Physician Quality Measurement

Physician Quality Measurement (PQM)

PQM is the program Blue Plans across the nation will be using to support making measured performance information available to consumers, based on national research showing consumers value access to the kind of information and tools that can help them assume a more active role in managing care for themselves and their families. This program will launch July 1, 2012, and consumers will be able to access this information on the redesigned Blue National Doctor and Hospital Finder website.

The PQM program complements your practice improvement efforts and highlights your commitment to providing safe, evidence-based and patient-centered care in your community. The program aligns with our belief that care improvement comes from a combination of measuring what can be measured, promoting ongoing practice improvement and recognizing the champions of care delivery.

- The vertical integration of local measurement into a national display considers the local patient population and physician demographics, access to care, resources and other local factors.
- PQM is based on select physician performance measures that are displayed to assist patients in choosing a doctor.
- The PQM program will display these nationally endorsed and evidence-based physician quality performance measures along with supporting data, local comparison norms and educational consumer information.
- PQM is based on a core set of HEDIS® physician measures selected by Blue Cross and Blue Shield companies' clinical measurement experts. BCBSND has selected the following nationally endorsed and evidence-based measurements which align with industry and federal health care improvement and reporting initiatives. These measures are:

Category	Measure
Cancer Screening	• Breast cancer screening • Cervical cancer screening • Colorectal cancer screening
Diabetes	• HgA1C testing • LDL-C screening
Heart Disease	• Cholesterol screening for patients with cardiovascular conditions
Women's Health	• Breast cancer screening • Cervical cancer screening

- Using a three-star display, BCBSND can communicate if a group practice is below (1 star), meets (2 stars) or exceeds (3 stars) the performance level score for each measure as compared to the local average for the same measure and comparable peer group.
- Additional information is also available to help Blue members determine how this information can be useful in their health care decision making.

The Local Comparison Score provides a benchmark for performance in North Dakota and is compared to the group's performance score to determine the PQM rating. The local comparison score can vary by measure and is determined by BCBSND. The group practice's score will be based on data taken from the MediQHomeSM Quality Program.

ND

BOLDER SHADE OF BLUE

Noridian Mutual Insurance Company

Attachment 12

Attachment 12

Blue Physician Recognition

Blue Physician Recognition (BPR)

BPR is designed to provide more meaningful and consistent information to consumers, and is complementary to the Physician Quality Measurement initiative. This program will launch July 1, 2012, and consumers will be able to access this information on the redesigned Blue National Doctor and Hospital Finder website.

- Group practices who participate in the MediQHome℠ Quality Program will be submitted for display on the Blue National Doctor and Hospital Finder with the BPR icon.
- The BPR program recognizes participation in quality improvement efforts across multiple disciplines and care settings and also highlights group practices as champions of quality care in the community.
- North Dakota providers not participating in the MediQHome Quality Program will be designated as "not eligible" for BPR in the Blue National Doctor & Hospital Finder.

BCBSND believes that care is improved through a combination of measuring what can be measured, promoting ongoing practice improvement and recognizing the champions of care delivery. BPR supports this philosophy by providing a national display for group practices committed to delivering quality and patient-centered care based on BPR program guidelines.

Attachment 13

Attachment 13

Attachment 13

Patient Review of Physicians

Patient Review of Physicians (PRP)

PRP allows Blue Cross Blue Shield of North Dakota (BCBSND) members to view and post reviews of doctors and other professional providers based on their patient experiences. After the program launches, July 1, 2012, members will initiate physician reviews through our member portal. Once complete, reviews will be published on the redesigned Blue National Doctor and Hospital Finder website.

While patient reviews are just one of many factors to consider when choosing a health care provider, research shows that online patient review capabilities are in high demand. User-generated patient reviews are one of the most sought after pieces of information for consumers looking for a new doctor, and approximately 85-90 percent of patient reviews are positive. To assure that your overall score accurately reflects the quality of your patient experiences, encourage your patients to contribute to your reviews.

- To ensure accountability and validity, BCBSND has implemented a rigorous process that authenticates, verifies and moderates reviews prior to posting online.
- Members respond to a core set of questions covering their overall experience, and reviews are checked for appropriateness prior to display.
- This process helps ensure that only authenticated BCBSND members who verify they have seen the doctor can contribute reviews.

BCBSND will distribute additional information about this program as it becomes available, including screen shots and more information about how a patient will be able to write physician reviews.

MediQHome Clinical Suites

Clinical Suites

Asthma

5 – 50 years

Process Measures:

Severity classified using the NAEPP guidelines

Inhaled corticosteriod (or alternative steroid sparing control medication) for patients with persistent asthma (moderate to severe).

Inhaled short-acting beta-agonist for patients with persistent (all grades) asthma.

Attention Deficit Hyperactivity Disorder (ADHD)

< 18 years

Process Measures:

2 BMI documented in the medical record.

Breast Cancer Screening

50 – 74 years (female)

Process Measures (every 2 years):

Breast MRI -OR-

BSGI -OR-

Mammogram

Cervical Cancer Screening

21 – 65 years (female)

Process Measures:

Pap test (once every 3 years)

Chronic Heart Failure

18 – 75 years

Process Measures:

BP exam

Ejection fraction (once within 24 months)

Pulse exam

Serum Creatinine

Outcome Measures:

ACEi/ARB therapy if LVF ≤ 40

Beta-blocker therapy if LVF ≤ 40

BP ≤ 130/80

If Afib, heart rate ≤ 80

If Afib, presence of an anticoagulant

Tobacco free

Child Diabetes

0 – < 13 years

Process Measures:

BP exam

HgA1C exam

Outcome Measures:

BP < 130/80

HgA1C ≤ 8.5

Colorectal Cancer Screening

50 – 75 years

Process Measures:

Colonoscopy (every 10 years) -OR-

CT Colonography (every 5 years) -OR-

Double Contrast Barium Enema (every 5 years) -OR-

Fecal Immunochemical-based testing (FIT) -OR-

Flexible Sigmoidoscopy (every 5 years) -OR-

FOBT

Coronary Artery Disease

18 – 75 years

Process Measures:

Beta-blocker therapy in patients with history of MI

BMI

BP exam

LDL exam (every 15 months)

Outcome Measures:

BP < 140/90

Daily ASA

LDL < 100

Tobacco free

"Optimal Vascular Care"

Adult Diabetes

18 – 75 years

Process Measures:

BP exam

Diabetic foot exam

HgA1C exam

LDL exam

Microalbumin exam

Retinal exam

Outcome Measures:

BP< 140/90

HgA1C < 8

LDL < 100

Tobacco free

"Optimal Diabetes Care"

Daily ASA if presence of IVD

Adolescent Diabetes

13 – <18 years

Process Measures:

BP exam

HgA1C exam

Microalbumin exam

Outcome Measures:

BP < 130/80

HgA1C ≤ 8

Adult Hypertension

18 years and older

Process Measures:

ACEi/ARB therapy if GFR < 60

BP exam

Outcome Measures:

BP < 140/90

Child & Adolescent Hypertension

< 18 years

Process Measures:

BMI

BP exam

Fasting blood glucose

Serum Creatinine

Total cholesterol exam

Urine analysis/microalbumin

Outcome Measures:

BP ≤ 120/80

Fasting blood glucose ≤ 100

Total Cholesterol ≤ 200

Adult & Adolescent Immunizations

> 11 years

Process Measures:

Herpes Zoster if > 60, (once)

Human Papilloma Vaccine (HPV) if female ages 18-26 (3 doses, ever)

Influenza-A (Flu Vaccine)

Pneumococcal if > 65, (once every 10 years)

Tetanus, diphtheria and acellular pertussis (Td/Tdap) (once every 10 years)

Varicella (VZV) (2 doses, ever)

Child Immunizations

0 – 2 years

Process Measures (by the 2nd birthday):

4 Diphtheria, tetanus and pertussis (DTaP)

3 Haemophilus influenza type B (HIB)

2 Hepatitis A (Hep-A)

3 Hepatitis B (Hep-B)

2 Influenza A (Flu Vaccine) (annually)

1 Measles, mumps, rubella (MMR)

4 Pneumococcal vaccine

3 Polio vaccine (IPV)

1 Varicella/chicken pox (VZV)

Vitals

All Ages

Process Measures:

Total Blood Pressure

Height

Weight

BMI

HDL

LDL

GFR

Serum creatinine

Triglycerides

Fasting Blood Glucose

Tobacco use indicated

Tobacco free

Total cholesterol

Tobacco

< 13 years

Process Measures:

Tobacco Assessment

Advised to quit

Willing to quit

Counseling/assistance given

Follow-up scheduled

Clinical Suites

Chronic diseases, such as diabetes, hypertension and coronary artery disease, are the dominant drivers of morbidity in today's health care environment. Blue Cross Blue Shield of North Dakota (BCBSND) believes that cost-effective chronic disease management will have the greatest effect on the long-term health of North Dakotans and the cost of health care for the entire state. That's why all patients will be a part of the MediQHome quality program, regardless of the patient's health insurance coverage.

The program measures are clinically relevant and endorsed by the National Quality Forum and the National Committee for Quality Assurance. The Care Center will initially track asthma, attention deficit hyperactivity disorder (ADHD), breast cancer screening, cervical cancer screening, chronic heart failure, colon cancer screening, coronary artery disease, adult and pediatric diabetes, adult and pediatric hypertension and adult and pediatric immunizations.

Table of Contents

- 3 Asthma
- 5 Attention deficit hyperactivity disorder (ADHD)
- 7 Breast cancer screening
- 9 Cervical cancer screening
- 11 Chronic heart failure
- 13 Colorectal cancer screening
- 15 Coronary artery disease
- 17 Diabetes
  - adult
  - adolescent
  - child
- 23 Hypertension
  - adult
  - child and adolescent
- 27 Immunizations
  - adult and adolescent
  - child

Asthma

The American Medical Association (AMA) describes asthma as a chronic respiratory disease that places a considerable burden on those affected and results in substantial morbidity and use of health care services. The AMA estimates more than 30 million people in the United States have been diagnosed with asthma, with 12 million experiencing an asthma attack in the previous year.

Purpose of the Clinical Suite

The purpose of the Asthma Clinical Suite is to aid in the management of patients with asthma by identifying and tracking the severity of asthma and ensuring the provision of appropriate evidence-based pharmacological interventions. These interventions have been clinically proven to reduce the risk of worsening or acute exacerbation of asthma.

Clinical Suite Measures

The Asthma Clinical Suite is designed to capture the process and outcome measures that are relevant for successful treatment of patients with asthma.

This suite will be reported for patients ages 5 to 50 as follows:

Process measures (once per 12-month program period)

- Asthma severity classified using the National Asthma Education & Prevention Program guidelines:
  - Intermittent
  - Mild persistent
  - Moderate persistent
  - Severe persistent
- Inhaled corticosteroid – patients with persistent asthma (moderate to severe) are prescribed a long-term control medication (inhaled corticosteroid) or alternative steroid sparing control medication
- Inhaled short-acting beta-agonist – patients with persistent (all grades) asthma are prescribed a short-acting beta-agonist

The following exclusions have been defined for the suite:

Asthma

- Allergic disease without lower airway involvement
- COPD or emphysema
- Allergy to inhaled steroid or beta-agonist
- Patient refusal for economic, religious or social reasons

Attention Deficit Hyperactivity Disorder (ADHD)

The American Medical Association emphasizes that people with ADHD experience substantial impairment in peer, family and academic functioning and that a diagnosis of ADHD is associated with significant educational and social impairment, an increased risk of accident and injury, and increased use of health care resources. Research continues to show that ADHD should be managed in a manner similar to other childhood chronic conditions.

Purpose of the Clinical Suite

The purpose of the ADHD Clinical Suite is to monitor the appropriate diagnosis and treatment of these patients. Follow-up care is considered as important as the initiation of the care and should be equally monitored.

Clinical Suite Measures

The ADHD Clinical Suite is designed to capture the process measures associated with the appropriate diagnosis, treatment and follow-up of these patients. The guidelines have been adopted from the National Quality Forum and the Institute for Clinical Systems Improvement.

This suite will be reported for patients younger than 18 as follows:

Process Measures

- 2 Body Mass Index (BMI) documented in the medical record within the reporting period

No exclusions have been defined for this suite.

Breast Cancer Screening

Breast cancer is the most common female cancer in the United States and the second most common cause of cancer death in women. Several risk factors have been identified, the most important of which are family history and endogenous as well as exogenous hormonal factors.

Purpose of the Clinical Suite

The purpose of the Breast Cancer Screening Clinical Suite is to increase screening compliance of female patients ages 50 to 74 to allow for early detection and treatment of breast cancer.

Clinical Suite Measures

The Breast Cancer Screening Clinical Suite is designed to capture the process measures that are relevant for successful breast cancer screening of female patients.

This suite will be reported on female patients ages 50 to 74 as follows:

- Mammogram: checked and reported once in a 12-month program period or one year prior OR
- Breast MRI: checked and reported once in a 12-month program period or one year prior OR
- Breast-specific gamma imaging (Scintamammogram): checked and reported once in a 12-month program period or one year prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

The following exclusions have been defined for the suite:

- Absence of both breasts
- Patient refusal for economic, religious or social reasons

Cervical Cancer Screening

The National Cancer Institute estimated that in 2008 more than 11,000 U.S. women would be diagnosed with cervical cancer and 3,800 of these women would die of the disease. Efforts to increase the number of women who get Pap tests has led to a 70 percent decrease in the number of cervical cancer cases since the test was introduced in the 1950s.

Purpose of the Clinical Suite

The purpose of the Cervical Cancer Screening Clinical Suite is to increase the cervical cancer screening rates in female patients ages 21 to 65 to allow for early detection and treatment of cervical cancers.

Clinical Suite Measures

The Cervical Cancer Screening Clinical Suite is designed to capture the process measure of Pap test exams in female patients.

This suite will report on female patients ages 21 to 65 as follows:

- Pap Test: checked and reported once in a 12-month program period or two years prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

The following exclusions have been defined for the suite:

- Hysterectomy
- Patient refusal for economic, religious or social reasons

Chronic Heart Failure

An aging population and modern therapeutic innovations that prolong the lives of cardiac patients have made chronic heart failure (CHF) more common. Despite improvements in therapy, the mortality rate in patients with CHF is high.

Purpose of the Clinical Suite

The purpose of the Chronic Heart Failure Clinical Suite is to identify and comprehensively manage patients with chronic heart failure by pinpointing and tracking interventions that have been clinically proven to reduce the risk of developing complications.

Clinical Suite Measures

The Chronic Heart Failure Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful treatment of patients with CHF.

This suite will be reported on patients ages 18-75 as follows:

Process Measures

- Ejection fraction (checked and reported once within 24-month reporting period)
- Serum Creatinine (checked and reported once within 12-month reporting period)
- Blood pressure exam
- Pulse exam

Outcome Measures

- Blood pressure (BP) ≤ 130/80 (most recent)
- If presence of Atrial Fibrillation, heart rate ≤ 80 (most recent)
- Tobacco free
- Presence of ACEi/ARB therapy when Left Ventricular Function (LVF) ≤ 40%
- Presence of Beta-blocker therapy when LVF is ≤ 40%
- If presence of Atrial Fibrillation, patient is on an anticoagulant*.

The following exclusions have been defined for the suite:

Anticoagulant

- Allergy to medication
- Contraindication to anticoagulation
- Patient refusal for economic, religious or social reasons

ACEi/ARB

- Allergy to ACEi *and* ARB
- Moderate to severe aortic stenosis
- Patient refusal for economic, religious or social reasons**Beta Blocker**

- Allergy to beta blocker
- Contraindication to use
- Patient refusal due to economic, religious or social reasons

Colorectal Cancer Screening

Colorectal cancer is a common and lethal disease, with the risk of development being influenced by both environmental and genetic factors. According to the American Medical Association, screening exams can reduce the mortality rate from this disease by at least 30 percent.

Purpose of the Clinical Suite

The purpose of the Colorectal Cancer Screening Clinical Suite is to increase screening rates for colorectal cancer in patients to reduce the morbidity and mortality associated with this condition.

Clinical Suite Measures

The Colorectal Cancer Screening Clinical Suite is designed to capture the process measures that are relevant to successful colorectal cancer screening of patients.

This suite will be reported on patients ages 50 to 75 as follows:

- Fecal Occult Blood Test (FOBT): checked and reported once in a 12-month program period OR
- Fecal Immunochemical-based testing (FIT): checked and reported once in a 12-month program period OR
- Flexible Sigmoidoscopy: checked and reported once in a 12-month program period or four years prior OR
- Double Contrast Barium Enema (DCBE): checked and reported once in a 12-month program period or four years prior OR
- Colonoscopy: checked and reported once in a 12-month program period or nine years prior OR
- CT Colonography: checked and reported once in a 12-month program period or four years prior.

NOTE: The screening measures for this clinical suite are considered minimum recommendations. With some disease processes or with higher risk factors, some patients may require more intensive surveillance.

Claims data for BCBSND members will be available in patient care summary reports and identified as data from claims.

The following exclusions have been defined for the suite:

- History of a total colectomy
- Patient refusal for economic, religious or social reasons

Coronary Artery Disease

Coronary artery disease (CAD), which includes coronary heart disease (CHD), stroke and peripheral vascular disease, is the leading cause of death in the United States and accounts for more than 900,000 deaths annually. The American Heart Association identifies the following major modifiable risk factors for coronary heart disease: smoking, hypertension, dyslipidemia, physical inactivity, obesity and diabetes.

Purpose of the Clinical Suite

The purpose of the Adult Stable Coronary Artery Disease Clinical Suite is to aid in the identification of patients with known CAD and provide a platform for the identification and management of the major risk factors associated with progression of CAD. The suite also identifies and tracts interventions that have been clinically proven to reduce the risk of complications associated with CAD.

Clinical Suite Measures

The Adult Stable Coronary Artery Disease Clinical Suite is designed to capture the process and intermediate outcome measures that are relevant to the successful management of patients age 18-75 with a diagnosis of CAD, including obstructive and non-obstructive CAD. The intermediate outcome measures are risk-adjusted to reflect underlying co-existing clinical conditions that affect treatment. The measures adopted, with the exception of optimal vascular care combined intermediate measure, are congruent with the AHA endorsed Chronic Stable Coronary Artery Disease Clinical Performance Measures.

This suite will be reported on patients ages 18-75 as follows:

Process Measures *(checked and reported once per reporting period)*

- Body Mass Index (BMI)
- LDL exam
- Beta-blocker therapy in patients with history of myocardial infarction (MI)
- Blood pressure exam

Outcome Measures

- BP < 140/90
- Most recent LDL < 100
- Patient is tobacco free
- Daily aspirin therapy *
- Optimal vascular care**

The following exclusions have been defined for the measure:

Aspirin

- Asthma
- Active bleeding/history of ASA - induced bleeding
- Allergy/anaphylaxis to medication
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

Beta-blocker therapy

- Allergy/anaphylaxis to medication
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

NOTE: No exclusions for tobacco status should exist in terms of reporting purposes.

American Medical Association: www.ama-assn.org

*Plavix, Ticlid and Aggrenox will be considered equivalent to aspirin and an exclusion for aspirin will be considered legitimate exclusion for other antiplatelet agents.

**Optimal vascular care is defined as BP < 140/90 for patients with IVD *and* LDL < 100 *and* tobacco free *and* daily aspirin use if appropriate. This combined intermediate outcome measure is being adopted unchanged from the Minnesota Community Measure Project.

Diabetes, Adult

Diabetes is considered the fifth deadliest disease in the United States, according to the American Medical Association. It is associated with microvascular and macrovascular disease and accounts for almost 14 percent of U.S. health care expenditures, at least half of which are related to complications, such as myocardial infarction, stroke, end-stage renal disease, retinopathy and foot ulcers.

Purpose of the Clinical Suite

The purpose of the Adult Diabetes Clinical Suite is to aid in the management of patients with diabetes by identifying and tracking the major clinical factors associated with outcomes in diabetes. The suite also identifies and tracks additional clinical data that have been shown to reduce the risk of complications associated with poor management in this high-risk group of patients.

Clinical Suite Measures

The Adult Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on patients ages 18-75 as follows:

Process Measures *(within the 12-month reporting period)*

- Blood pressure exam
- Diabetic foot exam
- Hemoglobin A1C (HgA1C) exam
- Low-density lipoprotein (LDL) exam
- Microalbumin exam
- Retinal exam

Outcome Measures

- Blood pressure (BP) < 140/90 (most recent)
- HgA1C < 8% (most recent)
- LDL < 100mg/dL (most recent)
- Patient is tobacco free
- "Optimal Diabetes Care"*

The following exclusions have been defined for the measure:

Microalbumin Exam

- Renal replacement therapy
- Diagnosis of nephropathy
- Macroscopic proteinuria
- Renal insufficiency
- Patient refusal for economic, religious or social reasons

Retinal Exam

- Blindness
- Diagnosis of retinopathy
- No retinopathy-exam deferred to next year
- Patient refusal for economic, religious or social reasons

* "Optimal Diabetes Care" is defined as HgA1C < 8 *and* LDL <100 *and* BP < 140/90 *and* tobacco free.

Diabetes, adolescent

Recent Blue Cross Blue Shield of North Dakota (BCBSND) research shows the incidence and prevalence of childhood diabetes continue to rise. Most significant is the rise in Type 2 diabetes. This data emphasizes the need for early detection and prevention of diabetes and its co-morbid conditions.

Purpose of the Clinical Suite

The purpose of the Adolescent Diabetes Clinical Suite is to aid in the management of patients age less than 18 who have diabetes by identifying and tracking the major clinical factors associated.

This clinical suite is designed to improve the detection, evaluation and management of diabetes complications in children and adolescents by tracking clinical and non-clinical factors, based on age stratification, that have an effect on the successful management of this condition.

Clinical Suite Measures

The Adolescent Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on the American Diabetes Association (ADA) 2008 recommendations:

Age 13 – <18 years:

Process Measures *(within the 12-month reporting period)*

- Blood pressure exam
- HgA1C exam
- Microalbumin exam

Outcome Measures

- BP ≤ 130/80 (most recent)
- HgA1C ≤ 8% (most recent)

The following exclusions have been defined for the suite:

Microalbumin Exam

- Renal replacement therapy
- Diagnosis of nephropathy
- Macroscopic proteinuria
- Renal insufficiency
- Patient refusal for economic, religious or social reasons

Diabetes, child

Recent Blue Cross Blue Shield of North Dakota (BCBSND) research shows the incidence and prevalence of childhood diabetes continue to rise. Most significant is the rise in Type 2 diabetes. This data emphasizes the need for early detection and prevention of diabetes and its co-morbid conditions.

Purpose of the Clinical Suite

The purpose of the Child Diabetes Clinical Suite is to aid in the management of patients younger than 13 who have diabetes by identifying and tracking the major clinical factors associated.

This clinical suite is designed to improve the detection, evaluation and management of diabetes complications in children and adolescents by tracking clinical and non-clinical factors, based on age stratification, that have an effect on the successful management of this condition.

Clinical Suite Measures

The Child Diabetes Clinical Suite is designed to capture the process and outcome measures that are relevant to the successful, comprehensive management of these patients.

This suite will be reported on the American Diabetes Association (ADA) 2008 recommendations:

Age 0 – < 13 years:

Process Measures *(within the 12-month reporting period)*

- Hemoglobin A1C (HgA1C) exam
- Blood pressure exam

Outcome Measures

- HgA1C ≤ 8.5% (most recent)
- Blood pressure (BP) < 130/80 (most recent)

No exclusions have been defined for this suite.

Hypertension, adult

Hypertension is a major independent, modifiable risk factor for the development of CAD, stroke and renal failure. At least 65 million adult Americans, or nearly one-fourth of the adult population of the United States, have hypertension. The risk of cardiovascular disease in the patient with hypertension can be greatly reduced with effective hypertension management.

Purpose of the Clinical Suite

The Adult Hypertension Suite is designed to improve the detection, evaluation and management of hypertension in patients 18 and older. The suite also identifies and tracks interventions that have been clinically proven to reduce the risk of developing complications associated with poor hypertension control.

Clinical Suite Measures

The Adult Hypertension Clinical Suite is designed to capture the process and intermediate clinical outcome measures that are relevant to the successful management of patients 18 and older with known hypertension (Stage I or II). The intermediate outcomes measures being tracked are risk-adjusted based on the presence or absence of chronic kidney disease (CKD), defined as an estimated glomerular filtration rate (eGFR) of less than 60 mL/min, the presence thereof, significantly impacting patient management. In addition, the suite will track patient demographics, associated laboratory values, medications and laboratory values associated with the management of these patients.

The Adult Hypertension Suite will be activated only within the Care Center in instances where blood pressure control is not being tracked as an intermediate outcomes measure in another suite, such as diabetes or chronic heart failure. In the event where blood pressure control is being tracked as an intermediate outcomes measure in another suite, that suite's measures will reflect the patient's hypertension control.

The suite will report patients 18 and older who have been diagnosed with hypertension (Stage I & II) as follows:

Process Measures

- Annual blood pressure (BP) measurement
- ACEi/ARB therapy if GFR < 60
- Blood pressure exam

Outcome Measures

- BP < 140/90 or BP < 130/80 if GFR < 60 or microalbumin exclusion

The following exclusions have been defined for the suite:

Microalbumin

- Renal replacement therapy
- Macroscopic proteinuria
- Chronic renal failure

ACEi

- ACEi Allergy
- Hypotension
- Cough
- Patient intolerance
- Aortic Stenosis
- Patient refusal for economic, religious or social reasons

ARB

- ARB Allergy
- Hypotension
- Patient intolerance
- Aortic Stenosis
- Patient refusal for economic, religious or social reasons

The measures above will allow treating physicians the ability to identify additional co-morbidities, as well as clinical factors that may impact treatment decisions, thus allowing for a more comprehensive management plan for individual patients.

Hypertension, child and adolescent

The American Heart Association reports that high blood pressure in childhood can be a major predictor of chronic high blood pressure in adulthood. The AHA goes on to state that elevated blood pressure (prehypertension and hypertension) can lead to a number of more serious health problems and affects about 60 percent of American children and adolescents.

Purpose of the Clinical Suite

The Child and Adolescent Hypertension Suite is designed to improve the early detection of hypertension in patients who are 18 years and younger. The suite also tracks risk factors for associated co-morbidities such as hyperglycemia, obesity and hyperlipidemia.

Clinical Suite Measures

The Child and Adolescent Hypertension Clinical Suite is designed to capture the process and intermediate clinical outcome measures that are relevant to the successful management of patients younger than 18 with known hypertension (Stage I or II, as established by the National High Blood Pressure Education Program).

The Child and Adolescent Hypertension Suite will only be activated within the Care Center in instances where blood pressure control is not being tracked as an intermediate outcomes measure in another suite. In the event where blood pressure control is being tracked as an intermediate outcomes measure in another suite, that suite's measures will reflect the patient's hypertension control.

The suite will report patients with a diagnosis of hypertension (Stage I & II) who are younger than 18 as follows:

Process Measures

- Annual blood pressure (BP) measurement
- Annual body mass index (BMI) calculation
- Annual urine analysis/microalbumin
- Annual serum creatinine
- Annual fasting blood glucose
- Annual total cholesterol exam

Outcome Measures

- BP ≤ 120/80*
- Total cholesterol ≤ 200
- Fasting blood glucose ≤ 100

The following exclusions have been defined for the measure:

Microalbumin

- Renal replacement therapy
- Macroscopic proteinuria
- Chronic renal failure
- Patient refusal for economic, religious or social reasons

www.nkdep.nih.gov

* The complexity of defining hypertension in children necessitates an elective decision to define hypertension in this age group to a chronic elevation in blood pressure above 120 systolic and/or 80 diastolic.

Immunizations, adult and adolescent

Technology has allowed an array of vaccines to be developed. Disease prevention provides both health benefits and helps control the rising cost of medical care. Adult immunizations are heavily related to the co-morbid conditions of the patient.

Purpose of the Clinical Suite

The purpose of the Adult Immunizations Clinical Suite is to encourage all adults to have immunizations recommended by the Centers for Disease Control and Prevention (CDC).

Clinical Suite Measures

The Adult Immunizations Clinical Suite is designed to show care opportunities for adult immunizations recommended by the CDC.

This suite will be reported for patients older than 11 on the CDC guidelines as follows:

Process Measures

- Influenza-A (Flu Vaccine): 1 in the past 12-month reporting period
- Tetanus, diphtheria and acellular pertussis (Td/Tdap): 1 booster every 10 years
- Varicella (VZV): 2 doses, ever
- Human Papilloma Vaccine (HPV): female patients 18 to 26 with 3 HPV before 26th birthday
- Herpes Zoster Vaccination: 1 for patients 60 and older, ever
- Pneumococcal Vaccine: 1 for patients older than 65, 1 every 10 years

NOTE: These standards are recommended for the average healthy adult patient. Certain disease states may require modifications to these recommendations.

The following exclusions have been defined for the suite:

All immunizations

- Anaphylactic reaction to the vaccine or its components
- Medical contraindication to use
- Patient refusal for economic, religious or social reasons

Immunizations, child

Technology has allowed an array of vaccines to be developed. Disease prevention provides health benefits and helps control the rising cost of medical care.

Purpose of the Clinical Suite

The purpose of the Childhood Immunizations Clinical Suite is to encourage all children and adolescents to receive immunizations recommended by the Centers for Disease Control and Prevention (CDC), while taking into consideration the social, economic and religious preferences of each child's parents.

Clinical Suite Measures

The Childhood Immunizations Clinical Suite is designed to show the care opportunities for immunizations for the child and adolescent population as recommended by the CDC. The complexity of clinical risk-adjustment and application of the CDC immunization recommendations necessitates that only general guidelines be applicable to the average healthy child.

This suite will be reported on the CDC guidelines as follows:

Children birth to 2

Process Measures *(to be completed on or before the second birthday)*

- 4 Diphtheria, tetanus and pertussis (DTaP)
- 3 Polio vaccine (IPV)
- 1 Measles, mumps, rubella (MMR)
- 3 Haemophilus influenza type B (HIB)
- 3 Hepatitis B (Hep-B)
- 1 Varicella/chicken pox (VZV)
- 4 Pneumococcal vaccine
- 2 Hepatitis A (Hep-A)
- 2 Influenza-A, annually

The following exclusions have been defined for the suite:

All immunizations

- Anaphylactic reaction to the vaccine or its components
- Medical contraindication to use
- Parent refusal for economic, religious or social reasons

Pharmacy Carve-In

Study Shows Advantages of Carve-in Pharmacy Benefits

FACT SHEET

BlueCross BlueShield Association

Accounts purchasing health insurance products can choose between packages with integrated medical and pharmacy benefits or those with separate medical and pharmacy benefits. Health insurance products with integrated medical and pharmacy benefits are defined as having carve-in pharmacy benefits, while health insurance products with separate medical and pharmacy benefits are defined as having carve-out pharmacy benefits. Both carve-in and carve-out pharmacy benefit programs may include clinical and cost-saving components such as mail order pharmacy services, specialty pharmacy services, formulary management, prescription drug utilization review and disease management programs.

Carve-In Program	Carve-Out Program
May include services such as mail-order and specialty pharmacy services, formulary management, drug utilization review and care management. Plan may use a pharmacy benefit manager (PBM), but PBM is integrated with health plan.	May include services such as mail-order and specialty pharmacy services, formulary management, drug utilization review and care management. Pharmacy benefits manager contracts separately with account to provide services.
Health plan **HAS DIRECT ACCESS** to pharmacy data.	Health plan **DOES NOT HAVE DIRECT ACCESS** to pharmacy data.
Health plan **CONTROLS** copayments, drug benefit tiers and formulary.	Health plan **DOES NOT CONTROL** copayments, drug benefit tiers and formulary.

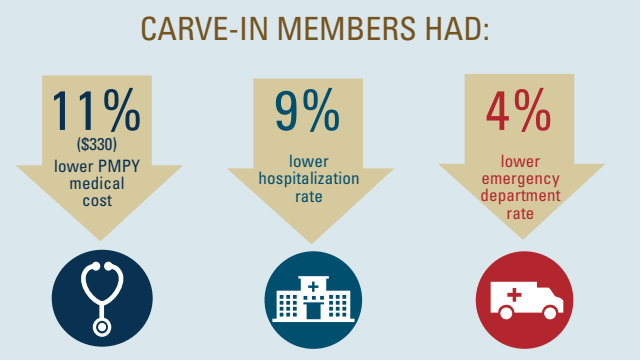
Study Overview

The Blue Cross Blue Shield Association commissioned a study comparing the medical costs of members with carve-in pharmacy benefits with those of members with carve-out pharmacy benefits, as well as the rate of hospitalization and emergency department visits for members in both types of plans. In July 2013, Prime Therapeutics, a pharmacy benefits management company owned by a consortium of Blue Plans, conducted the study. The Prime Therapeutics health outcomes team compared the medical costs, hospital admissions and emergency department visits in 2010 and 2011 for **1.8 million Blue members in self-funded plans** administered by **25 Blue Plans**. Members were **roughly evenly divided between carve-in and carve-out plans** and were **matched by age, gender and geographic region**.

KEY RESULTS

The study indicated that members with carve-in pharmacy benefits had lower per member per year (PMPY) medical costs, fewer hospitalizations and fewer emergency department visits.

Results were consistent with those of three regional Blue studies comparing medical costs for carve-in and carve-out members.[1-3]



Blue Cross Blue Shield Association is an association of independent Blue Cross and Blue Shield companies.

ANALYSIS

The lower medical costs for members with carve-in pharmacy benefits may be due to one or more factors, including:

- Integration of medical and pharmacy data in carve-in arrangements enables health plans to take a **holistic approach to controlling medical costs**, in which prescription drug costs are considered in the context of effective overall management of the patient's condition.[4]
- Plans can design the prescription drug formulary to include medications that result in the **best overall clinical outcomes,** instead of designing the formulary based solely on cost or rebates.
- Pharmacy data available through carve-in pharmacy benefits **improves healthcare coordination and data integration**, thus enabling providers to offer quicker and more targeted health interventions to patients.[5-6]
- Carve-in health plans can design the prescription drug benefit to encourage appropriate utilization by therapeutic class, instead of designing the benefit to drive use of the most profitable drugs. Lowering copayments have been shown to increase medication adherence but raising copayments too high may increase medication abandonment and effectively combining these strategies may contribute to lower medical costs.[7] **Lower copayments have been shown to increase member compliance with drug therapy**.[8-10]

For more detailed study information, please contact your Blue Cross Blue Shield Plan.

STUDY DESIGN

- Used de-identified Blue Health Intelligence®[11] data on 1.8 million members under age 65 in 25 Blue Plans for 2011 and 2012. Members who had changes in benefit design or who had lapses in coverage were excluded from the study.
- Compared medical costs, hospitalization rates, and emergency department visit rates for 818,054 carve-in and 1,042,029 carve-out members.
- Used a general linear model with gamma distribution to measure the difference in average PMPY total medical costs between carve-in and carve-out patients and a multivariate logistic regression model to compare the percentage of carve-in and carve-out members who were hospitalized or visited the emergency department.
- These methods were used to adjust for baseline differences in member age, gender, diagnostic cost group scores, presence of one or more of six chronic diseases, insurance product type, urban or rural geographic region, and group size.

Introduction

Formulary

The goal of the Blue Cross Blue Shield of North Dakota (BCBSND) formulary is to provide our members broad access to drugs and supplies at a reasonable overall cost. The BCBSND Drug Formulary is the list of products (drugs and supplies) that reflect the current recommendations of the BCBSND Pharmacy & Therapeutics (P&T) Committee. The formulary is intended for use in the ambulatory setting. Drugs are selected for addition to the formulary after considering safety, efficacy, uniqueness, and market considerations. **Providers are encouraged to prescribe formulary drugs.**

Benefits are not limited to the drugs on this formulary list. Products not listed in this formulary are non-formulary (NF). Exception: most diabetic supplies are covered at the highest benefit for plans that cover them. The P&T committee may choose to not add a drug or remove a drug from formulary for reasons including safety or efficacy concerns, or because a clinically similar, more cost-effective drug is already on formulary. Newly marketed drugs are non-formulary until reviewed by the P&T Committee. The entire formulary is reviewed annually by the P&T Committee. This formulary list is subject to change. **Drug coverage is dependent on individual plan benefits**.

Members

To save the most money on prescription drugs, take this Formulary with you each time you visit your physician. Consider asking your physician to prescribe drugs listed in this Formulary, if appropriate. Any and all decisions that require or pertain to independent professional medical judgment or training, or the need for, and dosage of, a prescription drug, must be made solely by you and your physician in accordance with the patient/physician relationship.

The current version and recent changes to this Formulary is available at the BCBSND website at **www.bcbsnd.com** or by calling the customer service number listed on your identification card. **Online pharmacy tools** are available through the Prime Therapeutics® website at **www.MyPrime.com**. BCBSND members can find drug cost estimates or check if a particular drug is on the BCBSND formulary.

Under some circumstances, formulary drugs may be excluded from coverage under the drug benefit (e.g., oral contraceptives, nicotine replacement therapy, Retin-A, various injectables, etc.). In all cases, plan inclusions/exclusions determine specific coverage regardless of formulary status. Drugs not listed are non-formulary. Exception: most diabetic supplies are covered at the highest benefit level for plans that cover them. However, only the preferred products are included on this list.

Providers

Generic Utilization

The BCBSND Committee encourages generic utilization as a way to provide high-quality drugs at a reduced cost. By prescribing drugs listed in this formulary that are available generically, you are providing a product that can be expected to have the same effectiveness and safety profile as the brand product while lowering overall medical insurance costs for your patients. In addition, your patient will likely have a lower cost share for generic drugs because most benefit plans are based on a tiered or brand/generic copayment and coinsurance structure.

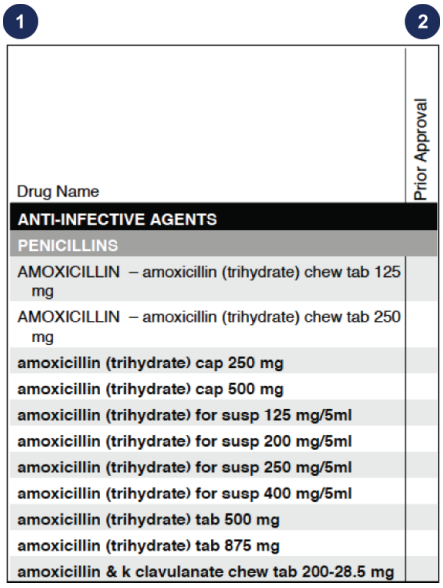
Prior Approval

Use of some products identified by **PA** may be approved only after certain criteria are met. If prior approval is not obtained, benefits may be denied. A physician (or clinic personnel) should submit a written request to the address shown below for prior approval consideration. The Prior Approval Request form is available at https://www.thorconnect.org/docs/wcmd_014232.pdf. A list of the products requiring prior approval may be found at **www.bcbsnd.com** under pharmacy.

Fax to: (701) 277-2253
Mail to:
BCBSND
Attn: Medical Management
4510 13th Ave S
Fargo, ND 58121

How to use this list

The Formulary is organized into broad categories (e.g. Anti-Infective drugs). Within most categories, drugs are sub-grouped by drug class (e.g. Penicillins) or by use for a specific medical condition (e.g. Diabetes). These categories can help determine which specific product is on formulary.



1. The first column of the chart lists the drug name. Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

   Brand prescription drugs are shown in capital letters followed by the generic name.

2. The second column indicates the Utilization Management (UM) program(s) that apply to the prescription drug (e.g., Prior Approval). If an indicator is present in the column(s), then the UM program noted is possibly applied to your benefit. Some plans may have UM on additional medications beyond those noted in this document.

amoxicillin & k clavulanate for susp 200-28.5 mg/5ml	
amoxicillin & k clavulanate for susp 250-62.5 mg/5ml (Augmentin)	
amoxicillin & k clavulanate for susp 400-57 mg/5ml	
amoxicillin & k clavulanate for susp 600-42.9 mg/5ml (Augmentin es-600)	
amoxicillin & k clavulanate tab sr 12hr 1000-62.5 mg (Augmentin xr)	
amoxicillin & k clavulanate tab 250-125 mg	
amoxicillin & k clavulanate tab 500-125 mg (Augmentin)	
amoxicillin & k clavulanate tab 875-125 mg (Augmentin)	
AMPICILLIN – ampicillin for susp 125 mg/5ml	
AMPICILLIN – ampicillin for susp 250 mg/5ml	
ampicillin cap 250 mg	
ampicillin cap 500 mg	
AUGMENTIN – amoxicillin & k clavulanate for susp 125-31.25 mg/5ml	

Drug Name	Prior Approval
dicloxacillin sodium cap 250 mg	
dicloxacillin sodium cap 500 mg	
penicillin v potassium for soln 125 mg/5ml	
penicillin v potassium for soln 250 mg/5ml	
penicillin v potassium tab 250 mg	
penicillin v potassium tab 500 mg	
CEPHALOSPORINS	
cefaclor cap 250 mg	
cefaclor cap 500 mg	
cefadroxil cap 500 mg	
cefadroxil for susp 250 mg/5ml	
cefadroxil for susp 500 mg/5ml	
cefadroxil tab 1 gm	
cefdinir cap 300 mg	
cefdinir for susp 125 mg/5ml	
cefdinir for susp 250 mg/5ml	
cefpodoxime proxetil for susp 100 mg/5ml	
cefpodoxime proxetil for susp 50 mg/5ml	
cefpodoxime proxetil tab 100 mg	
cefpodoxime proxetil tab 200 mg	
cefprozil for susp 125 mg/5ml	
cefprozil for susp 250 mg/5ml	
cefprozil tab 250 mg	
cefprozil tab 500 mg	
cefuroxime axetil for susp 125 mg/5ml (Ceftin)	
cefuroxime axetil tab 250 mg (Ceftin)	
cefuroxime axetil tab 500 mg (Ceftin)	
cephalexin cap 250 mg (Keflex)	
cephalexin cap 500 mg (Keflex)	
cephalexin for susp 125 mg/5ml	
cephalexin for susp 250 mg/5ml	
SUPRAX – cefixime tab 400 mg	
SUPRAX – cefixime for susp 100 mg/5ml	
SUPRAX – cefixime for susp 200 mg/5ml	
SUPRAX – cefixime for susp 500 mg/5ml	

Drug Name	Prior Approval
MACROLIDES	
AZITHROMYCIN – azithromycin powd pack for susp 1 gm	
azithromycin for susp 100 mg/5ml (Zithromax)	
azithromycin for susp 200 mg/5ml (Zithromax)	
azithromycin tab 250 mg (Zithromax)	
azithromycin tab 500 mg (Zithromax)	
azithromycin tab 600 mg (Zithromax)	
clarithromycin for susp 125 mg/5ml	
clarithromycin for susp 250 mg/5ml (Biaxin)	
clarithromycin tab sr 24hr 500 mg (Biaxin xl pac)	
clarithromycin tab 250 mg (Biaxin)	
clarithromycin tab 500 mg (Biaxin)	
E.E.S. 400 – erythromycin ethylsuccinate tab 400 mg	
ERY-TAB – erythromycin tab delayed release 250 mg	
ERY-TAB – erythromycin tab delayed release 333 mg	
ERY-TAB – erythromycin tab delayed release 500 mg	
ERYTHROCIN STEARATE – erythromycin stearate tab 250 mg	
ERYTHROMYCIN BASE – erythromycin tab 250 mg	
ERYTHROMYCIN BASE – erythromycin tab 500 mg	
ERYTHROMYCIN ETHYLSUCCINA – erythromycin ethylsuccinate tab 400 mg	
erythromycin w/ delayed release particles cap 250 mg	
ZITHROMAX – azithromycin powd pack for susp 1 gm	
TETRACYCLINES	
demeclocycline hcl tab 150 mg	
demeclocycline hcl tab 300 mg	
doxycycline hyclate cap 100 mg (Vibramycin)	
doxycycline hyclate cap 50 mg	
doxycycline hyclate tab 100 mg	
doxycycline hyclate tab 20 mg	

Drug Name	Prior Approval
doxycycline monohydrate cap 100 mg (Monodox)	
doxycycline monohydrate cap 150 mg (Adoxa)	
doxycycline monohydrate cap 50 mg	
doxycycline monohydrate cap 75 mg (Monodox)	
doxycycline monohydrate tab 100 mg (Adoxa pak 1/100)	
doxycycline monohydrate tab 150 mg (Adoxa pak 1/150)	
doxycycline monohydrate tab 50 mg (Adoxa)	
doxycycline monohydrate tab 75 mg (Adoxa)	
minocycline hcl cap 100 mg (Minocin)	
minocycline hcl cap 50 mg (Minocin)	
minocycline hcl cap 75 mg (Minocin)	
minocycline hcl tab 100 mg	
minocycline hcl tab 50 mg	
minocycline hcl tab 75 mg	
TETRACYCLINE HCL – tetracycline hcl cap 250 mg	
TETRACYCLINE HCL – tetracycline hcl cap 500 mg	
FLUOROQUINOLONES	
CIPRO – ciprofloxacin for oral susp 250 mg/5ml (5%) (5 gm/100ml)	
CIPRO – ciprofloxacin for oral susp 500 mg/5ml (10%) (10 gm/100ml)	
ciprofloxacin hcl tab 100 mg (base equiv)	
ciprofloxacin hcl tab 250 mg (base equiv) (Cipro)	
ciprofloxacin hcl tab 500 mg (base equiv) (Cipro)	
ciprofloxacin hcl tab 750 mg (base equiv)	
ciprofloxacin-ciprofloxacin hcl tab sr 24hr 1000 mg(base eq) (Cipro xr)	
ciprofloxacin-ciprofloxacin hcl tab sr 24hr 500 mg (base eq) (Cipro xr)	
levofloxacin oral soln 25 mg/ml (Levaquin)	
levofloxacin tab 250 mg (Levaquin)	
levofloxacin tab 500 mg (Levaquin)	
levofloxacin tab 750 mg (Levaquin)	
ofloxacin tab 200 mg	

Drug Name	Prior Approval
ofloxacin tab 300 mg	
ofloxacin tab 400 mg	
AMINOGLYCOSIDES	
neomycin sulfate tab 500 mg	
paromomycin sulfate cap 250 mg	
tobramycin nebu soln 300 mg/5ml (Tobi)	
TUBERCULOSIS	
ethambutol hcl tab 100 mg (Myambutol)	
ethambutol hcl tab 400 mg (Myambutol)	
ISONIAZID – isoniazid syrup 50 mg/5ml	
isoniazid & rifampin cap 150-300 mg	
isoniazid tab 100 mg	
isoniazid tab 300 mg	
PRIFTIN – rifapentine tab 150 mg	
pyrazinamide tab 500 mg	
rifabutin cap 150 mg (Mycobutin)	
RIFAMATE – isoniazid & rifampin cap 150-300 mg	
rifampin cap 150 mg (Rifadin)	
rifampin cap 300 mg (Rifadin)	
FUNGAL INFECTIONS	
fluconazole for susp 10 mg/ml (Diflucan)	
fluconazole for susp 40 mg/ml (Diflucan)	
fluconazole tab 100 mg (Diflucan)	
fluconazole tab 150 mg (Diflucan)	
fluconazole tab 200 mg (Diflucan)	
fluconazole tab 50 mg (Diflucan)	
flucytosine cap 250 mg (Ancobon)	
flucytosine cap 500 mg (Ancobon)	
griseofulvin microsize susp 125 mg/5ml	
griseofulvin microsize tab 500 mg (Grifulvin v)	
itraconazole cap 100 mg (Sporanox)	
LAMISIL – terbinafine hcl oral granules packet 125 mg	
LAMISIL – terbinafine hcl oral granules packet 187.5 mg	

Drug Name	Prior Approval
NOXAFIL – posaconazole susp 40 mg/ml	•
nystatin tab 500000 unit	
terbinafine hcl tab 250 mg (Lamisil)	
voriconazole for susp 40 mg/ml (Vfend)	•
voriconazole tab 200 mg (Vfend)	•
voriconazole tab 50 mg (Vfend)	•
VIRAL INFECTIONS	
Cytomegalovirus	
VALCYTE – valganciclovir hcl tab 450 mg	
VALCYTE – valganciclovir hcl for soln 50 mg/ml (base equiv)	
Hepatitis	
adefovir dipivoxil tab 10 mg (Hepsera)	
BARACLUDE – entecavir tab 0.5 mg	
BARACLUDE – entecavir tab 1 mg	
BARACLUDE – entecavir oral soln 0.05 mg/ml	
EPIVIR HBV – lamivudine oral soln 5 mg/ml	
lamivudine tab 100 mg (Epivir hbv)	
OLYSIO – simeprevir sodium cap 150 mg (base equivalent)	•
PEGASYS – peginterferon alfa-2a inj 180 mcg/ml	
PEGASYS – peginterferon alfa-2a inj 180 mcg/0.5ml	
PEGASYS – peginterferon alfa-2a inj kit 180 mcg/0.5ml	
PEGASYS PROCLICK – peginterferon alfa-2a inj 135 mcg/0.5ml	
PEGASYS PROCLICK – peginterferon alfa-2a inj 180 mcg/0.5ml	
ribavirin cap 200 mg (Rebetol)	
ribavirin tab 200 mg (Copegus)	
SOVALDI – sofosbuvir tab 400 mg	•
Herpes	
acyclovir cap 200 mg (Zovirax)	
acyclovir susp 200 mg/5ml (Zovirax)	
acyclovir tab 400 mg (Zovirax)	
acyclovir tab 800 mg (Zovirax)	

Drug Name	Prior Approval
famciclovir tab 125 mg (Famvir)	
famciclovir tab 250 mg (Famvir)	
famciclovir tab 500 mg (Famvir)	
valacyclovir hcl tab 1 gm (Valtrex)	
valacyclovir hcl tab 500 mg (Valtrex)	
HIV/AIDS	
abacavir sulfate tab 300 mg (base equiv) (Ziagen)	
abacavir sulfate-lamivudine-zidovudine tab 300-150-300 mg (Trizivir)	
APTIVUS – tipranavir cap 250 mg	
APTIVUS – tipranavir oral soln 100 mg/ml	
ATRIPLA – efavirenz-emtricitabine-tenofovir df tab 600-200-300 mg	
COMPLERA – emtricitabine-rilpivirine-tenofovir df tab 200-25-300 mg	
CRIXIVAN – indinavir sulfate cap 200 mg	
CRIXIVAN – indinavir sulfate cap 400 mg	
didanosine delayed release capsule 125 mg (Videx ec)	
didanosine delayed release capsule 200 mg (Videx ec)	
didanosine delayed release capsule 250 mg (Videx ec)	
didanosine delayed release capsule 400 mg (Videx ec)	
EDURANT – rilpivirine hcl tab 25 mg (base equivalent)	
EMTRIVA – emtricitabine caps 200 mg	
EMTRIVA – emtricitabine soln 10 mg/ml	
EPIVIR – lamivudine oral soln 10 mg/ml	
EPZICOM – abacavir sulfate-lamivudine tab 600-300 mg	
FUZEON – enfuvirtide for inj 90 mg	
INTELENCE – etravirine tab 25 mg	
INTELENCE – etravirine tab 100 mg	
INTELENCE – etravirine tab 200 mg	
INVIRASE – saquinavir mesylate cap 200 mg	

Drug Name	Prior Approval
INVIRASE – saquinavir mesylate tab 500 mg	
ISENTRESS – raltegravir potassium tab 400 mg (base equiv)	
ISENTRESS – raltegravir potassium chew tab 25 mg (base equiv)	
ISENTRESS – raltegravir potassium chew tab 100 mg (base equiv)	
KALETRA – lopinavir-ritonavir tab 100-25 mg	
KALETRA – lopinavir-ritonavir tab 200-50 mg	
KALETRA – lopinavir-ritonavir soln 400-100 mg/5ml (80-20 mg/ml)	
lamivudine tab 150 mg (Epivir)	
lamivudine tab 300 mg (Epivir)	
lamivudine-zidovudine tab 150-300 mg (Combivir)	
LEXIVA – fosamprenavir calcium tab 700 mg (base equiv)	
LEXIVA – fosamprenavir calcium susp 50 mg/ml (base equiv)	
nevirapine tab sr 24hr 400 mg (Viramune xr)	
nevirapine tab 200 mg (Viramune)	
NORVIR – ritonavir cap 100 mg	
NORVIR – ritonavir tab 100 mg	
NORVIR – ritonavir oral soln 80 mg/ml	
PREZISTA – darunavir ethanolate tab 75 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 150 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 400 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 600 mg (base equiv)	
PREZISTA – darunavir ethanolate tab 800 mg (base equiv)	
PREZISTA – darunavir ethanolate susp 100 mg/ml (base equiv)	
RESCRIPTOR – delavirdine mesylate tab 100 mg	
RESCRIPTOR – delavirdine mesylate tab 200 mg	

Drug Name	Prior Approval
REYATAZ – atazanavir sulfate cap 100 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 150 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 200 mg (base equiv)	
REYATAZ – atazanavir sulfate cap 300 mg (base equiv)	
SELZENTRY – maraviroc tab 150 mg	
SELZENTRY – maraviroc tab 300 mg	
stavudine cap 15 mg (Zerit)	
stavudine cap 20 mg (Zerit)	
stavudine cap 30 mg (Zerit)	
stavudine cap 40 mg (Zerit)	
stavudine for oral soln 1 mg/ml (Zerit)	
STRIBILD – elvitegrav-cobicis-emtricitab-tenofov tab 150-150-200-300 mg	
SUSTIVA – efavirenz cap 50 mg	
SUSTIVA – efavirenz cap 200 mg	
SUSTIVA – efavirenz tab 600 mg	
TIVICAY – dolutegravir sodium tab 50 mg (base equiv)	
TRUVADA – emtricitabine-tenofovir disoproxil fumarate tab 200-300 mg	
VIDEX – didanosine for soln 2 gm	
VIDEX – didanosine for soln 4 gm	
VIRACEPT – nelfinavir mesylate tab 250 mg	
VIRACEPT – nelfinavir mesylate tab 625 mg	
VIRAMUNE – nevirapine susp 50 mg/5ml	
VIRAMUNE XR – nevirapine tab sr 24hr 100 mg	
VIRAMUNE XR – nevirapine tab sr 24hr 400 mg	
VIREAD – tenofovir disoproxil fumarate tab 150 mg	
VIREAD – tenofovir disoproxil fumarate tab 200 mg	
VIREAD – tenofovir disoproxil fumarate tab 250 mg	
VIREAD – tenofovir disoproxil fumarate tab 300 mg	
VIREAD – tenofovir disoproxil fumarate oral powder 40 mg/gm	
ZIAGEN – abacavir sulfate soln 20 mg/ml (base equiv)	
zidovudine cap 100 mg (Retrovir)	
zidovudine syrup 10 mg/ml (Retrovir)	
zidovudine tab 300 mg	
Influenza	
RELENZA DISKHALER – zanamivir aero powder breath activated 5 mg/blister	
TAMIFLU – oseltamivir phosphate cap 30 mg (base equiv)	
TAMIFLU – oseltamivir phosphate cap 45 mg (base equiv)	
TAMIFLU – oseltamivir phosphate cap 75 mg (base equiv)	
TAMIFLU – oseltamivir phosphate for susp 6 mg/ml (base equiv)	
MALARIA	
atovaquone-proguanil hcl tab 250-100 mg (Malarone)	
ATOVAQUONE/PROGUANIL HCL – atovaquone-proguanil hcl tab 62.5-25 mg	
chloroquine phosphate tab 250 mg	
chloroquine phosphate tab 500 mg (Aralen)	
COARTEM – artemether-lumefantrine tab 20-120 mg	
DARAPRIM – pyrimethamine tab 25 mg	
hydroxychloroquine sulfate tab 200 mg (Plaquenil)	
MALARONE – atovaquone-proguanil hcl tab 62.5-25 mg	
mefloquine hcl tab 250 mg	
PRIMAQUINE PHOSPHATE – primaquine phosphate tab 26.3 mg	
WORM INFECTIONS	
ALBENZA – albendazole tab 200 mg	
BILTRICIDE – praziquantel tab 600 mg	
STROMECTOL – ivermectin tab 3 mg	
SULFONAMIDES	

Drug Name	Prior Approval
sulfamethoxazole-trimethoprim susp 200-40 mg/5ml	
sulfamethoxazole-trimethoprim tab 400-80 mg (Bactrim)	
sulfamethoxazole-trimethoprim tab 800-160 mg (Bactrim ds)	
OTHER ANTI-INFECTIVES	
ALINIA – nitazoxanide tab 500 mg	
ALINIA – nitazoxanide for susp 100 mg/5ml	
clindamycin hcl cap 150 mg (Cleocin)	
clindamycin hcl cap 300 mg (Cleocin)	
clindamycin hcl cap 75 mg (Cleocin)	
clindamycin palmitate hcl for soln 75 mg/5ml (base equiv) (Cleocin pediatric gr)	
DAPSONE – dapsone tab 25 mg	
DAPSONE – dapsone tab 100 mg	
erythromycin-sulfisoxazole for susp 200-600 mg/5ml	
metronidazole tab 250 mg (Flagyl)	
metronidazole tab 500 mg (Flagyl)	
NEBUPENT – pentamidine isethionate for nebulization soln 300 mg	
trimethoprim tab 100 mg	
vancomycin hcl cap 125 mg (Vancocin hcl)	
vancomycin hcl cap 250 mg (Vancocin hcl)	
XIFAXAN – rifaximin tab 550 mg	
ZYVOX – linezolid tab 600 mg	•
ZYVOX – linezolid for susp 100 mg/5ml	•
IMMUNIZING AGENTS	
BCG VACCINE – bcg vaccine inj	
CANCER DRUGS	
ACTIMMUNE – interferon gamma-1b inj 100 mcg/0.5ml (2000000 unit/0.5ml)	•
AFINITOR – everolimus tab 2.5 mg	•
AFINITOR – everolimus tab 5 mg	•
AFINITOR – everolimus tab 7.5 mg	•
AFINITOR – everolimus tab 10 mg	•

Drug Name	Prior Approval
AFINITOR DISPERZ – everolimus tab for oral susp 2 mg	•
AFINITOR DISPERZ – everolimus tab for oral susp 3 mg	•
AFINITOR DISPERZ – everolimus tab for oral susp 5 mg	•
ALKERAN – melphalan tab 2 mg	
anastrozole tab 1 mg (Arimidex)	
bicalutamide tab 50 mg (Casodex)	
BOSULIF – bosutinib tab 100 mg	•
BOSULIF – bosutinib tab 500 mg	•
capecitabine tab 150 mg (Xeloda)	•
capecitabine tab 500 mg (Xeloda)	•
CAPRELSA – vandetanib tab 100 mg	•
CAPRELSA – vandetanib tab 300 mg	•
CEENU – lomustine cap 10 mg	
CEENU – lomustine cap 40 mg	
CEENU – lomustine cap 100 mg	
COMETRIQ – cabozantinib s-malate cap 3 x 20 mg (60 mg dose) kit	•
COMETRIQ – cabozantinib s-mal cap 1 x 80 mg & 1 x 20 mg (100 dose) kit	•
COMETRIQ – cabozantinib s-mal cap 1 x 80 mg & 3 x 20 mg (140 dose) kit	•
CYCLOPHOSPHAMIDE – cyclophosphamide tab 25 mg	
CYCLOPHOSPHAMIDE – cyclophosphamide tab 50 mg	
EMCYT – estramustine phosphate sodium cap 140 mg	
ERIVEDGE – vismodegib cap 150 mg	•
ETOPOSIDE – etoposide cap 50 mg	
exemestane tab 25 mg (Aromasin)	
FARESTON – toremifene citrate tab 60 mg (base equivalent)	
flutamide cap 125 mg	
GILOTRIF – afatinib dimaleate tab 20 mg (base equivalent)	•

Drug Name	Prior Approval
GILOTRIF – afatinib dimaleate tab 30 mg (base equivalent)	•
GILOTRIF – afatinib dimaleate tab 40 mg (base equivalent)	•
GLEEVEC – imatinib mesylate tab 100 mg (base equivalent)	•
GLEEVEC – imatinib mesylate tab 400 mg (base equivalent)	•
HEXALEN – altretamine cap 50 mg	
HYCAMTIN – topotecan hcl cap 0.25 mg (base equiv)	•
HYCAMTIN – topotecan hcl cap 1 mg (base equiv)	•
hydroxyurea cap 500 mg (Hydrea)	
ICLUSIG – ponatinib hcl tab 15 mg (base equiv)	•
ICLUSIG – ponatinib hcl tab 45 mg (base equiv)	•
IMBRUVICA – ibrutinib cap 140 mg	•
INLYTA – axitinib tab 1 mg	•
INLYTA – axitinib tab 5 mg	•
JAKAFI – ruxolitinib phosphate tab 5 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 10 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 15 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 20 mg (base equivalent)	•
JAKAFI – ruxolitinib phosphate tab 25 mg (base equivalent)	•
letrozole tab 2.5 mg (Femara)	
LEUCOVORIN CALCIUM – leucovorin calcium tab 10 mg	
LEUCOVORIN CALCIUM – leucovorin calcium tab 15 mg	
leucovorin calcium tab 25 mg	
leucovorin calcium tab 5 mg	
LEUKERAN – chlorambucil tab 2 mg	
LOMUSTINE – lomustine cap 10 mg	
LOMUSTINE – lomustine cap 40 mg	
LOMUSTINE – lomustine cap 100 mg	
LYSODREN – mitotane tab 500 mg	
MATULANE – procarbazine hcl cap 50 mg	
megestrol acetate susp 40 mg/ml (Megace oral)	
megestrol acetate tab 20 mg	
megestrol acetate tab 40 mg	
MEKINIST – trametinib dimethyl sulfoxide tab 0.5 mg (base equivalent)	•
MEKINIST – trametinib dimethyl sulfoxide tab 2 mg (base equivalent)	•
mercaptopurine tab 50 mg (Purinethol)	
MESNEX – mesna tab 400 mg	
methotrexate sodium tab 2.5 mg (base equiv)	
MYLERAN – busulfan tab 2 mg	
NEXAVAR – sorafenib tosylate tab 200 mg (base equivalent)	•
NILANDRON – nilutamide tab 150 mg	
POMALYST – pomalidomide cap 1 mg	
POMALYST – pomalidomide cap 2 mg	
POMALYST – pomalidomide cap 3 mg	
POMALYST – pomalidomide cap 4 mg	
SOLTAMOX – tamoxifen citrate oral soln 10 mg/5ml (base equivalent)	
SPRYCEL – dasatinib tab 20 mg	•
SPRYCEL – dasatinib tab 50 mg	•
SPRYCEL – dasatinib tab 70 mg	•
SPRYCEL – dasatinib tab 80 mg	•
SPRYCEL – dasatinib tab 100 mg	•
SPRYCEL – dasatinib tab 140 mg	•
STIVARGA – regorafenib tab 40 mg	•
SUTENT – sunitinib malate cap 12.5 mg (base equivalent)	•
SUTENT – sunitinib malate cap 25 mg (base equivalent)	•
SUTENT – sunitinib malate cap 50 mg (base equivalent)	•

Drug Name	Prior Approval
SYLATRON – peginterferon alfa-2b for inj kit 296 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 444 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 888 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 296 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 444 mcg	
SYLATRON – peginterferon alfa-2b for inj kit 4 x 888 mcg	
TABLOID – thioguanine tab 40 mg	
TAFINLAR – dabrafenib mesylate cap 50 mg (base equivalent)	•
TAFINLAR – dabrafenib mesylate cap 75 mg (base equivalent)	•
tamoxifen citrate tab 10 mg (base equivalent)	
tamoxifen citrate tab 20 mg (base equivalent)	
TARCEVA – erlotinib tab 25 mg	•
TARCEVA – erlotinib tab 100 mg	•
TARCEVA – erlotinib tab 150 mg	•
TARGRETIN – bexarotene cap 75 mg	
TASIGNA – nilotinib cap 150 mg	•
TASIGNA – nilotinib cap 200 mg	•
temozolomide cap 100 mg (Temodar)	
temozolomide cap 140 mg (Temodar)	
temozolomide cap 180 mg (Temodar)	
temozolomide cap 20 mg (Temodar)	
temozolomide cap 250 mg (Temodar)	
temozolomide cap 5 mg (Temodar)	
tretinoin cap 10 mg	
TYKERB – lapatinib ditosylate tab 250 mg (base equiv)	•
VANDETANIB – vandetanib tab 100 mg	•
VANDETANIB – vandetanib tab 300 mg	•
VOTRIENT – pazopanib hcl tab 200 mg (base equiv)	•
XALKORI – crizotinib cap 200 mg	•
XALKORI – crizotinib cap 250 mg	•
XTANDI – enzalutamide cap 40 mg	•
ZELBORAF – vemurafenib tab 240 mg (base equivalent)	•
ZOLINZA – vorinostat cap 100 mg	•
ZYKADIA – ceritinib cap 150 mg	
ZYTIGA – abiraterone acetate tab 250 mg	•
HORMONES, DIABETES AND RELATED DRUGS	
CORTICOSTEROIDS	
budesonide cap sr 24hr 3 mg (Entocort ec)	
CORTISONE ACETATE – cortisone acetate tab 25 mg	
DEXAMETHASONE – dexamethasone tab 1 mg	
DEXAMETHASONE – dexamethasone tab 2 mg	
DEXAMETHASONE – dexamethasone soln 0.5 mg/5ml	
dexamethasone elixir 0.5 mg/5ml	
DEXAMETHASONE INTENSOL – dexamethasone conc 1 mg/ml	
dexamethasone tab 0.5 mg	
dexamethasone tab 0.75 mg	
dexamethasone tab 1.5 mg	
dexamethasone tab 4 mg	
dexamethasone tab 6 mg	
fludrocortisone acetate tab 0.1 mg	
hydrocortisone tab 10 mg (Cortef)	
hydrocortisone tab 20 mg (Cortef)	
hydrocortisone tab 5 mg (Cortef)	
methylprednisolone tab 16 mg (Medrol)	
methylprednisolone tab 32 mg (Medrol)	
methylprednisolone tab 4 mg (Medrol)	
methylprednisolone tab 4 mg dose pack (Medrol dosepak)	
methylprednisolone tab 8 mg (Medrol)	

Drug Name	Prior Approval
prednisolone sod phosph oral soln 6.7 mg/5ml (5 mg/5ml base) (Pediapred)	
prednisolone sod phosphate oral soln 15 mg/5ml (base equiv)	
prednisolone syrup 15 mg/5ml (usp solution equivalent) (Prelone)	
PREDNISONE – prednisone tab 50 mg	
PREDNISONE – prednisone oral soln 5 mg/5ml	
PREDNISONE – prednisone tab 5 mg dose pack	
PREDNISONE – prednisone tab 10 mg dose pack	
prednisone tab 1 mg	
prednisone tab 10 mg	
prednisone tab 10 mg dose pack	
prednisone tab 2.5 mg	
prednisone tab 20 mg	
prednisone tab 5 mg	
prednisone tab 5 mg dose pack	
MALE HORMONES	
ANDRODERM – testosterone td patch 24hr 2 mg/24hr	
ANDRODERM – testosterone td patch 24hr 4 mg/24hr	
ANDROGEL – testosterone td gel 25 mg/2.5gm (1%)	
ANDROGEL – testosterone td gel 50 mg/5gm (1%)	
ANDROGEL – testosterone td gel 20.25 mg/1.25gm (1.62%)	
ANDROGEL – testosterone td gel 40.5 mg/2.5gm (1.62%)	
ANDROGEL PUMP – testosterone td gel 12.5 mg/act (1%)	
ANDROGEL PUMP – testosterone td gel 20.25 mg/act (1.62%)	
ANDROXY – fluoxymesterone tab 10 mg	
danazol cap 100 mg	
danazol cap 200 mg	
danazol cap 50 mg	

Drug Name	Prior Approval
DEPO-TESTOSTERONE – testosterone cypionate im in oil 100 mg/ml	
DEPO-TESTOSTERONE – testosterone cypionate im in oil 200 mg/ml	
testosterone cypionate im in oil 100 mg/ml (Depo-testosterone)	
testosterone cypionate im in oil 200 mg/ml (Depo-testosterone)	
testosterone enanthate im in oil 200 mg/ml	
ESTROGENS	
CLIMARA PRO – estradiol-levonorgestrel td patch weekly 0.045-0.015 mg/day	
DIVIGEL – estradiol td gel 0.25 mg/0.25gm (0.1%)	
DIVIGEL – estradiol td gel 0.5 mg/0.5gm (0.1%)	
DIVIGEL – estradiol td gel 1 mg/gm (0.1%)	
estradiol & norethindrone acetate tab 0.5-0.1 mg (Activella)	
estradiol & norethindrone acetate tab 1-0.5 mg (Activella)	
estradiol tab 0.5 mg (Estrace)	
estradiol tab 1 mg (Estrace)	
estradiol tab 2 mg (Estrace)	
estradiol td patch weekly 0.025 mg/24hr (Climara)	
estradiol td patch weekly 0.0375 mg/24hr (37.5 mcg/24hr) (Climara)	
estradiol td patch weekly 0.05 mg/24hr (Climara)	
estradiol td patch weekly 0.06 mg/24hr (Climara)	
estradiol td patch weekly 0.075 mg/24hr (Climara)	
estradiol td patch weekly 0.1 mg/24hr (Climara)	
ESTROPIPATE – estropipate tab 3 mg	
estropipate tab 0.75 mg	
estropipate tab 1.5 mg	
PREFEST – estradiol tab 1 mg(15)/estrad-norgestimate tab 1-0.09mg(15)	
PREMARIN – estrogens, conjugated tab 0.3 mg	
PREMARIN – estrogens, conjugated tab 0.45 mg	
PREMARIN – estrogens, conjugated tab 0.625 mg	

Drug Name	Prior Approval
PREMARIN – estrogens, conjugated tab 0.9 mg	
PREMARIN – estrogens, conjugated tab 1.25 mg	
PREMPHASE – conj est 0.625(14)/conj est-medroxypro ac tab 0.625-5mg(14)	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.3-1.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.45-1.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.625-2.5 mg	
PREMPRO – conjugated estrogen-medroxyprogest acetate tab 0.625-5 mg	
VIVELLE-DOT – estradiol td patch biweekly 0.025 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.0375 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.05 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.075 mg/24hr	
VIVELLE-DOT – estradiol td patch biweekly 0.1 mg/24hr	
PROGESTINS	
medroxyprogesterone acetate tab 10 mg (Provera)	
medroxyprogesterone acetate tab 2.5 mg (Provera)	
medroxyprogesterone acetate tab 5 mg (Provera)	
norethindrone acetate tab 5 mg (Aygestin)	
progesterone micronized cap 100 mg (Prometrium)	
progesterone micronized cap 200 mg (Prometrium)	
BIRTH CONTROL Most generic oral contraceptives are formulary products; exceptions are noted. Selected brands that are not available generically are also on the formulary and appear as: TRADE NAME followed by the generic name, e.g., OGESTREL – norgestrel/ethinyl estradiol.	

Drug Name	Prior Approval
DEPO-PROVERA CONTRACEPTIV – medroxyprogesterone acetate im susp 150 mg/ml	
desogest-eth estrad & eth estrad tab 0.15-0.02/0.01 mg(21/5) (Mircette)	
desogest-ethin est tab 0.1-0.025/0.125-0.025/0.15-0.025mg-mg (Cyclessa)	
desogestrel & ethinyl estradiol tab 0.15 mg-30 mcg (Desogen)	
drospirenone-ethinyl estradiol tab 3-0.02 mg (Yaz)	
drospirenone-ethinyl estradiol tab 3-0.03 mg (Yasmin 28)	
ELLA – ulipristal acetate tab 30 mg	
ethynodiol diacetate & ethinyl estradiol tab 1 mg-35 mcg	
levonorg-eth est tab 0.1-0.02mg(84) & eth est tab 0.01mg(7) (Loseasonique)	
levonorgestrel & ethinyl estradiol (91-day) tab 0.15-0.03 mg	
levonorgestrel & ethinyl estradiol tab 0.1 mg-20 mcg	
levonorgestrel & ethinyl estradiol tab 0.15 mg-30 mcg	
levonorgestrel tab 0.75 mg (Plan b)	
levonorgestrel tab 1.5 mg (Plan b one-step)	
levonorgestrel-eth estra tab 0.05-30/0.075-40/0.125-30mg-mcg	
medroxyprogesterone acetate im susp 150 mg/ml (Depo-provera contrac)	
MIRENA – levonorgestrel releasing iud 20 mcg/24hr (52 mg total)	
NECON 1/50-28 – norethindrone & mestranol tab 1 mg-50 mcg	
NECON 10/11-28 – norethindrone-eth estradiol tab 0.5-35/1-35 mg-mcg (10/11)	
norelgestromin-ethinyl estradiol td ptwk 150-35 mcg/24hr (Ortho evra)	
norethindrone & ethinyl estradiol tab 0.4 mg-35 mcg (Ovcon-35)	

Drug Name	Prior Approval
norethindrone & ethinyl estradiol tab 0.5 mg-35 mcg (Brevicon-28)	
norethindrone & ethinyl estradiol tab 1 mg-35 mcg (Norinyl 1+35)	
norethindrone ac-ethinyl estrad-fe tab 1-20/1-30/1-35 mg-mcg (Estrostep fe)	
norethindrone ace & ethinyl estradiol tab 1 mg-20 mcg (Loestrin 1/20-21)	
norethindrone ace & ethinyl estradiol tab 1.5 mg-30 mcg (Loestrin 1.5/30-21)	
norethindrone ace & ethinyl estradiol-fe tab 1 mg-20 mcg (Loestrin fe 1/20)	
norethindrone ace & ethinyl estradiol-fe tab 1.5 mg-30 mcg (Loestrin fe 1.5/30)	
norethindrone tab 0.35 mg (Nor-qd)	
norethindrone-eth estradiol tab 0.5-35/0.75-35/1-35 mg-mcg (Ortho-novum 7/7/7)	
norethindrone-eth estradiol tab 0.5-35/1-35/0.5-35 mg-mcg (Tri-norinyl 28)	
norgestimate & ethinyl estradiol tab 0.25 mg-35 mcg (Ortho-cyclen)	
norgestimate-eth estrad tab 0.18-35/0.215-35/0.25-35 mg-mcg (Ortho tri-cyclen)	
norgestrel & ethinyl estradiol tab 0.3 mg-30 mcg	
NUVARING – etonogestrel-ethinyl estradiol va ring 0.120-0.015 mg/24hr	
OGESTREL – norgestrel & ethinyl estradiol tab 0.5 mg-50 mcg	
ORTHO EVRA – norelgestromin-ethinyl estradiol td ptwk 150-35 mcg/24hr	
ORTHO TRI-CYCLEN LO – norgestimate-eth estrad tab 0.18-25/0.215-25/0.25-25 mg-mcg	
SKYLA – levonorgestrel releasing iud 13.5 mg	
ZOVIA 1/50E – ethynodiol diacetate & ethinyl estradiol tab 1 mg-50 mcg	
INFERTILITY	
BRAVELLE – urofollitropin purified for inj 75 unit	
CETROTIDE – cetrorelix acetate for inj kit 0.25 mg	

Drug Name	Prior Approval
CETROTIDE – cetrorelix acetate for inj kit 3 mg	
chorionic gonadotropin for inj 10000 unit	
clomiphene citrate tab 50 mg (Clomid)	
FOLLISTIM AQ – follitropin beta inj 75 unit/0.5ml	
FOLLISTIM AQ – follitropin beta inj 150 unit/0.5ml	
FOLLISTIM AQ – follitropin beta inj 300 unit/0.36ml	
FOLLISTIM AQ – follitropin beta inj 600 unit/0.72ml	
FOLLISTIM AQ – follitropin beta inj 900 unit/1.08ml	
GANIRELIX ACETATE – ganirelix acetate inj 250 mcg/0.5ml	
GONAL-F – follitropin alfa for inj 450 unit	
GONAL-F – follitropin alfa for inj 1050 unit	
GONAL-F RFF – follitropin alfa for inj 75 unit	
GONAL-F RFF PEN – follitropin alfa inj 300 unit/0.5ml	
GONAL-F RFF PEN – follitropin alfa inj 450 unit/0.75ml	
GONAL-F RFF PEN – follitropin alfa inj 900 unit/1.5ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 300 unit/0.5ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 450 unit/0.75ml	
GONAL-F RFF REDIJECT – follitropin alfa inj 900 unit/1.5ml	
LUVERIS – lutropin alfa for subcutaneous inj 75 unit	
MENOPUR – menotropins for subcutaneous inj 75 unit	
OVIDREL – choriogonadotropin alfa inj 250 mcg/0.5ml	
REPRONEX – menotropins for inj 75 unit	
DIABETES	
acarbose tab 100 mg (Precose)	
acarbose tab 25 mg (Precose)	
acarbose tab 50 mg (Precose)	
BYDUREON – exenatide extended release for inj susp 2 mg	

Drug Name	Prior Approval
BYETTA – exenatide soln pen-injector 5 mcg/0.02ml	
BYETTA – exenatide soln pen-injector 10 mcg/0.04ml	
glimepiride tab 1 mg (Amaryl)	
glimepiride tab 2 mg (Amaryl)	
glimepiride tab 4 mg (Amaryl)	
glipizide tab sr 24hr 10 mg (Glucotrol xl)	
glipizide tab sr 24hr 2.5 mg (Glucotrol xl)	
glipizide tab sr 24hr 5 mg (Glucotrol xl)	
glipizide tab 10 mg (Glucotrol)	
glipizide tab 5 mg (Glucotrol)	
glipizide-metformin hcl tab 2.5-250 mg	
glipizide-metformin hcl tab 2.5-500 mg	
glipizide-metformin hcl tab 5-500 mg	
GLUCAGON EMERGENCY KIT – glucagon (rdna) for inj kit 1 mg	
GLYBURIDE – glyburide tab 1.25 mg	
GLYBURIDE – glyburide tab 2.5 mg	
GLYBURIDE – glyburide tab 5 mg	
glyburide micronized tab 1.5 mg (Glynase)	
glyburide micronized tab 3 mg (Glynase)	
glyburide micronized tab 6 mg (Glynase)	
glyburide tab 1.25 mg	
glyburide tab 2.5 mg	
glyburide tab 5 mg	
glyburide-metformin tab 1.25-250 mg (Glucovance)	
glyburide-metformin tab 2.5-500 mg (Glucovance)	
glyburide-metformin tab 5-500 mg (Glucovance)	
JANUMET – sitagliptin-metformin hcl tab 50-500 mg	
JANUMET – sitagliptin-metformin hcl tab 50-1000 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 50-500 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 50-1000 mg	
JANUMET XR – sitagliptin-metformin hcl tab sr 24hr 100-1000 mg	
JANUVIA – sitagliptin phosphate tab 25 mg (base equiv)	
JANUVIA – sitagliptin phosphate tab 50 mg (base equiv)	
JANUVIA – sitagliptin phosphate tab 100 mg (base equiv)	
JUVISYNC – sitagliptin-simvastatin tab 50-10 mg	
JUVISYNC – sitagliptin-simvastatin tab 50-20 mg	
JUVISYNC – sitagliptin-simvastatin tab 50-40 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-10 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-20 mg	
JUVISYNC – sitagliptin-simvastatin tab 100-40 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 2.5-1000 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 5-500 mg	
KOMBIGLYZE XR – saxagliptin-metformin hcl tab sr 24hr 5-1000 mg	
metformin hcl tab sr 24hr 500 mg (Glucophage xr)	
metformin hcl tab sr 24hr 750 mg (Glucophage xr)	
metformin hcl tab 1000 mg (Glucophage)	
metformin hcl tab 500 mg (Glucophage)	
metformin hcl tab 850 mg (Glucophage)	
nateglinide tab 120 mg (Starlix)	
nateglinide tab 60 mg (Starlix)	
ONGLYZA – saxagliptin hcl tab 2.5 mg (base equiv)	
ONGLYZA – saxagliptin hcl tab 5 mg (base equiv)	
pioglitazone hcl tab 15 mg (base equiv) (Actos)	
pioglitazone hcl tab 30 mg (base equiv) (Actos)	
pioglitazone hcl tab 45 mg (base equiv) (Actos)	
pioglitazone hcl-metformin hcl tab 15-500 mg (Actoplus met)	
pioglitazone hcl-metformin hcl tab 15-850 mg (Actoplus met)	

Drug Name	Prior Approval
SYMLINPEN 120 – pramlintide acetate pen-inj 2700 mcg/2.7ml (1000 mcg/ml)	
SYMLINPEN 60 – pramlintide acetate pen-inj 1500 mcg/1.5ml (1000 mcg/ml)	
VICTOZA – liraglutide soln pen-injector 18 mg/3ml (6 mg/ml)	
DIABETES - INSULINS	
Rapid-Acting Insulins	
HUMALOG – insulin lispro (human) soln cartridge 100 unit/ml	
HUMALOG – insulin lispro (human) inj 100 unit/ml	
HUMALOG KWIKPEN – insulin lispro (human) soln pen-injector 100 unit/ml	
NOVOLOG – insulin aspart inj 100 unit/ml	
NOVOLOG FLEXPEN – insulin aspart soln pen-injector 100 unit/ml	
NOVOLOG PENFILL – insulin aspart soln cartridge 100 unit/ml	
Short-Acting Insulins	
HUMULIN R – insulin regular (human) inj 100 unit/ml	
HUMULIN R U-500 (CONCENTR – insulin regular (human) inj 500 unit/ml	
NOVOLIN R – insulin regular (human) inj 100 unit/ml	
NOVOLIN R RELION – insulin regular (human) inj 100 unit/ml	
Intermediate-Acting Insulins	
HUMALOG MIX 50/50 – insulin lispro prot & lispro (human) inj 100 unit/ml (50-50)	
HUMALOG MIX 50/50 KWIKPEN – insulin lispro prot & lispro sus pen-inj 100 unit/ml (50-50)	
HUMALOG MIX 75/25 – insulin lispro prot & lispro (human) inj 100 unit/ml (75-25)	
HUMALOG MIX 75/25 KWIKPEN – insulin lispro prot & lispro sus pen-inj 100 unit/ml (75-25)	
HUMULIN N – insulin isophane (human) inj 100 unit/ml	
HUMULIN N KWIKPEN – insulin isophane (human) susp pen-injector 100 unit/ml	
HUMULIN N U-100 PEN – insulin isophane (human) susp pen-injector 100 unit/ml	
HUMULIN 70/30 – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
HUMULIN 70/30 KWIKPEN – insulin isophane & regular susp pen-inj 100 unit/ml (70-30)	
HUMULIN 70/30 PEN – insulin isophane & regular susp pen-inj 100 unit/ml (70-30)	
NOVOLIN N – insulin isophane (human) inj 100 unit/ml	
NOVOLIN N RELION – insulin isophane (human) inj 100 unit/ml	
NOVOLIN 70/30 – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
NOVOLIN 70/30 RELION – insulin isophane & regular (human) inj 100 unit/ml (70-30)	
NOVOLOG MIX 70/30 – insulin aspart prot & aspart (human) inj 100 unit/ml (70-30)	
NOVOLOG MIX 70/30 PREFILL – insulin aspart prot & aspart sus pen-inj 100 unit/ml (70-30)	
Basal Insulins	
LANTUS – insulin glargine inj 100 unit/ml	
LANTUS SOLOSTAR – insulin glargine soln pen-injector 100 unit/ml	
LEVEMIR – insulin detemir inj 100 unit/ml	
LEVEMIR FLEXPEN – insulin detemir soln pen-injector 100 unit/ml	
LEVEMIR FLEXTOUCH – insulin detemir soln pen-injector 100 unit/ml	
THYROID REGULATION	
levothyroxine sodium tab 100 mcg (Synthroid)	
levothyroxine sodium tab 112 mcg (Synthroid)	
levothyroxine sodium tab 125 mcg (Synthroid)	
levothyroxine sodium tab 137 mcg (Synthroid)	
levothyroxine sodium tab 150 mcg (Synthroid)	
levothyroxine sodium tab 175 mcg (Synthroid)	
levothyroxine sodium tab 200 mcg (Synthroid)	
levothyroxine sodium tab 25 mcg (Synthroid)	

Drug Name	Prior Approval
levothyroxine sodium tab 300 mcg (Synthroid)	
levothyroxine sodium tab 50 mcg (Synthroid)	
levothyroxine sodium tab 75 mcg (Synthroid)	
levothyroxine sodium tab 88 mcg (Synthroid)	
liothyronine sodium tab 25 mcg (Cytomel)	
liothyronine sodium tab 5 mcg (Cytomel)	
liothyronine sodium tab 50 mcg (Cytomel)	
methimazole tab 10 mg (Tapazole)	
methimazole tab 5 mg (Tapazole)	
propylthiouracil tab 50 mg	
GROWTH HORMONE	
INCRELEX – mecasermin inj 40 mg/4ml (10 mg/ml)	•
OMNITROPE – somatropin inj 5 mg/1.5ml	•
OMNITROPE – somatropin inj 10 mg/1.5ml	•
OMNITROPE – somatropin for inj 5.8 mg	•
OTHER HORMONES AND RELATED DRUGS	
ALENDRONATE SODIUM – alendronate sodium tab 40 mg	
alendronate sodium tab 10 mg	
alendronate sodium tab 35 mg	
alendronate sodium tab 5 mg	
alendronate sodium tab 70 mg (Fosamax)	
cabergoline tab 0.5 mg	
calcitriol cap 0.25 mcg (Rocaltrol)	
calcitriol cap 0.5 mcg (Rocaltrol)	
calcitriol oral soln 1 mcg/ml (Rocaltrol)	
desmopressin acetate inj 4 mcg/ml (Ddavp)	
desmopressin acetate nasal soln 0.01% (refrigerated) (Ddavp)	
desmopressin acetate nasal spray soln 0.01% (Ddavp)	
desmopressin acetate nasal spray soln 0.01% (refrigerated)	
desmopressin acetate tab 0.1 mg (Ddavp)	
desmopressin acetate tab 0.2 mg (Ddavp)	

Drug Name	Prior Approval
ETIDRONATE DISODIUM – etidronate disodium tab 200 mg	
ETIDRONATE DISODIUM – etidronate disodium tab 400 mg	
FORTEO – teriparatide (recombinant) inj 600 mcg/2.4ml	•
ibandronate sodium tab 150 mg (base equivalent) (Boniva)	
KUVAN – sapropterin dihydrochloride soluble tab 100 mg	•
levocarnitine oral soln 1 gm/10ml (10%) (Carnitor)	
levocarnitine tab 330 mg (Carnitor)	
LUPANETA PACK – LEUPROLIDE (1 MON) INJ 3.75 MG & NORETHINDRONE TAB 5 MG KIT	
LUPANETA PACK – LEUPROLIDE (3 MON) INJ 11.25 MG & NORETHINDRONE TAB 5 MG KIT	
methylergonovine maleate tab 0.2 mg	
octreotide acetate inj 100 mcg/ml (0.1 mg/ml) (Sandostatin)	
octreotide acetate inj 1000 mcg/ml (1 mg/ml) (Sandostatin)	
octreotide acetate inj 200 mcg/ml (0.2 mg/ml) (Sandostatin)	
octreotide acetate inj 50 mcg/ml (0.05 mg/ml) (Sandostatin)	
octreotide acetate inj 500 mcg/ml (0.5 mg/ml) (Sandostatin)	
paricalcitol cap 1 mcg (Zemplar)	
paricalcitol cap 2 mcg (Zemplar)	
paricalcitol cap 4 mcg (Zemplar)	
raloxifene hcl tab 60 mg (Evista)	
SANDOSTATIN – octreotide acetate inj 50 mcg/ml (0.05 mg/ml)	
SANDOSTATIN – octreotide acetate inj 100 mcg/ml (0.1 mg/ml)	
SANDOSTATIN – octreotide acetate inj 200 mcg/ml (0.2 mg/ml)	
SANDOSTATIN – octreotide acetate inj 500 mcg/ml (0.5 mg/ml)	

Drug Name	Prior Approval
SANDOSTATIN – octreotide acetate inj 1000 mcg/ml (1 mg/ml)	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 10 mg	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 20 mg	
SANDOSTATIN LAR DEPOT – octreotide acetate for im inj kit 30 mg	
SENSIPAR – cinacalcet hcl tab 30 mg (base equiv)	•
SENSIPAR – cinacalcet hcl tab 60 mg (base equiv)	•
SENSIPAR – cinacalcet hcl tab 90 mg (base equiv)	•
STIMATE – desmopressin acetate nasal soln 1.5 mg/ml	
SYNAREL – NAFARELIN ACETATE NASAL SOLN 2 MG/ML	
HEART AND CIRCULATORY DRUGS	
ANGIOTENSIN CONVERTING ENZYME (ACE) INHIBITORS AND COMBINATIONS	
benazepril & hydrochlorothiazide tab 10-12.5 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 20-12.5 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 20-25 mg (Lotensin hct)	
benazepril & hydrochlorothiazide tab 5-6.25 mg	
benazepril hcl tab 10 mg (Lotensin)	
benazepril hcl tab 20 mg (Lotensin)	
benazepril hcl tab 40 mg (Lotensin)	
benazepril hcl tab 5 mg	
captopril tab 100 mg	
captopril tab 12.5 mg	
captopril tab 25 mg	
captopril tab 50 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 25-15 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 25-25 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 50-15 mg	
CAPTOPRIL/HYDROCHLOROTHIA – captopril & hydrochlorothiazide tab 50-25 mg	
enalapril maleate & hydrochlorothiazide tab 10-25 mg (Vaseretic)	
enalapril maleate & hydrochlorothiazide tab 5-12.5 mg	
enalapril maleate tab 10 mg (Vasotec)	
enalapril maleate tab 2.5 mg (Vasotec)	
enalapril maleate tab 20 mg (Vasotec)	
enalapril maleate tab 5 mg (Vasotec)	
fosinopril sodium & hydrochlorothiazide tab 10-12.5 mg	
fosinopril sodium & hydrochlorothiazide tab 20-12.5 mg	
fosinopril sodium tab 10 mg	
fosinopril sodium tab 20 mg	
fosinopril sodium tab 40 mg	
lisinopril & hydrochlorothiazide tab 10-12.5 mg (Zestoretic)	
lisinopril & hydrochlorothiazide tab 20-12.5 mg (Zestoretic)	
lisinopril & hydrochlorothiazide tab 20-25 mg (Zestoretic)	
lisinopril tab 10 mg (Prinivil)	
lisinopril tab 2.5 mg (Zestril)	
lisinopril tab 20 mg (Prinivil)	
lisinopril tab 30 mg (Zestril)	
lisinopril tab 40 mg (Zestril)	
lisinopril tab 5 mg (Prinivil)	
moexipril hcl tab 15 mg (Univasc)	
moexipril hcl tab 7.5 mg (Univasc)	
moexipril-hydrochlorothiazide tab 15-12.5 mg (Uniretic)	
moexipril-hydrochlorothiazide tab 15-25 mg	
moexipril-hydrochlorothiazide tab 7.5-12.5 mg	

Drug Name	Prior Approval
perindopril erbumine tab 2 mg	
perindopril erbumine tab 4 mg (Aceon)	
perindopril erbumine tab 8 mg (Aceon)	
quinapril hcl tab 10 mg (Accupril)	
quinapril hcl tab 20 mg (Accupril)	
quinapril hcl tab 40 mg (Accupril)	
quinapril hcl tab 5 mg (Accupril)

verapamil hcl tab 80 mg (Calan)	
CHEST PAIN (ANGINA)	
ISOSORBIDE DINITRATE – isosorbide dinitrate tab 30 mg	
isosorbide dinitrate tab 10 mg	
isosorbide dinitrate tab 20 mg	
isosorbide dinitrate tab 30 mg	
isosorbide dinitrate tab 5 mg (Isordil titradose)	
isosorbide mononitrate tab sr 24hr 120 mg (Imdur)	
isosorbide mononitrate tab sr 24hr 30 mg (Imdur)	
isosorbide mononitrate tab sr 24hr 60 mg (Imdur)	
isosorbide mononitrate tab 10 mg	
isosorbide mononitrate tab 20 mg	
NITRO-BID – nitroglycerin oint 2%	
nitroglycerin cap cr 2.5 mg	
nitroglycerin cap cr 6.5 mg	
nitroglycerin cap cr 9 mg	
nitroglycerin td patch 24hr 0.1 mg/hr (Nitro-dur)	
nitroglycerin td patch 24hr 0.2 mg/hr (Nitro-dur)	
nitroglycerin td patch 24hr 0.4 mg/hr (Nitro-dur)	
nitroglycerin td patch 24hr 0.6 mg/hr (Nitro-dur)	
NITROSTAT – nitroglycerin sl tab 0.3 mg	
NITROSTAT – nitroglycerin sl tab 0.4 mg	
NITROSTAT – nitroglycerin sl tab 0.6 mg	
CHOLESTEROL LOWERING	
atorvastatin calcium tab 10 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 20 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 40 mg (base equivalent) (Lipitor)	
atorvastatin calcium tab 80 mg (base equivalent) (Lipitor)	
cholestyramine light powder packets 4 gm	
cholestyramine light powder 4 gm/dose (Questran light)	
cholestyramine powder packets 4 gm (Questran)	
cholestyramine powder 4 gm/dose (Questran)	
choline fenofibrate cap dr 135 mg (fenofibric acid equiv) (Trilipix)	
choline fenofibrate cap dr 45 mg (fenofibric acid equiv) (Trilipix)	
colestipol hcl granule packets 5 gm (Colestid flavored)	
colestipol hcl granules 5 gm (Colestid flavored)	
colestipol hcl tab 1 gm (Colestid)	
CRESTOR – rosuvastatin calcium tab 5 mg	
CRESTOR – rosuvastatin calcium tab 10 mg	
CRESTOR – rosuvastatin calcium tab 20 mg	
CRESTOR – rosuvastatin calcium tab 40 mg	
fenofibrate micronized cap 130 mg (Antara)	
fenofibrate micronized cap 134 mg (Lofibra)	
fenofibrate micronized cap 200 mg (Lofibra)	
fenofibrate micronized cap 43 mg (Antara)	
fenofibrate micronized cap 67 mg (Lofibra)	

Drug Name	Prior Approval
fenofibrate tab 145 mg (Tricor)	
fenofibrate tab 160 mg (Lofibra)	
fenofibrate tab 48 mg (Tricor)	
fenofibrate tab 54 mg (Lofibra)	
gemfibrozil tab 600 mg (Lopid)	
JUXTAPID – lomitapide mesylate cap 5 mg (base equiv)	•
JUXTAPID – lomitapide mesylate cap 10 mg (base equiv)	•
JUXTAPID – lomitapide mesylate cap 20 mg (base equiv)	•
lovastatin tab 10 mg	
lovastatin tab 20 mg (Mevacor)	
lovastatin tab 40 mg (Mevacor)	
LOVAZA – omega-3-acid ethyl esters cap 1 gm	
niacin tab cr 1000 mg (antihyperlipidemic) (Niaspan)	
niacin tab cr 500 mg (antihyperlipidemic) (Niaspan)	
niacin tab cr 750 mg (antihyperlipidemic) (Niaspan)	
omega-3-acid ethyl esters cap 1 gm (Lovaza)	
pravastatin sodium tab 10 mg	
pravastatin sodium tab 20 mg (Pravachol)	
pravastatin sodium tab 40 mg (Pravachol)	
pravastatin sodium tab 80 mg (Pravachol)	
simvastatin tab 10 mg (Zocor)	
simvastatin tab 20 mg (Zocor)	
simvastatin tab 40 mg (Zocor)	
simvastatin tab 5 mg (Zocor)	
simvastatin tab 80 mg (Zocor)	
WELCHOL – colesevelam hcl tab 625 mg	
WELCHOL – colesevelam hcl packet for susp 3.75 gm	
FLUID REDUCTION	
ACETAZOLAMIDE – acetazolamide tab 125 mg	
acetazolamide cap sr 12hr 500 mg (Diamox)	
acetazolamide tab 250 mg	
amiloride & hydrochlorothiazide tab 5-50 mg	
amiloride hcl tab 5 mg	
bumetanide tab 0.5 mg	
bumetanide tab 1 mg	
bumetanide tab 2 mg	
CHLOROTHIAZIDE – chlorothiazide tab 250 mg	
chlorothiazide tab 250 mg	
chlorothiazide tab 500 mg	
CHLORTHALIDONE – chlorthalidone tab 25 mg	
CHLORTHALIDONE – chlorthalidone tab 50 mg	
furosemide oral soln 10 mg/ml	
furosemide tab 20 mg (Lasix)	
furosemide tab 40 mg (Lasix)	
furosemide tab 80 mg (Lasix)	
hydrochlorothiazide cap 12.5 mg (Microzide)	
hydrochlorothiazide tab 25 mg	
hydrochlorothiazide tab 50 mg	
indapamide tab 1.25 mg	
indapamide tab 2.5 mg	
metolazone tab 10 mg	
metolazone tab 2.5 mg (Zaroxolyn)	
metolazone tab 5 mg (Zaroxolyn)	
spironolactone & hydrochlorothiazide tab 25-25 mg (Aldactazide)	
spironolactone tab 100 mg (Aldactone)	
spironolactone tab 25 mg (Aldactone)	
spironolactone tab 50 mg (Aldactone)	
torsemide tab 10 mg (Demadex)	
torsemide tab 100 mg (Demadex)	
torsemide tab 20 mg (Demadex)	
torsemide tab 5 mg (Demadex)	
triamterene & hydrochlorothiazide cap 37.5-25 mg (Dyazide)	
triamterene & hydrochlorothiazide tab 37.5-25 mg (Maxzide-25)	

Drug Name	Prior Approval
triamterene & hydrochlorothiazide tab 75-50 mg (Maxzide)	
TRIAMTERENE/HYDROCHLOROTH – triamterene & hydrochlorothiazide cap 50-25 mg	
HEART RHYTHM	
amiodarone hcl tab 100 mg	
amiodarone hcl tab 200 mg (Cordarone)	
amiodarone hcl tab 400 mg	
disopyramide phosphate cap 100 mg (Norpace)	
disopyramide phosphate cap 150 mg (Norpace)	
flecainide acetate tab 100 mg	
flecainide acetate tab 150 mg	
flecainide acetate tab 50 mg	
mexiletine hcl cap 150 mg	
mexiletine hcl cap 200 mg	
mexiletine hcl cap 250 mg	
MULTAQ – dronedarone hcl tab 400 mg (base equivalent)	
NORPACE CR – disopyramide phosphate cap sr 12hr 100 mg	
propafenone hcl cap sr 12hr 225 mg (Rythmol sr)	
propafenone hcl cap sr 12hr 325 mg (Rythmol sr)	
propafenone hcl cap sr 12hr 425 mg (Rythmol sr)	
propafenone hcl tab 150 mg (Rythmol)	
propafenone hcl tab 225 mg (Rythmol)	
propafenone hcl tab 300 mg	
quinidine gluconate tab cr 324 mg	
QUINIDINE SULFATE – quinidine sulfate tab 200 mg	
QUINIDINE SULFATE ER – quinidine sulfate tab cr 300 mg	
quinidine sulfate tab 200 mg	
quinidine sulfate tab 300 mg	
sotalol hcl (afib/afl) tab 120 mg (Betapace af)	
sotalol hcl (afib/afl) tab 160 mg (Betapace af)	
sotalol hcl (afib/afl) tab 80 mg (Betapace af)	

Drug Name	Prior Approval
sotalol hcl tab 120 mg (Betapace)	
sotalol hcl tab 160 mg (Betapace)	
sotalol hcl tab 240 mg	
sotalol hcl tab 80 mg (Betapace)	
OTHER HEART RELATED DRUGS	
ADCIRCA – tadalafil tab 20 mg (pah)	•
clonidine hcl tab 0.1 mg (Catapres)	
clonidine hcl tab 0.2 mg (Catapres)	
clonidine hcl tab 0.3 mg (Catapres)	
clonidine hcl td patch weekly 0.1 mg/24hr (Catapres-tts-1)	
clonidine hcl td patch weekly 0.2 mg/24hr (Catapres-tts-2)	
clonidine hcl td patch weekly 0.3 mg/24hr (Catapres-tts-3)	
DIBENZYLINE – phenoxybenzamine hcl cap 10 mg	
DIGOXIN – digoxin oral soln 0.05 mg/ml	
digoxin tab 125 mcg (0.125 mg) (Lanoxin)	
digoxin tab 250 mcg (0.25 mg) (Lanoxin)	
doxazosin mesylate tab 1 mg (Cardura)	
doxazosin mesylate tab 2 mg (Cardura)	
doxazosin mesylate tab 4 mg (Cardura)	
doxazosin mesylate tab 8 mg (Cardura)

eplerenone tab 50 mg (Inspra)	
guanfacine hcl tab 1 mg (Tenex)	
guanfacine hcl tab 2 mg (Tenex)	
hydralazine hcl tab 10 mg	
hydralazine hcl tab 100 mg	
hydralazine hcl tab 25 mg	
hydralazine hcl tab 50 mg	
LETAIRIS – ambrisentan tab 5 mg	•
LETAIRIS – ambrisentan tab 10 mg	•
methyldopa tab 250 mg	
methyldopa tab 500 mg	
midodrine hcl tab 10 mg	

Drug Name	Prior Approval
midodrine hcl tab 2.5 mg	
midodrine hcl tab 5 mg	
minoxidil tab 10 mg	
minoxidil tab 2.5 mg	
OPSUMIT – macitentan tab 10 mg	•
prazosin hcl cap 1 mg (Minipress)	
prazosin hcl cap 2 mg (Minipress)	
prazosin hcl cap 5 mg (Minipress)	
REMODULIN – treprostinil sodium inj 1 mg/ml (base equiv)	•
REMODULIN – treprostinil sodium inj 2.5 mg/ml (base equiv)	•
REMODULIN – treprostinil sodium inj 5 mg/ml (base equiv)	•
REMODULIN – treprostinil sodium inj 10 mg/ml (base equiv)	•
sildenafil citrate tab 20 mg (Revatio)	•
terazosin hcl cap 1 mg	
terazosin hcl cap 10 mg	
terazosin hcl cap 2 mg	
terazosin hcl cap 5 mg	
TRACLEER – bosentan tab 62.5 mg	•
TRACLEER – bosentan tab 125 mg	•
VENTAVIS – iloprost inhalation solution 10 mcg/ml	•
VENTAVIS – iloprost inhalation solution 20 mcg/ml	•
BEE STING KITS	
EPIPEN 2-PAK – epinephrine solution auto-injector 0.3 mg/0.3ml (1:1000)	
EPIPEN-JR 2-PAK – epinephrine solution auto-injector 0.15 mg/0.3ml (1:2000)	
RESPIRATORY AGENTS	
ANTIHISTAMINES	
cyproheptadine hcl syrup 2 mg/5ml	
cyproheptadine hcl tab 4 mg	
promethazine hcl suppos 12.5 mg	
promethazine hcl suppos 25 mg	

Drug Name	Prior Approval
promethazine hcl syrup 6.25 mg/5ml	
promethazine hcl tab 12.5 mg	
promethazine hcl tab 25 mg	
promethazine hcl tab 50 mg	
PROMETHEGAN – promethazine hcl suppos 50 mg	
NASAL PRODUCTS	
ASTEPRO – azelastine hcl nasal spray 0.15% (205.5 mcg/spray)	
azelastine hcl nasal spray 0.15% (205.5 mcg/spray) (Astepro)	
azelastine hcl nasal spray 137 mcg/spray (1 mg/ml)	
BACTROBAN NASAL – mupirocin calcium nasal oint 2%	
FLUNISOLIDE – flunisolide nasal soln 29 mcg/act (0.025%)	
flunisolide nasal soln 0.025% (Flunisolide)	
fluticasone propionate nasal susp 50 mcg/act (Flonase)	
ipratropium bromide nasal soln 0.03% (21 mcg/spray) (Atrovent)	
ipratropium bromide nasal soln 0.06% (42 mcg/spray) (Atrovent)	
triamcinolone acetonide nasal inhal 55 mcg/act (Nasacort aq)	
COUGH/COLD/ALLERGY	
acetylcysteine inhal soln 10%	
acetylcysteine inhal soln 20%	
promethazine w/ codeine syrup 6.25-10 mg/5ml	
SSKI – potassium iodide soln 1 gm/ml	
ASTHMA/COPD	
ADVAIR DISKUS – fluticasone-salmeterol aer powder ba 100-50 mcg/dose	
ADVAIR DISKUS – fluticasone-salmeterol aer powder ba 250-50 mcg/dose	
ADVAIR DISKUS – fluticasone-salmeterol aer powder ba 500-50 mcg/dose	

Drug Name	Prior Approval
ADVAIR HFA – fluticasone-salmeterol inhal aerosol 45-21 mcg/act	
ADVAIR HFA – fluticasone-salmeterol inhal aerosol 115-21 mcg/act	
ADVAIR HFA – fluticasone-salmeterol inhal aerosol 230-21 mcg/act	
albuterol sulfate soln nebu 0.083% (2.5 mg/3ml)	
albuterol sulfate soln nebu 0.5% (5 mg/ml)	
albuterol sulfate soln nebu 0.63 mg/3ml (base equiv)	
albuterol sulfate soln nebu 1.25 mg/3ml (base equiv)	
albuterol sulfate syrup 2 mg/5ml	
albuterol sulfate tab sr 12hr 4 mg (Vospire er)	
albuterol sulfate tab sr 12hr 8 mg (Vospire er)	
albuterol sulfate tab 2 mg	
albuterol sulfate tab 4 mg	
ANORO ELLIPTA – umeclidinium-vilanterol aero powd ba 62.5-25 mcg/inh	
ASMANEX 120 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 14 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 30 METERED DOSES – mometasone furoate inhal powd 110 mcg/inh (breath activated)	
ASMANEX 30 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ASMANEX 60 METERED DOSES – mometasone furoate inhal powd 220 mcg/inh (breath activated)	
ATROVENT HFA – ipratropium bromide hfa inhal aerosol 17 mcg/act	
BREO ELLIPTA – fluticasone furoate-vilanterol aero powd ba 100-25 mcg/inh	
budesonide inhalation susp 0.25 mg/2ml (Pulmicort)	
budesonide inhalation susp 0.5 mg/2ml (Pulmicort)	
COMBIVENT – ipratropium-albuterol aerosol 18-103 mcg/act (20-120mcg/act)	

Drug Name	Prior Approval
COMBIVENT RESPIMAT – ipratropium-albuterol inhal aerosol soln 20-100 mcg/act	
cromolyn sodium soln nebu 20 mg/2ml	
DULERA – mometasone furoate-formoterol fumarate aerosol 100-5 mcg/act	
DULERA – mometasone furoate-formoterol fumarate aerosol 200-5 mcg/act	
FLOVENT DISKUS – fluticasone propionate aer pow ba 50 mcg/blister	
FLOVENT DISKUS – fluticasone propionate aer pow ba 100 mcg/blister	
FLOVENT DISKUS – fluticasone propionate aer pow ba 250 mcg/blister	
FLOVENT HFA – fluticasone propionate hfa inhal aero 44 mcg/act (50/valve)	
FLOVENT HFA – fluticasone propionate hfa inhal aer 110 mcg/act (125/valve)	
FLOVENT HFA – fluticasone propionate hfa inhal aer 220 mcg/act (250/valve)	
FORADIL AEROLIZER – formoterol fumarate inhal cap 12 mcg	
ipratropium bromide inhal soln 0.02%	
ipratropium-albuterol nebu soln 0.5-2.5(3) mg/3ml (Duoneb)	
levalbuterol hcl soln nebu conc 1.25 mg/0.5ml (base equiv) (Xopenex concentrate)	
levalbuterol hcl soln nebu 0.31 mg/3ml (base equiv) (Xopenex)	
levalbuterol hcl soln nebu 0.63 mg/3ml (base equiv) (Xopenex)	
levalbuterol hcl soln nebu 1.25 mg/3ml (base equiv) (Xopenex)	
MAXAIR AUTOHALER – pirbuterol acetate breath activated inhal aerosol 200mcg/inh	
montelukast sodium chew tab 4 mg (base equiv) (Singulair)	
montelukast sodium chew tab 5 mg (base equiv) (Singulair)	
montelukast sodium oral granules packet 4 mg (base equiv) (Singulair)	

Drug Name	Prior Approval
montelukast sodium tab 10 mg (base equiv) (Singulair)	
PROAIR HFA – albuterol sulfate inhal aero 108 mcg/act (90mcg base equiv)	
PULMICORT – budesonide inhalation susp 1 mg/2ml	
QVAR – beclomethasone dipropionate inhal aero soln 40 mcg/act	
QVAR – beclomethasone dipropionate inhal aero soln 80 mcg/act	
SEREVENT DISKUS – salmeterol xinafoate aer pow ba 50 mcg/dose (base equiv)	
SPIRIVA HANDIHALER – tiotropium bromide monohydrate inhal cap 18 mcg (base equiv)	
SYMBICORT – budesonide-formoterol fumarate dihyd aerosol 80-4.5 mcg/act	
SYMBICORT – budesonide-formoterol fumarate dihyd aerosol 160-4.5 mcg/act	
terbutaline sulfate tab 2.5 mg	
terbutaline sulfate tab 5 mg	
theophylline tab sr 12hr 100 mg	
theophylline tab sr 12hr 200 mg	
theophylline tab sr 12hr 300 mg	
theophylline tab sr 12hr 450 mg	
theophylline tab sr 24hr 400 mg	
theophylline tab sr 24hr 600 mg	
VENTOLIN HFA – albuterol sulfate inhal aero 108 mcg/act (90mcg base equiv)	
XOLAIR – omalizumab for inj 150 mg	•
zafirlukast tab 10 mg (Accolate)	
zafirlukast tab 20 mg (Accolate)	
OTHER RESPIRATORY DRUGS	
KALYDECO – ivacaftor tab 150 mg	•
PULMOZYME – dornase alfa inhal soln 1 mg/ml	
GASTROINTESTINAL DRUGS	
LAXATIVES	
lactulose solution 10 gm/15ml	

Drug Name	Prior Approval
peg 3350-kcl-na bicarb-nacl-na sulfate for soln 236 gm (Golytely)	
peg 3350-kcl-na bicarb-nacl-na sulfate for soln 240 gm (Colyte-flavor packs)	
peg 3350-kcl-sod bicarb-nacl for soln 420 gm (Nulytely/flavor pack)	
ULCER/GERD	
amoxicillin cap-clarithro tab-lansopraz cap dr therapy pack (Prevpac)	
CARAFATE – sucralfate susp 1 gm/10ml	
cimetidine hcl soln 300 mg/5ml	
cimetidine tab 300 mg	
cimetidine tab 400 mg	
cimetidine tab 800 mg	
DICYCLOMINE HCL – dicyclomine hcl oral soln 10 mg/5ml	
dicyclomine hcl cap 10 mg (Bentyl)	
dicyclomine hcl tab 20 mg (Bentyl)	
famotidine tab 40 mg (Pepcid)	
glycopyrrolate tab 1 mg (Robinul)	
glycopyrrolate tab 2 mg (Robinul forte)	
hyoscyamine sulfate elixir 0.125 mg/5ml	
hyoscyamine sulfate soln 0.125 mg/ml	
hyoscyamine sulfate tab sl 0.125 mg (Levsin/sl)	
hyoscyamine sulfate tab sr 12hr 0.375 mg (Levbid)	
hyoscyamine sulfate tab 0.125 mg (Levsin)	
lansoprazole cap delayed release 15 mg (Prevacid)	
lansoprazole cap delayed release 30 mg (Prevacid)	
misoprostol tab 100 mcg (Cytotec)	
misoprostol tab 200 mcg (Cytotec)	
NEXIUM – esomeprazole magnesium for delayed release susp pack 2.5 mg	
NEXIUM – esomeprazole magnesium for delayed release susp packet 5 mg	

Drug Name	Prior Approval
NEXIUM – esomeprazole magnesium for delayed release susp packet 10 mg	
NEXIUM – esomeprazole magnesium for delayed release susp packet 20 mg	
NEXIUM – esomeprazole magnesium for delayed release susp packet 40 mg	
NEXIUM – esomeprazole magnesium cap delayed release 20 mg	
NEXIUM – esomeprazole magnesium cap delayed release 40 mg	
omeprazole cap delayed release 10 mg (Prilosec)	
omeprazole cap delayed release 20 mg (Prilosec)	
omeprazole cap delayed release 40 mg (Prilosec)	
pantoprazole sodium ec tab 20 mg (base equiv) (Protonix)	
pantoprazole sodium ec tab 40 mg (base equiv) (Protonix)	
ranitidine hcl cap 300 mg	
ranitidine hcl syrup 15 mg/ml (75 mg/5ml)	
ranitidine hcl tab 300 mg (Zantac)	
sucralfate tab 1 gm (Carafate)	
NAUSEA AND VOMITING	
EMEND – aprepitant capsule 40 mg	
EMEND – aprepitant capsule 80 mg	
EMEND – aprepitant capsule 125 mg	
EMEND – aprepitant capsule therapy pack 80 & 125 mg	
ondansetron hcl oral soln 4 mg/5ml (Zofran)	
ondansetron hcl tab 24 mg	
ondansetron hcl tab 4 mg (Zofran)	
ondansetron hcl tab 8 mg (Zofran)	
ondansetron orally disintegrating tab 4 mg (Zofran odt)	
ondansetron orally disintegrating tab 8 mg (Zofran odt)	
trimethobenzamide hcl cap 300 mg (Tigan)	
DIGESTIVE ENZYMES	
CREON – pancrelipase (lip-prot-amyl) dr cap 3000-9500-15000 unit	
CREON – pancrelipase (lip-prot-amyl) dr cap 6000-19000-30000 unit	
CREON – pancrelipase (lip-prot-amyl) dr cap 12000-38000-60000 unit	
CREON – pancrelipase (lip-prot-amyl) dr cap 24000-76000-120000 unit	
CREON – pancrelipase (lip-prot-amyl) dr cap 36000-114000-180000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 3000-10000-16000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 5000-17000-27000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 10000-34000-55000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 15000-51000-82000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 20000-68000-109000 unit	
ZENPEP – pancrelipase (lip-prot-amyl) dr cap 25000-85000-136000 unit	
OTHER GASTROINTESTINAL DRUGS	
ASACOL – mesalamine tab delayed release 400 mg	
ASACOL HD – mesalamine tab delayed release 800 mg	
balsalazide disodium cap 750 mg (Colazal)	
calcium acetate (phosphate binder) cap 667 mg (169 mg ca) (Phoslo)	
CANASA – mesalamine suppos 1000 mg	
CHENODAL – chenodiol tab 250 mg	•
DELZICOL – mesalamine cap dr 400 mg	
lactulose (encephalopathy) solution 10 gm/15ml	
LIALDA – mesalamine tab delayed release 1.2 gm	
mesalamine enema 4 gm	
metoclopramide hcl soln 5 mg/5ml (10 mg/10ml)	
metoclopramide hcl tab 10 mg (Reglan)	
metoclopramide hcl tab 5 mg (Reglan)	

Drug Name	Prior Approval
PENTASA – mesalamine cap cr 250 mg	
PENTASA – mesalamine cap cr 500 mg	
RELISTOR – methylnaltrexone bromide inj 8 mg/0.4ml (20 mg/ml)	•
RELISTOR – methylnaltrexone bromide inj 12 mg/0.6ml (20 mg/ml)	•
RELISTOR – methylnaltrexone bromide inj kit 12 mg/0.6ml	•
RENVELA – sevelamer carbonate tab 800 mg	
RENVELA – sevelamer carbonate packet 0.8 gm	
RENVELA – sevelamer carbonate packet 2.4 gm	
sulfasalazine tab delayed release 500 mg (Azulfidine en-tabs)	
sulfasalazine tab 500 mg (Azulfidine)	
ursodiol cap 300 mg (Actigall)	
GENITOURINARY DRUGS	
URINARY TRACT INFECTIONS	
nitrofurantoin macrocrystalline cap 100 mg (Macrodantin)	
nitrofurantoin macrocrystalline cap 50 mg (Macrodantin)	
nitrofurantoin monohydrate macrocrystalline cap 100 mg (Macrobid)	
nitrofurantoin susp 25 mg/5ml (Furadantin)	
URINARY TRACT SPASMS	
oxybutynin chloride syrup 5 mg/5ml	
oxybutynin chloride tab sr 24hr 10 mg (Ditropan xl)	
oxybutynin chloride tab sr 24hr 15 mg (Ditropan xl)	
oxybutynin chloride tab sr 24hr 5 mg (Ditropan xl)	
oxybutynin chloride tab 5 mg	
tolterodine tartrate cap sr 24hr 2 mg (Detrol la)	
tolterodine tartrate cap sr 24hr 4 mg (Detrol la)	
tolterodine tartrate tab 1 mg (Detrol)	
tolterodine tartrate tab 2 mg (Detrol)	
VESICARE – solifenacin succinate tab 5 mg	

Drug Name	Prior Approval
VESICARE – solifenacin succinate tab 10 mg	
VAGINAL PRODUCTS	
CLEOCIN – clindamycin phosphate vaginal suppos 100 mg	
clindamycin phosphate vaginal cream 2% (Cleocin)	
metronidazole vaginal gel 0.75% (Metrogel-vaginal)	
PREMARIN – estrogens, conjugated vaginal cream 0.625 mg/gm	
terconazole vaginal cream 0.4% (Terazol 7)	
terconazole vaginal cream 0.8% (Terazol 3)	
terconazole vaginal suppos 80 mg	
VAGIFEM – estradiol vaginal tab 10 mcg	
OTHER GENITOURINARY DRUGS	
alfuzosin hcl tab sr 24hr 10 mg (Uroxatral)	
CYTRA-K – potassium citrate & citric acid soln 1100-334 mg/5ml	
CYTRA-3 – pot & sod citrates w/ cit ac syrup 550-500-334 mg/5ml	
ELMIRON – pentosan polysulfate sodium caps 100 mg	
finasteride tab 5 mg (Proscar)	•
K-PHOS NO 2 – potassium & sodium acid phosphates tab 305-700 mg	
POTASSIUM CITRATE – potassium citrate tab cr 5 meq (540 mg)	
POTASSIUM CITRATE – potassium citrate tab cr 10 meq (1080 mg)	
potassium citrate & citric acid powder pack 3300-1002 mg	
potassium citrate & citric acid soln 1100-334 mg/5ml	
sodium citrate & citric acid soln 500-334 mg/5ml (Shohls solution modi)	
tamsulosin hcl cap 0.4 mg (Flomax)	
TRICITRATES – pot & sod citrates w/ cit ac soln 550-500-334 mg/5ml	

Drug Name	Prior Approval
CENTRAL NERVOUS SYSTEM DRUGS	
ANXIETY	
ALPRAZOLAM INTENSOL – alprazolam conc 1 mg/ml	
alprazolam tab sr 24hr 0.5 mg (Xanax xr)	
alprazolam tab sr 24hr 1 mg (Xanax xr)	
alprazolam tab sr 24hr 2 mg (Xanax xr)	
alprazolam tab sr 24hr 3 mg (Xanax xr)	
alprazolam tab 0.25 mg (Xanax)	
alprazolam tab 0.5 mg (Xanax)	
alprazolam tab 1 mg (Xanax)	
alprazolam tab 2 mg (Xanax)	
buspirone hcl tab 10 mg	
buspirone hcl tab 15 mg	
buspirone hcl tab 30 mg	
buspirone hcl tab 5 mg	
buspirone hcl tab 7.5 mg	
clorazepate dipotassium tab 15 mg (Tranxene t)	
clorazepate dipotassium tab 3.75 mg (Tranxene t)	
clorazepate dipotassium tab 7.5 mg (Tranxene t)	
DIAZEPAM – diazepam soln 1 mg/ml	
DIAZEPAM – diazepam inj 5 mg/ml	
DIAZEPAM – diazepam im inj device 10 mg/2ml	
DIAZEPAM INTENSOL – diazepam conc 5 mg/ml	
diazepam tab 10 mg (Valium)	
diazepam tab 2 mg (Valium)	
diazepam tab 5 mg (Valium)	
hydroxyzine hcl syrup 10 mg/5ml	
hydroxyzine hcl tab 10 mg	
hydroxyzine hcl tab 25 mg	
hydroxyzine hcl tab 50 mg	
HYDROXYZINE PAMOATE – hydroxyzine pamoate cap 100 mg	
hydroxyzine pamoate cap 25 mg (Vistaril)	
hydroxyzine pamoate cap 50 mg (Vistaril)	

Drug Name	Prior Approval
lorazepam conc 2 mg/ml (Lorazepam intensol)	
lorazepam tab 0.5 mg (Ativan)	
lorazepam tab 1 mg (Ativan)	
lorazepam tab 2 mg (Ativan)	
DEPRESSION	
amitriptyline hcl tab 10 mg	
amitriptyline hcl tab 100 mg	
amitriptyline hcl tab 150 mg	
amitriptyline hcl tab 25 mg	
amitriptyline hcl tab 50 mg	
amitriptyline hcl tab 75 mg	
bupropion hcl tab sr 12hr 100 mg (Wellbutrin sr)	
bupropion hcl tab sr 12hr 150 mg (Wellbutrin sr)	
bupropion hcl tab sr 12hr 200 mg (Wellbutrin sr)	
bupropion hcl tab sr 24hr 150 mg (Wellbutrin xl)	
bupropion hcl tab sr 24hr 300 mg (Wellbutrin xl)	
bupropion hcl tab 100 mg (Wellbutrin)	
bupropion hcl tab 75 mg (Wellbutrin)	
citalopram hydrobromide oral soln 10 mg/5ml	
citalopram hydrobromide tab 10 mg (base equiv) (Celexa)	
citalopram hydrobromide tab 20 mg (base equiv) (Celexa)	
citalopram hydrobromide tab 40 mg (base equiv) (Celexa)	
clomipramine hcl cap 25 mg (Anafranil)	
clomipramine hcl cap 50 mg (Anafranil)	
clomipramine hcl cap 75 mg (Anafranil)	
desipramine hcl tab 10 mg (Norpramin)	
desipramine hcl tab 100 mg (Norpramin)	
desipramine hcl tab 150 mg (Norpramin)	
desipramine hcl tab 25 mg (Norpramin)	
desipramine hcl tab 50 mg (Norpramin)	
desipramine hcl tab 75 mg (Norpramin)	
DOXEPIN HCL – doxepin hcl cap 75 mg	
doxepin hcl cap 10 mg	

Drug Name	Prior Approval
doxepin hcl cap 100 mg	
doxepin hcl cap 150 mg	
doxepin hcl cap 25 mg	
doxepin hcl cap 50 mg	
doxepin hcl conc 10 mg/ml	
duloxetine hcl enteric coated pellets cap 20 mg (Cymbalta)	
duloxetine hcl enteric coated pellets cap 30 mg (Cymbalta)	
duloxetine hcl enteric coated pellets cap 60 mg (Cymbalta)	
escitalopram oxalate soln 5 mg/5ml (base equiv) (Lexapro)	
escitalopram oxalate tab 10 mg (base equiv) (Lexapro)	
escitalopram oxalate tab 20 mg (base equiv) (Lexapro)	
escitalopram oxalate tab 5 mg (base equiv) (Lexapro)	
fluoxetine hcl cap 10 mg (Prozac)	
fluoxetine hcl cap 20 mg (Prozac)	
fluoxetine hcl cap 40 mg (Prozac)	
fluoxetine hcl solution 20 mg/5ml	
fluoxetine hcl tab 10 mg	
fluoxetine hcl tab 20 mg	
fluvoxamine maleate tab 100 mg	
fluvoxamine maleate tab 25 mg	
fluvoxamine maleate tab 50 mg	
imipramine hcl tab 10 mg (Tofranil)	
imipramine hcl tab 25 mg (Tofranil)	
imipramine hcl tab 50 mg (Tofranil)	
imipramine pamoate cap 100 mg (Tofranil-pm)	
imipramine pamoate cap 125 mg (Tofranil-pm)	
imipramine pamoate cap 150 mg (Tofranil-pm)	
imipramine pamoate cap 75 mg (Tofranil-pm)	
mirtazapine orally disintegrating tab 15 mg (Remeron soltab)	
mirtazapine orally disintegrating tab 30 mg (Remeron soltab)	
mirtazapine orally disintegrating tab 45 mg (Remeron soltab)	
mirtazapine tab 15 mg (Remeron)	
mirtazapine tab 30 mg (Remeron)	
mirtazapine tab 45 mg (Remeron)	
mirtazapine tab 7.5 mg	
NORTRIPTYLINE HCL – nortriptyline hcl soln 10 mg/5ml	
nortriptyline hcl cap 10 mg (Pamelor)	
nortriptyline hcl cap 25 mg (Pamelor)	
nortriptyline hcl cap 50 mg (Pamelor)	
nortriptyline hcl cap 75 mg (Pamelor)	
paroxetine hcl tab sr 24hr 12.5 mg (Paxil cr)	
paroxetine hcl tab sr 24hr 25 mg (Paxil cr)	
paroxetine hcl tab sr 24hr 37.5 mg (Paxil cr)	
paroxetine hcl tab 10 mg (Paxil)	
paroxetine hcl tab 20 mg (Paxil)	
paroxetine hcl tab 30 mg (Paxil)	
paroxetine hcl tab 40 mg (Paxil)	
phenelzine sulfate tab 15 mg (Nardil)	
sertraline hcl oral conc 20 mg/ml (Zoloft)	
sertraline hcl tab 100 mg (Zoloft)	
sertraline hcl tab 25 mg (Zoloft)	
sertraline hcl tab 50 mg (Zoloft)	
tranylcypromine sulfate tab 10 mg (Parnate)	
trazodone hcl tab 100 mg	
trazodone hcl tab 150 mg	
trazodone hcl tab 300 mg	
trazodone hcl tab 50 mg	
venlafaxine hcl cap sr 24hr 150 mg (base equivalent) (Effexor xr)	
venlafaxine hcl cap sr 24hr 37.5 mg (base equivalent) (Effexor xr)	

Drug Name	Prior Approval
venlafaxine hcl cap sr 24hr 75 mg (base equivalent) (Effexor xr)	
VENLAFAXINE HCL ER – venlafaxine hcl tab sr 24hr 225 mg (base equivalent)	
venlafaxine hcl tab sr 24hr 150 mg (base equivalent) (Venlafaxine hcl er)	
venlafaxine hcl tab sr 24hr 37.5 mg (base equivalent) (Venlafaxine hcl er)	
venlafaxine hcl tab sr 24hr 75 mg (base equivalent) (Venlafaxine hcl er)	
venlafaxine hcl tab 100 mg	
venlafaxine hcl tab 25 mg	
venlafaxine hcl tab 37.5 mg	
venlafaxine hcl tab 50 mg	
venlafaxine hcl tab 75 mg	
PSYCHOTIC AND BIPOLAR DISORDERS	
chlorpromazine hcl tab 10 mg	
chlorpromazine hcl tab 100 mg	
chlorpromazine hcl tab 200 mg	
chlorpromazine hcl tab 25 mg	
chlorpromazine hcl tab 50 mg	
clozapine tab 100 mg (Clozaril)	
clozapine tab 200 mg	
clozapine tab 25 mg (Clozaril)	
clozapine tab 50 mg	
FLUPHENAZINE HCL – fluphenazine hcl elixir 2.5 mg/5ml	
FLUPHENAZINE HCL – fluphenazine hcl oral conc 5 mg/ml	
fluphenazine hcl tab 1 mg	
fluphenazine hcl tab 10 mg	
fluphenazine hcl tab 2.5 mg	
fluphenazine hcl tab 5 mg	
haloperidol lactate oral conc 2 mg/ml	
haloperidol tab 0.5 mg	
haloperidol tab 1 mg	
haloperidol tab 10 mg	

Drug Name	Prior Approval
haloperidol tab 2 mg	
haloperidol tab 20 mg	
haloperidol tab 5 mg	
LITHIUM CARBONATE – lithium carbonate cap 150 mg	
lithium carbonate cap 150 mg (Lithium carbonate)	
lithium carbonate cap 300 mg	
lithium carbonate cap 600 mg (Lithium carbonate)	
lithium carbonate tab cr 300 mg (Lithobid)	
lithium carbonate tab cr 450 mg	
lithium carbonate tab 300 mg	
LITHIUM CITRATE – lithium citrate oral soln 8 meq/5ml	
loxapine succinate cap 10 mg	
loxapine succinate cap 25 mg	
loxapine succinate cap 5 mg (Loxitane)	
loxapine succinate cap 50 mg	
olanzapine orally disintegrating tab 10 mg (Zyprexa zydis)	
olanzapine orally disintegrating tab 15 mg (Zyprexa zydis)	
olanzapine orally disintegrating tab 20 mg (Zyprexa zydis)	
olanzapine orally disintegrating tab 5 mg (Zyprexa zydis)	
olanzapine tab 10 mg (Zyprexa)	
olanzapine tab 15 mg (Zyprexa)	
olanzapine tab 2.5 mg (Zyprexa)	
olanzapine tab 20 mg (Zyprexa)	
olanzapine tab 5 mg (Zyprexa)	
olanzapine tab 7.5 mg (Zyprexa)	
perphenazine tab 16 mg	
perphenazine tab 2 mg	
perphenazine tab 4 mg	
perphenazine tab 8 mg	
prochlorperazine maleate tab 10 mg (Compazine)	

Drug Name	Prior Approval
prochlorperazine maleate tab 5 mg (Compazine)	
prochlorperazine suppos 25 mg	
quetiapine fumarate tab 100 mg (Seroquel)	
quetiapine fumarate tab 200 mg (Seroquel)	
quetiapine fumarate tab 25 mg (Seroquel)	
quetiapine fumarate tab 300 mg (Seroquel)	
quetiapine fumarate tab 400 mg (Seroquel)	
quetiapine fumarate tab 50 mg (Seroquel)	
risperidone orally disintegrating tab 0.25 mg	
risperidone orally disintegrating tab 0.5 mg (Risperdal m-tab)	
risperidone orally disintegrating tab 1 mg (Risperdal m-tab)	
risperidone orally disintegrating tab 2 mg (Risperdal m-tab)	
risperidone orally disintegrating tab 3 mg (Risperdal m-tab)	
risperidone orally disintegrating tab 4 mg (Risperdal m-tab)	
risperidone soln 1 mg/ml (Risperdal)	
risperidone tab 0.25 mg (Risperdal)	
risperidone tab 0.5 mg (Risperdal)	
risperidone tab 1 mg (Risperdal)	
risperidone tab 2 mg (Risperdal)	
risperidone tab 3 mg (Risperdal)	
risperidone tab 4 mg (Risperdal)	
SEROQUEL XR – quetiapine fumarate tab sr 24hr 50 mg	
SEROQUEL XR – quetiapine fumarate tab sr 24hr 150 mg	
SEROQUEL XR – quetiapine fumarate tab sr 24hr 200 mg	
SEROQUEL XR – quetiapine fumarate tab sr 24hr 300 mg	
SEROQUEL XR – quetiapine fumarate tab sr 24hr 400 mg

Pharmacy Reporting

PRIME THERAPEUTICS®

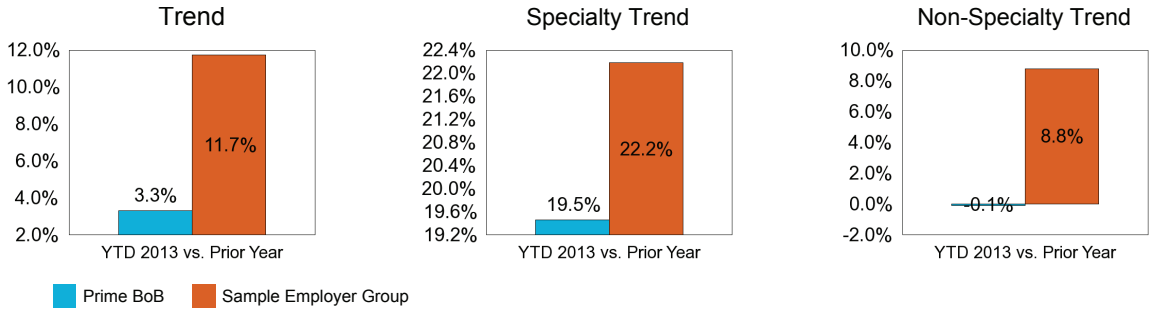
Sample Employer Group,
Group Review Trend Performance Suite

Year to Date through Quarter 4, 2013

Helping people get the medicine they need to feel better
and live well through smart pharmacy benefit management

Executive Summary

4.2%	5.8%	1.5%	11.7%
utilization	**inflation**	**mix**	**drug trend**
change in number of drugs used	change in unit cost of drugs	change in high cost verses low cost drugs	change in total cost per member, per month



At Prime, people are at the center of everything we do. We help keep medicine more affordable. We deliver superior experiences. And we leverage our unique connections to drive better outcomes and lower costs for everyone.

