copies of the audits upon completion and request by NDPERS.

   In addition, over the past two years NMIC has been subject to review of its administration of the North Dakota Children's Health Insurance Program (CHIP), also known as the Healthy Steps program, to confirm that program administration is being done in compliance with federal regulation set forth in 42 CFR 438.358 and Section 402 of the CHIPRA 2009 Legislation. These reviews are conducted annually by a third party at the direction of the North Dakota Department of Human Services. NMIC has consistently improved its compliance scores during these reviews.

4. Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the Minimum Contract Provisions in Appendix A.

   BCBSND is accountable for everything stated in and submitted as part of our proposal, even if not specifically addressed in the proposed sample minimum contract provisions.

5. Indicate whether your company has ever been or is currently a party to litigation regarding a medical benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.

   BCBSND participates through its subrogation/reimbursement processes as a plaintiff in numerous class actions. NDPERS should already be in possession of most of the details

requested in regard to this litigation. Aside from these subrogation/reimbursement cases, in the late 1990s, BCBSND was involved in some litigation resulting in a settlement that required certain language changes in its service agreement. Otherwise, to its best information and belief, BCBSND has not been and is not currently a party to litigation regarding a medical benefit plan contract or agreement.

As covered in local media, BCBSND is currently in litigation with a former Medical Director over wrongful termination. While the lawsuit is employment based litigation, it does make accusations about the administration of BCBSND medical benefit contracts. BCBSND did inform NDPERS directly about this suit and our position that the claims have no merit. BCBSND is heavily regulated by both state and federal agencies that perform frequent audits to insure controls are in place. We are confident in our position on this lawsuit.

6. State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.

No, BCBSND is not aware of any disciplinary action against our officers, agents or employees that would impact any license, registration, charters or certifications necessary to provide the services outlined in this proposal.

7. Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.

Blue Cross Blue Shield of North Dakota's mission is to deliver affordable solutions to improve the care and health of those we serve.

We have a multifaceted strategy designed to help us meet this mission:

- Offer products that have the best overall value in the market;
- Curb cost of healthcare on behalf of our members;
- Keep administrative costs to a minimum while maintaining the highest level of service;
- Offer products and services that comply with all state and federal regulations.

Each of these aspects of the overall strategy has both short term initiatives and long term goals.

Offer products that have the best overall value in the market

Short term initiatives
BCBSND takes pride in offering the most comprehensive products and services at the best prices in the market. We continue to enhance the services we offer including additional local expertise in health and wellness, new analytics packages, and additional self service capabilities.

Long term strategy
As a strong local company, BCBSND understands what North Dakotans value and incorporate these values into everything we do. We offer comprehensive access to both local and national providers at the most competitive rates in the state. We offer products that both comply with state and federal laws and align with the needs of North Dakotans. As the health insurance market and the health care delivery system evolve, BCBSND is committed to evolving with North Dakota to continue to offer the best value to our members and customers.

Curb cost of healthcare

Short term initiatives
BCBSND has several initiatives we are working on to ensure our members are getting the most for their health care dollar. We are moving from MS-DRG to APR-DRGs to further

align our reimbursement with our population. We continue to work on the transition from ICD-9 to ICD-10 which will allow for more accurate coding to track outcomes. We are also working on an enhanced version of our outcome-based reimbursement model.

Long term strategy
BCBSND will continue to support primary care practices in their transformation towards a patient centered care model, as well as incent health systems in their efforts to streamline all health care services.

Keep administrative costs to a minimum while maintaining the highest level of service

Short term initiatives
BCBSND is completing an analysis of overall functional administrative expense levels to identify areas where expenses may be reduced. The evaluation has identified multiple claims and customer service projects that will increase efficiency.

BCBSND also will be evaluating print, mail and distribution costs.

Long term strategy
BCBSND will continually look for efficient utilization of administrative expenses to offset the continued pressure exerted on administrative costs from a variety of sources, including regulatory changes, IT investments to ensure an ongoing functional infrastructure, and investments to be able to respond to member and market demands in an increasingly competitive market.

Offer products and services that comply with all state and federal regulations

Short term initiatives
BCBSND is working directly with the North Dakota Insurance Department (NDID) to increase and improve communication as we navigate the multiple changes in federal regulations. This communication will ensure compliance, while enhancing audit performance, and allows for input to the NDID on policy, compliance and regulatory changes.

Long term strategy
Together with our Governement Relations team, BCBSND will continue to strengthen its relationship with the NDID to ensure, timely and well-supported products, rate and financial filings, and enhanced audit performance.

8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?

North Dakotans serving North Dakotans
NDPERS is the largest group we serve in North Dakota, and because of this relationship we have been able to devote a dedicated service team to serve you, backed by the additional support of our entire staff of almost 800 North Dakota-based employees.

As a North Dakota company, we understand what it takes to serve our members well, because they are our neighbors and friends. We're active and engaged in all communities we serve, contributing not just as employees, but as parents, neighbors, leaders, friends and volunteers. We know the local employer and provider markets; we routinely meet with the thought leaders and decision makers. When customers or providers call, we show up.

Leading North Dakota Health Care into a New Era
BCBSND is leading the state's health care industry into a new era by focusing on five strategic pillars.

1. **Affordability**
   Affordable health care remains a major concern as we implement the Patient Protection and Affordable Care Act (PPACA) of 2010. We are working with health care providers and other stakeholders to find innovative solutions so health care in the

future is more accessible, more affordable and more efficient, while maintaining the quality we have all come to expect. We understand this is a monumental task, but we believe North Dakota can become a model for the rest of the country because of our shared commitment to a sustainable health care delivery system.

2. **Stewardship**
As North Dakota's largest health insurer, we understand the major role we play in the success of the state's health care system. We pledge to our members and to the entire state that we will be good stewards of the resources with which we have been entrusted. We will work toward greater access, greater affordability and even higher levels of quality in the health care system. We will continue to be good citizens of the state by promoting wellness and lending our expertise to improve the quality of life and health in North Dakota. At BCBSND, we understand that every dollar that goes toward operating expenses is a dollar that could be going toward health care costs. While the average operating expense for other health insurance companies is close to 14 percent, at BCBSND, the operating expense is only 8.2 percent. These savings are passed on directly to our members through lower premiums.

We continue to work to reduce administrative costs without impacting service or quality by leveraging technologies and processes.

3. **Excellence**
For decades, BCBSND has been the standard of excellence in the state's health insurance industry. We extend that same intensity of purpose and expectation of excellence to everything we do, from working to make health care more affordable to being a good corporate citizen. We have high expectations for ourselves and we intend to meet them.

4. **Collaboration**
Health care accounts for approximately 17 percent of the nation's gross domestic product and is projected to double in the next 30 years unless we are able to bend the cost curve in a substantive way. For BCBSND members, approximately 8 percent of all premium dollars are spent on administrative costs. That means we need to work with all stakeholders—health care providers, government officials and our members, just to name three—if we are going to stem the unsustainable rate of health care inflation. We are working with a multitude of partners to help us accomplish this goal.

5. **Engagement**
   Communication is the key to engaging all the necessary stakeholders in the monumental tasks we face to curb health cost increases. BCBSND is working to spread the message that the current system is unsustainable and that there are solutions we can implement to ensure we have the access, affordability and quality that everyone expects of our health care system.

High Customer Satisfaction
BCBSND has been a health insurance leader in North Dakota for over 70 years. One reason is when our members call, they reach a person, not a menu of options. That commitment to service allowed us to achieve a 95 percent customer satisfaction score from our members in 2013.

Our performance is well above accepted industry standards:

- 99 percent of claims were paid in 30 calendar days in 2013.
- 99 percent of all claims were paid correctly in 2013

NDPERS members benefit from an extensive statewide provider network, as well as the national BlueCard network
Because BCBSND holds the largest share of market across North Dakota, we are able to offer NDPERS an unrivaled provider network and the largest discounts available from any carrier that can serve NDPERS as well as special discounts that go beyond normal provider discounts in North Dakota.

NDPERS members also have access to the BlueCard national network which allows for discounts negotiated by other Blue Cross Blue Shield plans nationwide to be passed through to the member, as well as the knowledge that their insurance card will be accepted almost anywhere they travel.

Our successful collaboration is working to impact cost and encourage a healthier population
Our collaborative relationship of more than 37 years has also allowed us to continually develop initiatives, business practices and programming that are advantageous to NDPERS.

There will be no gap in service — or quality — to NDPERS members
Our 37+ years together have given us an important advantage, which we do not take for granted. We have been fortunate to share in NDPERS's history, and know the system, leadership, people, legislative processes, expectations and members.

We have welcomed your frank suggestions to refine and change our deliverables and all communications, as well as continue to look for ways to deliver greater value and service to NDPERS members.

HealthyBlue – dedicated NDPERS portal
The dedicated HealthyBlue portal created for NDPERS will encourage a culture of prevention rather than treatment. This online health tool features health logs, workshops, educational information, health assessment and other tools to help NDPERS members take control of their health. Wellness and worksite wellness programs are continually being refined and expanded.

Statewide collaboration is focused on improving North Dakota's health care system
Because we believe that North Dakota solutions are the key to addressing the issue of health care costs, we're continually collaborating with doctors, hospitals and clinics to improve our health care system, including:

- MediQHome Quality Program, our innovative and award-winning medical home program, improves quality and reduces cost by providing incentives for quality

outcomes, a departure from traditional fee-for-service billing. This program rewards doctors for closely monitoring their patients with chronic health conditions that account for much of the nation's rising health care costs.

- MediQHome was evaluated and received the Blue Cross Blue Shield Association's Blue Distinction Total Care designation ensuring our network of medical home providers meet nationally recognized standards for quality.
- Hypertension Quality Improvement Program, a collaboration with the American Health Association, the American Stroke Association and the North Dakota Department of Health, has reached more than 10,000 BCBSND members with hypertension in the partners' first collaborative outreach. This program is part of BCBSND's MediQHome program.
- Consumer Transparency Initiatives provide our members the ability to compare — and comment — on treatment and cost of care received across the state.
- Paperless Explanations of Benefits (EOBs) and Authorizations, which will reduce both time and costs in the communication and administration of your members' claims.
- The Member Advocacy Program, created by BCBSND for members facing life-changing medical events, begins with a dedicated Member Advocate proactively reaching out to members and offering them assistance. Knowing that these families are often unprepared for the flurry of bills and insurance statements that result from a major medical event, the Member Advocate helps resolve billing issues with medical staff and facilities, and monitors claims to make sure they are processed correctly.

Strength in Numbers
BCBSND is proud to be the state's largest health insurer, as demonstrated by these statistics from the North Dakota Department of Insurance:

- Individual Market: 78.3 percent BCBSND market share*
- Small Group: Fully Insured (2-50 employees): 86.0 percent BCBSND market share*
- Large Group: Fully Insured (50+ employees): 96.4 percent BCBSND market share*
- BCBSND group retention rate: 95.4 percent of all available renewal groups and 98.0 percent when considering those lost to competitor (May 2014 data).
- BCBSND covers 60.3 percent of all North Dakota residents**
- Medicare Supplement: 71.3 percent BCBSND market share***

* Based on total covered lives reported in the Supplemental Health Care Exhibit for 2013 (as reported to the National Association of Insurance Commissioners) for all companies selling health coverage in ND.

** Based on Mark Farrah Associates, Health Coverage Portal for fourth quarter 2013

*** National Association of Insurance Commissioners – Medicare Supplement Insurance Experience Exhibit, 2013.

This type of market position allows BCBSND to do things that other insurance companies can't—like work to transform health care in North Dakota by improving quality and driving down the rising cost trend.

Awards

Federal Employee Program (FEP) Awards:

The FEP Awards are presented annually by the Blue Cross and Blue Shield Association (BCBSA) to Blue Cross and Blue Shield plans that provide excellent service to federal employees.

Plan Excellence Award

The BCBSA's Plan Excellence Award is the highest form of recognition for overall plan performance presented to BCBS plans participating in the FEP program. Plan Excellence Award scores are determined by combining the scores plans receive in the Excellent Service Profile Award and the Excellent Strategic Profile Award.

BCBSND has won the Plan Excellence Award in eight of the last nine years and 15 times since the award was introduced in 1991.

Excellent Service Profile Award

The Excellent Service Profile Award measures member satisfaction, accessibility, timeliness and accuracy of claims processing and responses to member inquiries, reconsiderations and appeals.

BCBSND has received the Excellent Service Profile Award in each of the last 21 years.

Excellent Strategic Profile Award

The Excellent Strategic Profile Award measures benefit costs, administrative costs and market growth.

BCBSND has received the Excellent Strategic Profile Award for 20 straight years.

Brand Excellence Award

The Blue Cross and Blue Shield Association (BCBSA) Brand Excellence Award was created in 1995 to recognize Blue Cross and Blue Shield plans nationwide in categories promoting the Blue brands. These categories include attracting new customers, fostering loyalty to existing customers, expanding the Blue brands into additional lines of products or services, and provider satisfaction.

BCBSND has received the Brand Excellence Award nine times:

- 1995 – Overall Score
- 1996 – Overall Score
- 1997 – Overall Score
- 1998 – Overall Score
- 1999 – Overall Score
- 2001 – Overall Score
- 2006 – Member Retention and Provider Satisfaction Categories
- 2008 – Provider Satisfaction Category
- 2011 – Member Retention Category

Best of Blue Award

Since 1998, the BCBSA has received more than 630 entries for the Best of Blue Award from BCBS plans nationwide. Of these entries, only 54 programs were recognized as meeting the criteria outlined in the Best of Blue program. The winning entries showcased BCBS plans' continued innovation and dedication to improving our nation's health care delivery system. BCBSND received Best of Blue awards for FEP program administration/ winning the award ten times: 2000, 2001, 2005, 2006, 2007, 2009, 2010, 2011, 2012 and 2013.

9. Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.

BCBSND routinely contracts with third-party vendors for additional services. As such, it has business associate agreements and other types of contracts in place. These detail the terms of the agreement, including scope of services and conflict resolution provisions. If quality or performance issues develop, the group notifies BCBSND, and it is BCBSND's responsibility to resolve the situation according to the terms of these agreements.

Claims Processing:
CoreLink Administrative Solutions is a health care technology company that processes claims for BCBSND as well as the Nebraska and Wyoming Blue plans. BCBSND and Blue Cross Blue Shield of Nebraska launched the company in 2009. CoreLink is headquartered in Fargo, ND with over 200 employees located in North Dakota. CoreLink is managed by a board of directors that includes representation from the participating Blue plans, who are also the only customers. As part of their regular agenda, the board reviews any productivity or process issues, and recommends resolution options.

Disease Management:
Accordant provides rare and complex disease management. BCBSND began a relationship with Accordant in 2010. Quarterly reports are available for utilization monitoring and quality assurance, as well as annual return-on-investment analysis. In addition, there is a grievance process defined for both member and provider complaints.

Healthways is the vendor for our Disease Management program for out-of-state members. The goal of our disease management program is to motivate members and providers to engage in healthy behaviors. Quality customer service and timely and effective issue resolution are ensured through weekly communications between BCBSND and the vendor including a regularly scheduled conference call and prompt access to Healthways personnel as needed. Member satisfaction, quarterly reports, quality assurance monitoring and return-on-investment analysis are provided by Healthways.

The MediQHome Quality Program contracts with MDdatacor (MDD) to provide a decision support platform called MDinsight. BCBSND has had a relationship with MDD since 2008. In October 2011, MDD was acquired by the parent company of BCBSND, Noridian Mutual Insurance Company (NMIC). In April 2014, NMIC sold MDdatacor to Symphony Technology Group. MDdatacor is SOC 2 compliant and the platform and data exchange is HIPAA compliant. Quality assurance checks are performed weekly and there is continuous communications between the providers, MDD and BCBSND. BCBSND is involved with testing upgrades and intermittent product development.

Pharmacy:
Prime Therapeutics, LLC, has been the Pharmacy Benefit Management vendor for BCBSND for more than 17 years.

ClearStone Solutions, Inc. provides consulting services, program management, medical mangagement, compliance and regulatory services to health insurance plans in the government business sector builiding including Medicare Part D, Advantage and Medicaid products.

Wellness:
BCBSND has partnered with the following vendors to assist with providing the current wellness programs:

Cerner provides online wellness tool HealthyBlue. Contractual partner since December 19, 2012. Quality of customer service and timely and effective issue resolution are contractual obligations regarding telephonic support, site uptime, portal performance and issue remedying.

New programs are also available from Cerner. Services such as onsite basic medical screens and health coaching may provide an increased level of customization that integrates based upon the specific needs of the NDPERS population.

National Independent Health Club Association (NIHCA) provides administration of the BCBSND Health Club Credit program. Contractual partner since January 1, 2008. Quality of customer service and timely and effective issue resolution are contractual obligations regarding standards and support metrics and reporting.

10. What ratings have you received from the following third party rating companies and organizations?

Rating Organization	Rating	Date of Last Accreditation / Rating
A.M. Best	N/A	
Standard & Poor's	BBB+	May 2014
Moody's	N/A	
NCQA (by product)	N/A	
	N/A	
JCAHO	N/A	
URAC	Full Accreditation for Health Utilization Management Full Accreditation for Health Plan and Health Plan for Health Insurance Exchange	Through 9-1-2015 Through 6-1-2017
American HealthCare Commission	N/A	

11. Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.

All services proposed are provided domestically.

12. Confirm that your proposal includes any and all deviations to the Minimum Contract Provisions (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).

Confirmed.

13. Confirm that you will conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with beginning July 1, 2015.

BCBSND is committed to serving as NDPERS's primary resource for information about Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act of 2010 and will revise NDPERS's benefit plan, programs and systems to ensure compliance.

Since the inception of ACA, BCBSND has provided NDPERS access to our subject matter experts to work through the ACA key provisions including the employer mandate, eligibility, look back periods, affordability and reporting requirements. A pilot workgroup was formed including representatives from NDPERS, the Office of Management and Budget, agency

staff and BCBSND to discuss implementation requirements. In addition, other state agency and political subdivision representatives were invited to two special ACA forums in July and September, where BCBSND staff presented on ACA provisions along with other state staff.

BCBSND has worked with NDPERS to successfully implement the initial provisions of PPACA, including:

- Expanded eligibility for adult children up to age 26
- Elimination of pre-existing condition waiting periods for members younger than age 19
- Elimination of lifetime and annual limits for essential benefits
- Elimination of cost-sharing for preventive services, screenings and care as well as routine immunizations recommended by various government agencies
- Expanded coverage for women's preventive benefits for non-grandfathered plans
- Compliance with the PPACA Summary of Benefits and Coverage and Uniform
- Glossary provision
- Transitional Reinsurance Assessments
- Patient Centered Outcomes Research Tax
- PPACA Insurer Fee

With a move to self funding, many of these taxes and fees are no longer applicable. BCBSND will work with NDPERS on these changes.

BCBSND will continue to work with NDPERS to implement additional provisions as required under PPACA. The following provisions will impact NDPERS during the next biennium, including:

Provisions	Non Grandfathered Plans	Grandfathered Plan
USPSTF – Alcohol Misuse	Impacted	Not Impacted
USPSTF – Hepatitus C Virus Screening	Impacted	Not Impacted
USPSTF – Preventive High Risk Breast Cancer Drugs	Impacted	Not Impacted
USPSTF – Lung Cancer Screening	Impacted	Not Impacted
Out of Pocket Maximum Definition Update	Impacted	Not Impacted
Removal of Waiting Periods	Impacted	Impacted
Conversion Language Updates	Impacted	Impacted
BlueCard Language Updates	Impacted	Impacted
20% Non Par Sanction Removal	Impacted	Not Impacted
Medical Qualification Language Removal	Impacted	Impacted
Member Rights and Responsibilities Language Added	Impacted	Impacted

*Provisions do not apply to retiree plans

In addition, effective the next biennium, 7-1-2015 – 6-30-2017, due to the **Mental Health Parity and Addiction Act (MHPAEA)** final rule, we will be removing the age limits from Psychiatric Residential Treatment Services. Previously, this benefit was limited to members under age 21. This restriction was removed to comply with the MHPAEA final rule.

1.1.2 References and Experience

14. Provide the following information on a maximum of three (3) of your largest medical plan clients for whom you provide medical network, and administrative services on a self-insured basis. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client.

Name of employer sponsoring plan and location:	Titan Machinery Inc. Fargo, ND
Type of services provided to plan sponsor:	Health
Plan inception date:	1998
Length of time as client:	16+ Years
Number of contracts and members participating in the plan:	1,882 contracts; 3,745 members
Contact Information (name, title, phone number, e-mail address):	Randy Johnson, VP of Human Resources (701) 356-0130 Randy.johnson@titanmachinery.com

Name of employer sponsoring plan and location:	Fargo Public Schools Self-Funded Insurance Program, Fargo, N.D.
Type of services provided to plan sponsor:	Health
Plan inception date:	mid-1970s
Length of time as client:	37+ years
Number of contracts and members participating in the plan:	1,405 contracts; 3,744 members
Contact Information (name, title, phone number, e-mail address):	Sheryl Lehman 701-446-1038 lehmans@fargo.k12.nd.us

Name of employer sponsoring plan and location:	Border States Industries, Inc.
Type of services provided to plan sponsor:	Health and Dental
Plan inception date:	1985
Length of time as client:	28 years
Number of contracts and members participating in the plan:	1,292 contracts; 3,122 members
Contact Information (name, title, phone number, e-mail address):	Sherri Sandvig, VP Human Resources (701) 239-7467 ssandvig@border-states.com

15. Provide the following information for two (2) of your largest medical plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.

Name of employer sponsoring plan and location:	Coventry Health Care
Type of services provided to plan sponsor:	Health
Plan inception date:	2002
Length of time as client:	12 Years
Number of contracts and members participating in the plan:	352 contracts, 829 members
Reason for termination:	Acquired by Aetna
Contact Information (name, title, phone number, e-mail address):	Francis Babin, Manager, Benefits (301) 581-5449

Name of employer sponsoring plan and location:	Essentia Health
Type of services provided to plan sponsor:	Health
Plan inception date:	Mid-1990s
Length of time as client:	15+ years
Number of contracts and members participating in the plan:	Approx 1,700 Contracts, 3,400 members
Reason for termination:	Moved to Corporate Health Plan
Contact Information (name, title, phone number, e-mail address):	Dr. Greg Glasner, President and CMO (218) 435-1212 Greg.Glasner@EssentiaHealth.org

1.2 Implementation and Account Management

16. Proposers must outline in detail the specific activities and tasks necessary to implement the NDPERS program. Be specific with regard to the following:

- Amount of total time needed to effectively implement the program

  30 days prior to the open enrollment session launch.
- Activities/tasks and corresponding timing

  As the incumbent carrier, no transition will be needed and system changes will follow BCBSND group renewal processes already in place.
- Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff

  As the incumbent carrier, all processes are in place to support the renewal of the NDPERS plan.
- Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change

  Not applicable to BCBSND as incumbent.
- Length of time implementation team lead and members will be available to NDPERS.

  BCBSND currently has a team of employees dedicated to NDPERS. Our NDPERS team will ensure a smooth implementation every step of the way.

17. Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.

    Strategically, the NDPERS relationship will be managed to engage the boards and executives in direct communication on organizational needs and direction. We will continue to work with NDPERS to address cost trends, legislative items, new product concepts and other issues impacting the cost and quality of care and coverage. On a day-to-day basis, we will continue to provide a dedicated account executive, an account manager, group consultant, wellness consultant and access to all levels of management and the BCBSND Board. NDPERS members will continue to receive the high quality they've come to expect from our dedicated member services team. Please see "Attachment 3 – BCBSND Organizational Chart" for the BCBSND organizational chart.

    a. The key individual representing your company during the proposal process;

        Tim Huckle, President and CEO

        A team of executives play a supporting role. Please refer to "Attachment 4 – Biographies" for biographical information.

        Executive Support Team:

        - Denise Kolpack, Senior Vice President of Corporate Communications and Public Affairs
        - Pat Bellmore, Chief Marketing Officer
        - Brad Bartle, Vice President of Actuarial & Membership
        - Mark Tschider, Vice President of Customer Support & Claims Administration
        - Sharon Fletcher, Senior Vice President of Health Network Innovation and Human Resources and Development
        - Renay Rutter, Executive Vice President of Enterprise Planning and Technology
        - Daniel Conrad, Chief Legal Officer
        - Brian Fellner, Executive Vice President and Chief Financial Officer

    b. The key individuals on your proposed implementation team;

        BCBSND has an established cross functional implementation team with leadership representation from all business units. This team will be led by a dedicated Project Manager, Lacey Hogness.

    c. The key individual assigned to overall contract management;

        Kevin Schoenborn, Manager, Consulting Services - Account Executive

    d. The key dedicated individual or team members responsible for day-to-day account management and service;

        Your dedicated Account Management Team will coordinate with the BCBSND implementation to ensure all aspects of the NDPERS benefit plan are implemented timely and accurately. They will be supported by a team of Subject Matter Experts. Please refer to "Attachment 4 – Biographies" for biographical information.

Account Management Team:

- Kevin Schoenborn, Manager, Consulting Services – Account Executive
- Dorinda Card, Director of Key Accounts
- Onalee Sellheim, State and Public Program Manager – Account Manager
- Sonja Nyhof, State and Public Program Manager
- Jodi Crouse, NDPERS Large Group Consultant
- Michael Carlson, Manager of Health and Wellness
- Stacy Duncan, NDPERS dedicated Wellness Consultant
- Sheri Srnsky, Team Leader, Special Accounts, Claims

Subject Matter Experts:

- Michelle Bishoff, Director of Claims Administration
- Tom Christensen, Manager of Pharmacy Management
- Zach Keeling, Director of Marketing Operations & Product Management
- Linda Merck, Senior Actuarial Analyst
- Lacey Hogness, Business Implementation Lead
- Mike Potts, Director of Employer Consulting & Wellness Services
- Carman Bercier, Vice President Health Innovation and Practice Innovation
- Jackie Walsh, Vice President Clinical Excellence and Quality
- Pam Gulleson, Vice President of Public Affairs
- Megan Houn, Director of Government Relations
- Brent Solseng, Pharmacy Manager Marketing
- Shelly Stalpes, Manager Claims Administration
- Jim Wynstra, Director of Actuarial
- Heather Horner, Member Education Consultant
- Miriam Griffin, Member Advocate Specialist

Please refer to "Attachment 4 – Biographies" for biographical information.

e. The key individual responsible for provider contracting; and

Sharon Fletcher, Senior Vice President Health Network Innovation and Human Resources and Development

Please refer to "Attachment 4 – Biographies" for biographical information.

f. The key individual responsible for provider relations if different than letter e. above.

Please refer to question 17 e.

18. Please provide the requested information for the functions that will be servicing NDPERS in the table below:

Area	Geographical Location(s) and Organizaiton Name (if out-sourced)	Hours of Operation (Specify PST/ CST/EST)	*Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced*
Member Service	4510 13th Ave S. Fargo, N.D. 58121	Monday – Friday 8 a.m.-5 p.m.	No

Area	Geographical Location(s) and Organizaiton Name (if out-sourced)	Hours of Operation (Specify PST/ CST/EST)	*Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced*
Claims Processing	4510 13th Ave S. Fargo, N.D. 58121	Monday – Friday 8 a.m.-5 p.m.	No

Pharmacy Contact Center: 24 hours a day, 7 days a week PrimeMail Contact: 24 hours a day, 7 days a week Member Services: 8 a.m.-4:30 p.m. (CST)	Yes – Prime Therapeutics
Northern Plains Alliance / ClearStone Solutions	Eagan, MN	8 a.m.-8 p.m. 7 days a week CST and MST	Yes - Northern Plains Alliance / ClearStone Solutions

1.3 Communications and Website

19. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	BCBSND will provide a dedicated page on its primary website (www.BCBSND.com) to provide enrollment information, FAQs, contact information, and additional items deemed necessary by NDPERS.	Yes
Employee Newsletter(s)	BCBSND will provide original content addressing relevant insurance issues for the NDPERS employee newsletter. The content will support NDPERS's pre-enrollment and enrollment efforts.	Yes

Brochures	BCBSND supplies a PDF of the NDPERS PPO/ Basic and the HDHP benefits grid on the NDPERS website.	Yes
Direct mail (internal or home distribution)	BCBSND will develop HTML-based flyers and information messaging for email distribution. BCBSND developers will provide these to NDPERS Information Technology personnel for distribution, to ensure complete coverage of the membership.	Yes
Enrollment guide	As the current carrier, BCBSND supplies NDPERS with underwriting criteria to administer its enrollment.	Yes
Employee open enrollment meeting support and attendance	As the current carrier for NDPERS, BCBSND has a dedicated NDPERS account manager who can attend all open enrollment meetings upon request.	Yes
Benefits/HR staff training support	BCBSND's dedicated NDPERS account manager provides a benefit overview to all NDPERS agencies and NDPERS HR/Payroll areas upon request.	Yes
Video	BCBSND can deliver audio-visual presentations, Brainshark, tutorials, and educational materials in multiple ways. Distribution can be by physical media (DVD, CD-ROM), web pages, personal media player downloads, or a combination. Online distribution can be through BCBSND or by delivery to NDPERS Information Technology personnel.	Yes
Employee healthcare cost calculator worksheets (cost estimates)	BCBSND will assist NDPERS in complying with the Summary of Benefits and Coverage and Uniform Glossary provision of PPACA. The Summary of Benefits and Coverage provides employees with health care costs and estimates for certain episodes of care.	Yes
Other (please list)		

20. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

    BCBSND is willing to provide these resources to NDPERS. As the current carrier, BCBSND currently provides a variety of communication and promotional materials to NDPERS members. Several worksite wellness materials are available on topics including smoking cessation, healthy diet, exercise and other health and wellness topics. Materials include a monthly wellness article with related poster, brochure and table tent.

    In addition, member education and engagement materials are offered at the workplace through BCBSND's member education programs. Presentation topics include:

    - Take Care of Yourself
    - Walking Works
    - HealthyBlue
    - Health Club Credit

- Strength Training
- Beat the Bug
- Summer Safety
- Stress Management
- Medication Education
- Nutrition Basics for a Healthier You
- CPR and First Aid Basics

Various programs include a giveaway item to support the message, such as a pedometer for the Walking Works program or strength stretch bands for Strength Training.

BCBSND provides all benefit plan materials, including Summary Plan Description booklets, information grids summarizing member benefits and ID Cards. Worksite enrollment meetings are available and delivered by the NDPERS Account Representative on request.

BCBSND will continue to provide ad hoc marketing and communication strategies and proposals for specific needs outside the scope of the RFP. These strategies are developed by Corporate Communications and Marketing staff in collaboration with NDPERS staff; for example, the Wellness Engagement with the Lieutenant Governor.

21. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

BCBSND guarantees delivery of ID cards to members before July 1, 2015, as long as all required enrollment information is received by June 14, 2015.

22. Describe your plan for the post-65 programs that you will offer to NDPERS retirees.

With nearly 6,200 Medicare retiree contracts in the NDPERS group, BCBSND is committed to working with NDPERS staff to enhance benefits for this important segment of its membership.

Over a period of years a "look-alike" group Medicare Supplement Plan F benefit plan was developed for those retirees ages 65 and older. BCBSND also collaborated with NDPERS staff to mirror the prescription drug benefits for retirees and implement a NDPERS customized Part D prescription drug group product. BCBSND was able to offer this prescription drug product through its participation in the Northern Plains Alliance. Doing so allowed NDPERS to receive Part D subsidies from the Centers for Medicare & Medicaid Services (CMS), which reduced the overall cost for the program.

In addition, post-65 members currently have access to the MediQHome disease management program in-state, the Accordant disease management program and an out-of-state (OOS) disease management program. Wellness programming such as HealthyBlue and Health Club Credit are available to retirees and spouses. These programs and events provide information to educate and engage NDPERS retirees in their personal health and wellness.

BCBSND will continue its collaboration with NDPERS staff on innovative product and program ideas to address the unique needs of this segment of NDPERS enrollment.

1.4 Plan Administration

23. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

BCBSND will communicate federal and state legislative changes in a timely manner. BCBSND maintains close relationships with state and federal elected officials and their respective

staffs. Our Government Relations team, Pam Gulleson and Megan Houn, monitor federal and state bills and promptly notify internal staff of potential changes that could impact the NDPERS health plan. Megan Houn works out of the Bismarck office and Pam Gulleson is based in Fargo. The Account Management Team notifies NDPERS staff of potential changes. BCBSND Legal staff will provide guidance on these issues, but recommends NDPERS communicate with its legal counsel to confirm. BCBSND's Actuarial Team will provide pricing on legislative changes. BCBSND Contract Administration staff also works closely with the North Dakota Department of Insurance on notification of these changes. The Account Management Team works closely with NDPERS staff throughout the process.

24. Describe your proposed transition of care plan. At a minimum, the transition plan must address:

    a. Conditions or type of care that is typically transitioned;

       As the incumbent carrier, this is not applicable.

    b. Individuals who are in a course of treatment;

       As the incumbent carrier, this is not applicable.

    c. Transition process of current medical treatment;

       As the incumbent carrier, this is not applicable.

    d. Communication of transition issues to all plan members.

       As the incumbent carrier, this is not applicable.

25. NDPERS recognizes that different settlement arrangements will be necessary to implement a self-insured program. Please describe your proposed settlement process.

    BCBSND can offer NDPERS two options for settlement arrangements. These options are dependent on NDPERS handling of specific billing for each group.

    a. If NDPERS prefers BCBSND bill the member groups, BCBSND would require an 820 file each month to cover the month's premium notices. This would update the billing so there would not be a balance forward in the next month's bill. BCBSND would wire the funds back to the group after the 820 has been processed.

    b. If NDPERS prefers to bill the member groups directly, BCBSND would not require an 820 for premium. Claims would draw against NDPERS claims account and administrative fees and stop-loss premium would draw against NDPERS cash account.

26. What is your total commercial and Medicare health plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2012	429,425	35,824
As of January 2013	456,590	36,690
As of January 2014	467,297	37,485

1.5 Eligibility

27. Are ID cards the sole means of determining member eligibility? If not, please describe.

    No, ID cards are issued to employees when their applications are processed. Eligibility is determined using the information from the last application received from the employee

plus any additions (e.g. newborns automatically added from claims information) and deletions (e.g. dependents removed when no longer eligible). Members will receive a letter of termination upon request or automatically when a member is terminated. Members can also call the BCBSND service unit to verify eligibility status or visit BCBSND's website.

28. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

    NDPERS can check employee status through The Healthcare Online Resource (THOR). NDPERS updates and maintains their eligibility through the 834 file which is sent weekly. There are no charges for these services.

29. NDPERS will submit enrollments via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Files will be transmitted using a secure file transmission process. The successful contractor must be able to receive this data in that format and media.

    Yes, BCBSND can receive this format. As the incumbent, this process is currently in place for NDPERS.

30. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

    BCBSND can accept faxes, phone calls and secured email attachments. Eligibility updates can be processed immediately, if necessary; otherwise, they can be processed within 14 days.

31. Please describe your standard (or proposed) financial arrangements with NDPERS under a self-funded arrangement including but not limited to: account requirements and process for claim payment, frequency of reimbursement to the administrator for claims paid, methodology for funds transfers, required reserves in claim account, etc.

    NDPERS claims are already set up for reporting in BCBSND self-funded software. The transition should take minimal programming work to convert the fully insured process to self-funded. Self-funded claims are updated weekly by Wednesday morning. BCBSND will set up an automatic ACH withdrawal every Friday to pull funds from the group's bank account to reimburse BCBSND for their claims from the previous week. The group will be able to view their weekly claims amount each Wednesday online and must have enough funds in their account to cover the claims for that week.

1.6 Customer/Member Service

32. Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. This unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. Describe the structure and organization and provide an organizational chart of the unit you are proposing.

    BCBSND will continue to provide and maintain dedicated NDPERS customer service/ claims processing staff and provide dedicated local and toll-free telephone numbers for members. The dedicated staff will also continue to respond directly to members regarding benefits, claims status, selecting participating providers, and provide general assistance with navigating online and other resources available through the health plan and NDPERS websites. The dedicated customer service unit consists of nine customer service representatives who handle the daily customer service inquiries and claims processing functions, one coordinator who handles day-to-day functions/training of the service unit and one team leader.

Please refer to "Attachment 5 - NDPERS Service Unit - Organization Chart" for the organizational chart for the NDPERS Service Unit.

Member Advocacy Program (MAP)
The Member Advocacy Program (MAP) is designed to be proactive in helping members facing life-changing medical events, such as newborns with congenital defects, pediatric cancers, transplants and traumatic injuries. The program identifies and serves families in these circumstances by proactively reaching out to these members and offering assistance through a Member Advocate. These individuals help those families understand their medical bills and insurance benefits, contacts providers to resolve billing problems, and monitors claims to ensure they are being processed correctly. Because these families have complex claims, the program allows them to contact the member advocates directly by phone or email when they have questions. These member advocates works with Medical Management and Case Management staff to facilitate effective, compassionate and cost-effective outcomes.

The program not only guides members with high-dollar complex cases, but it also promotes high efficiency in claims processing, reduces member confusion and stress and saves members money. The Member Advocate manages customer expectations during an extremely difficult time in the member's life, strengthening brand loyalty and customer satisfaction.

Annual Member Satisfaction Survey
BCBSND conducts a member satisfaction survey of calls to the NDPERS Member Services Department. Member overall satisfaction with service has consistently been above 90 percent with 2013 performance reaching 95% satisfaction.

1.7 Claims Administration

33. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	4510 13th Ave S. Fargo, ND 58121
Phone Numbers	Toll-free: 800-223-1704 Local: 701-282-1400
Days and Hours of Operation	Monday-Friday 8 a.m.-5 p.m. Central Standard Time (CST)
Number of Members Serviced	The dedicated NDPERS Service Unit provides service to all 65,000 NDPERS members covered under the NDPERS Plan. During July 1, 2013, through June 30, 2014, the NDPERS Service Unit handled 33,246 calls.
Number of Employer Groups Serviced	NDPERS has a dedicated service unit that exclusively handles NDPERS claims and customer service.
Ratio of Claims Unit Staff to Members Serviced	The NDPERS Service Unit is comprised of nine Claims and Customer Service Unit Staff to provide service to all 65,000 covered NDPERS Members; a ratio of 1:7,222.
Volume of Claims Processed Daily	During July 1, 2013, through June 30, 2014, an average of 3,052 claims were processed per day; this includes systematic and manually processed claims.

34. Will your organization identify a dedicated team of claims processors for the NDPERS account? If processors are shared with other clients, on average, how many clients does one team service? What is the average length of service of the claim processors?

    Yes, BCBSND currently has a dedicated NDPERS Claims and Customer Service Unit that does not handle any other clients. The service unit consists of nine representatives who handle the customer service and claims processing functions for the NDPERS group, a coordinator that handles the day-to-day activities of the service unit and one team leader. The average length of service for the claims processors is five years, ranging from one year to 17 years. The service unit provides both medical and RX support when integrated with Prime Therapeutics.

35. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan, HDHP/HSA) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

    Yes, BCBSND is able to administer the NDPERS plan designs for the Dakota Plan, the Dakota Retiree Plan and the HDHP/HSA Plan as requested by the NDPERS group. Claims are processed with minimal intervention. During the time of June 1, 2013 through May 31, 2014, BCBSND's first pass rate was 80.76 percent, claims received that were automatically processed by our claims processing system. Claims that hold for manual intervention require additional research such as medical records, workers compensation investigation or other insurance information.

36. Describe your claims processing system/platform and claims administration process.

    BCBSND utilizes a mainframe-based, claims processing system designed and operated by CoreLink Administrative Solutions, a jointly owned company of BCBSND and Blue Cross Blue Shield of Nebraska. CoreLink claims processing systems have been developed with the primary objective of providing optimal services to all business. The claims system is, in reality, several systems, designed around classes of providers and their unique billing forms. These systems share a common membership database, which contains extensive contract/member eligibility information. These systems also share a common cost share file where deductible and coinsurance amounts, benefits maximums and other accumulators are tracked. The system is an integrated system that handles all claim and contract types.

    Most claims received electronically process automatically through our claims processing system, but some may require manual intervention. If information regarding claims data, eligibility, other party liability or benefit coverage requires intervention, the claim is suspended in the system for manual review and resolved by a claims adjudicator.

    Online claims maintenance allows the resolution to be posted to the claim on the system to reinitiate the automated processing of the claim for payment. The claims systems are real-time capable and prepared for the immediate adjudication of claims if the customer has those needs.

1.8 Reporting

38. Confirm your ability to provide the reports described in the RFP and provide samples.

Confirmed.

Please refer to Attachment 6 for samples of the standard reporting package. In addition, BCBSND's Consulting Services will provide ad hoc reporting to NDPERS as needed.

BCBSND also publishes a quarterly NDPERS Executive Summary report, for the NDPERS Board, recapping financial and trend analysis, health utilization, claims and inquiry timeliness, wellness programs, account management and member engagement activities. Annually BCBSND presents a comprehensive analysis to the NDPERS Board. This analysis includes information about the demographics and health of the NDPERS population, utilization, health management, program evaluation, and member engagement. Opportunities and recommendations are also offered for review. Please see Attachment 7 for a sample of these Executive Summaries.

Understanding the impact of PPACA is the first step to developing a benefits strategy that aligns with the emerging landscape. BCBSND understands this and offers NDPERS a modeling tool to determine the financial incentives to retain or remove coverage. This tool considers employer and employee subsidies and penalties in combination with specific demographic and income data to determine the level of incentive. BCBSND Consulting Unit will be able to provide NDPERS with the results of this tool, as well as in-depth analysis of the outcomes and will work with you to determine a strategy that best fits the needs of NDPERS.

39. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

BCBSND's full suite of standard reports and data feeds are available on a secure website (The Healthcare Online Resource) for staff to access.

BCBSND also offers access to Health Intelligence, an online reporting tool that allows for benchmarking and has drill down functionality to examine outliers and unique trends. The comprehensive Employer Group module features demographics, cost, utilization and risk analysis in print-ready Employer Profile Reports that can be set up on a periodic basis. Please see Attachment 8 for a sample of the Health Intelligence Employer Profile report.

40. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing medical claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

As the incumbent, BCBSND will continue to send monthly data files through THOR to NDPERS in an agreed upon format that includes claims and enrollment data.

1.9 Case/Utilization Management

41. Provide a brief overview of your utilization management programs, including pre-certification, concurrent review, discharge planning, and large case management.

Preauthorizations: Registered Nurses complete reviews for the services that require pre-authorizations in accordance with established clinical criteria. Examples include:

- Home health care
- Skilled nursing facility/swing bed/transitional care unit
- Hospice
- Medical/surgical inpatient admissions to facilities non-participating with BCBSND
- Inpatient rehabilitation
- Long-term acute care
- Psychiatric/substance abuse inpatient admission, residential treatment centers, partial hospitalization, intensive outpatient programs

Concurrent Review/Discharge Planning: Concurrent review may be conducted to ensure that ongoing treatment is appropriate and includes discharge planning. Members with lengthy hospitalizations, high-risk diagnoses, readmissions, psychiatric and substance abuse admissions are most often in this category. Working in conjunction with the member and their providers, our staff supports discharge planning by providing information on benefits available for those services determined to be medically appropriate and necessary for the member's continued care and treatment.

Prior Approvals: In addition to preauthorizations for admissions, the following services or procedures require pre-notification to assess for medical necessity and appropriateness:

- Assisted reproductive technology (in vitro fertilization)
- Chronic pain management programs
- Cosmetic surgeries
- Dental anesthesia and hospitalization for members age 9 and older
- Electric wheelchairs
- Growth hormone therapy/treatment
- Human organ transplants
- Insulin infusion pump
- Obstructive sleep apnea treatment, except for continuous positive airway pressure (CPAP)
- Osseo integrated implants
- Prosthetic limbs controlled by microprocessors and any prosthetic limb replacement within five years
- Prosthetic limbs replacement within five years
- Restricted use drugs
- Rhinoplasty

Because services in these areas can be misused or overused without effective outcomes, specific medical necessity criteria have been established for these services. The member's health care provider will substantiate the medical need for the procedure and provide documentation of this in a written request. The provider and member are notified of the prior approval determination in writing.

Benefit Inquiries: The Medical Management staff provides assistance to members and health care providers with benefit medical appropriateness and necessity determinations. Benefit inquiries are questions about services that do not require prior approval.

Registered nurses provide assistance to members and health care providers with benefits determinations for medical appropriateness and necessity. Benefit inquiries are questions about services that do not require prior approval.

Chiropractic Review: BCBSND employs a part-time chiropractor who is responsible for the oversight of chiropractic utilization and management, including determinations of medical necessity and chiropractic medical policies.

Utilization Management Oversight: Medical policies, federal and state mandates, and departmental policies and procedures are in place to assist with medical necessity reviews to ensure consistency is applied to all requests. Federal and state mandates have been instituted around security, privacy and timeliness. All policies and procedures are reviewed on an annual basis, and employees are required to become familiar with any changes to updated policies.

BCBSND holds URAC (formerly Utilization Review Accreditation Commission) Health Plan accreditation. This accreditation requires compliance with numerous standards, security and quality measures, and ensures that processes surrounding reviewing for medical necessity are followed closely and according to set guidelines. The Health Plan accreditation standards focus on provider network management, credentialing, member relations, utilization management, and quality management. Accreditation requires the ability to demonstrate services offered to members, establish goals, showcase performances related to access of care, and availability of providers.

Large Case Management: During the course of any year, only a small percentage of the population experiences catastrophic accidents or illnesses, yet this small group accounts for a large portion of all health care costs. BCBSND's Case Management program recognizes the high cost of admissions and the emotional impact on members who have long-term, serious illnesses. Case managers help members obtain effective alternative health care solutions that are medically appropriate and necessary.

BCBSND's Case Management Team, consisting of registered nurses and licensed social workers, help to advise, educate and assist members and their families as they coordinate their medical care and treatment plans. Case Management coordinators facilitate communication between members and providers and work together to ensure collaborative decision making that takes the member's wishes and provider's recommendations into consideration. Case managers also help reinforce the importance to members of following their physician's treatment plan, while educating members and allowing them to be actively involved in their medical care. The Case Management Team conducts assessments of a member's needs through on-site visits, telephone interviews and analysis of reports to determine if a member could benefit from case management. The type of services provided varies, depending on each member's need and situation. For example, the Case Management Team may provide assistance with discharge planning from an acute setting, provide a member with educational material regarding an illness, discuss alternatives to current treatment plans with physicians or provide benefits for a service that might not normally be offered by their regular benefit plan. All options for potential intervention are explored in collaboration with the member/family, providers,

community resources and BCBSND team members as a means of improving the member's health status while potentially reducing costs. Participation with case management is voluntary and does not alter other health benefits offered by the member's basic health care plan. It is a collaborative effort between the member, the member's health care provider and BCBSND.

For NDPERS, in the time period, April 1, 2013 to March 31, 2014, 83 members were screened for case management needs. This included both active employees and retirees. Of these members, 28 were intensely followed by a case management nurse. Data is used to identify members with potential risk of high costs and hospital admissions and to prevent frequent ER usage. Calculating the difference between the anticipated expenditures if case management services had not been provided (the original course of action) and the actual expenditures incurred as a result of case management intervention, the program's estimated cost savings for this time period were $237,060. Cost savings for case management generally varies due to the differing severity of cases managed.

Now that there is a dedicated Case Manager, a variety of reports have been developed (and they continue to develop as needed) and we are providing proactive outreach to NDPERS members and their providers. Some of the new reports that have been developed include:

- ER visits – if a member has had more than 3 in the last month
- Top 10 highest at risk for inpatient – based on risk scores
- High dollar members – review those over $400K

These are some additional reports that the Case Manager currently receives:

- Prenatal Plus-monthly to those who are high risk
- Individuals identified for MAP program
- Inpatient if over 7 days – screen these to determine if outreach is needed

42. What is the source of the criteria used for the following:

a. Determining surgical necessity and whether a second opinion is required.

To determine surgical necessity for any procedure, the procedure is reviewed to determine if it is a nationally recognized standard of care—e.g. diagnosis of breast cancer with request for mastectomy. The standard of care is identified with input from local providers or specialty organizations. In addition, opinions and evaluations by national and state medical associations or consensus panels are researched.

To determine surgical necessity for specific procedures, the procedure is reviewed to determine if it is a nationally recognized standard of care. The standard of care is identified with input from local providers or specialty organizations. In addition, opinions and evaluations by national and state medical associations or consensus panels are researched.

If a request is made for a procedure where a medical policy is in place, the clinical information is reviewed against the policy criteria. If documentation supports medical policy criteria for that procedure, approval is given for that request. If criteria are not met for that procedure, all information is sent to the Medical Director for review of medical appropriateness and necessity.

BCBSND's Internal Medical Policy Committee reviews medical technologies according to the following technology assessment criteria that have been established by the national Blue Cross and Blue Shield Association (BCBSA) and endorsed by BCBSND:

1. The technology must have final approval from the appropriate government regulatory bodies.
2. The scientific evidence must permit conclusions concerning the effect of the technology on health outcomes.
3. The technology must improve the net health outcome.
4. The technology must be as beneficial as any established alternatives.
5. The improvement must be attainable outside the investigational settings.

The Blue Cross and Blue Shield Association's Technology Evaluation Center (TEC) provides scientific analysis and opinions of complex medical technology issues. This information allows plan medical personnel to make decisions about which treatments best improve a patient's health outcomes, resulting in efficient use of health care resources.

Peer Reviewed Journals
Part of the research includes published reports and articles in the authoritative medical and scientific literature. The quality of the body of studies and the consistency of the results are considered in evaluating the evidence. The evidence should consist of well designed and well conducted investigations.

If the procedure does not have a medical policy in place and there is a question regarding medical appropriateness and necessity, it is sent to a Medical Director for review.

In cases where medical necessity is uncertain and the member requests a second opinion, the second opinion is covered by the plan. Should BCBSND have uncertainty if the procedure is medically necessary, we may request that a member obtain a second opinion to assist in our determination.

b. Determining approved length of stay.

BCBSND does not assign length of stay for the medical or surgical preauthorizations. BCBSND uses InterQual criteria to determine medical necessity of the admission. InterQual products are a gold standard in evidence-based clinical decision support. Criteria cover the medical and behavioral health continuums of care, so they can be applied in a range of clinical situations. Pre-payment DRG audits are conducted and include Level of Care, Transfers and Readmissions. Claims are held in the system for the Nurse Reviewer to determine if the appropriate level of care was utilized, if the correct discharge disposition code was assigned and if it was a premature discharge or planned readmission.

BCBSND uses Behavioral Health Medical Necessity Criteria for psychiatric and American Society of Addiction Medicine (ASAM) Patient Placement Criteria-2R for Substance Abuse preauthorization and continued stay/treatment for all levels of care, including inpatient, residential treatment, partial hospitalization and intensive outpatient treatment. The Behavioral Health Medical Necessity Criteria have been developed based on current psychiatric literature, including the criteria of the American Psychiatric Association, the American Academy of Child and Adolescent Psychiatry and the American Society for Addiction Medicine or other relevant evidence-based literature or information. On an annual basis, or more frequently as needed, the Behavioral Health Medical Necessity Criteria and ASAM Patient Placement Criteria-2R are reviewed and approved by the Internal Medical Policy Committee of BCBSND and with input from the provider community consistent with BCBSND policies and procedures.

c. What percentile of the data is used?

National length of stay percentiles are not used. BCBSND does not assign length of stay for the medical or surgical preauthorizations as reimbursement is based on DRG methodology. For behavioral health, length of stay determinations are based on clinical information provided for each preauthorization. BCBSND will review the clinical information received based on all relevant and necessary resources received. If the clinical information supports the medical necessity of the service, authorization will be provided for an initial period, with review for continued stay, as needed.

d. Approximately what percentages of review cases are referred to a physician because the initial review and attending physician cannot reach agreement on the proposed level of care?

There were 1,768 cases referred to the Medical Director out of 16,212 preauthorization/ prior approvals, for a 10.9 percent for the time period, July 1, 2013, through June 30, 2014. Cases are referred to the Medical Director when the information submitted does not meet the established and published criteria for the requested procedure or admission.

e. Does this percentage vary between medical/surgical and psychiatric/substance abuse cases? If so, provide variances.

Out of the 16,212 preauthorizations and prior approvals, 6.7 percent (832) were referred to a Medical Director. For Behavioral Health, 25 percent (936) were referred to a Medical Director.

1.10 Health Risk Management Programs

43. Indicate in the table below if you currently provide the care or disease management program listed, the number of members from ND-based employers currently enrolled, the cost per participant, and its accreditation status.

Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
Arthritis	Accordant 73 NDPERS members for Q4 2013 HealthyBlue - Online Coaching 24 members in 2013	Included HealthyBlue Included	National Committee for Quality Assurance (NCQA) Cerner Yes: URAC
Asthma	MediQHome (In-state): 6,185 members Healthways DM (OOS) 89 members in 2013 HealthyBlue - Online Coaching 306 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
Cancer	HealthyBlue – Online Coaching 875 members in 2013	HealthyBlue Included	Cerner Yes: URAC

Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
Congestive Heart Failure	MediQHome (In-state): 357 NDPERS Members Healthways DM (OOS) 56 members in 2013 HealthyBlue – Online Coaching 402 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
COPD	Healthways DM (OOS) 52 members in 2013 HealthyBlue – Online Coaching 14 members in 2013	Healthways Included HealthyBlue Included	Healthways Yes: NCQA Cerner Yes: URAC
Depression	MediQHome (In-state): (in development) HealthyBlue – Online Coaching 4 members in 2013	MediQHome Built into claims experience HealthyBlue Included	MediQHome No Cerner Yes: URAC
Diabetes	MediQHome (In-state): 2,653 (Adult, Adolescent, and Child) Healthways DM (OOS) 366 members in 2013 HealthyBlue – Online Coaching 567 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
Low Back Pain	Healthways DM (OOS) 302 members in 2013 HealthyBlue – Online Coaching 7 members in 2013	Healthways Included HealthyBlue Included	Healthways Yes: NCQA Cerner Yes: URAC
High Risk Pregnancy/ Prenatal Support	Prenatal Plus Program 202 NDPERS members in 2013 HealthyBlue – Online Coaching 89 members in 2013	Included HealthyBlue Included	No Cerner Yes: URAC
Hypercholest-erolemia	HealthyBlue – Online Coaching 12 members in 2013	HealthyBlue Included	Cerner Yes: URAC
Pain Management	N/A	N/A	N/A
Renal Failure	N/A	N/A	N/A

Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
Smoking/ Tobacco Cessation	NDPERS Smoking Cessation Program July 2013-June 2014: 101 members enrolled. HealthyBlue – Online Coaching 121 members in 2013	Program Expenditures include administrative costs and claims July 2013-June 2014: Payments Per Member: $278 Paid through N.D. Department of Health grant (Tobacco cessation program is under separate Memorandum of Understanding) HealthyBlue Included	Endorsed by the N.D. Dept. of Health URAC Cerner Yes: URAC
Weight Management	HealthyBlue – Online Coaching 128 members in 2013	HealthyBlue Included	Cerner Yes: URAC
Hypertension	MediQHome (In-state): 9,844 NDPERS Members HealthyBlue – Online Coaching 273 members in 2013	MediQHome Built into claims experience HealthyBlue Included	MediQHome No Cerner Yes: URAC
Attention Deficit Hyperactivity Disorder	MediQHome (In-state): 590 NDPERS Members	MediQHome Built into claims experience	MediQHome No
Coronary Artery Disease	MediQHome (In-state): 1,370 NDPERS Members Healthways DM (OOS) 180 members in 2013 HealthyBlue – Online Coaching 601 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
Rare & Complex disease	Accordant Q4 2013, 313 active NDPERS members were included in the Accordant program	Accordant Included in Admin	Yes: URAC (Case Management) NCQA (Disease Management)

44. Briefly describe each of the programs currently offered and the cost of each program. Do you currently track and report specific clinical outcome measurements for each of the conditions for which care/disease management is offered? Please list them.