Key Performance Indicators

	YTD Q4, 13	YTD Q4, 12	Chg	Prime BoB	Prime % Chg
Average Members Per Month	7,072	7,277	-2.8%	--	--
Total Cost	$6,913,831	$6,366,520	8.6%	--	--
Plan Paid	$5,820,066	$5,256,428	10.7%	--	--
Member Paid	$1,093,766	$1,110,092	-1.5%	--	--

*Specialty metrics are derived from Prime's standard specialty drug management list

2.2%	11.9%	6.8%	22.2%
utilization	**inflation**	**mix**	**drug trend**
change in number of drugs used	change in unit cost of drugs	change in high cost verses low cost drugs	change in total cost per member, per month

Despite the small number of specialty drugs used, they will have a huge impact on total costs. Specialty drugs represent 0.61% of all prescriptions, but still account for 24.0% of total drug cost.

Key Performance Indicators

	YTD Q4, 13	YTD Q4, 12	Chg	Prime BoB

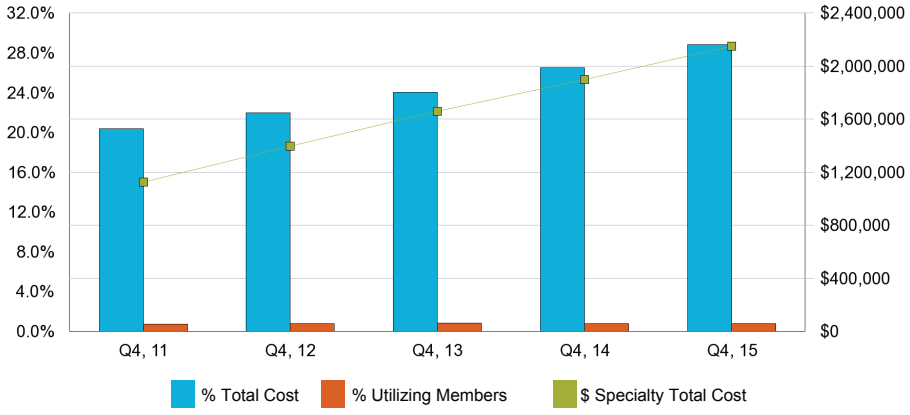
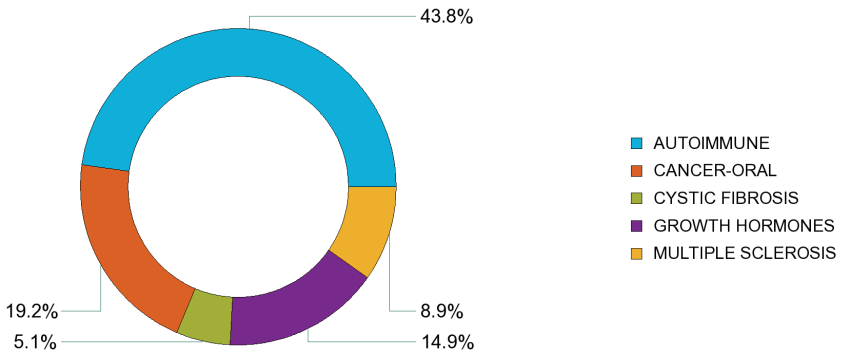
% Total Cost	24.0%	22.0%	2.1 pts	20.2%
Avg Ing Cost/Rx	$3,495.89	$2,924.15	19.6%	

Specialty Trend



Top Therapeutic Classes account for 91.8% of all Specialty Cost



Specialty costs are expected to push overall drug trend into double digits soon. As costly new drugs continue to emerge, we can help keep medicine affordable — for you and your members. Our national scale, experience and big-picture view will work for you to deliver superior service and lower costs.

Specialty Drug Utilization by Volume*

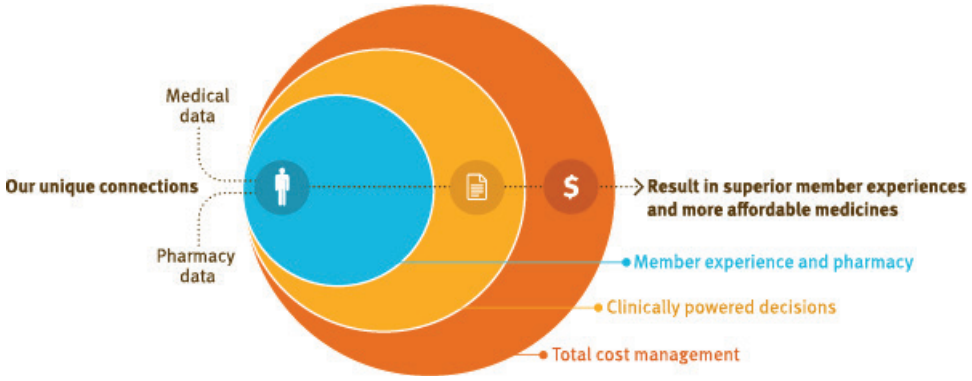
*Specialty metrics are derived from Prime's standard specialty drug management list

Prime Therapeutics Specialty Pharmacy™ (Prime Specialty Pharmacy) is a state-of-the-art, full-service pharmacy backed by major accreditation and more than 100 experts.

Prime Specialty Pharmacy

- Benefit design consultation
- Formulary options
- Utilization management options
- Member-centered support services
- Specialty drug pipeline analysis



Our in-house specialty pharmacy has everything you need to drive better outcomes, experiences and savings. People using Prime Specialty Pharmacy are shown to have higher adherence, which can lead to improved outcomes and fewer costly hospital stays. And they're supported 24/7/365 by nurses and pharmacists, so when questions arise, answers are always just a call away.

Prime serves 25 million members nationwide, and we handle over 200 million claims each year. Our size, market share and expertise result in market-leading generic rates, net-ingredient costs and drug trend. And that means sizable savings for you. Because of our unique ownership structure, we pass savings on to clients — not shareholders.

Thank you for choosing Prime. This report is part of our efforts to help you gauge the financial performance of your pharmacy benefit. We're dedicated to helping you clearly see the whole picture and drive down your total cost of care — so your employees can get the medicine they need to feel better and live well.

Pharmacy Management Continuum

Connected specialty drug management

With specialty costs projected to double in the next five years, proactively managing these expenses now is crucial. Our end-to-end specialty pharmacy, high-touch care management and suite of clinical solutions can help you lower the total cost of care while delivering superior member experiences.

Mail-delivery pharmacy services

Are you taking full advantage of mail-order pharmacy services savings? PrimeMail® offers sizable savings through bulk purchasing, elimination of dispensing fees and improved adherence. Plus, it provides added convenience and privacy for members.

Traditional drug management

They don't garner as much attention as specialty medicines, but traditional drugs account for 99 percent of claims. With a leading generic rate, a big-picture perspective and the expertise that comes along with serving more than 25 million members, we can help you streamline and save in this arena.

Utilization management (UM) programs

Our programs are built on the fact that members who adhere to their drug therapy are more likely to have better health outcomes and lower overall care costs. Through UM, we can help you manage your members' drug use patterns to help you achieve both of these goals.

Specialty Drug Listing

Blue Cross Blue Shield of North Dakota
Specialty Drug List

Specialty Drug – medications or drugs that are generally high cost and may have other considerations such as special drug administration, limited availability, unique delivery and dispensing or unique and/or required patient support or monitoring.

Use of some products identified by **[PA]** may be approved only after certain criteria are met. If prior approval is not obtained, benefits may be denied if criteria are not met. A physician (or clinic personnel) should submit a written request to the address shown below for prior approval consideration. **Both brand name drugs and generic equivalents require Prior Approval.**

Member Pre-Service Inquiry & Appeal Policy

Member Pre-Service Claim for Benefits Inquiry and Appeal Policy

The following is the BCBSND Member Pre-Service Inquiry and Appeal policy. The Inquiry and Appeal definitions are identified below. The Member can initiate an Inquiry or Appeal by contacting Member Services at the telephone number on the back of their ID card, by e-mail through the BCBSND website, or in writing to BCBSND Attn: Member Services Department, 4510 13th Ave S, Fargo, ND 58121.

Pre-Service Claim for Benefits Inquiry

A Pre-Service Claim for Benefits Inquiry is defined as a request, either verbal or written, that is conditioned on a Member obtaining approval in advance of obtaining the benefit or service.

There are two levels of Pre-Service inquiry:

- Pre-Service Claim for Benefits
- Emergency Claim for Benefits

A **Pre-Service** Claim for Benefits Inquiry will be responded to by BCBSND in writing within 15 calendar days.

An **Emergency** Claim for Benefits Inquiry is when the above timeframe for the Pre-Service Claim for Benefits Inquiry would seriously jeopardize the Member's life, health or ability to regain maximum function and will be responded to by verbal response from BCBSND within 72 hours, followed by written response within 3 calendar days. If the services in question meet the following definition of an Emergency Medical Condition, the Inquiry will be considered emergent. An Emergency Medical Condition is defined as:

- A medical condition of recent onset and severity, including severe pain, that would lead a prudent layperson acting reasonably and possessing an average knowledge of health and medicine to believe that the absence of immediate medical attention could reasonably be expected to result in serious impairment to bodily function, serious dysfunction of any bodily organ or part or would place the person's health, or with respect to a pregnant woman the health of the woman or her unborn child, in serious jeopardy.

The table below indicates the timeframes that apply to the Inquiries.

Type of Inquiry	Time Frame for BCBSND to respond
Pre-Service Claim for Benefits	15 calendar days
Emergency Claim for Benefits	72 hours

Pre-Service Claim for Benefits Appeal

A Pre-Service Claim for Benefits Appeal is defined as a Member expressing disagreement, either verbal or written, with a decision that was made on a request for services, drugs or supplies and requesting a change in that decision.

The table below indicates the timeframes that apply to the Appeals.

Type of Appeal	Time Frame for BCBSND to respond
Pre-Service Claim for Benefits *	Written response within 30 calendar days.
Emergency Claim for Benefits *	Verbal response within 72 hours, followed by written response within 3 calendar days.

*See definitions under Inquiry.

Appeal Policy

A Member may submit written comments, documents and records or other documents relating to the case to Appeal an Inquiry determination. This Appeal must be received within 180 calendar days from the date BCBSND notifies the Member of the Inquiry determination. The Member must specifically state the nature of the Appeal and include all supporting information and rationale for overturning the Inquiry determination. Any Appeal received after the 180 calendar days will be returned to the Member without review.

BCBSND will take all the information into account during the Appeal process without regard to whether the information was submitted or considered in the initial consideration of the case.

A BCBSND Medical Director/Medical Consultant who was not involved in the original Inquiry determination will review the Appeal. This individual will be board certified in the same or similar specialty as the provider who typically manages the medical condition appealed and is not the individual who made the original non-certification, or the subordinate of such an individual.

BCBSND will implement the decision of the Appeal if the initial denial is overturned and respond with a written notice of the final determination including an explanation of the reason for the determination within the time frames shown above. Emergent Pre-Service Appeal response will be via telephone and in writing.

Attachment 21

Attachment 21

Member Post-Service Review Inquiry and Appeal Policy

Member Post-Service Claim for Benefits Inquiry and Appeal Policy

The following is the BCBSND Member Post-Service Claim for Benefits Inquiry and Appeal Policy. The Inquiry and Appeal definitions are identified below. The Member can initiate an Inquiry or Appeal by contacting Member Services at the telephone number on the back of their ID card, by e-mail through the BCBSND website, or in writing to BCBSND, Attn: Member Services Department, 4510 13th Ave S, Fargo, ND 58121.

Post-Service Claim for Benefits Inquiry

A Post-Service Claim for Benefits Inquiry is defined as a request, either verbal or written, expressing disagreement with a claim that has been processed correctly according to the Member's Benefit Plan that is not conditioned on a Member obtaining approval in advance of obtaining the benefit or service. The Member is responsible for providing BCBSND with a Claim for Benefits within 18 months after the date the benefits or services offered under their Benefit Plan were incurred. BCBSND will respond within 30 calendar days upon receipt of all relevant information. Any Inquiry received after the 18 months will be returned to the Member without review.

The Inquiry determination will be provided in writing, by telephone or through the Member remittance. Post-Service Inquiries will include claim adjustments.

The table below indicates the timeframe that applies to the Inquiry.

Type of Inquiry	Time Frame for BCBSND to respond
Post-Service Claim for Benefits	30 calendar days

Post-Service Claim for Benefits Appeal

A Post-Service Claim for Benefits Appeal is defined as a statement, either verbal or written, expressing disagreement with a claim that has been processed correctly according to the Member's Benefit Plan that is not conditioned on a Member obtaining approval in advance of obtaining the benefit or service.

The table below indicates the timeframe that applies to the Appeal.

Type of Appeal	Time Frame for BCBSND to respond
Post-Service Claim for Benefits	Written response within 60 calendar days.

Appeal Policy

A Member may submit written comments, documents and records or other documents relating to the case to Appeal an Inquiry determination. This Appeal must be received within 180 calendar days from the date BCBSND notifies the Member of the Inquiry determination. The Member must specifically state the nature of the Appeal and include all supporting information and rationale for overturning the Inquiry determination. Any Appeal received after the 180 calendar days will be returned to the Member without review.

BCBSND will take all the information into account during the Appeal process without regard to whether the information was submitted or considered in the initial consideration of the case.

A BCBSND Medical Director/Medical Consultant who was not involved in the original Inquiry determination will review the Appeal. This individual will be board certified in the same or similar specialty as the provider who typically manages the medical condition appealed and is not the individual who made the original non-certification, or the subordinate of such an individual.

BCBSND will implement the decision of the Appeal if the initial denial is overturned and respond with a written notice of the final determination including an explanation of the reason for the determination within the time frames shown above.

SANFORD HEALTH PLAN

Questionnaire

Organizational Background, Strength, and Experience

1. **Provide a brief description of your organization, including your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).**

   In 1996, Sioux Valley Hospitals & Health System formulated a corporate response to the changing health care marketplace, the rapid growth in the number of managed care service organizations, and the need to meet the coverage requirements of Medicare-eligible persons residing with the organization's tri-state service area. A panel of health care professionals was thus assembled and charged with the responsibility of researching, designing, and developing the requisite infrastructure for an outcomes-based health maintenance organization that would be recognized in the local marketplace and associated with quality health care. The result was the formulation of Sioux Valley Health Plan.

   In March 2007, Sioux Valley Health Plan changed its name to Sanford Health Plan as a result of a generous gift of $400 Million to Sioux Valley Hospital & Health System from South Dakota businessman, Denny T. Sanford. Subsequently, the Sioux Valley Board of Trustees unanimously voted to re-name the healthcare system "Sanford Health" and Sioux Valley Health Plan was also renamed "Sanford Health Plan."

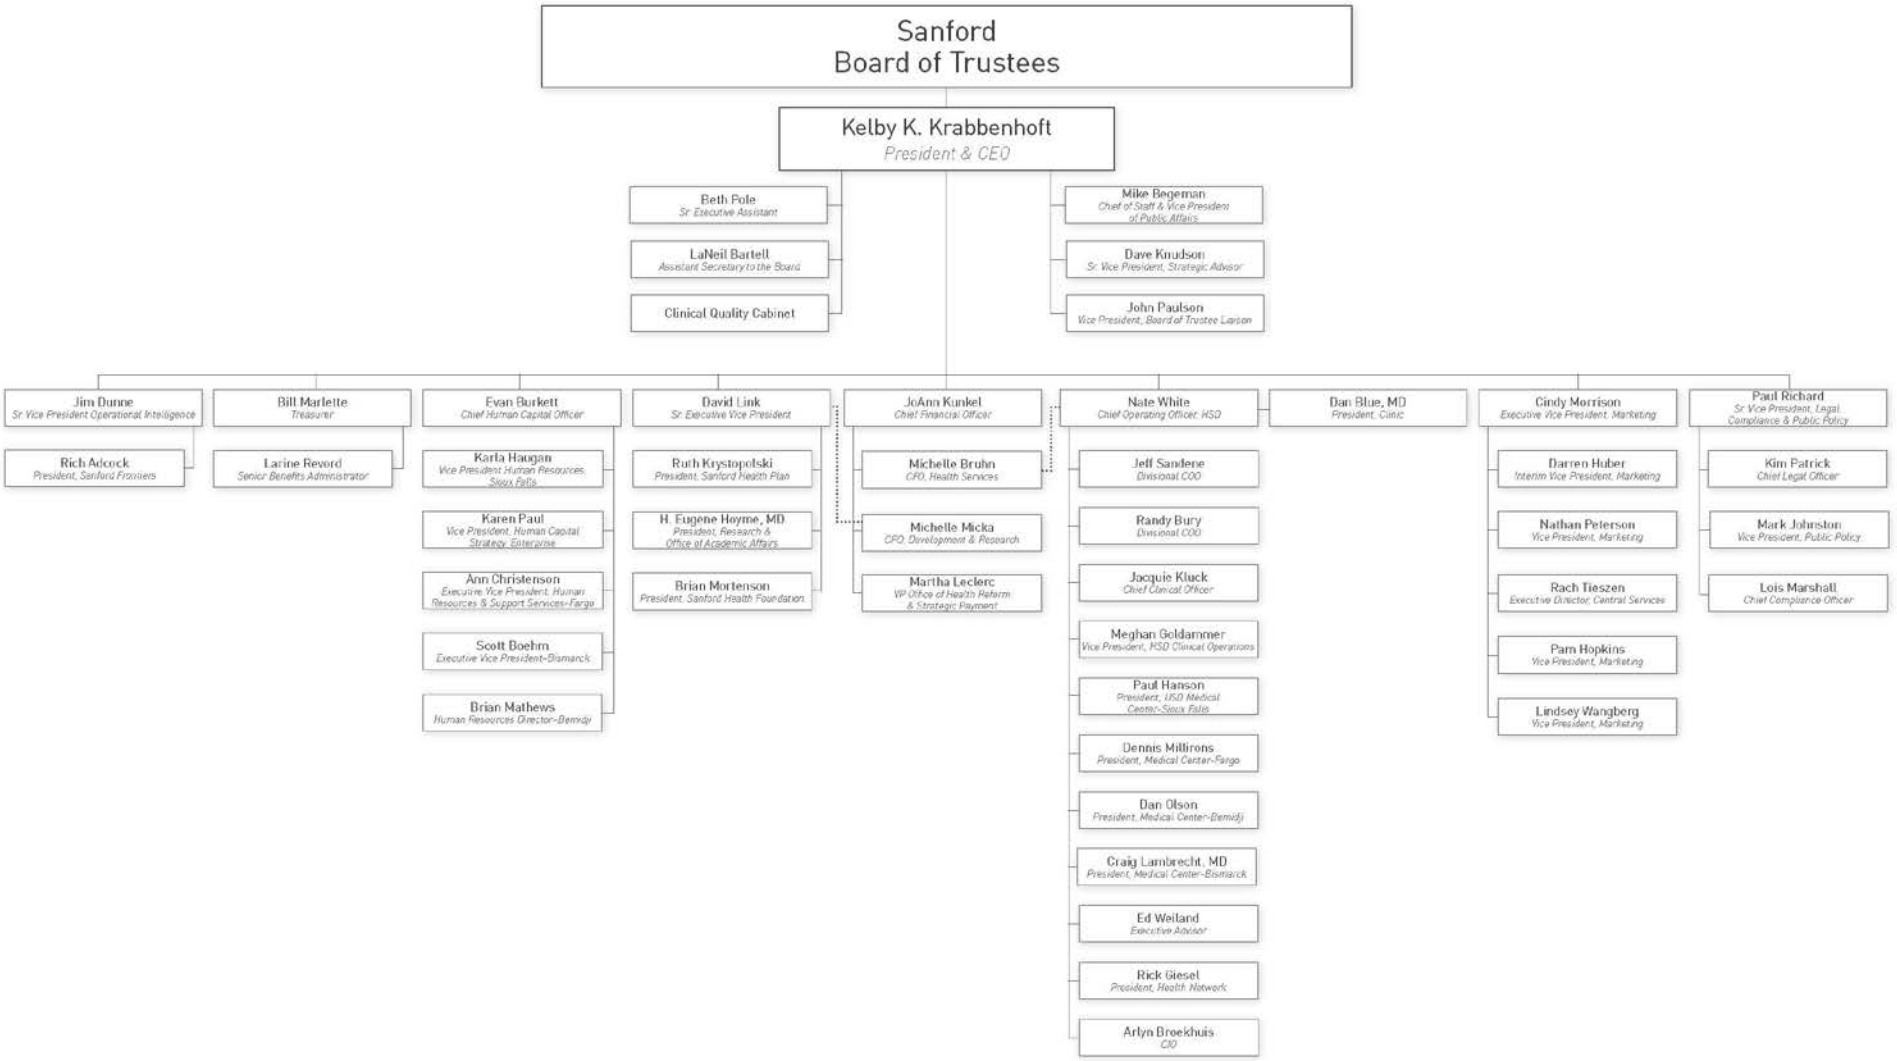
   Sanford Health Plan is a not-for-profit, community-based HMO that began operations in South Dakota on January 1, 1998. Managed care services are provided to large and small groups in South Dakota, North Dakota and Iowa by Sanford Health Plan and in Minnesota by Sanford Health Plan of Minnesota which is a subsidiary of Sanford Health Plan. Sanford Health Plan was designed to align physicians and hospitals, establish a framework for providers to efficiently manage the delivery of health care services, and operate on the strength of affordable premiums.

   Central to the design of Sanford Health Plan is a collaborative effort between Sanford Health, contracting providers, and member representatives of service area communities. Each of these elements offers unique perspectives, and acknowledgment that health care resources are finite. Accordingly, maintenance of the Plan's financial viability is based upon the application of sound, balanced, and efficient healthcare practices. Sanford Health Plan is authorized to offer three core products. These products are described as follows:

   1. Integrated Delivery Network (IDN) - A non-risk bearing product in which enrollees may access any network physician and receive the same level of benefit. Extensive care management services are available to enrollees.
   2. Point Of Service (POS) - A risk-bearing product in which enrollees choose at each medical encounter whether to seek care from in-network or out-of-network providers. Financial incentives are offered to enrollees selecting in-network providers through increased benefit levels.

3. Health Maintenance Organization (HMO) - A risk-bearing product that provides enrollees with benefits only when in-network providers are utilized. Extensive care management services are available to enrollees.

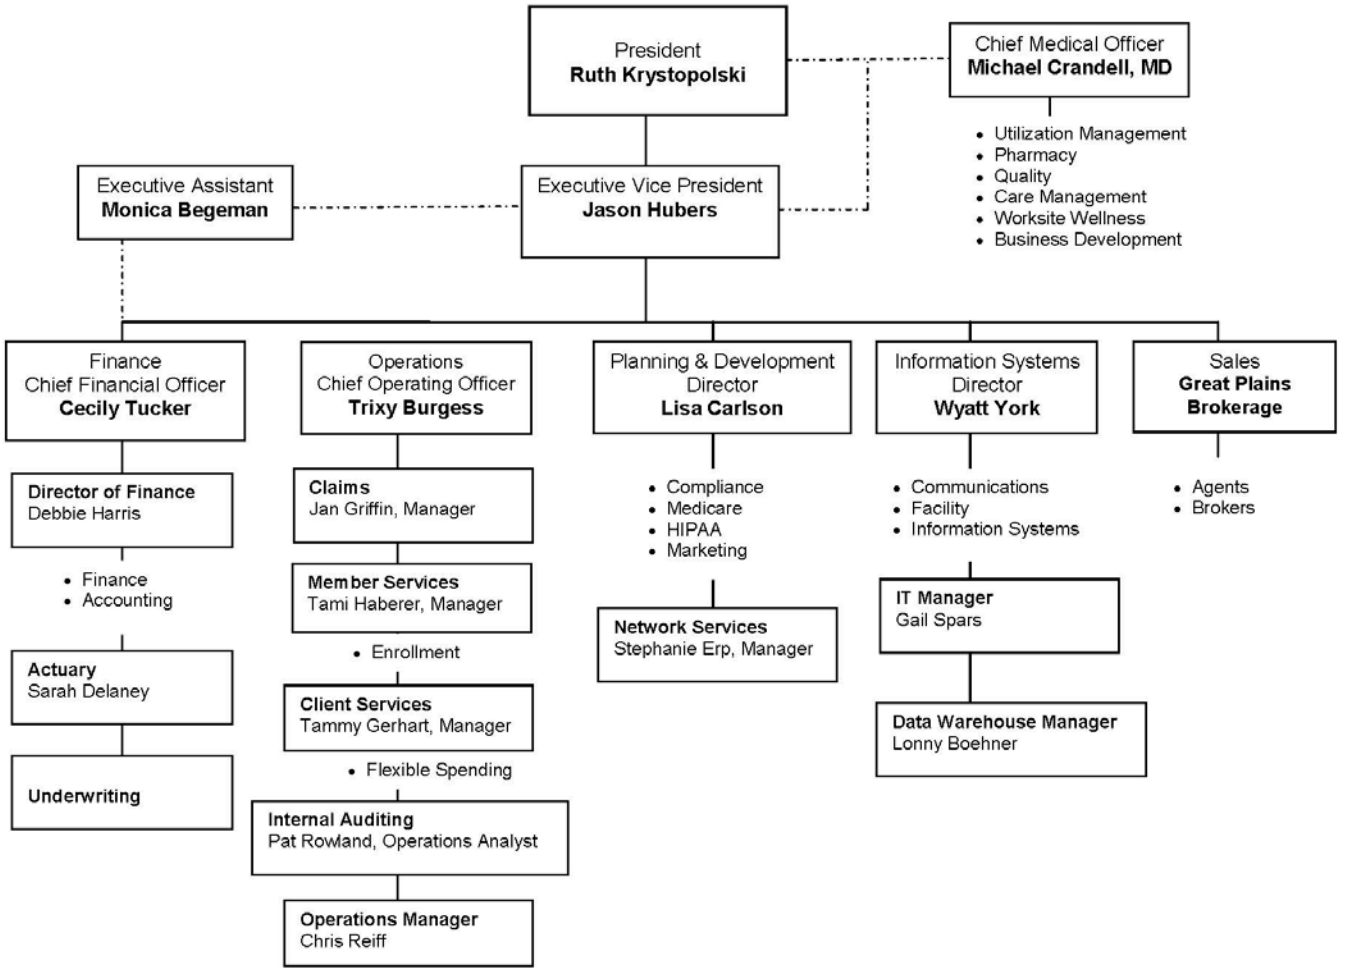
Sanford Health Plan was granted its Certificates of Authority in 1998 by South Dakota, Iowa and Minnesota and North Dakota in September 2009. All health plan operations occur at its corporate office in Sioux Falls, South Dakota. The next two organizational charts illustrate Sanford Health and Sanford Health Plan.



100-11000-0099 7/16/13

SANFORD HEALTH

Sanford Health Plan



02.2013

Sanford Health Plan offers the follow products:

- Third Party Administration (TPA) services since 1998
- Federal Employee Health Benefit Plan (FEHB) in South Dakota and Iowa since 2002
- Section 125 Plans since 2003
- Medicare Supplement Plans and Sanford SELECT Plans (distinguished by a limited network of hospital and ambulatory surgery centers in concert with competitive premiums) in South Dakota since 2003; Iowa and Minnesota since 2004; and North Dakota since 2010
- HSA-Qualified High Deductible Health Plans since January 2005
- Individual Plans marketed as Sanford "elite1" in South Dakota since 2008 and since 2010 in North Dakota
- Marketplace Insurance Exchange products since January 1, 2014 in Iowa, North Dakota and South Dakota.

Sanford Health Plan has no equity partners. No outstanding stock exists and no dividends are distributed. Premium revenue is utilized solely on behalf of Plan members according to Internal Revenue Service requirements. Additionally, Sanford Health Plan is the second largest carrier in the state of South Dakota.

2. Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.

First PREMIER Bank Address & Contact Information:

First PREMIER Bank
601 S Minnesota Avenue
PO Box 1348

Business: 605.357.3027

Auditor Address and Contact Information:

Deloitte & Touche LLP
50 South Sixth Street
Suite 2800
Minneapolis, MN 55402-1538

Additionally, please refer to the following attachments:

- Attachment A – Sanford Health Plan, Audited Financial Exam Report

Sanford Health Plan does not have a statement of creditworthiness.

3. **Provide a copy of any State or Federal regulatory audit performed within the last two years.**
   Please refer to the following attachments:
   - Attachment B – Sanford Health Plan, South Dakota DOI Exam Report

4. **Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the proposed sample contract/ASA.**

   Sanford Health Plan agrees to be accountable for all services as submitted as part of this proposal, even if not specifically addressed in the attached sample Administrative Service Agreement.

5. **Indicate whether your company has ever been or is currently a party to litigation regarding a medical benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.**

   Sanford Health Plan has been involved in only one legal action. Sanford Health Plan (formerly known as Sioux Valley Health Plan) was named as the Defendant in a Civil Action on April 29, 2004 for a South Dakota resident who was a health plan Member in an employee welfare benefit plan governed by ERISA. The Member elected COBRA, however, the initial premium was not paid within the 45 day grace period and the Member was consequently terminated. Claims incurred after the date of termination were denied. The 8th circuit court found in favor of Sioux Valley Health Plan.

6. **State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.**

   None of Sanford Health Plan's executive management as listed in Section 1 above has been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked.

7. **Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.**

   Sanford Health Plan is committed to adapt to the Accountable Care Act both in the immediate 12-24 months and in the long term over the next 3 to 5 years.

   Our membership goal is to attain an annual growth of 5% in overall membership

   Cost Containment continues to be at the forefront of all our strategic initiatives. We are committed to furthering the integration with the Sanford Health Services Division by leveraging opportunities to jointly share information and impact the health of our members who are patients. This will be accomplished by:

- Integration between care management and patient centered medical home teams;
- Integrating data from applications, health risk assessment and screenings with medical homes in the clinics;
- Alignment of disease management programs with medical homes; and
- Continued promotion of and integration with Occupational Medicine and wellness activities.

8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?

Sanford Health Plan is excited to have the opportunity to further our relationship with the state of North Dakota. We understand the challenges faced by our clients with regards to the cost of healthcare, utilization of service, and an understanding the value of preventive care benefits. As a part of a fully-integrated health delivery system who is also our largest self-funded client (Sanford Health), we are currently held to a level of complete accountability through provider network contracting arrangements and our health plan management.

Currently, 57% of our enrolled business exists in risk-based HMO products. This composition compels us to be diligent about cost savings, utilization, and population management versus traditional TPA services whose focus is to process claims with little to no accountability. As a result of our structure, Sanford Health Plan incorporates its population management techniques and focus on value of services delivered into the daily process provided to all our clients regardless of where risk resides.

We commit to complete transparency of data and full reporting capabilities as well as local decision-making authority and control. Our intent is to ensure that the state of North Dakota has the information that is needed to manage one of its' largest expenses. Our focus is always to be a partner in managing our client's health care dollars while continuing to raise the bar on overall quality of care. Presently, Sanford Health Plan's "Commendable" certification by the National Committee for Quality Assurance illustrates our commitment to quality care.

Sanford understands and commits to PERS a partnership that will accomplish the following goals:

1. Manage healthcare costs to maintain affordable premiums for you and your employees;
2. Provide full data transparency and analysis of utilization, quality of care, cost efficiency, and comparative provider cost and utilization data;
3. Develop and deliver information in formats that are useful in planning and decision making;
4. Educate and inform your employees to become engaged healthcare consumers
5. Prompt and accurate claims processing;
6. Identify and implement innovative programs to address costs and quality of care provided;
7. Superior customer service; and
8. Web-based tools that assist in eligibility, benefit experience review, and claims management services available to staff and employees.

In addition, Sanford would like to take this opportunity to communicate additional services we are able to offer. Sanford, in the entirety of the Health System, extends the invitation to create a partnership that will result in greater hands-on care for your employees, while at the same time increasing your cost savings for services at the Sanford provider level. Our goal would be to develop a medical home shared risk structure for the Bismarck and Fargo marketplace that would be identified and agreed upon by July 1, 2015. Additionally, we would contract for services that PERS would desire to have outside of the risk arrangement.

We currently envision this arrangement to come in the form of a fully-capitated or Episode of Care model. We would also like to jointly develop targets across disease states or processes that are important to the North Dakota population and are willing to accept an incentive based payment structure structured around these targets. Our goal would be to build a model, including all required infrastructure (reporting templates and contracting templates) in all of Sanford's applicable locations. For example, our combined relationships in North Dakota communities would allow our potential partnership to expand geographically and provide mutually beneficial results as we define and work towards common goals.

Our current payment system is extremely flexible and we are able to run multiple fee schedules for different product lines simultaneously. These fee schedules can also tie reimbursement models to quality/protocol targets as well. Additionally, we can build withholds or risk based payments based on specific criteria and apply to different payment methodologies. We welcome the opportunity to work with the State on this innovative and progressive partnership model.

Sanford Health Plan commits to an arrangement to help your organization meet its objectives with regards to quality healthcare and cost containment. Our goal will be to provide expert services that enable the PERS to focus on the overall improvement of the health of your employee population and strategic business planning and development.

9. Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.

Quality Customer Service

Sanford Health Plan ensures quality customer service by tracking member-to-staff ratios, call logs, and quality measures. The Claims department and Member Services department are physically located within close proximity to each other to facilitate efficient workflow and communication to address and resolve questions as quickly as possible. All Member Service and Claims representatives rely on the same claims payment system to view benefits. Representatives can also simultaneously view the member's online myHealthPlan account information to address and discuss exactly what the member is seeing online.

Sanford Health Plan evaluates phone call statistics and staffing needs for the Member Services Department to ensure members have timely access to customer service.

All claims and customer service calls are received at a central location conducive to open, inter-department communications in order to resolve inquiries in a timely manner.

Call centers are not outsourced to external (or international) companies not familiar with health plan operations and the details of plan design and claims payment processes.

Additionally, all calls are always answered by a live person during normal business hours. Calls are not sent to voicemail if the call queue is busy, nor do callers ever receive a busy signal. Callers are not required to dial in their member ID numbers or any other information prior to a call being answered; all member information is collected by the receiving Member Service representative to create a personal and courteous experience.

Performance Standards

All Member Service phone calls and emails are logged and recorded. Call center statistics show number of calls answered, calls made, voicemails and abandoned calls. It also shows the answer speed of calls and the rate of abandonment and voicemails. Call answer timeliness is the percentage of calls received by the Plan's member services call center (during operating hours) that were answered by a live voice within 30 seconds.

The call abandonment rate is the percentage of calls received by the Plan's member service call center that were abandoned by the caller before being answered by a live voice. These statistics are measured monthly and used by the Quality Committee on a quarterly basis to determine opportunities for improvement.

Finally, Sanford Health Plan conducts annual consumer satisfaction surveys rating the health plan on customer service and claims processing.

Additionally, performance guarantees are tied to ensure Average Speed of Answer will be 30 seconds or less and the abandoned rate will be 5% or less.

Below is a list of Sanford Health Plan vendors and contractors.

Vendors	Service/Activity Provided	Location	Length of Relationship
AAA Collections	Collections Agency	Sioux Falls, SD	12 years

Additionally, Sanford Health Plan contracts with the following Network Repricing vendors to ensure adequate access and availability for our Membership nationwide.

SANFORD HEALTH PLAN

10. What ratings have you received from the following third party rating companies and organizations?

Sanford Health Plan is a wholly owned subsidiary of Sanford Health, an integrated healthcare delivery system with $2.3 billion in operating revenue for 2011. Sanford Health has an A1 Moody's bond rating and AA- Standard & Poors rating.

Rating Organization	Rating	Date of Last Accreditation / Rating
A.M. Best	NA	
Standard & Poor's	NA	
Moody's	NA	
NCQA (by product)	HMO - Commendable	11/15/16
JCAHO	NA	
URAC	NA	
American HealthCare Commission	NA	

11. What fidelity and surety insurance or bond coverage do you carry to protect your clients? Specifically describe the type and amount of the fidelity bond insuring your employees that would protect this plan in the event of a loss. Do you agree to furnish a copy of all such policies for review by legal counsel if requested?

Sanford Health Plan maintains a Fiduciary Liability Insurance with an aggregate limit of $15M and a $50,000 Deductible and a Managed Care Errors & Omissions Policy with a $5M aggregate limit and a $100,000 per claim limit. We wil furnish copies of these policies upon request.

12. Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.

All business is conducted inside the United States.

13. Confirm that your proposal includes any and all deviations to the sample ASA (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).

Please refer to Exhibits F1, F2 and F3 under separate cover with this proposal.

SANFORD HEALTH PLAN

14. Confirm that you will to the best of your ability conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with.

Sanford Health Plan currently coordinates regulatory compliance not only federally but within the four state areas of Iowa, Minnesota, North Dakota and South Dakota. Regulatory monitoring and compliance at the health plan is coordinated by the Director of Planning & Regulation, the Associate Actuary and two Policy Analysts. Additionally the health plan tracks legislation at the federal level jointly with the health system's Office of Public Policy which includes the Vice President of Health Policy and three Policy Analysts. Sanford Health Plan is a member of AHIP, the Minnesota Council of Health Plans, and the Iowa Federation of Insurers.

Sanford Health Plan successfully transitioned non-group and fully insured small-group plans (except grandfathered plans) to ACA-compliant plans inclusive of the required essential health benefits (EHB) package.

Sanford Health Plan also allowed members and group clients to renew existing individual market and small group market plans even if they do not include the full menu of required health care reform benefits pursuant to the Department of Health and Human Services (DHHS) "Transitional Policy."

Under the transition policy, Sanford Health Plan chose to extend individual market and small group market policies that were in effect on October 1, 2013 without amending the policies to meet all ACA standards. The transition policy does not apply to individuals or small businesses that obtain new coverage after October 1, 2013. The transition policy applies to renewals of existing business occurring from January 1, 2014 until October 1, 2014. HHS indicated that it will re-evaluate this policy in 2014 and could extend it to additional renewal months.

As required, Sanford Health Plan provided notification to its enrollees the following:

- The options available to them;
- Which of the specified ACA market reforms would not be reflected in any coverage that continues;
- Their potential right to enroll in a qualified health plan offered through a Health Insurance Marketplace and possibly qualify for financial assistance;
- How to access such coverage through a Marketplace; and
- Their right to enroll in health insurance coverage outside of a Marketplace that complies with the specified market reforms.

Sanford Health Plan continues to track which policies are:

- Transitional policies (but not technically grandfathered);
- Grandfathered policies; and
- Non-Grandfathered policies.

As well as tracking policies that comply with certain ACA market reforms, including:

- The requirement to limit premium variations to age, tobacco use and geography
- Essential health benefits
- Actuarial value metal levels
- Restrictions on cost sharing
- Guaranteed availability of coverage
- Guaranteed renewability of coverage
- Non-discrimination against a provider operating within their scope of practice
- Non-discrimination in coverage for individuals participating in approved clinical trials
- Prohibition of pre-existing condition exclusions or waiting periods for adults (exclusion would not apply to small group)
- Prohibition on health status discrimination (exclusion would not apply to small group)

Through our flexible claims administration system we are able to administer the tiered benefits that have been complicated by the ACA.

Sanford Health Plan is committed to aid the state in finding balance to both strategic and financial factors when making decisions about offering coverage to their employees in the months and years to come in the post-reform market. Sanford Health Plan will guide NDPERS to implement additional provisions as required under the ACA including the following provisions that will affect NDPERS during the next biennium:

- Additional preventive care services with an “A” or “B” rating by the U.S. Preventive Services Task Force (USPSTF) including screening tests, counseling, immunizations, and preventive medications.
- Transitional Reinsurance Assessments 2014 – 2016
- Medical Loss Ratio Rebates
- Health Insurance Provider Fee
- Changes in essential health benefits or state mandates
- Tracking grandfathered status
- Non-Discrimination 105(h) Rules
- Employer Shared Responsibility Mandate and related information reporting requirements under IRC section 6056
- Patient-Centered Outcomes Research Institute Fee
- High Cost Insurance Excise Tax (2018)

References and Experience

15. **Provide the following information on a maximum of three (3) of your largest medical plan clients for whom you provide medical network, insurance, and administrative services. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client.**

    a. **Name of employer sponsoring plan and location**
    b. **Type of services provided to plan sponsor**
    c. **Plan inception date**
    d. **Length of time as client**
    e. **Number of contracts and members participating in the plan**
    f. **Contact information (name, title, phone number, email address)**

    Other than our own self-funded organization of Sanford Health (with 34,198 members), we do not have a similarly sized client to PERS to use for reference. Please accept the following references below:

    ND Department of Human Services
    Medicaid Expansion Program
    Effective: January 1, 2014
    Client for 8 months
    12,716 contracts / total members 12,716
    Maggie Anderson, Executive Director, (701) 328-2538 / manderson@nd.gov

    Joint Venture Group – South Dakota Schools Group Insurance Pool
    Fully insured client with Worksite Wellness
    Effective: July 1, 2000
    An average of 60 schools participating for 12 years
    2417 Contracts / 4011 Members
    Dean Christensen / (605) 874-2161 Ext. 204) / dean.christensen@k12.sd.us

16. **Provide the following information for two (2) of your largest medical plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.**

    a. **Name of employer sponsoring plan and location**
    b. **Type of services provided to plan sponsor**
    c. **Plan inception date**
    d. **Length of time as client**
    e. **Number of contracts and members participating in the plan**
    f. **Reason for termination**
    g. **Contact information (name, title, phone number, email address)**

    Please note that we have not had any of our large groups similar to the size of NDPERS terminate. We respectfully submit the following terminated references:

    Huron Regional Medical Center
    Fully insured client
    Effective: 01/01/07
    Participating for 5 years
    208 contracts / 429 members
    Terminated due to rates
    Rhonda Hanson, HR Director / (605) 353-6200 / rhanson@huronregional.org

Effective 01/01/2005 to 12/31/2008 – 4 years with SHP
Termination reason: Moved to Medica due to rates
Subscribers 303 / members 629

Implementation and Account Management

17. **Proposers must outline in detail the specific activities and tasks necessary to implement the NDPERS program. Be specific with regard to the following:**
    - **Amount of total time needed to effectively implement the program**
    - **Activities/tasks and corresponding timing**
    - **Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff**
    - **Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change**
    - **Length of time implementation team lead and members will be available to NDPERS**

    As a new carrier, Sanford Health Plan would need to begin implementation immediately after vendor selection. We would expect to hire new, Fargo-based staff that physically reside and work in at least the Fargo and Bismarck regions to start. Ideally Sanford Health Plan would prefer nine (9) months implementation time from Oct. 1st through June 30th.

    An account the size of the NDPERS will require dedicated resources throughout the implementation period. Therefore, we will provide the state with a number of dedicated resources from our Management Team. Upon the award of the contract, Sanford Health Plan will immediately hire a dedicated Director for NDPERS who will work closely with the management team to identify distinct responsibilities and ensure efficient task coordination and a common understanding of NDPERS-specific needs and objectives.

    Hiring and Training of Dedicated Staff

    In addition to our dedicated NDPERS Director, we will hire department staff to build Member Services, Claims, and Management, Utilization Management, Network Services, Finance and Client Services staff dedicated solely to service the NDPERS account and membership. Some of these staff will be co-located with existing staff already serving the Sanford Health Commercial product lines. This co-location will enable us to utilize the experience of the staff to provide comprehensive, program-specific training for NDPERS staff as well as opportunities to foster a culture of collaboration.

    Claims and Member Service

    After identifying the main contacts of these departments, we will review the NDPERS Program with all staff including claims configuration and processing requirements, certification of benefits rules, and performance standards.

    Telecommunications

    The NDPERS Director will work with the appropriate departments to design phone prompting and intake scripting/greeting language, with approval by NDPERS. We plan to activate our toll-free NDPERS Program number so it is available to answer calls during the NDPERS open enrollment period.

SANFORD HEALTH PLAN

Network Development

Once it is confirmed that Sanford Health Plan is the selected carrier, create a customized network development plan for the Program based on our current understanding of the NDPERS program needs which will include amend our current provider contracts to ensure NDPERS specific discounts on top of our current provider discounts. As part of this plan, we will target the Program's high-volume clinicians and facilities prior to implementation. In addition to high-volume clinicians and facilities, we will pursue additional clinicians and facilities in limited access areas as identified in the GeoAccess report included in our proposal. With the NDPERS approval, we will distribute a letter of invitation. During the January and February months of 2015, we will accept applications, perform credentialing, and follow up with non-responders. Throughout the transition period, we will recruit willing providers who are currently treating members to ensure continuity of care.

Training for Network Providers

Sanford Health Plan will provide a NDPERS-specific training program for our clinicians and facilities serving the Program. This training program will include an overview of the benefits (e.g., copayments and deductibles); information about our online provider services; an overview of our UM protocols; and coordinated communications and training with medical network management to optimize medical-behavioral synergies.

Eligibility

With the help of the NDPERS, we will determine eligibility requirements for Program members. We will agree upon an eligibility file format, and provide test data until all formatting issues are resolved. We will then receive and upload the full production file, including COBRA eligibility, to our claims administration system.

Reporting

We will design a reporting grid and submit it to the NDPERS for approval. We will develop reporting protocols regarding frequency and delivery and confirm all ad hoc reporting requirements for the Program.

External Vendor Interface

Our Management Team will determine external vendors' needs and interface requirements, and provide training, as needed. In addition, as part of our any wellness programs and disease management programs we will establish pharmacy and medical data feeds to identify opportunities for outreach and determine effective intervention strategies.

Communications

We will develop an initial and ongoing communications strategy with feedback from NDPERS. We will design materials and distribute approved materials as agreed. The Client Services Team will develop an orientation presentation for NDPERS Program members, conduct orientations on benefits, and attend NDPERS Health Fairs and open enrollment meetings that are conducive to NDPERS timelines.

Customized Web Site

Our information technology department will determine the internal and external links required, and the flexibility to customize the site for NDPERS members, and activate the site with NDPERS approval. The site will include NDPERS member-specific information when members log into their myHealthPlan Account in addition to NDPERS-specific online provider directory.

Performance Guarantees

Our Account Team will finalize the performance guarantee grid and explain penalty distributions and payment procedures in a communication to all areas including client reporting. We will have distributed the final information to our departments by December 31, 2014.

Date	Task	Responsibility
Oct. 2014	Award Notification	NDPERS
October 2014	Sign Administrative Services Agreement between Sanford Health Plan and NDPERS	NDPERS and Sanford Health Plan
Nov. 2014	Begin implementation and operations • Amending Provider Agreements for NDPERS-specific discounts • Develop Summaries of Benefits and Evidence of Coverage (Member Policy) • Develop NDPERS-specific forms and documents (ID cards, applications, provider manual, policies and procedures) • Begin system configuration of benefits, claim edits and rules	Sanford Health Plan
Jan. 2015	Develop Marketing and Communication Plan	
April 2015	Begin Open enrollment meetings and health fairs	
May 2015	Procedure for employee enrollment transaction determined. This could include electronic file transfer, paper enrollment or electronic enrollment via Sanford Health Plan's enrollment system, *myHealthPlan* Employer Portal.	NDPERS & Sanford Health Plan
30 days prior to effective date	Applications processed and Identification Cards are printed and mailed to member's home address.	Sanford Health Plan

18. Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.

a. The key individual representing your company during the proposal process;
b. The key individuals on your proposed implementation team;
c. The key individual assigned to overall contract management;
d. The key dedicated individual or team members responsible for day-to-day account management and service;
e. The key individual responsible for provider contracting; and

f. The key individual responsible for provider relations if different than letter e. above.

Dedicated Implementation Team

A dedicated NDPERS Program Director will be assigned to manage the program implementation and channel all client inquiries to Sanford Health Plan. The NDPERS Director will be the key individual assigned for overall contract management. The following grid outlines the daily operations team assigned through the implementation process. The below list of management currently performs similar services for all of Sanford Health Plan's insured and self-funded business.

Name	Title	Years with Sanford Health Plan	Major Responsibility
Jason Hubers	Executive Vice President	15 years	Oversight of daily operations, performance, sales and strategic planning.
Cecily Tucker	Chief Financial Officer	15 years	Financial Oversight, Stretegic Planning & Underwriting
Michael Crandell, MD	Chief Medical Officer	7 years	Oversight of Care Management, Utilization Management & Worksite Wellness
Trixy Burgess	Chief Operating Officer	12 years	Oversight of Claims, Member Services, Client Services & Audit
Debbie Harris	Finance Director	7 years	Department Oversight
Sarah Delaney	Associate Actuary	6 years	Rate Development, Data analysis
Wyatt York	Information Technology Director	16 years	Department Oversight
Lisa Carlson	Director, Planning & Regulation	13 years	Oversight of State filings, marketing, legislative & legal review, Provider & Payor Relations Department.
Unassigned	NDPERS Director	-	Oversight of daily NDPERS operations
Jan Griffin	Claims Manager	16 years	Department Oversight
Tami Haberer	Member Services Manager	16 years	Department Oversight
Tammy Gerhart	Client Services Manager	9 years	Department Oversight including Flex Department
Steph Erp	Network Service Manager	13 years	Department Oversight
Barbara Vandonslear, RN	Care Management Manager	8 years	Department Oversight

SANFORD HEALTH PLAN

For day-to-day management, a dedicated NDPERS Supervisor will be hired and assigned to each operational department. This supervisor will be solely responsible for the NDPERS operations but will have dual reporting to the NDPERS Director and to their respective department managers within Sanford Health Plan. The following are the staffing statistics Sanford Health Plan proposes for the Program's dedicated department. We modeled our staffing projections using anticipated volume based on the NDPERS member population coupled with Sanford Health Plan's membership to staffing ratios. We have found this method to be an accurate predictor of staffing needs. Additionally, our telephone system automatically monitors call volume, allowing us to recursively refine our model and adjust staffing levels as needed.

Position	# proposed
ND PERS Director	1
Clerical Support	3
Operational Auditors	2
Care Management Department	
Care Management Supervisor	1
Nurse Case Managers	6
Quality Specialists	6
Worksite Wellness Department	
Wellness Supervisor	1
Wellness Educators	7
Client Services Department	
Client Services Supervisor	1
Account Representatives	2
Communications Coordinator	1
Marketing Specialist	2

SANFORD HEALTH PLAN

Communications and Website

20. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	myHealthPlan brochure – explaining how to create your personalized account and take advantage of online services	☑ Yes ☐ No
Employee Newsletter(s)	Sanford Health Plan can customize its current Member Messenger newsletter to communicate NDPERS-specific news, benefit changes, wellness initiatives, regulatory changes or NPERS program changes.	☑ Yes ☐ No
Brochures	Sanford Health Plan can customize its current brochures to communicate NDPERS-specific news, benefit changes, wellness initiatives, regulatory changes or NPERS program changes.	☑ Yes ☐ No
Direct mail (internal or home distribution)	Sanford Health Plan can create custom direct USPS mail or email blasts specific to a subdivision or employer unit.	☑ Yes ☐ No
Enrollment guide	Sanford Health Plan provides a comprehensive employee education package. This includes a summary of the group benefit package, pharmacy benefit information, provider network instructions and other information regarding coverage details.	☑ Yes ☐ No
Employee open enrollment meeting support and attendance	Sanford Health Plan facilitates on-site employee meetings as needed to educate employees on the benefits offered. Sanford Health Plan strives to promote open enrollment meetings by creating a fun and interactive environment with popcorn, trinkets available for give-away, and representatives available to answer questions or give formal presentations, at the client's request.	☑ Yes ☐ No
Benefits/HR staff training support	Sanford Health Plan provides a comprehensive employer education package. This includes a summary of the group benefit package, pharmacy benefit information, provider network instructions and other information regarding coverage details.	☑ Yes ☐ No

	Sanford Health Plan is also available throughout the year to assist in new employee orientation meetings, as requested by the client.	
Video	Sanford Health Plan can create custom online tutorials or coordinate video-conferences for remote open enrollment meetings.	☑ Yes ☐ No
Employee healthcare cost calculator worksheets (cost estimates)	Sanford Health Plan can provide an employee healthcare cost estimator.	☑ Yes ☐ No
Other (please list)		☐ Yes ☐ No

21. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

Yes, Sanford Health Plan is committed to provide communication and marketing pieces in collaboration with NDPERS for NDPERS-specific member communication materials.

We will ensure the human and financial resources are available to build a full spectrum marketing and awareness campaign that will include identifying core principles, logo and image recognition, taglines, imagery and identification system. Sanford Health Plan has the following marketing team to offer:

- Brand Manager;
- Marketing Specialist;
- Sales and Advertising Coordinator;
- Print and Document Coordinator; and a
- Digital Web Team.

Additionally, a dedicated NDPERS Communications Coordinator and two Marketing Specialists will be hired to facilitate the marketing and communications for NDPERS.

22. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

Sanford Health Plan is capable of printing ID cards for all Members (not just subscribers) within 7 days of receiving a clean enrollment file. Ideally Sanford Health Plan would mail new ID cards by June 1, 2015, 30 days prior to the effective date.

SANFORD HEALTH PLAN

23. Describe your plan for the post-65 programs that you will offer to NDPERS retirees.

Sanford Health Plan is able to replicate the current Dakota Retiree Plan benefits that provide health care coverage as a secondary payer to Medicare similar to a NAIC Plan F. Each eligible retiree will be able enroll his/her eligible dependents as described in the current SPD.

SANFORD HEALTH PLAN

Plan Administration

24. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

Sanford Health Plan diligently monitors both state and federal legislative changes. The Plan's Director of Planning & Regulation, the Associate Actuary and two full-time Policy Analyst are active members and meeting participants in the following organizations:

- Member of Minnesota Council of Health Plans
- Member of Iowa Federation of Insurers
- Member of the AHIP; and
- AHIP State Strategy Team - The Health Plan's Director of Planning & Regulation is a member of the AHIP State Strategy Team for the Midwest region comprised of 11 states, including South Dakota, North Dakota, Minnesota, and Iowa as well as Arkansas, Colorado, Kansas, Missouri, Nebraska, New Mexico, and Oklahoma. The AHIP State Strategy team provides local level, member input and direction to the regional AHIP directors regarding advocacy efforts in the states in both the legislative and regulatory arenas.

Additionally, Sanford Health Plan collaborates with Sanford Health's Office of Public Policy and Office of Health Care Reform to monitor and provide strategic input to ensure the system is engaged and prepared to be an active participant in policy making discussions at both the state and federal level.

25. Describe your proposed transition of care plan. At a minimum, the transition plan must address:

a. Conditions or type of care that is typically transitioned;
b. Individuals who are in a course of treatment;
c. Transition process of current medical treatment;
d. Communication of transition issues to all plan members.

Sanford Health Plan will follow NDPERS's directive regarding the introduction of services to your employees. We will have a dedicated NDPERS member services staff, marketing and communication staff, and client services team who will travel to all locations and attend the meetings scheduled by NDPERS. We feel that it is important to provide personal service to your employees and to be present at the enrollment meetings to answer employee questions. Historically, we have furnished materials regarding network access, benefit schedules, pharmacy and formulary information to employees during open enrollment. Sanford Health Plan will supply as much communication material as you feel is necessary for your employees.

During this transition there may be an employee who has to change providers due to network restrictions. He/she will be required to complete a Transition of Care form in order to temporarily or permanently continue care. The form will be reviewed by Sanford Health Plan's Chief Medical Officer for appropriate access to care. Our goal would be to have all of these transitions identified and processed by June 1, 2015.

Sanford Health Plan recognizes the influence of the patient-physician relationship and is committed to positively impacting healthcare services through appropriate and effective

resources. Optimal health is sought by customizing and coordinating the resources we have with the needs of the individual.

NDPERS individuals who are seeking regular care with a provider of service outside of the Sanford Health Plan network (or other approved network) will only be transitioned to an In-Network Provider when appropriate to do so. An example of transition: If care can be provided closer to the patient's home and/or with an In-Network Provider, the Plan will set up a transition of care schedule with the patient to develop a relationship with a new provider of service perhaps allowing the member to have one or two follow-up visits with their current provider in order to make the transition a seamless process.

When a Transition of Care form is received by Sanford Health Plan, the letter is logged and forwarded the Utilization Management Department. A determination is made by the Chief Medical Officer as to whether the Transition of Care form was submitted due to medical necessity, provider access or if not applicable.

1. Not Applicable (N/A) – If the issue was not applicable to a Transition of Care, Member Services will clarify with the member.

2. Medical Necessity – If the Chief Medical Officer determines the Transition of Care Form to be due to medical necessity, he will make an approval or denial decision and the following will take place:

    a) Consideration for continuation of care due to medical necessity include the following criteria:
        - Member is in their 2nd or 3rd trimester of their pregnancy;
        - Member is receiving cancer treatment;
        - Member is receiving transplant services;
        - Member is receiving services where it would be deemed harmful to transition at this point of treatment;
        - Member is undergoing active treatment for a disabling, chronic or acute medical condition;
        - Member has a life threatening mental or physical illness; or
        - Member has a physical or mental disability defined as an inability to engage in one or more major life activities, provided the disability has lasted or can be expected to last for at least one year, or can be expected to result in death.

    b) The Chief Medical Officer will send a personalized letter stating the approval or denial. It is the discretion of the Chief Medical Officer as to the number of Out-of-Network visits to approve for patients in the transition of care phase. Members who may see an Out-of-Network provider for annual exams (i.e., follow-up after surgical procedure or remission of cancer) may be allowed to have one transition follow-up appointment but must be prior authorized by the Chief Medical Officer. If a member is allowed to go for an Out-of-Network visit, the Health Plan has the right to request specific testing or treatments be done at the In-Network level. The results can then be reviewed by the former provider as a consultation visit only. The designated person from Utilization

Management will complete this letter, make copies of the Transition of Care Form and distribute accordingly.

c) The original letter, along with a copy of the Transition of Care Form will be sent directly to the member.
d) A copy of the letter and the original Transition of Care Form will be given to Utilization Management for authorization and recording in the claims management system. Once completed, these copies will be filed in the member's folder. Utilization Management will also send a letter of authorization to the member.
e) If the Transition of Care Form involves an organ transplant, a copy of the Transition of Care Form is also given to the Transplant Coordinator.

3. Provider Access – If the Transition of Care form was received due to a network access issue, then the form is reviewed by the Provider & Payor Relations Department.
   a) If Provider & Payor Relations determines that there is not appropriate access for this service, then Provider & Payor Relations will send an approval letter to the member.
   b) If Provider & Payor Relations determines that there is appropriate access for this service, then Provider & Payor Relations will send a letter to the member denying the transition request.

   A copy of the letter and Transition of Care Form is saved in the claims system and a copy is given to the designated person in the Utilization Management Department to be filed in the member's file.

26. What is your total commercial and Medicare health plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2010	33,431	2,666
As of January 2011	33,571	2,481
As of January 2012	37,704	2,599

SANFORD HEALTH PLAN

Eligibility and Billing

27. Are ID cards the sole means of determining member eligibility? If not, please describe.

No, ID cards are not the sole means of determining eligibility. Members, Providers and Clients can log into their respective online account portal, myHealthPlan, to view a Member's eligibility status.

28. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

Yes, Sanford Health Plan offers the ability to perform enrollment transactions online. This secure online enrollment portal, entitled Empowered Benefits, provides the employer with instant access to their employee information and allows management of their enrollment by offering the ability to add, making changes or terminate employees online.

There are not separate charges for access to and use of the online tool.

The online enrollment tool is accessed through the employer's myHealthPlan account, which is offered to each employer, regardless of size, and enables the employer to access various information, including the ability to:

- View member eligibility, as well as benefit summaries for the member
- Order Replacement ID Cards
- View Preventive Health Guidelines
- Print Provider Nomination Request Forms, and
- Print medical and flex claim forms, if applicable

29. NDPERS will submit enrollment, billing and premium remittance via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Premium payment information will be provided on a data file that follows the HIPAA 820 file specifications. Files will be transmitted using a secure file transmission process. Please confirm that you can receive this data in that format and media. Please confirm your ability to conform to this process and identify any potential issues.

Sanford Health Plan is able to receive enrollment, billing and premium remittance in that meet these file specifications.

30. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

Enrollment

Sanford Health Plan accepts enrollment applications and eligibility files both electronically or hard copy. Manual updates are processed within 2 business days.

Full audit procedures are in place to assure that Membership information is timely, complete and accurate. Routine audit checks are conducted by Member Services Representatives of all newly processed enrollment applications. The enrollment applications are reviewed against the required enrollment fields in the Xcelys Claims Information System.

The following eligibility checks are conducted with processing applications: waiting period verification, effective date, dependent eligibility criteria and dependent age criteria, are all verified before applications are processed.

We conduct the following edit checks when processing application and enrollment changes: name, identification number (duplicate member), date of birth, sex, group number, date of hire, effective date, address, relationship to subscriber, dependent age, student verification, prior coverage verification, other coverage verification.

If no errors are identified, the Representative signs off on the auditing checklist. An enrollment audit log is maintained in order to identify any processing issues. The Audit Log provides documentation of the number of applications that are audited each month and the number and type of errors that are identified through the audit process. This audit log is reviewed by the Enrollment Coordinator to assure that the accuracy of Membership processing is consistent and that the audit process is conducted on an ongoing basis.

Eligibility Changes
Eligibility changes (electronic or paper) are manually processed within 2 business days. All change requests are reviewed for appropriateness of effective date and eligibility requirements before processing. The system allows all necessary coordination of benefits (COB) information to be recorded on an individual member basis. The other coverage carrier, type of carrier, effective date, policy number termination date, termination reason, entitlement (for Medicare), and COB order is stored for each Member with other coverage. Student status is verified for all dependents and maintained in a specified “dependent verification” field with a “verified through date” which is updated bi-annually or on an as needed basis. Sanford Health Plan works with the sponsoring group to establish appropriate eligibility standards meeting governmental and employer requirements.

Customer/Member Service

31. **Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. This unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. Describe the structure and organization and provide an organizational chart of the unit you are proposing.**

    As described in Section 18 of this RFP, Sanford Health Plan will provide a dedicated Member Services Department comprised of the Member Services Supervisor, 16 Member Services Representatives, one of which is the Team Leader. A dedicated toll-free and local phone number shall also be established along with mutually agreed upon hours of operation.

    The Claims department and Member Services department are physically located within close proximity to each other to facilitate efficient workflow and communication to address and resolve questions as quickly as possible. Sanford Health Plan evaluates phone call statistics and staffing needs for the Member Services Department to ensure members have timely access to customer service.

    All Member Service and Claims representatives rely on the claims payment system to view benefits. Representatives can also simultaneously view the member's online myHealthPlan account information to address and discuss exactly what the member is seeing online.

    All claims and customer service calls are received at a central location conducive to open, inter-department communications in order to resolve inquiries in a timely manner. Call centers are not outsourced to external (or international) companies not familiar with health plan operations and the details of plan design and claims payment processes.

    Additionally, all calls are always answered by a live person during normal business hours. Calls are not sent to voicemail if the call queue is busy, nor do callers ever receive a busy signal. Callers are not required to dial in their member ID numbers or any other information prior to a call being answered; all member information is collected by the receiving Member Service representative to create a personal and courteous experience.

Claims Administration

32. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	Sioux Falls, SD
Phone Numbers	(605) 328-6840
Days and Hours of Operation	Monday – Friday; 8am-5pm CST
Number of Members Serviced	96,500
Number of Employer Groups Serviced	315
Ratio of Claims Unit Staff to Members Serviced	1 FTE:5,000 members
Volume of Claims Processed Daily	4,000

33. Will your organization identify a dedicated team of claims processors for the NDPERS account? If processors are shared with other clients, on average, how many clients does one team service? What is the average length of service of the claim processors?

As described in Section 18 of this RFP, Sanford Health Plan will provide a dedicated Claims Department for the NDPERS program. The NDPERS Staff will not be shared with other clients. The average length of service of current claims processors is 10 years.

34. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

With the exception of these three manual interventions, Sanford Health Plan is able to automatically administer the NDPERS design. Please see Exhibit F2 under separate cover with this RFP.

19. Sanford Health Plan's claims system cannot administer a "per condition" benefit automatically. For outpatient therapy services (PT, OT & ST) we can administer count/quantity/visit limits without manual intervention.

35. Describe your claims processing system/platform and claims administration process.

Sanford Health Plan utilizes the Epic suite of Tapestry modules for payer operations. Enrollment, Premium Billing, Customer Service, Provider Network/Pricing, Service Pre-Authorization, Benefit/Claim Adjudication and Remittance functions are performed on this platform. Core health plan data is downloaded nightly to a local SQL Server-based data repository which is the foundation for analytical reporting and interface feeds to external processes and web portals. The Epic platform provides full EMR integration within the Sanford Health Enterprise as well as delivering standalone payer functionality with external providers. The Tapestry application piggybacks onto the same redundant, high availability Sanford Health datacenters and IT infrastructure utilized for 24/7 healthcare operations. Sanford Health has utilized Epic applications since 2004 and the Health Plan became operation on Tapestry in October 2013.

36. How do you determine reasonable and customary ("R&C") charge allowances? What methodology is used (i.e., HIAA)? What percentile is used? How often are R&C schedules updated?

Sanford Health Plan establishes “Reasonable Costs” as those that do not exceed the lesser of: (a) negotiated schedules of payment developed by Sanford Health Plan which are accepted by Participating Providers or (b) the prevailing marketplace charges. R&C is evaluated annually.

Reporting

37. Confirm your ability to provide the reports described in the RFP and provide samples.

Sanford Health Plan is able to provide all monthly reports for each plan offered (e.g. Grandfathered PPO, Non-Grandfathered PPO, HDHP, etc.) and provide roll-up reports to an annual, aggregate report. Please see Attachment C for a sample report package. Please note this report package may not currently reflect the below formats, however Sanford Health Plan’s internal IT Report Analysts are capable of customizing report formats for our clients and the dedicated PERS IT staff will be responsible for building and maintaining custom NDPERS report packages.

- ☑ Monthly claim reports broken down by plan, by category, split medical vs. prescription drugs.
- ☑ Monthly enrollment counts by plan.
- ☑ Monthly information, by plan, regarding large claims in excess of $100,000.
- ☑ Monthly premium vs. claim ratio report by plan with a year to date roll up.
- ☑ Monthly and year to date breakdown of medical claims by type of services by plan.
- ☑ Quarterly and year to date breakdown, by plan of medical charges submitted, ineligible charges, provider discounts, COB savings, deductibles and coinsurance paid by participants and final paid claims.
- ☑ Annual policy accounting statement including claim reserves.

- ☑ Annual medical claim lag study.

Sanford Health Plan also commits to provide:

- ☑ Claims specific data on a monthly basis in a format acceptable to NDPERS and subject to all federal and state laws on confidentiality and open records.
- ☑ Carry-over any deductible and or coinsurance amounts incurred from January 1 to June 30, of the prior contract period.
- ☑ Provide annual accounting of HSA accounts including year end balances; Number (and value) of eligible expense withdrawals; and Number (and value) of non-eligible expense withdrawals.

38. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

Sanford Health Plan currently provides electronic and paper reports to clients at quarterly service meetings and upon request. However, we continue to evaluate a new online module to enhance our current myHealthPlan online portal for our clients and its reporting functions, which would include a custom report builder, to help NDPERS and other clients to:

- Enable clients to view records that have been updated since the last report and/or service meeting;
- Review trends and identify potential health issues that may impact worker productivity;
- Allows multiple users to access the site simultaneously, viewing reports jointly or independently;
- Robust sort and filter functions to create custom report views that can be reapplied to future reports;
- Clients can also delegate and manage access to the reports by benefits managers, payroll personnel, supervisors, wellness coaches, nurse case managers and others who need to see aggregate claims information, while ensuring the protection of employees' privacy.

We are committed to providing tools that empower our clients by providing them immediate access to actionable information so they can make timely business decisions.

39. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing medical claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS.

Sanford Health Plan agreed to provide NDPERS with its raw data, including detailed claims and enrollment data sets, based on a mutually agreed upon format no less than monthly for the data warehouse repository maintained by NDPERS.

SANFORD HEALTH PLAN

Case/Utilization Management

40. Provide a brief overview of your utilization management programs, including pre-certification, concurrent review, discharge planning, and large case management.

The Utilization Management Department staff performs the daily Utilization Management functions. Sanford Health Plan ensures that staff are properly trained, qualified, licensed as appropriate, and supervised. The dedicated NDPERs department will consists of the following roles:

- The Chief Medical Officer, a board certified Physician, who is responsible for the overall UM program and implementation. He reviews the medical appropriateness of any UM decision. However, medical appropriateness is determined by nationally developed and accepted review criteria from Milliman and InterQual which encompass literature review, specialty society standards of care, DME criteria, Medicare guidelines and health plan benefit interpretation.

- Utilization Management Coordinator(s) (Registered Nurses) or Technicians (Licensed Practical Nurses, Medical Assistants) report to the Chief Medical Officer, as do Complex Case Managers. Their responsibilities include the following:

    - Prior authorization of services
    - Concurrent, Retrospective (Post-service), and Focus Reviews
    - Identification of any quality assurance issues
    - Coordinate admission prior authorizations
    - Chief Medical Officer referrals
    - Member guidance and education

- Care Management Case Manager(s) report to the Care Management Manager and the Chief Medical Officer. Their responsibilities include the following:
    - Compilation and review of employer group utilization data
    - Health education to employer groups and members
    - High risk member identification and management (including Transplant Coordination)
    - Identification of any quality assurance issues

Physician Quality Committee

Sanford Health Plan's Physician Quality Committee is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on issues of care. The Physician Quality Committee consists of physician and pharmacist members. Members of the Committee are appointed by the Chief Medical Officer who is the chairperson. The Committee meets eight times a year and the Plan's Chief Medical Officer reports to the Board of Directors at least four times a year the Physician Quality Committee's summary of trends, quality initiatives, findings, corrective actions and results.

The Committee responsibilities include developing and continually evaluating the review criteria used in the evaluation of appropriate utilization. The Committee is also responsible for quality activities by establishing, reviewing, and instituting needed actions and ensuring follow-up as appropriate. The review criteria shall be reviewed no less than once annually. Any recommended changes in the criteria or any other program changes must be approved by the Board of Directors.

Quality Improvement Program

Sanford Health Plan and its participating providers acknowledge their responsibility to provide high quality care in a cost-effective manner through an ongoing monitoring, evaluation and improvement process. The organized method for monitoring, evaluating, and improving the quality, safety and appropriateness of health care services including behavioral health care to members through related activities and studies is known as the Quality Improvement (QI) program.

The mission of the QI Program is to provide accountability for the quality of health care delivery and service. This is accomplished through the commitment of the Board of Directors and the Physician Quality and the Health Plan Quality Improvement Committees to develop and carry out a Quality Assurance Plan that has a systematic approach to assessing, measuring, defining and resolving medical care, and behavioral health and service issues.

Disease Management Services

Sanford Health Plan has developed a prospective program to manage our Members with chronic medical conditions. The emphasis on these programs is disease prevention and education to promote disease compliance for Members with targeted chronic medical conditions to improve the overall health, wellness and quality of the Member's life. The current disease management programs include: Congestive Heart Failure, Diabetes, and Hypertension.

Eligible members for the disease management programs are identified on a monthly basis by claims data or other sources like Utilization Management data, referrals, or after the initiation of a health risk assessment at the time of enrollment or with the initiation of health and wellness programs. The Health Plan Case Managers reach out to high risk Members identified with open disease specific care gaps to facilitate closure of gaps, adherence to treatment plans and to improve overall compliance with the evidence based medicine standards. Currently all disease management programs are opt-out (the member is automatically considered enrolled in the program unless they notify the Plan that they do not want to participate). Once identified by the disease management program, the Health Plan Case Managers reach out to high risk Members who are identified with open disease specific care gaps to facilitate closure of gaps, adherence to their treatment plan and to improve overall compliance with the evidence based medicine standards

The Medical Management Program (also referred to as Utilization Management or UM) is an organized method for monitoring and evaluating the course of treatment rendered

by all health personnel, given a standard of desirable care. It is a process that looks at the following to determine if the treatment, as prescribed, is appropriate:

1. The medical necessity of the treatment
2. The setting for the treatment
3. The types and intensity of resources to be used in the treatment
4. The time frame and duration of the treatment

Additionally, the Medical Management program monitors the delivery of medical and behavioral health services to ensure that those services are performed at the appropriate level of care in a timely, effective, and cost-efficient manner. It also studies patterns of health services utilization for Physician credentialing, sanctioning and continuing education of the medical staff, administration and consumers regarding health care cost containment.

The Medical Management and Care Management are responsible for:

1. Identifying problems by utilizing a system in which network practitioners, members and Sanford Health Plan staff can refer issues, concerns and potential opportunities for improvement.
2. Development and implementation of practice guidelines and/or clinical indicators. This includes structure, process and outcome indicators that are derived from current research and studies.
3. Establishing, monitoring and evaluating process for staff and committees to select appropriate topics, develop study parameters, retrieve and summarize data, and implement improvement interventions.
4. Review of the following quality performance measures on an ongoing basis:
    - Preventive Services
    - Health Education Programs
    - Obstetrical Care
    - Acute and Chronic Illness
    - Mental Health and Substance Abuse
    - Data from Satisfaction Surveys such as CAHPS and the Provider Satisfaction Survey.
5. Distribute any QI results, which may warrant improvement interventions, sanctions, improvement opportunities or concerns to the credentialing files for coordination in the annual recredentialing process.
6. Perform Medical Record Review at practitioner and/or Provider offices.
7. Perform peer review activities consisting of medical care reviews that assess the utilization of services and the quality of care rendered by practitioners and/or Providers. Results of the peer review process will be available for recredentialing purposes.
8. Evaluate healthcare quality related Complaints, Grievances and Appeals on a quarterly basis.
9. Perform quality improvement studies as it relates to timeliness of access to care/services and member service activities.

The Medical Management Program includes authorizations of services, Concurrent Reviews, Retrospective (Post-service) Reviews, focused reviews, case management

and discharge planning. Sanford Health Plan does not delegate any of these Medical Management (Utilization Management) activities, with the exception of Specialty Drug Management which includes dispensing according to The Plan's approved prior authorization criteria delegated through Curascript.

Medical Management Operational Procedures
Utilization Review

The purpose of Utilization Review is to establish requirements and standards of operation for Certification of medical Utilization Review agents. The Utilization Review criteria for medical services used by the Utilization Management Department shall be made available, upon request, to Participating Physicians. The clinical review criteria to determine medical necessity utilizes nationally developed and accepted review criteria from Milliman and InterQual. Milliman will be used as a length of stay guideline only. Clinical review criteria may also be developed based on literature review, specialty society standards of care, DME criteria, Medicare guidelines and health plan benefit interpretation. Local medical review policies will be utilized for decisions regarding Medicare coverage. The guidelines will be reviewed and updated, as appropriate, on an annual basis. Utilization Management staff review all cases and are instructed to refer any cases to the Chief Medical Officer or Behavioral Health Practitioner where medical necessity and/or criteria are not met or appropriate as they cannot make Denial decisions in those cases. Utilization management staff may make authorization decisions based on policies, procedures and benefit coverage guidelines. Utilization determination will be based on accepted review criteria, medical record review, and/or conversations with appropriate Physicians.

Utilization Review is a set of formal techniques designed to monitor the use of, or evaluate the clinical necessity, appropriateness, efficacy, or efficiency of, health care services, procedures, or facilities. The Utilization Review process shall consist of comparing Member profile information against set clinical review criteria (see policy MM-53 Utilization Management Criteria & Guidelines) along the following dimensions:

1. Presentation/Complaint;
2. Relevant History;
3. Medical History/Medications;
4. Previous Treatment;
5. Chemical Dependency History;
6. Treatment Plans and Recommendations

Medical Management Decision Protocols

The Plan's Medical Management decision protocols for Utilization Review consist of seven major component activities. Utilization Review is conducted prior to an admission or a course of treatment. These component areas include inpatient and outpatient services.

1. Prior-Authorization of all elective Hospital admissions (including same day surgeries), non-Urgent Care, pharmaceutical decisions and behavioral health services
2. Concurrent Reviews
3. Retrospective (Post-service) reviews
4. Focused reviews

5. Discharge planning
6. Complex Case Management
7. Case Management

Prior Authorization (Certification) of Services (Pre-service)
The Member is ultimately responsible for obtaining prior authorization from the Utilization Management Department in order to receive In-Network coverage. However, information provided by the Practitioner's office will also satisfy this requirement. Primary Care Physicians and any Participating Specialists have been given instructions on how to get the necessary authorizations for surgical procedures or Hospitalizations you may need.

Prior authorization (Certification) is the urgent or non-urgent authorization of a requested service prior to receiving the service. Prior authorization (or preCertification/Pre-service decision) is designed to facilitate early identification of the treatment plan to ensure medical management and available resources are provided throughout an episode of care.

The Plan determines approval for prior authorization based on appropriateness of care and service and existence of coverage. The Plan does not compensate Practitioners or other individuals conducting Utilization Review for issuing Denials of coverage or service care. Any financial incentives offered to Utilization Management decision makers do not encourage decisions that result in underutilization and do not encourage Denials of coverage or service.

Prior authorization is required for all inpatient admissions of Plan Members. This requirement applies to, but is not limited to the following:

1. Acute care Hospitalizations (including medical, surgical, and obstetric admissions);
2. Psychiatric Hospitalizations;
3. Rehabilitation center admissions; and
4. Chemical dependency admissions.

Admission before the day of non-emergency surgery will not be authorized unless the early admission is medically necessary and specifically approved by the Plan. Coverage for Hospital expenses prior to the day of surgery will be denied unless authorized prior to being incurred.

Concurrent Review
Concurrent Review (i.e. inpatient Hospitalization or ambulatory care) means a request for an extension of an approved ongoing course of treatment over a period of time or number of treatments is warranted. Sanford Health Plan will follow the same time frame as for prior authorization of services for a Concurrent Review decision.

Concurrent Review is conducted during a Member's Hospital stay or course of treatment. This includes inpatient Hospitalization including behavioral health care. The initial review is conducted within *twenty-four (24)* hours after admission. Subsequent reviews depend on the Member's condition, but at least *one (1)* subsequent review will

take place prior to the expiration of the approved length of stay. At the time of the initial review and each subsequent review, the Member's condition is evaluated to determine:

- the Member's progress;
- if the Member meets the approved acute level of care criteria;
- the projected discharge date; and
- the need for discharge planning.

When the Member's condition or treatment schedule changes, additional stay days are approved if the Member's condition has deteriorated or the Member has not progressed as originally anticipated. Additional stay days must meet the continued stay review criteria and, if acute levels of care criteria are not met, a decision to authorize further treatment must be made at that time. Authorization of the Hospital or behavioral healthcare stays will terminate on the date the Member is to be discharged from the Hospital or behavioral healthcare Facility (as ordered by the attending Physician). Hospital/Facility days accumulated beyond ordered discharge date will not be authorized unless the continued stay criteria continues to be met. Charges by Practitioners and/or Providers associated with these non-authorized days will be considered non-covered. The Plan Chief Medical Officer or a Physician or appropriate behavioral health Practitioner reviews all cases that may lead to Denial and those that are denied.

Retrospective Review (Post-service)
The Utilization Management Department may be required to perform Retrospective or Post-service Reviews at the direction of the Plan's administration. Retrospective (Post-service) Reviews may be used to identify patterns of care, to determine if charged services were actually provided and to Retrospectively Review services or denied days that have already occurred.

These reviews may be used to:

- Identify Practitioner patterns of care based on the parameters established by the Plan.
- Recommend positive changes in the Physician practice patterns and the credentialing process as identified by analysis and review of data.
- Analyze consumer patterns of care and to redirect the data to the employer groups to make any appropriate suggestions as to benefit structure.
- Determine if services charged were actually provided.
- Retrospectively deny days incurred due to failure to meet admission or continued stay criteria. Costs are to be absorbed by In-Network Providers.

Focused Reviews
Focused review is the process of reviewing patient's medical records as they relate to specific diagnoses, problem procedures, and/or Physicians identified by the Chief Medical Officer, Care Management Staff, Health Plan Quality Improvement Committee or Physician Quality Committee as an actual or potential utilization problem. The review may be Concurrent or Retrospective (Post-service).

If analysis of the focused review reveals ineffective or inefficient use of Hospital services or questionable patterns of care, the focused review will be subject to a more comprehensive in-depth review using the Plan's established criteria. Results of the focused review are to be reported to the requesting party and if a problem exists, a report and recommendations for action are made to the appropriate entity.

Discharge Planning
Discharge planning is the formal process for determining the coordination and management of care that a patient receives following discharge from a Facility. The reviewer assists in the identification of patients with post Hospital care needs for whom social service/discharge planning services would be appropriate. The Utilization Management Coordinator/Technician can, with the advice and counsel of the attending Physician, work actively with social service discharge planning to assist in coordinating inter-Hospital transfer, transfers to nursing homes, home health care, transportation, and durable medical equipment.

The Care Management Case Managers will contact Members post discharge to determine if access or care problems exist. This discharge follow-up phone call will allow the nurse to assess each Member, determine Member needs, and initiate the appropriate medical management intervention.

Complex Case Management
Sanford Health Plan's Complex Case Management Program is available to qualifying Health Plan Members and their families free of charge. Complex case management is the coordination of care and services provided to members who have experienced a critical event or diagnosis that requires the extensive use of resources and who need help navigating the system to facilitate appropriate delivery of care and services. The goal of complex case management is to help members regain optimum health or improved functional capability, in the right setting and in a cost-effective manner. It involves the comprehensive assessment of the member's condition; determination of available benefits and resources; and development and implementation of a case management plan with performance goals, monitoring and follow-up. Concentrating for the most part on catastrophic or chronic cases, case manager nurses are called in to consult and manage diagnoses such as serious traumas, cancers, HIV, organ transplants, spinal cord injuries, multiple chronic illnesses and/or chronic illnesses that result in high utilization and diagnoses as identified by our reinsurance provider.

Registered Nurse Case Managers are responsible for managing these complex cases to ensure high quality, cost effective and appropriate utilization of health services. The case manager acts as a Member advocate, seeking and coordinating creative solutions to a Member's health care needs without compromising quality health outcomes for selected medical diagnoses. The case manager contacts our Members by phone and mail. She is able to act as a resource, educator and/or coordinator of all medical care if needed.

Case Management
Sanford Health Plan offers employer groups Case Management services from our Care Management Department in order to assist in controlling healthcare costs. The case manager facilitates communication and coordination between Employees and Providers of services. This service involves all Members of the healthcare team in the decision-

making process in order to minimize fragmentation of the healthcare delivery system. The case manager educates the employer group Members about wellness, health conditions, community resources, insurance benefits, cost factors and issues of concern. The case manager is the link between the individual, the Practitioners and/or Providers, the payer and the community. The case manager should encourage appropriate use of medical cost effectiveness on a case-by-case basis. The case manager is an advocate for the Member as well as the payer to facilitate a win-win situation for the patient, the healthcare team and the payer.

Behavioral Health Care

The referral process for behavioral health care is based on the Provider Network established by Sanford Health Plan. In-Network facilities for inpatient Hospitalization must be utilized for authorization of services. If a Member chooses an Out-of-Network Facility then the Out-of-Network benefit limits will apply. Behavioral health care specialists for outpatient services are contracted for access as follows:

- Minnesota: within 30 miles of a Member's city of residence
- Iowa: within 60 miles of a Member's city of residence
- South Dakota: within 90 miles of a Member's city of residence, and.
- North Dakota: within 50 miles of a Member's legal residence.

A triage program is available to Practitioners for assessment and placement by Sanford's Behavioral Health Needs Assessment Team. This Facility has intake staff available 24 hours a day to assess the needs of a Member. The contracted Practitioners have access to a toll-free number to discuss a case, refer a Member for assessment or to triage a Member into a psychiatrist office on an urgent basis. Sites of service and levels of care for behavioral health services are evaluated through the contracting and credentialing/recredentialing process.

Physician Reviewer

A Physician reviewer is made available by phone to any Practitioner and/or Provider to discuss determinations based on medical appropriateness. The Plan informs the treating Practitioner of the Utilization Review criteria utilized by way of the Denial letter. The Physician reviewer may be the Plan's Chief Medical Officer or a Physician consultant. A Physician or appropriate behavioral health Practitioner (i.e., psychiatrist, doctoral-level clinical psychologist or certified addiction medicine specialist) reviews any Denial of behavioral health care that is based on medical necessity. For Sanford Health Plan of MN enrollees: For chiropractic, mental health and dental determinations not to certify, the review must be performed by a chiropractor, psychiatrist (certified by the American Board of Psychiatry and Neurology and licensed in the state of Minnesota) or dentist. In all other situations, on Appeal the case must be reviewed by a Practitioner practicing in the same or similar specialty.

41. What is the source of the criteria used for the following:

e. Determining surgical necessity and whether a second opinion is required.

Sanford Health Plan will cover the cost of a second opinion as long as it is requested by and provided by an In-Network Physician. This request is to aid in determining the diagnosis or treatment options of specific member conditions.

If after that visit, the physician feels that the Member would be better served at an Out-of-Network facility the Member will be authorized for that service. In general, consultations are for opinions only and not for care. If the member chooses to remain in the care of the consulting physician, in-network benefits may not apply.

This does not apply to emergency requests. Emergency requests will be evaluated following Plan criteria for Emergency Services.

f. Determining approved length of stay.

UM decisions to determine medical necessity are based on reasonable medical evidence by utilizing nationally developed and accepted review criteria from Milliman and InterQual. Milliman data is used as a length of stay guideline.

g. What percentile of the data is used?

Not applicable.

h. Approximately what percentages of review cases are referred to a physician because the initial review and attending physician cannot reach agreement on the proposed level of care?

This data is not tracked.

i. Does this percentage vary between medical/surgical and psychiatric/substance abuse cases? If so, provide variances.

This data is not tracked.

SANFORD HEALTH PLAN

Health Risk Management Programs

42. Indicate in the table below if you currently provide the care or disease management program listed, the number of members from ND-based employers currently enrolled, the cost per participant, and its accreditation status.
The below numbers include participation across all product lines and all states. Sanford Health Plan is committed to develop additional disease management programs that meets the state's needs.

	Program	Number of Members Enrolled	Cost per Participant	Accredited? If so, indicate accrediting organization.		Program	Number of Enrolled Members	Cost per Participant	Accredited? If so, indicate accrediting organization.
☐	Arthritis	NA	Included in Cost Proposal	NA	☒	High Risk Pregnancy/ Prenatal Support	84	Included in Cost Proposal	NA
☒	Asthma	5,021	Included in Cost Proposal	NA	☐	Hypercholesterolemia	NA	Included in Cost Proposal	NA
☒	Cancer (screenings and reminders)	28,487	Included in Cost Proposal	NA	☐	Pain Management	NA	Included in Cost Proposal	NA
☒	Congestive Heart Failure	260	Included in Cost Proposal	NA	☐	Renal Failure	NA	Included in Cost Proposal	NA
☐	COPD	NA	Included in Cost Proposal	NA	☐	Smoking/ Tobacco Cessation	NA	Included in Cost Proposal	NA
☒	Depression	2,153	Included in Cost Proposal	NA	☐	Weight Management	NA	Included in Cost Proposal	NA
☒	Diabetes	3,446	Included in Cost Proposal	NA	☐	Other, please indicate:		Included in Cost Proposal	NA
☐	Low Back Pain	NA	Included in Cost Proposal	NA	☐	Other, please indicate:		Included in Cost Proposal	NA

43. Briefly describe each of the programs currently offered and the cost of each program. Do you currently track and report specific clinical outcome measurements for each of the conditions for which care/disease management is offered? Please list them.

SANFORD HEALTH PLAN

As an NCQA-Accredited Health Plan, Sanford Health Plan tracks and utilizes a variety of measures for the development and refinement of the Plan's Quality Improvement Activities, Disease Management Programs and Clinical Practice Guidelines. These measures all include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population for the measure. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

One of these programs is the **Effectiveness of Care Domain** which measures provide information about the quality of clinical care the Plan delivers to its members including preventive, acute and chronic care services. Please refer to Attachment D to view Sanford Health Plan's Health Employer Data Information Set (HEDIS) Report

The Effectiveness of Care measures included in the Sanford Health Plan HEDIS Report Report are:

- Adult BMI Assessment
- Weight Assessment and Counseling for Nutrition
- and Physical Activity for Children/Adolescents
- Childhood Immunization Status
- Colorectal Cancer Screening
- Breast Cancer Screening
- Cervical Cancer Screening
- Chlamydia Screening in Women
- Appropriate Testing for Children with Pharyngitis
- Appropriate Treatment for Children with Upper
- Respiratory Infection
- Avoidance of Antibiotic Treatment in Adults with
- Acute Bronchitis
- Use of Spirometry Testing in the Assessment and
- Diagnosis of COPD
- Use of Appropriate Medications for People with
- Asthma
- Cholesterol Management for Patients with
- Cardiovascular Conditions
- Controlling High Blood Pressure
- Persistence of Beta Blocker Treatment After a Heart
- Attack
- Comprehensive Diabetes Care
- Use of Imaging Studies for Low Back Pain
- Follow-Up Care for Children Prescribed ADHD
- Medication
- Antidepressant Medication Management
- Follow-Up After Hospitalization for Mental Illness
- Flu Shots for Adults Ages 50 – 64
- Medical Assistance with Smoking Cessation

The Access/Availability of Care domain contains measures that assess Sanford Health Plan members' access to care and whether those members are actually utilizing the

services available to them. Most of these measures include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Access and Availability measures included in HEDIS report are:

- Adults' Access to Preventive/Ambulatory Health
- Services
- Children and Adolescents' Access to Primary Care
- Practitioners
- Initiation and Engagement of Alcohol and Other Drug
- Dependence Treatment
- Prenatal and Postpartum Care
- Call Abandonment
- Call Answer Timeliness

Sanford Health Plan has developed a prospective disease-specific approach to the management of a member's chronic medical conditions. The emphasis of these programs is disease prevention and wellness education for targeted members and practitioners to improve the overall health, wellness and quality of the member's life. The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between their primary care practitioners. Additionally, Practitioners receive program details and condition-specific guidelines.

Congestive Heart Failure Disease Management Program

- Provides educational materials on appropriate treatment and management.
- Topics include treatment plans, sodium intake, nutrition, medication use, exercise and activity, tips for family, lifestyle changes and advance care planning.
- Members receive quarterly mailings and nurse phone support.

Diabetes Disease Management Program

Eligible members for the Diabetes Disease Management Program are identified through:

- ✓ Claims (at least one of the following):
  - o Dispensed insulin or oral hypoglycemics/antihyperglycemics
  - o Two face-to-face encounters with different dates of service in an ambulatory setting or non-acute inpatient setting
  - o One face-to-face encounter in an acute inpatient or emergency room setting
- ✓ Health Risk Assessment/health Screening results
- ✓ Other information: collected from case management or utilization management
- ✓ Practitioner or self referral

Members of all ages who meet these criteria are eligible for the program. This determination of eligible members occurs on a monthly basis.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the Diabetes Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program.

The initial program information packet includes an outline of how to use the program's services, a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services (see below for details) as well as details on quarterly mailings which include a wide range of educational materials

Program Participation and Participation Rates

This program consists of an involuntary participation or an opt-out process. Eligible members receive the initial program mailing accompanied by a Non Participant Form. If the member chooses not to participate in the program, they must complete non participant form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program. Members are considered actively enrolled when they have at least one interactive contact in which the member receives self management support or health education. Interactive contact is a two-way interaction in which the member receives self management support or health education by one of the following modes:

- Mail – interactive communication that provides self management support or health education that was requested by the member; communication in the form of a member survey, quiz or assessment of member knowledge gained from reading the communication.
- Phone – in person contact (individual or group)
- Online contact – interactive web based module, secure email.

Note: health education or self management support given during the course of a health risk appraisal or health assessment is considered an interactive contact.

Interactive contact does **not** include:

- completion of health risk appraisal
- contacts made only to make an appointment, leave a message or acknowledge receipt of materials.

An Access database is maintained of eligible members who remain enrolled in the Diabetes Disease Management Program. The program's active participant rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members divided by the total number of eligible members with at least one interactive contact.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the Diabetes Disease Management Program is stratified based on risk factors identified via the HRA, through noncompliance with the HEDIS measures or by an inpatient stay for diabetes. Enrolled members are stratified as high, moderate/low risk by the Quality RN based on an HRA scoring tool or other claims related information. The stratification process is completed at least annually to determine if there are any members whose stratification status should change for the next year's round of program mailings. The stratification level identification for each member is documented in bWell to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Stratification *(Interventions must be implemented based on each stratification level.)*

Interventions are implemented based on the member's identified stratification level. Those members in the moderate/low risk category are mailed general education on a quarterly basis. This information includes topics such as blood sugars, eating right, medications, exercise, recommended tests and more.

High risk members receive all of the above interventions in addition to calls from a Care Management nurse every 3 to 6 months or more frequently as needed. (example: case of inpatient hospitalization or other chronic comorbid conditions.) Members who were not in compliance with any one or more of the HEDIS measure's indicators are pulled into a report, which is sent to the member's identified practitioner to notify them of their noncompliance with one or more of the HEDIS indicators. High risk members receive a phone call from the Quality RN.

Enrolled members may reach a Registered Nurse toll-free at 1-800-805-7938 or (605) 328-6807 for any questions concerning the Disease Management Program, medical benefits or other issues of concern.

All interventions implemented are tracked by date and type in bWell TX to allow for reporting. Details of specific telephonic interventions are documented in the nurses' notes screens of the bWell.

Condition Monitoring *(Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)*

Members and practitioners are provided with information regarding the recommended clinical practice guidelines to be followed for diabetes management.

Standards of Medical Care for Patients With Diabetes Mellitus - American Diabetes Association.

These guidelines are a resource for members and practitioners to assess how well they are managing their diabetes care.

The Care Management nurse assists high risk level members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their diabetes management.

Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.)

Monitoring patient adherence to the Diabetes Disease Management Program's treatment plans includes a variety of activities. On an annual basis, the Comprehensive Diabetes Care HEDIS measure is analyzed to determine members who were not in compliance with any one or more of the HEDIS measure's indicators and are pulled into a report. These reports are sent to the member's identified practitioner to notify them of their noncompliance with one or more of the HEDIS indicators. These high risk diabetics are monitored through the Care Management nurse's telephonic interventions to discuss compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities including checking their blood sugar levels and compliance with appropriate lab test recommendations.

Medical and Behavioral Comorbidities

High risk level enrolled members are screened for coexisting medical and behavioral conditions, including heart disease, hypertension, elevated cholesterol, kidney disease, etc., through the Care Management nurse contacts. The Care Management nurse then directs educational and telephonic interventions towards these coexisting conditions.

Health Behaviors *(e.g., goal-setting techniques, problem solving. Program content is consistent with clinical practice guidelines.)*
Targeted mailings and telephonic interventions, to the member regarding diabetes, address various lifestyle issues including diet, exercise, smoking cessation, medication compliance and other clinical practice guideline compliance including lab tests, foot care and office visits. These interventions comply with the American Diabetes Association clinical practice guidelines to ensure appropriate quality of care.

Psychosocial Issues

The Care Management nurse identifies potential psychosocial issues that could be significant in the management of Diabetes and any other conditions. Interventions are adjusted to address any issues identified as well as educating the member about their condition beyond just have general knowledge about their condition and adherence to a treatment plan. The following are psychosocial issues which can play a part in adherence:

- Beliefs and concerns about the condition and treatment

- Perceived barriers to meeting treatment requirements
- Access, transportation and financial barriers to obtaining treatment
- Cultural, religious and ethnic beliefs

Depression Screening

Depression screening results from the health risk assessment are reviewed by the Care Management nurse. Members who screen positive for depression are provided with educational resources and are referred to a primary care practitioner for further evaluation and treatment.

Providing Information to the Caregiver

If the member grants permission, information about their condition and treatment plan will be given to the caregiver. This information can be helpful for the caregiver to provide the appropriate support and care to the member. This information should include the type and methods of support a caregiver can provide.

Supporting Communication between Patient and Practitioner

An important aspect of care is the ongoing communication of the member's condition and adherence to treatment. Program materials provided to members address the importance of the communication with healthcare practitioners and provide helpful methods of ways to communicate with them.

Informing and Educating Practitioners about the Program

Sanford Health Plan practitioners are informed and educated on the Diabetes Disease Management Program. Information is published annually in provider newsletters and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are also provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the Diabetes Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Satisfaction with Disease Management

A program satisfaction survey is conducted annually to assist in determining additional resources needed and adjustments that may need to be made to the operations of the program. Disease management program inquiries and complaints are also reviewed and

analyzed quarterly in the Sanford Health Plan Quality Committee. The purpose of the review is to identify patters of inquires and complaints as well as improving satisfaction with the DM program

Measuring Effectiveness *(Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures.)*

Performance measures are tracked for the Diabetes Disease Management Program to measure the effectiveness of the program. For this specific program, the Comprehensive Diabetes Care HEDIS measures are used as indicators of the program's performance to ensure a valid methodology and reliable data. These measures include the identified eligible population according to HEDIS specifications. These quantitative measures are analyzed in comparison to national NCQA Quality Compass averages as benchmark rates and the Plan's past performance.

The participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Hypertension Disease Management Program
Eligible members for the Hypertension Disease Management Program are identified through:

- ✓ Claims :
  - o two or more claims with a primary or secondary diagnosis of Hypertension (ICD-9 CM Codes 401.XX).
- ✓ Health Risk Assessment/health Screening results
- ✓ Other information: collected from case management or utilization management
- ✓ Practitioner or self referral

Eligible members for the Hypertension Disease Management Program are at least 18 years of age and meet the above criteria. This determination of eligible members occurs at least monthly.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the Hypertension Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program after a period of 30 days.

The initial program information packet includes an outline of how to use the program's services, a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services as well as details on quarterly mailings which include a wide range of educational materials on topics such as: detection and diagnosis, risk factors, monitoring blood pressure, nutrition and weight control, tobacco cessation, physical activity, stress management, medications and treatments and more.

Program Participation and Participation Rates

This program consists of an involuntary participation or an opt out process. Members may choose to not participate in the program by completing and returning the Non Participant Form. If the member chooses not to participate in the program, they must complete non participant form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program after a period of 30 days. Members are considered actively enrolled when they complete and return the health risk assessment included with the initial information packet.

An Access database is maintained of eligible members who remain enrolled in the Hypertension Disease Management Program. The program's active participant rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members who remain enrolled in the program divided by the total number of eligible members identified in the first step of the eligible population identification, regardless of stratification level.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the Hypertension Disease Management Program is stratified based on risk factors identified via the HRA, through noncompliance with the HEDIS measures or by an inpatient stay for hypertension. Enrolled members are stratified as high or moderate/low risk by the Quality RN based on an HRA scoring tool or other claims related information. The stratification process is completed at least annually to determine if there are any members whose stratification status should change for the next year's round of program mailings. The stratification level identification for each member is added to the Access database of enrolled eligible members to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Stratification *(Interventions must be implemented based on each stratification level, although we are not required to intervene at every level.)*

Interventions are implemented based on the member's identified stratification level. Those members in the moderate/low risk category are mailed general education on a quarterly basis. This information includes topics such as detection and diagnosis, risk factors, monitoring blood pressure, nutrition and weight control, tobacco cessation, physical activity, stress management, medications and treatments and more.

High risk members receive all of the above interventions in addition to calls from a Quality Resource Registered Nurse every 3 months or more frequently as needed. (example: case of inpatient hospitalization or other chronic comorbid conditions.) Members who were not in compliance with the HEDIS measure's indicator are pulled into a report, which is sent to the member's identified practitioner to notify them of their noncompliance. High risk members receive a phone call from the Quality RN.

Enrolled members may reach a Registered Nurse toll-free at 1-800-805-7938 or (605) 328-6807 for any questions concerning the Disease Management Program, medical benefits or other issues of concern.

All interventions implemented are tracked by date and type in an Access database to allow for easy reporting. Details of specific telephonic interventions are documented in the nurses' notes screens of the Plan's computer system.

Condition Monitoring (Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)

Members and Providers are provided with information regarding the Seventh report of the Joint National Committee on Prevention, Detection, Evaluation and Treatment of High Blood Pressure to be followed for hypertension management. This guideline is to assist them in assessing how well they (Members and Providers) are managing their care.

The Quality Resource RN assists high risk members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their Hypertension management.

Patient Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.) Monitoring patient adherence to the Hypertension Disease Management Program's treatment plans includes a variety of activities. High risk members are monitored through RN telephonic interventions to determine compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities and compliance with other appropriate recommendations. Adherence to treatment plans may also be monitored by the RN through analysis of a member's Health Risk Assessment responses.

Consideration of Other Health Conditions

High risk level enrolled members are screened for coexisting medical and behavioral conditions through the Quality Resource RN contacts. The Quality Resource RN then directs educational and telephonic interventions towards these coexisting conditions. In addition, members are provided information regarding smoking cessation. This information is designed to bring about awareness of the state smoking cessation programs.

Lifestyle Issues as Indicated by Practice Guidelines (e.g., goal-setting techniques, problem solving. Program content must be consistent with clinical practice guidelines) Targeted mailings and telephonic interventions to the member regarding Hypertension address various issues including medication compliance, stress management, hypertension warning signs and complications, exercise, weight management, nutrition and more. These interventions comply with the Joint National Committee on Prevention, Detection, Evaluation and Treatment of High Blood Pressure.

Informing and Educating Providers about the Program
Sanford Health Plan practitioners are informed and educated on the Hypertension Disease Management Program. Information is published annually in provider newsletters and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are also provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the Hypertension Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Measuring Effectiveness (Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures. NCQA recognizes that the population may not exactly match the population of the program, but it is an acceptable substitute.)

Performance measures are tracked for the Hypertension Disease Management Program to measure the effectiveness of the program. For this specific program, the percentage of Members with Confirmed Hypertension who had Controlled Blood Pressure HEDIS measure is used as an indicator of the program's performance to ensure a valid methodology and reliable data. This measure includes the identified eligible population according to HEDIS specifications. The quantitative measure is analyzed in comparison to national NCQA Quality Compass Averages as a benchmark rate and to the Plan's past performance rates.

The active participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Congestive Heart Failure

Eligible members for the CHF Disease Management Program are identified through:

- Claims: two or more claims (any type of service) with a primary or a secondary diagnosis of CHF (ICD-9 CM diagnosis codes 428.xx) and a claim indicating that an ejection fraction has been evaluated.
- Health Risk Assessment/Health Screening results
- Other information: collected from Care Management or Utilization Management
- Practitioner or self referral

Members of all ages who meet these criteria are eligible for the program. This determination of eligible members occurs on a monthly basis.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the CHF Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program.

The initial program information packet includes an outline of how to use the program's services which includes a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services (see below for details) as well as details on quarterly mailings which that include a wide range of educational materials.

Program Participation and Participation Rates

This program consists of an involuntary participation, or an opt-out process. Eligible members receive the initial program mailing accompanied by a Non Participant Form. If the member chooses not to participate in the program, they must complete the form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program. Members are considered actively enrolled when they have at least one interactive contact in which the member receives self management support or health education. Interactive contact is a two-way interaction in which the member receives self management support or health education by one of the following modes:

- Mail – interactive communication that provides self management support or health education that was requested by the member; communication in the form of a member survey, quiz or assessment of member knowledge gained from reading the communication.
- Phone – in person contact (individual or group)
- Online contact – interactive web based module, secure email.

Note: health education or self management support given during the course of a health risk appraisal or health assessment is considered an interactive contact.

Interactive contact does **not** include:

- completion of health risk appraisal
- contacts made only to make an appointment, leave a message or acknowledge receipt of materials.

An Access database is maintained of eligible members who remain enrolled in the CHF Disease Management Program. The program's active participation rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members divided by the total number of eligible members with at least one interactive contact.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the CHF Disease Management Program is stratified based on results from a health risk assessment, and pharmaceutical claims data to identify members who utilize an ACE Inhibitor/ARB/beta blocker (low risk) and those members that do not (high risk). Another high risk identifier is inpatient hospitalization for CHF. The stratification process is completed at least annually for currently enrolled members to determine if there are any members whose stratification status should change. The stratification level identification for each member is documented in bWell TX to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Assessment *(Interventions must be implemented based on each stratification level.)*

Interventions are implemented based on the enrolled member's identified stratification level. Those members in the low risk category are mailed general educational materials on a quarterly basis. These quarterly mailings include information on: medications, nutrition, following a treatment plan, exercise and activity, managing other chronic conditions, lifestyle issues advance care planning and depression. Some educational materials are available in other languages and can be requested by the member.

High risk members receive all of the above interventions in addition to phone calls from a Care Management nurse on an annual basis or more frequently as needed (example: case of an inpatient hospitalization). The Care Management nurse discusses medication compliance and the importance of ACE Inhibitor utilization along with other recommended practice guidelines for the management of CHF. If applicable, the nurse will also send a notification letter to the member's practitioner to notify them that the member is not utilizing an ACE Inhibitor/ARB/beta blocker so that they may review the member's status and determine if an ACEI/ARB/beta blocker is warranted in their particular situation.

Members in all stratification levels may reach a nurse toll-free at 1-888-315-0884 or 328-6868 for any questions concerning the CHF Disease Management Program. For other issues of concern or medical benefits questions, contact Member Services at 1-800-752-5863 or 328-6800.

All interventions implemented are tracked by date and type in bWell to allow for reporting. In addition, comments regarding contact with members are also documented bWell.

Condition Monitoring *(Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)*

The national guidelines state that proper medical treatment for patients with heart failure due to left ventricular systolic dysfunction is the prescription of an angiotensin-enzyme inhibitor (ACEI)/ARB/beta blocker. This practice recommendation has been defined in guidelines issued by Heart Failure Society of America: Journal of Cardiac Failure.

Sanford Health Plan recommends the utilization of these guidelines to assist in the management and monitoring of CHF patients.

The Care Management nurse assists high risk level members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their CHF management, especially ACE Inhibitor/ARB/beta blocker utilization.

Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.)

Monitoring patient adherence to the CHF Disease Management Program's treatment plans includes a variety of activities. High risk members with heart failure are monitored through the Care Management nurse's telephonic interventions to determine compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities and compliance with appropriate lab test recommendations.

Medical and Behavioral Comorbidities

High risk level enrolled members are also screened for any other coexisting medical and behavioral conditions, including diabetes, heart disease, COPD, asthma, cardiac procedures, etc., through the Care Management nurse contacts and any information provided on a health risk assessment or health screening. The Care Management nurse then directs educational and telephonic interventions towards these coexisting conditions.

In addition to this, one of the program's quarterly mailings will be devoted to information on coexisting conditions.

Health Behaviors *(e.g., goal-setting techniques, problem solving. Program content must be consistent with clinical practice guidelines.)*
Targeted mailings and telephonic interventions, to the member regarding CHF, address various lifestyle issues including diet/weight management, smoking cessation, medication compliance and other clinical practice guideline compliance including lab

tests and office visits. These interventions comply with standard clinical practice guidelines (stated above) to ensure appropriate quality of care.

Psychosocial Issues

The Care Management nurse Identifies potential psychosocial issues that could be significant in the management of CHF and any other conditions. Interventions are adjusted to address any issues identified as well as educating the member about their condition beyond just having general knowledge about their condition and adherence to a treatment plan. The following are psychosocial issues which can play a part in adherence:

- Beliefs and concerns about the condition and treatment
- Perceived barriers to meeting treatment requirements
- Access, transportation and financial barriers to obtaining treatment
- Cultural, religious and ethnic beliefs

Depression Screening

Depression screening results from the health risk assessment are reviewed by the Care Management nurse. Members who screen positive for depression are provided with educational resources and are referred to a primary care practitioner for further evaluation and treatment.

Providing Information to the Caregiver

If the member grants permission, information about their condition and treatment plan will be given to the caregiver. This information can be helpful for the caregiver to provide the appropriate support and care to the member. This information should include the type and methods of support a caregiver can provide.

Supporting Communication between Patient and Practitioner

An important aspect of care is the ongoing communication of the member's condition and adherence to treatment. Program materials provided to members address the importance of the communication with healthcare practitioners and provide helpful methods of ways to communicate with them.

Informing and Educating Practitioners about the Program

Sanford Health Plan practitioners are informed and educated on the CHF Disease Management Program. Information is published annually in the provider newsletter and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the CHF Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Satisfaction with Disease Management

A program satisfaction survey is conducted annually to assist in determining additional resources needed and adjustments that may need to be made to the operations of the program. Disease management program inquiries and complaints are also reviewed and analyzed quarterly in the Sanford Health Plan Quality Committee. The purpose of the review is to identify patters of inquires and complaints as well as improving satisfaction with the DM program

Measuring Effectiveness *(Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures. NCQA recognizes that the population may not exactly match the population of the program, but it is an acceptable substitute.)*

Performance measures are tracked annually for the CHF Disease Management Program to measure the effectiveness of the program. For this specific program, the ACE Inhibitor/ARB/beta blocker utilization rate is measured for the eligible enrolled population. The inpatient hospitalization rate is also measured for this population. These quantitative measures are analyzed in comparison to the Plan's past performance and national benchmarks, when available.

The active participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Additionally, Sanford Health Plan has also implemented several quality improvement activities.

Asthma

- An Asthma Tool Kit that includes information on triggers, formal asthma education, proper medication use, action plans, smoking cessation, online resources and more.
- A FREE peak flow meter and a spacer to help manage their asthma.
- Phone calls from caring nurses in the event of medication-compliance issues. The nurses may also notify the member's healthcare practitioner.

Attention Deficit/Hyperactivity Disorder (ADHD)

- A one-time mailing that includes fact sheets, age-specific and up-to-date information on ADHD symptoms and treatments.
- Guidelines regarding recommended follow-up care.
- Tools to track progress of ADHD treatments.

Headaches
Members diagnosed with chronic headaches can find on our website a variety of resources including tools to help identify triggers, symptom trackers, action plans, and more.

Mental Health
Targeted follow-up can make a positive difference for members who struggle with mental health problems. Sanford Health Plan provides:

- Follow-up education immediately after discharge from a mental health facility and a reminder by letter and by phone to keep follow-up appointments.
- Education on antidepressant medications for members with a new prescription.
- Notification to practitioners when their patients who recently started taking antidepressant therapy have stopped filling their prescriptions.

Healthy Pregnancy Program
The Healthy Pregnancy Program helps identify concerns early so that members and their healthcare practitioner can take steps to ensure a healthy pregnancy.

- A health risk assessment to identify any special needs and to customize your educational materials.
- Education materials on nutrition, lifestyle, prenatal testing, exercise, stress, fetal development, breast feeding, postpartum care, childhood immunizations and more.
- Nurse phone support as needed.

Adolescent Health
Sanford Health Plan opens the door to targeted, comprehensive care for our adolescent members, including:

- A reminder to parents to schedule an annual well care visit for their adolescent. A well care visit covers much more than an athletic physical. It addresses a wide range of topics that can best address the health of your adolescent.
- Members turning 11 and 12 receive birthday cards with immunization reminders.
- Useful information on almost any teen topic on our KidsHealth link on our website at www.sanfordhealthplan.org

44. Are you willing to customize your care management/DM programs and services for NDPERS? If so, please explain and provide an example.

Yes, Sanford Health Plan is willing to customize care management programs to specifically meet the NDPERS population management needs.

45. Describe the programs offered to patients with rare and chronic diseases. Is this program outsourced? Who is the current vendor?

As described above, Sanford Health Plan provides in-house complex case management services which often includes patients with comorbid conditions and/or rare and chronic diseases.

SANFORD HEALTH PLAN

46. Describe in detail your ability to provide on-line wellness programs. Compare it to the existing program presently in the NDPERS program (see our website). Specifically identify any deviations from the existing program.

Our Team

Sanford Health Plan's Worksite Wellness team has the depth and breadth of resources to help your organization achieve its wellness goals. Currently, our Business and Wellness Development Coordinator leads a team of Wellness Educators with education in nutrition & public health, exercise science & strength training, holistic wellness & Yoga, tobacco cessation and behavior change. Half of the wellness team holds a graduate degree in their area of specialty. All have all been trained as certified health and wellness coaches through Wellcoaches® and as tobacco cessation educators through the Minnesota American Lung Association.

Our Life Advocates and Licensed Social Workers, complements the team by providing resource referrals for psychosocial issues such as emotional, financial, interpersonal and personal needs. Our screening education team, Partners in Prevention, coordinates appropriate health screens with local provider partners with the goal of prevention in mind.

Our Approach

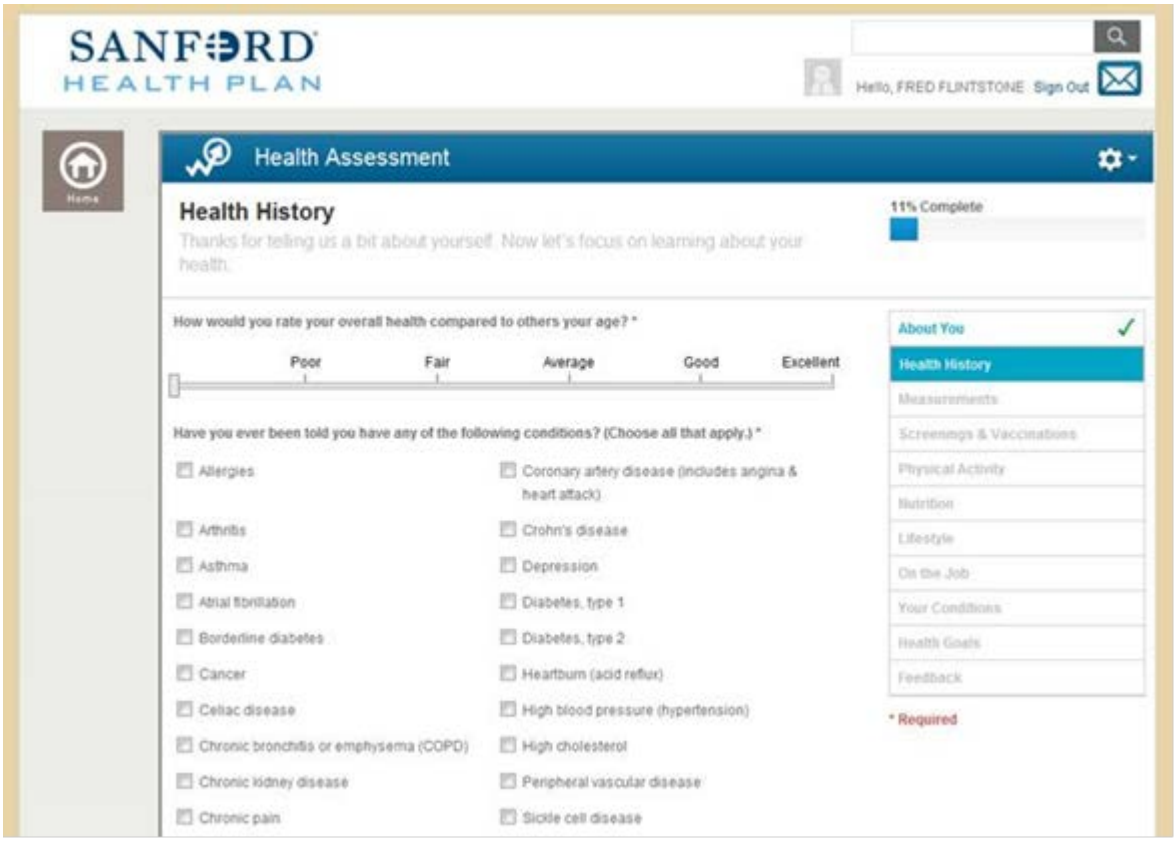
While the NDPERS employees would have a designated team member assigned to deliver wellness programming, all members of the team would be available to support the wellness initiatives of NDPERS. Our Worksite Wellness team works collaboratively based on the needs and interests of the group to deliver risk-based programs geared to decrease the health risks of the population, improve health literacy and impact behaviors that promote healthy lifestyles.

We work from a consultative model because we know one size does not fit all when it comes to worksite wellness programs. Our team works closely with employer wellness coordinators and wellness teams/committees to understand the culture and the best ways to message, implement and evaluate wellness programming. We have expertise in helping our clients start wellness teams and once they are started, we continue to play an active role. With larger clients with locations in multiple states, we host a regularly scheduled call/Webinar with representatives from their various wellness teams to share best practices, provide an opportunity to exchanges ideas and to make sure the company's wellness vision is being implemented in all locations. We would also provide special continuing education calls/Webinars for wellness coordinators to help them develop strategies to increase participation and engagement at the local level.

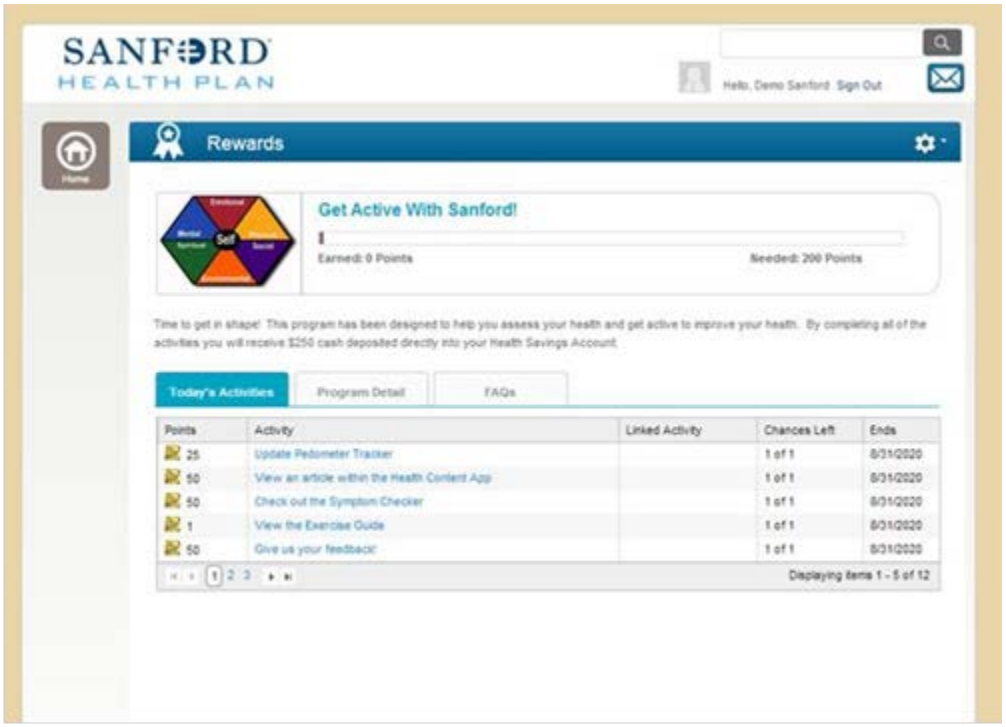
Our Online Resources

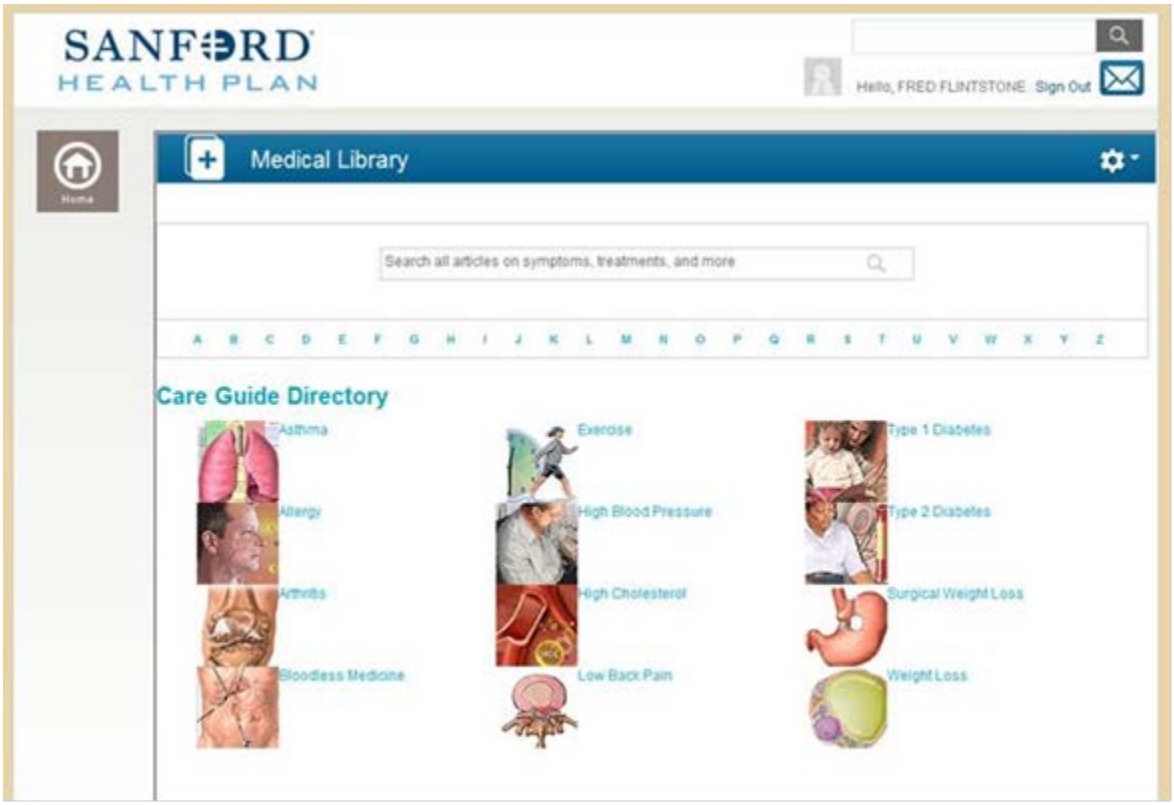
Our online health management tool, bWell, complements the expertise of our Worksite Wellness team. bWell is an interactive, web-based health management system. Using the personalized health tools and information on bWell can help individuals improve their health and make more informed healthcare decisions. The Health Assessment calculates health age, determines risk levels for serious conditions and provides feedback regarding how health habits can be improved. A medical library, medicine cabinet, and trackers for health behaviors are additional resources available in our bWell portal. Below are a few screen shots of these resources:

SANFORD HEALTH PLAN

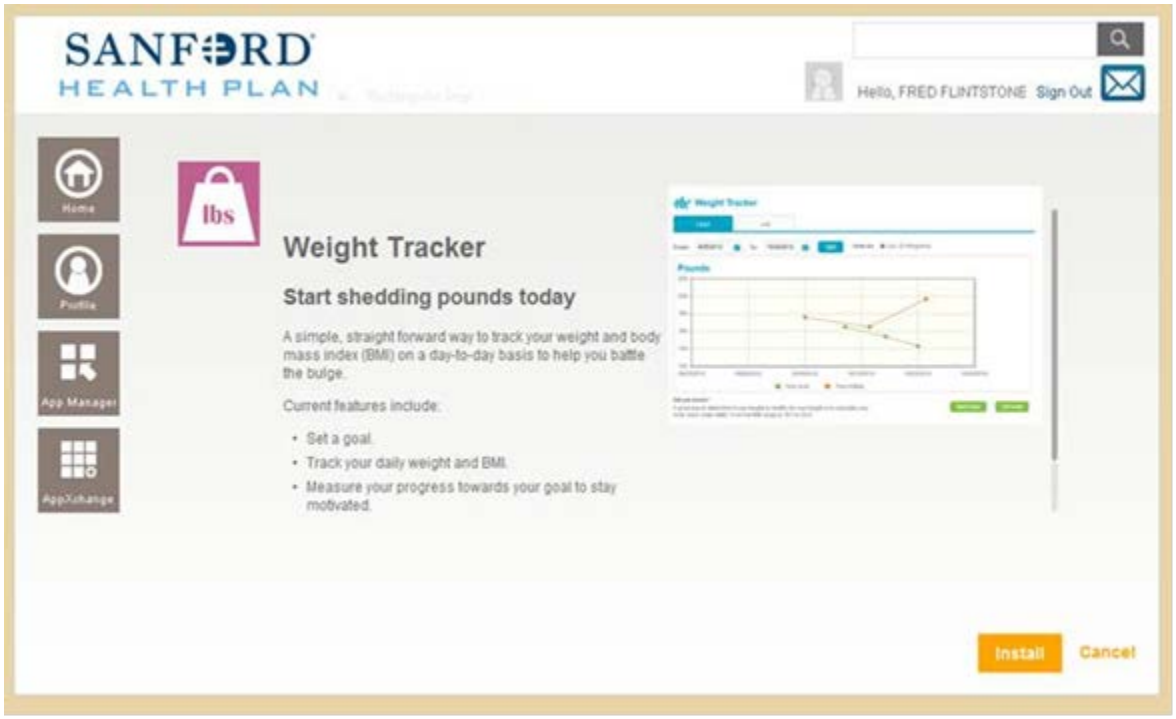


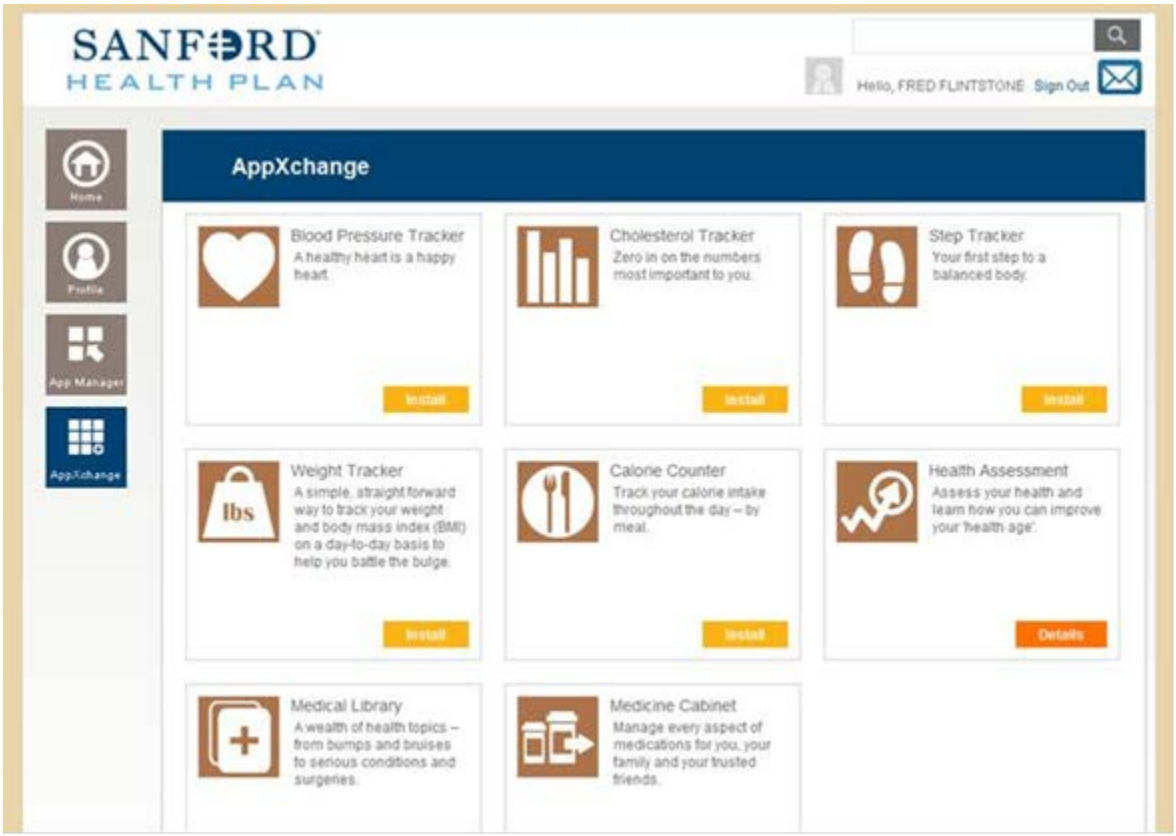
SANFORD HEALTH PLAN

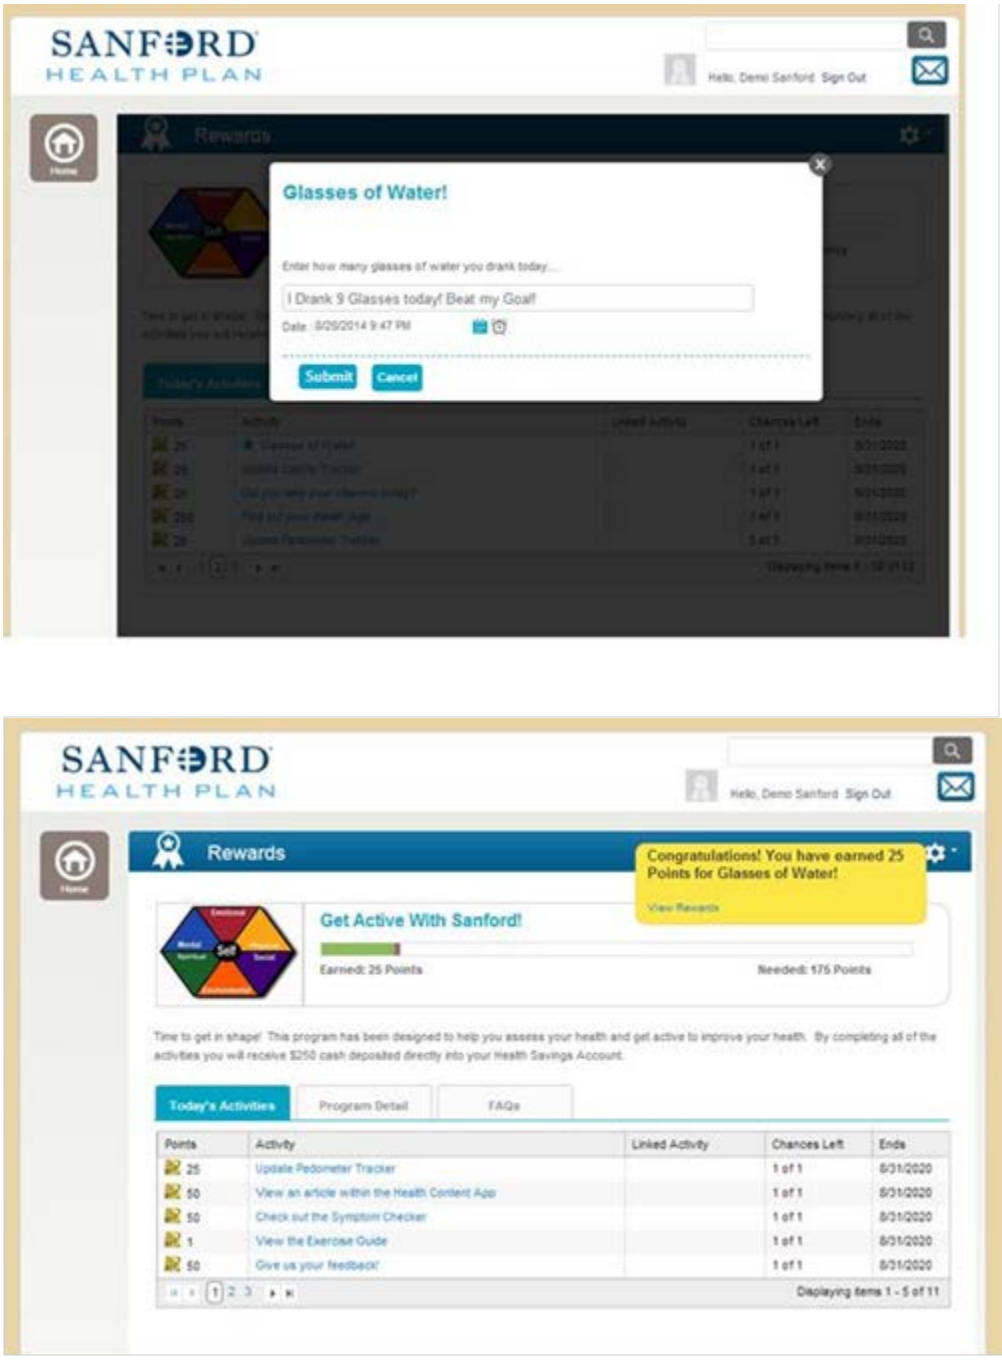




SANFORD HEALTH PLAN







These resources work in concert to empower participants to take charge of their health. Individuals who complete a Health Assessment are invited to participate in telephonic or email wellness coaching if they desire help in achieving their wellness vision.