Accordant

BCBSND has contracted with Accordant to provide disease management services for complex and rare conditions. Accordant manages 17 diseases: amyotrophic lateral sclerosis (ALS), chronic inflammatory demyelinating polyradiculoneuropathy (CIDP), Crohn's disease, cystic fibrosis, dermatomyositis, gaucher disease, hemophilia, lupus, multiple sclerosis, myasthenia gravis, Parkinson's disease, polymyositis, rheumatoid arthritis, scleroderma, seizure disorders, sickle cell anemia, and ulcerative colitis.

Accordant offers personalized counseling and health evaluation to identify potential complications, a 24/7 nurse line, member education and self management techniques, and guidance finding resources. The company focuses on proactive care to avoid hospital admissions and crisis. Accordant nurses and social workers encourage member self-monitoring and management of disease-related symptoms and monitor compliance with current standards of care for the condition. Quarterly/monthly reports for clinical outcomes and participation are reviewed internally.

The cost of this program is included in the administrative fee for the stop loss program.

Prenatal Plus Program

Prenatal Plus is a voluntary educational support program for expectant mothers. Participants receive valuable information and support during their pregnancy supported by registered nurses. Participants screened as high-risk receive telephone calls on a monthly basis, whereas low-risk pregnancies receive outreach initially at 12-weeks gestation or at enrollment if a woman is beyond 12-weeks gestation, and again at 28-weeks gestation. There are multiple goals associated with the program, such as relaying as much education as possible to aid in a healthy pregnancy, encouraging collaboration with medical practitioners and early intervention for high-risk pregnancies. The expectant mother will receive a mailing, including a pregnancy calendar/journal, prenatal visit chart, pregnancy education, newborn care education, and a Taking Care of Your Child book.

BCBSND collects claim-based results (i.e. live births, caesarean section vs. vaginal delivery rates).

Under the current integrated plan we waive the copayment for the Prenatal Vitamins. This process would need to be modified should NDPERS elect not to go with an integrated Medical and Pharmacy Program.

The cost of this program is included in the base administrative fee.

MediQHome Quality Program

MediQHome Quality Program (MQP) is a collaboration between BCBSND and providers to deliver the benefits of a patient-centered medical home.

A "medical home" is not a house, hospital or other building. Rather, it is a term used to describe a health care model in which individuals use primary care practices as the basis for accessible, continuous, comprehensive and integrated care. The goal of the medical home is to provide a patient with a broad spectrum of care, both preventive and curative, over a period of time and to coordinate all of the care the patient receives.

Providers who participate in MQP have access to MDinsight (MDI), an interactive decision support tool that organizes all available patient clinical data to create clinical summaries and quality reports specific to each patient. This interactive decision support tool stores information about care opportunities in one place and is easily accessible to the provider at the point of care.

MediQHome tracks the following clinical suites:

- Asthma
- Attention Deficit Hyperactivity Disorder
- Breast Cancer
- Cervical Cancer
- Chronic Heart Failure
- Colorectal Cancer
- Coronary Artery Disease
- Diabetes Adult, Adolescent, Child
- Hypertension Adult
- Hypertension Child/Adolescent
- Immunizations Adult & Adolescent
- Immunizations Childhood

BCBSND currently tracks and reports all clinical process, outcome measures and compliance rates for each clinical metric. They are available through the MediQHome MDinsight portal internally. In addition, providers currently have the ability to do their own organizational reporting for each of the clinical metrics through the MediQHome MDinsight physician portal. These reports are real-time based on clinical data submitted directly by the provider with minimal augmentation by claims data. Reports include patient specific care opportunities, goal progress reports and comparison information for all participants in the program.

BCBSND is focused on growing the program based on the overall vision which includes enhanced analytics, engaged providers, engaged members and quality outcomes.

The BCBSND plan for growth is a staged approach.

- Stage I
  - Collect baseline performance data.
  - Introduce risk adjusted care management fee for primary care providers with increased frequency.
  - Initial practice readiness assessment.

- Stage II
  - Practices must meet minimum requirements to enter stage II as determined from their readiness assessment and action plans to address gaps.
  - Introduction of total reimbursement targets.
  - Increasing care management fee amounts to offset fee schedule adjustments.
- Stage III
  - Practices must demonstrate medical home maturity through obtaining all components of advanced PCMH certification.
  - Maximum total reimbursement target maintained.

The cost for this program is included in the claims experience.

Out of State Member Disease Management

The goal of our disease management program is to create and maintain key desired behaviors of a population and of the providers who care for them. Our programs improve participant health status and participant provider satisfaction, thereby reducing health care costs and providing a positive return on investment. Specific clinical indicators for each program include improvement in the use of pharmaceutical therapies, improvement in testing values and improved participant satisfaction. Our programs incorporate all interventions necessary to optimize patient care and are based on the most up-to-date, evidence-based clinical guidelines.

Clinical outcomes for the following core conditions will be tracked and reported:

- Asthma
- Comprehensive Back Pain
- Coronary Artery Disease
- Chronic Kidney Disease
- Back/End Stage Renal Disease
- Chronic Obstructive Pulmonary Disease
- Diabetes
- Heart Failure

The cost for this program is included in the administrative fee.

Blue Distinction Total Care

In addition to this specific program, BCBSND is working with the Blue Cross Blue Shield Association to offer access to all Blue Cross Blue Shield value based outcome driven programs. Blue Distinction Total Care will provide national access to Blue value-based programs that are designed to demonstrate results in improving patients' health while managing costs. To earn the designation, each program must meet nationally consistent criteria for value-based reimbursement, accountability across the care continuum, patient-centered quality care and provider empowerment. Designated programs encourage a more collaborative, coordinated approach across the care spectrum – helping to ensure that employees and their families are receiving the right care at the right time. Access to these programs will be available to BCBSND members in 2015.

The cost for this program will be included in claims experience.

HealthyBlue

HealthyBlue includes all the functionality NDPERS expects from an online wellness experience:

- Exercise, food and weight trackers
- Enter and track their basic medical information like blood pressure, cholesterol and blood sugar
- Mobile application for smart phones
- "Community" function where they can find a diet buddy or talk to a dietitian or fitness trainer
- Online wellness workshops
- Customized challenges
- Articles to help members live a healthier life
- Meal planner for busy lifestyles

HealthyBlue includes specific online coaching programs including:

- Congestive Heart Failure
- Depression
- Diabetes
- Low Back Pain
- Hypercholesterolemia
- Weight Management
- Hypertension
- Coronary Artery Disease

BCBSND identifies and reports member participation subjective health scores, group aggregate health scores and member risk categories.

The cost for this program is included in the administrative fee.

Health Club Credit Program

BCBSND has contracted with the National Independent Health Club Association (NIHCA), a nonprofit organization that represents independently owned health centers across the nation, to administer this program. Each eligible member can earn up to a $20 health club credit per month when each member exercises at an NIHCA-affiliated health club 12 or more days in the month. Members are responsible to ensure their credits are recorded by the health club. Members are eligible for one credit a month and the credit amount cannot exceed the total monthly health club fee.

The cost for this program and the incentives are included in the administrative fee.

45. Are you willing to customize your care management/DM programs and services for NDPERS? If so, please explain and provide an example.

Yes, NDPERS has the ability to customize care management/DM programs. Healthways Disease Management is an example of customization being provided due to lack of geographical access to a MediQHome participating provider.

46. Describe the programs offered to patients with rare and chronic diseases. Is this program outsourced? Who is the current vendor?

BCBSND has contracted with Accordant to provide disease management services for complex and rare conditions. Accordant manages 17 diseases: amyotrophic lateral sclerosis (ALS), chronic inflammatory demyelinating polyradiculoneuropathy (CIDP), Crohn's

disease, cystic fibrosis, dermatomyositis, gaucher disease, hemophilia, lupus, multiple sclerosis, myasthenia gravis, Parkinson's disease, polymyositis, rheumatoid arthritis, scleroderma, seizure disorders and sickle cell anemia, and ulcerative colitis

Accordant offers personalized counseling and health evaluation to identify potential complications, a 24/7 nurse line, member education and self management techniques, and guidance finding resources. The company focuses on proactive care to avoid hospital admissions and crisis. Accordant nurses and social workers encourage member self-monitoring and management of disease-related symptoms and monitor compliance with current standards of care for the condition.

47. Describe in detail your ability to provide online wellness programs. Compare it to the existing program presently in the NDPERS program (see Exhibit 1). Specifically identify any deviations from the existing program.

BCBSND has contracted with Cerner to offer an industry leading health and wellness portal and mobile platform to NDPERS that has been branded HealthyBlue. NDPERS was transitioned to this enhanced platform in February 2012. BCBSND will continue to support this functionality throughout the next contract period. The HealthyBlue portal is customized with content and messaging specific to the NDPERS population. Enhancements in 2014 include the ability for members to report their physical activity using smart tracking devices such as FitLinxx and FitBit products. Enhancements also occurred within the HealthyNow mobile application that improves member experience and convenience.

48. Describe Wellness incentives you offer. Compare and contrast that with the existing incentives. (see Exhibits 1 & 2).

Through interaction on the HealthyBlue website and the BCBSND Health Club Credit Program (existing Wellness incentive design for NDPERS), members have the ability to earn up to $250 per year by participating in health and wellness activities. Members can receive up to $20 per month when exercising 12 days per month at an NIHCA-participating health club.

BCBNSD's online tools provide the ability to utilize a variety of points-based or utilization-based incentive models that reward participants for logging in, establishing action plans and completing assessments and sustained health management.

As a customization to earning points via online activity, NDPERS members also have the opportunity to earn points by engaging in wellness programs at their workplace.

This program is included in the base administrative fee.

Additionally, if appropriate and requested BCBSND has the capability to administer outcome-based wellness programs and incentives and has done so historically for multiple employer groups. Currently, multiple sources of data (clinical, claims and subjectively reported) are utilized to administer the participation and outcomes-based programs and incentives. BCBSND provides a comprehensive environment that administers the member experience, group level reporting and differing channels for application of incentives (online catalog, premium differential and HSA/HRA contribution).

49. Describe your ability to support NDPERS Wellness initiatives by providing the administrative services for:

a. Tobacco Cessation program (This program is coordinated with the ND Department of Health): BCBSND collects enrollment data and administers ID cards to the enrollees. BCBSND summarizes the subsequent claims information for counseling, physician visits and medication claims. A quantitative report is provided throughout the biennium, presenting demographics of participants, biennium categories, expenditures and the

overall program expenditures by biennium period. This is a separate Memorandum of Understanding (Tobacco Cessation Program agreement) and BCBSND will continue to work with NDPERS to administer this program.

b. NDPERS Diabetes Program: BCBSND has supported the About the Patient diabetes management program since its inception. BCBSND provided the initial project management expertise in all phases of program implementation, including initial identification of disease-eligible members, promotional materials and mailing lists. BCBSND continues to support the program by providing continuing enrollment eligibility, calculating member cost share reimbursement, disbursing funds for member cost share reimbursement and disbursing funds for provider reimbursement. In addition, BCBSND provides claim data for program assessment. This is a separate Memorandum of Understanding (Pharmacy Disease Management Program agreement) and BCBSND will continue to work with NDPERS to administer this program.

c. Dedicated Wellness Program Staff: BCBSND will continue to provide a dedicated Wellness Consultant to NDPERS to support and provide direction to the NDPERS wellness coordinators, develop and implement communications strategies and evaluate programs.

   New in 2014 was the creation and launch of the Lieutenant Governor's Worksite Wellness Award that is awarded to qualifying NDPERS Worksite Wellness agencies and or political subs for meeting tiered pre-determined criteria for programs that follow established best practices.

   Promotional/Educational Campaigns: Group Communication Materials - monthly health promotion campaign that follows recognized monthly health observances based on evidence-based medical guidelines. The materials are delivered directly to an organization for distribution to employees on a monthly basis. Targeted Outreach Campaigns – are provided directly to members who are identified as an opportunity for such things as cancer screening compliance and Did You Know campaigns.

d. Prenatal program: Prenatal Plus is a voluntary educational support program for expectant mothers. Participants receive valuable information and support during their pregnancy supported by registered nurses. Participants screened as high-risk receive telephone calls on a monthly basis, whereas low-risk pregnancies receive outreach initially at 12-weeks gestation or at enrollment if a woman is beyond 12-weeks gestation, and again at 28-weeks gestation. There are multiple goals associated with the program, such as relaying as much education as possible to aid in a healthy pregnancy, encouraging collaboration with medical practitioners and early intervention for high-risk pregnancies. The expectant mother will receive a mailing, including a pregnancy calendar/journal, prenatal visit chart, pregnancy education, newborn care education, and a Taking Care of Your Child book.

   BCBSND collects claim-based results (i.e. live births, caesarean section vs. vaginal delivery rates).

   Under the current integrated plan we waive the copay for Prenatal Vitamins. This process would need to be modified should NDPERS elect not to go with an integrated Medical and Pharmacy Program.

   The cost of this program is included in the base administrative fee.

50. Describe your ability to support the employer based wellness program and the wellness benefit funding program (see http://www.nd.gov/ndpers/insurance-plans/docs/wellness-forum/employer-based-wellness-overview.pdf)

BCBSND has a history of supporting NDPERS staff and Wellness Coordinators with the Employer Based Wellness Program and the Wellness Funding Program. The NDPERS Wellness Consultant at BCBSND assists employees and employers with their wellness initiatives. This consultant conducts monthly coordinator calls and annual workshops across the state, prepares monthly newsletters, assists with online wellness tools, develops

various challenges for participants, coordinates monthly wellness stars and other group communication items. The dedicated NDPERS Wellness Consultant also represents BCBSND on the Wellness Committee that reviews submitted applications. Recent examples of customized activities include:

1. Created additional functionality in HealthyBlue specifically for NDPERS members. (i.e. the Community Event Participation tracker)
2. Added in 2014 an online tutorial for HealthyBlue and quarterly BrainShark presentations on latest trends in Wellness.
3. Offer a discounted registration fee for NDPERS Wellness Coordinators attending Gearing Up.
4. Lt. Governor's Award was created specifically for NDPERS Agencies and Political Subsdivisions. Award winners receive FREE registration to ND Worksite Wellness Summit. We received 31 applications and will be presenting 24 awards.
5. Annually coordinate the National Walk at Lunch Day at the capitol in the spring and a Retiree Health Fair in the fall.
6. Created specific programs for NDPERS Wellness Coordinators such as, "Sit for 60, Move for 3", "Vaccination Awareness" and "Take the Stairs."

BCBSND has two Member Education consultants strategically located across the state to conduct worksite presentations for employees on various wellness related topic, in support of the Employer Based Wellness Programs. The NDPERS Wellness Consultant coordinates the awarding of employee participant voucher points to the BCBSND HealthyBlue Online Wellness Tool.

Once the funding application is evaluated and approved by the Wellness Committee, NDPERS staff provide notification to BCBSND to make payment out of the NDPERS Cash Reserve account held at BCBSND.

This program has a separate Memorandum of Understanding (NDPERS Wellness Benefit Program Agreement) and BCBSND will continue to work with NDPERS to administer this program.

1.11 Network Accessibility and Disruption

51. We are requesting that vendors provide a GeoAccess network accessibility and disruption analysis outlining network access based on the access standards listed below separately by North Dakota County. If you are proposing a combination of owned and leased networks, please provide your results separately by network. This GeoAccess analysis must be provided for your proposed NDPERS network(s). A census file has been provided in Appendix E for your use.

Provider Type	Access
Primary Care Providers (family/general practice, pediatrics, internal medicine and OB/GYN)	2 providers within 30 miles
Specialists	2 providers within 30 miles
Hospitals	1 hospital within 50 miles

Please provide the GeoAccess summaries in the table below as well as back-up detail (back-up detail on CD submission only) for employees who fall both within and outside the following access standards. Your match should include all valid zip codes in each of the counties in North Dakota that your network serves and in which participants reside. In addition, you should include only open practices in your analysis.

The response provided to this question includes trade secret, proprietary, commercial, or financial information that is of a privileged nature and has not been previously publicly disclosed. This information is confidential and is prohibited from being opened to the public. Please refer to the "Summary of Proprietary, Confidential and/or Trade Secret Information" for a summary/checklist of all specific items identified as trade secret as required under the "Unique Content Requirements – Requirement #5".

Please see "Attachment 9 - GeoAccess" for the electronic version on the CD submission for the back-up detail to the GeoAccess summaries in the table below.

52. Provide a listing or provider directory and link to the web for the provider networks you are proposing for NDPERS.

BCBSND has strong provider relationships through a variety of payer strategies. Our contracted network for NDPERS PPO currently includes 99.6 percent of all providers in North Dakota. BCBSND's business relationship is fostered by industry leading payment schedules and consistent claims payment accuracy and timeliness. The Provider Relations staff maintains strong relationships with providers by adhering to high standards for provider service, collaboration and responsiveness. The complete list of NDPERS PPO participating providers can be found under "Attachment 10 – NDPERS PPO Providers".

The link to the website for the provider networks is:
https://www.BCBSND.com/cgi-bin/ntwksearch.cgi — Under Health Plan select NDPERS PPO

53. Identify and describe your national preferred provider organization.

BCBSND contracts directly with providers within the state of North Dakota and one contiguous county into Minnesota, South Dakota and Montana.

Additional providers are available through a BlueCard Network arrangement with Blue Cross Blue Shield plans in other states. If a member travels out-of-state and has to receive medical treatment, the out-of-state provider can submit the claim to the Blue Cross Blue Shield plan in that state, which is known as the host plan. Through the Interplan Teleprocessing System, Blue plans from across the country can communicate to get the claim paid just like a regular in-state claim. As long as the provider is a Blue participating provider, members receive the normal provider discounts negotiated by the host plan. Those BlueCard discounts saved BCBSND members over $228 million in 2013, In 2013, BCBSND processed more than 1.8 million BlueCard claims.

BlueCard also benefits members who travel out of the country and need to have services, through BlueCard Worldwide. The Blue Cross and Blue Shield Association contracts with a medical assistance vendor to negotiate rates with out-of-country providers.

54. Confirm your willingness to negotiate and maintain NDPERS-specific provider contracts to allow for cost control mechanisms and alignment of contract and plan years. Describe your process and approach for accomplishing this.

BCBSND has had relationships with North Dakota providers throughout its history. BCBSND contracted networks for NDPERS PPO currently includes 99.6 percent of all providers in North Dakota. These business relationships with providers are fostered by competitive payment schedules and consistent claims payment accuracy and timeliness. BCBSND maintains relationships with providers by adhering to high standards for provider service, collaboration and responsiveness.

Provider relationships have evolved to the point where BCBSND has contracts with providers that renew automatically. These contracts deliver what are believed to be the best provider discounts available in North Dakota as evidenced by BCBSND's strong market share in the state. These provider relationships also give NDPERS its own exclusive 5 percent discount in addition to standard BCBSND provider reimbursement.

55. Do you anticipate any significant provider contract changes for 2015? Describe.

BCBSND is leading a collaborative effort that will focus on strategies to influence cost, promote efficiency, improve quality of care and maintain member access to health care services. BCBSND launched Blue Value Partnership (BVP), a program designed to encompass our strategic objectives moving forward. Phase I of BVP starts in 2014 and includes advanced imaging performance measures to ensure appropriate utilization of high tech diagnostic imaging services (MRI, CT, PET scans, etc).

BCBSND wants to empower our providers and members to make changes that support lower cost and appropriately delivered care. BCBSND has identified several opportunities for future initiatives that would fit well into the BVP program. Future BVP phases and performances measures will be developed with the assistance of a clinician-lead quality committee.

1.11.1 Cost, Quality and Pay for Performance

56. Describe the programs and methodologies currently in place to gather and measure meaningful provider quality and efficiency data that can be shared with members.

The Blue Cross and Blue Shield system believes that engaging and empowering consumers to make more knowledgeable health care decisions is a fundamental priority. BCBSND is joining all Blue Plans across the country in participating in a collection of programs sponsored by the Blue Cross and Blue Shield Association, collectively known as the Consumer Transparency Initiatives. Each initiative is designed to give consumers a transparent view of the health care systems in their community. This will enable consumers to choose a facility and/or provider that best meets their needs.

Physician Quality Measurement (PQM) – This program displays physician performance measures to assist members in selecting a provider. The program is based on select HEDIS® physician performance measures selected by the Blue Cross and Blue Shield companies' clinical measurement experts. BCBSND has chosen to use measurement criteria available through the MediQHome Quality Program.

Please refer to Attachment 11 – Physician Quality Measurement for more details on this program.

Blue Physician Recognition (BPR) – complementary to PQM initiative – The BPR program is designed to reinforce Blue plans' commitment to quality by providing more meaningful and consistent information on physician quality improvement and recognition. Blue plans will identify groups and practices that have "demonstrated their commitment to delivering high quality and patient-centered care." In North Dakota, all participating MediQHome Quality Program participating providers will receive the BPR designation.

Please refer to Attachment 12 – Blue Physician Recognition for more details on this program.

Patient Review of Physicians (PRP) – PRP is an online tool for reading and writing reviews of physicians and professional providers nationwide. BCBSND members will need to log into our member portal to leave a review.

Please refer to Attachment 13 – Patient Review of Physicians for more details on this program.

National Consumer Cost Tool (NCCT) – The purpose of NCCT is to enable members to obtain information on estimated costs for common health care services. The categories or conditions will be based on the member's specific benefit plan, including total cost for service and out-of-pocket balance.

We all recognize the value of this transparency and our intention is to provide quality information to our members. BCBSND looks forward to progress on providing increased transparency and sharing useful quality data with our members.

57. Describe in detail the performance standards you currently have in place with your contracted physicians, provider groups, hospitals, and other providers. Outline the types of measures utilized, how you monitor and track these measures, how providers are held accountable, and how frequently the data is compiled and shared with the physicians and provider groups.

With more than 350 value-based programs in market or in development, Blue Plans are the undisputed market leaders in developing and executing groundbreaking forms of value-based care delivery that reward providers for improved outcomes. By encouraging more than 215,000 providers to shift from fee-for-service to incentive programs that drive improvements in both quality and costs, the Blues are improving the value of healthcare.

With the 2015 launch of Blue Distinction Total Care, these innovative programs developed by Blue Plans across the country will be integrated into a single nationwide solution for employers which BCBSND will be a part of.

Blue Distinction Total Care will provide national access to Blue value-based programs that are designed to demonstrate results in improving patients' health while managing costs. To earn the designation, each program must meet nationally consistent criteria for value-based reimbursement, accountability across the care continuum, patient-centered quality care and provider empowerment. Designated programs encourage a more collaborative, coordinated approach across the care spectrum – helping to ensure that employees and their families are receiving the right care at the right time.

BCBSND's local patient centered medical home program, MediQHome, was evaluated and received the BDTC designation ensuring our network of medical home providers meet nationally recognized standards for quality.

BCBSND has been a leader in encouraging the patient-centered care model through the MediQHome program over the last five years. The positive results have been remarkable. For example, MediQHome contributed to a reduction in admissions from 2009 to 2010 of approximately 200 inpatient admissions. This accounts for about seven million dollars in savings.

MediQHome is a program aimed at improving the quality of care for patients with chronic conditions (such as asthma, ADHD, coronary artery disease, congestive heart failure, diabetes, and hypertension), as well as to increase compliance in preventive screenings (breast, cervical and colorectal cancer screenings and immunizations). Please refer to Attachment 14 – MediQHome Clinical Suites for more details on the MediQHome clinical suites.

Quality is measured through disease-specific metrics derived from evidence-based care guidelines. Reporting is provided to each provider group, with drill-down capabilities to individual providers, that details their quality performance, gaps in care by condition, and trending of performance over time. In addition, provider groups' quality scores are compiled in aggregate, ranked based on score, and then placed into tiers depending on their rank. Reporting is produced quarterly for metric trending and quality tiers.

Over 75% of North Dakota primary care physicians participate in MediQHome and are eligible to receive incentive payments twice per year. The incentive payments help compensate providers for the time and money spent on care management outside the traditional face-to-face visit. Providers who achieve improved clinical outcomes for their total patient population have the opportunity to earn additional revenue.

58. Describe your participation in pay-for-performance initiatives. To what extent do these activities impact the health care costs of NDPERS or claims incurred by its covered population?

BCBSND is developing a sustainable health care system which includes a pay-for-performance model. The intent of this initiative is to reduce the overall health care cost trend each year. The future system will include operational and payment strategies to influence overall cost, support reasonable provider profit, improve quality and maintain member access. Payment mechanisms will reward providers for quality and efficiency.

The MediQHome program will be expanded to all eligible providers and patients (including NDPERS members) in North Dakota and will provide the mechanism for physicians and care management teams to manage all aspects of a patient's health.

The current care management fee in MediQHome will evolve into other forms of payment including risk-adjusted care management fees, bundled payments and global payments. Providers will increasingly move from the current fee-for-service payment system to at-risk bundled and global payments such as capitation. Base payment levels for provider systems will be adjusted based on patient health risk levels and providers' clinical performance in relation to predetermined performance standards.

1.11.2 Credentialing and Contracting

59. Briefly describe the initial credentialing process. How often are physician, hospital and other contracts (labs, imaging facilities, DME, home health care) reviewed?

BCBSND reviews the credentials of all health care providers requesting participation according to BCBSND's internal credentialing policy. Providers are re-credentialed every three years. The credentialing/re-credentialing policy ensures the systematic review of health care providers requesting participation with BCBSND. The policy includes requirements

and procedures for verifying a practitioner or provider by reviewing their qualifications to practice. The policy also includes procedures for verifying that practitioners have met eligibility standards and requirements such as education, licensure, professional standing, services, accessibility, utilization and quality.

The policy serves as guidelines for all BCBSND credentialing/re-credentialing decisions. The guidelines eliminate unfair business practices, such as prejudice in favor of or against individual circumstances or actions and promote consistency of interpretation and application of policy requirements. Issues of race, color, creed, religion, sex, national origin, marital status, disability, age, or sexual orientation are not considered during the credentialing/re-credentialing process. The policy is reviewed and submitted annually to the Quality Committee of the Board.

Provider contracts are updated as needed to meet regulatory requirements. Reimbursement notices are issued annually.

1.11.3 Reimbursement and Discounts

62. Provide your estimate of discounts from paid charges in North Dakota.

Based on paid charges, BCBSND is currently calculating a 40% discount on NDPERS in state claims. This would include institutional, professional and prescription drugs claims.

63. Provide your estimate of percent of charges that will be processed in North Dakota under your fees schedule

    Currently 83% of NDPERS charges are being processed in North Dakota under BCBSND's fee schedule. The remaining 17% is being processed under our national BlueCard or pharmacy programs. This compares to 72% and 28% in state and out of state, respectively, for our Book of Business.

64. Provide details on how prescription rebates are reimbursed to the plan.

    The response provided to this question includes trade secret, proprietary, commercial, or financial information that is of a privileged nature and has not been previously publicly disclosed. This information is confidential and is prohibited from being opened to the public. Please refer to the "Summary of Proprietary, Confidential and/or Trade Secret Information" for a summary/checklist of all specific items identified as trade secret as required under the "Unique Content Requirements – Requirement #5".

    Under our current integrated program, Prime negotiates rebates on behalf of BCBSND. Prime invoices manufacturers for rebates at the end of each quarter. Manufacturer payment timelines vary by contract, but they range from 30 to 105 days from the date of invoice. A single and final account reconciliation is made within twelve months following the end of the respective quarter. BCBSND remits to NDPERS rebates received from Prime less amounts credited to Member Rebate Accounts.

    The portion of rebates credited to a member's Member Rebate Account is a representative percentage of the cost share paid by the member on rebate eligible prescription medications. Money accumulated in a Member Rebate Account automatically reduces a member's out-of-pocket expense the next time a covered prescription drug is purchased.

1.12 Performance Standards and Guarantees

As described in Section I. Overview, of this RFP, health plan vendors are required to comply with performance standards and guarantees that include a financial incentive/forfeiture which is negotiated as part of the renewal process. See Appendix H for a copy of these performance standards and guarantees. You are required to offer your performance standards and guarantees for the board's consideration using Appendix H. It is a priority for the board to have a comprehensive set of standards and guarantees relating to this plan.

65. Please confirm you have completed Appendix H and confirm your willingness to comply with the performance standards and guarantees or provide suitable alternatives. Identify your process for measurement and audit availability. Identify any additional standards and metrics your organization would be willing to include.

    BCBSND confirms we have completed and are willing to comply with the performance guarantees as outlined in Appendix H. BCBSND will provide reporting and will work with NDPERS to schedule any required audits on measures that are not included in standard reporting.

1.13 HDHP/HSA

66. Describe how your organization will do the administration of the HSA option. What details are provided to individuals that select this option, the name of the service vendor and any other applicable information.

    As the incumbent carrier, BCBSND will continue work with Discovery Benefits to administer the HDHP/HSA option for NDPERS members.

    Standard enrollment materials include an HSA Employee Guide that explains the plan in simple to understand language. The Guide includes a list of eligible items, information about how to contact Discovery Benefits, how to request a distribution of funds and contribution

limits per IRA guidelines. Additional materials are also available on Discovery Benefits' website. Employers may download materials to post on their intranet site.

Participant demographic and contribution information is provided to Discovery Benefits electronically by NDPERS staff. Files are uploaded through the employer portal file import feature. Participant elections and changes uploaded electronically can be viewed by the participant online via the employee web portal once the update has occurred.

In addition to requesting withdrawals online, each HSA account holder receives two debit cards for making eligible medical expense purchases directly from the HSA. The debit card is multi-purpose, meaning the card can also be used for a limited flexible spending account (FSA), limited HRA and dependent care FSA if the participant is also enrolled in one of those accounts with Discovery Benefits. Expenses would then be automatically paid from the appropriate account with only one submission.

A separate invoice is created for HSA account fees and submitted to NDPERS for payment on a monthly basis.

1.14 Economy to be affected

67. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?

    BCBSND is headquartered in Fargo, ND. Most of the work for this contract will be done in our home office. In addition, we have 8 regional sales and service offices throughout the state that are available to NDPERS members as needed.

68. Please identify the number of employees you will employ in North Dakota pursuant to this contract.

    BCBSND employs over 800 employees in the state of North Dakota to service our 500,000 members. NDPERS represents over 62,000 of our members or about 12% of our book of business.

69. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will spent outside the state.

    Nearly all aspects of the administration of the NDPERS account are done within the state of North Dakota. All business functions and system support are handled by our local team. We do partner with a limited number of vendors to ensure NDPERS has a complete solution for your health benefit plan. We work with Cerner, MDdatacor, and Accordant to power certain aspects of our population health management tools. From a cost perspective, these partners make up less than 3% of the total spend. This would equate to approximately 97% of administration of the medical plan done within the state of North Dakota.

1.15 Fiduciary Responsibility

70. Confirm your organization will assume full fiduciary responsibility for claim determination.

    Confirmed

    BCBSND will serve as the claim fiduciary for this Self Funded Agreement.

1.16 Appeals Process

71. Please describe your internal and external appeals process.

    As the incumbent, BCBSND has established processes for Member Pre-Service and Post-Service Inquiry and appeals. Please see the attachments below for copies of the member Pre-Service and Post-Service Inquiry and appeal processes.

    Attachment 20 – Member PreService Inquiry & Appeal Policy

    Attachment 21 – Member PostService Review Inquiry and Appeal Policy

Appendix G:
Existing Contract Benefits

Appendix G:

Existing contract benefits (plan design, wellness, services, standards, etc.) this section identifies the existing NDPERS plans contract benefits. Please indicate if you can match these benefits/services and if so with what resources and if not what specifically you would not be able to provide.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
NDPERS Specific Plan Designs		

• Actives and Pre Medicare Retirees Medical plans
  • PPO/Basic Plan – Grandfathered
  • PPO/Basic Plan – Non Grandfathered
• Active and Pre Medicare Retirees Rx plan
	http://www.nd.gov/ndpers/insurance-plans/group-health-ppo-basic-grandfathered.html
	
	http://www.nd.gov/ndpers/insurance-plans/group-health-ppo-basic-non-grandfathered.html
		As the incumbent, BCBSND will continue to administer these Benefit Designs.

• Wellness Program
  • Dedicated Wellness Website and program similar to existing program with incentives, health club membership and employer efforts
  • Employer Based Wellness Program
	http://www.nd.gov/ndpers/insurance-plans/employer-based-wellness.html
	
	Exhibit 1
	Exhibit 2
		As the incumbent, BCBSND will continue to administer these wellness programs.

HDHP/HSA Option for State agencies	http://www.nd.gov/ndpers/insurance-plans/group-health-hdhp.html	As the incumbent, BCBSND will continue to administer the HDHP as well as work with DBI (Discovery Benefits Incorporated) to administer the HSA. Monthly HSA administration fees are approved by NDPERS staff and paid out of the NDPERS Cash Reserve Account.
• Medicare Retiree Plan • Plan F look alike	http://www.nd.gov/ndpers/insurance-plans/medicare-rx.html	As the incumbent, BCBSND will continue to administer this plan.
Separate Medicare Part D RX plan	http://www.nd.gov/ndpers/forms-and-publications/publications/grp-hlth-spd-retirees.pdf http://www.nd.gov/ndpers/forms-and-publications/publications/medicare-benefits-summary-current.pdf	As the incumbent, BCBSND will continue to administer the PDP (Prescription Drug Plan) with NPA (Northern Plains Alliance).

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
General Services		
Actuarial Services • Mandate cost estimates & reporting during Legislative session within 24 to 48 hours. • Trending • Financial reporting • Plan Design Options	Mandate Estimates – Exhibit 3 See Quarterly Report and Annual Report – (Exhibit 4 & 5) (Exhibit 6) See Exhibit 9	As the incumbent, BCBSND will continue to provide these services.
Underwriting Services • Dedicated NDPERS underwriter • Enrollment processes – verify enrollments entered by NDPERS staff and sent through 834 file. Rush enrollments with immediate PTI updates, generate ID cards, mail benefit books, notify NDPERS when 834 file is bad, 834 file is mapped to correct group, roll, class of coverage using their rate structure code and coverage codes (other 834 files are required to send carrier our basic codes and class codes) and staff available always to answer questions by NDPERS office. • Eligibility (removal of dependents (EOM age 26), grandchildren when parent marries, divorce (removal for spouse and step children with or without rescission letters) • ID cards • Benefit books • Summary of Benefits & Coverage • 834 Enrollment Discrepancy Reports		As the incumbent, BCBSND will continue to offer and administer these services.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
General Services		
Communications Services • NDPERS newsletter items • Healthy focused Newsletter generated by Carrier • Letters, posters, brochures and grids • Directories	http://www.nd.gov/ndpers/forms-and-publications/index.html	As the incumbent, BCBSND will continue to provide these services.
Claims Administration & Member Services • Dedicated NDPERS Pod for claims and customer calls • Subrogation, Medicare secondary payer, coordination of benefits processes • Member advocacy program • Annual satisfaction survey • Annual NDPERS claims audit • Facilitate PBM Audit • MSP Data Match Compliance • Prenatal Program enrollment/claims processing for NDPERS specific benefit • Enrollment for Tobacco Cessation Program • Subscriber Appeals • Telephone support for dedicated wellness website – dedicated NDPERS service unit handles calls from members	https://www.bcbsnd.com/health-and-wellness-programs/member-advocate (Exhibit 7) (Exhibit 8) http://www.nd.gov/ndpers/forms-and-publications/publications/grp-hlth-spd-actives.pdf#page=35 https://www.bcbsnd.com/search-preview/-/ndpers-tobacco-cessation	As the incumbent, for the integrated program BCBSND will continue to offer and administer these services. For PBM Audit program specifications please refer to Appendix B; Minimum Requirements under the Audit Section. Should NDPERS select a non integrated approach, process and procedures will be modified to accommodate.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
General Services		
<u>Finance</u> NDPERS recognizes that different funding arrangements will be necessary to implement a self-insured program. • Process payments for NDPERS value added programs • Tobacco Cessation Program • RX Disease Management Program • Employer Based Wellness Program • Billing (create monthly premium billings and group accounts receivables that report and track the total amount of premium due for all NDPERS members covered through carrier. These accounts are reconciled monthly with the payments and enrollment files submitted by NDPERS to ensure enrollment and billing accuracy) • 820 Premium Payment Discrepancy Reports		As the incumbent, BCBSND will continue to provide these services. The Tobacco Cessation , RX Disease Management and Employer Based Wellness programs have separate Memorandums of Understanding. BCBSND will continue providing administrative support for these programs under the current terms. Payments for the Tobacco Cessation program come from the grant with the Department of Health, while payments for the RX Disease Management and Employer Based Wellness Programs come from the NDPERS Cash Reserve Account. BCBSND can offer NDPERS two options for settlement arrangements. These options are dependent on NDPERS handling of specific billing for each group. a. If NDPERS prefers BCBSND bill the member groups, BCBSND would require an 820 file each month to cover the month's premium notices. This would update the billing so there would not be a balance forward in the next month's bill. BCBSND would wire the funds back to the group after the 820 has been processed. b. If NDPERS prefers to bill the member groups directly, BCBSND would not require an 820 for premium. Claims would draw against NDPERS claims account and administrative fees and stop-loss premium would draw against NDPERS cash account.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
General Services		
Information Technologies • NDPERS specific 820 payment file • NDPERS specific 834 enrollment file • NDPERS specific benefit matrix and claims processing logic • System for processing claims for Tobacco Cessation Program • Secure file transfer system • Monthly Process Improvement team meetings		As the incumbent, BCBSND can continue to provide these services.
Legislative and Legal Services • Monitor State and Federal legislation for changes affecting NDPERS. • Mandate cost estimates during Legislative session Contract reviews • Develop Memorandum of Understandings for value added programs. • Compliance • Pharmacy class action settlements • Internal audit functions • System for monitoring provider trends	Exhibit 3 Exhibit 10	As the incumbent, BCBSND will continue to provide these services.
ACA Reporting & Compliance • Reporting of Minimum Essential Coverage (6055) • ACA required notices upon loss of coverage for exchanges • Monitor employer lapse in coverage for change to NGF and loss of participation if small group		Reporting requirements change under a self funded arrangement. BCBSND will continue with NDPERS to work through the ACA reporting responsibility requirements.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
General Services		
Marketing and Adm Staff • Dedicated NDPERS Account Executive • Dedicated NDPERS Account Manager • Dedicated NDPERS Wellness Consultant • Dedicated NDPERS Group Consultant • Pharmacy Consulting		As the incumbent, BCBSND will continue to provide these services.
• Provide a stable Grandfathered benefit design by monitoring activities and regulations to limit risks • Benefit overviews for agencies and political subdivisions • Complete an annual minimum participation and contribution survey • Monitor performance guarantees • Monitor and address Legislative items • Member education programs for agencies and political subdivisions • Conduct routine meetings with NDPERS staff to ensure adequate communication on items such as wellness, process improvement, benefit designs changes, and new programs.	In 2013, there were 37 employers who held benefit overview presentations. https://www.bcbsnd.com/web/employers/wellness-programs/member-education In 2013, 87 employer groups held member education presentations (3,423 members).	
Reporting • Quarterly Executive Summary and Annual Assessment • Monthly data files through secure file transfer system • Adhoc reporting including cost, utilization and risk analysis • Provide flexible spending account files to NDPERS ADP	See Quarterly Report and Annual Report – Exhibit 4 & 5	As the incumbent, BCBSND will continue to provide these services.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Wellness Programs		
Dedicated Wellness Website • Dedicated Wellness Program • Dedicated NDPERS portal • NDPERS specific voucher points • Developed wellness website challenges • Health Club Credit program • Support Wellness Star of the Month award designation. • Promote community based wellness activities and award points for participation. • Develop and promote targeted messaging on Blood Pressure. • Monthly WebEx's provided by member education on dedicated wellness website and health club credit. Employer Based Wellness Program • Dedicated wellness specialist to assist coordinators with wellness activities, planning and implementing ideas. • Planned and coordinated summer Wellness Coordinator workshops. • Support the Lt Governor's Award for Worksite Wellness with HealthyND. • Monthly Newsletter for Wellness Coordinators • Monthly conference call with Wellness Coordinators • Provide monthly wellness articles for distribution to coordinators/employees. • Provide monthly posters for distribution to wellness worksites Employer Based Wellness Funding Program • Wellness consultant on evaluation team • Review and score applications • Administer payment of invoices from NDPERS	Exhibit 1 Exhibit 11 Exhibit 12 Exhibit 2 Exhibit 13 http://www.nd.gov/ndpers/insurance-plans/employer-based-wellness.html Exhibit 14 Exhibit 15 http://www.nd.gov/ndpers/insurance-plans/employer-based-wellness.html Exhibit 16 http://www.nd.gov/ndpers/forms-and-publications/publications/additional-bcbs-wellness-programs.pdf	As the incumbent, BCBSND will continue to provide these services. BCBSND will continue to work with NDPERS on the Employer Based Wellness program and disperse any payments for invoices from the NDPERS Cash Reserve Account.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Wellness Programs		
Wellness Education On site wellness presentations at employer worksites • Benefit presentations at employer worksites • Support Vaccination Awareness program with Department of Health • Create flyers for NDPERS web targeting specific disease/medical conditions • Organize the NDPERS Retiree Health Fairs • Coordinate National Walk @ Lunch Day • Participate in COSE wellness fair at capitol each September		
Rx Services		

Pharmacy Benefit Manager Programs
• Integrated medical and pharmacy services
• Clinical programs
• Generic incentive programs
• Specialty pharmacy program
• RX mail order services
• Formulary program
• Drug utilization reviews
  • Retrospective DUR
  • Concurrent DUR
  • Prospective DUR
  • Guided Health Medication Therapy Management Program
  • Member rebate accounts
	http://www.myprime.com	As the incumbent, BCBSND will continue to work with our RX vendor to provide these services under the current integrated medical and pharmacy program.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Rx Services		
• Rebates passed to NDPERS Carrier has set up a Member Rebate Account (MRA) in the member's name. Accounts are set up at the member level. For every eligible brand prescription medication a member purchases at the point-of-sale (electronic claim), they will receive an appropriate portion of the manufacturer rebate associated with that particular medication into their MRA. Please note this program does Not apply to COB or paper claims. • Establish a nationwide Select Pharmacy Network • Claims processing for Part D program		
Medical Management and Provider Services		
<u>Medical Management</u> • Patient medical home • Rare and complex disease management • Disease management program for out of state members • Member advocacy programs • Preauthorization's • Concurrent review/discharge planning • Prior approvals • Benefit inquiries • Therapy review process • Chiropractic review • Large case management • Prenatal Program with NDPERS specific benefits • Prenatal text messaging program • Provider news letters	https://www.bcbsnd.com/health-and-wellness-programs/mediqhome https://www.bcbsnd.com/health-and-wellness-programs/disease-management https://www.bcbsnd.com/health-and-wellness-programs/member-advocate http://www.nd.gov/ndpers/forms-and-publications/publications/grp-hlth-spd-actives.pdf#page=35 https://www.bcbsnd.com/health-and-wellness-programs/text4baby	As the incumbent, BCBSND will continue to provide these services.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Medical Management and Provider Services		
Provider Relations • Carrier owned provider network • Total cost of care contracts • National network (total out of state discounts • Provider credentialing and contracting • Physician Quality Measurement Program • Physician Recognition Program • Patient Review of Physicians Program	http://provider.bcbsnd.com 97.7% of providers in Network 35% discount off in state changes. An NDPERS specific PPO network in addition to vendors network	As the incumbent, BCBSND will continue to provide these services.
Medicare Part D		
• Special contract for administration of Part D product • NDPERS specific benefit plan design • NDPERS specific Part D online enrollments – NDPERS does handle enrollment, however carrier receives reports each week with any enrollment discrepancies and then works with the PDP vendor and NDPERS to rectify those. NDPERS and carrier both share in working with specific Part D enrollments. • NDPERS specific Part D billing – carrier handles the billing that come directly from Medicare Rx each month in a paper format. Carrier pays directly to Medicare Rx the premium amount requested on the bill. A dedicated Membership person that manually goes over the bill for discrepancies each month and will find any issues we may have with the bill. • Research member enrollment/disenrollment exception report • Monthly meetings with Part D vendors • Notification and tracking of late enrollment penalty (LEP)	http://www.nd.gov/ndpers/insurance-plans/medicare-rx.html http://www.nd.gov/ndpers/insurance-plans/medicare-rx.html	As the incumbent, BCBSND and NPA (Northern Plains Alliance) will continue to provide these services.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Medicare Part D		

• Notifications and tracking of Income-related monthly adjustment amount (IRMAA)
• Annual Adjustment to Part D rates based on the Federal subsidy and the Low Income Subsidy (LIS)
• Part D Reporting
  • Request for Information reports
  • NDPERS PDP Member Change reports
  • NDPERS PDP Response Error report
  • HICN reports
  • Gap/Cat
  • Process other internal and ad hoc reporting		

Health Savings Account		
Health Savings Account • Administration of HSA's • Administer payment of monthly invoice from NDPERS Cash Reserve Account	http://www.nd.gov/ndpers/insurance-plans/group-health-hdhp.html	As the incumbent, BCBSND and DBI (Discovery Benefits Incorporated) will continue to provide these services. BCBSND and DBI will continue to work with NDPERS on invoice payments through the NDPERS Cash Reserve Account.
Additional Administrative Programs		

• Tobacco Cessation Program
  • Grant application and contract
  • Enrollment
  • Claims processing
  • Reporting requirements
  • Invoices for grant reimbursement
• RX Disease Management Program (About the Patient)
  • Eligibility reporting
  • Cost share incentive reporting
  • Administer payment of invoices from NDPERS Cash Reserve Account
	https://www.bcbsnd.com/search-preview/-/ndpers-tobacco-cessation
	
	http://www.aboutthepatient.net/NDPERS-Program.html
		As the incumbent, BCBSND will continue to work with the Department of Health and NDPERS to provide these services. BCBSND will continue submission of invoices from grant reimbursement.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
Miscellaneous		
• Provide access to all subject matter experts and other appropriate personnel and make them available for attending board meetings, legislative, hearings, etc. as needed • Provide access to video or teleconference for Board meetings		As the incumbent, BCBSND will continue to provide these services.

Appendix H:
Performance Standards and Guarantees

Appendix I:
Disruption Analysis

Appendix K:
Suggested Changes to Plan Design, Programs and Services

Appendix K:

Suggested Changes to Plan Design, Programs and Services

Vendors should match the current programs and services as closely as possible when providing proposals. This appendix is meant for vendors to offer suggested changes to plan design and identify the cost or cost savings associated with each suggestion. In addition, vendors can suggest or offer changes to the services along with identification of the benefits/cost or savings. This section is not meant to list deviations to required agreements or service offerings. It should be noted that this section will be reviewed only after the vendor is successful based upon the other provisions of this RFP.

The response provided to this question includes trade secret, proprietary, commercial, or financial information that is of a privileged nature and has not been previously publicly disclosed. This information is confidential and is prohibited from being opened to the public. Please refer to the "Summary of Proprietary, Confidential and/or Trade Secret Information" for a summary/checklist of all specific items identified as trade secret as required under the "Unique Content Requirements – Requirement #5".

BCBSND is submitting mulitple plan options for NDPERS consideration. In addition BCBSND is proposing alternate pharmacy proposals that incorporate numerous changes to the current pharmacy programs.

Benefit and Cost Sharing Changes – Under a Self-Funded program, benefit changes would impact suggested funding levels as opposed to premium.

Modification	Suggested Funding Change
Annual premium change to increase Deductible (GF & NGF PPO): from $400 single/$1200 family to $450 single/$1350 family from $400 single/$1200 family to $500 single/$1500 family	-0.6% -1.1%
Annual premium change to increase Coinsurance Maximum (GF PPO only): from $750/1500 to $900/1800 IN and $1250/2500 to $1500/3000 OON from $750/1500 to $1050/2100 IN and $1250/2500 to $1750/3500 OON	-0.5% -1.0%
Annual premium change to increase Out-of-Pocket Maximum (NGF PPO only): from $2150/4700 to $2300/5000 IN and $2650/5700 to $2900/6200 OON from $2150/4700 to $2450/5300 IN and $2650/5700 to $3150/6700 OON	-0.5% -1.0%
Annual premium change to increase Office Visit copay (GF & NGF PPO): increase by $5.00 increase by $10.00	-0.4% -0.8%
Annual premium change to increase Emergency Room copay (GF & NGF PPO): increase by $10.00 increase by $25.00	-0.03% -0.09%
Annual premium change to increase RX Formulary Generic copay (GF & NGF PPO): from $5 copay to $7.50 copay from $5 copay to $10 copay	-0.4% -0.7%
Annual premium change to increase RX Formulary Brand copay (GF & NGF PPO): from $20 copay to $22.50 copay from $20 copay to $25 copay	-0.05% -0.1%

Annual premium change to increase RX Non-Formulary copay (GF & NGF PPO): from $25 copay to $27.50 copay from $25 copay to $30 copay	-0.03% -0.05%
Annual premium change to increase RX Formulary coinsurance maximum (GF PPO only): from $1000 to $1200 from $1000 to $1500	-0.05% -0.1%
Annual premium change to cover Colonoscopy Screening 100%, once every 10 years: beginning at age 50 (cost per GF contract per month) beginning at age 45 (cost per GF contract per month)	$2.50 $3.00
Loss of Grandfathered Status (GF PPO only): (no cost-share on Prev. Svcs & Women's Preventive mandate & ACA mandates)	3.7%

Note: When combining changes, the resulting rate effect may be less than the sum of the factors listed.

Wellness Modifications – Increase or Decrease Cost Based on Design

As noted in Question 47 of Appendix C – Questionnaire, BCBSND has the capability to administer outcome-based wellness programs and incentives, and has done so historically for multiple employer groups. Currently, multiple sources of data (clinical, claims and subjectively reported) are utilized to administer the participation and outcomes-based programs and incentives. BCBSND provides a comprehensive environment that administers the member experience, group level reporting and differing channels for application of incentives (online catalog, premium differential and HSA/HRA contribution).

Prescription Drug Benefit Modifications

Below are several drug benefit design modifications we are presenting for NDPERS' consideration. Benefit design changes are always loaded and tested for accuracy and consistency well in advance of the renewal date. Furthermore, Prime will work with BCBSND to notify members of any changes and transition them appropriately.

Option 1: Mandatory Mail Benefit

Opportunity
Add a Mandatory Mail benefit for maintenance medications filled for 90 days supply and change retail copays to 1 per 34 day supply.

Option 2: Removal of Member Rebate Accounts

Historically, a portion of rebates have been returned to NDPER members in the form of a Member Rebate Account or MRA. If requested, BCBSND is willing to stop the use of MRAs. By doing so, rebates currently applied to MRA accounts would be redirected to NDPERS.

Opportunity	Estimated Financial Performance	Estimated Projected Total Savings
Remove member rebate accounts (MRA)	We anticipate no impact as rebates listed within our baseline proposal are currently representative of both member (MRA) and NDPERs group allocations	Member allocations would be returned to NDPERS

Option 3: Formulary Exclusion Expansion*

Prime Therapeutics LLC maintains formulary exclusion opportunities that may be elected by NDPERs to enhance rebates.

Opportunity	Estimated Financial Performance	Estimated Projected Total Savings
Multiple Classes Available	Impact to Rebate+Manufacturer Admins	Rebates/MAFs per branded rx could increase by an estimated $8 in year one and $11 in year two

**BCBSND reserves the right to adjust ASO RX admin should NDPERS elect formulary exclusion expansion.*

Alternate Pharmacy Proposal

Proposal 1: Transparent Pharmacy Benefit Management Program

BCBSND's baseline ASO proposal, outlined in Appendix D2.2, is based on the current, pass-through PBM funding arrangement between BCBSND and NDPERs with the addition of 100% pass-through of rebates, pass-through of the value of Manufacturer admin fees, and pass-through of the value of pharmacy transaction fees. BCBSND continues to offer NDPERs the pass-through of the BCBSND negotiated rates with Prime Therapeutics LLC as it relates to mail service operations and specialty pharmacy.

As an alternative arrangement, BCBSND can provide flexibility and continue with a partial rebate withhold, retention of Manufacturer Admin fees, and retention of pharmacy transaction fees to offset the majority of the PBM administrative fees assessed to BCBSND by Prime Therapeutics LLC. The table below outlines the impact these modifications would have on NDPERS' pharmacy administrative fees as presented in Appendix D2.2.

	2015-2017 Estimates, Proposed Pricing Arrangement (Appendix D2.2)	Alternative Transparent Program	Adjustments to RX Admin and Financial Guarantees based on Alternative Program Election
RX Administrative Fee	$3.40 PCPM	$0.00 PCPM	No impact to RX financial guarantees
Rebates	"100% Pass-through of Rebates."	"Partial Rebate withhold by BCBSND"	Appendix D2.2 Total Rebate/Branded Rx Y1: $54.26 Y2: $61.65
Manufacturer Administrative Fees (MAF)	"Pass-through of the value of Manufacturer Admin Fees"	"Retained by PBM"	
Pharmacy Transaction Fee	"Pass-through of the value of Pharmacy Transaction Fees"	"Retained by PBM"	No impact to RX financial guarantees

Proposal 2: Transparent Pharmacy Benefit Management Program With Modifications

Alternative Pass-Through Pharmacy Option

BCBSND can offer significant savings to NDPERS by incorporating the following modifications to your pharmacy program. These modifications may result in total drug spend savings of 1-3% in year one.

- **Prime Select Network**
  Prime currently maintains the BCBSND Select Network for BCBSND employer groups. This broad BCBSND pharmacy network includes a subset of rural pharmacies that are reimbursed at a higher rate to ensure pharmacy solvency. These generous rates are beneficial to North

Dakota pharmacies and do not create spread margin retained by Prime or BCBSND; by doing this, both BCBSND and NDPERS show support for instate, North Dakota pharmacies. However, BCBSND is willing to remove these higher rates provided to North Dakota pharmacies at the request of NDPERS in lieu of applying improved pharmacy financial performance guarantees to demonstrate our commitment to enhanced savings.

Should NDPERS transition to Prime's Select Network, there will be no disruption in retail pharmacy availability, as both the BCBSND Select and Prime Select Networks contract with the same pharmacies.

- **Minimum Reimbursement Level**
  BCBSND provides a minimum reimbursement level to ensure that retail pharmacies remain solvent and to ensure continued member access in rural areas. The impact of this minimum reimbursement results in dispensing fees paid to the pharmacy as listed in the base proposal. At the request of NDPERS, BCBSND is willing to remove this deeper reimbursement to network pharmacies. Impacts to the removal of the minimum reimbursement level will result in overall lower aggregate dispensing fees.

- **Extended Supply Network**
  As an alternative to traditional mail service, an extended supply network (ESN) involves the creation of a subset of the Select Network whose goal is to retain the sole ability to dispense drugs for greater than a one month supply (e.g., 90-day retail network). With the implementation of an ESN network, all pharmacy claims for greater than a one month supply are limited to fulfillment through an ESN provider. In addition, in exchange for slightly reduced pharmacy availability, an ESN network provides enhanced discounted savings on medications. Furthermore, ESN networks have been shown to improve adherence by 7% to 10% when compared to 30 day supplies. Unlike other PBMs that offer enhanced rates for only claims >84 days supply, BCBSND extends this opportunity to all claims greater than a 1 month supply.

  BCBSND and Prime understand the importance of member choice and pharmacy access. Unlike other PBMs that offer enhanced rates only at a their own pharmacy chain, Prime extends the ability to be part of the ESN network to any pharmacy provider within our network.

- **Prime Specialty Pharmacy – Exclusive Specialty Arrangement**
  When it comes to specialty drug benefits, BCBSND and Prime recommend an integrated, consultative approach to managing specialty pharmacy that only a carve-in relationship provides. We believe that with our exclusive carve-in offering, NDPERS will have a more complete picture of each member's health enabling better decision making for the management of specialty drugs, while keeping costs as low as possible.

  Our comprehensive approach to managing specialty addresses both medical and pharmacy benefit coverage with recommendations as to which benefit is most appropriate for a particular specialty drug. We have a complete package of care management programs designed to promote appropriate use, while managing the costs, of these expensive therapies.

Aggregate Specialty Guarantee

With the addition of an Exclusive Specialty arrangement, NDPERs may elect for either the Aggregate Specialty guarantee below or elect for pricing through Prime Specialty Pharmacy as outlined in attached specialty fee schedule.

- BCBSND is pleased to offer NDPERS an Aggregate Specialty Guarantee. The Aggregate Specialty Discount is a Composite Brand /Generic Discount.
- We are defining the Aggregate Specialty Guarantee to be ((Specialty Discount Guarantee – Actual Specialty Discount (including all drug categories)) * Specialty AWP.

NDPERS (Select & Rural Networks) – Aggregate Specialty Discount		
Year 1	**Year 2**	**Year 3**
17.00%	17.00%	17.00%

- Guarantees only apply to drugs dispensed through Prime Specialty Pharmacy under an exclusive relationship and as defined by the Prime Exclusive Specialty Fee Schedule.
- Dispensing fee will be $0.00 for those drugs dispensed through Prime Specialty Pharmacy.
- Guarantees will be reconciled annually and applied in aggregate.
- Specialty drugs dispensed through the medical benefit will not be included in this guarantee reconciliation.
- Employer demographics and geography will remain actuarially consistent.
- Overall Specialty Discount guarantee will not include any new specialty drugs brought to market and added to the specialty list during the term of the contract.
- Overall Specialty Discount guarantees will not include any limited distribution drugs.
- Specialty volume changes must be less than 10% as compared to the data and claims experience provided by the client.

If NDPERs elected to transition to the Prime Select Network, remove the minimum reimbursement level to pharmacies, implement the extended supply network (ESN), and add an exclusive specialty arrangement through Prime Specialty Pharmacy (PSP), an alternative pass-through RX financial option could be represented as listed below.

NDPERS (Select Network with ESN)	**Members:** 56,874
Effective Date: 7/1/2015	**Employees**: 22,470

Rebates to Client
Total Per Brand Rx
Y1: $64.81
Y2: $73.49

Administration Fees PCPM	Y1: $3.40
	Y2: $3.40

Notes:

- Discounts are based on the actual NDC-11 dispensed.
- Guarantees will be reconciled annually and applied in aggregate.
- Pricing excludes the value of U&C.
- Retail discounts include 90-day at retail claims and are contingent on implementation of the ESN network and at least 18% of retail claims being filled through our Extended Supply Network.
- Pricing assumes transition to the Prime Select Network from the standard ND Select network
- Pricing assumes removal of the current minimum reimbursement level paid to pharmacies
- Discounts provided do not include savings from DUR or other clinical programs.
- Guarantees may be amended in the event there are client formulary changes, implementation of new clinical programs, changes to the pharmacy benefit plan design, lock-out of drug classes, or unexpected generic launches.
- If an incomplete data submission is received, Prime will reserve the opportunity to refresh pricing.
- Assumes client does not have 340B pricing.
- Rebates will be paid on all eligible claims incurred during the life of the contract.
- Rebates are earned on all eligible claims, regardless of days supply and member contribution percentages.
- Compound claims are excluded from rebates.
- Discount rates exclude compounds and specialty claims as defined by Prime Specialty Fee Schedule.
- Pricing assumes no material change in membership or changes to the pharmacy benefit design.
- We reserve the right to recalculate our quoted fees if the number of covered members increases or decreases by 10% or more during the course of the contract.
- In the event the number of covered members or pharmacy claims volume varies by greater than 10% as compared to the data and claims experience provided by the client, Prime reserves the right to revise the pricing terms and financials accordingly.
- If changes occur within the PBM marketplace which lead to a significant deviation from the current economic environment, both parties agree to proactively amend the contract to make all parties commercially reasonably economically neutral.
- These guarantees are subject to change in the event that any law, regulation, interpretation of a law or regulation, or any change within the PBM marketplace would lead to a deviation from the current economic environment upon which these guarantees are based.
- Unexpected generic launches, products launched at risk or under patent litigation are excluded from our guarantees.
- Any drug determined to be in short supply based on published sources (including the FDA and ASHP websites) will be excluded from our guarantee.
- A drug that has more than a 100% increase in cost will be excluded from the guarantee.
- Rebates are based on the assumption that NDPERS will adopt the UM or NDC Block to support Insulin and Test Strip strategies.
- Rebates guarantees are reflective of both group and member (MRA) allocations.
- Pricing offer is valid for the NDPERs combined Medical+RX ASO RFP and for the ASO stand-alone RFP. ASO RX stand-alone RFP is contingent upon NDPERs election of BCBSND for Medical.
- Our financial guarantees are only applicable to commercial lives.
- Members will pay the lower of the contracted rate, U&C, or their applicable copayment. Zero balance logic is not employed.
- Generic discounts apply to all generic drugs, including single source generic drugs, as defined by Medispan.

PBM Questionnaire – Prime Therapeutics, LLC

Appendix L:

PBM Questionnaire – Prime Therapeutics, LLC

In order for your proposal to be considered and accepted, your organization must provide answers to the questions presented in this section. Each question must be answered specifically and in detail. Include both the question and the answer in your proposal response. An electronic copy of this questionnaire has been provided to facilitate your response.

Reference should not be made to a prior response unless the question involved specifically provides such an option. Proposers should refer to the earlier sections of this RFP before responding to any of the questions, to ensure that you have a complete understanding of the requirements with respect to your organization's proposal.

Vendors may include additional information that you consider relevant or useful to NDPERS. However, responses to all of the questions set forth below must be provided.

NDPERS is interested in evaluating financial arrangements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of this Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements. **When answering questions and completing exhibits related to your financial proposal, please indicate if your answer would differ under a transparent or a traditional pricing arrangement.** NDPERS will give greater preference to transparent proposals.

If this proposal results in your company being awarded a contract and if, in the preparation of that contract, there are inconsistencies between what was proposed and accepted versus the contract language that has been generated and executed, any controversy arising over such discrepancy will be resolved in favor of the language contained in the proposal or correspondence relating to your proposal. Vendors are reminded that **any and all deviations must be clearly identified and described in the RFP and the deviations worksheet provided in Appendix F.**

The questionnaire is broken down into the following 10 (ten) categories:

- Organizational Background, Strength, and Experience
- Implementation and Account Management
- Communications and Website
- Plan Administration
- Eligibility
- Customer/Member Service
- Claims Administration
- Reporting
- Case/Utilization Management
- Health Risk Management and Wellness Programs
- Provider Network
- Performance Standards and Guarantees
- Pharmacy Benefits Management Services
- Financials

1.1 Organizational Background, Strength, and Experience

1. **Provide a brief description of your organization:**

   a. **Include your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business.**

   More than 70 years ago, Blue Cross Blue Shield of North Dakota (BCBSND) began as two separate pre-paid health care plans for hospital and physician services. The two companies merged in 1986 and, in 1998, converted to a not-for-profit mutual insurance company.

   Included as part of our organizational structure, is our pharmacy benefit management (PBM) partner, Prime Therapeutics (Prime). Prime is a privately held LLC owned by 13 non-profit Blue Cross and Blue Shield (Blue) plans or their affiliates, including Blue Cross and Blue Shield of North Dakota (BCBSND). As a privately held company, Prime's ownership structure enables them to work in the best interests of clients without regard to Wall Street expectations.

   Prime's products and services date back to 1987, when one of their predecessors, Pharmacy Gold, began offering high-quality drug formulary services that would later evolve into Prime as the comprehensive PBM they are today. Prime has provided PBM services for BCBSND since 1998, when it began operation. In partnership with BCBSND, Prime's mission is to provide the highest quality care and service for NDPERS' members and empower NDPERS to make informed, cost-efficient decisions in health care management.

   Pharmacy Services Provided
   Pharmacy services and operations provided to NDPERS include communications, claims processing, financial analysis, information technologies, legal support, marketing, integrated pharmacy/medical management, member services, and even more sub-specialty services including:

   - Account management
   - Trend forecasting
   - Clinical programs
   - DUR and management
   - Drug utilization programs
   - Mail service
   - Predictive benefit modeling
   - Reporting and analysis
   - Benefit plan design
   - Web-based services
   - CDHP administration
   - E-prescribing
   - Formulary management
   - Specialty drug management
   - Pharmacy network contracting and management
   - Rebate administration

   Location of Headquarters
   BCBSND began with a small office located in downtown Fargo in 1940. The corporate office is now located at 4510 13th Ave. S., Fargo, with additional service offices located across the state in Bismarck, Devils Lake, Dickinson, Grand Forks, Jamestown, Minot, Valley City, Wahpeton and Williston.

   Prime's corporate headquarters is located at 1305 Corporate Center Drive, Eagan Minnesota, with additional service offices located in Bloomington, Minnesota along with three Contact Centers in Albuquerque, New Mexico, Irving, Texas, and Omaha, Nebraska; and two PrimeMail facilities in Irving, Texas and Albuquerque, New Mexico. Prime specialty pharmacy is located in Orlando, Florida.

b. **Include the number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves.**

Currently, Prime serves 23 Blue Cross Blue Shield plans, 24 direct employers, 12 Medicare Part D sponsors, and 3 managed Medicaid clients, covering approximately 25 million lives. In North Dakota, Prime currently serves 211,927 eligible card holders and 404,840 lives.

c. **Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).**

Both BCBSND and Prime continue to make investments to streamline administrative and operational expenses, but at this time do not foresee engaging in any acquisition or merger activity.

2. **Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.**

Prime is a privately held company that is financially stable with adequate working capital and no debt. Prime undergoes an annual financial statement audit completed by RSM McGladrey, Inc. The results of the annual financial audit are presented to executive leadership for review and approval. In addition, the audited financial statements are presented to the Finance Committee and the Compliance and Audit Committee of the Board. Prime's audited financial statement is available upon execution of a signed NDA.

3. **Provide a copy of any State or Federal regulatory audit performed within the last two years.**

Periodically, Prime responds to inquiries from state Boards of Pharmacies and Departments of Insurance, CMS and the Federal Office for Civil Rights. Prime does not expect any of these matters to have a material effect on its business.

For instance, Prime has participated in the Centers for Medicare and Medicaid Services (CMS) audits of our plan sponsors. Prime has been responsible for the components of the CMS Program Audits related to Coverage Determinations and Formulary Administration. Prime has participated in one state audit for one of its Medicaid clients. Medicare Part D/ CMS audits were performed in 2012 and 2013.

4. **Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the Minimum Contract Provisions in Appendix 1.**

BCBSND and Prime are accountable for everything stated in and submitted as part of our proposal, even if not specifically addressed in the proposed sample Minimum Contract Provisions.

5. **Indicate whether your company has ever been or is currently a party to litigation regarding a pharmacy benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.**

Prime has been a party to various legal actions within the last four years. Prime does not foresee any of the legal actions having a material impact on our ability to conduct business and none of the matters impact Prime's financial stability and reputation.

6. **State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.**

   No, BCBSND and Prime are not aware of any disciplinary action against our officers, agents or employees that would impact any license, registration, charters or certifications necessary to provide the services outlined in this proposal.

7. **Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.**

   We know complex forces will continue to shape the pharmacy benefit and health care industry in new, unexpected ways. We work collaboratively with clients to provide insight to navigate change and new program initiatives with confidence. That said, Prime's commitment to maintaining innovative state-of-the-art products, focusing on infrastructure, technology, and clinical management differentiates us from other PBMs.

   Some of the key new strategy investments Prime is making over the next two years include:

   - ***Leveraging a business process management platform*** to drive automation and optimization of Prime's business processes
   - ***Improving Prime's web sites*** by uplifting the underlying web content management and portal platform
   - ***Utilizing a master data management platform*** to improve the quality and completeness of Prime's enterprise data. Initial targeted areas include member and provider information
   - ***Continuously add and manage our core web service*** application program interfaces to support real time data access by our internal applications and external partners
   - ***Continuing to meet to the growing specialty drug cost*** challenge by offering holistic member support and tools to drive specialty drug prices to the lowest net cost.
   - ***Taking advantage of new generic/biosimilar opportunities*** by creating benefit designs that include four or sometimes five tiers to allow for formulary management of specialty drugs; as biosimilar drugs reach the market, this will become an increasingly important way to drive down drug costs.
   - ***Facing health care cost challenges in smarter ways*** by targeting individuals who will benefit from better pharmacy care through such things like adherence programs and other utilization management methods, rather than adding costs across the board.
   - ***Embracing the power of big data*** through effectively harnessing and analyzing this information, will lead to better, more informed decisions being made for members and the plans. Clinical programs like GuidedHealth (Prime's clinical program and reporting tool that offers member-focused programs based on shared medical and pharmacy data) will offer significant opportunities for predictive modeling to proactively engage members and doctors to avoid future costs.

8. **Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?**

   At BCBSND, we understand the need for *truly* integrated care that enables medical and pharmacy benefits to work together has never been greater. Prime is a national PBM providing optimal service to 25 million members. We have and will continue to work closely with NDPERS to administer a pharmacy benefit strategy that meets the needs of your employees while *reducing costs and managing overall health* through our focus to:

   - Leverage our direct connection to deliver programs that coordinate across medical and pharmacy benefits to achieve better health outcomes

- Keep pharmacy costs low so that medicines are more affordable for the members we serve
- Deliver a superior experience making it easier for members to get the medicine they need

Innovation at its Best

Prime's commitment to maintaining innovative state-of-the-art products, focusing on infrastructure, technology, and clinical management differentiates us from other PBMs. This is best illustrated through our industry leading drug trend, claims adjudication capabilities, customer service technology, member web sites, and medical and pharmacy data integration; all of which are described below.

Keeping Medicines Affordable

Together, Prime keeps pharmacy costs low so that medicines are more affordable for the people we serve, like NDPERS. We do so using a straightforward business model that includes full disclosure and no hidden revenue streams. Here are just a few of the ways we provide value:

- **No conflict of interest** – Neither Prime nor BCBSND is owned or aligned with any drug manufacturer, wholesaler, distributor, or retail pharmacy chain, which *allows us to act independently and in your best interests.*
- **No managing to profit margins** – Prime's business model and private ownership status means *we put people first*. We do this while driving down drug costs rather than increasing profits for stockholders.
- **Channel neutrality** – Rather than trying to drive prescriptions through one delivery channel over another (e.g., mail vs. retail), or through a certain benefit channel (i.e., pharmacy vs. medical), we support what is most sound for our clients, leads to the best outcomes, and keeps your costs as low as possible.
- **Clinical programs** – Our comprehensive programs are designed to manage drug adherence and safety, promote appropriate utilization and therapy management.

Industry-leading Drug Trend

Prime's partnership and unique connection with Blue plans like BCBSND has driven stronger drug trend results than competitors every year since 2007; Prime's 2013 drug trend was *only 3.3 percent.* Through our connected model, we are better able to control drug costs and keep medicine more affordable by securing deeper discounts, which helps members take full advantage of opportunities for lower cost, generic alternatives and the best preferred brand drug.

Claims Adjudication Capability

The claims system is available 24 hours a day, 7 days a week, excluding scheduled upgrades. Our average claims processing time is 0.43 seconds per claim; the industry average is 2.0 seconds. Prime's transactions are immediately replicated on a secondary system. Automated rollover from our primary to secondary system is tested monthly.

Contact Center Technology

Prime's Contact Center features a virtual call center environment with state-of-the-art call routing technology. Prime uses the alternate destination routing (ADR) from AT&T with intelligent call routing. ADR is designed to automatically reroute calls to the next available CSR in the event of "any network busy" or "ring no answer" regardless of location. Prime has dual access providers and multiple network gateways at each of our data centers; however, ADR protects the caller should one of these two events occur at either location.

Member Web Sites

NDPERS members can take advantage of our member web sites, based on leading-edge J2EE technology. J2EE technology is based on clustered server technology to support availability 24 hours a day, 7 days a week. We continue to enhance the underlying architecture to allow for more client branding and customization.

Medical and Pharmacy Data Integration

A prime example of integration and innovation is our GuidedHealth clinical program and reporting tool. Using both medical and pharmacy data, GuidedHealth delivers a suite of member-focused clinical programs to provide actionable clinical intelligence to physicians and members to improve outcomes and lower overall cost of care.

The functionality of medical and pharmacy data integration supports integrated combined deductibles, out-of-pocket limits, and stacked savings accounts at the point of sale. Integrated medical and pharmacy data is also used to develop clinical programs to increase safety for your members and reduce overall plan costs.

9. **Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.**

   Prime subcontracts with vendors as needed and defined by the scope of services we provide our clients. We ensure that any subcontractor processes seamlessly integrate with ours to deliver optimal service to clients and members. Below is a list of subcontracts Prime does business with in relation to services provided to NDPERS.

Vendor Name	Services Provided
APAC Customer Service, Inc. Bannockburn, IL 60015	Front-end data entry for member mail order prescriptions. Also provide contact center services for member services and pharmacy help desk. URAC accredited.
CoverMyMeds Columbus, OH 43215	ePrescribe Network – transaction processing, reporting
Eliza Corporation Danvers, MA 01923	Automated outbound call notifications program for PrimeMail members to advise of prescription renewals, order acknowledgement and order shipment acknowledgement.
KBMG (Knowledge Based Marketing Group) Richardson, TX 75082	Assists Prime in developing and executing campaign management strategies and operations.
NOVO1 Ft. Worth, TX 76155	Contact Center functions supporting Commercial members.
ORC International Maumee, OH 43537	Market research/member satisfaction survey for commercial and Medicare D members.
RR Donnelley & Sons Chicago, IL 60606	Print and mail member EOBs and member and pharmacy remittances and checks.
kgb USA, Inc. (Conduit Global) Bethlehem, PA 18017	Contact Center functions supporting Pharmacy Help Desk and members calls for Commercial and Medicare Part D.
Surescripts LLC Minneapolis, MN 55402	ePrescribe Network – transaction processing, reporting
SavvySherpa Minneapolis, MN 55430	Consulting and analytic services that are R&D focused. May also perform some product tests communicating directly with clients or members.

Ensuring Vendor Quality

Prime works closely with subcontractors to ensure their processes seamlessly integrate with ours to deliver optimal service to clients and members. To work effectively with subcontractors, we share information and processes, build communications and accountabilities, and establish system links.

Prime defines key performance metrics and deliverables with each subcontractor in the development of process flows and routine communications. Our contracts with subcontractors contain specific service obligations with which all subcontractors must comply. In addition to contractual obligations, we look for organizations that maintain strict quality control standards and possess the flexibility to handle client requests.

10. **What ratings have you received from the following third party rating companies and organizations?**

    Being a privately held company, Prime is not rated by the included rating organizations.

11. **Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.**

    All services proposed are provided domestically.

12. **Confirm that your proposal includes any and all deviations to the Minimum Contract Provisions (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).**

    Confirmed.

13. **Confirm that you will conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with beginning July 1, 2015.**

    BCBSND and Prime are committed to serving as NDPERS's primary resource for information about Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act of 2010 and will revise NDPERS's benefit plan, programs and systems to ensure compliance.

    Since the inception of ACA, BCBSND has provided NDPERS access to our subject matter experts to work through the ACA key provisions including the employer mandate, eligibility, look back periods, affordability and reporting requirements. A pilot workgroup was formed including representatives from NDPERS, the Office of Management and Budget, agency staff and BCBSND to discuss implementation requirements. In addition, other state agency and political subdivision representatives were invited to a special ACA forum in July, where BCBSND staff presented on ACA provisions along with other state staff.

    BCBSND and Prime have worked with NDPERS to successfully implement the initial provisions of PPACA, including:

    - Expanded eligibility for adult children up to age 26
    - Elimination of pre-existing condition waiting periods for members younger than age 19
    - Elimination of lifetime and annual limits for essential benefits
    - Elimination of cost-sharing for preventive services, screenings and care as well as routine immunizations recommended by various government agencies
    - Expanded coverage for women's preventive benefits for non-grandfathered plans
    - Compliance with the PPACA Summary of Benefits and Coverage and Uniform
    - Glossary provision

- Transitional Reinsurance Assessments
- Patient Centered Outcomes Research Tax
- PPACA Insurer Fee

BCBSND and Prime will continue to work with NDPERS to implement additional provisions as required under PPACA. The following provisions will impact NDPERS during the next biennium, including:

Provisions	Non Grandfathered Plans	Grandfathered Plan
USPSTF – Alcohol Misuse	Impacted	Not Impacted
USPSTF – Hepatitus C Virus Screening	Impacted	Not Impacted
USPSTF – Preventive High Risk Breast Cancer Drugs	Impacted	Not Impacted
USPSTF – Lung Cancer Screening	Impacted	Not Impacted
Out of Pocket Maximum Definition Update	Impacted	Not Impacted
Removal of Waiting Periods	Impacted	Impacted
Conversion Language Updates	Impacted	Impacted
BlueCard Language Updates	Impacted	Impacted
20% Non Par Sanction Removal	Impacted	Not Impacted
Medical Qualification Language Removal	Impacted	Impacted
Member Rights and Responsibilities Language Added	Impacted	Impacted

**Provisions do not apply to retiree plans*

In addition, effective the next biennium, 7-1-2015 – 6-30-2017, due to the **Mental Health Parity and Addiction Act (MHPAEA)** final rule, we will be removing the age limits from Psychiatric Residential Treatment Services. Previously, this benefit was limited to members under age 21. This restriction was removed to comply with the MHPAEA final rule.

1.1.2 References and Experience

1. **Provide the following information on a maximum of three (3) of your largest pharmacy benefit plan clients for whom you provide pharmacy network, and administrative services on a self-insured basis. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.**
   a. **Name of employer sponsoring plan and location**
   b. **Type of services provided to plan sponsor**
   c. **Plan inception date**
   d. **Length of time as client**
   e. **Number of contracts and members participating in the plan**
   f. **Contact information (name, title, phone number, email address)**

Name of employer sponsoring plan and location:	University of Minnesota Minneapolis, Minnesota
Type of services provided to plan sponsor:	PBM Services
Plan inception date:	2011
Length of time as client:	3 Years
Number of contracts and members participating in the plan:	39,765 members
Contact Information (name, title, phone number, e-mail address):	Karen Chapin, Health Programs Manager (612) 625-1115 Chapi011@umn.edu

Name of employer sponsoring plan and location:	Presence Health Chicago, Illinois
Type of services provided to plan sponsor:	PBM services
Plan inception date:	2012
Length of time as client:	2 Years
Number of contracts and members participating in the plan:	26,000 members
Contact Information (name, title, phone number, e-mail address):	Katie Hinz, Systems Manager, Benefits (312) 308-3259 Katie.Hinz@presencehealth.org

Name of employer sponsoring plan and location:	Hormel Foods Corporate Services, LLC Austin, Minnesota
Type of services provided to plan sponsor:	PBM services
Plan inception date:	2012
Length of time as client:	2 Years
Number of contracts and members participating in the plan:	25,000 members
Contact Information (name, title, phone number, e-mail address):	Mike Kadrie, Corporate Manager, Health and Welfare (507) 437-5481 mekadrie@hormel.com

**North Dakota-specific client references are noted in Appendix C of the proposal response.*

2. **Provide the following information for two (2) of your largest pharmacy benefit plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.**
   a. **Name of employer sponsoring plan and location**
   b. **Type of services provided to plan sponsor**
   c. **Plan inception date**
   d. **Length of time as client**
   e. **Number of contracts and members participating in the plan**
   f. **Reason for termination**
   g. **Contact information (name, title, phone number, email address)**

Name of employer sponsoring plan and location:	Lifetouch Eden Prairie, Minnesota
Type of services provided to plan sponsor:	PBM services
Plan inception date:	1997
Length of time as client:	17 Years
Number of contracts and members participating in the plan:	11,330 members
Reason for Leaving	Moved with Mercer coalition to another PBM.
Contact Information (name, title, phone number, e-mail address):	Bradley Fagerstrom, Senior Director, Total Rewards (952) 826-5596 bfagerstrom@lifetouch.com

Name of employer sponsoring plan and location:	Shands Hospital Gainesville, Florida
Type of services provided to plan sponsor:	PBM services
Plan inception date:	2013
Length of time as client:	1 Year
Number of contracts and members participating in the plan:	12,500 members
Reason for Leaving	GatorCare chose to bring rebate administration services in-house.
Contact Information (name, title, phone number, e-mail address):	Raymond Hoskavich, Senior Director of Human Resources (352) 265-0111 ext. 8.5363 hoskat@shands.ufl.edu

1.2 Implementation and Account Management

3. **Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2015 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:**

- **Amount of total time needed to effectively implement the program**
  30 days prior to the open enrollment session launch.
- **Activities/tasks and corresponding timing**
  As the incumbent carrier, no transition will be needed and system changes will follow BCBSND and Prime group renewal processes already in place.
- **Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff**
  As the incumbent carrier, all processes are in place to support the renewal of the NDPERS plan.
- **Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change**
  Not applicable to BCBSND and Prime as the incumbent.
- **Length of time implementation team lead and members will be available to NDPERS**
  BCBSND and Prime currently have a team of employees dedicated to NDPERS. Our NDPERS team will ensure a smooth implementation every step of the way.

4. **Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.**

While Prime Therapeutics will serve as the PBM, BCBSND will manage all aspects of the NDPERS account.

Strategically, the NDPERS relationship will be managed to engage the boards and executives in direct communication on organizational needs and direction. We will continue to work with NDPERS to address cost trends, legislative items, new product concepts and other issues impacting the cost and quality of care and coverage. On a day-to-day basis, we will continue to provide a dedicated account executive, an account manager, group consultant, wellness consultant and access to all levels of management and the BCBSND Board. NDPERS members will continue to receive the high quality they've come to expect from our dedicated member services team. Please see "Attachment 3 – BCBSND Organizational Chart" for the BCBSND organizational chart.

a. **The key individual representing your company during the proposal process;**

Tim Huckle, President and CEO

A team of executives play a supporting role. Please refer to "Attachment 4 – Biographies" for biographical information.

Executive Support Team:

- Denise Kolpack, Senior Vice President of Corporate Communications and Public Affairs
- Pat Bellmore, Chief Marketing Officer
- Brad Bartle, Vice President of Actuarial & Membership
- Mark Tschider, Vice President of Customer Support & Claims Administration
- Sharon Fletcher, Senior Vice President of Health Network Innovation and Human Resources and Development
- Renay Rutter, Executive Vice President of Enterprise Planning and Technology
- Daniel Conrad, Chief Legal Officer
- Brian Fellner, Executive Vice President and Chief Financial Officer
- Cameron Olig, Senior Vice President, Client Services and Sales (Prime)
- Kent Wangsness, Regional Vice President of Client Engagement (Prime)

b. **The key individuals on your proposed implementation team;**

BCBSND has an established cross functional implementation team with leadership representation from all business units. This team will be led by a dedicated Project Manager, Lacey Hogness.

c. **The key individual assigned to overall contract management;**

Kevin Schoenborn, Manager, Consulting Services - Account Executive

d. The key dedicated individual or team members responsible for day-to-day account management and service;

Your dedicated Account Management Team will coordinate with the BCBSND implementation to ensure all aspects of the NDPERS benefit plan are implemented timely and accurately. They will be supported by a team of Subject Matter Experts. Please refer to "Attachment 4 – Biographies" for biographical information.

Account Management Team:

- Kevin Schoenborn, Manager, Consulting Services – Account Executive
- Rebecca Balk, Director of Client Engagement (Prime)
- Heather Belland, Account Consultant (Prime)
- Dorinda Card, Director of Key Accounts
- Onalee Sellheim, State and Public Program Manager – Account Manager
- Sonja Nyhof, State and Public Program Manager
- Jodi Crouse, NDPERS Large Group Consultant
- Michael Carlson, Manager of Health and Wellness
- Stacy Duncan, NDPERS dedicated Wellness Consultant
- Sheri Srnsky, Team Leader, Special Accounts, Claims

Subject Matter Experts:

- Michelle Bishoff, Director of Claims Administration
- Tom Christensen, Manager of Pharmacy Management
- Zach Keeling, Director of Marketing Operations & Product Management
- Linda Merck, Senior Actuarial Analyst
- Lacey Hogness, Business Implementation Lead
- Mike Potts, Director of Employer Consulting & Wellness Services
- Carman Bercier, Vice President Health Innovation and Practice Innovation
- Jackie Walsh, Vice President Clinical Excellence and Quality
- Pam Gulleson, Vice President of Public Affairs
- Megan Houn, Director of Government Relations
- Brent Solseng, Pharmacy Manager Marketing
- Shelly Stalpes, Manager Claims Administration
- Jim Wynstra, Director of Actuarial
- Heather Horner, Member Education Consultant
- Miriam Griffin, Member Advocate Specialist
- Megan Besser, Senior Consulting Analyst (Prime)

Please refer to "Attachment 4 – Biographies" for biographical information.

e. The key individual responsible for provider contracting; and

Sharon Fletcher, Senior Vice President Health Network Innovation and Human Resources and Development

Please refer to "Attachment 4 – Biographies" for biographical information.

f. The key individual responsible for provider relations if different than letter e. above.

Please refer to question 18 e.

5. Please provide the requested information for the functions that will be servicing NDPERS in the table below:

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/ CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
Member Service	4510 13th Ave S. Fargo, ND 58121	Monday – Friday 8 a.m. – 5 p.m.	No
PrimeMail Services	Albuquerque, NM and Irving, TX	PrimeMail Contact: 24 hours a day, 7 days a week PrimeMail's dispensing hours of operation vary by site but both are operational Monday through Saturday for anywhere from 8 to16 hours per day. During these hours, pharmacists are on-site for the purposes of filling prescriptions and providing member counseling as needed.	No
Claims Processing	4510 13th Ave S. Fargo, ND 58121 (paper claims) Redundant claims systems located in Eagan, MN and Minnetonka, MN (online claims)	Monday – Friday 8 a.m. – 5 p.m. The online claims processing system is available 24 hours a day, 365 days per year.	No
Enrollment, Eligibility, and Billing	Enrollment, eligibility and billing currently administered by NDPERS	Enrollment, eligibility and billing currently administered by NDPERS	Not Applicable
Disease Management	BCBSND MediQHome program for in-state members Fargo, ND	Admin support: 8 a.m. – 4:30 p.m. (CST) Online access: Available 24 hours a day, 7 days a week	No

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/ CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
	Accordant (effective 8/1/2010) North Carolina	Admin support: Monday – Thursday: 8 a.m. – 9 p.m. (EST), Friday: 8 a.m. – 5 p.m. (EST) Online nursing: 24 hours a day, 7 days a week	Yes – Accordant
Case and Utilization Management	4510 13th Ave S, Fargo, ND	8 a.m.-4:30 p.m. (CST)	No
Pharmacy Benefit Management	Prime headquarters: Eagan, MN Other locations: Albuquerque, NM; Chicago, IL.; Irving, TX; Jacksonville, FL.; Omaha, NE.; Pittsburgh, PA.; Washington, D.C.; Bloomington, MN.; Birmingham, AL.; Orlando, FL.; Raleigh, NC	Pharmacy Contact Center: 24 hours a day, 7 days a week PrimeMail Contact: 24 hours a day, 7 days a week Member Services: 8 a.m. – 4:30 p.m. (CST)	No
Member Education & Engagement	Fargo, ND, and Bismarck ND	Monday – Friday 8 a.m. – 4:30 p.m. (CST)	No
Dedicated NDPERS Account Manager	Based in Fargo, ND	Monday – Friday 8 a.m. – 4:30 p.m. (CST)	No

1.3 Communications and Website

6. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	We will provide dedicated pages on our websites (www.BCBSND.com and MyPrime.com) to provide enrollment information, FAQs, contact information, and additional items deemed necessary by NDPERS. Furthermore, MyPrime.com houses important information such as: • finding a pharmacy • Information on your benefit plan / drug benefit • drug pricing that allows members to calculate the cost at both retail and mail for generic and brand products • price shopping by location • view equivalent drug choices • formulary searches • claims history look up • mail service • ordering refill prescriptions/checking on orders • education materials	Yes
Employee Newsletter(s)	BCBSND will provide original content addressing relevant insurance issues for the NDPERS employee newsletter. The content will support NDPERS's pre-enrollment and enrollment efforts.	Yes
Brochures	BCBSND supplies a PDF of the NDPERS PPO/Basic and the HDHP benefits grid on the NDPERS website.	Yes
Direct mail (internal or home distribution)	BCBSND will develop HTML-based flyers and information messaging for email distribution related to your medical and pharmacy benefits. BCBSND developers will provide these to NDPERS Information Technology personnel for distribution, to ensure complete coverage of the membership.	Yes
Enrollment guide	As the current carrier, BCBSND and Prime supplies NDPERS with joint underwriting criteria to administer its enrollment.	Yes
Employee open enrollment meeting support and attendance	As the current carrier for NDPERS, BCBSND and Prime offer dedicated NDPERS account management who can attend all open enrollment meetings upon request.	Yes

Area	Description	Can it be customized for NDPERS?
Benefits/HR staff training support	BCBSND and Prime's dedicated NDPERS account management team provides a benefit overview to all NDPERS agencies and NDPERS HR/Payroll areas upon request.	Yes
Video	BCBSND and Prime can deliver audio-visual presentations, Brainsharks, tutorials, and educational materials in multiple ways. Distribution can be by physical media (DVD, CD-ROM), web pages, personal media player downloads, or a combination. Online distribution can be through BCBSND or by delivery to NDPERS Information Technology personnel.	Yes
Employee healthcare cost calculator worksheets (cost estimates)	BCBSND will assist NDPERS in complying with the Summary of Benefits and Coverage and Uniform Glossary provision of PPACA. The Summary of Benefits and Coverage provides employees with health care costs and estimates for certain episodes of care.	Yes

7. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

BCBSND and Prime are willing to provide these resources to NDPERS. As the current carrier, we currently provide a variety of communication and promotional materials to NDPERS members. Several worksite wellness materials are available on topics including smoking cessation, healthy diet, exercise and other health and wellness topics.

Materials include a monthly wellness article with related poster, brochure and table tent. In addition, member education and engagement materials are offered at the workplace through BCBSND and Prime's member education programs. Presentation topics include:

- Take Care of Yourself
- HealthyBlue
- Stress Management
- Medication Education
- Prime Specialty Pharmacy enrollment materials and education pieces
- Beat the Bug
- Summer Safety
- Nutrition Basics for a Healthier You
- PrimeMail Welcome Kit materials
- MyPrime pharmacy member website benefit training
- Walking Works
- Strength Training
- Health Club Credit
- CPR and First Aid Basics

Various programs include a giveaway item to support the message, such as a pedometer for the Walking Works program or strength stretch bands for Strength Training.

BCBSND and Prime provides all benefit plan materials, including Summary Plan Description booklets, information grids summarizing member benefits and ID Cards. Worksite enrollment meetings are available and delivered by the NDPERS Account Representative on request.

Furthermore, we will continue to provide ad hoc marketing and communication strategies and proposals for specific needs outside the scope of the RFP. These strategies are developed by Corporate Communications and Marketing staff in collaboration with NDPERS staff.

8. **How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?**

   BCBSND guarantees delivery of ID cards to members before July 1, 2015, as long as all required enrollment information is received by June 14, 2015.

1.4 Plan Administration

9. **Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.**

   BCBSND will communicate federal and state legislative changes in a timely manner. BCBSND maintains close relationships with state and federal elected officials and their respective staffs. Our Government Relations team, Pam Gulleson and Megan Houn, monitor federal and state bills and promptly notify internal staff of potential changes that could impact the NDPERS health plan. Megan Houn works out of the Bismarck office and Pam Gulleson is based in Fargo. The Account Management team notifies NDPERS staff of potential changes and our legal staff will provide guidance on these issues, but recommends NDPERS communicate with its legal counsel to confirm. BCBSND's Actuarial team will provide pricing on legislative changes. BCBSND Contract Administration staff also works closely with the North Dakota Department of Insurance on notification of these changes. The Account Management team works closely with NDPERS staff throughout the process. In addition, Prime will work with BCBSND on any legislative issues regarding pharmacy in the state of North Dakota.

10. **NDPERS recognizes that different settlement arrangements will be necessary to implement a self-insured program. Please describe your proposed settlement process.**

    As it relates to the PBM, all pricing guarantees will apply, in aggregate, for the term of the pricing in Appendix D and will be measured annually. Within 180 days after the end of each servicing year during the initial and renewal terms of this agreement, BCBSND and Prime will provide a report of the actual overall effective discounts off of the average wholesale price (AWP) and dispensing fees for both brand and generic drugs.

11. **What is your total commercial and Medicare pharmacy plan enrollment? Complete the table below.**

Dates	BCBSND Commercial	Prime Commercial	BCBSND Medicare
As of January 2012	429,425	20 million	35,824
As of January 2013	456,590	22 million	36,690
As of January 2014	467,297	25 million	37,485

Note: we are assuming "Medicare" to mean Medicare Supplement business and "Commercial" to mean all other business excluding Medicare Supplement. These enrollment totals are as of the end of January for each year (i.e., January 31).

1.5 Eligibility

12. **Are ID cards the sole means of determining member eligibility? If not, please describe.**

    No, ID cards are issued to employees when their applications are processed. Eligibility is determined using the information from the last application received from the employee plus any additions (e.g. newborns automatically added from claims information) and deletions (e.g. dependents removed when no longer eligible). Members will receive a letter of termination upon request or automatically when a member is terminated. Members can also call the BCBSND service unit to verify eligibility status or visit BCBSND's website.

13. **If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?**

    NDPERS can check employee status through The Healthcare Online Resource. We update and maintain eligibility through the 834 file which is sent weekly. There are no charges for these services.

14. **NDPERS will submit enrollments via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Files will be transmitted using a secure file transmission process. The successful contractor must be able to receive this data in that format and media.**

    Yes, BCBSND can receive this format. As the incumbent, this process is currently in place for NDPERS.

15. **Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.**

    BCBSND can accept faxes, phone calls and secured email attachments. Eligibility updates can be processed immediately, if necessary; otherwise, they can be processed within 14 days.

16. **Please describe your standard (or proposed) financial arrangements with NDPERS under a self-funded arrangement including but not limited to: account requirements and process for claim payment, frequency of reimbursement to the administrator for claims paid, methodology for funds transfers, required reserves in claim account, etc.**

    NDPERS claims are already set up for reporting in BCBSND self-funded software. The transition should take minimal programming work to convert the fully insured process to self-funded. Self-funded claims are updated weekly by Wednesday morning. BCBSND will set up an automatic ACH withdrawal every Friday to pull funds from the group's bank account to reimburse BCBSND for their claims from the previous week. The group will be able to view their weekly claims amount each Wednesday online and must have enough funds in their account to cover the claims for that week.

1.6 Customer/Member Service

17. **Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. If yes, this unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. If yes, describe the structure and organization and provide an organizational chart of the unit you are proposing. If no, please describe how these services will be provided.**

    BCBSND will continue to provide and maintain dedicated NDPERS customer service/ claims processing staff and provide dedicated local and toll-free telephone numbers for members. The dedicated staff will also continue to respond directly to members regarding benefits, claims status, selecting participating providers, and provide general assistance

with navigating online and other resources available through the health plan and NDPERS websites. The dedicated customer service unit consists of nine customer service representatives who handle the daily customer service inquiries and claims processing functions, one coordinator who handles day-to-day functions/training of the service unit and one team leader.

Please refer to "Attachment 5 - NDPERS Service Unit - Organization Chart" for the organizational chart for the NDPERS Service Unit.

1.7 Claims Administration

18. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

Claims Processing Unit	
Address/Location	4510 13th Ave S. Fargo, ND 58121 Prime's address: 1305 Corporate Center Drive, Eagan MN 55121
Phone Numbers	Toll-free: 800-223-1704 Local: 701-282-1400 Toll-free (Prime): 800.858.0723
Days and Hours of Operation	Monday – Friday 8 a.m. – 5 p.m. Central Standard Time (CST) Prime's claims member service is available 24 hours a day, 7 days a week, including holidays. On-call pharmacists are available to assist members after hours.
Number of Members Serviced	The dedicated NDPERS Service Unit provides service to all 65,000 NDPERS members covered under the NDPERS Plan. During July 1, 2013, through June 30, 2014, the NDPERS Service Unit handled 33,246 calls.
Number of Employer Groups Serviced	NDPERS has a dedicated service unit that exclusively handles NDPERS claims and customer service.
Ratio of Claims Unit Staff to Members Serviced	The NDPERS Service Unit is comprised of nine Claims and Customer Service Unit Staff to provide service to all 65,000 covered NDPERS Members; a ratio of 1:7,222.
Volume of Claims Processed Daily	During July 1, 2013, through June 30, 2014, an average of 3,052 medical claims was processed per day; this includes systematic and manually processed claims. During this same period, Prime processed an average of 1,378 pharmacy claims per day.

19. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan, HDHP/HSA) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

Yes, BCBSND and Prime are able to administer the NDPERS commercial plan designs as requested by the NDPERS group, with minimal claims processing intervention.

1.8 Reporting

20. Please provide samples of your monthly, quarterly, and annually standard reporting packages.

Please refer to Attachment 17 for samples of the standard reporting package. In addition, BCBSND and Prime's Consulting Services will provide ad hoc reporting to NDPERS as needed.

21. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

In conjunction with Prime, BCBSND offers a full suite of standard reports and data feeds available on a secure website (The Healthcare Online Resource) for staff to access.

BCBSND also offers access to Health Intelligence, an online reporting tool that allows for benchmarking and has drill down functionality to examine outliers and unique trends. The comprehensive Employer Group module features demographics, cost, utilization and risk analysis in print-ready Employer Profile Reports that can be set up on a periodic basis.

Please see Attachment 8 for a sample of the Health Intelligence Employer Profile report.

22. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing pharmacy claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

As the incumbent, BCBSND will continue to send monthly data files through The Healthcare Online Resource to NDPERS in an agreed upon format that includes claims and enrollment data.

1.9 Pharmacy Benefits Management Services

23. Describe your mail order pharmacy program and provide details on how you market this service.

Through Prime's mail pharmacy, PrimeMail, we will continue to offer NDPERS the features and advantages you have come to expect from Prime, including cost savings, enhanced customer service, convenience, consultation, and timely and accurate dispensing.

PrimeMail's program philosophy is simple: provide the highest quality care and service for members. As your members have already experienced, PrimeMail's member-friendly, customer-centric solution includes a new member welcome (on-boarding) program, automated calls upon receipt and shipment of an order, refill reminders, and physician/prescriber outreach programs for new and existing members.

Cost Savings
As your home delivery pharmacy provider, PrimeMail continues to provide efficient, convenient, and low-cost approaches to filling your drug prescriptions. Our competitive discounts on brand-name and generic drugs are provided with no dispensing fees. Prime is committed to helping NDPERS add specific mail benefits should you choose to use this channel for savings purposes, including consulting on various plan design modeling options for this benefit. The cost savings, combined with a quality process superior to retail pharmacies and the convenience of internet, mail, or automated phone ordering create a highly valuable pharmacy solution for your members.

PrimeMail also offers a therapeutic substitution program for NDPERS members that targets long-term maintenance medication users for several drug classes. The Generics at Mail program promotes the use of generic and low-cost brand drugs that provide the same therapeutic outcome as more expensive brand drugs and saves your members money. The program typically has two components: letter-based member education followed by phone-based intervention.

Enhanced Customer Service
Enhanced customer service is a key component of PrimeMail's core values for mail order. NDPERS members will continue to receive the best in mail order customer service. PrimeMail customer service representatives (CSRs) are highly qualified, dedicated professionals available 24 hours a day, 7 days a week. NDPERS members have come to rely on knowledgeable CSRs and registered pharmacists who can address any mail service inquiries, including order status and drug-specific information.

PrimeMail recognizes that the growth of mail service as a pharmacy delivery channel creates a parallel need for PrimeMail to enhance value to clients and members. In the face of this pressing reality, Prime continues to invest in new technology and research, and ever-improving methods for putting mail service to the best possible use. NDPERS and your members will continue to benefit from the wide variety of features and benefits offered by PrimeMail.

Convenience
PrimeMail provides safe, convenient, cost-effective home or workplace prescription delivery. Members who require long-term or maintenance medications find the mail service program particularly effective in serving their needs. To this end, PrimeMail offers:

- Secure and HIPAA-compliant ordering, operations, packaging, and shipping that provides members with confidence and peace of mind
- Clear member-friendly communications that ensure ease of use and increase prescription mail service benefit awareness
- Member web sites that provide convenient access to refill ordering, order status, and other health and drug information
- PrimeMail's acceptance of prescriptions through e-prescribing serves as an administrative efficiency for physicians/prescribers as well as helping reduce cost and improve health care delivery of pharmacy benefits; BCBSND and Prime recognize that with mail service pharmacies growing faster than any other delivery channel, the need to enhance value for all audiences is also growing; as such, Prime continues to invest in new technology, research, and ways to best use mail service
- The ability for members to order larger quantities of their medication at one time, depending on benefit design (e.g., 90-day supply through mail vs. 30-day supply at retail)

Consultation
Your BCBSND/Prime Account team will continue to ensure all aspects for your mail program is meeting your overall goals and member needs. By utilizing PrimeMail, you receive the following advantages:

- Consultation on your mail service benefit and UM programs in the context of your overall pharmacy management goals
- Member communication that eliminates confusion and disruption to members and supports your mail utilization goals throughout the life of your program

Accurate and Timely Dispensing
PrimeMail's workflow management system provides enterprise-wide access to all mail service prescription documents throughout the dispensing process. All documents are scanned with the order, including the check and any notes. This ensures no information is separated from the order, allowing PrimeMail pharmacists to ensure the accuracy of each order. This unique feature of the PrimeMail facility also allows CSRs to verify the status of a member's prescription and to answer questions regarding his or her order throughout the dispensing process. PrimeMail delivers new prescriptions more than one day faster than the competition and delivers refills nearly one-half day faster. Ongoing quality measurement of our mail service operational setup and configuration functions reveals consistent dispensing accuracy rates of 99.99 percent.

24. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H.

Prime has arrangements with pharmaceutical manufacturer companies for rebate dollars. Prime receives a rebate management fee from manufacturers for services rendered in connection with rebate contracts, such as performing market share analysis required to calculate rebates and consolidating billing for clients. Prime does not accept any other (direct or indirect) manufacturer funding for clinical programs or research, nor do we maximize rebates at the expense of overall low net cost.

Rebate Calculation: As part of our ASO pass-through proposal, all rebates and the value of manufacturer admin fees will be passed through to NDPERS at 100 percent. Total rebate dollars are comprised of group-retained and member rebate accounts. NDPERS retained rebates are deposited into NDPERs cash accounts.

Prime negotiates rebates on behalf of BCBSND. Prime invoices manufacturers for rebates at the end of each quarter. Manufacturer payment timelines vary by contract, but they range from 30 to 105 days from the date of invoice. A single and final account reconciliation is made within twelve months following the end of the respective quarter. BCBSND remits to NDPERS rebates received from Prime less amounts credited to Member Rebate Accounts. The portion of rebates credited to a member's Member Rebate Account is a representative percentage of the cost share paid by the member on rebate eligible prescription medications. Money accumulated in a Member Rebate Account automatically reduces a member's out-of-pocket expense the next time a covered prescription drug is purchased.

Processing Schedule and Reporting: Rebate deposits are reported in the rebate column of the Calculation of Interest on State Group report and in NDPERs quarterly executive summaries.

25. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

AWP is defined as the price calculated by national reporting services for each drug in the market; Prime uses Medi-Span as the drug pricing source for AWP pricing information.

1.9.1 Formulary

26. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents.

NDPERS currently utilizes the standard BCBSND/Prime Formulary, which provides members with broad access to safe, medically necessary products. This formulary is a list of medications which represent the current clinical judgment of physicians and other experts in the health care arena. See "Attachment 16 – Drug Formulary."

At a minimum include the following:

- **Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.**

  New drugs slated to be added to the formulary are typically reviewed as soon as possible after market launch, with all new agents reviewed within 180 days of availability on the marketplace. Some drugs may be held for a quarter to be reviewed on-cycle with drugs in the related therapeutic class according to the Prime National P&T Committee.

  The Prime P&T Committee meets quarterly to review and update the Clinical Threshold List. P&T bylaws also permit ad hoc meetings as necessary. The P&T Committee reviews all therapeutic classes annually, with the reviews distributed equally between the four meetings.

Communicating Changes
The best method of formulary communication for all audiences (members, physicians, and pharmacists) is the actual formulary. Members, physicians, and pharmacists can find our formulary at MyPrime.com integrated with BCBSND's web site, www.BCBSND.com. Our web site contains the most current formulary and any changes made to the formulary.

Communicating to Members
BCBSND provides formulary information, including updates about deletions and additions, through www.BCBSND.com. This web site is linked to MyPrime.com, the member pharmacy web site. With the member-directed web site, members have the advantage of using the online formulary search feature to search from the group-level formulary (specific to your benefit design). Benefit-specific information provides members the most accurate formulary status possible.

Communicating to Physicians
BCBSND posts the formulary, and any updates, on our web site. Physicians can also go to Prime's corporate web site, www.PrimeTherapeutics.com, directed at physicians/providers, for updates. In addition, BCBSND provides formulary publications for inclusion in mailings developed for physicians.

Communicating to Pharmacies
Prime Perspective, a quarterly newsletter, is distributed to all network pharmacies. Prime Perspective includes formulary updates, plan announcements, benefit updates, and other information to support claims processing. The newsletter and formulary can also be found on the Prime corporate web site and by going to www.BCBSND.com.

- **Describe how drugs are evaluated for possible inclusion on the formulary.**

  Clinical guidelines are one of several information sources incorporated into Prime's chapter reviews and Clinical Threshold List (CTL) when evaluating drugs for possible inclusion in the formulary. Prime's Clinical department conducts full chapter reviews, then distills the information down to key points for notation in the CTL placement. New drug monographs are also completed for any new to market drugs and incorporated into the chapter review and CTL.

  The methods used to gather data and consider the evidence for the drugs in each chapter review and CTL are the same for all drug classes; Prime's Senior Clinical Pharmacist is responsible for a chapter review and conducts a literature search for new information since the last annual review. This literature is considered based on the following hierarchy:

  - Randomized Clinical Trials (RCTs)
  - Guidelines
  - Systematic reviews and meta analysis
  - Other information including observational studies/case control studies/retrospective analysis, tertiary references, and expert opinion

  Other review considerations include:

  - Guidelines providing direction for drug therapy in a disease state treated with drugs across more than one class are considered for all applicable classes
  - Evidence-based practiced guidelines are favored over consensus practice guidelines as they detail a comprehensive search of the literature, an evaluation of the quality of individual studies, and recommendations supported by the evidence
  - Consensus practice guidelines contain recommendations based on practice or expert opinions that typically do not include the rigor of evidence-based guidelines

- The most current clinical practice guidelines are given the most consideration
- Guidelines reflecting current clinical practice in the United States are favored over guidelines written in foreign countries; where no United States guidelines exist, foreign guidelines may be referenced
- Guidelines written by nationally recognized organizations, government agencies, and specialty groups are favored over guidelines produced by journals, small unrecognized groups, or pharmaceutical manufacturers

- **Describe the basis of your formulary development and maintenance.**

  Formulary decisions are made using an integrated process involving both the BCBSND Pharmacy and Therapeutics (P&T) Committee and Prime's National P&T Committee. Prime's Clinical Department, Pharmacy Trade Relations Department and Product Review Committee thoroughly research formulary considerations (content and composition) before recommendations are made to Prime's P&T Committee. The decisions of the Prime National P&T Committee become recommendations to the BCBSND P&T Committee, which makes final formulary decisions.

- **Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.**

  We have a very structured process for formulary development, which ensures decisions are first based on safety, efficacy, uniqueness, and then cost – all clinically superior and comparable drugs are evaluated financially for formulary consideration; drugs considered unsafe or clinically inferior are not considered for formulary inclusion. For those decisions in which cost becomes a consideration, Prime utilizes a net cost modeling tool which helps determine the true cost of a drug product or class of products by taking into account network discounts, utilization, market share projections, and any available manufacturer discounts. Therefore, there may be drugs on the formulary that have a higher AWP than other alternatives when the net cost modeling has demonstrated an overall lower net cost.

- **What is your definition of a Generic Drug?**

  As it relates to our ASO Transparent (Pass-through) proposal, Generic drugs are defined as having a "Y" code in the Multisource Code Indicator on Medispan. Unlike some alternative PBMs, with BCBSND/Prime this definition applies to **not** just claims adjudication but also to discount reconciliation.

  For "illustrative" Traditional pricing, a generic drug is defined as a drug with more than 3 generic manufacturers, and not in an exclusivity period.

- **What is your definition of a Brand Drug?**

  As it relates to our ASO Transparent (Pass-through) proposal, Brand drugs are defined as having an "M, N, or O" code in the Multisource Code Indicator on Medispan.

  For "illustrative" Traditional pricing a brand drug is defined as any drug not considered a generic drug under Traditional pricing.

- **Describe the composition of your review board/committee and how often do they meet and how are they selected to be a member.**

  BCBSND P&T Committee
  There are 9 members of the BCBSND formulary committee, comprised of 3 representatives from BCBSND, 3 practicing physicians, and 3 practicing pharmacists. The practicing physician and pharmacist members are selected based on credentialing and reputation in the community. A BCBSND Medical Director serves as chairperson. The BCBSND representatives are salaried employees of BCBSND. The practicing physicians and pharmacists receive an honorarium for meeting attendance.

Prime P&T Committee
Prime's National P&T Committee is composed of an independent panel of physicians and pharmacists representing diverse geographic locations. Prime's Blues clients, including BCBSND, select their own representative while Prime selects practitioners from highly credentialed specialists representing high-prescribing clinical disciplines. The P&T Committee voting membership must consist of at least 50 percent practicing physicians/pharmacists. Practitioners must spend at least 50 percent of their time in direct care, or be academicians with a clinical focus.

Meetings are held quarterly and annually.

1.9.2 Management of Clinical Programs

27. **Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.**

    a. **Drug Utilization Reviews (DUR) - retrospective, concurrent and prospective.**

    b. **Disease Management**

    c. **Medication Therapy Management**

Our integrated medical and pharmacy offering delivers programs that coordinate across medical, pharmacy, and health care benefits to achieve better outcomes and lower total cost of care. We are able to work collaboratively (due to aligned incentives, and ability to share data) to understand member needs, and engage the member and physician with information in ways that can lead to improved health outcomes. Our robust suite of clinical programs is described below:

GuidedHealth® Clinical Programs
GuidedHealth is a clinical programs and reporting tool that delivers a suite of innovative, member-focused clinical programs to provide actionable clinical intelligence to physicians and members to improve outcomes and lower overall cost of care. Based on program selection, an inclusive Health Guide is generated that aggregates all drug therapy opportunities at the member level, resulting in fewer, more meaningful contacts for physicians and members. We also have the unique ability to integrate data generated from GuidedHealth to enhance our member and physician engagement strategies.