Our Commitment to Outcomes

We know our clients want results so we work hard to get the best engagement possible. Messaging and marketing are at the heart of any successful health promotion program. The power of a fully articulated health promotion messaging strategy coupled with a committed

wellness team/committee can make a huge difference in participation. Although the Health Plan does provide some incentives for participation, e.g. pedometers, water bottles, resistance bands, cinch bags, etc. we have found the best way to increase participation is to help our clients build a culture of wellness and to continually communicate this message. The greater the participation and engagement in wellness programming, the better the population sample, which empowers you to see the impacts of your wellness program on your population's health. Sanford Health Plan provides aggregate group reporting whether it's for an annual Health Risk Assessment campaign, a physical activity or nutrition wellness challenge, or participation in our wellness Webinars. We partner with our clients to help them achieve and surpass their participation goals and then provide the resources to help participants improve and sustain their health outcomes.

bWell Online Health Management Tool

- Health Assessment
  - Learn risks for chronic conditions
  - Receive feedback on lifestyle choices
  - Discover "Health Age" compared to real age
- Medical Library
- Pharmacy
  Health Trackers
- Aggregate Reports

Preventive Health Screens
- Annual biometric screen (height, weight, blood pressure, glucose, cholesterol panel)
- Opportunities for other onsite health screens based on demographics and risk

Partnership with Employee Wellness Team/Committee
- Act as consultant
- Facilitate bWell Health Assessment biometric screen promotion & data collection
- Assist with development of worksite wellness plan, goal-setting and measurement
- Provide resources to support goals

Employer Wellness Incentive Program Administration
- Assist with wellness incentive program development
- Promote wellness incentive program to employees
- Provide incentive payout reporting quarterly or annually

Wellness Group Activity
- Online Wellness Challenges
- Physical Activity
- Nutrition
- Stress Management
- Tailored based on need

GoToMeeting/Webinars on Health & Wellness Topics, some examples include:

- Promoting bWell
- Reading Nutrition Labels
- Portion Sizes
- Dietary Guidelines
- Stretching Techniques
- Stress Management
- Behavior Change
- Tobacco Cessation Education

Wellness Coaching Program Development

- 1-1 telephonic/email wellness coaching based on individual readiness
- Focus on intrinsic motivation and behavior change

Health Notions

- Monthly newsletter

47. Describe Wellness incentives you offer. Compare and contrast that with the existing incentives.

Sanford Health Plan is committed to design a wellness program that fits the needs of NDPERS. Our wellness programs are not a one-size fits all and we currently customize programs that fit our clients' culture, demographics and strategic objectives. Additionally, Sanford Health Plan will work with the State to replicate and wellness incentives that meets the state's overall health and wellness goals.

48. Describe your ability to support PERS Wellness initiatives by providing the administrative services for:

a. Tobacco Cessation program
b. PERS Diabetes Program
c. Dedicated Wellness Program Staff
d. Prenatal Program

As described above, Sanford Health Plan is capable of supporting Tobacco Cessation Programs, Diabetes programs and Healthy Pregnancy program through its dedicated wellness program staff.

49. Describe your ability to support the employer based wellness program and the wellness benefit funding program (see our website).

Sanford Health Plan commits to administer an employer based wellness program configured to reward participating employers to receive a 1% health insurance premium discount for promoting wellness initiatives for their employees at their worksite.

This program would be administered through our existing WordDoc *Health eRewards* online tool as described in #46 above. While the look and feel of the program may be

different, the functionality will closely mimic the existing program where employers that participate in the NDPERS Group Health Insurance Plan have the opportunity to enroll in the employer based wellness program on an annual basis. Sanford Health Plan will appoint a Wellness Coordinator to perform the following services:

- Coordinate and attend the Employer Wellness Workshops;
- Distribute communication materials to employer's employees on a monthly basis and promote the PERS Tobacco Cessation Programs;
- Implement the Wellness Program during plan year; and
- Report at plan year-end the results of wellness activities

Network Accessibility and Disruption

50. We are requesting that vendors provide a GeoAccess network accessibility and disruption analysis outlining network access based on the access standards listed below separately by North Dakota County. If you are proposing a combination of owned and leased networks, please provide your results separately by network. This GeoAccess analysis must be provided for your proposed NDPERS network. A census file has been provided in Appendix E for your use.

Provider Type	Access
Primary Care Providers (family/general practice, pediatrics, internal medicine and OB/GYN)	2 providers within 30 miles
Specialists	2 providers within 30 miles
Hospitals	1 hospital within 50 miles

Please provide the GeoAccess summaries in the table below as well as back-up detail (back-up detail on CD submission only) for employees who fall both within and outside the following access standards. Your match should include all valid zip codes in each of the counties in North Dakota that your network serves and in which participants reside. In addition, you should include only open practices in your analysis.

Percent of NDPERS Employees Meeting the Access						
Provider Type	**Family/ General Practice**	**Pediatrics**	**Internal Medicine**	**OB/GYN**	**Specialists**	**Hospital**
North Dakota						
County 1						
County 2						
County 3						

Sanford Health Plan owns and maintains its own network in South Dakota, Minnesota, Iowa, North Dakota and Nebraska consisting of nearly 15,000 providers. Sanford Health Plan is proud that we have retained 99.9% of its contracted providers over the past few

years. The market experiences about a 5% turnover in available providers on an annual basis as providers either retire or move out of the area.
Please note that the proposed Sanford Health Plan network for NDPERS does not include the Essentia Health provider network.

Please refer to the following attachments:

- **Attachment H** – GeoAccess report illustrating NDPERS locations relative to Sanford Health Plan's local, proprietary commercial network which primarily consists of the four state region of South Dakota, Minnesota, Iowa and North Dakota.

- **Attachment I** – GeoAccess report illustrating NDPERS employee locations relative to Sanford Health Plan's national provider network, MultiPlan.

- **Attachment J** – GeoAccess report illustrating NDPERS employee locations relative to the Preferred One regional PPO network.

- **Attachment K** – Provider Access Standard by county report that illustrates the percent of NDPERS Employees that meet the access standard.

- **Attachment L –** Disruption Analysis report for professional and facility services. NOTE: THIS REPORT IS MARKED AS PROPREITY AND CONFIDENTIAL.

51. Provide a listing or provider directory and link to the web for the provider networks you are proposing for NDPERS.

Sanford Health Plan owns and maintains its own network in South Dakota, Minnesota, Iowa, North Dakota and Nebraska. There are nearly 15,000 Sanford Health Plan participating providers which may be found in our online directory at www.sanfordhealthplan.com. The online provider directory can produce a statewide directory or perform a search by provider name, location, or medical specialty. This website is updated weekly. Please refer to www.sanfordhealthplan.com

52. Identify and describe your national preferred provider organization.

For national coverage, Sanford Health Plan utilizes PHCS Healthy Directions and MultiPlan networks for members who live, work or travel outside of our service area and for students. Those providers can be located at www.multiplan.com.

The PHCS Network includes over 4,600 hospitals, 80,000 ancillary care facilities and 70,000 healthcare professionals. This ensures that members traveling, residing or outside of the network have access to the largest independent primary PPO in the nation. The PHCS Network has earned an endorsement for network quality from NCQA.

National average savings from PHCS Network are over 40% for practitioner and ancillary facility claims and over 90% of the practitioners in the PHCS Network are contracted under a fixed fee schedule arrangement, such as a DRG or Per Diem.

Current members can create a customized provider directory simply by logging into the website at www.sanfordhealthplan.com using their Member ID number and last name. This simple log-in will search the network(s) available to the individual based on their home address (i.e. Sanford Health Plan, PHCS Healthy Directions and MultiPlan, PreferredOne). For new hires or anyone else simply wanting to view the Sanford Health Plan network who does not have a Member ID, our website still displays the local Sanford Health Plan service area and national networks. This website is updated on a weekly basis and Sanford Health Plan conducts ongoing audits to ensure the validity of the information available to our members through the internet. However, Sanford Health Plan has worked with a variety of national wrap networks and is willing to accommodate networks arrangements that meet NDPERS' needs.

53. **Confirm your willingness to negotiate and maintain NDPERS-specific provider contracts to allow for cost control mechanisms and alignment of contract and plan years. Describe your process and approach for accomplishing this.**
Sanford Health Plan is committed to negotiate and maintain NDPERS-specific provider contracts and does not foresee any operational difficulty in completing this task prior to 7/1/15. We will assign regional Provider Relations Representatives to systematically meet with providers to amend existing provider contracts that align with the state's cost control needs.

54. **Do you anticipate any significant provider contract changes for 2015? Describe.**
Not at this time.

SANFORD HEALTH PLAN

Cost, Quality, and Pay for Performance

55. **Describe the programs and methodologies currently in place to gather and measure meaningful provider quality and efficiency data that can be shared with members.**
    Please refer to our HEDIS report in Attachment D for detailed information about our provider and quality measures.

56. **Describe in detail the performance standards you currently have in place with your contracted physicians, provider groups, hospitals, and other providers. Outline the types of measures utilized, how you monitor and track these measures, how providers are held accountable, and how frequently the data is compiled and shared with the physicians and provider groups.**
    Sanford Health Plan currently has the infrastructure in place to track and tie provider performance measures to a variety of reimbursement strategies. As described previously, Sanford Health Plan would welcome NDEPRS into a medical home model that meets the needs of state employees and NDPERS cost containment strategies. Performance standards using Sanford Health Plan's Patient and Population Management modules may include but are not limited to:

    - Patient risk stratification by medical condition and severity-of-illness.
    - Integration of patient "gaps-in-care" measures with the identified high-risk patients using unique, claims-based measures from nationally recognized organizations.
    - The ability to identify physicians involved in the treatment of the patient in the medical home model.
    - Identifying variables that contribute to the patient predictive risk score to effectively manage our patient population.
    - Ability to include lab values and other clinical results (e.g., blood pressure) that is extracted from the patient's electronic medical record.
    - The ability to focus on patients with "Repeat ER" and "Repeat Admissions" and determine the reasons behind these high-cost events.
    - Identifying the services most associated with physician inefficiency, by specialty type identified at either the overall or medical condition level for each specialty type.
    - Identifying common "markers" from national comparative datasets across regions, to provide the state with comparative rates for these "markers", at the 25th, 50th and 75th percentiles allowing the state to see not only where a physician's rates are as compared to their peer group, but also to compare their region's rates to national data.
    - Pinpoint the specific services (CPT-4 codes), medical conditions, and physician specialty types (including PCPs) to initially manage to maximize cost savings and effectiveness improvement.
    - Identifying and addressing providers that display inefficient patterns of care based on performance markers. The inefficient pattern can be concisely supported using a Provider Profile reports showing physicians how they compare to the peer group in their specialty that are driving their efficiency score.

57. Describe your participation in pay-for-performance initiatives. To what extent do these activities impact the health care costs of NDPERS or claims incurred by its covered population?

As described in Section 8 of this RFP, our goal would be to develop a medical home shared risk structure for the North Dakota marketplace that would be mutually agreed upon. We currently envision this arrangement to come in the form of a fully-capitated or Episode of Care model. We would also like to jointly develop targets across disease states or processes that are important to the North Dakota population and are willing to accept an incentive based payment structure structured around these targets.

Our goal would be to incorporate the NDPERS employees into a medical home model, titled "Sanford One Care" including all required infrastructure (reporting templates and contracting templates) in all of Sanford's applicable locations. For example, our combined relationships in North Dakota communities would allow our potential partnership to expand geographically and provide mutually beneficial results as we define and work towards common goals.

Sanford One Care will achieve a rapid and effective change through the deployment of expert training teams, new curriculums and a unique system of ongoing mentorship and consultation.

1. NDPERS employees will be treated in a new medical home that transforms primary care. Sanford One Care will establish the disposition that the role of healthcare is to enable patients to become active participants in their health rather than consumers of episodic services. This way of thinking is aimed not only at physicians, but all of allied health and the general population and accomplished through providing resources to make the paradigm shift. Training and development, technical assistance and health information technology resources embedded into this project are designed to support this transformation.

2. RN Health Coaches will be integrated into the redesigned care centers, to promote maximum patient engagement and personal health management, improved access and communication through non-traditional channels (personal health records, email, e-visits, etc.), and enhanced patient satisfaction. A Health Coach is a Registered Nurse specifically trained to coordinate patient care, conduct motivational interviews, establish patient centered goals for behavioral and/or lifestyle changes, manage quality improvement activities, and report data. Each Health Coach must attain a level of competency as demonstrated by skill assessments and competency checklists. Deployment of RN Health Coaches will initiate the integrated, team-based care to support better health, better care, and cost efficiencies. Workforce development activities aim for a ratio of 1:5 RN Health Coaches to primary care providers.

3. Behavioral health services will be integrated into the care center resulting in enhanced education, improved access to care, improved support to patients to modify behaviors, and more comprehensive collaborative treatment options. A key component of this proposal is enabling access to behavioral health care through new processes integrating behavioral health care professionals into patient-centered health care teams in primary care settings. In rural areas,

previously without access to behavioral health professionals, remote technology will enable the deployment of an integrated Behavioral Health Triage Therapist to provide diagnostic, acuity, and complexity assessments so that he patients can be triaged to the most appropriate level of collaborative care. Psychologists and psychiatrists from other regions in our health system will be able to partner with rural clinics through this technology to offer team consultation to the primary care team and direct clinical services via telehealth technology as needed to patients in the remote clinic sites. It is well documented that that most behavioral health conditions go unrecognized and undiagnosed, that even once identified, only half of the individuals will ever receive any treatment at all. Workforce development activities aim for a 1:10 ratio of Behavioral Health Triage Therapists to primary care providers.

4. Sanford One Care will maximize information technology to manage individual care opportunities, and transition to population care management in the future. Sanford Health's EPIC-based electronic medical records system, branded Sanford OneChart, provides the platform for connectivity to deliver a seamless experience across the large rural healthcare network. An innovative webbased adaptation will extend Sanford OneChart to include "MyChart" and "MyConditions," giving patients convenient access to view their medical record, lab results, preventive care topics, and patient-centered flow sheets.

   Additionally, MyChart and MyConditions enable patients to communicate with their healthcare teams and provide a central place to view both provider and patient entered flow sheet information to monitor chronic health conditions. To improve monitoring, a standardized patient registry will be enabled to produce recurrent reports, graph selected measurements, and generate patient-specific reports at the point of care for evidence based care standards and optimal chronic disease management. Behavioral health screening tools will be electronic, enabling patients to complete behavioral health assessments on line. Patients and the care team will also use electronic tools for completion of satisfactions surveys.

5. Measurement of success will be through standardized and transparent clinical metrics at region, clinic and individual physician levels, comparing performance to internal and external best practice benchmarks. The decision support team will work with the Methodology and Data Analysis team at Sanford Center for Health Outcomes and Prevention Research for a thorough self-evaluation.

   Formative evaluations will guide the project operations and implementation while summative evaluations are designed to assess this project's impact on the three-part aim of better care, better health, and lower costs through improved quality. Quality indicators and continuous improvement methods addressing patient satisfaction, utilization, clinical quality, and patient access are detailed in the evaluation section of this proposal. Additional measures of success presented include operational performance and the impact on lower costs. The hypothesis supporting this transformation is that workforce redesign and integration of behavioral health and primary care practice will improve adherence to quality standards of care while concurrently improving clinical outcomes and efficient

utilization of resources—cumulating in reduced healthcare expenditures, and strong patient and employee satisfaction.

Credentialing and Contracting

58. Briefly describe the initial credentialing process. How often are physician, hospital and other contracts (labs, imaging facilities, DME, home health care) reviewed?

Sanford Health Plan has an extensive provider credentialing and re-credentialing process. The minimum criteria for provider selected to the Sanford Health Plan network are that they must possess all of the necessary credentials required by NCQA. Those requirements include an active license in the state in which they practice, an active DEA license if they prescribe drugs, verified graduation from medical school or board certification, current malpractice insurance and verification and review of any malpractice claims, verification of work history and explanation of any gaps in work history, as well as a review of any reasons for any inability to perform the essential functions expected by the provider's specialty, lack of present illegal drug use, any history of loss of license and felony convictions, history of loss of privileges or disciplinary activity, as well as any discrepancies between the information gathered versus the information provided by the practitioner. Providers are credentialed every 3 years.

SANFORD HEALTH PLAN

Reimbursement and Discounts

NOTE: THE BELOW QUESTIONS 59 THROUGH 63 ARE MARKED AS PROPRIETARY AND CONFIDENTIAL.

SANFORD HEALTH PLAN

Performance Standards and Guarantees

As described in Section I. Overview, of this RFP, health plan vendors are required to comply with performance standards and guarantees that include a financial incentive/forfeiture which is negotiated as part of the renewal process. See appendix H for a copy of these performance standards and guarantees. You are required to offer your performance standards and guarantees for the board's consideration using appendix H. It is a priority for the board to have a comprehensive set of standards and guarantees relating to this plan.

64. Please confirm you have completed appendix H and confirm your willingness to comply with the performance standards and guarantees or provide suitable alternatives. Identify any additional standards and metrics your organization would be willing to include.

Sanford Health Plan is committed to match the current performance measures and dollars at risk. In Addition to these standards, Sanford Health Plan welcomes mutual evaluation of additional standards in coordination with the state to help meet cost containment or wellness initiatives.

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
Cost Management:			
By December 31, 2014, 17% of NDPERS members have completed a Health Risk Assessment (currently at 15.5%).	$0.00	$15,000	By December 31, 2015, 10% of NDPERS members have completed a Health Risk Assessment
By December 31 2014, NDPERS will have a 5% point increase in the NDPERS group aggregate HRA wellness score.	$0.00	$10,000	By December 31 2016, NDPERS will have a 5% point increase in the NDPERS group aggregate HRA wellness score.
By December 31, 2014, HealthyBlue NDPERS group aggregate incentives paid for HealthyBlue redemptions will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	By December 31, 2015, 10% of NDPERS members will have created a myHealthPlan account where they can access our beWell Health Management Tool and the incentive program.
2014 annual percentage average of NDPERS members receiving the Health Club Credit will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	By July 1, 2016 annual percentage average of NDPERS members receiving the Health Club Credit will meet the 2014 annual NDPERS rate.
Health Outcomes:			
80% of the NDPERS population will be enrolled in a medical home.	$0.00	$15,000	By July 1, 2016, 30% of the NDPERS population will be enrolled in a medical home.

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
HEDIS-like measures breast cancer screening rates will be at least 80%.	$0.00	$15,000	HEDIS-like measures breast cancer screening rates will be at least 80%
HEDIS-like measures cervical cancer screening rates will be at least 85%.	$0.00	$15,000	HEDIS-like measures cervical cancer screening rates will be at least 85%
HEDIS-like measures colorectal cancer screening rates will be at least 60%.	$0.00	$15,000	HEDIS-like measures colorectal cancer screening rates will be at least 60%
Provider Network Management:			
BCBSND will maintain an NDPERS PPO network consisting of 92% or more of the in-state hospitals, MDs and Dos that participate in the Company's Par Network.	$0.00	$75,000	Amount incorporates a requested increase from the current level By Dec. 31st, 2015 SHP will maintain an NDPERS PPO network consisting of 85% or more of the in-state hospitals, MDs an DOs that participate in the Company's Par Network.
BCBSND guarantees NDPERS a minimum provider discount (1-(Allowed/Billed)) of 30% for Non-Medicare contracts.	$0.00	$140,000	SHP guarantees NDPERS a minimum provider discount from in-network providers (1-(Allowed/Billed)) of 30% for Non-Medicare contracts.
Operational Performance:			
Claims Financial Accuracy will be 99% or greater.	$0.00	$25,000	Claims Financial Accuracy will be 99% or greater
Claims Payment Incidence Accuracy will be 97% or greater.	$0.00	$25,000	Claims Payment incidence Accuracy will be 97% or greater
Claim Timeliness – claims processing within 30 calendar days will be 99% or greater.	$0.00	$25,000	Claim Timeliness – claims processing within 30 calendar days will be 99% or greater
Average Speed of Answer will be 30 seconds or less.	$0.00	$25,000	Average Speed of Answer will be 45 seconds or less
Abandoned rate will be 5% or less.	$0.00	$25,000	Abandoned rate will be 7% or less
Requested New Standards/Guarantees:			
Provide a standard by which interest rates will be set at a level at least as favorable to NDPERS as the current methodology	$0.00	$50,000	The interest rate utilized currently is based on the US Treasury Notes quoted by the Wall Street Journal

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
Provide a guarantee on Rx rebates that will be passed-through to NDPERS	$0.00	$10,000	100% of Rx rebates will be passed-through to NDPERS
Total	**$0.00**	**$500,000**	

SANFORD HEALTH PLAN

Pharmacy Benefits Management Services

65. Describe your company's experience with administering pharmacy benefits. Provide a summary that includes the number of years that your company has provided such services, number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.

Sanford Health Plan has been partners with Express Scripts Inc. for over a decade, administering pharmacy benefit plans for approximately 300 groups since inception and over 96,000 members currently including 2,500 Medicare supplement members. Most large employers have multiple payroll processing centers. Non of Sanford's clients currently have a Medicare Part D program administered by Sanford Health Plan. Sanford Health, and the Joint Venture Group School Pool would be our largest clients with multiple payroll processing centers.

You can view our formulary online at www.sanfordhealthplan.com. Sanford Health Plan has a closed formulary system and offers the employer group their choice of copay options. The current formulary is approved by the Physician Quality Committee on an annual basis in January.

Pharmacy Reports

Trend Central My Standard Reports is an online reporting tool divided into the following categories:

- Benchmark Reports — Compare program performance using data from clients of similar geographical location, industry or group type, or size. Users analyze benchmark information to assist in making decisions related to benefit plan changes.
- Billed Date Report — Lag triangle reports that include billing information and claim count by month with totals by month for the entire period. Users assess the lag time between a claim service date and the date the claim was billed to a client. Billed date reports match client billing and are used for reconciliation reporting.
- Drug Reports — Ranking, detail, and drill reports by drug and therapeutic levels to demonstrate and assist in analyzing drug patterns.
- Key Performance Metrics — Executive-level pharmacy program key performance metrics, which refer to period-over-period statistics. These indicators, typically at the claim level, provide the information most requested by clients. Key Performance Metric reports break out to the group or demographic levels of your choice, based on the eligibility information you provide to Express Scripts.
- Patient Analysis — Various reports at the member utilization level that provide cost breakdown information.
- Pharmacy Reports — Pharmacy-level reports that depict utilization by ranking claims for drug and member.
- Prescriber Reports — Ranking, detail, and drill reports by prescriber to demonstrate and assist in analyzing prescribing patterns.

- Prescription Detail — Utilization reports that demonstrate prescription drug detail across a variety of categories.
- Products and Services Reports — Summary and detail reports for claims processed for products and services, such as Prior Authorization. Various data components are captured for each product (for example, Prior Authorization coverage review requests, including approvals and denials).
- Ranking and Trend Reports — Ranking reports that depict utilization at the prescription and provider levels by ingredient cost. Users compare the current reporting period to historical performance.
- Specialty Drug Reports — Collection of reports, including key performance indicators, ranking, detail, benchmarking, and trending, used to retrieve utilization information on all specialty drugs.
- Utilization Summary Reports — Suite of report templates users employ to quickly retrieve summary information. These reports can be used to drill down into varying levels of utilization detail, such as highest-cost therapeutic classes, physician prescribing, retail pharmacy network, formulary, drug, therapy class, mail service pharmacy, and member demographics. The reports identify cost drivers and identify plan management opportunities.

Please see Attachment G for a sample prescription drug report package.

Sanford Health Plan provides thoughtfully designed, effective formulary compliance tools that help Members reduce overall prescription drug costs by encouraging utilization of generic and formulary drugs. The Sanford Health Plan drug formulary was designed with a copay structure that also gives the Member the cost saving advantage of choosing a generic medication. In certain categories only generic drugs are covered and in others generics are covered at the lowest copay and the Brand product at the highest copay. (Generics Preferred Program).

Sanford Health Plan utilizes a variety of methods for controlling the cost of prescription drugs. The following programs are offered to both Members and Providers by way of mail, telephonic or at the point of sale utilizing the Express Scripts claims adjudication system.

- Generic Preferred: Generic utilization program that promotes generic through economic incentives.
- $0 Copay: generic utilization program that promotes generics by having a $0 copay for a specific generic drugs (often tied to a disease management program). This plan is cost effective when the brand to generic cost differential is substantial.
- Drug Choice Program: Member and provider communications promoting the use of therapeutically equivalent generics and/or preferred brand drugs.
- Prior Authorization: Prior authorization protocols are enforced through concurrent analysis of pharmacy claims.
- Step Therapy: Step Therapy protocols apply to online clinical algorithm to second-line drugs at the point of service that requires Members to try a first-line therapy drug before a second-line drug.
- Formulary Compliance: Member education on how to use the formulary and reasons why.

- Pill-Splitting Program: Specific categories of drugs (those that are flat priced) are offered for at a 2 month supply for one (1) copay in order to increase compliance with medication and decrease the copay price burden to a Member.
- Quantity Level Limits: to ensure that medications are dispensed following the manufacturer guidelines or evidenced based medicine protocols based on patient safety.
- Peer Review Programs: Address the appropriate prescribing practices with physicians and midlevel providers

Sanford Health Plan maintains a transparent Prescription Drug program. We develop the formulary internally utilizing the most cost-efficient and effective methodologies for each drug category therefore making the drug program transparent. We use an internal evaluation process to assure the most effective prescription drug is listed in your formulary. The evaluation process utilized by the Physician Quality Committee is that each category of medications is reviewed on an annual basis to determine clinical efficacy of the medications on the formulary and their pricing structure as it relates to compliance, efficacy, plan cost, member cost, ingredient costs, single-source vs. multi-source, patent expiration, rebate possibility, count of pills per day utilization, and regional medical norms.

Member Communication of Pharmacy Program Information

Sanford Health Plan has an effective communication process in place for notifying our Members of changes affecting their pharmacy program. Members are notified of the following changes through these communication modes:

- Drug additions – Member Newsletter, website
- Changes in formulary status – On an annual basis, website, Member Newsletter
- Changes in the network - website
- Ineligible, banned or recalled drugs – Personal letters to Members and Providers
- Refills – At the time of retail fill

In the situation that a newly approved generic drug is now available, the Plan would determine that it demonstrate efficacy equivalent to a preferred brand counterpart—yet at a lower cost we add that new drug to the formulary. At times, the Plan may decide to remove the equivalent Brand product from the formulary and move the market share to the new generic. However, if the newly approved generic is more expensive than the preferred brand counterpart we do not add that product to the formulary and wait until it becomes cost neutral for the Plan, the Member and the Employer group.

Sanford Health Plan notifies Members each quarter with formulary updates in its Member newsletter. The formulary is updated on an annual basis and Members are notified of changes in the Member newsletter. Prior to any deletions or copay changes to the formulary our Members and prescribing Providers receive letters to ensure they understand the change, reason why this is occurring and to provide enough time to get new prescriptions written or to schedule an office visit to discuss change with a

physician. All formulary additions, deletions and/or cost saving strategies are provided on the Sanford Health web site as well as on the Express Scripts web site when the Member signs up for the free services.

Sanford Health Plan has an exception process in place for any Member or Physician who have tried a formulary product and failed.

Claims Payment Process for Pharmacy Claims

The Member receives a prescription from their physician and takes this to their local retail pharmacy to be filled. The Member shows their ID card at the time of the prescription fill so that the retail pharmacy can apply the correct benefits. The local retail pharmacist adjudicates the prescription on-line utilizing their link to the Express Scripts database. Express Scripts has successfully loaded Sanford Health Plan's Formulary with all requirements so that the prescription will process at the proper copay amount or the system will notify the pharmacist of any issues or rules that are required to be followed before the processing on-line can occur. Messaging from Express Scripts the pharmacist may incur is prior authorization required, quantity level limit, or step therapy edits to name a few. Once this occurs the pharmacist is required to call the Utilization Management Department of Sanford Health Plan to continue. If any messaging appears the prescription claim will not process until the issues is handled. If there is no message, the claim will process with a copay amount and the process is completed.

Sanford Health Plan does not cover medications that are filled at a non-participating pharmacy unless an emergency situation arises and then authorization is provided at that time.

For new groups, Sanford Health Plan is experienced in ensuring a smooth transition to our network and formulary in order to minimize disruption. First of all, Sanford Health Plan provides Formulary education in writing in the Members' enrollment packet instructing the Members to call if have any questions or note any formulary disruption prior to the transfer to the new plan.

Secondly, group education about the Formulary and the drug benefit will be provided at the enrollment meetings in each location. Employees will have the opportunity to provide their name and telephone number to a Sanford Health Plan Client Services Representative so that she can provide that information to the Utilization Review Department where a health care professional will complete an outbound call to the Member and assist in the conversion to a Formulary product, notify the Members physician for a letter of medical necessity or provide authorization for a non-formulary product or answer any questions they may have regarding the medication in question.

66. Describe your company's expertise and experience in implementing PBM services for a program that is comparable in size to the NDPERS program, based on the number of covered lives.

Sanford Health Plan effectively manages approximately 350 unique prescription drug benefit plans across all products lines, within four states' regulatory environments for over 96,000 members. Our generic fill rates consistently runs at 76% which is below the national average of ESI's overall HMO book of business generic fill rate of 74.6%.

67. Describe your mail order pharmacy program and provide details on how you market this service.

Specialty Drugs

Sanford Health Plan currently subcontracts specialty drug services to Curascript, a wholly-owned subsidiary of Express Scripts. All Plan Members must prior authorize specialty medication and it must be obtained through Curascript's mail order program. Medication protocols have been approved the Plan for the following conditions and the Member and Physicians office are notified of the process to obtain the medication from Curascript once medical necessity has been determined for the Member. Curascript clinicians are required to call the Plan for any Member who does not meet established clinical criteria for medical necessity determination and they are not able to deny any Member medical services unless it was reviewed and discussed by the Plan's Chief Medical Officer. Approved medication is shipped to the Member's home, physician office or home health agency based on the physician's orders.

Curascript offers clinical support to the Plan in the following disease state areas: Bleeding Disorders, Hemophilia Factor, Hepatitis C, HIV, Multiple Sclerosis, Psoriasis, Cancer, Respiratory Syncytial Virus (RSV), and Rheumatoid Arthritis.

Member financial responsibility is based on the type of specialty medication and the place of service. The specialty drug benefit either applies to the Members pharmacy Brand name copay or to the deductible and coinsurance level.

Curascript clinicians facilitate disease state education, conduct scheduled follow-up calls with patients, reviews appropriate dosing schedules and counsel members on side-effect management and general patient concerns. The core elements of the clinical program include: A patient admission process that includes benefit investigation and management, nursing coordination for teaching and instruction, patient assessment for educational needs, and clinical evaluation. Patient care coordinators take a proactive role in coordination prescription needs, facilitate product delivery, maintain insurance authorizations, monitor adherence, and perform clinical screening risk assessments (Ongoing risk assessment, monitoring, and clinical intervention when appropriate from licensed nurses. Ongoing compliance monitoring using a coordinated effort from the entire patient care team). Social services referrals are available from the on-staff social services team.

Finally detailed Plan reporting is provided by Curascript in order to determine clinical and financial effectiveness of the program.

Sanford Health Plan continues to monitor specialty market trend and are actively involved with Express Scripts. The Plan's President is part of an active leadership team

at Express Scripts that deals with emerging drug technology and trend providing insight and collaboration as it relates to the future of pharmaceuticals in relationship to overall health care initiatives.

This service is marketed during open enrollment sessions, and communicated via member handbooks, certificates of coverage and direct patient/pharmacy communication based on claim utilization.

68. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H?

Requested New Standards/Guarantees:			
Provide a standard by which interest rates will be set at a level at least as favorable to NDPERS as the current methodology	$0.00	$50,000	The interest rate utilized currently is based on the US Treasury Notes quoted by the Wall Street Journal
Provide a guarantee on Rx rebates that will be passed-through to NDPERS	$0.00	$10,000	100% of Rx rebates will be passed-through to NDPERS

Services Provided to the NDPERS

69. Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2013 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:

a. Amount of time needed for implementing the new program

Sanford Health Plan is able to configure, test and go live with a new prescription benefit package within 6 months. Medicare Part D timelines will follow CMS standards.

b. Recommended activities/tasks and timing

The following tasks would be completed in concert with the medical package program build.

Date	Task	Responsibility
Oct. 2014	Award Notification	NDPERS
October 2014	Sign Administrative Services Agreement between Sanford Health Plan and NDPERS	NDPERS and Sanford Health Plan
Nov. 2014	Begin implementation and operations • Amending Provider Agreements for NDPERS-specific discounts • Develop Summaries of Benefits and Evidence of Coverage (Member Policy) • Develop NDPERS-specific forms and documents (ID cards, applications, provider manual, policies and procedures) • Begin system configuration of benefits, claim edits and rules	Sanford Health Plan
Jan. 2015	Develop Marketing and Communication Plan	
April 2015	Begin Open enrollment meetings and health fairs	
May 2015	Procedure for employee enrollment transaction determined. This could include electronic file transfer, paper enrollment or electronic enrollment via Sanford Health Plan's enrollment system, *myHealthPlan* Employer Portal.	NDPERS & Sanford Health Plan
30 days prior to effective date	Applications processed and Identification Cards are printed and mailed to member's home address.	Sanford Health Plan

c. Responsibilities of the vendor and the NDPERS staff.

Please see above.

d. Transition with incumbent, including providing members 90 day notice regarding formulary changes, and the communication of transition issues to all plan members.

Sanford Health Plan will provide employees with personalized letters identifying formulary changes, alternative drug options and cost impact 90 days prior to the change.

e. Length of time implementation team will be available and accountable to NDPERS.

Sanford Health assures NDPERS that the implementation team and executive management team is available and accountable to NDPERS not only during the implementation process, but also indefinitely after the contract effective date.

f. Identify the staff members, by area of expertise, who will be assigned to the implementation team.

Sanford Health Plan's implementation team for the medical plan will also be the conduit for the prescription drug design, build, test, and go-live period. The Plan's COO and CMO are the lead persons for assigned to the NDPERS prescription drug plan along with the NDPERS Director.

Formulary

70. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents. At a minimum include the following:

i Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.

Please see Attachment E for a copy of the Sanford Health Plan formulary for non-Grandfathered group plans.

Please see Attachment F for a copy of the Pharmacy Directory.

Sanford Health Plan maintains a transparent Prescription Drug program. We develop the formulary internally utilizing the most cost-efficient and effective methodologies for each drug category therefore making the drug program transparent. We use an internal evaluation process to assure the most effective prescription drug is listed in your formulary. The evaluation process utilized by the Physician Quality Committee is that each category of medications is reviewed on an annual basis to determine clinical efficacy of the medications on the formulary and their pricing structure as it relates to compliance, efficacy, plan cost, member cost, ingredient costs, single-source vs. multi-source, patent expiration, rebate possibility, count of pills per day utilization, and regional medical norms.

Sanford Health Plan notifies Members each quarter with formulary updates in its Member newsletter. The formulary is updated on an annual basis and Members are notified of changes in the Member newsletter. Prior to any deletions or copay changes to the formulary our Members and prescribing Providers receive letters to ensure they understand the change, reason why this is occurring and to provide enough time to get new prescriptions written or to schedule an office visit to discuss change with a physician. All formulary additions, deletions and/or cost saving strategies are provided on the Sanford Health web site as well as on the Express Scripts web site when the Member signs up for the free services.

Sanford Health Plan has an exception process in place for any Member or Physician who have tried a formulary product and failed.

ii Describe how drugs are evaluated for possible inclusion on the formulary.

Express Scripts provides pharmacy benefit management services to Sanford Health Plan. Sanford Health Plan has customized an Express Scripts formulary to meet the health plan's needs.

Sanford Health Plan's Express Scripts account team provides formulary consultation, including modeling tools that support informed formulary decisions and reports that demonstrate overall program effectiveness. Our formulary management provides:

- Clinically objective information from a pharmacy benefit manager that is independent of pharmaceutical manufacturer or chain pharmacy ownership
- Flexibility that enables you to implement and maintain a custom formulary
- Predictable impact, savings, and rebates
- Modeling tools and reports that help you fine-tune your program

Throughout the plan term, the Clinical Program Manager (CPM) serves as Sanford Health Plan's primary contact for clinical information:

Formulary Modeling — The CPM addresses each drug-cost component when helping Sanford Health Plan evaluate products for the formulary, including drug cost net of rebate and pharmacy network discount. The clinical program manager also evaluates utilization data to demonstrate the impact of formulary decisions that Sanford Health Plan may consider implementing and whether changes involve drug placement or benefit-design modification. The standard turnaround time for this modeling is five business days.

Sanford Health Plan P&T Committee Attendance — The Express Scripts CPM attends pharmacy and therapeutics committee meetings to present formulary-placement recommendations, which include impact on member costs

Formulary Management — Express Scripts supports the formulary at the point of service. The clinical program manager identifies formulary compliance and trend-management programs to increase utilization of generics and preferred brand products.

Formulary Updates — The CPM coordinates changes to the formulary file and claims processing system. Quality assurance checks are built into the system to ensure accuracy. Starting on the formulary change's effective date, Express Scripts supports the updated formulary through online pharmacy messaging.

Express Scripts evaluates drugs for possible inclusion on its formularies through this process.

Formulary Drug Selection and Approval Process

The Express Scripts formulary development process calls for a focus on clinical factors, with financial considerations coming into play only among clinically comparable or optional products. This results in clinically sound, cost-effective formularies for our plan sponsors and their members. Our process involves three committees:

SANFORD HEALTH PLAN

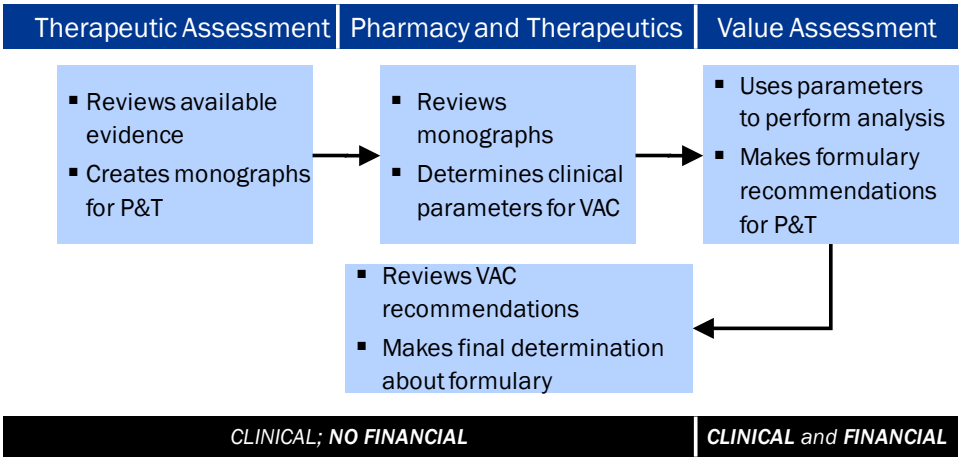
1. Therapeutic Assessment Committee, which reviews drugs based on clinical attributes. This committee includes the Office of Clinical Evaluation & Policy's vice president and medical director, the director of the Drug Evaluation Unit, and nine additional clinical pharmacists who represent areas such as product management, account services, emerging therapeutics, clinical programs, specialty pharmacy, and utilization management services.
2. National Pharmacy & Therapeutics Committee, a fully independent body that makes final formulary determinations. The committee comprises 18 independent physicians and one independent pharmacist who are not employed by Express Scripts. Committee members ensure Express Scripts formularies remain CMS-compliant.
3. Value Assessment Committee, which evaluates the net cost of drugs to Express Scripts, our plan sponsors, and their members. This committee includes representatives from product management, formulary management, rebate, finance, and account management who evaluate current and future market dynamics, economic considerations, and client needs.

The following illustrates the formulary development process and the roles of these committees:



As illustrated, our Pharmacy & Therapeutics Committee is insulated from financial considerations and has ultimate authority in our formulary development process.

SANFORD HEALTH PLAN

Formulary Committees

The following table details the composition and responsibilities of each committee involved in the formulary development process:

Name	Members	What They Review	Considerations
Therapeutic Assessment Committee	Vice president of the Office of Clinical Evaluation & Policy, medical director of the Office of Clinical Evaluation & Policy, director of the Drug Evaluation Unit, and nine clinical pharmacists representing various departments	Food and Drug Administration reports, clinical trials, peer-reviewed medical information, manufacturer data, utilization management criteria, clinical programs	Clinical, NOT financial
National Pharmacy & Therapeutics Committee	18 independent physician members and one independent pharmacist from active community and academic-based practices	Clinical information (formulary evaluation, place in therapy, and competitive product category overviews) for medications newly approved by the Food and Drug Administration	Clinical, NOT financial
Value Assessment Committee	Experts from the following departments: 1. Product Management 2. Formulary Management 3. Rebate 4. Finance 5. Account Management	Financial implications of "optional" medications for Express Scripts, clients, and members	Financial

SANFORD HEALTH PLAN

Formulary Evaluation Designations — Include, Optional, Exclude

Each drug evaluated for inclusion on our standard formularies receives one of three designations: include, optional, or exclude. Criteria for each designation follow:

Include	Optional	Exclude
• Unique treatment indication • Efficacy superior to that of existing therapy alternatives • Unique pharmacology or a unique status in therapy • Safety profile superior to that of existing therapy alternatives	• Designation based on acceptable clinical efficacy, as well as clinical equivalence to comparable drugs currently on the formulary • May receive a formulary or nonformulary recommendation based on financial analysis	• Insufficient data to make an effective evaluation • Efficacy inferior to that of existing therapy alternatives • Safety profile inferior to that of existing therapy alternatives

iii Describe the basis of your formulary development and maintenance?

Express Scripts makes additions to the formulary on a daily basis. For most standard formularies, we make deletions annually. For the High Performance Formulary, we make deletions twice a year, on January 1 and July 1. We notify clients and members at least 60 days in advance.

In addition, Express Scripts maintains an asterisk deletion list. Near the end of each year, prior to printing the next year's formulary list, Express Scripts notes with an asterisk (*) each brand drug that is due to lose patent protection soon. When the patent of a brand drug expires: (1) chemically equivalent generic drugs enter the market, (2) maximum reimbursement amount is scheduled for each generic, (3) Express Scripts notifies clients at least 30 days in advance via an Emerging Therapeutic Intervention announcement. This notification details the patent expiration, the brand's nonformulary status (at the beginning of the next month), and the newly available formulary generic equivalent(s).

Finally, with respect to Sanford Health Plan's customized formulary, as noted in response to the previous question, the CPM coordinates changes to the formulary file and claims processing system. Quality assurance checks are built into the system to ensure accuracy. Starting on the formulary change's effective date, Express Scripts supports the updated formulary through online pharmacy messaging.

iv Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.

In developing our formularies, Sanford Health Plan's Pharmacy & Therapeutics Committee in concert with Express Scripts first considers clinical efficacy, then cost. If the Pharmacy & Therapeutics Committee determines a drug is clinically necessary, it is added to the formulary regardless of cost.

Occasionally, there are situations when the average wholesale price of the preferred drug is higher than that of the nonpreferred drug. For example, in the Insulin therapeutic class, Lantus is offered on our formularies due to clinical considerations.

Additionally, we include some higher-cost drugs on our formularies due to member disruption concerns (for example, Premarin), the need to offer member choice (antibiotics or birth control), and substitution concerns (specialty products).

- **What is your definition of a Generic Drug?**

  Sanford Health Plan defines generic drugs as drugs that (1) are approved by the Food and Drug Administration (FDA) as a therapeutic equivalent to the Brand Name Drug; (2) contain the same active ingredient as the Brand Name Drug; and (3) cost less than the Brand Name equivalent.

SANFORD HEALTH PLAN

Management of Clinical Programs

71. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.

a. Drug Utilization Reviews - retrospective, concurrent and prospective.

b. Disease Management

c. Medication Therapy Management

Sanford Health Plan's utilization review procedures, disease management programs and medication therapy management are incorporated in the Utilization Management daily operations and the Care Management program described above.

72. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

No, Sanford Health Plan conducts random claims audits in addition to "for cause" utilization case reviews.

73. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	**2013**	**2014 YTD**
SANFORD HEALTH PLAN BOOK OF BUSINESS			
Generic utilization rate	78.5%	80.8%	81.9%
Generic substitution rate	98.7%	98.3%	98.7%
NORTH DAKOTA			
Generic utilization rate	82.2%	84.96%	86.22%
Generic substitution rate	97.28%	97.85%	99.1%

74. How many MAC lists do you have for pharmacies and clients? If more than one, which list will you use for NDPERS?

	Number of MAC lists
Pharmacies	One
Clients	One

75. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

Express Scripts prices claims based on Average Wholesale Price (AWP) minus your contract-specific discount for brand and generic prescriptions, MAC/MRA, or at the Usual and Customary (U&C) price.

AWP Source

Express Scripts currently utilizes Medi-Span as our vendor for all pricing-related fields, including AWP, wholesale acquisition cost, obsolete date, pack size, and unit of measure, to ensure consistency of data.

Medi-Span offers the following qualities:

- Standardized at the national level
- Widely available and accepted by the vendor community
- Stable and predictable
- Updated on a regular basis
- Applicable for generic and brand drugs, as well as home delivery and retail channels

Drug File Updates

We receive daily drug file updates, including amendments to drug file pricing, from our pricing source. The pricing updates are loaded in our system and made effective at midnight on the date they are loaded. Systematic processes ensure the updates are properly loaded into the system; a manual review also takes place according to our audit requirements. We store historical price file information indefinitely.

Trend Analysis

76. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:

a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs;

Sanford Health Plan meets with Express Scripts frequently to discuss trends, strategies, quality, and cost-effective plan initiatives.

Please refer to Attachment G for a sample prescription drug report package.

Bi-Weekly and Monthly Meetings

Sanford Health Plan and our account management team conduct bi-weekly phone calls to discuss program performance and address any questions you need answered. Additionally, we are able to meet monthly for more detailed conversations related to the plan, your members' benefits and utilization, and Sanford Health Plan's questions or concerns, if any.

Quarterly Meetings

Our Managed Care Service Model includes a strategic client planning process that encompasses quarterly reviews. Together, Sanford Health Plan and Express Scripts set the agenda for the quarterly meeting, which typically includes topics such as:

- Overview of initiatives in process
- Review of communication strategies related to planned changes
- Review of quarterly plan performance, including financial, clinical, and operational metrics

When considering plan changes, our account team may engage a PharmacoAnalytics consultant to evaluate the impact plan changes may have on your pharmacy trend.

Our account team also utilizes the PharmacoAnalytics quarterly reporting package — the Costs and Trends Snapshot — which is focused on monitoring plan performance.

A sample of the report is below.

Collaborative Planning Sessions

Express Scripts' client planning process is an ongoing, joint effort that incorporates scheduled meetings, including the annual Collaborative Planning Session. Agenda items for the Collaborative Planning Session are prioritized based on our needs and requests; we work with ESI to formulate an agreeable outline. Topics typically discussed during the Collaborative Planning Session include:

- Status update

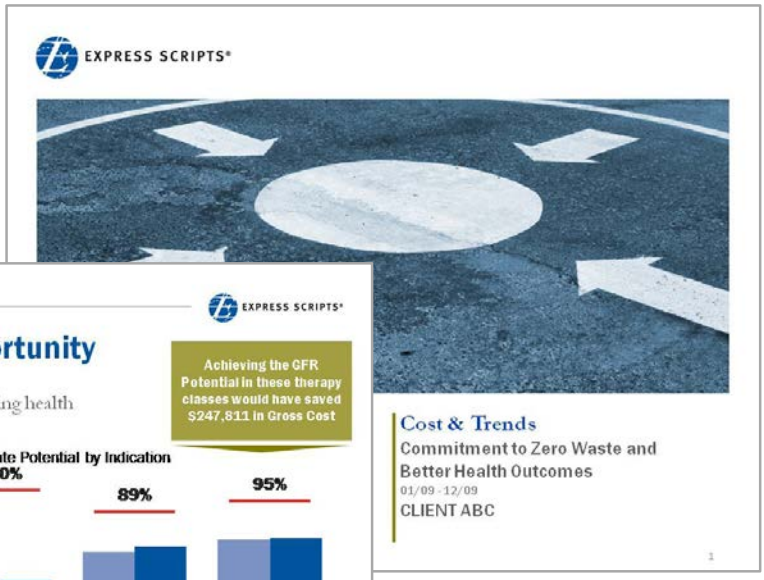
SANFORD HEALTH PLAN

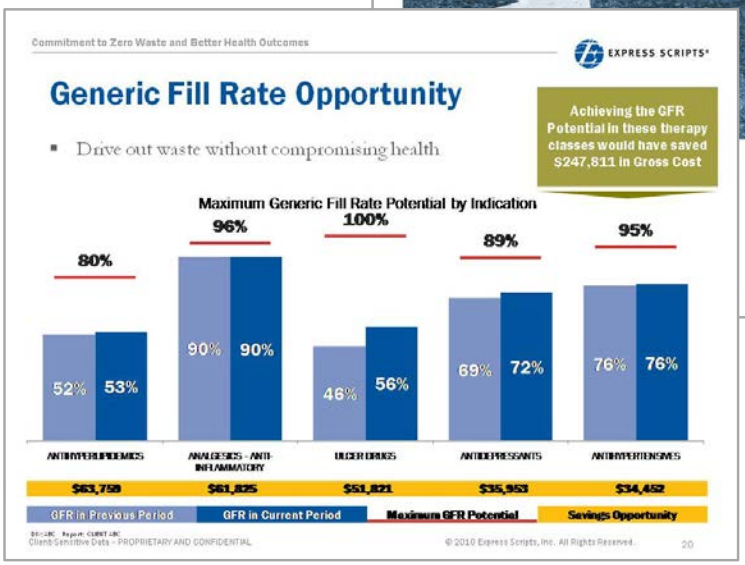
- Short-term and long-term objectives for the plan and Sanford Health Plan's members
- Three-year plan and next steps
- Industry trend analysis, such as examining the effect of direct-to-consumer advertising, drug mix, and emerging therapeutic issues

During the Collaborative Planning Session, our account team also presents Sanford Health Plan-specific program recommendations, prepared through careful planning and analyses. Our team:

- Reviews key data from our prior year
- Develops and validates Sanford Health Plan's plan goals for the coming year
- Identifies key opportunities specific to Sanford Health Plan
- Recommends programs to meet Sanford Health Plan's goals

Samples from the Collaborative Planning Session are below.





SANFORD HEALTH PLAN

Clinical Input

The CPM is our account team's primary contact and consultant for clinical issues and initiatives. Our CPM participates in Sanford Health Plan's meetings to discuss management of clinical programs and services. Topics and discussion points for these meetings typically consist of the following:

- Formulary initiatives and management
- Financial, formulary, and clinical modeling
- Sanford Health Plan-specific business plan development
- Clinical program structure discussion and results evaluation
- Drug utilization assessment

Additionally, our dedicated PharmacoAnalytics consultant is also available for more complex clinical analysis.

b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers;

Please see summary above.

c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.

Please see summary above.

77. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

Based on industry-leading software and Express Scripts' thought leadership, Trend Central provides an intuitive self-service method of accessing prescription claims and clinical programs performance reporting. Our web-based, interactive data analysis solution enables NDPERS to manage performance and promptly identify emerging issues and trends. The application, which can be co-branded, includes the following customization options:

- NDPERS users can tailor your homepage to support how each user works. For example, each user can design the homepage to display key statistics or show particular summary reports each time they log on to Trend Central. Users also can establish links to favorite reports.
- Users can schedule favorite reports for automated generation.

- Users can modify member population or groups and time frames to customize report presentation.

Utilizing our online library of templates, Trend Central permits a variety of users to run reports instantly from each person's desktop. Users can perform additional data manipulation or integration by downloading report data to any spreadsheet or database application using Trend Central's export function. Additionally, NDPERS can easily access ad hoc and custom reporting via Trend Central.

All Trend Central users can access Express Scripts' library of report templates. Reports are divided into the following categories:

- Key Performance Indicator
- Report Card
- Trend
- Prescription Detail
- Integrated Specialty
- Member
- Pharmacy
- Prescriber Analysis
- Billed Date
- Prior Authorization
- Benchmark

Key Performance Indicator (KPI) — Executive-level report summaries of pharmacy program performance. These reports refer to period-over-period statistics, usually at the claim level, providing the information most requested by clients. Key Performance Indicator reports break out to the group or demographic levels of your choice based on the eligibility information you provide to Express Scripts.

Report Card (RC) — Suite of report templates users employ to quickly retrieve summary information and drill down into varying levels of utilization detail, such as highest-cost therapeutic classes, physician prescribing, retail pharmacy network, formulary, drug, therapy class, mail service pharmacy, and member demographics. The reports identify cost drivers and identify plan management opportunities.

Trend (TR) — Ranking reports that depict utilization at the prescription and provider levels by ingredient cost. Users compare the current reporting period to historical performance.

Prescription Detail (DG) — Utilization reports that demonstrate prescription drug detail across a variety of categories

Integrated Specialty (SG) — Collection of reports, including key performance indicators, ranking, detail, benchmarking, and trending, used to retrieve utilization information on all specialty drugs

Member (MB) — Various reports at the member utilization level that provide cost breakdown information

Pharmacy Reports (PH) — Pharmacy-level reports that depict utilization by ranking claims for drug and member

Prescriber Analysis Reports (PR) — Ranking, detail, and drill reports by prescriber to demonstrate and assist in analyzing prescribing patterns

Billed Date Reports (BL) — Lag triangle reports that include billing information and claim count by month with totals by month for the entire period. Users assess the lag time between a claim service date and the date the claim was billed to a client. Billed date reports match client billing and are used for reconciliation reporting.

Prior Authorization Reports (PZ) — Summary and detail reports for claims processed with prior authorization. Various data components captured with each prior authorization override request are available, including approval and denial with comments.

Benchmark Reports (BN) — Compare program performance using data from clients of similar geographical location, industry or group type, or size. Users analyze benchmark information to assist in making decisions related to benefit plan changes.

Please see **Attachment G** to view sample prescription drug report package.

Specialty Drug Program

78. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs.

Express Scripts provides Specialty Benefit Services to clients and members of Sanford Health Plan. Express Scripts owns and operates its specialty pharmacies.

Express Scripts Specialty Benefit Services is our solution to curbing rapidly increasing specialty trend and solving plan sponsors' specialty cost challenges. We provide complete specialty benefit and drug management services, delivering maximized savings and superior patient care to plan sponsors. We combine — into a single, comprehensive specialty offering — institutional capabilities and expertise in the following areas:

- Specialty pharmacy benefit management
- Specialty pharmacy dispensing and operations
- Clinical programs and care for patients

- Utilization management of specialty drugs
- Medical drug management
- Healthcare provider outreach
- Account management and implementation
- Communications to healthcare providers, members, and plan sponsors

Express Scripts' *CuraScript* mails specialty drug and all the supplies needed for injection directly to the Member's home or Practitioner's office within 24 to 48 hours after the request is approved and medication is ordered. Administration supplies (syringes, needles etc.) are free; Members are not required to pay additional copays for those supplies. Prior to all shipments, a Patient Admission Specialist contacts the Member to discuss copay liability for the drug and arrange delivery.

CuraScript offers toll-free customer service available 24 hours a day, 365 days a year. Specially trained staff offers support services for the Member, their caregivers, and their Practitioners that include:

- Injectable drug order information;
- Consultation with an experienced, knowledgeable pharmacist;
- Specially trained nurses available to answer questions about injectable drugs and the disease states they treat.

CuraScript mails the Practitioner a letter explaining the program and how to send prescriptions to *CuraScript*. By participating in Specialty Care, Members are automatically enrolled in a drug therapy management program. This program entitles them to receive the following benefits at no additional charge:

- Access to nurses and pharmacists 24 hours/day, 7 days/week for questions related to yhr injectable drug and the illness the drug is treating.
- Injectable drug refill reminders if they forget to call for refilld, and convenient refill process.
- Free delivery of your medication and supplies to the Member's home, Practitioner's office or designated location.

Injectable and High Cost Medications

- **The following medications (injectable and high cost medications) must be obtained from CuraScript by calling (866) 333-9721.** All medications obtained from CuraScript are prior authorized by CuraScript using criteria approved by the Sanford Health Plan. Most of these medications are covered under the medical benefit and are subject to payment with deductible, coinsurance or a medical copay, dependent upon your benefit package.

Pharmacy Operations Overview

CuraScript provides unsurpassed specialty pharmacy services through specialty pharmacies located throughout the U.S. Main distribution centers are located in Orlando, Florida; Indianapolis, Indiana; and New Castle, Delaware.

ESI also operate specialty pharmacies in the following locations:

- Brewster, New York
- Houston, Texas
- Oldsmar, Florida
- Omaha, Nebraska
- Pleasanton, California

ESI's locations:

- Provide operational redundancy and the ability to serve unique plan sponsor reimbursement needs
- Enable us to serve plans all over the country
- Ensure timely deliveries, adequate stocking of medications, and the flexibility to successfully manage emergency situations

SANFORD HEALTH PLAN

CuraScript's service model reflects the heightened level of patient support required for specialty products. Our patient care advocates serve as a patient's primary contact and proactively coordinate ongoing prescription needs, including managing the delivery of products, maintaining insurance authorizations, and monitoring adherence. In addition to patient care advocates, our pharmaceutical care management team consists of nurses, social workers, and pharmacists who provide the expertise and support necessary for appropriate clinical management.

Specialty Pharmacy Benefit Management

For more than 25 years, Express Scripts has been a leader in trend and utilization management of drugs billed through the pharmacy benefit. As the first pharmacy benefit manager to publish a drug trend report and the first to hold an Outcomes conference for plan sponsors, Express Scripts is a thought leader in the industry. To continue this legacy, we apply the latest specialty pharmacy benefit management tools to reduce the trend of specialty drugs billed through the pharmacy benefit. Our specialty trend management programs include:

- Specialty Step Management
- Drug Quantity Management
- Care Continuum (includes utilization management, site of care management, and reimbursement management)

Specialty Utilization Management Programs

Express Scripts' Specialty Step Management, Drug Quantity Management, and Prior Authorization programs use clinical protocols to manage appropriate and cost-effective utilization of specialty medications. Additional program details are included below.

Specialty Step Management

Specialty drug spend is predicted to grow exponentially over the next several years. In addition, as more specialty drugs are approved, utilization in some traditional classes will transition to the specialty market. Additionally, as more specialty drugs are approved, utilization in some traditional classes will transition to the specialty market.

Specialty Step Management responds to this issue by reducing wasteful specialty spend and promoting clinically appropriate, cost-effective therapies.

Our Specialty Step Management program enhances our existing utilization management programs (Prior Authorization and Step Therapy) through the use of traditional medication cost-containment programs. By tailoring these trend management strategies to the specialty landscape, Specialty Step Management provides NDPERS with the tools to significantly reduce your specialty trend while also maximizing health outcomes.

Specialty Step Management addresses several of the most costly specialty therapy classes:

- Inflammatory Conditions
- Multiple Sclerosis
- Growth Hormones
- Erythroid StimulantsInfertility
- Pulmonary Arterial Hypertension (PAH)
- Alpha-1 Proteinase Inhibitors
- Cryopyrin-Associated Periodic Syndrome (CAPS)
- Prostate Cancer GnRH Analogs

Drug Quantity Management

Our Drug Quantity Management program supports safe, effective, and cost-efficient use of prescription drugs while giving patients access to quality care. Drug Quantity Management criteria can prevent unnecessary costs when there is not enough evidence to support using a medication at doses higher than Food and Drug Administration-approved labeling.

For example, Avonex® is dosed once weekly for multiple sclerosis patients. However, some physicians believe that patients who inject Avonex twice weekly see greater benefits from the medication and therefore increase their dosage, even though there is no solid evidence to support its use twice weekly. An additional weekly dose of Avonex doubles the annual cost of the medication from around $20,000 per year to $40,000 per year. Drug Quantity Management criteria would avoid this wasted spend.

Prior Authorization

Express Scripts' Prior Authorization department administers specialty prior authorization requests.

We offer more than 50 Prior Authorization programs for specialty medications, many of which are integrated into the Base, Supplemental, Pharmacogenomics, and Proactive Prior Authorization lists. Optional programs are available for individual medications. We also offer a centralized list for clients that would like automatic updates for all specialty products on the Base, Supplemental, and Optional lists.

Furthermore, clients who use our specialty pharmacy exclusively and would like to manage their specialty spending to a greater extent should consider our Specialty Prior Authorization Continuation Criteria. The authorization criteria under this program are the same as those for standard specialty prior authorizations. However, the duration of initial approval for prior authorizations with Continuation Criteria is shorter than under the standard program. Re-approval under the Continuation Criteria depends on response to the medication during the initial treatment phase. Express Scripts can manage the initial review and approval process, as well as administer re-approvals.

Specialty Care Management

In addition to the trend management programs previously described, our Specialty Care Management programs help reduce waste and improve health by increasing therapy

adherence. These programs use evidence-based guidelines and drug information to provide critical patient education and ongoing support.

Our suite of Specialty Care Management programs includes:

Program	Disease State	Program Objective	Enrollment Criteria
Asthma	Asthma	To improve adherence to medications and prevent recurrent exacerbations	Patients using Xolair™ have the option to enroll when their prescriptions are filled at CuraScript
Bleeding Disorders Logic®	Hemophilia and von Willebrand disease	To support the needs of hemophilia patients, clients, and providers in the appropriate management of factor products and related outcomes of hemophilia	All patients using factor products have the option to enroll when their prescriptions are filled through our specialty pharmacy
Crohn's Disease	Crohn's disease	To increase adherence through patient education and strong relationships between patients and their healthcare team	Patients using specific Crohn's disease agents have the option to enroll when their prescriptions are filled at CuraScript
Cystic Fibrosis	Cystic fibrosis	To increase adherence and improve respiratory symptoms	Patients using specific cystic fibrosis agents have the option to enroll when their prescriptions are filled at CuraScript
GrowthLogic℠	Growth hormone deficiency	To increase adherence and prevent growth retardation, delayed puberty, and abnormal height	Patients using specific growth hormone agents have the option to enroll when their prescriptions are filled at CuraScript
HEPLogic®	Hepatitis C	To improve patient adherence to the prescribed therapy regimen to achieve sustained viral response	All patients taking self-injectable interferons or ribavirin therapy have the option to enroll when their prescriptions are filled through our specialty pharmacy
HIVLogic℠	Human immunodeficiency virus	To avoid the emergence of drug-resistant virus and disease progression through increased adherence	All patients with HIV have the option to enroll when their prescriptions are filled through our specialty pharmacy
Iron Overload	Iron overload	To provide optimal clinical management and care to patients receiving oral medications for iron overload	All patients using oral medication for iron overload have the option to enroll when their prescriptions are filled through our specialty pharmacy

SANFORD HEALTH PLAN

Program	Disease State	Program Objective	Enrollment Criteria
MSLogic®	Multiple sclerosis	To improve patient adherence to the prescribed therapy regimen to reduce exacerbations in the patient population	All patients taking self-injectable medications for multiple sclerosis have the option to enroll when their prescriptions are filled through our specialty pharmacy
Oncology Care	Cancer	To provide optimal clinical management and care to oncology patients and prevent disease progression	All patients using oral oncology agents have the option to enroll when their prescriptions are filled through our specialty pharmacy
PAHLogic®	Pulmonary arterial hypertension	To prevent pulmonary disease progression and complications and support the physician-patient relationship and plan of care	All pulmonary arterial hypertension patients have access to complete care, the full range of therapies, and clinicians with expertise in this disease state
PsoriasisLogic®	Psoriasis and psoriatic arthritis	To improve patient adherence to the prescribed therapy regimen to reduce the amount of body surface affected and severity of the psoriasis plaques, as well as to slow the progression of joint damage and improve joint function in persons with psoriatic arthritis	All patients taking self-injectable medications for psoriasis or psoriatic arthritis have the option to enroll when their prescriptions are filled through our specialty pharmacy
RALogic®	Rheumatoid arthritis	To improve patient adherence to the prescribed therapy regimen to slow the progression of joint damage and improve the average Modified Health Assessment Questionnaire score for the patient population	All patients using self-injectable rheumatoid arthritis medications have the option to enroll when their prescriptions are filled through our specialty pharmacy
RSVLogic®	Respiratory syncytial virus prevention	To reduce the number of hospitalizations and mortalities by improving therapy adherence	All caregivers of patients receiving Synagis therapy have the option to enroll when the patients' prescriptions are filled through our specialty pharmacy
TransplantLogic℠	Not applicable. This program is for patients who have received an organ transplant.	To prevent rejection of transplanted organs through increased adherence to anti-rejection medications	Patients using specific immunosuppressant agents have the option to enroll when their prescriptions are filled at CuraScript

SANFORD HEALTH PLAN

Network Accessibility and Disruption

79. Submit a current listing of the participating pharmacies in North Dakota.

Please refer to **Attachment F** for a listing of participating pharmacies in North Dakota.

80. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?

Sanford Health Plan is committed to the value local pharmacies provide to the communities we serve. Express Scripts negotiates competitive network pricing for our plan sponsors while building and maintaining stable networks and services through collaborative and strategic relationships with retail pharmacies.

Express Scripts integrates convenient network pharmacy programs with superior management systems to provide national provider networks that offer:

Client Support

- Network design consultation
- Flexible benefit designs
- CMS-compliant Medicare and Medicaid networks
- Workers' Compensation network
- Management reports
- Member eligibility control

Reduced Cost

- Discounted drug costs
- Limited provider networks to maximize savings

Clinical Expertise

- Online claims adjudication and drug utilization review
- Immunization programs
- Medication therapy management
- Pharmacist access to the Patient Care Contact Center, Pharmacy Help Desk, and Express-Scripts.com for Pharmacists

Convenience

- Process to easily add pharmacies based on member access needs
- Stable networks with low turnover
- Online pharmacy locator

ESI reduces unit costs for prescription drugs by negotiating discount rates with retail pharmacies across the country, increasing the use of preferred products, promoting generics, and encouraging formulary adherence. Additionally, we have built our value-enhanced networks so that members have convenient access to local pharmacies while limiting the number of participating pharmacies to maximize discounts for NDPERS.

If concerns related to network access are identified, Express Scripts can contract with additional pharmacies that meet our URAC-sanctioned credentialing requirements and contract terms. We can add new pharmacies within three business days after we have

received certification, a completed and signed contract from the pharmacy, and verification that all information is correct, which may take up to five business days.

81. Indicate which major chain stores are not included in your proposed network for NDPERS.

Walgreens does not participate in the network.

Medicare Part D

82. Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. fully-insured PDP, 800-Series EGWP, Direct-Contract EGWP)

Sanford Health Plan is committed to provide a Part D Plans through Express Scripts, Inc. using a EGWP arrangement.

HDHP/HSA

83. Describe how your organization will do the administration of the HSA option. What details are provided to individuals that select this option, the name of the service vendor and any other applicable information.

Sanford Health Plan currently has a relationship with Evolution1 for our HRA/HSAs. The 1Cloud HSA Solution is a true multi-account solution for HSAs – all account types are available on a single platform and service experience, debit card, and mobile applications.

It provides a comprehensive, one-stop, compliant HSA administration capability the includes both cash accounts and investment options. Other benefits include:

- A private labeled custodian option with secure, FDIC-insured deposits at HealthcareBank, a division of Bell State Bank & Trust, a $4B financial institution
- An additional revenue source with an indexed reimbursement on the balance of HSA cash accounts to the administrator.
- A flexible fee structure, so partners can set fees according to their markets and sales strategies.

The Employer Portal provides:

- Secure access to data and reports, submit changes and files, and proactively schedule contributions

SANFORD HEALTH PLAN

- Online lookup helps employers respond to employees' questions and issues.
- Over 50 standard employer reports and notifications, as well as custom reports, if available, are accessible via email and/or secure, self-service Employer Portal
- Use the Consumer Data Exchange to integrate with 1Cloud for exchanging eligibility files, or enroll employees through the Employer Portal.

Account Funding

Multiple options are available for funding accounts, including election-based scheduled contributions, ACH funding, and file-based contribution submission via Consumer Data Exchange. Or use Employer Portal to directly set up recurring contribution schedule, and load payroll deductions and employer contributions.

1Cloud also offers an Integrated debit card that provides:

- Real-time Integration - Account Balances in Sync
- All purses on one card - HSA, FSA, Limited-Purpose FSA
- Stacking Order: FSA > HSA
- Regulatory Compliance
- Merchant Code Restrictions
- FSA, HRA, optional for HSA
- IIAS Compliant
- Auto-Substantiation
- IIAS, Copayment Matching, Carrier Matching,

SANFORD HEALTH PLAN

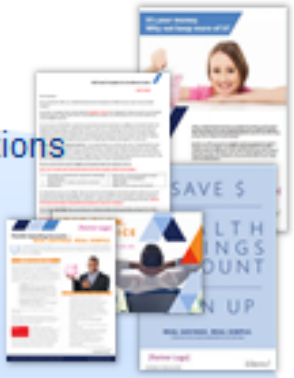
Consumer Experience

Mobile

Mobile app lets tech-savvy consumers manage their CDH accounts right from their phone.

Automated Communications

Over 10 statements and notifications – all accessible via e-mail, consumer portal, and mail when necessary.



1cloud by Evolution1

Consumer Portal

Robust, branded portal empowers consumers, providing everything they need to know about their account, with an industry-leading design that enables quick and easy navigation of content.

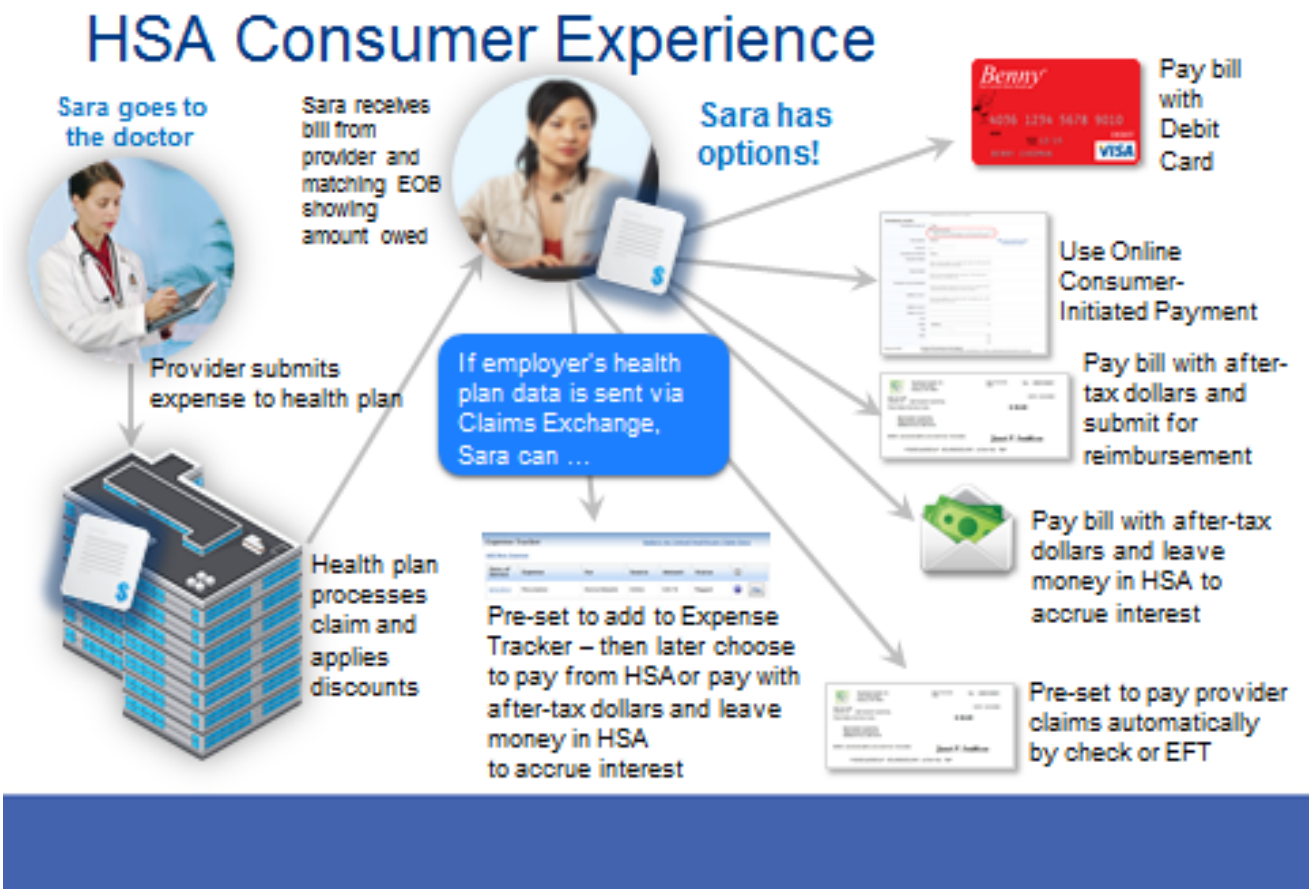
Flexible Payment Options

Consumer can choose from:

- Debit card, which increases consumer satisfaction by reducing paperwork.
- Consumer-initiated Payment on Consumer Portal
- Claims Exchange with auto-pay or Expense Tracker

24

SANFORD HEALTH PLAN



SANFORD HEALTH PLAN

Convenient Self-Service Tools

Additionally, Sanford Health Plan can interface with ABG (or a vendor of the State's preference) to track and transmit credits NDPERS may want to contribute to an HSA account as a result of an employee's participation in a wellness program or meeting certain wellness standards as part of a bona fide wellness program.

Economy to be effected

84. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?

Sanford Health Plan will consider opening service offices to include account representatives in the Bismarck and Fargo regions. Health coaches and/or case managers will be based in existing Sanford locations to support the disease management and wellness programs. However, claims administration and operations will continue to occur in the centralized Sioux Falls office.

85. Please identify the number of employees you will employ in North Dakota pursuant to this contract

As described in Section 18 of this proposal, Sanford Health Plan projects the need to hire nearly 100 FTEs to start with approximately 20 of the positions located in North Dakota.

86. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will be spent outside the state.

Sanford Health Plan estimates that approximately $15M will be spent over the biennium within North Dakota.

Cost Proposal Exhibits

Please refer to the cost proposal exhibits included under separate cover with this RFP, directed to Deloitte Consulting:

- Medical & Rx Premiums (D1.1)
- Medical & Rx Premium Development (D1.2)
- Traditional Rx Terms (D1.3)
- Transparent (Pass-through) Rx Terms (D1.4)
- Medical (Only) Premiums (D1.5)
- Medical (Only) Premium Development (D1.6)
- Medicare Part D Group Prescription Drug Plan (PDP) Premiums (D2.1)
- Medicare Part D Group Prescription Drug Plan (PDP) Premium Development (D2.2)
- ACA Requirements (D3)

Sample Contract & Administrative Services Agreement

Please refer to the contract/ASA deviations exhibit included under separate cover with this RFP:

1. Exhibit F1 – Contract/ASA deviations and exceptions and proposed alternative language.
2. Exhibit F2 - Deviations from other RFP requirements
3. Exhibit F3 – Redline version of the sample contract/ASA reflecting the deviations identified in Exhibit F1.

Minimum Requirements for Administrative Services Checklist

Minimum Requirements Statement	Response
Electronic Data Collection and Reporting Requirements: Respondents must, at a minimum, meet the data collection and reporting requirements described in Section 1 under Reporting Requirements of the RFP.	Sanford Health Plan agrees to meet this requirement.
Vendor must be able to take current electronic enrollment file (containing member eligibility) at no cost.	Sanford Health Plan agrees to meet this requirement.
Effective Date of Coverage: Respondents must be able to provide required coverages and services by July 1, 2015 and January 1 2016 for the PDP.	Sanford Health Plan agrees to meet this requirement.
Licensure: Respondents must have all applicable licenses required by North Dakota or agree to obtain necessary licensure prior to the effective dates of coverage.	Sanford Health Plan agrees to meet this requirement.
Term of Contract: NDPERS is required by state statute to solicit bids for medical benefit coverage for a specified term for a fully-insured arrangement and every other biennium for a self-funded arrangement. NDPERS has determined that the specified term for fully-insured arrangement shall be six years subject to two year renewals, however, NDPERS reserves the right to extend the agreement subject to negotiation with the successful vendor if the Board deems it necessary.	Sanford Health Plan agrees to meet this requirement.
Premium Rate Guarantees: For all insured proposals premium rates must be guaranteed for a period of two years, from July 1, 2015 to June 30, 2017. PDP rates will be developed each year based upon the federal subsidy.	Sanford Health Plan agrees to meet this requirement.
Group PDP product: Ability to offer a group PDP product meeting the requirements outlined in the RFP	Sanford Health Plan agrees to meet this requirement.
PDP rates: Must be submitted to PERS by September of each year.	Sanford Health Plan agrees to meet this requirement.
Non-Medicare Retirees: Rates are governed by state statue. Non-Medicare retiree single rate is 150% of the active member single rate; the rate for a non-Medicare retiree plus one is twice the non-Medicare single rate, and the rate for a non-Medicare retiree plus two or more dependents is two and one-half times the non-Medicare retiree single rate.	Sanford Health Plan agrees to meet this requirement.

Renewals: Renewals must be submitted to NDPERS in August of the year preceding the contract renewal date and in September of each year for the PDP.	Sanford Health Plan agrees to meet this requirement.
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	Sanford Health Plan agrees to meet this requirement.
Replicate Coverage: Respondent must replicate the existing coverage and financial terms for two years including an HSA arrangement. Variances and exceptions to existing coverage can be offered in Appendix F item F2.	Sanford Health Plan agrees to meet this requirement with the exceptions as noted herein.
Legislative Compliance: Respondents agree to comply with all provisions of the Health Insurance Portability Act of 1996 including, but not limited to providing certificates of creditable coverage. Respondents must also be in compliance with all HIPAA Privacy and HIPAA EDI requirements and be able to conduct all applicable employer/plan sponsor and provider transactions consistent with those requirements. Respondents will be expected to meet HIPAA security requirements when applicable to NDPERS. Respondents will also be expected to be in compliance with all ACA requirements	Sanford Health Plan agrees to meet this requirement.
Transition Management: Respondents agree, should they be selected, they will proactively manage the transition of coverage (e.g. claim accumulators, lifetime maximums, etc.) from the subsequent carrier.	Sanford Health Plan agrees to meet this requirement.
Administration: Respondents must agree to comply with existing administration of NDPERS. Any modifications needed to accommodate NDPERS data will be done at the vendor's own expense.	Sanford Health Plan agrees to meet this requirement.
Audit: NDCC 54-52-05 (10) relating to the audit authority of NDPERS.	Sanford Health Plan agrees to meet this requirement.
North Dakota Legislation Requirements: Respondent must meet all requirements in the North Dakota Century Code including 54-52.1 and all requirements in the North Dakota Administrative Code including 71-03. Specific recognition of 54-52.1-12 should be acknowledged.	Sanford Health Plan agrees to meet this requirement.
Ability to meet the specifications outlined in the RFP unless specifically noted	Sanford Health Plan agrees to meet this requirement.
Premium rates must be divisible by two.	Sanford Health Plan agrees to meeting this requirement.
Subject matter experts and other appropriate personnel will be available to attend board meetings, legislative hearings, etc. as needed	Sanford Health Plan agrees to meeting this requirement.

Affidavit of Non-collusion

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);

2. That the attached proposal submitted in response to the Group Medical Coverage Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;

3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and

4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

Responder's Firm Name: Sanford Health Plan

LOCATION OF SERVICE DISCLOSURE AND CERTIFICATION

LOCATION OF SERVICE DISCLOSURE

Check all that apply:

- ❒ The services to be performed under the anticipated contract as specified in our proposal will be performed ENTIRELY within the State of North Dakota.
- ❒ The services to be performed under the anticipated contract as specified in our proposal entail work ENTIRELY within another state within the United States.
- ☑ The services to be performed under the anticipated contract as specified in our proposal will be performed in part within North Dakota and in part within another state within the United States.
- ❒ The services to be performed under the anticipated contract as specified in our proposal DO involve work outside the United States. Below (or attached) is a description of
  - (1) the identity of the company (identify if subcontractor) performing services outside the United States;
  - (2) the location where services under the contract will be performed; and
  - (3) the percentage of work (in dollars) as compared to the whole that will be conducted in each identified foreign location.

CERTIFICATION

By signing this statement, I certify that the information provided above is accurate and that the location where services have been indicated to be performed will not change during the course of the contract without prior, written approval from the State of North Dakota.

INDEPENDENT AUDITORS' REPORT

Audit Committee and Management
Sanford Health Plan
Sioux Falls, South Dakota

We have audited the accompanying statutory-basis financial statements of Sanford Health Plan (SHP or the "Company"), which comprise the statutory-basis statements of admitted assets, liabilities, and capital and surplus as of December 31, 2013 and 2012, and the related statutory-basis statements of revenue and expenses and capital and surplus, and cash flows for the years then ended, and the related notes to the statutory-basis financial statements.

Management's Responsibility for the Statutory-Basis Financial Statements

Management is responsible for the preparation and fair presentation of these statutory-basis financial statements in accordance with the accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these statutory-basis financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory-basis financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory-basis financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory-basis financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the statutory-basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory-basis financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statutory-basis financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of SHP as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with the accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance described in Note 1 to the statutory-basis financial statements.

Basis of Accounting

We draw attention to Note 1 of the statutory-basis financial statements, which describes the basis of accounting. As described in Note 1 to the statutory-basis financial statements, the statutory-basis financial statements are prepared by SHP using accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the South Dakota Department of Commerce and Regulation, Division of Insurance. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As discussed in Note 2 to the statutory-basis financial statements, the Company has implemented Statement of Statutory Accounting Principles No. 101, *Income Taxes — A Replacement of SSAP No. 10R and SSAP No. 10*, which resulted in a cumulative change in accounting principle as of January 1, 2012.

Report on Supplemental Schedules

Our 2013 audit was conducted for the purpose of forming an opinion on the 2013 statutory-basis financial statements as a whole. The supplemental schedule of investment risk interrogatories and the supplemental summary investment schedule, as of and for the year ended December 31, 2013, are presented for purposes of additional analysis and are not a required part of the 2013 statutory-basis financial statements. These supplemental schedules are the responsibility of the Company's management and were derived from and relate directly to the underlying accounting and other records used to prepare the statutory-basis financial statements. Such supplemental schedules have been subjected to the auditing procedures applied in our audit of the 2013 statutory-basis financial statements and certain additional procedures, including comparing and reconciling such supplemental schedules directly to the underlying accounting and other records used to prepare the statutory-basis financial statements or to the statutory-basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such supplemental schedules are fairly stated in all material respects in relation to the 2013 statutory-basis financial statements as a whole.

Restriction on Use

Our report is intended solely for the information and use of the board of directors and the management of SHP and for filing with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments to whose jurisdiction the Company is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

End of year	$ 8,049,466	$ 11,015,266

See notes to statutory-basis financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

Sanford Health Plan (SHP or the "Company") is a taxable nonprofit health maintenance organization (HMO) licensed to operate in South Dakota, North Dakota, and Iowa. SHP offers commercial, Medicare supplement, and individual products to approximately 37,000 members. SHP is a wholly owned subsidiary of Sanford Health (SH). SH is a wholly owned subsidiary of Sanford, a fully integrated health care organization providing clinical care to patients, research, and health care coverage. SHP has entered into contracts with physicians, hospitals, and other health care providers pursuant to which such providers deliver medical care to its enrollees. SHP was incorporated on July 30, 1997, and began operations on January 1, 1998.

Effective July 1, 2013, Heart of American Health Plan became a wholly owned subsidiary of SHP and was renamed as Sanford Heart of America Health Plan (SHAHP). SHAHP is a nonprofit health maintenance organization licensed to operate in North Dakota and is exempt from income taxes under Section 501(c)(4) of the Internal Revenue Code. The transaction was an affiliation change in the corporate member and not an asset purchase. As disclosed in Note 3, no purchase price was paid for this affiliation. The ND Commissioner of Insurance approved the acquisition of control via an Order issued on May 21, 2013.

The statutory-basis financial statements of SHP are prepared on the basis of accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance (SD Division of Insurance). These practices differ from accounting principles generally accepted in the United States of America (GAAP) as certain assets, including furniture, equipment, leasehold improvements, prepaid assets, and certain aged health care receivables, are considered nonadmitted assets for statutory purposes and are excluded from the statutory-basis statements of admitted assets, liabilities, and capital and surplus. The change in nonadmitted assets has been reflected in unassigned funds deficit in the accompanying statutory-basis financial statements. Under GAAP, these amounts would be included in total assets on the statutory-basis statements of admitted assets, liabilities, and capital and surplus. In addition, certain debt investments that would be shown at fair value under GAAP are presented at amortized cost in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus.

The SD Division of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of South Dakota for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Division of Insurance Law. The National Association of Insurance Commissioners' (NAIC) Statutory Accounting Principles (SAP) have been adopted as a component of prescribed or permitted practices by the state of South Dakota. South Dakota has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically for the state of South Dakota, electronic data processing (EDP) equipment original cost may not be more than 3% of the admitted assets of the insurer and shall be amortized over a period not to exceed five years. In NAIC SAP, EDP equipment shall be limited to 3% of the reporting entity's capital and surplus as shown on the statutory-basis statements of admitted assets, liabilities, and capital and surplus of the reporting entity for its most recently

filed statement with the domiciliary state commissioner and shall be depreciated for a period not to exceed three years. There is no material difference in net income or statutory-basis capital and surplus for the years ended December 31, 2013 and 2012, as a result of this prescribed practice. The commissioner of the SD Division of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of SHP's net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of South Dakota is shown below:

	State of Domicile	2013	2012
Net income:			
Company state basis	South Dakota	$ 1,781,455	$ 2,848,216
NAIC SAP	South Dakota	$ 1,781,455	$ 2,848,216
Capital and Surplus:			
Company state basis	South Dakota	$25,992,972	$26,790,937
NAIC SAP	South Dakota	$25,992,972	$26,790,937

B. Use of Estimates in the Preparation of the Statutory-Basis Financial Statements

These statutory-basis financial statements include certain amounts that are based on SHP's estimates and judgments. These estimates require SHP to apply complex assumptions and judgments often because SHP must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to claims unpaid, aggregate health policy reserves, and unpaid claims adjustment expenses (CAE). SHP adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of income in the period in which the estimate is adjusted.

C. Significant Accounting Policies

SHP uses the following accounting policies:

(1) *Cash and Short-Term Investments* — As required by Statement of Statutory Accounting Principles (SSAP) No. 2, cash represents cash held by SHP in disbursement accounts and certificates of deposit with maturities of one year or less. Short-term investments consist of marketable securities with original maturities between three months and one year. The carrying amount of short-term investments reported in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus is cost, which approximates fair value.

(2) *Bonds* — Balance consists of U.S. government, U.S. state, U.S. political subdivisions of state, U.S. special revenue and special assessment, and industrial and miscellaneous bonds with original maturities in excess of one year and are carried at amortized cost as they meet NAIC credit risk designation one or two. Amortization of bond premiums and discounts is calculated using the interest method. Bonds are valued and reported using market prices published by the Securities Valuation Office of the NAIC (SVO) in accordance with the NAIC Valuations of Securities manual prepared by the SVO or an external pricing service. Prepayment assumptions are based on historic principal pay downs. SHP's investment policy limits investments in mortgage-backed securities to 30% of the portfolio.

(3) *Common Stock* — SHP did not hold any investments in common stock during the years ended December 31, 2013 or 2012.

(4) Preferred Stock — SHP had investments in preferred stocks of $828,239 as of December 31, 2013. Investments in preferred stocks are valued as prescribed by the SVO, or an external pricing service if NAIC values are not available, in the statutory-basis statements of admitted assets, liabilities, and capital and surplus, while under GAAP, preferred stocks are generally reported at fair value.

(5) *Mortgage Loans* — SHP did not have any mortgage loans during the years ended December 31, 2013 or 2012.

(6) *Loan-Backed Securities* — Loan-backed securities are stated at amortized cost. The retrospective adjustment method is used to value all securities.

(7) *Investments in Subsidiaries* — SHP owns 100% of SHAHP effective July 1, 2013. The value of the subsidiary was $1,232,509 as of December 31, 2013.

(8) *Joint Ventures* — SHP does not have any joint ventures.

(9) *Derivatives* — SHP did not participate in any derivative activity during the years ended December 31, 2013 or 2012.

(10) *Premium Deficiency Reserves* — Premium deficiency reserves and the related expense, as defined by SSAP No. 54, *Individual and Group Accident Health Contracts*, as well as actuarial practice guidelines, are recognized when it is probable that expected future health care expenses, CAE, and administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts. The methods for making such estimates and for establishing the resulting reserves are periodically reviewed and updated, and any adjustments are reflected in hospital and medical expenses in the accompanying statutory-basis statements of revenue and expenses and capital and surplus account in the period in which the change in estimate is identified. SHP used a 3% discount rate as a factor in the premium deficiency calculation in accordance with SSAP No. 54. A premium deficiency reserve (recorded as aggregate health policy reserves) of $873,000 and $743,000 related to SHP's individual business line was recorded as of December 31, 2013 and 2012, respectively.

(11) *Hospital and Medical Expenses, Claims Unpaid, Unpaid CAE, and Aggregate Health Policy Reserves* — Hospital and medical expenses and corresponding liabilities include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, and estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted.

The estimates for claims unpaid are developed using actuarial methods based upon historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. SHP did not change actuarial methods during the years ended December 31, 2013 and 2012. Management believes the amount of claims unpaid is adequate to cover SHP's liability for unpaid claims as of December 31, 2013; however, actual claim payments may differ from those established estimates. Adjustments to claims unpaid estimates are reflected in operating results in the period in which the change in estimate is identified.

Unpaid CAE as defined by SSAP No. 85, *Claim Adjustment Expenses, Amendments to SSAP No. 55 — Unpaid Claims, Losses, and Loss Adjustment Expenses*, are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. CAE is recorded as cost-containment expenses and other CAE. Cost-containment expenses include utilization review and other case management activities. A detailed review of SHP's administrative expenses is performed to determine the allocation between CAE and general administrative expenses (GAE) in accordance with SSAP No. 85. The method used for determining CAE is periodically reviewed and updated, and any adjustments are reflected in underwriting deductions in the accompanying statutory-basis statements of revenue and expenses and capital and surplus account in the period in which the change in methodology is identified.

(12) *Capitalization Policy* — SHP has not modified its capitalization policy from the prior period. The capital threshold is $2,500 for a single item and $3,000 for group purchases where per unit cost is greater than $1,000. All personal computers and laptops are capitalized regardless of the cost.

(13) *Impairment* — SHP continually monitors the difference between the cost and estimated fair value of its bonds and short-term investments. If any of SHP's bonds or short-term investments experience a decline in value believed to be other than temporary, or for which SHP has intent to sell, SHP records a realized loss. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for mortgage-backed securities for periods subsequent to the loss recognition. SHP has not recorded any other-than-temporary impairments for the years ended December 31, 2013 and 2012.

(14) *Net Premium Income and Premiums Received in Advance* — Premium revenue for prepaid health care is recognized as income in the month in which the enrollees are entitled to health care services. Premiums collected in advance are reported as premiums received in advance.

There are no premiums receivable balances greater than 90 days due, which are nonadmitted, with the exception of amounts due under government-insured plans, which are admitted assets.

(15) *Fee-for-Service Revenue* — Fee-for-service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services in the period in which services are provided.

(16) *Reinsurance* — SHP entered into a stop-loss reinsurance agreement with an insurance company for both 2013 and 2012 to limit losses on individual claims in excess of $500,000 for 2013 and 2012 of eligible medical and hospital services of any enrollee per contract year. Reinsurance premiums paid are deducted from net premium income in the statutory-basis financial statements. Reinsurance premiums were $1,561,856 and $1,029,595 for 2013 and 2012, respectively.

(17) *Depreciation* — All fixed assets are depreciated using the straight-line method over the shorter of the estimated useful lives of the assets or as prescribed by SAP. Only fixed assets that are admittable for statutory reporting are recorded on the statutory-basis statements of assets, liabilities, and capital and surplus. Upon asset retirement or disposal, the cost and accumulated depreciation accounts are adjusted, and the gain or loss is reflected in operations. Depreciation expense was $450,801 and $357,027 for 2013 and 2012, respectively, and shown as CAE. Accumulated depreciation was $3,078,706 and $2,671,840 as of December 31, 2013 and 2012, respectively.

(18) *Pharmacy Rebates Receivable* — Pharmacy rebates receivable are estimated based on the most current available data provided by SHP's unaffiliated pharmaceutical benefit manager and are invoiced on a quarterly lag basis. All pharmacy rebates receivable are considered nonadmitted assets for statutory purposes under SSAP No. 84, *Certain Healthcare Receivables and Receivables Under Government Insured Plans*, because such pharmacy rebates receivable are generally not collected within 90 days of the billing period. Accordingly, SHP has nonadmitted these receivables from the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

(19) *Income Taxes* — Statutory accounting requires an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax basis of assets and liabilities, subject to a valuation allowance and admissibility limitations on deferred tax assets. The provision for income taxes is based on the amount estimated to be currently payable and the changes in those deferred taxes arising from the temporary differences.

(20) *Vulnerability Due to Certain Concentrations* — SHP is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of SHP's existing products in new markets and offerings of new products, both of which may restrict SHP's ability to expand its business. SHP had one customer that accounted for more than 10% of premiums for the years ended December 31, 2013 and 2012.

(21) *Recently Issued Accounting Standard* — In November 2011, the NAIC adopted SSAP No. 101, *Income Taxes — A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP No. 101"), effective for 2012 interim and annual financial statements and beyond. The new standard includes revised guidance for tax contingencies; nonelective deferred tax asset admissibility test along with significant modifications to the deferred tax asset admissibility test; and disclosure modifications. A change resulting from the adoption of this revised statement shall be accounted for prospectively.

In March 2011, the NAIC revised SSAP No. 100, *Fair Value Measurements*, effective January 2012. The revisions require additional disclosures of the fair value hierarchy, as well as the method used to obtain the fair value measurement.

(22) *Reclassifications* — Certain 2012 amounts in the accompanying statutory-basis financial statements have been reclassified to conform to the 2013 presentation. Specifically, certain claims expenses have been reclassified to better align with the types of claims. These reclassifications had no effect on net income or total capital and surplus as previously reported in the statutory-basis financial statements.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

SHP did not detect any errors in reporting that would require a correction of an error to be recorded during the years ending December 31, 2013 and 2012.

As a result of the adoption of SSAP No. 101, SHP recalculated the nonadmitted deferred tax asset balance as of December 31, 2011, in accordance with SSAP No. 101. This resulted in an increase to the net deferred tax asset of $370,000 and a corresponding decrease of $370,000 to the nonadmitted deferred tax asset balance. There was no impact related to the change in guidance related to tax contingencies. The cumulative effect of this change in accounting principle was recorded by SHP in accordance with SSAP No. 3, *Accounting Changes and Corrections of Errors*, and is reflected as an increase to unassigned funds in the accompanying statutory-basis financial statements as of January 1, 2012.

3. BUSINESS COMBINATIONS AND GOODWILL

A. Statutory Purchase Method

SHP was a party to a business combination during the year ended December 31, 2013, with SHAHP. This transaction was accounted for as a statutory purchase, in accordance with *SSAP No. 68, Business Combinations and Goodwill,* due to the parent-subsidiary relationship that exists between SHP and SHAHP. As such, the value of the transaction equaled the sum of (a) any cash payment, (b) the fair value of other assets distributed, (c) the fair value of any liabilities assumed, and (d) any direct costs of acquisition. There was no cash payment and no acquisition costs associated with the purchase. Finally, no goodwill was recorded.

B. Statutory Merger

SHP was not a party to a statutory merger during the years ended December 31, 2013 and 2012.

C. Assumption Reinsurance

SHP did not participate in assumption reinsurance.

D. Impairment Loss

SHP did not recognize an impairment loss on any of the transactions described above.

4. DISCONTINUED OPERATIONS

SHP did not discontinue any operations during the years ended December 31, 2013 and 2012.

5. INVESTMENTS AND INVESTED ASSETS

Bonds and Short-Term Investments — The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of bonds and short-term investments as of December 31, 2013, excluding cash of $5,471,673, and as of December 31, 2012, excluding cash of $6,608,149, were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses < 1 Year	Gross Unrealized Losses > 1 Year	Estimated Fair Value
As of December 31, 2013:					
U.S. government bonds	$10,177,547	$ 378,444	$ (51,650)	$ (14)	$10,504,327
U.S. state bonds	854,475	15,644			870,119
U.S. political subdivisions of state bonds	213,872	1,593	(1,731)		213,734
U.S. special revenue and special assessment bonds	184,386		(3,072)		181,314
Industrial and miscellaneous bonds, including foreign	17,206,386	237,447	(42,272)	(83,689)	17,317,872
Mortgage-backed securities	7,341,649	107,141	(25,936)	(35,098)	7,387,756
Preferred stocks	828,239				828,239
Short-term investments	2,577,793	70	(64)		2,577,799
	$39,384,347	$ 740,339	$(124,725)	$(118,801)	$39,881,160
Investment in insurance subsidiary	$ 1,232,509	$ -	$ -	$ -	$ 1,232,509
As of December 31, 2012:					
U.S. government bonds	$ 5,771,660	$ 766,541	$ (278)	$ -	$ 6,537,923
U.S. state bonds	854,984	70,412			925,396
U.S. political subdivisions of state bonds	100,000	5,419			105,419
U.S. special revenue and special assessment bonds	185,311	4,489			189,800
Industrial and miscellaneous bonds, including foreign	17,255,465	473,161	(24,363)	(5,913)	17,698,350
Mortgage-backed securities	10,272,961	279,359	(35,109)		10,517,211
Short-term investments	4,407,117	97	(1,622)		4,405,592
	$38,847,498	$1,599,478	$ (61,372)	$ (5,913)	$40,379,691

The amortized cost and estimated fair value of investments as of December 31, 2013, by contractual maturity, were as follows:

Years to Maturity	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses < 1 Year	Gross Unrealized Losses > 1 Year	Estimated Fair Value
Less than one year	$ 5,284,505	$ 18,188	$ (65)	$ -	$ 5,302,628
One to five years	17,522,711	408,411	(18,635)	(14)	17,912,473
Five to ten years	5,963,358	72,274	(42,757)	(83,688)	5,909,187
Ten to twenty years	4,147,480	155,581	(32,591)	(1,215)	4,269,255
Over twenty years	5,638,054	85,885	(30,677)	(33,884)	5,659,378
	$38,556,108	$740,339	$(124,725)	$(118,801)	$39,052,921

The tables above show the gross unrealized losses and fair value of investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment type and length of time that individual securities have been in a continuous unrealized loss position.

Proceeds from bond sales and maturities were $8,265,955 and $13,864,753 for 2013 and 2012, respectively, realized gains were $3,644 and $77,088 for 2013 and 2012, respectively, and realized losses were $0 and $2,467 for 2013 and 2012, respectively.

The unrealized losses on investments in U.S. government bonds and industrial and miscellaneous bonds at December 31, 2013 and 2012, were mainly caused by interest rate increases and not by unfavorable changes in credit ratings associated with these securities. SHP evaluates impairment at each reporting period for each of the securities, whereby the fair value of the investment is less than its amortized cost. The contractual cash flows of the U.S. government bonds are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the amortized cost of the investment, and SHP does not intend to sell the investment until the unrealized loss is fully recovered. SHP evaluated the credit ratings of the industrial and miscellaneous bonds, noting neither a significant deterioration since purchase nor other factors, which may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer, and SHP's ability and intent to hold the investments for a sufficient time in order to enable recovery of SHP's cost.

The investment in insurance subsidiary represents the total capital and surplus of SHAHP. Summarized financial information for SHAHP as of December 31, 2013 is as follows:

	2013
Total assets	$2,003,410
Total liabilities	770,901
Total capital and surplus	1,232,509
Total revenue	3,833,853
Net loss	(358,002)

There are no nonadmitted assets as a result of bonds that were in or near default as of December 31, 2013 and 2012.

Investments are reported in accordance with the NAIC Valuations of Securities manual prepared by the NAIC Securities Valuation Office.

A. Mortgage Loan, Including Mezzanine Real Estate Loans

SHP did not have any mortgage loans during the years ended December 31, 2013 or 2012.

B. Debt Restructuring

SHP did not have any debt during the years ended December 31, 2013 or 2012.

C. Reverse Mortgages

SHP did not have any reverse mortgages during the years ended December 31, 2013 or 2012.

D. Loan-Backed Securities

SHP had mortgage-backed securities of $7,341,649 and $10,272,961 during the years ended December 31, 2013 and 2012, respectively.

E. Repurchase Agreements and/or Securities Lending Transactions

SHP did not participate in any repurchase agreements or securities lending transactions during the years ended December 31, 2013 or 2012.

F. Real Estate

SHP does not own any real estate.

G. Investments in Low-Income Housing Tax Credits

SHP did not have any investments in low-income housing during the years ended December 31, 2013 or 2012.

6. JOINT VENTURES, PARTNERSHIPS, AND LIMITED LIABILITY COMPANIES

A. Joint Ventures

SHP has no investments in joint ventures, partnerships, or limited liability companies.

B. Impaired Investment Income

SHP did not have any impaired investment income during the years ended December 31, 2013 or 2012.

7. INVESTMENT INCOME

SHP has admitted all investment income due and accrued in the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

8. DERIVATIVE INSTRUMENTS

SHP has no derivative instruments.

9. INCOME TAXES

A.-B. Deferred Tax Assets and Liabilities

(1) The components of the net deferred tax assets and deferred tax liabilities at December 31, 2013 and 2012, all of which are ordinary, and the changes in the net admitted DTAs for the year ended December 31, 2013, are as follows:

The 2013 and 2012 information is computed under SSAP No. 101.

	December 31, 2013		
	Ordinary	Capital	Total
Gross deferred tax assets	$1,732,000	$ -	$1,732,000
Statutory valuation allowance adjustments			-
Adjusted gross deferred tax assets	1,732,000	-	1,732,000
Deferred tax assets nonadmitted	240,000		240,000
Subtotal net admitted deferred tax assets	1,492,000	-	1,492,000
Deferred tax liabilities	45,000		45,000
Net admitted deferred tax assets	$1,447,000	$ -	$1,447,000

	December 31, 2012		
	Ordinary	Capital	Total
Gross deferred tax assets	$1,289,000	$ -	$1,289,000
Statutory valuation allowance adjustments			-
Adjusted gross deferred tax assets	1,289,000	-	1,289,000
Deferred tax assets nonadmitted	249,000		249,000
Subtotal net admitted deferred tax assets	1,040,000	-	1,040,000
Deferred tax liabilities	43,000		43,000
Net admitted deferred tax assets	$ 997,000	$ -	$ 997,000

	Change		
	Ordinary	Capital	Total
Gross deferred tax assets	$ 443,000	$ -	$ 443,000
Statutory valuation allowance adjustments			
Adjusted gross deferred tax assets	443,000	-	443,000
Deferred tax assets nonadmitted	(9,000)		(9,000)
Subtotal net admitted deferred tax assets	452,000	-	452,000
Deferred tax liabilities	2,000		2,000
Net admitted deferred tax assets	$ 450,000	$ -	$ 450,000

(2) Admission Calculation Components SSAP No 101:

	December 31, 2013		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 1,445,000	$ -	$ 1,445,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	47,000		47,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	128,000		128,000
Adjusted gross deferred tax assets allowed per limitation threshold	47,000		47,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	1,492,000		1,492,000

	December 31, 2012		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 1,014,000	$ -	$ 1,014,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	26,000		26,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	26,000		26,000
Adjusted gross deferred tax assets allowed per limitation threshold			4,020,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	1,040,000		1,040,000

	Change		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 431,000	$ -	$ 431,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	21,000		21,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	102,000		102,000
Adjusted gross deferred tax assets allowed per limitation threshold	47,000		47,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	452,000		452,000

SSAP No. 101 is effective for 2012 interim and annual financial statements and beyond. The new standard includes revised guidance for tax contingencies, a nonelective DTA admissibility test along with significant modifications to the DTAs admissibility test, and disclosure modifications. A change resulting from this adoption would be accounted for prospectively and reflected as a change in accounting principle in accordance with SSAP No. 3. The adoption of this pronouncement resulted in a change of accounting principle as disclosed previously in Note 2.

(3) The ratio and amount of adjusted capital and surplus used to determine the applicable recovery period as of December 31, 2013 and 2012, are as follows:

Ratio percentage used to determine recovery period and threshold limitation amount	15.000 %	15.000 %
Amount of adjusted capital and surplus used to determine recovery period and threshold limitation above	$25,992,972	$26,790,937

(4) There was no impact to deferred tax assets as a result of tax planning strategies.

C. Significant components of current income taxes incurred consist of the following major categories:

(1) Current Federal Income Tax

	Year Ended December 31		
	2013	2012	Change
Current income tax:			
Federal	$ 179,000	$1,371,000	$(1,192,000)
Foreign			
Subtotal	179,000	1,371,000	(1,192,000)
Federal income tax on net capital gains	1,000	25,000	(24,000)
Federal and foreign income taxes incurred	$ 180,000	$1,396,000	$(1,216,000)

(2) Deferred Tax Assets

	Year Ended December 31		
	2013	2012	Change
Ordinary:			
Discounting of unpaid losses	$ 65,000	$ 66,000	$ (1,000)
Unearned premium reserve	62,000	92,000	(30,000)
Policyholder reserves	297,000	253,000	44,000
Fixed assets	591,000	275,000	316,000
Compensation and benefits accrual	104,000	86,000	18,000
Receivables — nonadmitted	559,000	413,000	146,000
Other (including items <5% of total tax ordinary assets)	54,000	104,000	(50,000)
Subtotal	1,732,000	1,289,000	443,000
Nonadmitted	240,000	249,000	(9,000)
Admitted ordinary deferred tax assets	$1,492,000	$1,040,000	$452,000

(3) Deferred Tax Liabilities

	Year Ended December 31		
	2013	2012	Change
Ordinary — other Capital	$45,000	$43,000	$2,000
Deferred tax liabilities	$45,000	$43,000	$2,000

(4) Net Deferred Tax Assets

	Year Ended December 31		
	2013	2012	Change
Net deferred tax assets	$ 1,447,000	$997,000	$450,000

The Company assessed the potential realization of the gross DTA, and as a result, no statutory valuation allowance was required and no allowance was established as of December 31, 2013 and 2012.

The change in net deferred income taxes is comprised of the following (this analysis is exclusive of any nonadmission of DTA under the admissibility test calculated in accordance with SSAP101 paragraph 11.

	Year Ended December 31		
	2013	2012	Change
Total deferred tax assets	$ 1,732,000	$ 1,289,000	$ 443,000
Total deferred tax liabilities	45,000	43,000	2,000
Net deferred tax assets	$ 1,687,000	$ 1,246,000	$ 441,000

D. Among the more significant book to tax adjustments were the following:

The provision for federal income taxes incurred was different from that which would be obtained by applying the statutory federal income tax rate of 34% to net income before federal income taxes. The significant items causing this difference for 2013 and 2012 were as follows:

	2013	Effective Tax Rate
Tax provision computed at statutory rate	$ 666,895	34.0 %
Meals and entertainment	3,569	0.2
Change in nonadmitted assets	(967,112)	(49.3)
Other	35,648	0.2
Total	$ (261,000)	(14.9)%
Federal and foreign income taxes incurred	180,000	9.2 %
Change in net deferred income taxes	(441,000)	(22.5)
Total statutory income taxes	$ (261,000)	(13.3)%

	2012	Effective Tax Rate
Tax provision computed at statutory rate	$1,442,955	34.0 %
Meals and entertainment	3,566	0.1
Change in deferred income taxes — net	(92,000)	(2.2)
Other	41,479	1.0
Total	$1,396,000	32.9 %

E. Additional Disclosures:

(1) *Carryforward Period* — At December 31, 2013, SHP had no net operating loss carryforwards.

(2) *Income Taxes Available for Recoupment* — Current federal income taxes payable of approximately $0 and $1,358,000 as of December 31, 2013 and 2012, respectively, are included in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus. Federal income taxes paid was $2,534,000 and $60,000 in 2013 and 2012, respectively.

Federal income tax incurred that is available for future recoupment in the event of future losses is $149,000 and $1,396,000 for 2013 and 2012, respectively.

F. Tax Return Consolidation

SHP does not consolidate tax returns with any other entity or entities.

G. Tax Loss Contingencies

SHP has no tax loss contingencies as of December 31, 2013 and 2012.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES, AND OTHER RELATED PARTIES

A-C. Related-Party Transactions

Administrative services, including claims processing, marketing, quality assurance, financial accounting, insurance, legal, payroll, and data processing, are provided by SHP to Sanford Health Plan of Minnesota (SHPMN), an affiliated entity. Expenses are allocated quarterly to SHPMN based on a percentage of overall membership and are reported as a reduction to administration expenses and CAE as applicable. Total allocated expenses were $116,450 and $126,169 for 2013 and 2012, respectively.

SH rents office space from SHP on a month-to-month basis. Total rental income was $16,101 and $21,468 for 2013 and 2012, respectively.

SH provides certain corporate services for SHP, and SHP reimburses SH for accounts payable expenses processed for SHP on a monthly basis. SHP pays SH for a monthly allocation of corporate services relating to compliance services, information technology services, and provider credentialing based on a percentage of total expenses. Other corporate services provided by SH include printing and health services support. Total corporate services and accounts payable reimbursements paid to SH for such expenses for 2013 and 2012 were $16,761,214 and $15,398,822, respectively, and are reported within CAE and GAE on the statutory-basis financial statements.

SHP provides third-party administrative services to Sanford through an Administrative Services Only (ASO) Agreement. SH reimburses SHP monthly for these services based on a per member per month basis. Payments received from SH for these services totaled $11,392,538 and $10,514,875 for 2013 and 2012, respectively, and are a reduction to general and administrative expense in the statutory-basis statements of revenues and expenses and capital and surplus account. SSAP 47.6 states that when a TPA acts in an administrative function only, related revenue should be deducted from general expense.

Payments made to SH for SHP's members' medical claims totaled $61,791,408 and $53,588,377 during 2013 and 2012, respectively, and are reported within hospital and medical expenses as applicable.

SHP provides screening services for SH. SH reimburses SHP monthly for these services. Payments received for screening services from SH totaled $6,650 and $397,057 for 2013 and 2012, respectively, and are reported within fee-for-service revenues on the statutory-basis statements of revenues and expenses and capital and surplus account.

SHP returned capital of $1,000,000 and $600,000 to SH during 2013 and 2012, respectively. SHP contributed capital of $1,000,000 to SHAHP during the year ended December 31, 2013.

SHP believes that its transactions with affiliates are reasonable and appropriate; however, operations of SHP may not be indicative of those that would have occurred if it had operated as an independent company.

D. Amounts Due from or to Related Parties

As of December 31, 2013 and 2012, SHP reported $1,480,650 and $1,392,614, respectively, as amounts due to SH, and $27,497 and $18,444, respectively, due from SHPMN.

E. Guarantees

SHP does not have any guarantees with related parties.

F. Material Management, Service Contracts, or Cost-Sharing Arrangements

Other than those discussed above, SHP does not have any material management, service contracts, or cost-sharing arrangements with related parties.

G. Control Relationship

The sole member of SHP is SH, and SH is a wholly owned subsidiary of Sanford, a fully integrated health care organization providing clinical care to patients, research, and health care coverage. As disclosed in Note 1, SHP took over control of SHAHP, which is now a wholly owned subsidiary of SHP.

H. Reduction of Asset Value of Securities

SHP did not reduce the asset value of any securities during the years ended December 31, 2013 or 2012.

I. Investment in Subsidiary, Controlled, or Affiliated (SCA) Entities that Exceeds 10% of Admitted Assets

Investments in SCA do not exceed 10% of admitted assets.

J. SCA Impaired Assets

SHP does not have any SCA impaired assets.

K. Investment in Foreign Insurance Subsidiary

SHP does not have any foreign insurance subsidiaries.

L. Investment in Downstream Noninsurance Holding Company

SHP does not have any investments in downstream noninsurance holding companies.

11. DEBT

A. Items Related to Debt

SHP had no debt outstanding during 2013 and 2012.

B. Federal Home Loan Bank Agreements

SHP had no Federal Home Loan Bank agreements during 2013 and 2012.

12. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES, AND OTHER POSTRETIREMENT BENEFIT PLANS

A. Defined Benefit Plan

SHP does not have a defined benefit plan or other postretirement benefit plan.

B. Defined Contribution Plan

SH has retirement plans for qualified SHP employees. The benefits are based on the plans' provisions. SH makes contributions to the plans of approximately 2% of estimated salary costs. Expense allocated to SHP under the plans was $245,039 and $184,484 for 2013 and 2012, respectively. These balances are recorded in CAE and GAE during the years ended December 31, 2013 and 2012.

C. Multiemployer Plans

SHP does not participate in a multiemployer plan.

D. Consolidated/Holding Company Plans

SHP does not participate in a consolidated or holding company plan.

E. Postemployment Benefits and Compensated Absences

SHP does not provide postemployment benefits or compensated absences.

F. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

There has been no impact of the Medicare Modernization Act on SHP.

13. CAPITAL AND SURPLUS, SHAREHOLDERS' DIVIDEND RESTRICTIONS, AND QUASI-REORGANIZATIONS

(1) *Capital Stock* — SHP did not have any capital stock outstanding during the years ended December 31, 2013 or 2012.

(2) *Preferred Stock* — SHP did not have any preferred stock outstanding during the years ended December 31, 2013 or 2012.

(3) *Dividend Restrictions* — There were no dividend restrictions applicable during the years ended December 31, 2013 or 2012.

(4) *Dividends Paid* — SHP paid dividends of $1,000,000 and $600,000 during the years ended December 31, 2013 and 2012, respectively.

(5) *Dividends to Stockholders* — SHP did not pay any dividends during the years ended December 31, 2013 or 2012.

(6) *Restrictions on Unassigned Funds* — There were no restrictions on unassigned funds during the years ended December 31, 2013 or 2012.

(7) *Advances to Surplus* — There were no advances to surplus during the years ended December 31, 2013 or 2012.

(8) *Stock Held for Special Purchases* — There was no stock held for special purchases for the years ended December 31, 2013 or 2012.

(9) *Changes in Special Surplus* — There were no changes in special surplus for the years ended December 31, 2013 or 2012.

(10) *Unassigned Surplus Funds* — The portion of unassigned funds deficit represented by nonadmitted asset values was $5,164,584 and $3,028,145 as of December 31, 2013 and 2012, respectively. The increase in 2013 is related to the nonadmitted portion of property and equipment.

(11) *Surplus Notes* — There were no surplus notes during the years ended December 31, 2013 or 2012.

(12) *Restatement Impact of Quasi-Reorganization* — SHP did not participate in a quasi-reorganization during the years ended December 31, 2013 or 2012.

(13) *Effective Date of Quasi-Reorganization* — SHP did not participate in a quasi-reorganization during the years ended December 31, 2013 or 2012.

14. CONTINGENCIES

A. Contingent Commitments

SHP does not have any contingent commitments as of December 31, 2013 or 2012.

B. Assessments

SHP does not have any assessments as of December 31, 2013 or 2012.

C. Gain Contingencies

SHP does not have any gain contingencies as of December 31, 2013 or 2012.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits

SHP does not have any material lawsuits resulting in extra contractual obligations or bad faith losses.

E. All Other Contingencies

SHP is involved in legal actions, which arise in the ordinary course of its business. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect upon the statutory-basis statements of revenues and expenses. SHP believes there are no assets that it considers impaired.

During the first quarter of 2010, the Patient Protection and Affordable Care Act and a reconciliation measure, the Health Care and Education Reconciliation Act of 2010 (collectively known as "Health Reform Legislation"), were signed into law, and after being challenged, were substantially upheld in a U.S. Supreme Court decision in the second quarter of 2012. The Health Reform Legislation

expands access to coverage and modifies aspects of the commercial insurance market, as well as the Medicaid and Medicare programs, Children's Health Insurance Program (CHIP), and other aspects of the health care system. Certain provisions of the Health Reform Legislation have already taken effect, and other provisions become effective at various dates over the next several years. The Department of Health and Human Services (HHS), the Department of Labor (DOL), and the Treasury Department have issued regulations or proposed regulations on a number of aspects of Health Reform Legislation, but final rules and interim guidance on the other key aspects of the legislation remain pending.

The Health Reform Legislation and the related federal and state regulations will impact how the Company does business and could restrict revenue and enrollment growth in certain products and market segments, restrict premium growth rates for certain products and market segments, increase the Company's medical and administrative costs, expose the Company to an increased risk of liability (including increasing the Company's liability in federal and state courts for coverage determinations and contract interpretation), or put the Company at risk for loss of business. In addition, the Company's statutory-basis results of operations, financial condition, and cash flows could be materially adversely affected by such changes. The Health Reform Legislation may create new or expand existing opportunities for business growth, but due to its complexity, the impact of the Health Reform Legislation remains difficult to predict and is not yet fully known.

On January 1, 2014, the SHP will be subject to an annual fee under section 9010 of the Affordable Care Act (ACA). This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of the health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for a U.S. health risk for each calendar year beginning on or after January 1, 2014. As of December 31, 2013, SHP has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2014, and estimates its portion of the annual health insurance industry fee payable on September 30, 2014, to be $2,484,000. This assessment is expected to impact risk-based capital by $0.

15. LEASES

A. Lessee Operating Lease

SHP has certain rental commitments. Rental expense for 2013 and 2012 was approximately $745,927 and $792,624, respectively. These balances are recorded in CAE.

SHP entered into a lease agreement that commenced on November 1, 2007, and a sublease that commenced on November 1, 2011. These commitments have renewal options extending through the year 2017 and are subject to adjustments in future periods. The future rental commitments for this lease are included in the table below.

At December 31, 2013, the minimum aggregate rental commitments are as follows:

Years Ending December 31	Operating Leases
2014	$ 813,096
2015	813,096
2016	799,846
2017	643,906
Total	$3,069,944

SHP is not involved in any material sales — leaseback transactions.

B. Lessor Leases:

(1) *Operating Leases* — SHP entered into a sublease agreement with a third party that commenced on November 1, 2007. This commitment has renewal options extending through the year 2017 and is subject to adjustments in future periods. Rental income for 2013 and 2012 was $148,835 and $141,270, respectively. These balances are recorded in net investment gains on the statutory-basis statements of revenues and expenses.

(2) Future minimum lease payment receivables under noncancelable leasing arrangements as of December 31, 2013, are as follows:

Years Ending December 31	Operating Leases
2014	$ 143,051
2015	143,051
2016	143,051
2017	125,562
Total	$ 554,715

(3) *Leveraged Leases* — SHP is not a lessor to any leveraged leases.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

SHP does not hold any financial instruments with off-balance-sheet risk or concentrations of credit risk.

17. SALE, TRANSFER, AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

A. Transfers of Receivables

SHP did not transfer any receivables during the years ended December 31, 2013 or 2012.

B. Transfer and Service of Financial Assets

SHP did not transfer any financial assets during the years ended December 31, 2013 or 2012.

C. Wash Sales

SHP did not participate in any activity that would be considered a wash sale during the years ended December 31, 2013 or 2012.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

A. ASO (Administrative Services Only) Plans

The gains from operations from ASO uninsured plans and the uninsured portion of partially insured plans during 2013 and 2012 were as follows:

	2013		
	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	$ 3,249,954	$ -	$ 3,249,954
Total net other income or expenses (including interest paid to or received from plans)			-
Net gain (loss) from operations	3,249,954		3,249,954
Total claim payment volume	175,127,195		175,127,195

	2012		
	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	$ 3,343,640	$ -	$ 3,343,640
Total net other income or expenses (including interest paid to or received from plans)			-
Net gain (loss) from operations	3,343,640		3,343,640
Total claim payment volume	154,743,100		154,743,100

B. ASC (Administrative Services Contract) Plans

The loss from operations and claim payment volume for Administrative Services Contract (ASC) uninsured plans for 2013 and 2012 were as follows:

	2013		
	ASC Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASC
Gross reimbursement for medical cost incurred	$ -	$ 221,391	$ 221,391
Gross administrative fees accrued			-
Other income or expenses (including interest paid to or received from plans)			-
Gross expenses incurred (claims and administrative)		345,201	345,201
Total net gain (loss) from operations		(123,810)	(123,810)

	2012		
	ASC Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASC
Gross reimbursement for medical cost incurred	$ -	$ 324,994	$ 324,994
Gross administrative fees accrued			-
Other income or expenses (including interest paid to or received from plans)			-
Gross expenses incurred (claims and administrative)		522,864	522,864
Total net gain (loss) from operations		(197,870)	(197,870)

C. Medicare or Similarly Structured Cost-Based Reimbursement Contract

SHP does not have any Medicare or similarly structured cost-based reimbursement contracts, however SHAHP, the wholly owned subsidiary of SHP, does have a Medicare Cost contract.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

SHP did not have any direct premiums written or produced by managing general agents or third-party administrators.

20. FAIR VALUE MEASUREMENTS

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. SHP's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

A. Assets and Liabilities Measured at Fair Value

SHP does not have any financial assets that are measured and reported at fair value on the statutory-basis statements of admitted assets, liabilities, and capital and surplus at December 31, 2013 and 2012.

B. Other Fair Value Disclosure

The following table presents information about SHP's financial assets disclosed at fair value at December 31, 2013 and 2012.

Description for Each Class of Asset or Liability	December 31, 2013 (Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
U.S. government bonds	$ -	$ 10,504,327	$ -	$ 10,504,327
U.S. state bonds		870,119		870,119
U.S. political subdivisions of state bonds		213,734		213,734
U.S. special revenue and special assessment bonds		181,314		181,314
Industrial and miscellaneous bonds, including foreign		17,317,872		17,317,872
Mortgage-backed securities		7,387,756		7,387,756
Preferred stocks	828,239			828,239
Short-term investments		2,577,799		2,577,799
Total assets at fair value	$828,239	$ 39,052,921	$ -	$ 39,881,160

Description for Each Class of Asset or Liability	December 31, 2012 (Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
U.S. government bonds	$ -	$ 6,537,923	$ -	$ 6,537,923
U.S. state bonds		925,396		925,396
U.S. political subdivisions of state bonds		105,419		105,419
U.S. special revenue and special assessment bonds		189,800		189,800
Industrial and miscellaneous bonds, including foreign		17,698,350		17,698,350
Mortgage-backed securities		10,517,211		10,517,211
Short-term investments	461,669	3,943,923		4,405,592
Total assets at fair value	$461,669	$ 39,918,022	$ -	$ 40,379,691

There were no transfers between Level 1 and Level 2 during the years ended December 31, 2013 and 2012.

C. Financial Instruments for Which Fair Value Cannot be Estimated

Not applicable.

D. Not Practicable to Estimate Fair Value

Not applicable.

21. OTHER ITEMS

A. Extraordinary Items

There were no extraordinary items for SHP during the years ended December 31, 2013 or 2012.

B. Troubled Debt Restructuring — Debtors

SHP does not have troubled debt restructuring.

C. Other Disclosures

Risk-based capital (RBC) is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. Under the laws of South Dakota, SHP is required to maintain a minimum net worth and company action-level RBC. SHP met the net worth requirements as of December 31, 2013 and 2012.

The Company is required by the State of South Dakota to maintain a minimum regulatory deposit of $300,000. The Company is in compliance with this requirement as of December 31, 2013 and 2012, respectively.

D. Uncollectible

Not applicable.

E. Business Interruption Insurance Recoveries

Not applicable.

F. State Transferable Tax Credits

SHP did not have any state transferable tax credits as of December 31, 2013 or 2012.

G. Subprime Mortgage-Related Exposure

Not applicable.

H. Retained Assets

SHP did not have any retained assets as of December 31, 2013 or 2012.

22. SUBSEQUENT EVENTS

Type I — Recognized Subsequent Events — SHP has evaluated recognized subsequent events through February 28, 2014, which is the date these statutory-basis financial statements were available for issuance.

There were no events subsequent to December 31, 2013, that require recognition or disclosure.

Type II — Nonrecognized Subsequent Events — SHP has evaluated nonrecognized subsequent events through February 28, 2014, which is the date these statutory-basis financial statements were available for issuance.

There were no events subsequent to December 31, 2013, that require disclosure.

23. REINSURANCE

A. Ceded Reinsurance Report:

Section 1 — General Interrogatories

(1) Are any of the reinsurers, listed in Schedule S as nonaffiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

( ) Yes (X) No

(2) Have any polices issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor, or an insured or any other person not primarily engaged in the insurance business?

( ) Yes (X) No

Section 2 — Ceded Reinsurance Report — Part A

(1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credit?

( ) Yes (X) No

(2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

( ) Yes (X) No

Section 3 — Ceded Reinsurance Report — Part B

(1) What is the estimated amount of the aggregate reduction in surplus (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of payment or other similar credits that are reflected in Section 2 above) of termination of all reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

$0

(2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

( ) Yes (X) No

B. Uncollectible Reinsurance

During 2013 and 2012, there were no uncollectible reinsurance recoverables.

C. Commutation of Ceded Reinsurance

SHP does not have any commutation of ceded reinsurance.

D. Unsecured Reinsurance Recoverables

SHP does not have an unsecured aggregate reinsurance recovery receivable with any individual reinsurers, authorized or unauthorized, that exceeds 3% of SHP's policyholder surplus.

E. Reinsurance Recoverable in Dispute

SHP does not have a reinsurance recoverable balance that is being disputed by any individual reinsurer.

F. Retroactive Reinsurance

SHP did not have a retroactive reinsurance agreement in 2013 or 2012.

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

A. Method Used to Estimate Retrospective Premium Adjustments

Not applicable.

B. Accrued Retrospective Premium

Not applicable.

C. Amount of Net Premiums

Not applicable.

D. Medical Loss Ratio Rebates

Not applicable.

25. CHANGE IN INCURRED CLAIMS AND UNPAID CAE

Reserves for incurred claims and unpaid CAE attributable to insured events of prior years have decreased by $331,133, from $13,757,798 in 2012 to $13,426,665 in 2013, as a result of a reestimation of unpaid claims and CAE principally on the commercial line of insurance. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

Claims activity, net of reinsurance and aggregate health policy reserves in 2013 and 2012, was as follows:

	2013		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	$ -	$ (12,907,798)	$ (12,907,798)
Paid claims	113,688,899	12,321,277	126,010,176
End of year claim reserve	16,511,961	255,388	16,767,349
Total incurred claims	$ 130,200,860	$ (331,133)	$ 129,869,727

	2012		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	$ -	$ (11,172,146)	$ (11,172,146)
Paid claims	111,023,304	11,140,080	122,163,384
End of year claim reserve	12,902,210	5,588	12,907,798
Total incurred claims	$ 123,925,514	$ (26,478)	$ 123,899,036

SHP incurred CAE of $9,192,821 and $8,250,046 in 2013 and 2012, respectively. The paid CAE, incurred CAE, and the balance in the unpaid claim adjustment expenses reserve for 2013 and 2012 are as follows:

	2013	2012
Total CAE incurred	$9,192,821	$8,250,046
Less current year unpaid CAE	(1,118,000)	(850,000)
Add prior year unpaid CAE	850,000	775,000
Total CAE paid	$8,924,821	$8,175,046

26. INTERCOMPANY POOLING ARRANGEMENTS

SHP did not have any intercompany pooling arrangements in 2013 or 2012.

27. STRUCTURED SETTLEMENTS

Not applicable to health entities.

28. HEALTH CARE RECEIVABLES

Pharmaceutical Rebates Receivable — Pharmaceutical rebates receivable are recorded when reasonably estimated or billed by the unaffiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions. SHP has excluded receivables that do not meet the admissibility criteria from the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

The quarterly collection history of pharmacy rebates for the past three years is summarized in the table below.

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days After Billing
December 31, 2013	$ -	$ -	$ -	$ -	$ -
September 30, 2013		733,554			
June 30, 2013		709,814		686,829	
March 31, 2013		709,847		732,652	
December 31, 2012		606,204		638,670	
September 30, 2012		613,555		664,542	
June 30, 2012	578,475	580,885		525,510	
March 31, 2012	527,756	518,158		525,109	
December 31, 2011	428,629	425,942		386,379	
September 30, 2011	438,787	425,135		415,562	
June 30, 2011		405,857		411,653	
March 31, 2011		384,198		381,119	

SHP did not admit health care receivables as of December 31, 2013 and 2012, respectively.

Risk Sharing Receivables — Not applicable.

29. PARTICIPATING POLICIES

SHP did not have any participating policies in 2013 or 2012.

30. PREMIUM DEFICIENCY RESERVES

SHP recorded a premium deficiency reserve of $873,000 and $743,000 based on an evaluation as of December 31, 2013 and 2012, respectively. Premium deficiency reserves are included in aggregate health policy reserves in the statutory-basis statements of admitted assets, liabilities, and capital and surplus. A discount rate of 3% was used in this analysis at December 31, 2013 and 2012.

Liability carried for premium deficiency reserves	$ 873,000
Date of the most recent evaluation of this liability	December 31, 2013
Was anticipated investment income utilized in the calculation?	Yes [X] No [ ]

31. ANTICIPATED SALVAGE AND SUBROGATION

Due to the type of business being written, SHP has no salvage. As of December 31, 2013 and 2012, SHP had no specific accruals established for outstanding subrogation as it is considered a component of the actuarial calculations used to develop the estimates of claims unpaid.

SUPPLEMENTAL SCHEDULES

SUPPLEMENTAL SCHEDULES
EXHIBIT I: SUPPLEMENTAL SCHEDULE OF INVESTMENT RISKS INTERROGATORIES

SUPPLEMENT FOR THE YEAR 2013 OF THE SANFORD HEALTH PLAN

SUPPLEMENTAL INVESTMENT RISKS INTERROGATORIES

For The Year Ended December 31, 2013

(To Be Filed by April 1)

Of The SANFORD HEALTH PLAN

Address (City, State and Zip Code) Sioux Falls, SD 57103

NAIC Group Code 01246 NAIC Company Code 95683 Employer's ID Number 91-1842494

The Investment Risks Interrogatories are to be filed by April 1. They are also to be included with the Audited Statutory Financial Statements.

Answer the following interrogatories by reporting the applicable U. S. dollar amounts and percentages of the reporting entity's total admitted assets held in that category of investments.

1. Reporting entity's total admitted assets as reported on Page 2 of this annual statement. $ 51,347,204.78

2. Ten largest exposures to a single issuer/borrower/investment.

	1 Issuer	2 Description of Exposure	3 Amount	4 Percentage of Total Admitted Assets
2.01	FIRST PREMIER BANK	CHECKING ACCOUNT	$ 3,509,589.28	6.8 %
2.02	FANNIE MAE (FNMA)	MORTGAGE-BACKED SECURITIES	$ 3,100,803.76	6.0 %
2.03	FREDDIE MAC (FHLMC)	MORTGAGE-BACKED SECURITIES	$ 2,539,239.46	4.9 %
2.04	WELLS FARGO	CHECKING ACCOUNT/CORPORATE BONDS/PREF ST	$ 2,319,397.22	4.5 %
2.05	CREDIT SUISSE	CORPORATE BONDS	$ 1,503,217.33	2.9 %
2.06	ARCHER DANIELS MIDLAND	CORPORATE BONDS	$ 1,135,098.20	2.2 %

Audit Committee and Management
Sanford Health Plan
Sioux Falls, SD 57103

Dear Members of the Audit Committee and Management:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the statutory-basis financial statements of Sanford Health Plan (SHP) for the years ended December 31, 2013 and 2012, and have issued our report thereon dated February 28, 2014. In connection therewith, we advise you as follows:

a. We are independent certified public accountants with respect to SHP and conform to the standards of the accounting profession as contained in the Code of Professional Conduct and pronouncements of the American Institute of Certified Public Accountants, and the Rules of Professional Conduct of the Minnesota State Board of Public Accountancy.

b. The engagement partner and engagement manager, who are certified public accountants, have 13 years and 7 years, respectively, of experience in public accounting and are experienced in auditing insurance enterprises. Members of the engagement team, most of whom have had experience in auditing insurance enterprises and 50% of whom are certified public accountants, were assigned to perform tasks commensurate with their training and experience.

c. We understand that SHP intends to file its audited statutory-basis financial statements and our report thereon with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments in states in which SHP is licensed and that the insurance commissioners of those states will be relying on that information in monitoring and regulating the statutory-basis financial condition of SHP.

d. While we understand that an objective of issuing a report on the statutory-basis financial statements is to satisfy regulatory requirements, our audit was not planned to satisfy all objectives or responsibilities of insurance regulators. In this context, SHP and insurance commissioners should understand that the objective of an audit of statutory-basis financial statements in accordance with auditing standards generally accepted in the United States of America is to form an opinion and issue a report on whether the statutory-basis financial statements present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus, results of operations, and cash flows in accordance with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. Consequently, under auditing standards generally accepted in the United States of America, we have the responsibility, within the inherent limitations of the auditing process, to plan and perform our audit to obtain reasonable assurance regarding whether the statutory-basis financial statements are free from material misstatement, whether due to error or fraud, and to exercise due professional care in the conduct of the audit. SHP is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audit included consideration of internal control relevant to the entity's preparation and fair presentation of the statutory-basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. The concept of selective testing of the data being audited, which involves judgment both as to the number of transactions to be audited and the areas to be tested, has

been generally accepted as a valid and sufficient basis for an auditor to express an opinion on statutory-basis financial statements. Audit procedures that are effective for detecting errors, if they exist, may be ineffective for detecting misstatements resulting from fraud. Because of the characteristics of fraud, particularly those involving concealment and falsified documentation (including forgery), a properly planned and performed audit may not detect a material misstatement resulting from fraud. In addition, an audit does not address the possibility that material misstatements may occur in the future. Also, our use of professional judgment and the assessment of materiality for the purpose of our audit mean that matters may exist that would have been assessed differently by insurance commissioners.

e. It is the responsibility of the management of SHP to adopt sound accounting policies, to maintain an adequate and effective system of accounts, and to establish and maintain internal control that will, among other things, provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and are recorded properly to permit the preparation of statutory-basis financial statements in conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance.

f. The Insurance Commissioner should exercise due diligence to obtain whatever other information that may be necessary for the purpose of monitoring and regulating the statutory-basis financial position of insurers and should not rely solely on the independent auditors' report.

g. We will retain the working papers prepared in the conduct of our audit until the South Dakota Department of Commerce and Regulation, Division of Insurance has filed a Report of Examination covering 2013, but no longer than seven calendar years from the date of the audit report or until the filing of the report on examination covering the period of the audit, whichever is longer. After notification to SHP, we will make the working papers available for review by the South Dakota Department of Commerce and Regulation, Division of Insurance at the offices of the insurer, at our offices, at the South Dakota Department of Commerce and Regulation, Division of Insurance, or at any other reasonable place designated by the Insurance Commissioner. Furthermore, in the conduct of the aforementioned periodic review by the South Dakota Department of Commerce and Regulation, Division of Insurance, photocopies of pertinent audit working papers may be made (under the control of Deloitte & Touche LLP) and such copies may be retained by the South Dakota Department of Commerce and Regulation, Division of Insurance.

h. The engagement partner has served in this capacity with respect to SHP since 2013, is licensed by the Minnesota State Board of Public Accountancy, and is a member in good standing of the American Institute of Certified Public Accountants.

i. To the best of our knowledge and belief, we are in compliance with the requirements of Section 7 of the National Association of Insurance Commissioners' Model Rule (Regulation) Requiring Annual Audited Financial Reports regarding qualifications of independent certified public accountants.

This letter is intended solely for the information and use of the Audit Committee and management of SHP for filing with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments to whose jurisdiction SHP is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

Yours Truly,

Deloitte & Touche LLP

Audit Committee and Management
Sanford Health Plan
Sioux Falls, South Dakota

Dear Members of the Audit Committee and Management:

In planning and performing our audit of the statutory-basis financial statements of Sanford Health Plan (SHP) as of and for the year ended December 31, 2013 (on which we have issued our report dated February 28, 2014), in accordance with auditing standards generally accepted in the United States of America, we considered SHP's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHP's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of SHP's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses and therefore, material weaknesses may exist that were not identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as of December 31, 2013.

The definitions of a deficiency and a material weakness are set forth in the attached Appendix I.

A description of the responsibility of management for establishing and maintaining internal control over financial reporting and of the objectives of and inherent limitations of internal control over financial reporting, is set forth in the attached Appendix II and should be read in conjunction with this report.

This report is intended solely for the information and use of the Audit Committee, management, others within the organization, and state insurance departments to whose jurisdiction SHP is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

Yours truly,

Deloitte & Touche LLP

DEFINITIONS

The definitions of a deficiency and a material weakness are as follows:

A *deficiency* in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when (a) a properly designed control does not operate as designed or (b) the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A *material weakness* is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's statutory-basis financial statements will not be prevented, or detected and corrected on a timely basis.

MANAGEMENT'S RESPONSIBILITY FOR, AND THE OBJECTIVES AND LIMITATIONS OF, INTERNAL CONTROL OVER FINANCIAL REPORTING

The following comments concerning management's responsibility for internal control over financial reporting and the objectives and inherent limitations of internal control over financial reporting are adapted from auditing standards generally accepted in the United States of America.

Management's Responsibility

SHP's management is responsible for the overall accuracy of the statutory-basis financial statements and their conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. In this regard, management is also responsible for establishing and maintaining effective internal control over financial reporting.

Objectives of Internal Control Over Financial Reporting

Internal control over financial reporting is a process effected by those charged with governance, management, and other personnel and designed to provide reasonable assurance about the achievement of the entity's objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. Internal control over the safeguarding of assets against unauthorized acquisition, use, or disposition may include controls related to financial reporting and operations objectives. Generally, controls that are relevant to an audit of statutory-basis financial statements are those that pertain to the entity's objective of reliable financial reporting (i.e., the preparation of reliable statutory-basis financial statements that are fairly presented in conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance.

Inherent Limitations of Internal Control Over Financial Reporting

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented, or detected and corrected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

BEFORE THE DIVISION OF INSURANCE
DEPARTMENT OF LABOR AND REGULATION
STATE OF SOUTH DAKOTA

IN THE MATTER OF THE FINANCIAL EXAMINATION OF SANFORD HEALTH PLAN	))	FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER

On February 9, 2012, the Financial Examination Report (Report) for Sanford Health Plan (the Company) was submitted to the Director for his consideration and review, pursuant to SDCL 58-3-12. Having reviewed the Report, he makes the following Findings of Fact, Conclusions of Law and Order, pursuant to SDCL 58-3-12 and SDCL Chapter 1-26:

Findings of Fact

1.

The Company is a South Dakota domiciled nonprofit health maintenance organization subject to examination, pursuant to SDCL 58-3-1. The Company is a member of the Sanford Hospital and Health System.

2.

A financial examination of the Company was conducted for the period from January 1, 2006 through December 31, 2010. A copy of the Report is attached as Exhibit A, and by reference, is made a part of this Order.

3.

The Report was filed with the South Dakota Division of Insurance (Division) on February 9, 2012.

4.

No written response or rebuttal was received by the Division from the Company within thirty (30) days of submission of the Report, as allowed under SDCL 58-3-12.

5.

The Director has fully considered and reviewed the Report.

Conclusions of Law

1.

The Director of the Division has jurisdiction of this matter, pursuant to SDCL Chapter 58-3.

2.

Pursuant to SDCL 58-3-12 and 58-3-17, the Director must issue an Order in this matter, pursuant to SDCL Chapter 1-26. The Report may be adopted as filed or with modifications or corrections, or the Report may be rejected in full.

3.

Pursuant to SDCL 58-3-17, the Company must serve its directors with a copy of this Order and Report and file affidavits from the directors with the Division stating they have received a copy of the Order and Report.

Order

It is hereby ORDERED that the Report, attached as Exhibit A, is adopted. It is further

ORDERED that the Company is to serve a copy of the Order and Report on each member of its Board of Directors. It is further

ORDERED that within thirty (30) days of the date of this Order, the Company shall file affidavits with the Division, executed by each member of its Board of Directors, stating that they have received a copy of the Order and Report. It is further

ORDERED that within thirty (30) days of the date of this Order, the Company shall comply with the Report recommendations and provide written verification to the Director that each recommendation has been complied with. It is further

ORDERED that within thirty (30) days after the time for appeal has expired, the Company shall provide a copy of the Order and Report to each state in which it is licensed to do business and to the National Association of Insurance Commissioners (NAIC), 1100 Walnut Street, Suite 1500, Kansas City, MO 64106, and file an affidavit of mailing to the states and the NAIC with the Division within ten (10) days of the mailing. It is further

ORDERED that this Order may not be used by any person for any competitive purpose or used in a manner that would violate SDCL Chapter 58-33.

Dated this 12th day of March, 2012.

Merle Scheiber, Director
S.D. Division of Insurance

This Order may be appealed to the Circuit Court and Supreme Court, pursuant to SDCL Chapter 1-26.

Chairman, Secretary and Director,

Pursuant to your instructions, and in accordance with the insurance laws of the State of South Dakota, a financial examination has been made of the

SANFORD HEALTH PLAN

SIOUX FALLS, SOUTH DAKOTA

as of December 31, 2010. The following examination report is respectfully submitted.

SCOPE OF EXAMINATION

An examination of Sanford Health Plan was performed by examiners representing the South Dakota Division of Insurance. The last examination of the Company was completed as of December 31, 2005. This examination covers the period from January 1, 2006, through December 31, 2010, together with such consideration of prior or subsequent matters as was deemed pertinent in the judgment of the examiners.

We conducted our examination in accordance with the NAIC *Financial Condition Examiners Handbook*. The Handbook requires that we plan and perform the examination to evaluate the financial condition and identify prospective risks of the Company by obtaining information about the Company including corporate governance, identifying and assessing inherent risks within the Company and evaluating system controls and procedures used to mitigate those risks. An examination also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation, management's compliance with Statutory Accounting Principles and annual statement instructions when applicable to domestic state regulations.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process.

INTRODUCTION

Sanford Health Plan, also referred to as the Company or SHP, has its home office at 300 Cherapa Place, Suite 201, Sioux Falls, South Dakota 57103. Examiners representing the South Dakota Division of Insurance conducted this examination at the Company's home office.

SUMMARY OF SIGNIFICANT FINDINGS

MATERIAL ADVERSE FINDINGS

There are no material adverse findings.

SIGNIFICANT NON-COMPLIANCE FINDINGS

There are no significant non-compliance findings. See the Summary of Comments and Recommendations section of this report for comments regarding other findings of this examination.

MATERIAL CHANGES IN FINANCIAL STATEMENTS

The Surplus As Regards Policyholders, as determined through this examination is equal to the amount reported by the Company in its 2010 Annual Statement.

COMPLIANCE WITH PREVIOUS EXAMINATION RECOMMENDATIONS

The present status of the recommendations and important comments summarized in the 2005 Financial Examination Report is as follows:

OFFICERS - It is recommended that SHP have the officers required by SDCL 47-23-24.

Present Status: The Company has complied with this recommendation.

It is also recommend that the SHP Board of Directors annually elect or appoint the officers as required by SDCL 47-23-24.

Present Status: The Company has partially complied with this recommendation.

BOARD OF DIRECTORS - It is recommended that the SVHHS Board of Trustees elect/re-elect the non-consumer Directors and that the adult enrollees of the Company's health insurance plan elect the consumer directors as provided in the Company's Bylaws.

Present Status: The Company has complied with this recommendation.

COMMITTEES - It is again recommended that the Board of Directors appoint the various committees of the Company.

Present Status: The Company has not complied with this recommendation.

NOTE A - CASH AND SHORT-TERM INVESTMENTS - It is recommended that the Company monitor the amounts of admitted assets subject to repurchase agreements so that they do not exceed the limitations of SDCL 58-27-81(5).

Present Status: The Company has complied with this recommendation.

COMPANY HISTORY

Sioux Valley Health Plan was incorporated on July 30, 1997, under the laws of the State of South Dakota as a nonprofit health maintenance organization and commenced business on January 1, 1998. The Company's name was changed to Sanford Health Plan in 2007. The Company is owned entirely by Sanford Health (SH).

CORPORATE RECORDS

ARTICLES OF INCORPORATION

The Articles of Incorporation were amended in 2007 changing the name of the Company to Sanford Health Plan. The amendment was filed with and approved by the South Dakota Secretary of State and by South Dakota Division of Insurance.

BYLAWS

The Company's Bylaws were amended and restated on May 9, 2006. The main changes were increasing the number of directors, establishing Board of Directors terms of office and changing the provision concerning the CEO. The Company's Bylaws were again amended and restated on March 13, 2007, under which all references to Sioux Valley Health Plan were changed

to Sanford Health Plan and under which all references to Sioux Valley Hospital & Health System were changed to Sanford Health. Both the 2006 and 2007 Amended and Restated Bylaws were filed with and approved by the South Dakota Division of Insurance.

MINUTES

The minutes of the meetings of the Board of Directors, Physicians Quality Committee, Credentialing Committee and Pharmacy and Quality Improvement Committee were reviewed. Meetings of all the bodies appear to have been held in accordance with the Bylaws.

MANAGEMENT AND CONTROL

OFFICERS

Officers serving on December 31, 2010, were as follows:

Name	Office
Katherine Schnabel	Chairman of the Board
Pamela Ephgrave, MD	Vice-Chairman of the Board
Clayton Van Balen, MD	Vice-Chairman of the Board
Kelby Krabbenhoft	CEO
Ruth Krystopolski	President
David Link	Executive Vice President
Lisa Carlson	Secretary
Bill Marlette	Treasurer

The Bylaws provide that the CEO with the approval of the Board of Directors may appoint other officers of the Company. SDCL 47-23-24 provides that all officers shall be elected or appointed annually by the board of directors. In 2007, the CEO appointed officers and the Directors approved the appointments. No officer appointments/approvals were made in 2008, 2009 or 2010. As required by SDCL 47-23-24, it is recommended that annually the CEO appoint officers of the Company and the Board of Directors approve such officer appointments.

BOARD OF DIRECTORS

Directors serving on December 31, 2010, were as follows:

Name and Address	Principal Affiliation
Scott Boyens, MD Sioux Falls, SD	Sanford Clinic
Steve Brennan Sioux Falls, SD	Ambesbury Industries Inc.
Kimberly Elbers Sioux Falls, SD	First National Bank of Sioux Falls

Tracy Kueter
Pat Rowland
Michelle Vanderwert

It is again recommended that the Company comply with its Bylaws by having the Board of Directors appoint the various committees of the Company.

CONFLICT OF INTEREST

Members of the Board of Directors complete a conflict of interest statement annually. The conflict of interest statements are submitted to

Sanford Health which collects conflict of interest statements from its subsidiary Boards.

MEMBERS

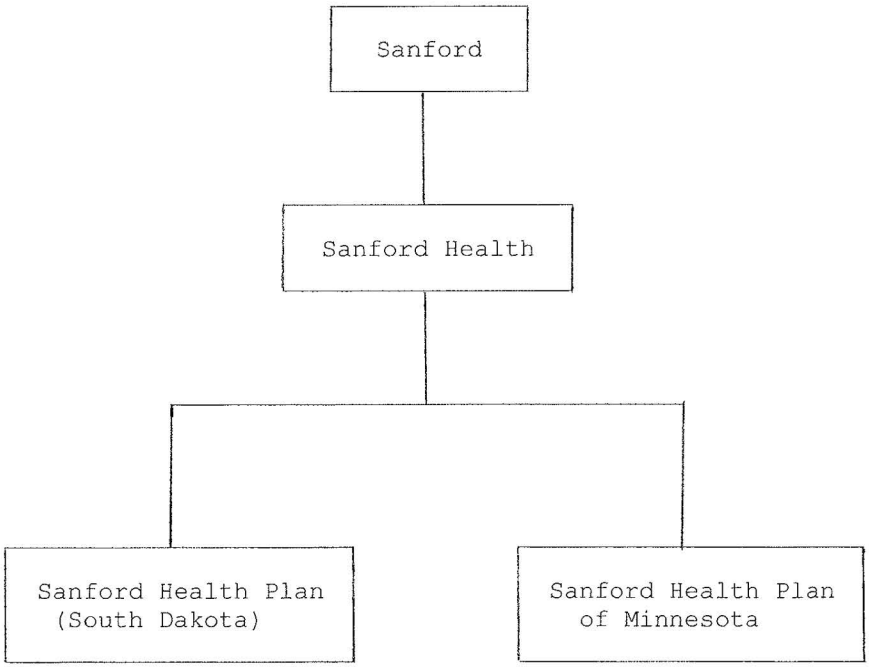
The Company is wholly-owned by Sanford Health. The sole corporate member did not hold any meetings during the period under examination.

MANAGEMENT AGREEMENTS

The Company and Sanford Health have entered into a Corporate Services Agreement. Under the terms of the agreement, Sanford Health provides corporate support services on an as needed basis to SHP. On a monthly basis, SHP reimburses Sanford Health for the actual costs of the provided services.

CORPORATE STRUCTURE

The position of SHP within the corporate structure as of December 31, 2010, follows:



FIDELITY BONDS AND OTHER INSURANCE

The Company is covered as a named insured with its parent and affiliates on a fiduciary insurance policy covering dishonesty by officers and employees. The policy provides for $10,000,000 of loss coverage. Computation of fidelity coverage recommended by the NAIC corporate fidelity bond coverage formula indicates a minimum exposure for a bond ranging in the amount of $700,000 to $800,000 for SHP. The only other insurance coverage protecting the Company is a Managed Care Errors and Omissions Liability Policy.

PENSION AND INSURANCE PLANS

The Company's employees participate in the health, vision, dental, disability and life insurance plans, flex spending plan and 401K retirement savings plan sponsored by Sanford Health. The Company reimburses Sanford Health on a monthly basis for the actual costs of the provided benefits.

TERRITORY AND PLAN OF OPERATION

As of year-end 2010, the Company was authorized to transact the business of health insurance in Iowa, North Dakota and South Dakota. The Company offers group health insurance, individual health insurance and Medicare Supplement insurance.

The Company and Great Plains Brokerage, Inc. have entered into a Sales Management Agreement. Under the agreement, Great Plains Brokerage is SHP's exclusive sales management company and is responsible for creating, staffing, training, supervising and operating the sales force in the sale of the Company's health insurance plans.

The Company also offers TPA services for self-insured employers. SHP and SH have entered into an Administrative Services Agreement. Under the Agreement, SHP is to perform the ministerial and administrative services over SH's Medical Benefit Plan.

GROWTH OF COMPANY

The following exhibits reflect historical data of the Company as reflected in SHP's Annual Statements:

Ten-Year Exhibit of
Assets, Liabilities, Capital and Surplus

Year	Admitted Assets	Liabilities	Contributed Surplus	Surplus Notes	Retained Earnings
2001	$13,308,363	$ 9,495,940	$11,316,435	$3,371,416	$(10,875,428)

2009	(1,429,062)	894,953	28,296	(171)	(505,642)
2010	(656,778)	868,319	(39,610)	(77,471)	249,402

LOSS EXPERIENCE

The Company's underwriting experience during the period under review, as compiled from filed annual statements, is as follows: (000's omitted)

	2006	2007	2008	2009	2010
Premiums Earned	$78,729	$93,014	$97,463	$105,851	$122,024
Deductions (Incurred)					
Medical & Hospital Exp.	$69,441	$86,278	$89,643	$ 98,063	$112,578
Claim Adjustment Exp.	3,575	4,318	4,522	5,036	7,095
Administration Expense	3,487	4,588	3,938	4,181	3,008
Total Deductions	$76,503	$95,184	$98,103	$107,280	$122,681
Net Underwriting Gain or (Loss)	$ 2,226	$(2,170)	$(640)	$(1,429)	$(657)

Losses and expenses incurred reflected as a percentage of premiums earned follows:

	2006	2007	2008	20049	2010
Medical & Hospital Exp.	88.20%	92.76%	91.98%	92.64%	92.26%
Claim Adjustment Exp.	4.54	4.64	4.64	4.76	5.81
Administration Expenses	4.43	4.93	4.04	3.95	2.47
Totals	97.17%	102.33%	100.66%	101.35%	100.54%

REINSURANCE

REINSURANCE CEDED

To minimize its exposure to large medical, physician and hospital claims, the Company entered into an excess of loss reinsurance agreement. Under the agreement, SHP retains the first $225,000 of eligible medical, hospital and physician expenses per member per year. The reinsurer is responsible for 90% of the excess eligible expenses up to a maximum $1,600,000 of eligible expenses per member per year.

The reinsurance agreement provides for risk transfer and contains insolvency, arbitration, continuance of coverage and coverage conversion provisions.

STATUTORY DEPOSITS

SDCL 58-6-34 provides that a minimum deposit of $200,000 be entrusted through the Director of Insurance by any company authorized to transact business in the State of South Dakota.

Compliance with the above provisions, based on results of the examination as of December 31, 2010, was determined as follows:

Qualified Deposits	
South Dakota:	
Money Market Funds	$300,000
Total Qualified Deposits	$300,000
Required Deposits	
Other Business:	
Deposits Required Under Statutory Law	$200,000
Total Required Deposits	$200,000
Excess of Required Deposits	$100,000

ACCOUNTS AND RECORDS

The Company and its affiliates operate as separate entities, maintaining their own files, records and books of accounts.

The Company pays direct expenses incurred. Expenses common to the Company and its affiliates are paid by Sanford Health and are then allocated to SHP according to the terms of the Corporate Services Agreement.

The Company's general ledger and its supporting journals and records are maintained by SH's EDP system. A trial balance of the 2010 general ledger was prepared and traced to the 2010 Annual Statement.

To ascertain proper compliance to prescribed operating and accounting procedures, a public accounting firm conducts an annual audit of the Company. Copies of the accounting firm's audit reports and workpapers were made available to the examiners.

FINANCIAL STATEMENTS

The following financial statements and supporting exhibits include various amounts reported by the Company for the year ending December 31, 2010.

Capital and Surplus 12/31 Current Year	$ 9,524,029	$24,075,977

COMPARATIVE STATUTORY BALANCE SHEET

The following exhibit reflects a statutory balance sheet comparison of the amounts reported by the Company in its 2010 Annual Statement and the amounts determined through examination.

	Per Company	Per Examination	Notes
Admitted Assets			
Bonds	$20,712,224	$20,712,224	
Cash and Short-Term Investments	18,633,898	18,633,898	
Investment Income Due and Accrued	137,444	137,444	
Premiums Receivable	370,359	370,359	
Amounts Recoverable From Reinsurers	178,000	178,000	
Amounts Receivable Uninsured Plans	9,640	9,640	
Federal Income Tax Recoverable	57	57	
Net Deferred Tax Asset	193,000	193,000	
EDP Equipment	162,306	162,306	
Receivable From Affiliates	34,931	34,931	
Health Care Receivable	504,322	504,322	
Total Admitted Assets	$40,936,181	$40,936,181	
Liabilities			
Claims Unpaid	$12,187,943	$12,187,943	
Unpaid Claim Adjustment Expenses	748,000	748,000	
Advance Premiums	755,607	755,607	
General Expenses Due and Accrued	2,092,633	2,092,633	
Amounts Due to Parent	1,076,021	1,076,021	
Total Liabilities	$16,860,204	$16,860,204	
Capital and Surplus			
Contributed Surplus	$28,613,218	$28,613,218	
Unassigned Funds	(4,537,241)	(4,537,241)	Note A
Net Capital and Surplus	$24,075,977	$24,075,977	Note B
Total Liabilities and Surplus	$40,936,181	$40,936,181	

EXAMINATION NOTES TO THE COMPARATIVE STATUTORY BALANCE SHEET

NOTE A - UNASSIGNED FUNDS

The unassigned funds of the Company at December 31, 2010, as determined by this examination are the same as the amount reported by the Company in its 2010 Annual Statement.

NOTE B - NET CAPITAL AND SURPLUS

The net capital and surplus of the Company at December 31, 2010, as determined by this examination, is the same as the amount reported by the Company in its 2010 Annual Statement.

SUMMARY OF COMMENTS AND RECOMMENDATIONS

Reference Page	
3	**COMPLIANCE WITH PREVIOUS EXAMINATION RECOMMENDATIONS** - The Company has not complied with all of the recommendations of the 2005 Financial Examination Report.
5	**OFFICERS** - As required by SDCL 47-23-24, it is recommended that annually the CEO appoint officers of the Company and the Board of Directors approve such officer appointments.
7	**COMMITTEES** - It is again recommended that the Company comply with its Bylaws by having the Board of Directors appoint the various committees of the Company.
20	**NOTE B - NET CAPITAL AND SURPLUS** - The net capital and surplus of the Company at December 31, 2010, as determined by this examination, is the same as the amount reported by the Company in its 2010 Annual Statement.

ACKNOWLEDGEMENT

The examiners wish to express appreciation for the cooperation extended by the officers and employees of SHP during the course of the examination.

In addition to the undersigned, Bruce Basham, CFE and Kristie Goetz, CFE, examiners for the South Dakota Division of Insurance, participated in the examination.

Respectfully submitted,

Marty Warns

Marty Warns, CFE
Division of Insurance
State of South Dakota
Representing Zone III, NAIC

Sample Company

Incurred February 2012 through January 2013
Paid February 2012 through April 2013

SANFORD HEALTH PLAN

Group Reporting Package

Thank you for your continued business with Sanford Health Plan. Our unrelenting goal is to provide our clients with the highest level of customer service. As a part of our continued commitment to you, it is our pleasure to provide you with a comprehensive group reporting package.

It is important for us to help our clients understand the variables of the renewal rate calculations. However, it is important to note that your renewal is not based solely on formulas. We carefully consider each group's renewal individually. Your group is not just a conglomeration of numbers. You are a group of unique individuals. The sections below contain descriptions of the main variables which are part of your renewal calculation.

Credibility

Credibility is a statistical metric which correlates directly to group size and is a measure of claim volatility. Credibility is also impacted by the amount of historical data which is available. For example, a group that has less than 100 members and two years or fewer of historical claims data is statistically very volatile. Thus, the group has very little credibility. Conversely, a group with 1,000+ members and three or more years of historical claims is much more predictable actuarially in terms of future claims. The credibility for your group is currently 40%.

Group Size

Group size is determined by total employees eligible for health insurance or by total employees regardless of eligibility for health insurance. Group size is defined by codified law for the respective state in which the company is domiciled. Factors are assigned to differently sized groups and those factors are used in the renewal rate development calculation. Small group renewal calculations are developed primarily on the combinations of average age, gender distribution, plan design and expected health conditions of the group. Actual claims experience is not heavily weighted for small groups. Actual experience is the credibility weighted with the overall experience of SHP's commercial book of business. Large group renewal calculations rely more heavily on actual claims experience of the group. However, even though a group may be defined as "large" by state law; a group generally has to have an average of 500+ members per month to be considered credible. Your group is Large.

Pooling (Large Groups Only)

During the course of a plan year a group may have members that incur large claims. Those large claims may be considered outliers or claims that disproportionately contribute to a group's annual claims experience. In order to avoid penalizing a group for isolated large claims, the large claims are partially excluded and replaced with an expected level of claims. This is called pooling. The precise dollar amount at which claims are considered outliers is called the pooling point. The pooling point is determined by the membership and benefits offered by the group. Your pooling point is currently $40,000.

Loss Ratio

The loss ratio is a measure of the relationship between total claims paid and total premium received. It is calculated by dividing total claims by total premium. 86 cents of every premium dollar gets paid out in claims, so we target an 86% loss ratio for our book of business. Loss ratios for small and medium sized groups are volatile. The reason for the volatility is that the loss ratio has a direct relationship to credibility which is based on group size. The target loss ratio is for the entire book of business. Thus, a renewal calculation may not necessarily be intuitive for any given individual group.

Trend

Rate development calculations utilize trend as a factor. The simplest way to view trend is by equating it to inflation. Just as a dollar is worth less today than it was a year ago; healthcare costs are more expensive today than they were a year ago. Trend applies to hospital/physician services, prescription drug costs, utilization and medical advancements.

Introduction

All reports in this specific report package are available:

- Period I
  - Incurred February 2012 through January 2013
  - Paid February 2012 through April 2013
- Period II
  - Incurred February 2011 through January 2012
  - Paid February 2011 through April 2013
- in DOC format

Selected reports within this package include period-over-period comparison.

Please note that many dollar values are rounded to the nearest dollar for increased readability. However, calculated values (such as total sums) are calculated precisely and then rounded afterwards. This produces more accurate results, but may occasionally cause calculated fields to appear inexact.

Please Note:

The information contained in this report has been produced from data provided to Verisk Health, which has not been independently verified by Verisk Health for accuracy or completeness. Additional information, including any claims that have been incurred but not paid as of the date of this report, or claims that were subject to subsequent adjustment, should be considered before any action is taken on the basis of the contents of this report. Additionally, if the underlying CPT codes for each laboratory test or panel are not submitted to Verisk Health in the medical claims, then the scores in the Quality and Risk measures may appear lower than they actually are. This report does not constitute the provision of medical or legal advice by Verisk Health to any party.

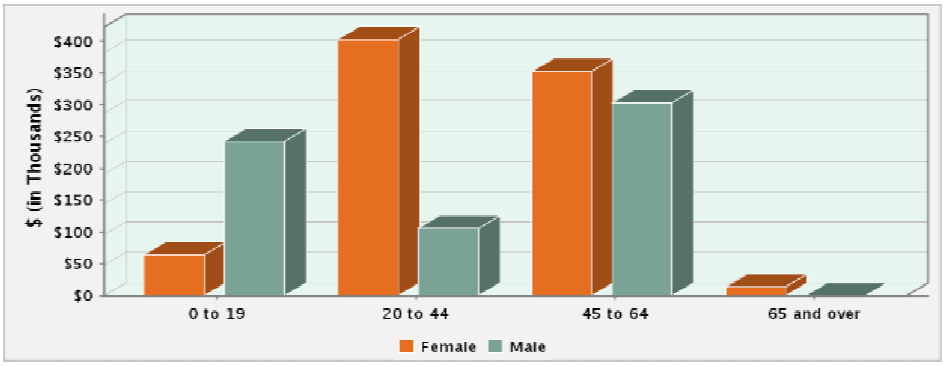
1. Membership Overview

The two tables and the figure in this section describe the membership demographics and the relationship to claims expense. This section includes medical and pharmacy claims expenses.

Table 1.1: Breakdown of Membership by Relationship

	Average Age	Members		Total Amount Billed	Employee Paid	Member Expenses	
		Total	Current			Total	% of Total
Employee	44	170	127	$1,645,272	$99,843	$724,949	47%
Spouse	43	92	73	$1,065,948	$104,648	$435,261	28%
Dependent	12	159	127	$702,507	$76,124	$395,481	25%
Total	**32**	**421**	**327**	**$3,413,726**	**$280,615**	**$1,555,691**	**100%**

Figure 1.1: Claims Paid by Gender and Age



Please Note: Average age for females is 34. Average age for males is 30.

Table 1.2: Membership Profile

	Female		Male		Total	
	Members	% of Members	Members	% of Members	Members	% of Members
Employee	53	13%	117	28%	170	40%
Spouse	77	18%	15	4%	92	22%
Dependent	67	16%	92	22%	159	38%
Total	**197**	**47%**	**224**	**53%**	**421**	**100%**

2. Health Plan Enrollment Analysis

Figure 2.1: Enrollment Category Distribution

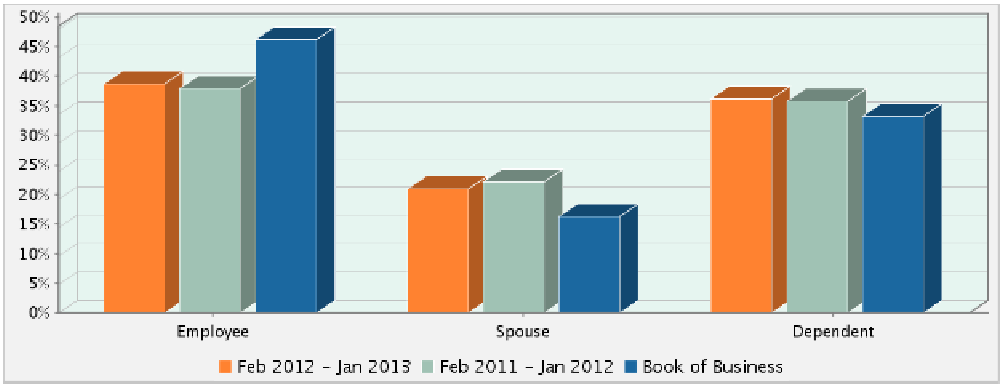


Table 2.1: Member Count by Enrollment Category

Category	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		Norm	Book of Business
	Count	%	Count	%		
Employee	170	40%	183	40%	48%	48%
Spouse	92	22%	107	23%	20%	17%
Dependent	159	38%	173	37%	32%	35%
Total Members	**421**	**100%**	**463**	**100%**	**100%**	**100%**

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

Sample Company's employee population consists of 40% of the total population. 40% is eight percent lower than Verisk's norm. The dependent population is 38% of Sample Company's total population. 38% is six percent higher than Verisk's norm. The relationship between the employee and dependent population indicates that Sample Company has more family contracts than the Verisk norm.

The total population for Sample Company decreased by 42 members from the prior to current period. This is a 9.1% decrease.

Figure 2.2: Paid Claim Trend by Enrollment Category

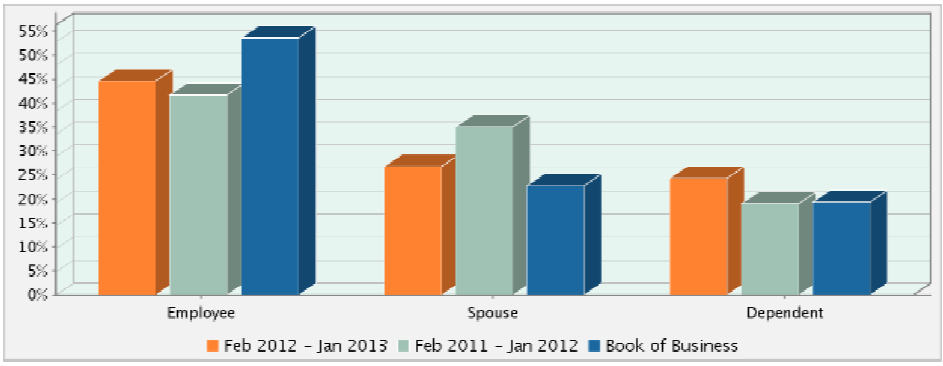

Table 2.2: Percentage of Claim Paid by Enrollment Category

Category	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		Norm	Book of Business
	Amount	%	Amount	%		
Employee	$724,949	47%	$490,543	44%	57%	56%
Spouse	$435,261	28%	$411,197	37%	28%	24%
Dependent	$395,481	25%	$224,001	20%	15%	20%
Total Members	**$1,555,691**	**100%**	**$1,125,741**	**100%**	**100%**	**100%**

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

The significant increase in total claims dollars from the prior to current period is due to the number of claims over $40,000. In the prior period, the sum of claims over $40,000 was approximately $208,000. The sum of claims over $40,000 for the current period is approximately $649,000.

The $649,000 in large claims does not consist of one or two shock claims; rather it is comprised of seven claims that are over $40,000 but under $125,000.

3. Employer/Employee Share of Expenses

The following data evaluates the employer and employee paid for the current year and prior year. The user can compare the trend of the parameters as follows:

Figure 3.1: Employer/Employee Share of Expenses

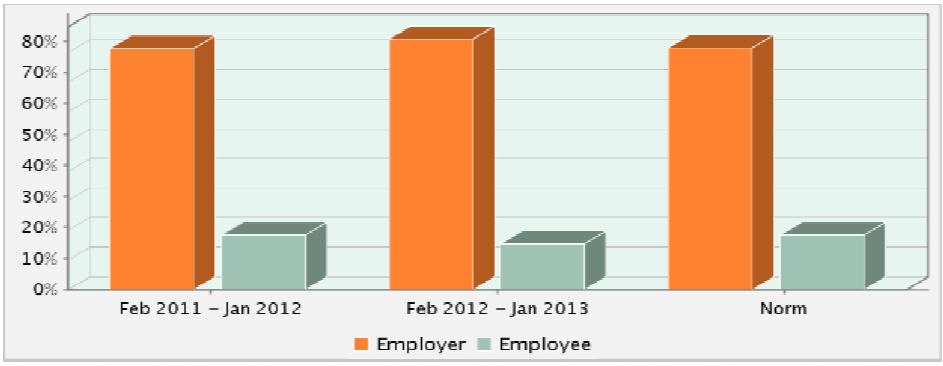

Table 3.1: Employer/Employee share of expenses

	Client		Norm
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	
Employer Paid	85%	82%	82%
Employee Paid	15%	18%	18%

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

Employee paid consists of co-pays, coinsurances, and deductibles paid by an enrollee, the spouses, and their dependents. Similarly, employer paid includes total paid by the plan for enrollee, the spouses, and their dependents. The following table breaks down the cost accordingly.

Table 3.2: Breakdown of Membership by Relationship

	Employee Paid			Employer Paid		
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
Employee	$99,843	$106,278	-6%	$724,949	$490,543	48%
Spouse	$104,648	$86,895	20%	$435,261	$411,197	6%
Dependent	$76,124	$62,072	23%	$395,481	$224,001	77%
Total	**$280,615**	**$255,245**	**10%**	**$1,555,691**	**$1,125,741**	**38%**

4. Key Utilization Metrics Summary

Table 4.1 displays utilization information, typically on a services per 1000 basis, for a number of categories. A combination of variables (e.g. decreased office visits with increased ER visits) should also be considered for evaluation.

Table 4.1

Category	Metric Type	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
ER Visits	Per 1000	139	112	24%
Total Office Visits	Per 1000	4,417	3,947	12%
Regular Office Visits	Per 1000	2,777	2,558	9%
Preventive Office Visits	Per 1000	531	511	4%
Behavioral Health Office Visits	Per 1000	999	784	27%
Consultations	Per 1000	103	87	18%
Other Office Visits	Per 1000	5	8	-38%
Chiropractic Visits	Per 1000	1,280	1,223	5%
Physical Therapy	Per 1000	825	758	9%
MRI Scan	Per 1000	65	46	41%
CT Scan	Per 1000	33	38	-13%
Deliveries	Per 1000	27	20	35%
SNF Days	Per 1000	0	0	0%
Inpatient Days	Per 1000	278	237	17%
Total Admissions	Per 1000	93	79	18%
Pharmacy Scripts	Per 1000	9,794	9,682	1%
Pharmacy Scripts Mail Order	% of Mail Order	9%	8%	12%
Pharmacy Scripts Brand Drugs	% of Brand Drugs	27%	30%	-11%
Average Length of Stay	Average Days	3.0	3.0	0%

Please Note: Utilization metrics are always calculated on incurred basis.

Generic Rx utilization is up from 74.4% in the prior period to 78.6% in the current period.

Single-source brand Rx utilization is down from 19.4% in the prior period to 15.6% in the current period.

5. Key Cost Metrics Summary

Table 5.1 shows key cost metrics for the group. Any significant period-over-period percentage change should be reviewed in more detail for causes. This table provides overall per employee per month costs and trends as well as breakouts by medical and pharmacy. The breakout of costs between plan and employee identify how the employee's portion of overall costs relates to plan costs, information that is valuable in establishing plan design and cost sharing percentages. Additionally, attention should be paid to the brand/generic ratio for pharmaceuticals. If the generic percentage is too low or dropping, benefit plan and/or formulary changes should be considered.

Table 5.1

Category	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
Overall Medical Expenses (Employee + Plan)	$1,510,743	$1,104,722	37%
Employee Paid	$280,615	$255,245	10%
Plan Paid	$1,230,128	$849,477	45%
Hospital Inpatient Paid (%)	37%	28%	31%
Office Visits Paid (%)	11%	15%	-23%
Emergency Room Paid (%)	3%	3%	15%
Top 20 Diagnosis Group Paid (%)	68%	43%	59%
Overall Pharmacy Expenses (Employee + Plan)	$325,563	$276,264	18%
Employee Paid	$0	$0	0%
Plan Paid	$325,563	$276,264	18%
Mail Order Paid (%)	0%	0%	0%
Brand Drugs Paid (%)	83%	81%	3%
PMPM Expenses	$353.00	$239.52	47%
Medical	$279.13	$180.74	54%
Pharmacy	$73.87	$58.78	26%
Total PEPM Expenses	$880.41	$597.21	47%
Medical	$696.17	$450.65	54%
Pharmacy	$184.25	$146.56	26%

6. Claims Expense Distribution

This section divides the member population by total paid bands to reflect the spending trend of this population.

Figure 6.1: Member Distribution by Paid Amount Band

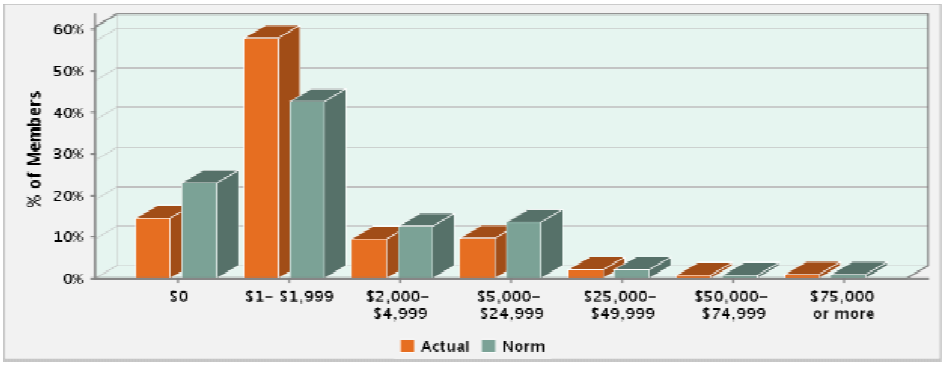

Table 6.1: Expense Distribution by Paid Amount Band

Paid Amount Band	Members			Paid			Cumulative Paid	Average Paid Per Member
	Count	%	Norm	Amount	%	Norm		
$0	64	15%	24%	$0	0%	0%	$0	$0
$1-$1,999	256	61%	45%	$126,816	8%	6%	$126,816	$495
$2,000-$4,999	42	10%	13%	$137,705	9%	9%	$264,521	$3,279
$5,000-$24,999	43	10%	14%	$412,010	26%	33%	$676,531	$9,582
$25,000-$49,999	9	2%	2%	$277,082	18%	15%	$953,613	$30,787
$50,000-$74,999	3	1%	1%	$171,256	11%	8%	$1,124,869	$57,085
$75,000 or more	4	1%	1%	$430,822	28%	29%	$1,555,691	$107,706

Please Note:

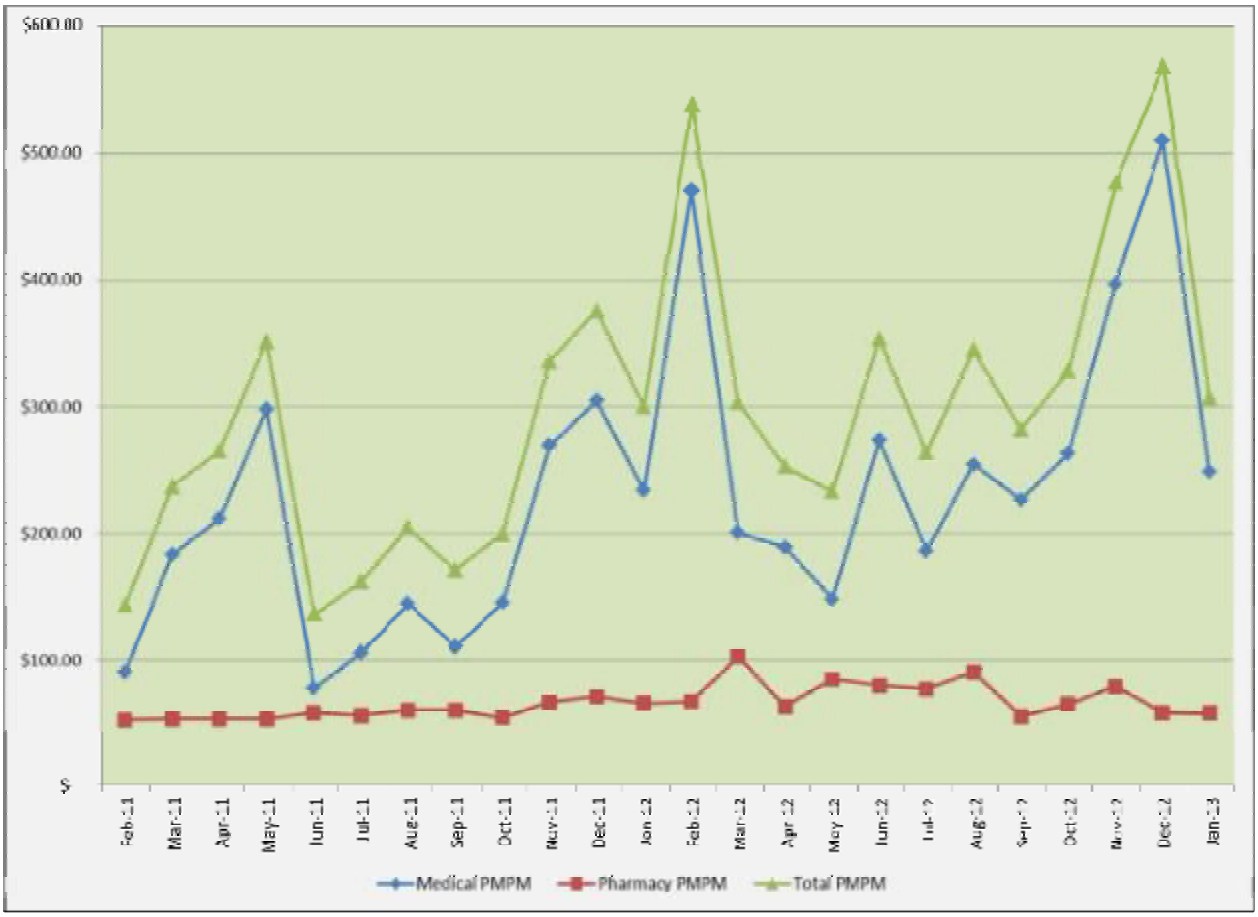
- $0 was credited back to the plan during the cycle period.
- Norm values are based on values derived from Verisk Health's Commercial Normative database.
- Claims Expense Distribution includes Medical and Pharmacy claims (to the extent that Pharmacy Claims are available).

1% of the population accounted for 28% of the total claims in the current period.
76% of the population accounted for 8% of the total claims in the current period.

7. Monthly Comparison of Paid Claims

Figure 7.1 tracks monthly claim paid amounts for the full cycle. Seasonality in claims paid (in terms of date incurred) is expected, with the highest monthly claims generally occurring in the winter. Claim volumes may also rise just before or after installation of a new health plan.

Figure 7.1: Paid Claims PMPM



8. Top 10 Places of Service Analysis

Table 8.1 shows places of service ranked according to medical claim expenses. Period-over-period percentage changes in Places of Service can be helpful when investigating changes in utilization patterns or when trying to understand the impact of plan design change. Increases in some categories may be appropriate. For example, outpatient hospital experience and office visits may increase as inpatient hospital services are more efficiently provided in the outpatient setting. Places of service experiencing large increases for many employers are Emergency Room, Outpatient Hospital, and Laboratory services.

Table 8.1

Service	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		% Change in Plan Paid
	Plan Paid	% of Total Plan Paid	Plan Paid	% of Total Plan Paid	
Inpatient Hospital	$456,863	37%	$240,187	28%	90%
Outpatient Hospital	$317,649	26%	$132,943	16%	139%
Office	$280,120	23%	$186,737	22%	50%
Ambulatory Surgical Center	$78,826	6%	$183,688	22%	-57%
Emergency Room Hospital	$62,581	5%	$49,315	6%	27%
Independent Laboratory	$17,092	1%	$25,570	3%	-33%
Home	$11,542	1%	$20,442	2%	-44%
Urgent Care Facility	$2,205	0%	$2,309	0%	-5%
Inpatient Psychiatric Facility	$2,179	0%	$288	0%	656%
Ambulance - Land	$1,071	0%	$6,545	1%	-84%
Subtotal	**$1,230,128**	**100%**	**$848,023**	**100%**	**45%**
All Others	**$0**	**0%**	**$1,454**	**0%**	**-100%**
Total	**$1,230,128**	**100%**	**$849,477**	**100%**	**45%**

9. Common Illness Analysis

Several common illnesses have been selected for analysis. Management of these key disorders may reflect effectiveness of overall medical management.

Figure 9.1: Common Illness

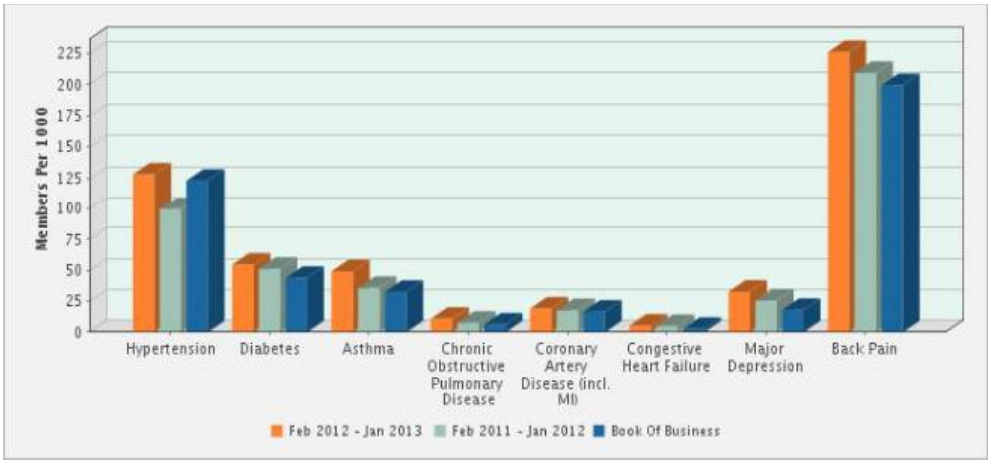


Table 9.1: Common Illness

Common Illness	Member Per 1000			
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	Norm	Book of Business
Hypertension	128	100	102	123
Diabetes	54	51	62	44
Asthma	49	36	20	33
Chronic Obstructive Pulmonary Disease	11	8	9	6
Coronary Artery Disease (incl. MI)	19	18	20	17
Congestive Heart Failure	5	5	5	3
Major Depression	33	26	17	18
Back Pain	226	209	112	200

Please Note:

- Common Illness metrics are always calculated on incurred basis.
- Norm values are based on values derived from Verisk Health's Commercial Normative database.
- Members may fall within multiple categories.

10. Disease Conditions Utilization Summary

Monitoring the utilization patterns for disease conditions offers valuable insight into benefit design and/or case and disease management program performance. Table 10.1 presents utilization patterns of members with all disease condition, ranked by number of members, for office visits, emergency room visits and hospital admissions. In general, high utilization rates for such measures as inpatient admissions and emergency room services in these conditions bring into question the adequacy of outpatient care, plan design incentives to encourage outpatient care, and medical management performance.

Table 10.1

Disease Condition	# of Members	Members per 1000	Office Visits per 1000	ER Visits per 1000	Admissions per 1000	PMPY
Back Pain	83	226	9,621	196	157	$8,328
Neck Pain	50	136	11,716	262	131	$7,610
Hypertension	47	128	6,631	229	207	$11,841
Hyperlipidemia	42	114	5,571	214	54	$5,146
Diabetes	20	54	13,296	394	225	$8,800
Asthma	18	49	17,312	500	250	$14,314
Headache	16	44	22,467	800	267	$11,697
Major Depression	12	33	29,104	716	269	$11,855
Congenital Anomalies	8	22	6,429	0	429	$18,115
Coronary Artery Disease (incl. MI)	7	19	7,429	143	286	$20,615
Cancer	6	16	36,231	692	923	$58,692
High Risk Pregnancy	5	14	10,133	800	800	$11,483
Osteoarthritis	5	14	9,400	0	400	$14,253
Chronic Obstructive Pulmonary Disease	4	11	6,500	0	0	$3,400

Please Note:

- In this table a member can have multiple conditions.
- Metrics are always calculated on incurred basis.
- Members' total claims fall within each condition category to which they are assigned.
- Total PMPY expenses are $4,236 for the period February 2012 – January 2013.

Asthma: 11 members diagnosed; 5 with care gaps (45%)
Gaps in care (Sanford Health Plan benchmark 40%)

- Patients without inhaled corticosteroids or leukotriene inhibitor in the last 12 months
- Patients without an office visit in the last 12 months
- Patients without other inhalers in the last 12 months
- Patients without short-acting beta agonists in the last 12 months

Chronic obstructive pulmonary disease (COPD): 3 diagnosed; 2 with care gaps (67%)
Gaps in care (Sanford Health Plan benchmark 73%)

- Patients without a COPD-related long office visit in the last 12 months
- Patients without spirometry testing in the last 12 months
- Patients without an office visit in the last 12 months
- Patients not taking other nebulizers in the last 12 months

Coronary artery disease: 8 diagnosed; 4 with care gaps (50%)
Gaps in care (Sanford Health Plan benchmark 31%)

- Patients without a long office visit in the last 12 months
- Patients without antihyperlipidemic drugs in the last 12 months
- Patients without antihypertensive drugs in the last 12 months
- Patients who are not taking beta-blockers, ACE/ARB or statins in the last 12 months

Congestive heart failure (CHF): 2 diagnosed; 1 with care gaps (50%)
Gaps in care (Sanford Health Plan benchmark 50%)

- Patients without beta-blocker drugs in the last 12 months
- Patients without a long office visit in the last 12 months
- Patients without an LDL-C or lipid profile test in the last 12 months
- Patients who are not taking beta-blockers, ACE/ARB or diuretics in the last 12 months

Diabetes: 14 diagnoses; 10 with care gaps (71%)
Gaps in care (Sanford Health Plan benchmark 56%)

- Patients without an HbA1c test in the last 12 months
- Patients without a lipid profile test in the last 12 months
- Patients without an ACE inhibitor or ARB drugs in the last 12 months
- Patients with hospitalization-related to short-term complications of diabetes in the analysis period
- Patients without home glucose measurement devices in the last 12 months
- Patients without liver function tests in the last 12 months

SANFORD
HEALTH PLAN

SVHP-0189 11/13

November 2013

Sanford Health has a long history of placing quality before all else as stated in our mission statement *"Dedicated to the Work of Health and Healing"*. As a subsidiary of Sanford Health, Sanford Health Plan believes that in order to meet the needs of our patients and healthcare partners, everything we do must be of the highest quality and value available in our region. We do so by utilizing Sanford Values: *Courage, Passion, Resolve, Advancement, Family*.

By improving the quality of care provided, employing the best managed care practices and principles, and partnering with our consumers, employer groups and physicians, Sanford Health Plan is able to assist in saving lives, reducing disability, improving productivity and managing health care costs.

We also believe that healing involves promoting and improving the health of our communities. To demonstrate our commitment to providing the highest quality of care and service, Sanford Health Plan would like to present our HEDIS® (Healthcare Effectiveness Data and Information Set) 2013 report along with the quality improvement activities and health management programs implemented by the Plan. This data provides you - our customer - with the information you need to judge our success in meeting our goals in various performance areas.

Along with Sanford Health, Sanford Health Plan's very foundation is quality. Reporting HEDIS rates will assist the Plan in identifying our strong points and areas where improvements need to be made. The Plan believes that the only way to achieve continuous quality improvement is to have its entire organization embrace a well-defined Quality Improvement Program and Annual Work Plan in their day to day activities. As this is our twelfth year of reporting, we are able to compare our rates to those of previous year's to determine where we made progress and where we did not. We look forward to future reporting years, which will allow us to continue to monitor and evaluate improvements that can be made in all aspects of our care and service delivery.

If you have any suggestions for us on how we can improve this report, or if you have any questions regarding the interpretation of the results, please feel free to contact our Care Management Department at (888) 315-0884.

Sincerely,

Ruth Krystopolski
President
Sanford Health Plan

Introduction

About Sanford Health Plan

Sanford Health Plan began operations in South Dakota in September 1997 as an open access, non-gatekeeper model, managed care organization. The first members were enrolled in January 1998. In January 1998, Sanford Health Plan became licensed in Minnesota. To obtain this licensure, the State of Minnesota required us to form a separate corporation known as Sanford Health Plan of Minnesota. Sanford Health Plan further expanded its service area to include Northwestern Iowa upon receiving licensure in August 1998 in that state. Sanford Health Plan also received a Certificate of Authority in February 2010 to operate in North Dakota as an expansion of its South Dakota license.

For purposes of this report, we will refer to Sanford Health Plan and Sanford Health Plan of Minnesota as "Sanford Health Plan" or "the Plan"; as operations for the two, including areas such as the quality improvement program, are one in the same. Beginning with HEDIS 2005, the Plan received permission from NCQA and the Minnesota Department of Health to combine the Sanford Health Plan and Sanford Health Plan of Minnesota populations to report one combined HEDIS rate.)

Sanford Health Plan is a wholly owned, nonprofit subsidiary of Sanford Health. The Plan is designed to provide employers and employees with the most appropriate cost effective health care possible. The Board of Trustees of Sanford Health is ultimately responsible for the Plan, but has delegated to the Sanford Health Plan Board of Directors the authority to act as the governing body. Sanford Health Plan's President and Chief Medical Officer are accountable to the Plan's Board of Directors.

Sanford Health Plan benefits are designed as a unique alternative to existing health insurance packages in our region. Applying our expertise in health care administration, quality patient care and network development, we have created a Health Plan with a focus on the health and well being of our members. Sanford Health Plan's medical management program monitors utilization and coordinates care plans to ensure that our members are receiving the most appropriate care. Also, prevention and wellness programs are built into the benefit package. This encourages members to seek treatment early and to live healthier lifestyles, thereby controlling long-term health care costs. The key to our success is our network of primary care physicians, specialists and hospitals. In partnership with these health care practitioners, Sanford Health Plan actively promotes health care education, prevention and early detection. Together, we understand the need to deliver the best possible patient care, maintaining good community health, while developing cost-effective solutions. Sanford Health Plan members have access to hundreds of area physicians and a hospital network that includes the region's most commended tertiary care facility - Sanford USD Medical Center. Because high-quality care is a priority, our network of practitioners is subject to strict credentialing guidelines and performance reviews.

In short, Sanford Health Plan has been developed to ensure that all members receive the right care, in the right place, at the right time, for the right reason.

Sanford Health Plan and its participating practitioners acknowledge their responsibility to provide high quality care in a cost-effective manner through an ongoing monitoring, evaluation and improvement process. The organized method for monitoring, evaluating, and improving the quality, safety and appropriateness of health care services including behavioral health care to members through related activities and studies is known as the Quality Improvement (QI) program. Throughout this report you will find descriptions of the quality improvement activities and health management programs that the Sanford Health Plan has implemented to improve the health and well being of its members. The activities that pertain directly to the HEDIS rates will be reported in conjunction with those rates.

Sanford Health Plan Awarded Accreditation

Commercial HMO Product
Effective through November 15, 2016

Sanford Health Plan prides itself on providing quality group health insurance and supporting wellness programs. Sanford Health Plan is equally honored to be recognized for our dedication. The National Committee for Quality Assurance (NCQA) has awarded Sanford Health Plan's commercial HMO with a Commendable Accreditation.

The NCQA Health Plan Accreditation is a voluntary review process. Surveys include rigorous on-site and off-site evaluations of over 60 standards and selected HEDIS® measures. NCQA sends a team of trained health care experts, including physicians, to conduct the survey.

According to NCQA, the standards are purposely set high to encourage health plans to continuously improve enhance their quality. They are intended to help

organizations achieve the highest level of performance possible, reduce patient risk for untoward outcomes and create an environment of continuous improvement. “The accreditation process gives our consumers and purchasers something other than cost alone to compare. It allows them to evaluate the quality of different health plans through a variety of dimensions,” said Dr. Crandell.

“Achieving an accreditation status of Commendable from NCQA is a sign that a health plan is serious about quality. It is awarded to plans whose service and clinical quality meet or exceed NCQA’s rigorous requirements for consumer protection and quality improvement.” said Margaret E. O’Kane, President, NCQA.

HEDIS®

HEDIS (Healthcare Effectiveness Data and Information Set) is a set of standardized performance measures designed to ensure that purchasers and consumers have the information they need to reliably compare healthcare quality.

Originally, HEDIS was designed to address private employers’ needs as purchasers of health care. It has since been adapted for use by public purchasers, regulators and consumers. Quality improvement activities, health management programs and practitioner profiling efforts have all used HEDIS as a core measurement set.

This report provides you with Sanford Health Plan’s HEDIS 2013 results (based on calendar year 2012 data) and the programs and activities that have been put in place to improve the health care and services the Plan provides to its members. The HEDIS measures, which are reported on an annual basis, are divided into domains that all reflect different aspects of care. The results are presented to you in comparison to NCQA’s Quality Compass® HEDIS 2011 benchmarks, which are a compilation of audited HEDIS results (based on calendar year 2010 data) from health plans across the nation. The HEDIS results are also compared to the Healthy People 2020 goals, where available. Healthy People 2020 is a set of 10-year health objectives for the United States aimed at health promotion and disease prevention initiatives. It was developed by the U.S. Department of Health and Human Services with the input of public health and prevention experts and a wide range of government officials and organizations.

The NCQA HEDIS Compliance Audit™ assures both purchasers and health plans of fair and accurate comparisons of health plan performance. Certified auditors, using a process designed by NCQA, rigorously audit the HEDIS results annually. The scope of the NCQA HEDIS Compliance Audit includes the following domains: Effectiveness of Care; Access/Availability of Care; Satisfaction with the Experience of Care; Health Plan Stability; Use of Services; Cost of Care; and Health Plan Descriptive Information. Sanford Health Plan has undergone a full audit. The following HEDIS measures in this report were deemed reportable according to the NCQA HEDIS Compliance Audit® Standards.

Effectiveness of Care Domain

The Effectiveness of Care domain measures provide information about the quality of clinical care the Plan delivers to its members including preventive, acute and chronic care services. Many of these measures are utilized in the development and refinement of the Plan's Quality Improvement Activities, Health Management Programs and Clinical Practice Guidelines. These measures all include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population for the measure. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Effectiveness of Care measures included in this report are:

- Adult BMI Assessment
- Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents
- Childhood Immunization Status
- Immunizations for Adolescents
- Human Papillomavirus Vaccine for Female Adolescents (HPV)
- Colorectal Cancer Screening
- Breast Cancer Screening
- Cervical Cancer Screening
- Chlamydia Screening in Women
- Appropriate Testing for Children with Pharyngitis
- Appropriate Treatment for Children with Upper Respiratory Infection
- Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis
- Use of Spirometry Testing in the Assessment and Diagnosis of COPD
- Use of Appropriate Medications for People with Asthma
- Medication Management for People with Asthma
- Cholesterol Management for Patients with Cardiovascular Conditions
- Controlling High Blood Pressure
- Comprehensive Diabetes Care
- Use of Imaging Studies for Low Back Pain
- Follow-Up Care for Children Prescribed ADHD Medication
- Antidepressant Medication Management
- Follow-Up After Hospitalization for Mental Illness
- Flu Shots for Adults Ages 50 – 64
- Medical Assistance with Smoking Cessation

Adult BMI Assessment

According to the National Health and Nutrition Examination Survey (NHANES) 2007–2008, about one-third of adults in the United States are overweight and about one-third are obese. Guidelines from various organizations, including the National Heart, Lung, and Blood Institute whose clinical practice guidelines the Plan has adopted, indicate that the most useful measure of overweight and obesity is the body mass index (BMI).

Adult BMI Assessment measures the percentage of members ages 18-74 who had an outpatient visit and who had their body mass index (BMI) documented during the measurement year or the year prior to the measurement year.

Adult BMI Assessment

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
BMI Assessed in 2011 or 2012:	**44.04%**	**60.34%**	**73.67%**	**83.54%**	**55.4%**	**53.6%**

Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents

According to the National Heart, Lung, and Blood Institute, the rate of obesity in children 2-5 has doubled in the last 30 years and the rate of obesity in children and adolescents ages 6-19 has tripled in that time. BMI percentile can be a useful screening tool for practitioners for assessing obesity in children and adolescents and offer the opportunity for counseling on the importance of good nutrition and physical activity.

This measure looks at the percentage of members ages 3-17 who had an outpatient visit with a PCP or OB/GYN and who had evidence of BMI percentile documentation, counseling for nutrition and counseling for physical activity during the measurement year.

Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents

Childhood and Adolescent Immunization Status

Immunizations prevent serious illnesses, lost school and work days and millions of dollars in health care costs. This measure was developed based on immunization recommendations from the Centers for Disease Control and Prevention, the American Academy of Pediatrics, the American Academy of Family Physicians and the Advisory Committee on Immunization Practices.

Childhood Immunization Status involves measuring the percentage of enrolled children who turned 2 years old during the measurement year, who were continuously enrolled for 12 months preceding their 2nd birthday and who were identified as having the recommended vaccinations by their 2nd birthday. These vaccinations include:

1. **4 DTaP** (diphtheria, tetanus and pertussis) vaccines on or before child's 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
2. **3 IPV** (polio) vaccinations on or before child's 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
3. **1 MMR** (measles, mumps and rubella) on or before child's 2nd birthday.
4. **3 HiB** (Haemophilus influenza type B) vaccinations on or before 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
5. **3 Hepatitis B** vaccinations on or before child's 2nd birthday.
6. **1 VZV** (chicken pox) vaccine on or before child's 2nd birthday.
7. **4 Pneumococcal conjugate** vaccinations on or before child's 2nd birthday.
8. **1 Hepatitis A** vaccinations on or before child's 2nd birthday.
9. **3 Rotavirus** (or 2 if the 2 dose type) vaccinations on or before child's 2nd birthday. Vaccinations administered prior to 42 days of birth are not counted.
10. **2 Influenza** vaccinations on or between 6 months after birth and child's 2nd birthday.

There are also 9 combination rates now calculated which consist of various combinations of the above vaccinations. Two of these combination rates are:

1. **Combination #2**: Children who have received 4 DtaP vaccinations, 3 IPV vaccinations, 1 MMR vaccination, 2 HiB vaccinations, 3 hepatitis B vaccinations and 1 VZV vaccination as specified above.
2. **Combination #3**: Children who have received all vaccinations in Combination #2 as well as 4 pneumococcal conjugate vaccinations as specified above.

Childhood Immunization Status

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
4 DTaP	83.70%	84.59%	86.64%	90.13%	86.5%	90%
3 IPV	92.54%	96.07%	96.58%	94.55%	92.4%	90%
1 MMR	90.06%	91.80%	93.49%	94.81%	91.5%	90%
3 Hib	94.75%	95.74%	95.89%	95.84%	94.1%	90%
3 Hepatitis b	93.92%	94.43%	92.81%	92.21%	87.9%	90%
1 VZV	87.02%	91.80%	91.44%	94.03%	91.3%	90%
4 Pneumococcal	81.22%	88.20%	86.30%	90.91%	87.0%	90%
Hepatitis A	27.90%	22.30%	27.74%	63.9%	39.0%	60%
Rotavirus	54.70%	68.20%	68.15%	72.73%	75.1%	80%
Influenza	59.39%	65.25%	66.44%	75.58%	61.1%	80%
Combination #2	78.18%	79.02%	79.11%	85.19%	78.0%	
Combination #3	71.82%	74.10%	75.68%	84.42%	75.7%	80%

[2]Healthy People 2020 target is based on children ages 19 through 35 months.

Immunizations for Adolescents involves measuring the percentage of enrolled adolescents who turned 13 years old during the measurement year, who were continuously enrolled for 12 months preceding their 13th birthday and who were identified as having the recommended vaccinations by their 13th birthday. These vaccinations include:

1. **1 meningococcal conjugate or meningococcal polysaccharide** vaccine on or between the adolescent's 11th and 13th birthdays.
2. **1 tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap) or 1 tetanus, diphtheria toxoids vaccine (Td)** vaccine on or between the adolescent's 10th and 13th birthdays.
3. **Combination measure** looks at how many of the adolescents in this group had both of the above vaccines.

Immunizations for Adolescents

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Meningococcal	15.70%	23.66%	29.24%	30.03%	61.9%	44%
Tdap/Td	38.91%	40.69%	53.49%	54.31%	77.0%	47%
Combination	13.31%	22.08%	26.58%	28.72%	59.4%

[2]Healthy People 2020 Goal is for adults ages 13-15.

Immunization Guidelines

Sanford Health Plan recognizes that high immunization rates help prevent the spread of vaccine preventable diseases, as well as reduce the rates of disability and death from these diseases. Prevention through immunization can help reduce future health care costs associated with treating the disease and reduces employee absenteeism.

An immunization schedule is available on the Centers for Disease Control and Prevention website at www.cdc.gov/vaccines/. A copy may also be obtained by calling the Health Plan at (888) 315-0884. These immunization guidelines are available to Plan practitioners on the website and members and practitioners are informed of the availability of the immunization schedules in the newsletters. The Preventive Health Guidelines brochure directs members to the website or to call for a copy of the immunization schedules. Adolescent wellness visit reminder activities over the last year have included a reminder to get immunizations updated. A birthday card is sent to kids turning 11 and 12 to remind them to get their annual wellness visit and recommended immunizations. Postcard reminders were also sent to a targeted group of adolescents and their parents to remind them to get their wellness physical.

Colorectal Cancer Screening

According to the American Cancer Society, colorectal cancer is the third most commonly diagnosed cancer in men and women in the United States. Screening tests can help prevent some cancers by finding and removing polyps that could become cancer in the future. In other cases, screening tests can identify cancers in their early stages and improve the chances of successful treatment.

Colorectal Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Colorectal Cancer Screening	**54.74%**	**59.90%**	**60.51%**	**61.27%**	**62.4%**	**70.5%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.
[2]Healthy People 2020 Goal is for adults ages 50-75.

This measure looks at the percentage of adults 50 to 75 years of age who were continuously enrolled during the measurement year and year prior to the measurement year and who had appropriate screening for colorectal cancer. Appropriate screenings are defined as one of the following:

- Fecal occult blood test during the measurement year.
- Flexible sigmoidoscopy during the measurement year or the 4 years prior to the measurement year.
- Colonoscopy during the measurement year or the 9 years prior to the measurement year.

Colorectal Cancer Screening Activities

Sanford Health Plan's male and female members who are turning 40, 50 and 60 receive birthday cards that include reminders for colorectal cancer screenings and the Plan's benefit for these screenings. Preventive Health Guidelines, including colorectal cancer screening benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Health Plan website at www.sanfordhealthplan.com. The colorectal cancer screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

All members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to colorectal screenings. WorldDoc also offers a health library and self management tools on this site as well

As a member of the South Dakota Council on Colorectal Cancer, Sanford Health Plan also collaborates with the American Cancer Society and other health care organizations and insurance plans on improving colorectal cancer screening rates and reducing the incidence of colorectal cancer. The Council has completed community education initiatives and continuing education related to colorectal cancer.

Breast Cancer Screening

According to the American Cancer Society:

- Breast cancer is the most common cancer among women, other than skin cancer.
- Breast cancer risk increases with age and every woman is at risk regardless of family history.
- Your chance of having breast cancer some time during your life is about 1 in 8.

Mammography is one of the most effective screening methods available for detecting breast cancer. Early detection of breast cancer increases the likelihood of successful treatment.

This measure looks at the percentage of women ages 40 through 69 years, who were continuously enrolled during the measurement year and the year prior to the measurement year, and who had a mammogram during one of those years.

Breast Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Mammogram in 2011 or 2012:	**76.46%**	**75.03%**	**74.80%**	**74.76%**	**70.50%**	**81.1%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]Healthy People 2020 Goal is based on women ages 50-74.

Breast Health Initiative

Sanford Health Plan implemented numerous activities designed to provide members with information on breast health that promotes early detection of potential breast cancer. The activities included:

- Members are asked to complete an online health risk assessment on our WorldDoc site. There is a health library and self management tools on this site as well.
- Reminders –
  - A card was mailed which included a reminder to get a mammogram, reasons for the importance and information on benefits.
  - These members were offered the chance to enter a drawing for a prize if they got their mammogram completed.
  - A mammogram reminder card was mailed to women 3 months after their 40th birthday. Birthday cards are also mailed to those turning 40, 50 and 60 and include mammogram reminders.
  - Care Management nurses contacting female members for health management or screening purposes also addressed the importance of breast cancer screening.
- Mobile Screening – Some employer groups were offered the opportunity to arrange for mobile mammography screening so employees would have the convenience of having screening done in privacy at the worksite.
- Periodic articles are published in the Member Messenger newsletter with facts about breast cancer and the importance of mammography.
- Preventive Health Guidelines, including mammogram benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Plan's website at www.sanfordhealthplan.com.
- The breast cancer screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

Cervical Cancer Screening

Regular Pap tests can help detect cervical cancer in its early stages and thereby reduce the morbidity and mortality of women with cervical cancer. Clinical guidelines recommend Pap testing every 1 to 3 years for all women who have been sexually active or who are over the age of 21.

This measure looks at the percentage of women ages 21 through 64 years, who were continuously enrolled during the measurement year and the 2 years prior to the measurement year and who had a Pap test during one of those years.

Cervical Cancer Screening Activities

Sanford Health Plan's female members who are turning 21 and those who are turning 40, 50 and 60 receive birthday cards that include reminders for yearly gynecological exams and the Plan's benefits for yearly Pap tests. Periodic articles are published in the Member Messenger stressing the importance of having a yearly exam. Preventive Health Guidelines, including yearly Pap test benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Health Plan website at www.sanfordhealthplan.com. The cervical cancer screening clinical practice guidelines that were adopted and recommended to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

All members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to cervical cancer screenings. WorldDoc also offers a health library and self management tools on this site as well

Cervical Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
Pap Test in 2010, 2011 or 2012	**78.80%**	**77.93%**	**77.25%**	**76.20%**	**76.5%**	**93.0%**

Chlamydia Screening in Women

Chlamydia is the most common sexually transmitted disease, which left untreated can cause serious reproductive and other health problems. Routine screening and treatment can reduce serious consequences of Chlamydia in women. This underscores the importance of prevention and early treatment in the primary care arena.

The Chlamydia Screening in Women measure looks at the percentage of women ages 16 through 24 years, who were continuously enrolled during the measurement year, and who had a test for Chlamydia during the measurement year.

Chlamydia Screening in Women

Chlamydia Screening in 2012:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
Age 16 - 20	29.29%	29.31%	25.42%	25.62%	41.5%	65.9%
Age 21 – 24	33.20%	28.46%	32.43%	34.35%	48.4%	78.3%
Age 16 – 24	31.44%	28.84	29.29%	30.47%	45.0%	

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Appropriate Testing for Children with Pharyngitis

Excessive use of antibiotics is resulting in a higher prevalence of antibiotic resistance. Clinical guidelines recommend that only children with diagnosed group A streptococcus pharyngitis based on a group A strep test (rapid assay or throat culture) be treated with antibiotics.

This measure looks at the percentage of children 2 - 18 years of age who were diagnosed with pharyngitis, prescribed an antibiotic and received a group A streptococcus test for the episode. A higher rate indicates appropriate testing.

Appropriate Treatment for Children with Pharyngitis

	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Strep Test Administered	78.26%	74.55%	72.57%	80.20%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Appropriate Treatment for Children with Upper Respiratory Infection

The common cold is one of the top reasons that parents take their children to see their doctor. Antibiotics, although not recommended by current guidelines for the treatment of the common cold, are still often prescribed in these cases.

This measure looks at the percentage of children 3 months - 18 years of age who were given a diagnosis of upper respiratory infection (URI) and were NOT dispensed an antibiotic prescription on or 3 days after the date the child was seen by the doctor for the URI. Not being prescribed an antibiotic in this situation indicates appropriate treatment.

Appropriate Treatment for Children with Upper Respiratory Infection

	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Antibiotic Not Dispensed (Indicates Appropriate Treatment)	97.86%	73.96%	73.62%	83.90%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis

Clinical guidelines do not indicate the need for antibiotics in treating adults with acute bronchitis unless they have another comorbidity or infection for which antibiotics may be appropriate.

This measure looks at the percentage of adults 18 – 64 years of age with a diagnosis of acute bronchitis who were NOT dispensed an antibiotic prescription on or 3 days after the diagnosis of acute bronchitis. Not being prescribed an antibiotic in this situation indicates appropriate treatment.

Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis

	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Appropriate Avoidance of Antibiotics	15.30%	16.39%	23.5%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Use of Spirometry Testing in the Assessment & Diagnosis of COPD

According to the National Heart, Lung and Blood Institute, chronic obstructive pulmonary disease (COPD) is the third leading cause of death in the United States. COPD is a lung disease in which the airways that carry air in and out of the lungs are partially blocked resulting in shortness of breath. COPD patients may also have a chronic cough. The next 2 measures are focused on the diagnosis and management of COPD. A Spirometry test assists the doctor in verifying the COPD diagnosis as well as determining the severity of the condition.

This measure assesses whether members ages 40 and over with a new diagnosis or newly active COPD received appropriate Spirometry testing to confirm the diagnosis.

Use of Spirometry Testing in the Assessment & Diagnosis of COPD

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Appropriate Spirometry Testing	40.35%	44.83%	38.24%	41.79%	42.9%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Asthma

Asthma is a disease of the lungs. When someone has asthma, the airways or breathing tubes in the lungs are very sensitive to many things in the air. When an asthma flare-up happens, the airways swell and fill with mucus and the muscles around the airways tighten making the airways smaller and making it hard to breathe. According to the National Heart, Lung and Blood Institute, more than 22 million people in the United States have been diagnosed with asthma. The good news is that asthma can be well managed by knowing and avoiding triggers for flare-ups and by taking medications that provide long-term control of asthma symptoms. The following 2 measures are related to management of asthma medications.

Use of Appropriate Medications for People with Asthma

This measure evaluates whether members with persistent asthma (as defined below) are being prescribed medications for long-term control of asthma. The list of acceptable medications comes from the National Heart, Lung and Blood Institute's (NHBLI) National Asthma Education and Prevention Program (NAEPP) guidelines. Eligible members include those continuously enrolled in the measurement year and the year prior to the measurement year, with any of the following in those years:

- At least 1 emergency room visit with a principal diagnosis of asthma.
- At least 1 acute inpatient discharge with a principal diagnosis of asthma.
- At least 4 outpatient visits with an asthma diagnosis and at least two (2) asthma medications filled at the pharmacy.
- At least 4 asthma medications filled at the pharmacy (members identified this way, where leukotriene modifiers were the sole asthma medication dispensed, must also have at least 1 diagnosis of asthma in the same year as the leukotriene modifier).

Use of Appropriate Medications For People with Asthma

Use of Appropriate Medication:	HEDIS 2012[2]	HEDIS 2013	National Average 2011[1]
Ages 5 to 11	100%	98.18%	96.0%
Ages 12 to 18	91.67%	100%	92.7%
Ages 19 to 50	91.13%	89.34%	89.1%
Ages 51 to 64	88.46%	93.51%	93.2%
Total	91.67%	93.52%	91.9%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]For HEDIS 2012 the age ranges were changed so these rates are not comparable to previous year's rates.

Medication Management for People with Asthma

This measure identifies members 5-64 years of age who were identified as having persistent asthma and who were dispensed appropriate medications. Then 2 rates are reported on these members.

1. The percentage of members who remained on an asthma controller medication for at least 50% of their treatment period.
2. The percentage of members who remained on an asthma controller medication for at least 75% of their treatment period.

Medication Management For People with Asthma

	HEDIS 2012	HEDIS 2013	National Average 2011[1]
50% Med Compliance			
Ages 5 to 11	76.32%	70.37%	NA
Ages 12 to 18	75.76%	69.23%	NA
Ages 19 to 50	68.14%	64.22%	NA
Ages 51 to 64	73.91%	70.83%	NA
Total	71.94%	67.88%	NA
75% Med Compliance			
Ages 5 to 11	36.84%	42.59%	NA
Ages 12 to 18	69.70%	41.03%	NA
Ages 19 to 50	41.59%	29.36%	NA
Ages 51 to 64	53.62%	51.39%	NA
Total	47.83%	39.42%	NA

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving Asthma Management

In 1998, the Physician Quality Committee identified asthma as a common illness within the Health Plan population based on Sanford Health data and Health Plan clinical claims data and implemented an Asthma Quality Improvement Activity. Based on that claims data, the Plan identified significant numbers of asthmatic members with frequent physician visits for multiple respiratory diagnoses. Claims data also revealed some inappropriate utilization of asthma medications among this population.

The Asthma activity includes monthly identification of new asthmatic members and a free peak flow meter and spacer offer. Newly identified members are provided with educational information in the form of a toolkit which includes topics such as asthma triggers, asthma education, medication compliance, an asthma action plan, smoking cessation and more. The Plan has also

worked with the *South Dakota Asthma Institute* and has helped promote the annual Lung Association Asthma Camp for kids.

The asthma management clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website at www.sanfordhealthplan.com.

Cholesterol Management for Patients with Cardiovascular Conditions

High blood cholesterol is one of the major risk factors for heart disease and heart attacks. More specifically, high LDL levels (bad cholesterol) can cause cholesterol to build up within the walls of the arteries which cause a hardening or narrowing of the arteries and can eventually slow or block blood flow to the heart. If the blood supply to a portion of the heart is completely cut off, the result is a heart attack.

This measure looks at members ages 18 to 75, who from January 1 - November 1 of the year prior to the measurement year were discharged for acute myocardial infarction (AMI), coronary artery bypass graft (CABG) or percutaneous coronary interventions (PCI), or who had a diagnosis of ischemic vascular disease during the measurement year or the year prior. Then we measure what percentage of members had each of the following during the measurement year: LDL-C (low density lipoprotein cholesterol) screening, LDL-C <100mg/dL.

Cholesterol Management for Patients with Cardiovascular conditions

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
LDL-C Screening	90.20%	90.20%[2]	84.14%	86.89%	88.1%
LDL-C Level <100 mg/dL	64.71%	64.71%[2]	61.67%	62.70%	59.8%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]The HEDIS 2010 rates were rotated for 2011. The actual screening rate was 88.11% and the actual level <100 rate was 67.84%.

Lipid Profile Screening Guidelines

The Preventive Health Guidelines allow for 1 lipid profile between the ages of 18 and 24, 1 lipid profile every 5 years between the ages of 25 and 44 and 1 lipid profile every year for ages 45 and over. The Preventive Health Guidelines are published for members and practitioners in the Member Messenger and Provider Perspective newsletters yearly, are provided in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com. The cholesterol screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

Controlling High Blood Pressure

According to the National Heart, Lung and Blood Institute, more than 65 million adults in this country have high blood pressure. When arteries narrow, blood flow is forced to press against the artery walls with too much force, resulting in high blood pressure. The heart must work harder to pump blood through the arteries. Over time, high blood pressure can result in serious long-term health conditions like heart disease, stroke and renal failure.

Controlling High Blood Pressure

Members with Controlled Blood Pressure	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Ages 18 - 85	66.07%	67.92%	70.83%	67.82%	65.4%	61.2%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]The Healthy People 2020 Goal includes adults ages 18 and older.

This measure assesses whether blood pressure is controlled among adult persons ages 18 - 85 years of age with diagnosed hypertension who were continuously enrolled in the measurement year. A member in this measure is considered to have controlled blood pressure if their most recent blood pressure reading taken in the office in the measurement year was below 140mm Hg systolic and 90mm Hg diastolic.

Healthy Heart (High Blood Pressure) Health Management Program

Due to the large number of members with high blood pressure in the Plan's population, in April 2007 Sanford Health Plan implemented a Hypertension Health Management Program as an expansion on the already existing Quality Improvement Activity. The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between the member and his/her primary care physician.

The Hypertension Health Management Program was renamed the Healthy Heart Health Management Program in 2012. With this program, new eligible members for the program are identified on a monthly basis and sent a Hypertension Program booklet that contains information on the program as well as

education on managing hypertension and educational materials and resources that are available to the member. The program is an opt-out program, with newly identified members being automatically enrolled unless they contact the Plan to opt out of the program. Members are stratified as moderate/low or high risk. High risk members receive the same quarterly educational mailings as moderate/low risk, with additional high risk information specific to their needs and phone or letter contact from a Care Management RN. Educational materials for moderate/low and high risk members include topics such as non-pharmaceutical management of hypertension, medication compliance, diet and exercise recommendations, complications, self monitoring, smoking cessation and more. High risk members who were not compliant according to HEDIS specifications received an educational mailing accompanied by a blood pressure wallet card and tracking card.

The Healthy Heart Program also provides annual communications to practitioners regarding the program. Practitioners receive notice on an annual basis of their members who were not in compliance with the HEDIS Controlling High Blood Pressure measure specifications. Practitioners were also notified of the current rates of guideline recommended medication therapy. The Plan reviews and adopts on a yearly basis clinical practice guidelines for hypertension. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are distributed through special mailings and the Sanford Health Plan website, www.sanfordhealthplan.com.

Our Healthy Heart Health Management Program members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to hypertension and lifestyle as well as their current biometric readings. WorldDoc also offers a health library and self management tools on this site to help our members better manage their condition.

In April, our Care Management nurses and Partners in Prevention, our health screening team, took part in a community wide hypertension initiative by visiting some of our employer group sites to do blood pressure screenings. At risk members were referred to their primary care practitioner for follow up.

If you are a Sanford Health Plan member with high blood pressure and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

Comprehensive Diabetes Care

Diabetes is a costly, highly prevalent chronic disease which, if not controlled, can result in serious complications including amputations, blindness, kidney failure, heart disease, nerve damage and more. According to the American Diabetes Association, there are 25.8 million children and adults in the United States, or about 8.3% of the population, who have this disease. Many complications of diabetes can be prevented if detected and addressed in the early stages.

This measure looks at the percentage of members with diabetes ages 18 through 75 years old, who were continuously enrolled during the measurement year, who received the following aspects of diabetes care (except where noted, these are based on the most recent date of service in the measurement year):

- Hemoglobin A1c (HbA1c) Tested
- HbA1c Poor Control >9.0%
- HbA1c Control <8.0%
- HbA1c Control <7.0%
- LDL-C Screening Performed
- LDL-C Controlled <100mg/dL
- Eye Exam (Retinal) Performed in the measurement year (or in the year prior to the measurement year with a negative retinopathy diagnosis)
- Medical Attention for Nephropathy (Includes any of the following: Evidence of treatment for nephropathy, a nephrologist visit, a positive urine macroalbumin test, a urine microalbumin test or evidence of ACE Inhibitor/ARB drug therapy)
- Blood Pressure Control <140/80 mm Hg
- Blood Pressure Control <140/90 mm Hg

Comprehensive Diabetes Care

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[2]	Healthy People 2020[3]

Eye Exam Performed	63.69%	64.42%	65.15%	72.63%	56.9%	58.7%
LDL-C Screened	81.57%	83.58%	85.04%	85.04%[6]	85.3%	
LDL-C Controlled (<100 mg/dL)	46.17%	48.54%	50.36%	50.36%[6]	48.1%	
Medical Attention for Nephropathy	86.13%	86.13%[4]	89.05%	89.05%[6]	83.8%	37.0%[3]
Blood Pressure <140/80[5]	42.88%	54.56%	56.57%	56.57%[6]	44.2%	57.0%
Blood Pressure <140/90	74.64%	75.73%	76.46%	76.46%[6]	65.8%	57.0%

[1]Lower rates for the HbA1c Poor Control measure indicate better performance.
[2]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.
[3]Healthy People 2020 Goal includes ages 18 and older. The A1c testing goal is based on 2 screenings a year vs. 1 like HEDIS. The goal listed for nephropathy includes only microalbumin for the Healthy People goal.
[4]HEDIS 2010 rates were rotated for 2011. The actual HbA1c Tested rate was 92.88%. The actual A1c >9% rate was 16.97%. The actual A1c <8% rate was 72.08%. The actual A1c <7% rate was 48.91%. The actual nephropathy rate was 85.22%.
[5]For HEDIS 2011 and forward the Blood Pressure <130/80 rate was revised to <140/80.
[6]HEDIS 2012 rates were rotated for 2013. The actual HbA1c Tested rate was 93.43%. The actual A1c >9% rate was 20.26%. The actual A1c <8% rate was 69.71%. The actual A1c <7% rate was 47.37%. The actual nephropathy rate was 87.41%. The Blood Pressure <140/80 actual rate was 52.19%. The actual Blood Pressure <140/90 was 75.18%.

Diabetes Health Management Program

In 1998, Sanford Health Plan implemented a Diabetes Health Management Program. The Physician Quality Committee identified diabetes as a common illness within the Plan population. Clinical claims data identified significant numbers of diabetic members and practitioners that did not utilize established practice guidelines in the treatment of diabetes. A decrease in morbidity and mortality may not be achieved unless both members and practitioners are educated on Plan benefits and compliance with recommended care guidelines.

The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between the member and primary care physician.

In the Diabetes Health Management Program, new eligible members for the program are identified on a monthly basis. These members are sent a toolkit that contains information on the diabetes program, education on diabetes and an offer for educational materials available to members. The program is an opt-out program, with newly identified members being automatically enrolled unless they contact the Plan to opt out of the program. Members are stratified as moderate/low or high risk. High risk members receive the same educational mailings as low risk, with additional high risk information specific to their needs and phone or letter contact from a Care Management RN. Educational materials for moderate/low and high risk members include topics such as blood sugars, eating right, medications, exercise, recommended tests and more.

Special mailings are also done throughout the year to members. Members who are noncompliant with the recommended care guidelines are sent an educational letter with information on risks of complications and the importance of getting needed tests and visits. These members are asked to complete a HbA1c, LDL-C, eye exam and a microalbumin test. Members are reminded that they can receive their annual diabetic eye exam for free with a participating eye care professional.

All diabetic members, regardless of whether they remain enrolled in the program or not, receive notice of how to get information on the Plan's insurance benefits for medical and pharmaceutical care for diabetes, as well as how to obtain a free glucometer. Diabetic education is stressed in the program materials and in the member newsletter.

Our diabetes health management program members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to diabetes and lifestyle as well as their current biometric readings. WorldDoc also offers a health library and self management tools on this site to help our members better manage their condition.

If you are a Sanford Health Plan member with diabetes and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

The Diabetes Program also provides annual communications to practitioners regarding the program. A reminder is sent to eye care professionals about the required codes for the diabetic eye exam copay waive program. An eye exam consultation form is also included that they can complete and fax to the member's primary diabetes care practitioner to notify them of the member's exam and their results.

On a yearly basis, the Plan reviews and adopts clinical practice guidelines for diabetes. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are also distributed through the Sanford Health Plan website, www.sanfordhealthplan.com.

In addition to these program activities, the Preventive Health Guidelines allow for 1 lipid profile between the ages of 18 and 24, 1 lipid profile every 5 years between the ages of 25 and 44 and 1 lipid profile every year for ages 45 and over. The Guidelines also allow for 1 basic metabolic panel (which includes a glucose test, among others) every year. The Preventive Health Guidelines are published for members and practitioners in the Member Messenger and Provider Perspective newsletters yearly, are provided in Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Use of Imaging Studies for Low Back Pain

Back pain is among the most common musculoskeletal conditions affecting nearly all people at least once in their life. According to the American College of Radiology, uncomplicated low back pain is a benign, self-limited condition that does not warrant any imaging studies. The vast majority of these patients are back to their usual activities in 30 days.

This measure assesses whether imaging studies (plain x-ray, MRI, CT scan) are overused in evaluating patients with acute low back pain. A higher score indicates appropriate treatment of low back pain (i.e., proportion for whom imaging studies did not occur).

Use of Imaging Studies for Low Back Pain

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Imaging Studies Did Not Occur (Appropriate Treatment)	85.12%	87.31%	84.82%	87.23%	74.4%

Follow-Up Care for Children Prescribed ADHD Medication

Attention-deficit/hyperactivity disorder (ADHD) is a condition that affects millions of children and adolescents. ADHD includes 3 main symptoms: inattention, hyperactivity and impulsivity. Practitioners can determine when medication therapy is indicated. When medication therapy is prescribed, the American Psychiatric Association recommends follow-up appointments be made at least monthly until the symptoms have stabilized. Once stable, an office visit every 3 to 6 months is recommended which allows for an assessment of learning and behavior in the child.

This HEDIS rate measures the percentage of children newly prescribed ADHD medication who have at least 3 follow-up care visits within a 10-month period, 1 of which is within 30 days of when the first ADHD medication was dispensed. The following are the rates:

1. **Initiation Phase:**
   The percentage of members 6-12 years of age with an ambulatory prescription dispensed for ADHD medication, who had 1 follow-up visit with a practitioner with prescribing authority during the 30-day Initiation Phase.
2. **Continuation and Maintenance Phase:**
   The percentage of members 6-12 years of age with an ambulatory prescription dispensed for ADHD medication, who remained on the medication for at least 210 days and who, in addition to the visit in the Initiation Phase, had at least 2 follow-up visits with a practitioner within 270 days (9 months) after the Initiation Phase ended.

Follow-Up Care for Children Prescribed ADHD Medication

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[2]
Initiation Phase	NA[1]	30.56%	25.45%	39.06%	39.4%
Continuation and Maintenance Phase	NA[1]	NA[1]	NA[1]	NA[1]	44.2%

[1]NA indicates that the Plan collected and reported the rate but the population was too small to report a valid rate.

[2]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving ADHD Management

ADHD is a chronic health problem in which educational interventions can help lessen the impact of the disorder and improve the member's quality of life. The diagnosis of ADHD has consistently been in the top diagnosis codes incurred for the Plan. The baseline HEDIS rates for follow-up care for children prescribed ADHD medication also show a serious deficiency in appropriate follow-up care.

Sanford Health Plan implemented a Quality Improvement Activity, which includes sending educational materials to parents of children and adolescents with ADHD to educate them on the symptoms, types of treatment and follow-up recommendations for patients taking ADD/ADHD medications.

The Plan also provided educational materials to practitioners regarding the guidelines for follow-up care for patients prescribed ADD/ADHD medication. A screening tool was also made available. These resources were offered in the practitioner newsletter and continue to be available on the Plan's website. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are also distributed through special mailings and the Sanford Health Plan website, www.sanfordhealthplan.com.

Antidepressant Medication Management

According to the National Institute of Mental Health, an estimated 6.7% of American adults suffer from major depressive disorder in a given year. Many people can improve through clinical treatment with their healthcare practitioner and by taking their medications as prescribed. However, many stop taking their medication too soon because they feel better or because they do not feel the medication is working. It is important for people to take their medications as prescribed for as long as they are prescribed and to keep their follow-up appointments in order to prevent a recurrence of depression.

This measure is based on the treatment guidelines of the clinical management and pharmacological treatment of depression. The following are the 2 medication compliance rates reported for this measure.

1. **Effective Acute Phase Treatment**
   The percentage of members ages 18 years and older as of April 30 of the measurement year, who were diagnosed with a new episode of depression, treated with antidepressant medication, and who remained on an antidepressant drug during the entire 84-day (12 week) Acute Treatment Phase. This measures the percentage of adult members initiated on an antidepressant drug who received a continuous course of medication treatment during the Acute Treatment Phase.
2. **Effective Continuation Phase Treatment**
   The percentage of members ages 18 years and older as of April 30 of the measurement year, who were diagnosed with a new episode of depression, treated with antidepressant medication, and who remained on an antidepressant drug for at least 180 days (6 months). This measures the effectiveness of clinical management (follow-up visits) in achieving medication compliance (taking medications as long as prescribed) for the Continuation Phase Treatment Period, adequate for defining a recovery.

Antidepressant Medication Management

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Effective Acute Phase Treatment	**58.67%**	**59.55%**	**57.54%**	**58.73%**	**65.6%**
Effective Continuation Phase Treatment	**36.00%**	**41.01%**	**43.02%**	**41.27%**	**49.4%**

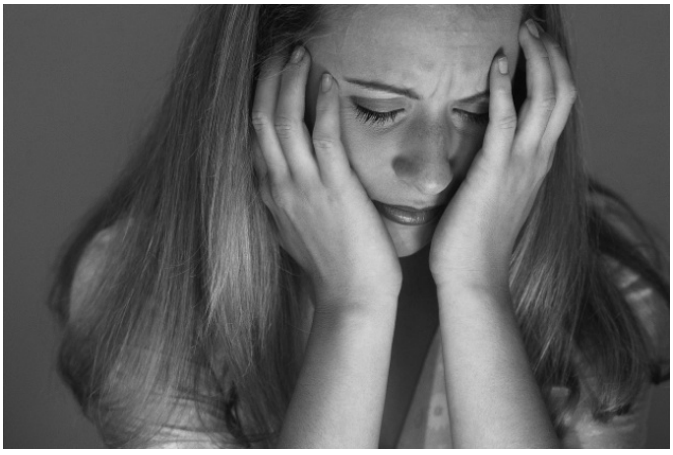
[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving Mental Health Medication Management

Depression was identified in general as a chronic, clinical issue with a high degree of risk for members. Clinical claims and pharmaceutical data have identified a significant number of members diagnosed with depression who are currently being treated with medications as well as those who are not. Data also indicates a significant difference in the treatment methods of practitioners. Clinical variance has been identified in the length of time on medication therapy for depression. Depression has consistently been one of the top diagnoses in the Plan, among adults and adolescents alike.

The activities involved in increasing medication compliance for members with depression include antidepressant letters, which are sent on a monthly basis to those members new on antidepressants to educate about medication compliance, side effects, keeping follow-up visits, etc. There have also been yearly articles in the Member Messenger newsletter regarding the importance of antidepressant compliance as well as the importance of continuity and coordination of care.

Depression clinical practice guidelines are reviewed and adopted on a yearly basis and practitioners are made aware of the availability of these guidelines in the practitioner newsletter and on the Plan website at www.sanfordhealthplan.com. Collaborative meetings are



held with behavioral health practitioners to discuss aspects of behavioral health care including how to improve access, continuity and coordination of care, medication compliance and to assist in reviewing formulary issues.

Quick Reference Cards, in addition to behavioral health screening tools, are also made available to primary care physicians to assist in locating participating behavioral health care practitioners in their regional area. These cards are available to practitioners on the Plan's website at www.sanfordhealthplan.com. If you would like a paper copy of these cards for your clinic, please call our Provider & Payor Relations Department at (605) 328-6877 or (800) 601-5086 to request a copy.

Follow-Up after Hospitalization for Mental Illness

Many who are discharged from an inpatient facility for mental illness need continued support after leaving the hospital. Help with continuing medications, going to therapy, getting back to work, and social issues is very important in ensuring successful treatment.

Consistent with the guidelines of the National Institute of Mental Health and the Centers for Mental Health Services, this measure looks at the percentage of members ages 6 years and older who were hospitalized for treatment of select mental health disorders in the measurement year who were continuously enrolled for 30 days after discharge and who were seen on an ambulatory basis or were in day/night treatment with a mental health practitioner.
Two separate rates are calculated:

- The percentage of members who had an ambulatory or day/night mental health visit within 7 days of hospital discharge.
- The percentage of members who had an ambulatory or day/night mental health visit within 30 days of hospital discharge.

Follow-Up After Hospitalization for Mental Illness

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Ambulatory Follow-Up Within 7 Days of Discharge	**42.31%**	**40.91%**	**43.82%**	**34.78%**	**58.9%**
Ambulatory Follow-Up Within 30 Days of Discharge	**67.95%**	**65.15%**	**70.79%**	**64.13%**	**76.5%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Improving Timeliness of Follow-Up after Hospitalization for Mental Illness

Sanford Health Plan identified a need for improvement in the area of mental health follow-up and continuity and coordination of care. Mental health diagnoses have consistently been one of our top diagnosis codes for the Plan and initial claims analysis showed a low rate of follow-up after hospitalization.

In an attempt to improve the follow-up rates, the Health Plan sends letters to those members being discharged from an inpatient mental health stay. The brochure included with the letter (Managing Your Follow-up Care) includes information about medication management, how to avoid readmission, and the importance of keeping outpatient appointments. Information about the member's upcoming outpatient follow-up appointment is also included in the letter as a reminder. Nurse phone calls are then made to these members to remind them of their follow-up appointment. The Plan also collaborates with behavioral health providers to determine actions that can be taken to have members seen in a more timely manner.

To increase awareness of available mental health services, Quick Reference Cards, as well as behavioral health screening tools, are made available for primary care physicians to assist them in locating Sanford Health Plan behavioral health care practitioners in their regional area. The Plan advertised these cards in the Provider Perspective newsletter sent to all participating practitioners. These cards are available to practitioners, as are the Plan's clinical practice guidelines on depression, on the Plan's website at www.sanfordhealthplan.com. If you would like a copy of these cards for your clinic, please call our Provider & Payor Relations Department at (605) 328-6877 or (800) 601-5086 to request a copy. The Plan also collaborates with mental health professionals to get feedback on our quality improvement activity and other activities involving mental health services.

Flu Shots for Adults Ages 50-64

The disease burden of influenza is high even though it is highly preventable with a safe and effective vaccination each year. This measure assesses the percentage of members ages 50-64 years as of September 1 of the measurement year who received an influenza vaccination. Sanford Health Plan publishes yearly newsletter articles to remind members to get their flu shots and that coverage for the flu shot is 100%.

Flu Shots for adults ages 50-64

Received Flu Shot:	CAHPS® 2011	CAHPS® 2012	CAHPS® 2013	National Average 2011[1]
Ages 50-64	**69.97%**	**70.25%**	**69.33%**	**53.3%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Medical Assistance with Smoking Cessation

According to the Centers for Disease Control and Prevention (CDC), smoking is the leading preventable cause of premature death in the United States, causing 400,000 deaths each year. Yet millions of Americans continue to smoke. Studies show that people who are advised by their health care practitioner to quit smoking are more likely to quit.

To measure the percentage of Sanford Health Plan members who were advised by their health care practitioner to quit smoking and who were offered assistance in other cessation strategies, the annual member satisfaction survey, CAHPS®5.0H (Consumer Assessment of Healthcare Providers and Systems), includes questions that address these issues. Specifically, these questions allow us to determine the percentage of members ages 18 years and older, who were continuously enrolled during the measurement year, who were either current smokers or recent quitters that were seen by a Plan practitioner during the measurement year and received advice to quit smoking, had discussion regarding cessation medications and had discussion regarding other smoking cessation strategies. The following are the results from the most recent CAHPS® 5.0H study.

Medical Assistance with Smoking Cessation

	CAHPS® 2010[1]	CAHPS® 2011	CAHPS® 2012	CAHPS® 2013	National Average 2011[2]
Advising Smokers to Quit	**80.00%**	**74.48%**	**73.79%**	**75.25%**	**77.6%**
Discussion of Smoking Cessation Medications	**55.00%**	**49.32%**	**47.12%**	**50.50%**	**53.1%**
Discussion of Other Smoking Cessation Strategies	**53.80%**	**44.52%**	**39.42%**	**50.50%**	**47.6%**

[1] The response options for these questions changed in 2010. This does not allow us to compare and trend these rates to previous years.

[2]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Tobacco Cessation Program

In November 2001, the Physician Quality Committee approved the start of a tobacco cessation program based upon the results of the CAHPS® survey. The program includes educational pieces in the Member Messenger. Tobacco cessation is stressed in all of the Plan's health management program materials as well. Cessation tools such as the state quitlines are also published in the member newsletter and made available to employer groups through the Care Management program. Smoking cessation education is currently underway at select employer sites, led by the Plan's certified tobacco cessation educators, and includes information about local, state and Health Plan cessation benefits.

The tobacco treatment benefit included in the member's benefit package includes the following:

- **For South Dakota, North Dakota and Iowa members:**
  Treatment for tobacco abuse is covered as part of the Sanford Health Plan's Preventive Health Program. Tobacco abuse treatment will be covered as listed below. This will be a once per lifetime benefit. Therapy treatment options available include two (2) Physician counseling and treatment visits, two (2) smoking cessation classes, or two (2) visits to a Certified Respiratory Therapist. Any combination of the above is not to exceed two (2) total visits. Hypnotism and acupuncture are **non-covered** treatment options. Medications used to deter smoking, including nicotine patches, gum and nasal spray, Zyban, bupropion (generic Wellbutrin), and Chantix will be covered with confirmation of smoking abstinence for 6 months. Reimbursement will be for the total amount the member paid for up to a three (3) month supply. Only one medication will be covered per lifetime. Abstinence must be proven by a urine specimen for nicotine. The total cost of this test will be covered by the Health Plan. To receive this benefit, the member must submit up to 3 months of paid receipts and notify the Health Plan (Member Services (605) 328-6800 or (800) 752-5863) that he or she has completed a urine screening test at the 6 month smoke free mark.

- **For Minnesota members:**
  Sanford Health Plan will cover a 90-day supply for Nicotine Patches or Nicotine Gum under the brand copay amount per calendar year and Zyban (bupropion) a 180-day supply under the brand copay amount per calendar year. No more than a 30-day supply will be covered and dispensed at a time. A prescription is required from a licensed provider and prescriptions must be filled at a network pharmacy. Failure to use your ID card for prescription processing will result in zero payment. Counseling for cessation of smoking will be covered under the Member's medical benefit for an office copay amount or smoking cessation classes will be covered 1 time per calendar year under the Members coinsurance and deductible benefit. Other medications used to deter smoking; including nicotine nasal spray and Chantix will be covered with confirmation of smoking abstinence for 6 months. Reimbursement will be for the total amount the member paid for up to a three (3) month supply. Abstinence must be proven by a urine specimen for nicotine. The total cost of this test will be covered by the Health Plan. Please call our Members Services Department at (605) 328-6800 or (800) 752-5863 for more complete information.

Cessation resources are provided to members on a regular basis including the state quit lines and the National Cancer Institute's website:

- SD Quit Line Toll-Free 1-866-SD-QUITS
- MN's Tobacco Helpline (888) 354-PLAN
- IA Quit Line (800) QUIT NOW
- ND Quit Line (800) QUIT NOW
- www.smokefree.gov

The specifications for the above CAHPS® measures are consistent with recommendations from the clinical practice guidelines adopted and recommended on a yearly basis by the Plan for use. Newsletter articles continue to be published concerning current clinical practice guidelines for the treatment of tobacco use and dependence. These guidelines are also available on the Plan's website at www.sanfordhealthplan.com.

Access and Availability of Care Domain

The Access/Availability of Care domain contains measures that assess Sanford Health Plan members' access to care and whether those members are actually utilizing the services available to them. Most of these measures include some form of continuous enrollment criteria, which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Access and Availability measures included in this report are:

- Adults' Access to Preventive/Ambulatory Health Services
- Children and Adolescents' Access to Primary Care Practitioners
- Initiation and Engagement of Alcohol and Other Drug Dependence Treatment
- Prenatal and Postpartum Care
- Call Answer Timeliness

Adults' Access to Preventive/ Ambulatory Health Services

This measure determines whether adults have had preventive or ambulatory visits with their physician. This measure also tells us how many adults are not accessing the health care system at all and therefore are not receiving any preventive care or counseling on important factors like diet, exercise, smoking cessation, seat belt use and other risky behaviors. Specifically, we are looking at the percentage of members ages 20 through 44, 45 through 64 and 65 years and older who were continuously enrolled during the measurement year and the 2 years prior to the measurement year and who had an ambulatory or preventive care visit during 1 of those years. A separate rate is reported for each of the 3 age groups. Below are Sanford Health Plan's rates for this measure.

Adults' Access to Preventive/ Ambulatory Health Services

Ambulatory or Preventive Care Visit:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013
Age 20 - 44	94.90%	95.00%	94.62%	94.54%
Age 45 - 64	95.96%	95.83%	95.67%	95.87%
Age 65 & Older	96.79%	97.42%	96.74%	98.11%

Adult Wellness Visit Guidelines

Sanford Health Plan's female members turning 21, 40, 50 and 60 and male members turning 40, 50 and 60 receive birthday cards that include reminders and the Plan's benefits for yearly physical exams as well as other preventive health screenings. Preventive Health Guidelines, including yearly physical exam benefits, are

published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Plan's website at www.sanfordhealthplan.com.

Children and Adolescents' Access to Primary Care Practitioners

This measure determines whether children have had a visit with a primary care practitioner (PCP) like a pediatrician or family practice physician in order to assess general access to care for children and adolescents. Specifically, we are looking at the percentage of enrollees ages 12 months through 24 months and 25 months through 6 years who were continuously enrolled during the measurement year and who have had a visit with a primary care practitioner during that year. We also look at the percentage of enrollees ages 7 years through 11 years, and 12 years through 19 years, who were continuously enrolled during the measurement year and the year prior to the measurement year and who have had a visit with a primary care practitioner during 1 of those years. A separate rate is reported for each of the 4 age groups. Below are Sanford Health Plan's rates for this measure.

Children and Adolescents' Access to Primary Care Practitioners

Ambulatory or Preventive Care Visit:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Age 12 - 24 Mo	98.00%	98.26%	99.31%	98.69%	97.9%
Age 25 Mo - 6Years	89.77%	87.98%	88.84%	89.85%	91.9%
Age 7 – 11 Yr	86.84%	87.97%	87.11%	88.62%	91.9%
Age 12 – 19 Yr	89.25%	89.73%	89.10%	89.28%	89.3%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Children and Adolescent Wellness Visit Guidelines

Preventive Health Guidelines, including yearly physical exam and well baby visit benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Initiation and Engagement of Alcohol and Other Drug Dependence Treatment

There are more deaths, illnesses and disabilities from substance abuse than from any other preventable conditions.[1] These rates measure the degree to which members initiate and continue alcohol and other drug (AOD) dependence treatment once the need is identified.

Initiation of AOD Dependence Treatment: The percentage of members with a new episode of alcohol or other drug dependence who initiate treatment through either an inpatient AOD admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of the diagnosis.

Engagement of AOD Treatment: An intermediate step between initially accessing care (initiation of treatment) and completing a full course of treatment. This measure is designed to assess the degree to which members engage in treatment with 2 additional AOD services within 30 days after the initiation visit.

[1]*Substance Abuse: The Nation's Number One Health Problem, Feb. 2001*

Initiation and Engagement of Alcohol and Other Drug (AOD) Dependence Treatment

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Initiation of AOD Treatment	50.60%	37.25%	44.74%	37.44%	40.2%
Engagement of AOD Treatment	46.99%	32.35%	23.16%	18.96%	15.2%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Prenatal and Postpartum Care

Early and regular prenatal care is essential in keeping mom and baby healthy. Mothers who do not receive regular prenatal care are more likely to have problems including low birth weight and/or premature babies. Many health problems, if found early, can be treated or cured and other problems may be prevented. Prenatal care visits provide the practitioner the opportunity to discuss proper nutrition, counseling, vitamin supplements, risk factors and health promotion.

Care for the mother after delivery is also important. To give practitioners the chance to offer advice and assistance, the American College of Obstetricians and Gynecologists recommends that women see their health care practitioner at least once between 4 and 6 weeks after giving birth to allow for a physical examination and an opportunity to answer questions and give nutrition and family planning guidance.

This measure evaluates timely access to prenatal and postpartum care for Sanford Health Plan members. Prenatal care should be provided in the first trimester of pregnancy, or if the member enrolled after the first trimester, within 42 days of the member's enrollment date. Documentation of prenatal care visits should include screening tests, obstetrical history or risk assessment, counseling and education or an ultrasound. Postpartum care should be delivered on or between 21 and 56 days after delivery and should include a physical exam with either a pelvic exam or an evaluation of weight, blood pressure, breasts and abdomen. Below are Sanford Health Plan's rates for this measure.

Prenatal and Postpartum Care

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Timely Prenatal Care	**93.75%**	**96.94%**	**96.94%[3]**	**97.83%**	**91.0%**	**77.9%**
Timely Postpartum Care	**84.58%**	**88.21%**	**88.21%[3]**	**89.67%**	**80.6%**

[2]Healthy People 2020 Goal beginning in first trimester of pregnancy.

[3] This rate was rotated from HEDIS 2011. The actual rate for prenatal care was 93.48% and for postpartum care 85.33%.

Maternity Care Benefits & the Healthy Pregnancy Program

Sanford Health Plan provides maternity care benefits from prenatal through postpartum care. We also encourage our pregnant mothers to join the Healthy Pregnancy Program during their first trimester of pregnancy.

The Healthy Pregnancy Program focuses on education and awareness. The main objective is to assist a member in identifying concerns early so she and her healthcare practitioner can take steps to prevent or minimize any problems and ensure a healthy pregnancy. The American College of Obstetricians and Gynecologists (ACOG) guidelines state that medical, obstetric and lifestyle factors can complicate a pregnancy. Through regular prenatal care, women can take action to increase their chance of having a healthy baby. The member's health care practitioner continues to be the primary caregiver who provides the member with medical services and advice. Plan members may enroll in the program by calling the Plan to prior authorize their pregnancy. Members will receive a program packet with their authorization letter. A health risk assessment is included in the initial program packet, which should be completed and returned to the Plan. Based on the health risk assessment, responses members are classified as low or high risk. Enrolled members receive a follow-up mailing consisting of different health topics applicable to pregnant women. A Care Management nurse calls members whose pregnancy is high risk at least once throughout the pregnancy, or more often if needed. Enrolled members also receive a magazine and immunization guideline information after the baby is born.

If you are a Sanford Health Plan member who is pregnant and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

For practitioners, the program offers notification of the patients that they have participating in the program. Sanford Health Plan has adopted guidelines for prenatal care. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are available on the Sanford Health Plan website, www.sanfordhealthplan.com.

Call Answer Timeliness

Customer service plays a significant role in member satisfaction. Key measures involved in customer service include Member Services phone call response times.

Call Answer Timeliness

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013
Call Answer Timeliness	**71.24%**	**67.21%**	**67.94%**	**78.91%**

Member Services Phone Calls Quality Improvement Activity

Because the Health Plan Quality Improvement Committee recognizes the Member Services Department as vital to customer service, in 1999 the Committee chose to evaluate phone call statistics and staffing needs for the Member Services Department as a way of ensuring that Plan Members have timely access to customer service.

All Member Services phone calls are logged. Call center statistics show number of calls answered, calls made, voicemails, and abandoned calls. It also shows the answer speed of calls and the rate of abandonment and voicemails. These statistics are measured monthly and analyzed by the Committee on a quarterly basis to determine improvements that are needed. Many improvement activities have been implemented to improve these rates over the years including staff meetings with training and education on how to more accurately and efficiently handle member and practitioner calls, distribution of phone call statistics to each Member Services Representative and a phone log report to track all calls and their subject matter.

Satisfaction with Experience of Care Domain

HEDIS/CAHPS® 5.0H Adult Member Satisfaction Survey

This domain includes rates from the yearly member satisfaction survey completed by Sanford Health Plan. This survey is conducted by an independent survey vendor and provides information on the experiences of our members with our Health Plan and how well we meet our members' expectations. There are 4 overall ratings of satisfaction in addition to 7 more focused composite scores which summarize survey responses in key areas.

CAHPS® Opportunities and Improvement Activities

Sanford Health Plan strives to provide the best service we can to our members. The Plan's Quality Improvement Committee analyzed the full CAHPS® results report and identified the areas that show the greatest opportunities for improvement. The Committee also determined activities that will be (or already are being) implemented to achieve improvement in these areas. Examples of these activities include, but are not limited to:

- A workgroup is in place to improve the information communicated to members and to make the information easy to find and access.
- Continue New Member Survey postcard in an effort to identify issues with member materials or services and what we can do to improve them.
- Notify members of the features available on the Plan's web portal, including access to EOBs, benefit information and more. The myHealthPlan web portal provides streamlined services and enhanced access to information. The Plan's general website and portal have also been redesigned to improve ease of access to important member information.
- The Plan's case managers are partnering with the Sanford Clinic Health Coaches to get members appointments more quickly and to collaborate on the members care.
- Continue to provide information through our preventive health and quality programs regarding smoking cessation and the state quit line resources as well as the Plan's benefit for smoking cessation reimbursement. Smoking cessation resources are provided on our member portal, myHealthPlan.
- Include information on what is available to members on the Express Scripts, Inc. website (the Plan's pharmacy benefit manager) like drug information, member specific copay information, drug side effects, interactions and more. There is a link to this website on the Plan's pharmacy information page on the Plan's website.
- Continue to emphasize in member mailings the importance of having a primary care practitioner (PCP). Members are also informed that they may call the Health Plan for assistance in finding a PCP. (Call the Member Services Department at (605) 328-6800 or (800) 752-5863).
- Remind members when asking for an appointment with a specialist that is not available as soon as they would like, to ask for alternative specialists in that clinic or to call Member Services at (605) 328-6800 or (800) 752-5863) for information on additional specialists available in their area.
- Practitioners will be notified of satisfaction results related to how much time they spend with patients, shared decision making, coordination of care, etc. so that they are aware of areas that may need improvement in the practice setting.

Use of Services Domain

The Use of Services Domain provides information about the types of services Sanford Health Plan offers its members and how the Plan manages member care. It looks at a range of health care settings including inpatient, outpatient, non-acute and ambulatory.

The Use of Services measures included in this report are related to well-care visits:

- Well-Child Visits in the First 15 Months of Life
- Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life
- Adolescent Well-Care Visits

Well-Child Visits in the First 15 Months of Life

Well-child visits, or well baby checks, are recommended frequently in the first year of life when a child's development is most rapid. These visits include a complete physical examination in addition to immunizations and communication and/or counseling to parents regarding normal development and developmental milestones, safety, nutrition, sleep, infectious diseases, etc. Frequent well-child visits can assist in identifying and addressing growth and developmental problems early.

The American Academy of Pediatrics recommends 8 well-child visits in the first 15 months of life: the first 3-5 days after birth and then at 1, 2, 4, 6, 9, 12 and15 months of age. The well-child visits for Sanford Health Plan members were reported as the percentage of 15 month old members receiving 0, 1, 2, 3, 4, 5, or 6 or more visits with a primary care practitioner.