GuidedHealth directly links our engagements to the achievement of specific health outcomes and total cost of care measures and reports the value of those specific engagements, including pharmacy cost, outcomes, adherence and medical cost avoidance setting a standard for integrated reporting not yet seen in the industry today.

The GuidedHealth clinical programs are available to ASO clients for an additional charge.

How It Works
GuidedHealth's program modules for BCBSND (described below) help physicians, members and NDPERS identify opportunities for better management of pharmacy utilization, resulting in improved member outcomes and overall reduction in health care costs. Program features include:

- A robust intake process for the import of medical, lab and pharmacy claims data in an efficient manner

- A rich workflow application that can manage all of the activities (i.e., develop and send action plans) as well as monitor the results of any interaction

- The ability to send results (e.g., gaps in care) electronically or by letter to physician (program specific) or other host system
- Ability to deliver activity reports and show results including savings, outcomes, adherence and medical cost avoidance setting a standard for integrated reporting

Modules and Program Overview
The clinical programs within GuidedHealth include traditional retrospective drug utilization review (DUR) programs as well as adherence and cost management programs. All programs are developed using evidence-based medicine and nationally recognized drug compendia and guidelines. They have been organized into modules that focus on overutilization, underutilization, drug safety, and cost management opportunities.

Below are some of the clinical programs that are available through GuidedHealth. Additional program detail is provided for select programs as well.

- *Overutilization Module*
  - Controlled Substance Alerts
  - Triple Therapy Alert
  - Psychotropic Polypharmacy
- *Underutilization Module*
  - Asthma Inhaled Corticosteriod Use
- *Drug Safety Module*
  - FDA MedWatch
- *Drug Cost Management Module*
  - Generic Opportunity
  - Preferred Brand Opportunity

Targeted Adherence program
Provided through GuidedHealth is our Targeted Adherence program, which supports drug adherence and improves the quality of care for members. This program incorporates medical claims data that allows identification of members with a chronic disease state (cholesterol, depression, diabetes, hypertension, and respiratory) who are at the highest risk of suffering a future adverse medical event. It is these high risk members that will gain the largest benefit from being adherent to their medications, as supported by the medical literature. These high risk members are assessed for adherence to their current prescription medications for those specific disease states.

Analysis of pharmacy claims data reveals a proportion of days covered (PDC), which provides an accepted measure of whether a member is taking his or her medication on a regular basis based on a number of factors (e.g., prescription fill rates, days supply).

If an adherence issue is identified (i.e. less than 80 percent adherence with medication therapy), the member and/or physician can be sent a targeted letter designed to improve adherence. The goal of this program is to increase appropriate utilization of prescription medications and may result in increased pharmacy spend. However, reporting for this program will also evaluate medical cost avoidance, in addition to adherence rates.

Targeted Gaps in Care Program
Also provided through the GuidedHealth program is the Targeted Gaps in Care program, which encourages appropriate drug utilization in chronic disease states and improves the quality of care for members. Similar to the Adherence program, the Gaps in Care program incorporates medical claims data that allows identification of members with

a chronic disease state (cholesterol, depression, diabetes, hypertension, respiratory, and epilepsy) who are at the highest risk of suffering a future adverse medical event. These high risk members gain the greatest benefit from using medications to treat their condition, as supported by the medical literature. The pharmacy claims of these high risk members are then evaluated to identify members who have a gap in care (i.e., are not currently receiving a recommended medication for their chronic disease state). If a gap in care is identified for a member, their physician can be sent a letter to encourage appropriate medication use. The goal of this program is to increase appropriate utilization of prescription medications and may result in increased pharmacy spend. However, reporting for this program will also evaluate medical cost avoidance, in addition to closure of gaps in care.

Continuity of Care
The Continuity of Care program is designed to supplement existing step therapy programs. The objective of the program is to identify members who have not filled a pharmacy claim for a chronic disease medication subsequent to having a prescription claim reject for failure to meet step therapy requirements. For those members who have failed to fill a prescription for the targeted drug or a suitable alternative, we can provide follow-up outreach to the physician. The goal of the program is to ensure that members are not walking away from therapy due to a step therapy program and to increase the utilization of chronic disease medications as appropriate.

a. Drug Utilization Reviews - retrospective, concurrent and prospective.

BCBSND and Prime offer drug utilization review (DUR) services including retrospective, concurrent, and prospective as described below.

Retrospective Drug Utilization Review
Retrospective drug utilization review (DUR) programs are designed to manage drug utilization and identify potential misuse and abuse. Potential intervention opportunities are identified by reviewing medical and pharmacy claims history for specific aberrant prescribing patterns in targeted diseases such as asthma, depression, and hypertension. Physicians and/or members are then targeted for an intervention to encourage more appropriate utilization.

The retrospective DUR program, rooted in evidence-based medicine and national guidelines, provides enhanced value to clients and members; we offer numerous retrospective DUR programs through our GuidedHealth platform. Multiple programs can be run at the same time and the actionable clinical intelligence can be summarized to the prescribing physician in one “Health Guide” aggregated at the member level. Quarterly reports are provided showing not only the number of drug therapy problems identified, but also the number of engagements and outcomes/savings.

Concurrent Drug Utilization Review
The concurrent DUR program screens prescriptions at the point of sale for potential drug problems. If a DUR edit flags a claim in the claims system, a message is displayed online for the pharmacist to identify the potential conflict before the member receives the medication. Concurrent DUR edits categorize potential interactions by severity, onset, documentation, and if the drugs were dispensed from the same pharmacy and same prescriber. Each of these categories has multiple layers and each combination can be attached to a unique response. This is particularly effective for member interventions.

The pharmacist then explains the message to the member and, if applicable to the benefit design, the prescription is denied for coverage. Most concurrent DUR edits, however, are set as informational only in which pharmacists use their professional judgment in dispensing medication.

Prime complies with NCPDP specifications for online DUR and supports all available Medi-Span concurrent DUR edit modules. Medi-Span classifies drug interaction severity based on drugs. The claims system can store multiple messages for handling edits (i.e., override allowed). Receipt of the messages is based on capabilities of the pharmacy software.

Concurrent DUR Screening Categories
Concurrent DUR edits fall into standard screening categories, under which there are multiple edits based on individual drugs. Edits include:

- **Drug-to-drug interaction** – Checks for interaction between drugs based on the sensitivity level of the interaction
- **Drug –to-gender caution** – Identifies contraindications based on a member's gender
- **Duplicate therapy** – Checks for use of multiple drugs from the same therapeutic category
- **Duplicate prescription** – Checks for ingredient duplications (based on exact Generic Product Indicator)
- **Drug-to-age caution** – Identifies contraindications for specified age groups. A priority level may also be specified based on contraindication
- **Dosage/duration** – Compares the dosage on the claim to the recommended dosage for the member's age group and then determines whether to send a response*
- **Drug regimen compliance** – Checks to make sure the member is not underutilizing a drug. Reviews member claims history to determine if he or she has received the same drug and if he or she is receiving the new refill within a certain number of days since it was last filled
- **Drug-inferred health state** – Determines if the submitted drug or a profile drug conflicts with inferred health state (e.g., pregnancy)
- **Additive Toxicity** – Calculates the daily dose of acetaminophen across all active prescriptions and identifies claims above the FDA maximum dose.

** If a claim exceeds the established threshold of a category, it will be rejected and return a message instructing the pharmacist to verify the quantity or days supply.*

All participating network pharmacies, including PrimeMail, access the same claims system, online and in real time, for concurrent DUR. Whichever pharmacy a member uses that transaction becomes a part of his or her complete profile. Claims are checked against the current and comprehensive profile for each member.

Prospective Drug Utilization Review
We view prospective DUR as a combination of clinical programs for member education and appropriate use of medications. We have many prospective and proactive programs in place to ensure members are on appropriate drug therapy with varying levels of engagement. These include the following programs:

- **Prior authorization** – designed to effectively manage high-cost medications that have an actual or significant potential for misuse, overuse, or inappropriate use and that could be of clinical, economic, or safety concerns (or a combination of these).
- **Step therapy** – takes a "step" approach to providing members a drug to help treat their condition. This means that members may first need to try a first-line drug before coverage is provided for a second-line drug. A first-line drug is usually a generic drug (or preferred brand if generics are not available) and represents a more cost-effective alternative for the member and NDPERs.

- **Quantity limits** – promotes safe and effective drug use and reduce waste by limiting certain prescriptions to a pre-determined quantity limit or duration
- **Concurrent DUR** – provides point-of-sale messaging to the member and pharmacists regarding potential drug problems (e.g. drug disease interaction, high dose, drug-age interactions)

Other strategies focused on ensuring members are taking appropriate medications include:

- **Member education collateral** – online resources and webinars are available for specific drug categories via our web site
- **Formulary management** - our Clinical teams and P&T committee evaluates every drug for our formulary including assessing safety and efficacy

Additionally, our clinical staff continually monitors industry intelligence regarding the most likely scenarios for patent expirations and generic launches; we can help NDPERS anticipate changes to generic utilization rates and identify new program opportunities. Further, we track industry intelligence regarding the most likely scenarios for anticipated new drug releases and OTC switches. We use all of this information to forecast trend and to look for opportunities to change or implement clinical programs.

b. Disease Management

Prime partners with BCBSND to provide pharmacy support to Health Risk Management programs. In addition, BCBSND and Prime's Retrospective DUR program, Adherence Program and Efficiency Program provide components of disease management in order to help increase the quality of life for members. These can be used as stand-alone pharmacy programs or in conjunction with other BCBSND disease management programs.

Retrospective DUR
BCBSND and Prime's retrospective DUR programs identify potential intervention opportunities through medical and pharmacy claims history for specific aberrant prescribing patterns in targeted diseases, including asthma, high cholesterol, depression, diabetes and hypertension. This information is used to target physicians and/or members for an intervention to encourage more appropriate utilization.

Each retrospective DUR is unique and the method used to identify opportunities for intervention depends on the specific goal of the program. Typically, the intervention method is a prescriber mailing. DUR programs are generally conducted on a quarterly basis.

Adherence Program
BCBSND and Prime offer an Adherence Program to support drug adherence and improve the quality of care for members. This program provides standard adherence reporting in the following five drug categories:

- High blood pressure
- High cholesterol
- Depression
- Diabetes
- Respiratory disorders

The program can be expanded to include additional information from medical claims data that allows detection of diagnosed members not receiving therapy.

An analysis of pharmacy claims data reveals a medication possession ratio (MPR), which provides an accepted measure of whether a member is taking his or her medication on a regular basis based on several factors (e.g., prescription fill dates, number of days supply). The Adherence Report then charts client-specific data on the MPR rates of an entire member population taking a particular medication.

The Adherence Report may reveal good adherence, defined as 80 percent compliance or better, among NDPERS members, whereby intervention may not be required. If an adherence issue is identified, the member and/or physician can be sent a targeted letter designed to improve adherence. Adherence reporting and information are sent on a quarterly basis.

Efficiency Program
BCBSND and Prime offer a pharmacy solution to contain costs while preserving quality through the Efficiency Assessment, which uses total health care costs to guide pharmacy benefit management decisions. Using an integrated medical and pharmacy risk stratification tool, an Efficiency Report is produced that stratifies member utilization by risk within each core drug category. This report provides an efficiency ratio with a marker for NDPERS to see the proportion of pharmacy dollars spent to treat high-risk members.

The efficiency assessment provides a single metric demonstrating how efficiently NDPERS is spending pharmacy dollars within the targeted core drug category. Goal number and desired outcomes are tailored specifically to NDPERS. The Efficiency Report and the efficiency ratio metric assist NDPERS in deciding which pharmacy management programs and benefit designs are most appropriate.

Medication Therapy Management Program
BCBSND provides NDPERS with the unique advantage of medical and pharmacy benefit managers working together in ways that a typical pharmacy "carve-out" program does not provide. BCBSND and Prime focus on pharmacy management in the context of total health spend, which means pharmacy is leveraged to positively impact medical outcomes. Understanding total health spend — the inter-relationship between pharmacy costs and medical costs — helps BCBSND better manage NDPERS' benefits.

BCBSND and Prime provide additional data integration for prescription and medical claims through our Medication Therapy Management program (MTM). MTM is defined as taking an active role in supporting members and working with pharmacy providers and prescribers. The proposed program has five major components:

- A clinical rules engine that can apply clinical rules and define gaps in care
- The gaps in care can be stratified into low/medium/high-risk levels
- A rich workflow application that can manage all of the activities (i.e., develop and send action plans), as well as monitor the results of any interaction
- The ability to send results (e.g., gaps in care) electronically or by letter to a provider or other host system
- Ability to deliver activity reports and show return on investment results

28. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

Yes, BCBSND's and Prime's retrospective DUR programs work by identifying potential intervention opportunities using all claims. Medical and pharmacy claims history are reviewed for specific aberrant prescribing patterns in targeted diseases. Physicians and/or members are then targeted for an intervention to encourage more appropriate utilization.

Through GuidedHealth, we can perform retrospective DUR on any level of claims as defined by NDPERs. For instance, 85 percent of Prime's book of business utilizes the retrospective DUR program.

Retrospective DUR programs are reviewed as needed, but at least quarterly, by Prime's Clinical department on BCBSND's behalf, for possible changes or enhancements. In addition, the program portfolio is reviewed annually and new programs are added (generally 2-4 per year) and some may be deleted if no longer relevant or if there is lack of use.

29. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	2013	2014 YTD
Book of Business			
Generic Utilization Rate	78.3%	80.9%	**82.7%**
Generic Substitution Rate	97.8%	98.1%	**98.2%**
North Dakota			
Generic Utilization Rate	77.7%	80.4%	**82.2%**
Generic Substitution Rate	98.1%	98.5%	**98.5%**

1.9.3 Trend Analysis

30. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:

a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs.

b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers.

c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.

Confirmed. BCBSND and Prime have new reporting that will be available to NDPERS in 4Q 2014. These reports include an executive summary, information on specialty utilization and drug spend, non-specialty utilization, generic utilization, distribution channel information, a ranking report, and a series of summaries. A sample of this Employer Group Report (EGR) package is included as Attachment 17 – Pharmacy Reporting.

All reporting will continue to provide a variety of quarterly and annual reports that outline NDPERS member utilization at both PrimeMail and Prime Specialty Pharmacy for mail order and specialty drug usage, highlighting performance, statistics, and key trends. Your specific goals will be assessed against the metrics contained in these reports, to ensure that all objectives are met.

Group Summary Reports
Group summary reports illustrate NDPERS' plan performance related to cost, ingredient cost, utilization, clinical, and payment trend. Group summary reports include the following information:

- Brand and generic utilization
- Cost, utilization and PMPM amounts
- Basic statistics

- Prescription costs
- Total trend by period cost and utilization components
- Total paid trend
- Top 20 therapeutic classes by drug spend

Additional Report Options
We can also provide you with the following reports depending on your specific needs:

- Member Prescription History
- Top Drugs by Brand Name
- Drug Market Share
- Top Drugs by Label Name
- Top Therapeutic Classes

Benchmark Reports
As we have previously done with other Benchmark Reports provided to NDPERS, we assess the three components that drive trend (inflation, utilization, and drug mix). Our clinical programs are positioned to impact utilization and drug mix while inflation is impacted by programs for retail networks, 90-day utilization, and formulary adherence. Benchmark data is analyzed to assist you in the selection of clinical programs to positively impact trend for all drug spend or by therapeutic category.

Generic Opportunity Reports
With our Generic Opportunity Reports, we can help you analyze current generic utilization, target a specific growth strategy, and map out the benefit plan changes to help to continue to meet your goals. Using a unique predictive modeling tool to identify and prioritize generic potential with each therapeutic category, a Generic Opportunity Report is generated, providing the following:

- Generic drug spend overall
- Generic drug spend by the core therapeutic categories
- Average costs for generic and brand-name prescriptions by category
- Generic target ranges (low, medium and high, by category)
- Estimated potential cost savings by generic threshold (by category and in total)

As you know, generic utilization opportunities can differ significantly by therapeutic category. Ranges for each category are set based on the availability of effective generics combined with the benchmark assessment of many plan sponsors. For many diseases and conditions, several effective generic options exist while few or no generics are yet available for other conditions. The availability of multiple generics in the same category can lower costs even further. NDPERS can continue to select a category or categories for Prime to focus on, of which we will design a strategy to help you move from point A to point B.

Specialty Program Reporting
As you have experienced as a Prime Specialty Pharmacy client, our comprehensive specialty program has a broad array of specialty reports including specialty spend and utilization reports, which provide the critical ability to analyze overall performance and individual components of specialty services.

Examples of specialty reports include the following:

- Demographics for specialty members
- Quarterly spend by benefit
- Total pharmacy and medical spend

- Spend by disease category
- Specialty category trends
- Specialty utilization
- Top 10 prescribers
- Medication adherence

31. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

Prime's consulting analytics staff works closely with pharmacists in Prime's Clinical department to produce benchmark statistics and savings reports that are meaningful to NDPERS. By using your claims data, we provide trend reports that include the following information:

- Drug and financial trends against Prime's book of business
- Trends by specific employer groups
- Line of business for cost drivers (e.g., top drugs, top therapeutic classes, most prescribing physicians, highest cost members, etc.)
- Annualized and quarterly trends
- Quarterly ranking by cost, volume, and PMPM line of business
- Open, closed, and tiered formulary/copay design comparison

See Attachment 17 for Pharmacy Reporting.

Pharmacy benchmark data is included in year-end performance reports where it is important to measure key performance statistics at a high level. Prime's trend assessments are clinically informed and include both Traditional and Specialty Trend assessments, focusing on the top therapeutic categories in terms of drug spend and opportunity for change. In addition, any specific drugs of interest can be analyzed.

Prime also publishes an annual report on pharmaceutical industry trends and topics that specifically reports drug trend analyses for Prime's commercial book of business and relevant industry information that is used directly to diagnose your specific trend. Examples of topics provided include key drivers of trend, drug development pipeline, new drugs, patent expirations, affects on high cost therapeutic categories, and modeling of select therapeutic class trends.

The following table identifies examples of year-end performance reports that are available to you as clients of BCBSND and Prime:

Name of Report	Frequency Provided	Purpose of Report
Financial Summary	Quarterly/Year-end	This section includes information for the previous six months on drug ingredient charges, drug ingredient allowances, dispensing fees, subscriber liability, plan paid amount, and plan savings.
PMPM Utilization	Quarterly/Year-end	This graph illustrates the number of prescriptions paid and the dollar amount paid for the previous six months.
Plan Paid PMPM	Quarterly/Year-end	The graph depicts how much the plan paid on a PMPM basis.

Name of Report	Frequency Provided	Purpose of Report
Brand/Generic Drug Utilization	Quarterly/Year-end	This analysis shows you the percentage of multi-source medications being dispensed and breaks them out by generics, physician DAW, and member DAW. We will provide recommendations based on the utilization.
Formulary Compliance Rates	Quarterly/Year-end	This report illustrates your formulary compliance rate over the past six months and provides a clinical summary of high-cost and high-volume prescriptions.
Member Demographic Profile	Quarterly/Year-end	This graph compares the age and gender composition of your plans to the Prime average and shows how your composition affects utilization.
Top 20	Quarterly/Year-end	This graph shows top 20 lists by: ▯ Therapeutic class by volume ▯ Therapeutic class by cost ▯ Brands ▯ Generics

1.9.4 Specialty Drug Program

32. **Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs in Appendix D.**

As your specialty drug pharmacy vendor, all components of the Prime Specialty Pharmacy are integrated, providing NDPERS with a convenient specialty pharmacy solution that supports a goal of keeping specialty medicines affordable, delivering a superior member experience, and leveraging unique connections while balancing the real-world financial and logistical considerations affecting you and your members.

Together, BCBSND and Prime have been providing NDPERS with a connected specialty drug management program that focuses on total cost management, clinically-powered decisions, and superior specialty pharmacy and member care. We are proud to continue to provide you with a comprehensive approach to specialty drug management that spans both medical and pharmacy benefits.

Three core capabilities have helped NDPERS receive a solid foundation for your specialty drug management program:

- **Total cost management** – We work across the medical and pharmacy benefit divide with the goal of lowering the total cost of care, not just pharmacy costs. Our integrated model also gives us greater buying power. And we use it every day — along with direct manufacturer contracts — to secure better discounts, and lower ingredient and program costs.
- **Clinically powered decisions** – Our decisions are driven by clinical facts. Our focus is on NDPERS members and we encourage them to take their medicines safely, the way they were prescribed — which leads to better outcomes and greater peace of mind.

- **Superior specialty pharmacy and member care** – Prime Specialty Pharmacy provides NDPERS with a simpler way to get the medicine you need affordably, as well as coordinated care, specialized education and access to experts any time, day or night.

In addition, BCBSND and Prime continue to focus on specialty drug costs across the medical and pharmacy benefit, providing the following value:

- Improved member safety, adherence; better health outcomes
- Coordination of care across member, doctor, pharmacist and care teams
- Education and support to manage condition that promotes better health, reduced absences and improved employee productivity
- Affordable medicine and lower out-of-pocket costs
- Reduced prescription-related doctor burden, making it easier for doctors to provide care
- Eco-friendly packaging that costs less to mail, ship and store, and regulates temperature better than foam packaging
- Decisions that are grounded in clinical research
- Consultation from reputable clinical experts
- Improved safety and adherence and better health outcomes
- Better discounts, lower ingredient cost and program costs
- Direct contracts with rebate manufacturers
- Access to limited distribution drugs

We have included a Specialty Drug Fee Schedule in Appendix D2.5

Specialty Pharmacy Achievements – Savings
In 2013, Prime realized nearly $400 million in savings related to Specialty Drug classes via programs and services, when looking across our commercial book of business. On behalf of their Blue plan clients like BCBSND, Prime is able to recognize and quantify savings from utilization management programs, manufacture revenue and specialty pharmacy discounts for each specialty category, including the following: Autoimmune, Multiple Sclerosis, Growth Hormones, HIV, Cancer-Oral, Hepatitis C, Pulmonary Hypertension, Fertility & Pregnancy, Hemophilia, Immune Globulins, Anticoagulants, Blood Modifiers, Nausea & Vomiting, Lung Disorders, Cystic Fibrosis, Enzyme Deficiencies, Visco Supplements, Cancer-Injectables, and other high cost drugs.

Prime tracks and reports savings from utilization management programs (prior authorization, step therapy, quantity limits) by assessing the ongoing (post-implementation) differences between plan-paid costs, PMPM costs, and utilizing members, and comparing these with baseline (pre-implementation) and benchmark data for the specific drugs involved in the UM program.

In addition, Prime Specialty Pharmacy was recently given an honorable mention by Specialty Pharmacy Solutions for its coupon/patient assistance program (PAP) optimization program which saved $21.2 million in member costs in 2013. For the benefit of both the member and the client, we believe that including coupon/PAP optimization is an important part of our specialty drug management services.

Specialty Pharmacy Achievements – Positive Clinical Outcomes
An example of a successful return on investment for NDPERs is the joint effort of BCBSND and Prime Specialty Pharmacy's Oral Oncology Management Program. This has provided a higher level of member care for NDPERS members than other programs on the market through a split fill program focused on high-cost therapies that are poorly tolerated. When therapy begins, the member will receive a partial fill, (typically 16 days of a 28 day

cycle) with a pro-rated cost share amount. Before completion of the partial fill, the clinical team engages with the member to assess tolerance and continued course of treatment. If there are serious side effects, an alternative plan of action is coordinated along with the physician, improving outcomes, preventing waste and avoiding unnecessary costs for the member and the plan.

Additionally, care management services identify members at risk for depression. Depression is recognized as a predictor of overall outcomes and our nurse assessments identify members at risk. Once identified, the care managers notify the health plan for further assessment. Program benefits include:

- **Optimized member and clinical management** – Through clinical protocols that are executed at pre-determined intervals during the member's medication therapy, adverse events are recognized early, and NDPERS members are provided access to valuable clinical support between physician visits to address therapy adherence issues including regimen compliance and persistency.
- **Enhanced physician support** – It is not uncommon for physicians to have concerns about a member's ability to take oral oncology medications as prescribed, recognize a medication side effect, or seek medical attention when experiencing an adverse reaction. This program offers supplemental clinical expertise and enhanced communication with physicians throughout the member's medication regimen. Physicians are contacted when required by protocol focusing on member adherence, adverse reactions, or side effects experienced. Details including the Medication Possession Ratio (MPR) while the member was on therapy, interventions performed, and the date that therapy was started (and discontinued) can also be provided.

Compound Drug Management
Prime has been at the forefront of compound drug management, including presentations at different industry fraud groups over the past couple of years. Since February 2013, pharmacy credentialing practices have been enhanced and, throughout 2014, clients have been closely advised on benefit design options that have led to a significant reduction in compound costs.

Compound Drug Pricing Process
Compound drugs are priced online at the point of sale and in compliance with HIPAA transaction standards known as D.0 from CMS and NCPDP. With D.0, each ingredient has to be submitted in the claim, allowing up to 25 ingredients per compound claim.

By using multiple ingredients, the claims system considers all submitted ingredients and associated costs when processing and pricing the claim. Processing compound drugs as multiple ingredients also allows greater precision in determining what is covered. For example, a compound drug that contains ingredients in which the FDA has evaluated as less than effective, the claims system can deny a compound drug that contains such an ingredient. The compound claim is then reimbursed at the negotiated contract rate for compound medications.

In addition, to ensure costs are not inappropriately inflated, we offer NDPERS members a compound management strategy with the following additional levers:

- **Strong network credentialing:** we contract with and hold retail network pharmacies to high standards, including credentialing criteria and NCPDP national claims processing standards as well as compliance with state and federal laws.
- **Compound pricing compliance:** this is measured through the comprehensive pharmacy audit program, which includes a daily (pre-payment) claims review, quarterly audit profile, on-site audits, and desktop audits. In addition, pricing of compound drugs is reviewed during quarterly claims profile audits.

- **Benefit strategies:** We will continue to work with NDPERS on specific benefit strategies to best meet your needs; for example, a "reject" list.
- **Claims system edits:** Several claim system edits are in place to ensure each compound claim is priced correctly and does not exceed cost limitations. In addition to basic benefit exclusions (e.g., cosmetic drugs, etc), there are also certain classes of drugs that will not be covered as part of a compound including but not limited to opioid pain medications, erectile dysfunction medications, antibiotics, weight loss agents, and anticoagulants. We also have back-end audit processes in place to review compound claims. All compounds may be subject to review and approval.

1.9.5 Network Accessibility and Disruption

33. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?

Pharmacies are considered for inclusion in our network in several ways. For instance, NDPERS and your members can request network pharmacy additions by contacting your BCBSND Account team or by sending an email through MyPrime.com.

Prime also receives requests for pharmacy additions from various other sources including:

- Non-participating pharmacies
- Prime's analysts who identify a non-participating pharmacy that has significant utilization for NDPERS. We identify these particular pharmacies for solicitation into the network by matching Quest Analytics Suite (Geo) graphical locations of NDPERS members with available pharmacies that are not yet participating
- Prime utilizes the NCPDP pharmacy database to identify any newly opened pharmacies nationally.

Once identified for possible addition to the network, Prime sends the pharmacy an application within two business days. The application requests the pharmacy to complete the following steps:

1. Complete the credentialing application
2. Provide copies of current DEA license, state pharmacy license, location information, insurance coverage, and pharmacist's license(s)

The completed credentialing application is verified by the Credentialing staff and if the pharmacy meets the credentialing criteria, a Pharmacy Participation Agreement is sent to the pharmacy.

Once an agreement is in place, the pharmacy is typically added within five to seven business days of receiving an executed contract. Once a pharmacy is contracted, the pharmacy is provided with a Pharmacy Provider Manual (also available on Prime's corporate web site for pharmacies). The manual contains policies, procedures, and expectations of network pharmacies.

34. Indicate which major chain stores are not included in your proposed network for NDPERS.

Not applicable. All major pharmacy chains are included in our broad, national network, utilized by NDPERS.

1.9.6 Medicare Part D

Prime is able to provide Medicare Part D services; however, this bid is specifically geared toward commercial members, therefore the questions below in section 1.9.6 are not applicable.

35. **Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. 800-Series EGWP, Direct-Contract EGWP).**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

36. **How many EGWP plans does your firm manage?**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

37. **How many members participate in the EGWP plans that you service?**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

38. **Describe how Out Of Pocket ("OOP") and True Out Of Pocket ("TrOOP") expenses are applicable to EGWP PDP Participants for 2014 and the differences, if any, that can be expected in 2015 and beyond.**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

39. **Describe your understanding of the restrictions placed on EGWP + Wrap plans by CMS.**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

40. **Please describe the Part D enrollment process under your PDP: Are you able to automatically group-enroll members into Medicare Part D?**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

41. **Please describe your Part D disenrollment process for both voluntary and involuntary disenrollments.**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

42. **Please describe the Part D enrollment process under your PDP: Are there differences for members who "aged in" to Medicare while enrolled in your plan, and members who are Medicare-eligible when they first enroll in your plan?**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

43. Describe the changes in the plan design described herein, if any, that would be required to maximize collection of all available subsidies, reinsurance, discounts or rebates.

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

44. Describe your systems capabilities that allow coordination of benefits between Medicare Part D and a "wrap-around" plan at the point of sale. How is this handled for members who are enrolled in another Medicare Plan with a different PDP?

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

45. How often do you review the formulary under your Medicare plans?

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

46. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are the members identified, and how are they informed of their enhanced benefits?

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

47. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are these members reported to the plan sponsor?

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

48. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How often are premium refunds issued to the plan sponsor?

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

49. Provide a copy of the proposed GWP formulary.

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

50. Describe the processes to collect funding from the following sources the EGWP PDP, including the timing and frequency with which such funds would be submitted to PERS.

- **a. Direct Subsidy**
- **b. Coverage Gap Discount Program**
- **c. Catastrophic Reinsurance**
- **d. Low Income Cost Share Subsidies**
- **e. Low Income Premium Subsidies**
- **f. Manufacturer Rebates**

Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

1.10 PBM Financials

51. **Bidder confirms the use of Medispan or another nationally available and nationally recognized reporting service of pharmaceutical drug information in determining the classification of drugs (e.g. legend vs. over the counter, generic vs. brand, single source vs. multisource) for the purposes of plan adjudication and the calculation of discount and rebate guarantees.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

52. **Bidder confirms that the discount guarantees proposed represent Medi Span/ First Databank post-settlement pricing.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

53. **Bidder confirms that for the purposes of reconciling guarantees, proposed AWP discount will be applied to each claim individually and shall not mean "Average AWP" nor "Effective AWP"**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed. All pharmacy guarantees are reconciled annually and applied in aggregate rather than at the individual claim level.

54. **Bidder confirms Zero Balance Due claims will be reconciled at the guaranteed AWP component discount and shall not be counted as AWP-100%**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

55. **Bidder confirms members will pay the lowest of the copay, "Usual and Customary" (U&C), or discounted ingredient cost plus dispensing fees at retail/mail.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

56. **Bidder confirms that specialty pricing will include ingredient cost discounts by drug with a minimum effective discount guarantee for all brand specialty drugs and a minimum effective discount guarantee for all specialty generic drugs.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Not Confirmed. Specialty pricing for claims fulfilled through Prime Specialty Pharmacy will be guaranteed at an NDC 11 level, based on the attached fee schedule and NDPER election of exclusive or non-exclusive Specialty fulfillment through Prime Specialty Pharmacy. Specialty claims fulfilled within the retail network will be processed based on the contracted rate with the member selected pharmacy provider.

As an alternative Specialty pricing arrangement, BCBSND has provided the flexibility of offering an aggregate specialty guarantee with NDPER election of an exclusive specialty pharmacy arrangement through Prime Specialty Pharmacy. Details of this alternative specialty pricing guarantee are detailed in Appendix K.

57. Bidder confirms that pricing for Specialty Drugs added to the list on or after the date the proposal is submitted will not automatically default to a minimum discount in the therapeutic class.

a. Confirmed

b. Not confirmed, see explanation

Not confirmed. BCBSND and Prime do not typically provide guarantees for new specialty drugs that enter the market as these are dependent on pharmacy negotiations. Any new specialty drug that comes to market and is dispensed from Prime Specialty Pharmacy will be priced at a standard default rate until Prime has negotiated a different rate (which happens when the drug is added to the specialty list).

58. Bidder confirms that generic discount guarantees include the combined MAC and non-MAC pricing

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

59. Bidder confirms retail and mail discount guarantee calculations should exclude specialty/biotech drugs, compound drugs, and vaccines.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

60. 60. Bidder confirms that overages in any financial guarantee may not be used to offset any shortfalls in another financial guarantee. This includes guarantees within the same delivery channel (e.g.: surplus in retail brand discount will not be used to offset shortfall in retail generic discount)

a. Confirmed

b. Not confirmed, see explanation

Not confirmed. Guarantees will be reconciled annually and applied in aggregate.

61. Bidder confirms that dispensing fees proposed are per claim maximums and not averages.

a. Confirmed

b. Not confirmed, see explanation

Confirmed. For illustrative Traditional (Spread) pricing arrangements, dispensing fees proposed are per claim maximums and not averages. Alternatively, pass through offers are characterized by dispensing fees that can vary from pharmacy to pharmacy and between claims. Pass-through dispensing fee guarantees are representative of effective averages.

62. Bidder confirms proposed financial guarantees are not tied to aggregate days' supply utilization at retail or mail (e.g., rebates will not be impacted if the aggregate retail day supply at the end of the reconciliation period is 23 days instead of 30 days).

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

63. Bidder confirms that after two years of the contract, PERS will have the right to solicit pricing from the market. Should the results indicate a 2% improvement opportunity; PERS will have the opportunity to re-negotiate pricing.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

64. Bidder confirms postage increases will not be passed on to PERS.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

65. Bidder confirms that MAC pricing will be applied to generics dispensed at mail.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

66. Bidder confirms proposed MAC list includes minimum of 95% of all generic drugs.

a. Confirmed

b. Not confirmed, see explanation

Not confirmed. The MAC list is not maintained to ensure a threshold of drugs. BCBSND and Prime have criteria that a drug must qualify before it will be added to the MAC list. Nearly 93 percent of generic claims processed on the pharmacy claims system will be subject to MAC pricing.

67. Bidder confirms that only one (1) MAC list will be used for PERS at retail and mail.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

68. Bidder confirms that drug status as "Multi-Source Brand", "Single-Source Brand", "Brand Drug with Generics", and "Generic" will be used based on Medi-Span indicators.

a. Confirmed

b. Not confirmed, see explanation

Confirmed.

69. **Bidder confirms that all "Generic" drugs will be included in the "Generic Discount Guarantee" for purposes of guarantee reconciliation (this includes all "Single-Source Generics", generics with limited availability, and generics that are subject to patent litigation).**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed. As it relates to our ASO Transparent (Pass-through) proposal, BCBSND and Prime confirm that all "Generic" drugs (Single source, dual source, tertiary source, etc) will be included in the "Generic Discount Guarantee" for purposes of guarantee reconciliation. Any drug determined to be in short supply based on published sources (including the FDA and ASHP websites) will be excluded from our guarantee. Also, unexpected generic launches, and products launched at risk or under patent litigation are excluded from our guarantees.

    For "illustrative" Traditional pricing a generic drug is defined as a drug with more than 3 generic manufacturers, and not in an exclusivity period.

70. **Bidder confirms they are currently certified by CMS as an EGWP Administrator**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Not applicable. Prime is submitting a proposal response for the NDPERS commercial population only.

1.11 Economy to be affected

71. **Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?**

    BCBSND is headquartered in Fargo, ND. Most of the work for this contract will be done in our home office. In addition, we have eight regional sales and service offices throughout the state that are available to NDPERS members as needed.

72. **Please identify the number of employees you will employ in North Dakota pursuant to this contract.**

    BCBSND employs over 800 employees in the state of North Dakota to service our 500,000 members. NDPERS represents over 62,000 of our members or about 12 percent of our book of business.

73. **Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will spent outside the state.**

    BCBSND does provide account management and limited customer service through our North Dakota based employees, 60% remains in ND. With 40% of the work specific to the Part D program being done outside of the state of North Dakota. .

1.12 Fiduciary Responsibility

74. **Confirm your organization will assume full fiduciary responsibility for claim determination.**

    Confirmed

    BCBSND will serve as the claim fiduciary for this Self Funded Agreement.

Appendix L:
PBM Questionnaire – CVS Caremark

Appendix L:

PBM Questionnaire – CVS Caremark

Please refer to Attachment 22.

Due to size please refer to Electronic CD for:

- CVS/Caremark's SSAE 16 under file name – SSAE16 Report (04-01-2013 to 03-31-2014).pdf
- CVS/Caremark's Annual Report under file name – CVS+Caremark=2013+10-K=Report.pdf
- CVS/Caremark's Formulary Drug List under file name – Formulary+drug+List+01012015.pdf

In order for your proposal to be considered and accepted, your organization must provide answers to the questions presented in this section. Each question must be answered specifically and in detail. Include both the question and the answer in your proposal response. An electronic copy of this questionnaire has been provided to facilitate your response.

Reference should not be made to a prior response unless the question involved specifically provides such an option. Proposers should refer to the earlier sections of this RFP before responding to any of the questions, to ensure that you have a complete understanding of the requirements with respect to your organization's proposal.

Vendors may include additional information that you consider relevant or useful to NDPERS. However, responses to all of the questions set forth below must be provided.

NDPERS is interested in evaluating financial arrangements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of this Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements. **When answering questions and completing exhibits related to your financial proposal, please indicate if your answer would differ under a transparent or a traditional pricing arrangement.** NDPERS will give greater preference to transparent proposals.

If this proposal results in your company being awarded a contract and if, in the preparation of that contract, there are inconsistencies between what was proposed and accepted versus the contract language that has been generated and executed, any controversy arising over such discrepancy will be resolved in favor of the language contained in the proposal or correspondence relating to your proposal. Vendors are reminded that **any and all deviations must be clearly identified and described in the RFP and the deviations worksheet provided in Appendix F.**

The questionnaire is broken down into the following 10 (ten) categories:

- Organizational Background, Strength, and Experience
- Implementation and Account Management
- Communications and Website
- Plan Administration
- Eligibility
- Customer/Member Service
- Claims Administration
- Reporting
- Case/Utilization Management
- Health Risk Management and Wellness Programs
- Provider Network
- Performance Standards and Guarantees
- Pharmacy Benefits Management Services
- Financials

1.1 Organizational Background, Strength, and Experience

1. **Provide a brief description of your organization:**

   a. Include your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business.

   CVS Health is a pharmacy innovation company that has grown into a Fortune 12 corporation and become the largest integrated provider of prescriptions and pharmacy care in the United States. We have been providing pharmacy benefit management (PBM) services since 1969 via our CVS/Caremark division. Today we serve more than 2,000 clients and their members across all 50 states, Puerto Rico, and the Virgin Islands. Through mail, retail, and specialty distribution channels, we administer programs for a diverse client base, including corporations, managed care organizations, insurance companies, government entities, unions, third-party administrators, and other organizations.

   The following table details key highlights in our history.

CVS HEALTH PBM MILESTONES				
1969-1970s-1980s	1969: Pharmaceutical Card System (PCS) is founded in Scottsdale, Arizona, effectively launching the pharmacy benefit management industry	1978: Baxter Healthcare Corp. pioneers the concept of home infusion for hemophilia patients	1986: A division of Baxter, Caremark opens its first mail service pharmacy in Lincolnshire, Illinois	1987: PCS launches the first online, real-time prescription claims adjudication system
1990s	1992: Caremark spins off from Baxter, develops its own formulary, and introduces Clinical Intervention Programs	1993: PCS distributes the first annual "Clinical Formulary and Prescribing Guidelines" to 385,000 physicians	1995: Caremark launches disease management program	1999: Caremark initiates online prescription refills
2000-2009	2000: Advance Paradigm purchases PCS Health Systems, and the two companies combine to become AdvancePCS	2004: AdvancePCS merges with Caremark Rx, Inc. becoming the second largest PBM in the nation	2007: CVS Corporation and Caremark Rx, Inc. merge, creating the nation's premier integrated pharmacy services provider, CVS/caremark	2008: CVS Caremark Corporation acquires Longs Drug Stores Corporation ("Longs"), which includes Longs' retail drugstores and its Rx America subsidiary

CVS HEALTH PBM MILESTONES				
2010-Present	2011: CVS Caremark purchases the Medicare Part D business of Universal American	2012: CVS Caremark acquires the standalone PDP business of Health Net	2014: CVS/caremark acquires Coram, a specialty home infusion company	2014: CVS Caremark Corporation changes its name to CVS Health and implements nationwide smoking cessation programs.

Retail Network Offering

Our retail network offering provides added convenience to members, by giving them the option to obtain their prescriptions at pharmacies nationwide that currently participate in the CVS/caremark National Network. Additionally, we provide unique services via CVS/pharmacy locations via our Maintenance Choice offering. Our network options provide online, real-time drug utilization review and are managed by CVS/caremark and our networks are designed to balance pharmacy access and client savings.

Mail Service Offering

Our mail service pharmacies and support facilities operate in unison to process and deliver your members' prescription medications as seamlessly and quickly as possible. Our technologically advanced mail pharmacies run in an automated, paperless environment with efficiencies that allow dispensing and shipping from the facility most appropriate for NDPERS members based on several factors, including most efficient prescription order processing time and proximity to a member's desired shipping destination (allowing for a reduced total transit time).

Governed by comprehensive quality assurance standards and Total Quality Management practices, each CVS/caremark mail service processing pharmacy screens every order to identify possible drug interactions or allergies and to promote clinical drug safety and appropriate use. Computerized edits verify member eligibility and plan design compliance. Members will benefit from reduced out-of-pocket expenses; timely prescription delivery; simplified order and refill procedures, with toll-free assistance available from CVS/caremark Customer Care Representatives Registered Pharmacists are available 24 hours a day to answer any questions members may have regarding their prescribed medications.

CVS CAREMARK SPECIALTY PHARMACY

In 1978, CVS Caremark Specialty Pharmacy pioneered the concept of home infusion for hemophilia patients and then we expanded these services to encompass specialized management for more than 70 specialty disease states. We take a high-touch, personalized approach to help improve health and reduce total costs for our clients. We focus on the specific needs of each member and emphasize early intervention, prevention of complications, and management of drug utilization and compliance. These activities are supported by 7,300 staff specialized to support these complex therapies, and our CareTeam model which includes pharmacists, nurses, and dieticians.

Members nationwide receive services provided by our network of specialty pharmacies, access to 7,600 CVS/pharmacy stores nationwide, and availability of our ambulatory infusion suites. We have worked hard to create high-quality, innovative specialty pharmacy services to help maximize control over cost drivers now and into the future. We take into account the entire picture of specialty spend, regardless

of the benefit, site of service, or distribution channel to help each client manage their specialty spend across pharmacy and medical benefits. This includes PBM-like capabilities and management for drugs under the medical benefit, support for all infusion needs via Coram CVS/specialty infusion services, and enhanced nursing services to support comorbidities.

Location

CVS Health's headquarters are located at:

- One CVS Drive
  Woonsocket, Rhode Island 02895.

b. Include the number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves.

In 2014, we cover more than 2,000 clients and provide prescription benefit services to nearly 65,000,000 lives.

Segment	Clients	Lives
Self-insured employers (Non-TPA Coalitions)	880	11,170,000
Federal Government	10	6,370,000
State and Local Government	25	2,990,000
Union Trusts	185	1,720,000
Coalitions & TPAs	700	7,680,000
Employer Subtotal	**1,800**	**29,930,000**
Managed Care Non-Medicaid (health plan)	145	15,650,000
Medicare Advantage and/or PDP	42	6,800,000
Medicaid	90	12,450,000
TOTAL	**More than 2,000 clients**	**Nearly 65,000,000**

c. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).

CVS Health does not anticipate any changes in our organization's basic ownership structure. As a publicly traded company, CVS Health is required to disclose in its filings with the Securities and Exchange Commission ("SEC") any planned changes in the ownership. CVS Health's SEC filings can be found at http://investors.cvshealth.com/financial-information/sec-filings.aspx.

2. **Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.**

Please refer to CVS Health's 10-K, which details our financial stability in Attachment 22.

CVS/caremark's bank reference is:

Bank of America Merrill Lynch

Darryl B. Heath AVP, Dedicated Service Director

100 West 33rd Street

New York, NY 10001

Email: darryl.b.heath@bankofamerica.com

Office: (888)-715-1000, Ext. 3-5813

Fax: (404)-532-3151

CVS Health's 2013 10-K was audited by the Independent Registered Public Accounting Firm Ernst & Young.

Please refer to CVS Health's 10-K, which details our financial stability in Attachment 22 – Annual Statement.

3. **Provide a copy of any State or Federal regulatory audit performed within the last two years.**

   CVS/caremark's SSAE 16 (formerly SAS 70) review takes place twice per year, the first covers the 12 months ending on March 31, and the second covers the 12 months ending September 30.

   A copy of the report has been provided in Attachment 22. This report includes a confidentiality agreement, which must be accepted in order to view.

4. **Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the Minimum Contract Provisions in Appendix 1**

   BCBSND is accountable for everything stated in and submitted as part of our proposal, even if not specifically addressed in the proposed sample minimum contract provisions.

5. **Indicate whether your company has ever been or is currently a party to litigation regarding a pharmacy benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.**

   Legal actions involving CVS Caremark include, without limitation, business disputes, contract disputes, employment disputes, and professional liability claims. We have included our 2013 10-K in Attachment 22 – Annual Statement which details any material litigation matters or investigation(s) of CVS Caremark.

6. **State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.**

   Legal actions involving CVS Caremark include, without limitation, business disputes, contract disputes, employment disputes, and professional liability claims. We have included our 2013 10-K in Attachment 22 – Annual Statement which details any material litigation matters or investigation(s) of CVS Caremark.

7. **Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.**

   The health care landscape is changing rapidly, and we recognize the need to continually invest in an advanced operating environment to be ready for the demands of this dynamic environment. This is why CVS Health invests approximately $2.0 billion per year across

the enterprise in new retail stores, company operations, technology and programs. Recent examples of investments in the PBM include: our new state of the art mail service facility, technology enhancements, and other innovative programs.

As a company that is ranked 12th on the 2013 Fortune 500 List, our corporate investment strategy also contemplates the health care evolution, which is why we continue to make significant investments in the following areas:

- **Unlock the value of adherence.** Our investments in clinical capabilities, including our Pharmacy Advisor Counseling program, have enabled us to improve member health and lower total costs for our customers. While this value is an integral part of our proposal to NDPERS, we believe we have only begun to unlock adherence-related value for our clients, and continue to invest accordingly.
- **Extend our specialty capabilities into the medical benefit.** Our specialty capabilities have been highly effective in helping our clients manage specialty drug spend while promoting medication persistency for members.
- **Connect and engage physicians.** In conjunction with our clinical programs, we are making complementary investments to support physician engagement and to encourage industry-wide connectivity that makes the right member-specific information available to the health care provider for evaluation and action.
- **Engage members through digital strategies.** We continue to invest in digital capabilities to better engage members, utilizing our enterprise-wide member touch points.
- **Establish a seamless experience for clients and members.** Our aim is to create a seamless experience, helping to ensure that clients and members receive exceptional service from implementation through benefit access and reporting.

B. Unlocking the Full Value of Adherence

Our prior investments in clinical capabilities, including our Pharmacy Advisor solution, have enabled us to improve member health and lower total costs for our customers. This value is an integral part of our proposal to NDPERS. However, we believe we have only begun to fully unlock adherence-related value for our customers, and we continue to invest in the following ways:

1. Develop advanced analytic and predictive modeling capabilities to better target members with the most impactful outreaches for adherence improvement
2. Expand the channels through which we deliver adherence messages to members (e.g., MinuteClinic, non-CVS pharmacies) and broaden the types of messages we can deliver to the member on your behalf (e.g., pharmacist counsel to a member with diabetes who is missing HbA1c test)
3. Utilize devices to support member compliance to their regimes
4. Integrate communications to physicians and their offices as an additional influence point on the member
    a. Connect insights and real-time pharmacy data back to physicians for more informed decisions

- Investigate new methods to overcome adherence barriers (e.g., script synchronization, simplified medication packaging; technologies for 24/7 monitoring); several options are being piloted with expected deployment in the next two years.

We expect that these and other adherence initiatives will enable us to dramatically increase the savings we can deliver to NDPERS.

D. Expanding Our Specialty Capabilities

Managing specialty drug spend is one of the biggest challenges for our clients today and this challenge will increase over the next 3-5 years. **Our specialty capabilities have been highly effective in helping our customers manage specialty drug spend** while promoting medication persistency for members.

We recognize that specialty drugs remains one of the fastest growing segments of spend for our clients. CVS Caremark Specialty Pharmacy has the specialty experience and integrated assets to continually build and deploy solutions that help contain costs, improve access, and utilize technology across the pharmacy benefits for our clients and their members.

E. Utilizing Channel Access for Specialty Medications

We are utilizing the assets of both CVS/pharmacy and CVS Caremark Specialty Pharmacy to offer our clients a coordinated specialty delivery model that is unique in the industry. This model will enable specialty prescriptions to be accepted at CVS/pharmacy, offering convenience for both members and physicians. In addition, members **will have the choice** of picking up their prescription at a CVS/pharmacy or having the prescription delivered to their home. Physicians also are able to utilize existing relationships with a local CVS/pharmacy making it easier for them to prescribe the appropriate medication without the hassle of dealing with multiple pharmacies.

F. Connecting and Fully Engaging Physicians

As we look to reinvent pharmacy in order to influence member behavior change and to encourage evidence-based, cost-effective pharmacy care, we are acutely aware of the critical role that physicians, nurse practitioners, pharmacy professionals and supporting staff play in ensuring good member care. In conjunction with our clinical programs, we are making complementary investments to support physician engagement and to encourage industry-wide connectivity that makes the right member-specific information available to the physician for evaluation and action. Examples include:

1. Connecting CVS/caremark and payors to allow members and physician outreach through our outreach channels, including EHR and at the pharmacy counter
2. Delivering member-specific interventions, including adherence and savings, into the provider electronic health record (EHR)
3. Industry-leading electronic prior authorization to allow real-time prior authorization submission and approval.

G. Engaging Members Through Digital Strategies

More than 9 million members actively utilize Caremark.com to access benefit information, fill/refill prescriptions, and answer questions about their medications. We have made significant investments in digital capabilities over the past two years and we continue to invest in digital capabilities to better engage members, utilizing our enterprise-wide member touch points.

Our digital strategy and roadmap is revisited and enhanced regularly to ensure our offering reflects, and caters to, the ever-changing industry and the needs of our members and clients. Current and future initiatives include:

4. Integration flexibility to provide members a seamless experience: robust Web services, enhanced customization and branding options, single sign on
5. Channel expansion to reach members where they are and allow them more choices and access points including: continued mobile investment; personalized, targeted and relevant communications (email, text, etc.); and chat expansion (online pharmacist chat, video)

6. Member experience improvements informed by member goals and behaviors including: site performance improvements; member navigation insights; robust analytics; member testing; adherence drivers; and member-specific behavior insights
7. Enhanced tools to assist with price shopping: offer robust tools that allow members to compare medications, plans, prices and pharmacies to ensure they are accessing the most cost-effective choices their benefit offers
8. Mobile application expansion, including a mobile welcome kit for members

8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?

As a company that is ranked 12th on the 2014 Fortune 500 List, CVS Health invests approximately $2.0 billion per year across our organization in new retail stores, company operations, technology and programs. Recent examples of investments in the PBM include: our new state of the art mail service facility, technology enhancements, and other innovative programs. We believe this is what enables us to provide our clients with unique products and clinical programs to help manage their pharmacy trend. As a pharmacy innovation company, our enterprise-wide assets help to differentiate our offerings and enhance the outcomes for our clients in the following ways:

- Utilizing our depth of clinical expertise
- Expanding member choice and access for maintenance prescriptions
- Focusing on Adherence with Pharmacy Advisor Counseling
- Expanding specialty access to give members more choice
- Simplifying member savings with the ExtraCare Health Card
- Enhancing the member experience.

Utilizing Our Depth of Clinical Expertise

Our insights build on our experience with consumer behavior through our retail CVS/pharmacy locations along with research collaborations with top-tier medical organizations, such as Harvard Medical School and Brigham and Women's Hospital. This knowledge enables us to deliver best-in-class interventions and adherence solutions in mail, retail, and specialty. Our intervention methods utilize one of the most influential advisors at the point of care—the pharmacist.

Expanding Member Choice and Access for Maintenance Prescriptions

The Maintenance Choice® program is one of the most popular programs among our clients, benefitting 1,200 clients and more than 17 million members, to date. This program offers members the choice of receiving their 90-day medication supplies through CVS/pharmacy or CVS/Caremark mail service, all at the mail pricing and copay, enabling clients to save up to 4% of gross pharmacy costs and achieve a mail dispensing rate that is 2-3% higher than clients with a standard mandatory mail program. Launched in 2013, our voluntary program is designed to be compatible with more plan designs and is also available to EGWP members.

Focusing on Adherence With Pharmacy Advisor® Counseling

In 2013, we expanded our Pharmacy Advisor Counseling program to include 10 highly prevalent chronic conditions: diabetes, hypertension, dyslipidemia, coronary artery disease, congestive heart failure, asthma, COPD, depression, osteoporosis, and breast cancer. With the success of this program in the commercial marketplace, we continue to evolve our products to help many clients and lines of business across diverse markets. As such, we also developed a new Pharmacy Advisor Counseling offering for Medicare clients and have begun providing one-on-one counseling for Medicare members with diabetes

and cardiovascular conditions to help plans improve clinical Star measures. We also developed a Pharmacy Advisor Counseling program, further expanding our capabilities to help Medicaid plans improve HEDIS measures in 2014.

Starting in April 2015, Pharmacy Advisor Counseling will expand to include a network of over 48,000 other retail pharmacies. At these other retail pharmacies, we will provide our targeted adherence interventions so they can be provided by the local pharmacy in place of our call center. For any member using a pharmacy not included in this expansion, they will receive an outreach
and be supported by our dedicated call center.

Pharmacy Advisor Counseling monitors prescription claims data for opportunities to help members stay adherent or close potential gaps in their therapy. We proactively provide:

- New-to-therapy counseling to help members stay on their prescribed therapy.
- Counseling to members who have dropped off therapy.
- Counseling to members on the potential benefits of adding a medication to their existing treatment regimen in addition to contacting the physician.

All clinical discussions are performed by a pharmacist. We offer members access to face-to-face counseling at CVS/pharmacy locations. For members who use any other retail pharmacy or CVS/Caremark mail service, we have a dedicated team of phone-based pharmacists who provide proactive, outbound counseling and inbound access six days a week for members in this program. This means that the program benefits all members regardless of the channel or retail pharmacy the member chooses to fill their prescriptions.

Additionally, our Pharmacy Advisor® Counseling program maintains Health Call Center (HCC) accreditation from URAC, which demonstrates our commitment to quality health care. This accreditation ensures that registered nurses, physicians, or other validly licensed individuals perform the clinical aspects of triage and other health information services in a manner that is timely, confidential, and includes medically appropriate care and treatment advice.