Well-Child Visits in the First 15 Months of Life

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
0 Visits	0.34%	1.05%	0%	0.90%	NA
1 Visit	1.01%	1.40%	0%	0.90%	NA
2 Visits	0.00%	2.11%	1.56%	1.51%	NA
3 Visits	4.36%	5.26%	1.17%	2.11%	NA
4 Visits	8.05%	7.02%	8.2%	7.53%	NA
5 Visits	19.13%	22.11%	17.97%	20.18%	NA
6+ Visits	67.11%	61.05%	71.09%	66.87%	78.00%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life

Well-child visits during the third through sixth years of life should include (but not be limited to) a complete physical examination in addition to an evaluation of hearing and vision, an update of immunizations, discussion of nutrition, assessment of language development, assessment of developmental milestones and assessment of social and behavioral development.

The American Academy of Pediatrics recommends annual well-child visits for children ages 3 to 6 years of age. The rates below show the percentage of Plan member's ages 3-6 years of age who had well-child visit with a primary care practitioner during the measurement year.

Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life	45.31%	51.36%	52.21%	56.00%	72.50%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Well Baby and Well Child Visit Guidelines

Preventive Health Guidelines, including well baby visit benefits and yearly well child wellness exams, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Adolescent Well-Care Visits

Adolescents experience significant physical and emotional changes in their transition from childhood to adulthood. In addition, adolescents face many challenges in today's world and may be at risk for sexually transmitted disease, substance abuse, pregnancy, behavioral problems, etc. Accidents, homicide and suicide are the leading causes of death in the adolescent population between ages 15 and 24. According to the American Medical Association's Guidelines for Adolescent Preventive Services, "Annual visits offer the opportunity to reinforce health promotion messages for both adolescents and their parents, identify adolescents who have initiated health risk behaviors or who are at early stages of physical or emotional disorders, provide immunizations, and develop relationships with the adolescents that will foster an open disclosure of future health information."

The American Medical Association's Guidelines for Adolescent Preventive Services, the federal government's Bright Futures program and the American Academy of Pediatrics guidelines all recommend yearly well-care visits for adolescents. The adolescent well-care visit rates for Sanford Health Plan were reported for members in the 12 to

21 year old age group having had at least 1 well-care visit with a primary care practitioner. The rates below show the percentage of Plan members who had a well-care visit during the measurement year.

Adolescent Well-Care Visits

Adolescent Well-Care Visits:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Ages 12 - 21	28.82%	28.93%	29.27%	29.45%	43.20%	75.6%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]Healthy People 2020 goal is based on ages 10-17.

Adolescent Health Program

Sanford Health Plan would like to see every adolescent develop an open and trusting relationship with a physician. Yearly visits offer this opportunity and the opportunity to reinforce health promotion messages for both adolescents and their parents. These visits will also identify adolescents who may have health risk behaviors or who are in the early stages of a physical or emotional disorder.

In an effort to increase the number of adolescent well-care visits, notices are published in the Member Messenger newsletter on a yearly basis regarding "Back-To-School Checkup Time". Birthday cards are sent monthly to those members turning 11 and 12 as a reminder to make sure they are up-to-date on immunizations by their 13th birthday. This postcard recommends a yearly wellness visit and reminds them of their benefits for yearly visits and immunizations.

A pilot project was also implemented to incentivize adolescents to get their wellness physical. Postcard reminders were sent to the parents first and then directly to the adolescent. Based on the success of this program, the postcard reminders were then rolled out to the rest of the Plan's group members in this age category.

The Plan encourages parents and adolescents to visit our website at www.sanfordhealthplan.com and click on the KidsHealth link for valuable health information for parents, kids and teens. The parent information topics include general health, infections, emotions & behavior, growth & development, recipes, medical problems, Q&A, positive parenting, first aid & safety and doctors & hospitals. Kids and teens will also enjoy the information provided specifically for them on this site.
Over the past few years the Health Plan has communicated with practitioners regarding preventive visits for adolescents and fostering these relationships. Preventive Health Guidelines and immunization guidelines are communicated yearly through the newsletters and the Health Plan encourages input from practitioners regarding the guidelines. The guidelines are also available on the Plan's website at www.sanfordhealthplan.com.

Quality Programs & Activities

Sanford Health Plan conducts, at a minimum, 2 health management programs each year as well as quality improvement activities as needed. Following are the quality evaluation and reporting steps utilized by the Plan:

- Problem Identification through the ongoing monitoring of process, structure, and outcomes of patient care or clinical performance and the evaluation of the data collected to identify potential problems.
- Selection of problems warranting corrective action or focused studies based on the prevalence of the problem or the severity of the problem impact on patient care and professional practices.
    - Topics for focused studies, health management programs and QI activities may be based on 1 of many factors:
        - Demographic characteristics, including age and sex of the member,
        - Areas of high volume,
        - Areas of high risk,
        - Areas demonstrating over or under utilization,
        - Areas that can be corrected or where prevention may have an impact, or
        - Areas where complaints or dissatisfaction have occurred.
    - Once the topic is selected, the following sources are then used to identify eligible members for the program or activity:
        - Claims data (medical and pharmacy),
        - Health risk appraisal data, if applicable,
        - Laboratory results, if applicable,
        - Data collected through the case management or UM process, if applicable, or
        - Member, practitioner or Plan staff (i.e., UM, Complex Case Management, Care Management, Health Information Line) referrals.
- Documenting corrective action steps including measurable objectives for each action, time frames, and the persons responsible for implementing the corrective action.
- After action steps are implemented and time has passed for the steps to take effect, a re-evaluation of the problem area will be done.
- Results of QI activities/surveys are published at year-end for practitioner, provider and member information by way of newsletters and special mailings. All contracted practitioners and providers are offered the opportunity to assist in problem selection by notifying the Plan regarding issues of concern. Reference is made yearly in the newsletter and/or special mailing for this opportunity.

Case Management Services

Sanford Health Plan offers case management services to all the members of our insured employer groups in order to assist in controlling healthcare costs. The case manager facilitates communication and coordination between members and practitioners of medical services. By involving all members of the healthcare team in the decision-making process, fragmentation of the healthcare delivery system is minimized. The case manager educates our members about wellness, health conditions, community resources, insurance benefits, cost factors and issues of concern. Serving as the link between individuals, practitioners, payers and the community, the case manager encourages and is an advocate for appropriate use of medical cost effectiveness on a case-by-case basis.

Complex Case Management Program

Sanford Health Plan's Complex Case Management Program is available to qualifying Health Plan Members and their families "FREE" of charge. Complex case management is a process that aims to identify high-risk or high cost Members, assess treatment options and opportunities to coordinate care, design treatment programs to improve quality and efficacy of care, control costs and manage Member care to ensure the optimum outcome. Concentrating for the most part on catastrophic or chronic cases, case manager nurses are called in to consult and manage diagnoses such as serious traumas, cancers, organ transplants, spinal cord injuries, multiple chronic illnesses and/or chronic illnesses that result in high utilization and diagnoses as identified by our reinsurance provider.

Health Plan Nurse Case Managers manage these complex cases to ensure high quality, cost effective and appropriate utilization of health services. The case manager acts as a Member advocate, seeking and coordinating creative solutions to a Member's health care needs without compromising quality health outcomes for selected medical diagnoses. The case manager contacts our Members by phone and mail. She is able to act as a resource, educator and/or coordinator of all medical care if needed.

If you would like more information about this program and whether you or your patient meet the criteria to participate in the program, please contact a Sanford Health Plan Complex Case Manager at (888) 315-0884.

Preventive Health Guidelines

Health promotion and disease prevention is our best opportunity to reduce the ever-increasing portion of resources spent to treat preventable illnesses and impairments that could have been prevented. As a health plan we would not be doing our jobs if we did not educate our members on how to cut health care costs, prevent premature onset of disease and disability, and to help all people achieve healthier, more productive lives.

Preventive Health Guidelines are age-specific and describe prevention or early detection interventions and recommended frequency and conditions under which the interventions are required. Appropriate practitioners are involved in the development of preventive health guidelines (i.e., practitioners who are from specialties that would use the guidelines).

Members of Sanford Health Plan are encouraged to utilize preventive health services, health education and health promotion by publicizing preventive health services, educational classes, and other articles on prevention in special mailings or in the Member Messenger Newsletters.

Current Preventive Health Guidelines are available on our website at www.sanfordhealthplan.com for both members and practitioners. A paper copy is available by calling the Plan at (605) 328-6800 or (800) 752-5863.

Sanford Health Plan Quality Improvement Committees

Physician Quality Committee

The Physician Quality Committee consists of physician members from various specialties of care. The Physician Quality Committee is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on **issues of care**. Its responsibilities include, but are not limited to, developing and continually evaluating the review criteria used in the evaluation of appropriate utilization, development and implementation of medical policies and procedures and evaluation of quality programs. This Committee is also responsible for the Plan's pharmaceutical management procedures as well as formulary decisions.

Health Plan Quality Improvement Committee

The Health Plan Quality Improvement Committee is comprised of Plan directors and staff and is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on **issues of service**.

The purpose of the QI Committee is to provide a mechanism for the comprehensive review of all health care issues affecting patients and facilitating the peer review process. The Committee is also responsible for quality activities by establishing, reviewing, and instituting needed actions and ensuring follow-up as appropriate. The committee will make recommendations to the Board of Directors regarding changes to Plan policies and procedures to improve quality based on the results of satisfaction surveys, evaluation of complaint and appeal data and quality improvement activities or processes. This Committee also serves as the internal confidentiality committee and ensures that appropriate practices are in place for the protection of member information.

Credentialing Committee

The Credentialing Committee is responsible for reviewing all issues regarding participating practitioners and determines a status for each individual who requests to be in the Sanford Health Plan practitioner network. Most often, the Committee will be reviewing new credentialing files and recredentialing files of participating practitioners at least every 3 years. However, in the instances of the Plan becoming aware of any serious quality deficiencies where the welfare of a Plan member may be affected, it is the responsibility of the Credentialing Committee members to determine if the status of that practitioner needs to be altered. The determinations of the Committee regarding participation status of all practitioners, as well as any alterations to a practitioner's status, are reviewed and approved the Sanford Health Plan Board of Directors. The monthly Credentialing Committee consists of physician members of various specialty backgrounds.

Member and Practitioner Communications

The following are the tools Sanford Health Plan utilizes to ensure timely and accurate communications with members and practitioners alike.

Member Messenger Newsletter

This newsletter is published for Sanford Health Plan members 3 times a year. It communicates information on preventive health, health management programs and quality improvement activities, how to initiate a complaint or appeal, answers to commonly asked questions, educational classes available to members, various educational articles, satisfaction survey results Plan policies and procedures, how to access the practitioner directory, pharmacy benefit information and much more. Members are also directed to access and utilize the Plan's website and ensured that if they do not have internet access, all information is available by calling the Plan.

Provider Perspective Newsletter

This newsletter goes out to all Sanford Health Plan practitioners 3 times a year. It communicates information such as Plan policies and procedures, information on preventive health, health management programs and quality improvement activities, clinical practice guidelines, satisfaction survey results, answers to commonly asked questions, billing and claims information, how to access the practitioner directory, pharmacy benefit information and much more. Practitioners are also directed to access and utilize the Plan's website and ensured that if they do not have internet access, all information is available by calling the Plan.

Medical Updates Newsletter

This newsletter is a tool for Sanford Health Plan's Chief Medical Officer, Dr. Michael Crandell, to utilize in communicating various educational or informational topics to Plan practitioners. This newsletter is sent on an as needed basis.

Health Notions Newsletter

This newsletter addresses health and wellness topics. It is sent on a monthly basis to the Plan's employer groups to share with their employees.

Sanford Health Plan Website

To further improve communication with our members, practitioners and providers, the Plan has a website that includes information for members, practitioners, employers and visitors. Whenever members are directed to the website through paper materials like the newsletters, they are also reminded that if they do not have internet access, they can call the Plan to request the same information.

The website also includes a link to the Plan's online portal, *my*HealthPlan. *my*HealthPlan allows members access to their personal medical and pharmacy claims and benefit information, check the status of claim payments, access their flexible spending account, ask questions, order ID cards online, enroll in health management programs, submit health related questions, access educational information on a variety of health conditions and much more.

WorldDoc, another feature of *my*HealthPlan, is a secure, health education website that provides the tools and information you need to better manage your health and to help you make informed healthcare decisions. Available 24/7 from any computer with Internet access, WorldDoc gives you the opportunity to privately evaluate and manage your health by:

- Learning your health risks by completing the Health Risk Assessment
- Improving health habits with the Healthy Living Program
- Using the Personal Evaluation System to investigate symptoms
- Searching the Medical Library to learn about medical conditions
- Tracking health behaviors, such as exercise or fruits and vegetable consumption, with the Health Trackers

Visit www.sanfordhealthplan.com and click on the *my*HealthPlan tab to create an account and explore what a great resource *my*HealthPlan and WorldDoc can be!

Conclusion

This report is Sanford Health Plan's commitment to our customers that we will continue to provide cost effective, quality care and service. Sanford Health Plan uses the data included in this report internally to identify opportunities for improvement and areas in need of quality improvement initiatives or health management programs.

Due to the changing nature of many of the HEDIS measures, employer groups and practitioners are advised to use HEDIS measures with care as a basis to initiate discussions with the Plan regarding our delivery system and quality of care and service being provided to our members.

The measures presented in this report have been audited by a certified HEDIS compliance auditor. Any questions regarding definitions of measures, data sources, information system specifications or quality projects should be directed to the Sanford Health Plan Care Management Department at (888) 315-0884.

Formulary

for non-grandfathered members

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug formulary that is the core of your pharmacy benefit coverage. In addition to using this list, allowing substitution of generic products is encouraged when appropriate.

If you are currently on a 3 or 4-tier pharmacy benefit program, the lowest co-payment is applied to all covered generic drugs. Generic drugs are indicated in bold. Tier 2 co-payment will apply to all of the covered brands listed on this formulary. Brand name drugs are listed in CAPITAL letters.

This is NOT a complete listing of covered drugs. For a complete list of medications, you can go to www.sanfordhealthplan.com/myhealthplan and link to the Express Scripts website.

"PA Required" indicates that prior authorization is required on that specific medication. "Step therapy" indicates the medication requires the use of first-line alternatives before more expensive second-line drugs are covered by the pharmacy benefit. Drugs marked with an asterisk (*) must be obtained from CuraScript.

If you are currently taking or are prescribed an injectable medication, please contact CuraScript Injectable Drug Program at (866) 333-9721 to order your drugs. Refer to the Pharmacy Handbook for a complete listing of drugs and instructions.

If you have questions regarding coverage call (800) 805-7938.

Chapter 18	MEDICAL (MISCELLANEOUS) SUPPLIES

	DRUG NAME	PA/STEP/QLL	TIER 1	TIER 2	TIER 3	TIER 4	SUGGESTED PREFFERED ALTERNATIVES
CHAPTER 1: ANESTHETICS							
1.2 TOPICAL ANESTHETICS							
	lidocaine hcl		X				
	lidocaine-prilocaine		X				
	LIDODERM			X			
CHAPTER 2: ANTIINFECTIVES							
2.1.1 CEPHALOSPORINS							
	cefaclor er		X				
	cefadroxil		X				
	cefdinir		X				
	cefpodoxime proxetil		X				
	cefprozil		X				
	cefuroxime		X				
	cephalexin		X				
	CEDAX				X		**cefprozil, cefuroxime, amox/clav**
	SUPRAX				X		**cefprozil, cefuroxime, amox/clav**
2.1.3 CLINDAMYCINS							
	clindamycin hcl		X				
	clindamycin phosphate		X				
2.1.4 ERYTHROMYCINS							
	erythromycin		X				
2.1.4.1 OTHER MACROLIDES							
	azithromycin		X				
	clarithromycin/er		X				
2.1.5 PENICILLINS							
	amox tr-potassium clavulanate		X				
	amoxicillin		X				
	amoxicillin-clavulanate er		X				
	dicloxacillin sodium		X				
	penicillin v potassium		X				
2.1.6 SULFONAMIDES							
	sulfamethoxazole-trimethoprim		X				
2.1.7 TETRACYCLINES							
	doxycycline hyclate		X				
	doxycycline monohydrate		X				
	minocycline hcl		X				
	tetracycline hcl		X				
	DORYX				X		
2.1.8 URINARY ANTIINFECTIVES							
	nitrofurantoin		X				
	nitrofurantoin mono-macro		X				
	trimethoprim		X				
2.1.9 QUINOLONES							
	ciprofloxacin, -er		X				
	levofloxacin		X				
	ofloxacin		X				
	AVELOX/ABC PACK			X			
	FACTIVE				X		
	NOROXIN				X		**ciprofloxacin, levofoxacin, ofloxacin**, AVELOX
2.2 TOPICAL ANTIBACTERIAL DRUGS							
	gentamicin sulfate		X				
	mupirocin		X				
	silver sulfadiazine		X				

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	ALTABAX				X		
	BACTROBAN NASAL OINTMENT				X		
2.3 ORAL ANTIFUNGAL DRUGS							
	fluconazole		X				
	griseofulvin		X				
	itraconazole		X				
	ketoconazole		X				
	nystatin		X				
	terbinafine hcl		X				
	voriconazole		X				
	GRIFULVIN V			X			
	ONMEL				X		
	ORAVIG				X		
2.4.1 VAGINAL ANTIFUNGALS							
	clotrimazole		X				
	terconazole		X				
2.4.2 OTHER TOPICAL ANTIFUNGALS							
	ciclopirox		X				
	clotrimazole		X				
	econazole nitrate		X				
	ketoconazole		X				
	nystatin		X				
	ERTACZO				X		**generic**/OTC ANTIFUNGAL
	EXELDERM				X		**generic**/OTC ANTIFUNGAL
	NAFTIN				X		**generics**, LOROX
	OXISTAT				X		**generic**/OTC ANTIFUNGAL
2.4.3 TOPICAL ANTIFUNGAL-CORTICOSTEROID COMB.							
	clotrimazole-betamethasone		X				
	nystatin-triamcinolone		X				
2.5.1 ANTIRETROVIRALS & PROTEASE INHIBITORS							
	lamivudine		X				
	lamivudine-zidovudine		X				
	nevirapine		X				
	ATRIPLA			X			
	COMBIVIR			X			
	COMPLERA				X		
	EPIVIR			X			
	EPZICOM			X			
	INCIVEK	PA			X		
	INTELENCE				X		
	ISENTRESS			X			
	KALETRA			X			
	LEXIVA			X			
	NORVIR			X			
	PREZISTA			X			
	REYATAZ			X			
	SUSTIVA			X			
	TRUVADA			X			
	VICTRELIS	PA			X		
	VIRAMUNE			X			
	VIRAMUNE XR				X		
	VIREAD			X			
	ZIAGEN			X			
2.5.2 OTHER ANTIVIRAL DRUGS							

	DRUG NAME	PA/STEP/QLL	TIER 1	2	3	4	SUGGESTED PREFFERED ALTERNATIVES
	acyclovir		X				
	amantadine		X				
	famciclovir		X				
	ribapak					X	
	ribavirin					X	
	valacyclovir		X				
	BARACLUDE				X		
	DENAVIR			X			
	EPIVIR HBV			X			
	RELENZA	QLL		X			
	TAMIFLU	QLL		X			
2.6 TOPICAL ANTIVIRAL DRUGS							
	XERESE				X		
	ZOVIRAX			X			
2.7.2 ANTITUBERCULOSIS DRUGS							
	isoniazid		X				
	rifampin		X				
	MYCOBUTIN			X			
2.7.3 PLASMODICIDES							
	atovaquone-proguanil hcl		X				
	hydroxychloroquine sulfate		X				
	mefloquine hcl		X				
	QUALAQUIN				X		
2.7.4 SULFONES							
	DAPSONE			X			
2.7.5 TRICHOMONOCIDES							
	metronidazole		X				
	tinidazole		X				
2.8 OTHER ANTIINFECTIVE DRUGS							
	bacitracin		X				
	vancomycin hcl		X				
	DIFICID				X		
	MEPRON			X			
	NEBUPENT			X			
	VANCOCIN PULVULE	PA			X		
	XIFAXAN				X		
	ZYVOX	PA		X			
2.8.2 AMINOGLYCOSIDES							
	gentamicin sulfate		X				
	tobramycin sulfate		X				
	TOBI					X	
CHAPTER 3: ANTINEOPLASTIC/IMMUNOSUPPRESSANT DRUGS							
3.0 ANTINEOPLASTIC/IMMUNOSUPPRESSANT DRUGS							
	anagrelide hcl					X	
	azathioprine					X	
	cyclosporine modified					X	
	hydroxyurea					X	
	leflunomide					X	
	megestrol acetate					X	
	mercaptopurine					X	
	methotrexate					X	
	mycophenolate mofetil					X	
	tacrolimus					X	
	tamoxifen citrate					X	

	DRUG NAME	PA/STEP/QLL	TIER 1	2	3	4	SUGGESTED PREFFERED ALTERNATIVES
	tretinoin		X				
	ENBREL	PA				X	
	HUMIRA	PA				X	
	MEGACE ES					X	
	MYFORTIC					X	
	RAPAMUNE					X	
	SIMPONI	PA				X	
	STELARA	PA				X	
CHAPTER 4: CARDIOVASCULAR MEDICATIONS							
4.1 CARDIAC GLYCOSIDES							
	digoxin		X				
	LANOXIN			X			
4.2 CALCIUM ANTAGONISTS							
	amlodipine besylate		X				
	cartia xt		X				
	diltiazem/er		X				
	felodipine er		X				
	nifediac cc		X				
	nifedical xl		X				
	nifedipine er		X				
	nisoldipine		X				
	verapamil/er pm		X				
	CARDENE SR				X		**generics, amlodipine**
	CARDIZEM LA				X		
	SULAR				X		**nisoldipine**
4.3.1 LOOP DIURETICS							
	bumetanide		X				
	furosemide		X				
	torsemide		X				
4.3.2 THIAZIDE AND RELATED DRUGS							
	chlorthalidone		X				
	hydrochlorothiazide		X				
	indapamide		X				
	metolazone		X				
4.3.3 POTASSIUM SPARING DIURETICS							
	amiloride hcl		X				
	eplerenone		X				
	spironolactone		X				
	spironolactone-hctz		X				
	triamterene-hctz		X				
	triamterene-hydrochlorothiazid		X				
4.4 BETA-ADRENERGIC ANTAGONIST DRUGS							
	acebutolol hcl		X				
	atenolol		X				
	bisoprolol fumarate		X				
	carvedilol		X				
	labetalol hcl		X				
	metoprolol succinate		X				
	metoprolol tartrate		X				
	nadolol		X				
	pindolol		X				
	propranolol hcl		X				
	timolol maleate		X				
	BYSTOLIC				X		

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	COREG CR				X		**carvedilol**
	INNOPRAN XL				X		
4.5.1 VASODILATOR ANTIHYPERTENSIVES							
	doxazosin mesylate		X				
	minoxidil		X				
	prazosin hcl		X				
	terazosin hcl		X				
4.5.2 CENTRALLY ACTING ANTIHYPERTENSIVES							
	clonidine, hcl		X				
	guanfacine hcl		X				
	methyldopa		X				
4.5.4.1 ANGIOTENSIN CONVERTING ENZYME INHIBITORS							
	benazepril hcl		X				
	captopril		X				
	enalapril maleate		X				
	fosinopril sodium		X				
	lisinopril		X				
	moexipril hcl		X				
	quinapril hcl		X				
	ramipril		X				
	trandolapril		X				
4.5.4.2 ANGIOTENSIN II RECEPTOR ANTAGONISTS							
	candesartan, -hctz		X				
	eprosartan mesylate		X				
	irbesartan, -hctz		X				
	losartan, -hctz		X				
	valsartan hctz		X				
	DIOVAN			X			
	EDARBI				X		**generics**, DIOVAN
	MICARDIS, -HCT				X		**generics**, DIOVAN
	TEVETEN HCT				X		**generics**
4.5.6 OTHER ANTIHYPERTENSIVES							
	amlodipine besylate-benazepril		X				
	atenolol-chlorthalidone		X				
	benazepril-hydrochlorothiazide		X				
	bisoprolol-hydrochlorothiazide		X				
	captopril-hydrochlorothiazide		X				
	enalapril-hydrochlorothiazide		X				
	fosinopril-hydrochlorothiazide		X				
	irbesartan-hydrochlorothiazide		X				
	lisinopril-hydrochlorothiazide		X				
	losartan-hydrochlorothiazide		X				
	metoprolol-hydrochlorothiazide		X				
	moexipril-hydrochlorothiazide		X				
	AMTURNIDE				X		
	AZOR				X		
	EXFORGE/HCT				X		
	TARKA ER				X		**trandolapril/verapamil**
	TEKAMLO				X		
	TEKTURNA/HCT				X		
	TRIBENZOR				X		
4.6.1 NITRATES							
	isosorbide		X				
	isosorbide dinitrate		X				

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	nitroglycerin		X				
	nitroglycerin patch		X				
	NITROSTAT			X			
4.7.1.3 CLASS 1C							
	flecainide acetate		X				
	propafenone hcl		X				
	RYTHMOL SR				X		**propafenone**
4.7.3 AMIODARONES							
	amiodarone hcl		X				
4.7.5 OTHER ANTIARRHYTHMICS							
	sotalol		X				
	MULTAQ			X			
	TIKOSYN			X			
4.8.1 HYPOLIPOPROTEINEMICS							
	cholestyramine		X				
	colestipol hcl		X				
	fenofibrate		X				
	fenofibric acid		X				
	gemfibrozil		X				
	LOVAZA	PA		X			
	WELCHOL				X		
	ZETIA	ST		X			
4.8.2 HMG-COA REDUCTASE INHIBITORS							
	atorvastatin		X				
	fluvastatin	ST	X				
	lovastatin		X				
	pravastatin		X				
	simvastatin		X				
	CRESTOR	ST		X			
	LIVALO	ST			X		**generic HMGs**, Crestor
4.8.2.1 HMG-COA COMBINATIONS							
	amlodipine-atorvastatin		X				
	ADVICOR			X			
	CADUET	ST		X			
	LIPTRUZET	ST		X			
4.9 OTHER CARDIOVASCULAR DRUGS							
	pentoxifylline		X				
	RANEXA			X			
CHAPTER 5: AUTONOMIC AND CNS MEDICATIONS							
5.1.1 ANALGESICS							
	butorphanol tartrate		X				
	tramadol hcl/er		X				
	tramadol hcl-acetaminophen		X				
5.1.1.1 CLASS II NARCOTICS							
	endocet		X				
	fentanyl		X				
	hydromorphone hcl		X				
	methadone hcl		X				
	morphine sulfate/er		X				
	oxycodone hcl		X				
	oxycodone-acetaminophen		X				
	oxymorphone hcl		X				
	ROXICET		X				
	NUCYNTA, -ER	PA			X		

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	OPANA ER	PA			X		
	OXYCONTIN			X			
5.1.1.2 CLASS III NARCOTICS							
	acetaminophen-codeine		X				
	buprenorphine hcl		X				
	hydrocodone bit-ibuprofen		X				
	hydrocodone-acetaminophen		X				
	reprexain		X				
	zamicet		X				
	BUTRANS				X		
	SUBOXONE				X		
5.1.2 DRUGS TO PREVENT AND TREAT HEADACHES							
	butalbital compound-codeine		X				
	butalbital-aspirin-caffeine		X				
	dihydroergotamine nasal spray		X				
	naratriptan tab	9/rx	X				
	rizatriptan tab	12/rx	X				
	sumatriptan tab	12/rx	X				
	sumatriptan inj	1 kit/rx	X				
	sumatriptan nasal spray	6/rx	X				
	zolmitriptan -zmt tab	12/rx	X				
	AXERT	6/rx			X		**naratriptan, rizatriptan, sumatriptan, zolmitritan**, RELPAX
	FROVA	9/rx			X		**naratriptan, rizatriptan, sumatriptan, zolmitritan**, RELPAX
	RELPAX	12/rx		X			
	ZOMIG NASAL SPRAY	6/rx			X		
5.2.1 ANXIOLYTICS							
	alprazolam/er/xr		X				
	buspirone hcl		X				
	chlordiazepoxide hcl		X				
	clorazepate dipotassium		X				
	diazepam		X				
	lorazepam		X				
	oxazepam		X				
5.2.2 SEDATIVE/HYPNOTIC DRUGS							
	estazolam		X				
	flurazepam		X				
	temazepam		X				
	triazolam		X				
	zaleplon		X				
	zolpidem tartrate, -er		X				
	LUNESTA				X		**zolpidem, zaleplon**
	ROZEREM				X		**zolpidem, zaleplon**
5.3 ANTIMANIA DRUGS							
	lithium carbonate		X				
5.4.1 CARBAMAZEPINES							
	carbamazepine, -xr		X				
	oxcarbazepine		X				
	TEGRETOL XR				X		**carbamazepine xr**
5.4.2 ANTICONVULSANT BENZODIAZEPINES							
	clonazepam		X				
	diazepam		X				
5.4.3 HYDANTOINS							

	DRUG NAME	PA/STEP/QLL	TIER 1	TIER 2	TIER 3	TIER 4	SUGGESTED PREFFERED ALTERNATIVES
	phenytoin sodium extended		X				
	DILANTIN			X			
	PHENYTEK			X			
5.4.4 VALPROIC ACID AND DERIVATIVES							
	divalproex sodium, -er		X				
	valproic acid		X				
5.4.6 ANTICONVULSANT BARBITURATES							
	phenobarbital		X				
	primidone		X				
5.4.7 OTHER ANTICONVULSANTS							
	gabapentin		X				
	lamotrigine		X				
	levetiracetam		X				
	topiramate		X				
	zonisamide		X				
	GRALISE				X		
	HORIZANT				X		
	KEPPRA, XR				X		
	LAMICTAL, -ODT, -XR				X		**lamotrigine**
	LYRICA			X			
	POTIGA				X		
	VIMPAT			X			
5.5.1.1 TERTIARY AMINES							
	amitriptyline hcl		X				
	clomipramine hcl		X				
	doxepin hcl		X				
	imipramine hcl		X				
5.5.1.2 SECONDARY AMINES							
	desipramine hcl		X				
	nortriptyline hcl		X				
5.5.1.3 SELECTIVE SEROTONIN REUPTAKE INHIBITORS							
	citalopram, - hbr		X				
	escitalopram oxalate		X				
	fluoxetine hcl		X				
	fluvoxamine maleate		X				
	paroxetine hcl		X				
	sertraline hcl		X				
	VIIBRYD	ST		X			
5.5.1.4 OTHER ANTIDEPRESSANTS							
	bupropion hcl,- sr, -xl		X				
	mirtazapine		X				
	nefazodone hcl		X				
	trazodone hcl		X				
	venlafaxine hcl, -er	ST	X				
	CYMBALTA	ST/QLL		X			
	PRISTIQ ER	ST		X			
	SAVELLA			X			
5.5.2 MAO INHIBITORS							
	tranylcypromine sulfate		X				
5.6 ANTIVERTIGO AND ANTIEMETIC DRUGS							
	dronabinol		X				
	granisetron hcl	LIMIT 2/rx	X				
	meclizine hcl		X				
	ondansetron hcl		X				

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	ondansetron odt		X				
	prochlorperazine maleate		X				
	promethazine hcl		X				
	promethegan		X				
	ANZEMET	LIMIT 1/rx			X		
	EMEND	LIMIT 3/rx			X		**granisetron, ondansetron**
	TRANSDERM-SCOP				X		
5.7.1 ANTIPARKINSON ANTICHOLINERGIC DRUGS							
	benztropine mesylate		X				
	trihexyphenidyl hcl		X				
5.7.2 OTHER ANTIPARKINSON DRUGS							
	bromocriptine mesylate		X				
	carbidopa-levodopa		X				
	carbidopa-levodopa-entacapone		X				
	pramipexole dihydrochloride		X				
	ropinirole hcl		X				
	AZILECT			X			
	COMTAN			X			
	MIRAPEX ER				X		
	NEUPRO				X		
	REQUIP XL				X		
	STALEVO				X		**use generic**
5.8 ANTIPSYCHOTIC DRUGS							
	clozapine		X				
	fluphenazine hcl		X				
	haloperidol		X				
	olanzapine, -odt		X				
	perphenazine		X				
	quetiapine fumarate		X				
	risperidone		X				
	thioridazine hcl		X				
	thiothixene		X				
	trifluoperazine hcl		X				
	ziprasidone hcl		X				
	ABILIFY			X			
	FANAPT				X		**generics**, ABILIFY TAB, SEROQUEL XR
	GEODON			X			
	INVEGA ER	PA			X		**generics**, ABILIFY TAB, SEROQUEL XR
	LATUDA			X			
	SAPHRIS	PA			X		**generics**, ABILIFY TAB, SEROQUEL XR
	SEROQUEL XR			X			
5.8.1 ALIPHATIC PHENOTHIAZINES							
	chlorpromazine hcl		X				
5.8.1.1 PSYCHOTHERAPEUTIC COMBINATIONS							
	olanzapine-fluoxetine hcl		X				
	SYMBYAX				X		
5.9.1 CNS STIMULANT DRUGS							
	amphetamine salt combo		X				
	dexmethylphenidate hcl, -sulfate		X				
	dextroamphetamine-amphetamine		X				
	methylphenidate er, -hcl, -sr		X				
	modafinil		X				
	DAYTRANA				X		
	FOCALIN XR				X		

	DRUG NAME	PA/STEP/QLL	TIER 1	2	3	4	SUGGESTED PREFFERED ALTERNATIVES
	NUVIGIL				X		
	QUILLIVANT XR				X		
	RITALIN LA				X		**methylphenidate**,VYVANSE
	VYVANSE			X			
5.9.2 OTHER CNS/AUTONOMIC DRUGS							
	atropine sulfate		X				
	naltrexone hcl		X				
	pyridostigmine bromide		X				
	NUEDEXTA				X		
5.9.3 ANTIDEMENTIA DRUGS							
	donepezil hcl		X				
	galantamine hbr		X				
	rivastigmine		X				
	ARICEPT/ODT				X		donepezil
	EXELON SOLUTION, PATCHES				X		rivastigmine
	NAMENDA			X			
	NAMENDA XR				X		
5.9.6 OTHER DRUGS FOR ADHD							
	INTUNIV				X		
	KAPVAY				X		
	STRATTERA			X			
CHAPTER 6: DERMATOLOGICAL MEDICATIONS							
6.1 TOPICAL CORTICOSTEROID DRUGS							
	alclometasone dipropionate		X				
	betamethasone dipropionate		X				
	betamethasone valerate		X				
	clobetasol		X				
	desonide		X				
	desoximetasone		X				
	fluocinolone		X				
	fluticasone propionate		X				
	halobetasol propionate		X				
	hydrocortisone butyrate, -valerate		X				
	mometasone furoate		X				
	triamcinolone acetonide		X				
	CLOBEX				X		
	HALOG				X		**generics**
	KENALOG				X		**halobetasol propionate**
	OLUX-E				X		**clobetasol propionate**
	ULTRAVATE PAC				X		**halobetasol propionate**
6.2 ANTIPRURITIC DRUGS							
	hydroxyzine		X				
6.3 ANTIACNE DRUGS							
	adapalene		X				
	benzoyl peroxide		X				
	clindamycin phosphate		X				
	clindamycin-benzoyl peroxide		X				
	erythromycin		X				
	erythromycin-benzoyl peroxide		X				
	metronidazole		X				
	sodium sulfacetamide-sulfur		X				
	tretinoin	PA	X				
	ACANYA				X		
	BENZACLIN			X			

	DRUG NAME	PA/STEP/QLL	TIER 1	TIER 2	TIER 3	TIER 4	SUGGESTED PREFFERED ALTERNATIVES
	DIFFERIN 0.1% LOTION & 0.3% GEL			X			**adapalene**
	DUAC			X			
	EPIDUO			X			
	FINACEA				X		
	METROGEL				X		
	RETIN-A MICRO/PUMP	PA		X			
6.3.1 ACCUTANES							
	isotretinoin		X				
6.7 KERATOLYTIC DRUGS							
	CONDYLOX				X		**podofilox**
6.8 ANTIPSORIASIS AND ANTIECZEMA DRUGS							
	calcipotriene		X				
	calcitrene		X				
	selenium sulfide		X				
	sulfacetamide sodium		X				
	DOVONEX			X			
	SORILUX				X		
	TACLONEX				X		
	TAZORAC			X			
	VECTICAL				X		**calcipotriene ointment**
6.9.2 TOPICAL DERMATOLOGICAL DRUGS							
	fluorouracil		X				
	imiquimod		X				
	tretinoin		X				
	CARAC			X			
	ELIDEL			X			
	EPICERAM				X		
	FLUOROPLEX			X			
	PICATO				X		
	PROTOPIC			X			
	SANTYL				X		
	SOLARAZE				X		**fluorouracil**
	VEREGEN				X		**podofilox**
	ZYCLARA			X			
6.9.3 SCABICIDES							
	permethrin		X				
	EURAX			X			
	ULESFIA				X		
6.9.5 TOPICAL ANTI-INFLAMMATORY DRUGS							
	FLECTOR			X			
	VOLTAREN			X			
CHAPTER 7: EAR-NOSE-THROAT MEDICATIONS							
7.1 DRUGS AFFECTING THE EAR							
	antipyrine-benzocaine		X				
	neomycin-polymyxin-hc		X				
	neomycin-polymyxin-hydrocort		X				
	ofloxacin		X				
	CIPRODEX				X		**generic otic quinolone**
7.2 DRUGS AFFECTING THE NOSE							
	azelastine hcl		X				
	flunisolide		X				
	fluticasone propionate		X				
	ipratropium bromide		X				
	ASTELIN			X			

DRUG NAME		PA/STEP/QLL	TIER				SUGGESTED PREFFERED ALTERNATIVES
			1	2	3	4	
	ASTEPRO			X			
	DYMISTA				X		
	NASONEX			X			
	QNASL	PA			X		
	VERAMYST	PA			X		**fluticasone**, NASONEX
	ZETONNA	PA			X		
7.3 DRUGS AFFECTING THE THROAT AND MOUTH							
	doxycycline hyclate		X				
	pilocarpine hcl		X				
	triamcinolone acetonide		X				
CHAPTER 8: ENDOCRINE MEDICATIONS							
8.1.1 INSULIN							
	APIDRA/SOLOSTAR				X		
	HUMALOG			X			
	HUMULIN			X			
	LANTUS/SOLOSTAR			X

Attachment M - Suggested Changes to Plan Design, Programs and Services

Vendors should match the current programs and services as closely as possible when providing proposals. This appendix is meant for vendors to offer suggested changes to plan design and identify the cost or cost savings associated with each suggestion. In addition, vendors can suggest or offer changes to the services along with identification of the benefits/cost or savings. This section is not meant to list deviations to required agreements or service offerings.

Sanford Health Plan would welcome a dialogue to understand the priorities and future strategic goals of ND PERS in order to offer suggested changes and plan designs.

Appendix F

Proposed Deviations

F1 Service Agreement Deviations
F2 RFP Deviations
F3 Redline ASA

Appendix F

Proposers are required to submit deviations in two parts and under separate cover with their proposals using the exhibits that follow:

1. Item F1 – Contract/ASA deviations and exceptions must be described in detail, and include proposed alternative language.
2. Item F2 - Deviations from other RFP requirements must also be described in detail and submitted with your proposal.

   Use the exhibits provided in the following pages to submit specific deviations.

   In addition, proposers must submit:

3. Item F3 – Submit the redline version of the sample contract/ASA with your proposal reflecting the deviations identified in your response to Exhibit F1. Note that electronic and hard copy formats must be submitted with the cost proposal as described earlier in the RFP.

Proposal Deviations

Instructions:
Vendors must complete and submit two separate proposal deviations worksheets. Item F1 for exceptions and suggested alternatives to the terms and provisions in the sample contract/ASA and Exhibit F2 for deviations to other RFP requirements (plan designs, administration, etc.). Failure to include this information with your proposal may exclude your organization from further consideration. As noted in Item F3, vendors are also required to submit a redline version of the ASA that reflects the deviations and suggested alternatives noted below (as outlined in Section III., Proposal Contents, of the RFP).

Appendix F, Item F1 – Proposal Deviations to Sample Contract/ASA

Please complete the following worksheet for any and all deviations and exceptions to the required contract language and provisions as outlined in the sample contract provided with this RFP. Suggested alternatives must be included. Vendors should add additional pages as needed.

NDPERS RFP SAMPLE CONTRACT/ASA DEVIATIONS AND EXCEPTIONS		
Contract Section/ Number	**Description/Contract Language**	**Suggested/Proposed Alternative Language or Provision**
3.7	Claims Processing location	Removed reference to claims processing center as Fargo, ND.
3.8	BlueCard Claims processing	Clarified that Sanford Health Plan will process claims from non-participating providers.
3.13	Conversion Policies	Clarified that an individual policy will be offered upon loss of group coverage.
3.18 (a)	Provider Network	Sanford Health Plan shall ensure PPO arrangements compared to existing SHP participation and reimbursement arrangements, to verify that PPO arrangements provide for payments which are comparable to the existing arrangements.
9 A and B	Provider Network Discount	Clarified the national and regional PPO network discount programs.
7	Final Accounting	SHP shall insert our specific numbers upon finalist selection process.
11.11	Certificates of Creditable Coverage	Will be sent pursuant to state and/or federal law.
Federal and State Regulations	Affordable Care Act and State Mandates	Sanford Health Plan must reserve the ability to amend and implement its plan benefits and documents pursuant to any changes in state or federal laws that are provided or developed following submission of our response to the RFP. SHP reserves the right to adjust premium rates, with a 90 day notice, for any taxe and/or benefits changes imposed by the state of federal government that affects NDPERS health plan benefits.

Appendix F, Item F2 – All Other Proposal Deviations

Please complete the following worksheet for all deviations and exceptions to the RFP requirements. Suggested alternatives or solutions must be included. Vendors should add additional pages as needed.

NDPERS RFP ALL OTHER DEVIATIONS AND EXCEPTIONS	
Specific Deviation	**Proposed Alternative/Solution**
Administering a 20% payment reduction to nonparticipating health care providers within the state of ND would be a manual process.	Sanford Health Plan proposes a manual process for the 20% payment reduction with the overall goal of reducing the number of nonparticipating providers in NDPERS program by securing competitive discounts state-wide.

Appendix F, Item F3 – Redline version of contract/ASA

North Dakota Public Employees Retirement System

July 1, 2013 through June 30, 2015

DRAFT

ADMINISTRATIVE SERVICE AGREEMENT

This Administrative Service Agreement ("Agreement") is entered into between North Dakota Public Employees Retirement System (NDPERS) ("the Plan Sponsor"), North Dakota Public Employees Retirement System (NDPERS) ("the Plan Administrator") and Blue Cross Blue Shield of North Dakota ("BCBSND") the terms of which are as follows:

The Plan Sponsor has established and maintains a fully insured group health plan (the Plan) which provides, among other things, various benefits to Members in the Plan, as set forth in the Certificate of Insurance provided to plan Members. The Plan Administrator is the administrator of the Plan established through this Agreement.

In consideration of payment of required premium and acceptance of membership applications, BCBSND enters into this Agreement with the Plan Sponsor and the Plan Administrator. BCBSND agrees to provide plan Members the benefits set forth in the Certificate of Insurance, in accordance with its terms and conditions. This Agreement also includes the Certificate of Insurance, membership applications, Identification Cards, Benefit Plan Attachments and any endorsements, supplements, attachments, addenda or amendments.

1. EFFECTIVE DATE AND PLAN YEAR

This Agreement is effective July 1, 2015~~3~~ through June 30, 2017~~5~~, unless terminated as provided.

For the purposes of the costs of any and all benefits and services extended through this Benefit Plan, including the implementation of any benefit changes required under federal or state law, the Plan Administrator agrees that the Plan Year shall commence on July 1, unless it is terminated by one of the parties as specified in Section 8. TERM AND TERMINATION OF AGREEMENT.

2. DEFINITIONS

This section defines the terms used in this Agreement. These terms will be capitalized throughout this Agreement when referred to in the context defined.

A. **BENEFIT PAYMENTS** - payments of benefits under the Plan.

B. **CERTIFICATE OF CREDITABLE COVERAGE** - a certificate disclosing information relating to an individual's creditable coverage under a health care benefit program for purposes of reducing any preexisting condition waiting period imposed by any group health plan coverage.

C. **CLAIM** - notification in a form acceptable to BCBSND that service has been provided or furnished to a Member.

D. **DRG** - shall mean diagnostic related groups.

E. **DATA AGGREGATION** - the combining of Protected Health Information that BCBSND creates or receives for or from the Plan and for or from other health plans or health care providers for which BCBSND is acting as a business associate to permit data analyses that relate to the Health Care Operations of the Plan and those other health plans or providers.

DRAFT

F. **FEES AND CHARGES** - the amounts the Plan Administrator must pay BCBSND for the administrative services described in Section 6. FEES AND CHARGES.

G. **HEALTH CARE OPERATIONS** - any of the activities of a health plan to the extent the activities relate to functions that make it a health plan.

H. **HEALTH CARE PROVIDER** - any eligible provider that has provided care, diagnosis, or treatment to or for a Member for which benefits are sought under the Plan.

I. **INELIGIBLE PERSON** - any person, firm, or corporation that has received benefits or on whose behalf benefits have been paid but for whom benefits are not payable under the terms of the Plan.

J. **MEMBER** - the Subscriber and any dependent of a Subscriber or any other person designated by a Subscriber or by the terms of the Plan who is or may become entitled to a benefit under the Plan. The term shall also include any proprietor, partner, or owner of the Plan Sponsor, if any, who is designated by the terms of the Plan who is or may become entitled to a benefit under the Plan. In no case shall the term Member include any person not otherwise entitled to coverage under the terms of the Plan.

For the purposes of determining the various benefits and restrictions or other limitations thereto made available to a Member under the terms of this Agreement, all benefits under any Plan option or tier (and any restrictions or other limitations thereto) made available to or received by a Member shall accumulate toward that Member's benefits and any restrictions and other limitations thereto.

K. **PAYMENT** - activities undertaken to obtain premiums, determine or fulfill coverage and benefits, or obtain or provide reimbursement for health care services.

L. **PLAN ADMINISTRATOR** – **NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM.** North Dakota Public Employees Retirement System (NDPERS) is the administrator of the Plan with all of the duties and responsibilities applicable to plan administrators, including but not necessarily limited to compliance with any and all administrative, reporting, and disclosure requirements. BCBSND is not the Plan Sponsor or the Plan Administrator of the Plan and is not responsible for any of the duties assigned to the Plan Sponsor or the Plan Administrator by the terms of the Plan, or by this Agreement.

M. **PROTECTED HEALTH INFORMATION (PHI)** - individually identifiable health information, including summary and statistical information, collected from or on behalf of a Member that is transmitted by or maintained in electronic media, or transmitted or maintained in any other form or medium and that:

1. is created by or received from a Health Care Provider, health care employer, or health care clearinghouse;
2. relates to a Member's past, present or future physical or mental health or condition;
3. relates to the provision of health care to a Member;
4. relates to the past, present, or future payment for health care to or on behalf of a Member; or
5. identifies a Member or could reasonably be used to identify a Member.

Educational records and employment records are not considered PHI under federal law.

DRAFT

N. **SECURITY INCIDENT** - any attempted or successful unauthorized access, use, disclosure, modification, or destruction of a Member's electronic PHI or interference with BCBSND's system operations in BCBSND's information systems.

O. **STANDARD TRANSACTIONS** - health care financial or administrative transactions conducted electronically for which standard data elements, code sets and formats have been adopted in accordance with federal or state law.

P. **SUBSCRIBER** - any employee of the Plan Sponsor who is or may become eligible to receive a benefit under the Plan. The term includes all common law employees and possibly proprietors, partners, or other owners who work for the Plan Sponsor and are otherwise entitled to coverage under the Plan. Notwithstanding the above, in no case shall the term Subscriber include any person not otherwise entitled to coverage under the terms of the Plan.

Q. **SUCCESSFUL SECURITY INCIDENTS** - Security Incidents that result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations.

R. **UNSUCCESSFUL SECURITY INCIDENTS** - Security Incidents that do not result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations.

3. **BCBSND SHALL:**

3.1 Establish a membership record for existing Members containing information as provided by NDPERS.

3.2 Provide Identification Cards, Certificates of Insurance/Summary Plan Descriptions and applications for enrollment for each Subscriber.

3.3 Provide the Health Plan Performance Guarantees, as outlined in Exhibit B.

3.4 Upon enrollment under the NDPERS Benefit Plan, BCBSND will provide written notice to covered employees and their covered spouses of their continuation rights pursuant to the Consolidated Omnibus Budget Reconciliation Act. (“COBRA”).

3.5 Receive applications for enrollment for late entrants.

3.6 Provide Managed Benefits services in accordance with appropriate licensure and certification requirements including a dedicated staff person.

3.7 Provide a dedicated service unit to adjudicate all claims and respond to Member's inquiries. Provide toll-free Member and Health Care Provider service lines between the hours of 8 AM and 5:00 PM CST ~~or CDT at the home office in Fargo, ND, as appropriate~~. A toll-free managed benefits line for Health Care Providers will also be available between the hours of 7:30 AM and 5:30 PM CST or CDT. During nonbusiness hours, answering machine services will be available for managed benefits calls.

3.8 Process claims and inquiries for all members, including claims from non-participating providers. ~~per MTM (Member Touchpoint Measures) for Non-BlueCard claims.~~

3.9 Correspond with the Members and Health Care Providers if additional information is deemed necessary by BCBSND to complete the administrative process.

DRAFT

3.10 Administer other party liability programs.

3.11 Provide to Members an Explanation of Benefits Statement.

3.12 Provide a procedure for detection of fraud and unlawful activity.

3.13 Offer~~Provide to~~ Members an invididual ~~conversion~~ policy ~~when application is made~~ within 31 days of the termination of enrollment under NDPERS.

3.14 Provide assistance to NDPERS for the conduct of enrollment, servicing and education.

3.15 Provide to NDPERS formal Policy and Procedure guidelines for the conduct of external audits or reviews commissioned by NDPERS.

NDPERS shall provide BCBSND with the scope and requirements of any audit or review prior to the commencement of activities. If a sample of claims is required, BCBSND will provide or NDPERS will select a statistically valid computerized sample of claims, if not prohibited by law, regulation or rule.

NDPERS will provide a copy of the report of all audit or review findings and shall discuss the findings with BCBSND upon discovery to allow further investigation or implementation of corrective action.

DRAFT

3.16 Provide NDPERS with reporting to include but not limited to:

a. Annual group reporting of membership and utilization by group segments and product.

b. Estimates of future claim reserves and premium to claim ratio.

c. Such other special claims reports as requested from time-to-time by NDPERS, subject to the availability of data and appropriate cost considerations.

d. Interest calculation monthly report.

e. Semi-annual performance objectives as outlined in section 2 of the BCBSND response to question 15 of the RFP.

3.17 Provide NDPERS with claims specific data on a monthly basis on compact disc or other agreed upon medium. This information shall be in a format acceptable to NDPERS and subject to all federal and state laws on confidentiality and open records.

3.18 Provide support to NDPERS for the establishment of a Preferred Provider Network consistent with objectives established by NDPERS.

a. BCBSND will provide technical and administrative advice to NDPERS relative to the appropriateness of PPO arrangements compared to existing Blue Cross Blue Shield participation and reimbursement arrangements, to verify that PPO arrangements provide for payments which comparable to ~~are no greater than~~ the existing arrangements. BCBSND will provide current information regarding Blue Cross Blue Shield participation and reimbursement arrangements in place on a provider-specific basis for comparative purposes.

b. BCBSND will develop jointly with NDPERS a written instrument to be used as the basis for providers participating in the PPO Program.

c. BCBSND will secure provider agreements upon completion of negotiations with providers. Such negotiations will be conducted jointly by BCBSND and NDPERS.

d. BCBSND will enforce strict managed benefits, utilization review and quality assurance criteria to assure attainment of Preferred Provider program objectives.

e. BCBSND will, upon NDPERS direction, terminate a Provider's NDPERS PPO participation agreement in accordance with terms of the agreement, when a PPO Provider is noncompliant with NDPERS policies and procedures. Said policies and procedures shall be documented and communicated to the participating provider prior to implementation.

3.19 Carry over any Deductible and/or Coinsurance Amounts incurred from January 1 to June 30, of the prior contract period.

DRAFT

4. **NDPERS SHALL:**

4.1 Prepare and distribute monthly billings to participating employers and retirees participating in the Plan. NDPERS shall respond to the participating employers inquiries concerning eligibility rules, billing, etc.

4.2 Prepare monthly eligibility tape by participating employer and premium classification for both active and retired employees and provide the tape to BCBSND to be used for eligibility certification purposes. Along with the eligibility tape, NDPERS will furnish a monthly listing of participants added or terminated during the month. Such listing will reflect the name of the employee, dependents, Social Security Number, the effective date of coverage for a new employee or the termination date of a terminated employee and the coverage classification.

4.3 Provide enrollment forms, obtain completed classifications or addresses, etc. from participants and furnish BCBSND with a copy of the enrollment forms or request for coverage or address changes and retain the original copy. Enrollment forms will include the NDPERS and Blue Cross Blue Shield Service Marks.

4.4 Be responsible for the administration of and compliance with COBRA. BCBSND will forward requests for COBRA participation by membership to NDPERS upon notification.

4.5 Comply with BCBSND's established administrative policies which are reasonable and consistent with the NDPERS Health Plan and the bid specifications agreed to by the parties, including but not limited to: underwriting policies, standard adjudication and Medical Policy Guidelines, Payable Provider Guidelines, Managed Benefits Program Guidelines and claim payment procedures.

4.6 Develop and provide BCBSND the objectives established for the Preferred Provider programs.

4.7 Assume joint responsibility for the determination of provider eligibility and performance criteria in the Preferred Provider programs.

4.8 Be responsible for any systems redesign costs to BCBSND which result from the implementation of any new reimbursement mechanisms not presently in place within BCBSND automated claims payment systems. Those reimbursement mechanisms currently in place include:

Institutional	Professional
Percent of Billed Charges	Percent of Physician Payment Schedule
Percent of DRGs	Percent of Billed Charges
Percent of Per Diems	Capitation
Targeted Cost per Member	Targeted Cost per Member

4.9 Pay premiums to BCBSND according to the schedule in Section 6.

4.10 NDPERS acknowledges that the administration of the Benefit Plan that is the subject of this Agreement may be subject to regulation under federal and/or state law. NDPERS agrees to furnish BCBSND with any and all information necessary to comply with any applicable federal and/or state laws and to certify that this information is accurate. If there are any changes in the employer contribution rate for benefits and services

DRAFT

available under this Agreement, NDPERS agrees that it is its obligation to provide information related to the change in contribution rates immediately to BCBSND.

5. PRIVACY USE AND DISCLOSURE RESPONSIBILITIES

5.1 RESPONSIBILITIES OF BCBSND

A. Privacy of Protected Health Information (PHI)

1. BCBSND will keep confidential all Claim records and all other PHI that BCBSND creates or receives in the performance of its duties under this Agreement. Except as permitted or required by this Agreement for BCBSND to perform its duties under this Agreement, BCBSND will not use or disclose such Claim information or other PHI without the authorization of the Member who is the subject of such information or as required by law.

2. BCBSND will neither use nor disclose Members' PHI (including any Members' PHI received from a business associate of the Plan) except (1) as permitted or required by this Agreement, (2) as permitted in writing by the Plan Administrator, (3) as authorized by Members, or (4) as required by law.

3. BCBSND will be permitted to use or disclose Members' PHI only as follows:

    a. BCBSND will be permitted to use and disclose Members' PHI (a) for the management, operation and administration of the Plan the Plan Administrator offers Members, and (b) for the services set forth in the Plan, which include Payment Activities, Health Care Operations, and Data Aggregation as these terms are defined under federal law.

        1. BCBSND will be permitted to use Members' PHI as necessary for BCBSND's proper management and administration or to carry out BCBSND's legal responsibilities.

        2. BCBSND will be permitted to disclose Members' PHI as necessary for BCBSND's proper management and administration or to carry out BCBSND's legal responsibilities only if (i) the disclosure is required by law, or (ii) before the disclosure, BCBSND obtains from the entity to which the disclosure is to be made reasonable assurance, evidenced by a written contract, that the entity will hold Members' PHI in confidence, use or further disclose Members' PHI only for the purposes for which BCBSND disclosed it to the entity or as required by law, and notify BCBSND of any instance the entity becomes aware of where the confidentiality of any Members' PHI was breached.

    b. BCBSND will make reasonable efforts in accordance with its written privacy policies and procedures to use, disclose, or request only the minimum necessary amount of Members' PHI to accomplish the intended purpose. BCBSND will make its written privacy policies and procedures available to the Plan Sponsor, upon request.

4. Other than disclosures permitted by Section 5.1(A)3, BCBSND will not disclose Members' PHI to the Plan Administrator or to the Plan's business associate except as directed by the Plan Administrator in writing.

DRAFT

5. BCBSND will require each subcontractor and agent to which BCBSND is permitted by this Agreement or in writing by the Plan Administrator to disclose Members' PHI to provide reasonable assurance, evidenced by written contract, that such other entity will comply with the same privacy and security obligations with respect to Members' PHI as this Agreement applies to BCBSND.

6. BCBSND will not disclose any Members' PHI to the Plan Sponsor, except as permitted by and in accordance with Section 5.1(A)3.

7. BCBSND will report to the Plan Administrator any use or disclosure of Members' PHI not permitted by this Agreement. BCBSND will make any such report to the Plan Administrator after BCBSND learns of such non-permitted use or disclosure.

8. BCBSND will report to the Plan Administrator attempted or successful unauthorized access, use, disclosure, modification or destruction of a Member's electronic PHI or interference with BCBSND's system operations in BCBSND's information systems ("Security Incident"), of which BCBSND becomes aware. With regard to attempted unauthorized access, use, etc., BCBSND and the Plan Administrator recognize and agree that the significant number of meaningless attempts to, without authorization, access, use, disclose, modify or destroy electronic PHI will make real-time reporting formidable. Therefore, BCBSND and the Plan Administrator agree to the following reporting procedures for Security Incidents that result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations ("Successful Security Incidents") and for Security Incidents that do not so result ("Unsuccessful Security Incidents").

   For Unsuccessful Security Incidents, BCBSND and the Plan Administrator agree that this Agreement constitutes notice from BCBSND of any such Unsuccessful Security Incidents. In other words, the Plan Administrator waives any separate notice of Unsuccessful Security Incidents. By way of example, BCBSND and the Plan Administrator consider the following to be illustrative of Unsuccessful Security Incidents when they do not result in unauthorized access, use, disclosure, modification, or destruction of a Member's electronic PHI or interference with an information system:

   1. Pings on BCBSND's firewall,

   2. Port scans,

   3. Attempts to log on to a system or enter a database with an invalid password or username,

   4. Denial-of-service attacks that do not result in a server being taken off-line, and

   5. Malware (e.g., worms, viruses).

   For Successful Security Incidents, BCBSND shall give notice promptly to the Plan Administrator in the event a Member's electronic PHI was compromised.

DRAFT

9. Disposition of Protected Health Information

   The parties agree that upon termination, cancellation, expiration or other conclusion of this Agreement, BCBSND will return or destroy all PHI received or created by BCBSND on the Plan Administrator's behalf as soon as feasible. Due to various regulatory and legal requirements, the Plan Administrator acknowledges that immediate return or destruction of all such information is not feasible. BCBSND agrees that upon conclusion of this Agreement for any reason, it will use or disclose the PHI it received or created on the Plan's behalf only as necessary to meet BCBSND's regulatory and legal requirements and for no other purposes unless permitted in writing by the Plan Administrator. BCBSND will destroy PHI received or created by BCBSND on the Plan Administrator's behalf that is in BCBSND's possession under such circumstances and upon such schedule as BCBSND deems consistent with its regulatory and other legal obligations.

   These responsibilities agreed to by BCBSND and related to protecting the privacy and safeguarding the security of PHI, as well as any terms directly related thereto, shall survive the termination of this Agreement and, where applicable, shall govern BCBSND's receipt, use or disclosure of PHI pursuant to the terms of this Agreement.

B. **Access, Amendment and Disclosure Accounting for Protected Health Information**

1. Upon the Plan Administrator's written request, BCBSND will make available for inspection and obtaining copies by the Plan Administrator, or at the Plan Administrator's direction by the Member (or the Members' representative), any PHI about the Member created or received for or from the Plan Administrator in BCBSND's custody or control so the Plan Administrator may meet its access obligations under federal law.

2. Upon receipt of a written request from the Plan Administrator, or at the Plan Administrator's direction by the Member (or the Members' representative), BCBSND will amend or permit the Plan Administrator access to amend any portion of the PHI created or received for or from the Plan Administrator in BCBSND's custody or control, so the Plan Administrator may meet its amendment obligations under federal law.

3. So the Plan Administrator may meet its disclosure accounting obligations under federal law or state law, BCBSND will do the following:

   a. BCBSND will record each disclosure of Members' PHI which is not excepted from disclosure accounting under Section 5.1(B)3.b, that BCBSND makes to the Plan Administrator or to a third party.

      The information about each disclosure that BCBSND must record ("Disclosure Information") is (i) the disclosure date, (ii) the name and (if known) address of the person or entity to whom BCBSND made the disclosure, (iii) a brief description of the PHI disclosed, and (iv) a brief statement of the purpose of the disclosure.

      For repetitive disclosures of Members' PHI that BCBSND makes for a single purpose to the same person or entity (including the Plan Administrator),

DRAFT

BCBSND may record (i) the disclosure information for the first of these repetitive disclosures, (ii) the frequency, periodicity or number of these repetitive disclosures, and (iii) the date of the last of these repetitive disclosures.

b. BCBSND will not be required to record disclosure information or otherwise account for disclosures of Members' PHI that this Agreement or the Plan Administrator in writing permits or requires:

(1) for Payment Activities or Health Care Operations,
(2) to the Member who is the subject of the PHI or to that Members' personal representative,
(3) to persons involved in that Members' health care or payment for health care, as provided under federal law,
(4) for notification for disaster relief purposes or national security or intelligence purposes as provided under federal law,
(5) to law enforcement officials or correctional institutions regarding inmates,
(6) for incidental uses or disclosures,
(7) as part of a limited data set in accordance with federal law,
(8) that occurred prior to the HIPAA Privacy Compliance Date,
(9) pursuant to a valid authorization.

c. BCBSND will have available for the Plan Administrator the disclosure information required by Section 5.1(B)3.a. for the six (6) years immediately preceding the date of the Plan Administrator's request for the disclosure information.

d. Upon the Plan Administrator's written request, BCBSND will make available to the Plan Administrator, or at the Plan Administrator's direction to the Member (or the Member's representative), disclosure information regarding the Member so the Plan Administrator may meet its disclosure accounting obligations under federal law.

C. **Information Safeguards**

1. BCBSND will maintain reasonable and appropriate administrative, technical and physical safeguards to protect the privacy of Member PHI. The safeguards must reasonably protect Member PHI from any intentional or unintentional use or disclosure in violation of federal law and limit incidental uses or disclosures made pursuant to a use or disclosure otherwise permitted by this Agreement.

2. BCBSND will implement administrative, technical, and physical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of electronic PHI BCBSND creates, receives, maintains, or transmits on behalf of the Plan Administrator as required by federal law.

D. **Inspection of Books and Records**

BCBSND will make its internal practices, books, and records relating to its use and disclosure of PHI created or received for or from the Plan Administrator available to the Plan Administrator and to the U.S. Department of Health and Human Services to determine compliance with federal law or this Agreement.

DRAFT

E. BCBSND will prepare and distribute a notice of privacy practices appropriate for the Plan to meet its notice obligations under federal law. The Plan Administrator authorizes BCBSND to disclose the minimum necessary PHI to the Plan Sponsor for plan administration functions specified in the Plan documents as amended.

F. **Information Privacy and Safeguard Provisions Survive Termination of Agreement**

These responsibilities agreed to by BCBSND and related to protecting the privacy of PHI, as well as any terms directly related thereto, shall survive the termination of this Agreement and where applicable, shall govern BCBSND's receipt and use of PHI obtained pursuant to the terms of this Agreement.

5.2 RESPONSIBILITIES OF THE PLAN SPONSOR

A. The Plan Sponsor retains full and final authority and responsibility for the Plan and its operation. BCBSND is empowered to act on behalf of the Plan only as stated in this Agreement or as mutually agreed in writing by the Plan Sponsor and BCBSND.

B. Except with respect to services provided by BCBSND set forth in this agreement, the Plan Sponsor will have the sole responsibility for and will bear the entire cost of compliance with all federal, state and local laws, rules, and regulations concerning the privacy of PHI, including any licensing, filing, reporting, and disclosure requirements, that may apply to the Plan. BCBSND will have no responsibility for or liability with respect to the Plan's compliance or noncompliance with any applicable federal, state, or local law, rule, or regulation, that the Plan Sponsor is responsible for under this subsection.

C. By executing this Agreement, the Plan Sponsor certifies to BCBSND that it has amended the Plan documents to incorporate the provisions required by and under federal law, and agrees to comply with the Plan Administrator's plan documents as amended.

BCBSND may rely on Plan Sponsor's certification and Plan Administrator's written authorization, and will have no obligation to verify (1) the Plan Administrator's plan documents have been amended to comply with the requirements of federal law or this Agreement or (2) the Plan Sponsor is complying with the Plan Administrator's plan document as amended.

D. For any high deductible health plan offered by the Plan Sponsor, the Plan Sponsor assumes sole responsibility for determining whether the Plan qualifies as a high deductible health plan under Section 223(c)(2) of the U.S. Internal Revenue Code. BCBSND MAKES NO WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING THE PLAN.

For any high deductible health plan offered by the Plan Sponsor, BCBSND does not provide legal or tax advice, and expressly disclaims responsibility for determining, on behalf of any individual or group, the legal and tax implications of: (1) establishing a health savings account; (2) eligibility for a health savings account; (3) the contributions made to a health savings account; (4) the deductibility of contributions to a health savings account; and (5) withdrawals from a health savings account and related taxation.

DRAFT

6. **FEES AND CHARGES:**

6.1 In consideration of the fully insured contract under this Agreement, BCBSND agrees to accept the following provisions and premium rates for the Effective Date of this Agreement. See attached Premium Rate Structure Table.

6.2 BCBSND and NDPERS agree to the Health Plan Performance Guarantees, as outlined in the attached Exhibit B.

6.3 NDPERS will pay BCBSND, on or before the last day of each month, premium income based on the amount identified in Column 6 of the attached Table for type of contract for that month.

6.4 NDPERS will maintain a deposit of $3,000,000 in a Cash Reserve Account held by BCBSND until the settlement of the biennium. This Cash Reserve Account shall earn interest at a rate to be determined monthly, based on US Treasury Notes quoted by the Wall Street Journal. The monthly rate will be established at the close of the first trading day each month based on the closing yield to maturity of US Treasury Notes maturing 24 months hence. If there are multiple notes for that maturity, the rate will be based on an average. If there are no notes with that maturity, the next subsequent maturity will be used.

6.5 BCBSND will retain any surplus funds from the amounts identified in Column 4 of the attached table. Surplus funds retained by BCBSND shall earn interest at a rate to be determined monthly, based on US Treasury Notes quoted by the Wall Street Journal. The monthly rate will be established at the close of the first trading day each month based on the closing yield to maturity of US Treasury Notes maturing 24 months hence. If there are multiple notes for that maturity, the rate will be based on an average. If there are no notes with that maturity, the next subsequent maturity will be used.

Surplus funds described in the above section 6.5 not used by BCBSND to pay NDPERS Health Plan incurred claims plus retention will be subject to the Final Accounting as described in Section 7 of this Agreement.

6.6 Payments made pursuant to Section 6.3 and pursuant to Column 5 of the attached Table will be handled as follows:

BCBSND will dispense to Regional Advantage Services LLC, Medicare Part D premiums identified in Column 5 of the attached Table for type of contract for that month. Interest will not be paid on this account.

Funds described in section 6.6 are not subject to final accounting as described in section 7 of this Agreement.

6.7 BCBSND reserves the right to adjust premium rates, with a 90-day notice, for any changes in taxes and/or benefits imposed upon BCBSND for the NDPERS health plan by any Federal, State or Local government authority that impact BCBSND expenses and/or NDPERS health plan benefits.

7. **FINAL ACCOUNTING**

DRAFT

7.1 A continual accounting of NDPERS Health Plan experience will take place during the 2013-2015 biennium. Monthly reports of earned income less incurred claims and retention will be produced during the biennium and the twenty-four months following the biennium.

7.2 Within 31 days of 12 months after the end of the biennium (by July 31, 2016) BCBSND will provide an accounting which will result in an initial settlement of the biennium agreement as follows:

1. Earned Premium Income during the Biennium
2. Plus interest on Surplus Funds
3. Less Claims Incurred during the Biennium and Paid July 1, 2013 through June 30, 2016
4. Less Estimated Claims Incurred and Unpaid at June 30, 2016
5. Less Administrative Expense during the Biennium ($28.36 per contract per month)
6. Less Conversion Cost during the Biennium ($1.92 per Non-Medicare contract per month)
7. Less Service Charge during the Biennium ($9.58 per Non-Medicare contract per month and $2.16 per Medicare contract per month)
8. Less Disease Management Program fees during the Biennium ($1.40 per contract per month)
9. Less Wellness Program fees during the Biennium ($4.26 per contract per month)
10. Less PPACA fees during the Biennium ($21.54 per Non-Medicare contract per month)
11. If 1+2-3-4-5-6-7-8-9-10 of 7.2 is positive, the lesser of 50% of this amount or $1.5 million is retained by BCBSND. The remainder equals Refund paid to NDPERS.
12. If 1+2-3-4-5-6-7-8-9-10 of 7.2 is negative, the lesser of 50% of this amount or $3.0 million will be refunded by NDPERS to BCBSND.

Claims incurred and unpaid will be estimated by the mean of the latest three actual IBNR claims (Incurred But Not Reported) amounts for equivalent periods in the NDPERS history.

7.3 Within 31 days of 24 months after the end of the biennium (by July 31, 2017), BCBSND will provide an accounting, which will result in a final settlement of the biennium agreement as follows:

1. Earned Premium Income during the Biennium
2. Plus interest on Surplus Funds
3. Less Claims Incurred during the Biennium and Paid July 1, 2013 through June 30, 2017
4. Less Administrative Expense during the Biennium ($28.36 per contract per month)
5. Less Conversion Cost during the Biennium ($1.92 per Non-Medicare contract per month)
6. Less Service Charge during the Biennium ($9.58 per Non-Medicare contract per month and $2.16 per Medicare contract per month)
7. Less Disease Management Program fees during the Biennium ($1.40 per contract per month)
8. Less Wellness Program fees during the Biennium ($4.26 per contract per month)
9. Less PPACA fees during the Biennium ($21.54 per Non-Medicare contract per month)
10. Less any refund paid to NDPERS at initial settlement on July 31, 2016
11. If 1+2-3-4-5-6-7-8-9-10 of 7.3 is positive, the lesser of 50% of this amount or $1.5 million is retained by BCBSND for the July 1, 2013 through June 30, 2015 biennium. The remainder equals Refund paid to NDPERS. The maximum retained by BCBSND for the biennium is 50% of $3.0 million of gain.

DRAFT

12. If 1+2-3-4-5-6-7-8-9-10 of 7.3 is negative, the lesser of 50% of this amount or $3.0 million will be refunded by NDPERS to BCBSND. BCBSND retains all losses beyond $6.0 million and any estimated gains previously distributed to NDPERS are subject to refund back to BCBSND based on this final settlement. The maximum loss NDPERS is subject to is 50% of $6.0 million of loss.

The language in red was filed with the Insurance Department 6-2-14 Still waiting for approval.7-8-14

7.4 Within 31 days of 12 months after the end of the biennium (by July 31, 2016), BCBSND will provide an accounting of PPACA fees. This adjustment is in addition to the settlement calculated in 7.2. The calculation will be as follows:

1. Estimated PPACA fees paid by NDPERS during the biennium ($21.54 per Non-Medicare contract per month)

2. Less actual PPACA fees paid by BCBSND for the biennium including:

   a. Patient Centered Outcomes Research Tax will be calculated based on actual average Non-Medicare Members at the rate of $2.00 per Member per year for July 1, 2013 through June 30, 2014, and the updated amount for the following year (unknown at this time) for July 1, 2014 through June 30, 2015.

   b. Transitional Reinsurance Assessment will be calculated based on actual average Non-Medicare Members at the rate of $5.25 per Member per month ($63.00 annual) for January 1, 2014 through December 31, 2014, and $3.67 per Member per month ($44.00 annual) for January 1, 2015 through June 30, 2015.

   c. Health Insurer Tax will be calculated using NDPERS' portion of the premium used to calculate the bill from the Federal Government, grossed up by 20% for Federal Income Tax. The 2014 bill is based on 2013 premium. The 2015 bill is based on 2014 premium, and only half of that amount will be charged to NDPERS since this biennium ends June 30, 2015. (Illustrative Example for 2014 payment: Assume BCBSND receives a $10 million HIT tax bill in 2014 that is based on $1 billion of 2013 premium. If NDPERS contributed $200 million to the $1 billion of 2013 premium, then NDPERS would be charged 20% of $12 million – the $10 million HIT tax bill grossed up by 20% for Federal Tax. The same approach would be taken for 2015 except that only half of the amount would be used to account for half of the year.)

3. If 1-2 of 7.4 is positive, the remainder equals Refund paid to NDPERS. If 1-2 of 7.4 is negative, the remainder will be refunded by NDPERS to BCBSND.

4. The parties agree that the above identified PPACA fees are subject to modification by the respective federal agencies at any time. If the PPACA fees are so modified, the modifications shall automatically be incorporated into this Agreement without further action by the parties.

8. TERM AND TERMINATION OF AGREEMENT

8.1 The term of this Agreement shall be for a two year period from July 1, 2015~~3~~ through June 30, 2017~~5~~.

8.2 This Agreement may be terminated by mutual agreement of both parties, upon 60 days notice, in writing.

DRAFT

Either party may terminate this Agreement effective 90 days following delivery of written notice to the other party, or at such later date as may be stated in the notice, under any of the following conditions:

a. If funding from federal, state or other sources is not obtained and continued at levels sufficient to allow for purchase of the services or supplies in the indicated quantities or term. The Agreement may be modified by agreement of the parties in writing to accommodate a reduction of funds.

b. If federal or state laws, rules or regulations are modified, changed or interpreted in such a way that the services are no longer allowable or appropriate for purchase under this Agreement or are no longer eligible for the funding proposed for payments authorized by this Agreement.

c. If any license, permit or certificate required by law, rule or regulation, or by the terms of this Agreement, is for any reason denied, revoked, suspended or not renewed.

Any such termination of this Agreement shall be without prejudice to any obligations or liabilities of either party already accrued prior to such termination.

d. In the event of a breach by either party, other than for nonpayment of premium, the other party may terminate this Agreement by written notice to the breaching party. The breaching party has 31 days to fully cure the breach. If the breach is not cured within 31 days after written notice, this Agreement will immediately terminate.

9. PROVIDER NETWORK DISCOUNT ~~INTER-PLAN~~ PROGRAMS

SHP~~BCBSND~~ has a variety of relationships with regional and national PPO discount ~~other Blue Cross and/or Blue Shield Licensees referred to generally as "Inter-Plan~~ Programs~~"~~ Whenever a Member accesses health care services outside the geographic area SHP~~BCBSND~~ serves, the claim for those services may be processed through one of these discount ~~Inter-Plan~~ Programs and presented to BCBSND for payment in accordance with the rules of the ~~Inter-Plan~~ discount p~~P~~rograms policies then in effect. The discount ~~Inter-Plan~~ p~~P~~rograms available to Members under this Agreement are described generally below.

Typically when accessing care outside the SHP ~~BCBSND~~ service area, a Member will obtain care from health care providers that have a contractual agreement (i.e., "participating agreement") with the discount program~~local Blue Cross and/or Blue Shield Licensee in that other geographic area ("Host Blue")~~. In some instances, a Member may obtain care from health care providers who have not entered into a "participating agreement" with SHP directly~~a Host Blue~~. SHP~~BCBSND~~ payment practices in both instances are described below.

A. Regional and National Network Discount ~~BlueCard®~~ Program

~~Under the BlueCard Program, w~~When Members access health care services outside ~~within~~ the geographic area served by SHP, SHP ~~a Host Blue, BCBSND will remain responsible to the Group for fulfilling BCBSND's contractual obligations. However, in accordance with applicable Inter-Plan Programs policies then in effect, the Host Blue will be responsible for providing such services as contracting and~~ will adjudicate claims ~~handling substantially all interactions~~ with the health care providers who have entered into a "participating agreement" with anyone of SHP's discount network programs~~it~~ (participating health care providers). The financial terms of the Regional or National Network Discount~~BlueCard~~ Program are described generally below. Individual circumstances may arise that are not directly covered by this description; however, in those instances, SHP~~BCBSND~~'s action will be consistent with the spirit of this description.

DRAFT

Liability Calculation Method Per Claim - The calculation of Member liability on claims for Covered Services processed through the Regional or National Network DiscountBlueCard Program will be based on the lower of the billed charges of the Host Blue's participating health care provider or the negotiated price made available to SHPBCBSND by the Regional or National Network Discount programHost Blue.

The Regional or National Network discount programHost Blues may use various methods to determine a negotiated price, depending on the terms of each Host Blue's health care provider contracts. The negotiated price made available to SHPBCBSND by the Host Blue may represents a payment negotiated by a Regional or National Network discount program Host Blue with a health care provider that is the difference between the applicable contract rate and the participating provider's billed charges.one of the following:

1. \the actual price. An actual price is a negotiated payment without any other increases or decreases; or

2. an estimated price. An estimated price is a negotiated payment reduced or increased by a percentage to take into account certain payments negotiated with the provider and other claim- and non-claim-related transactions. Such transactions may include, but are not limited to, anti-fraud and abuse recoveries, provider refunds not applied on a claim-specific basis, retrospective settlements, and performance-related bonuses or incentives; or

3. an average price. An average price is a percentage of billed covered charges representing the aggregate payments negotiated by the Host Blue with all of its health care providers or a similar classification of its providers and other claim- and non-claim-related transactions. Such transactions may include the same ones as noted above for an estimated price.

Host Blues using either an estimated price or an average price may, in accordance with Inter-Plan Programs policies, prospectively increase or reduce such prices to correct for over- or underestimation of past prices (i.e., prospective adjustments may mean that a current price reflects additional amounts or credits for claims already paid to providers or anticipated to be paid to or received from providers). However, Tthe amount paid by the Member is a final price; no future price adjustment will result in increases or decreases to the pricing of past claims. The BlueCard Program requires that the price submitted by a Host Blue to BCBSND is a final price irrespective of any future adjustments based on the use of estimated or average pricing.

A small number of states require a Host Blue either (i) to use a basis for determining Member liability for Covered Services that does not reflect the entire savings realized, or expected to be realized, on a particular claim or (ii) to add a surcharge. Should the state in which health care services are accessed mandate liability calculation methods that differ from the negotiated price methodology or require a surcharge, SHP BCBSND would then calculate the Member's liability in accordance with applicable law.

Return of Overpayments - Under the BlueCard Program, recoveries from a Host Blue or from participating health care providers of a Host Blue can arise in several ways, including, but not limited to, anti-fraud and abuse recoveries, provider/hospital audits, credit balance audits, utilization review refunds, and unsolicited refunds. In some cases, SHPthe Host Blue will engage third parties to assist in discovery or collection of recovery amounts. The fees of such a third party may be netted against the recovery. Recovery amounts determined in this way will be applied in accordance with applicable SHP Inter-Plan Programs policies, which generally require correction on a claim-by-claim or prospective basis.

DRAFT

B. **Nonparticipating Providers Outside the SHP~~BCBSND~~ Service Area**

When Covered Services are provided outside of SHP's~~BCBSND's~~ service area by health care providers who have not entered into a "participating agreement" with SHP ~~a Host Blue~~ (nonparticipating health care providers), the amount the Member pays for such services will ~~generally~~ be based on ~~either~~ SHP's ~~the Host Blue's nonparticipating health care provider local~~ maximum allowed amount, which is the lesser of (a) the amount charged for a covered service or supply, or (b) reasonable costs as established by SHP. Members are responsible for any difference between the amount charged and SHP's payment for covered services. ~~payment or the pricing arrangements required by applicable state law. In these situations, the Member may be liable for the difference between the amount that the nonparticipating health care provider bills and the payment BCBSND will make for the Covered Services as set forth in this paragraph.~~

In certain situations, SHP~~BCBSND~~ may pay claims based on the payment SHP~~BCBSND~~ would make if the Covered Services had been obtained within the SHP~~BCBSND~~ service area. Such situations include where a Member did not have reasonable access to a participating health care provider, as determined by SHP~~BCBSND~~ in its sole and absolute discretion or by applicable state law. ~~In other situations, BCBSND may pay such a claim based on the payment BCBSND would make if BCBSND were paying a nonparticipating health care provider inside of BCBSND's service area (as described in the Member's Certificate of Insurance) where the Host Blue's corresponding payment would be more than BCBSND's payment to a nonparticipating health care provider within the BCBSND service area. BCBSND~~SHP may also in its sole and absolute discretion, negotiate a payment with such a health care provider on an exception basis. In any of these situations, the Member may be responsible for the difference between the amount that the nonparticipating health care provider bills and payment SHP~~BCBSND~~ will make for the Covered Services as set forth in this paragraph.

10. RETROSPECTIVE DISCOUNT PAYMENT

Regarding prescription medications or drugs purchased by Members under the terms of the Plan, BCBSND will pay the amount due to the pharmacy (or other prescription drug retailer) under the terms of the pharmacy provider participating agreement. The amount due to the pharmacy under the terms of the pharmacy provider participating agreement is that which is due at the time the prescription medication or drug is purchased by the Member. The amount due to the pharmacy under the pharmacy provider participating agreement is calculated without regard to any subsequent, retrospective manufacturer discount that may apply to the cost of the prescription medication or drug. The Plan Administrator acknowledges and agrees that, in some cases but not all, drug manufacturers may offer retrospective discounts to BCBSND on prescription medications and drugs purchased under the terms of the Plan. If a drug manufacturer makes a retrospective discount payment available, the Plan Administrator acknowledges and agrees that a portion of any such rebate may be retained by an entity that performs manufacturer discount program services on behalf of BCBSND under the terms of this Agreement. The Plan Administrator further acknowledges and agrees that, when made available by the drug manufacturer, another portion of the retrospective discount payment is retained by BCBSND. In its sole discretion, BCBSND may periodically refund to the Plan all or part of any rebate payments received. The calculation of any refund rests in the sole discretion of BCBSND.

In its sole discretion, and only in the case where a Member is required to pay Coinsurance as part of the Cost Sharing Amounts for each Prescription Medication and Drug provided under the terms of this Benefit Plan, BCBSND may periodically refund to Members a proportional amount of any retrospective discount payments received. The calculation and payment of any such

DRAFT

proportional refund rests in the sole discretion of BCBSND. The manner in which such retrospective discount program payment refund, if any, is distributed to a Member rests in the sole discretion of BCBSND. The Member waives any right, title, or interest in and to such proportional retrospective discount payment once the Member is no longer eligible for benefits under the terms of this Benefit Plan, and BCBSND may use its discretion and disburse any such retrospective discount payments as it deems appropriate and necessary in its administration of this Benefit Plan. The Member shall pay all Cost Sharing Amounts at the time the Prescription Medication or Drug is purchased, without regard to any potential retrospective discount.

11. **GENERAL PROVISIONS:**

11.1 This Agreement is between NDPERS and BCBSND and does not create any rights or legal relationships between BCBSND and any Member(s).

11.2 This Agreement, together with the Response to the Request for Proposal and any exhibits, attachments and amendments constitutes the entire Agreement between the parties. No promises, terms, conditions or obligations other than those contained in this Agreement are valid or binding. Any prior agreements, statements, promises, negotiations, inducements or representations, either oral or written, made by either party or agent of either party that are not contained in this Agreement are of no effect. No modification of the terms or provisions of this Agreement shall be effective unless evidenced by a written amendment, signed by an authorized officer or employee of NDPERS and BCBSND.

11.3 This Agreement shall be governed by and construed according to the laws of the state of North Dakota.

11.4 Failure of either party at any time to require performance by the other party of any provision of this Agreement shall not be deemed to be a continuing waiver of that provision or a waiver of any other provision of this Agreement.

11.5 No assignment of this Agreement in whole or in part may be made by either party without written agreement approved by both parties.

11.6 All notices and correspondence required or permitted to be given under this Agreement shall be given by personal delivery to the other party or may be sent by mail, postage prepaid to the other party at the following addresses:

NORTH DAKOTA PUBLIC EMPLOYEES
RETIREMENT SYSTEM
PO Box 1657
Bismarck, North Dakota 58502

BLUE CROSS BLUE SHIELD
OF NORTH DAKOTA
4510 13th Avenue South
Fargo, North Dakota 58121

11.7 Neither party shall be liable for any delay in or failure to perform under this Agreement due to an act of God or due to war mobilization, insurrection, rebellion, civil commotion, riot, act of an extremist or public enemy, sabotage, labor dispute, explosion, fire, flood, storm, accident, drought, equipment failure, power failure, fuel or energy shortages, unavoidable delay of carriers, embargo, law, ordinance, act, rule or regulation of any government, whether valid or invalid.

DRAFT

11.8 NDPERS hereby expressly acknowledges and understands that BCBSND is an independent corporation operating under a license with the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans (the "Association"), permitting BCBSND to use the Blue Cross and Blue Shield Service Marks in the state of North Dakota, and that BCBSND is not contracting as an agent of the Association. NDPERS further acknowledges and agrees this Agreement was not entered into based upon representations by any person or entity other than BCBSND and that no person, entity, or organization other than BCBSND shall be held accountable or liable to NDPERS for any of BCBSND's obligations to NDPERS created under this Agreement. This paragraph shall not create any additional obligations whatsoever on the part of BCBSND other than those obligations created under other provisions of this Agreement.

11.9 If NDPERS or BCBSND creates benefit communications for Members, relating to the Certificate of Insurance attached as Exhibit A, such communications will be sent to BCBSND or NDPERS for comment prior to distribution. Either party will have 5 business days to comment on the communication. If one party fails to advise the other within that 5-day period, it will be presumed there are no comments on the communication. If NDPERS has a digital or online version of the Certificate of Insurance available to its Members, NDPERS agrees that it will not alter, modify or change the language of the Certificate of Insurance, and further agrees the Certificate of Insurance, attached as Exhibit A, will be the controlling document in the event of any conflict or liability that might arise as the result of any alterations, modifications or changes made by NDPERS. In the event a claim is paid based on NDPERS's modified or altered digital or online Certificate of Insurance, NDPERS is liable for all such claims. NDPERS further agrees that no waiver of this agreement is valid unless in writing and approved by BCBSND.

11.10 BCBSND will prepare Summaries of Benefits and Coverage for distribution to applicants and Members by NDPERS so that BCBSND, the Plan and NDPERS may all satisfy related disclosure obligations under federal law. It shall be the sole responsibility of NDPERS to distribute the Summaries of Benefits and Coverage in accordance with federal law, and the Plan Administrator acknowledges and agrees that BCBSND will rely upon NDPERS for compliance with the requirements for distribution of the Summaries of Benefits and Coverage to applicants and Members.

11.11 When coverage under this Agreement is terminated, BCBSND will, within a reasonable period of time, issue a Certificate of Creditable Coverage to the Subscriber until such time when the certificate is not required under state and/or federal law. Upon notification by the Subscriber of the ineligibility of a dependent, a Certificate of Creditable Coverage will be issued to the affected Member within a reasonable period of time. Certificates of Creditable Coverage may also be obtained from BCBSND upon request within 24 months after coverage is terminated. Certificates of Creditable Coverage will only reflect continuous coverage provided through BCBSND.

11.12 Upon the effective date of any final regulation or amendment to final regulations with respect to PHI, Standard Transactions, the security of health information or other aspects of the Health Insurance Portability and Accountability Act of 1996 applicable to this Agreement, this Agreement will automatically amend such that the obligations imposed on the Plan Sponsor, the Plan Administrator and BCBSND remain in compliance with such regulations, unless BCBSND elects to terminate this Agreement by providing the Plan Sponsor and the Plan Administrator notice of termination in accordance with this Agreement at least thirty-one (31) days before the effective date of such final regulation or amendment to final regulations.

DRAFT

12. **DISPUTES AND INDEMNIFICATION**

If litigation is filed regarding denial of benefits or otherwise, and BCBSND is named as the sole defendant, BCBSND will have the right to manage and have full control of litigation and to determine whether to pay, compromise, litigate or appeal the litigation. Except as otherwise provided in this Agreement, NDPERS and BCBSND each agree to assume their own liability for any and all legal or equitable claims of any nature including all costs, expenses and attorneys' fees which may in any manner result from or arise out of this Agreement.

NDPERS agrees that all Retrospective Discount Payments will be made to Members of the Plan. BCBSND agrees to indemnify NDPERS for any judgments against NDPERS solely arising out of NDPERS' decision to participate in the Retrospective Discount Payment program.

BCBSND shall secure and keep in force during the term of this Agreement, from insurance companies, government self-insurance pools or government self-retention funds, authorized to do business in North Dakota, the following insurance coverages:

1. Commercial general liability, including premises or operations, contractual, and products or completed operations coverages (if applicable), with minimum liability limits of $250,000 per person and $1,000,000 per occurrence.

2. Professional errors and omissions with minimum liability limits of $1,000,000 per occurrence and in the aggregate, BCBSND shall continuously maintain such coverage during the term of the Agreement and for three years thereafter. In the event of a change or cancellation of such coverage, BCBSND shall purchase an extended reporting period to meet the time periods required in this section.

3. Automobile liability, including Owned (if any), Hired, and Non-Owned automobiles, with minimum liability limits of $250,000 per person and $500,000 per occurrence.

4. Workers compensation coverage meeting all statutory requirements.

The insurance coverages listed above must meet the following additional requirements:

1. Any deductible or self-insured retention amount or other similar obligation under the policies shall be the sole responsibility of BCBSND. The amount of any deductible or self retention is subject to approval by NDPERS, upon request.

2. This insurance may be in policy or policies of insurance, primary and excess, including the so-called umbrella or catastrophe form and must be placed with insurers rated “A-” or better by A.M. Best Company, Inc., provided any excess policy follows form for coverage. Less than an “A-” rating must be approved by NDPERS. The policies shall be in form and terms approved by NDPERS, upon request.

3. BCBSND shall furnish a certificate of insurance to the undersigned NDPERS representative, upon request.

4. Failure to provide insurance as required in this Agreement is a material breach of contract entitling NDPERS to terminate this Agreement immediately.

BCBSND shall not cancel or modify the insurance coverage required by this Agreement without thirty (30) days’ prior written notice to the undersigned NDPERS representative.

DRAFT

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed, in their names by their undersigned officers, the same being duly authorized to do so.

SANFORD HEALTH PLAN

Questionnaire

Organizational Background, Strength, and Experience

1. **Provide a brief description of your organization, including your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).**

   In 1996, Sioux Valley Hospitals & Health System formulated a corporate response to the changing health care marketplace, the rapid growth in the number of managed care service organizations, and the need to meet the coverage requirements of Medicare-eligible persons residing with the organization's tri-state service area. A panel of health care professionals was thus assembled and charged with the responsibility of researching, designing, and developing the requisite infrastructure for an outcomes-based health maintenance organization that would be recognized in the local marketplace and associated with quality health care. The result was the formulation of Sioux Valley Health Plan.

   In March 2007, Sioux Valley Health Plan changed its name to Sanford Health Plan as a result of a generous gift of $400 Million to Sioux Valley Hospital & Health System from South Dakota businessman, Denny T. Sanford. Subsequently, the Sioux Valley Board of Trustees unanimously voted to re-name the healthcare system "Sanford Health" and Sioux Valley Health Plan was also renamed "Sanford Health Plan."

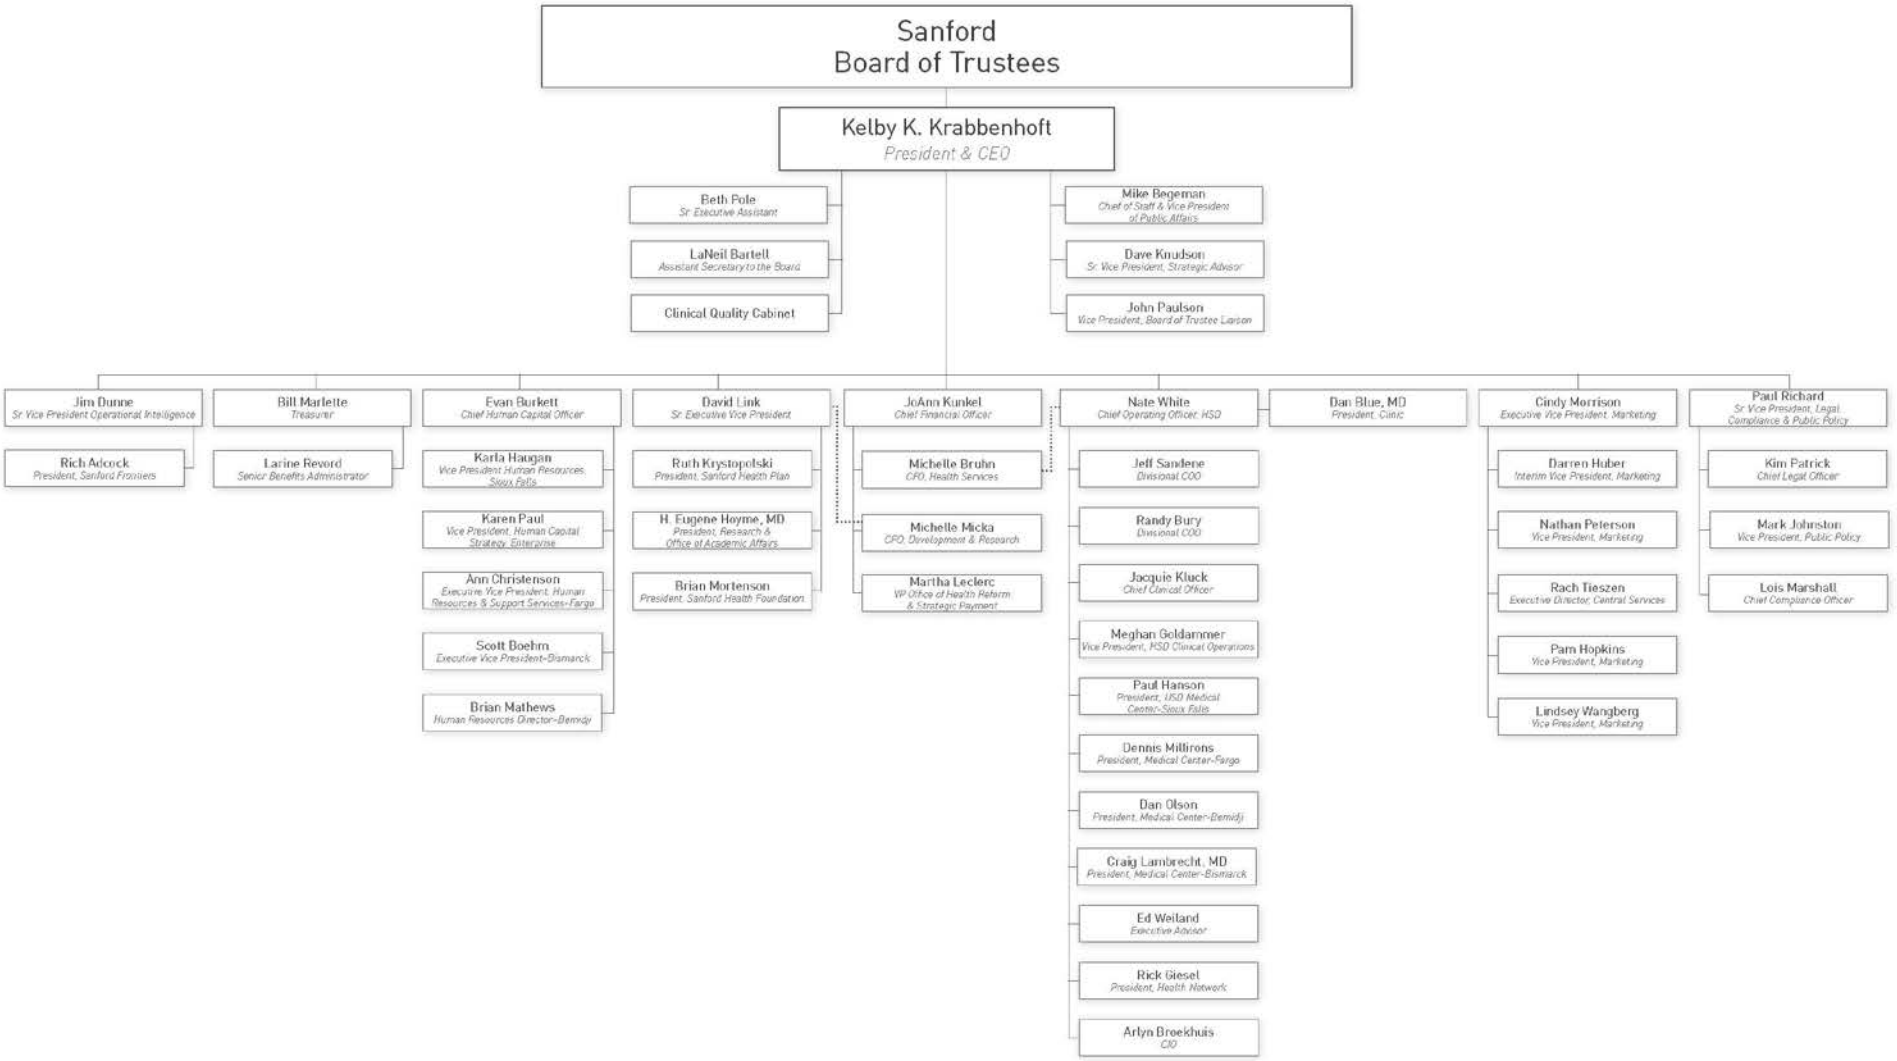
   Sanford Health Plan is a not-for-profit, community-based HMO that began operations in South Dakota on January 1, 1998. Managed care services are provided to large and small groups in South Dakota, North Dakota and Iowa by Sanford Health Plan and in Minnesota by Sanford Health Plan of Minnesota which is a subsidiary of Sanford Health Plan. Sanford Health Plan was designed to align physicians and hospitals, establish a framework for providers to efficiently manage the delivery of health care services, and operate on the strength of affordable premiums.

   Central to the design of Sanford Health Plan is a collaborative effort between Sanford Health, contracting providers, and member representatives of service area communities. Each of these elements offers unique perspectives, and acknowledgment that health care resources are finite. Accordingly, maintenance of the Plan's financial viability is based upon the application of sound, balanced, and efficient healthcare practices. Sanford Health Plan is authorized to offer three core products. These products are described as follows:

   1. Integrated Delivery Network (IDN) - A non-risk bearing product in which enrollees may access any network physician and receive the same level of benefit. Extensive care management services are available to enrollees.
   2. Point Of Service (POS) - A risk-bearing product in which enrollees choose at each medical encounter whether to seek care from in-network or out-of-network providers. Financial incentives are offered to enrollees selecting in-network providers through increased benefit levels.

3. Health Maintenance Organization (HMO) - A risk-bearing product that provides enrollees with benefits only when in-network providers are utilized. Extensive care management services are available to enrollees.

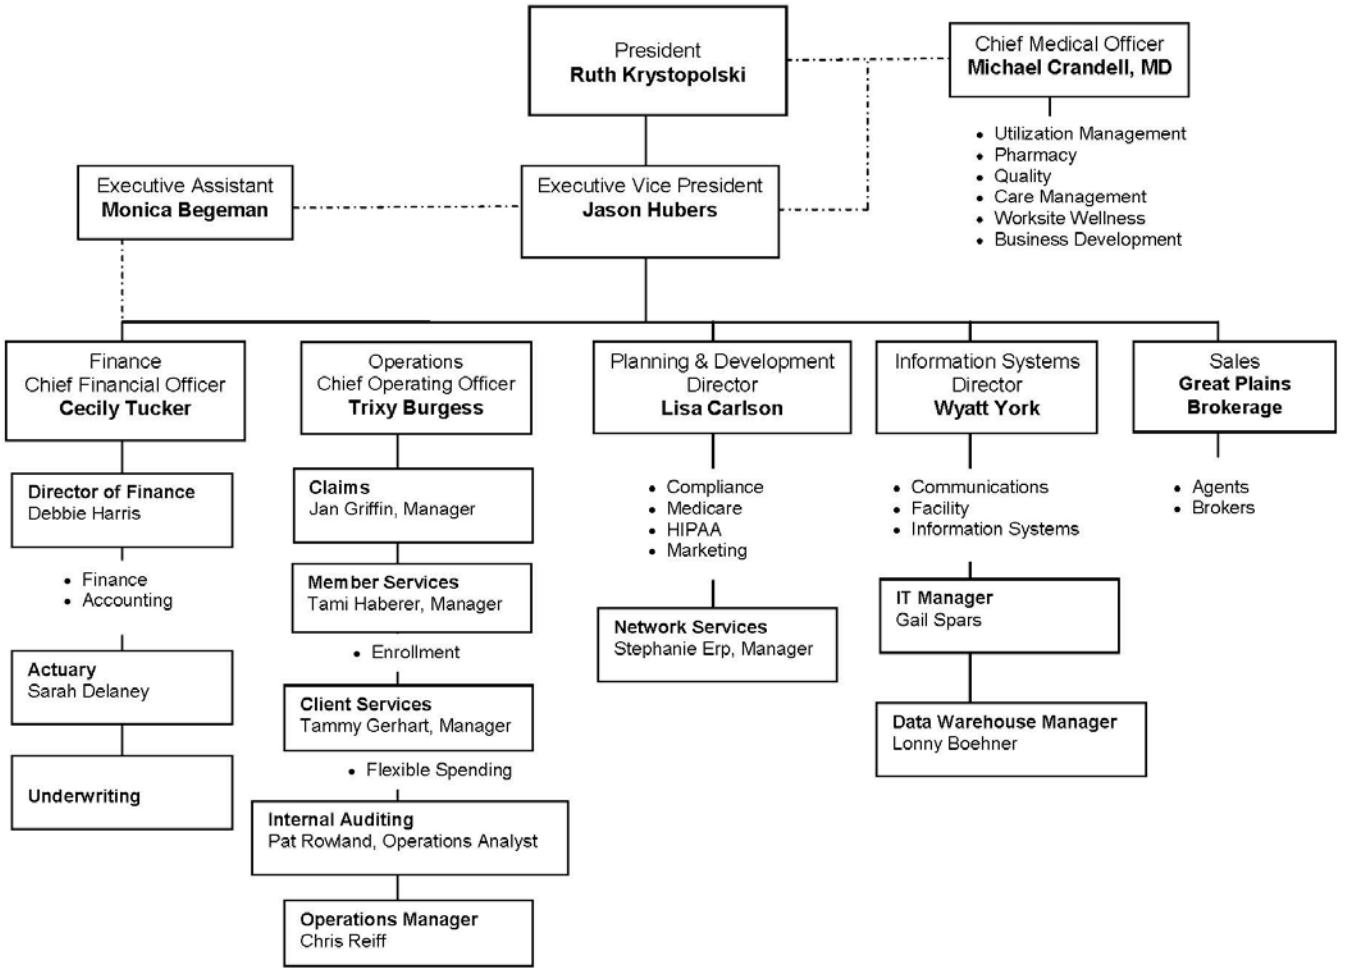
Sanford Health Plan was granted its Certificates of Authority in 1998 by South Dakota, Iowa and Minnesota and North Dakota in September 2009. All health plan operations occur at its corporate office in Sioux Falls, South Dakota. The next two organizational charts illustrate Sanford Health and Sanford Health Plan.



100-11000-0099 7/16/13

SANFORD HEALTH

Sanford Health Plan



02.2013

Sanford Health Plan offers the follow products:

- Third Party Administration (TPA) services since 1998
- Federal Employee Health Benefit Plan (FEHB) in South Dakota and Iowa since 2002
- Section 125 Plans since 2003
- Medicare Supplement Plans and Sanford SELECT Plans (distinguished by a limited network of hospital and ambulatory surgery centers in concert with competitive premiums) in South Dakota since 2003; Iowa and Minnesota since 2004; and North Dakota since 2010
- HSA-Qualified High Deductible Health Plans since January 2005
- Individual Plans marketed as Sanford "elite1" in South Dakota since 2008 and since 2010 in North Dakota
- Marketplace Insurance Exchange products since January 1, 2014 in Iowa, North Dakota and South Dakota.

Sanford Health Plan has no equity partners. No outstanding stock exists and no dividends are distributed. Premium revenue is utilized solely on behalf of Plan members according to Internal Revenue Service requirements. Additionally, Sanford Health Plan is the second largest carrier in the state of South Dakota.

2. Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.

First PREMIER Bank Address & Contact Information:

First PREMIER Bank

PO Box 1348
Sioux Falls, SD 57101-1348

Contact –
Lisa Wehrkamp, Business Banking Assistant
Business: 605.357.3027

Auditor Address and Contact Information:

Deloitte & Touche LLP
50 South Sixth Street
Suite 2800
Minneapolis, MN 55402-1538

Additionally, please refer to the following attachments:

- Attachment A – Sanford Health Plan, Audited Financial Exam Report

Sanford Health Plan does not have a statement of creditworthiness.

3. **Provide a copy of any State or Federal regulatory audit performed within the last two years.**
   Please refer to the following attachments:
   - Attachment B – Sanford Health Plan, South Dakota DOI Exam Report

4. **Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the proposed sample contract/ASA.**

   Sanford Health Plan agrees to be accountable for all services as submitted as part of this proposal, even if not specifically addressed in the attached sample Administrative Service Agreement.

5. **Indicate whether your company has ever been or is currently a party to litigation regarding a medical benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.**

   Sanford Health Plan has been involved in only one legal action. Sanford Health Plan (formerly known as Sioux Valley Health Plan) was named as the Defendant in a Civil Action on April 29, 2004 for a South Dakota resident who was a health plan Member in an employee welfare benefit plan governed by ERISA. The Member elected COBRA, however, the initial premium was not paid within the 45 day grace period and the Member was consequently terminated. Claims incurred after the date of termination were denied. The 8th circuit court found in favor of Sioux Valley Health Plan.

6. **State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.**

   None of Sanford Health Plan's executive management as listed in Section 1 above has been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked.

7. **Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.**

   Sanford Health Plan is committed to adapt to the Accountable Care Act both in the immediate 12-24 months and in the long term over the next 3 to 5 years.

   Our membership goal is to attain an annual growth of 5% in overall membership

   Cost Containment continues to be at the forefront of all our strategic initiatives. We are committed to furthering the integration with the Sanford Health Services Division by leveraging opportunities to jointly share information and impact the health of our members who are patients. This will be accomplished by:

- Integration between care management and patient centered medical home teams;
- Integrating data from applications, health risk assessment and screenings with medical homes in the clinics;
- Alignment of disease management programs with medical homes; and
- Continued promotion of and integration with Occupational Medicine and wellness activities.

8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?

Sanford Health Plan is excited to have the opportunity to further our relationship with the state of North Dakota. We understand the challenges faced by our clients with regards to the cost of healthcare, utilization of service, and an understanding the value of preventive care benefits. As a part of a fully-integrated health delivery system who is also our largest self-funded client (Sanford Health), we are currently held to a level of complete accountability through provider network contracting arrangements and our health plan management.

Currently, 57% of our enrolled business exists in risk-based HMO products. This composition compels us to be diligent about cost savings, utilization, and population management versus traditional TPA services whose focus is to process claims with little to no accountability. As a result of our structure, Sanford Health Plan incorporates its population management techniques and focus on value of services delivered into the daily process provided to all our clients regardless of where risk resides.

We commit to complete transparency of data and full reporting capabilities as well as local decision-making authority and control. Our intent is to ensure that the state of North Dakota has the information that is needed to manage one of its' largest expenses. Our focus is always to be a partner in managing our client's health care dollars while continuing to raise the bar on overall quality of care. Presently, Sanford Health Plan's "Commendable" certification by the National Committee for Quality Assurance illustrates our commitment to quality care.

Sanford understands and commits to PERS a partnership that will accomplish the following goals:

1. Manage healthcare costs to maintain affordable premiums for you and your employees;
2. Provide full data transparency and analysis of utilization, quality of care, cost efficiency, and comparative provider cost and utilization data;
3. Develop and deliver information in formats that are useful in planning and decision making;
4. Educate and inform your employees to become engaged healthcare consumers
5. Prompt and accurate claims processing;
6. Identify and implement innovative programs to address costs and quality of care provided;
7. Superior customer service; and
8. Web-based tools that assist in eligibility, benefit experience review, and claims management services available to staff and employees.

In addition, Sanford would like to take this opportunity to communicate additional services we are able to offer. Sanford, in the entirety of the Health System, extends the invitation to create a partnership that will result in greater hands-on care for your employees, while at the same time increasing your cost savings for services at the Sanford provider level. Our goal would be to develop a medical home shared risk structure for the Bismarck and Fargo marketplace that would be identified and agreed upon by July 1, 2015. Additionally, we would contract for services that PERS would desire to have outside of the risk arrangement.

We currently envision this arrangement to come in the form of a fully-capitated or Episode of Care model. We would also like to jointly develop targets across disease states or processes that are important to the North Dakota population and are willing to accept an incentive based payment structure structured around these targets. Our goal would be to build a model, including all required infrastructure (reporting templates and contracting templates) in all of Sanford's applicable locations. For example, our combined relationships in North Dakota communities would allow our potential partnership to expand geographically and provide mutually beneficial results as we define and work towards common goals.

Our current payment system is extremely flexible and we are able to run multiple fee schedules for different product lines simultaneously. These fee schedules can also tie reimbursement models to quality/protocol targets as well. Additionally, we can build withholds or risk based payments based on specific criteria and apply to different payment methodologies. We welcome the opportunity to work with the State on this innovative and progressive partnership model.

Sanford Health Plan commits to an arrangement to help your organization meet its objectives with regards to quality healthcare and cost containment. Our goal will be to provide expert services that enable the PERS to focus on the overall improvement of the health of your employee population and strategic business planning and development.

9. Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.

Quality Customer Service

Sanford Health Plan ensures quality customer service by tracking member-to-staff ratios, call logs, and quality measures. The Claims department and Member Services department are physically located within close proximity to each other to facilitate efficient workflow and communication to address and resolve questions as quickly as possible. All Member Service and Claims representatives rely on the same claims payment system to view benefits. Representatives can also simultaneously view the member's online myHealthPlan account information to address and discuss exactly what the member is seeing online.

Sanford Health Plan evaluates phone call statistics and staffing needs for the Member Services Department to ensure members have timely access to customer service.

All claims and customer service calls are received at a central location conducive to open, inter-department communications in order to resolve inquiries in a timely manner.

Call centers are not outsourced to external (or international) companies not familiar with health plan operations and the details of plan design and claims payment processes.

Additionally, all calls are always answered by a live person during normal business hours. Calls are not sent to voicemail if the call queue is busy, nor do callers ever receive a busy signal. Callers are not required to dial in their member ID numbers or any other information prior to a call being answered; all member information is collected by the receiving Member Service representative to create a personal and courteous experience.

Performance Standards

All Member Service phone calls and emails are logged and recorded. Call center statistics show number of calls answered, calls made, voicemails and abandoned calls. It also shows the answer speed of calls and the rate of abandonment and voicemails. Call answer timeliness is the percentage of calls received by the Plan's member services call center (during operating hours) that were answered by a live voice within 30 seconds.

The call abandonment rate is the percentage of calls received by the Plan's member service call center that were abandoned by the caller before being answered by a live voice. These statistics are measured monthly and used by the Quality Committee on a quarterly basis to determine opportunities for improvement.

Finally, Sanford Health Plan conducts annual consumer satisfaction surveys rating the health plan on customer service and claims processing.

Additionally, performance guarantees are tied to ensure Average Speed of Answer will be 30 seconds or less and the abandoned rate will be 5% or less.

Below is a list of Sanford Health Plan vendors and contractors.

Vendors	Service/Activity Provided	Location	Length of Relationship
AAA Collections	Collections Agency	Sioux Falls, SD	12 years
GHI Medicare	Medicare COB Crossover	Louisville, KY	9 years
Optum (formerly known as Ingenix)	Subrogation - Claims Savings & Recovery	Green Bay, WI	11 years
Advanced Business Fulfillment	Outbound mail service agreement	St. Louis, MO	9 years
AIM HealthCare Services, Inc.	Pre-payment Claim Validation	Franklin, TN	4 years
Decision Support Systems, Inc.	Physician Satisfaction Research Services	Fort Worth, TX	11 years
Express Scripts, Inc.	Pharmacy Benefit Claims Processing	Maryland Heights, MD	14 years

Great Plains Brokerage	Sales & Marketing	Sioux Falls, SD	16 years
Language Line® Certified Medical Interpreting Service	Interpretation Services	Monterey, CA	8 years

Medwork of Wisconsin, Inc.	Independent Medical Review Organization	Eau Claire, WI	3 years
IPRO	Independent Medical Review Organization	Lake Success, NY	3 years

Additionally, Sanford Health Plan contracts with the following Network Repricing vendors to ensure adequate access and availability for our Membership nationwide.

SANFORD HEALTH PLAN

10. What ratings have you received from the following third party rating companies and organizations?

Sanford Health Plan is a wholly owned subsidiary of Sanford Health, an integrated healthcare delivery system with $2.3 billion in operating revenue for 2011. Sanford Health has an A1 Moody's bond rating and AA- Standard & Poors rating.

Rating Organization	Rating	Date of Last Accreditation / Rating
A.M. Best	NA	
Standard & Poor's	NA	
Moody's	NA	
NCQA (by product)	HMO - Commendable	11/15/16
JCAHO	NA	
URAC	NA	
American HealthCare Commission	NA	

11. What fidelity and surety insurance or bond coverage do you carry to protect your clients? Specifically describe the type and amount of the fidelity bond insuring your employees that would protect this plan in the event of a loss. Do you agree to furnish a copy of all such policies for review by legal counsel if requested?

Sanford Health Plan maintains a Fiduciary Liability Insurance with an aggregate limit of $15M and a $50,000 Deductible and a Managed Care Errors & Omissions Policy with a $5M aggregate limit and a $100,000 per claim limit. We wil furnish copies of these policies upon request.

12. Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.

All business is conducted inside the United States.

13. Confirm that your proposal includes any and all deviations to the sample ASA (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).

Please refer to Exhibits F1, F2 and F3 under separate cover with this proposal.

SANFORD HEALTH PLAN

14. Confirm that you will to the best of your ability conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with.

Sanford Health Plan currently coordinates regulatory compliance not only federally but within the four state areas of Iowa, Minnesota, North Dakota and South Dakota. Regulatory monitoring and compliance at the health plan is coordinated by the Director of Planning & Regulation, the Associate Actuary and two Policy Analysts. Additionally the health plan tracks legislation at the federal level jointly with the health system's Office of Public Policy which includes the Vice President of Health Policy and three Policy Analysts. Sanford Health Plan is a member of AHIP, the Minnesota Council of Health Plans, and the Iowa Federation of Insurers.

Sanford Health Plan successfully transitioned non-group and fully insured small-group plans (except grandfathered plans) to ACA-compliant plans inclusive of the required essential health benefits (EHB) package.

Sanford Health Plan also allowed members and group clients to renew existing individual market and small group market plans even if they do not include the full menu of required health care reform benefits pursuant to the Department of Health and Human Services (DHHS) "Transitional Policy."

Under the transition policy, Sanford Health Plan chose to extend individual market and small group market policies that were in effect on October 1, 2013 without amending the policies to meet all ACA standards. The transition policy does not apply to individuals or small businesses that obtain new coverage after October 1, 2013. The transition policy applies to renewals of existing business occurring from January 1, 2014 until October 1, 2014. HHS indicated that it will re-evaluate this policy in 2014 and could extend it to additional renewal months.

As required, Sanford Health Plan provided notification to its enrollees the following:

- The options available to them;
- Which of the specified ACA market reforms would not be reflected in any coverage that continues;
- Their potential right to enroll in a qualified health plan offered through a Health Insurance Marketplace and possibly qualify for financial assistance;
- How to access such coverage through a Marketplace; and
- Their right to enroll in health insurance coverage outside of a Marketplace that complies with the specified market reforms.

Sanford Health Plan continues to track which policies are:

- Transitional policies (but not technically grandfathered);
- Grandfathered policies; and
- Non-Grandfathered policies.

As well as tracking policies that comply with certain ACA market reforms, including:

- The requirement to limit premium variations to age, tobacco use and geography
- Essential health benefits
- Actuarial value metal levels
- Restrictions on cost sharing
- Guaranteed availability of coverage
- Guaranteed renewability of coverage
- Non-discrimination against a provider operating within their scope of practice
- Non-discrimination in coverage for individuals participating in approved clinical trials
- Prohibition of pre-existing condition exclusions or waiting periods for adults (exclusion would not apply to small group)
- Prohibition on health status discrimination (exclusion would not apply to small group)

Through our flexible claims administration system we are able to administer the tiered benefits that have been complicated by the ACA.

Sanford Health Plan is committed to aid the state in finding balance to both strategic and financial factors when making decisions about offering coverage to their employees in the months and years to come in the post-reform market. Sanford Health Plan will guide NDPERS to implement additional provisions as required under the ACA including the following provisions that will affect NDPERS during the next biennium:

- Additional preventive care services with an “A” or “B” rating by the U.S. Preventive Services Task Force (USPSTF) including screening tests, counseling, immunizations, and preventive medications.
- Transitional Reinsurance Assessments 2014 – 2016
- Medical Loss Ratio Rebates
- Health Insurance Provider Fee
- Changes in essential health benefits or state mandates
- Tracking grandfathered status
- Non-Discrimination 105(h) Rules
- Employer Shared Responsibility Mandate and related information reporting requirements under IRC section 6056
- Patient-Centered Outcomes Research Institute Fee
- High Cost Insurance Excise Tax (2018)

References and Experience

15. **Provide the following information on a maximum of three (3) of your largest medical plan clients for whom you provide medical network, insurance, and administrative services. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client.**

    a. **Name of employer sponsoring plan and location**
    b. **Type of services provided to plan sponsor**
    c. **Plan inception date**
    d. **Length of time as client**
    e. **Number of contracts and members participating in the plan**
    f. **Contact information (name, title, phone number, email address)**

    Other than our own self-funded organization of Sanford Health (with 34,198 members), we do not have a similarly sized client to PERS to use for reference. Please accept the following references below:

    ND Department of Human Services
    Medicaid Expansion Program
    Effective: January 1, 2014
    Client for 8 months
    12,716 contracts / total members 12,716
    Maggie Anderson, Executive Director, (701) 328-2538 / manderson@nd.gov

    Joint Venture Group – South Dakota Schools Group Insurance Pool
    Fully insured client with Worksite Wellness
    Effective: July 1, 2000
    An average of 60 schools participating for 12 years
    2417 Contracts / 4011 Members
    Dean Christensen / (605) 874-2161 Ext. 204) / dean.christensen@k12.sd.us

16. **Provide the following information for two (2) of your largest medical plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.**

    a. **Name of employer sponsoring plan and location**
    b. **Type of services provided to plan sponsor**
    c. **Plan inception date**
    d. **Length of time as client**
    e. **Number of contracts and members participating in the plan**
    f. **Reason for termination**
    g. **Contact information (name, title, phone number, email address)**

    Please note that we have not had any of our large groups similar to the size of NDPERS terminate. We respectfully submit the following terminated references:

    Huron Regional Medical Center
    Fully insured client
    Effective: 01/01/07
    Participating for 5 years
    208 contracts / 429 members
    Terminated due to rates
    Rhonda Hanson, HR Director / (605) 353-6200 / rhanson@huronregional.org

Effective 01/01/2005 to 12/31/2008 – 4 years with SHP
Termination reason: Moved to Medica due to rates
Subscribers 303 / members 629

Implementation and Account Management

17. **Proposers must outline in detail the specific activities and tasks necessary to implement the NDPERS program. Be specific with regard to the following:**
    - **Amount of total time needed to effectively implement the program**
    - **Activities/tasks and corresponding timing**
    - **Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff**
    - **Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change**
    - **Length of time implementation team lead and members will be available to NDPERS**

    As a new carrier, Sanford Health Plan would need to begin implementation immediately after vendor selection. We would expect to hire new, Fargo-based staff that physically reside and work in at least the Fargo and Bismarck regions to start. Ideally Sanford Health Plan would prefer nine (9) months implementation time from Oct. 1st through June 30th.

    An account the size of the NDPERS will require dedicated resources throughout the implementation period. Therefore, we will provide the state with a number of dedicated resources from our Management Team. Upon the award of the contract, Sanford Health Plan will immediately hire a dedicated Director for NDPERS who will work closely with the management team to identify distinct responsibilities and ensure efficient task coordination and a common understanding of NDPERS-specific needs and objectives.

    Hiring and Training of Dedicated Staff

    In addition to our dedicated NDPERS Director, we will hire department staff to build Member Services, Claims, and Management, Utilization Management, Network Services, Finance and Client Services staff dedicated solely to service the NDPERS account and membership. Some of these staff will be co-located with existing staff already serving the Sanford Health Commercial product lines. This co-location will enable us to utilize the experience of the staff to provide comprehensive, program-specific training for NDPERS staff as well as opportunities to foster a culture of collaboration.

    Claims and Member Service

    After identifying the main contacts of these departments, we will review the NDPERS Program with all staff including claims configuration and processing requirements, certification of benefits rules, and performance standards.

    Telecommunications

    The NDPERS Director will work with the appropriate departments to design phone prompting and intake scripting/greeting language, with approval by NDPERS. We plan to activate our toll-free NDPERS Program number so it is available to answer calls during the NDPERS open enrollment period.

SANFORD HEALTH PLAN

Network Development

Once it is confirmed that Sanford Health Plan is the selected carrier, create a customized network development plan for the Program based on our current understanding of the NDPERS program needs which will include amend our current provider contracts to ensure NDPERS specific discounts on top of our current provider discounts. As part of this plan, we will target the Program's high-volume clinicians and facilities prior to implementation. In addition to high-volume clinicians and facilities, we will pursue additional clinicians and facilities in limited access areas as identified in the GeoAccess report included in our proposal. With the NDPERS approval, we will distribute a letter of invitation. During the January and February months of 2015, we will accept applications, perform credentialing, and follow up with non-responders. Throughout the transition period, we will recruit willing providers who are currently treating members to ensure continuity of care.

Training for Network Providers

Sanford Health Plan will provide a NDPERS-specific training program for our clinicians and facilities serving the Program. This training program will include an overview of the benefits (e.g., copayments and deductibles); information about our online provider services; an overview of our UM protocols; and coordinated communications and training with medical network management to optimize medical-behavioral synergies.

Eligibility

With the help of the NDPERS, we will determine eligibility requirements for Program members. We will agree upon an eligibility file format, and provide test data until all formatting issues are resolved. We will then receive and upload the full production file, including COBRA eligibility, to our claims administration system.

Reporting

We will design a reporting grid and submit it to the NDPERS for approval. We will develop reporting protocols regarding frequency and delivery and confirm all ad hoc reporting requirements for the Program.

External Vendor Interface

Our Management Team will determine external vendors' needs and interface requirements, and provide training, as needed. In addition, as part of our any wellness programs and disease management programs we will establish pharmacy and medical data feeds to identify opportunities for outreach and determine effective intervention strategies.

Communications

We will develop an initial and ongoing communications strategy with feedback from NDPERS. We will design materials and distribute approved materials as agreed. The Client Services Team will develop an orientation presentation for NDPERS Program members, conduct orientations on benefits, and attend NDPERS Health Fairs and open enrollment meetings that are conducive to NDPERS timelines.

Customized Web Site

Our information technology department will determine the internal and external links required, and the flexibility to customize the site for NDPERS members, and activate the site with NDPERS approval. The site will include NDPERS member-specific information when members log into their myHealthPlan Account in addition to NDPERS-specific online provider directory.

Performance Guarantees

Our Account Team will finalize the performance guarantee grid and explain penalty distributions and payment procedures in a communication to all areas including client reporting. We will have distributed the final information to our departments by December 31, 2014.

Date	Task	Responsibility
Oct. 2014	Award Notification	NDPERS
October 2014	Sign Administrative Services Agreement between Sanford Health Plan and NDPERS	NDPERS and Sanford Health Plan
Nov. 2014	Begin implementation and operations • Amending Provider Agreements for NDPERS-specific discounts • Develop Summaries of Benefits and Evidence of Coverage (Member Policy) • Develop NDPERS-specific forms and documents (ID cards, applications, provider manual, policies and procedures) • Begin system configuration of benefits, claim edits and rules	Sanford Health Plan
Jan. 2015	Develop Marketing and Communication Plan	
April 2015	Begin Open enrollment meetings and health fairs	
May 2015	Procedure for employee enrollment transaction determined. This could include electronic file transfer, paper enrollment or electronic enrollment via Sanford Health Plan's enrollment system, *myHealthPlan* Employer Portal.	NDPERS & Sanford Health Plan
30 days prior to effective date	Applications processed and Identification Cards are printed and mailed to member's home address.	Sanford Health Plan

18. Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.

a. The key individual representing your company during the proposal process;
b. The key individuals on your proposed implementation team;
c. The key individual assigned to overall contract management;
d. The key dedicated individual or team members responsible for day-to-day account management and service;
e. The key individual responsible for provider contracting; and

f. The key individual responsible for provider relations if different than letter e. above.

Dedicated Implementation Team

A dedicated NDPERS Program Director will be assigned to manage the program implementation and channel all client inquiries to Sanford Health Plan. The NDPERS Director will be the key individual assigned for overall contract management. The following grid outlines the daily operations team assigned through the implementation process. The below list of management currently performs similar services for all of Sanford Health Plan's insured and self-funded business.

Name	Title	Years with Sanford Health Plan	Major Responsibility
Jason Hubers	Executive Vice President	15 years	Oversight of daily operations, performance, sales and strategic planning.
Cecily Tucker	Chief Financial Officer	15 years	Financial Oversight, Stretegic Planning & Underwriting
Michael Crandell, MD	Chief Medical Officer	7 years	Oversight of Care Management, Utilization Management & Worksite Wellness
Trixy Burgess	Chief Operating Officer	12 years	Oversight of Claims, Member Services, Client Services & Audit
Debbie Harris	Finance Director	7 years	Department Oversight
Sarah Delaney	Associate Actuary	6 years	Rate Development, Data analysis
Wyatt York	Information Technology Director	16 years	Department Oversight
Lisa Carlson	Director, Planning & Regulation	13 years	Oversight of State filings, marketing, legislative & legal review, Provider & Payor Relations Department.
Unassigned	NDPERS Director	-	Oversight of daily NDPERS operations
Jan Griffin	Claims Manager	16 years	Department Oversight
Tami Haberer	Member Services Manager	16 years	Department Oversight
Tammy Gerhart	Client Services Manager	9 years	Department Oversight including Flex Department
Steph Erp	Network Service Manager	13 years	Department Oversight
Barbara Vandonslear, RN	Care Management Manager	8 years	Department Oversight

SANFORD HEALTH PLAN

For day-to-day management, a dedicated NDPERS Supervisor will be hired and assigned to each operational department. This supervisor will be solely responsible for the NDPERS operations but will have dual reporting to the NDPERS Director and to their respective department managers within Sanford Health Plan. The following are the staffing statistics Sanford Health Plan proposes for the Program's dedicated department. We modeled our staffing projections using anticipated volume based on the NDPERS member population coupled with Sanford Health Plan's membership to staffing ratios. We have found this method to be an accurate predictor of staffing needs. Additionally, our telephone system automatically monitors call volume, allowing us to recursively refine our model and adjust staffing levels as needed.

Position	# proposed
ND PERS Director	1
Clerical Support	3
Operational Auditors	2
Care Management Department	
Care Management Supervisor	1
Nurse Case Managers	6
Quality Specialists	6
Worksite Wellness Department	
Wellness Supervisor	1
Wellness Educators	7
Client Services Department	
Client Services Supervisor	1

SANFORD HEALTH PLAN

Communications and Website

20. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	myHealthPlan brochure – explaining how to create your personalized account and take advantage of online services	☑ Yes ☐ No
Employee Newsletter(s)	Sanford Health Plan can customize its current Member Messenger newsletter to communicate NDPERS-specific news, benefit changes, wellness initiatives, regulatory changes or NPERS program changes.	☑ Yes ☐ No
Brochures	Sanford Health Plan can customize its current brochures to communicate NDPERS-specific news, benefit changes, wellness initiatives, regulatory changes or NPERS program changes.	☑ Yes ☐ No
Direct mail (internal or home distribution)	Sanford Health Plan can create custom direct USPS mail or email blasts specific to a subdivision or employer unit.	☑ Yes ☐ No
Enrollment guide	Sanford Health Plan provides a comprehensive employee education package. This includes a summary of the group benefit package, pharmacy benefit information, provider network instructions and other information regarding coverage details.	☑ Yes ☐ No
Employee open enrollment meeting support and attendance	Sanford Health Plan facilitates on-site employee meetings as needed to educate employees on the benefits offered. Sanford Health Plan strives to promote open enrollment meetings by creating a fun and interactive environment with popcorn, trinkets available for give-away, and representatives available to answer questions or give formal presentations, at the client's request.	☑ Yes ☐ No
Benefits/HR staff training support	Sanford Health Plan provides a comprehensive employer education package. This includes a summary of the group benefit package, pharmacy benefit information, provider network instructions and other information regarding coverage details.	☑ Yes ☐ No

	Sanford Health Plan is also available throughout the year to assist in new employee orientation meetings, as requested by the client.	
Video	Sanford Health Plan can create custom online tutorials or coordinate video-conferences for remote open enrollment meetings.	☑ Yes ☐ No
Employee healthcare cost calculator worksheets (cost estimates)	Sanford Health Plan can provide an employee healthcare cost estimator.	☑ Yes ☐ No
Other (please list)		☐ Yes ☐ No

21. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

Yes, Sanford Health Plan is committed to provide communication and marketing pieces in collaboration with NDPERS for NDPERS-specific member communication materials.

We will ensure the human and financial resources are available to build a full spectrum marketing and awareness campaign that will include identifying core principles, logo and image recognition, taglines, imagery and identification system. Sanford Health Plan has the following marketing team to offer:

- Brand Manager;
- Marketing Specialist;
- Sales and Advertising Coordinator;
- Print and Document Coordinator; and a
- Digital Web Team.

Additionally, a dedicated NDPERS Communications Coordinator and two Marketing Specialists will be hired to facilitate the marketing and communications for NDPERS.

22. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

Sanford Health Plan is capable of printing ID cards for all Members (not just subscribers) within 7 days of receiving a clean enrollment file. Ideally Sanford Health Plan would mail new ID cards by June 1, 2015, 30 days prior to the effective date.

SANFORD HEALTH PLAN

23. Describe your plan for the post-65 programs that you will offer to NDPERS retirees.

Sanford Health Plan is able to replicate the current Dakota Retiree Plan benefits that provide health care coverage as a secondary payer to Medicare similar to a NAIC Plan F. Each eligible retiree will be able enroll his/her eligible dependents as described in the current SPD.

SANFORD HEALTH PLAN

Plan Administration

24. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

Sanford Health Plan diligently monitors both state and federal legislative changes. The Plan's Director of Planning & Regulation, the Associate Actuary and two full-time Policy Analyst are active members and meeting participants in the following organizations:

- Member of Minnesota Council of Health Plans
- Member of Iowa Federation of Insurers
- Member of the AHIP; and
- AHIP State Strategy Team - The Health Plan's Director of Planning & Regulation is a member of the AHIP State Strategy Team for the Midwest region comprised of 11 states, including South Dakota, North Dakota, Minnesota, and Iowa as well as Arkansas, Colorado, Kansas, Missouri, Nebraska, New Mexico, and Oklahoma. The AHIP State Strategy team provides local level, member input and direction to the regional AHIP directors regarding advocacy efforts in the states in both the legislative and regulatory arenas.

Additionally, Sanford Health Plan collaborates with Sanford Health's Office of Public Policy and Office of Health Care Reform to monitor and provide strategic input to ensure the system is engaged and prepared to be an active participant in policy making discussions at both the state and federal level.

25. Describe your proposed transition of care plan. At a minimum, the transition plan must address:

a. Conditions or type of care that is typically transitioned;
b. Individuals who are in a course of treatment;
c. Transition process of current medical treatment;
d. Communication of transition issues to all plan members.

Sanford Health Plan will follow NDPERS's directive regarding the introduction of services to your employees. We will have a dedicated NDPERS member services staff, marketing and communication staff, and client services team who will travel to all locations and attend the meetings scheduled by NDPERS. We feel that it is important to provide personal service to your employees and to be present at the enrollment meetings to answer employee questions. Historically, we have furnished materials regarding network access, benefit schedules, pharmacy and formulary information to employees during open enrollment. Sanford Health Plan will supply as much communication material as you feel is necessary for your employees.

During this transition there may be an employee who has to change providers due to network restrictions. He/she will be required to complete a Transition of Care form in order to temporarily or permanently continue care. The form will be reviewed by Sanford Health Plan's Chief Medical Officer for appropriate access to care. Our goal would be to have all of these transitions identified and processed by June 1, 2015.

Sanford Health Plan recognizes the influence of the patient-physician relationship and is committed to positively impacting healthcare services through appropriate and effective

resources. Optimal health is sought by customizing and coordinating the resources we have with the needs of the individual.

NDPERS individuals who are seeking regular care with a provider of service outside of the Sanford Health Plan network (or other approved network) will only be transitioned to an In-Network Provider when appropriate to do so. An example of transition: If care can be provided closer to the patient's home and/or with an In-Network Provider, the Plan will set up a transition of care schedule with the patient to develop a relationship with a new provider of service perhaps allowing the member to have one or two follow-up visits with their current provider in order to make the transition a seamless process.

When a Transition of Care form is received by Sanford Health Plan, the letter is logged and forwarded the Utilization Management Department. A determination is made by the Chief Medical Officer as to whether the Transition of Care form was submitted due to medical necessity, provider access or if not applicable.

1. Not Applicable (N/A) – If the issue was not applicable to a Transition of Care, Member Services will clarify with the member.

2. Medical Necessity – If the Chief Medical Officer determines the Transition of Care Form to be due to medical necessity, he will make an approval or denial decision and the following will take place:

    a) Consideration for continuation of care due to medical necessity include the following criteria:
        - Member is in their 2nd or 3rd trimester of their pregnancy;
        - Member is receiving cancer treatment;
        - Member is receiving transplant services;
        - Member is receiving services where it would be deemed harmful to transition at this point of treatment;
        - Member is undergoing active treatment for a disabling, chronic or acute medical condition;
        - Member has a life threatening mental or physical illness; or
        - Member has a physical or mental disability defined as an inability to engage in one or more major life activities, provided the disability has lasted or can be expected to last for at least one year, or can be expected to result in death.

    b) The Chief Medical Officer will send a personalized letter stating the approval or denial. It is the discretion of the Chief Medical Officer as to the number of Out-of-Network visits to approve for patients in the transition of care phase. Members who may see an Out-of-Network provider for annual exams (i.e., follow-up after surgical procedure or remission of cancer) may be allowed to have one transition follow-up appointment but must be prior authorized by the Chief Medical Officer. If a member is allowed to go for an Out-of-Network visit, the Health Plan has the right to request specific testing or treatments be done at the In-Network level. The results can then be reviewed by the former provider as a consultation visit only. The designated person from Utilization

Management will complete this letter, make copies of the Transition of Care Form and distribute accordingly.

c) The original letter, along with a copy of the Transition of Care Form will be sent directly to the member.
d) A copy of the letter and the original Transition of Care Form will be given to Utilization Management for authorization and recording in the claims management system. Once completed, these copies will be filed in the member's folder. Utilization Management will also send a letter of authorization to the member.
e) If the Transition of Care Form involves an organ transplant, a copy of the Transition of Care Form is also given to the Transplant Coordinator.

3. Provider Access – If the Transition of Care form was received due to a network access issue, then the form is reviewed by the Provider & Payor Relations Department.
   a) If Provider & Payor Relations determines that there is not appropriate access for this service, then Provider & Payor Relations will send an approval letter to the member.
   b) If Provider & Payor Relations determines that there is appropriate access for this service, then Provider & Payor Relations will send a letter to the member denying the transition request.

   A copy of the letter and Transition of Care Form is saved in the claims system and a copy is given to the designated person in the Utilization Management Department to be filed in the member's file.

26. What is your total commercial and Medicare health plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2010	33,431	2,666
As of January 2011	33,571	2,481
As of January 2012	37,704	2,599

SANFORD HEALTH PLAN

Eligibility and Billing

27. Are ID cards the sole means of determining member eligibility? If not, please describe.

No, ID cards are not the sole means of determining eligibility. Members, Providers and Clients can log into their respective online account portal, myHealthPlan, to view a Member's eligibility status.

28. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

Yes, Sanford Health Plan offers the ability to perform enrollment transactions online. This secure online enrollment portal, entitled Empowered Benefits, provides the employer with instant access to their employee information and allows management of their enrollment by offering the ability to add, making changes or terminate employees online.

There are not separate charges for access to and use of the online tool.

The online enrollment tool is accessed through the employer's myHealthPlan account, which is offered to each employer, regardless of size, and enables the employer to access various information, including the ability to:

- View member eligibility, as well as benefit summaries for the member
- Order Replacement ID Cards
- View Preventive Health Guidelines
- Print Provider Nomination Request Forms, and
- Print medical and flex claim forms, if applicable

29. NDPERS will submit enrollment, billing and premium remittance via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Premium payment information will be provided on a data file that follows the HIPAA 820 file specifications. Files will be transmitted using a secure file transmission process. Please confirm that you can receive this data in that format and media. Please confirm your ability to conform to this process and identify any potential issues.

Sanford Health Plan is able to receive enrollment, billing and premium remittance in that meet these file specifications.

30. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

Enrollment

Sanford Health Plan accepts enrollment applications and eligibility files both electronically or hard copy. Manual updates are processed within 2 business days.

Full audit procedures are in place to assure that Membership information is timely, complete and accurate. Routine audit checks are conducted by Member Services Representatives of all newly processed enrollment applications. The enrollment applications are reviewed against the required enrollment fields in the Xcelys Claims Information System.

The following eligibility checks are conducted with processing applications: waiting period verification, effective date, dependent eligibility criteria and dependent age criteria, are all verified before applications are processed.

We conduct the following edit checks when processing application and enrollment changes: name, identification number (duplicate member), date of birth, sex, group number, date of hire, effective date, address, relationship to subscriber, dependent age, student verification, prior coverage verification, other coverage verification.

If no errors are identified, the Representative signs off on the auditing checklist. An enrollment audit log is maintained in order to identify any processing issues. The Audit Log provides documentation of the number of applications that are audited each month and the number and type of errors that are identified through the audit process. This audit log is reviewed by the Enrollment Coordinator to assure that the accuracy of Membership processing is consistent and that the audit process is conducted on an ongoing basis.

Eligibility Changes
Eligibility changes (electronic or paper) are manually processed within 2 business days. All change requests are reviewed for appropriateness of effective date and eligibility requirements before processing. The system allows all necessary coordination of benefits (COB) information to be recorded on an individual member basis. The other coverage carrier, type of carrier, effective date, policy number termination date, termination reason, entitlement (for Medicare), and COB order is stored for each Member with other coverage. Student status is verified for all dependents and maintained in a specified “dependent verification” field with a “verified through date” which is updated bi-annually or on an as needed basis. Sanford Health Plan works with the sponsoring group to establish appropriate eligibility standards meeting governmental and employer requirements.

Customer/Member Service

31. **Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. This unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. Describe the structure and organization and provide an organizational chart of the unit you are proposing.**

    As described in Section 18 of this RFP, Sanford Health Plan will provide a dedicated Member Services Department comprised of the Member Services Supervisor, 16 Member Services Representatives, one of which is the Team Leader. A dedicated toll-free and local phone number shall also be established along with mutually agreed upon hours of operation.

    The Claims department and Member Services department are physically located within close proximity to each other to facilitate efficient workflow and communication to address and resolve questions as quickly as possible. Sanford Health Plan evaluates phone call statistics and staffing needs for the Member Services Department to ensure members have timely access to customer service.

    All Member Service and Claims representatives rely on the claims payment system to view benefits. Representatives can also simultaneously view the member's online myHealthPlan account information to address and discuss exactly what the member is seeing online.

    All claims and customer service calls are received at a central location conducive to open, inter-department communications in order to resolve inquiries in a timely manner. Call centers are not outsourced to external (or international) companies not familiar with health plan operations and the details of plan design and claims payment processes.

    Additionally, all calls are always answered by a live person during normal business hours. Calls are not sent to voicemail if the call queue is busy, nor do callers ever receive a busy signal. Callers are not required to dial in their member ID numbers or any other information prior to a call being answered; all member information is collected by the receiving Member Service representative to create a personal and courteous experience.

Claims Administration

32. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	Sioux Falls, SD
Phone Numbers	(605) 328-6840
Days and Hours of Operation	Monday – Friday; 8am-5pm CST
Number of Members Serviced	96,500
Number of Employer Groups Serviced	315
Ratio of Claims Unit Staff to Members Serviced	1 FTE:5,000 members
Volume of Claims Processed Daily	4,000

33. Will your organization identify a dedicated team of claims processors for the NDPERS account? If processors are shared with other clients, on average, how many clients does one team service? What is the average length of service of the claim processors?

As described in Section 18 of this RFP, Sanford Health Plan will provide a dedicated Claims Department for the NDPERS program. The NDPERS Staff will not be shared with other clients. The average length of service of current claims processors is 10 years.

34. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

With the exception of these three manual interventions, Sanford Health Plan is able to automatically administer the NDPERS design. Please see Exhibit F2 under separate cover with this RFP.

19. Sanford Health Plan's claims system cannot administer a "per condition" benefit automatically. For outpatient therapy services (PT, OT & ST) we can administer count/quantity/visit limits without manual intervention.

35. Describe your claims processing system/platform and claims administration process.

Sanford Health Plan utilizes the Epic suite of Tapestry modules for payer operations. Enrollment, Premium Billing, Customer Service, Provider Network/Pricing, Service Pre-Authorization, Benefit/Claim Adjudication and Remittance functions are performed on this platform. Core health plan data is downloaded nightly to a local SQL Server-based data repository which is the foundation for analytical reporting and interface feeds to external processes and web portals. The Epic platform provides full EMR integration within the Sanford Health Enterprise as well as delivering standalone payer functionality with external providers. The Tapestry application piggybacks onto the same redundant, high availability Sanford Health datacenters and IT infrastructure utilized for 24/7 healthcare operations. Sanford Health has utilized Epic applications since 2004 and the Health Plan became operation on Tapestry in October 2013.

36. How do you determine reasonable and customary ("R&C") charge allowances? What methodology is used (i.e., HIAA)? What percentile is used? How often are R&C schedules updated?

Sanford Health Plan establishes “Reasonable Costs” as those that do not exceed the lesser of: (a) negotiated schedules of payment developed by Sanford Health Plan which are accepted by Participating Providers or (b) the prevailing marketplace charges. R&C is evaluated annually.

Reporting

37. Confirm your ability to provide the reports described in the RFP and provide samples.

Sanford Health Plan is able to provide all monthly reports for each plan offered (e.g. Grandfathered PPO, Non-Grandfathered PPO, HDHP, etc.) and provide roll-up reports to an annual, aggregate report. Please see Attachment C for a sample report package. Please note this report package may not currently reflect the below formats, however Sanford Health Plan’s internal IT Report Analysts are capable of customizing report formats for our clients and the dedicated PERS IT staff will be responsible for building and maintaining custom NDPERS report packages.

- ☑ Monthly claim reports broken down by plan, by category, split medical vs. prescription drugs.
- ☑ Monthly enrollment counts by plan.
- ☑ Monthly information, by plan, regarding large claims in excess of $100,000.
- ☑ Monthly premium vs. claim ratio report by plan with a year to date roll up.
- ☑ Monthly and year to date breakdown of medical claims by type of services by plan.
- ☑ Quarterly and year to date breakdown, by plan of medical charges submitted, ineligible charges, provider discounts, COB savings, deductibles and coinsurance paid by participants and final paid claims.
- ☑ Annual policy accounting statement including claim reserves.

- ☑ Annual medical claim lag study.

Sanford Health Plan also commits to provide:

- ☑ Claims specific data on a monthly basis in a format acceptable to NDPERS and subject to all federal and state laws on confidentiality and open records.
- ☑ Carry-over any deductible and or coinsurance amounts incurred from January 1 to June 30, of the prior contract period.
- ☑ Provide annual accounting of HSA accounts including year end balances; Number (and value) of eligible expense withdrawals; and Number (and value) of non-eligible expense withdrawals.

38. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

Sanford Health Plan currently provides electronic and paper reports to clients at quarterly service meetings and upon request. However, we continue to evaluate a new online module to enhance our current myHealthPlan online portal for our clients and its reporting functions, which would include a custom report builder, to help NDPERS and other clients to:

- Enable clients to view records that have been updated since the last report and/or service meeting;
- Review trends and identify potential health issues that may impact worker productivity;
- Allows multiple users to access the site simultaneously, viewing reports jointly or independently;
- Robust sort and filter functions to create custom report views that can be reapplied to future reports;
- Clients can also delegate and manage access to the reports by benefits managers, payroll personnel, supervisors, wellness coaches, nurse case managers and others who need to see aggregate claims information, while ensuring the protection of employees' privacy.

We are committed to providing tools that empower our clients by providing them immediate access to actionable information so they can make timely business decisions.

39. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing medical claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS.

Sanford Health Plan agreed to provide NDPERS with its raw data, including detailed claims and enrollment data sets, based on a mutually agreed upon format no less than monthly for the data warehouse repository maintained by NDPERS.

SANFORD HEALTH PLAN

Case/Utilization Management

40. Provide a brief overview of your utilization management programs, including pre-certification, concurrent review, discharge planning, and large case management.

The Utilization Management Department staff performs the daily Utilization Management functions. Sanford Health Plan ensures that staff are properly trained, qualified, licensed as appropriate, and supervised. The dedicated NDPERs department will consists of the following roles:

- The Chief Medical Officer, a board certified Physician, who is responsible for the overall UM program and implementation. He reviews the medical appropriateness of any UM decision. However, medical appropriateness is determined by nationally developed and accepted review criteria from Milliman and InterQual which encompass literature review, specialty society standards of care, DME criteria, Medicare guidelines and health plan benefit interpretation.

- Utilization Management Coordinator(s) (Registered Nurses) or Technicians (Licensed Practical Nurses, Medical Assistants) report to the Chief Medical Officer, as do Complex Case Managers. Their responsibilities include the following:

    - Prior authorization of services
    - Concurrent, Retrospective (Post-service), and Focus Reviews
    - Identification of any quality assurance issues
    - Coordinate admission prior authorizations
    - Chief Medical Officer referrals
    - Member guidance and education

- Care Management Case Manager(s) report to the Care Management Manager and the Chief Medical Officer. Their responsibilities include the following:
    - Compilation and review of employer group utilization data
    - Health education to employer groups and members
    - High risk member identification and management (including Transplant Coordination)
    - Identification of any quality assurance issues

Physician Quality Committee

Sanford Health Plan's Physician Quality Committee is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on issues of care. The Physician Quality Committee consists of physician and pharmacist members. Members of the Committee are appointed by the Chief Medical Officer who is the chairperson. The Committee meets eight times a year and the Plan's Chief Medical Officer reports to the Board of Directors at least four times a year the Physician Quality Committee's summary of trends, quality initiatives, findings, corrective actions and results.

The Committee responsibilities include developing and continually evaluating the review criteria used in the evaluation of appropriate utilization. The Committee is also responsible for quality activities by establishing, reviewing, and instituting needed actions and ensuring follow-up as appropriate. The review criteria shall be reviewed no less than once annually. Any recommended changes in the criteria or any other program changes must be approved by the Board of Directors.

Quality Improvement Program

Sanford Health Plan and its participating providers acknowledge their responsibility to provide high quality care in a cost-effective manner through an ongoing monitoring, evaluation and improvement process. The organized method for monitoring, evaluating, and improving the quality, safety and appropriateness of health care services including behavioral health care to members through related activities and studies is known as the Quality Improvement (QI) program.

The mission of the QI Program is to provide accountability for the quality of health care delivery and service. This is accomplished through the commitment of the Board of Directors and the Physician Quality and the Health Plan Quality Improvement Committees to develop and carry out a Quality Assurance Plan that has a systematic approach to assessing, measuring, defining and resolving medical care, and behavioral health and service issues.

Disease Management Services

Sanford Health Plan has developed a prospective program to manage our Members with chronic medical conditions. The emphasis on these programs is disease prevention and education to promote disease compliance for Members with targeted chronic medical conditions to improve the overall health, wellness and quality of the Member's life. The current disease management programs include: Congestive Heart Failure, Diabetes, and Hypertension.

Eligible members for the disease management programs are identified on a monthly basis by claims data or other sources like Utilization Management data, referrals, or after the initiation of a health risk assessment at the time of enrollment or with the initiation of health and wellness programs. The Health Plan Case Managers reach out to high risk Members identified with open disease specific care gaps to facilitate closure of gaps, adherence to treatment plans and to improve overall compliance with the evidence based medicine standards. Currently all disease management programs are opt-out (the member is automatically considered enrolled in the program unless they notify the Plan that they do not want to participate). Once identified by the disease management program, the Health Plan Case Managers reach out to high risk Members who are identified with open disease specific care gaps to facilitate closure of gaps, adherence to their treatment plan and to improve overall compliance with the evidence based medicine standards

The Medical Management Program (also referred to as Utilization Management or UM) is an organized method for monitoring and evaluating the course of treatment rendered

by all health personnel, given a standard of desirable care. It is a process that looks at the following to determine if the treatment, as prescribed, is appropriate:

1. The medical necessity of the treatment
2. The setting for the treatment
3. The types and intensity of resources to be used in the treatment
4. The time frame and duration of the treatment

Additionally, the Medical Management program monitors the delivery of medical and behavioral health services to ensure that those services are performed at the appropriate level of care in a timely, effective, and cost-efficient manner. It also studies patterns of health services utilization for Physician credentialing, sanctioning and continuing education of the medical staff, administration and consumers regarding health care cost containment.

The Medical Management and Care Management are responsible for:

1. Identifying problems by utilizing a system in which network practitioners, members and Sanford Health Plan staff can refer issues, concerns and potential opportunities for improvement.
2. Development and implementation of practice guidelines and/or clinical indicators. This includes structure, process and outcome indicators that are derived from current research and studies.
3. Establishing, monitoring and evaluating process for staff and committees to select appropriate topics, develop study parameters, retrieve and summarize data, and implement improvement interventions.
4. Review of the following quality performance measures on an ongoing basis:
    - Preventive Services
    - Health Education Programs
    - Obstetrical Care
    - Acute and Chronic Illness
    - Mental Health and Substance Abuse
    - Data from Satisfaction Surveys such as CAHPS and the Provider Satisfaction Survey.
5. Distribute any QI results, which may warrant improvement interventions, sanctions, improvement opportunities or concerns to the credentialing files for coordination in the annual recredentialing process.
6. Perform Medical Record Review at practitioner and/or Provider offices.
7. Perform peer review activities consisting of medical care reviews that assess the utilization of services and the quality of care rendered by practitioners and/or Providers. Results of the peer review process will be available for recredentialing purposes.
8. Evaluate healthcare quality related Complaints, Grievances and Appeals on a quarterly basis.
9. Perform quality improvement studies as it relates to timeliness of access to care/services and member service activities.

The Medical Management Program includes authorizations of services, Concurrent Reviews, Retrospective (Post-service) Reviews, focused reviews, case management

and discharge planning. Sanford Health Plan does not delegate any of these Medical Management (Utilization Management) activities, with the exception of Specialty Drug Management which includes dispensing according to The Plan's approved prior authorization criteria delegated through Curascript.

Medical Management Operational Procedures
Utilization Review

The purpose of Utilization Review is to establish requirements and standards of operation for Certification of medical Utilization Review agents. The Utilization Review criteria for medical services used by the Utilization Management Department shall be made available, upon request, to Participating Physicians. The clinical review criteria to determine medical necessity utilizes nationally developed and accepted review criteria from Milliman and InterQual. Milliman will be used as a length of stay guideline only. Clinical review criteria may also be developed based on literature review, specialty society standards of care, DME criteria, Medicare guidelines and health plan benefit interpretation. Local medical review policies will be utilized for decisions regarding Medicare coverage. The guidelines will be reviewed and updated, as appropriate, on an annual basis. Utilization Management staff review all cases and are instructed to refer any cases to the Chief Medical Officer or Behavioral Health Practitioner where medical necessity and/or criteria are not met or appropriate as they cannot make Denial decisions in those cases. Utilization management staff may make authorization decisions based on policies, procedures and benefit coverage guidelines. Utilization determination will be based on accepted review criteria, medical record review, and/or conversations with appropriate Physicians.

Utilization Review is a set of formal techniques designed to monitor the use of, or evaluate the clinical necessity, appropriateness, efficacy, or efficiency of, health care services, procedures, or facilities. The Utilization Review process shall consist of comparing Member profile information against set clinical review criteria (see policy MM-53 Utilization Management Criteria & Guidelines) along the following dimensions:

1. Presentation/Complaint;
2. Relevant History;
3. Medical History/Medications;
4. Previous Treatment;
5. Chemical Dependency History;
6. Treatment Plans and Recommendations

Medical Management Decision Protocols

The Plan's Medical Management decision protocols for Utilization Review consist of seven major component activities. Utilization Review is conducted prior to an admission or a course of treatment. These component areas include inpatient and outpatient services.

1. Prior-Authorization of all elective Hospital admissions (including same day surgeries), non-Urgent Care, pharmaceutical decisions and behavioral health services
2. Concurrent Reviews
3. Retrospective (Post-service) reviews
4. Focused reviews

5. Discharge planning
6. Complex Case Management
7. Case Management

Prior Authorization (Certification) of Services (Pre-service)
The Member is ultimately responsible for obtaining prior authorization from the Utilization Management Department in order to receive In-Network coverage. However, information provided by the Practitioner's office will also satisfy this requirement. Primary Care Physicians and any Participating Specialists have been given instructions on how to get the necessary authorizations for surgical procedures or Hospitalizations you may need.

Prior authorization (Certification) is the urgent or non-urgent authorization of a requested service prior to receiving the service. Prior authorization (or preCertification/Pre-service decision) is designed to facilitate early identification of the treatment plan to ensure medical management and available resources are provided throughout an episode of care.

The Plan determines approval for prior authorization based on appropriateness of care and service and existence of coverage. The Plan does not compensate Practitioners or other individuals conducting Utilization Review for issuing Denials of coverage or service care. Any financial incentives offered to Utilization Management decision makers do not encourage decisions that result in underutilization and do not encourage Denials of coverage or service.

Prior authorization is required for all inpatient admissions of Plan Members. This requirement applies to, but is not limited to the following:

1. Acute care Hospitalizations (including medical, surgical, and obstetric admissions);
2. Psychiatric Hospitalizations;
3. Rehabilitation center admissions; and
4. Chemical dependency admissions.

Admission before the day of non-emergency surgery will not be authorized unless the early admission is medically necessary and specifically approved by the Plan. Coverage for Hospital expenses prior to the day of surgery will be denied unless authorized prior to being incurred.

Concurrent Review
Concurrent Review (i.e. inpatient Hospitalization or ambulatory care) means a request for an extension of an approved ongoing course of treatment over a period of time or number of treatments is warranted. Sanford Health Plan will follow the same time frame as for prior authorization of services for a Concurrent Review decision.

Concurrent Review is conducted during a Member's Hospital stay or course of treatment. This includes inpatient Hospitalization including behavioral health care. The initial review is conducted within *twenty-four (24)* hours after admission. Subsequent reviews depend on the Member's condition, but at least *one (1)* subsequent review will

take place prior to the expiration of the approved length of stay. At the time of the initial review and each subsequent review, the Member's condition is evaluated to determine:

- the Member's progress;
- if the Member meets the approved acute level of care criteria;
- the projected discharge date; and
- the need for discharge planning.

When the Member's condition or treatment schedule changes, additional stay days are approved if the Member's condition has deteriorated or the Member has not progressed as originally anticipated. Additional stay days must meet the continued stay review criteria and, if acute levels of care criteria are not met, a decision to authorize further treatment must be made at that time. Authorization of the Hospital or behavioral healthcare stays will terminate on the date the Member is to be discharged from the Hospital or behavioral healthcare Facility (as ordered by the attending Physician). Hospital/Facility days accumulated beyond ordered discharge date will not be authorized unless the continued stay criteria continues to be met. Charges by Practitioners and/or Providers associated with these non-authorized days will be considered non-covered. The Plan Chief Medical Officer or a Physician or appropriate behavioral health Practitioner reviews all cases that may lead to Denial and those that are denied.

Retrospective Review (Post-service)
The Utilization Management Department may be required to perform Retrospective or Post-service Reviews at the direction of the Plan's administration. Retrospective (Post-service) Reviews may be used to identify patterns of care, to determine if charged services were actually provided and to Retrospectively Review services or denied days that have already occurred.

These reviews may be used to:

- Identify Practitioner patterns of care based on the parameters established by the Plan.
- Recommend positive changes in the Physician practice patterns and the credentialing process as identified by analysis and review of data.
- Analyze consumer patterns of care and to redirect the data to the employer groups to make any appropriate suggestions as to benefit structure.
- Determine if services charged were actually provided.
- Retrospectively deny days incurred due to failure to meet admission or continued stay criteria. Costs are to be absorbed by In-Network Providers.

Focused Reviews
Focused review is the process of reviewing patient's medical records as they relate to specific diagnoses, problem procedures, and/or Physicians identified by the Chief Medical Officer, Care Management Staff, Health Plan Quality Improvement Committee or Physician Quality Committee as an actual or potential utilization problem. The review may be Concurrent or Retrospective (Post-service).

If analysis of the focused review reveals ineffective or inefficient use of Hospital services or questionable patterns of care, the focused review will be subject to a more comprehensive in-depth review using the Plan's established criteria. Results of the focused review are to be reported to the requesting party and if a problem exists, a report and recommendations for action are made to the appropriate entity.

Discharge Planning
Discharge planning is the formal process for determining the coordination and management of care that a patient receives following discharge from a Facility. The reviewer assists in the identification of patients with post Hospital care needs for whom social service/discharge planning services would be appropriate. The Utilization Management Coordinator/Technician can, with the advice and counsel of the attending Physician, work actively with social service discharge planning to assist in coordinating inter-Hospital transfer, transfers to nursing homes, home health care, transportation, and durable medical equipment.

The Care Management Case Managers will contact Members post discharge to determine if access or care problems exist. This discharge follow-up phone call will allow the nurse to assess each Member, determine Member needs, and initiate the appropriate medical management intervention.

Complex Case Management
Sanford Health Plan's Complex Case Management Program is available to qualifying Health Plan Members and their families free of charge. Complex case management is the coordination of care and services provided to members who have experienced a critical event or diagnosis that requires the extensive use of resources and who need help navigating the system to facilitate appropriate delivery of care and services. The goal of complex case management is to help members regain optimum health or improved functional capability, in the right setting and in a cost-effective manner. It involves the comprehensive assessment of the member's condition; determination of available benefits and resources; and development and implementation of a case management plan with performance goals, monitoring and follow-up. Concentrating for the most part on catastrophic or chronic cases, case manager nurses are called in to consult and manage diagnoses such as serious traumas, cancers, HIV, organ transplants, spinal cord injuries, multiple chronic illnesses and/or chronic illnesses that result in high utilization and diagnoses as identified by our reinsurance provider.

Registered Nurse Case Managers are responsible for managing these complex cases to ensure high quality, cost effective and appropriate utilization of health services. The case manager acts as a Member advocate, seeking and coordinating creative solutions to a Member's health care needs without compromising quality health outcomes for selected medical diagnoses. The case manager contacts our Members by phone and mail. She is able to act as a resource, educator and/or coordinator of all medical care if needed.

Case Management
Sanford Health Plan offers employer groups Case Management services from our Care Management Department in order to assist in controlling healthcare costs. The case manager facilitates communication and coordination between Employees and Providers of services. This service involves all Members of the healthcare team in the decision-

making process in order to minimize fragmentation of the healthcare delivery system. The case manager educates the employer group Members about wellness, health conditions, community resources, insurance benefits, cost factors and issues of concern. The case manager is the link between the individual, the Practitioners and/or Providers, the payer and the community. The case manager should encourage appropriate use of medical cost effectiveness on a case-by-case basis. The case manager is an advocate for the Member as well as the payer to facilitate a win-win situation for the patient, the healthcare team and the payer.

Behavioral Health Care

The referral process for behavioral health care is based on the Provider Network established by Sanford Health Plan. In-Network facilities for inpatient Hospitalization must be utilized for authorization of services. If a Member chooses an Out-of-Network Facility then the Out-of-Network benefit limits will apply. Behavioral health care specialists for outpatient services are contracted for access as follows:

- Minnesota: within 30 miles of a Member's city of residence
- Iowa: within 60 miles of a Member's city of residence
- South Dakota: within 90 miles of a Member's city of residence, and.
- North Dakota: within 50 miles of a Member's legal residence.

A triage program is available to Practitioners for assessment and placement by Sanford's Behavioral Health Needs Assessment Team. This Facility has intake staff available 24 hours a day to assess the needs of a Member. The contracted Practitioners have access to a toll-free number to discuss a case, refer a Member for assessment or to triage a Member into a psychiatrist office on an urgent basis. Sites of service and levels of care for behavioral health services are evaluated through the contracting and credentialing/recredentialing process.

Physician Reviewer

A Physician reviewer is made available by phone to any Practitioner and/or Provider to discuss determinations based on medical appropriateness. The Plan informs the treating Practitioner of the Utilization Review criteria utilized by way of the Denial letter. The Physician reviewer may be the Plan's Chief Medical Officer or a Physician consultant. A Physician or appropriate behavioral health Practitioner (i.e., psychiatrist, doctoral-level clinical psychologist or certified addiction medicine specialist) reviews any Denial of behavioral health care that is based on medical necessity. For Sanford Health Plan of MN enrollees: For chiropractic, mental health and dental determinations not to certify, the review must be performed by a chiropractor, psychiatrist (certified by the American Board of Psychiatry and Neurology and licensed in the state of Minnesota) or dentist. In all other situations, on Appeal the case must be reviewed by a Practitioner practicing in the same or similar specialty.

41. What is the source of the criteria used for the following:

e. Determining surgical necessity and whether a second opinion is required.

Sanford Health Plan will cover the cost of a second opinion as long as it is requested by and provided by an In-Network Physician. This request is to aid in determining the diagnosis or treatment options of specific member conditions.

If after that visit, the physician feels that the Member would be better served at an Out-of-Network facility the Member will be authorized for that service. In general, consultations are for opinions only and not for care. If the member chooses to remain in the care of the consulting physician, in-network benefits may not apply.

This does not apply to emergency requests. Emergency requests will be evaluated following Plan criteria for Emergency Services.

f. Determining approved length of stay.

UM decisions to determine medical necessity are based on reasonable medical evidence by utilizing nationally developed and accepted review criteria from Milliman and InterQual. Milliman data is used as a length of stay guideline.

g. What percentile of the data is used?

Not applicable.

h. Approximately what percentages of review cases are referred to a physician because the initial review and attending physician cannot reach agreement on the proposed level of care?

This data is not tracked.

i. Does this percentage vary between medical/surgical and psychiatric/substance abuse cases? If so, provide variances.

This data is not tracked.

SANFORD HEALTH PLAN

Health Risk Management Programs

42. Indicate in the table below if you currently provide the care or disease management program listed, the number of members from ND-based employers currently enrolled, the cost per participant, and its accreditation status.
The below numbers include participation across all product lines and all states. Sanford Health Plan is committed to develop additional disease management programs that meets the state's needs.

	Program	Number of Members Enrolled	Cost per Participant	Accredited? If so, indicate accrediting organization.		Program	Number of Enrolled Members	Cost per Participant	Accredited? If so, indicate accrediting organization.
☐	Arthritis	NA	Included in Cost Proposal	NA	☒	High Risk Pregnancy/ Prenatal Support	84	Included in Cost Proposal	NA
☒	Asthma	5,021	Included in Cost Proposal	NA	☐	Hypercholesterolemia	NA	Included in Cost Proposal	NA
☒	Cancer (screenings and reminders)	28,487	Included in Cost Proposal	NA	☐	Pain Management	NA	Included in Cost Proposal	NA
☒	Congestive Heart Failure	260	Included in Cost Proposal	NA	☐	Renal Failure	NA	Included in Cost Proposal	NA
☐	COPD	NA	Included in Cost Proposal	NA	☐	Smoking/ Tobacco Cessation	NA	Included in Cost Proposal	NA
☒	Depression	2,153	Included in Cost Proposal	NA	☐	Weight Management	NA	Included in Cost Proposal	NA
☒	Diabetes	3,446	Included in Cost Proposal	NA	☐	Other, please indicate:		Included in Cost Proposal	NA
☐	Low Back Pain	NA	Included in Cost Proposal	NA	☐	Other, please indicate:		Included in Cost Proposal	NA

43. Briefly describe each of the programs currently offered and the cost of each program. Do you currently track and report specific clinical outcome measurements for each of the conditions for which care/disease management is offered? Please list them.

SANFORD HEALTH PLAN

As an NCQA-Accredited Health Plan, Sanford Health Plan tracks and utilizes a variety of measures for the development and refinement of the Plan's Quality Improvement Activities, Disease Management Programs and Clinical Practice Guidelines. These measures all include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population for the measure. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

One of these programs is the **Effectiveness of Care Domain** which measures provide information about the quality of clinical care the Plan delivers to its members including preventive, acute and chronic care services. Please refer to Attachment D to view Sanford Health Plan's Health Employer Data Information Set (HEDIS) Report

The Effectiveness of Care measures included in the Sanford Health Plan HEDIS Report Report are:

- Adult BMI Assessment
- Weight Assessment and Counseling for Nutrition
- and Physical Activity for Children/Adolescents
- Childhood Immunization Status
- Colorectal Cancer Screening
- Breast Cancer Screening
- Cervical Cancer Screening
- Chlamydia Screening in Women
- Appropriate Testing for Children with Pharyngitis
- Appropriate Treatment for Children with Upper
- Respiratory Infection
- Avoidance of Antibiotic Treatment in Adults with
- Acute Bronchitis
- Use of Spirometry Testing in the Assessment and
- Diagnosis of COPD
- Use of Appropriate Medications for People with
- Asthma
- Cholesterol Management for Patients with
- Cardiovascular Conditions
- Controlling High Blood Pressure
- Persistence of Beta Blocker Treatment After a Heart
- Attack
- Comprehensive Diabetes Care
- Use of Imaging Studies for Low Back Pain
- Follow-Up Care for Children Prescribed ADHD
- Medication
- Antidepressant Medication Management
- Follow-Up After Hospitalization for Mental Illness
- Flu Shots for Adults Ages 50 – 64
- Medical Assistance with Smoking Cessation

The Access/Availability of Care domain contains measures that assess Sanford Health Plan members' access to care and whether those members are actually utilizing the

services available to them. Most of these measures include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Access and Availability measures included in HEDIS report are:

- Adults' Access to Preventive/Ambulatory Health
- Services
- Children and Adolescents' Access to Primary Care
- Practitioners
- Initiation and Engagement of Alcohol and Other Drug
- Dependence Treatment
- Prenatal and Postpartum Care
- Call Abandonment
- Call Answer Timeliness

Sanford Health Plan has developed a prospective disease-specific approach to the management of a member's chronic medical conditions. The emphasis of these programs is disease prevention and wellness education for targeted members and practitioners to improve the overall health, wellness and quality of the member's life. The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between their primary care practitioners. Additionally, Practitioners receive program details and condition-specific guidelines.

Congestive Heart Failure Disease Management Program

- Provides educational materials on appropriate treatment and management.
- Topics include treatment plans, sodium intake, nutrition, medication use, exercise and activity, tips for family, lifestyle changes and advance care planning.
- Members receive quarterly mailings and nurse phone support.

Diabetes Disease Management Program

Eligible members for the Diabetes Disease Management Program are identified through:

- ✓ Claims (at least one of the following):
  - o Dispensed insulin or oral hypoglycemics/antihyperglycemics
  - o Two face-to-face encounters with different dates of service in an ambulatory setting or non-acute inpatient setting
  - o One face-to-face encounter in an acute inpatient or emergency room setting
- ✓ Health Risk Assessment/health Screening results
- ✓ Other information: collected from case management or utilization management
- ✓ Practitioner or self referral

Members of all ages who meet these criteria are eligible for the program. This determination of eligible members occurs on a monthly basis.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the Diabetes Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program.

The initial program information packet includes an outline of how to use the program's services, a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services (see below for details) as well as details on quarterly mailings which include a wide range of educational materials

Program Participation and Participation Rates

This program consists of an involuntary participation or an opt-out process. Eligible members receive the initial program mailing accompanied by a Non Participant Form. If the member chooses not to participate in the program, they must complete non participant form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program. Members are considered actively enrolled when they have at least one interactive contact in which the member receives self management support or health education. Interactive contact is a two-way interaction in which the member receives self management support or health education by one of the following modes:

- Mail – interactive communication that provides self management support or health education that was requested by the member; communication in the form of a member survey, quiz or assessment of member knowledge gained from reading the communication.
- Phone – in person contact (individual or group)
- Online contact – interactive web based module, secure email.

Note: health education or self management support given during the course of a health risk appraisal or health assessment is considered an interactive contact.

Interactive contact does **not** include:

- completion of health risk appraisal
- contacts made only to make an appointment, leave a message or acknowledge receipt of materials.

An Access database is maintained of eligible members who remain enrolled in the Diabetes Disease Management Program. The program's active participant rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members divided by the total number of eligible members with at least one interactive contact.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the Diabetes Disease Management Program is stratified based on risk factors identified via the HRA, through noncompliance with the HEDIS measures or by an inpatient stay for diabetes. Enrolled members are stratified as high, moderate/low risk by the Quality RN based on an HRA scoring tool or other claims related information. The stratification process is completed at least annually to determine if there are any members whose stratification status should change for the next year's round of program mailings. The stratification level identification for each member is documented in bWell to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Stratification *(Interventions must be implemented based on each stratification level.)*

Interventions are implemented based on the member's identified stratification level. Those members in the moderate/low risk category are mailed general education on a quarterly basis. This information includes topics such as blood sugars, eating right, medications, exercise, recommended tests and more.

High risk members receive all of the above interventions in addition to calls from a Care Management nurse every 3 to 6 months or more frequently as needed. (example: case of inpatient hospitalization or other chronic comorbid conditions.) Members who were not in compliance with any one or more of the HEDIS measure's indicators are pulled into a report, which is sent to the member's identified practitioner to notify them of their noncompliance with one or more of the HEDIS indicators. High risk members receive a phone call from the Quality RN.

Enrolled members may reach a Registered Nurse toll-free at 1-800-805-7938 or (605) 328-6807 for any questions concerning the Disease Management Program, medical benefits or other issues of concern.

All interventions implemented are tracked by date and type in bWell TX to allow for reporting. Details of specific telephonic interventions are documented in the nurses' notes screens of the bWell.

Condition Monitoring *(Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)*

Members and practitioners are provided with information regarding the recommended clinical practice guidelines to be followed for diabetes management.

Standards of Medical Care for Patients With Diabetes Mellitus - American Diabetes Association.

These guidelines are a resource for members and practitioners to assess how well they are managing their diabetes care.

The Care Management nurse assists high risk level members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their diabetes management.

Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.)

Monitoring patient adherence to the Diabetes Disease Management Program's treatment plans includes a variety of activities. On an annual basis, the Comprehensive Diabetes Care HEDIS measure is analyzed to determine members who were not in compliance with any one or more of the HEDIS measure's indicators and are pulled into a report. These reports are sent to the member's identified practitioner to notify them of their noncompliance with one or more of the HEDIS indicators. These high risk diabetics are monitored through the Care Management nurse's telephonic interventions to discuss compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities including checking their blood sugar levels and compliance with appropriate lab test recommendations.

Medical and Behavioral Comorbidities

High risk level enrolled members are screened for coexisting medical and behavioral conditions, including heart disease, hypertension, elevated cholesterol, kidney disease, etc., through the Care Management nurse contacts. The Care Management nurse then directs educational and telephonic interventions towards these coexisting conditions.

Health Behaviors *(e.g., goal-setting techniques, problem solving. Program content is consistent with clinical practice guidelines.)*
Targeted mailings and telephonic interventions, to the member regarding diabetes, address various lifestyle issues including diet, exercise, smoking cessation, medication compliance and other clinical practice guideline compliance including lab tests, foot care and office visits. These interventions comply with the American Diabetes Association clinical practice guidelines to ensure appropriate quality of care.

Psychosocial Issues

The Care Management nurse identifies potential psychosocial issues that could be significant in the management of Diabetes and any other conditions. Interventions are adjusted to address any issues identified as well as educating the member about their condition beyond just have general knowledge about their condition and adherence to a treatment plan. The following are psychosocial issues which can play a part in adherence:

- Beliefs and concerns about the condition and treatment

- Perceived barriers to meeting treatment requirements
- Access, transportation and financial barriers to obtaining treatment
- Cultural, religious and ethnic beliefs

Depression Screening

Depression screening results from the health risk assessment are reviewed by the Care Management nurse. Members who screen positive for depression are provided with educational resources and are referred to a primary care practitioner for further evaluation and treatment.

Providing Information to the Caregiver

If the member grants permission, information about their condition and treatment plan will be given to the caregiver. This information can be helpful for the caregiver to provide the appropriate support and care to the member. This information should include the type and methods of support a caregiver can provide.

Supporting Communication between Patient and Practitioner

An important aspect of care is the ongoing communication of the member's condition and adherence to treatment. Program materials provided to members address the importance of the communication with healthcare practitioners and provide helpful methods of ways to communicate with them.

Informing and Educating Practitioners about the Program

Sanford Health Plan practitioners are informed and educated on the Diabetes Disease Management Program. Information is published annually in provider newsletters and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are also provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the Diabetes Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Satisfaction with Disease Management

A program satisfaction survey is conducted annually to assist in determining additional resources needed and adjustments that may need to be made to the operations of the program. Disease management program inquiries and complaints are also reviewed and

analyzed quarterly in the Sanford Health Plan Quality Committee. The purpose of the review is to identify patters of inquires and complaints as well as improving satisfaction with the DM program

Measuring Effectiveness *(Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures.)*

Performance measures are tracked for the Diabetes Disease Management Program to measure the effectiveness of the program. For this specific program, the Comprehensive Diabetes Care HEDIS measures are used as indicators of the program's performance to ensure a valid methodology and reliable data. These measures include the identified eligible population according to HEDIS specifications. These quantitative measures are analyzed in comparison to national NCQA Quality Compass averages as benchmark rates and the Plan's past performance.

The participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Hypertension Disease Management Program
Eligible members for the Hypertension Disease Management Program are identified through:

- ✓ Claims :
  - o two or more claims with a primary or secondary diagnosis of Hypertension (ICD-9 CM Codes 401.XX).
- ✓ Health Risk Assessment/health Screening results
- ✓ Other information: collected from case management or utilization management
- ✓ Practitioner or self referral

Eligible members for the Hypertension Disease Management Program are at least 18 years of age and meet the above criteria. This determination of eligible members occurs at least monthly.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the Hypertension Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program after a period of 30 days.

The initial program information packet includes an outline of how to use the program's services, a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services as well as details on quarterly mailings which include a wide range of educational materials on topics such as: detection and diagnosis, risk factors, monitoring blood pressure, nutrition and weight control, tobacco cessation, physical activity, stress management, medications and treatments and more.

Program Participation and Participation Rates

This program consists of an involuntary participation or an opt out process. Members may choose to not participate in the program by completing and returning the Non Participant Form. If the member chooses not to participate in the program, they must complete non participant form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program after a period of 30 days. Members are considered actively enrolled when they complete and return the health risk assessment included with the initial information packet.

An Access database is maintained of eligible members who remain enrolled in the Hypertension Disease Management Program. The program's active participant rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members who remain enrolled in the program divided by the total number of eligible members identified in the first step of the eligible population identification, regardless of stratification level.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the Hypertension Disease Management Program is stratified based on risk factors identified via the HRA, through noncompliance with the HEDIS measures or by an inpatient stay for hypertension. Enrolled members are stratified as high or moderate/low risk by the Quality RN based on an HRA scoring tool or other claims related information. The stratification process is completed at least annually to determine if there are any members whose stratification status should change for the next year's round of program mailings. The stratification level identification for each member is added to the Access database of enrolled eligible members to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Stratification *(Interventions must be implemented based on each stratification level, although we are not required to intervene at every level.)*

Interventions are implemented based on the member's identified stratification level. Those members in the moderate/low risk category are mailed general education on a quarterly basis. This information includes topics such as detection and diagnosis, risk factors, monitoring blood pressure, nutrition and weight control, tobacco cessation, physical activity, stress management, medications and treatments and more.

High risk members receive all of the above interventions in addition to calls from a Quality Resource Registered Nurse every 3 months or more frequently as needed. (example: case of inpatient hospitalization or other chronic comorbid conditions.) Members who were not in compliance with the HEDIS measure's indicator are pulled into a report, which is sent to the member's identified practitioner to notify them of their noncompliance. High risk members receive a phone call from the Quality RN.

Enrolled members may reach a Registered Nurse toll-free at 1-800-805-7938 or (605) 328-6807 for any questions concerning the Disease Management Program, medical benefits or other issues of concern.

All interventions implemented are tracked by date and type in an Access database to allow for easy reporting. Details of specific telephonic interventions are documented in the nurses' notes screens of the Plan's computer system.

Condition Monitoring (Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)

Members and Providers are provided with information regarding the Seventh report of the Joint National Committee on Prevention, Detection, Evaluation and Treatment of High Blood Pressure to be followed for hypertension management. This guideline is to assist them in assessing how well they (Members and Providers) are managing their care.

The Quality Resource RN assists high risk members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their Hypertension management.

Patient Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.) Monitoring patient adherence to the Hypertension Disease Management Program's treatment plans includes a variety of activities. High risk members are monitored through RN telephonic interventions to determine compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities and compliance with other appropriate recommendations. Adherence to treatment plans may also be monitored by the RN through analysis of a member's Health Risk Assessment responses.

Consideration of Other Health Conditions

High risk level enrolled members are screened for coexisting medical and behavioral conditions through the Quality Resource RN contacts. The Quality Resource RN then directs educational and telephonic interventions towards these coexisting conditions. In addition, members are provided information regarding smoking cessation. This information is designed to bring about awareness of the state smoking cessation programs.

Lifestyle Issues as Indicated by Practice Guidelines (e.g., goal-setting techniques, problem solving. Program content must be consistent with clinical practice guidelines) Targeted mailings and telephonic interventions to the member regarding Hypertension address various issues including medication compliance, stress management, hypertension warning signs and complications, exercise, weight management, nutrition and more. These interventions comply with the Joint National Committee on Prevention, Detection, Evaluation and Treatment of High Blood Pressure.

Informing and Educating Providers about the Program
Sanford Health Plan practitioners are informed and educated on the Hypertension Disease Management Program. Information is published annually in provider newsletters and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are also provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the Hypertension Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Measuring Effectiveness (Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures. NCQA recognizes that the population may not exactly match the population of the program, but it is an acceptable substitute.)

Performance measures are tracked for the Hypertension Disease Management Program to measure the effectiveness of the program. For this specific program, the percentage of Members with Confirmed Hypertension who had Controlled Blood Pressure HEDIS measure is used as an indicator of the program's performance to ensure a valid methodology and reliable data. This measure includes the identified eligible population according to HEDIS specifications. The quantitative measure is analyzed in comparison to national NCQA Quality Compass Averages as a benchmark rate and to the Plan's past performance rates.

The active participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Congestive Heart Failure

Eligible members for the CHF Disease Management Program are identified through:

- Claims: two or more claims (any type of service) with a primary or a secondary diagnosis of CHF (ICD-9 CM diagnosis codes 428.xx) and a claim indicating that an ejection fraction has been evaluated.
- Health Risk Assessment/Health Screening results
- Other information: collected from Care Management or Utilization Management
- Practitioner or self referral

Members of all ages who meet these criteria are eligible for the program. This determination of eligible members occurs on a monthly basis.

Providing Eligible Members with Written Program Information

Eligible members are sent a program information packet which includes a health risk assessment. Members may choose to not participate in the program by completing and returning the Non Participant Form which is included in the program information packet. Members who choose this option will be removed from the program mailing list and will not be considered enrolled in the CHF Disease Management Program. Members who do not return the Non Participant form are automatically considered enrolled in the program.

The initial program information packet includes an outline of how to use the program's services which includes a health risk assessment, the types of interventions that are involved, how to contact the Plan regarding any questions related to the program or its services (see below for details) as well as details on quarterly mailings which that include a wide range of educational materials.

Program Participation and Participation Rates

This program consists of an involuntary participation, or an opt-out process. Eligible members receive the initial program mailing accompanied by a Non Participant Form. If the member chooses not to participate in the program, they must complete the form and return it to Sanford Health Plan in the provided postage paid envelope. Eligible members who do not return this form are automatically considered enrolled in the program. Members are considered actively enrolled when they have at least one interactive contact in which the member receives self management support or health education. Interactive contact is a two-way interaction in which the member receives self management support or health education by one of the following modes:

- Mail – interactive communication that provides self management support or health education that was requested by the member; communication in the form of a member survey, quiz or assessment of member knowledge gained from reading the communication.
- Phone – in person contact (individual or group)
- Online contact – interactive web based module, secure email.

Note: health education or self management support given during the course of a health risk appraisal or health assessment is considered an interactive contact.

Interactive contact does **not** include:

- completion of health risk appraisal
- contacts made only to make an appointment, leave a message or acknowledge receipt of materials.

An Access database is maintained of eligible members who remain enrolled in the CHF Disease Management Program. The program's active participation rates are calculated on an annual basis and reported in the Annual Quality Improvement Program Evaluation. This participation rate is calculated as the number of eligible members divided by the total number of eligible members with at least one interactive contact.

Population Stratification *(Stratification classifies eligible members according to severity or other clinical criteria based on available clinical data. This is a dynamic process, and a level can change as a member's condition changes.)*

The eligible member population that remains enrolled in the CHF Disease Management Program is stratified based on results from a health risk assessment, and pharmaceutical claims data to identify members who utilize an ACE Inhibitor/ARB/beta blocker (low risk) and those members that do not (high risk). Another high risk identifier is inpatient hospitalization for CHF. The stratification process is completed at least annually for currently enrolled members to determine if there are any members whose stratification status should change. The stratification level identification for each member is documented in bWell TX to allow for separate lists to be pulled for the purposes of interventions based on specific stratification levels.

Interventions Based on Assessment *(Interventions must be implemented based on each stratification level.)*

Interventions are implemented based on the enrolled member's identified stratification level. Those members in the low risk category are mailed general educational materials on a quarterly basis. These quarterly mailings include information on: medications, nutrition, following a treatment plan, exercise and activity, managing other chronic conditions, lifestyle issues advance care planning and depression. Some educational materials are available in other languages and can be requested by the member.

High risk members receive all of the above interventions in addition to phone calls from a Care Management nurse on an annual basis or more frequently as needed (example: case of an inpatient hospitalization). The Care Management nurse discusses medication compliance and the importance of ACE Inhibitor utilization along with other recommended practice guidelines for the management of CHF. If applicable, the nurse will also send a notification letter to the member's practitioner to notify them that the member is not utilizing an ACE Inhibitor/ARB/beta blocker so that they may review the member's status and determine if an ACEI/ARB/beta blocker is warranted in their particular situation.

Members in all stratification levels may reach a nurse toll-free at 1-888-315-0884 or 328-6868 for any questions concerning the CHF Disease Management Program. For other issues of concern or medical benefits questions, contact Member Services at 1-800-752-5863 or 328-6800.

All interventions implemented are tracked by date and type in bWell to allow for reporting. In addition, comments regarding contact with members are also documented bWell.

Condition Monitoring *(Mechanisms that allow the patient or practitioner to assess how well a condition is being managed.)*

The national guidelines state that proper medical treatment for patients with heart failure due to left ventricular systolic dysfunction is the prescription of an angiotensin-enzyme inhibitor (ACEI)/ARB/beta blocker. This practice recommendation has been defined in guidelines issued by Heart Failure Society of America: Journal of Cardiac Failure.

Sanford Health Plan recommends the utilization of these guidelines to assist in the management and monitoring of CHF patients.

The Care Management nurse assists high risk level members in monitoring their condition to assess how well they are managing their care and makes recommendations regarding visits with their practitioner to discuss their CHF management, especially ACE Inhibitor/ARB/beta blocker utilization.

Adherence to Treatment Plans (A treatment plan is the outline for all activities/ interventions in the program. Patient adherence to the treatment plans outlines how we track member self-management including the member's adherence to self-monitoring activities; adherence to medications, if appropriate; making needed visits; etc.)

Monitoring patient adherence to the CHF Disease Management Program's treatment plans includes a variety of activities. High risk members with heart failure are monitored through the Care Management nurse's telephonic interventions to determine compliance with recommended treatment guidelines including medication compliance, keeping appointments, compliance with self-monitoring activities and compliance with appropriate lab test recommendations.

Medical and Behavioral Comorbidities

High risk level enrolled members are also screened for any other coexisting medical and behavioral conditions, including diabetes, heart disease, COPD, asthma, cardiac procedures, etc., through the Care Management nurse contacts and any information provided on a health risk assessment or health screening. The Care Management nurse then directs educational and telephonic interventions towards these coexisting conditions.

In addition to this, one of the program's quarterly mailings will be devoted to information on coexisting conditions.

Health Behaviors *(e.g., goal-setting techniques, problem solving. Program content must be consistent with clinical practice guidelines.)*
Targeted mailings and telephonic interventions, to the member regarding CHF, address various lifestyle issues including diet/weight management, smoking cessation, medication compliance and other clinical practice guideline compliance including lab

tests and office visits. These interventions comply with standard clinical practice guidelines (stated above) to ensure appropriate quality of care.

Psychosocial Issues

The Care Management nurse Identifies potential psychosocial issues that could be significant in the management of CHF and any other conditions. Interventions are adjusted to address any issues identified as well as educating the member about their condition beyond just having general knowledge about their condition and adherence to a treatment plan. The following are psychosocial issues which can play a part in adherence:

- Beliefs and concerns about the condition and treatment
- Perceived barriers to meeting treatment requirements
- Access, transportation and financial barriers to obtaining treatment
- Cultural, religious and ethnic beliefs

Depression Screening

Depression screening results from the health risk assessment are reviewed by the Care Management nurse. Members who screen positive for depression are provided with educational resources and are referred to a primary care practitioner for further evaluation and treatment.

Providing Information to the Caregiver

If the member grants permission, information about their condition and treatment plan will be given to the caregiver. This information can be helpful for the caregiver to provide the appropriate support and care to the member. This information should include the type and methods of support a caregiver can provide.

Supporting Communication between Patient and Practitioner

An important aspect of care is the ongoing communication of the member's condition and adherence to treatment. Program materials provided to members address the importance of the communication with healthcare practitioners and provide helpful methods of ways to communicate with them.

Informing and Educating Practitioners about the Program

Sanford Health Plan practitioners are informed and educated on the CHF Disease Management Program. Information is published annually in the provider newsletter and is included in the Provider Manual and on the Health Plan website at www.sanfordhealthplan.com.

The program information provided to practitioners includes instructions on how they or their Sanford Health Plan patients may access the disease management services offered by the program. Practitioners are provided information on how the Plan works with their Sanford Health Plan patients in the program to monitor their self-management activities, diet and weight management, compliance with medication, compliance with clinical practice guideline recommended visits and tests and relevant test results.

Practitioners are instructed to contact the Sanford Health Plan Quality department at 1-888-315-0884 or 328-6868 for any questions concerning the CHF Disease Management Program. Questions about medical benefits or other issues should be directed to Member Services at 1-800-752-5863 or 328-6800.

Satisfaction with Disease Management

A program satisfaction survey is conducted annually to assist in determining additional resources needed and adjustments that may need to be made to the operations of the program. Disease management program inquiries and complaints are also reviewed and analyzed quarterly in the Sanford Health Plan Quality Committee. The purpose of the review is to identify patters of inquires and complaints as well as improving satisfaction with the DM program

Measuring Effectiveness *(Audited HEDIS results that are specifically relevant to the condition addressed are considered appropriate measures. NCQA recognizes that the population may not exactly match the population of the program, but it is an acceptable substitute.)*

Performance measures are tracked annually for the CHF Disease Management Program to measure the effectiveness of the program. For this specific program, the ACE Inhibitor/ARB/beta blocker utilization rate is measured for the eligible enrolled population. The inpatient hospitalization rate is also measured for this population. These quantitative measures are analyzed in comparison to the Plan's past performance and national benchmarks, when available.

The active participation rates, performance rates measured, analysis completed and interventions implemented are tracked in an NCQA Quality Improvement Activity Form to assist the Plan's Quality Improvement staff in ensuring that all necessary steps are completed.

Additionally, Sanford Health Plan has also implemented several quality improvement activities.

Asthma

- An Asthma Tool Kit that includes information on triggers, formal asthma education, proper medication use, action plans, smoking cessation, online resources and more.
- A FREE peak flow meter and a spacer to help manage their asthma.
- Phone calls from caring nurses in the event of medication-compliance issues. The nurses may also notify the member's healthcare practitioner.

Attention Deficit/Hyperactivity Disorder (ADHD)

- A one-time mailing that includes fact sheets, age-specific and up-to-date information on ADHD symptoms and treatments.
- Guidelines regarding recommended follow-up care.
- Tools to track progress of ADHD treatments.

Headaches
Members diagnosed with chronic headaches can find on our website a variety of resources including tools to help identify triggers, symptom trackers, action plans, and more.

Mental Health
Targeted follow-up can make a positive difference for members who struggle with mental health problems. Sanford Health Plan provides:

- Follow-up education immediately after discharge from a mental health facility and a reminder by letter and by phone to keep follow-up appointments.
- Education on antidepressant medications for members with a new prescription.
- Notification to practitioners when their patients who recently started taking antidepressant therapy have stopped filling their prescriptions.

Healthy Pregnancy Program
The Healthy Pregnancy Program helps identify concerns early so that members and their healthcare practitioner can take steps to ensure a healthy pregnancy.

- A health risk assessment to identify any special needs and to customize your educational materials.
- Education materials on nutrition, lifestyle, prenatal testing, exercise, stress, fetal development, breast feeding, postpartum care, childhood immunizations and more.
- Nurse phone support as needed.

Adolescent Health
Sanford Health Plan opens the door to targeted, comprehensive care for our adolescent members, including:

- A reminder to parents to schedule an annual well care visit for their adolescent. A well care visit covers much more than an athletic physical. It addresses a wide range of topics that can best address the health of your adolescent.
- Members turning 11 and 12 receive birthday cards with immunization reminders.
- Useful information on almost any teen topic on our KidsHealth link on our website at www.sanfordhealthplan.org

44. Are you willing to customize your care management/DM programs and services for NDPERS? If so, please explain and provide an example.

Yes, Sanford Health Plan is willing to customize care management programs to specifically meet the NDPERS population management needs.

45. Describe the programs offered to patients with rare and chronic diseases. Is this program outsourced? Who is the current vendor?

As described above, Sanford Health Plan provides in-house complex case management services which often includes patients with comorbid conditions and/or rare and chronic diseases.

SANFORD HEALTH PLAN

46. Describe in detail your ability to provide on-line wellness programs. Compare it to the existing program presently in the NDPERS program (see our website). Specifically identify any deviations from the existing program.

Our Team

Sanford Health Plan's Worksite Wellness team has the depth and breadth of resources to help your organization achieve its wellness goals. Currently, our Business and Wellness Development Coordinator leads a team of Wellness Educators with education in nutrition & public health, exercise science & strength training, holistic wellness & Yoga, tobacco cessation and behavior change. Half of the wellness team holds a graduate degree in their area of specialty. All have all been trained as certified health and wellness coaches through Wellcoaches® and as tobacco cessation educators through the Minnesota American Lung Association.

Our Life Advocates and Licensed Social Workers, complements the team by providing resource referrals for psychosocial issues such as emotional, financial, interpersonal and personal needs. Our screening education team, Partners in Prevention, coordinates appropriate health screens with local provider partners with the goal of prevention in mind.

Our Approach

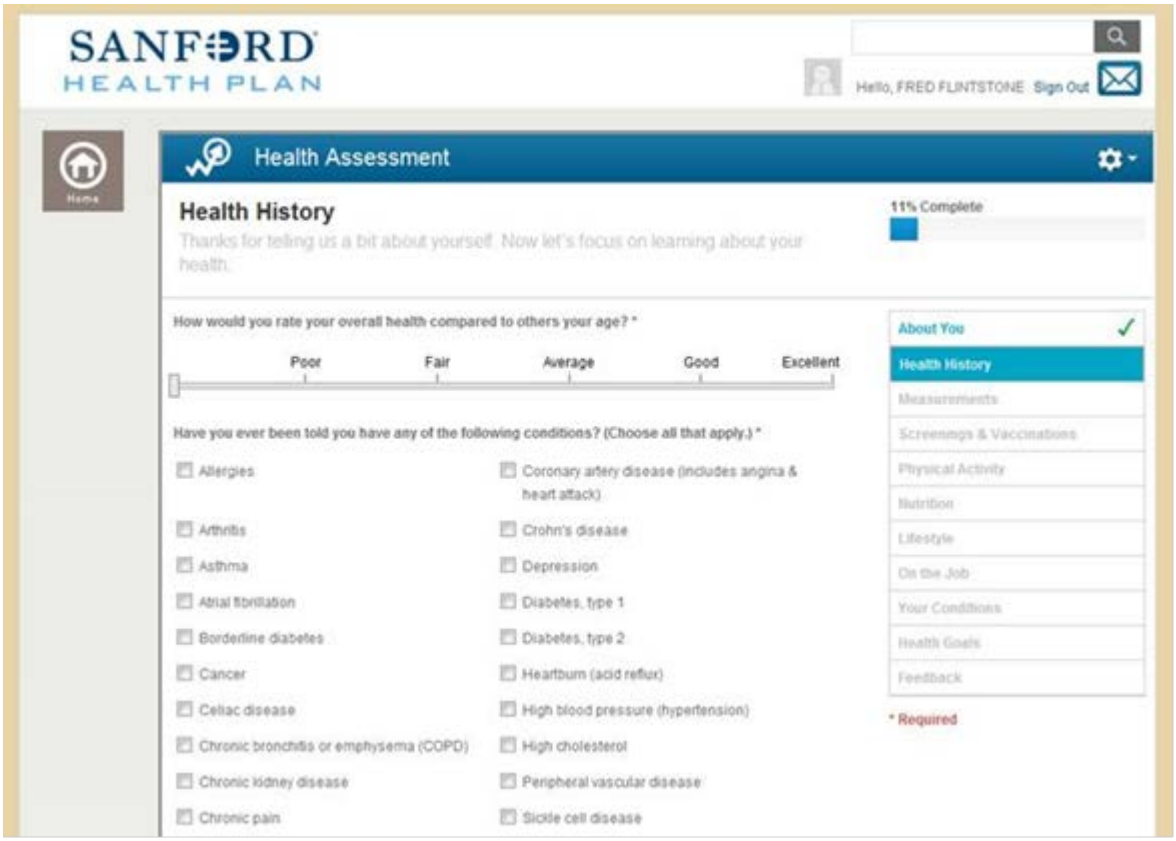
While the NDPERS employees would have a designated team member assigned to deliver wellness programming, all members of the team would be available to support the wellness initiatives of NDPERS. Our Worksite Wellness team works collaboratively based on the needs and interests of the group to deliver risk-based programs geared to decrease the health risks of the population, improve health literacy and impact behaviors that promote healthy lifestyles.

We work from a consultative model because we know one size does not fit all when it comes to worksite wellness programs. Our team works closely with employer wellness coordinators and wellness teams/committees to understand the culture and the best ways to message, implement and evaluate wellness programming. We have expertise in helping our clients start wellness teams and once they are started, we continue to play an active role. With larger clients with locations in multiple states, we host a regularly scheduled call/Webinar with representatives from their various wellness teams to share best practices, provide an opportunity to exchanges ideas and to make sure the company's wellness vision is being implemented in all locations. We would also provide special continuing education calls/Webinars for wellness coordinators to help them develop strategies to increase participation and engagement at the local level.

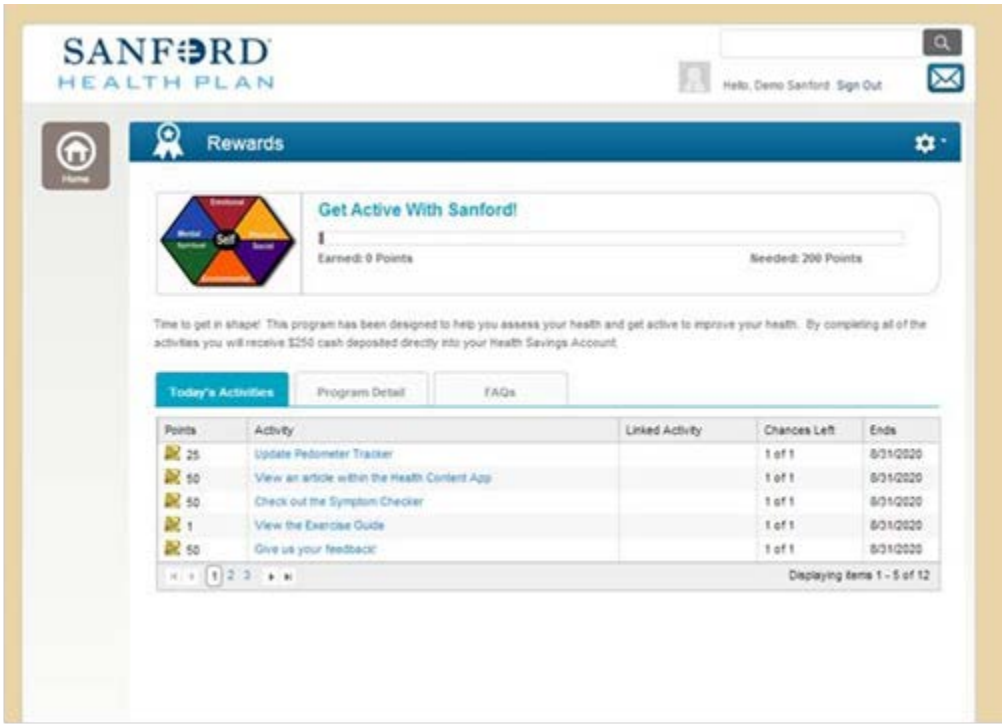
Our Online Resources

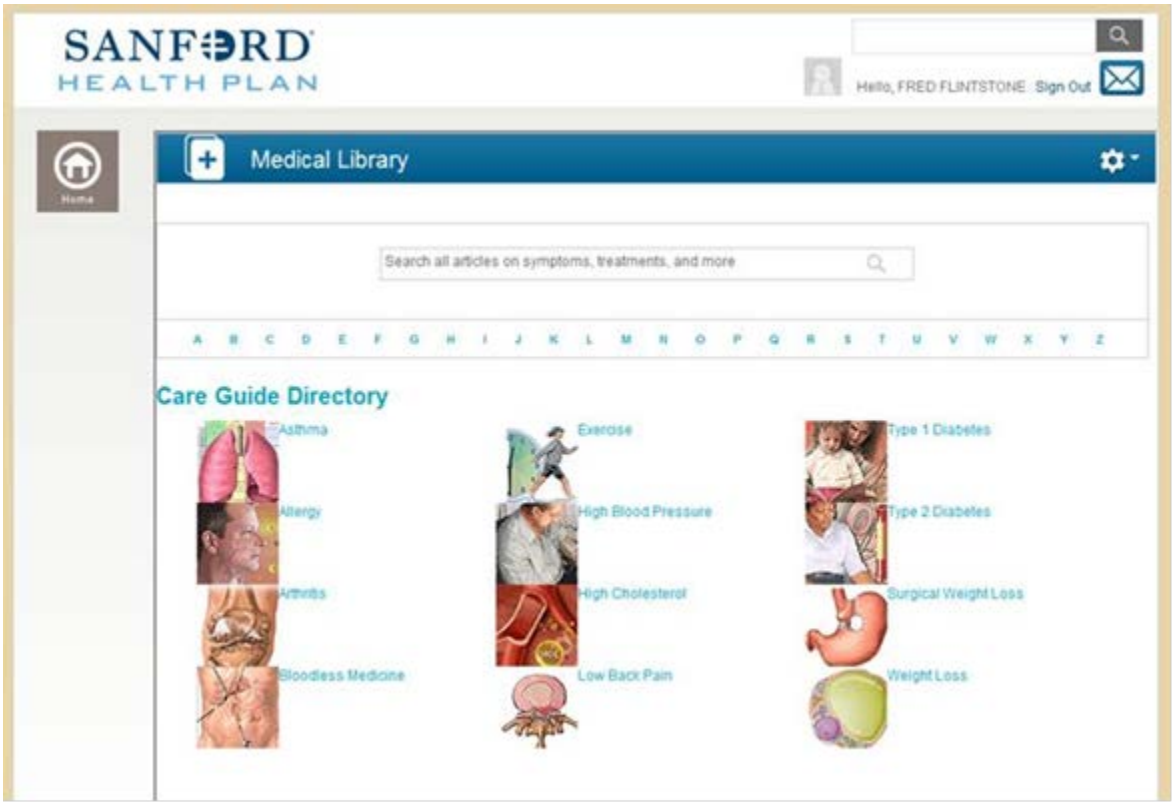
Our online health management tool, bWell, complements the expertise of our Worksite Wellness team. bWell is an interactive, web-based health management system. Using the personalized health tools and information on bWell can help individuals improve their health and make more informed healthcare decisions. The Health Assessment calculates health age, determines risk levels for serious conditions and provides feedback regarding how health habits can be improved. A medical library, medicine cabinet, and trackers for health behaviors are additional resources available in our bWell portal. Below are a few screen shots of these resources:

SANFORD HEALTH PLAN

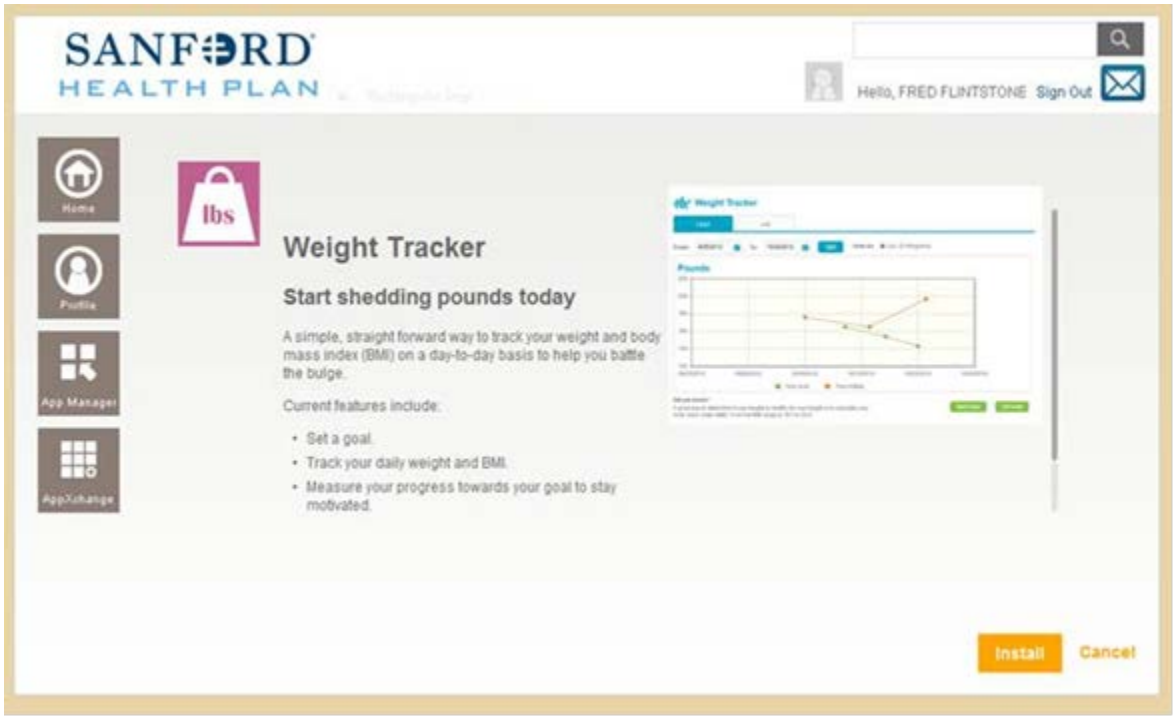


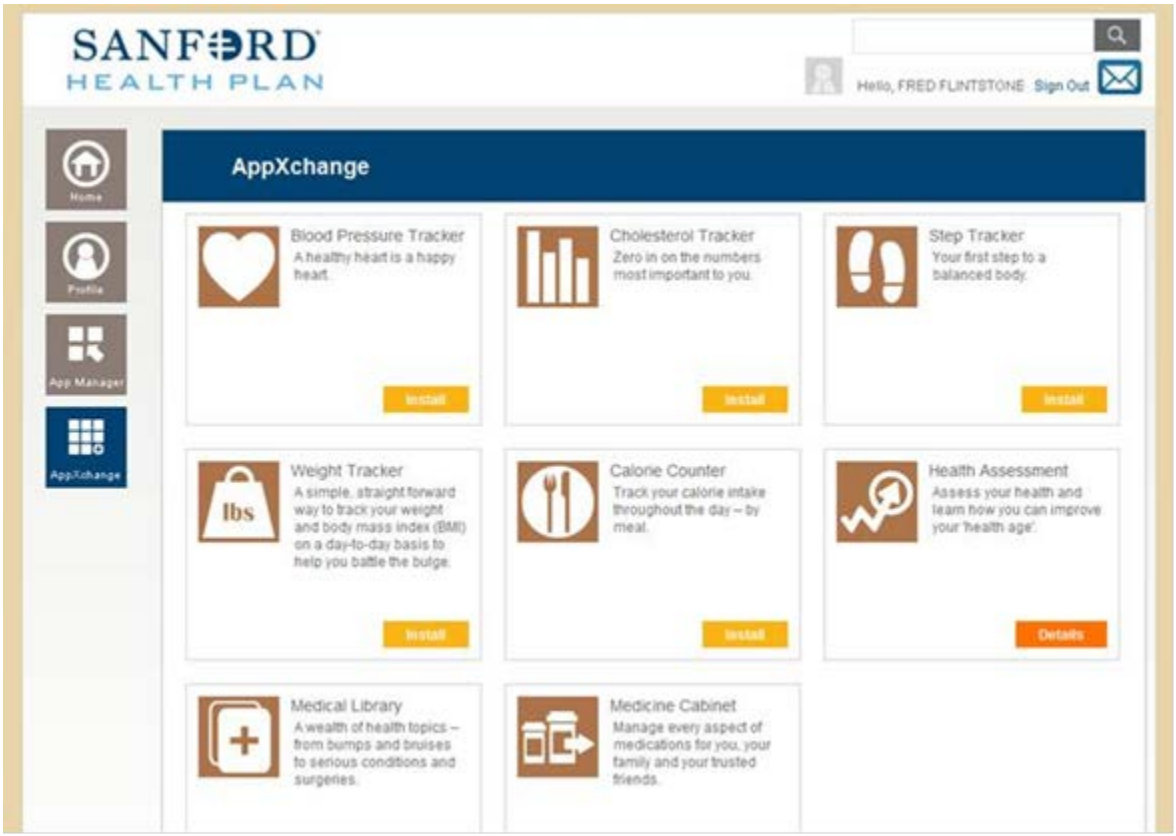
SANFORD HEALTH PLAN

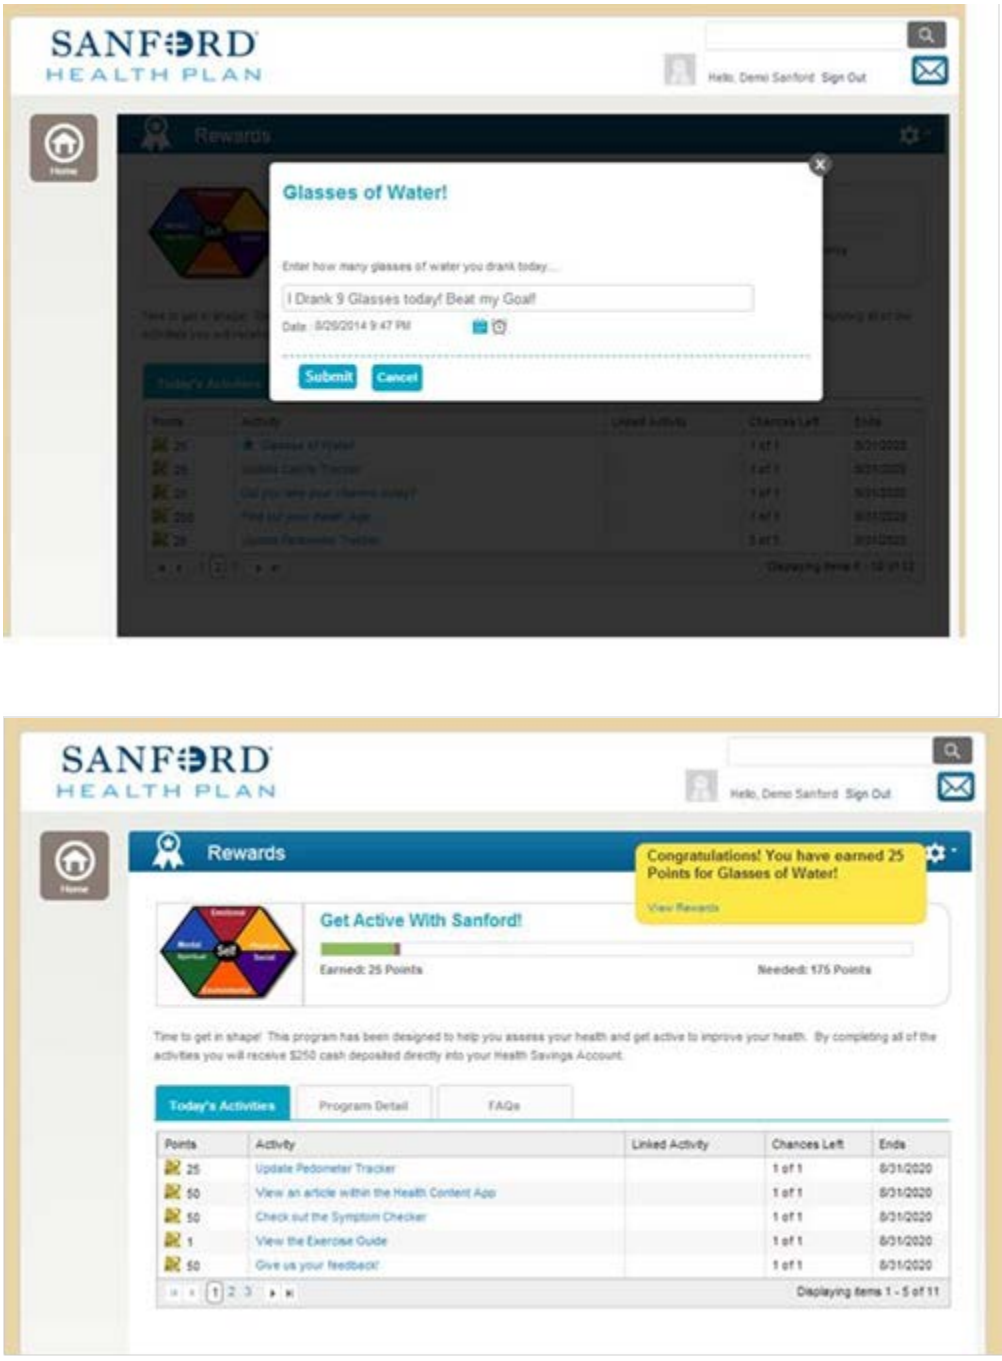




SANFORD HEALTH PLAN







These resources work in concert to empower participants to take charge of their health. Individuals who complete a Health Assessment are invited to participate in telephonic or email wellness coaching if they desire help in achieving their wellness vision.

Our Commitment to Outcomes

We know our clients want results so we work hard to get the best engagement possible. Messaging and marketing are at the heart of any successful health promotion program. The power of a fully articulated health promotion messaging strategy coupled with a committed

wellness team/committee can make a huge difference in participation. Although the Health Plan does provide some incentives for participation, e.g. pedometers, water bottles, resistance bands, cinch bags, etc. we have found the best way to increase participation is to help our clients build a culture of wellness and to continually communicate this message. The greater the participation and engagement in wellness programming, the better the population sample, which empowers you to see the impacts of your wellness program on your population's health. Sanford Health Plan provides aggregate group reporting whether it's for an annual Health Risk Assessment campaign, a physical activity or nutrition wellness challenge, or participation in our wellness Webinars. We partner with our clients to help them achieve and surpass their participation goals and then provide the resources to help participants improve and sustain their health outcomes.

bWell Online Health Management Tool

- Health Assessment
  - Learn risks for chronic conditions
  - Receive feedback on lifestyle choices
  - Discover "Health Age" compared to real age
- Medical Library
- Pharmacy
  Health Trackers
- Aggregate Reports

Preventive Health Screens
- Annual biometric screen (height, weight, blood pressure, glucose, cholesterol panel)
- Opportunities for other onsite health screens based on demographics and risk

Partnership with Employee Wellness Team/Committee
- Act as consultant
- Facilitate bWell Health Assessment biometric screen promotion & data collection
- Assist with development of worksite wellness plan, goal-setting and measurement
- Provide resources to support goals

Employer Wellness Incentive Program Administration
- Assist with wellness incentive program development
- Promote wellness incentive program to employees
- Provide incentive payout reporting quarterly or annually

Wellness Group Activity
- Online Wellness Challenges
- Physical Activity
- Nutrition
- Stress Management
- Tailored based on need

GoToMeeting/Webinars on Health & Wellness Topics, some examples include:

- Promoting bWell
- Reading Nutrition Labels
- Portion Sizes
- Dietary Guidelines
- Stretching Techniques
- Stress Management
- Behavior Change
- Tobacco Cessation Education

Wellness Coaching Program Development

- 1-1 telephonic/email wellness coaching based on individual readiness
- Focus on intrinsic motivation and behavior change

Health Notions

- Monthly newsletter

47. Describe Wellness incentives you offer. Compare and contrast that with the existing incentives.

Sanford Health Plan is committed to design a wellness program that fits the needs of NDPERS. Our wellness programs are not a one-size fits all and we currently customize programs that fit our clients' culture, demographics and strategic objectives. Additionally, Sanford Health Plan will work with the State to replicate and wellness incentives that meets the state's overall health and wellness goals.

48. Describe your ability to support PERS Wellness initiatives by providing the administrative services for:

a. Tobacco Cessation program
b. PERS Diabetes Program
c. Dedicated Wellness Program Staff
d. Prenatal Program

As described above, Sanford Health Plan is capable of supporting Tobacco Cessation Programs, Diabetes programs and Healthy Pregnancy program through its dedicated wellness program staff.

49. Describe your ability to support the employer based wellness program and the wellness benefit funding program (see our website).

Sanford Health Plan commits to administer an employer based wellness program configured to reward participating employers to receive a 1% health insurance premium discount for promoting wellness initiatives for their employees at their worksite.

This program would be administered through our existing WordDoc *Health eRewards* online tool as described in #46 above. While the look and feel of the program may be

different, the functionality will closely mimic the existing program where employers that participate in the NDPERS Group Health Insurance Plan have the opportunity to enroll in the employer based wellness program on an annual basis. Sanford Health Plan will appoint a Wellness Coordinator to perform the following services:

- Coordinate and attend the Employer Wellness Workshops;
- Distribute communication materials to employer's employees on a monthly basis and promote the PERS Tobacco Cessation Programs;
- Implement the Wellness Program during plan year; and
- Report at plan year-end the results of wellness activities

Network Accessibility and Disruption

50. We are requesting that vendors provide a GeoAccess network accessibility and disruption analysis outlining network access based on the access standards listed below separately by North Dakota County. If you are proposing a combination of owned and leased networks, please provide your results separately by network. This GeoAccess analysis must be provided for your proposed NDPERS network. A census file has been provided in Appendix E for your use.

Provider Type	Access
Primary Care Providers (family/general practice, pediatrics, internal medicine and OB/GYN)	2 providers within 30 miles
Specialists	2 providers within 30 miles
Hospitals	1 hospital within 50 miles

Please provide the GeoAccess summaries in the table below as well as back-up detail (back-up detail on CD submission only) for employees who fall both within and outside the following access standards. Your match should include all valid zip codes in each of the counties in North Dakota that your network serves and in which participants reside. In addition, you should include only open practices in your analysis.

Percent of NDPERS Employees Meeting the Access						
Provider Type	**Family/ General Practice**	**Pediatrics**	**Internal Medicine**	**OB/GYN**	**Specialists**	**Hospital**
North Dakota						
County 1						
County 2						
County 3						

Sanford Health Plan owns and maintains its own network in South Dakota, Minnesota, Iowa, North Dakota and Nebraska consisting of nearly 15,000 providers. Sanford Health Plan is proud that we have retained 99.9% of its contracted providers over the past few

years. The market experiences about a 5% turnover in available providers on an annual basis as providers either retire or move out of the area.
Please note that the proposed Sanford Health Plan network for NDPERS does not include the Essentia Health provider network.

Please refer to the following attachments:

- **Attachment H** – GeoAccess report illustrating NDPERS locations relative to Sanford Health Plan's local, proprietary commercial network which primarily consists of the four state region of South Dakota, Minnesota, Iowa and North Dakota.

- **Attachment I** – GeoAccess report illustrating NDPERS employee locations relative to Sanford Health Plan's national provider network, MultiPlan.

- **Attachment J** – GeoAccess report illustrating NDPERS employee locations relative to the Preferred One regional PPO network.

- **Attachment K** – Provider Access Standard by county report that illustrates the percent of NDPERS Employees that meet the access standard.

- **Attachment L –** Disruption Analysis report for professional and facility services. NOTE: THIS REPORT IS MARKED AS PROPREITY AND CONFIDENTIAL.

51. Provide a listing or provider directory and link to the web for the provider networks you are proposing for NDPERS.

Sanford Health Plan owns and maintains its own network in South Dakota, Minnesota, Iowa, North Dakota and Nebraska. There are nearly 15,000 Sanford Health Plan participating providers which may be found in our online directory at www.sanfordhealthplan.com. The online provider directory can produce a statewide directory or perform a search by provider name, location, or medical specialty. This website is updated weekly. Please refer to www.sanfordhealthplan.com

52. Identify and describe your national preferred provider organization.

For national coverage, Sanford Health Plan utilizes PHCS Healthy Directions and MultiPlan networks for members who live, work or travel outside of our service area and for students. Those providers can be located at www.multiplan.com.

The PHCS Network includes over 4,600 hospitals, 80,000 ancillary care facilities and 70,000 healthcare professionals. This ensures that members traveling, residing or outside of the network have access to the largest independent primary PPO in the nation. The PHCS Network has earned an endorsement for network quality from NCQA.

National average savings from PHCS Network are over 40% for practitioner and ancillary facility claims and over 90% of the practitioners in the PHCS Network are contracted under a fixed fee schedule arrangement, such as a DRG or Per Diem.

Current members can create a customized provider directory simply by logging into the website at www.sanfordhealthplan.com using their Member ID number and last name. This simple log-in will search the network(s) available to the individual based on their home address (i.e. Sanford Health Plan, PHCS Healthy Directions and MultiPlan, PreferredOne). For new hires or anyone else simply wanting to view the Sanford Health Plan network who does not have a Member ID, our website still displays the local Sanford Health Plan service area and national networks. This website is updated on a weekly basis and Sanford Health Plan conducts ongoing audits to ensure the validity of the information available to our members through the internet. However, Sanford Health Plan has worked with a variety of national wrap networks and is willing to accommodate networks arrangements that meet NDPERS' needs.

53. **Confirm your willingness to negotiate and maintain NDPERS-specific provider contracts to allow for cost control mechanisms and alignment of contract and plan years. Describe your process and approach for accomplishing this.**
Sanford Health Plan is committed to negotiate and maintain NDPERS-specific provider contracts and does not foresee any operational difficulty in completing this task prior to 7/1/15. We will assign regional Provider Relations Representatives to systematically meet with providers to amend existing provider contracts that align with the state's cost control needs.

54. **Do you anticipate any significant provider contract changes for 2015? Describe.**
Not at this time.

SANFORD HEALTH PLAN

Cost, Quality, and Pay for Performance

55. **Describe the programs and methodologies currently in place to gather and measure meaningful provider quality and efficiency data that can be shared with members.**
    Please refer to our HEDIS report in Attachment D for detailed information about our provider and quality measures.

56. **Describe in detail the performance standards you currently have in place with your contracted physicians, provider groups, hospitals, and other providers. Outline the types of measures utilized, how you monitor and track these measures, how providers are held accountable, and how frequently the data is compiled and shared with the physicians and provider groups.**
    Sanford Health Plan currently has the infrastructure in place to track and tie provider performance measures to a variety of reimbursement strategies. As described previously, Sanford Health Plan would welcome NDEPRS into a medical home model that meets the needs of state employees and NDPERS cost containment strategies. Performance standards using Sanford Health Plan's Patient and Population Management modules may include but are not limited to:

    - Patient risk stratification by medical condition and severity-of-illness.
    - Integration of patient "gaps-in-care" measures with the identified high-risk patients using unique, claims-based measures from nationally recognized organizations.
    - The ability to identify physicians involved in the treatment of the patient in the medical home model.
    - Identifying variables that contribute to the patient predictive risk score to effectively manage our patient population.
    - Ability to include lab values and other clinical results (e.g., blood pressure) that is extracted from the patient's electronic medical record.
    - The ability to focus on patients with "Repeat ER" and "Repeat Admissions" and determine the reasons behind these high-cost events.
    - Identifying the services most associated with physician inefficiency, by specialty type identified at either the overall or medical condition level for each specialty type.
    - Identifying common "markers" from national comparative datasets across regions, to provide the state with comparative rates for these "markers", at the 25th, 50th and 75th percentiles allowing the state to see not only where a physician's rates are as compared to their peer group, but also to compare their region's rates to national data.
    - Pinpoint the specific services (CPT-4 codes), medical conditions, and physician specialty types (including PCPs) to initially manage to maximize cost savings and effectiveness improvement.
    - Identifying and addressing providers that display inefficient patterns of care based on performance markers. The inefficient pattern can be concisely supported using a Provider Profile reports showing physicians how they compare to the peer group in their specialty that are driving their efficiency score.

57. Describe your participation in pay-for-performance initiatives. To what extent do these activities impact the health care costs of NDPERS or claims incurred by its covered population?

As described in Section 8 of this RFP, our goal would be to develop a medical home shared risk structure for the North Dakota marketplace that would be mutually agreed upon. We currently envision this arrangement to come in the form of a fully-capitated or Episode of Care model. We would also like to jointly develop targets across disease states or processes that are important to the North Dakota population and are willing to accept an incentive based payment structure structured around these targets.

Our goal would be to incorporate the NDPERS employees into a medical home model, titled "Sanford One Care" including all required infrastructure (reporting templates and contracting templates) in all of Sanford's applicable locations. For example, our combined relationships in North Dakota communities would allow our potential partnership to expand geographically and provide mutually beneficial results as we define and work towards common goals.

Sanford One Care will achieve a rapid and effective change through the deployment of expert training teams, new curriculums and a unique system of ongoing mentorship and consultation.

1. NDPERS employees will be treated in a new medical home that transforms primary care. Sanford One Care will establish the disposition that the role of healthcare is to enable patients to become active participants in their health rather than consumers of episodic services. This way of thinking is aimed not only at physicians, but all of allied health and the general population and accomplished through providing resources to make the paradigm shift. Training and development, technical assistance and health information technology resources embedded into this project are designed to support this transformation.

2. RN Health Coaches will be integrated into the redesigned care centers, to promote maximum patient engagement and personal health management, improved access and communication through non-traditional channels (personal health records, email, e-visits, etc.), and enhanced patient satisfaction. A Health Coach is a Registered Nurse specifically trained to coordinate patient care, conduct motivational interviews, establish patient centered goals for behavioral and/or lifestyle changes, manage quality improvement activities, and report data. Each Health Coach must attain a level of competency as demonstrated by skill assessments and competency checklists. Deployment of RN Health Coaches will initiate the integrated, team-based care to support better health, better care, and cost efficiencies. Workforce development activities aim for a ratio of 1:5 RN Health Coaches to primary care providers.

3. Behavioral health services will be integrated into the care center resulting in enhanced education, improved access to care, improved support to patients to modify behaviors, and more comprehensive collaborative treatment options. A key component of this proposal is enabling access to behavioral health care through new processes integrating behavioral health care professionals into patient-centered health care teams in primary care settings. In rural areas,

previously without access to behavioral health professionals, remote technology will enable the deployment of an integrated Behavioral Health Triage Therapist to provide diagnostic, acuity, and complexity assessments so that he patients can be triaged to the most appropriate level of collaborative care. Psychologists and psychiatrists from other regions in our health system will be able to partner with rural clinics through this technology to offer team consultation to the primary care team and direct clinical services via telehealth technology as needed to patients in the remote clinic sites. It is well documented that that most behavioral health conditions go unrecognized and undiagnosed, that even once identified, only half of the individuals will ever receive any treatment at all. Workforce development activities aim for a 1:10 ratio of Behavioral Health Triage Therapists to primary care providers.

4. Sanford One Care will maximize information technology to manage individual care opportunities, and transition to population care management in the future. Sanford Health's EPIC-based electronic medical records system, branded Sanford OneChart, provides the platform for connectivity to deliver a seamless experience across the large rural healthcare network. An innovative webbased adaptation will extend Sanford OneChart to include "MyChart" and "MyConditions," giving patients convenient access to view their medical record, lab results, preventive care topics, and patient-centered flow sheets.

   Additionally, MyChart and MyConditions enable patients to communicate with their healthcare teams and provide a central place to view both provider and patient entered flow sheet information to monitor chronic health conditions. To improve monitoring, a standardized patient registry will be enabled to produce recurrent reports, graph selected measurements, and generate patient-specific reports at the point of care for evidence based care standards and optimal chronic disease management. Behavioral health screening tools will be electronic, enabling patients to complete behavioral health assessments on line. Patients and the care team will also use electronic tools for completion of satisfactions surveys.

5. Measurement of success will be through standardized and transparent clinical metrics at region, clinic and individual physician levels, comparing performance to internal and external best practice benchmarks. The decision support team will work with the Methodology and Data Analysis team at Sanford Center for Health Outcomes and Prevention Research for a thorough self-evaluation.

   Formative evaluations will guide the project operations and implementation while summative evaluations are designed to assess this project's impact on the three-part aim of better care, better health, and lower costs through improved quality. Quality indicators and continuous improvement methods addressing patient satisfaction, utilization, clinical quality, and patient access are detailed in the evaluation section of this proposal. Additional measures of success presented include operational performance and the impact on lower costs. The hypothesis supporting this transformation is that workforce redesign and integration of behavioral health and primary care practice will improve adherence to quality standards of care while concurrently improving clinical outcomes and efficient

utilization of resources—cumulating in reduced healthcare expenditures, and strong patient and employee satisfaction.

Credentialing and Contracting

58. Briefly describe the initial credentialing process. How often are physician, hospital and other contracts (labs, imaging facilities, DME, home health care) reviewed?

Sanford Health Plan has an extensive provider credentialing and re-credentialing process. The minimum criteria for provider selected to the Sanford Health Plan network are that they must possess all of the necessary credentials required by NCQA. Those requirements include an active license in the state in which they practice, an active DEA license if they prescribe drugs, verified graduation from medical school or board certification, current malpractice insurance and verification and review of any malpractice claims, verification of work history and explanation of any gaps in work history, as well as a review of any reasons for any inability to perform the essential functions expected by the provider's specialty, lack of present illegal drug use, any history of loss of license and felony convictions, history of loss of privileges or disciplinary activity, as well as any discrepancies between the information gathered versus the information provided by the practitioner. Providers are credentialed every 3 years.

SANFORD HEALTH PLAN

Reimbursement and Discounts

NOTE: THE BELOW QUESTIONS 59 THROUGH 63 ARE MARKED AS PROPRIETARY AND CONFIDENTIAL.

SANFORD HEALTH PLAN

Performance Standards and Guarantees

As described in Section I. Overview, of this RFP, health plan vendors are required to comply with performance standards and guarantees that include a financial incentive/forfeiture which is negotiated as part of the renewal process. See appendix H for a copy of these performance standards and guarantees. You are required to offer your performance standards and guarantees for the board's consideration using appendix H. It is a priority for the board to have a comprehensive set of standards and guarantees relating to this plan.

64. Please confirm you have completed appendix H and confirm your willingness to comply with the performance standards and guarantees or provide suitable alternatives. Identify any additional standards and metrics your organization would be willing to include.

Sanford Health Plan is committed to match the current performance measures and dollars at risk. In Addition to these standards, Sanford Health Plan welcomes mutual evaluation of additional standards in coordination with the state to help meet cost containment or wellness initiatives.

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
Cost Management:			
By December 31, 2014, 17% of NDPERS members have completed a Health Risk Assessment (currently at 15.5%).	$0.00	$15,000	By December 31, 2015, 10% of NDPERS members have completed a Health Risk Assessment
By December 31 2014, NDPERS will have a 5% point increase in the NDPERS group aggregate HRA wellness score.	$0.00	$10,000	By December 31 2016, NDPERS will have a 5% point increase in the NDPERS group aggregate HRA wellness score.
By December 31, 2014, HealthyBlue NDPERS group aggregate incentives paid for HealthyBlue redemptions will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	By December 31, 2015, 10% of NDPERS members will have created a myHealthPlan account where they can access our beWell Health Management Tool and the incentive program.
2014 annual percentage average of NDPERS members receiving the Health Club Credit will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	By July 1, 2016 annual percentage average of NDPERS members receiving the Health Club Credit will meet the 2014 annual NDPERS rate.
Health Outcomes:			
80% of the NDPERS population will be enrolled in a medical home.	$0.00	$15,000	By July 1, 2016, 30% of the NDPERS population will be enrolled in a medical home.

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
HEDIS-like measures breast cancer screening rates will be at least 80%.	$0.00	$15,000	HEDIS-like measures breast cancer screening rates will be at least 80%
HEDIS-like measures cervical cancer screening rates will be at least 85%.	$0.00	$15,000	HEDIS-like measures cervical cancer screening rates will be at least 85%
HEDIS-like measures colorectal cancer screening rates will be at least 60%.	$0.00	$15,000	HEDIS-like measures colorectal cancer screening rates will be at least 60%
Provider Network Management:			
BCBSND will maintain an NDPERS PPO network consisting of 92% or more of the in-state hospitals, MDs and Dos that participate in the Company's Par Network.	$0.00	$75,000	Amount incorporates a requested increase from the current level By Dec. 31st, 2015 SHP will maintain an NDPERS PPO network consisting of 85% or more of the in-state hospitals, MDs an DOs that participate in the Company's Par Network.
BCBSND guarantees NDPERS a minimum provider discount (1-(Allowed/Billed)) of 30% for Non-Medicare contracts.	$0.00	$140,000	SHP guarantees NDPERS a minimum provider discount from in-network providers (1-(Allowed/Billed)) of 30% for Non-Medicare contracts.
Operational Performance:			
Claims Financial Accuracy will be 99% or greater.	$0.00	$25,000	Claims Financial Accuracy will be 99% or greater
Claims Payment Incidence Accuracy will be 97% or greater.	$0.00	$25,000	Claims Payment incidence Accuracy will be 97% or greater
Claim Timeliness – claims processing within 30 calendar days will be 99% or greater.	$0.00	$25,000	Claim Timeliness – claims processing within 30 calendar days will be 99% or greater
Average Speed of Answer will be 30 seconds or less.	$0.00	$25,000	Average Speed of Answer will be 45 seconds or less
Abandoned rate will be 5% or less.	$0.00	$25,000	Abandoned rate will be 7% or less
Requested New Standards/Guarantees:			
Provide a standard by which interest rates will be set at a level at least as favorable to NDPERS as the current methodology	$0.00	$50,000	The interest rate utilized currently is based on the US Treasury Notes quoted by the Wall Street Journal

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
Provide a guarantee on Rx rebates that will be passed-through to NDPERS	$0.00	$10,000	100% of Rx rebates will be passed-through to NDPERS
Total	**$0.00**	**$500,000**	

SANFORD HEALTH PLAN

Pharmacy Benefits Management Services

65. Describe your company's experience with administering pharmacy benefits. Provide a summary that includes the number of years that your company has provided such services, number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.

Sanford Health Plan has been partners with Express Scripts Inc. for over a decade, administering pharmacy benefit plans for approximately 300 groups since inception and over 96,000 members currently including 2,500 Medicare supplement members. Most large employers have multiple payroll processing centers. Non of Sanford's clients currently have a Medicare Part D program administered by Sanford Health Plan. Sanford Health, and the Joint Venture Group School Pool would be our largest clients with multiple payroll processing centers.

You can view our formulary online at www.sanfordhealthplan.com. Sanford Health Plan has a closed formulary system and offers the employer group their choice of copay options. The current formulary is approved by the Physician Quality Committee on an annual basis in January.

Pharmacy Reports

Trend Central My Standard Reports is an online reporting tool divided into the following categories:

- Benchmark Reports — Compare program performance using data from clients of similar geographical location, industry or group type, or size. Users analyze benchmark information to assist in making decisions related to benefit plan changes.
- Billed Date Report — Lag triangle reports that include billing information and claim count by month with totals by month for the entire period. Users assess the lag time between a claim service date and the date the claim was billed to a client. Billed date reports match client billing and are used for reconciliation reporting.
- Drug Reports — Ranking, detail, and drill reports by drug and therapeutic levels to demonstrate and assist in analyzing drug patterns.
- Key Performance Metrics — Executive-level pharmacy program key performance metrics, which refer to period-over-period statistics. These indicators, typically at the claim level, provide the information most requested by clients. Key Performance Metric reports break out to the group or demographic levels of your choice, based on the eligibility information you provide to Express Scripts.
- Patient Analysis — Various reports at the member utilization level that provide cost breakdown information.
- Pharmacy Reports — Pharmacy-level reports that depict utilization by ranking claims for drug and member.
- Prescriber Reports — Ranking, detail, and drill reports by prescriber to demonstrate and assist in analyzing prescribing patterns.

- Prescription Detail — Utilization reports that demonstrate prescription drug detail across a variety of categories.
- Products and Services Reports — Summary and detail reports for claims processed for products and services, such as Prior Authorization. Various data components are captured for each product (for example, Prior Authorization coverage review requests, including approvals and denials).
- Ranking and Trend Reports — Ranking reports that depict utilization at the prescription and provider levels by ingredient cost. Users compare the current reporting period to historical performance.
- Specialty Drug Reports — Collection of reports, including key performance indicators, ranking, detail, benchmarking, and trending, used to retrieve utilization information on all specialty drugs.
- Utilization Summary Reports — Suite of report templates users employ to quickly retrieve summary information. These reports can be used to drill down into varying levels of utilization detail, such as highest-cost therapeutic classes, physician prescribing, retail pharmacy network, formulary, drug, therapy class, mail service pharmacy, and member demographics. The reports identify cost drivers and identify plan management opportunities.

Please see Attachment G for a sample prescription drug report package.

Sanford Health Plan provides thoughtfully designed, effective formulary compliance tools that help Members reduce overall prescription drug costs by encouraging utilization of generic and formulary drugs. The Sanford Health Plan drug formulary was designed with a copay structure that also gives the Member the cost saving advantage of choosing a generic medication. In certain categories only generic drugs are covered and in others generics are covered at the lowest copay and the Brand product at the highest copay. (Generics Preferred Program).

Sanford Health Plan utilizes a variety of methods for controlling the cost of prescription drugs. The following programs are offered to both Members and Providers by way of mail, telephonic or at the point of sale utilizing the Express Scripts claims adjudication system.

- Generic Preferred: Generic utilization program that promotes generic through economic incentives.
- $0 Copay: generic utilization program that promotes generics by having a $0 copay for a specific generic drugs (often tied to a disease management program). This plan is cost effective when the brand to generic cost differential is substantial.
- Drug Choice Program: Member and provider communications promoting the use of therapeutically equivalent generics and/or preferred brand drugs.
- Prior Authorization: Prior authorization protocols are enforced through concurrent analysis of pharmacy claims.
- Step Therapy: Step Therapy protocols apply to online clinical algorithm to second-line drugs at the point of service that requires Members to try a first-line therapy drug before a second-line drug.
- Formulary Compliance: Member education on how to use the formulary and reasons why.

- Pill-Splitting Program: Specific categories of drugs (those that are flat priced) are offered for at a 2 month supply for one (1) copay in order to increase compliance with medication and decrease the copay price burden to a Member.
- Quantity Level Limits: to ensure that medications are dispensed following the manufacturer guidelines or evidenced based medicine protocols based on patient safety.
- Peer Review Programs: Address the appropriate prescribing practices with physicians and midlevel providers

Sanford Health Plan maintains a transparent Prescription Drug program. We develop the formulary internally utilizing the most cost-efficient and effective methodologies for each drug category therefore making the drug program transparent. We use an internal evaluation process to assure the most effective prescription drug is listed in your formulary. The evaluation process utilized by the Physician Quality Committee is that each category of medications is reviewed on an annual basis to determine clinical efficacy of the medications on the formulary and their pricing structure as it relates to compliance, efficacy, plan cost, member cost, ingredient costs, single-source vs. multi-source, patent expiration, rebate possibility, count of pills per day utilization, and regional medical norms.

Member Communication of Pharmacy Program Information

Sanford Health Plan has an effective communication process in place for notifying our Members of changes affecting their pharmacy program. Members are notified of the following changes through these communication modes:

- Drug additions – Member Newsletter, website
- Changes in formulary status – On an annual basis, website, Member Newsletter
- Changes in the network - website
- Ineligible, banned or recalled drugs – Personal letters to Members and Providers
- Refills – At the time of retail fill

In the situation that a newly approved generic drug is now available, the Plan would determine that it demonstrate efficacy equivalent to a preferred brand counterpart—yet at a lower cost we add that new drug to the formulary. At times, the Plan may decide to remove the equivalent Brand product from the formulary and move the market share to the new generic. However, if the newly approved generic is more expensive than the preferred brand counterpart we do not add that product to the formulary and wait until it becomes cost neutral for the Plan, the Member and the Employer group.

Sanford Health Plan notifies Members each quarter with formulary updates in its Member newsletter. The formulary is updated on an annual basis and Members are notified of changes in the Member newsletter. Prior to any deletions or copay changes to the formulary our Members and prescribing Providers receive letters to ensure they understand the change, reason why this is occurring and to provide enough time to get new prescriptions written or to schedule an office visit to discuss change with a

physician. All formulary additions, deletions and/or cost saving strategies are provided on the Sanford Health web site as well as on the Express Scripts web site when the Member signs up for the free services.

Sanford Health Plan has an exception process in place for any Member or Physician who have tried a formulary product and failed.

Claims Payment Process for Pharmacy Claims

The Member receives a prescription from their physician and takes this to their local retail pharmacy to be filled. The Member shows their ID card at the time of the prescription fill so that the retail pharmacy can apply the correct benefits. The local retail pharmacist adjudicates the prescription on-line utilizing their link to the Express Scripts database. Express Scripts has successfully loaded Sanford Health Plan's Formulary with all requirements so that the prescription will process at the proper copay amount or the system will notify the pharmacist of any issues or rules that are required to be followed before the processing on-line can occur. Messaging from Express Scripts the pharmacist may incur is prior authorization required, quantity level limit, or step therapy edits to name a few. Once this occurs the pharmacist is required to call the Utilization Management Department of Sanford Health Plan to continue. If any messaging appears the prescription claim will not process until the issues is handled. If there is no message, the claim will process with a copay amount and the process is completed.

Sanford Health Plan does not cover medications that are filled at a non-participating pharmacy unless an emergency situation arises and then authorization is provided at that time.

For new groups, Sanford Health Plan is experienced in ensuring a smooth transition to our network and formulary in order to minimize disruption. First of all, Sanford Health Plan provides Formulary education in writing in the Members' enrollment packet instructing the Members to call if have any questions or note any formulary disruption prior to the transfer to the new plan.

Secondly, group education about the Formulary and the drug benefit will be provided at the enrollment meetings in each location. Employees will have the opportunity to provide their name and telephone number to a Sanford Health Plan Client Services Representative so that she can provide that information to the Utilization Review Department where a health care professional will complete an outbound call to the Member and assist in the conversion to a Formulary product, notify the Members physician for a letter of medical necessity or provide authorization for a non-formulary product or answer any questions they may have regarding the medication in question.

66. Describe your company's expertise and experience in implementing PBM services for a program that is comparable in size to the NDPERS program, based on the number of covered lives.

Sanford Health Plan effectively manages approximately 350 unique prescription drug benefit plans across all products lines, within four states' regulatory environments for over 96,000 members. Our generic fill rates consistently runs at 76% which is below the national average of ESI's overall HMO book of business generic fill rate of 74.6%.

67. Describe your mail order pharmacy program and provide details on how you market this service.

Specialty Drugs

Sanford Health Plan currently subcontracts specialty drug services to Curascript, a wholly-owned subsidiary of Express Scripts. All Plan Members must prior authorize specialty medication and it must be obtained through Curascript's mail order program. Medication protocols have been approved the Plan for the following conditions and the Member and Physicians office are notified of the process to obtain the medication from Curascript once medical necessity has been determined for the Member. Curascript clinicians are required to call the Plan for any Member who does not meet established clinical criteria for medical necessity determination and they are not able to deny any Member medical services unless it was reviewed and discussed by the Plan's Chief Medical Officer. Approved medication is shipped to the Member's home, physician office or home health agency based on the physician's orders.

Curascript offers clinical support to the Plan in the following disease state areas: Bleeding Disorders, Hemophilia Factor, Hepatitis C, HIV, Multiple Sclerosis, Psoriasis, Cancer, Respiratory Syncytial Virus (RSV), and Rheumatoid Arthritis.

Member financial responsibility is based on the type of specialty medication and the place of service. The specialty drug benefit either applies to the Members pharmacy Brand name copay or to the deductible and coinsurance level.

Curascript clinicians facilitate disease state education, conduct scheduled follow-up calls with patients, reviews appropriate dosing schedules and counsel members on side-effect management and general patient concerns. The core elements of the clinical program include: A patient admission process that includes benefit investigation and management, nursing coordination for teaching and instruction, patient assessment for educational needs, and clinical evaluation. Patient care coordinators take a proactive role in coordination prescription needs, facilitate product delivery, maintain insurance authorizations, monitor adherence, and perform clinical screening risk assessments (Ongoing risk assessment, monitoring, and clinical intervention when appropriate from licensed nurses. Ongoing compliance monitoring using a coordinated effort from the entire patient care team). Social services referrals are available from the on-staff social services team.

Finally detailed Plan reporting is provided by Curascript in order to determine clinical and financial effectiveness of the program.

Sanford Health Plan continues to monitor specialty market trend and are actively involved with Express Scripts. The Plan's President is part of an active leadership team

at Express Scripts that deals with emerging drug technology and trend providing insight and collaboration as it relates to the future of pharmaceuticals in relationship to overall health care initiatives.

This service is marketed during open enrollment sessions, and communicated via member handbooks, certificates of coverage and direct patient/pharmacy communication based on claim utilization.

68. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H?

Requested New Standards/Guarantees:			
Provide a standard by which interest rates will be set at a level at least as favorable to NDPERS as the current methodology	$0.00	$50,000	The interest rate utilized currently is based on the US Treasury Notes quoted by the Wall Street Journal
Provide a guarantee on Rx rebates that will be passed-through to NDPERS	$0.00	$10,000	100% of Rx rebates will be passed-through to NDPERS

Services Provided to the NDPERS

69. Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2013 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:

a. Amount of time needed for implementing the new program

Sanford Health Plan is able to configure, test and go live with a new prescription benefit package within 6 months. Medicare Part D timelines will follow CMS standards.

b. Recommended activities/tasks and timing

The following tasks would be completed in concert with the medical package program build.

Date	Task	Responsibility
Oct. 2014	Award Notification	NDPERS
October 2014	Sign Administrative Services Agreement between Sanford Health Plan and NDPERS	NDPERS and Sanford Health Plan
Nov. 2014	Begin implementation and operations • Amending Provider Agreements for NDPERS-specific discounts • Develop Summaries of Benefits and Evidence of Coverage (Member Policy) • Develop NDPERS-specific forms and documents (ID cards, applications, provider manual, policies and procedures) • Begin system configuration of benefits, claim edits and rules	Sanford Health Plan
Jan. 2015	Develop Marketing and Communication Plan	
April 2015	Begin Open enrollment meetings and health fairs	
May 2015	Procedure for employee enrollment transaction determined. This could include electronic file transfer, paper enrollment or electronic enrollment via Sanford Health Plan's enrollment system, *myHealthPlan* Employer Portal.	NDPERS & Sanford Health Plan
30 days prior to effective date	Applications processed and Identification Cards are printed and mailed to member's home address.	Sanford Health Plan

c. Responsibilities of the vendor and the NDPERS staff.

Please see above.

d. Transition with incumbent, including providing members 90 day notice regarding formulary changes, and the communication of transition issues to all plan members.

Sanford Health Plan will provide employees with personalized letters identifying formulary changes, alternative drug options and cost impact 90 days prior to the change.

e. Length of time implementation team will be available and accountable to NDPERS.

Sanford Health assures NDPERS that the implementation team and executive management team is available and accountable to NDPERS not only during the implementation process, but also indefinitely after the contract effective date.

f. Identify the staff members, by area of expertise, who will be assigned to the implementation team.

Sanford Health Plan's implementation team for the medical plan will also be the conduit for the prescription drug design, build, test, and go-live period. The Plan's COO and CMO are the lead persons for assigned to the NDPERS prescription drug plan along with the NDPERS Director.

Formulary

70. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents. At a minimum include the following:

i Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.

Please see Attachment E for a copy of the Sanford Health Plan formulary for non-Grandfathered group plans.

Please see Attachment F for a copy of the Pharmacy Directory.

Sanford Health Plan maintains a transparent Prescription Drug program. We develop the formulary internally utilizing the most cost-efficient and effective methodologies for each drug category therefore making the drug program transparent. We use an internal evaluation process to assure the most effective prescription drug is listed in your formulary. The evaluation process utilized by the Physician Quality Committee is that each category of medications is reviewed on an annual basis to determine clinical efficacy of the medications on the formulary and their pricing structure as it relates to compliance, efficacy, plan cost, member cost, ingredient costs, single-source vs. multi-source, patent expiration, rebate possibility, count of pills per day utilization, and regional medical norms.

Sanford Health Plan notifies Members each quarter with formulary updates in its Member newsletter. The formulary is updated on an annual basis and Members are notified of changes in the Member newsletter. Prior to any deletions or copay changes to the formulary our Members and prescribing Providers receive letters to ensure they understand the change, reason why this is occurring and to provide enough time to get new prescriptions written or to schedule an office visit to discuss change with a physician. All formulary additions, deletions and/or cost saving strategies are provided on the Sanford Health web site as well as on the Express Scripts web site when the Member signs up for the free services.

Sanford Health Plan has an exception process in place for any Member or Physician who have tried a formulary product and failed.

ii Describe how drugs are evaluated for possible inclusion on the formulary.

Express Scripts provides pharmacy benefit management services to Sanford Health Plan. Sanford Health Plan has customized an Express Scripts formulary to meet the health plan's needs.

Sanford Health Plan's Express Scripts account team provides formulary consultation, including modeling tools that support informed formulary decisions and reports that demonstrate overall program effectiveness. Our formulary management provides:

- Clinically objective information from a pharmacy benefit manager that is independent of pharmaceutical manufacturer or chain pharmacy ownership
- Flexibility that enables you to implement and maintain a custom formulary
- Predictable impact, savings, and rebates
- Modeling tools and reports that help you fine-tune your program

Throughout the plan term, the Clinical Program Manager (CPM) serves as Sanford Health Plan's primary contact for clinical information:

Formulary Modeling — The CPM addresses each drug-cost component when helping Sanford Health Plan evaluate products for the formulary, including drug cost net of rebate and pharmacy network discount. The clinical program manager also evaluates utilization data to demonstrate the impact of formulary decisions that Sanford Health Plan may consider implementing and whether changes involve drug placement or benefit-design modification. The standard turnaround time for this modeling is five business days.

Sanford Health Plan P&T Committee Attendance — The Express Scripts CPM attends pharmacy and therapeutics committee meetings to present formulary-placement recommendations, which include impact on member costs

Formulary Management — Express Scripts supports the formulary at the point of service. The clinical program manager identifies formulary compliance and trend-management programs to increase utilization of generics and preferred brand products.

Formulary Updates — The CPM coordinates changes to the formulary file and claims processing system. Quality assurance checks are built into the system to ensure accuracy. Starting on the formulary change's effective date, Express Scripts supports the updated formulary through online pharmacy messaging.

Express Scripts evaluates drugs for possible inclusion on its formularies through this process.

Formulary Drug Selection and Approval Process

The Express Scripts formulary development process calls for a focus on clinical factors, with financial considerations coming into play only among clinically comparable or optional products. This results in clinically sound, cost-effective formularies for our plan sponsors and their members. Our process involves three committees:

SANFORD HEALTH PLAN

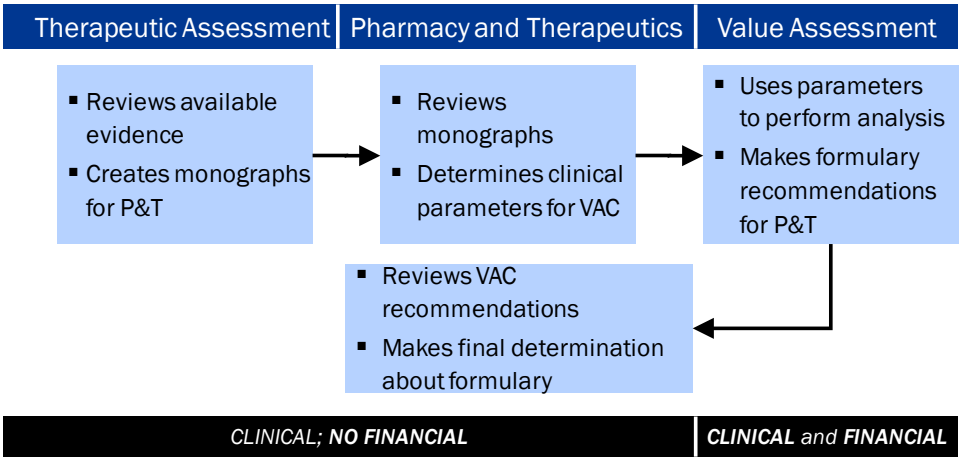
1. Therapeutic Assessment Committee, which reviews drugs based on clinical attributes. This committee includes the Office of Clinical Evaluation & Policy's vice president and medical director, the director of the Drug Evaluation Unit, and nine additional clinical pharmacists who represent areas such as product management, account services, emerging therapeutics, clinical programs, specialty pharmacy, and utilization management services.
2. National Pharmacy & Therapeutics Committee, a fully independent body that makes final formulary determinations. The committee comprises 18 independent physicians and one independent pharmacist who are not employed by Express Scripts. Committee members ensure Express Scripts formularies remain CMS-compliant.
3. Value Assessment Committee, which evaluates the net cost of drugs to Express Scripts, our plan sponsors, and their members. This committee includes representatives from product management, formulary management, rebate, finance, and account management who evaluate current and future market dynamics, economic considerations, and client needs.

The following illustrates the formulary development process and the roles of these committees:



As illustrated, our Pharmacy & Therapeutics Committee is insulated from financial considerations and has ultimate authority in our formulary development process.

SANFORD HEALTH PLAN

Formulary Committees

The following table details the composition and responsibilities of each committee involved in the formulary development process:

Name	Members	What They Review	Considerations
Therapeutic Assessment Committee	Vice president of the Office of Clinical Evaluation & Policy, medical director of the Office of Clinical Evaluation & Policy, director of the Drug Evaluation Unit, and nine clinical pharmacists representing various departments	Food and Drug Administration reports, clinical trials, peer-reviewed medical information, manufacturer data, utilization management criteria, clinical programs	Clinical, NOT financial
National Pharmacy & Therapeutics Committee	18 independent physician members and one independent pharmacist from active community and academic-based practices	Clinical information (formulary evaluation, place in therapy, and competitive product category overviews) for medications newly approved by the Food and Drug Administration	Clinical, NOT financial
Value Assessment Committee	Experts from the following departments: 1. Product Management 2. Formulary Management 3. Rebate 4. Finance 5. Account Management	Financial implications of "optional" medications for Express Scripts, clients, and members	Financial

SANFORD HEALTH PLAN

Formulary Evaluation Designations — Include, Optional, Exclude

Each drug evaluated for inclusion on our standard formularies receives one of three designations: include, optional, or exclude. Criteria for each designation follow:

Include	Optional	Exclude
• Unique treatment indication • Efficacy superior to that of existing therapy alternatives • Unique pharmacology or a unique status in therapy • Safety profile superior to that of existing therapy alternatives	• Designation based on acceptable clinical efficacy, as well as clinical equivalence to comparable drugs currently on the formulary • May receive a formulary or nonformulary recommendation based on financial analysis	• Insufficient data to make an effective evaluation • Efficacy inferior to that of existing therapy alternatives • Safety profile inferior to that of existing therapy alternatives

iii Describe the basis of your formulary development and maintenance?

Express Scripts makes additions to the formulary on a daily basis. For most standard formularies, we make deletions annually. For the High Performance Formulary, we make deletions twice a year, on January 1 and July 1. We notify clients and members at least 60 days in advance.

In addition, Express Scripts maintains an asterisk deletion list. Near the end of each year, prior to printing the next year's formulary list, Express Scripts notes with an asterisk (*) each brand drug that is due to lose patent protection soon. When the patent of a brand drug expires: (1) chemically equivalent generic drugs enter the market, (2) maximum reimbursement amount is scheduled for each generic, (3) Express Scripts notifies clients at least 30 days in advance via an Emerging Therapeutic Intervention announcement. This notification details the patent expiration, the brand's nonformulary status (at the beginning of the next month), and the newly available formulary generic equivalent(s).

Finally, with respect to Sanford Health Plan's customized formulary, as noted in response to the previous question, the CPM coordinates changes to the formulary file and claims processing system. Quality assurance checks are built into the system to ensure accuracy. Starting on the formulary change's effective date, Express Scripts supports the updated formulary through online pharmacy messaging.

iv Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.

In developing our formularies, Sanford Health Plan's Pharmacy & Therapeutics Committee in concert with Express Scripts first considers clinical efficacy, then cost. If the Pharmacy & Therapeutics Committee determines a drug is clinically necessary, it is added to the formulary regardless of cost.

Occasionally, there are situations when the average wholesale price of the preferred drug is higher than that of the nonpreferred drug. For example, in the Insulin therapeutic class, Lantus is offered on our formularies due to clinical considerations.

Additionally, we include some higher-cost drugs on our formularies due to member disruption concerns (for example, Premarin), the need to offer member choice (antibiotics or birth control), and substitution concerns (specialty products).

- **What is your definition of a Generic Drug?**

  Sanford Health Plan defines generic drugs as drugs that (1) are approved by the Food and Drug Administration (FDA) as a therapeutic equivalent to the Brand Name Drug; (2) contain the same active ingredient as the Brand Name Drug; and (3) cost less than the Brand Name equivalent.

SANFORD HEALTH PLAN

Management of Clinical Programs

71. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.

a. Drug Utilization Reviews - retrospective, concurrent and prospective.

b. Disease Management

c. Medication Therapy Management

Sanford Health Plan's utilization review procedures, disease management programs and medication therapy management are incorporated in the Utilization Management daily operations and the Care Management program described above.

72. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

No, Sanford Health Plan conducts random claims audits in addition to "for cause" utilization case reviews.

73. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	2013	2014 YTD
SANFORD HEALTH PLAN BOOK OF BUSINESS			
Generic utilization rate	78.5%	80.8%	81.9%
Generic substitution rate	98.7%	98.3%	98.7%
NORTH DAKOTA			
Generic utilization rate	82.2%	84.96%	86.22%
Generic substitution rate	97.28%	97.85%	99.1%

74. How many MAC lists do you have for pharmacies and clients? If more than one, which list will you use for NDPERS?

	Number of MAC lists
Pharmacies	One
Clients	One

75. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

Express Scripts prices claims based on Average Wholesale Price (AWP) minus your contract-specific discount for brand and generic prescriptions, MAC/MRA, or at the Usual and Customary (U&C) price.

AWP Source

Express Scripts currently utilizes Medi-Span as our vendor for all pricing-related fields, including AWP, wholesale acquisition cost, obsolete date, pack size, and unit of measure, to ensure consistency of data.