Expanding Specialty Access to Give Members More Choice

By 2015, we will be expanding access to our specialty pharmacy services to include our CVS/pharmacy locations. This unique offering provides your specialty members convenient access to their medications through any of our CVS/pharmacy locations and the same consistent industry-leading clinical service and expertise they need to better understand and manage their condition through our specialized CareTeams. By more tightly coordinating these member touch points we can help members on their path to better health and support our clients' goal of controlling total health care costs. Availability at CVS/pharmacy locations is dependent upon applicable State laws and regulations.

Simplyfying Member Savings With the Extracare Health Card

This program provides members with a 20% discount on thousands of CVS/pharmacy brand health-related items at CVS/pharmacy locations, as well as online. Through CVS.com, members can access extensive health information and resources in addition to customized deals and savings information, including any ExtraSavings™& ExtraBucks Rewards. Members also can turn their smartphone into a digital ExtraCare card with the CVS/pharmacy® application, which enables them to refill prescriptions by scanning the prescription bottle with their phone.

Enhancing the Member Experience

Our proprietary Personal Connection Model directly engages with members, and is proven to be effective because it is based on our depth of consumer insights and behavioral research; investments in technology; and the application of behavioral economics to reinforce appropriate clinical or cost-savings member actions. A few recent results include a 138% improvement in response rate with communications campaign to personalize member savings, a 50% increase in members moving to generics, and an 18% increase in persistency through targeting of diabetes members.

9. **Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.**

   CVS services are contracted through ClearStone Solutions, Inc. (ClearStone). Under the operating model, ClearStone (and TMG Health, also through ClearStone) provide the following services to BCBSND, in addition to those provided by CVS as described below.

   ClearStone Solutions, Inc.

   Services: First Tier Organization responsible for all program operations, monitoring and performance.

   Length of relationship: 8 years.

   ClearStone, in conjunction with its vendors, provides best-in-class integrated administrative services for government programs, including consulting and program design, program management, cost management and quality solutions. A significant factor in ClearStone's ability to generate measurably superior results on behalf of its clients is the ability to hold all downstream contractual arrangements. This enables direct oversight, contractually enforceable performance standards, and, ultimately, the ability to have a real impact on the compliance and efficiency of the operations of its downstream vendor entities for the programs it supports.

   As program administrators, ClearStone works with clients to implement custom solutions that support the health plan sponsors' directives, while reducing the day-to-day functional oversight burden. ClearStone believes that the key to successful programs operations is in allowing the health plan sponsor to concentrate on the factors important to program development and overall management. ClearStone client reporting packages and emphasis on client communications and transparency allow its clients to remain aware of the details and status of plan operations while free of the burden that day-to-day monitoring and oversight requires. Simply put, ClearStone provides the information necessary for its clients to retain overarching insight and control, while removing the worry and work associated with maintaining operational compliance.

   As discussed earlier, two key vendors working with ClearStone are TMG Health, Inc. and CVS Caremark.

   TMG Health

   Services: Enrollment, disenrollment, billing, customer service, fulfillment, membership reconciliation.

   Length of relationship: 8 years

   Management by ClearStone: To ensure quality customer service, daily communication and monthly monitoring activities are conducted to confirm adherence to contractual obligations and CMS guidelines for average speed of answer, disconnect rate, and hold time. TMG is provided with the tools to continuously monitor performance, and direction to assist in timely and effective issue resolution. Additional tools provided include, but are not limited to, CMS approved scripts, talking points, member related materials, etc.

CVS Caremark – contract effective 1/1/2015.

Services: Pharmacy Benefit Manager related services, including Pharmacy network contracting and management, pharmacy claims payment, formulary and utilization management program development assistance, operations, website formulary tools, and website claims data as well as Medicare required program attributes, e.g. Medication Therapy Management Program, Prescription Drug Event (PDE) submission, etc.

Length of relationship: Contract effective 1/1/2015, however, ClearStone has managed and overseen Pharmacy Benefit Manager services with the prior PBM for eight years.

Management by ClearStone: ClearStone will employ the same monitoring and vendor management techniques in its relationship with CVS that were successfully used in its relationship with its previous PBM services provider for the past eight years in order to ensure the same quality member and plan sponsor experience that it has historically provided. ClearStone's pharmacy team will maintain daily communications with CVS staff and conduct weekly operations update meetings, weekly and daily monitoring during the initial performance period, followed by weekly and monthly monitoring once confidence has been established that all performance requirements are being successfully attained. Areas which will be included in the monitoring programs include: Coverage Determinations, Redeterminations, IRE Auto-Forwards, Transition, Rejected Claims, Formulary and other more targeted monitoring as the need develops.

10. What ratings have you received from the following third party rating companies and organizations?

Rating Organization	Rating	Date of Last Accreditation/Rating
A.M. Best	Not applicable.	
Standard & Poor's	BBB+	5/9/2011
Moody's	Baa1	9/23/2013
NCQA (by product)	Disease Management Accreditation	8/4/2008
	Utilization Management Certification	4/24/2014
JCAHO	The Joint Commission – CVS Caremark Specialty Pharmacies are accredited under the Home Care standards of the Joint Commission for demonstrating compliance with Joint Commission standards in all performance areas.	9/19/2009
URAC	CVS/Caremark is URAC accredited in the following areas: • Pharmacy Benefit Management • Drug Therapy Management • Mail Service Pharmacy • Specialty Pharmacy • Health Call Center • CVS/pharmacy Community Pharmacy.	 11/1/2007 11/1/2007 4/1/2010 4/1/2010 11/1/2013 7/31/2014
American HealthCare Commission	Not applicable.	

11. **Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.**

    No, services are not contracted to any vendors outside the United States.

12. **Confirm that your proposal includes any and all deviations to the Minimum Contract Provisions (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).**

    Confirmed.

13. **Confirm that you will conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with beginning July 1, 2015.**

    CVS Health confirms. We offer all levels of claim appeal required by both ERISA and PPACA, including external review services that comply with the requirements of the Federal Affordable Care Act (ACA). We coordinate PPACA-required external reviews with external Independent Review Organizations (IROs) and require all contracted IROs to comply with all requirements imposed by the ACA. This option is offered only to clients that use our internal claims and appeal services (including first and second-level clinical appeals). The fee structure for appeals services includes charges for only those levels used by a member and covers all administrative and external services, including urgent service as needed.

    We have adopted and implemented appropriate policies and procedures for our PBM operations to comply with all requirements of the ACA's claims, appeals, and external review provisions. We will assist the client with option assessment and will implement according to client direction.

1.1.2 References and Experience

1. **Provide the following information on a maximum of three (3) of your largest pharmacy benefit plan clients for whom you provide pharmacy network, and administrative services on a self-insured basis. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.**

    CVS/caremark considers our current clients as proprietary. CVS will work with NDPERS to facilitate any required reference checks.

2. **Provide the following information for two (2) of your largest pharmacy benefit plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.**

    CVS/caremark considers our current clients as proprietary. CVS will work with NDPERS to facilitate any required reference checks.

1.2 Implementation and Account Management

3. **Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2015 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:**

    Group MedicareBlue Rx is already implemented for NDPERS as a fully-insured Part D EGWP. Reporting and billing modifications will need to be modified in order to support a self-insured process. Group MedicareBlue Rx utilizes a separate Plan Benefit Package (PBP) for fully-insured EGWPs vs self-insured EGWPs, so there would be a 60-day implementation timeframe for both TMG and CVS.

- Amount of total time needed to effectively implement the program

  CVS (as well as TMG Health) would need 60 calendar days to implement the existing NDPERS benefit, which is currently fully insured, as a self-insured benefit.

- Activities/tasks and corresponding timing
  - Termination of fully insured billing activities – 60 days prior to effective date of self-insured group implementation
  - Submission of EGWP under new PBP – 60 days prior to effective date of self-insured group implementation
  - Update internal reporting and tracking processes to account for the change in status of NDPERS – 30 days prior to effective date of self-insured group implementation.
  - Development, testing, and implementation of reporting necessary for support the self insured billing function (with LIS, LEP, etc… info included) managed by BCBSND – 60 days prior to effective date of self-insured group implementation.
- Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff

  The main responsibility for NDPERS staff would be to determine project business requirements (such as data feeds and reporting), along with establishing internal processes for receipt of that information. CVS would work with ClearStone, BCBSND, and TMG Health to implement operational requirements. ClearStone provides staff dedicated to EGWP implementation and vendor oversight and coordination who would lead the project. Time dedicated to implementation will depend on group implementation needs, benefit customization, testing requirements, etc. TMG Health and CVS project management staff would also be resourced as necessary to support the/transition from fully-insured to self-insured.

- Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change

  Not Applicable as we are the incumbent carrier.

- Length of time implementation team lead and members will be available to NDPERS

  CVS and TMG Health staff would be available to NDPERS on an as needed basis. ClearStone staff would be available to BCBSND staff daily. Ongoing biweekly meetings are held with BCBSND to address EGWP needs as they arise.

4. **Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.**

   Strategically, the NDPERS relationship will be managed to engage the boards and executives in direct communication on organizational needs and direction. We will continue to work with NDPERS to address cost trends, legislative items, new product concepts and other issues impacting the cost and quality of care and coverage. On a day-to-day basis, we will continue to provide a dedicated account executive, an account manager, group consultant, wellness consultant and access to all levels of management and the BCBSND Board. NDPERS members will continue to receive the high quality they've come to expect from our dedicated member services team. Please "Attachment 3 – BCBSND Organizational Chart" for the BCBSND organizational chart.

a. The key individual representing your company during the proposal process;

Tim Huckle, President and CEO

A team of executives play a supporting role. Please refer to "Attachment 4 – Biographies" for biographical information.

Executive Support Team:

- Denise Kolpack, Senior Vice President of Corporate Communications and Public Affairs
- Pat Bellmore, Chief Marketing Officer
- Brad Bartle, Vice President of Actuarial & Membership
- Mark Tschider, Vice President of Customer Support & Claims Administration
- Sharon Fletcher, Senior Vice President of Health Network Innovation and Human Resources and Development
- Renay Rutter, Executive Vice President of Enterprise Planning and Technology
- Daniel Conrad, Chief Legal Officer
- Brian Fellner, Executive Vice President and Chief Financial Officer

b. The key individuals on your proposed implementation team;

BCBSND has an established cross functional implementation team with leadership representation from all business units. This team will be led by a dedicated Project Manager, Lacey Hogness.

c. The key individual assigned to overall contract management;

Kevin Schoenborn, Manager, Consulting Services – Account Executive

d. The key dedicated individual or team members responsible for day-to-day account management and service;

Your dedicated Account Management Team will coordinate with the BCBSND implementation to ensure all aspects of the NDPERS benefit plan are implemented timely and accurately. They will be supported by a team of Subject Matter Experts. Please refer to "Attachment 4 – Biographies" for biographical information.

Account Management Team:

- Kevin Schoenborn, Manager, Consulting Services – Account Executive
- Dorinda Card, Director of Key Accounts
- Onalee Sellheim, State and Public Program Manager – Account Manager
- Sonja Nyhof, State and Public Program Manager
- Jodi Crouse, NDPERS Large Group Consultant
- Michael Carlson, Manager of Health and Wellness
- Stacy Duncan, NDPERS dedicated Wellness Consultant
- Sheri Srnsky, Team Leader, Special Accounts, Claims

Subject Matter Experts:

- Michelle Bishoff, Director of Claims Administration
- Tom Christensen, Manager of Pharmacy Management
- Zach Keeling, Director of Marketing Operations & Product Management
- Linda Merck, Senior Actuarial Analyst

- Lacey Hogness, Business Implementation Lead
- Mike Potts, Director of Employer Consulting & Wellness Services
- Carman Bercier, Vice President Health Innovation and Practice Innovation
- Jackie Walsh, Vice President Clinical Excellence and Quality
- Pam Gulleson, Vice President of Public Affairs
- Megan Houn, Director of Government Relations
- Brent Solseng, Pharmacy Manager Marketing
- Shelly Stalpes, Manager Claims Administration
- Jim Wynstra, Director of Actuarial
- Heather Horner, Member Education Consultant
- Miriam Griffin, Member Advocate Specialist

Please refer to "Attachment 4 – Biographies" for biographical information.

e. The key individual responsible for provider contracting; and

Sharon Fletcher, Senior Vice President Health Network Innovation and Human Resources and Development

Please refer to "Attachment 4 – Biographies" for biographical information.

f. The key individual responsible for provider relations if different than letter e. above.

Please refer to question 4 e.

5. Please provide the requested information for the functions that will be servicing NDPERS in the table below:

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
Member Service for Coverage Determinations and Appeals	CVS Caremark • Nashville, Tennessee • Pittsburgh, Pennsylvania	24 hours a day, 7 days a week, 365 days a year	☐ Yes *Specify Company Name:* CVS Caremark ☐ No
Member Service	TMG Health • Jessup, PA • Amarillo, TX	8 am – 8 pm in member's location	☐ Yes *Specify Company Name:* _TMG Health ☐ No

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
Claims Processing	CVS Caremark Claims are processed online in real time at the point of service. The address of the CVS/Caremark paper Claims Processors is: 8801 E. Raintree Drive Scottsdale, AZ 85260.	CVS Caremark's online system is available 24 hours a day, 365 days per year. The CVS/Caremark Claims Processing Centers operate Monday through Friday, from 8:00 a.m. to 7:00 p.m. EST. The centers do not typically operate on weekends or holidays. Additionally, our Customer Care team is available 24 hours per day, seven days per week for claims inquiries.	☐ Yes *Specify Company Name:* CVS Caremark ☐ No
Enrollment and Eligibility	TMG Health • Jessup, PA	8 am – 8 pm EST	☐ Yes *Specify Company Name:* _TMG Health ☐ No
Management of Clinical Programs	CVS Caremark 8300 Norman Center Drive, Suite 800 Bloomington, Minnesota 5543	We believe in flexible work schedules to support the time zone needs of our customers. This process helps ensure that we are readily available to support the needs of all of your locations.	☐ Yes *Specify Company Name:* CVS Caremark ☐ No

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
Specialty Drug Program	CVS Caremark The specific addresses of our locations include: • 280 Avenue Jesus T Piñero, Suite A Rio Piedras, Puerto Rico 00927 • 1307 Allen Dr., Suite H Troy, Michigan 48083 • 8370 Wolf Lake Drive, Suite 107 Bartlett, Tennessee 38133-7108 • 7930 Woodland Center Boulevard, Suite 500 Tampa, Florida 33614 • 25 Birch St, Building B, Suite 100 Milford, Massachusetts 01757-9901 • 180 Passaic Avenue Fairfield, New Jersey 07004 • 10700 World Trade Blvd, Suite 110 Raleigh, North Carolina 27617 • 105 Mall Boulevard Monroeville, Pennsylvania 15146 • 800 Biermann Court, Suite B Mount Prospect, Illinois 60056 • 11162 Renner Boulevard Lenexa, Kansas 66219-9621 • 1127 Bryn Mawr Avenue, Suite A Redlands, California 92374.	Normal business hours for our pharmacies are 7:30 a.m. to 7:30 p.m. local time, Monday through Friday. Additionally, we have a designated pharmacy with extended operational hours from 8:00 a.m. to 3:00 p.m. CST on Saturdays to accommodate convenient hours of service for members. Pharmacists are available 24 hours a day, seven days a week, during non-business hours and through our after-hours service numbers for emergencies and other service-related needs.	☐ Yes *Specify Company Name:* CVS Caremark ☐ No

Area	Geographical Location(s) and Organization Name (if out-sourced)	Hours of Operation (Specify PST/CST/EST)	Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced
Mail Order Program	CVS Caremark All mail facilities are owned and operated by CVS/Caremark. Our mail dispensing pharmacies are located at the following addresses: • 1780 Wall Street Mount Prospect, Illinois 60056 • Number 1 Great Valley Boulevard Wilkes-Barre, Pennsylvania 18702.	**Dispensing Pharmacies:** **Chicago/Mt. Prospect, Illinois** **Monday – Thursday** 6:30 A.M. – 1:45 A.M. **Friday** 6:30 A.M. – 11:30 P.M. **Saturday** 8:00 A.M. – 4:30 P.M. **Sunday** 3:00 P.M. – 1:45 A.M. **Time Zone** Central **Dispensing Pharmacies:** **Wilkes-Barre, Pennsylvania** **Monday – Thursday** 6:30 A.M. - 1:45 A.M. **Friday** 6:30 A.M. - 11:30 P.M. **Saturday** 8:00 A.M. - 4:30 P.M. **Sunday** 3:00 P.M. - 1:45 A.M. **Time Zone** Eastern	☐ Yes *Specify Company Name:* CVS Caremark ☐ No
Program administration for Medicare Part D (including vendor management)	ClearStone Solutions Eagan, MN	7:00 am – 5:00 pm CST Monday through Friday.	☐ Yes *Specify Company Name:* ClearStone Solutions ☐ No

1.3 Communications and Website

6. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	There are online tools available through the caremark.com member portal that allows users to see claim and drug information.	☐ Yes X No
Employee Newsletter(s)	We do not currently support an employee newsletter.	☐ Yes ☐ No
Brochures	We do not currently support pre-enrollment brochures for NDPERS.	☐ Yes ☐ No
Direct mail (internal or home distribution)	We will directly mail to NDPERS members information about the CVS discount card for use at CVS Pharmacies for CVS branded health products and the mail order program.	☐ Yes ☐ No
Enrollment guide	We do not currently support an enrollment guide for group enrollment but do create the Group Summary of Benefits for NDPERS which is required for enrollment, along with the Group enrollment form and plan ratings document.	X Yes ☐ No
Employee open enrollment meeting support and attendance	We currently develop slide presentations for Employer Groups to use with NDPERS benefit administrators.	X Yes ☐ No
Benefits/HR staff training support	We communicate important benefit information for NDPERS members by creating and mailing the member ID card, Annual Notice of Changes (ANOC) document, Group Evidence of Coverage and Schedule of Coverage and Limitations (SCAL), Low Income Subsidy (LIS) Rider when applicable, Group Formulary and Supplemental Drug list, Pharmacy Directory, and prescription Mail Order forms.	X Yes ☐ No
Video	We do not currently support video communications on behalf of NDPERS.	☐ Yes ☐ No
Other (please list)		X Yes ☐ No

7. **Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.**

   The table under section 1.3 Communications and Website above outlines the list of current communication and marketing services provided. Additional services may be provided at additional cost.

8. **How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?**

   Member ID cards are issued per CMS timeframes for Medicare Part D program, based on receipt of complete enrollment request for each member.

1.4 Plan Administration

9. **Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.**

   Communication with NDPERS is managed by BCBSND. BCBSND will communicate federal and state legislative changes in a timely manner. BCBSND maintains close relationships with state and federal elected officials and their respective staffs. Our Government Relations team, Pam Gulleson and Megan Houn, monitor federal and state bills and promptly notify internal staff of potential changes that could impact the NDPERS health plan. Megan Houn works out of the Bismarck office and Pam Gulleson is based in Fargo. The Account Management Team notifies NDPERS staff of potential changes. BCBSND Legal staff will provide guidance on these issues, but recommends NDPERS communicate with its legal counsel to confirm. BCBSND's Actuarial Team will provide pricing on legislative changes. BCBSND Contract Administration staff also works closely with the North Dakota Department of Insurance on notification of these changes. The Account Management Team works closely with NDPERS staff throughout the process.

10. **NDPERS recognizes that different settlement arrangements will be necessary to implement a self-insured program. Please describe your proposed settlement process.**

    BCBSND and NDPERS do not currently require a settlement process for the Part D program.

    BCBSND can offer NDPERS two options for settlement arrangements. These options are dependent on NDPERS handling of specific billing for each group.

    a. If NDPERS prefers BCBSND bill the member groups, BCBSND would require an 820 file each month to cover the month's premium notices. This would update the billing so there would not be a balance forward in the next month's bill. BCBSND would wire the funds back to the group after the 820 has been processed.

    b. If NDPERS prefers to bill the member groups directly, BCBSND would not require an 820 for premium. Claims would draw against NDPERS claims account and administrative fees and stop-loss premium would draw against NDPERS cash account.

11. **What is your total commercial and Medicare pharmacy plan enrollment? Complete the table below.**

Dates	Commercial	Medicare
As of January 2012	More than 49,000,000	5,200,000
As of January 2013	More than 47,000,000	6,900,000
As of January 2014	More than 44,000,000	6,800,000

1.5 Eligibility

12. Are ID cards the sole means of determining member eligibility? If not, please describe.

Members may provide documentation of Group MedicareBlue Rx enrollment, for the purpose of obtaining access to pharmacy benefits, via Group MedicareBlue Rx member ID card, Group MedicareBlue Rx Acknowledgment letter, or Group MedicareBlue Rx Confirmation letter. All three items contain the information required by a pharmacy to accurately submit claims.

13. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

No.

14. NDPERS will submit enrollments via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Files will be transmitted using a secure file transmission process. The successful contractor must be able to receive this data in that format and media.

NDPERS currently utilizes an electronic enrollment file process that does not mirror the 834 file specifications, but instead, reflects CMS guidance to capture those required elements for a complete Part D enrollment. Group MedicareBlue Rx will continue to support the existing enrollment file method used by NDPERS.

15. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

Eligibility updates to Group MedicareBlue Rx will follow CMS guidance regarding processing and timeframes, submitted by the group in agreed-upon formats.

16. Please describe your standard (or proposed) financial arrangements with NDPERS under a self-funded arrangement including but not limited to: account requirements and process for claim payment, frequency of reimbursement to the administrator for claims paid, methodology for funds transfers, required reserves in claim account, etc.

All CVS generated information would be transmitted to ClearStone, who would, in turn, forward the information to BCBSND for transmittal to NDPERS

BCBSND can offer NDPERS two options for settlement arrangements. These options are dependent on NDPERS handling of specific billing for each group.

a. If NDPERS prefers BCBSND bill the member groups, BCBSND would require an 820 file each month to cover the month's premium notices. This would update the billing so there would not be a balance forward in the next month's bill. BCBSND would wire the funds back to the group after the 820 has been processed.

b. If NDPERS prefers to bill the member groups directly, BCBSND would not require an 820 for premium. Claims would draw against NDPERS claims account and administrative fees and stop-loss premium would draw against NDPERS cash account.

1.6 Customer/Member Service

17. **Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. If yes, this unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. If yes, describe the structure and organization and provide an organizational chart of the unit you are proposing. If no, please describe how these services will be provided.**

    Although Group MedicareBlue Rx does not provide NDPERS dedicated customer service staff, all Group MedicareBlue Rx customer service staff are trained to explain NDPERS benefits, enrollee claim status, and selection of participating pharmacies. Additionally, Group MedicareBlue Rx customer service staff provide general assistance with navigating Group MedicareBlue Rx online tools.

1.7 Claims Administration

18. **Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.**

	Claims Processing Unit
Address/Location	Claims are processed online in real time at the point of service. The address of the CVS/Caremark paper Claims Processors is: 8801 E. Raintree Drive Scottsdale, AZ 85260.
Phone Numbers	TMG Customer Service 1-877-838-3827
Days and Hours of Operation	CVS Caremark's online system is available 24 hours a day, 365 days per year. Pharmacy technical help desk assistance for claim processing issues is available 24 hours a day, 365 days per year
Number of Members Serviced	CVS Caremark provides services to 29,930,000 employer members.
Number of Employer Groups Serviced	CVS Caremark provides services to 1,800 employer groups.
Ratio of Claims Unit Staff to Members Serviced	Our ratio of examiners per 1,000 covered lives varies, and is currently .001.
Volume of Claims Processed Daily	In 2013, we processed 902,100,000 claims. This is an average of 2.47 million claims daily.

19. **Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan, HDHP/HSA) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.**

    Group MedicareBlue Rx currently administers the NDPERS EGWP benefit design requested, and can continue to do so in the future.

1.8 Reporting

20. Please provide samples of your monthly, quarterly, and annually standard reporting packages.

Please refer to attached sample reports in Attachment 6.

21. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

Online reporting capabilities are not available. CVS, ClearStone, and BCBSND will continue to work together to address NDPERS reporting needs as requested.

22. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing pharmacy claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

CVS provides weekly claims files to ClearStone, who sends this information to BCBSND and ClearStone also provides a weekly member file (from TMG Health) which is also provided to BCBSND for transmittal, as required.

1.9 Pharmacy Benefits Management Services

23. Describe your mail order pharmacy program and provide details on how you market this service.

CVS/Caremark Mail Service Pharmacy operational efficiencies include:

- Integration with real-time, claims processing system used by retail network
- Drug utilization review edits applied across all claims
- Formulary control that provides enhanced management and cost control
- Member claims history profiles for more effective drug utilization review
- Comprehensive data management
- Stringent claims auditing procedures to support quality service levels.

To help ensure quality and consistency while filling prescriptions, our mail service has its own Quality Assurance department. The department tracks, corrects, and reports all errors. Ongoing adjustments and enhancements to systems, processes, and equipment facilitate the management of higher volumes.

Our mail service program is an added efficiency for those who require maintenance medications, prefer the convenience of home delivery, and may have limited mobility. More than 90% of all of our orders are filled using automation, contributing to our efficiency. Mail service offers:

- Convenient, responsive service with a two-day processing turnaround time (for non-exception orders)
- Telephone or Internet refill ordering
- A refill reminder program
- Overnight delivery or other special shipping arrangements
- Supportive services for special populations, such as the elderly and hearing impaired
- Toll-free pharmacist consultation 24 hours a day, 7 days a week
- Educational member advisory letter with all prescriptions
- Full disclosure for all therapeutic interventions to preserve the integrity of member choice and physician control over which drugs dispense

- Member ability to opt into automatic refills
- Caremark messaging platform, automated alerts regarding order status, refill reminders, health updates, etc. via the member's preferred method of contact (phone, e-mail, text messaging, etc.).

The following examples show how we can encourage members to use the mail service option (additional costs may apply):

- Member-specific Savings Report: These personalized, proactive summaries of members' prescription histories can help your members save money on future purchases by including special messaging to assist in making more cost-effective health care decisions.
- FastStart®: This proactive multi-channel outreach (e.g., outbound calls, targeted mailings) promotes the use of CVS/Caremark Mail Service and provides several options for starting a mail prescription or moving one to mail.
- Automatic Prescription Refill and Renewal: This mail service program – known as ReadyFill at Mail™ – allows members to receive automatic refills and automatic renewals of their maintenance medications. Members can choose their preferred method of communication: automated phone call, e-mail, text message, or secure inbox message on Caremark.com.
- Caremark.com: Our Check Drug Options feature allows members to look up pricing and coverage before ordering prescriptions and view in-class and cross-class therapeutic alternatives. Also, our website's saving and opportunities area uses member-specific prescription history and plan information to present lower cost options.
- Personalized messaging via CVS/Caremark Messaging Platform (CMP): Through the CMP, we can deliver important health and prescription information to NDPERS's members via their preferred method of communication be it e-mail, voicemail (automated voice message) or text message.

24. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H.

Rebates for eligible claims are coordinated and administered by CVS/caremark's Industry Analysis team through our proprietary vendor rebate system. This system enables us to track each contract independently, generate rebate invoices, and compile reporting. We invoice for rebates from most manufacturers on a quarterly basis, based on current terms and conditions as well as market performance.

We have an aggressive collection and reconciliation process related to rebate payments. All payments are fully reconciled to the original invoiced amount, and any differences are documented and escalated appropriately to ensure that payment is made on all valid claims submitted to the drug manufacturers. The average turnaround time for manufacturers to pay their rebates is 60 to 120 days after the end of the quarter; however, payment timing of the rebates depends upon the manufacturer's contract.

We will determine the rebates due to NDPERS by matching the payment information detailed in the manufacturer reconciliation data against the invoiced claims. The CVS/caremark proprietary reconciliation system then applies the rebate payment to the individual claims. The aggregate dollar amount is determined and monies distributed per the terms of the client contract.

25. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

Our products are priced according to a variety of factors, including client size, market, networks, demographics, preferred drug list selection, and plan designs. Our price quote to NDPERS is intended to maximize cost savings, control trend, and minimize member disruption. CVS/Caremark's pricing is a discount off AWP.

1.9.1 Formulary

26. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents. At a minimum include the following:

- **Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.**

  CVS/Caremark maintains the 2015 NDPERS Medicare Part D formulary on a weekly basis, reviewing all new drugs that launch. Line extensions of existing formulary drugs are added promptly and all new entities are referred to our P&T Committee process. Once approved by our National P&T Committee, these new products are added to the adjudication system and to the HPMS files upon receipt of a proxy NDC/RxNorm CUI number on a formulary reference file update. Formulary PDF files are updated with upcoming changes, to post online.

  Multiple check points in our process ensure that each month's formulary changes are correctly captured and coded into the adjudication platform. In addition, our formulary management tool has audit reports that are always reviewed by a pharmacist before the files are exported to CMS.

  Negative change notices are included in all member EOBs at least 60 days before the effective date of the change. We include CMS-approved negative formulary changes in the upcoming formulary change section of the Explanation Of Benefits. In accordance with CMS guidance, members that receive EOBs 60 days before the change effective date and who have the target drug in claim history within the last 120 days (or from start of calendar year, whichever is greater) are considered notified. Members who do not receive EOBs 60 days before the change is effective but have history of a negatively impacted drug during the same time periods as above, are mailed a stand-alone notice of change. Additional mailings are sent to new starts to therapy identified prior to the effective date of the change and an additional 60 day grace period is provided. A secure Web site is also available to obtain copies of member EOBs. Reprints of EOBs are available upon member request.

- **Describe how drugs are evaluated for possible inclusion on the formulary.**

  To address the various needs and goals of our wide range of plan sponsor types, CVS Caremark develops multiple Medicare Part D formulary template solutions, ranging from restrictive to more expanded coverage options. We offer a variety of tiering strategies (i.e. two-tier, four-tier, five-tier) for each of the drug list options. Clients may choose to remove utilization management edits if not mandated by our P&T Committee. Other modification requests will be reviewed individually and you will be provided information as to the potential financial impact of those requests.

- **Describe the basis of your formulary development and maintenance.**

  We have more than 20 years of experience providing unique formulary management strategies to meet client goals. With the extensive number of clients and lives we support, we have a critical role to play in helping to control rising health care costs and improve member health. As a pharmacy innovation company, we work collaboratively to develop new solutions to better serve our clients and meet continuously evolving market challenges.

- **Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.**

  While CVS Caremark strives to include the most cost-effective drugs on our drug list, some drugs within the same therapeutic category may have unique pharmacological

properties, indications, dosage forms, side-effect properties, compliance factors, and P&T Committee requirements, which may override any cost difference. Our formulary strategies are designed to meet CMS requirements while optimizing plan goals and helping to manage trend.

- **What is your definition of a Generic Drug?**

  "Generic Drugs" means any single source generic and/or multi-source generic drug (non-Brand Drug) as set forth in Medi-Span's National Drug Data File. Brand Drugs dispensed as Generic Drugs (i.e., Dispense as Written code = 3, 4, 5, 6 or 9) are considered Generic Drugs under this Agreement.

- **What is your definition of a Brand Drug?**

  "Brand Drugs" means all single source brand and/or multi-source brand drugs, as identified by PBM for its book of business implemented on the same platform as CLEARSTONE, using Medi-Span's National Drug Data File that adjudicate at the Cost Share logic of a Brand Drug, consistent with the Benefit Plan.

- **Describe the composition of your review board/committee and how often do they meet and how are they selected to be a member.**

  The CVS/Caremark P&T Committee, who meets face-to-face on a quarterly basis and, as needed, on an ad-hoc basis, is an independent body of 19 independent health care professionals and academicians recognized as national experts and leaders in their fields of specialty. A unique feature of the P&T Committee is the inclusion of a pharmacoeconomist whose input includes quality-of-life considerations, and a medical ethicist who provides unbiased feedback regarding the logic and appropriateness of P&T Committee decisions. The CVS/Caremark P&T Committee is composed of 19 independent health care professionals, including 16 physicians of which one (1) is a medical ethicist, one (1) is a pharmacoeconomist, and two (2) are specialists in the care of the elderly or disabled. There are also three (3) pharmacists, including a specialist in the care of the elderly or disabled. The 16 physicians represent the following specialties:

  - Allergy
  - Cardiology
  - Clinical Pharmacology
  - Endocrinology
  - Family Practice
  - Gastroenterology
  - Gerontology
  - Hematology/Oncology
  - Internal Medicine
  - Infectious Disease
  - Pediatrics
  - Pediatric/Adolescent Psychiatry
  - Pharmacoeconomics
  - Psychiatry.

A candidate for membership on the Pharmacy and Therapeutics (P&T) Committee is selected based on a referral (from another member) and the candidate's qualifications, including: educational background, training, experience, geographical distribution, and exposure to members. The candidate is then invited to attend a meeting where the P&T Committee votes on whether he or she will serve on the committee, based on both qualifications and interactions at the meeting.

1.9.2 Management of Clinical Programs

27. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.

a. Drug Utilization Reviews (DUR) – retrospective, concurrent and prospective.

CVS/Caremark designed our clinical strategy to fulfill two of our main objectives: Helping clients manage bad trend and promote good trend. We accomplish this through a variety of unique drug utilization review (DUR) strategies and our award-winning Pharmacy Advisor® approach. The CVS/Caremark concurrent, retrospective, and prospective DUR programs are described below.

Concurrent DUR Programs

Managing Bad Trend
The CVS/Caremark **Concurrent (POS) DUR program** is an automatic, system-driven drug utilization review program performed for all clients on all prescriptions, at both mail and retail. No extra charge is made for this standard service.

Our concurrent DUR program is implemented through our single-platform information systems, which power our online national retail pharmacy network, our National Network of point-of-sale pharmacies as well as our mail service pharmacy facilities. The system can perform up to 500 edits on every prescription to ensure that prescriptions meet administrative, plan-design, and member safety criteria.

Retrospective DUR Programs

Managing Bad Trend
The CVS/Caremark **Safety and Monitoring Solutions (SMS**) help identify potential fraud, waste and abuse by reviewing claims through an automated series of edits that identify members with high-cost drug use patterns suggesting potential abuse or misuse. A clinical pharmacist then conducts an analysis of the generated profiles, which are stratified by risk score. Based on that analysis, if a potential case of fraud or misuse is identified, we will send a letter to the appropriate prescriber(s) alerting them to the issue, and will conduct follow-up activities on the targeted participants for up to six months. The SMS reviews the following criteria to help identify problem cases:

- Total number of controlled substance claims-Identifies total number of continuous and concurrent (two or more at the same time) targeted drugs
- Total number of prescribers-Identifies unusually high number of concurrent controlled substance prescribers
- Total number of pharmacies-Identifies total number of distinct pharmacies that have filled targeted drugs
- Excessive utilization-Identifies members who exceed the recommended utilization for targeted drug classes
- High cumulative daily dosage-evaluates acetaminophen (APAP) and morphine equivalent
- Geographic distribution of prescribers and pharmacies-Identifies patterns that indicate a member may be doctor or pharmacy shopping to avoid detection
- High total claim cost-Identifies potential misuse or abuse based on targeted drug costs.

In addition, we can work collaboratively with a client to refer a member case to:

- Medical case management for further monitoring or additional intervention
- The client's fraud investigation unit for additional investigation and intervention.

Our Safety and Monitoring interventions include regular profile monitoring and data sharing to help you meet CMS requirements for tighter drug utilization review (DUR) controls. Interventions can include implementation of member-specific utilization management edits (MSUME), and assisting CMS in anti-fraud reviews and reporting of individual cases to Medicare Drug Integrity contractors (MEDICS).

Promoting Good Trend
Closing gaps in medication therapy: We can provide a powerful "early-warning system" for your members' medical care and identifies high-risk members before they may experience significant medical events. Drug profiles are assessed daily, within 72 hours after claims adjudication, by a clinical pharmacist for any potential issues or complications associated with the disease or therapy. Identified issues are communicated to the prescriber along with suggested solutions to the issues.

Prospective DUR Programs

Managing Bad Trend
The CVS/Caremark prospective DUR programs include Prior Authorization, Step Therapy, and Quantity Limits.

Our **Prior Authorization** program offers several benefits, including:

- Promotes appropriate prescribing of drugs by ensuring adherence to approved treatment protocols
- Decreases expenses by shifting utilization to less expensive, clinically appropriate drugs
- Promotes member safety.

Our **Step Therapy** program ensures that members utilize the most therapeutically appropriate and cost-effective drugs first. Step therapy protocols optimize appropriate drug therapy while controlling costs by defining how and when a particular drug or drug class should be used, based on a member's drug history. Post-step prior authorization is also available to allow coverage for clinically appropriate situations that do not meet the initial step therapy protocol.

Quantity Limits are available as an alternative or a supplement to our Prior Authorization program. Clients that wish to maintain control over drugs with the potential for abuse, misuse, or safety concerns – without eliminating coverage – can do so by means of the Quantity Limits program.

b. Disease Management

Not Applicable for Prescription Drug Plan product

c. Medication Therapy Management

Our Medication Therapy Management Program is designed to identify Medicare Part D members at risk for adverse medical events and enrich their understanding of medication use, improve therapeutic outcomes by enhancing medication adherence, and reduce adverse drug events. The CVS Caremark Part D Services MTM program includes the following components per CMS requirement: interventions, for both beneficiaries and prescribers; an annual comprehensive medication review, which includes an interactive, person-to-person or telephonic consultation and an individualized, written summary in CMS' standardized format; and quarterly targeted medication reviews with follow-up interventions when necessary.

Per CMS guidelines, all members who meet the program criteria are automatically opted into the program. The MTM Program works collaboratively with members, pharmacists, and physicians to reduce risk by resolving identified medication related issues. Reducing the risk of adverse medical events should lead to decreased overall medical costs for the member over time. The program encourages compliance with national, evidenced-based clinical guidelines.

The MTMP consists of 2 components: the Comprehensive Medication Review (CMR) and Targeted Medication Reviews (TMRs). The CMR is an interactive, person-to-person medication review provided to the member by a pharmacist or other qualified provider and is offered at least annually. The CMR is a review of the beneficiary's medications, including prescription, over-the-counter (OTC) medications, herbal therapies, and dietary supplements, which aids in assessing medication therapy and optimize patient outcomes. Newly eligible members who meet minimum program eligibility requirements will be offered a CMR within 60 days of qualifying, and within one (1) year of qualifying for previous CMR for members who continue to qualify for the program in the new Plan Year per CMS guidelines. Targeting will be run monthly, with program eligibility determined by prescription claims and drug spend. Members who have a drug spend in the previous 90 days of at least $784.50 will meet the drug spend criterion as it will be assumed that their drug costs will reach the $3,138 annual drug cost threshold required in order to be eligible to participate in the MTMP in 2015. Members are notified that they may opt-out of the MTM program or decline certain components of the MTM program while still allowing for TMRs to be performed. Once the CMR service is accepted, the interactive comprehensive medication reviews will be conducted via telephone or in person. A CMR may occur face-to-face if the pharmacy used by the targeted beneficiary participates in the MTM network and the beneficiary is able to meet with pharmacist in person. Alternatively, a telephonic comprehensive medication review will be available if the beneficiary is unable to meet with the pharmacist in person or if the beneficiary uses a pharmacy that is not in the MTM network. Beneficiaries using pharmacies not in the MTM network will be contacted by a call center pharmacist to conduct the CMR. In the event that the beneficiary is unable to participate in the CMR, pharmacists are instructed to conduct the CMR with a caregiver or the beneficiary's prescriber.

Beneficiaries will be asked for their medical history, all medications (prescription and non-prescription) that they may be taking, as well as any lab data they may have. A pharmacist will review all of the information and conduct the comprehensive medication review session with the beneficiary, or other approved recipient. During the CMR the provider considers general assessment points, including but not limited to potential drug interactions, duplicate therapy, and appropriate medication use. After the consultation is completed, the beneficiary will be provided with a personal medication list using the CMS standard CMR template including all of their current prescriptions, non-prescription medications, including OTCs and/or herbal products, and a written summary of the consultation, including any discussion points and recommended action items.

Targeted Medication Reviews (TMRs) occur on a quarterly basis, starting during the month in which a beneficiary is targeted to participate in the MTM program. As previously mentioned, all beneficiaries who meet the MTM program targeting criteria will receive TMRs, whether or not the beneficiary, caregiver, or prescriber, is able to receive or accept the CMR service. TMRs will occur quarterly through the end of the program year once the beneficiary has met the MTM targeting criteria. The beneficiary's prevalent prescriber is determined through claims analysis, and the TMR communication is sent to that prescriber via fax. If the prescriber cannot be reached via fax, the communication will be mailed to the prescriber.

TMR interventions are indentified via a claims analysis. Updated prescription claims data is used to identify potential medication-related problems, including safety issues, omissions in care, and beneficiary non-adherence for all targeted beneficiaries. If a beneficiary is found to have multiple drug therapy problems identified through the analysis, all of the drug therapy problem alerts will be compiled into a single

communication and sent to the primary prescriber for resolution via fax, or if the prescriber cannot be reached via fax, the communication will be mailed to the prescriber. In a manner similar to which updated prescription claims data is analyzed to identify potential medication-related problems, ongoing analysis of prescription claims data occurs to determine the resolution of previously identified drug therapy problems or identification of new drug therapy problems to be communicated during the next quarterly TMR.

PROVIDER INTERVENTIONS

During the CMR, the pharmacist may identify a drug therapy problem that requires immediate prescriber outreach. If this occurs, the pharmacist is instructed to telephone or fax the appropriate prescriber to resolve the drug therapy problem. Prescriber interventions that occur during the CMR are required to be documented by the pharmacist.

For ongoing monitoring, Targeted Medication Reviews for all enrolled beneficiaries in the MTMP are performed, based on prescription claims, to identify potential medication related problems in addition to the CMR. Case finding algorithms are run against prescription claims history on a quarterly basis to identify opportunities to reduce the risk of adverse events, improve compliance with national treatment guidelines, and impact potentially inappropriate prescription therapy.

This review includes medication interventions based on identified medication safety issues and Medicare plan quality metric issues, including but not limited to Drug/Drug Interactions; Drug/Age Interactions; High Risk Medications in Beneficiaries aged 65 years and older; Drug/Condition Interactions; Drug/Allergy Interactions; Drug/Gender Interactions; Duplicate Therapy; Diabetic with hypertension not taking an ACEI, ARB, or DRI; Diabetic not taking a Statin; Diabetic not taking antiplatelet therapy; Asthmatic taking long-acting beta-agonist but not taking an inhaled corticosteroid; Asthmatic overusing short-acting beta-agonist with no controller medication; non-adherence for diabetes-related medications; non-adherence for hypertensive-related medications; and non-adherence for cholesterol-related medications. These assessments are system generated and sent quarterly to prescribers per CMS guidelines. Interventions are sent to prescribers via fax, or mailed if a fax number is not available, to the physician with actionable suggestions to consider. The physician will review and determine what action, if any, is appropriate for the member.

The MTM Program meets all 2015 CMS program guidelines.

28. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

Our retrospective clinical management programs include a flexible suite of solutions that can be tailored to best meet NDPERS's specific goals. Our specific programs feature the Retrospective Safety Review and Safety and Monitoring Solution, which are focused on key safety issues, specific to members and their prescription regimens.

Core Components

- **Safety Review**

This program acts as a "safety net" for serious drug interactions that may have a negative clinical impact on a member and were not addressed at the point of sale. It allows for a change in the prescription if such an interaction is detected after the member obtains the original prescription. Our clinical staff review both mail and retail prescriptions within 72 hours after the claim adjudicates for potential safety issues that were not addressed when the drug was dispensed. Then, if needed, they message the physician with actionable member-specific communication that identifies the clinical issue and provides suggestions for improving medication therapy.

- **Safety and Monitoring Solution**

Our Safety and Monitoring Solution (SMS) helps identify potential fraud, waste and abuse by reviewing claims through an automated series of edits that identify individuals with high-cost drug use patterns suggesting potential abuse or misuse. A clinical pharmacist then conducts an analysis of the generated profiles, which are stratified by risk score. Based on that analysis, if a potential case of fraud or misuse is identified, we will send a letter to the appropriate prescriber(s) alerting them to the issue, and will conduct follow-up activities on the targeted participants for up to six months. The SMS reviews the following criteria to help identify problem cases:

- Total number of controlled substance claims – Identifies total number of continuous and concurrent (two or more at the same time) targeted drugs
- Total number of prescribers – Identifies unusually high number of concurrent controlled substance prescribers
- Total number of pharmacies – Identifies total number of distinct pharmacies that have filled targeted drugs
- Excessive utilization – Identifies plan participants who exceed the recommended utilization for targeted drug classes
- High cumulative daily dosage-evaluates acetaminophen (APAP) and morphine equivalent
- Geographic distribution of prescribers and pharmacies – Identifies patterns that indicate a member may be doctor or pharmacy shopping to avoid detection
- High total claim cost – Identifies potential misuse or abuse based on targeted drug costs.

In addition, we can work collaboratively with a client to refer a member case to:

- Medical case management for further monitoring or additional intervention
- The client's fraud investigation unit for additional investigation and intervention.

Our Safety and Monitoring interventions include regular profile monitoring and data sharing to meet CMS requirements for tighter drug utilization review (DUR) controls. Interventions can include implementation of member-specific utilization management edits (MSUME), and assisting CMS in anti-fraud reviews and reporting of individual cases to Medicare Drug Integrity contractors (MEDICS).

29. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	2013	2014 YTD
Book of Business			
Generic utilization rate	78.3%	80.9%	82.8%
Generic substitution rate	97.9%	98.5%	98.6%
North Dakota			
Generic utilization rate	82.40%	83.50%	84.20%
Generic substitution rate	98.20%	98.60%	98.60%

Source: CVS/caremark funded book of business, Maintenance Choice included in Mail. YTD 2014 represents Jan-Jun. North Dakota represents GDR and GSR of members with an address in North Dakota.

1.9.3 Trend Analysis

30. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:

a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs.

Confirmed

b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers.

Confirmed

c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.

Confirmed

31. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

CVS offers comprehensive trend analysis reporting including breakdowns of price inflation, utilization and drug mix. Recording is based on a rolling twelve month basis. Please see Attachment 6.

1.9.4 Specialty Drug Program

32. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs in Appendix D.

CVS Caremark Specialty Pharmacy provides a comprehensive prescription dispensing and clinical monitoring process for specialty pharmaceuticals. We provide individual support for your members throughout their course of therapy in order to help them better manage their conditions. The following details the process for each of your members.

- **Member Enrollment and Referral Receipt**

  Member and prescription information ("referral") is received by Specialty Customer Care, via fax, Internet, or phone. The information is sent by referral sources such as physicians, nurses, case managers, as well as members to be enrolled into our systems. The referral source then receives communication confirming that the referral was received (either by mail, fax, e-mail, phone, or online).

  Our staff works with the physician and member to collect any missing information necessary to proceed with prescription fulfillment. This information includes demographic and clinical information required to process a possible prior authorization, as well as to ensure the appropriateness and safety of the therapy.

- **Benefits Investigation and Plan Design Verification**

  Our staff will consult with NDPERS to complete the benefits investigation, which involves verifying the member's plan eligibility, facilitating collection of any necessary

information to process prior authorization, and determining the member's estimated financial responsibility.

Information gathered during the benefits investigation process allows us to communicate financial obligations to the member, as well as the outcome of a prior authorization, financial obligations, and next steps in prescription processing to both the member and physician.

- **Initial Member Assessment and Therapy-Specific CareTeam Support**

  The member is then assigned to a dedicated CareTeam, comprised of both clinicians and non-clinicians that will be responsible for the care and management of the member and the prescribed treatment. Upon receiving the completed member and prescription information, the CareTeam conducts an initial member assessment that includes a review of the member information against the prescription to ensure accuracy, efficacy, and safety (e.g. dosing, drug interactions, etc). Any issues identified are discussed and clarified with the physician.

  After the prescription is entered into the pharmacy fulfillment system, the member is then contacted to complete the initial assessment and arrange for delivery. At this time, our staff conducts an assessment of the member's ability to self-administer the medication or the need for coordination of nursing or other medication administration services. Our staff also provides an overview of the condition being treated, counseling on the prescribed therapy, its appropriate use, potential adverse reactions, signs, and symptoms of disease progression, appropriate medication storage, and the importance of adherence to treatment in optimizing therapeutic outcomes. Additionally, we review items to be included in the delivery such as the medication, supplies, and educational information including the New Member Packet to familiarize the member with our services, the drug therapy, disease state, support organizations, etc. The member is also provided information on how to contact us in case of emergency.

- **Quality Controlled Dispensing Process**

  With the creation of the referral's prescription label and other written material, the back end process of dispensing begins with the selection of the product and ancillary supplies. Our staff scans the appropriate product for dispensing in order to track lot numbers and manage inventory. In the event of product recall, our pharmacies can identify which members have received the recalled product quickly and work with the manufacturer, physician, and member to enact the appropriate corrective action and prevent any negative consequences to the member. Before moving into our shipping area, pharmacists verify that the **prescription is correctly labeled and selected.**

- **Confidential, Temperature-Sensitive Shipping**

  Our delivery procedures include maintaining the medication at an appropriate temperature until received by the member as well as utilizing shipping packages which are unmarked (e.g., as to contents or other confidential information). We can also offer specialty pharmacy clients a delivery choice. Members can have their medication shipped to their home, work, doctor's office, or the location of their choice, including select CVS/pharmacy locations. Because of the stability requirements and high-cost for the dispensed specialty medications, the primary method of product delivery is by UPS or Federal Express because of their high reliability and consistent results. Each morning an "Exception Report" is generated to determine the status of deliveries and to identify situations in which delays are expected. Members are contacted in the event of delays or lost packages.

- **Follow Up Assessment and Refill Coordination**

  Every member will have a follow up assessment and their refill coordinated prior to the exhaust date of their last fill. Our pharmacy system calculates all future refill dates, based on the quantity dispensed and prescription information. Approximately 5 to 7 days prior to the next shipment date, our pharmacy staff proactively contacts the member to conduct a follow-up assessment, including a discussion of the member's progress on therapy, identify any instances of non-compliance, discuss any potential issues or adverse effects that may be affecting treatment, review any changes to the member's medication regimen or dosing schedule, and arrange for the next delivery. Any identified therapy-related issue is communicated to the physician. Our pharmacy staff works with the member and/or physician to develop a plan to help the member overcome any treatment obstacles and maintain adherence to therapy.

Cost containment Programs

CVS Caremark specialty pharmacy programs are designed to help improve trend for NDPERS while improving the health of your members by maximizing the cost-effective use of specialty medications among your member population. With that in mind, we have developed several programs to help reduce the costs related to inappropriate use or overuse of specialty therapies.

- **Assay, Dose and Waste Management**

  We have established proven processes for proper assay, dose, and waste management. Our solutions help better control the quantity and quality of medication on hand to ensure the most efficient use and quality of high-cost specialty medications. Our key processes include:

  - Prescription review to ensure appropriate dose
  - Routine CareTeam outreach calls before each shipment:
  - Calls to educate members on proper drug storage, preparation and self-administration, safety concerns and drug interactions, inventory rotation, and expiration date verification
  - Calls to monitor drug supply, preventing drug wastage, or stockpiling
  - Lot-tracking to facilitate response to product recalls
  - Cold chain management, including temperature control from manufacturer to member to help ensure medication stability
  - Maintaining medication pedigree to ensure that all products are stored and shipped according to manufacturer guidelines.

  For certain therapies (e.g., hemophilia, respiratory syncytial virus, fertility) we use processes to help identify the most appropriate dosage to send at each dispense. We have a proprietary Synagis Dosing Management Tool to predict future dose requirements with 98.9% accuracy prior to injections and with 99.2% dose accuracy for the entire course of therapy. The CVS Caremark Specialty estimated dosing accuracy is superior to the "best guess" or CDC growth chart methods used by other distributors and allows our clients to realize significant savings per Synagis member. In the 2011-2012 RSV season, cost avoidance associated with our dose management program for Synagis was 7% of total Synagis spend.

  Additionally, our broad inventory of clotting factor and precise hemophilia therapy management helps our clients realize significant savings. We ensure a tight standard variance on an aggregated basis between the prescribed and dispensed dose. The industry standard is +/-10% for all dispenses aggregated while the CVS Caremark Specialty standard is < 2%. In 2012, we achieved an aggregated variance of 0.43%.

Compound Drugs

After the industry-changing mandatory NCPDP D.0 multi-ingredient compound claims processing rules in January 2012, we have noted the increase in compound claims processing trend for some clients. As such, we are taking a proactive, flexible approach to compound management and provide several plan design options for clients to address compound claim management. Based on recent industry dynamics and heightened concerns about the cost of multi-ingredient compounds, we are working closely with our clients to understand key drivers, address the root cause, and provide innovative solutions.

Our proactive and holistic approach provides clients with options that allow a tailored solution to ensure members get the most appropriate medication therapy based on clinical evidence rules while avoiding unnecessary expense to the plan. This approach encompasses the following ways to control high-cost compounds:

- Management of plan coverage of certain compound components, including questionably effective topical pain agents
- Application of smart edits for expensive bulk compounding ingredients;
- A robust and comprehensive audit approach to manage the retail pharmacy network
- Client-specific reporting on pharmacies and physicians, including reporting that demonstrates the provider's impact to the plan's cost
- Pharmacy provider agreement enforcement; and
- An option to implement a variety of utilization management parameters, applied either to all compounds, or compounds above a specified cost threshold.

All of these tools are ways that CVS Caremark is working with our clients to more effectively address the new trends in multi-ingredient compound claims processing.

1.9.5 Network Accessibility and Disruption

33. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?

Annually, CVS Caremark downloads all Medicare Part D member data from the CMS Website (it is updated and placed on the CMS Website in early January each year) and we use this data to run against our network using CMS pharmacy access standards. This reporting is completed to demonstrate our retail Medicare Part D pharmacy network meets required access standards.

Access Standards

Access standards can be required by the plan, required by state or federal regulations, or the plan can inquire as to what is the best access standard for its demographics. Typically, CVS Caremark complies with CMS access standards for Medicare Part D plans, which are:

- 90% of the member population should have access to at least one pharmacy within two (2) miles in urban areas
- 90% of the member population should have access to at least one pharmacy within five (5) miles in suburban areas
- 70% of the member population should have access to at least one pharmacy within 15 miles in rural areas.

Medicare Part D pharmacy access is measured in the aggregate to determine if the pharmacy network meets/exceeds access standards.

Frequency of Running an Analysis

Pharmacy access analysis can be performed on a quarterly or annual basis and also can be performed as requested by plans on a specific basis using the standard request process through your CVS Caremark Account Team.

For Part D plans, per CMS guidance and regulations provided in section 50.10 of Chapter 5 of the Prescription Drug Benefit Manual, a retail 90-day program must be provided to all Medicare Part D members, allowing them the ability to receive Part D drugs through a retail pharmacy rather than a mail service pharmacy. CVS Caremark offers a 90-day Medicare Part D Extended Days' Supply Network, which is a subset of the CVS Caremark Medicare Part D Network. Extended Days Supply pricing is applicable for non-specialty claims equal to or greater than 84 days' supply filled by a participating Extended Days' Supply Network Pharmacy. Claims greater than 83 days' supply can only be filled by an Extended Days' Supply network pharmacy.

34. Indicate which major chain stores are not included in your proposed network for NDPERS.

The CVS Caremark Medicare Part D National Network and Extended Days Supply (EDS-90) Network currently has nearly 68,000 pharmacies, including all major drug store chains and other large retail merchandisers, grocery chains, and independent pharmacies, providing broad national coverage and excellent access.

The network proposed is based on the approximate number of network pharmacies as of the date of this proposal. Pharmacy network participation will vary over time and CVS Caremark does not guarantee the approximate number of network pharmacies.

1.9.6 Medicare Part D

35. Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. 800-Series EGWP, Direct-Contract EGWP).