Medi-Span offers the following qualities:

- Standardized at the national level
- Widely available and accepted by the vendor community
- Stable and predictable
- Updated on a regular basis
- Applicable for generic and brand drugs, as well as home delivery and retail channels

Drug File Updates

We receive daily drug file updates, including amendments to drug file pricing, from our pricing source. The pricing updates are loaded in our system and made effective at midnight on the date they are loaded. Systematic processes ensure the updates are properly loaded into the system; a manual review also takes place according to our audit requirements. We store historical price file information indefinitely.

Trend Analysis

76. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:

a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs;

Sanford Health Plan meets with Express Scripts frequently to discuss trends, strategies, quality, and cost-effective plan initiatives.

Please refer to Attachment G for a sample prescription drug report package.

Bi-Weekly and Monthly Meetings

Sanford Health Plan and our account management team conduct bi-weekly phone calls to discuss program performance and address any questions you need answered. Additionally, we are able to meet monthly for more detailed conversations related to the plan, your members' benefits and utilization, and Sanford Health Plan's questions or concerns, if any.

Quarterly Meetings

Our Managed Care Service Model includes a strategic client planning process that encompasses quarterly reviews. Together, Sanford Health Plan and Express Scripts set the agenda for the quarterly meeting, which typically includes topics such as:

- Overview of initiatives in process
- Review of communication strategies related to planned changes
- Review of quarterly plan performance, including financial, clinical, and operational metrics

When considering plan changes, our account team may engage a PharmacoAnalytics consultant to evaluate the impact plan changes may have on your pharmacy trend.

Our account team also utilizes the PharmacoAnalytics quarterly reporting package — the Costs and Trends Snapshot — which is focused on monitoring plan performance.

A sample of the report is below.

Collaborative Planning Sessions

Express Scripts' client planning process is an ongoing, joint effort that incorporates scheduled meetings, including the annual Collaborative Planning Session. Agenda items for the Collaborative Planning Session are prioritized based on our needs and requests; we work with ESI to formulate an agreeable outline. Topics typically discussed during the Collaborative Planning Session include:

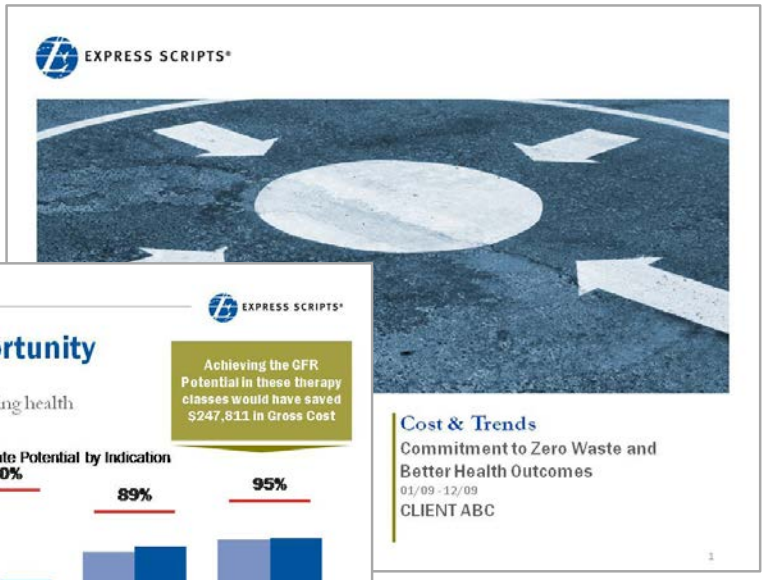
- Status update

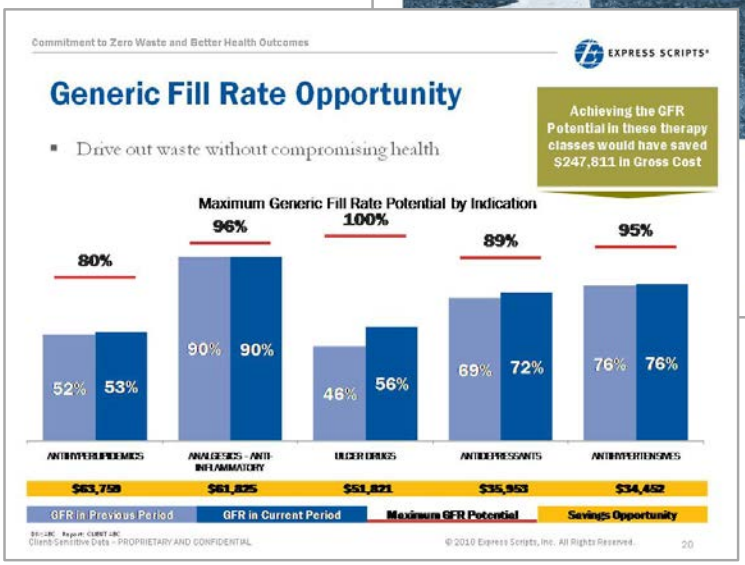
- Short-term and long-term objectives for the plan and Sanford Health Plan's members
- Three-year plan and next steps
- Industry trend analysis, such as examining the effect of direct-to-consumer advertising, drug mix, and emerging therapeutic issues

During the Collaborative Planning Session, our account team also presents Sanford Health Plan-specific program recommendations, prepared through careful planning and analyses. Our team:

- Reviews key data from our prior year
- Develops and validates Sanford Health Plan's plan goals for the coming year
- Identifies key opportunities specific to Sanford Health Plan
- Recommends programs to meet Sanford Health Plan's goals

Samples from the Collaborative Planning Session are below.





SANFORD HEALTH PLAN

Clinical Input

The CPM is our account team's primary contact and consultant for clinical issues and initiatives. Our CPM participates in Sanford Health Plan's meetings to discuss management of clinical programs and services. Topics and discussion points for these meetings typically consist of the following:

- Formulary initiatives and management
- Financial, formulary, and clinical modeling
- Sanford Health Plan-specific business plan development
- Clinical program structure discussion and results evaluation
- Drug utilization assessment

Additionally, our dedicated PharmacoAnalytics consultant is also available for more complex clinical analysis.

b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers;

Please see summary above.

c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.

Please see summary above.

77. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

Based on industry-leading software and Express Scripts' thought leadership, Trend Central provides an intuitive self-service method of accessing prescription claims and clinical programs performance reporting. Our web-based, interactive data analysis solution enables NDPERS to manage performance and promptly identify emerging issues and trends. The application, which can be co-branded, includes the following customization options:

- NDPERS users can tailor your homepage to support how each user works. For example, each user can design the homepage to display key statistics or show particular summary reports each time they log on to Trend Central. Users also can establish links to favorite reports.
- Users can schedule favorite reports for automated generation.

- Users can modify member population or groups and time frames to customize report presentation.

Utilizing our online library of templates, Trend Central permits a variety of users to run reports instantly from each person's desktop. Users can perform additional data manipulation or integration by downloading report data to any spreadsheet or database application using Trend Central's export function. Additionally, NDPERS can easily access ad hoc and custom reporting via Trend Central.

All Trend Central users can access Express Scripts' library of report templates. Reports are divided into the following categories:

- Key Performance Indicator
- Report Card
- Trend
- Prescription Detail
- Integrated Specialty
- Member
- Pharmacy
- Prescriber Analysis
- Billed Date
- Prior Authorization
- Benchmark

Key Performance Indicator (KPI) — Executive-level report summaries of pharmacy program performance. These reports refer to period-over-period statistics, usually at the claim level, providing the information most requested by clients. Key Performance Indicator reports break out to the group or demographic levels of your choice based on the eligibility information you provide to Express Scripts.

Report Card (RC) — Suite of report templates users employ to quickly retrieve summary information and drill down into varying levels of utilization detail, such as highest-cost therapeutic classes, physician prescribing, retail pharmacy network, formulary, drug, therapy class, mail service pharmacy, and member demographics. The reports identify cost drivers and identify plan management opportunities.

Trend (TR) — Ranking reports that depict utilization at the prescription and provider levels by ingredient cost. Users compare the current reporting period to historical performance.

Prescription Detail (DG) — Utilization reports that demonstrate prescription drug detail across a variety of categories

Integrated Specialty (SG) — Collection of reports, including key performance indicators, ranking, detail, benchmarking, and trending, used to retrieve utilization information on all specialty drugs

Member (MB) — Various reports at the member utilization level that provide cost breakdown information

Pharmacy Reports (PH) — Pharmacy-level reports that depict utilization by ranking claims for drug and member

Prescriber Analysis Reports (PR) — Ranking, detail, and drill reports by prescriber to demonstrate and assist in analyzing prescribing patterns

Billed Date Reports (BL) — Lag triangle reports that include billing information and claim count by month with totals by month for the entire period. Users assess the lag time between a claim service date and the date the claim was billed to a client. Billed date reports match client billing and are used for reconciliation reporting.

Prior Authorization Reports (PZ) — Summary and detail reports for claims processed with prior authorization. Various data components captured with each prior authorization override request are available, including approval and denial with comments.

Benchmark Reports (BN) — Compare program performance using data from clients of similar geographical location, industry or group type, or size. Users analyze benchmark information to assist in making decisions related to benefit plan changes.

Please see **Attachment G** to view sample prescription drug report package.

Specialty Drug Program

78. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs.

Express Scripts provides Specialty Benefit Services to clients and members of Sanford Health Plan. Express Scripts owns and operates its specialty pharmacies.

Express Scripts Specialty Benefit Services is our solution to curbing rapidly increasing specialty trend and solving plan sponsors' specialty cost challenges. We provide complete specialty benefit and drug management services, delivering maximized savings and superior patient care to plan sponsors. We combine — into a single, comprehensive specialty offering — institutional capabilities and expertise in the following areas:

- Specialty pharmacy benefit management
- Specialty pharmacy dispensing and operations
- Clinical programs and care for patients

- Utilization management of specialty drugs
- Medical drug management
- Healthcare provider outreach
- Account management and implementation
- Communications to healthcare providers, members, and plan sponsors

Express Scripts' *CuraScript* mails specialty drug and all the supplies needed for injection directly to the Member's home or Practitioner's office within 24 to 48 hours after the request is approved and medication is ordered. Administration supplies (syringes, needles etc.) are free; Members are not required to pay additional copays for those supplies. Prior to all shipments, a Patient Admission Specialist contacts the Member to discuss copay liability for the drug and arrange delivery.

CuraScript offers toll-free customer service available 24 hours a day, 365 days a year. Specially trained staff offers support services for the Member, their caregivers, and their Practitioners that include:

- Injectable drug order information;
- Consultation with an experienced, knowledgeable pharmacist;
- Specially trained nurses available to answer questions about injectable drugs and the disease states they treat.

CuraScript mails the Practitioner a letter explaining the program and how to send prescriptions to *CuraScript*. By participating in Specialty Care, Members are automatically enrolled in a drug therapy management program. This program entitles them to receive the following benefits at no additional charge:

- Access to nurses and pharmacists 24 hours/day, 7 days/week for questions related to yhr injectable drug and the illness the drug is treating.
- Injectable drug refill reminders if they forget to call for refilld, and convenient refill process.
- Free delivery of your medication and supplies to the Member's home, Practitioner's office or designated location.

Injectable and High Cost Medications

- **The following medications (injectable and high cost medications) must be obtained from CuraScript by calling (866) 333-9721.** All medications obtained from CuraScript are prior authorized by CuraScript using criteria approved by the Sanford Health Plan. Most of these medications are covered under the medical benefit and are subject to payment with deductible, coinsurance or a medical copay, dependent upon your benefit package.

Pharmacy Operations Overview

CuraScript provides unsurpassed specialty pharmacy services through specialty pharmacies located throughout the U.S. Main distribution centers are located in Orlando, Florida; Indianapolis, Indiana; and New Castle, Delaware.

ESI also operate specialty pharmacies in the following locations:

- Brewster, New York
- Houston, Texas
- Oldsmar, Florida
- Omaha, Nebraska
- Pleasanton, California

ESI's locations:

- Provide operational redundancy and the ability to serve unique plan sponsor reimbursement needs
- Enable us to serve plans all over the country
- Ensure timely deliveries, adequate stocking of medications, and the flexibility to successfully manage emergency situations

SANFORD HEALTH PLAN

CuraScript's service model reflects the heightened level of patient support required for specialty products. Our patient care advocates serve as a patient's primary contact and proactively coordinate ongoing prescription needs, including managing the delivery of products, maintaining insurance authorizations, and monitoring adherence. In addition to patient care advocates, our pharmaceutical care management team consists of nurses, social workers, and pharmacists who provide the expertise and support necessary for appropriate clinical management.

Specialty Pharmacy Benefit Management

For more than 25 years, Express Scripts has been a leader in trend and utilization management of drugs billed through the pharmacy benefit. As the first pharmacy benefit manager to publish a drug trend report and the first to hold an Outcomes conference for plan sponsors, Express Scripts is a thought leader in the industry. To continue this legacy, we apply the latest specialty pharmacy benefit management tools to reduce the trend of specialty drugs billed through the pharmacy benefit. Our specialty trend management programs include:

- Specialty Step Management
- Drug Quantity Management
- Care Continuum (includes utilization management, site of care management, and reimbursement management)

Specialty Utilization Management Programs

Express Scripts' Specialty Step Management, Drug Quantity Management, and Prior Authorization programs use clinical protocols to manage appropriate and cost-effective utilization of specialty medications. Additional program details are included below.

Specialty Step Management

Specialty drug spend is predicted to grow exponentially over the next several years. In addition, as more specialty drugs are approved, utilization in some traditional classes will transition to the specialty market. Additionally, as more specialty drugs are approved, utilization in some traditional classes will transition to the specialty market.

Specialty Step Management responds to this issue by reducing wasteful specialty spend and promoting clinically appropriate, cost-effective therapies.

Our Specialty Step Management program enhances our existing utilization management programs (Prior Authorization and Step Therapy) through the use of traditional medication cost-containment programs. By tailoring these trend management strategies to the specialty landscape, Specialty Step Management provides NDPERS with the tools to significantly reduce your specialty trend while also maximizing health outcomes.

Specialty Step Management addresses several of the most costly specialty therapy classes:

- Inflammatory Conditions
- Multiple Sclerosis
- Growth Hormones
- Erythroid StimulantsInfertility
- Pulmonary Arterial Hypertension (PAH)
- Alpha-1 Proteinase Inhibitors
- Cryopyrin-Associated Periodic Syndrome (CAPS)
- Prostate Cancer GnRH Analogs

Drug Quantity Management

Our Drug Quantity Management program supports safe, effective, and cost-efficient use of prescription drugs while giving patients access to quality care. Drug Quantity Management criteria can prevent unnecessary costs when there is not enough evidence to support using a medication at doses higher than Food and Drug Administration-approved labeling.

For example, Avonex® is dosed once weekly for multiple sclerosis patients. However, some physicians believe that patients who inject Avonex twice weekly see greater benefits from the medication and therefore increase their dosage, even though there is no solid evidence to support its use twice weekly. An additional weekly dose of Avonex doubles the annual cost of the medication from around $20,000 per year to $40,000 per year. Drug Quantity Management criteria would avoid this wasted spend.

Prior Authorization

Express Scripts' Prior Authorization department administers specialty prior authorization requests.

We offer more than 50 Prior Authorization programs for specialty medications, many of which are integrated into the Base, Supplemental, Pharmacogenomics, and Proactive Prior Authorization lists. Optional programs are available for individual medications. We also offer a centralized list for clients that would like automatic updates for all specialty products on the Base, Supplemental, and Optional lists.

Furthermore, clients who use our specialty pharmacy exclusively and would like to manage their specialty spending to a greater extent should consider our Specialty Prior Authorization Continuation Criteria. The authorization criteria under this program are the same as those for standard specialty prior authorizations. However, the duration of initial approval for prior authorizations with Continuation Criteria is shorter than under the standard program. Re-approval under the Continuation Criteria depends on response to the medication during the initial treatment phase. Express Scripts can manage the initial review and approval process, as well as administer re-approvals.

Specialty Care Management

In addition to the trend management programs previously described, our Specialty Care Management programs help reduce waste and improve health by increasing therapy

adherence. These programs use evidence-based guidelines and drug information to provide critical patient education and ongoing support.

Our suite of Specialty Care Management programs includes:

Program	Disease State	Program Objective	Enrollment Criteria
Asthma	Asthma	To improve adherence to medications and prevent recurrent exacerbations	Patients using Xolair™ have the option to enroll when their prescriptions are filled at CuraScript
Bleeding Disorders Logic®	Hemophilia and von Willebrand disease	To support the needs of hemophilia patients, clients, and providers in the appropriate management of factor products and related outcomes of hemophilia	All patients using factor products have the option to enroll when their prescriptions are filled through our specialty pharmacy
Crohn's Disease	Crohn's disease	To increase adherence through patient education and strong relationships between patients and their healthcare team	Patients using specific Crohn's disease agents have the option to enroll when their prescriptions are filled at CuraScript
Cystic Fibrosis	Cystic fibrosis	To increase adherence and improve respiratory symptoms	Patients using specific cystic fibrosis agents have the option to enroll when their prescriptions are filled at CuraScript
GrowthLogic℠	Growth hormone deficiency	To increase adherence and prevent growth retardation, delayed puberty, and abnormal height	Patients using specific growth hormone agents have the option to enroll when their prescriptions are filled at CuraScript
HEPLogic®	Hepatitis C	To improve patient adherence to the prescribed therapy regimen to achieve sustained viral response	All patients taking self-injectable interferons or ribavirin therapy have the option to enroll when their prescriptions are filled through our specialty pharmacy
HIVLogic℠	Human immunodeficiency virus	To avoid the emergence of drug-resistant virus and disease progression through increased adherence	All patients with HIV have the option to enroll when their prescriptions are filled through our specialty pharmacy
Iron Overload	Iron overload	To provide optimal clinical management and care to patients receiving oral medications for iron overload	All patients using oral medication for iron overload have the option to enroll when their prescriptions are filled through our specialty pharmacy

SANFORD HEALTH PLAN

Program	Disease State	Program Objective	Enrollment Criteria
MSLogic®	Multiple sclerosis	To improve patient adherence to the prescribed therapy regimen to reduce exacerbations in the patient population	All patients taking self-injectable medications for multiple sclerosis have the option to enroll when their prescriptions are filled through our specialty pharmacy
Oncology Care	Cancer	To provide optimal clinical management and care to oncology patients and prevent disease progression	All patients using oral oncology agents have the option to enroll when their prescriptions are filled through our specialty pharmacy
PAHLogic®	Pulmonary arterial hypertension	To prevent pulmonary disease progression and complications and support the physician-patient relationship and plan of care	All pulmonary arterial hypertension patients have access to complete care, the full range of therapies, and clinicians with expertise in this disease state
PsoriasisLogic®	Psoriasis and psoriatic arthritis	To improve patient adherence to the prescribed therapy regimen to reduce the amount of body surface affected and severity of the psoriasis plaques, as well as to slow the progression of joint damage and improve joint function in persons with psoriatic arthritis	All patients taking self-injectable medications for psoriasis or psoriatic arthritis have the option to enroll when their prescriptions are filled through our specialty pharmacy
RALogic®	Rheumatoid arthritis	To improve patient adherence to the prescribed therapy regimen to slow the progression of joint damage and improve the average Modified Health Assessment Questionnaire score for the patient population	All patients using self-injectable rheumatoid arthritis medications have the option to enroll when their prescriptions are filled through our specialty pharmacy
RSVLogic®	Respiratory syncytial virus prevention	To reduce the number of hospitalizations and mortalities by improving therapy adherence	All caregivers of patients receiving Synagis therapy have the option to enroll when the patients' prescriptions are filled through our specialty pharmacy
TransplantLogic℠	Not applicable. This program is for patients who have received an organ transplant.	To prevent rejection of transplanted organs through increased adherence to anti-rejection medications	Patients using specific immunosuppressant agents have the option to enroll when their prescriptions are filled at CuraScript

SANFORD HEALTH PLAN

Network Accessibility and Disruption

79. Submit a current listing of the participating pharmacies in North Dakota.

Please refer to **Attachment F** for a listing of participating pharmacies in North Dakota.

80. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?

Sanford Health Plan is committed to the value local pharmacies provide to the communities we serve. Express Scripts negotiates competitive network pricing for our plan sponsors while building and maintaining stable networks and services through collaborative and strategic relationships with retail pharmacies.

Express Scripts integrates convenient network pharmacy programs with superior management systems to provide national provider networks that offer:

Client Support

- Network design consultation
- Flexible benefit designs
- CMS-compliant Medicare and Medicaid networks
- Workers' Compensation network
- Management reports
- Member eligibility control

Reduced Cost

- Discounted drug costs
- Limited provider networks to maximize savings

Clinical Expertise

- Online claims adjudication and drug utilization review
- Immunization programs
- Medication therapy management
- Pharmacist access to the Patient Care Contact Center, Pharmacy Help Desk, and Express-Scripts.com for Pharmacists

Convenience

- Process to easily add pharmacies based on member access needs
- Stable networks with low turnover
- Online pharmacy locator

ESI reduces unit costs for prescription drugs by negotiating discount rates with retail pharmacies across the country, increasing the use of preferred products, promoting generics, and encouraging formulary adherence. Additionally, we have built our value-enhanced networks so that members have convenient access to local pharmacies while limiting the number of participating pharmacies to maximize discounts for NDPERS.

If concerns related to network access are identified, Express Scripts can contract with additional pharmacies that meet our URAC-sanctioned credentialing requirements and contract terms. We can add new pharmacies within three business days after we have

received certification, a completed and signed contract from the pharmacy, and verification that all information is correct, which may take up to five business days.

81. Indicate which major chain stores are not included in your proposed network for NDPERS.

Walgreens does not participate in the network.

Medicare Part D

82. Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. fully-insured PDP, 800-Series EGWP, Direct-Contract EGWP)

Sanford Health Plan is committed to provide a Part D Plans through Express Scripts, Inc. using a EGWP arrangement.

HDHP/HSA

83. Describe how your organization will do the administration of the HSA option. What details are provided to individuals that select this option, the name of the service vendor and any other applicable information.

Sanford Health Plan currently has a relationship with Evolution1 for our HRA/HSAs. The 1Cloud HSA Solution is a true multi-account solution for HSAs – all account types are available on a single platform and service experience, debit card, and mobile applications.

It provides a comprehensive, one-stop, compliant HSA administration capability the includes both cash accounts and investment options. Other benefits include:

- A private labeled custodian option with secure, FDIC-insured deposits at HealthcareBank, a division of Bell State Bank & Trust, a $4B financial institution
- An additional revenue source with an indexed reimbursement on the balance of HSA cash accounts to the administrator.
- A flexible fee structure, so partners can set fees according to their markets and sales strategies.

The Employer Portal provides:

- Secure access to data and reports, submit changes and files, and proactively schedule contributions

SANFORD HEALTH PLAN

- Online lookup helps employers respond to employees' questions and issues.
- Over 50 standard employer reports and notifications, as well as custom reports, if available, are accessible via email and/or secure, self-service Employer Portal
- Use the Consumer Data Exchange to integrate with 1Cloud for exchanging eligibility files, or enroll employees through the Employer Portal.

Account Funding

Multiple options are available for funding accounts, including election-based scheduled contributions, ACH funding, and file-based contribution submission via Consumer Data Exchange. Or use Employer Portal to directly set up recurring contribution schedule, and load payroll deductions and employer contributions.

1Cloud also offers an Integrated debit card that provides:

- Real-time Integration - Account Balances in Sync
- All purses on one card - HSA, FSA, Limited-Purpose FSA
- Stacking Order: FSA > HSA
- Regulatory Compliance
- Merchant Code Restrictions
- FSA, HRA, optional for HSA
- IIAS Compliant
- Auto-Substantiation
- IIAS, Copayment Matching, Carrier Matching,

SANFORD HEALTH PLAN

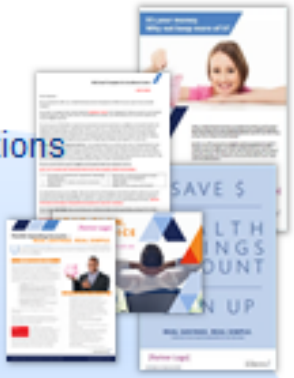
Consumer Experience

Mobile

Mobile app lets tech-savvy consumers manage their CDH accounts right from their phone.

Automated Communications

Over 10 statements and notifications – all accessible via e-mail, consumer portal, and mail when necessary.



1cloud by Evolution1

Consumer Portal

Robust, branded portal empowers consumers, providing everything they need to know about their account, with an industry-leading design that enables quick and easy navigation of content.

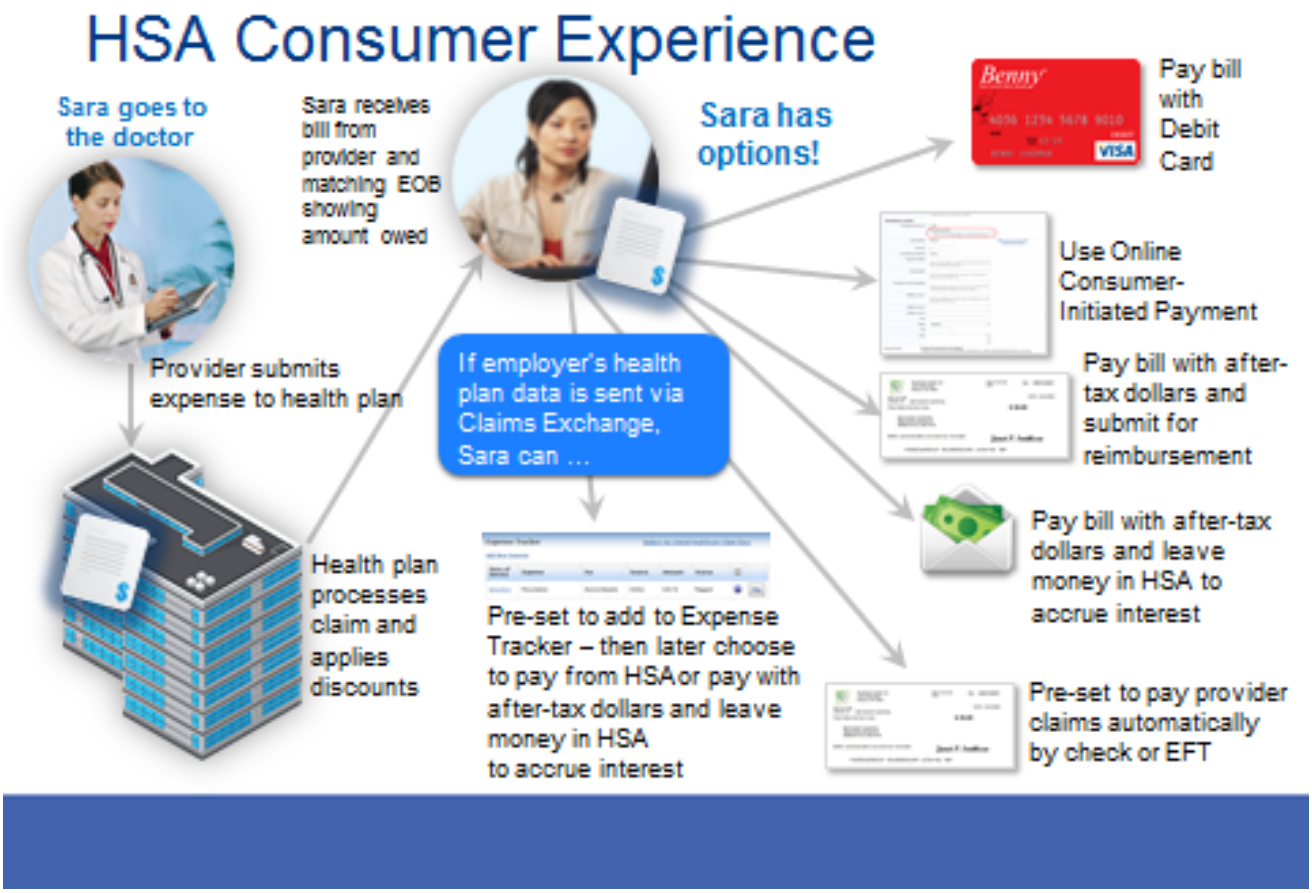
Flexible Payment Options

Consumer can choose from:

- Debit card, which increases consumer satisfaction by reducing paperwork.
- Consumer-initiated Payment on Consumer Portal
- Claims Exchange with auto-pay or Expense Tracker

24

SANFORD HEALTH PLAN



SANFORD HEALTH PLAN

Convenient Self-Service Tools

Additionally, Sanford Health Plan can interface with ABG (or a vendor of the State's preference) to track and transmit credits NDPERS may want to contribute to an HSA account as a result of an employee's participation in a wellness program or meeting certain wellness standards as part of a bona fide wellness program.

Economy to be effected

84. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?

Sanford Health Plan will consider opening service offices to include account representatives in the Bismarck and Fargo regions. Health coaches and/or case managers will be based in existing Sanford locations to support the disease management and wellness programs. However, claims administration and operations will continue to occur in the centralized Sioux Falls office.

85. Please identify the number of employees you will employ in North Dakota pursuant to this contract

As described in Section 18 of this proposal, Sanford Health Plan projects the need to hire nearly 100 FTEs to start with approximately 20 of the positions located in North Dakota.

86. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will be spent outside the state.

Sanford Health Plan estimates that approximately $15M will be spent over the biennium within North Dakota.

Cost Proposal Exhibits

Please refer to the cost proposal exhibits included under separate cover with this RFP, directed to Deloitte Consulting:

- Medical & Rx Premiums (D1.1)
- Medical & Rx Premium Development (D1.2)
- Traditional Rx Terms (D1.3)
- Transparent (Pass-through) Rx Terms (D1.4)
- Medical (Only) Premiums (D1.5)
- Medical (Only) Premium Development (D1.6)
- Medicare Part D Group Prescription Drug Plan (PDP) Premiums (D2.1)
- Medicare Part D Group Prescription Drug Plan (PDP) Premium Development (D2.2)
- ACA Requirements (D3)

Sample Contract & Administrative Services Agreement

Please refer to the contract/ASA deviations exhibit included under separate cover with this RFP:

1. Exhibit F1 – Contract/ASA deviations and exceptions and proposed alternative language.
2. Exhibit F2 - Deviations from other RFP requirements
3. Exhibit F3 – Redline version of the sample contract/ASA reflecting the deviations identified in Exhibit F1.

Minimum Requirements for Administrative Services Checklist

Minimum Requirements Statement	Response
Electronic Data Collection and Reporting Requirements: Respondents must, at a minimum, meet the data collection and reporting requirements described in Section 1 under Reporting Requirements of the RFP.	Sanford Health Plan agrees to meet this requirement.
Vendor must be able to take current electronic enrollment file (containing member eligibility) at no cost.	Sanford Health Plan agrees to meet this requirement.
Effective Date of Coverage: Respondents must be able to provide required coverages and services by July 1, 2015 and January 1 2016 for the PDP.	Sanford Health Plan agrees to meet this requirement.
Licensure: Respondents must have all applicable licenses required by North Dakota or agree to obtain necessary licensure prior to the effective dates of coverage.	Sanford Health Plan agrees to meet this requirement.
Term of Contract: NDPERS is required by state statute to solicit bids for medical benefit coverage for a specified term for a fully-insured arrangement and every other biennium for a self-funded arrangement. NDPERS has determined that the specified term for fully-insured arrangement shall be six years subject to two year renewals, however, NDPERS reserves the right to extend the agreement subject to negotiation with the successful vendor if the Board deems it necessary.	Sanford Health Plan agrees to meet this requirement.
Premium Rate Guarantees: For all insured proposals premium rates must be guaranteed for a period of two years, from July 1, 2015 to June 30, 2017. PDP rates will be developed each year based upon the federal subsidy.	Sanford Health Plan agrees to meet this requirement.
Group PDP product: Ability to offer a group PDP product meeting the requirements outlined in the RFP	Sanford Health Plan agrees to meet this requirement.
PDP rates: Must be submitted to PERS by September of each year.	Sanford Health Plan agrees to meet this requirement.
Non-Medicare Retirees: Rates are governed by state statue. Non-Medicare retiree single rate is 150% of the active member single rate; the rate for a non-Medicare retiree plus one is twice the non-Medicare single rate, and the rate for a non-Medicare retiree plus two or more dependents is two and one-half times the non-Medicare retiree single rate.	Sanford Health Plan agrees to meet this requirement.

Renewals: Renewals must be submitted to NDPERS in August of the year preceding the contract renewal date and in September of each year for the PDP.	Sanford Health Plan agrees to meet this requirement.
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	Sanford Health Plan agrees to meet this requirement.
Replicate Coverage: Respondent must replicate the existing coverage and financial terms for two years including an HSA arrangement. Variances and exceptions to existing coverage can be offered in Appendix F item F2.	Sanford Health Plan agrees to meet this requirement with the exceptions as noted herein.
Legislative Compliance: Respondents agree to comply with all provisions of the Health Insurance Portability Act of 1996 including, but not limited to providing certificates of creditable coverage. Respondents must also be in compliance with all HIPAA Privacy and HIPAA EDI requirements and be able to conduct all applicable employer/plan sponsor and provider transactions consistent with those requirements. Respondents will be expected to meet HIPAA security requirements when applicable to NDPERS. Respondents will also be expected to be in compliance with all ACA requirements	Sanford Health Plan agrees to meet this requirement.
Transition Management: Respondents agree, should they be selected, they will proactively manage the transition of coverage (e.g. claim accumulators, lifetime maximums, etc.) from the subsequent carrier.	Sanford Health Plan agrees to meet this requirement.
Administration: Respondents must agree to comply with existing administration of NDPERS. Any modifications needed to accommodate NDPERS data will be done at the vendor's own expense.	Sanford Health Plan agrees to meet this requirement.
Audit: NDCC 54-52-05 (10) relating to the audit authority of NDPERS.	Sanford Health Plan agrees to meet this requirement.
North Dakota Legislation Requirements: Respondent must meet all requirements in the North Dakota Century Code including 54-52.1 and all requirements in the North Dakota Administrative Code including 71-03. Specific recognition of 54-52.1-12 should be acknowledged.	Sanford Health Plan agrees to meet this requirement.
Ability to meet the specifications outlined in the RFP unless specifically noted	Sanford Health Plan agrees to meet this requirement.
Premium rates must be divisible by two.	Sanford Health Plan agrees to meeting this requirement.
Subject matter experts and other appropriate personnel will be available to attend board meetings, legislative hearings, etc. as needed	Sanford Health Plan agrees to meeting this requirement.

Affidavit of Non-collusion

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);

2. That the attached proposal submitted in response to the Group Medical Coverage Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;

3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and

4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

INDEPENDENT AUDITORS' REPORT

Audit Committee and Management
Sanford Health Plan
Sioux Falls, South Dakota

We have audited the accompanying statutory-basis financial statements of Sanford Health Plan (SHP or the "Company"), which comprise the statutory-basis statements of admitted assets, liabilities, and capital and surplus as of December 31, 2013 and 2012, and the related statutory-basis statements of revenue and expenses and capital and surplus, and cash flows for the years then ended, and the related notes to the statutory-basis financial statements.

Management's Responsibility for the Statutory-Basis Financial Statements

Management is responsible for the preparation and fair presentation of these statutory-basis financial statements in accordance with the accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these statutory-basis financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statutory-basis financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the statutory-basis financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the statutory-basis financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the statutory-basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the statutory-basis financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the statutory-basis financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus of SHP as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with the accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance described in Note 1 to the statutory-basis financial statements.

Basis of Accounting

We draw attention to Note 1 of the statutory-basis financial statements, which describes the basis of accounting. As described in Note 1 to the statutory-basis financial statements, the statutory-basis financial statements are prepared by SHP using accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the South Dakota Department of Commerce and Regulation, Division of Insurance. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As discussed in Note 2 to the statutory-basis financial statements, the Company has implemented Statement of Statutory Accounting Principles No. 101, *Income Taxes — A Replacement of SSAP No. 10R and SSAP No. 10*, which resulted in a cumulative change in accounting principle as of January 1, 2012.

Report on Supplemental Schedules

Our 2013 audit was conducted for the purpose of forming an opinion on the 2013 statutory-basis financial statements as a whole. The supplemental schedule of investment risk interrogatories and the supplemental summary investment schedule, as of and for the year ended December 31, 2013, are presented for purposes of additional analysis and are not a required part of the 2013 statutory-basis financial statements. These supplemental schedules are the responsibility of the Company's management and were derived from and relate directly to the underlying accounting and other records used to prepare the statutory-basis financial statements. Such supplemental schedules have been subjected to the auditing procedures applied in our audit of the 2013 statutory-basis financial statements and certain additional procedures, including comparing and reconciling such supplemental schedules directly to the underlying accounting and other records used to prepare the statutory-basis financial statements or to the statutory-basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such supplemental schedules are fairly stated in all material respects in relation to the 2013 statutory-basis financial statements as a whole.

Restriction on Use

Our report is intended solely for the information and use of the board of directors and the management of SHP and for filing with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments to whose jurisdiction the Company is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

End of year	$ 8,049,466	$ 11,015,266

See notes to statutory-basis financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Accounting Practices

Sanford Health Plan (SHP or the "Company") is a taxable nonprofit health maintenance organization (HMO) licensed to operate in South Dakota, North Dakota, and Iowa. SHP offers commercial, Medicare supplement, and individual products to approximately 37,000 members. SHP is a wholly owned subsidiary of Sanford Health (SH). SH is a wholly owned subsidiary of Sanford, a fully integrated health care organization providing clinical care to patients, research, and health care coverage. SHP has entered into contracts with physicians, hospitals, and other health care providers pursuant to which such providers deliver medical care to its enrollees. SHP was incorporated on July 30, 1997, and began operations on January 1, 1998.

Effective July 1, 2013, Heart of American Health Plan became a wholly owned subsidiary of SHP and was renamed as Sanford Heart of America Health Plan (SHAHP). SHAHP is a nonprofit health maintenance organization licensed to operate in North Dakota and is exempt from income taxes under Section 501(c)(4) of the Internal Revenue Code. The transaction was an affiliation change in the corporate member and not an asset purchase. As disclosed in Note 3, no purchase price was paid for this affiliation. The ND Commissioner of Insurance approved the acquisition of control via an Order issued on May 21, 2013.

The statutory-basis financial statements of SHP are prepared on the basis of accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance (SD Division of Insurance). These practices differ from accounting principles generally accepted in the United States of America (GAAP) as certain assets, including furniture, equipment, leasehold improvements, prepaid assets, and certain aged health care receivables, are considered nonadmitted assets for statutory purposes and are excluded from the statutory-basis statements of admitted assets, liabilities, and capital and surplus. The change in nonadmitted assets has been reflected in unassigned funds deficit in the accompanying statutory-basis financial statements. Under GAAP, these amounts would be included in total assets on the statutory-basis statements of admitted assets, liabilities, and capital and surplus. In addition, certain debt investments that would be shown at fair value under GAAP are presented at amortized cost in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus.

The SD Division of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of South Dakota for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Division of Insurance Law. The National Association of Insurance Commissioners' (NAIC) Statutory Accounting Principles (SAP) have been adopted as a component of prescribed or permitted practices by the state of South Dakota. South Dakota has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically for the state of South Dakota, electronic data processing (EDP) equipment original cost may not be more than 3% of the admitted assets of the insurer and shall be amortized over a period not to exceed five years. In NAIC SAP, EDP equipment shall be limited to 3% of the reporting entity's capital and surplus as shown on the statutory-basis statements of admitted assets, liabilities, and capital and surplus of the reporting entity for its most recently

filed statement with the domiciliary state commissioner and shall be depreciated for a period not to exceed three years. There is no material difference in net income or statutory-basis capital and surplus for the years ended December 31, 2013 and 2012, as a result of this prescribed practice. The commissioner of the SD Division of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of SHP's net income (loss) and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of South Dakota is shown below:

	State of Domicile	2013	2012
Net income:			
Company state basis	South Dakota	$ 1,781,455	$ 2,848,216
NAIC SAP	South Dakota	$ 1,781,455	$ 2,848,216
Capital and Surplus:			
Company state basis	South Dakota	$25,992,972	$26,790,937
NAIC SAP	South Dakota	$25,992,972	$26,790,937

B. Use of Estimates in the Preparation of the Statutory-Basis Financial Statements

These statutory-basis financial statements include certain amounts that are based on SHP's estimates and judgments. These estimates require SHP to apply complex assumptions and judgments often because SHP must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods. The most significant estimates relate to claims unpaid, aggregate health policy reserves, and unpaid claims adjustment expenses (CAE). SHP adjusts these estimates each period as more current information becomes available. The impact of any changes in estimates is included in the determination of income in the period in which the estimate is adjusted.

C. Significant Accounting Policies

SHP uses the following accounting policies:

(1) *Cash and Short-Term Investments* — As required by Statement of Statutory Accounting Principles (SSAP) No. 2, cash represents cash held by SHP in disbursement accounts and certificates of deposit with maturities of one year or less. Short-term investments consist of marketable securities with original maturities between three months and one year. The carrying amount of short-term investments reported in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus is cost, which approximates fair value.

(2) *Bonds* — Balance consists of U.S. government, U.S. state, U.S. political subdivisions of state, U.S. special revenue and special assessment, and industrial and miscellaneous bonds with original maturities in excess of one year and are carried at amortized cost as they meet NAIC credit risk designation one or two. Amortization of bond premiums and discounts is calculated using the interest method. Bonds are valued and reported using market prices published by the Securities Valuation Office of the NAIC (SVO) in accordance with the NAIC Valuations of Securities manual prepared by the SVO or an external pricing service. Prepayment assumptions are based on historic principal pay downs. SHP's investment policy limits investments in mortgage-backed securities to 30% of the portfolio.

(3) *Common Stock* — SHP did not hold any investments in common stock during the years ended December 31, 2013 or 2012.

(4) Preferred Stock — SHP had investments in preferred stocks of $828,239 as of December 31, 2013. Investments in preferred stocks are valued as prescribed by the SVO, or an external pricing service if NAIC values are not available, in the statutory-basis statements of admitted assets, liabilities, and capital and surplus, while under GAAP, preferred stocks are generally reported at fair value.

(5) *Mortgage Loans* — SHP did not have any mortgage loans during the years ended December 31, 2013 or 2012.

(6) *Loan-Backed Securities* — Loan-backed securities are stated at amortized cost. The retrospective adjustment method is used to value all securities.

(7) *Investments in Subsidiaries* — SHP owns 100% of SHAHP effective July 1, 2013. The value of the subsidiary was $1,232,509 as of December 31, 2013.

(8) *Joint Ventures* — SHP does not have any joint ventures.

(9) *Derivatives* — SHP did not participate in any derivative activity during the years ended December 31, 2013 or 2012.

(10) *Premium Deficiency Reserves* — Premium deficiency reserves and the related expense, as defined by SSAP No. 54, *Individual and Group Accident Health Contracts*, as well as actuarial practice guidelines, are recognized when it is probable that expected future health care expenses, CAE, and administration costs under a group of existing contracts will exceed anticipated future premiums and reinsurance recoveries considered over the remaining lives of the contracts. The methods for making such estimates and for establishing the resulting reserves are periodically reviewed and updated, and any adjustments are reflected in hospital and medical expenses in the accompanying statutory-basis statements of revenue and expenses and capital and surplus account in the period in which the change in estimate is identified. SHP used a 3% discount rate as a factor in the premium deficiency calculation in accordance with SSAP No. 54. A premium deficiency reserve (recorded as aggregate health policy reserves) of $873,000 and $743,000 related to SHP's individual business line was recorded as of December 31, 2013 and 2012, respectively.

(11) *Hospital and Medical Expenses, Claims Unpaid, Unpaid CAE, and Aggregate Health Policy Reserves* — Hospital and medical expenses and corresponding liabilities include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, and estimates for the costs of health care services enrollees have received but for which claims have not yet been submitted.

The estimates for claims unpaid are developed using actuarial methods based upon historical submission and payment data, cost trends, customer and product mix, seasonality, utilization of health care services, contracted service rates, and other relevant factors. The estimates may change as actuarial methods change or as underlying facts upon which estimates are based change. SHP did not change actuarial methods during the years ended December 31, 2013 and 2012. Management believes the amount of claims unpaid is adequate to cover SHP's liability for unpaid claims as of December 31, 2013; however, actual claim payments may differ from those established estimates. Adjustments to claims unpaid estimates are reflected in operating results in the period in which the change in estimate is identified.

Unpaid CAE as defined by SSAP No. 85, *Claim Adjustment Expenses, Amendments to SSAP No. 55 — Unpaid Claims, Losses, and Loss Adjustment Expenses*, are those costs expected to be incurred in connection with the adjustment and recording of accident and health claims. CAE is recorded as cost-containment expenses and other CAE. Cost-containment expenses include utilization review and other case management activities. A detailed review of SHP's administrative expenses is performed to determine the allocation between CAE and general administrative expenses (GAE) in accordance with SSAP No. 85. The method used for determining CAE is periodically reviewed and updated, and any adjustments are reflected in underwriting deductions in the accompanying statutory-basis statements of revenue and expenses and capital and surplus account in the period in which the change in methodology is identified.

(12) *Capitalization Policy* — SHP has not modified its capitalization policy from the prior period. The capital threshold is $2,500 for a single item and $3,000 for group purchases where per unit cost is greater than $1,000. All personal computers and laptops are capitalized regardless of the cost.

(13) *Impairment* — SHP continually monitors the difference between the cost and estimated fair value of its bonds and short-term investments. If any of SHP's bonds or short-term investments experience a decline in value believed to be other than temporary, or for which SHP has intent to sell, SHP records a realized loss. The new cost basis is not changed for subsequent recoveries in fair value. The prospective adjustment method is utilized for mortgage-backed securities for periods subsequent to the loss recognition. SHP has not recorded any other-than-temporary impairments for the years ended December 31, 2013 and 2012.

(14) *Net Premium Income and Premiums Received in Advance* — Premium revenue for prepaid health care is recognized as income in the month in which the enrollees are entitled to health care services. Premiums collected in advance are reported as premiums received in advance.

There are no premiums receivable balances greater than 90 days due, which are nonadmitted, with the exception of amounts due under government-insured plans, which are admitted assets.

(15) *Fee-for-Service Revenue* — Fee-for-service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services in the period in which services are provided.

(16) *Reinsurance* — SHP entered into a stop-loss reinsurance agreement with an insurance company for both 2013 and 2012 to limit losses on individual claims in excess of $500,000 for 2013 and 2012 of eligible medical and hospital services of any enrollee per contract year. Reinsurance premiums paid are deducted from net premium income in the statutory-basis financial statements. Reinsurance premiums were $1,561,856 and $1,029,595 for 2013 and 2012, respectively.

(17) *Depreciation* — All fixed assets are depreciated using the straight-line method over the shorter of the estimated useful lives of the assets or as prescribed by SAP. Only fixed assets that are admittable for statutory reporting are recorded on the statutory-basis statements of assets, liabilities, and capital and surplus. Upon asset retirement or disposal, the cost and accumulated depreciation accounts are adjusted, and the gain or loss is reflected in operations. Depreciation expense was $450,801 and $357,027 for 2013 and 2012, respectively, and shown as CAE. Accumulated depreciation was $3,078,706 and $2,671,840 as of December 31, 2013 and 2012, respectively.

(18) *Pharmacy Rebates Receivable* — Pharmacy rebates receivable are estimated based on the most current available data provided by SHP's unaffiliated pharmaceutical benefit manager and are invoiced on a quarterly lag basis. All pharmacy rebates receivable are considered nonadmitted assets for statutory purposes under SSAP No. 84, *Certain Healthcare Receivables and Receivables Under Government Insured Plans*, because such pharmacy rebates receivable are generally not collected within 90 days of the billing period. Accordingly, SHP has nonadmitted these receivables from the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

(19) *Income Taxes* — Statutory accounting requires an amount to be recorded for deferred taxes on temporary differences between the financial reporting and tax basis of assets and liabilities, subject to a valuation allowance and admissibility limitations on deferred tax assets. The provision for income taxes is based on the amount estimated to be currently payable and the changes in those deferred taxes arising from the temporary differences.

(20) *Vulnerability Due to Certain Concentrations* — SHP is subject to substantial federal and state government regulation, including licensing and other requirements relating to the offering of SHP's existing products in new markets and offerings of new products, both of which may restrict SHP's ability to expand its business. SHP had one customer that accounted for more than 10% of premiums for the years ended December 31, 2013 and 2012.

(21) *Recently Issued Accounting Standard* — In November 2011, the NAIC adopted SSAP No. 101, *Income Taxes — A Replacement of SSAP No. 10R and SSAP No. 10* ("SSAP No. 101"), effective for 2012 interim and annual financial statements and beyond. The new standard includes revised guidance for tax contingencies; nonelective deferred tax asset admissibility test along with significant modifications to the deferred tax asset admissibility test; and disclosure modifications. A change resulting from the adoption of this revised statement shall be accounted for prospectively.

In March 2011, the NAIC revised SSAP No. 100, *Fair Value Measurements*, effective January 2012. The revisions require additional disclosures of the fair value hierarchy, as well as the method used to obtain the fair value measurement.

(22) *Reclassifications* — Certain 2012 amounts in the accompanying statutory-basis financial statements have been reclassified to conform to the 2013 presentation. Specifically, certain claims expenses have been reclassified to better align with the types of claims. These reclassifications had no effect on net income or total capital and surplus as previously reported in the statutory-basis financial statements.

2. ACCOUNTING CHANGES AND CORRECTIONS OF ERRORS

SHP did not detect any errors in reporting that would require a correction of an error to be recorded during the years ending December 31, 2013 and 2012.

As a result of the adoption of SSAP No. 101, SHP recalculated the nonadmitted deferred tax asset balance as of December 31, 2011, in accordance with SSAP No. 101. This resulted in an increase to the net deferred tax asset of $370,000 and a corresponding decrease of $370,000 to the nonadmitted deferred tax asset balance. There was no impact related to the change in guidance related to tax contingencies. The cumulative effect of this change in accounting principle was recorded by SHP in accordance with SSAP No. 3, *Accounting Changes and Corrections of Errors*, and is reflected as an increase to unassigned funds in the accompanying statutory-basis financial statements as of January 1, 2012.

3. BUSINESS COMBINATIONS AND GOODWILL

A. Statutory Purchase Method

SHP was a party to a business combination during the year ended December 31, 2013, with SHAHP. This transaction was accounted for as a statutory purchase, in accordance with *SSAP No. 68, Business Combinations and Goodwill,* due to the parent-subsidiary relationship that exists between SHP and SHAHP. As such, the value of the transaction equaled the sum of (a) any cash payment, (b) the fair value of other assets distributed, (c) the fair value of any liabilities assumed, and (d) any direct costs of acquisition. There was no cash payment and no acquisition costs associated with the purchase. Finally, no goodwill was recorded.

B. Statutory Merger

SHP was not a party to a statutory merger during the years ended December 31, 2013 and 2012.

C. Assumption Reinsurance

SHP did not participate in assumption reinsurance.

D. Impairment Loss

SHP did not recognize an impairment loss on any of the transactions described above.

4. DISCONTINUED OPERATIONS

SHP did not discontinue any operations during the years ended December 31, 2013 and 2012.

5. INVESTMENTS AND INVESTED ASSETS

Bonds and Short-Term Investments — The amortized cost, gross unrealized gains, gross unrealized losses, and estimated fair value of bonds and short-term investments as of December 31, 2013, excluding cash of $5,471,673, and as of December 31, 2012, excluding cash of $6,608,149, were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses < 1 Year	Gross Unrealized Losses > 1 Year	Estimated Fair Value
As of December 31, 2013:					
U.S. government bonds	$10,177,547	$ 378,444	$ (51,650)	$ (14)	$10,504,327
U.S. state bonds	854,475	15,644			870,119
U.S. political subdivisions of state bonds	213,872	1,593	(1,731)		213,734
U.S. special revenue and special assessment bonds	184,386		(3,072)		181,314
Industrial and miscellaneous bonds, including foreign	17,206,386	237,447	(42,272)	(83,689)	17,317,872
Mortgage-backed securities	7,341,649	107,141	(25,936)	(35,098)	7,387,756
Preferred stocks	828,239				828,239
Short-term investments	2,577,793	70	(64)		2,577,799
	$39,384,347	$ 740,339	$(124,725)	$(118,801)	$39,881,160
Investment in insurance subsidiary	$ 1,232,509	$ -	$ -	$ -	$ 1,232,509
As of December 31, 2012:					
U.S. government bonds	$ 5,771,660	$ 766,541	$ (278)	$ -	$ 6,537,923
U.S. state bonds	854,984	70,412			925,396
U.S. political subdivisions of state bonds	100,000	5,419			105,419
U.S. special revenue and special assessment bonds	185,311	4,489			189,800
Industrial and miscellaneous bonds, including foreign	17,255,465	473,161	(24,363)	(5,913)	17,698,350
Mortgage-backed securities	10,272,961	279,359	(35,109)		10,517,211
Short-term investments	4,407,117	97	(1,622)		4,405,592
	$38,847,498	$1,599,478	$ (61,372)	$ (5,913)	$40,379,691

The amortized cost and estimated fair value of investments as of December 31, 2013, by contractual maturity, were as follows:

Years to Maturity	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses < 1 Year	Gross Unrealized Losses > 1 Year	Estimated Fair Value
Less than one year	$ 5,284,505	$ 18,188	$ (65)	$ -	$ 5,302,628
One to five years	17,522,711	408,411	(18,635)	(14)	17,912,473
Five to ten years	5,963,358	72,274	(42,757)	(83,688)	5,909,187
Ten to twenty years	4,147,480	155,581	(32,591)	(1,215)	4,269,255
Over twenty years	5,638,054	85,885	(30,677)	(33,884)	5,659,378
	$38,556,108	$740,339	$(124,725)	$(118,801)	$39,052,921

The tables above show the gross unrealized losses and fair value of investments with unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment type and length of time that individual securities have been in a continuous unrealized loss position.

Proceeds from bond sales and maturities were $8,265,955 and $13,864,753 for 2013 and 2012, respectively, realized gains were $3,644 and $77,088 for 2013 and 2012, respectively, and realized losses were $0 and $2,467 for 2013 and 2012, respectively.

The unrealized losses on investments in U.S. government bonds and industrial and miscellaneous bonds at December 31, 2013 and 2012, were mainly caused by interest rate increases and not by unfavorable changes in credit ratings associated with these securities. SHP evaluates impairment at each reporting period for each of the securities, whereby the fair value of the investment is less than its amortized cost. The contractual cash flows of the U.S. government bonds are guaranteed either by the U.S. government or an agency of the U.S. government. It is expected that the securities would not be settled at a price less than the amortized cost of the investment, and SHP does not intend to sell the investment until the unrealized loss is fully recovered. SHP evaluated the credit ratings of the industrial and miscellaneous bonds, noting neither a significant deterioration since purchase nor other factors, which may indicate an other-than-temporary impairment, such as the length of time and extent to which fair value has been less than cost, the financial condition and near-term prospects of the issuer as well as specific events or circumstances that may influence the operations of the issuer, and SHP's ability and intent to hold the investments for a sufficient time in order to enable recovery of SHP's cost.

The investment in insurance subsidiary represents the total capital and surplus of SHAHP. Summarized financial information for SHAHP as of December 31, 2013 is as follows:

	2013
Total assets	$2,003,410
Total liabilities	770,901
Total capital and surplus	1,232,509
Total revenue	3,833,853
Net loss	(358,002)

There are no nonadmitted assets as a result of bonds that were in or near default as of December 31, 2013 and 2012.

Investments are reported in accordance with the NAIC Valuations of Securities manual prepared by the NAIC Securities Valuation Office.

A. Mortgage Loan, Including Mezzanine Real Estate Loans

SHP did not have any mortgage loans during the years ended December 31, 2013 or 2012.

B. Debt Restructuring

SHP did not have any debt during the years ended December 31, 2013 or 2012.

C. Reverse Mortgages

SHP did not have any reverse mortgages during the years ended December 31, 2013 or 2012.

D. Loan-Backed Securities

SHP had mortgage-backed securities of $7,341,649 and $10,272,961 during the years ended December 31, 2013 and 2012, respectively.

E. Repurchase Agreements and/or Securities Lending Transactions

SHP did not participate in any repurchase agreements or securities lending transactions during the years ended December 31, 2013 or 2012.

F. Real Estate

SHP does not own any real estate.

G. Investments in Low-Income Housing Tax Credits

SHP did not have any investments in low-income housing during the years ended December 31, 2013 or 2012.

6. JOINT VENTURES, PARTNERSHIPS, AND LIMITED LIABILITY COMPANIES

A. Joint Ventures

SHP has no investments in joint ventures, partnerships, or limited liability companies.

B. Impaired Investment Income

SHP did not have any impaired investment income during the years ended December 31, 2013 or 2012.

7. INVESTMENT INCOME

SHP has admitted all investment income due and accrued in the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

8. DERIVATIVE INSTRUMENTS

SHP has no derivative instruments.

9. INCOME TAXES

A.-B. Deferred Tax Assets and Liabilities

(1) The components of the net deferred tax assets and deferred tax liabilities at December 31, 2013 and 2012, all of which are ordinary, and the changes in the net admitted DTAs for the year ended December 31, 2013, are as follows:

The 2013 and 2012 information is computed under SSAP No. 101.

	December 31, 2013		
	Ordinary	Capital	Total
Gross deferred tax assets	$1,732,000	$ -	$1,732,000
Statutory valuation allowance adjustments			-
Adjusted gross deferred tax assets	1,732,000	-	1,732,000
Deferred tax assets nonadmitted	240,000		240,000
Subtotal net admitted deferred tax assets	1,492,000	-	1,492,000
Deferred tax liabilities	45,000		45,000
Net admitted deferred tax assets	$1,447,000	$ -	$1,447,000

	December 31, 2012		
	Ordinary	Capital	Total
Gross deferred tax assets	$1,289,000	$ -	$1,289,000
Statutory valuation allowance adjustments			-
Adjusted gross deferred tax assets	1,289,000	-	1,289,000
Deferred tax assets nonadmitted	249,000		249,000
Subtotal net admitted deferred tax assets	1,040,000	-	1,040,000
Deferred tax liabilities	43,000		43,000
Net admitted deferred tax assets	$ 997,000	$ -	$ 997,000

	Change		
	Ordinary	Capital	Total
Gross deferred tax assets	$ 443,000	$ -	$ 443,000
Statutory valuation allowance adjustments			
Adjusted gross deferred tax assets	443,000	-	443,000
Deferred tax assets nonadmitted	(9,000)		(9,000)
Subtotal net admitted deferred tax assets	452,000	-	452,000
Deferred tax liabilities	2,000		2,000
Net admitted deferred tax assets	$ 450,000	$ -	$ 450,000

(2) Admission Calculation Components SSAP No 101:

	December 31, 2013		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 1,445,000	$ -	$ 1,445,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	47,000		47,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	128,000		128,000
Adjusted gross deferred tax assets allowed per limitation threshold	47,000		47,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	1,492,000		1,492,000

	December 31, 2012		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 1,014,000	$ -	$ 1,014,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	26,000		26,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	26,000		26,000
Adjusted gross deferred tax assets allowed per limitation threshold			4,020,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	1,040,000		1,040,000

	Change		
	Ordinary	Capital	Total
Federal income taxes paid in prior years recoverable through loss carrybacks	$ 431,000	$ -	$ 431,000
Adjusted gross deferred tax assets expected to be realized after application of the threshold limitation	21,000		21,000
Adjusted gross deferred tax assets expected to be realized following the balance sheet date	102,000		102,000
Adjusted gross deferred tax assets allowed per limitation threshold	47,000		47,000
Adjusted gross deferred tax assets (excluding the amount of deferred tax assets above) offset by gross deferred tax liabilities			
Deferred tax assets admitted as the result of application of SSAP No. 101	452,000		452,000

SSAP No. 101 is effective for 2012 interim and annual financial statements and beyond. The new standard includes revised guidance for tax contingencies, a nonelective DTA admissibility test along with significant modifications to the DTAs admissibility test, and disclosure modifications. A change resulting from this adoption would be accounted for prospectively and reflected as a change in accounting principle in accordance with SSAP No. 3. The adoption of this pronouncement resulted in a change of accounting principle as disclosed previously in Note 2.

(3) The ratio and amount of adjusted capital and surplus used to determine the applicable recovery period as of December 31, 2013 and 2012, are as follows:

Ratio percentage used to determine recovery period and threshold limitation amount	15.000 %	15.000 %
Amount of adjusted capital and surplus used to determine recovery period and threshold limitation above	$25,992,972	$26,790,937

(4) There was no impact to deferred tax assets as a result of tax planning strategies.

C. Significant components of current income taxes incurred consist of the following major categories:

(1) Current Federal Income Tax

	Year Ended December 31		
	2013	2012	Change
Current income tax:			
Federal	$ 179,000	$1,371,000	$(1,192,000)
Foreign			
Subtotal	179,000	1,371,000	(1,192,000)
Federal income tax on net capital gains	1,000	25,000	(24,000)
Federal and foreign income taxes incurred	$ 180,000	$1,396,000	$(1,216,000)

(2) Deferred Tax Assets

	Year Ended December 31		
	2013	2012	Change
Ordinary:			
Discounting of unpaid losses	$ 65,000	$ 66,000	$ (1,000)
Unearned premium reserve	62,000	92,000	(30,000)
Policyholder reserves	297,000	253,000	44,000
Fixed assets	591,000	275,000	316,000
Compensation and benefits accrual	104,000	86,000	18,000
Receivables — nonadmitted	559,000	413,000	146,000
Other (including items <5% of total tax ordinary assets)	54,000	104,000	(50,000)
Subtotal	1,732,000	1,289,000	443,000
Nonadmitted	240,000	249,000	(9,000)
Admitted ordinary deferred tax assets	$1,492,000	$1,040,000	$452,000

(3) Deferred Tax Liabilities

	Year Ended December 31		
	2013	2012	Change
Ordinary — other Capital	$45,000	$43,000	$2,000
Deferred tax liabilities	$45,000	$43,000	$2,000

(4) Net Deferred Tax Assets

	Year Ended December 31		
	2013	2012	Change
Net deferred tax assets	$ 1,447,000	$997,000	$450,000

The Company assessed the potential realization of the gross DTA, and as a result, no statutory valuation allowance was required and no allowance was established as of December 31, 2013 and 2012.

The change in net deferred income taxes is comprised of the following (this analysis is exclusive of any nonadmission of DTA under the admissibility test calculated in accordance with SSAP101 paragraph 11.

	Year Ended December 31		
	2013	2012	Change
Total deferred tax assets	$ 1,732,000	$ 1,289,000	$ 443,000
Total deferred tax liabilities	45,000	43,000	2,000
Net deferred tax assets	$ 1,687,000	$ 1,246,000	$ 441,000

D. Among the more significant book to tax adjustments were the following:

The provision for federal income taxes incurred was different from that which would be obtained by applying the statutory federal income tax rate of 34% to net income before federal income taxes. The significant items causing this difference for 2013 and 2012 were as follows:

	2013	Effective Tax Rate
Tax provision computed at statutory rate	$ 666,895	34.0 %
Meals and entertainment	3,569	0.2
Change in nonadmitted assets	(967,112)	(49.3)
Other	35,648	0.2
Total	$ (261,000)	(14.9)%
Federal and foreign income taxes incurred	180,000	9.2 %
Change in net deferred income taxes	(441,000)	(22.5)
Total statutory income taxes	$ (261,000)	(13.3)%

	2012	Effective Tax Rate
Tax provision computed at statutory rate	$1,442,955	34.0 %
Meals and entertainment	3,566	0.1
Change in deferred income taxes — net	(92,000)	(2.2)
Other	41,479	1.0
Total	$1,396,000	32.9 %

E. Additional Disclosures:

(1) *Carryforward Period* — At December 31, 2013, SHP had no net operating loss carryforwards.

(2) *Income Taxes Available for Recoupment* — Current federal income taxes payable of approximately $0 and $1,358,000 as of December 31, 2013 and 2012, respectively, are included in the accompanying statutory-basis statements of admitted assets, liabilities, and capital and surplus. Federal income taxes paid was $2,534,000 and $60,000 in 2013 and 2012, respectively.

Federal income tax incurred that is available for future recoupment in the event of future losses is $149,000 and $1,396,000 for 2013 and 2012, respectively.

F. Tax Return Consolidation

SHP does not consolidate tax returns with any other entity or entities.

G. Tax Loss Contingencies

SHP has no tax loss contingencies as of December 31, 2013 and 2012.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES, AND OTHER RELATED PARTIES

A-C. Related-Party Transactions

Administrative services, including claims processing, marketing, quality assurance, financial accounting, insurance, legal, payroll, and data processing, are provided by SHP to Sanford Health Plan of Minnesota (SHPMN), an affiliated entity. Expenses are allocated quarterly to SHPMN based on a percentage of overall membership and are reported as a reduction to administration expenses and CAE as applicable. Total allocated expenses were $116,450 and $126,169 for 2013 and 2012, respectively.

SH rents office space from SHP on a month-to-month basis. Total rental income was $16,101 and $21,468 for 2013 and 2012, respectively.

SH provides certain corporate services for SHP, and SHP reimburses SH for accounts payable expenses processed for SHP on a monthly basis. SHP pays SH for a monthly allocation of corporate services relating to compliance services, information technology services, and provider credentialing based on a percentage of total expenses. Other corporate services provided by SH include printing and health services support. Total corporate services and accounts payable reimbursements paid to SH for such expenses for 2013 and 2012 were $16,761,214 and $15,398,822, respectively, and are reported within CAE and GAE on the statutory-basis financial statements.

SHP provides third-party administrative services to Sanford through an Administrative Services Only (ASO) Agreement. SH reimburses SHP monthly for these services based on a per member per month basis. Payments received from SH for these services totaled $11,392,538 and $10,514,875 for 2013 and 2012, respectively, and are a reduction to general and administrative expense in the statutory-basis statements of revenues and expenses and capital and surplus account. SSAP 47.6 states that when a TPA acts in an administrative function only, related revenue should be deducted from general expense.

Payments made to SH for SHP's members' medical claims totaled $61,791,408 and $53,588,377 during 2013 and 2012, respectively, and are reported within hospital and medical expenses as applicable.

SHP provides screening services for SH. SH reimburses SHP monthly for these services. Payments received for screening services from SH totaled $6,650 and $397,057 for 2013 and 2012, respectively, and are reported within fee-for-service revenues on the statutory-basis statements of revenues and expenses and capital and surplus account.

SHP returned capital of $1,000,000 and $600,000 to SH during 2013 and 2012, respectively. SHP contributed capital of $1,000,000 to SHAHP during the year ended December 31, 2013.

SHP believes that its transactions with affiliates are reasonable and appropriate; however, operations of SHP may not be indicative of those that would have occurred if it had operated as an independent company.

D. Amounts Due from or to Related Parties

As of December 31, 2013 and 2012, SHP reported $1,480,650 and $1,392,614, respectively, as amounts due to SH, and $27,497 and $18,444, respectively, due from SHPMN.

E. Guarantees

SHP does not have any guarantees with related parties.

F. Material Management, Service Contracts, or Cost-Sharing Arrangements

Other than those discussed above, SHP does not have any material management, service contracts, or cost-sharing arrangements with related parties.

G. Control Relationship

The sole member of SHP is SH, and SH is a wholly owned subsidiary of Sanford, a fully integrated health care organization providing clinical care to patients, research, and health care coverage. As disclosed in Note 1, SHP took over control of SHAHP, which is now a wholly owned subsidiary of SHP.

H. Reduction of Asset Value of Securities

SHP did not reduce the asset value of any securities during the years ended December 31, 2013 or 2012.

I. Investment in Subsidiary, Controlled, or Affiliated (SCA) Entities that Exceeds 10% of Admitted Assets

Investments in SCA do not exceed 10% of admitted assets.

J. SCA Impaired Assets

SHP does not have any SCA impaired assets.

K. Investment in Foreign Insurance Subsidiary

SHP does not have any foreign insurance subsidiaries.

L. Investment in Downstream Noninsurance Holding Company

SHP does not have any investments in downstream noninsurance holding companies.

11. DEBT

A. Items Related to Debt

SHP had no debt outstanding during 2013 and 2012.

B. Federal Home Loan Bank Agreements

SHP had no Federal Home Loan Bank agreements during 2013 and 2012.

12. RETIREMENT PLANS, DEFERRED COMPENSATION, POSTEMPLOYMENT BENEFITS AND COMPENSATED ABSENCES, AND OTHER POSTRETIREMENT BENEFIT PLANS

A. Defined Benefit Plan

SHP does not have a defined benefit plan or other postretirement benefit plan.

B. Defined Contribution Plan

SH has retirement plans for qualified SHP employees. The benefits are based on the plans' provisions. SH makes contributions to the plans of approximately 2% of estimated salary costs. Expense allocated to SHP under the plans was $245,039 and $184,484 for 2013 and 2012, respectively. These balances are recorded in CAE and GAE during the years ended December 31, 2013 and 2012.

C. Multiemployer Plans

SHP does not participate in a multiemployer plan.

D. Consolidated/Holding Company Plans

SHP does not participate in a consolidated or holding company plan.

E. Postemployment Benefits and Compensated Absences

SHP does not provide postemployment benefits or compensated absences.

F. Impact of Medicare Modernization Act on Postretirement Benefits (INT 04-17)

There has been no impact of the Medicare Modernization Act on SHP.

13. CAPITAL AND SURPLUS, SHAREHOLDERS' DIVIDEND RESTRICTIONS, AND QUASI-REORGANIZATIONS

(1) *Capital Stock* — SHP did not have any capital stock outstanding during the years ended December 31, 2013 or 2012.

(2) *Preferred Stock* — SHP did not have any preferred stock outstanding during the years ended December 31, 2013 or 2012.

(3) *Dividend Restrictions* — There were no dividend restrictions applicable during the years ended December 31, 2013 or 2012.

(4) *Dividends Paid* — SHP paid dividends of $1,000,000 and $600,000 during the years ended December 31, 2013 and 2012, respectively.

(5) *Dividends to Stockholders* — SHP did not pay any dividends during the years ended December 31, 2013 or 2012.

(6) *Restrictions on Unassigned Funds* — There were no restrictions on unassigned funds during the years ended December 31, 2013 or 2012.

(7) *Advances to Surplus* — There were no advances to surplus during the years ended December 31, 2013 or 2012.

(8) *Stock Held for Special Purchases* — There was no stock held for special purchases for the years ended December 31, 2013 or 2012.

(9) *Changes in Special Surplus* — There were no changes in special surplus for the years ended December 31, 2013 or 2012.

(10) *Unassigned Surplus Funds* — The portion of unassigned funds deficit represented by nonadmitted asset values was $5,164,584 and $3,028,145 as of December 31, 2013 and 2012, respectively. The increase in 2013 is related to the nonadmitted portion of property and equipment.

(11) *Surplus Notes* — There were no surplus notes during the years ended December 31, 2013 or 2012.

(12) *Restatement Impact of Quasi-Reorganization* — SHP did not participate in a quasi-reorganization during the years ended December 31, 2013 or 2012.

(13) *Effective Date of Quasi-Reorganization* — SHP did not participate in a quasi-reorganization during the years ended December 31, 2013 or 2012.

14. CONTINGENCIES

A. Contingent Commitments

SHP does not have any contingent commitments as of December 31, 2013 or 2012.

B. Assessments

SHP does not have any assessments as of December 31, 2013 or 2012.

C. Gain Contingencies

SHP does not have any gain contingencies as of December 31, 2013 or 2012.

D. Claims Related Extra Contractual Obligation and Bad Faith Losses Stemming from Lawsuits

SHP does not have any material lawsuits resulting in extra contractual obligations or bad faith losses.

E. All Other Contingencies

SHP is involved in legal actions, which arise in the ordinary course of its business. Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect upon the statutory-basis statements of revenues and expenses. SHP believes there are no assets that it considers impaired.

During the first quarter of 2010, the Patient Protection and Affordable Care Act and a reconciliation measure, the Health Care and Education Reconciliation Act of 2010 (collectively known as "Health Reform Legislation"), were signed into law, and after being challenged, were substantially upheld in a U.S. Supreme Court decision in the second quarter of 2012. The Health Reform Legislation

expands access to coverage and modifies aspects of the commercial insurance market, as well as the Medicaid and Medicare programs, Children's Health Insurance Program (CHIP), and other aspects of the health care system. Certain provisions of the Health Reform Legislation have already taken effect, and other provisions become effective at various dates over the next several years. The Department of Health and Human Services (HHS), the Department of Labor (DOL), and the Treasury Department have issued regulations or proposed regulations on a number of aspects of Health Reform Legislation, but final rules and interim guidance on the other key aspects of the legislation remain pending.

The Health Reform Legislation and the related federal and state regulations will impact how the Company does business and could restrict revenue and enrollment growth in certain products and market segments, restrict premium growth rates for certain products and market segments, increase the Company's medical and administrative costs, expose the Company to an increased risk of liability (including increasing the Company's liability in federal and state courts for coverage determinations and contract interpretation), or put the Company at risk for loss of business. In addition, the Company's statutory-basis results of operations, financial condition, and cash flows could be materially adversely affected by such changes. The Health Reform Legislation may create new or expand existing opportunities for business growth, but due to its complexity, the impact of the Health Reform Legislation remains difficult to predict and is not yet fully known.

On January 1, 2014, the SHP will be subject to an annual fee under section 9010 of the Affordable Care Act (ACA). This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of the health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for a U.S. health risk for each calendar year beginning on or after January 1, 2014. As of December 31, 2013, SHP has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2014, and estimates its portion of the annual health insurance industry fee payable on September 30, 2014, to be $2,484,000. This assessment is expected to impact risk-based capital by $0.

15. LEASES

A. Lessee Operating Lease

SHP has certain rental commitments. Rental expense for 2013 and 2012 was approximately $745,927 and $792,624, respectively. These balances are recorded in CAE.

SHP entered into a lease agreement that commenced on November 1, 2007, and a sublease that commenced on November 1, 2011. These commitments have renewal options extending through the year 2017 and are subject to adjustments in future periods. The future rental commitments for this lease are included in the table below.

At December 31, 2013, the minimum aggregate rental commitments are as follows:

Years Ending December 31	Operating Leases
2014	$ 813,096
2015	813,096
2016	799,846
2017	643,906
Total	$3,069,944

SHP is not involved in any material sales — leaseback transactions.

B. Lessor Leases:

(1) *Operating Leases* — SHP entered into a sublease agreement with a third party that commenced on November 1, 2007. This commitment has renewal options extending through the year 2017 and is subject to adjustments in future periods. Rental income for 2013 and 2012 was $148,835 and $141,270, respectively. These balances are recorded in net investment gains on the statutory-basis statements of revenues and expenses.

(2) Future minimum lease payment receivables under noncancelable leasing arrangements as of December 31, 2013, are as follows:

Years Ending December 31	Operating Leases
2014	$ 143,051
2015	143,051
2016	143,051
2017	125,562
Total	$ 554,715

(3) *Leveraged Leases* — SHP is not a lessor to any leveraged leases.

16. INFORMATION ABOUT FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK AND FINANCIAL INSTRUMENTS WITH CONCENTRATIONS OF CREDIT RISK

SHP does not hold any financial instruments with off-balance-sheet risk or concentrations of credit risk.

17. SALE, TRANSFER, AND SERVICING OF FINANCIAL ASSETS AND EXTINGUISHMENTS OF LIABILITIES

A. Transfers of Receivables

SHP did not transfer any receivables during the years ended December 31, 2013 or 2012.

B. Transfer and Service of Financial Assets

SHP did not transfer any financial assets during the years ended December 31, 2013 or 2012.

C. Wash Sales

SHP did not participate in any activity that would be considered a wash sale during the years ended December 31, 2013 or 2012.

18. GAIN OR LOSS TO THE REPORTING ENTITY FROM UNINSURED PLANS AND THE UNINSURED PORTION OF PARTIALLY INSURED PLANS

A. ASO (Administrative Services Only) Plans

The gains from operations from ASO uninsured plans and the uninsured portion of partially insured plans during 2013 and 2012 were as follows:

	2013		
	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	$ 3,249,954	$ -	$ 3,249,954
Total net other income or expenses (including interest paid to or received from plans)			-
Net gain (loss) from operations	3,249,954		3,249,954
Total claim payment volume	175,127,195		175,127,195

	2012		
	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	$ 3,343,640	$ -	$ 3,343,640
Total net other income or expenses (including interest paid to or received from plans)			-
Net gain (loss) from operations	3,343,640		3,343,640
Total claim payment volume	154,743,100		154,743,100

B. ASC (Administrative Services Contract) Plans

The loss from operations and claim payment volume for Administrative Services Contract (ASC) uninsured plans for 2013 and 2012 were as follows:

	2013		
	ASC Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASC
Gross reimbursement for medical cost incurred	$ -	$ 221,391	$ 221,391
Gross administrative fees accrued			-
Other income or expenses (including interest paid to or received from plans)			-
Gross expenses incurred (claims and administrative)		345,201	345,201
Total net gain (loss) from operations		(123,810)	(123,810)

	2012		
	ASC Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASC
Gross reimbursement for medical cost incurred	$ -	$ 324,994	$ 324,994
Gross administrative fees accrued			-
Other income or expenses (including interest paid to or received from plans)			-
Gross expenses incurred (claims and administrative)		522,864	522,864
Total net gain (loss) from operations		(197,870)	(197,870)

C. Medicare or Similarly Structured Cost-Based Reimbursement Contract

SHP does not have any Medicare or similarly structured cost-based reimbursement contracts, however SHAHP, the wholly owned subsidiary of SHP, does have a Medicare Cost contract.

19. DIRECT PREMIUM WRITTEN/PRODUCED BY MANAGING GENERAL AGENTS/THIRD-PARTY ADMINISTRATORS

SHP did not have any direct premiums written or produced by managing general agents or third-party administrators.

20. FAIR VALUE MEASUREMENTS

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 — Quoted (unadjusted) prices for identical assets in active markets

Level 2 — Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.)
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.)
- Inputs that are derived principally from or corroborated by other observable market data

Level 3 — Unobservable inputs that cannot be corroborated by observable market data

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. SHP's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

A. Assets and Liabilities Measured at Fair Value

SHP does not have any financial assets that are measured and reported at fair value on the statutory-basis statements of admitted assets, liabilities, and capital and surplus at December 31, 2013 and 2012.

B. Other Fair Value Disclosure

The following table presents information about SHP's financial assets disclosed at fair value at December 31, 2013 and 2012.

Description for Each Class of Asset or Liability	December 31, 2013 (Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
U.S. government bonds	$ -	$ 10,504,327	$ -	$ 10,504,327
U.S. state bonds		870,119		870,119
U.S. political subdivisions of state bonds		213,734		213,734
U.S. special revenue and special assessment bonds		181,314		181,314
Industrial and miscellaneous bonds, including foreign		17,317,872		17,317,872
Mortgage-backed securities		7,387,756		7,387,756
Preferred stocks	828,239			828,239
Short-term investments		2,577,799		2,577,799
Total assets at fair value	$828,239	$ 39,052,921	$ -	$ 39,881,160

Description for Each Class of Asset or Liability	December 31, 2012 (Level 1)	(Level 2)	(Level 3)	Total
Assets at fair value:				
U.S. government bonds	$ -	$ 6,537,923	$ -	$ 6,537,923
U.S. state bonds		925,396		925,396
U.S. political subdivisions of state bonds		105,419		105,419
U.S. special revenue and special assessment bonds		189,800		189,800
Industrial and miscellaneous bonds, including foreign		17,698,350		17,698,350
Mortgage-backed securities		10,517,211		10,517,211
Short-term investments	461,669	3,943,923		4,405,592
Total assets at fair value	$461,669	$ 39,918,022	$ -	$ 40,379,691

There were no transfers between Level 1 and Level 2 during the years ended December 31, 2013 and 2012.

C. Financial Instruments for Which Fair Value Cannot be Estimated

Not applicable.

D. Not Practicable to Estimate Fair Value

Not applicable.

21. OTHER ITEMS

A. Extraordinary Items

There were no extraordinary items for SHP during the years ended December 31, 2013 or 2012.

B. Troubled Debt Restructuring — Debtors

SHP does not have troubled debt restructuring.

C. Other Disclosures

Risk-based capital (RBC) is a regulatory tool for measuring the minimum amount of capital appropriate for a managed care organization to support its overall business operations in consideration of its size and risk profile. Under the laws of South Dakota, SHP is required to maintain a minimum net worth and company action-level RBC. SHP met the net worth requirements as of December 31, 2013 and 2012.

The Company is required by the State of South Dakota to maintain a minimum regulatory deposit of $300,000. The Company is in compliance with this requirement as of December 31, 2013 and 2012, respectively.

D. Uncollectible

Not applicable.

E. Business Interruption Insurance Recoveries

Not applicable.

F. State Transferable Tax Credits

SHP did not have any state transferable tax credits as of December 31, 2013 or 2012.

G. Subprime Mortgage-Related Exposure

Not applicable.

H. Retained Assets

SHP did not have any retained assets as of December 31, 2013 or 2012.

22. SUBSEQUENT EVENTS

Type I — Recognized Subsequent Events — SHP has evaluated recognized subsequent events through February 28, 2014, which is the date these statutory-basis financial statements were available for issuance.

There were no events subsequent to December 31, 2013, that require recognition or disclosure.

Type II — Nonrecognized Subsequent Events — SHP has evaluated nonrecognized subsequent events through February 28, 2014, which is the date these statutory-basis financial statements were available for issuance.

There were no events subsequent to December 31, 2013, that require disclosure.

23. REINSURANCE

A. Ceded Reinsurance Report:

Section 1 — General Interrogatories

(1) Are any of the reinsurers, listed in Schedule S as nonaffiliated, owned in excess of 10% or controlled, either directly or indirectly, by the Company or by any representative, officer, trustee, or director of the Company?

( ) Yes (X) No

(2) Have any polices issued by the Company been reinsured with a company chartered in a country other than the United States (excluding U.S. branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor, or an insured or any other person not primarily engaged in the insurance business?

( ) Yes (X) No

Section 2 — Ceded Reinsurance Report — Part A

(1) Does the Company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credit?

( ) Yes (X) No

(2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies?

( ) Yes (X) No

Section 3 — Ceded Reinsurance Report — Part B

(1) What is the estimated amount of the aggregate reduction in surplus (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of payment or other similar credits that are reflected in Section 2 above) of termination of all reinsurance agreements, by either party, as of the date of this statement? Where necessary, the Company may consider the current or anticipated experience of the business reinsured in making this estimate.

$0

(2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the Company as of the effective date of the agreement?

( ) Yes (X) No

B. Uncollectible Reinsurance

During 2013 and 2012, there were no uncollectible reinsurance recoverables.

C. Commutation of Ceded Reinsurance

SHP does not have any commutation of ceded reinsurance.

D. Unsecured Reinsurance Recoverables

SHP does not have an unsecured aggregate reinsurance recovery receivable with any individual reinsurers, authorized or unauthorized, that exceeds 3% of SHP's policyholder surplus.

E. Reinsurance Recoverable in Dispute

SHP does not have a reinsurance recoverable balance that is being disputed by any individual reinsurer.

F. Retroactive Reinsurance

SHP did not have a retroactive reinsurance agreement in 2013 or 2012.

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

A. Method Used to Estimate Retrospective Premium Adjustments

Not applicable.

B. Accrued Retrospective Premium

Not applicable.

C. Amount of Net Premiums

Not applicable.

D. Medical Loss Ratio Rebates

Not applicable.

25. CHANGE IN INCURRED CLAIMS AND UNPAID CAE

Reserves for incurred claims and unpaid CAE attributable to insured events of prior years have decreased by $331,133, from $13,757,798 in 2012 to $13,426,665 in 2013, as a result of a reestimation of unpaid claims and CAE principally on the commercial line of insurance. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.

Claims activity, net of reinsurance and aggregate health policy reserves in 2013 and 2012, was as follows:

	2013		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	$ -	$ (12,907,798)	$ (12,907,798)
Paid claims	113,688,899	12,321,277	126,010,176
End of year claim reserve	16,511,961	255,388	16,767,349
Total incurred claims	$ 130,200,860	$ (331,133)	$ 129,869,727

	2012		
	Current Year Incurred Claims	Prior Years Incurred Claims	Total
Beginning of year claim reserve	$ -	$ (11,172,146)	$ (11,172,146)
Paid claims	111,023,304	11,140,080	122,163,384
End of year claim reserve	12,902,210	5,588	12,907,798
Total incurred claims	$ 123,925,514	$ (26,478)	$ 123,899,036

SHP incurred CAE of $9,192,821 and $8,250,046 in 2013 and 2012, respectively. The paid CAE, incurred CAE, and the balance in the unpaid claim adjustment expenses reserve for 2013 and 2012 are as follows:

	2013	2012
Total CAE incurred	$9,192,821	$8,250,046
Less current year unpaid CAE	(1,118,000)	(850,000)
Add prior year unpaid CAE	850,000	775,000
Total CAE paid	$8,924,821	$8,175,046

26. INTERCOMPANY POOLING ARRANGEMENTS

SHP did not have any intercompany pooling arrangements in 2013 or 2012.

27. STRUCTURED SETTLEMENTS

Not applicable to health entities.

28. HEALTH CARE RECEIVABLES

Pharmaceutical Rebates Receivable — Pharmaceutical rebates receivable are recorded when reasonably estimated or billed by the unaffiliated pharmaceutical benefit manager in accordance with pharmaceutical rebate contract provisions. Information used to support rebates billed to the manufacturer is based on utilization information gathered by the pharmaceutical benefit manager and adjusted for significant changes in pharmaceutical contract provisions. SHP has excluded receivables that do not meet the admissibility criteria from the statutory-basis statements of admitted assets, liabilities, and capital and surplus.

The quarterly collection history of pharmacy rebates for the past three years is summarized in the table below.

Quarter	Estimated Pharmacy Rebates as Reported on Financial Statements	Pharmacy Rebates as Billed or Otherwise Confirmed	Actual Rebates Received within 90 Days of Billing	Actual Rebates Received within 91 to 180 Days of Billing	Actual Rebates Received More than 180 Days After Billing
December 31, 2013	$ -	$ -	$ -	$ -	$ -
September 30, 2013		733,554			
June 30, 2013		709,814		686,829	
March 31, 2013		709,847		732,652	
December 31, 2012		606,204		638,670	
September 30, 2012		613,555		664,542	
June 30, 2012	578,475	580,885		525,510	
March 31, 2012	527,756	518,158		525,109	
December 31, 2011	428,629	425,942		386,379	
September 30, 2011	438,787	425,135		415,562	
June 30, 2011		405,857		411,653	
March 31, 2011		384,198		381,119	

SHP did not admit health care receivables as of December 31, 2013 and 2012, respectively.

Risk Sharing Receivables — Not applicable.

29. PARTICIPATING POLICIES

SHP did not have any participating policies in 2013 or 2012.

30. PREMIUM DEFICIENCY RESERVES

SHP recorded a premium deficiency reserve of $873,000 and $743,000 based on an evaluation as of December 31, 2013 and 2012, respectively. Premium deficiency reserves are included in aggregate health policy reserves in the statutory-basis statements of admitted assets, liabilities, and capital and surplus. A discount rate of 3% was used in this analysis at December 31, 2013 and 2012.

Liability carried for premium deficiency reserves	$ 873,000
Date of the most recent evaluation of this liability	December 31, 2013
Was anticipated investment income utilized in the calculation?	Yes [X] No [ ]

31. ANTICIPATED SALVAGE AND SUBROGATION

Due to the type of business being written, SHP has no salvage. As of December 31, 2013 and 2012, SHP had no specific accruals established for outstanding subrogation as it is considered a component of the actuarial calculations used to develop the estimates of claims unpaid.

SUPPLEMENTAL SCHEDULES

SUPPLEMENTAL SCHEDULES
EXHIBIT I: SUPPLEMENTAL SCHEDULE OF INVESTMENT RISKS INTERROGATORIES

SUPPLEMENT FOR THE YEAR 2013 OF THE SANFORD HEALTH PLAN

SUPPLEMENTAL INVESTMENT RISKS INTERROGATORIES

For The Year Ended December 31, 2013

(To Be Filed by April 1)

Of The SANFORD HEALTH PLAN

Address (City, State and Zip Code) Sioux Falls, SD 57103

NAIC Group Code 01246 NAIC Company Code 95683 Employer's ID Number 91-1842494

The Investment Risks Interrogatories are to be filed by April 1. They are also to be included with the Audited Statutory Financial Statements.

Answer the following interrogatories by reporting the applicable U. S. dollar amounts and percentages of the reporting entity's total admitted assets held in that category of investments.

1. Reporting entity's total admitted assets as reported on Page 2 of this annual statement. $ 51,347,204.78

2. Ten largest exposures to a single issuer/borrower/investment.

	1 Issuer	2 Description of Exposure	3 Amount	4 Percentage of Total Admitted Assets
2.01	FIRST PREMIER BANK	CHECKING ACCOUNT	$ 3,509,589.28	6.8 %
2.02	FANNIE MAE (FNMA)	MORTGAGE-BACKED SECURITIES	$ 3,100,803.76	6.0 %
2.03	FREDDIE MAC (FHLMC)	MORTGAGE-BACKED SECURITIES	$ 2,539,239.46	4.9 %
2.04	WELLS FARGO	CHECKING ACCOUNT/CORPORATE BONDS/PREF ST	$ 2,319,397.22	4.5 %
2.05	CREDIT SUISSE	CORPORATE BONDS	$ 1,503,217.33	2.9 %
2.06	ARCHER DANIELS MIDLAND	CORPORATE BONDS	$ 1,135,098.20	2.2 %
2.07	GENERAL ELECTRIC	CORPORATE BONDS	$ 528,838.97	1.0 %
2.08	GOLDMAN SACHS	CORPORATE BONDS/CERTIFICATES OF DEPOSIT	$ 499,033.75	1.0 %
2.09	STATOIL	CORPORATE BONDS	$ 492,514.63	1.0 %
2.10	TARGET CORP	CORPORATE BONDS	$ 462,819.49	0.9 %

3. Amounts and percentages of the reporting entity's total admitted assets held in bonds and preferred stocks by NAIC designation.

	Bonds	1	2		Preferred Stocks	3	4	
3.01	NAIC 1	$ 38,267,453.44	74.5	%	3.07 P/RP-1	$ 665,838.53	1.3	%
3.02	NAIC 2	$ 288,654.66	0.6	%	3.08 P/RP-2	$ 162,400.00	0.3	%
3.03	NAIC 3	$ 0.00	0.0	%	3.09 P/RP-3	$	0.0	%
3.04	NAIC 4	$ 0.00	0.0	%	3.10 P/RP-4	$	0.0	%
3.05	NAIC 5	$ 0.00	0.0	%	3.11 P/RP-5	$	0.0	%
3.06	NAIC 6	$ 0.00	0.0	%	3.12 P/RP-6	$	0.0	%

4. Assets held in foreign investments:

4.01 Are assets held in foreign investments less than 2.5% of the reporting entity's total admitted assets? Yes [ ] No [X]

If response to 4.01 above is yes, responses are not required for interrogatories 5 – 10.

4.02	Total admitted assets held in foreign investments	$ 2,034,776.78	4.0	%
4.03	Foreign-currency-denominated investments	$	0.0	%
4.04	Insurance liabilities denominated in that same foreign currency	$	0.0	%

SUPPLEMENTAL INVESTMENT RISKS INTERROGATORIES (cont.)

5. Aggregate foreign investment exposure categorized by NAIC sovereign designation:

		1	2	
5.01	Countries designated NAIC 1	$ 2,034,776.78	4.0	%
5.02	Countries designated NAIC 2	$	0.0	%

February 28, 2014

Audit Committee and Management
Sanford Health Plan
Sioux Falls, SD 57103

Dear Members of the Audit Committee and Management:

We have audited, in accordance with auditing standards generally accepted in the United States of America, the statutory-basis financial statements of Sanford Health Plan (SHP) for the years ended December 31, 2013 and 2012, and have issued our report thereon dated February 28, 2014. In connection therewith, we advise you as follows:

a. We are independent certified public accountants with respect to SHP and conform to the standards of the accounting profession as contained in the Code of Professional Conduct and pronouncements of the American Institute of Certified Public Accountants, and the Rules of Professional Conduct of the Minnesota State Board of Public Accountancy.

b. The engagement partner and engagement manager, who are certified public accountants, have 13 years and 7 years, respectively, of experience in public accounting and are experienced in auditing insurance enterprises. Members of the engagement team, most of whom have had experience in auditing insurance enterprises and 50% of whom are certified public accountants, were assigned to perform tasks commensurate with their training and experience.

c. We understand that SHP intends to file its audited statutory-basis financial statements and our report thereon with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments in states in which SHP is licensed and that the insurance commissioners of those states will be relying on that information in monitoring and regulating the statutory-basis financial condition of SHP.

d. While we understand that an objective of issuing a report on the statutory-basis financial statements is to satisfy regulatory requirements, our audit was not planned to satisfy all objectives or responsibilities of insurance regulators. In this context, SHP and insurance commissioners should understand that the objective of an audit of statutory-basis financial statements in accordance with auditing standards generally accepted in the United States of America is to form an opinion and issue a report on whether the statutory-basis financial statements present fairly, in all material respects, the admitted assets, liabilities, and capital and surplus, results of operations, and cash flows in accordance with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. Consequently, under auditing standards generally accepted in the United States of America, we have the responsibility, within the inherent limitations of the auditing process, to plan and perform our audit to obtain reasonable assurance regarding whether the statutory-basis financial statements are free from material misstatement, whether due to error or fraud, and to exercise due professional care in the conduct of the audit. SHP is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audit included consideration of internal control relevant to the entity's preparation and fair presentation of the statutory-basis financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control over financial reporting. The concept of selective testing of the data being audited, which involves judgment both as to the number of transactions to be audited and the areas to be tested, has

been generally accepted as a valid and sufficient basis for an auditor to express an opinion on statutory-basis financial statements. Audit procedures that are effective for detecting errors, if they exist, may be ineffective for detecting misstatements resulting from fraud. Because of the characteristics of fraud, particularly those involving concealment and falsified documentation (including forgery), a properly planned and performed audit may not detect a material misstatement resulting from fraud. In addition, an audit does not address the possibility that material misstatements may occur in the future. Also, our use of professional judgment and the assessment of materiality for the purpose of our audit mean that matters may exist that would have been assessed differently by insurance commissioners.

e. It is the responsibility of the management of SHP to adopt sound accounting policies, to maintain an adequate and effective system of accounts, and to establish and maintain internal control that will, among other things, provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and are recorded properly to permit the preparation of statutory-basis financial statements in conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance.

f. The Insurance Commissioner should exercise due diligence to obtain whatever other information that may be necessary for the purpose of monitoring and regulating the statutory-basis financial position of insurers and should not rely solely on the independent auditors' report.

g. We will retain the working papers prepared in the conduct of our audit until the South Dakota Department of Commerce and Regulation, Division of Insurance has filed a Report of Examination covering 2013, but no longer than seven calendar years from the date of the audit report or until the filing of the report on examination covering the period of the audit, whichever is longer. After notification to SHP, we will make the working papers available for review by the South Dakota Department of Commerce and Regulation, Division of Insurance at the offices of the insurer, at our offices, at the South Dakota Department of Commerce and Regulation, Division of Insurance, or at any other reasonable place designated by the Insurance Commissioner. Furthermore, in the conduct of the aforementioned periodic review by the South Dakota Department of Commerce and Regulation, Division of Insurance, photocopies of pertinent audit working papers may be made (under the control of Deloitte & Touche LLP) and such copies may be retained by the South Dakota Department of Commerce and Regulation, Division of Insurance.

h. The engagement partner has served in this capacity with respect to SHP since 2013, is licensed by the Minnesota State Board of Public Accountancy, and is a member in good standing of the American Institute of Certified Public Accountants.

i. To the best of our knowledge and belief, we are in compliance with the requirements of Section 7 of the National Association of Insurance Commissioners' Model Rule (Regulation) Requiring Annual Audited Financial Reports regarding qualifications of independent certified public accountants.

This letter is intended solely for the information and use of the Audit Committee and management of SHP for filing with the South Dakota Department of Commerce and Regulation, Division of Insurance and other state insurance departments to whose jurisdiction SHP is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

Yours Truly,

Deloitte & Touche LLP

February 28, 2014

Audit Committee and Management
Sanford Health Plan
Sioux Falls, South Dakota

Dear Members of the Audit Committee and Management:

In planning and performing our audit of the statutory-basis financial statements of Sanford Health Plan (SHP) as of and for the year ended December 31, 2013 (on which we have issued our report dated February 28, 2014), in accordance with auditing standards generally accepted in the United States of America, we considered SHP's internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of SHP's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of SHP's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses and therefore, material weaknesses may exist that were not identified. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as of December 31, 2013.

The definitions of a deficiency and a material weakness are set forth in the attached Appendix I.

A description of the responsibility of management for establishing and maintaining internal control over financial reporting and of the objectives of and inherent limitations of internal control over financial reporting, is set forth in the attached Appendix II and should be read in conjunction with this report.

This report is intended solely for the information and use of the Audit Committee, management, others within the organization, and state insurance departments to whose jurisdiction SHP is subject and is not intended to be, and should not be, used by anyone other than these specified parties.

Yours truly,

Deloitte & Touche LLP

DEFINITIONS

The definitions of a deficiency and a material weakness are as follows:

A *deficiency* in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when (a) a properly designed control does not operate as designed or (b) the person performing the control does not possess the necessary authority or competence to perform the control effectively.

A *material weakness* is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's statutory-basis financial statements will not be prevented, or detected and corrected on a timely basis.

MANAGEMENT'S RESPONSIBILITY FOR, AND THE OBJECTIVES AND LIMITATIONS OF, INTERNAL CONTROL OVER FINANCIAL REPORTING

The following comments concerning management's responsibility for internal control over financial reporting and the objectives and inherent limitations of internal control over financial reporting are adapted from auditing standards generally accepted in the United States of America.

Management's Responsibility

SHP's management is responsible for the overall accuracy of the statutory-basis financial statements and their conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance. In this regard, management is also responsible for establishing and maintaining effective internal control over financial reporting.

Objectives of Internal Control Over Financial Reporting

Internal control over financial reporting is a process effected by those charged with governance, management, and other personnel and designed to provide reasonable assurance about the achievement of the entity's objectives with regard to reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations. Internal control over the safeguarding of assets against unauthorized acquisition, use, or disposition may include controls related to financial reporting and operations objectives. Generally, controls that are relevant to an audit of statutory-basis financial statements are those that pertain to the entity's objective of reliable financial reporting (i.e., the preparation of reliable statutory-basis financial statements that are fairly presented in conformity with accounting practices prescribed or permitted by the South Dakota Department of Commerce and Regulation, Division of Insurance.

Inherent Limitations of Internal Control Over Financial Reporting

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented, or detected and corrected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

BEFORE THE DIVISION OF INSURANCE
DEPARTMENT OF LABOR AND REGULATION
STATE OF SOUTH DAKOTA

IN THE MATTER OF THE FINANCIAL EXAMINATION OF SANFORD HEALTH PLAN	))	FINDINGS OF FACT, CONCLUSIONS OF LAW AND ORDER

On February 9, 2012, the Financial Examination Report (Report) for Sanford Health Plan (the Company) was submitted to the Director for his consideration and review, pursuant to SDCL 58-3-12. Having reviewed the Report, he makes the following Findings of Fact, Conclusions of Law and Order, pursuant to SDCL 58-3-12 and SDCL Chapter 1-26:

Findings of Fact

1.

The Company is a South Dakota domiciled nonprofit health maintenance organization subject to examination, pursuant to SDCL 58-3-1. The Company is a member of the Sanford Hospital and Health System.

2.

A financial examination of the Company was conducted for the period from January 1, 2006 through December 31, 2010. A copy of the Report is attached as Exhibit A, and by reference, is made a part of this Order.

3.

The Report was filed with the South Dakota Division of Insurance (Division) on February 9, 2012.

4.

No written response or rebuttal was received by the Division from the Company within thirty (30) days of submission of the Report, as allowed under SDCL 58-3-12.

5.

The Director has fully considered and reviewed the Report.

Conclusions of Law

1.

The Director of the Division has jurisdiction of this matter, pursuant to SDCL Chapter 58-3.

2.

Pursuant to SDCL 58-3-12 and 58-3-17, the Director must issue an Order in this matter, pursuant to SDCL Chapter 1-26. The Report may be adopted as filed or with modifications or corrections, or the Report may be rejected in full.

3.

Pursuant to SDCL 58-3-17, the Company must serve its directors with a copy of this Order and Report and file affidavits from the directors with the Division stating they have received a copy of the Order and Report.

Order

It is hereby ORDERED that the Report, attached as Exhibit A, is adopted. It is further

ORDERED that the Company is to serve a copy of the Order and Report on each member of its Board of Directors. It is further

ORDERED that within thirty (30) days of the date of this Order, the Company shall file affidavits with the Division, executed by each member of its Board of Directors, stating that they have received a copy of the Order and Report. It is further

ORDERED that within thirty (30) days of the date of this Order, the Company shall comply with the Report recommendations and provide written verification to the Director that each recommendation has been complied with. It is further

ORDERED that within thirty (30) days after the time for appeal has expired, the Company shall provide a copy of the Order and Report to each state in which it is licensed to do business and to the National Association of Insurance Commissioners (NAIC), 1100 Walnut Street, Suite 1500, Kansas City, MO 64106, and file an affidavit of mailing to the states and the NAIC with the Division within ten (10) days of the mailing. It is further

ORDERED that this Order may not be used by any person for any competitive purpose or used in a manner that would violate SDCL Chapter 58-33.

Dated this 12th day of March, 2012.

Merle Scheiber, Director
S.D. Division of Insurance

This Order may be appealed to the Circuit Court and Supreme Court, pursuant to SDCL Chapter 1-26.

BEFORE THE DIVISION OF INSURANCE

Chairman, Secretary and Director,

Pursuant to your instructions, and in accordance with the insurance laws of the State of South Dakota, a financial examination has been made of the

SANFORD HEALTH PLAN

SIOUX FALLS, SOUTH DAKOTA

as of December 31, 2010. The following examination report is respectfully submitted.

SCOPE OF EXAMINATION

An examination of Sanford Health Plan was performed by examiners representing the South Dakota Division of Insurance. The last examination of the Company was completed as of December 31, 2005. This examination covers the period from January 1, 2006, through December 31, 2010, together with such consideration of prior or subsequent matters as was deemed pertinent in the judgment of the examiners.

We conducted our examination in accordance with the NAIC *Financial Condition Examiners Handbook*. The Handbook requires that we plan and perform the examination to evaluate the financial condition and identify prospective risks of the Company by obtaining information about the Company including corporate governance, identifying and assessing inherent risks within the Company and evaluating system controls and procedures used to mitigate those risks. An examination also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation, management's compliance with Statutory Accounting Principles and annual statement instructions when applicable to domestic state regulations.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process.

INTRODUCTION

Sanford Health Plan, also referred to as the Company or SHP, has its home office at 300 Cherapa Place, Suite 201, Sioux Falls, South Dakota 57103. Examiners representing the South Dakota Division of Insurance conducted this examination at the Company's home office.

SUMMARY OF SIGNIFICANT FINDINGS

MATERIAL ADVERSE FINDINGS

There are no material adverse findings.

SIGNIFICANT NON-COMPLIANCE FINDINGS

There are no significant non-compliance findings. See the Summary of Comments and Recommendations section of this report for comments regarding other findings of this examination.

MATERIAL CHANGES IN FINANCIAL STATEMENTS

The Surplus As Regards Policyholders, as determined through this examination is equal to the amount reported by the Company in its 2010 Annual Statement.

COMPLIANCE WITH PREVIOUS EXAMINATION RECOMMENDATIONS

The present status of the recommendations and important comments summarized in the 2005 Financial Examination Report is as follows:

OFFICERS - It is recommended that SHP have the officers required by SDCL 47-23-24.

Present Status: The Company has complied with this recommendation.

It is also recommend that the SHP Board of Directors annually elect or appoint the officers as required by SDCL 47-23-24.

Present Status: The Company has partially complied with this recommendation.

BOARD OF DIRECTORS - It is recommended that the SVHHS Board of Trustees elect/re-elect the non-consumer Directors and that the adult enrollees of the Company's health insurance plan elect the consumer directors as provided in the Company's Bylaws.

Present Status: The Company has complied with this recommendation.

COMMITTEES - It is again recommended that the Board of Directors appoint the various committees of the Company.

Present Status: The Company has not complied with this recommendation.

NOTE A - CASH AND SHORT-TERM INVESTMENTS - It is recommended that the Company monitor the amounts of admitted assets subject to repurchase agreements so that they do not exceed the limitations of SDCL 58-27-81(5).

Present Status: The Company has complied with this recommendation.

COMPANY HISTORY

Sioux Valley Health Plan was incorporated on July 30, 1997, under the laws of the State of South Dakota as a nonprofit health maintenance organization and commenced business on January 1, 1998. The Company's name was changed to Sanford Health Plan in 2007. The Company is owned entirely by Sanford Health (SH).

CORPORATE RECORDS

ARTICLES OF INCORPORATION

The Articles of Incorporation were amended in 2007 changing the name of the Company to Sanford Health Plan. The amendment was filed with and approved by the South Dakota Secretary of State and by South Dakota Division of Insurance.

BYLAWS

The Company's Bylaws were amended and restated on May 9, 2006. The main changes were increasing the number of directors, establishing Board of Directors terms of office and changing the provision concerning the CEO. The Company's Bylaws were again amended and restated on March 13, 2007, under which all references to Sioux Valley Health Plan were changed

to Sanford Health Plan and under which all references to Sioux Valley Hospital & Health System were changed to Sanford Health. Both the 2006 and 2007 Amended and Restated Bylaws were filed with and approved by the South Dakota Division of Insurance.

MINUTES

The minutes of the meetings of the Board of Directors, Physicians Quality Committee, Credentialing Committee and Pharmacy and Quality Improvement Committee were reviewed. Meetings of all the bodies appear to have been held in accordance with the Bylaws.

MANAGEMENT AND CONTROL

OFFICERS

Officers serving on December 31, 2010, were as follows:

Name	Office
Katherine Schnabel	Chairman of the Board
Pamela Ephgrave, MD	Vice-Chairman of the Board
Clayton Van Balen, MD	Vice-Chairman of the Board
Kelby Krabbenhoft	CEO
Ruth Krystopolski	President
David Link	Executive Vice President
Lisa Carlson	Secretary
Bill Marlette	Treasurer

The Bylaws provide that the CEO with the approval of the Board of Directors may appoint other officers of the Company. SDCL 47-23-24 provides that all officers shall be elected or appointed annually by the board of directors. In 2007, the CEO appointed officers and the Directors approved the appointments. No officer appointments/approvals were made in 2008, 2009 or 2010. As required by SDCL 47-23-24, it is recommended that annually the CEO appoint officers of the Company and the Board of Directors approve such officer appointments.

BOARD OF DIRECTORS

Directors serving on December 31, 2010, were as follows:

Name and Address	Principal Affiliation
Scott Boyens, MD Sioux Falls, SD	Sanford Clinic
Steve Brennan Sioux Falls, SD	Ambesbury Industries Inc.
Kimberly Elbers Sioux Falls, SD	First National Bank of Sioux Falls
Pamela Ephgrave, MD Sioux Falls, SD	Sanford Clinic Ephgrave OBGYN

Tracy Kueter
Pat Rowland
Michelle Vanderwert

It is again recommended that the Company comply with its Bylaws by having the Board of Directors appoint the various committees of the Company.

CONFLICT OF INTEREST

Members of the Board of Directors complete a conflict of interest statement annually. The conflict of interest statements are submitted to

Sanford Health which collects conflict of interest statements from its subsidiary Boards.

MEMBERS

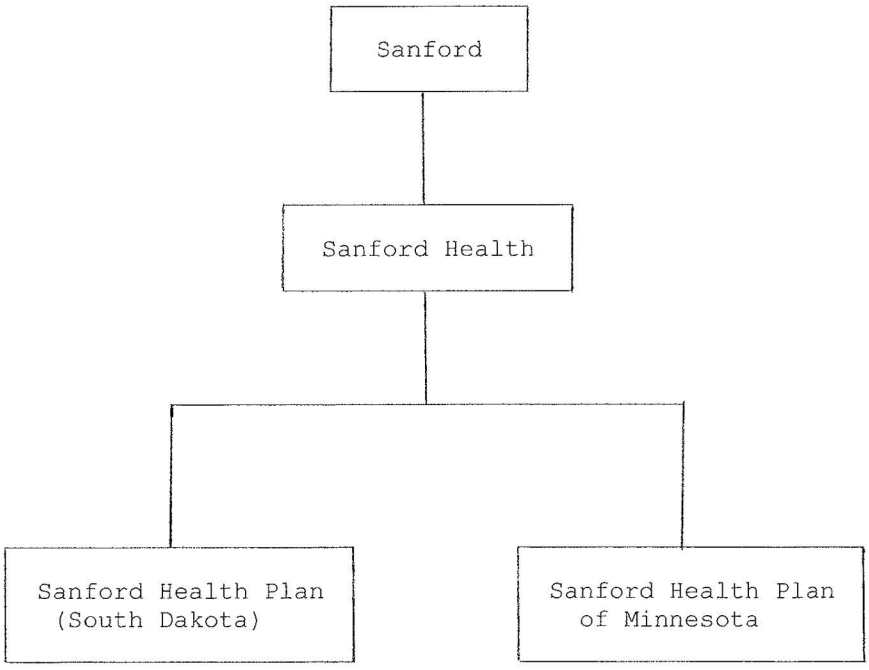
The Company is wholly-owned by Sanford Health. The sole corporate member did not hold any meetings during the period under examination.

MANAGEMENT AGREEMENTS

The Company and Sanford Health have entered into a Corporate Services Agreement. Under the terms of the agreement, Sanford Health provides corporate support services on an as needed basis to SHP. On a monthly basis, SHP reimburses Sanford Health for the actual costs of the provided services.

CORPORATE STRUCTURE

The position of SHP within the corporate structure as of December 31, 2010, follows:



FIDELITY BONDS AND OTHER INSURANCE

The Company is covered as a named insured with its parent and affiliates on a fiduciary insurance policy covering dishonesty by officers and employees. The policy provides for $10,000,000 of loss coverage. Computation of fidelity coverage recommended by the NAIC corporate fidelity bond coverage formula indicates a minimum exposure for a bond ranging in the amount of $700,000 to $800,000 for SHP. The only other insurance coverage protecting the Company is a Managed Care Errors and Omissions Liability Policy.

PENSION AND INSURANCE PLANS

The Company's employees participate in the health, vision, dental, disability and life insurance plans, flex spending plan and 401K retirement savings plan sponsored by Sanford Health. The Company reimburses Sanford Health on a monthly basis for the actual costs of the provided benefits.

TERRITORY AND PLAN OF OPERATION

As of year-end 2010, the Company was authorized to transact the business of health insurance in Iowa, North Dakota and South Dakota. The Company offers group health insurance, individual health insurance and Medicare Supplement insurance.

The Company and Great Plains Brokerage, Inc. have entered into a Sales Management Agreement. Under the agreement, Great Plains Brokerage is SHP's exclusive sales management company and is responsible for creating, staffing, training, supervising and operating the sales force in the sale of the Company's health insurance plans.

The Company also offers TPA services for self-insured employers. SHP and SH have entered into an Administrative Services Agreement. Under the Agreement, SHP is to perform the ministerial and administrative services over SH's Medical Benefit Plan.

GROWTH OF COMPANY

The following exhibits reflect historical data of the Company as reflected in SHP's Annual Statements:

Ten-Year Exhibit of
Assets, Liabilities, Capital and Surplus

Year	Admitted Assets	Liabilities	Contributed Surplus	Surplus Notes	Retained Earnings
2001	$13,308,363	$ 9,495,940	$11,316,435	$3,371,416	$(10,875,428)

LOSS EXPERIENCE

The Company's underwriting experience during the period under review, as compiled from filed annual statements, is as follows: (000's omitted)

	2006	2007	2008	2009	2010
Premiums Earned	$78,729	$93,014	$97,463	$105,851	$122,024
Deductions (Incurred)					
Medical & Hospital Exp.	$69,441	$86,278	$89,643	$ 98,063	$112,578
Claim Adjustment Exp.	3,575	4,318	4,522	5,036	7,095
Administration Expense	3,487	4,588	3,938	4,181	3,008
Total Deductions	$76,503	$95,184	$98,103	$107,280	$122,681
Net Underwriting Gain or (Loss)	$ 2,226	$(2,170)	$(640)	$(1,429)	$(657)

Losses and expenses incurred reflected as a percentage of premiums earned follows:

	2006	2007	2008	20049	2010
Medical & Hospital Exp.	88.20%	92.76%	91.98%	92.64%	92.26%
Claim Adjustment Exp.	4.54	4.64	4.64	4.76	5.81
Administration Expenses	4.43	4.93	4.04	3.95	2.47
Totals	97.17%	102.33%	100.66%	101.35%	100.54%

REINSURANCE

REINSURANCE CEDED

To minimize its exposure to large medical, physician and hospital claims, the Company entered into an excess of loss reinsurance agreement. Under the agreement, SHP retains the first $225,000 of eligible medical, hospital and physician expenses per member per year. The reinsurer is responsible for 90% of the excess eligible expenses up to a maximum $1,600,000 of eligible expenses per member per year.

The reinsurance agreement provides for risk transfer and contains insolvency, arbitration, continuance of coverage and coverage conversion provisions.

STATUTORY DEPOSITS

SDCL 58-6-34 provides that a minimum deposit of $200,000 be entrusted through the Director of Insurance by any company authorized to transact business in the State of South Dakota.

Compliance with the above provisions, based on results of the examination as of December 31, 2010, was determined as follows:

Qualified Deposits	
South Dakota:	
Money Market Funds	$300,000
Total Qualified Deposits	$300,000
Required Deposits	
Other Business:	
Deposits Required Under Statutory Law	$200,000
Total Required Deposits	$200,000
Excess of Required Deposits	$100,000

ACCOUNTS AND RECORDS

The Company and its affiliates operate as separate entities, maintaining their own files, records and books of accounts.

The Company pays direct expenses incurred. Expenses common to the Company and its affiliates are paid by Sanford Health and are then allocated to SHP according to the terms of the Corporate Services Agreement.

The Company's general ledger and its supporting journals and records are maintained by SH's EDP system. A trial balance of the 2010 general ledger was prepared and traced to the 2010 Annual Statement.

To ascertain proper compliance to prescribed operating and accounting procedures, a public accounting firm conducts an annual audit of the Company. Copies of the accounting firm's audit reports and workpapers were made available to the examiners.

FINANCIAL STATEMENTS

The following financial statements and supporting exhibits include various amounts reported by the Company for the year ending December 31, 2010.

Capital and Surplus 12/31 Current Year	$12,511,032	$ 9,703,369	$10,227,733

	2009	2010
Capital and Surplus 12/31 Prior Year	$10,227,733	$ 9,524,029
Net Income	$ (505,641)	$ 249,402
Change in Unrealized Capital Gains	0	0
Change in Net Deferred Income Tax	174,000	(174,000)
Change in Nonadmitted Assets	(372,063)	476,546
Paid In Surplus	0	14,000,000
Net Change in Capital and Surplus	$ (703,704)	$14,551,948
Capital and Surplus 12/31 Current Year	$ 9,524,029	$24,075,977

COMPARATIVE STATUTORY BALANCE SHEET

The following exhibit reflects a statutory balance sheet comparison of the amounts reported by the Company in its 2010 Annual Statement and the amounts determined through examination.

	Per Company	Per Examination	Notes
Admitted Assets			
Bonds	$20,712,224	$20,712,224	
Cash and Short-Term Investments	18,633,898	18,633,898	
Investment Income Due and Accrued	137,444	137,444	
Premiums Receivable	370,359	370,359	
Amounts Recoverable From Reinsurers	178,000	178,000	
Amounts Receivable Uninsured Plans	9,640	9,640	
Federal Income Tax Recoverable	57	57	
Net Deferred Tax Asset	193,000	193,000	
EDP Equipment	162,306	162,306	
Receivable From Affiliates	34,931	34,931	
Health Care Receivable	504,322	504,322	
Total Admitted Assets	$40,936,181	$40,936,181	
Liabilities			
Claims Unpaid	$12,187,943	$12,187,943	
Unpaid Claim Adjustment Expenses	748,000	748,000	
Advance Premiums	755,607	755,607	
General Expenses Due and Accrued	2,092,633	2,092,633	
Amounts Due to Parent	1,076,021	1,076,021	
Total Liabilities	$16,860,204	$16,860,204	
Capital and Surplus			
Contributed Surplus	$28,613,218	$28,613,218	
Unassigned Funds	(4,537,241)	(4,537,241)	Note A
Net Capital and Surplus	$24,075,977	$24,075,977	Note B
Total Liabilities and Surplus	$40,936,181	$40,936,181	

EXAMINATION NOTES TO THE COMPARATIVE STATUTORY BALANCE SHEET

NOTE A - UNASSIGNED FUNDS

The unassigned funds of the Company at December 31, 2010, as determined by this examination are the same as the amount reported by the Company in its 2010 Annual Statement.

NOTE B - NET CAPITAL AND SURPLUS

The net capital and surplus of the Company at December 31, 2010, as determined by this examination, is the same as the amount reported by the Company in its 2010 Annual Statement.

SUMMARY OF COMMENTS AND RECOMMENDATIONS

Reference Page	
3	**COMPLIANCE WITH PREVIOUS EXAMINATION RECOMMENDATIONS** - The Company has not complied with all of the recommendations of the 2005 Financial Examination Report.
5	**OFFICERS** - As required by SDCL 47-23-24, it is recommended that annually the CEO appoint officers of the Company and the Board of Directors approve such officer appointments.
7	**COMMITTEES** - It is again recommended that the Company comply with its Bylaws by having the Board of Directors appoint the various committees of the Company.
20	**NOTE B - NET CAPITAL AND SURPLUS** - The net capital and surplus of the Company at December 31, 2010, as determined by this examination, is the same as the amount reported by the Company in its 2010 Annual Statement.

ACKNOWLEDGEMENT

The examiners wish to express appreciation for the cooperation extended by the officers and employees of SHP during the course of the examination.

In addition to the undersigned, Bruce Basham, CFE and Kristie Goetz, CFE, examiners for the South Dakota Division of Insurance, participated in the examination.

Respectfully submitted,

Marty Warns

Marty Warns, CFE
Division of Insurance
State of South Dakota
Representing Zone III, NAIC

Sample Company

Incurred February 2012 through January 2013
Paid February 2012 through April 2013

Presented by: Sanford Health Plan

SANFORD HEALTH PLAN

Group Reporting Package

Thank you for your continued business with Sanford Health Plan. Our unrelenting goal is to provide our clients with the highest level of customer service. As a part of our continued commitment to you, it is our pleasure to provide you with a comprehensive group reporting package.

It is important for us to help our clients understand the variables of the renewal rate calculations. However, it is important to note that your renewal is not based solely on formulas. We carefully consider each group's renewal individually. Your group is not just a conglomeration of numbers. You are a group of unique individuals. The sections below contain descriptions of the main variables which are part of your renewal calculation.

Credibility

Credibility is a statistical metric which correlates directly to group size and is a measure of claim volatility. Credibility is also impacted by the amount of historical data which is available. For example, a group that has less than 100 members and two years or fewer of historical claims data is statistically very volatile. Thus, the group has very little credibility. Conversely, a group with 1,000+ members and three or more years of historical claims is much more predictable actuarially in terms of future claims. The credibility for your group is currently 40%.

Group Size

Group size is determined by total employees eligible for health insurance or by total employees regardless of eligibility for health insurance. Group size is defined by codified law for the respective state in which the company is domiciled. Factors are assigned to differently sized groups and those factors are used in the renewal rate development calculation. Small group renewal calculations are developed primarily on the combinations of average age, gender distribution, plan design and expected health conditions of the group. Actual claims experience is not heavily weighted for small groups. Actual experience is the credibility weighted with the overall experience of SHP's commercial book of business. Large group renewal calculations rely more heavily on actual claims experience of the group. However, even though a group may be defined as "large" by state law; a group generally has to have an average of 500+ members per month to be considered credible. Your group is Large.

Pooling (Large Groups Only)

During the course of a plan year a group may have members that incur large claims. Those large claims may be considered outliers or claims that disproportionately contribute to a group's annual claims experience. In order to avoid penalizing a group for isolated large claims, the large claims are partially excluded and replaced with an expected level of claims. This is called pooling. The precise dollar amount at which claims are considered outliers is called the pooling point. The pooling point is determined by the membership and benefits offered by the group. Your pooling point is currently $40,000.

Loss Ratio

The loss ratio is a measure of the relationship between total claims paid and total premium received. It is calculated by dividing total claims by total premium. 86 cents of every premium dollar gets paid out in claims, so we target an 86% loss ratio for our book of business. Loss ratios for small and medium sized groups are volatile. The reason for the volatility is that the loss ratio has a direct relationship to credibility which is based on group size. The target loss ratio is for the entire book of business. Thus, a renewal calculation may not necessarily be intuitive for any given individual group.

Trend

Rate development calculations utilize trend as a factor. The simplest way to view trend is by equating it to inflation. Just as a dollar is worth less today than it was a year ago; healthcare costs are more expensive today than they were a year ago. Trend applies to hospital/physician services, prescription drug costs, utilization and medical advancements.

Introduction

All reports in this specific report package are available:

- Period I
  - Incurred February 2012 through January 2013
  - Paid February 2012 through April 2013
- Period II
  - Incurred February 2011 through January 2012
  - Paid February 2011 through April 2013
- in DOC format

Selected reports within this package include period-over-period comparison.

Please note that many dollar values are rounded to the nearest dollar for increased readability. However, calculated values (such as total sums) are calculated precisely and then rounded afterwards. This produces more accurate results, but may occasionally cause calculated fields to appear inexact.

Please Note:

The information contained in this report has been produced from data provided to Verisk Health, which has not been independently verified by Verisk Health for accuracy or completeness. Additional information, including any claims that have been incurred but not paid as of the date of this report, or claims that were subject to subsequent adjustment, should be considered before any action is taken on the basis of the contents of this report. Additionally, if the underlying CPT codes for each laboratory test or panel are not submitted to Verisk Health in the medical claims, then the scores in the Quality and Risk measures may appear lower than they actually are. This report does not constitute the provision of medical or legal advice by Verisk Health to any party.

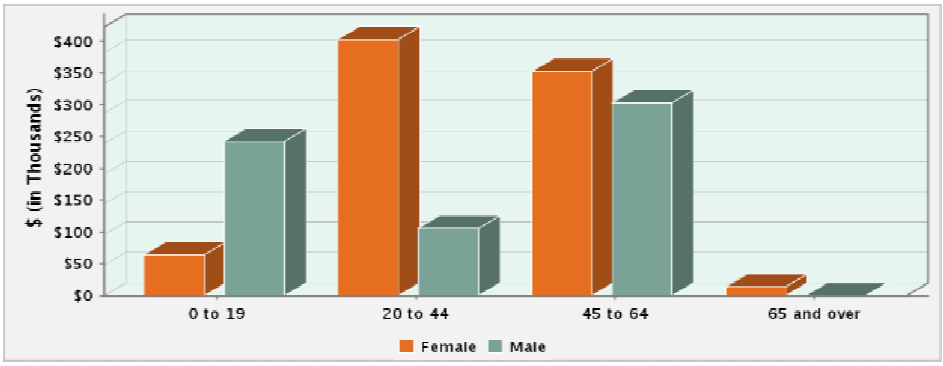
1. Membership Overview

The two tables and the figure in this section describe the membership demographics and the relationship to claims expense. This section includes medical and pharmacy claims expenses.

Table 1.1: Breakdown of Membership by Relationship

	Average Age	Members		Total Amount Billed	Employee Paid	Member Expenses	
		Total	Current			Total	% of Total
Employee	44	170	127	$1,645,272	$99,843	$724,949	47%
Spouse	43	92	73	$1,065,948	$104,648	$435,261	28%
Dependent	12	159	127	$702,507	$76,124	$395,481	25%
Total	**32**	**421**	**327**	**$3,413,726**	**$280,615**	**$1,555,691**	**100%**

Figure 1.1: Claims Paid by Gender and Age



Please Note: Average age for females is 34. Average age for males is 30.

Table 1.2: Membership Profile

	Female		Male		Total	
	Members	% of Members	Members	% of Members	Members	% of Members
Employee	53	13%	117	28%	170	40%
Spouse	77	18%	15	4%	92	22%
Dependent	67	16%	92	22%	159	38%
Total	**197**	**47%**	**224**	**53%**	**421**	**100%**

2. Health Plan Enrollment Analysis

Figure 2.1: Enrollment Category Distribution

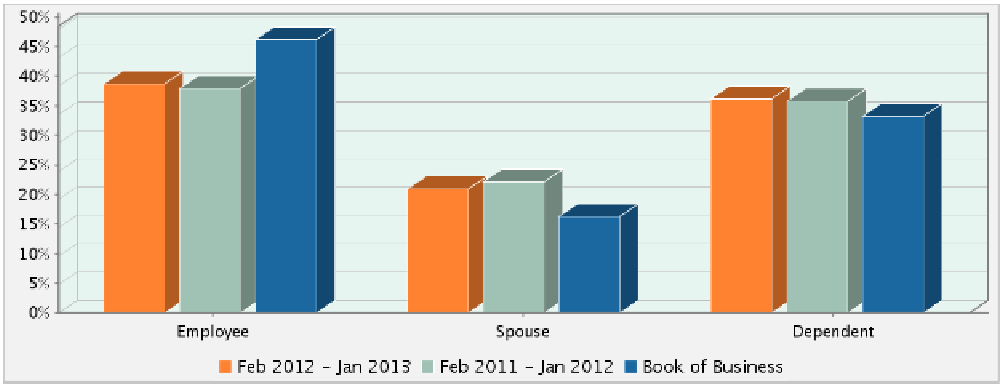


Table 2.1: Member Count by Enrollment Category

Category	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		Norm	Book of Business
	Count	%	Count	%		
Employee	170	40%	183	40%	48%	48%
Spouse	92	22%	107	23%	20%	17%
Dependent	159	38%	173	37%	32%	35%
Total Members	**421**	**100%**	**463**	**100%**	**100%**	**100%**

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

Sample Company's employee population consists of 40% of the total population. 40% is eight percent lower than Verisk's norm. The dependent population is 38% of Sample Company's total population. 38% is six percent higher than Verisk's norm. The relationship between the employee and dependent population indicates that Sample Company has more family contracts than the Verisk norm.

The total population for Sample Company decreased by 42 members from the prior to current period. This is a 9.1% decrease.

Figure 2.2: Paid Claim Trend by Enrollment Category

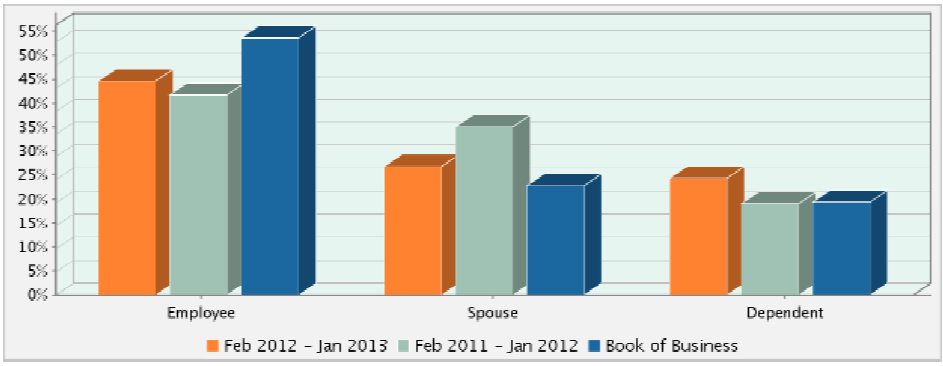

Table 2.2: Percentage of Claim Paid by Enrollment Category

Category	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		Norm	Book of Business
	Amount	%	Amount	%		
Employee	$724,949	47%	$490,543	44%	57%	56%
Spouse	$435,261	28%	$411,197	37%	28%	24%
Dependent	$395,481	25%	$224,001	20%	15%	20%
Total Members	**$1,555,691**	**100%**	**$1,125,741**	**100%**	**100%**	**100%**

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

The significant increase in total claims dollars from the prior to current period is due to the number of claims over $40,000. In the prior period, the sum of claims over $40,000 was approximately $208,000. The sum of claims over $40,000 for the current period is approximately $649,000.

The $649,000 in large claims does not consist of one or two shock claims; rather it is comprised of seven claims that are over $40,000 but under $125,000.