Through our existing relationship with ClearStone Solutions, BCBSND is confident that it will continue to provide compliant, quality Medicare Part D coverage to the Medicare eligible retiree members of NDPERS.

ClearStone Solutions
ClearStone, in conjunction with its vendors, provides best-in-class integrated administrative services for government programs, including consulting and program design, program management, cost management and quality solutions. ClearStone has achieved a CMS Star Rating of 5 Stars for 3 of the past 4 years, including a recently announced 5 Star rating for the current plan year.

Two key vendors working with ClearStone are TMG Health, Inc. and CVS Caremark.

TMG Health
TMG Health is a leader in Medicare Advantage and Part D Business Process Services, administering more than 30 plans with 2 million-plus Medicare and Medicaid members, 20 million health claims, hundreds of thousands of enrollments and 3.5 million service calls annually throughout all 50 states. Clients working with TMG receive access to best-practices based on its experience in serving large populations, ongoing information technology maintenance and upgrades to assure best-available technologies. TMG also has a deep commitment to meeting CMS requirements for transaction services. TMG is a subsidiary of Health Care Service Corporation (HCSC), made up of four Blue Cross and Blue Shield plans.

CVS Caremark
CVS Caremark has been providing pharmacy benefit management and related services in support of its clients in the Medicare Part D program since the inception of the Part D program in 2006. CVS's continual growth impact its clients positively; its size and experience have resulted in decreased pharmacy spend, increased cost savings, and the highest levels of service, care and performance.

CVS supports both PDP and MAPD clients and provide a comprehensive array of services in the Medicare marketplace, ranging from Medicare Part D enabling core adjudication and PBM processing to a complete set of specialized Medicare Part D administrative services.

Leadership and support of Medicare Part D programs is a corporate priority for CVS Caremark, and they have invested heavily in the infrastructure, knowledge, and personnel required to effectively meet the needs of plans in the complex and evolving Medicare arena. Their service offerings combine the operational excellence of CVS Caremark with unmatched innovation and thought leadership to provide best-in-class Medicare services to their clients. A total investment of over $50 million has been made by CVS in its Medicare program operations, and they have committed to continuing to invest in Medicare Part D and RDS program support services to ensure compliance with ongoing regulatory changes and to further enhance the services that they provide.

36. How many EGWP plans does your firm manage?

Group MedicareBlue Rx is offered to 170 employer groups. As of 1/1/2015, Group MedicareBlue Rx will also be able to leverage the wealth of EGWP knowledge that CVS/Caremark brings in their experience with 270 EGWP clients.

37. How many members participate in the EGWP plans that you service?

Group MedicareBlue Rx membership as of 9/1/14 – 45,696 enrollees. As of 1/1/2015, Group MedicareBlue Rx will also be able to leverage the wealth of EGWP knowledge that CVS/Caremark brings in their experience with approximately 4,000,000 EGWP members.

38. Describe how Out Of Pocket ("OOP") and True Out Of Pocket ("TrOOP") expenses are applicable to EGWP PDP Participants for 2014 and the differences, if any, that can be expected in 2015 and beyond.

We comply with CMS requirements for calculating claims and TrOOP amounts, including the requirement that assistance provided to members by AIDS Drug Assistance Programs and I/T/U facilities will now count towards TrOOP. CVS Caremark maintains an indicator on the drug file for Medicare Part D drug status. If the drug is considered to be a Part D drug, meaning that it is considered to always be covered under Part D or is a potential Part B or Part D drug that is determined to be Part D, the member pay amount is assumed to be paid by the member, and is applied towards the TrOOP. The covered drug cost – meaning the sum of the applicable ingredient cost, dispensing fee, sales tax, and/or vaccine administration fee on the claim – is applied toward the member's total covered drug spend.

39. Describe your understanding of the restrictions placed on EGWP + Wrap plans by CMS.

CVS follows all CMS guidance regarding EGWP administration, including but not limited to Chapters 3 and 12 of the Medicare Prescription Drug Plan Manual, CMS Medicare Marketing Guidelines, as well all other CMS guidance chapters which apply to Part D plans overall. As an EGWP plan, Group MedicareBlue Rx leverages many waivers/exceptions outlined in CMS Part D guidance which allow for greater flexibility and ease of administration for an employer group, including but not limited to:

- Expanded processing windows for valid EGWP enrollment/disenrollment requests
- Use of Special Election Period available to all enrollments into and disenrollment from, Part D EGWP plans such as Group MedicareBlue Rx

- Support of employer group Part D enrollment and disenrollment mechanisms
- Suppression of unnecessary member outreach regarding Retiree Drug Subsidy benefit no longer being offered by employer group
- Flexibility in member material development, material exclusions, CMS approval requirements and timing of issuance

40. Please describe the Part D enrollment process under your PDP: Are you able to automatically group-enroll members into Medicare Part D?

NDPERS current Part D program is bundled with the health product. BCBSND will continue to support this automatic enroll option. BCBSND can support elective enrollment processes, including paper/online enrollments.

41. Please describe your Part D disenrollment process for both voluntary and involuntary disenrollments.

Group MedicareBlue Rx follows CMS guidance regarding required components of a written voluntary disenrollment request from an enrollee, allowable disenrollment effective dates for disenrollment from a Part D EGWP, and processing timeframes for those complete voluntary disenrollment effective dates. Involuntary disenrollments, such as disenrollment due to death, non-payment of premium, and loss of Medicare eligibility, are processed per CMS guidance, as well. Group disenrollments, in which the group determines that a retiree no longer meets group eligibility criteria, are processed by Group MedicareBlue Rx following CMS required group notification to impacted members of the prospective disenrollment by the group.

42. Please describe the Part D enrollment process under your PDP: Are there differences for members who "aged in" to Medicare while enrolled in your plan, and members who are Medicare-eligible when they first enroll in your plan?

The current program is an automated enrollment process determined by NDPERS. BCBSND will continue to support this model. For BCBSND, there are no variations for members that "age in" and members that are Medicare-eligible when they first enroll.

43. Describe the changes in the plan design described herein, if any, that would be required to maximize collection of all available subsidies, reinsurance, discounts or rebates.

Group MedicareBlue Rx administers the current NDPERS Part D EGWP design requested and can continue to provide support in the future.

44. Describe your systems capabilities that allow coordination of benefits between Medicare Part D and a "wrap-around" plan at the point of sale. How is this handled for members who are enrolled in another Medicare Plan with a different PDP?

- CVS Caremark PDS supports and follows all CMS guidelines and regulations along with NCPDPs defined COB process. This process has several key components:
- The beneficiary enrolls into a Medicare Part D Plan. Upon enrollment, and annually thereafter, the member is surveyed by the Medicare Part D sponsor for information about any additional payers they may have.
- Information about other payers is sent to CMS, which compiles all available insurance information on the beneficiary. CMS returns information about other payers to the Medicare Part D plan in the form of a COBC file.
- The Medicare Part D plan provides the COBC file to CVS Caremark PDS (for plans who manage their own enrollment process). CVS Caremark PDS loads the COBC data information for use in claims processing: as a pharmacy submits a claim, information from the COBC file is returned in the claim response, indicating if other coverage is available. This is commonly referred to as "ADDINS" messaging. Based upon this messaging, the pharmacist submits additional claims to other payers. The beneficiary is then asked to pay his/her final cost share.

- Any supplemental payments are routed through the TrOOP facilitator, who formats and transmits an N1 transaction back to CVS Caremark PDS. The N1 indicates how much the supplemental payer paid on behalf of the beneficiary.
- An N1, when received, is matched back to its Medicare Part D claim. At the time the N1 is posted, the COBC data is read to determine if the supplemental payment is qualified or unqualified. Qualified payer's payments on behalf of a beneficiary are applied toward the beneficiary's TrOOP balance; unqualified payer's payments are not. If no COBC data is found, the supplemental payer is assumed to be unqualified and the N1 is marked as "Unmatched."
- CVS Caremark PDS runs a monthly update process that attempts to compare unmatched N1 records to recently loaded COBC files; as matches are made, claim adjustments are also created. Once that process is complete, a separate job runs that provides files of any remaining unmatched N1 transactions to Medicare Part D plans. The Part D plans then use this information to survey members about other health insurance they may have.

CVS/Caremark provides our clients flexible solutions for coordination of benefits (COB) to support multiple payor transactions.

This COB process requires that the client identify those members who have a secondary benefit, and the client must provide a flag on the eligibility files indicating those members who have secondary coverage. This secondary coverage flag indicates effective dates, so the COB rules apply only as applicable to the date of service on the claim.

In addition, our COB calculation methods adhere to NCPDP standards for requirements and capabilities.

Single Transaction COB Option (STCOB)

With our single transaction COB processing option, a member may enroll in multiple prescription benefit plans within the same client. The pharmacy submits a single claim transaction and CVS/Caremark adjudicates the prescription against both the primary and secondary plans in the proper order. A single response is returned to the pharmacist, who collects the appropriate member cost share. This type of COB processing requires that a client identify a member's primary and secondary coverage and provide a link via the eligibility file to accommodate the single transaction. Claims will always be adjudicated in accordance with plan design parameters defined by NDPERS.

Paper Claims

As part of the paper claim process, we will verify that required documentation is provided with the claim form by the member (i.e., primary and secondary coverage details) and enter the appropriate information into our system. The claims processing system will then adjudicate the claim according to the client's plan design. All back-end client reporting and billing relative to claims submitted would detail actual claims experience.

Program fees

We do not charge additional fees for the processing of a point-of-sale coordination of benefits claim.

45. How often do you review the formulary under your Medicare plans?

CVS/Caremark maintains the 2015 NDPERS Medicare Part D formulary on a weekly basis, reviewing all new drugs that launch. Line extensions of existing formulary drugs are added promptly and all new entities are referred to our P&T Committee process. Once approved by our National P&T Committee, these new products are added to the adjudication system and to the HPMS files upon receipt of a proxy NDC/RxNorm CUI number on a formulary reference file update. Formulary PDF files are updated with upcoming changes, to post online.

Multiple check points in our process ensure that each month's formulary changes are correctly captured and coded into the adjudication platform. In addition, our formulary management tool has audit reports that are always reviewed by a pharmacist before the files are exported to CMS.

Negative change notices are included in all member EOBs at least 60 days before the effective date of the change. We include CMS-approved negative formulary changes in the upcoming formulary change section of the Explanation Of Benefits. In accordance with CMS guidance, members that receive EOBs 60 days before the change effective date and who have the target drug in claim history within the last 120 days (or from start of calendar year, whichever is greater) are considered notified. Members who do not receive EOBs 60 days before the change is effective but have history of a negatively impacted drug during the same time periods as above, are mailed a stand-alone notice of change. Additional mailings are sent to new starts to therapy identified prior to the effective date of the change and an additional 60 day grace period is provided. A secure Web site is also available to obtain copies of member EOBs. Reprints of EOBs are available upon member request.

46. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are the members identified, and how are they informed of their enhanced benefits?

Group MedicareBlue Rx receives daily CMS notification of member LIS status via TRR, and member is notified by Group MedicareBlue Rx in writing within CMS required timeframes.

47. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are these members reported to the plan sponsor?

Direct subsidy and Low income premium subsidies are paid by CMS monthly and these amounts would be distributed to BCBSND monthly along with sufficient detail to incorporate the NDPERS portion into their self-insured billing process.

48. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How often are premium refunds issued to the plan sponsor?

Low income premium subsidy dollars for this group would be distributed to BCBSND on a monthly basis along with the other fully insured business. Group MedicareBlue Rx would separately provide them with the portion of those dollars related to NDPERS on a monthly basis to incorporate into the self-insured billing for which BCBSND would be responsible.

49. Provide a copy of the proposed GWP formulary.

Please refer to Attachment 22 for a copy of the CVS Formulary for the Part D program.

50. Describe the processes to collect funding from the following sources the EGWP PDP, including the timing and frequency with which such funds would be submitted to PERS.

a. Direct Subsidy

b. Coverage Gap Discount Program

c. Catastrophic Reinsurance

d. Low Income Cost Share Subsidies

e. Low Income Premium Subsidies

f. Manufacturer Rebates

Direct subsidy and Low income premium subsidies are paid by CMS monthly and these amounts would be distributed to BCBS ND monthly along with sufficient detail to incorporate the NDPERS portion into their self-insured billing process.

Reinsurance, and Low Income Cost Share subsidies are paid by CMS annually and these amount would be distributed to BCBS ND annually along with sufficient detail to incorporate the NDPERS portion into their self-insured billing process. Note that the reinsurance and Low Income Cost Share payment from CMS is generally received approximately eleven months after the end of each plan year.

Coverage Gap settlements are received from manufacturers throughout the year and would be distributed to BCBS ND four times each year along with sufficient detail to incorporate the NDPERS portion into their self-insured billing process.

Rebates will be distributed quarterly by our Pharmacy Benefit Manager and the ND portion of these amounts would be distributed to BCBS ND quarterly along with sufficient detail to incorporate the NDPERS portion into their self-insured billing process.

1.10 PBM Financials

51. **Bidder confirms the use of Medispan or another nationally available and nationally recognized reporting service of pharmaceutical drug information in determining the classification of drugs (e.g. legend vs. over the counter, generic vs. brand, single source vs. multisource) for the purposes of plan adjudication and the calculation of discount and rebate guarantees.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

52. **Bidder confirms that the discount guarantees proposed represent Medi Span/First Databank post-settlement pricing.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

53. **Bidder confirms that for the purposes of reconciling guarantees, proposed AWP discount will be applied to each claim individually and shall not mean "Average AWP" nor "Effective AWP"**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

54. **Bidder confirms Zero Balance Due claims will be reconciled at the guaranteed AWP component discount and shall not be counted as AWP-100%**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

55. **Bidder confirms members will pay the lowest of the copay, "Usual and Customary" (U&C), or discounted ingredient cost plus dispensing fees at retail/mail.**
    a. **Confirmed**
    b. **Not confirmed, see explanation** – See below

    Not confirmed. Members will pay the lesser of the copay or discounted ingredient cost plus dispensing fee.

56. **Bidder confirms that specialty pricing will include ingredient cost discounts by drug with a minimum effective discount guarantee for all brand specialty drugs and a minimum effective discount guarantee for all specialty generic drugs.**

    a. **Confirmed**

    b. **Not confirmed, see explanation** – See below

    Not confirmed. Specialty drugs will be priced on a product level basis

57. **Bidder confirms that pricing for Specialty Drugs added to the list on or after the date the proposal is submitted will not automatically default to a minimum discount in the therapeutic class.**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed. CVS/Caremark and ClearStone, on behalf of NDPERS, will collaborate on the pricing and addition of new drugs to the Specialty Drug list. Should the Parties be unable to reach agreement as to an alternate price, ClearStone shall pay, or effectuate payment to, PBM for new Specialty Drugs at the lesser of MAC or AWP- 16% + $0.00 Dispensing Fee.

58. **Bidder confirms that generic discount guarantees include the combined MAC and non-MAC pricing**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

59. **Bidder confirms retail and mail discount guarantee calculations should exclude specialty/biotech drugs, compound drugs, and vaccines.**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

60. **Bidder confirms that overages in any financial guarantee may not be used to offset any shortfalls in another financial guarantee. This includes guarantees within the same delivery channel (e.g.: surplus in retail brand discount will not be used to offset shortfall in retail generic discount)**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

61. **Bidder confirms that dispensing fees proposed are per claim maximums and not averages.**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

62. **Bidder confirms proposed financial guarantees are not tied to aggregate days' supply utilization at retail or mail (eg: rebates will not be impacted if the aggregate retail day supply at the end of the reconciliation period is 23 days instead of 30 days).**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

63. **Bidder confirms that after two years of the contract, PERS will have the right to solicit pricing from the market. Should the results indicate a 2% improvement opportunity, PERS will have the opportunity to re-negotiate pricing.**
    a. **Confirmed**
    b. **Not confirmed, see explanation** – See below

    Not confirmed. Market Check rights are held by ClearStone on behalf of participating groups, including NDPERS.

64. **Bidder confirms postage increases will not be passed on to PERS.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

65. **Bidder confirms that MAC pricing will be applied to generics dispensed at mail.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed.

66. **Bidder confirms proposed MAC list includes minimum of 95% of all generic drugs.**
    a. **Confirmed**
    b. **Not confirmed, see explanation** – See below

    Not confirmed. The CVS/Caremark MAC list applicable to NDPERS represents approximately 88-90% of generic claims.

67. **Bidder confirms that only one (1) MAC list will be used for PERS at retail and mail.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed. We confirm that the MAC list of products for NDPERS is identical for all programs and delivery channels.

68. **Bidder confirms that drug status as "Multi-Source Brand", "Single-Source Brand", "Brand Drug with Generics", and "Generic" will be used based on Medi-Span indicators.**
    a. **Confirmed**
    b. **Not confirmed, see explanation**

    Confirmed. We use multiple indicators from Medi-Span Master Drug Database (Medi-Span), and their associated files, as updated regularly by Medi-Span, or another nationally available reporting service of pharmaceutical drug information in determining the classification of drugs (e.g., legend vs. over the counter, brand vs. generic, single-source vs. multisource).

69. **Bidder confirms that all "Generic" drugs will be included in the "Generic Discount Guarantee" for purposes of guarantee reconciliation (this includes all "Single-Source Generics", generics with limited availability, and generics that are subject to patent litigation).**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

70. **Bidder confirms they are currently certified by CMS as an EGWP Administrator**

    a. **Confirmed**

    b. **Not confirmed, see explanation**

    Confirmed.

1.11 Economy to be Affected

71. **Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?**

    BCBSND has offices in North Dakota that will manage the overall account. The administration of the program will be done by TMG in Pennsylvania, Clearstone in Minnesota and CVS/caremark in Rhode Island.

72. **Please identify the number of employees you will employ in North Dakota pursuant to this contract.**

    BCBSND employs over 800 employees in the state of North Dakota to service our 500,000 members. NDPERS represents over 62,000 of our members or about 12% of our book of business. BCBSND will not require the addition of employees in the state based on being the incumbent carrier for the Part D product.

73. **Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will spent outside the state.**

    Over 80% of the work specific to the Part D program is being done outside of the state of North Dakota. BCBSND does provide account management and limited customer service through our North Dakota based employees.

1.12 Fiduciary Responsibility

74. **Confirm your organization will assume full fiduciary responsibility for claim determination.**

    Confirmed.

    BCBSND will serve as the claim fiduciary for this Self Funded Agreement.

Appendix M:
Sample Business Associate Agreement

Appendix M:

Sample Business Associate Agreement (BAA)

BCBSND has received the Sample Business Associate Agreement. BCBSND is including a redlined version of this document in Appendix F. We are including a redlined BAA with the Minimum Contract Provisions for NDPERS consideration.

Appendix N:
Pharmacy Experience

Appendix N:

Pharmacy Experience

Blue Cross Blue Shield of North Dakota acknowledges receipt of the Pharmacy Expereince.

Ingredient Cost Fact Sheet

PRIME THERAPEUTICS®

Fact Sheet | Study finds Prime has lowest ingredient cost per prescription

Pharmacy benefit arrangements are notoriously complicated. It can be tricky to distinguish drug costs from program expenses. Rebates and "spread" pricing arrangements can obscure actual costs and the accuracy of reported savings. And while drug trend can show how much and how quickly costs are growing, it can't reveal how those actual costs compare.

Ingredient cost measure offers a clearer view into pharmacy spending
By stripping away administrative and other program-related fees, ingredient cost offers a clearer view into pharmacy spending. With rebates included, the "net" ingredient cost per prescription provides a precise picture of the cost of drugs used by plan members.

Because it is based on actual drug costs, ingredient cost is useful in monitoring plan performance. It is also the best way to compare the performance of different pharmacy benefit managers (PBMs).

Independent study finds Prime and its clients outperform the industry in ingredient cost
Prime commissioned a study of the prescription drug costs of leading PBMs. Generic rates, network discounts and ingredient costs were compared against those of Prime's commercial book of business.

Key Results

The study found Prime had a ***$6.74 lower net ingredient cost*** *per prescription than the competitor average.*

Over the past three years, Prime has ***consistently*** *achieved lower net ingredient costs.*

The study found that Prime's net ingredient cost was the lowest – beating the competitor average by more than $6 per prescription. Analysis over three years showed that Prime's net ingredient costs were consistently the lowest (Figure 1).

Fig. 1 Net ingredient cost per prescription (Rx)

	Competitor avg.	Prime	Savings per Rx
2011	$61.77	$55.86	$5.91
2012	$62.13	$58.50	$3.63
2013	$63.58	$56.84	$6.74

Low net ingredient costs a result of Blue + Prime collaboration
Prime works with several leading Blue Cross and Blue Shield Plans across the nation. These plans hold strong positions within their regional health care markets. Prime focuses this market dominance and uses it to negotiate extremely competitive discounts with pharmacies and manufacturers. Blue Plans also influence key formulary, utilization management and benefit decisions that help control drug costs.

Trust, alignment and cooperation between Blue Plans and Prime help make medicine more affordable. On average, Blue + Prime members and clients collectively saved $6.74 (over what they might have paid using a competing benefit manager) on every prescription in 2013.

©Prime Therapeutics LLC 12/13

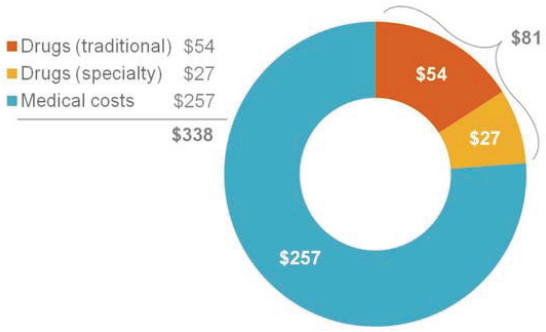
Generics help generate low ingredient costs
High generic dispensing rates and strong generic discounts contribute to Prime's low ingredient costs. Competitors were found to have higher discounts on traditional brand-name drugs. But with ever-smaller numbers of brand-name drugs being dispensed, brand discounts did not alter the results.

Drug costs a growing factor in health care spending
Prescription drugs are a key part of total health care costs. Drugs account for nearly one-quarter of all health care spending (Figure 2).[1]

Health spending in the United States has risen quickly over the past several years, and is expected to continue to grow. Drug spending is increasing as more high-cost specialty drugs are being used to treat a wide range of chronic illnesses.

Plan sponsors are looking to effective pharmacy benefit management as a way to tame growing health care expenses. And one of the easiest ways to cut spending is to *start with the lowest costs possible.*

Fig. 2 Average health care costs per member per month



Affordable medicine is part of Prime's purpose
Keeping costs down is just one of the ways Prime helps people get the medicine they need to feel better and live well. Prime follows a straightforward approach to deliver lower costs in a high-quality environment. We use our unique connections with Blue Plans to manage pharmacy in the context of total health. These efforts make a big difference in our members' and clients' health care costs.

To learn more about how Prime fulfills its commitment to make medicine more affordable, talk to your Prime representative or visit PrimeTherapeutics.com today.

About the study

Prime commissioned an independent third-party consultant to study the prescription drug costs of three national stand-alone PBMs and one captive PBM. Using data from the consultant's proprietary data warehouse, the study compared blinded data against Prime's full-service commercial book of business.

The study looked at the first quarters of 2011 through 2013. To ensure consistency, all prescriptions were classified as brand-name or generic based on Medi-Span definitions. Claim counts were adjusted to reflect consistent days' supply.

CPAs & BUSINESS ADVISORS

Independent Auditor's Report

To the Board of Directors
Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota
Fargo, North Dakota

Report on the Financial Statements
We have audited the accompanying statutory statements of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota (the Company), which comprise the statutory statements of admitted assets, liabilities, and policyholder surplus as of December 31, 2013 and 2012, and the related statutory statements of operations and changes in policyholder surplus, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting practices prescribed or permitted by the North Dakota Insurance Department. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles
As described in Note 1 to the financial statements, the financial statements are prepared using accounting practices prescribed or permitted by the North Dakota Insurance Department, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the statutory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles
In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota as of December 31, 2013 and 2012, or the results of its operations or its cash flows for the years then ended.

800 Nicollet Mall, Ste. 1300 | Minneapolis, MN 55402-7033 | T 612.253.6500 | F 612.253.6600 | EOE

Opinion on Regulatory Basis of Accounting
In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and policyholder surplus of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

Change in Accounting Principle
As discussed in Note 1 to the financial statements, during 2013 the Company changed its method of accounting for its pension and postretirement benefits as required by Statements of Statutory Accounting Principles (SSAP) No. 92 and 102. Our opinion is not modified with respect to this matter.

Emphasis of Matter
As further discussed in Note 16 to the financial statements, the Company's wholly owned subsidiary, Noridian Healthcare Solutions, LLC, entered into an agreement for consensual exit from a significant contract with the State of Maryland, through the state's health insurance web-based marketplace. The Company is a party to this exit agreement with the State of Maryland. Management's assessment of the likelihood that claims will be made in conjunction with this exit and the probability of loss is discussed in Note 16 to the financial statements. Our opinion is not modified with respect to this matter.

Note 1 - Summary of Significant Accounting Policies

Nature of Operations

Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota (Company or NMIC), a member of the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield plans, is incorporated as a mutual insurance company under the North Dakota Nonprofit Corporation Act and is subject to regulation by the North Dakota Insurance Department (Department).

The Company is organized to carry any lines of insurance now or hereafter authorized by the laws of the State of North Dakota and has the ability to market products in states other than North Dakota. The Company provides individual, group and association health insurance and pharmaceutical benefits under traditional and preferred provider organization contracts. The Company contracts with hospitals, physicians and other providers of health care in order to obtain discounts for subscriber members.

The Company also performs administrative services such as billing, collection and claim processing for other Blue Cross and Blue Shield plans, various governmental agencies and various fully and modified self-insured groups within the State of North Dakota. This administrative services business represents a significant portion of their business.

Basis of Financial Reporting

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the North Dakota Insurance Department.

The North Dakota Insurance Department recognizes only statutory accounting practices prescribed or permitted for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the North Dakota Insurance Law. The National Association of Insurance Commissionsers (NAIC) Accounting Practices and Procedures Manual and statutory accounting principles (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of North Dakota. The following are some of the significant differences between NAIC SAP and accounting principles generally accepted in the United States of America (GAAP).

a) Investments in bonds are generally carried at amortized cost, while under GAAP, they are carried at either amortized cost or estimated fair value based on their classification according to the Company's ability and intent to hold or trade the securities;

b) Acquisition costs, such as commissions and other costs related to acquiring new business, are expensed as incurred, while under GAAP, they are deferred and amortized to income as premiums are earned;

c) NAIC SAP requires an amount be recorded for deferred taxes, however, there are limitations as to the amount of deferred tax assets that may be reported as "admitted assets"; and a federal income tax provision is required on a current basis for the statutory statements of operations;

d) Assets are reported under NAIC SAP at the "admitted asset" value and "non-admitted" assets are excluded through a charge against unassigned surplus, while under GAAP, "non-admitted assets" are reinstated to the balance sheet, net of any valuation allowance;

e) Comprehensive income and its components are not presented in the statutory financial statements;

f) Wholy-owned subsidiaries are reported under NAIC SAP as an investment, while under GAAP, wholly-owned subsidiaries are required to be consolidated;

g) The Defined Benefit Plan is currently accounted for under the guidelines of Statement of Statutory Accounting (SSAP) 102 and 92 for NAIC with certain limitations as to whether assets are admitted, as opposed to Accounting Standards Codificaton (ASC) 715 for GAAP accounting.

The State of North Dakota has adopted certain prescribed accounting practices, which differ from those found in NAIC SAP. Specifically:

1. Electronic data processing systems are allowed to be depreciated over a period not to exceed five years whereas under NAIC SAP the period cannot exceed three years (see Note 6),
2. North Dakota Century Code 26.1-05-19(33), commonly referred to as the "basket clause," provides for "Loans, securities, or investments in addition to those permitted in this section, whether or not the loans, securities, or investments qualify or are permitted as legal investments under its charter or under other provisions of the laws of this state. The aggregate admitted value of the Company's investments under this section may not at any one time exceed seven percent of the Company's admitted assets, or the amount equal to the Company's policyholder surplus in excess of the minimum policyholder surplus required by law, whichever is less,"; and
3. North Dakota single state domestic insurers are permitted to account for long-term certificates of deposit (CD's) as cash under certain conditions described in the North Dakota Department of Insurance Bulletin 2003-3 and will exempt CD's generally from the NAIC Securities Valuation Office (SVO) filing requirement. In compliance with this permitted practice, $3,000,000 in certificates of deposit have been reclassified from Schedule D – Investments to Schedule E – Cash as of December 31, 2013 and 2012. The Commissioner of Insurance has the right to permit other specific practices, which deviate from prescribed practices.

A reconciliation of the Company's net income and policyholder surplus between NAIC SAP and practices prescribed by the North Dakota Insurance Department is shown below:

	2013	2012
Net income (loss), North Dakota Insurance Department prescribed practices	**$ (80,788,000)**	$ 22,093,000
Depreciation of EDP equipment	**(1,187,000)**	(173,000)
Net income (loss), NAIC SAP	**$ (81,975,000)**	$ 21,920,000
Policyholder surplus, North Dakota Insurance Department prescribed practices	**$ 199,088,000**	$ 271,967,000
Depreciation of EDP equipment	**(4,210,000)**	(3,023,000)
Invested assets-basket clause	**(9,442,000)**	(4,681,000)
Policyholder surplus, NAIC SAP	**$ 185,436,000**	$ 264,263,000

Revenue and Expenses

Premiums are recognized as revenue over the premium-paying period of the policies. Claims are recognized as expenses as incurred. Expenses, including acquisition costs related to acquiring new business, are charged to operations as incurred. Investment income is recognized as earned, net of related investment expenses.

Cash and Invested Assets

Investments in bonds not backed by other loans are carried at amortized book value using the scientific method with the exception of bonds with a NAIC rating of 3 through 6, which are carried at the lower of amortized book value or market. Loan-backed bonds are carried at amortized cost using the retrospective method.

Unaffiliated common stocks are carried at market value as determined using market prices published by the NAIC SVO.

For investments carried at market value, the related unrealized appreciation or depreciation is reflected in policyholder surplus. For investments carried at amortized book value, cost is adjusted for amortization of premiums and accretion of discounts, which are recognized as adjustments to interest income. Realized investment gains and losses determined on the specific identification basis are included in other income in the statement of operations.

The Company's investments in unconsolidated subsidiaries are carried at their underlying audited generally accepted accounting principles equity value in accordance with SSAP No. 97 – *Investments in Subsidiary, Controlled, and Affiliated Entities* and SSAP No. 48 – *Joint Ventures, Partnerships and Limited Liability Companies*. The Company's investment in Noridian Healthcare Solution, LLC (NHS) is then reduced for the effect of remaining non-admitted assets that had been transferred to NHS upon original formation of the entity per agreement with the North Dakota Insurance Department. As of December 31, 2013 and 2012, remaining non-admitted assets relating to the investment were $0 and $110,000, respectively. The Company's investment in its wholly owned subsidiary Twenty First Century Information Solutions (Twenty First) is carried based on the statutory equity of CoreLink Administrative Solutions, LLC of which Twenty First owns 50% and MDdatacor, Inc. (MDD) of which Twenty First owns 100%. The Company's share of unconsolidated undistributed earnings is reflected in policyholder surplus. Earnings from the subsidiaries are only recognized as income by the Company when received in the form of dividends or distributions.

Cash equivalents are highly liquid investments with a maturity of three months or less when purchased. Accounts at each institution are insured by the FDIC up to $250,000. At times during the year, the Company's balance exceeded this limit. The Company does not consider this a material risk.

Certificates of deposit are considered to be cash, provided 1) the issuer of the certificate of deposit is a solvent bank, trust company, savings and loan association, or credit union that is insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration; 2) the aggregate amount of funds deposited by the domestic insurance company, as certificate of deposits or in any other form, with any single issuer does not exceed $250,000; and 3) the certificate of deposit is payable only to the named depositor which is the domestic insurance company. If these conditions do not exist the certificates of deposit are classified as bond investments.

Short-term investments, which mature in one year or less, are carried at book value, which approximates market value.

Real estate investments are carried at cost, less accumulated depreciation and encumbrances. Depreciation of investment properties is calculated, on a straight-line method, over an estimated useful life of 20 to 50 years for buildings, 15 to 50 years for building improvements and 20 years for land improvements.

Fair Value of Financial Instruments

The Company recognizes and measures assets and liabilities required to be recorded at fair value using the framework prescribed by SSAP No. 100, *Fair Value Measurements*.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Investment Income

Investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis and dividends are recorded as earned at the ex-dividend date. Accrual of income is suspended for bonds that are in default or when the receipt of interest payments is in doubt. Realized capital gains and losses are determined on a specific identification basis and recorded in operations.

Premium Income

Subscriber fees are billed in advance of their respective coverage periods and recorded as uncollected premiums until collected. Income from such fees is recorded as earned during the coverage period. Premiums received in advance represent the portion of fees, which will be earned in future periods, which varies from one month to one year depending upon the due date and the number of months of coverage provided by these fees.

Policy and Contract Claims

Aggregate reserves for policy contracts have been adjusted to reflect claims incurred but unpaid at year-end, which includes claims in process, unreported claims, claims of currently hospitalized patients and premium deficiency reserve. The amount of this liability has been estimated by the use of accepted actuarial methods utilizing statistics developed from prior claim payment experience. Estimated claim processing expenses relating to incomplete and unreported claims are being accrued currently as an expense. Differences between actual and estimated claims are charged to operations in the year that the differences, if any, become known.

Premium Deficiency Reserves

When the expected claim payments and administrative expenses exceed the premiums to be collected for the remainder of the contract period, a premium deficiency reserve is recorded for the deficiency, with a corresponding charge to operations. The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.

Income Taxes

The Company's federal income tax return is filed on a consolidated basis with NHS, Noridian Insurance Services, Inc. (NISI), Twenty First and MDD. The consolidated group's liability is apportioned among the members in accordance with the ratio which that portion of the consolidated taxable income bears to the consolidated taxable income based upon separate return calculations with current credit for net losses. Intercompany tax balances are typically settled annually in the third quarter. The Company includes 50% of the taxable income/loss of CoreLink Administrative Solutions, LLC in the calculation of income tax due.

The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred. Under normal circumstances, the Company is no longer subject to Federal tax examinations by tax authorities for years before 2010.

The Company undergoes an annual analysis of various tax positions, assessing the likelihood of those positions being upheld upon examination with relevant tax authorities.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for statutory and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. The tax effect of deferred tax assets and liabilities and the changes between years is reflected in policyholder surplus.

SSAP No. 101 – *Income taxes – A Replacement of SSAP No. 10R and SSAP No. 10,* is effective for 2012 interim and annual financial statements and beyond. The new standard included revised guidance for tax contingencies, and the non-elective deferred tax asset admissibility test along with significant modifications to the deferred tax assets admissibility test and disclosure modifications. A change resulting from this adoption was accounted for prospectively and reflected as a change in accounting principle in accordance with SSAP No. 3 – *Accounting for Changes and Corrections of Errors*. The adoption of this pronouncement in 2012 did not have a material impact on the financial statements.

Data Processing Equipment

Data processing equipment and operating and nonoperating software are carried at cost less accumulated depreciation. Depreciation expense is computed using the straight-line method over the lesser of the estimated useful life of the related asset or five years for EDP equipment and operating system software. Depreciation expense for nonoperating system software is computed using the straight-line method over the lesser of its estimated useful life or five years as permitted by the North Dakota Insurance Department.

Non-Admitted Assets

Certain assets, primarily prepaid pension assets, furniture and equipment and nonoperating software are designated as "non-admitted" under statutory reporting requirements. These assets are excluded from the statutory statements of admitted assets, liabilities and surplus by adjustments to unassigned surplus.

Expense Reimbursements

The Company allocates its operating expenses by various lines of business to determine the expense reimbursements due from affiliates where the Company provides services or acts as a fiscal intermediary, from other federal health programs, and other cost based reimbursable lines of business.

Advertising Costs

All advertising and promotion costs are expensed when incurred. Advertising expense amounted to $2,623,000 and $2,875,000 for the years ended December 31, 2013 and 2012, respectively.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Material estimates susceptible to significant change include:

- Aggregate reserves for policy contracts;
- Deferred tax assets and liabilities;
- Pension and postretirement benefits;
- Fair market value of investments;
- Cost allocation and;
- Property, plant, and equipment depreciation.

Current Vulnerability Due to Certain Concentration

The Company operates in a business environment, which is subject to various risks and uncertainties. Such risk and uncertainties include, but are not limited to, interest rate risk, market risk, credit risk and legal and regulatory changes.

The Patient Protection and Affordable Care Act (PPACA) signed into law on March 23, 2010 and largely upheld by the U.S. Supreme Court on June 28, 2012, continues to transform the North Dakota health insurance marketplace as well as the Company's operations in several key ways. A large percentage of the uninsured will be eligible for coverage and subsidies will support the purchase of insurance for many. Medicaid eligibility can be expanded at the discretion of each state. New regulations are reducing carrier margins and the flexibility of health insurance products. The market for insurance will be an increasingly retail market with sales directly to consumers through government-regulated exchanges. The Company continues to analyze, implement and comply with PPACA requirements.

The Company mainly markets to the large group and individual segments of its market. Many of the large groups have chosen a self-insured coverage option. This self-insured coverage results in a diminished medical risk exposure.

Provider Advances

In accordance with SSAP No. 84 – *Certain Health Care Receivables and Receivables Under Government Insured Plans*, the Company considers provider advances admitted assets if the amount of the advance is supported by a contract, as well as claims incurred and payable to the hospital. Provider Advances in the amounts of $5,150,000 and $7,250,000 were recorded as of December 31, 2013 and 2012, respectively.

Change in Accounting Principle

The NAIC has adopted SSAP No. 102 - *Accounting for Pensions, a Replacement of SSAP No. 89* and *SSAP No. 92 Accounting for Postretirement Benefits Other Than Pensions, a Replacement of SSAP No. 14* effective for reporting years beginning in 2013. This revised guidance requires reporting entities to recognize the funded status (excess of the projected benefit obligation over the fair value of plan assets) of the Company's pension, supplemental retirement program and postretirement health plans (the plans) on the balance sheet as a liability. The Company adopted these new standards effective January 1, 2013 which increased the liability recorded for the plans. The Company estimates the total transition liability associated with the funded status of the pension plan to be approximately $8,656,000 as of December 31, 2013. The new requirements allow the recognition of the liability over a period not to exceed 10 years with provisions for minimum required recognition amounts. The impact of adopting this standard is recognized as a change in accounting principle with a decrease to surplus of $1,943,000 related to the pension plan and $3,070,000 related to the supplemental retirement program during the year ended December 31, 2013. A remaining transition obligation of $6,713,000 related to the pension plan remains unrecognized at December 31, 2013. In addition, $19,884,000 is recognized as a reduction to surplus as a result of eliminating previous non-admitted assets and establishing contra-assets for the overfunded portion of the plans.

Note 2 - Cash and Invested Assets

Investments

The classification of bonds and equity securities shown in the balance sheet at December 31, 2013 was as follows:

	Book/Adjusted Carrying Value	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2013				
US Government Bonds & Notes	$ 20,744,000	$ 858,000	$ 79,000	$ 21,523,000
Industrial & Miscellaneous Bonds	139,576,000	5,515,000	1,523,000	143,568,000
Mortgage & Other Asset Backed	10,327,000	727,000	138,000	10,916,000
Total Bonds	$ 170,647,000	$ 7,100,000	$ 1,740,000	$ 176,007,000

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Preferred Stock	$ 135,000	$ 4,000	$ -	$ 139,000
Common Stock Unaffiliated*	46,545,000	23,203,000	200,000	69,548,000
Common Stock Affiliated	20,425,000	8,000	17,778,000	2,655,000
Total Stock	$ 67,105,000	$ 23,215,000	$ 17,978,000	$ 72,342,000

* Amounts include prescribed or permitted practices that depart from the NAIC Accounting Practices and Procedures Manual, see Note 1.

The classification of bonds and equity securities shown in the balance sheet at December 31, 2012 was as follows:

	Book/Adjusted Carrying Value	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2012				
US Government Bonds & Notes	$ 18,382,000	$ 773,000	$ -	$ 19,155,000
Industrial & Miscellaneous Bonds	144,562,000	9,383,000	68,000	153,877,000
Mortgage & Other Asset Backed	14,644,000	1,605,000	166,000	16,083,000
Total Bonds	$ 177,588,000	$ 11,761,000	$ 234,000	$ 189,115,000

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Preferred Stock	$ 375,000	$ 11,000	$ -	$ 386,000
Common Stock Unaffiliated*	102,492,000	28,757,000	1,266,000	129,983,000
Common Stock Affiliated*	56,434,000	1,227,000	40,310,000	17,351,000
Total Stock	$ 159,301,000	$ 29,995,000	$ 41,576,000	$ 147,720,000

* Amounts include prescribed or permitted practices that depart from the NAIC Accounting Practices and Procedures Manual, see Note 1.

The following table shows the investments' gross unrealized losses and estimated fair values, aggregated by investment category and length of time bonds and common stock have been in an unrealized loss position at December 31, 2013.

	December 31, 2013					
	Less Than 12 Months		Greater Than 12 Months		Total	
	Value	Losses	Value	Losses	Value	Losses
US Government Bonds & Notes	$ 4,839,000	$ 79,000	$ -	$ -	$ 4,839,000	$ 79,000
Industrial & Miscellaneous Bonds	30,586,000	1,268,000	4,471,000	255,000	35,057,000	1,523,000
Mortgage & Other Asset Backed	3,800,000	26,000	1,435,000	112,000	5,235,000	138,000

* Negative carrying value for common stock affiliated as a result of GAAP to STATUTORY adjustments for non-admitted assets of 1 subsidiary as required under SSAP No. 97.

The following table shows the investments' gross unrealized losses and estimated fair values, aggregated by investment category and length of time bonds and common stock have been in an unrealized loss position at December 31, 2012.

	December 31, 2012					
	Less Than 12 Months		Greater Than 12 Months		Total	
	Value	Losses	Value	Losses	Value	Losses
Industrial & Miscellaneous Bonds	$ 5,806,000	$ 68,000	$ -	$ -	$ 5,806,000	$ 68,000
Mortgage & Other Asset Backed	761,000	17,000	568,000	149,000	1,329,000	166,000
	$ 6,567,000	$ 85,000	$ 568,000	$ 149,000	$ 7,135,000	$ 234,000
Common Stock Unaffiliated	$ 26,502,000	$ 1,013,000	$ 1,904,000	$ 253,000	$ 28,406,000	$ 1,266,000
Common Stock Affiliated	-	-	13,372,000	40,310,000	13,372,000	40,310,000
	$ 26,502,000	$ 1,013,000	$ 15,276,000	$ 40,563,000	$ 41,778,000	$ 41,576,000

Proceeds from the sale of investments were $167,388,000 and $106,098,000 in 2013 and 2012, respectively. Gross realized gains of $17,551,000 and $5,984,000 and gross realized losses of $1,542,000 and $3,127,000 were realized on the sale of investments during the years ended December 31, 2013 and 2012, respectively.

The Company regularly reviews its investment portfolio for factors that may indicate that a decline in fair value of a bond investment below its cost basis is other than temporary. Based on an evaluation of the prospects of the issuer, including, but not limited to, the Company's intentions to sell or ability to hold the investments; the length of time and magnitude of the unrealized loss; financial condition and near term prospects of the issuer and the credit ratings of the issuer of the investment. During 2013 and 2012, the Company incurred $0 and $390,000 of other-than-temporary losses on its investment in bonds, respectively.

The Company considers various factors when considering if a decline in the fair value of a common stock security is other than temporary, including but not limited to, the length of time and magnitude of the unrealized loss; the volatility of the investment; analyst recommendations and price targets; opinions of the Company's investment managers; market liquidity; and the Company's intentions to sell or ability to hold the investments. To the extent the Company determines that a security is deemed other-than-temporarily impaired, the difference between amortized cost and fair value is charged to earnings. Based on an evaluation of these factors, the Company has concluded there are no investments in non-affiliated common stocks at December 31, 2013 that need be impaired.

Based on management's analysis, in 2013, the Company concluded that its investment in NHS was other than temporarily impaired (OTTI) in accordance with SSAP No.97 - *Investments in Subsidiary, Controlled and Affiliated Entities*. The facts and circumstances leading to impairment include the length of time the investment was in an unrealized loss position as well as recent operationg losses, as NHS recognized approximately $51,000,000 of contract losses during 2013 based on ASC 605-35, percentage-of-completion method of accounting. In particular, as discussed in Note 16, uncertainties exist associated with contracts that impact the evaluation of NHS fair value. In accordance with SSAP No. 97, the investment in NHS was written down to its fair value at December 31, 2013. The amount of the OTTI recognized as a realized loss was $78,007,000 representing $63,625,000 of previously recognized unrealized losses and $14,382,000 of equity investment in subsidiary resulting in a $0 carrying value of NHS as of December 31, 2013. The fair value of the investment was determined in accordance with SSAP No. 100 - *Fair Value Measurements*.

Mortgage and Other Asset-Backed Securities

The Company has $10,327,000 and $14,644,000 of mortgage and other asset-backed securities in its portfolio at December 31, 2013 and 2012, respectively.

The scheduled maturities of bonds at December 31, 2013 were as follows:

	Amortized Cost	Fair Market
Due less than one year	$ 15,697,000	$ 15,908,000
Due over one year through five years	72,400,000	75,486,000
Due over five years through 10 years	64,294,000	65,204,000
Due over ten years	7,929,000	8,494,000
	160,320,000	165,092,000
Mortgage and other asset-backed securities	10,327,000	10,915,000
	$ 170,647,000	$ 176,007,000

Securities may be disposed of before contractual maturities due to sales by the Company or because borrowers might have the right to call or prepay the obligation with or without prepayment penalties. Maturities of mortgage-backed securities depend on the repayment characteristics and experience of the underlying mortgage loans.

Real Estate

	2013	2012
Occupied by the Company	$ 49,964,000	$ 49,387,000
Leasehold improvements	1,540,000	1,011,000
	51,504,000	50,398,000
Accumulated depreciation	(26,334,000)	(24,285,000)
	$ 25,170,000	$ 26,113,000

The total real estate above includes admitted and non-admitted assets. Admitted assets consist of $49,964,000 and $49,387,000 and related accumulated depreciation of $25,461,000 and $23,569,000 for 2013 and 2012, respectively. Net admitted assets total $24,503,000 and $25,818,000 for 2013 and 2012, respectively. The remaining assets of $1,540,000 and $1,011,000 and related accumulated depreciation of $873,000 and $716,000 for 2013 and 2012, respectively, are non-admitted.

Depreciation expense relating to real estate for the years ended December 31, 2013 and 2012 was $2,058,000 and $1,996,000 respectively, of which $1,326,000 and $1,435,000, respectively, has been allocated to and reimbursed by other users.

Investments in Affiliates

On April 4, 2013, Noridian Administrative Services, LLC changed its name to Noridian Healthcare Solutions, LLC (NHS). NHS is organized as a limited liability company and is wholly owned by NMIC. NAS is a multi-state processor and fiscal intermediary/carrier for the Medicare and Medicaid Programs, which are administered and monitored by the Centers for Medicare and Medicaid Services (CMS).

At December 31, 2013, the Company owned 100 percent of the outstanding common stock of Noridian Insurance Services, Inc. (NISI), an insurance agency.

At December 31, 2013, the Company owned 100 percent of Twenty First Century Information Solutions. Twenty First Century owns 50 percent of CoreLink Administrative Solutions, LLC and 100 percent of MDdatacor, Inc.

At December 31, 2013, the Company owned 51 percent of the outstanding common stock of Discovery Benefits, Inc., an employee benefits administration company.

Note 3 - Fair Value Measurements

There are three general valuation techniques that may be used to measure fair value, as described below:

1. Market approach – Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources;

2. Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and

3. Income approach – Uses valuation techniques to convert future amount to a single present amount based on current market expectation about the future amounts (includes present value techniques and option pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

Following is a description of the valuation methodologies used for assets measured at fair value.

Industrial & Miscellaneous Bonds: Valued based on NAIC market values. For those securities not actively traded, quoted market prices of comparable instruments or discounted cash flow analysis are used based upon inputs that are observable in the markets for similar securities. Inputs include benchmark yields, credit spreads, default rates, prepayments and non-bonding broker quotes.

Mortgage & Other Assets Backed Bonds: Valued based on Residential Mortgage Backed Securities modeling file provided by the NAIC. The prepayment assumptions used for single class and multi-class mortgage backed/asset backed securities were obtained from broker/dealer survey values. These assumptions are consistent with the current interest rate and economic environment.

Preferred Stock: Valued based on NAIC market values.

Common Stock Unaffiliated & Mutual Funds: Valued based on NAIC quoted market values. If NAIC market values are unavailable then value is determined based on the underlying equity.

Common Stock Affiliated: Value is based on the underlying equity of the affiliate.

Other Invested Assets: Value is based on the underlying equity of the related entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of the future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes to valuation methods used during 2013 or 2012.

The table below reflects the fair values and admitted asset values of all admitted assets and liabilities as of December 31, 2013 and 2012 that are financial instruments.

	2013				
	Aggregate Fair Value	Admitted Asset Value	Level 1	Level 2	Level 3

Note 4 - Receivables

Pharmaceutical Rebate

The Company has contracted with a pharmaceutical benefits manager to provide pharmaceutical services and obtain pharmacy rebates from drug manufacturers. The estimate for the fourth quarter of each year is based on the previous quarter's actual prescriptions, which are confirmed/invoiced by the Company's pharmaceutical benefit manager. At December 31, 2013 and 2012, the Company had total pharmacy rebates receivable of $8,100,000 and $5,947,000, respectively, of which $7,141,000 and $5,303,000, respectively, is an admitted asset. The pharmaceutical rebate receivables, by quarter, are as follows:

Quarter Ending	Estimated Pharmacy Rebates	Pharmacy Rebates Invoiced/Confirmed as an admitted asset	Actual Rebates Collected Within 90 days of Invoicing/Confirmation	Actual Rebates Collected Within 91 to 180 days of Invoicing/Confirmation	Actual Rebates Collected More Than 180 Days of Invoicing/Confirmation
12/31/13	$ 3,300,000	$ -	$ -	-	$ -
9/30/13	3,100,000	3,841,000	-	-	-
6/30/13	2,900,000	3,352,000	2,292,000	636,000	-
3/31/13	2,800,000	2,984,000	2,328,000	232,000	-
12/31/12	$ 2,700,000	$ 3,187,000	$ 2,689,000	$ 334,000	$ 87,000
9/30/12	2,600,000	2,875,000	2,603,000	181,000	57,000
6/30/12	2,500,000	2,777,000	2,306,000	173,000	299,000
3/31/12	2,500,000	2,581,000	2,282,000	121,000	178,000
12/31/11	$ 2,200,000	$ 2,760,000	$ 2,188,000	$ 214,000	$ 358,000
9/30/11	2,200,000	2,455,000	2,276,000	87,000	92,000
6/30/11	2,000,000	2,410,000	2,281,000	100,000	30,000
3/31/11	2,000,000	2,275,000	2,039,000	147,000	89,000

The Company has contracted with a pharmaceutical benefits manager to provide pharmaceutical services and obtain pharmacy rebates from drug manufacturers for the Medicare Prescription Drug Program. The estimate for the fourth quarter of each year is based on the previous quarter's actual prescriptions, which are confirmed/invoiced by the Company's pharmaceutical benefit manager. At December 31, 2013 and 2012, the Company had total pharmacy rebates receivable of $2,793,000 and $2,247,000, respectively, of which $2,746,000 and $2,172,000, respectively, is an admitted asset. The pharmaceutical rebate receivables for the Medicare Prescription Drug Program, by quarter, are as follows:

Quarter Ending	Estimated Pharmacy Rebates	Pharmacy Rebates Invoiced/Confirmed as an admitted asset	Actual Rebates Collected Within 90 days of Invoicing/Confirmation	Actual Rebates Collected Within 91 to 180 days of Invoicing/Confirmation	Actual Rebates Collected More Than 180 Days of Invoicing/Confirmation

3/31/12	817,000	980,000	-	940,000	40,000
12/31/11	$ 1,014,000	$ 1,091,000	$ -	$ 1,086,000	$ 5,000
9/30/11	1,045,000	1,072,000	-	1,066,000	6,000
6/30/11	956,000	1,040,000	-	1,044,000	(3,000)
3/31/11	849,000	988,000	-	989,000	(200)

Note 5 - Federal Employees Program

The Blue Cross and Blue Shield Federal Employees Program (FEP) is an insurance contract between the federal government and local Blue Cross and Blue Shield plans. The Blue Cross and Blue Shield Association acts as an agent for the local plans in the capacity of contracting with the government and providing other resources necessary to fulfill the agency relationship. The Company includes its share of the full amount of assets, liabilities, revenues, and expenses resulting from this contract in the financial statements. A liability and an offsetting asset (Federal Employees Program) have been recorded in the statements of admitted assets, liabilities, and policyholder surplus related to claims liabilities and related assets held. Premium income, investment income, and administrative expenses have been included in the statements of income to reflect the Company's portion of the FEP results. As of December 31, 2013 and 2012, the Company held assets in connection with the program of $28,696,000 and $26,498,000, respectively. The related liabilities are included in contract claim reserves for accident and health policies and aggregate reserve for accident and health policies. Additionally, the Company had recorded receivables of $1,301,000 and $1,178,000 as of December 31, 2013 and 2012, respectively, related to reimbursable claims for the program.

Note 6 - Equipment and Software

	2013	2012
Electronic data processing equipment and software	**$ 47,461,000**	$ 39,831,000
Furniture, fixtures, and equipment	**19,120,000**	17,175,000
Automobiles	**192,000**	137,000
Telephone	**3,629,000**	3,157,000
Depreciable software	**40,688,000**	32,050,000
	111,090,000	92,350,000
Accumulated depreciation	**(82,805,000)**	(75,880,000)
	$ 28,285,000	$ 16,470,000

The total amount of equipment and software above includes admitted and non-admitted assets. Admitted assets consist of electronic data processing equipment and software of $47,461,000 and $39,831,000 and related accumulated depreciation of $35,951,000 and $32,497,000 for 2013 and 2012, respectively. Net admitted assets total $11,510,000 and $7,334,000 for 2013 and 2012, respectively. The remaining assets of $63,629,000 and $52,519,000 and accumulated depreciation of $46,854,000 and $43,383,000 for 2013 and 2012, respectively, are non-admitted.

Equipment and software depreciation is calculated, on a straight-line method, over an estimated useful life of 3 to 15 years. Depreciation expense for the years ended December 31, 2013 and 2012 was $6,998,000 and $7,537,000 respectively, of which $4,769,000 and $6,327,000 has been allocated to and reimbursed by other users.

Electronic data processing equipment and depreciation reflect amounts prescribed or permitted practices that depart from NAIC Accounting Practices and Procedures Manual, see Note 1.

Note 7 - Lessee Operating Leases

The Company leases office space under various non-cancelable operating lease agreements that expire through March 31, 2018. Office space rental expense for 2013 and 2012 was approximately $772,000 and $389,000, respectively, of which $107,000 and $0 has been allocated to and reimbursed by other users in 2013. The Company leases computer and office equipment under various non-cancelable operating lease agreements that expire through June 30, 2016. Computer and office equipment rental expense for 2013 and 2012 was approximately $5,574,000 and $5,561,000, respectively, of which $4,388,000 and $4,688,000 has been allocated to and reimbursed by other users.

At December 31, 2013, the minimum aggregate rental commitments net of amounts allocated to others are as follows:

Years ending December 31,	Real Estate Leases	Equipment Leases
2014	694,000	967,000
2015	627,000	900,000
2016	355,000	212,000
2017	345,000	199,000
2018	86,000	132,000
	$ 2,107,000	$ 2,410,000

Certain rental commitments have renewal options extending through the year 2018. Some of these renewals are subject to adjustments in future periods.

Note 8 - Lessor Leases

The Company owns one site that is leased to affiliated companies. Prorated operating costs are charged to affiliated companies through administrative service agreements and subsequently reimbursed to the Company.

The cost and carrying amount of these properties is approximately $14,078,000 and $6,217,000 as of December 31, 2013 and $13,615,000 and $6,764,000 as of December 31, 2012 as listed in the investment summary at Note 2.

There are no future minimum lease payment receivable arrangements.

Note 9 - Employee Benefit Plans

Pension Plan

The Company has a defined benefit pension plan covering a significant number of its employees. The plan was amended to exclude NHS employees hired on or after September 1, 2006. The plan was amended to exclude all Noridian employees hired on or after January 1, 2010.

The benefits are based on years of service and the employee's final average compensation. The Company's funding and accounting policies are to contribute annually the minimum amount required by applicable regulations plus such additional amounts as the employer may determine to be appropriate from time to time and to charge such contributions to expense as allowed under statutory accounting principles.

Prior to 2001, the Company was allowed under statutory accounting principles to recognize pension costs equal to the amount of the contributions paid to the plan. Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

A summary of pension plan disclosures is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 164,716,000	$ 145,977,000
Service cost	7,522,000	7,692,000
Interest cost	6,328,000	6,592,000
Benefit payments	(852,000)	(8,878,000)
Settlements	(14,600,000)	-
Actuarial losses (gains)	(12,182,000)	13,333,000
Projected benefit obligation at end of year	$ 150,932,000	$ 164,716,000
The actuarial gains (losses) are a result of changes in actuarial assumptions, primarily changes in the discount rate, and the impact of differences between actual and anticipated experience.		
Accumulated benefit obligation	$ 121,688,528	$ 132,757,000
Change in plan assets		
Fair value of plan assets at beginning of year	$ 130,480,000	$ 107,701,000
Actual return on assets (net of expenses)	15,249,000	16,457,000
Employer contributions	12,000,000	15,200,000
Settlements	(14,600,000)	-
Benefit payments	(852,000)	(8,878,000)
Fair value of plan assets at end of year	$ 142,277,000	$ 130,480,000
Funded Status		
Overfunded		
Assets		
Prepaid benefit cost	$ 36,123,000	N/A
Overfunded program contra-asset	(36,123,000)	N/A
Total Assets	$ -	N/A

	2013	2012
Underfunded		
Liabilities Recognized		
Accrued benefit liability	$ 1,943,000	N/A
Unrecognized liabilities	$ 6,713,000	N/A
Components of net periodic benefit cost		
Service cost	$ 7,522,000	$ 7,692,000
Interest cost	6,328,000	6,592,000
Expected return on assets	(9,245,000)	(8,518,000)
Amortization of transition obligation	630,000	630,000
Amortization of prior service cost	403,000	403,000
Amortization of actuarial loss	4,585,000	4,304,000
Loss recognized due to settlement or curtailment	3,720,000	-
Total net periodic benefit cost	$ 13,943,000	$ 11,103,000
Items not recognized as a component of net periodic cost		
Beginning of the year	$ 72,302,000	N/A
Net transition asset or obligation recognized	(630,000)	N/A
Net prior service cost or credit recognized	(403,000)	N/A
Net gain and loss arising during the period	(18,186,000)	N/A
Net gain and loss recognized	(8,304,000)	N/A
Items not yet recognized as a component of net periodic cost		
End of the year	$ 44,779,000	N/A
Amounts in unassigned funds (surplus) expected to be recognized in the next fiscal year as components of net periodic benefit cost		
Net transition obligation	$ 630,000	N/A
Prior Service Cost	403,000	N/A
Net actuarial loss	2,315,000	N/A
Amounts in unassigned funds (surplus) that have not yet been recognized as components of net periodic benefit cost		
Net transition obligation	$ 4,409,000	$ 5,039,000
Prior Service Cost	1,920,000	2,323,000
Net actuarial loss	38,450,000	64,940,000
Items not yet recognized as a component of net periodic cost	$ 44,779,000	$ 72,302,000

	2013	2012
Weighted average assumptions used to determine net periodic cost during the year		
Discount rate	4.00%	4.75%
Expected return on assets	7.00%	7.50%
Rate of compensation increase	Graded; 4% - 9%	Graded; 4% - 9%
Weighted average assumptions used to determine projected benefit obligations at December 31		
Discount rate	4.75%	4.00%
Expected return on assets	7.00%	7.00%
Rate of compensation increase	Graded; 4% - 9%	Graded; 4% - 9%

At December 31, 2013, the basis of the overall expected long-term rate of return on assets assumption is a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the trust invests in and the trust's target asset allocation. This rate is net of both investment related expenses and a 0.10% reduction for other administrative expenses charged to the Trust.

At December 31, 2013, the assumed target asset allocation for the program is: 44 - 56% equity securities, 34 - 46% debt securities and 6 - 14% other securities. Using a mean-variance model to project returns over a 30 year horizon under the target asset allocation, the 35th to 65th percentile range of annual rates of return is 6.2% - 7.8%.

At December 31, 2012, the basis of the overall expected long-term rate of return on assets assumption is a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the trust invests in and the trust's target asset allocation. This rate is net of both investment related expenses and a 0.10% reduction for other administrative expenses charged to the Trust.

At December 31, 2012, the assumed target asset allocation for the program is: 44 – 56% equity securities, 35 – 45% debt securities and 6 – 14% other securities. Using a mean-variance model to project returns over a 30 year horizon under the target asset allocation, the 35th to 65th percentile range of annual rates of return is 6.2% - 7.8%.

The Company's pension plan assets are invested in the Blue Cross Blue Shield National Retirement Trust. The Company's pension plan weighted-average asset allocations at December 31, 2013 and 2012 by asset category are as follows:

	2013	2012
Equity securities	53%	46%
Debt securities	37%	40%
Real estate	7%	6%
Other	3%	8%
Total	100%	100%

The investment program for the Blue Cross Blue Shield National Retirement Trust is based on the precepts of capital market theory that are generally accepted and followed by institutional investors, who by definition are long-term oriented investors. The philosophy holds that:

1. Increasing risk is rewarded with compensating returns over time and therefore, prudent risk taking is justifiable for long-term investors.

2. Risk can be controlled through diversification of asset classes and investment approaches as well as diversification of individual securities.

3. Risk is reduced by time, and over time the relative performance of different asset classes is reasonably consistent. Over the long term, equity investments have provided and should continue to provide superior returns over other security types. Fixed-income securities can dampen volatility and provide liquidity in periods of depressed economic activity.

4. The strategic or long-term allocation of assets among various asset classes is an important driver of long-term returns.

5. Relative performance of various asset classes is unpredictable in the short-term and attempts to shift tactically between asset classes are unlikely to be rewarded.

Investments will be made for the sole interest of the participants and beneficiaries of the programs participating in the Blue Cross Blue Shield National Retirement Trust. Accordingly, the assets of the Blue Cross Blue Shield National Retirement Trust shall be invested in accordance with these objectives:

1. To ensure assets are available to meet current and future obligations of the participating programs when due.

2. To earn the maximum return that can be realistically achieved in the markets over the long term at a specified and controlled level of risk in order to minimize future contributions.

3. To invest assets with consideration of the liability characteristics in order to better align asset and liabilities.

4. To invest the assets with the care, skill, and diligence that a prudent person acting in a like capacity would undertake. The Blue Cross Blue Shield National Retirement Trust Committee acknowledges that, in the process, it has the objective of controlling the costs involved with administering and managing the investments of the Blue Cross Blue Shield National Retirement Trust.

The Company expects to contribute $0 to its pension program in 2014.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Estimated Future Benefits Payments	2013
2014 Payouts	$ 9,959,000
2015 Payouts	9,517,000
2016 Payouts	9,725,000
2017 Payouts	10,428,000
2018 Payouts	10,709,000
2019 Payouts to 2023	58,445,000

The fair value measurements of the plan assets at December 31, 2013 are as follows:

Asset Category	Quoted Prices In Active Markets for Identical Assets Level 1	Significant Observable Inputs Level 2	Significant Observable Inputs Level 3	Total
Government Obligations	$ 2,615,000	$ 6,478,000	$ 81,000	$ 9,174,000
Corporate Obligations	-	6,430,000	2,000	6,432,000
Partnership/Joint Venture	-	-	1,983,000	1,983,000
Limited Liability Corporations	-	7,780,000	-	7,780,000

The following is a description of the valuation techniques used for the signifant qualified pension assets measured at fair value utilizing, and classified as, Level 1, 2 or 3:

Cash and Short-Term Investments – Cash and short-term investments include interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

Investments Traded in Active Markets – Common stock, preferred stock, fixed income securities including government and corporate obligations, options and futures traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the Trust's investment managers' best estimates. In general, corporate obligations are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in government obligations are estimated using best available trade data. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. Investments in other equities are based on quoted market prices.

Real Estate Investments – Fair values of real estate investments are based on the quoted redemption values of the participation units in real estate funds owned by the Trust. Redemption values principally represent the appraised values of real estate investments held in the real estate funds.

Hedge Funds – Hedge fund investments represent investment in hedge fund of funds and investments in portfolios investing in a range of stocks, bonds, distressed corporate debt, government debt, emerging market equities, currencies, commodities, commodity and financial futures, options, forwards, swaps and derivative instruments. Hedge fund of funds investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund (including investments in a master fund that is primarily comprised of hedge funds) minus its liabilities and then divided by the number of shares outstanding. In general, portfolio securities for which market quotations are readily available are valued at market value. If market quotations are not readily available, the fair value is determined based on other relevant factors, including deal price quotations, price activity for equivalent investments and valuation pricing models.

Registered Investment Companies – These are investments valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, and then divided by the number of shares outstanding.

Limited Liability Corporations – These investments are valued at estimated fair value which, based on the appraised values, approximates market price and other market information pertaining to their underlying investments at December 31. Because of inherent uncertainty of valuing these investments and certain of the underlying investments, the Trust's estimate of fair value may differ from the values that would have been used had a ready market for the investment existed. The financial statements of these investments are audited annually by an independent public accounting firm.

Partnership /Limited Liability Company Interests – These investments are valued at estimated fair value which, based on the appraised values, approximates market price and other market information pertaining to its underlying investments at December 31.

Common/Collective Trust Funds – Common/collective trust funds represent investments with various investment managers. Units held in common/collective trusts, including stable value funds, are valued at the unit value as reported by the investment managers as of December 31.

Futures and Forward Contracts – The Trust may, from time to time, enter into equity futures contracts, forward foreign currency contracts, and forward contracts to purchase government agency obligations for trading purposes. Equity futures contracts are used as a means to replicate the performance of the broad stock market and to reduce transaction costs associated with rebalancing an indexed portfolio when there are cash inflows or outflows. Forward foreign currency contracts are used to manage the risk of foreign currency fluctuations and to ensure that adequate funds, denominated in the local currency, are available to settle purchases of foreign securities. Forward contracts to purchase government agency obligations are used to take advantage of market yield premiums available for delayed settlement contracts.

Equity futures contracts, forward foreign currency contracts, and forward contracts to purchase government agency obligations are stated at market value as determined by prices quoted on national security exchanges. Equity futures contracts are marked to market, and fluctuations in the value are recognized as realized gains or losses that are settled daily with cash through a margin account. Forward foreign currency contracts are valued at fair value, as determined by the Trust's investment managers (or independent third parties on behalf of the investment managers), using quoted forward foreign currency exchange rates. At the end of each period presented, open contracts are valued at the current forward foreign currency exchange rates, and the change in market value is recorded as an unrealized gain or loss. When the contract is closed or delivery taken, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Foreign Investments – Investments denominated in currencies other than the U.S. dollar are converted using exchange rates prevailing at the end of the periods presented. Purchases and sales of such investments are translated at the rate of exchange on the respective dates of such transactions.

Supplemental Retirement Program

The Company has an unfunded Supplemental Retirement Program (SERP) intended for certain employees that meet the required provisions set forth in the program.

Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

Information related to the SERP is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 4,987,000	$ 3,952,000
Service cost	294,000	338,000
Interest cost	211,000	222,000
Program Amendments	224,000	2,276,000
Benefit payments	(328,000)	(1,043,000)
Actuarial losses (gains)	93,000	(758,000)
Projected benefit obligation at end of year	$ 5,481,000	$ 4,987,000
Accumulated benefit obligation	$ 2,984,000	$ 2,666,000
Change in plan assets		
Fair value of plan assets at beginning of year	$ -	$ -

Net gain and loss recognized	-	N/A
Items not recognized as a component of net periodic cost		
End of the year	$ 3,070,000	N/A
Amounts in unassigned funds (surplus) expected to be recognized in the next fiscal year as components of net periodic benefit cost		
Net transition obligation	$ 149,000	N/A
Prior Service Cost	357,000	N/A
Net actuarial loss	-	N/A

	2013	2012
Amounts in unassigned funds (surplus) that have not yet been recognized as components of net periodic benefit cost		
Net transition obligation	$ 1,045,000	$ 1,195,000
Prior Service Cost	1,664,000	1,797,000
Net actuarial loss	361,000	268,000
Items not yet recognized as a component of net periodic cost	$ 3,070,000	$ 3,260,000

Weighted average assumptions used to determine net periodic cost during the year	2013	2012
Discount rate	4.00%	4.75%
Rate of compensation increase	Flat; 5.00%	Flat; 5.00%

Weighted average assumptions used to determine projected benefit obligations at December 31	2013	2012
Discount rate	4.75%	4.00%
Rate of compensation increase	Flat; 5.00%	Flat; 5.00%

The SERP is funded on a pay-as-you-go basis. Therefore, no assets are accumulated to pay benefits under the program and no assumption regarding the expected return on assets is relevant.

The following benefit payments, which reflect expected future service and employer contributions, as appropriate, are expected to be paid:

	2013
Estimated Future Benefits Payments	
2014 Payouts	$ 9,000
2015 Payouts	186,000
2016 Payouts	760,000
2017 Payouts	25,000
2018 Payouts	4,602,000
2019 Payouts to 2023	655,000

Retiree Health Benefits and Life Insurance Plans

The Company provides certain health care and life insurance benefits (postretirement benefits) for retired employees. Substantially all employees may become eligible for these benefits if they reach retirement age while working for the Company. Life insurance benefits are generally set at a fixed amount. In 2003, the Company established a Noridian Mutual Insurance Company Retiree Voluntary Employee Beneficiary Association Trust (VEBA Trust) to fund this Plan. The Plan was amended to exclude any new employees hired after January 1, 2006. In January, 2010 the Plan was amended to phase-out the Company contribution for health care insurance for retirees over a ten year period, beginning in 2012 with a ten percent reduction each year. The health plan was remeasured on October 1, 2012 to reflect a 10% decrease in retiree premiums in 2013 and a change in prescription drug coverage.

Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company has elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

Information related to the postretirement benefit plan is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 16,928,000	$ 19,835,000
Service cost	799,000	1,143,000
Interest cost	833,000	713,000
Benefit payments	(1,452,000)	(1,488,000)
Medicare Part D subsidy received	124,000	118,000
Adoption of new SSAP -nonvested benefit obligation	10,714,000	-
Plan amendments	-	3,473,000
Actuarial losses (gains)	(9,318,000)	(6,866,000)
Projected benefit obligation at end of year	$ 18,628,000	$ 16,928,000
Change in plan assets		
Fair value of plan assets at beginning of year	$ 43,390,000	$ 40,393,000
Actual return on program assets	3,888,000	4,615,000
Benefit payments	(1,346,000)	(1,618,000)

Rate of compensation increase	Graded; 4%-9%	Graded; 4%-9%

	2013	2012
Weighted average assumptions used to determine projected benefit obligations at December 31		
Discount rate	5.00%	4.25%
Health care trend rated-medical		
Trend for next year (pre-65/post-65)	7.75%/6.75%	8.00%/7.00%
Ultimate trend	5.00%	5.00%
Year ultimate trend reached (pre-65/post-65)	2021	2021

*Effective October 1, 2012, the health benefits portion of the plans were remeasured due to plan changes as previously discussed, utilizing a 4.25% discount rate at that date. The life benefits portion of the plan is continuing to be remeasured at December 31, using a 4.75% discount rate.

The Company selected an overall expected long-term rate of return on assets assumption of 4.5% using a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the Plan invests in. This rate is net of both investment related expenses and taxes.

Assumed health care cost trend rates have a significant effect on the amounts recognized for the health care plan. A one-percentage point change in assumed health care trend rates would have the following effect on the Retiree Health Benefits and Life Insurance Plans as of December 31, 2013:

	1% Increase	1% Decrease
Effect on total of service cost and interest cost components	$ 263,000	$ (201,000)
Effect on postretirement benefit obligation	2,052,000	(1,627,000)

The investment for the VEBA Trust shall be invested in such securities or in such property, real or personal, tangible or intangible, as the Trustee shall deem advisable, provided, however, that investments shall be so diversified as to minimize the risk of large losses unless under the circumstances it is clearly prudent not to do so in the sole judgment of the Trustee.

The 2014 target asset allocation for the VEBA Trust is as follows:

Equity securities	40% - 60%
Debt securities	40% - 60%
Cash	0% - 5%

The VEBA Trust is administered by Bank of the West and has asset allocations of 53% equity securities, 42% debt securities, and 5% other, as of December 31, 2013.

The Company expects to contribute $0 to the VEBA Trust in 2014.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Estimated Future Benefits Payments	
2014 Payouts	$ 1,554,000
2015 Payouts	1,486,000
2016 Payouts	1,419,000
2017 Payouts	1,319,000
2018 Payouts	1,238,000
2019 Payouts to 2023	5,758,000

The fair value measurements of the plan assets are as follows:

Asset Category	Quoted Prices In Active Markets for Identical Assets Level 1	Significant Observable Inputs Level 2	Significant Observable Inputs Level 3	Total
Government Obligations	$ -	$ 7,974,000	$ -	$ 7,974,000
Corporate Obligations	-	3,323,000	-	3,323,000
State & Municipal Obligations	-	1,943,000	-	1,943,000
Registered Investments	21,345,000	-	-	21,345,000
Common Stocks	11,150,000	-	-	11,150,000
Interest-Bearing Cash	197,000	-	-	197,000
Total Assets Measured At Fair Value	$ 32,692,000	$ 13,240,000	$ -	$ 45,932,000

The following is a descprtion of the valuation techniques used for the signifant qualified retiree health benefits and life insurance plan assets measured at fair value utilizing, and classified as, Level 1, 2 or 3:

Fixed Income Obligations - These are bonds whose value is derived from similar bonds that are publicly traded, collateralized debt obligations, as well as certain structured liabilities where the inputs to the valuation are primarily based on readily observable pricing information.

Registered Investments and Common Stocks - This includes SEC registered mutual funds, exchange traded funds tracking domestic or international equity indices, and individual equities held in the form of common stock of companies on any of the nationally/internationally recognized stock exchanges and/or the over-the-counter markets. The fair values are based on a review of unadjusted quoted prices for identical assets in active markets.

Cash and equivalents - This category includes cash and money market fund holdings. The fair values are based on a review of unadjusted quoted prices for identical assets in active markets.

Defined Contribution Plans

The Company has a qualified defined contribution pension plan covering substantially all of its employees. The Company will match up to 4% of an employee's eligible compensation. The Company's contribution to the Plan was $4,300,000 and $3,600,000 for 2013 and 2012, respectively. At December 31, 2013 and 2012, the fair value of plan assets was $145,287,000 and $121,452,000, respectively.

The Company established a qualified defined contribution pension plan on September 1, 2006. The Plan was established to cover NHS employees hired after September 1, 2006 who are not eligible for the defined benefit pension plan. The company contribution is a discretionary amount as determined by the Company from year to year. The Company's contribution to the Plan was $482,000 and $510,000 for the years 2013 and 2012 respectively. At December 31, 2013 and 2012, the fair value of plan assets was $3,650,000 and $2,689,000, respectively.

Note 10 - Administrative Services Contracts

Administrative Service Only Contracts

	2013	2012
Gross reimbursement for medical cost incurred	$ -	$ 1,648,000
Gross administrative fees accrued	-	2,113,000
Total net loss from operations	$ -	$ (465,000)

Self Insured Plans

	2013	2012
Gross reimbursement for medical cost incurred	$ 493,591,000	$ 405,853,000
Gross administrative fees accrued	28,304,000	23,448,000
Gross expenses (claims and administrative)	(523,879,000)	(432,222,000)
Total net loss from operations	$ (1,984,000)	$ (2,921,000)

As of December 31, 2013 and 2012, unpaid claim liabilities of $61,270,000 and $52,100,000, respectively, and corresponding receivables from self-insured groups for the same amount have been established but are not recorded in the financial statements.

As of December 31, 2013 and 2012, the Company reported a net gain of $5,688,000 and $14,787,000, respectively, on Stop Loss coverage associated with the Insured Portion of Partially Insured Plans.

Cost Reimbursement Contracts

Revenues from the Company's Civilian Health and Medical Program for the Uniformed Services administrative contracts for 2013 and 2012 were $201,000 and $472,000, respectively.

In addition, the Company is a member of the BlueCard Program and by agreement processes subscribers' claims for other Blue Cross and Blue Shield Plans. The claims, of $186,667,000 and $152,811,000 in 2013 and 2012, respectively, were processed for others and the related reimbursements have been excluded from the statutory statements of income. The Company's operating expense reimbursement for BlueCard was $7,497,000 and $7,284,000 in 2013 and 2012, respectively.

The Company also has administrative agreements with affiliated and related companies that are disclosed as related parties.

Note 11 - Reinsurance

Unsecured Reinsurance Recoverable

The Company does not have an unsecured aggregate recoverable for losses, paid and unpaid including incurred but not reported (IBNR), loss adjustment expenses and unearned premium with any individual reinsurers, authorized or unauthorized, that exceeds 3% of the Company's policyholder surplus.

Medicare Advantage/Medicare Part D

In 2006, the Company joined with Blue Cross Blue Shield of Minnesota, Blue Cross Blue Shield of Montana, Blue Cross Blue Shield of Nebraska, Wellmark, Inc., Wellmark of South Dakota, and Blue Cross Blue Shield of Wyoming to create a joint enterprise, Regional Advantage Services, LLC for the purposes of administering the Blue Cross Blue Shield Northern Plains Alliance Medicare Advantage and Medicare Part D Program.

There are multiple agreements in place among these entities that may involve transfers of revenue. These agreements fall into three main categories:

1) The allocation of CMS risk-sharing payments involves the distribution of payments to/from CMS that are calculated based on variances in financial experience from amounts bid for Medicare Advantage and Medicare Part D products. The Company currently has no risk-sharing payable to CMS. As of December 31, 2013 and 2012 the Company has risk sharing receivables recorded of $1,218,000 and $542,000, respectively.

2) The pooling of catastrophic claims involves the pooling of claims with amounts paid in excess of $100,000. The Company currently has no receivable recorded relating to the pooling of large claims.

3) The limited gain-sharing portion involves the potential transfer of portions of financial gains arising from Medicare Advantage and Medicare Part D products to other entities that incurred losses on the same. The Company currently has an $84,000 risk-sharing payable to the other plans in the region.

Reinsurance Assumed and Ceded

The Company entered into an agreement with MedAmerica Insurance Company in 1999 to offer long-term care insurance that would be 100% ceded to MedAmerica. Reinsurance ceded could become a liability to the Company in the event the reinsurer is unable to meet the obligations they have assumed. Claims paid by MedAmerica in 2013 and 2012 were $429,000 and $451,000, respectively. MedAmerica established claim reserves of $1,290,000 and $1,008,000 for 2013 and 2012, respectively.

Note 12 - Aggregate Reserves for Policy Contracts

Activity in the liability for aggregate reserves for policy contracts (excluding unpaid claims adjustment expenses and premium deficiency reserves) is summarized as follows:

	2013	2012
Balance at beginning of the year	$ 138,360,000	$ 119,978,000
Incurred related to		
Current year	1,105,643,000	1,009,239,000
Prior year	(8,175,000)	(12,163,000)
Total incurred	1,097,468,000	997,076,000
Paid related to		
Current year	959,563,000	870,890,000
Prior year	130,387,000	107,804,000
Total paid	1,089,950,000	978,694,000
Balance at end of the year	$ 145,878,000	$ 138,360,000

The decrease in the provision of insured events of prior years of $8,175,000 as of December 31, 2013 and $12,163,000 as of December 31, 2012 is a result of ongoing analysis of recent loss development trends and re-estimation of unpaid claims on fully insured and risk sharing agreements and resulting from loss development trends better than estimated.

Note 13 - Income Taxes

The components of the net deferred tax asset/(liability) at December 31, 2013 and 2012 are as follows:

	2013			2012		
	Ordinary	Capital	Total	Ordinary	Capital	Total
Gross Deferred Tax Assets	$ 33,900,000	$ -	$ 33,900,000	$ 23,600,000	$ 2,100,000	$ 25,700,000
Adjusted Gross Deferred tax Assets	33,900,000	-	33,900,000	23,600,000	2,100,000	25,700,000
Deferred Tax Assets Nonadmitted	20,400,000	-	20,400,000	19,000,000	2,100,000	21,100,000
Subtotal Net Admitted Deferred Tax Asset	13,500,000	-	13,500,000	4,600,000	-	4,600,000
Deferred Tax Liabilities	-	6,600,000	6,600,000	-	-	-
Net Admitted Deferred Tax Asset	$ 13,500,000	$ (6,600,000)	$ 6,900,000	$ 4,600,000	$ -	$ 4,600,000

The change in the components of the net deferred tax asset/liability between December 31, 2013 and 2012 is as follows:

	Change		
	Ordinary	Capital	Total
Gross Deferred Tax Assets	$ 10,300,000	$ (2,100,000)	$ 8,200,000
Adjusted Gross Deferred tax Assets	10,300,000	(2,100,000)	8,200,000
Deferred Tax Assets Nonadmitted	1,400,000	(2,100,000)	(700,000)
Subtotal Net Admitted Deferred Tax Asset	8,900,000	-	8,900,000
Deferred Tax Liabilities	-	6,600,000	6,600,000
Change in Net Admitted Deferred Tax Asset/(Net Deferred Tax Liability)	$ 8,900,000	$ (6,600,000)	$ 2,300,000

The admission calculation components under SSAP No. 101 as of December 31, 2013 and 2012 is as follows:

	2013			2012		
	Ordinary	Capital	Total	Ordinary	Capital	Total
Federal Income Taxes Paid In Prior Years Recoverable Through Loss Carrybacks	$ 3,700,000	$ -	$ 3,700,000	$ 4,600,000	$ -	$ 4,600,000
Adjusted Gross Deferred Tax Assets Expected To Be Realized (Excluding The Amount Of Deferred Tax Assets From above) After Application of the Threshold Limitation (The Lesser of 1 and 2 below)	3,200,000	-	3,200,000	-	-	-
Adjusted Gross Deferred Tax Assets Expected to be Realized Following the Balance Sheet Date	3,200,000	-	3,200,000	-	-	-
Adjusted Gross Deferred Tax Assets Allowed per Limitation Threshold	-	-	-	-	-	-
Adjusted Gross Deferred Tax Assets (Excluding The Amount of Deferred Tax Assets From above) Offset by Gross Deferred Tax Liabilities	-	6,600,000	6,600,000	-	-	-
Deferred Tax Assets Admitted as the result of application of SSAP No. 101	$ 6,900,000	$ 6,600,000	$ 13,500,000	$ 4,600,000	$ -	$ 4,600,000

The change in the admission calculation components is as follows:

	Change		
	Ordinary	Capital	Total
Federal Income Taxes Paid In Prior Years	$ (900,000)	$ -	$ (900,000)
Adjusted Gross Deferred Tax Assets Expected To Be Realized (Excluding The Amount Of Deferred Tax Assets From above) After Application of the Threshold Limitation (The Lesser of 1 and 2 below)	3,200,000	-	3,200,000
Adjusted Gross Deferred Tax Assets Expected to be Realized Following the Balance Sheet Date	3,200,000	-	3,200,000
Adjusted Gross Deferred Tax Assets Allowed per Limitation Threshold	-	-	-
Adjusted Gross Deferred Tax Assets (Excluding The Amount of Deferred Tax Assets From above) Offset by Gross Deferred Tax Liabilities	-	6,600,000	6,600,000
Change in Deferred Tax Assets Admitted as the result of application of SSAP No. 101	$ 2,300,000	$ 6,600,000	$ 8,900,000

	2013	2012
Ratio Percentage Used To Determine Recovery Period and Threshold Limitation Amount	343%	505%
Amount Of Adjusted Capital and Surplus Used To Determine Recovery Period and Threshold Limitation Above	$ 192,188,000	$ 267,400,000

The provision (benefit) for income taxes consist of the following major components for the years ended December 31, 2013 and 2012:

	2013	2012
Federal	$ 622,000	$ 3,484,000
Federal income tax on net capital gains	3,202,000	571,000
Other	(802,000)	499,000
Federal and foreign income taxes incurred	$ 3,022,000	$ 4,554,000

The effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities are as follows:

	2013	2012	Change
Ordinary			
Discounting of unpaid losses	$ 600,000	$ 450,000	$ 150,000
Fixed assets	5,700,000	2,600,000	3,100,000
Compensation and benefits accual	3,800,000	4,100,000	(300,000)
Net operating loss carry forward	9,600,000	6,900,000	2,700,000
Other (including items <5% of total ordinary tax assets)	600,000	350,000	250,000
Intangible Assets - Subscriber and provider contracts	5,700,000	5,800,000	(100,000)
Prepaid Expenses	4,100,000	3,400,000	700,000
Premium Deficiency Reserve	3,800,000	-	3,800,000
Subtotal	33,900,000	23,600,000	10,300,000
Nonadmitted	(20,400,000)	(19,000,000)	(1,400,000)
Admitted ordinary deferred tax assets	13,500,000	4,600,000	8,900,000
Capital:			
Investments	$ -	$ 2,100,000	$ (2,100,000)
Nonadmitted capital deferred tax assets	-	2,100,000	(2,100,000)
Admitted capital deferred tax assets	-	-	-
Admitted deferred tax assets	13,500,000	4,600,000	8,900,000
Deferred Tax Liabilities			
Capital			
Investments	6,600,000	-	6,600,000
Net deferred tax assets	$ 6,900,000	$ 4,600,000	$ 2,300,000

The change in the net deferred income taxes is comprised of the following:

	2013	2012	Change
Gross deferred tax assets	$ 33,900,000	$ 25,700,000	$ 8,200,000
Total deferred tax liabilities	(6,600,000)	-	(6,600,000)
Net deferred tax assets	$ 27,300,000	$ 25,700,000	1,600,000
Tax effect of unrealized gains			3,900,000
Change in net deferred income taxes			$ 5,500,000

The provision for federal and foreign income taxes incurred is different from that which would be obtained by applying the statutory Federal income tax rate to income before income taxes. The significant items causing this difference are as follows:

	2013	2012
Provision computed at the statutory rate	$ (27,218,000)	$ 9,327,000
Benefit of the 833(b) deduction	(2,900,000)	(3,577,000)
Effect of permanent differences including impact of disregarded entity	33,942,000	(980,000)
Other provision	(802,000)	(216,000)
Total Statutory income tax provision	$ 3,022,000	$ 4,554,000

The Company has an alternative minimum tax (AMT) credit carryforward of $50,353,000 that may be carried forward indefinitely to reduce future regular federal income taxes payable. The Company also has $27,500,000 of operating loss carryforward that expires between 2018 and 2030 that may be used to offset future regular taxable income.

The Company has income taxes incurred of $200,000 in 2013 and $3,500,000 in 2012 that will be available for recoupment in the event of future net losses.

The Company's federal income tax return is filed on a consolidated basis with NHS, Twenty First, MDD, and NISI. The Company includes 50% of the taxable income/loss of CoreLink Administrative Solutions, LLC in the calculation of income tax due.

The method of allocation is described as the Taxable Income Method, under which the group's tax liability is apportioned among the members in accordance with the ratio which that portion of the consolidated taxable income attributable to each member having taxable income bears to the consolidated taxable income based upon separate return calculations with current credit for net losses. Intercompany tax balances are settled annually in the third quarter of the subsequent year. Under the tax sharing arrangement, the subsidiaries have the ability to recoup taxes if losses are incurred or use carryforward losses to offset future taxable income.

Note 14 - Related Party Transactions

The Company provides marketing and administrative services, building facilities, equipment, and data processing to the following companies. In accordance with administrative agreements, expenses are determined by a cost accounting system, which allocates operating expenses to the companies based on estimates of actual utilization.

The net amount due from (to) the Company are as follows:

	Admitted Amounts Due From (to) at December 31 2013	Admitted Amounts Due From (to) at December 31 2012
Noridian Healthcare Solutions, LLC	**$ 18,489,000**	$ 28,658,000

Discovery Benefits, Inc	**29,000**	150,000
	$ 72,154,000	$ 119,224,000

The Company donated administrative services to The North Dakota Caring Foundation. The services donated were $236,000 and $216,000 for 2013 and 2012, respectively.

Certain board members are also management personnel for entities in which the Company conducts certain business.

Note 15 - Retrospectively Rating Contracts

The Company estimates accrued retrospective premium adjustments for its group health insurance business through a mathematical approach using an algorithm of the Company's underwriting rules and experience rating practices. The Company records accrued retrospective premium as an adjustment to earned premium. The amount of net premium written by the Company at December 31, 2013 and 2012 that are subject to retrospective rating features was $256,648,000 and $237,058,000 which represented 21% and 24%, respecitively, of the total net premium written.

Note 16 - Commitments and Contingencies

On June 28, 2012, the Company entered into an agreement to guarantee a letter of credit taken out by NHS. The letter of credit is a requirement for a contract NHS has with the State of Iowa. The amount of the letter of credit is $1,739,000. The letter expires on June 30, 2014. NHS is currently meeting all contractual obligations related to this contract.

On October 17, 2011, the Company entered into an agreement to guarantee up to a $6,000,000 line of credit taken out by MDD. In 2013, the line of credit limit and guarantee by the Company was raised to $8,000,000. As of December 31, 2013 the amount of the line of credit balance outstanding was $8,000,000. The line of credit matures on December 16, 2015. See Note 17 for subsequent events related to sale of membership units of MDD.

The Company's wholly owned subsidiary, NHS, was the prime contractor in building the State of Maryland's health insurance web-based marketplace (MDHIX). On December 31, 2013, the State issued a cure notice to NHS regarding alleged performance issues. NHS disputed and continues to dispute the State's claims. NHS successfully negotiated a consensual exit from the MDHIX contract as of February 24, 2014. The Transition Agreement associated with this negotiated exit provides that NHS and the State agreed to a standstill until August 22, 2014 (the "Standstill Period"), with regard to the assertion of any legal claims by any party against any other in connection with the Contract. The Company is a party to that exit agreement with respect to its efforts to support transitional data hosting services required by the State's new prime contractor, QSSI. NHS believes that it is probable that one or more material claims will be asserted by the State against NHS, and NHS will assert one or more material claims against the State. The Company believes that it is also possible that the State may assert material claims directly against NMIC for damages. However, the facts do not indicate that an unfavorable outcome for the Company is probable based on any such claims, nor is it reasonably possible to estimate a range of outcomes that may occur as a result of such claims. Counsel for both companies are of the view that, assuming that such claims will be asserted, it is not possible to determine either the probability of a favorable or unfavorable outcome or to estimate any gain or loss associated therewith.

On February 24, 2012, the Company entered into an agreement to guarantee a performance bond taken out by NHS. The performance bond was a requirement for a contract NHS has with the State of Maryland (the state) to build the State's Health Insurance Exchange. The amount of the performance bond is $10,000,000. The bond was originally set to mature on February 22, 2014 but was extended to October 22, 2014. In February 2014, NHS and the state came to an agreement for NHS to exit the contract as of February 24, 2014. Under terms of the agreement, both parties agreed to stay any legal proceedings in regard to the contract until August 22, 2014. No reasonable estimate can be made at this time regarding the potential liability, if any, or the amount or range of any loss that may result from the negotiated exit of the contract. In accordance with SSAP No. 5R – *Liabilities, Contingencies and Impairments of Assets*, an accrual of $5,000,000 was recorded based on management's assessment of the uncertainty surrounding implementation of call provisions of the bond, and the guarantee agreement between the Company and the surety company. The amount recorded represents the midpoint of the range of the bond in accordance with treatment prescribed in SSAP No. 5R. Subsequent to year end, the bond issuer has requested and the Company has placed $10,000,000 as funds on deposit with a financial institution.

The Company has committed no reserves to cover contingent liabilities that may arise from guarantee fund assessment amounts as amounts would not be material to the Company.

The Company is involved in various claims, lawsuits and proceedings that arose in the ordinary course of business. While these actions are being contested, the outcome of individual matters is not predictable with assurance. The Company does not believe that any liability resulting from any of the actions will have a material adverse effect on its financial position, operating results, policyholder surplus, cash flows or liquidity.

Note 17 - Subsequent Events

Subsequent events have been considered through June 26, 2014, which represents the date the statutory basis financial statements were available to be issued.

On January 1, 2014, the Company will be subject to an annual fee under section 9010 of the PPACA. This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1, 2014. As of December 31, 2013, the Company has written health insurance subject to the PPACAassessment and expects to conduct health insurance business in 2014. The Company estimates their portion of the annual health insurance industry fee to be payable on September 30, 2014 to be $13,500,000. This assessment is expected to decrease risk based capital by approximately 24 points.

Twenty First entered into a membership interest purchase agreement on March 31, 2014 to sell all membership units of MDD to Symphony Performance Health Inc. (Symphony). The sales price was $10,000,000 payable in cash at closing, a $5,000,000 senior secured promissory note payable on the third anniversary year from closing date, and a $1,500,000 secured promissory note payable on the fifth anniversary year from closing date. The Company also has the potential to receive an additional $12,500,000 from the sale based on customer and revenue earn-out provisions. The transaction is expected to increase the Company's surplus by approximately $13,600,000 in 2014.

During March of 2014, the Company signed an agreement to sell its ownership share in TriWest Alliance, Inc.(TriWest). The Company will record a realized gain of $16,389,000, however, the impact on surplus will be a decrease of $128,000 after reversing the unrealized gain of $16,518,000 that was previously recognized. Under the agreement, the Company received $12,265,000 in March 2014 and a note for the remaining sale amount of $5,256,000. The Company expects the note to be settled before year end 2014.

Note 18 - Annual Statement Variance

There were classification differences between the accompanying statutory financial statements and the Company's statutory filing as of December 31, 2013 and 2012. These differences related to classifications represented on the statement of cash flows. These variances had no effect on the statutory statements of admitted assets, liabilities, and policyholder surplus or the statutory statements of operations and changes in policyholder surplus.

Note 19 - Statutory Surplus

The North Dakota Insurance Department imposes minimum risk-based capital requirements that were developed by the NAIC. The formulas for determining the amount of risk-based capital specify various weighting factors that are applied to financial balances or various levels of activity based on the perceived degree of risk. At December 31, 2013 and 2012, the Company is in compliance with all capital requirements.

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Supplementary Information

The Board of Directors
Noridian Mutual Insurance Company
d/b/a Blue Cross Blue Shield of North Dakota
Fargo, North Dakota

We have audited the statutory financial statements of Noridian Mutual Insurance Company as of and for the years ending December 31, 2013 and 2012, and our report thereon dated June 26, 2014, which expressed an unmodified opinion on those financial statements appears on page 1. Our audits were conducted for the purpose of forming an opinion on the basic statutory-basis financial statements taken as a whole. The accompanying supplementary information included in the *Supplemental Schedule of Investment Risks Interrogatories* and the *Summary Investment Schedule* including the notes to supplementary information on pages 56 through 60 are required to be presented to comply with the National Association of Insurance Commissioners' Annual Statement Instructions and the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual and are not a required part of the basic statutory-basis financial statements. Such information included in the schedules referred to above is the responsibility of management, is presented for purposes of additional analysis and was derived from and relates directly to the underlying accounting and other records used to prepare the statutory financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic statutory financial statements taken as a whole.

Eide Bailly LLP

Minneapolis, Minnesota
June 26, 2014

Other positions held by Gulleson include director for allied health programs for the North Dakota State College of Science, licensed nutritionist and director for nutrition programming at the Sargent and Ransom County Public Health offices in North Dakota. A graduate of North Dakota State University, Fargo, Gulleson holds a bachelor's degree in nutrition and education. She also completed master's coursework in Public Policy Administration from the North Dakota University System and the Minnesota State Colleges and Universities system. Since 1980, Gulleson has been a partner in a North Dakota ranching and farming business with her husband and their three sons.

Lacey Hogness
Project Manager
Fargo, N.D.
Phone Number: 701-282-1325 (office)
Lacey.Hogness@bcbsnd.com

Lacey Hogness has been with BCBSND since 2008. She has been a project manager for 2 years. In this role, she manages assigned corporate projects and activities that must be addressed in order to complete project deliverables within established timeframes. In addition, she is the one of the primary employees responsible for the coordination and implementation of the state and public accounts. Prior to this position, she worked in claims and quality assurance. She has a bachelor degree in business administration from Minnesota State University of Moorhead.

Heather Horner
Member Education Consultant
Bismarck-Dickinson-Williston-Minot, N.D.
Phone Number: 701-255-5575 (office)
Heather.Horner@bcbsnd.com

Heather Horner has been the Member Education Consultant for the western half of the state since March of 2011. As a Member Education Consultant, Heather meets with employees and provides concise, easy-to-understand information about how insurance works, what drives costs and what they can do to reduce their health care costs. She can tailor a presentation by including the group’s utilization statistics and information about how the group compares to statewide averages and peer groups. Before working at BCBSND she worked as the Wellness Director for Anytime Fitness.

Megan Smith Houn
Director of Government Relations
Bismarck, N.D.
Phone Number: 701-255-5548 (office)
Megan.Houn@bcbsnd.com

Megan Smith Houn is the director of Government Relations. She develops and maintains cooperative relationships with local, state, and federal officials, agencies and other health care related entities in both the private and public sectors on behalf of BCBSND. She communicates BCBSND's position on issues which impact the health care and reimbursement system and advocates on issues on behalf of BCBSND's members. A native of Bismarck, N.D., Smith Houn is a graduate of Baylor University in Waco, Texas, with a Bachelor of Arts degree in international relations. She has nearly fifteen years of experience in health promotion programs and working with policymakers. Before joining BCBSND, she served as the executive director of Tobacco Free North Dakota in Bismarck, where she led a successful campaign to pass the statewide initiated measure for smoke-free workplaces. Prior to that, she was the grassroots relationship manager for the American Cancer Society Cancer Action Network in Bismarck from 2005 to 2010.

Tim Huckle
President and CEO
Fargo, N.D.
Phone Number: 701-282-1539 (office)
Tim.Huckle@bcbsnd.com

Tim Huckle is President and Chief Executive Officer of Blue Cross Blue Shield of North Dakota (BCBSND). He directs and oversees all operations of the company, subsidiary and affiliated companies. He is also responsible to set corporate goals with the Board of Directors and develop corporate strategy. Huckle has more than 28 years of experience in the health care industry. Beginning as a work management specialist in 1986, he steadily moved up through the ranks at BCBSND, holding a number of key leadership positions within the company, including vice president, executive vice president and chief operating officer. His extensive management experience in a variety of departments, strong people skills, and ability to adapt to and embrace change, have served—and continue to serve—the company well. A graduate of the University of North Dakota, Grand Forks, Huckle holds a bachelor degree in business administration.

Zach Keeling
Director of Marketing Operations & Product Management
Fargo, N.D.
Phone Number: 701-282-1138 (office)
Zach.Keeling@bcbsnd.com

Zach Keeling is responsible for the development and implementation of BCBSND's full product portfolio. He and his team are also accountable for all operational activities within Sales and Marketing including marketing systems, market research, reporting and compensation. Keeling joined BCBSND in 2011. Prior to BCBSND, Keeling worked at Coventry Healthcare in Omaha, NE and MVP Healthcare in Schenectady, NY. Over the past 12 years, Keeling has held multiple leadership roles in Actuarial, Product Management, Sales and Marketing. A graduate of Doane College, Crete, NE, Keeling holds a bachelor degree in Mathematics and Economics.

Denise Kolpack
Chief of Staff and Senior Vice President of Communications and Public Affairs
Fargo, N.D.
Phone Number: 701-282-1485 (office)
Denise.Kolpack@noridian.com

Denise Kolpack is chief of staff and senior vice president of Communications and Public Affairs at Blue Cross Blue Shield of North Dakota. As chief of staff, she serves as liaison to executive staff across the enterprise, works with governing boards across the enterprise and serves as a strategic partner on all significant issues and programs. She also oversees the company's Creative Services and Document Services departments, which are responsible for advertising, public relations, internal communications, websites, video and audio, writing and editing, graphic design, and corporate print and mail services. Kolpack joined BCBSND in 2006 as assistant vice president of Corporate Communications and was promoted to vice president in 2007. Before joining BCBSND, she was donor recruitment director with United Blood Services, N.D., campaign manager for the Heidi Heitkamp for Governor campaign in North Dakota in 2000, and worked with the North Dakota Newspaper Association, the North Dakota Water Coalition and Kranzler-Kingsley, all in Bismarck. A graduate of the University of North Dakota, Grand Forks, Kolpack holds a bachelor of arts degree in marketing and a minor in political science.

Linda Merck
Senior Actuarial Analyst
Fargo, N.D.
Phone Number: 701-282-1137 (office)
Linda.Merck@bcbsnd.com

Linda Merck has worked in the Actuarial Department since she joined BCBSND 26 years ago. She assists with the NDPERS rate analysis, prepares the rate exhibit for the Administrative Service Agreement and assists in the implementation of the rate changes each July and January.

Mike Potts
Director, Employer Consulting and Wellness Services
Fargo, N.D.
Phone Number: 701-277-2065 (office)
Mike.Potts@bcbsnd.com

Mike Potts oversees Employer Consulting and Wellness Services at Blue Cross Blue Shield of North Dakota. He provides direction to a dedicated Consulting Team that includes a Pharmacist, Wellness Professionals, Large Group Consultants and Education Consultants. The team supports employer benefit plan goals by providing value-added analysis of various group data to identify improvement opportunities and recommendations. The recommendations include services and programs designed to optimize plan design, increase member engagement, improve health status and reduce long-term cost trends. Most recently, he has been educating group leaders on the impact of the Affordable Care Act. Mike has been with BCBSND for over 23 years. He brings a diversity of experiences to his current role. Prior to his current position, he spent 14 years overseeing the Provider Relations department at BCBSND. He has also held a number of positions in internal operations, marketing and with local provider organizations. Mike holds a Bachelor of Arts in Communications from the University of North Dakota and an MBA from the University of Mary.

Renay Rutter
Vice President of Enterprise Administration
Interim Vice President of Enterprise Strategic Services
Fargo, N.D.
Phone Number: 701-297-1634 (office)
Renay.Rutter@bcbsnd.com

Renay Rutter was hired in May 2013 as VP of Enterprise Administration and presently also serves as Interim VP of Enterprise Strategic Services where she leads Enterprise Information Technology teams (350 employees) including IT strategy and solution delivery; security; helpdesk services; enterprise project management, budgeting and governance; and corporate facility services. Prior to joining Noridian, Renay's entrepreneurial background included 25 years of senior and C-leadership roles in high tech industries such as software, legal business process outsourcing and customer service. Renay holds a bachelor degree in Business Administration.

Kevin Schoenborn
NDPERS Account Executive
Fargo, N.D.
Phone Number: 701-282-1172 (office)
Kevin.Schoenborn@bcbsnd.com

Kevin Schoenborn has been employed by BCBSND since August 1986, gaining over 28 years of experience in the health care industry. Since August 2008, he has served as the account executive for the NDPERS account, coordinating activities internally at BCBSND and with NDPERS staff. Prior to his account management role, Schoenborn was the dedicated large group consultant for NDPERS for eight years. In addition, he spent several years as a research analyst assigned to the NDPERS account for reporting purposes.

Onalee Sellheim
State and Public Programs Manager
Fargo, N.D.
Phone Number: 701-282-1154 (office)
Onalee.Sellheim@bcbsnd.com

Onalee Sellheim has been employed by BCBSND for 28 years. During that time, she has served in a number of capacities in the Claims Department, including eight years in the NDPERS Service Unit as a customer service representative and senior coordinator. She has also spent nine years servicing the NDPERS account in the Marketing division's Consulting Service Unit. In addition Onalee has now taken on the FEP Account as well.

Brent Solseng
Pharmacy Manager-Marketing
Fargo, N.D.
Phone Number: 701-282-1911 (office)
Brent.Solseng@bcbsnd.com

Brent Solseng, Pharm. D. has over 20 years combined experience in retail, hospital and managed care pharmacy. He is the Pharmacy Manager in Marketing for Blue Cross Blue Shield North Dakota where he is responsible for key account reporting and employer group consulting. Brent joined the BCBSND Medical Management division in June 2004. His primary responsibilities were delivery of education and performance reporting to prescribers and pharmacists. Brent worked on design and delivery of evidence-based presentations, prescribing reports and programs promoting judicious use of cost-effective therapies to North Dakota health care providers in the role of Academic Detailer. Brent transitioned to his current position in Marketing in March of 2011. As the Manager of Pharmacy Consulting, his work is centered on employer group reporting, program implementation and support. Currently Brent describes utilization and program performance in light of drug industry trends to BCBSND's largest employer clients.

Sheri Srnsky
Team Leader, NDPERS/FEP Service Unit
Fargo, N.D.
Phone Number: 701-277-2423 (office)
Sheri.Srnsky@bcbsnd.com

Sheri Srnsky has been employed with BCBSND since May of 2000. During that time, she has served in a number of capacities within the company. Sheri has served in the Claims Service Unit for nine years, including four years as a customer service representative, four years as a service unit coordinator, six months in Operation Support, and the last 7 months as a Team Leader (NDPERS/FEP).

Shelly Stalpes
Manager Claims Administration
Fargo, N.D.
Phone Number: 701-282-1476 (office)
Shelly.Stalpes@bcbsnd.com

Shelly Stalpes has been employed by BCBSND since 1985. During that time, she has served in a number of capacities in the Claims Department, including 17 years as team leader of Special Accounts (NDPERS and FEP). She became manager of the Claims Service Units in March 2008. As manager, Stalpes oversees six dedicated claims and customer service units, including the NDPERS Service Unit. She holds a bachelor degree in Business Administration from Minnesota State University Moorhead.

Mark Tschider
VP Customer Support & Claims Administration
Fargo, N.D.
Phone Number: 701-282-1980 (office)
Mark.Tschider@bcbsnd.com

Mark Tschider has been with BCBSND since 1989 and he has been the VP of Customer Support and Claims Administration for 4 years. Tschider spent his early years at BCBSND working with process and efficiency improvement projects in Claims Operations. From 1994 to 2010, he worked in BCBSND's Development and Business Strategies Division and was involved in implementing large corporate initiatives, including NDPERS project implementations. During 2009, he spent a year working with CoreLink during the startup of the company, he became heavily involved with BCBSND's Claims, Membership and Member Services systems and processes. In his current position, Tschider's responsibilities include providing oversight to the NDPERS Claims and Member Services department. He is responsible for continue improving the productivity, efficiency and quality of work BCBSND does in the high-performing areas of Claims and Customer Support.

Jacquelyn Walsh
Vice President of Clinical Excellence and Quality
Fargo, N.D.
Phone Number: 701-277-2786 (office)
Jacquelyn.Walsh@bcbsnd.com

Jacquelyn Walsh has been employed by BCBSND since December 2012. Prior to coming to the Plan, she worked in various nursing executive roles on the provider side for 36 years. Ms. Walsh provides leadership to management and clinical staff related to network provider relations, care management and quality to ensure the division’s efficient operation and to achieve desired outcomes in the work processes of medical and network policy development and implementation. She is also responsible for Plan accreditation and regulatory management with regard to the Plan’s commitment to a validated standard of excellence in the industry.

Jim Wynstra
Director of Actuarial
Fargo, N.D.
Phone Number: 701-277-2213 (office)
Jim.Wynstra@bcbsnd.com

Jim Wynstra joined BCBSND in August 2009. He has worked in the actuarial field since 1991. Prior to working at BCBSND, he worked at HealthMarkets located near Fort Worth, Texas. Before that, he spent 15 years working at Trustmark Insurance Company in Lake Forest, III. He has experience with pricing, reserving, financial forecasting and loss ratio experience analysis. Both Trustmark and HealthMarkets do business in multiple states, so he has experience with various insurance regulation environments as they relate to small-group and individual health insurance. Wynstra reports to the VP of Actuarial & Membership and manages an actuarial staff of eight with responsibilities including reserving, pricing and renewal increases.

Rebecca Balk, MBA, CPhT,
Director, Client Engagement – BCBSND and BCBSNE

BCBSND and BCBSNE will be served by experienced PBM expert, Rebecca Balk, who will serve as the Client Engagement Director. Becky has worked for Prime since 2008 in a number of leadership roles. She has much experience meeting with employers like <<CLIENTXX>> to discuss plan performance and benefit design/program options along with managing operational items as she was previously an Account Executive working with Prime's National Account team.

Prior to Rebecca joining the Client Engagement team, she managed consulting analytics for Prime's largest client, HCSC. Her responsibilities included analyzing and reporting on client data utilizing the SAS analytical data mining tool to determine pharmacy trends and develop recommendations based numerous sets of metrics. She presented this information to the client at the employer group level and at the overall plan level. Her position worked across many departments within Prime including clinical, sales, rebates, network, and finance.

Rebecca has been a Prime employee since February 2008. Prior to joining Prime, she was a Senior Financial Consultant with another pharmacy benefit manager, responsible for developing and approving pricing packages for pharmacy benefit plans for all sectors of business and measuring the financial impact of changes in plan design, network, and formulary coverage.Rebecca received her MBA from Capella University, her BA from the University of MN and is a Certified Pharmacy Technician.

Heather Belland
Account Consultant

Heather currently serves as the Employer Account Consultant for the Blue Cross Blue Shield of North Dakota Account team. As the Employer Account Consultant, she supports Account Directors, as well as an independent resource for employer groups. She interacts with many operational departments within Prime, and will require daily external interaction with employer groups. Responsibilities also include secondary and backup support in the absence of the Account Directors. Heather is responsible for ensuring that client needs are met on a daily basis by responding to escalated service inquiries and issues providing prompt resolution. Her responsibilities consist of oversight of non-standard benefit requests, escalated member issues, coordinate running and distribution of client reporting requests. She also provides operational assistance and issue resolution for clients on issues like eligibility, claims processing and prior authorizations. Heather began her career at Prime in 2011 and has previously supported our Sales team acquiring new business accounts in which she assisted the Vice President of Sales in all aspects of the sales cycle at the Normandale location. Heather comes to Prime with over 4 years of relationship management experience. Heather holds a Bachelor degree in Business, from the Capella University.

Megan Besser
Senior Consulting Analyst

As Senior Consulting Analyst, Megan's responsibilities include providing consulting analysis and reporting information to our Blue plans as well as other members of Prime's Client Engagement team. Megan joined Prime in 2011 and works closely with the Account Management team to ensure her client's analytics and reporting needs are met and opportunities for savings are identified. Megan is a graduate of Minnesota State University with a bachelor's degree in Business and Marketing.

Cameron Olig
Senior Vice President of Client Services and Sales

As Senior Vice President of Client Services and Sales, Cameron Olig is responsible for managing client relationships and delivering exceptional service and value to Prime's clients.

Cameron has been in the healthcare and PBM industry for over twenty years. Prior to joining Prime in 2004, Cameron was a principal and consultant at Towers Perrin, where he worked with clients on benefit design, benefit funding and all financial aspects of benefit management. In addition, he managed client relationships to ensure service delivery, customer satisfaction and revenue expansion. Most recently, he was responsible for leading the Towers Perrin health and welfare groups in Chicago and Milwaukee. Cameron also has experience as consulting with healthcare providers for the formation of risk bearing organizations. Cameron earned his Bachelor of Science degree in mathematics from the University of Wisconsin-Madison. He is a member of the American Academy of Actuaries and an associate in the Society of Actuaries.

Kent Wangsness
Regional Vice President

As Regional Vice President for four of Prime's Blue Cross and Blue Shield plans, Kent leads an account management team that ensures business objectives are successfully achieved. Kent works with our clients' leadership to develop and execute a comprehensive pharmacy strategy focused on effectively managing cost of care while providing optimal satisfaction to our clients and members. Kent has more than 20 years of healthcare experience, 16 of which in the pharmacy benefit management (PBM) space. Previous to joining Prime in 2011, his previous PBM positions include a Clinical Program Manager role with Express Scripts, a Principal with Mercer Health & Benefits and a Vice President position at The Burchfield Group. Kent has worked with a broad spectrum of payors, including middle market to jumbo self-insured employers, state Medicaid agencies, health plans (commercial and Medicare), and third party administrators.Kent holds a bachelor's degree in Chemistry from Saint Olaf College and a Doctor of Pharmacy degree from the University of Minnesota.

Claims Paid 01/01/2011 - 12/31/2013

Prepared By:

Management Information Services and Marketing Consulting Services Unit

Substantial legislation (Health Insurance Portability and Accountability Act and Graham Leach Bliley) has taken effect regarding the protection of personal health information. Blue Cross Blue Shield of North Dakota has worked diligently in the past to protect the privacy of personal information, and we are continuing to do so. We have reviewed the different reports and studies that we make available to our groups with respect to this legislation, and have made changes where necessary.

To ensure we are providing the “minimum necessary” information, as outlined by this legislation, we are asking you to review the reports you receive from us. If there are specific reports you have not used, or possibly will not be using in the future, we can discontinue those specific reports. We understand that you need information to make informed decisions regarding the benefits and funding of your employer group health plan. We will continue to provide that information to the best of our ability.

Effective 7/1/2013, dental and vision products from The Dental Service Corporation of North Dakota (DSC) and North Dakota Vision Services, Incorporated (VSI) began transitioning to Blue Cross Blue Shield of North Dakota (BCBSND) on the group's anniversary. Dental and Vision reports may contain a blend of data from any combination of DSC, VSI and/or BCBSND dental and vision products.

Please contact one of the Marketing Consultants if you have any questions or concerns.

LDL = Low Density Lipoprotein
GFR = Glomerular Filtration Rate
ACEi/ARB = Angiotensin converting enzyme inhibitor/angiotensin receptor blocker

* State data consists of most current quarter. For definition of State, please see attached glossary.

Definitions of Terms

Membership: Defined as total active contracts as of the most recent full month.
ND Membership: Defined as the number of members who reside in North Dakota.

Members in a Medical Home: The number of group members who are in the MediQHome program and attributed to a physician.
Members in a Medical Home with a Targeted Chronic Condition: The number of members in a Medical Home who have one or more of the six targeted chronic conditions.

Six Targeted Chronic Conditions: Asthma, Attention Deficit Hyperactivity Disorder, Coronary Artery Disease, Congestive Heart Failure, Diabetes, and Hypertension. These conditions are further stratified by age to create clinical suites.

ADHD: Attention Deficit Hyperactivity Disorder
ASTH: Asthma
CAD: Coronary Artery Disease
CHF: Congestive Heart Failure
DM: Adult Diabetes
DMA: Adolescent Diabetes
DMC: Childhood Diabetes

HTN: Adult Hypertension
HTNCA: Child or Adolescent Hypertension

Single Chronic: Members who are only in one of the targeted chronic condition suites.
Multiple Chronic: Members who are in more than one of the targeted chronic condition suites.

Non-Targeted: Members who are not in any of the targeted chronic condition suites, though these members may have conditions outside of those targeted by the MediQHome program.

BMI Ranges:

- **Normal:** less than or equal to 25
- **Overweight:** between 25.01 and 29.99
- **Obese:** between 30 and 34.99
- **Morbidly Obese:** greater than or equal to 35

State Comparison: Includes all commerical BCBSND book of business plus FEP, for members under age 65 residing within the state of North Dakota (zip code beginning with 58). Medicare members are excluded.

** Estimated trend if the age distribution remains the same from time period one to time period two.

Peer Group and Book of Business trends are based on the last full year of data from January to December 2011.

The best-in-class trend metric is the CY2009 BOB Gross Cost PMPM trend adjusted to GPI-2 class GDR performance of clients within +/- 0.5% of the 2007 BOB GDR and whose 2008 GDR improvement exceeded the BOB; and, adjusted for managing appropriate utilization in seven lifestyle or potential misuse classes.

The estimated client-specific trend forecast is not an actuarial work product thus, clients should seek appropriate independent professional advice in connection with its use.

Due to the variability of factors including market conditions, which are not under the control of CVS Caremark, this forecast is subject to change at any time and cannot be guaranteed.

Your Opportunity

For each 1% increase in GDR, your gross pharmacy spend is estimated to decrease an average of 2.5%*.**

To Help You Save, CVS Caremark Analytics Services Can:

- Target generics with the greatest potential to impact your drug spend and trend
- Help you determine the most effective approach to maximize that potential
- Help you address emerging developments such as the migration of brand drugs to over-the-counter status

CVS CAREMARK

	All Other	$117,199	$117,199
	Total	$563,559	$563,559

Implement plan designs that use generics first

Employ incentives and outreach such as:

- Generic copay waivers
- Personalized multi-channel savings messages
- Provide physician education on generics
- Consider promoting use of OTCs in select classes

*Impact of future generic launches has been calculated by drug strength and rolled up by drug name. GDR impact and savings are reported under brand name and launch date of the first available generic within each drug name.

This page contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers that are not affiliated with CVS Caremark.

PERCENT OF CLAIMS

After premiums, formularies have the strongest influence on a member's initial selection of a plan. It is therefore important to seize opportunities that will influence the behavior of your members in ways that enable you to find an optimal balance of growth, rebates and cost containment.

Ways to get members involved:

- Targeted letters to educate members on generic alternatives
- Online drug savings tool to provide members with real-time cost savings options on generics, OTCs and preferred brands
- Letters to notify members about new generics
- Communication to members on how easy it is to get started with CVS Caremark mail service

Forecasting Trends

Therapeutic Categories to Watch

Therapeutic Categories	Your Total Gross Cost PPM	Your Expected Gross Cost PPM	Percent of Total Gross Cost	Recent and Anticipated Brand Launches	Recent and Anticipated Generic Opportunities	Comments
Analgesics—Opioid	$5.34	$5.61	1.7%	OxyContin, Butrans, Nucynta, Oxymorphone ER, Remoxy	Oxymorphone, Oxymorphone ER	Dosage forms that are harder to abuse are in development. The FDA is trying to control opioid abuse by requiring risk management programs and limited distribution networks. The FDA has requested withdrawal of propoxyphene-containing products from the market.
Anticonvulsants	$10.06	$10.72	3.2%	Banzel suspension, Clobazam, Potiga		Expanded indication for **H.P. Acthar Gel**.
Antidepressants	$9.07	$9.53	2.9%	Oleptro, Bupropion high dose ER, Vilazodone	Venlafaxine ER	Expanded indication for Cymbalta.
Antidiabetics	$32.49	$34.75	10.3%	ACTOplus Met XR, Cycloset, Kombiglyze XR, Dapagliflozin, Linagliptin		FDA guidelines requiring long-term cardiovascular safety data for type 2 antidiabetic therapies may impact the approval of new agents. The FDA will significantly restrict the use of Avandia and rosiglitazone-containing products.
Antihyperlipidemics	$25.92	$28.15	8.2%	Livalo	Atorvastatin	Expanded indication for Crestor.
Antipsychotics	$40.81	$42.51	12.9%	Latuda, Adusuve Staccato		Expanded indications for Saphris
Antivirals	$28.00	$28.17	8.9%	**Boceprevir, Telaprevir**		The addition of **Boceprevir** or **Telaprevir** to **Pegylated Interferon** and **Ribavirin** may improve efficacy and may shorten the duration of hepatitis C therapy.
Gastrointestinal Agents	$18.62	$19.17	5.9%	Vimovo, Zuplenz, Solpura	Omeprazole/ sodium bicarbonate, Lansoprazole ODT	
Hematological Agents	$16.08	$16.87	5.1%	Pradaxa, Brilinta, Eliquis, **Neutroval**, Xarelto	Enoxaparin	**Neutroval** is a biosimilar to **Neupogen**. Pradaxa, Eliquis and Xarelto are oral anticoagulants that do not require blood level monitoring.
Psychotherapeutic and Neurological Agents	$10.13	$11.00	3.2%	**Gilenya**, Namenda XR, Kapvay, **Movectro**, Aricept transdermal	Donepezil, Rivastigmine, Zolpidem ER, Methylphenidate, Olanzapine	Expanded indications for Daytrana and Vyvanse. **Gilenya** and **Movectro** are oral disease-modifying MS drugs that could replace current injectable therapies such as **Copaxone**, **Avonex**, etc.

NDPERS Biennium Comparison

Paid through March 31, 2014

Incurred	Premium	Admin Fee	Interest on Surplus	Estimated Incurred Claims	Gain (Loss)	Gain (Loss) as % of Premium	Biennium Gain (loss)	% of Premium
July 09 - Jan 10	122,061	6,450	73	100,430	15,253	12.5%	38,094	9.0%
July 11 - Jan 12	133,866	7,102	19	120,700	6,084	4.5%	10,516	2.2%
July 13 - Jan 14	157,864	12,002	27	142,465	3,424	2.2%	N/A	N/A

Note: Reported in thousands

The July 11 - June 13 biennium is reporting a gain of $10.5 million with nine months of claims run out. Biennium gain(losses) are prior to risk sharing. It is important to note that the bienniums beginning with July 13 includes estimated claim reserves. Actual claims run out may vary from original reserve estimates.

It is expected that premiums will exceed claims in the first few months of the biennium. This is due to stable premium levels throughout the entire biennium and increasing claims during the biennium. At the mid-point of the biennium claims would be expected to be equal to premiums less admin fees and during the last months of the biennium, claims would be expected to exceed premiums

NDPERS Quarterly Trend Analysis

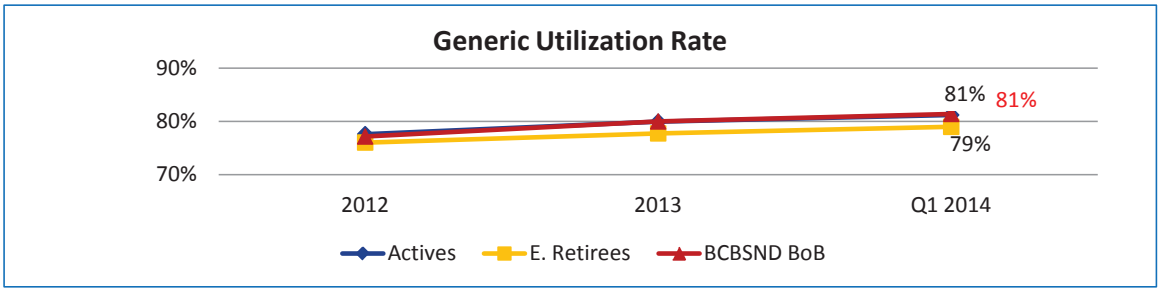
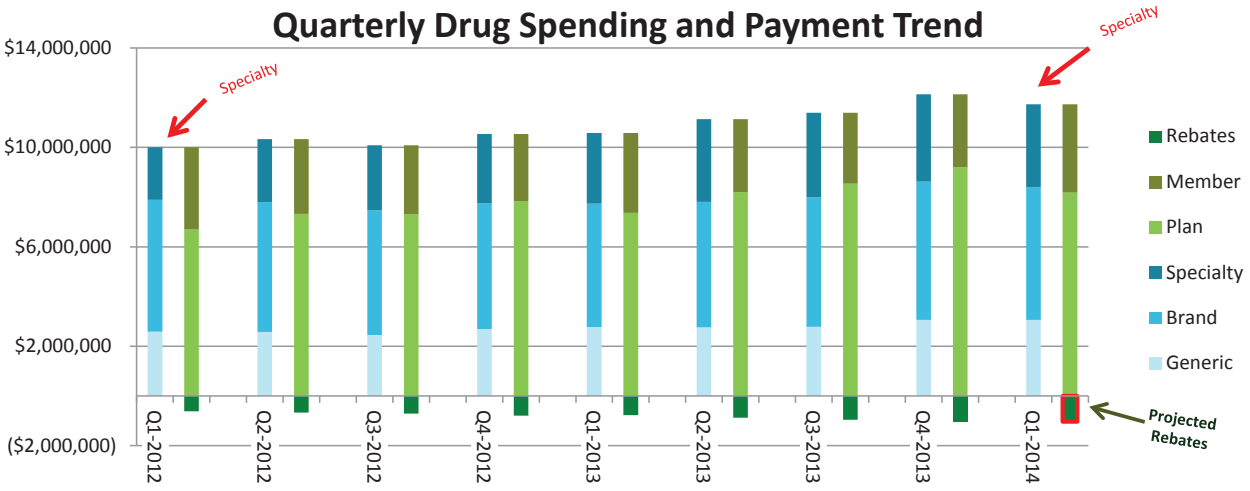
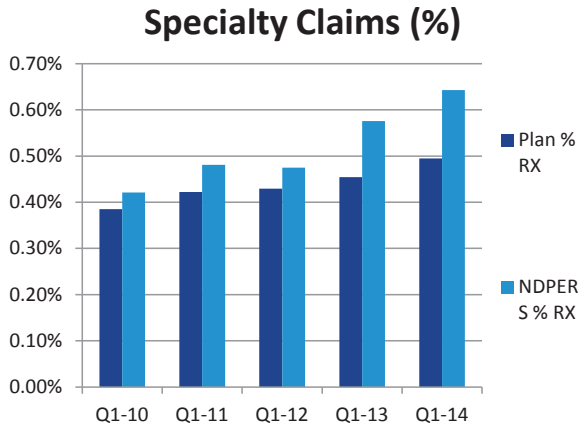
Prescription Drug & Specialty Pharmacy

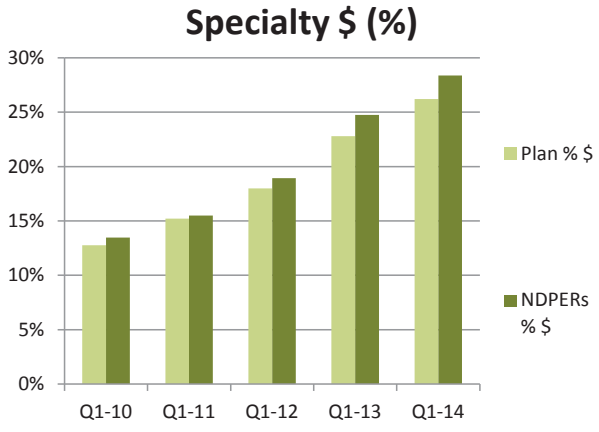
Prescription Drugs



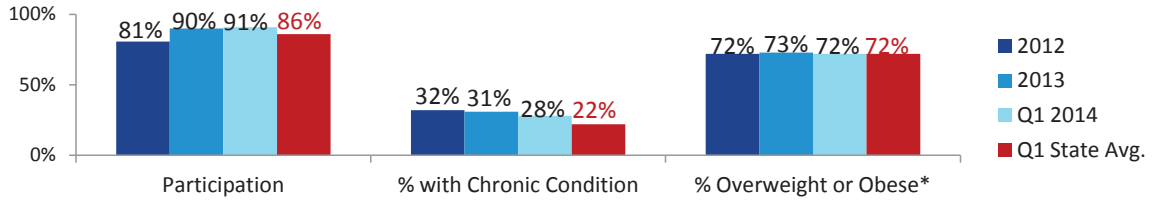


- Specialty spend continues to increase
- Plan (NDPERS) costs are increasing – benefit design may not be keeping up with inflation
- Rebates have also increased

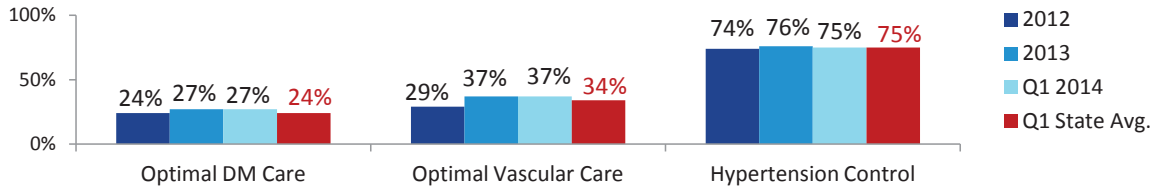




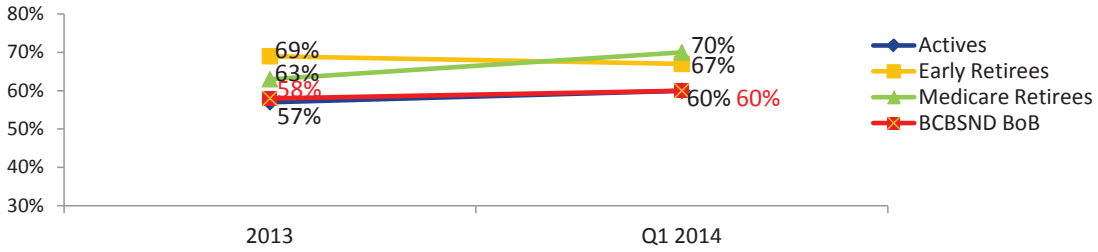
MediQHome Key Measures



MediQHome Outcome Measures



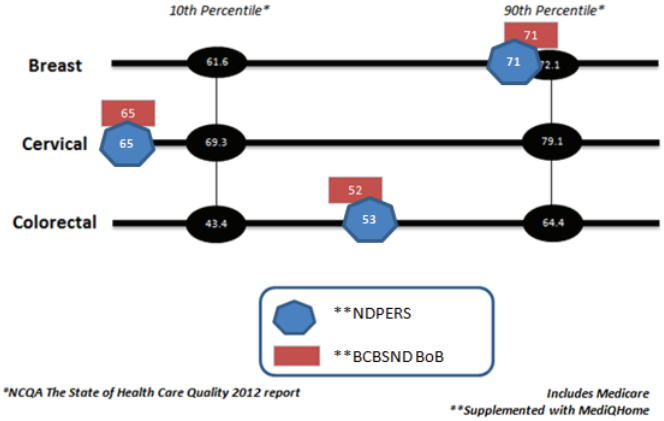
AccordantCare Participation – Rare and Complex Disease Management



- **533 eligible, 327 participating (overall participation 61%)**
- 2013 to Q1 2014 shows an overall increase in participation
  - Due to small population of the retirees, addition or decline of a few members could change participation percentage significantly

Preventive Cancer Screenings

Cancer screening compliance is at the BCBSND book of business but below the 2012 NCQA 90th percentile.

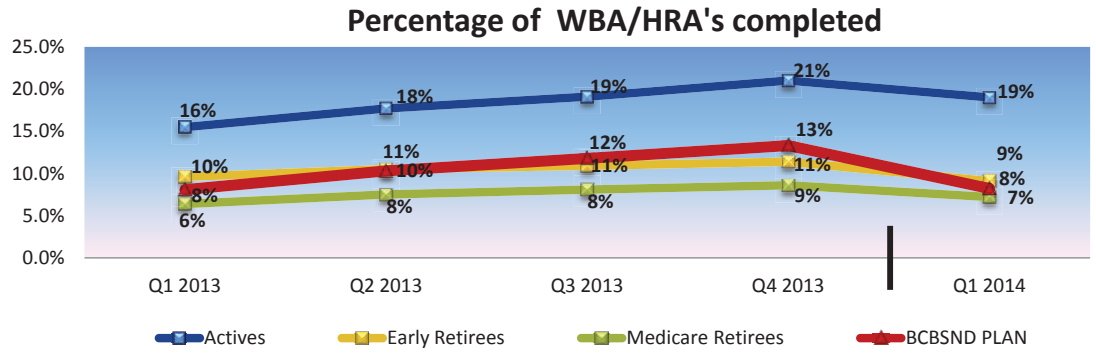


Wellness Programs

Through Q1 2014 (Jan-Mar), there was a total of 44,305 members eligible for the wellness programs, HealthyBlue and Health Club Credit. NDPERS member participation in both wellness programs is higher than the BCBSND Plan average.

HealthyBlue

- 17% (slightly down from 19% Q4) of <u>total</u> eligible members have completed a Health Risk Assessment (7,329 members).
  - BCBSND Plan HRA completion rate was 8% (also down from 13% in Q4)
- Point redemption through Q1 2014 - $48,086 in redeemed prizes

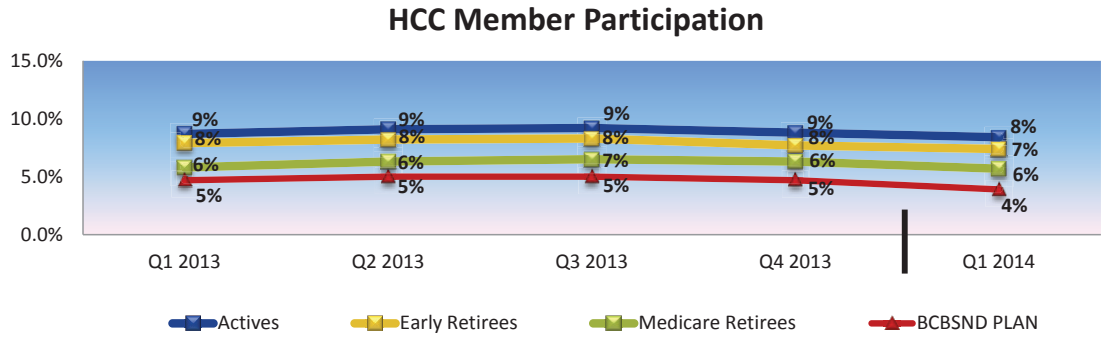


Q1 2014 begins over due to annual HRA completion requirement.

Quarters are cumulative to calendar year end

Health Club Credit

- 8% (same as Q4) participate in the Health Club Credit Program (3,478 members)
  - BCBSND Plan average is 4% (down from 5% Q4)
- Members receiving credit 61% (up from 55% Q4) - those participating in HCC exercise 12 or more days per month (2,137 members)
  - BCBSND Plan average is 63% (also up from 53% Q4)
- Health club credits paid through Q1 2014 - $114,661



Quarters are cumulative to calendar year end

Wellness Programs Cont'd

Member Engagement

Member Education Representatives introduce programs that provide employees with valuable information and engages them in their health care. Along with making more informed health care decisions, these programs include valuable life skills.

Presentations are available for the following programs:

- Take Care of Yourself
- Walking Works
- Strength Training
- Beat The Bug
- Summer Safety
- Stress Management
- Medication Education
- Tobacco Cessation
- Wellness Programs (HealthyBlue/Health Club Credit)
- Nutrition Basics for a Healthier You
- **NEW!** "CPR and First Aid Basics"

2014 through Q1, 26 employer groups have held these educational programs and 10 employer groups have had a benefit overview meeting.

	Number of Employers	Member Education Programs & Benefit Overview	Member Attendance
Q1 2014	15	HealthyBlue /HCC	308
	15	Other	499
	15	Benefit Overview	

NDPERS Wellness Specialist

- Two week Walking Challenge in January/February – 1155 registered participants walked approximately 146 million steps.
- Cervical Cancer Screening & HealthyBlue HRA Reminder mailings
- Completed "Spring into Action" physical activity challenge May 1 – results will be released in the next quarterly review.
- NDPERS Wellness Coordinator monthly calls & newsletters
  - **Call -** April featured a special guest from the NDSU Extension Service for a new nutrition program they are launching that is targeted at baby boomers.
  - **Newsletter** - featuring the health topic of the month and additional resources for wellness activities.
- Conducted a Wellness Coordinator survey in February. 63% of coordinators have been in their role for three or more years. Nearly all of coordinators are satisfied with the resources provided to them through the monthly newsletters and conference calls.
- HealthyBlueHighlights, sent bimonthly through HealthyBlue, highlights monthly health topics and encourages members to participate in HealthyBlue workshops.
- Pebble promotion in HealthyBlue – electronic tracking device that automatically uploads into HealthyBlue
- Debut of Duncan's Digest – online health topic presentation in HealthyBlue
- Launched online video tutorial on HealthyBlue
- Gearing Up for Worksite Wellness trainings were offered in Fargo and Bismarck. Approximately 10 NDPERS Wellness Coordinators attended.

Opportunities and Activities

Completed

- Gearing Up for Worksite Wellness trainings in Fargo and Bismarck.
- Two week Walking Challenge in January/February
- "Spring into Action" physical activity challenge
- Wellness Coordinator survey
- Cervical Cancer Screening mailing
- HealthyBlue HRA Reminder mailing
- National Walk at Lunch Day at Capitol with First Lady Dalrymple & Kathleen Wrigley
- New MyPrime.com website is now available

Ongoing Activities

- **New BCBSND staff member to provide additional support for NDPERS program management**
- **Case Management – dedicated NDPERS Case Manager, works closely with Member Advocacy Program (MAP)**
    - **83 cases reviewed/followed in last 12 months**
        - **Projected savings (soft & hard) - $237,060**
- **There are currently 9 members in the Member Advocacy Program (MAP) – an increase from 3 last quarter. Two additional MAP advocates have been hired as the need for their services continue to increase.**
- **HealthyBlue upgrade to log community event participation**
- A fruit & veggie challenge is scheduled for summer.
- Monthly NDPERS Wellness Coordinator calls and newsletters
- Specialty Pharmacy
    - NDPERS enrollment in Prime Specialty Pharmacy Care Management
    - Targeted mailings continue to identify new specialty users
- Accordant Care – continue to identify newly eligibly members

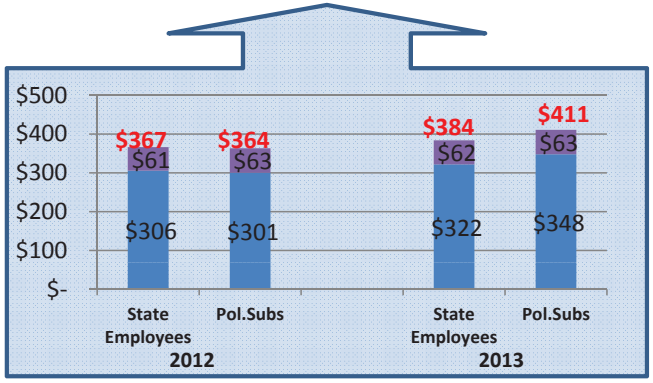
PPO PLAN
State & Political Subs

HDHP Plan
State Employees only



- Both the PPO & HDHP Plans saw an increase to enrolled members
- HSA dollars contributed by NDPERS reduces the member's out of pocket but adds to the over-all costs for NDPERS

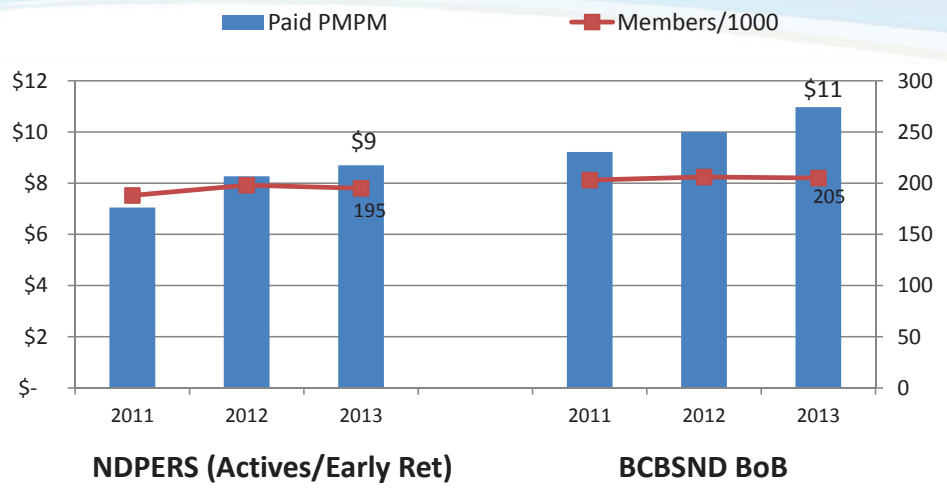
Restricted and/or Confidential

Outpatient ER Utilization

Consideration:

•Increase ER copay to $60

Current copay of $50 is lower than BCBSND standard copay - $75



• NDPERS PMPM is lower than BCBSND Plan average

• Small difference between ER copay ($50) and office visit copay ($25) may adversely affect utilization

Restricted and/or Confidential

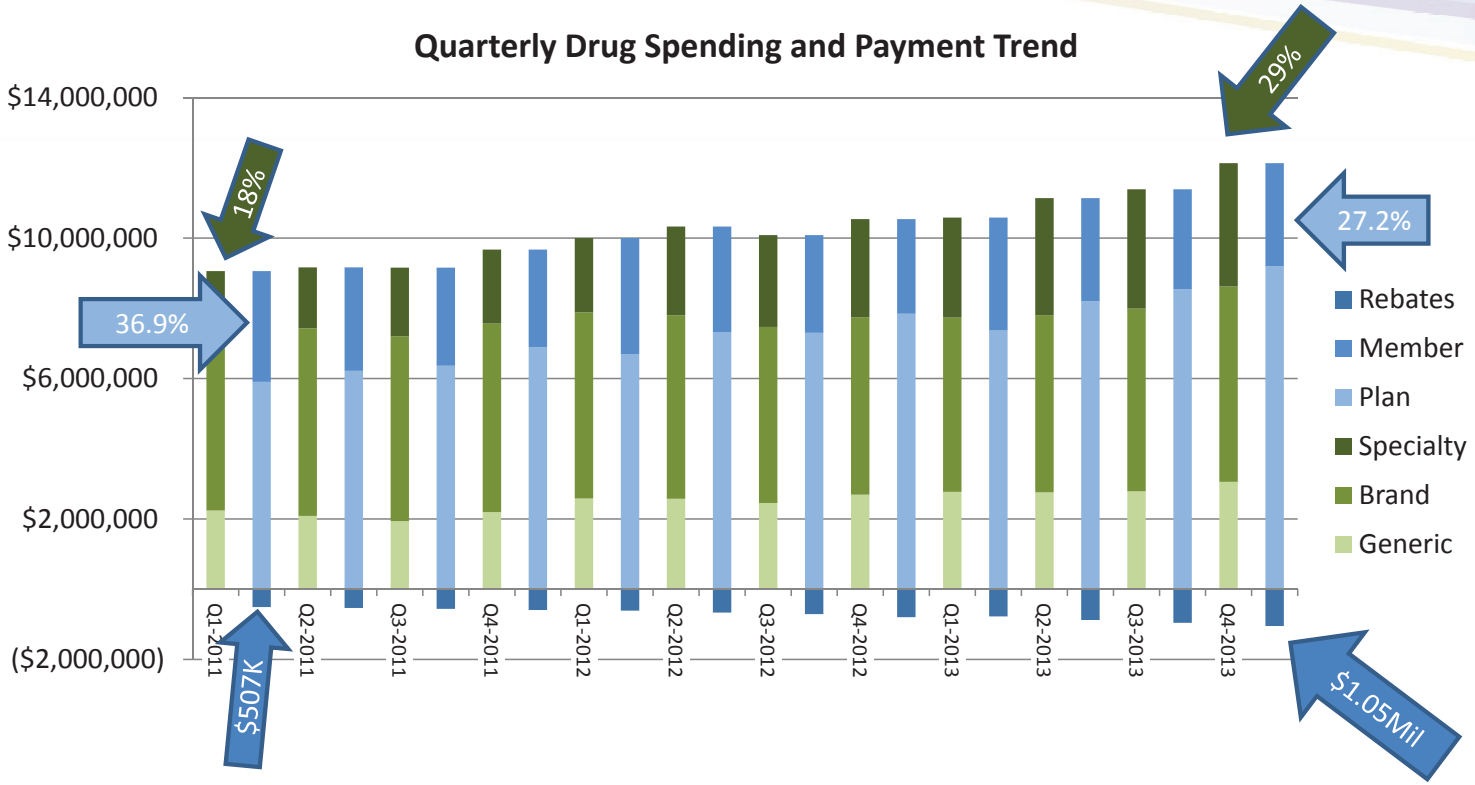
PHARMACY MANAGEMENT

Quarterly RX Spending

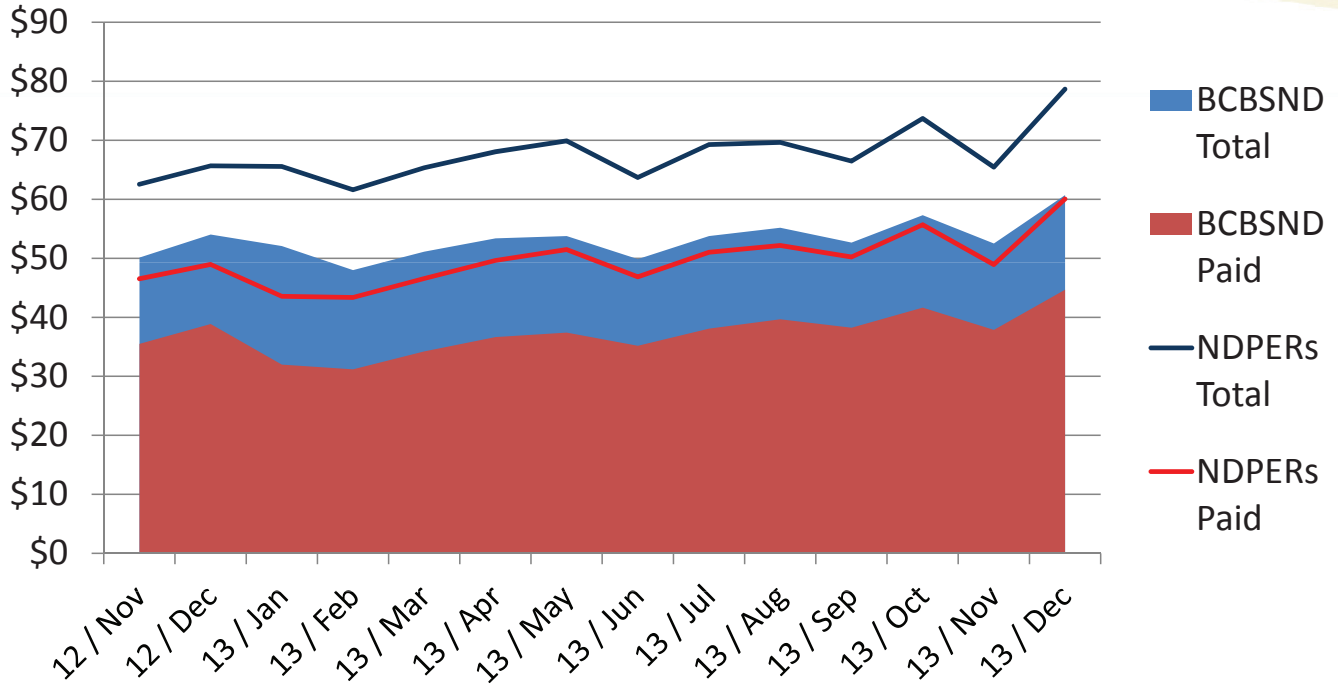
- Annual RX Spending Trends have been 5-9% quarter to quarter since 2010.
- Overall trend is driven by separate trends in generic, brand and specialty.



Monthly PMPM

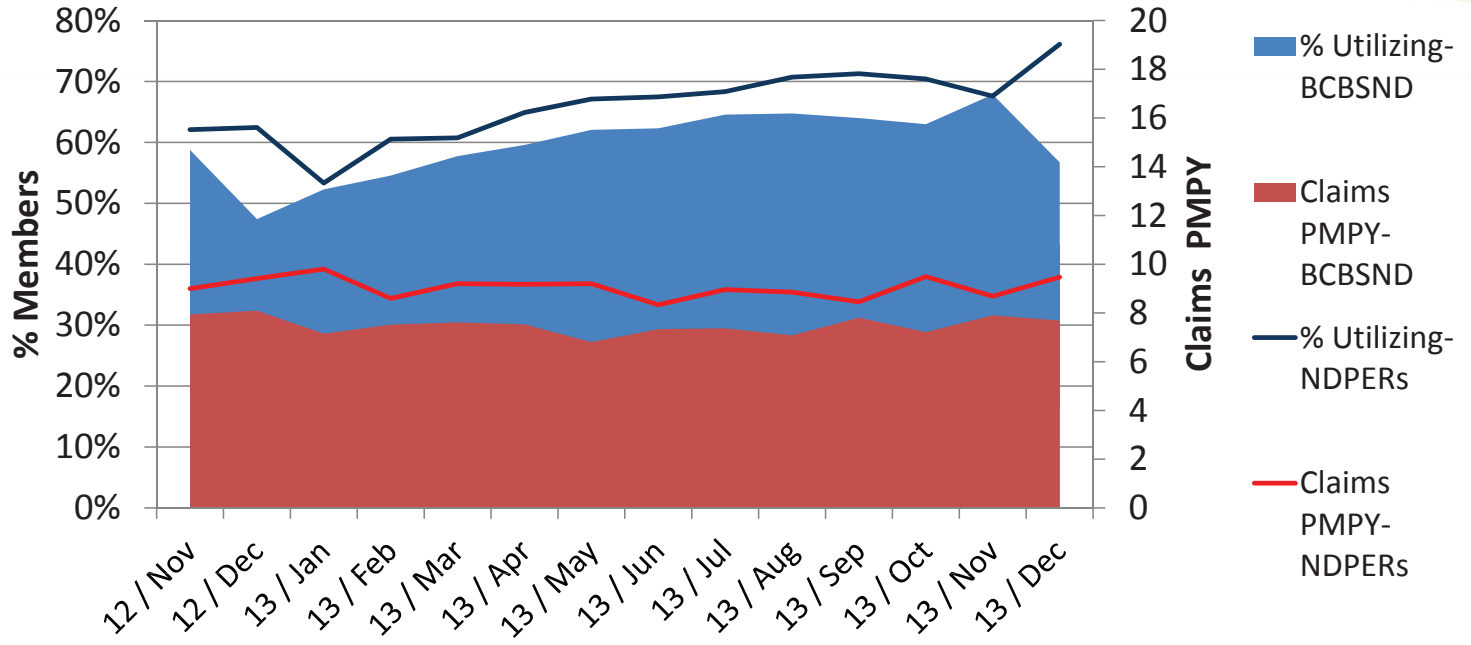
19

PMPM Plan and total paid amounts average $10-15 higher than monthly plan values



Monthly Utilization

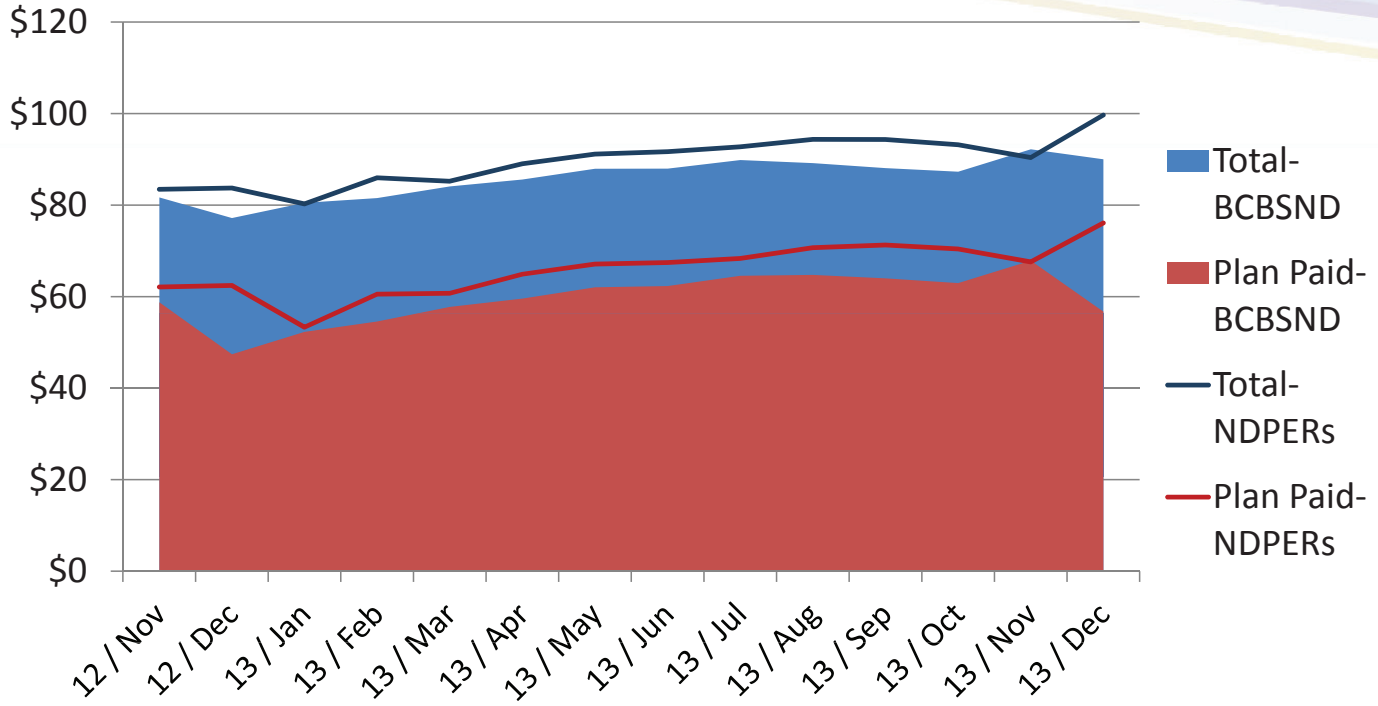
Utilization outpaces BCBSND average in both % of members and claims per member measures



Monthly Claims Costs

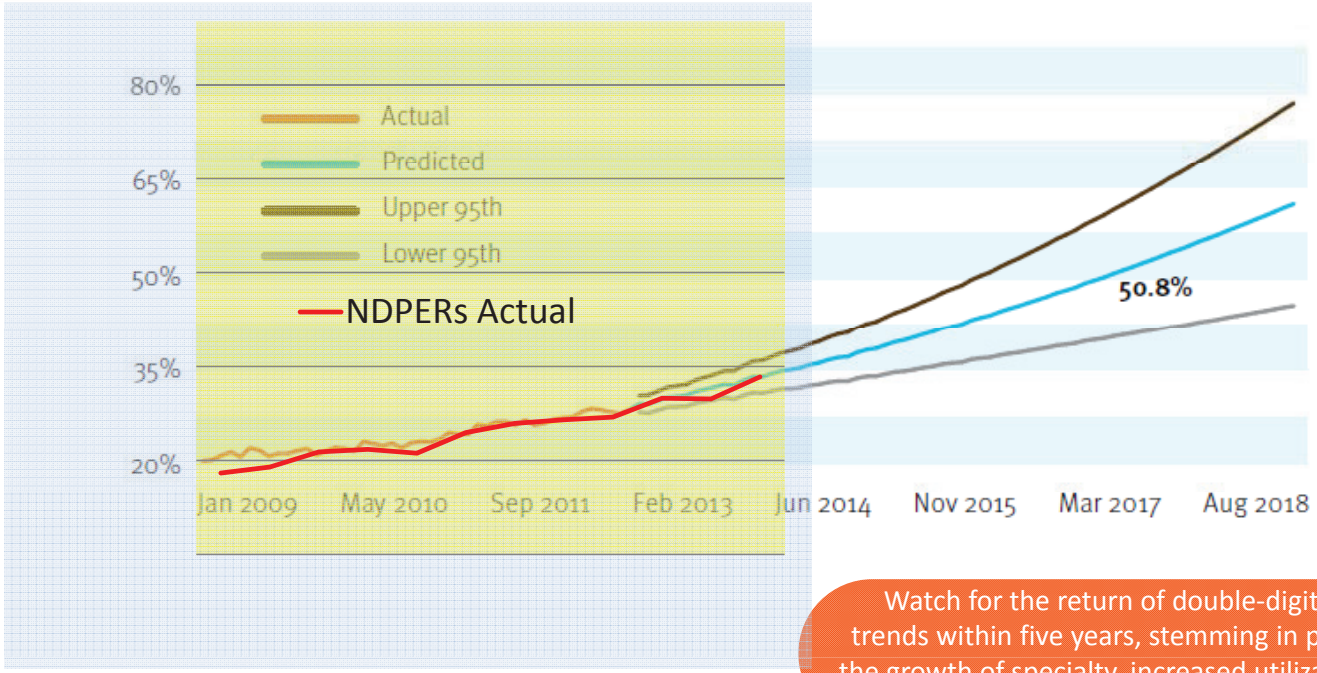
21

Average claims costs are higher than plan average



By 2018, more than 50 percent of all drug spend will be specialty

Fig. 10 **Specialty drug costs as a percentage of total drug spend**



Watch for the return of double-digit drug trends within five years, stemming in part from the growth of specialty, increased utilization and aging baby boomers

Best practices
7
Pick the right partner
Top-performing plans know
They can't do it alone. Top performers select a trusted advisor with comprehensive capabilities and deep connections to help them anticipate and address specialty drug challenges.
Partnership is essential
The facts are clear: specialty drugs will soon become the main drivers of increased drug spending and the focus of pharmacy benefit management. How well plan sponsors deal with this challenge depends in large part on the steps they take today.
The good news is that plan sponsors don't have to do it alone. A pharmacy benefit manager's role is to inform, advise, and — most importantly — manage drug-related cost and care challenges. That's why the most critical step in successful specialty pharmacy management is finding the right partner.
Characteristics of a good partner
The right kind of partner possesses a comprehensive set of capabilities and connections and demonstrates proven expertise in drug cost management; will engage and be responsive in interactions with members and clients; and can be expected to tell the unvarnished truth about what's going on.
Most importantly, the right kind of partner places a priority on people and their health, always considering what is best for them in every decision.
SPOTLIGHT
Coordinated care, aligned incentives
All sorts of problems can arise when companies put revenues before people. Without careful consideration of health outcomes and total costs, some of the tactics used to create drug pricing advantages can actually end up adding costs to the health care system.
Prime's relationship with Blue Cross and Blue Shield Plans allows us to be different. Not only does this unique connection set us free to do what's right for our members and clients, it also allows us to do what's right for the industry. Learn more.

Sample of Health Intelligenc Employer Profile Report

Employer Profile

Report Timeframe: 01/01/2012 - 03/31/2014

Employer Name: SAMPLE GROUP

Average Number of Members: 3,943.3

Average Age: 29.2

Employer ID: 019301

Relative Health Risk: 0.99

Product: PREFERRED BLUE PPO

Member Category 1: ALL

Member Category 2: ALL

Index of Reports

Section 1: Summary Reports

Executive Summary
Account Summary
Membership Trend by Contract Type
Summary Trend by Major Type of Service
Membership Distribution by Age and Gender
Membership Health Risk Distribution
Medical Claims Distribution
Quality

Section 2: Financial Reports (Paid Period Based)

Financial Overview
Claim Cost by Age, Gender and Relationship to Contract Holder
Claim Lag
Premium and Claim Cost Analysis

Section 3: Cost and Utilization Detail Reports

Top 20 Episode Families Ranked by Cost
Total Costs by Disease
Disease Related Costs
Top 20 Facilities
Top 20 Providers
Top 15 Specialties
Network Utilization
Provider Cost Savings and Employee Cost Sharing Analysis
Medical Cost and Utilization by Detailed Service Category
High Cost Cases

Index of Reports

Section 4: Pharmacy Reports

Pharmacy Overview
Pharmacy Cost and Utilization by Formulary and Tier
Top 20 Prescriptions Ranked by Cost
Pharmacy Cost by Therapeutic Class

Section 5: Appendix

Report Descriptions
Report Glossary

Employer Name: SAMPLE GROUP

Product: PREFERRED BLUE PPO

Current Incurred Period: 01/01/2013 - 12/31/2013, Paid Through 03/31/2014

Prior Incurred Period: 01/01/2012 - 12/31/2012, Paid Through 03/31/2014

Glossary

Term	Definition
Allowed Amount	Total amount allowed under the medical plan including the employee paid portion of deductibles, co-pays, coinsurance, the employer paid portion (paid amount) and COB. Allowed amount does not include plan and administrative exclusions such as duplicate claims, ineligible claims, network discount savings and R&C savings.
Average Age	The average age of the members covered under the plan for the reporting period.
Average Cost per Contract	The total cost divided by the average number of contract holders for the reporting period
Average Cost per Episode	The total cost divided by the number of episodes.
Average Cost per Member	The total cost divided by the average number of members for the reporting period
Average Days Supply per Prescription	The number of days supplied per prescription.
Average Length of Stay (ALOS)	The number of days, counted from the day of admission to the day of discharge, that a plan member is confined to a hospital or other facility for each admission. Number of inpatient days divided by the number of inpatient admissions.
Average Members per Contract	Number of members associated with a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore fractional or partial members will be associated with a contract holder.
Average Members per Family	Number of members enrolled under family coverage for a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore fractional or partial members will be associated with a contract holder.
Average Number of Contracts	Number of members defined as a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore a fractional number of contracts will be reported.
Average Number of Members	Number of members enrolled during the reporting period. The number of months each member was enrolled during the reporting period is used in the calculation therefore a fractional number of members will be reported.
Benchmark	Comparative cost and utilization statistics based on the experience of similar member populations. Benchmarks are adjusted for the plan sponsor age and gender mix and mix of episodes as appropriate for comparative purposes.
Billed Charges	Total amount of charges requested or billed by the provider for services.
Brand	A prescription drug that has been patented and is only available through one manufacturer.
Capitation	A method of paying for healthcare services on the basis of the number of patients who are covered for specific services over a specified period of time rather than the cost or number of services that are actually provided.
Coinsurance	A specified percent of costs that a member must pay out-of-pocket for services once a deductible is met.
Completed Episode	An episode of care is termed “complete” based on the absence of treatment for a medical condition for a specified period of time.
Compliance Rate (Quality)	Percent of recommended treatments received by the member population. Ratio of the Quality Opportunities-With Compliance to Total Quality Opportunities.
Contract Holder	The individual in whose name a contract is issued. The employee covered under an employer's group health contract. The contract holder (or subscriber) can enroll dependents under family coverage.
Co-payment	A specified dollar amount that a member must pay out-of-pocket for a specified service at the time the service is rendered.
Cost per Encounter	Total cost divided by the total number of encounters.
Cost per Episode	Total Cost divided by the number of episodes.

Cost per Member per Month (PMPM)	Cost divided by the number of enrolled member months during the reporting period.
Cost per Prescription	See Cost per Encounter
Deductible	A specified dollar amount that a member must pay out-of-pocket each year for covered services before the health plan assumes any liability for the cost of covered services.
Disease Related Costs	Cost of services related to a specific disease.
Employee Cost Sharing	When an employee pays out of pocket for a portion of the covered medical expense. Deductible, coinsurance, and co-pay are all forms of employee cost sharing.
Encounters	A contact between a patient and the health care system for a related set of service(s) for one or more medical conditions that occur in a given day for a member. For Outpatient Facility, Professional, and Ancillary Type of Services, each related set of visits and services per day is a single encounter. For Inpatient Facility, each confinement is a single encounter where confinements can span multiple days. For Pharmacy Type of Services, each service or prescription is a single encounter.
Encounters per 1,000 members	The encounter rate per 1,000 members. The number of encounters divided by the average number of members in the reporting period multiplied by 1,000.
Episode Families	An Episode Family is a group of related episodes of care.
Episode Treatment Group (ETG)	A clinical classification methodology combining medical and pharmacy services into mutually exclusive and exhaustive categories called episodes of care.
Episode(s) of Care	The unique occurrences of a medical condition or disease for a patient and the services involved (e.g. provider visits, labs, hospitalization, medications) in diagnosing and managing their treatment.
Formulary	Preferred Drug List of brand-name and generic medications that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality, cost savings, and effectiveness.
Formulary Utilization	The percentage of total prescriptions that were dispensed on the Formulary list.
Generic	A drug which is the pharmaceutical equivalent to one or more brand name drugs. Such drugs have been approved by the Food and drug Administration as meeting the same standards for safety, purity, strength and effectiveness as the brand name drug.
Generic Utilization	The ratio of prescriptions that were dispensed as generic to the total prescriptions available as generic.
Health Risk	See Relative Health Risk
In-Network Utilization	Percent of costs performed by participating providers at the time the claim was incurred.
Loss ratio	Total claim cost divided by total premium
Mail Order Utilization	The percentage of total prescriptions that were ordered and dispensed through the mail
Member Months	A cumulative total of monthly membership for the reporting period.
Non Formulary	All other medications not included on the Formulary or a Preferred Drug List.
Out-of-Network	Services performed by non-participating providers at the time the claim was incurred.
Percent Formulary (Scripts)	See Formulary Utilization
Percent Generic (Scripts)	See Generic Utilization
Percent In-Network Costs	See In-Network Utilization
Percent Mail Order (Scripts)	See Mail Order Utilization
Prescriptions per 1,000 Contracts	The prescription rate per 1,000 members. The number of prescriptions divided by the average number of contracts in the reporting period multiplied by 1,000.
Prescriptions per 1,000 Members	See Encounters per 1,000 Members
Provider Cost	Amount reimbursed to the provider by the plan

Provider Cost Savings	The total savings to the plan sponsor due to the application of negotiated discount arrangements with contracted providers and R&C savings. Billed Charges less Allowed Amount.
Quality Opportunities	Number of treatments recommended by evidence based medicine guidelines and national standards of care for each member based on their clinical condition (case).
Relative Health Risk	Average member's relative health risk during a period of time using information about their mix of diseases and conditions for that same year.
Service Category	See Type of Service
Therapeutic Class	A method of classifying a drug according to its therapeutic action in the body.
Tier (Pharmacy)	Payment Tier Drug was assigned to at the time of purchase.
Total Medical Cost	Total medical claims costs including Facility Inpatient, Facility Outpatient, Professional Services and Ancillary Services.
Total Pharmacy Cost	Total retail pharmacy costs. Drugs administered in an office setting (e.g. allergy shots, immunizations) are included in medical costs.
Type of Service (TOS)	Type of Service categories are assigned for medical claims based on Major type of services and the procedure codes used in describing the service. The four major types of service used in categorizing medical claims are 1. Facility Inpatient; 2. Facility Outpatient; 3. Professional Services; and 4. Ancillary Services. After assigning a service to these categories, CPT, HCPCs and Revenue Codes are used to further differentiate services at four separate levels.
With Compliance (Quality)	The number of recommended treatments actually received by the member population.