3. Employer/Employee Share of Expenses

The following data evaluates the employer and employee paid for the current year and prior year. The user can compare the trend of the parameters as follows:

Figure 3.1: Employer/Employee Share of Expenses

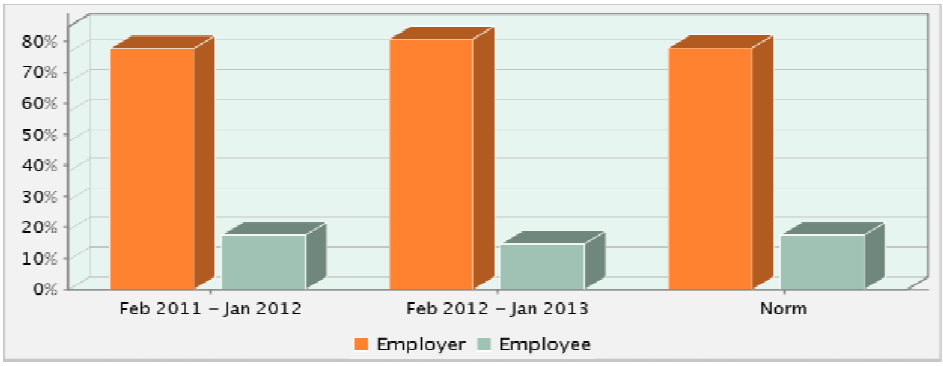

Table 3.1: Employer/Employee share of expenses

	Client		Norm
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	
Employer Paid	85%	82%	82%
Employee Paid	15%	18%	18%

Please Note: Norm values are based on values derived from Verisk Health's Commercial Normative database.

Employee paid consists of co-pays, coinsurances, and deductibles paid by an enrollee, the spouses, and their dependents. Similarly, employer paid includes total paid by the plan for enrollee, the spouses, and their dependents. The following table breaks down the cost accordingly.

Table 3.2: Breakdown of Membership by Relationship

	Employee Paid			Employer Paid		
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
Employee	$99,843	$106,278	-6%	$724,949	$490,543	48%
Spouse	$104,648	$86,895	20%	$435,261	$411,197	6%
Dependent	$76,124	$62,072	23%	$395,481	$224,001	77%
Total	**$280,615**	**$255,245**	**10%**	**$1,555,691**	**$1,125,741**	**38%**

4. Key Utilization Metrics Summary

Table 4.1 displays utilization information, typically on a services per 1000 basis, for a number of categories. A combination of variables (e.g. decreased office visits with increased ER visits) should also be considered for evaluation.

Table 4.1

Category	Metric Type	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
ER Visits	Per 1000	139	112	24%
Total Office Visits	Per 1000	4,417	3,947	12%
Regular Office Visits	Per 1000	2,777	2,558	9%
Preventive Office Visits	Per 1000	531	511	4%
Behavioral Health Office Visits	Per 1000	999	784	27%
Consultations	Per 1000	103	87	18%
Other Office Visits	Per 1000	5	8	-38%
Chiropractic Visits	Per 1000	1,280	1,223	5%
Physical Therapy	Per 1000	825	758	9%
MRI Scan	Per 1000	65	46	41%
CT Scan	Per 1000	33	38	-13%
Deliveries	Per 1000	27	20	35%
SNF Days	Per 1000	0	0	0%
Inpatient Days	Per 1000	278	237	17%
Total Admissions	Per 1000	93	79	18%
Pharmacy Scripts	Per 1000	9,794	9,682	1%
Pharmacy Scripts Mail Order	% of Mail Order	9%	8%	12%
Pharmacy Scripts Brand Drugs	% of Brand Drugs	27%	30%	-11%
Average Length of Stay	Average Days	3.0	3.0	0%

Please Note: Utilization metrics are always calculated on incurred basis.

Generic Rx utilization is up from 74.4% in the prior period to 78.6% in the current period.

Single-source brand Rx utilization is down from 19.4% in the prior period to 15.6% in the current period.

5. Key Cost Metrics Summary

Table 5.1 shows key cost metrics for the group. Any significant period-over-period percentage change should be reviewed in more detail for causes. This table provides overall per employee per month costs and trends as well as breakouts by medical and pharmacy. The breakout of costs between plan and employee identify how the employee's portion of overall costs relates to plan costs, information that is valuable in establishing plan design and cost sharing percentages. Additionally, attention should be paid to the brand/generic ratio for pharmaceuticals. If the generic percentage is too low or dropping, benefit plan and/or formulary changes should be considered.

Table 5.1

Category	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	% Change
Overall Medical Expenses (Employee + Plan)	$1,510,743	$1,104,722	37%
Employee Paid	$280,615	$255,245	10%
Plan Paid	$1,230,128	$849,477	45%
Hospital Inpatient Paid (%)	37%	28%	31%
Office Visits Paid (%)	11%	15%	-23%
Emergency Room Paid (%)	3%	3%	15%
Top 20 Diagnosis Group Paid (%)	68%	43%	59%
Overall Pharmacy Expenses (Employee + Plan)	$325,563	$276,264	18%
Employee Paid	$0	$0	0%
Plan Paid	$325,563	$276,264	18%
Mail Order Paid (%)	0%	0%	0%
Brand Drugs Paid (%)	83%	81%	3%
PMPM Expenses	$353.00	$239.52	47%
Medical	$279.13	$180.74	54%
Pharmacy	$73.87	$58.78	26%
Total PEPM Expenses	$880.41	$597.21	47%
Medical	$696.17	$450.65	54%
Pharmacy	$184.25	$146.56	26%

6. Claims Expense Distribution

This section divides the member population by total paid bands to reflect the spending trend of this population.

Figure 6.1: Member Distribution by Paid Amount Band

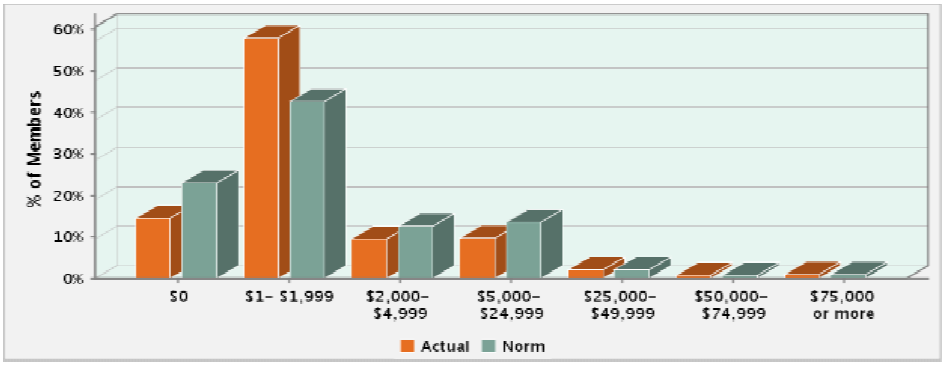

Table 6.1: Expense Distribution by Paid Amount Band

Paid Amount Band	Members			Paid			Cumulative Paid	Average Paid Per Member
	Count	%	Norm	Amount	%	Norm		
$0	64	15%	24%	$0	0%	0%	$0	$0
$1-$1,999	256	61%	45%	$126,816	8%	6%	$126,816	$495
$2,000-$4,999	42	10%	13%	$137,705	9%	9%	$264,521	$3,279
$5,000-$24,999	43	10%	14%	$412,010	26%	33%	$676,531	$9,582
$25,000-$49,999	9	2%	2%	$277,082	18%	15%	$953,613	$30,787
$50,000-$74,999	3	1%	1%	$171,256	11%	8%	$1,124,869	$57,085
$75,000 or more	4	1%	1%	$430,822	28%	29%	$1,555,691	$107,706

Please Note:

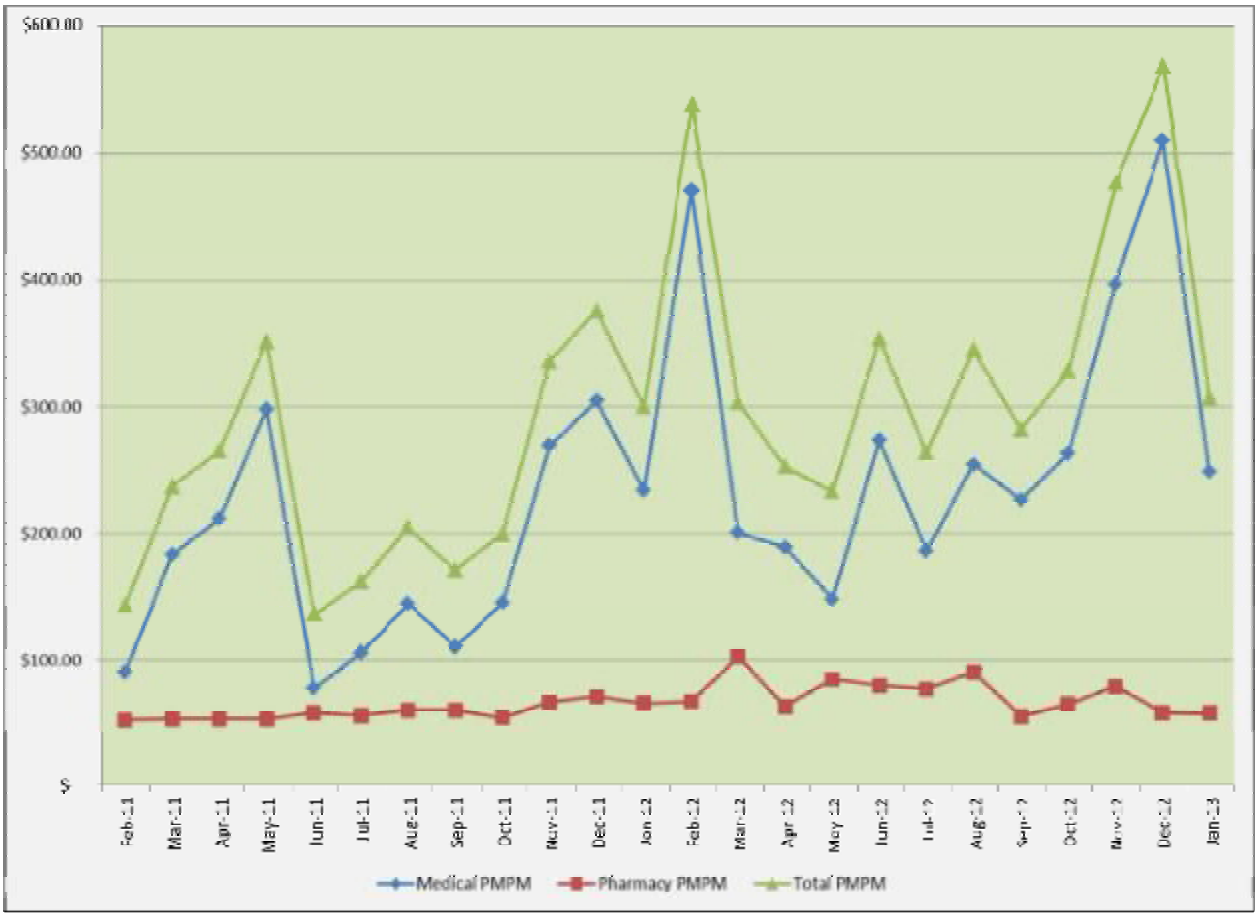
- $0 was credited back to the plan during the cycle period.
- Norm values are based on values derived from Verisk Health's Commercial Normative database.
- Claims Expense Distribution includes Medical and Pharmacy claims (to the extent that Pharmacy Claims are available).

1% of the population accounted for 28% of the total claims in the current period.
76% of the population accounted for 8% of the total claims in the current period.

7. Monthly Comparison of Paid Claims

Figure 7.1 tracks monthly claim paid amounts for the full cycle. Seasonality in claims paid (in terms of date incurred) is expected, with the highest monthly claims generally occurring in the winter. Claim volumes may also rise just before or after installation of a new health plan.

Figure 7.1: Paid Claims PMPM



8. Top 10 Places of Service Analysis

Table 8.1 shows places of service ranked according to medical claim expenses. Period-over-period percentage changes in Places of Service can be helpful when investigating changes in utilization patterns or when trying to understand the impact of plan design change. Increases in some categories may be appropriate. For example, outpatient hospital experience and office visits may increase as inpatient hospital services are more efficiently provided in the outpatient setting. Places of service experiencing large increases for many employers are Emergency Room, Outpatient Hospital, and Laboratory services.

Table 8.1

Service	Feb 2012 - Jan 2013		Feb 2011 - Jan 2012		% Change in Plan Paid
	Plan Paid	% of Total Plan Paid	Plan Paid	% of Total Plan Paid	
Inpatient Hospital	$456,863	37%	$240,187	28%	90%
Outpatient Hospital	$317,649	26%	$132,943	16%	139%
Office	$280,120	23%	$186,737	22%	50%
Ambulatory Surgical Center	$78,826	6%	$183,688	22%	-57%
Emergency Room Hospital	$62,581	5%	$49,315	6%	27%
Independent Laboratory	$17,092	1%	$25,570	3%	-33%
Home	$11,542	1%	$20,442	2%	-44%
Urgent Care Facility	$2,205	0%	$2,309	0%	-5%
Inpatient Psychiatric Facility	$2,179	0%	$288	0%	656%
Ambulance - Land	$1,071	0%	$6,545	1%	-84%
Subtotal	**$1,230,128**	**100%**	**$848,023**	**100%**	**45%**
All Others	**$0**	**0%**	**$1,454**	**0%**	**-100%**
Total	**$1,230,128**	**100%**	**$849,477**	**100%**	**45%**

9. Common Illness Analysis

Several common illnesses have been selected for analysis. Management of these key disorders may reflect effectiveness of overall medical management.

Figure 9.1: Common Illness

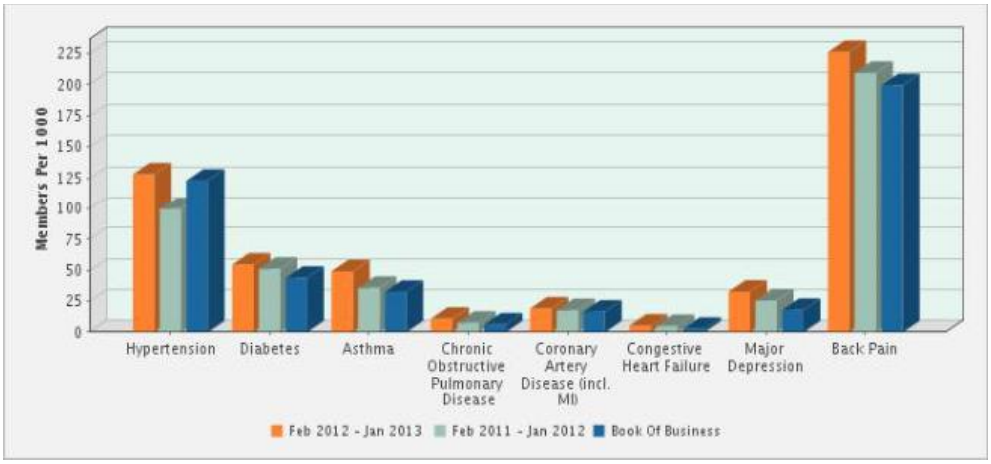


Table 9.1: Common Illness

Common Illness	Member Per 1000			
	Feb 2012 - Jan 2013	Feb 2011 - Jan 2012	Norm	Book of Business
Hypertension	128	100	102	123
Diabetes	54	51	62	44
Asthma	49	36	20	33
Chronic Obstructive Pulmonary Disease	11	8	9	6
Coronary Artery Disease (incl. MI)	19	18	20	17
Congestive Heart Failure	5	5	5	3
Major Depression	33	26	17	18
Back Pain	226	209	112	200

Please Note:

- Common Illness metrics are always calculated on incurred basis.
- Norm values are based on values derived from Verisk Health's Commercial Normative database.
- Members may fall within multiple categories.

10. Disease Conditions Utilization Summary

Monitoring the utilization patterns for disease conditions offers valuable insight into benefit design and/or case and disease management program performance. Table 10.1 presents utilization patterns of members with all disease condition, ranked by number of members, for office visits, emergency room visits and hospital admissions. In general, high utilization rates for such measures as inpatient admissions and emergency room services in these conditions bring into question the adequacy of outpatient care, plan design incentives to encourage outpatient care, and medical management performance.

Table 10.1

Disease Condition	# of Members	Members per 1000	Office Visits per 1000	ER Visits per 1000	Admissions per 1000	PMPY
Back Pain	83	226	9,621	196	157	$8,328
Neck Pain	50	136	11,716	262	131	$7,610
Hypertension	47	128	6,631	229	207	$11,841
Hyperlipidemia	42	114	5,571	214	54	$5,146
Diabetes	20	54	13,296	394	225	$8,800
Asthma	18	49	17,312	500	250	$14,314
Headache	16	44	22,467	800	267	$11,697
Major Depression	12	33	29,104	716	269	$11,855
Congenital Anomalies	8	22	6,429	0	429	$18,115
Coronary Artery Disease (incl. MI)	7	19	7,429	143	286	$20,615
Cancer	6	16	36,231	692	923	$58,692
High Risk Pregnancy	5	14	10,133	800	800	$11,483
Osteoarthritis	5	14	9,400	0	400	$14,253
Chronic Obstructive Pulmonary Disease	4	11	6,500	0	0	$3,400

Please Note:

- In this table a member can have multiple conditions.
- Metrics are always calculated on incurred basis.
- Members' total claims fall within each condition category to which they are assigned.
- Total PMPY expenses are $4,236 for the period February 2012 – January 2013.

Asthma: 11 members diagnosed; 5 with care gaps (45%)
Gaps in care (Sanford Health Plan benchmark 40%)

- Patients without inhaled corticosteroids or leukotriene inhibitor in the last 12 months
- Patients without an office visit in the last 12 months
- Patients without other inhalers in the last 12 months
- Patients without short-acting beta agonists in the last 12 months

Chronic obstructive pulmonary disease (COPD): 3 diagnosed; 2 with care gaps (67%)
Gaps in care (Sanford Health Plan benchmark 73%)

- Patients without a COPD-related long office visit in the last 12 months
- Patients without spirometry testing in the last 12 months
- Patients without an office visit in the last 12 months
- Patients not taking other nebulizers in the last 12 months

Coronary artery disease: 8 diagnosed; 4 with care gaps (50%)
Gaps in care (Sanford Health Plan benchmark 31%)

- Patients without a long office visit in the last 12 months
- Patients without antihyperlipidemic drugs in the last 12 months
- Patients without antihypertensive drugs in the last 12 months
- Patients who are not taking beta-blockers, ACE/ARB or statins in the last 12 months

Congestive heart failure (CHF): 2 diagnosed; 1 with care gaps (50%)
Gaps in care (Sanford Health Plan benchmark 50%)

- Patients without beta-blocker drugs in the last 12 months
- Patients without a long office visit in the last 12 months
- Patients without an LDL-C or lipid profile test in the last 12 months
- Patients who are not taking beta-blockers, ACE/ARB or diuretics in the last 12 months

Diabetes: 14 diagnoses; 10 with care gaps (71%)
Gaps in care (Sanford Health Plan benchmark 56%)

- Patients without an HbA1c test in the last 12 months
- Patients without a lipid profile test in the last 12 months
- Patients without an ACE inhibitor or ARB drugs in the last 12 months
- Patients with hospitalization-related to short-term complications of diabetes in the analysis period
- Patients without home glucose measurement devices in the last 12 months
- Patients without liver function tests in the last 12 months

SANFORD
HEALTH PLAN

SVHP-0189 11/13

November 2013

Sanford Health has a long history of placing quality before all else as stated in our mission statement *"Dedicated to the Work of Health and Healing"*. As a subsidiary of Sanford Health, Sanford Health Plan believes that in order to meet the needs of our patients and healthcare partners, everything we do must be of the highest quality and value available in our region. We do so by utilizing Sanford Values: *Courage, Passion, Resolve, Advancement, Family*.

By improving the quality of care provided, employing the best managed care practices and principles, and partnering with our consumers, employer groups and physicians, Sanford Health Plan is able to assist in saving lives, reducing disability, improving productivity and managing health care costs.

We also believe that healing involves promoting and improving the health of our communities. To demonstrate our commitment to providing the highest quality of care and service, Sanford Health Plan would like to present our HEDIS® (Healthcare Effectiveness Data and Information Set) 2013 report along with the quality improvement activities and health management programs implemented by the Plan. This data provides you - our customer - with the information you need to judge our success in meeting our goals in various performance areas.

Along with Sanford Health, Sanford Health Plan's very foundation is quality. Reporting HEDIS rates will assist the Plan in identifying our strong points and areas where improvements need to be made. The Plan believes that the only way to achieve continuous quality improvement is to have its entire organization embrace a well-defined Quality Improvement Program and Annual Work Plan in their day to day activities. As this is our twelfth year of reporting, we are able to compare our rates to those of previous year's to determine where we made progress and where we did not. We look forward to future reporting years, which will allow us to continue to monitor and evaluate improvements that can be made in all aspects of our care and service delivery.

If you have any suggestions for us on how we can improve this report, or if you have any questions regarding the interpretation of the results, please feel free to contact our Care Management Department at (888) 315-0884.

Sincerely,

Ruth Krystopolski
President
Sanford Health Plan

Michael P. Crandell, MD

Introduction

About Sanford Health Plan

Sanford Health Plan began operations in South Dakota in September 1997 as an open access, non-gatekeeper model, managed care organization. The first members were enrolled in January 1998. In January 1998, Sanford Health Plan became licensed in Minnesota. To obtain this licensure, the State of Minnesota required us to form a separate corporation known as Sanford Health Plan of Minnesota. Sanford Health Plan further expanded its service area to include Northwestern Iowa upon receiving licensure in August 1998 in that state. Sanford Health Plan also received a Certificate of Authority in February 2010 to operate in North Dakota as an expansion of its South Dakota license.

For purposes of this report, we will refer to Sanford Health Plan and Sanford Health Plan of Minnesota as "Sanford Health Plan" or "the Plan"; as operations for the two, including areas such as the quality improvement program, are one in the same. Beginning with HEDIS 2005, the Plan received permission from NCQA and the Minnesota Department of Health to combine the Sanford Health Plan and Sanford Health Plan of Minnesota populations to report one combined HEDIS rate.)

Sanford Health Plan is a wholly owned, nonprofit subsidiary of Sanford Health. The Plan is designed to provide employers and employees with the most appropriate cost effective health care possible. The Board of Trustees of Sanford Health is ultimately responsible for the Plan, but has delegated to the Sanford Health Plan Board of Directors the authority to act as the governing body. Sanford Health Plan's President and Chief Medical Officer are accountable to the Plan's Board of Directors.

Sanford Health Plan benefits are designed as a unique alternative to existing health insurance packages in our region. Applying our expertise in health care administration, quality patient care and network development, we have created a Health Plan with a focus on the health and well being of our members. Sanford Health Plan's medical management program monitors utilization and coordinates care plans to ensure that our members are receiving the most appropriate care. Also, prevention and wellness programs are built into the benefit package. This encourages members to seek treatment early and to live healthier lifestyles, thereby controlling long-term health care costs. The key to our success is our network of primary care physicians, specialists and hospitals. In partnership with these health care practitioners, Sanford Health Plan actively promotes health care education, prevention and early detection. Together, we understand the need to deliver the best possible patient care, maintaining good community health, while developing cost-effective solutions. Sanford Health Plan members have access to hundreds of area physicians and a hospital network that includes the region's most commended tertiary care facility - Sanford USD Medical Center. Because high-quality care is a priority, our network of practitioners is subject to strict credentialing guidelines and performance reviews.

In short, Sanford Health Plan has been developed to ensure that all members receive the right care, in the right place, at the right time, for the right reason.

Sanford Health Plan and its participating practitioners acknowledge their responsibility to provide high quality care in a cost-effective manner through an ongoing monitoring, evaluation and improvement process. The organized method for monitoring, evaluating, and improving the quality, safety and appropriateness of health care services including behavioral health care to members through related activities and studies is known as the Quality Improvement (QI) program. Throughout this report you will find descriptions of the quality improvement activities and health management programs that the Sanford Health Plan has implemented to improve the health and well being of its members. The activities that pertain directly to the HEDIS rates will be reported in conjunction with those rates.

Sanford Health Plan Awarded Accreditation

Commercial HMO Product
Effective through November 15, 2016

Sanford Health Plan prides itself on providing quality group health insurance and supporting wellness programs. Sanford Health Plan is equally honored to be recognized for our dedication. The National Committee for Quality Assurance (NCQA) has awarded Sanford Health Plan's commercial HMO with a Commendable Accreditation.

The NCQA Health Plan Accreditation is a voluntary review process. Surveys include rigorous on-site and off-site evaluations of over 60 standards and selected HEDIS® measures. NCQA sends a team of trained health care experts, including physicians, to conduct the survey.

According to NCQA, the standards are purposely set high to encourage health plans to continuously improve enhance their quality. They are intended to help

organizations achieve the highest level of performance possible, reduce patient risk for untoward outcomes and create an environment of continuous improvement. “The accreditation process gives our consumers and purchasers something other than cost alone to compare. It allows them to evaluate the quality of different health plans through a variety of dimensions,” said Dr. Crandell.

“Achieving an accreditation status of Commendable from NCQA is a sign that a health plan is serious about quality. It is awarded to plans whose service and clinical quality meet or exceed NCQA’s rigorous requirements for consumer protection and quality improvement.” said Margaret E. O’Kane, President, NCQA.

HEDIS®

HEDIS (Healthcare Effectiveness Data and Information Set) is a set of standardized performance measures designed to ensure that purchasers and consumers have the information they need to reliably compare healthcare quality.

Originally, HEDIS was designed to address private employers’ needs as purchasers of health care. It has since been adapted for use by public purchasers, regulators and consumers. Quality improvement activities, health management programs and practitioner profiling efforts have all used HEDIS as a core measurement set.

This report provides you with Sanford Health Plan’s HEDIS 2013 results (based on calendar year 2012 data) and the programs and activities that have been put in place to improve the health care and services the Plan provides to its members. The HEDIS measures, which are reported on an annual basis, are divided into domains that all reflect different aspects of care. The results are presented to you in comparison to NCQA’s Quality Compass® HEDIS 2011 benchmarks, which are a compilation of audited HEDIS results (based on calendar year 2010 data) from health plans across the nation. The HEDIS results are also compared to the Healthy People 2020 goals, where available. Healthy People 2020 is a set of 10-year health objectives for the United States aimed at health promotion and disease prevention initiatives. It was developed by the U.S. Department of Health and Human Services with the input of public health and prevention experts and a wide range of government officials and organizations.

The NCQA HEDIS Compliance Audit™ assures both purchasers and health plans of fair and accurate comparisons of health plan performance. Certified auditors, using a process designed by NCQA, rigorously audit the HEDIS results annually. The scope of the NCQA HEDIS Compliance Audit includes the following domains: Effectiveness of Care; Access/Availability of Care; Satisfaction with the Experience of Care; Health Plan Stability; Use of Services; Cost of Care; and Health Plan Descriptive Information. Sanford Health Plan has undergone a full audit. The following HEDIS measures in this report were deemed reportable according to the NCQA HEDIS Compliance Audit® Standards.

The source for data contained in this publication is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass® is a registered trademark of the National Committee for Quality Assurance (NCQA).

Effectiveness of Care Domain

The Effectiveness of Care domain measures provide information about the quality of clinical care the Plan delivers to its members including preventive, acute and chronic care services. Many of these measures are utilized in the development and refinement of the Plan's Quality Improvement Activities, Health Management Programs and Clinical Practice Guidelines. These measures all include some form of continuous enrollment criteria which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population for the measure. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Effectiveness of Care measures included in this report are:

- Adult BMI Assessment
- Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents
- Childhood Immunization Status
- Immunizations for Adolescents
- Human Papillomavirus Vaccine for Female Adolescents (HPV)
- Colorectal Cancer Screening
- Breast Cancer Screening
- Cervical Cancer Screening
- Chlamydia Screening in Women
- Appropriate Testing for Children with Pharyngitis
- Appropriate Treatment for Children with Upper Respiratory Infection
- Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis
- Use of Spirometry Testing in the Assessment and Diagnosis of COPD
- Use of Appropriate Medications for People with Asthma
- Medication Management for People with Asthma
- Cholesterol Management for Patients with Cardiovascular Conditions
- Controlling High Blood Pressure
- Comprehensive Diabetes Care
- Use of Imaging Studies for Low Back Pain
- Follow-Up Care for Children Prescribed ADHD Medication
- Antidepressant Medication Management
- Follow-Up After Hospitalization for Mental Illness
- Flu Shots for Adults Ages 50 – 64
- Medical Assistance with Smoking Cessation

Adult BMI Assessment

According to the National Health and Nutrition Examination Survey (NHANES) 2007–2008, about one-third of adults in the United States are overweight and about one-third are obese. Guidelines from various organizations, including the National Heart, Lung, and Blood Institute whose clinical practice guidelines the Plan has adopted, indicate that the most useful measure of overweight and obesity is the body mass index (BMI).

Adult BMI Assessment measures the percentage of members ages 18-74 who had an outpatient visit and who had their body mass index (BMI) documented during the measurement year or the year prior to the measurement year.

Adult BMI Assessment

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
BMI Assessed in 2011 or 2012:	**44.04%**	**60.34%**	**73.67%**	**83.54%**	**55.4%**	**53.6%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents

According to the National Heart, Lung, and Blood Institute, the rate of obesity in children 2-5 has doubled in the last 30 years and the rate of obesity in children and adolescents ages 6-19 has tripled in that time. BMI percentile can be a useful screening tool for practitioners for assessing obesity in children and adolescents and offer the opportunity for counseling on the importance of good nutrition and physical activity.

This measure looks at the percentage of members ages 3-17 who had an outpatient visit with a PCP or OB/GYN and who had evidence of BMI percentile documentation, counseling for nutrition and counseling for physical activity during the measurement year.

Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
BMI Percentile Assessed in 2012:	**31.63%**	**39.66%**	**49.64%**	**66.42%**	**44.7%**	**54.7%**
Counseling for Nutrition in 2012:	**25.30%**	**30.66%**	**32.60%**	**48.42%**	**46.4%**	**15.2%**
Counseling for Physical Activity in 2012:	**29.44%**	**32.60%**	**33.09%**	**48.42%**	**43.0%**	

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Childhood and Adolescent Immunization Status

Immunizations prevent serious illnesses, lost school and work days and millions of dollars in health care costs. This measure was developed based on immunization recommendations from the Centers for Disease Control and Prevention, the American Academy of Pediatrics, the American Academy of Family Physicians and the Advisory Committee on Immunization Practices.

Childhood Immunization Status involves measuring the percentage of enrolled children who turned 2 years old during the measurement year, who were continuously enrolled for 12 months preceding their 2nd birthday and who were identified as having the recommended vaccinations by their 2nd birthday. These vaccinations include:

1. **4 DTaP** (diphtheria, tetanus and pertussis) vaccines on or before child's 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
2. **3 IPV** (polio) vaccinations on or before child's 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
3. **1 MMR** (measles, mumps and rubella) on or before child's 2nd birthday.
4. **3 HiB** (Haemophilus influenza type B) vaccinations on or before 2nd birthday. Vaccinations administered prior to 42 days after birth are not counted.
5. **3 Hepatitis B** vaccinations on or before child's 2nd birthday.
6. **1 VZV** (chicken pox) vaccine on or before child's 2nd birthday.
7. **4 Pneumococcal conjugate** vaccinations on or before child's 2nd birthday.
8. **1 Hepatitis A** vaccinations on or before child's 2nd birthday.
9. **3 Rotavirus** (or 2 if the 2 dose type) vaccinations on or before child's 2nd birthday. Vaccinations administered prior to 42 days of birth are not counted.
10. **2 Influenza** vaccinations on or between 6 months after birth and child's 2nd birthday.

There are also 9 combination rates now calculated which consist of various combinations of the above vaccinations. Two of these combination rates are:

1. **Combination #2**: Children who have received 4 DtaP vaccinations, 3 IPV vaccinations, 1 MMR vaccination, 2 HiB vaccinations, 3 hepatitis B vaccinations and 1 VZV vaccination as specified above.
2. **Combination #3**: Children who have received all vaccinations in Combination #2 as well as 4 pneumococcal conjugate vaccinations as specified above.

Childhood Immunization Status

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
4 DTaP	83.70%	84.59%	86.64%	90.13%	86.5%	90%
3 IPV	92.54%	96.07%	96.58%	94.55%	92.4%	90%
1 MMR	90.06%	91.80%	93.49%	94.81%	91.5%	90%
3 Hib	94.75%	95.74%	95.89%	95.84%	94.1%	90%
3 Hepatitis b	93.92%	94.43%	92.81%	92.21%	87.9%	90%
1 VZV	87.02%	91.80%	91.44%	94.03%	91.3%	90%
4 Pneumococcal	81.22%	88.20%	86.30%	90.91%	87.0%	90%
Hepatitis A	27.90%	22.30%	27.74%	63.9%	39.0%	60%
Rotavirus	54.70%	68.20%	68.15%	72.73%	75.1%	80%
Influenza	59.39%	65.25%	66.44%	75.58%	61.1%	80%
Combination #2	78.18%	79.02%	79.11%	85.19%	78.0%	
Combination #3	71.82%	74.10%	75.68%	84.42%	75.7%	80%

Quality Compass is a registered trademark of NCQA.
[2]Healthy People 2020 target is based on children ages 19 through 35 months.

Immunizations for Adolescents involves measuring the percentage of enrolled adolescents who turned 13 years old during the measurement year, who were continuously enrolled for 12 months preceding their 13th birthday and who were identified as having the recommended vaccinations by their 13th birthday. These vaccinations include:

1. **1 meningococcal conjugate or meningococcal polysaccharide** vaccine on or between the adolescent's 11th and 13th birthdays.
2. **1 tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap) or 1 tetanus, diphtheria toxoids vaccine (Td)** vaccine on or between the adolescent's 10th and 13th birthdays.
3. **Combination measure** looks at how many of the adolescents in this group had both of the above vaccines.

Immunizations for Adolescents

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Meningococcal	15.70%	23.66%	29.24%	30.03%	61.9%	44%
Tdap/Td	38.91%	40.69%	53.49%	54.31%	77.0%	47%
Combination	13.31%	22.08%	26.58%	28.72%	59.4%

[2]Healthy People 2020 Goal is for adults ages 13-15.

Immunization Guidelines

Sanford Health Plan recognizes that high immunization rates help prevent the spread of vaccine preventable diseases, as well as reduce the rates of disability and death from these diseases. Prevention through immunization can help reduce future health care costs associated with treating the disease and reduces employee absenteeism.

An immunization schedule is available on the Centers for Disease Control and Prevention website at www.cdc.gov/vaccines/. A copy may also be obtained by calling the Health Plan at (888) 315-0884. These immunization guidelines are available to Plan practitioners on the website and members and practitioners are informed of the availability of the immunization schedules in the newsletters. The Preventive Health Guidelines brochure directs members to the website or to call for a copy of the immunization schedules. Adolescent wellness visit reminder activities over the last year have included a reminder to get immunizations updated. A birthday card is sent to kids turning 11 and 12 to remind them to get their annual wellness visit and recommended immunizations. Postcard reminders were also sent to a targeted group of adolescents and their parents to remind them to get their wellness physical.

Colorectal Cancer Screening

According to the American Cancer Society, colorectal cancer is the third most commonly diagnosed cancer in men and women in the United States. Screening tests can help prevent some cancers by finding and removing polyps that could become cancer in the future. In other cases, screening tests can identify cancers in their early stages and improve the chances of successful treatment.

Colorectal Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Colorectal Cancer Screening	**54.74%**	**59.90%**	**60.51%**	**61.27%**	**62.4%**	**70.5%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.
[2]Healthy People 2020 Goal is for adults ages 50-75.

This measure looks at the percentage of adults 50 to 75 years of age who were continuously enrolled during the measurement year and year prior to the measurement year and who had appropriate screening for colorectal cancer. Appropriate screenings are defined as one of the following:

- Fecal occult blood test during the measurement year.
- Flexible sigmoidoscopy during the measurement year or the 4 years prior to the measurement year.
- Colonoscopy during the measurement year or the 9 years prior to the measurement year.

Colorectal Cancer Screening Activities

Sanford Health Plan's male and female members who are turning 40, 50 and 60 receive birthday cards that include reminders for colorectal cancer screenings and the Plan's benefit for these screenings. Preventive Health Guidelines, including colorectal cancer screening benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Health Plan website at www.sanfordhealthplan.com. The colorectal cancer screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

All members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to colorectal screenings. WorldDoc also offers a health library and self management tools on this site as well

As a member of the South Dakota Council on Colorectal Cancer, Sanford Health Plan also collaborates with the American Cancer Society and other health care organizations and insurance plans on improving colorectal cancer screening rates and reducing the incidence of colorectal cancer. The Council has completed community education initiatives and continuing education related to colorectal cancer.

Breast Cancer Screening

According to the American Cancer Society:

- Breast cancer is the most common cancer among women, other than skin cancer.
- Breast cancer risk increases with age and every woman is at risk regardless of family history.
- Your chance of having breast cancer some time during your life is about 1 in 8.

Mammography is one of the most effective screening methods available for detecting breast cancer. Early detection of breast cancer increases the likelihood of successful treatment.

This measure looks at the percentage of women ages 40 through 69 years, who were continuously enrolled during the measurement year and the year prior to the measurement year, and who had a mammogram during one of those years.

Breast Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Mammogram in 2011 or 2012:	**76.46%**	**75.03%**	**74.80%**	**74.76%**	**70.50%**	**81.1%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]Healthy People 2020 Goal is based on women ages 50-74.

Breast Health Initiative

Sanford Health Plan implemented numerous activities designed to provide members with information on breast health that promotes early detection of potential breast cancer. The activities included:

- Members are asked to complete an online health risk assessment on our WorldDoc site. There is a health library and self management tools on this site as well.
- Reminders –
  - A card was mailed which included a reminder to get a mammogram, reasons for the importance and information on benefits.
  - These members were offered the chance to enter a drawing for a prize if they got their mammogram completed.
  - A mammogram reminder card was mailed to women 3 months after their 40th birthday. Birthday cards are also mailed to those turning 40, 50 and 60 and include mammogram reminders.
  - Care Management nurses contacting female members for health management or screening purposes also addressed the importance of breast cancer screening.
- Mobile Screening – Some employer groups were offered the opportunity to arrange for mobile mammography screening so employees would have the convenience of having screening done in privacy at the worksite.
- Periodic articles are published in the Member Messenger newsletter with facts about breast cancer and the importance of mammography.
- Preventive Health Guidelines, including mammogram benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Plan's website at www.sanfordhealthplan.com.
- The breast cancer screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

Cervical Cancer Screening

Regular Pap tests can help detect cervical cancer in its early stages and thereby reduce the morbidity and mortality of women with cervical cancer. Clinical guidelines recommend Pap testing every 1 to 3 years for all women who have been sexually active or who are over the age of 21.

This measure looks at the percentage of women ages 21 through 64 years, who were continuously enrolled during the measurement year and the 2 years prior to the measurement year and who had a Pap test during one of those years.

Cervical Cancer Screening Activities

Sanford Health Plan's female members who are turning 21 and those who are turning 40, 50 and 60 receive birthday cards that include reminders for yearly gynecological exams and the Plan's benefits for yearly Pap tests. Periodic articles are published in the Member Messenger stressing the importance of having a yearly exam. Preventive Health Guidelines, including yearly Pap test benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Health Plan website at www.sanfordhealthplan.com. The cervical cancer screening clinical practice guidelines that were adopted and recommended to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

All members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to cervical cancer screenings. WorldDoc also offers a health library and self management tools on this site as well

Cervical Cancer Screening

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
Pap Test in 2010, 2011 or 2012	**78.80%**	**77.93%**	**77.25%**	**76.20%**	**76.5%**	**93.0%**

Chlamydia Screening in Women

Chlamydia is the most common sexually transmitted disease, which left untreated can cause serious reproductive and other health problems. Routine screening and treatment can reduce serious consequences of Chlamydia in women. This underscores the importance of prevention and early treatment in the primary care arena.

The Chlamydia Screening in Women measure looks at the percentage of women ages 16 through 24 years, who were continuously enrolled during the measurement year, and who had a test for Chlamydia during the measurement year.

Chlamydia Screening in Women

Chlamydia Screening in 2012:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020
Age 16 - 20	29.29%	29.31%	25.42%	25.62%	41.5%	65.9%
Age 21 – 24	33.20%	28.46%	32.43%	34.35%	48.4%	78.3%
Age 16 – 24	31.44%	28.84	29.29%	30.47%	45.0%	

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Appropriate Testing for Children with Pharyngitis

Excessive use of antibiotics is resulting in a higher prevalence of antibiotic resistance. Clinical guidelines recommend that only children with diagnosed group A streptococcus pharyngitis based on a group A strep test (rapid assay or throat culture) be treated with antibiotics.

This measure looks at the percentage of children 2 - 18 years of age who were diagnosed with pharyngitis, prescribed an antibiotic and received a group A streptococcus test for the episode. A higher rate indicates appropriate testing.

Appropriate Treatment for Children with Pharyngitis

	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Strep Test Administered	78.26%	74.55%	72.57%	80.20%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Appropriate Treatment for Children with Upper Respiratory Infection

The common cold is one of the top reasons that parents take their children to see their doctor. Antibiotics, although not recommended by current guidelines for the treatment of the common cold, are still often prescribed in these cases.

This measure looks at the percentage of children 3 months - 18 years of age who were given a diagnosis of upper respiratory infection (URI) and were NOT dispensed an antibiotic prescription on or 3 days after the date the child was seen by the doctor for the URI. Not being prescribed an antibiotic in this situation indicates appropriate treatment.

Appropriate Treatment for Children with Upper Respiratory Infection

	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Antibiotic Not Dispensed (Indicates Appropriate Treatment)	97.86%	73.96%	73.62%	83.90%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis

Clinical guidelines do not indicate the need for antibiotics in treating adults with acute bronchitis unless they have another comorbidity or infection for which antibiotics may be appropriate.

This measure looks at the percentage of adults 18 – 64 years of age with a diagnosis of acute bronchitis who were NOT dispensed an antibiotic prescription on or 3 days after the diagnosis of acute bronchitis. Not being prescribed an antibiotic in this situation indicates appropriate treatment.

Avoidance of Antibiotic Treatment in Adults with Acute Bronchitis

	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Appropriate Avoidance of Antibiotics	15.30%	16.39%	23.5%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Use of Spirometry Testing in the Assessment & Diagnosis of COPD

According to the National Heart, Lung and Blood Institute, chronic obstructive pulmonary disease (COPD) is the third leading cause of death in the United States. COPD is a lung disease in which the airways that carry air in and out of the lungs are partially blocked resulting in shortness of breath. COPD patients may also have a chronic cough. The next 2 measures are focused on the diagnosis and management of COPD. A Spirometry test assists the doctor in verifying the COPD diagnosis as well as determining the severity of the condition.

This measure assesses whether members ages 40 and over with a new diagnosis or newly active COPD received appropriate Spirometry testing to confirm the diagnosis.

Use of Spirometry Testing in the Assessment & Diagnosis of COPD

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Appropriate Spirometry Testing	40.35%	44.83%	38.24%	41.79%	42.9%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Asthma

Asthma is a disease of the lungs. When someone has asthma, the airways or breathing tubes in the lungs are very sensitive to many things in the air. When an asthma flare-up happens, the airways swell and fill with mucus and the muscles around the airways tighten making the airways smaller and making it hard to breathe. According to the National Heart, Lung and Blood Institute, more than 22 million people in the United States have been diagnosed with asthma. The good news is that asthma can be well managed by knowing and avoiding triggers for flare-ups and by taking medications that provide long-term control of asthma symptoms. The following 2 measures are related to management of asthma medications.

Use of Appropriate Medications for People with Asthma

This measure evaluates whether members with persistent asthma (as defined below) are being prescribed medications for long-term control of asthma. The list of acceptable medications comes from the National Heart, Lung and Blood Institute's (NHBLI) National Asthma Education and Prevention Program (NAEPP) guidelines. Eligible members include those continuously enrolled in the measurement year and the year prior to the measurement year, with any of the following in those years:

- At least 1 emergency room visit with a principal diagnosis of asthma.
- At least 1 acute inpatient discharge with a principal diagnosis of asthma.
- At least 4 outpatient visits with an asthma diagnosis and at least two (2) asthma medications filled at the pharmacy.
- At least 4 asthma medications filled at the pharmacy (members identified this way, where leukotriene modifiers were the sole asthma medication dispensed, must also have at least 1 diagnosis of asthma in the same year as the leukotriene modifier).

Use of Appropriate Medications For People with Asthma

Use of Appropriate Medication:	HEDIS 2012[2]	HEDIS 2013	National Average 2011[1]
Ages 5 to 11	100%	98.18%	96.0%
Ages 12 to 18	91.67%	100%	92.7%
Ages 19 to 50	91.13%	89.34%	89.1%
Ages 51 to 64	88.46%	93.51%	93.2%
Total	91.67%	93.52%	91.9%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]For HEDIS 2012 the age ranges were changed so these rates are not comparable to previous year's rates.

Medication Management for People with Asthma

This measure identifies members 5-64 years of age who were identified as having persistent asthma and who were dispensed appropriate medications. Then 2 rates are reported on these members.

1. The percentage of members who remained on an asthma controller medication for at least 50% of their treatment period.
2. The percentage of members who remained on an asthma controller medication for at least 75% of their treatment period.

Medication Management For People with Asthma

	HEDIS 2012	HEDIS 2013	National Average 2011[1]
50% Med Compliance			
Ages 5 to 11	76.32%	70.37%	NA
Ages 12 to 18	75.76%	69.23%	NA
Ages 19 to 50	68.14%	64.22%	NA

Improving Asthma Management

In 1998, the Physician Quality Committee identified asthma as a common illness within the Health Plan population based on Sanford Health data and Health Plan clinical claims data and implemented an Asthma Quality Improvement Activity. Based on that claims data, the Plan identified significant numbers of asthmatic members with frequent physician visits for multiple respiratory diagnoses. Claims data also revealed some inappropriate utilization of asthma medications among this population.

The Asthma activity includes monthly identification of new asthmatic members and a free peak flow meter and spacer offer. Newly identified members are provided with educational information in the form of a toolkit which includes topics such as asthma triggers, asthma education, medication compliance, an asthma action plan, smoking cessation and more. The Plan has also

worked with the *South Dakota Asthma Institute* and has helped promote the annual Lung Association Asthma Camp for kids.

The asthma management clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website at www.sanfordhealthplan.com.

Cholesterol Management for Patients with Cardiovascular Conditions

High blood cholesterol is one of the major risk factors for heart disease and heart attacks. More specifically, high LDL levels (bad cholesterol) can cause cholesterol to build up within the walls of the arteries which cause a hardening or narrowing of the arteries and can eventually slow or block blood flow to the heart. If the blood supply to a portion of the heart is completely cut off, the result is a heart attack.

This measure looks at members ages 18 to 75, who from January 1 - November 1 of the year prior to the measurement year were discharged for acute myocardial infarction (AMI), coronary artery bypass graft (CABG) or percutaneous coronary interventions (PCI), or who had a diagnosis of ischemic vascular disease during the measurement year or the year prior. Then we measure what percentage of members had each of the following during the measurement year: LDL-C (low density lipoprotein cholesterol) screening, LDL-C <100mg/dL.

Cholesterol Management for Patients with Cardiovascular conditions

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
LDL-C Screening	90.20%	90.20%[2]	84.14%	86.89%	88.1%
LDL-C Level <100 mg/dL	64.71%	64.71%[2]	61.67%	62.70%	59.8%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]The HEDIS 2010 rates were rotated for 2011. The actual screening rate was 88.11% and the actual level <100 rate was 67.84%.

Lipid Profile Screening Guidelines

The Preventive Health Guidelines allow for 1 lipid profile between the ages of 18 and 24, 1 lipid profile every 5 years between the ages of 25 and 44 and 1 lipid profile every year for ages 45 and over. The Preventive Health Guidelines are published for members and practitioners in the Member Messenger and Provider Perspective newsletters yearly, are provided in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com. The cholesterol screening clinical practice guidelines that Sanford Health Plan adopted and recommends to practitioners are published in the Provider Perspective yearly and are also available on the Plan's website.

Controlling High Blood Pressure

According to the National Heart, Lung and Blood Institute, more than 65 million adults in this country have high blood pressure. When arteries narrow, blood flow is forced to press against the artery walls with too much force, resulting in high blood pressure. The heart must work harder to pump blood through the arteries. Over time, high blood pressure can result in serious long-term health conditions like heart disease, stroke and renal failure.

Controlling High Blood Pressure

Members with Controlled Blood Pressure	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Ages 18 - 85	66.07%	67.92%	70.83%	67.82%	65.4%	61.2%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]The Healthy People 2020 Goal includes adults ages 18 and older.

This measure assesses whether blood pressure is controlled among adult persons ages 18 - 85 years of age with diagnosed hypertension who were continuously enrolled in the measurement year. A member in this measure is considered to have controlled blood pressure if their most recent blood pressure reading taken in the office in the measurement year was below 140mm Hg systolic and 90mm Hg diastolic.

Healthy Heart (High Blood Pressure) Health Management Program

Due to the large number of members with high blood pressure in the Plan's population, in April 2007 Sanford Health Plan implemented a Hypertension Health Management Program as an expansion on the already existing Quality Improvement Activity. The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between the member and his/her primary care physician.

The Hypertension Health Management Program was renamed the Healthy Heart Health Management Program in 2012. With this program, new eligible members for the program are identified on a monthly basis and sent a Hypertension Program booklet that contains information on the program as well as

education on managing hypertension and educational materials and resources that are available to the member. The program is an opt-out program, with newly identified members being automatically enrolled unless they contact the Plan to opt out of the program. Members are stratified as moderate/low or high risk. High risk members receive the same quarterly educational mailings as moderate/low risk, with additional high risk information specific to their needs and phone or letter contact from a Care Management RN. Educational materials for moderate/low and high risk members include topics such as non-pharmaceutical management of hypertension, medication compliance, diet and exercise recommendations, complications, self monitoring, smoking cessation and more. High risk members who were not compliant according to HEDIS specifications received an educational mailing accompanied by a blood pressure wallet card and tracking card.

The Healthy Heart Program also provides annual communications to practitioners regarding the program. Practitioners receive notice on an annual basis of their members who were not in compliance with the HEDIS Controlling High Blood Pressure measure specifications. Practitioners were also notified of the current rates of guideline recommended medication therapy. The Plan reviews and adopts on a yearly basis clinical practice guidelines for hypertension. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are distributed through special mailings and the Sanford Health Plan website, www.sanfordhealthplan.com.

Our Healthy Heart Health Management Program members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to hypertension and lifestyle as well as their current biometric readings. WorldDoc also offers a health library and self management tools on this site to help our members better manage their condition.

In April, our Care Management nurses and Partners in Prevention, our health screening team, took part in a community wide hypertension initiative by visiting some of our employer group sites to do blood pressure screenings. At risk members were referred to their primary care practitioner for follow up.

If you are a Sanford Health Plan member with high blood pressure and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

Comprehensive Diabetes Care

Diabetes is a costly, highly prevalent chronic disease which, if not controlled, can result in serious complications including amputations, blindness, kidney failure, heart disease, nerve damage and more. According to the American Diabetes Association, there are 25.8 million children and adults in the United States, or about 8.3% of the population, who have this disease. Many complications of diabetes can be prevented if detected and addressed in the early stages.

This measure looks at the percentage of members with diabetes ages 18 through 75 years old, who were continuously enrolled during the measurement year, who received the following aspects of diabetes care (except where noted, these are based on the most recent date of service in the measurement year):

- Hemoglobin A1c (HbA1c) Tested
- HbA1c Poor Control >9.0%
- HbA1c Control <8.0%
- HbA1c Control <7.0%
- LDL-C Screening Performed
- LDL-C Controlled <100mg/dL
- Eye Exam (Retinal) Performed in the measurement year (or in the year prior to the measurement year with a negative retinopathy diagnosis)
- Medical Attention for Nephropathy (Includes any of the following: Evidence of treatment for nephropathy, a nephrologist visit, a positive urine macroalbumin test, a urine microalbumin test or evidence of ACE Inhibitor/ARB drug therapy)
- Blood Pressure Control <140/80 mm Hg
- Blood Pressure Control <140/90 mm Hg

Comprehensive Diabetes Care

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[2]	Healthy People 2020[3]
HbA1c Tested	93.07%	93.07%[4]	95.07%	95.07%[6]	90.0%	71.1%[3]
HbA1c Poor Control >9.0%[1]	19.16%	19.16%[4]	16.61%	16.61%[6]	28.3%	14.6%
Hba1c Control <8.0%	70.80%	70.80%[4]	68.43%	68.43%[6]	61.2%	
Hba1c Control <7.0%	45.99%	45.99%[4]	49.76%	49.76%[6]	42.2%	58.9%
Eye Exam Performed	63.69%	64.42%	65.15%	72.63%	56.9%	58.7%
LDL-C Screened	81.57%	83.58%	85.04%	85.04%[6]	85.3%	
LDL-C Controlled (<100 mg/dL)	46.17%	48.54%	50.36%	50.36%[6]	48.1%	
Medical Attention for Nephropathy	86.13%	86.13%[4]	89.05%	89.05%[6]	83.8%	37.0%[3]
Blood Pressure <140/80[5]	42.88%	54.56%	56.57%	56.57%[6]	44.2%	57.0%
Blood Pressure <140/90	74.64%	75.73%	76.46%	76.46%[6]	65.8%	57.0%

[1]Lower rates for the HbA1c Poor Control measure indicate better performance.
[2]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.
[3]Healthy People 2020 Goal includes ages 18 and older. The A1c testing goal is based on 2 screenings a year vs. 1 like HEDIS. The goal listed for nephropathy includes only microalbumin for the Healthy People goal.
[4]HEDIS 2010 rates were rotated for 2011. The actual HbA1c Tested rate was 92.88%. The actual A1c >9% rate was 16.97%. The actual A1c <8% rate was 72.08%. The actual A1c <7% rate was 48.91%. The actual nephropathy rate was 85.22%.
[5]For HEDIS 2011 and forward the Blood Pressure <130/80 rate was revised to <140/80.
[6]HEDIS 2012 rates were rotated for 2013. The actual HbA1c Tested rate was 93.43%. The actual A1c >9% rate was 20.26%. The actual A1c <8% rate was 69.71%. The actual A1c <7% rate was 47.37%. The actual nephropathy rate was 87.41%. The Blood Pressure <140/80 actual rate was 52.19%. The actual Blood Pressure <140/90 was 75.18%.

Diabetes Health Management Program

In 1998, Sanford Health Plan implemented a Diabetes Health Management Program. The Physician Quality Committee identified diabetes as a common illness within the Plan population. Clinical claims data identified significant numbers of diabetic members and practitioners that did not utilize established practice guidelines in the treatment of diabetes. A decrease in morbidity and mortality may not be achieved unless both members and practitioners are educated on Plan benefits and compliance with recommended care guidelines.

The goal of the program is to provide tools to educate our members on promoting improved health through better prevention, detection, treatment and education. By analyzing utilization patterns, we will be able to educate our members on preventable complications so that emergency department visits and hospital admissions/readmissions may be reduced. These tools will facilitate understanding and consumer responsibility for their own disease processes as well as coordination of care between the member and primary care physician.

In the Diabetes Health Management Program, new eligible members for the program are identified on a monthly basis. These members are sent a toolkit that contains information on the diabetes program, education on diabetes and an offer for educational materials available to members. The program is an opt-out program, with newly identified members being automatically enrolled unless they contact the Plan to opt out of the program. Members are stratified as moderate/low or high risk. High risk members receive the same educational mailings as low risk, with additional high risk information specific to their needs and phone or letter contact from a Care Management RN. Educational materials for moderate/low and high risk members include topics such as blood sugars, eating right, medications, exercise, recommended tests and more.

Special mailings are also done throughout the year to members. Members who are noncompliant with the recommended care guidelines are sent an educational letter with information on risks of complications and the importance of getting needed tests and visits. These members are asked to complete a HbA1c, LDL-C, eye exam and a microalbumin test. Members are reminded that they can receive their annual diabetic eye exam for free with a participating eye care professional.

All diabetic members, regardless of whether they remain enrolled in the program or not, receive notice of how to get information on the Plan's insurance benefits for medical and pharmaceutical care for diabetes, as well as how to obtain a free glucometer. Diabetic education is stressed in the program materials and in the member newsletter.

Our diabetes health management program members are encouraged to complete an online health risk assessment on our WorldDoc site which includes questions related to diabetes and lifestyle as well as their current biometric readings. WorldDoc also offers a health library and self management tools on this site to help our members better manage their condition.

If you are a Sanford Health Plan member with diabetes and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

The Diabetes Program also provides annual communications to practitioners regarding the program. A reminder is sent to eye care professionals about the required codes for the diabetic eye exam copay waive program. An eye exam consultation form is also included that they can complete and fax to the member's primary diabetes care practitioner to notify them of the member's exam and their results.

On a yearly basis, the Plan reviews and adopts clinical practice guidelines for diabetes. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are also distributed through the Sanford Health Plan website, www.sanfordhealthplan.com.

In addition to these program activities, the Preventive Health Guidelines allow for 1 lipid profile between the ages of 18 and 24, 1 lipid profile every 5 years between the ages of 25 and 44 and 1 lipid profile every year for ages 45 and over. The Guidelines also allow for 1 basic metabolic panel (which includes a glucose test, among others) every year. The Preventive Health Guidelines are published for members and practitioners in the Member Messenger and Provider Perspective newsletters yearly, are provided in Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Use of Imaging Studies for Low Back Pain

Back pain is among the most common musculoskeletal conditions affecting nearly all people at least once in their life. According to the American College of Radiology, uncomplicated low back pain is a benign, self-limited condition that does not warrant any imaging studies. The vast majority of these patients are back to their usual activities in 30 days.

This measure assesses whether imaging studies (plain x-ray, MRI, CT scan) are overused in evaluating patients with acute low back pain. A higher score indicates appropriate treatment of low back pain (i.e., proportion for whom imaging studies did not occur).

Use of Imaging Studies for Low Back Pain

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Imaging Studies Did Not Occur (Appropriate Treatment)	**85.12%**	**87.31%**	**84.82%**	**87.23%**	**74.4%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Follow-Up Care for Children Prescribed ADHD Medication

Attention-deficit/hyperactivity disorder (ADHD) is a condition that affects millions of children and adolescents. ADHD includes 3 main symptoms: inattention, hyperactivity and impulsivity. Practitioners can determine when medication therapy is indicated. When medication therapy is prescribed, the American Psychiatric Association recommends follow-up appointments be made at least monthly until the symptoms have stabilized. Once stable, an office visit every 3 to 6 months is recommended which allows for an assessment of learning and behavior in the child.

This HEDIS rate measures the percentage of children newly prescribed ADHD medication who have at least 3 follow-up care visits within a 10-month period, 1 of which is within 30 days of when the first ADHD medication was dispensed. The following are the rates:

1. **Initiation Phase:**
   The percentage of members 6-12 years of age with an ambulatory prescription dispensed for ADHD medication, who had 1 follow-up visit with a practitioner with prescribing authority during the 30-day Initiation Phase.
2. **Continuation and Maintenance Phase:**
   The percentage of members 6-12 years of age with an ambulatory prescription dispensed for ADHD medication, who remained on the medication for at least 210 days and who, in addition to the visit in the Initiation Phase, had at least 2 follow-up visits with a practitioner within 270 days (9 months) after the Initiation Phase ended.

Follow-Up Care for Children Prescribed ADHD Medication

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[2]
Initiation Phase	**NA[1]**	**30.56%**	**25.45%**	**39.06%**	**39.4%**
Continuation and Maintenance Phase	**NA[1]**	**NA[1]**	**NA[1]**	**NA[1]**	**44.2%**

[1]NA indicates that the Plan collected and reported the rate but the population was too small to report a valid rate.

[2]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving ADHD Management

ADHD is a chronic health problem in which educational interventions can help lessen the impact of the disorder and improve the member's quality of life. The diagnosis of ADHD has consistently been in the top diagnosis codes incurred for the Plan. The baseline HEDIS rates for follow-up care for children prescribed ADHD medication also show a serious deficiency in appropriate follow-up care.

Sanford Health Plan implemented a Quality Improvement Activity, which includes sending educational materials to parents of children and adolescents with ADHD to educate them on the symptoms, types of treatment and follow-up recommendations for patients taking ADD/ADHD medications.

The Plan also provided educational materials to practitioners regarding the guidelines for follow-up care for patients prescribed ADD/ADHD medication. A screening tool was also made available. These resources were offered in the practitioner newsletter and continue to be available on the Plan's website. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are also distributed through special mailings and the Sanford Health Plan website, www.sanfordhealthplan.com.

Antidepressant Medication Management

According to the National Institute of Mental Health, an estimated 6.7% of American adults suffer from major depressive disorder in a given year. Many people can improve through clinical treatment with their healthcare practitioner and by taking their medications as prescribed. However, many stop taking their medication too soon because they feel better or because they do not feel the medication is working. It is important for people to take their medications as prescribed for as long as they are prescribed and to keep their follow-up appointments in order to prevent a recurrence of depression.

This measure is based on the treatment guidelines of the clinical management and pharmacological treatment of depression. The following are the 2 medication compliance rates reported for this measure.

1. **Effective Acute Phase Treatment**
   The percentage of members ages 18 years and older as of April 30 of the measurement year, who were diagnosed with a new episode of depression, treated with antidepressant medication, and who remained on an antidepressant drug during the entire 84-day (12 week) Acute Treatment Phase. This measures the percentage of adult members initiated on an antidepressant drug who received a continuous course of medication treatment during the Acute Treatment Phase.
2. **Effective Continuation Phase Treatment**
   The percentage of members ages 18 years and older as of April 30 of the measurement year, who were diagnosed with a new episode of depression, treated with antidepressant medication, and who remained on an antidepressant drug for at least 180 days (6 months). This measures the effectiveness of clinical management (follow-up visits) in achieving medication compliance (taking medications as long as prescribed) for the Continuation Phase Treatment Period, adequate for defining a recovery.

Antidepressant Medication Management

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Effective Acute Phase Treatment	**58.67%**	**59.55%**	**57.54%**	**58.73%**	**65.6%**
Effective Continuation Phase Treatment	**36.00%**	**41.01%**	**43.02%**	**41.27%**	**49.4%**

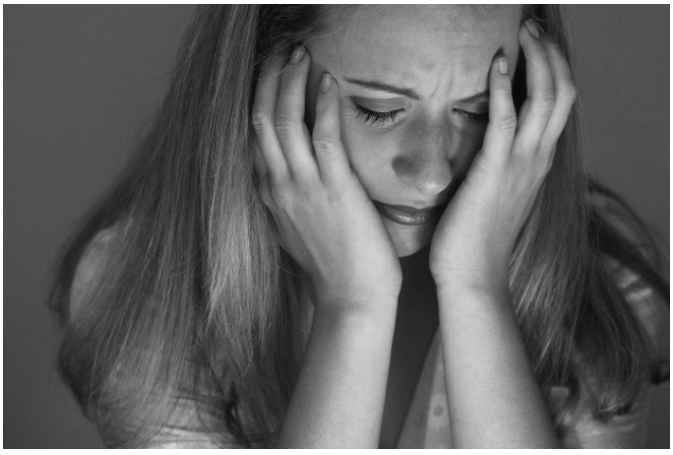
[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving Mental Health Medication Management

Depression was identified in general as a chronic, clinical issue with a high degree of risk for members. Clinical claims and pharmaceutical data have identified a significant number of members diagnosed with depression who are currently being treated with medications as well as those who are not. Data also indicates a significant difference in the treatment methods of practitioners. Clinical variance has been identified in the length of time on medication therapy for depression. Depression has consistently been one of the top diagnoses in the Plan, among adults and adolescents alike.

The activities involved in increasing medication compliance for members with depression include antidepressant letters, which are sent on a monthly basis to those members new on antidepressants to educate about medication compliance, side effects, keeping follow-up visits, etc. There have also been yearly articles in the Member Messenger newsletter regarding the importance of antidepressant compliance as well as the importance of continuity and coordination of care.

Depression clinical practice guidelines are reviewed and adopted on a yearly basis and practitioners are made aware of the availability of these guidelines in the practitioner newsletter and on the Plan website at www.sanfordhealthplan.com. Collaborative meetings are



held with behavioral health practitioners to discuss aspects of behavioral health care including how to improve access, continuity and coordination of care, medication compliance and to assist in reviewing formulary issues.

Quick Reference Cards, in addition to behavioral health screening tools, are also made available to primary care physicians to assist in locating participating behavioral health care practitioners in their regional area. These cards are available to practitioners on the Plan's website at www.sanfordhealthplan.com. If you would like a paper copy of these cards for your clinic, please call our Provider & Payor Relations Department at (605) 328-6877 or (800) 601-5086 to request a copy.

Follow-Up after Hospitalization for Mental Illness

Many who are discharged from an inpatient facility for mental illness need continued support after leaving the hospital. Help with continuing medications, going to therapy, getting back to work, and social issues is very important in ensuring successful treatment.

Consistent with the guidelines of the National Institute of Mental Health and the Centers for Mental Health Services, this measure looks at the percentage of members ages 6 years and older who were hospitalized for treatment of select mental health disorders in the measurement year who were continuously enrolled for 30 days after discharge and who were seen on an ambulatory basis or were in day/night treatment with a mental health practitioner.
Two separate rates are calculated:

- The percentage of members who had an ambulatory or day/night mental health visit within 7 days of hospital discharge.
- The percentage of members who had an ambulatory or day/night mental health visit within 30 days of hospital discharge.

Follow-Up After Hospitalization for Mental Illness

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Ambulatory Follow-Up Within 7 Days of Discharge	**42.31%**	**40.91%**	**43.82%**	**34.78%**	**58.9%**
Ambulatory Follow-Up Within 30 Days of Discharge	**67.95%**	**65.15%**	**70.79%**	**64.13%**	**76.5%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Improving Timeliness of Follow-Up after Hospitalization for Mental Illness

Sanford Health Plan identified a need for improvement in the area of mental health follow-up and continuity and coordination of care. Mental health diagnoses have consistently been one of our top diagnosis codes for the Plan and initial claims analysis showed a low rate of follow-up after hospitalization.

In an attempt to improve the follow-up rates, the Health Plan sends letters to those members being discharged from an inpatient mental health stay. The brochure included with the letter (Managing Your Follow-up Care) includes information about medication management, how to avoid readmission, and the importance of keeping outpatient appointments. Information about the member's upcoming outpatient follow-up appointment is also included in the letter as a reminder. Nurse phone calls are then made to these members to remind them of their follow-up appointment. The Plan also collaborates with behavioral health providers to determine actions that can be taken to have members seen in a more timely manner.

To increase awareness of available mental health services, Quick Reference Cards, as well as behavioral health screening tools, are made available for primary care physicians to assist them in locating Sanford Health Plan behavioral health care practitioners in their regional area. The Plan advertised these cards in the Provider Perspective newsletter sent to all participating practitioners. These cards are available to practitioners, as are the Plan's clinical practice guidelines on depression, on the Plan's website at www.sanfordhealthplan.com. If you would like a copy of these cards for your clinic, please call our Provider & Payor Relations Department at (605) 328-6877 or (800) 601-5086 to request a copy. The Plan also collaborates with mental health professionals to get feedback on our quality improvement activity and other activities involving mental health services.

Flu Shots for Adults Ages 50-64

The disease burden of influenza is high even though it is highly preventable with a safe and effective vaccination each year. This measure assesses the percentage of members ages 50-64 years as of September 1 of the measurement year who received an influenza vaccination. Sanford Health Plan publishes yearly newsletter articles to remind members to get their flu shots and that coverage for the flu shot is 100%.

Flu Shots for adults ages 50-64

Received Flu Shot:	CAHPS® 2011	CAHPS® 2012	CAHPS® 2013	National Average 2011[1]
Ages 50-64	**69.97%**	**70.25%**	**69.33%**	**53.3%**

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Medical Assistance with Smoking Cessation

According to the Centers for Disease Control and Prevention (CDC), smoking is the leading preventable cause of premature death in the United States, causing 400,000 deaths each year. Yet millions of Americans continue to smoke. Studies show that people who are advised by their health care practitioner to quit smoking are more likely to quit.

To measure the percentage of Sanford Health Plan members who were advised by their health care practitioner to quit smoking and who were offered assistance in other cessation strategies, the annual member satisfaction survey, CAHPS®5.0H (Consumer Assessment of Healthcare Providers and Systems), includes questions that address these issues. Specifically, these questions allow us to determine the percentage of members ages 18 years and older, who were continuously enrolled during the measurement year, who were either current smokers or recent quitters that were seen by a Plan practitioner during the measurement year and received advice to quit smoking, had discussion regarding cessation medications and had discussion regarding other smoking cessation strategies. The following are the results from the most recent CAHPS® 5.0H study.

Medical Assistance with Smoking Cessation

	CAHPS® 2010[1]	CAHPS® 2011	CAHPS® 2012	CAHPS® 2013	National Average 2011[2]
Advising Smokers to Quit	**80.00%**	**74.48%**	**73.79%**	**75.25%**	**77.6%**
Discussion of Smoking Cessation Medications	**55.00%**	**49.32%**	**47.12%**	**50.50%**	**53.1%**
Discussion of Other Smoking Cessation Strategies	**53.80%**	**44.52%**	**39.42%**	**50.50%**	**47.6%**

[1] The response options for these questions changed in 2010. This does not allow us to compare and trend these rates to previous years.

Tobacco Cessation Program

In November 2001, the Physician Quality Committee approved the start of a tobacco cessation program based upon the results of the CAHPS® survey. The program includes educational pieces in the Member Messenger. Tobacco cessation is stressed in all of the Plan's health management program materials as well. Cessation tools such as the state quitlines are also published in the member newsletter and made available to employer groups through the Care Management program. Smoking cessation education is currently underway at select employer sites, led by the Plan's certified tobacco cessation educators, and includes information about local, state and Health Plan cessation benefits.

The tobacco treatment benefit included in the member's benefit package includes the following:

- **For South Dakota, North Dakota and Iowa members:**
  Treatment for tobacco abuse is covered as part of the Sanford Health Plan's Preventive Health Program. Tobacco abuse treatment will be covered as listed below. This will be a once per lifetime benefit. Therapy treatment options available include two (2) Physician counseling and treatment visits, two (2) smoking cessation classes, or two (2) visits to a Certified Respiratory Therapist. Any combination of the above is not to exceed two (2) total visits. Hypnotism and acupuncture are **non-covered** treatment options. Medications used to deter smoking, including nicotine patches, gum and nasal spray, Zyban, bupropion (generic Wellbutrin), and Chantix will be covered with confirmation of smoking abstinence for 6 months. Reimbursement will be for the total amount the member paid for up to a three (3) month supply. Only one medication will be covered per lifetime. Abstinence must be proven by a urine specimen for nicotine. The total cost of this test will be covered by the Health Plan. To receive this benefit, the member must submit up to 3 months of paid receipts and notify the Health Plan (Member Services (605) 328-6800 or (800) 752-5863) that he or she has completed a urine screening test at the 6 month smoke free mark.

- **For Minnesota members:**
  Sanford Health Plan will cover a 90-day supply for Nicotine Patches or Nicotine Gum under the brand copay amount per calendar year and Zyban (bupropion) a 180-day supply under the brand copay amount per calendar year. No more than a 30-day supply will be covered and dispensed at a time. A prescription is required from a licensed provider and prescriptions must be filled at a network pharmacy. Failure to use your ID card for prescription processing will result in zero payment. Counseling for cessation of smoking will be covered under the Member's medical benefit for an office copay amount or smoking cessation classes will be covered 1 time per calendar year under the Members coinsurance and deductible benefit. Other medications used to deter smoking; including nicotine nasal spray and Chantix will be covered with confirmation of smoking abstinence for 6 months. Reimbursement will be for the total amount the member paid for up to a three (3) month supply. Abstinence must be proven by a urine specimen for nicotine. The total cost of this test will be covered by the Health Plan. Please call our Members Services Department at (605) 328-6800 or (800) 752-5863 for more complete information.

Cessation resources are provided to members on a regular basis including the state quit lines and the National Cancer Institute's website:

- SD Quit Line Toll-Free 1-866-SD-QUITS
- MN's Tobacco Helpline (888) 354-PLAN
- IA Quit Line (800) QUIT NOW
- ND Quit Line (800) QUIT NOW
- www.smokefree.gov

The specifications for the above CAHPS® measures are consistent with recommendations from the clinical practice guidelines adopted and recommended on a yearly basis by the Plan for use. Newsletter articles continue to be published concerning current clinical practice guidelines for the treatment of tobacco use and dependence. These guidelines are also available on the Plan's website at www.sanfordhealthplan.com.

Access and Availability of Care Domain

The Access/Availability of Care domain contains measures that assess Sanford Health Plan members' access to care and whether those members are actually utilizing the services available to them. Most of these measures include some form of continuous enrollment criteria, which specifies that a member has to be enrolled in the Plan a certain amount of time before they may be included in the final population. This way the only members that are included in the final population are members for whom the Plan has had an adequate opportunity to provide services and education.

The Access and Availability measures included in this report are:

- Adults' Access to Preventive/Ambulatory Health Services
- Children and Adolescents' Access to Primary Care Practitioners
- Initiation and Engagement of Alcohol and Other Drug Dependence Treatment
- Prenatal and Postpartum Care
- Call Answer Timeliness

Adults' Access to Preventive/ Ambulatory Health Services

This measure determines whether adults have had preventive or ambulatory visits with their physician. This measure also tells us how many adults are not accessing the health care system at all and therefore are not receiving any preventive care or counseling on important factors like diet, exercise, smoking cessation, seat belt use and other risky behaviors. Specifically, we are looking at the percentage of members ages 20 through 44, 45 through 64 and 65 years and older who were continuously enrolled during the measurement year and the 2 years prior to the measurement year and who had an ambulatory or preventive care visit during 1 of those years. A separate rate is reported for each of the 3 age groups. Below are Sanford Health Plan's rates for this measure.

Adults' Access to Preventive/ Ambulatory Health Services

Ambulatory or Preventive Care Visit:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013
Age 20 - 44	94.90%	95.00%	94.62%	94.54%
Age 45 - 64	95.96%	95.83%	95.67%	95.87%
Age 65 & Older	96.79%	97.42%	96.74%	98.11%

Adult Wellness Visit Guidelines

Sanford Health Plan's female members turning 21, 40, 50 and 60 and male members turning 40, 50 and 60 receive birthday cards that include reminders and the Plan's benefits for yearly physical exams as well as other preventive health screenings. Preventive Health Guidelines, including yearly physical exam benefits, are

published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets, and are available on the Plan's website at www.sanfordhealthplan.com.

Children and Adolescents' Access to Primary Care Practitioners

This measure determines whether children have had a visit with a primary care practitioner (PCP) like a pediatrician or family practice physician in order to assess general access to care for children and adolescents. Specifically, we are looking at the percentage of enrollees ages 12 months through 24 months and 25 months through 6 years who were continuously enrolled during the measurement year and who have had a visit with a primary care practitioner during that year. We also look at the percentage of enrollees ages 7 years through 11 years, and 12 years through 19 years, who were continuously enrolled during the measurement year and the year prior to the measurement year and who have had a visit with a primary care practitioner during 1 of those years. A separate rate is reported for each of the 4 age groups. Below are Sanford Health Plan's rates for this measure.

Children and Adolescents' Access to Primary Care Practitioners

Ambulatory or Preventive Care Visit:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Age 12 - 24 Mo	98.00%	98.26%	99.31%	98.69%	97.9%
Age 25 Mo - 6Years	89.77%	87.98%	88.84%	89.85%	91.9%
Age 7 – 11 Yr	86.84%	87.97%	87.11%	88.62%	91.9%
Age 12 – 19 Yr	89.25%	89.73%	89.10%	89.28%	89.3%

Children and Adolescent Wellness Visit Guidelines

Preventive Health Guidelines, including yearly physical exam and well baby visit benefits, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Initiation and Engagement of Alcohol and Other Drug Dependence Treatment

There are more deaths, illnesses and disabilities from substance abuse than from any other preventable conditions.[1] These rates measure the degree to which members initiate and continue alcohol and other drug (AOD) dependence treatment once the need is identified.

Initiation of AOD Dependence Treatment: The percentage of members with a new episode of alcohol or other drug dependence who initiate treatment through either an inpatient AOD admission, outpatient visit, intensive outpatient encounter or partial hospitalization within 14 days of the diagnosis.

Engagement of AOD Treatment: An intermediate step between initially accessing care (initiation of treatment) and completing a full course of treatment. This measure is designed to assess the degree to which members engage in treatment with 2 additional AOD services within 30 days after the initiation visit.

[1]*Substance Abuse: The Nation's Number One Health Problem, Feb. 2001*

Initiation and Engagement of Alcohol and Other Drug (AOD) Dependence Treatment

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Initiation of AOD Treatment	50.60%	37.25%	44.74%	37.44%	40.2%
Engagement of AOD Treatment	46.99%	32.35%	23.16%	18.96%	15.2%

Prenatal and Postpartum Care

Early and regular prenatal care is essential in keeping mom and baby healthy. Mothers who do not receive regular prenatal care are more likely to have problems including low birth weight and/or premature babies. Many health problems, if found early, can be treated or cured and other problems may be prevented. Prenatal care visits provide the practitioner the opportunity to discuss proper nutrition, counseling, vitamin supplements, risk factors and health promotion.

Care for the mother after delivery is also important. To give practitioners the chance to offer advice and assistance, the American College of Obstetricians and Gynecologists recommends that women see their health care practitioner at least once between 4 and 6 weeks after giving birth to allow for a physical examination and an opportunity to answer questions and give nutrition and family planning guidance.

This measure evaluates timely access to prenatal and postpartum care for Sanford Health Plan members. Prenatal care should be provided in the first trimester of pregnancy, or if the member enrolled after the first trimester, within 42 days of the member's enrollment date. Documentation of prenatal care visits should include screening tests, obstetrical history or risk assessment, counseling and education or an ultrasound. Postpartum care should be delivered on or between 21 and 56 days after delivery and should include a physical exam with either a pelvic exam or an evaluation of weight, blood pressure, breasts and abdomen. Below are Sanford Health Plan's rates for this measure.

Prenatal and Postpartum Care

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Timely Prenatal Care	**93.75%**	**96.94%**	**96.94%[3]**	**97.83%**	**91.0%**	**77.9%**
Timely Postpartum Care	**84.58%**	**88.21%**	**88.21%[3]**	**89.67%**	**80.6%**

[2]Healthy People 2020 Goal beginning in first trimester of pregnancy.

[3] This rate was rotated from HEDIS 2011. The actual rate for prenatal care was 93.48% and for postpartum care 85.33%.

Maternity Care Benefits & the Healthy Pregnancy Program

Sanford Health Plan provides maternity care benefits from prenatal through postpartum care. We also encourage our pregnant mothers to join the Healthy Pregnancy Program during their first trimester of pregnancy.

The Healthy Pregnancy Program focuses on education and awareness. The main objective is to assist a member in identifying concerns early so she and her healthcare practitioner can take steps to prevent or minimize any problems and ensure a healthy pregnancy. The American College of Obstetricians and Gynecologists (ACOG) guidelines state that medical, obstetric and lifestyle factors can complicate a pregnancy. Through regular prenatal care, women can take action to increase their chance of having a healthy baby. The member's health care practitioner continues to be the primary caregiver who provides the member with medical services and advice. Plan members may enroll in the program by calling the Plan to prior authorize their pregnancy. Members will receive a program packet with their authorization letter. A health risk assessment is included in the initial program packet, which should be completed and returned to the Plan. Based on the health risk assessment, responses members are classified as low or high risk. Enrolled members receive a follow-up mailing consisting of different health topics applicable to pregnant women. A Care Management nurse calls members whose pregnancy is high risk at least once throughout the pregnancy, or more often if needed. Enrolled members also receive a magazine and immunization guideline information after the baby is born.

If you are a Sanford Health Plan member who is pregnant and would like information on enrolling in this program, please call the Plan at (888) 315-0884. You can also find program and enrollment information on our website at www.sanfordhealthplan.com.

For practitioners, the program offers notification of the patients that they have participating in the program. Sanford Health Plan has adopted guidelines for prenatal care. Practitioners are made aware of the clinical practice guidelines on a yearly basis through the practitioner newsletter. The guidelines are available on the Sanford Health Plan website, www.sanfordhealthplan.com.

Call Answer Timeliness

Customer service plays a significant role in member satisfaction. Key measures involved in customer service include Member Services phone call response times.

Call Answer Timeliness

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013
Call Answer Timeliness	**71.24%**	**67.21%**	**67.94%**	**78.91%**

Member Services Phone Calls Quality Improvement Activity

Because the Health Plan Quality Improvement Committee recognizes the Member Services Department as vital to customer service, in 1999 the Committee chose to evaluate phone call statistics and staffing needs for the Member Services Department as a way of ensuring that Plan Members have timely access to customer service.

All Member Services phone calls are logged. Call center statistics show number of calls answered, calls made, voicemails, and abandoned calls. It also shows the answer speed of calls and the rate of abandonment and voicemails. These statistics are measured monthly and analyzed by the Committee on a quarterly basis to determine improvements that are needed. Many improvement activities have been implemented to improve these rates over the years including staff meetings with training and education on how to more accurately and efficiently handle member and practitioner calls, distribution of phone call statistics to each Member Services Representative and a phone log report to track all calls and their subject matter.

Satisfaction with Experience of Care Domain

HEDIS/CAHPS® 5.0H Adult Member Satisfaction Survey

This domain includes rates from the yearly member satisfaction survey completed by Sanford Health Plan. This survey is conducted by an independent survey vendor and provides information on the experiences of our members with our Health Plan and how well we meet our members' expectations. There are 4 overall ratings of satisfaction in addition to 7 more focused composite scores which summarize survey responses in key areas.

HEDIS/CAHPS® 5.0H, Adult Overall Ratings

Percentage Responding: 8, 9, 10
(Scale from 0-10, where 0 is worst and 10 is best)

CAHPS® Opportunities and Improvement Activities

Sanford Health Plan strives to provide the best service we can to our members. The Plan's Quality Improvement Committee analyzed the full CAHPS® results report and identified the areas that show the greatest opportunities for improvement. The Committee also determined activities that will be (or already are being) implemented to achieve improvement in these areas. Examples of these activities include, but are not limited to:

- A workgroup is in place to improve the information communicated to members and to make the information easy to find and access.
- Continue New Member Survey postcard in an effort to identify issues with member materials or services and what we can do to improve them.
- Notify members of the features available on the Plan's web portal, including access to EOBs, benefit information and more. The myHealthPlan web portal provides streamlined services and enhanced access to information. The Plan's general website and portal have also been redesigned to improve ease of access to important member information.
- The Plan's case managers are partnering with the Sanford Clinic Health Coaches to get members appointments more quickly and to collaborate on the members care.
- Continue to provide information through our preventive health and quality programs regarding smoking cessation and the state quit line resources as well as the Plan's benefit for smoking cessation reimbursement. Smoking cessation resources are provided on our member portal, myHealthPlan.
- Include information on what is available to members on the Express Scripts, Inc. website (the Plan's pharmacy benefit manager) like drug information, member specific copay information, drug side effects, interactions and more. There is a link to this website on the Plan's pharmacy information page on the Plan's website.
- Continue to emphasize in member mailings the importance of having a primary care practitioner (PCP). Members are also informed that they may call the Health Plan for assistance in finding a PCP. (Call the Member Services Department at (605) 328-6800 or (800) 752-5863).
- Remind members when asking for an appointment with a specialist that is not available as soon as they would like, to ask for alternative specialists in that clinic or to call Member Services at (605) 328-6800 or (800) 752-5863) for information on additional specialists available in their area.
- Practitioners will be notified of satisfaction results related to how much time they spend with patients, shared decision making, coordination of care, etc. so that they are aware of areas that may need improvement in the practice setting.

Use of Services Domain

The Use of Services Domain provides information about the types of services Sanford Health Plan offers its members and how the Plan manages member care. It looks at a range of health care settings including inpatient, outpatient, non-acute and ambulatory.

The Use of Services measures included in this report are related to well-care visits:

- Well-Child Visits in the First 15 Months of Life
- Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life
- Adolescent Well-Care Visits

Well-Child Visits in the First 15 Months of Life

Well-child visits, or well baby checks, are recommended frequently in the first year of life when a child's development is most rapid. These visits include a complete physical examination in addition to immunizations and communication and/or counseling to parents regarding normal development and developmental milestones, safety, nutrition, sleep, infectious diseases, etc. Frequent well-child visits can assist in identifying and addressing growth and developmental problems early.

The American Academy of Pediatrics recommends 8 well-child visits in the first 15 months of life: the first 3-5 days after birth and then at 1, 2, 4, 6, 9, 12 and15 months of age. The well-child visits for Sanford Health Plan members were reported as the percentage of 15 month old members receiving 0, 1, 2, 3, 4, 5, or 6 or more visits with a primary care practitioner.

Well-Child Visits in the First 15 Months of Life

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
0 Visits	0.34%	1.05%	0%	0.90%	NA
1 Visit	1.01%	1.40%	0%	0.90%	NA
2 Visits	0.00%	2.11%	1.56%	1.51%	NA
3 Visits	4.36%	5.26%	1.17%	2.11%	NA
4 Visits	8.05%	7.02%	8.2%	7.53%	NA
5 Visits	19.13%	22.11%	17.97%	20.18%	NA
6+ Visits	67.11%	61.05%	71.09%	66.87%	78.00%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Well-Child Visits in the Third, Fourth, Fifth, and Sixth Years of Life

Well-child visits during the third through sixth years of life should include (but not be limited to) a complete physical examination in addition to an evaluation of hearing and vision, an update of immunizations, discussion of nutrition, assessment of language development, assessment of developmental milestones and assessment of social and behavioral development.

The American Academy of Pediatrics recommends annual well-child visits for children ages 3 to 6 years of age. The rates below show the percentage of Plan member's ages 3-6 years of age who had well-child visit with a primary care practitioner during the measurement year.

Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life

	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]
Well-Child Visits in the Third, Fourth, Fifth and Sixth Year of Life	45.31%	51.36%	52.21%	56.00%	72.50%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

Well Baby and Well Child Visit Guidelines

Preventive Health Guidelines, including well baby visit benefits and yearly well child wellness exams, are published in the Member Messenger and Provider Perspective newsletters yearly, are included in new member Enrollment Packets and are available on the Plan's website at www.sanfordhealthplan.com.

Adolescent Well-Care Visits

Adolescents experience significant physical and emotional changes in their transition from childhood to adulthood. In addition, adolescents face many challenges in today's world and may be at risk for sexually transmitted disease, substance abuse, pregnancy, behavioral problems, etc. Accidents, homicide and suicide are the leading causes of death in the adolescent population between ages 15 and 24. According to the American Medical Association's Guidelines for Adolescent Preventive Services, "Annual visits offer the opportunity to reinforce health promotion messages for both adolescents and their parents, identify adolescents who have initiated health risk behaviors or who are at early stages of physical or emotional disorders, provide immunizations, and develop relationships with the adolescents that will foster an open disclosure of future health information."

The American Medical Association's Guidelines for Adolescent Preventive Services, the federal government's Bright Futures program and the American Academy of Pediatrics guidelines all recommend yearly well-care visits for adolescents. The adolescent well-care visit rates for Sanford Health Plan were reported for members in the 12 to

21 year old age group having had at least 1 well-care visit with a primary care practitioner. The rates below show the percentage of Plan members who had a well-care visit during the measurement year.

Adolescent Well-Care Visits

Adolescent Well-Care Visits:	HEDIS 2010	HEDIS 2011	HEDIS 2012	HEDIS 2013	National Average 2011[1]	Healthy People 2020[2]
Ages 12 - 21	28.82%	28.93%	29.27%	29.45%	43.20%	75.6%

[1]The source for data is Quality Compass® 2011 and is used with the permission of the National Committee for Quality Assurance (NCQA). Any analysis, interpretation, or conclusion based on these data is solely that of the authors, and NCQA specifically disclaims responsibility for any such analysis, interpretation, or conclusion. Quality Compass is a registered trademark of NCQA.

[2]Healthy People 2020 goal is based on ages 10-17.

Adolescent Health Program

Sanford Health Plan would like to see every adolescent develop an open and trusting relationship with a physician. Yearly visits offer this opportunity and the opportunity to reinforce health promotion messages for both adolescents and their parents. These visits will also identify adolescents who may have health risk behaviors or who are in the early stages of a physical or emotional disorder.

In an effort to increase the number of adolescent well-care visits, notices are published in the Member Messenger newsletter on a yearly basis regarding "Back-To-School Checkup Time". Birthday cards are sent monthly to those members turning 11 and 12 as a reminder to make sure they are up-to-date on immunizations by their 13th birthday. This postcard recommends a yearly wellness visit and reminds them of their benefits for yearly visits and immunizations.

A pilot project was also implemented to incentivize adolescents to get their wellness physical. Postcard reminders were sent to the parents first and then directly to the adolescent. Based on the success of this program, the postcard reminders were then rolled out to the rest of the Plan's group members in this age category.

The Plan encourages parents and adolescents to visit our website at www.sanfordhealthplan.com and click on the KidsHealth link for valuable health information for parents, kids and teens. The parent information topics include general health, infections, emotions & behavior, growth & development, recipes, medical problems, Q&A, positive parenting, first aid & safety and doctors & hospitals. Kids and teens will also enjoy the information provided specifically for them on this site.
Over the past few years the Health Plan has communicated with practitioners regarding preventive visits for adolescents and fostering these relationships. Preventive Health Guidelines and immunization guidelines are communicated yearly through the newsletters and the Health Plan encourages input from practitioners regarding the guidelines. The guidelines are also available on the Plan's website at www.sanfordhealthplan.com.

Quality Programs & Activities

Sanford Health Plan conducts, at a minimum, 2 health management programs each year as well as quality improvement activities as needed. Following are the quality evaluation and reporting steps utilized by the Plan:

- Problem Identification through the ongoing monitoring of process, structure, and outcomes of patient care or clinical performance and the evaluation of the data collected to identify potential problems.
- Selection of problems warranting corrective action or focused studies based on the prevalence of the problem or the severity of the problem impact on patient care and professional practices.
    - Topics for focused studies, health management programs and QI activities may be based on 1 of many factors:
        - Demographic characteristics, including age and sex of the member,
        - Areas of high volume,
        - Areas of high risk,
        - Areas demonstrating over or under utilization,
        - Areas that can be corrected or where prevention may have an impact, or
        - Areas where complaints or dissatisfaction have occurred.
    - Once the topic is selected, the following sources are then used to identify eligible members for the program or activity:
        - Claims data (medical and pharmacy),
        - Health risk appraisal data, if applicable,
        - Laboratory results, if applicable,
        - Data collected through the case management or UM process, if applicable, or
        - Member, practitioner or Plan staff (i.e., UM, Complex Case Management, Care Management, Health Information Line) referrals.
- Documenting corrective action steps including measurable objectives for each action, time frames, and the persons responsible for implementing the corrective action.
- After action steps are implemented and time has passed for the steps to take effect, a re-evaluation of the problem area will be done.
- Results of QI activities/surveys are published at year-end for practitioner, provider and member information by way of newsletters and special mailings. All contracted practitioners and providers are offered the opportunity to assist in problem selection by notifying the Plan regarding issues of concern. Reference is made yearly in the newsletter and/or special mailing for this opportunity.

Case Management Services

Sanford Health Plan offers case management services to all the members of our insured employer groups in order to assist in controlling healthcare costs. The case manager facilitates communication and coordination between members and practitioners of medical services. By involving all members of the healthcare team in the decision-making process, fragmentation of the healthcare delivery system is minimized. The case manager educates our members about wellness, health conditions, community resources, insurance benefits, cost factors and issues of concern. Serving as the link between individuals, practitioners, payers and the community, the case manager encourages and is an advocate for appropriate use of medical cost effectiveness on a case-by-case basis.

Complex Case Management Program

Sanford Health Plan's Complex Case Management Program is available to qualifying Health Plan Members and their families "FREE" of charge. Complex case management is a process that aims to identify high-risk or high cost Members, assess treatment options and opportunities to coordinate care, design treatment programs to improve quality and efficacy of care, control costs and manage Member care to ensure the optimum outcome. Concentrating for the most part on catastrophic or chronic cases, case manager nurses are called in to consult and manage diagnoses such as serious traumas, cancers, organ transplants, spinal cord injuries, multiple chronic illnesses and/or chronic illnesses that result in high utilization and diagnoses as identified by our reinsurance provider.

Health Plan Nurse Case Managers manage these complex cases to ensure high quality, cost effective and appropriate utilization of health services. The case manager acts as a Member advocate, seeking and coordinating creative solutions to a Member's health care needs without compromising quality health outcomes for selected medical diagnoses. The case manager contacts our Members by phone and mail. She is able to act as a resource, educator and/or coordinator of all medical care if needed.

If you would like more information about this program and whether you or your patient meet the criteria to participate in the program, please contact a Sanford Health Plan Complex Case Manager at (888) 315-0884.

Preventive Health Guidelines

Health promotion and disease prevention is our best opportunity to reduce the ever-increasing portion of resources spent to treat preventable illnesses and impairments that could have been prevented. As a health plan we would not be doing our jobs if we did not educate our members on how to cut health care costs, prevent premature onset of disease and disability, and to help all people achieve healthier, more productive lives.

Preventive Health Guidelines are age-specific and describe prevention or early detection interventions and recommended frequency and conditions under which the interventions are required. Appropriate practitioners are involved in the development of preventive health guidelines (i.e., practitioners who are from specialties that would use the guidelines).

Members of Sanford Health Plan are encouraged to utilize preventive health services, health education and health promotion by publicizing preventive health services, educational classes, and other articles on prevention in special mailings or in the Member Messenger Newsletters.

Current Preventive Health Guidelines are available on our website at www.sanfordhealthplan.com for both members and practitioners. A paper copy is available by calling the Plan at (605) 328-6800 or (800) 752-5863.

Sanford Health Plan Quality Improvement Committees

Physician Quality Committee

The Physician Quality Committee consists of physician members from various specialties of care. The Physician Quality Committee is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on **issues of care**. Its responsibilities include, but are not limited to, developing and continually evaluating the review criteria used in the evaluation of appropriate utilization, development and implementation of medical policies and procedures and evaluation of quality programs. This Committee is also responsible for the Plan's pharmaceutical management procedures as well as formulary decisions.

Health Plan Quality Improvement Committee

The Health Plan Quality Improvement Committee is comprised of Plan directors and staff and is charged with supporting the Plan's Board of Directors and Chief Medical Officer in meeting quality assurance goals on **issues of service**.

The purpose of the QI Committee is to provide a mechanism for the comprehensive review of all health care issues affecting patients and facilitating the peer review process. The Committee is also responsible for quality activities by establishing, reviewing, and instituting needed actions and ensuring follow-up as appropriate. The committee will make recommendations to the Board of Directors regarding changes to Plan policies and procedures to improve quality based on the results of satisfaction surveys, evaluation of complaint and appeal data and quality improvement activities or processes. This Committee also serves as the internal confidentiality committee and ensures that appropriate practices are in place for the protection of member information.

Credentialing Committee

The Credentialing Committee is responsible for reviewing all issues regarding participating practitioners and determines a status for each individual who requests to be in the Sanford Health Plan practitioner network. Most often, the Committee will be reviewing new credentialing files and recredentialing files of participating practitioners at least every 3 years. However, in the instances of the Plan becoming aware of any serious quality deficiencies where the welfare of a Plan member may be affected, it is the responsibility of the Credentialing Committee members to determine if the status of that practitioner needs to be altered. The determinations of the Committee regarding participation status of all practitioners, as well as any alterations to a practitioner's status, are reviewed and approved the Sanford Health Plan Board of Directors. The monthly Credentialing Committee consists of physician members of various specialty backgrounds.

Member and Practitioner Communications

The following are the tools Sanford Health Plan utilizes to ensure timely and accurate communications with members and practitioners alike.

Member Messenger Newsletter

This newsletter is published for Sanford Health Plan members 3 times a year. It communicates information on preventive health, health management programs and quality improvement activities, how to initiate a complaint or appeal, answers to commonly asked questions, educational classes available to members, various educational articles, satisfaction survey results Plan policies and procedures, how to access the practitioner directory, pharmacy benefit information and much more. Members are also directed to access and utilize the Plan's website and ensured that if they do not have internet access, all information is available by calling the Plan.

Provider Perspective Newsletter

This newsletter goes out to all Sanford Health Plan practitioners 3 times a year. It communicates information such as Plan policies and procedures, information on preventive health, health management programs and quality improvement activities, clinical practice guidelines, satisfaction survey results, answers to commonly asked questions, billing and claims information, how to access the practitioner directory, pharmacy benefit information and much more. Practitioners are also directed to access and utilize the Plan's website and ensured that if they do not have internet access, all information is available by calling the Plan.

Medical Updates Newsletter

This newsletter is a tool for Sanford Health Plan's Chief Medical Officer, Dr. Michael Crandell, to utilize in communicating various educational or informational topics to Plan practitioners. This newsletter is sent on an as needed basis.

Health Notions Newsletter

This newsletter addresses health and wellness topics. It is sent on a monthly basis to the Plan's employer groups to share with their employees.

Sanford Health Plan Website

To further improve communication with our members, practitioners and providers, the Plan has a website that includes information for members, practitioners, employers and visitors. Whenever members are directed to the website through paper materials like the newsletters, they are also reminded that if they do not have internet access, they can call the Plan to request the same information.

The website also includes a link to the Plan's online portal, *my*HealthPlan. *my*HealthPlan allows members access to their personal medical and pharmacy claims and benefit information, check the status of claim payments, access their flexible spending account, ask questions, order ID cards online, enroll in health management programs, submit health related questions, access educational information on a variety of health conditions and much more.

WorldDoc, another feature of *my*HealthPlan, is a secure, health education website that provides the tools and information you need to better manage your health and to help you make informed healthcare decisions. Available 24/7 from any computer with Internet access, WorldDoc gives you the opportunity to privately evaluate and manage your health by:

- Learning your health risks by completing the Health Risk Assessment
- Improving health habits with the Healthy Living Program
- Using the Personal Evaluation System to investigate symptoms
- Searching the Medical Library to learn about medical conditions
- Tracking health behaviors, such as exercise or fruits and vegetable consumption, with the Health Trackers

Visit www.sanfordhealthplan.com and click on the *my*HealthPlan tab to create an account and explore what a great resource *my*HealthPlan and WorldDoc can be!

Conclusion

This report is Sanford Health Plan's commitment to our customers that we will continue to provide cost effective, quality care and service. Sanford Health Plan uses the data included in this report internally to identify opportunities for improvement and areas in need of quality improvement initiatives or health management programs.

Due to the changing nature of many of the HEDIS measures, employer groups and practitioners are advised to use HEDIS measures with care as a basis to initiate discussions with the Plan regarding our delivery system and quality of care and service being provided to our members.

The measures presented in this report have been audited by a certified HEDIS compliance auditor. Any questions regarding definitions of measures, data sources, information system specifications or quality projects should be directed to the Sanford Health Plan Care Management Department at (888) 315-0884.

Formulary

for non-grandfathered members

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug formulary that is the core of your pharmacy benefit coverage. In addition to using this list, allowing substitution of generic products is encouraged when appropriate.

If you are currently on a 3 or 4-tier pharmacy benefit program, the lowest co-payment is applied to all covered generic drugs. Generic drugs are indicated in bold. Tier 2 co-payment will apply to all of the covered brands listed on this formulary. Brand name drugs are listed in CAPITAL letters.

This is NOT a complete listing of covered drugs. For a complete list of medications, you can go to www.sanfordhealthplan.com/myhealthplan and link to the Express Scripts website.

"PA Required" indicates that prior authorization is required on that specific medication. "Step therapy" indicates the medication requires the use of first-line alternatives before more expensive second-line drugs are covered by the pharmacy benefit. Drugs marked with an asterisk (*) must be obtained from CuraScript.

If you are currently taking or are prescribed an injectable medication, please contact CuraScript Injectable Drug Program at (866) 333-9721 to order your drugs. Refer to the Pharmacy Handbook for a complete listing of drugs and instructions.

If you have questions regarding coverage call (800) 805-7938.

Attachment M - Suggested Changes to Plan Design, Programs and Services

Vendors should match the current programs and services as closely as possible when providing proposals. This appendix is meant for vendors to offer suggested changes to plan design and identify the cost or cost savings associated with each suggestion. In addition, vendors can suggest or offer changes to the services along with identification of the benefits/cost or savings. This section is not meant to list deviations to required agreements or service offerings.

Sanford Health Plan would welcome a dialogue to understand the priorities and future strategic goals of ND PERS in order to offer suggested changes and plan designs.

F1 Service Agreement Deviations
F2 RFP Deviations
F3 Redline ASA

Plan on the best fit.

SANFORD HEALTH PLAN

Appendix F

Proposers are required to submit deviations in two parts and under separate cover with their proposals using the exhibits that follow:

1. Item F1 – Contract/ASA deviations and exceptions must be described in detail, and include proposed alternative language.
2. Item F2 - Deviations from other RFP requirements must also be described in detail and submitted with your proposal.

   Use the exhibits provided in the following pages to submit specific deviations.

   In addition, proposers must submit:

3. Item F3 – Submit the redline version of the sample contract/ASA with your proposal reflecting the deviations identified in your response to Exhibit F1. Note that electronic and hard copy formats must be submitted with the cost proposal as described earlier in the RFP.

Proposal Deviations

Instructions:
Vendors must complete and submit two separate proposal deviations worksheets. Item F1 for exceptions and suggested alternatives to the terms and provisions in the sample contract/ASA and Exhibit F2 for deviations to other RFP requirements (plan designs, administration, etc.). Failure to include this information with your proposal may exclude your organization from further consideration. As noted in Item F3, vendors are also required to submit a redline version of the ASA that reflects the deviations and suggested alternatives noted below (as outlined in Section III., Proposal Contents, of the RFP).

Appendix F, Item F1 – Proposal Deviations to Sample Contract/ASA

Please complete the following worksheet for any and all deviations and exceptions to the required contract language and provisions as outlined in the sample contract provided with this RFP. Suggested alternatives must be included. Vendors should add additional pages as needed.

NDPERS RFP SAMPLE CONTRACT/ASA DEVIATIONS AND EXCEPTIONS		
Contract Section/ Number	**Description/Contract Language**	**Suggested/Proposed Alternative Language or Provision**
3.7	Claims Processing location	Removed reference to claims processing center as Fargo, ND.
3.8	BlueCard Claims processing	Clarified that Sanford Health Plan will process claims from non-participating providers.
3.13	Conversion Policies	Clarified that an individual policy will be offered upon loss of group coverage.
3.18 (a)	Provider Network	Sanford Health Plan shall ensure PPO arrangements compared to existing SHP participation and reimbursement arrangements, to verify that PPO arrangements provide for payments which are comparable to the existing arrangements.
9 A and B	Provider Network Discount	Clarified the national and regional PPO network discount programs.
7	Final Accounting	SHP shall insert our specific numbers upon finalist selection process.
11.11	Certificates of Creditable Coverage	Will be sent pursuant to state and/or federal law.
Federal and State Regulations	Affordable Care Act and State Mandates	Sanford Health Plan must reserve the ability to amend and implement its plan benefits and documents pursuant to any changes in state or federal laws that are provided or developed following submission of our response to the RFP. SHP reserves the right to adjust premium rates, with a 90 day notice, for any taxe and/or benefits changes imposed by the state of federal government that affects NDPERS health plan benefits.

Appendix F, Item F2 – All Other Proposal Deviations

Please complete the following worksheet for all deviations and exceptions to the RFP requirements. Suggested alternatives or solutions must be included. Vendors should add additional pages as needed.

NDPERS RFP ALL OTHER DEVIATIONS AND EXCEPTIONS	
Specific Deviation	**Proposed Alternative/Solution**
Administering a 20% payment reduction to nonparticipating health care providers within the state of ND would be a manual process.	Sanford Health Plan proposes a manual process for the 20% payment reduction with the overall goal of reducing the number of nonparticipating providers in NDPERS program by securing competitive discounts state-wide.

Appendix F, Item F3 – Redline version of contract/ASA

North Dakota Public Employees Retirement System

July 1, 2013 through June 30, 2015

DRAFT

ADMINISTRATIVE SERVICE AGREEMENT

This Administrative Service Agreement ("Agreement") is entered into between North Dakota Public Employees Retirement System (NDPERS) ("the Plan Sponsor"), North Dakota Public Employees Retirement System (NDPERS) ("the Plan Administrator") and Blue Cross Blue Shield of North Dakota ("BCBSND") the terms of which are as follows:

The Plan Sponsor has established and maintains a fully insured group health plan (the Plan) which provides, among other things, various benefits to Members in the Plan, as set forth in the Certificate of Insurance provided to plan Members. The Plan Administrator is the administrator of the Plan established through this Agreement.

In consideration of payment of required premium and acceptance of membership applications, BCBSND enters into this Agreement with the Plan Sponsor and the Plan Administrator. BCBSND agrees to provide plan Members the benefits set forth in the Certificate of Insurance, in accordance with its terms and conditions. This Agreement also includes the Certificate of Insurance, membership applications, Identification Cards, Benefit Plan Attachments and any endorsements, supplements, attachments, addenda or amendments.

1. EFFECTIVE DATE AND PLAN YEAR

This Agreement is effective July 1, 2015~~3~~ through June 30, 2017~~5~~, unless terminated as provided.

For the purposes of the costs of any and all benefits and services extended through this Benefit Plan, including the implementation of any benefit changes required under federal or state law, the Plan Administrator agrees that the Plan Year shall commence on July 1, unless it is terminated by one of the parties as specified in Section 8. TERM AND TERMINATION OF AGREEMENT.

2. DEFINITIONS

This section defines the terms used in this Agreement. These terms will be capitalized throughout this Agreement when referred to in the context defined.

A. **BENEFIT PAYMENTS** - payments of benefits under the Plan.

B. **CERTIFICATE OF CREDITABLE COVERAGE** - a certificate disclosing information relating to an individual's creditable coverage under a health care benefit program for purposes of reducing any preexisting condition waiting period imposed by any group health plan coverage.

C. **CLAIM** - notification in a form acceptable to BCBSND that service has been provided or furnished to a Member.

D. **DRG** - shall mean diagnostic related groups.

E. **DATA AGGREGATION** - the combining of Protected Health Information that BCBSND creates or receives for or from the Plan and for or from other health plans or health care providers for which BCBSND is acting as a business associate to permit data analyses that relate to the Health Care Operations of the Plan and those other health plans or providers.

DRAFT

F. **FEES AND CHARGES** - the amounts the Plan Administrator must pay BCBSND for the administrative services described in Section 6. FEES AND CHARGES.

G. **HEALTH CARE OPERATIONS** - any of the activities of a health plan to the extent the activities relate to functions that make it a health plan.

H. **HEALTH CARE PROVIDER** - any eligible provider that has provided care, diagnosis, or treatment to or for a Member for which benefits are sought under the Plan.

I. **INELIGIBLE PERSON** - any person, firm, or corporation that has received benefits or on whose behalf benefits have been paid but for whom benefits are not payable under the terms of the Plan.

J. **MEMBER** - the Subscriber and any dependent of a Subscriber or any other person designated by a Subscriber or by the terms of the Plan who is or may become entitled to a benefit under the Plan. The term shall also include any proprietor, partner, or owner of the Plan Sponsor, if any, who is designated by the terms of the Plan who is or may become entitled to a benefit under the Plan. In no case shall the term Member include any person not otherwise entitled to coverage under the terms of the Plan.

For the purposes of determining the various benefits and restrictions or other limitations thereto made available to a Member under the terms of this Agreement, all benefits under any Plan option or tier (and any restrictions or other limitations thereto) made available to or received by a Member shall accumulate toward that Member's benefits and any restrictions and other limitations thereto.

K. **PAYMENT** - activities undertaken to obtain premiums, determine or fulfill coverage and benefits, or obtain or provide reimbursement for health care services.

L. **PLAN ADMINISTRATOR** – **NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM.** North Dakota Public Employees Retirement System (NDPERS) is the administrator of the Plan with all of the duties and responsibilities applicable to plan administrators, including but not necessarily limited to compliance with any and all administrative, reporting, and disclosure requirements. BCBSND is not the Plan Sponsor or the Plan Administrator of the Plan and is not responsible for any of the duties assigned to the Plan Sponsor or the Plan Administrator by the terms of the Plan, or by this Agreement.

M. **PROTECTED HEALTH INFORMATION (PHI)** - individually identifiable health information, including summary and statistical information, collected from or on behalf of a Member that is transmitted by or maintained in electronic media, or transmitted or maintained in any other form or medium and that:

1. is created by or received from a Health Care Provider, health care employer, or health care clearinghouse;
2. relates to a Member's past, present or future physical or mental health or condition;
3. relates to the provision of health care to a Member;
4. relates to the past, present, or future payment for health care to or on behalf of a Member; or
5. identifies a Member or could reasonably be used to identify a Member.

Educational records and employment records are not considered PHI under federal law.

DRAFT

N. **SECURITY INCIDENT** - any attempted or successful unauthorized access, use, disclosure, modification, or destruction of a Member's electronic PHI or interference with BCBSND's system operations in BCBSND's information systems.

O. **STANDARD TRANSACTIONS** - health care financial or administrative transactions conducted electronically for which standard data elements, code sets and formats have been adopted in accordance with federal or state law.

P. **SUBSCRIBER** - any employee of the Plan Sponsor who is or may become eligible to receive a benefit under the Plan. The term includes all common law employees and possibly proprietors, partners, or other owners who work for the Plan Sponsor and are otherwise entitled to coverage under the Plan. Notwithstanding the above, in no case shall the term Subscriber include any person not otherwise entitled to coverage under the terms of the Plan.

Q. **SUCCESSFUL SECURITY INCIDENTS** - Security Incidents that result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations.

R. **UNSUCCESSFUL SECURITY INCIDENTS** - Security Incidents that do not result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations.

3. **BCBSND SHALL:**

3.1 Establish a membership record for existing Members containing information as provided by NDPERS.

3.2 Provide Identification Cards, Certificates of Insurance/Summary Plan Descriptions and applications for enrollment for each Subscriber.

3.3 Provide the Health Plan Performance Guarantees, as outlined in Exhibit B.

3.4 Upon enrollment under the NDPERS Benefit Plan, BCBSND will provide written notice to covered employees and their covered spouses of their continuation rights pursuant to the Consolidated Omnibus Budget Reconciliation Act. (“COBRA”).

3.5 Receive applications for enrollment for late entrants.

3.6 Provide Managed Benefits services in accordance with appropriate licensure and certification requirements including a dedicated staff person.

3.7 Provide a dedicated service unit to adjudicate all claims and respond to Member's inquiries. Provide toll-free Member and Health Care Provider service lines between the hours of 8 AM and 5:00 PM CST ~~or CDT at the home office in Fargo, ND, as appropriate~~. A toll-free managed benefits line for Health Care Providers will also be available between the hours of 7:30 AM and 5:30 PM CST or CDT. During nonbusiness hours, answering machine services will be available for managed benefits calls.

3.8 Process claims and inquiries for all members, including claims from non-participating providers. ~~per MTM (Member Touchpoint Measures) for Non-BlueCard claims.~~

3.9 Correspond with the Members and Health Care Providers if additional information is deemed necessary by BCBSND to complete the administrative process.

DRAFT

3.10 Administer other party liability programs.

3.11 Provide to Members an Explanation of Benefits Statement.

3.12 Provide a procedure for detection of fraud and unlawful activity.

3.13 Offer~~Provide to~~ Members an invididual ~~conversion~~ policy ~~when application is made~~ within 31 days of the termination of enrollment under NDPERS.

3.14 Provide assistance to NDPERS for the conduct of enrollment, servicing and education.

3.15 Provide to NDPERS formal Policy and Procedure guidelines for the conduct of external audits or reviews commissioned by NDPERS.

NDPERS shall provide BCBSND with the scope and requirements of any audit or review prior to the commencement of activities. If a sample of claims is required, BCBSND will provide or NDPERS will select a statistically valid computerized sample of claims, if not prohibited by law, regulation or rule.

NDPERS will provide a copy of the report of all audit or review findings and shall discuss the findings with BCBSND upon discovery to allow further investigation or implementation of corrective action.

DRAFT

3.16 Provide NDPERS with reporting to include but not limited to:

a. Annual group reporting of membership and utilization by group segments and product.

b. Estimates of future claim reserves and premium to claim ratio.

c. Such other special claims reports as requested from time-to-time by NDPERS, subject to the availability of data and appropriate cost considerations.

d. Interest calculation monthly report.

e. Semi-annual performance objectives as outlined in section 2 of the BCBSND response to question 15 of the RFP.

3.17 Provide NDPERS with claims specific data on a monthly basis on compact disc or other agreed upon medium. This information shall be in a format acceptable to NDPERS and subject to all federal and state laws on confidentiality and open records.

3.18 Provide support to NDPERS for the establishment of a Preferred Provider Network consistent with objectives established by NDPERS.

a. BCBSND will provide technical and administrative advice to NDPERS relative to the appropriateness of PPO arrangements compared to existing Blue Cross Blue Shield participation and reimbursement arrangements, to verify that PPO arrangements provide for payments which comparable to ~~are no greater than~~ the existing arrangements. BCBSND will provide current information regarding Blue Cross Blue Shield participation and reimbursement arrangements in place on a provider-specific basis for comparative purposes.

b. BCBSND will develop jointly with NDPERS a written instrument to be used as the basis for providers participating in the PPO Program.

c. BCBSND will secure provider agreements upon completion of negotiations with providers. Such negotiations will be conducted jointly by BCBSND and NDPERS.

d. BCBSND will enforce strict managed benefits, utilization review and quality assurance criteria to assure attainment of Preferred Provider program objectives.

e. BCBSND will, upon NDPERS direction, terminate a Provider's NDPERS PPO participation agreement in accordance with terms of the agreement, when a PPO Provider is noncompliant with NDPERS policies and procedures. Said policies and procedures shall be documented and communicated to the participating provider prior to implementation.

3.19 Carry over any Deductible and/or Coinsurance Amounts incurred from January 1 to June 30, of the prior contract period.

DRAFT

4. **NDPERS SHALL:**

4.1 Prepare and distribute monthly billings to participating employers and retirees participating in the Plan. NDPERS shall respond to the participating employers inquiries concerning eligibility rules, billing, etc.

4.2 Prepare monthly eligibility tape by participating employer and premium classification for both active and retired employees and provide the tape to BCBSND to be used for eligibility certification purposes. Along with the eligibility tape, NDPERS will furnish a monthly listing of participants added or terminated during the month. Such listing will reflect the name of the employee, dependents, Social Security Number, the effective date of coverage for a new employee or the termination date of a terminated employee and the coverage classification.

4.3 Provide enrollment forms, obtain completed classifications or addresses, etc. from participants and furnish BCBSND with a copy of the enrollment forms or request for coverage or address changes and retain the original copy. Enrollment forms will include the NDPERS and Blue Cross Blue Shield Service Marks.

4.4 Be responsible for the administration of and compliance with COBRA. BCBSND will forward requests for COBRA participation by membership to NDPERS upon notification.

4.5 Comply with BCBSND's established administrative policies which are reasonable and consistent with the NDPERS Health Plan and the bid specifications agreed to by the parties, including but not limited to: underwriting policies, standard adjudication and Medical Policy Guidelines, Payable Provider Guidelines, Managed Benefits Program Guidelines and claim payment procedures.

4.6 Develop and provide BCBSND the objectives established for the Preferred Provider programs.

4.7 Assume joint responsibility for the determination of provider eligibility and performance criteria in the Preferred Provider programs.

4.8 Be responsible for any systems redesign costs to BCBSND which result from the implementation of any new reimbursement mechanisms not presently in place within BCBSND automated claims payment systems. Those reimbursement mechanisms currently in place include:

Institutional	Professional
Percent of Billed Charges	Percent of Physician Payment Schedule
Percent of DRGs	Percent of Billed Charges
Percent of Per Diems	Capitation
Targeted Cost per Member	Targeted Cost per Member

4.9 Pay premiums to BCBSND according to the schedule in Section 6.

4.10 NDPERS acknowledges that the administration of the Benefit Plan that is the subject of this Agreement may be subject to regulation under federal and/or state law. NDPERS agrees to furnish BCBSND with any and all information necessary to comply with any applicable federal and/or state laws and to certify that this information is accurate. If there are any changes in the employer contribution rate for benefits and services

DRAFT

available under this Agreement, NDPERS agrees that it is its obligation to provide information related to the change in contribution rates immediately to BCBSND.

5. PRIVACY USE AND DISCLOSURE RESPONSIBILITIES

5.1 RESPONSIBILITIES OF BCBSND

A. Privacy of Protected Health Information (PHI)

1. BCBSND will keep confidential all Claim records and all other PHI that BCBSND creates or receives in the performance of its duties under this Agreement. Except as permitted or required by this Agreement for BCBSND to perform its duties under this Agreement, BCBSND will not use or disclose such Claim information or other PHI without the authorization of the Member who is the subject of such information or as required by law.

2. BCBSND will neither use nor disclose Members' PHI (including any Members' PHI received from a business associate of the Plan) except (1) as permitted or required by this Agreement, (2) as permitted in writing by the Plan Administrator, (3) as authorized by Members, or (4) as required by law.

3. BCBSND will be permitted to use or disclose Members' PHI only as follows:

    a. BCBSND will be permitted to use and disclose Members' PHI (a) for the management, operation and administration of the Plan the Plan Administrator offers Members, and (b) for the services set forth in the Plan, which include Payment Activities, Health Care Operations, and Data Aggregation as these terms are defined under federal law.

        1. BCBSND will be permitted to use Members' PHI as necessary for BCBSND's proper management and administration or to carry out BCBSND's legal responsibilities.

        2. BCBSND will be permitted to disclose Members' PHI as necessary for BCBSND's proper management and administration or to carry out BCBSND's legal responsibilities only if (i) the disclosure is required by law, or (ii) before the disclosure, BCBSND obtains from the entity to which the disclosure is to be made reasonable assurance, evidenced by a written contract, that the entity will hold Members' PHI in confidence, use or further disclose Members' PHI only for the purposes for which BCBSND disclosed it to the entity or as required by law, and notify BCBSND of any instance the entity becomes aware of where the confidentiality of any Members' PHI was breached.

    b. BCBSND will make reasonable efforts in accordance with its written privacy policies and procedures to use, disclose, or request only the minimum necessary amount of Members' PHI to accomplish the intended purpose. BCBSND will make its written privacy policies and procedures available to the Plan Sponsor, upon request.

4. Other than disclosures permitted by Section 5.1(A)3, BCBSND will not disclose Members' PHI to the Plan Administrator or to the Plan's business associate except as directed by the Plan Administrator in writing.

DRAFT

5. BCBSND will require each subcontractor and agent to which BCBSND is permitted by this Agreement or in writing by the Plan Administrator to disclose Members' PHI to provide reasonable assurance, evidenced by written contract, that such other entity will comply with the same privacy and security obligations with respect to Members' PHI as this Agreement applies to BCBSND.

6. BCBSND will not disclose any Members' PHI to the Plan Sponsor, except as permitted by and in accordance with Section 5.1(A)3.

7. BCBSND will report to the Plan Administrator any use or disclosure of Members' PHI not permitted by this Agreement. BCBSND will make any such report to the Plan Administrator after BCBSND learns of such non-permitted use or disclosure.

8. BCBSND will report to the Plan Administrator attempted or successful unauthorized access, use, disclosure, modification or destruction of a Member's electronic PHI or interference with BCBSND's system operations in BCBSND's information systems ("Security Incident"), of which BCBSND becomes aware. With regard to attempted unauthorized access, use, etc., BCBSND and the Plan Administrator recognize and agree that the significant number of meaningless attempts to, without authorization, access, use, disclose, modify or destroy electronic PHI will make real-time reporting formidable. Therefore, BCBSND and the Plan Administrator agree to the following reporting procedures for Security Incidents that result in unauthorized access, use, disclosure, modification, or destruction of information or interference with system operations ("Successful Security Incidents") and for Security Incidents that do not so result ("Unsuccessful Security Incidents").

   For Unsuccessful Security Incidents, BCBSND and the Plan Administrator agree that this Agreement constitutes notice from BCBSND of any such Unsuccessful Security Incidents. In other words, the Plan Administrator waives any separate notice of Unsuccessful Security Incidents. By way of example, BCBSND and the Plan Administrator consider the following to be illustrative of Unsuccessful Security Incidents when they do not result in unauthorized access, use, disclosure, modification, or destruction of a Member's electronic PHI or interference with an information system:

   1. Pings on BCBSND's firewall,

   2. Port scans,

   3. Attempts to log on to a system or enter a database with an invalid password or username,

   4. Denial-of-service attacks that do not result in a server being taken off-line, and

   5. Malware (e.g., worms, viruses).

   For Successful Security Incidents, BCBSND shall give notice promptly to the Plan Administrator in the event a Member's electronic PHI was compromised.

DRAFT

9. Disposition of Protected Health Information

   The parties agree that upon termination, cancellation, expiration or other conclusion of this Agreement, BCBSND will return or destroy all PHI received or created by BCBSND on the Plan Administrator's behalf as soon as feasible. Due to various regulatory and legal requirements, the Plan Administrator acknowledges that immediate return or destruction of all such information is not feasible. BCBSND agrees that upon conclusion of this Agreement for any reason, it will use or disclose the PHI it received or created on the Plan's behalf only as necessary to meet BCBSND's regulatory and legal requirements and for no other purposes unless permitted in writing by the Plan Administrator. BCBSND will destroy PHI received or created by BCBSND on the Plan Administrator's behalf that is in BCBSND's possession under such circumstances and upon such schedule as BCBSND deems consistent with its regulatory and other legal obligations.

   These responsibilities agreed to by BCBSND and related to protecting the privacy and safeguarding the security of PHI, as well as any terms directly related thereto, shall survive the termination of this Agreement and, where applicable, shall govern BCBSND's receipt, use or disclosure of PHI pursuant to the terms of this Agreement.

B. **Access, Amendment and Disclosure Accounting for Protected Health Information**

1. Upon the Plan Administrator's written request, BCBSND will make available for inspection and obtaining copies by the Plan Administrator, or at the Plan Administrator's direction by the Member (or the Members' representative), any PHI about the Member created or received for or from the Plan Administrator in BCBSND's custody or control so the Plan Administrator may meet its access obligations under federal law.

2. Upon receipt of a written request from the Plan Administrator, or at the Plan Administrator's direction by the Member (or the Members' representative), BCBSND will amend or permit the Plan Administrator access to amend any portion of the PHI created or received for or from the Plan Administrator in BCBSND's custody or control, so the Plan Administrator may meet its amendment obligations under federal law.

3. So the Plan Administrator may meet its disclosure accounting obligations under federal law or state law, BCBSND will do the following:

   a. BCBSND will record each disclosure of Members' PHI which is not excepted from disclosure accounting under Section 5.1(B)3.b, that BCBSND makes to the Plan Administrator or to a third party.

      The information about each disclosure that BCBSND must record ("Disclosure Information") is (i) the disclosure date, (ii) the name and (if known) address of the person or entity to whom BCBSND made the disclosure, (iii) a brief description of the PHI disclosed, and (iv) a brief statement of the purpose of the disclosure.

      For repetitive disclosures of Members' PHI that BCBSND makes for a single purpose to the same person or entity (including the Plan Administrator),

DRAFT

BCBSND may record (i) the disclosure information for the first of these repetitive disclosures, (ii) the frequency, periodicity or number of these repetitive disclosures, and (iii) the date of the last of these repetitive disclosures.

b. BCBSND will not be required to record disclosure information or otherwise account for disclosures of Members' PHI that this Agreement or the Plan Administrator in writing permits or requires:

(1) for Payment Activities or Health Care Operations,
(2) to the Member who is the subject of the PHI or to that Members' personal representative,
(3) to persons involved in that Members' health care or payment for health care, as provided under federal law,
(4) for notification for disaster relief purposes or national security or intelligence purposes as provided under federal law,
(5) to law enforcement officials or correctional institutions regarding inmates,
(6) for incidental uses or disclosures,
(7) as part of a limited data set in accordance with federal law,
(8) that occurred prior to the HIPAA Privacy Compliance Date,
(9) pursuant to a valid authorization.

c. BCBSND will have available for the Plan Administrator the disclosure information required by Section 5.1(B)3.a. for the six (6) years immediately preceding the date of the Plan Administrator's request for the disclosure information.

d. Upon the Plan Administrator's written request, BCBSND will make available to the Plan Administrator, or at the Plan Administrator's direction to the Member (or the Member's representative), disclosure information regarding the Member so the Plan Administrator may meet its disclosure accounting obligations under federal law.

C. **Information Safeguards**

1. BCBSND will maintain reasonable and appropriate administrative, technical and physical safeguards to protect the privacy of Member PHI. The safeguards must reasonably protect Member PHI from any intentional or unintentional use or disclosure in violation of federal law and limit incidental uses or disclosures made pursuant to a use or disclosure otherwise permitted by this Agreement.

2. BCBSND will implement administrative, technical, and physical safeguards that reasonably and appropriately protect the confidentiality, integrity, and availability of electronic PHI BCBSND creates, receives, maintains, or transmits on behalf of the Plan Administrator as required by federal law.

D. **Inspection of Books and Records**

BCBSND will make its internal practices, books, and records relating to its use and disclosure of PHI created or received for or from the Plan Administrator available to the Plan Administrator and to the U.S. Department of Health and Human Services to determine compliance with federal law or this Agreement.

DRAFT

E. BCBSND will prepare and distribute a notice of privacy practices appropriate for the Plan to meet its notice obligations under federal law. The Plan Administrator authorizes BCBSND to disclose the minimum necessary PHI to the Plan Sponsor for plan administration functions specified in the Plan documents as amended.

F. **Information Privacy and Safeguard Provisions Survive Termination of Agreement**

These responsibilities agreed to by BCBSND and related to protecting the privacy of PHI, as well as any terms directly related thereto, shall survive the termination of this Agreement and where applicable, shall govern BCBSND's receipt and use of PHI obtained pursuant to the terms of this Agreement.

5.2 RESPONSIBILITIES OF THE PLAN SPONSOR

A. The Plan Sponsor retains full and final authority and responsibility for the Plan and its operation. BCBSND is empowered to act on behalf of the Plan only as stated in this Agreement or as mutually agreed in writing by the Plan Sponsor and BCBSND.

B. Except with respect to services provided by BCBSND set forth in this agreement, the Plan Sponsor will have the sole responsibility for and will bear the entire cost of compliance with all federal, state and local laws, rules, and regulations concerning the privacy of PHI, including any licensing, filing, reporting, and disclosure requirements, that may apply to the Plan. BCBSND will have no responsibility for or liability with respect to the Plan's compliance or noncompliance with any applicable federal, state, or local law, rule, or regulation, that the Plan Sponsor is responsible for under this subsection.

C. By executing this Agreement, the Plan Sponsor certifies to BCBSND that it has amended the Plan documents to incorporate the provisions required by and under federal law, and agrees to comply with the Plan Administrator's plan documents as amended.

BCBSND may rely on Plan Sponsor's certification and Plan Administrator's written authorization, and will have no obligation to verify (1) the Plan Administrator's plan documents have been amended to comply with the requirements of federal law or this Agreement or (2) the Plan Sponsor is complying with the Plan Administrator's plan document as amended.

D. For any high deductible health plan offered by the Plan Sponsor, the Plan Sponsor assumes sole responsibility for determining whether the Plan qualifies as a high deductible health plan under Section 223(c)(2) of the U.S. Internal Revenue Code. BCBSND MAKES NO WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE REGARDING THE PLAN.

For any high deductible health plan offered by the Plan Sponsor, BCBSND does not provide legal or tax advice, and expressly disclaims responsibility for determining, on behalf of any individual or group, the legal and tax implications of: (1) establishing a health savings account; (2) eligibility for a health savings account; (3) the contributions made to a health savings account; (4) the deductibility of contributions to a health savings account; and (5) withdrawals from a health savings account and related taxation.

DRAFT

6. **FEES AND CHARGES:**

6.1 In consideration of the fully insured contract under this Agreement, BCBSND agrees to accept the following provisions and premium rates for the Effective Date of this Agreement. See attached Premium Rate Structure Table.

6.2 BCBSND and NDPERS agree to the Health Plan Performance Guarantees, as outlined in the attached Exhibit B.

6.3 NDPERS will pay BCBSND, on or before the last day of each month, premium income based on the amount identified in Column 6 of the attached Table for type of contract for that month.

6.4 NDPERS will maintain a deposit of $3,000,000 in a Cash Reserve Account held by BCBSND until the settlement of the biennium. This Cash Reserve Account shall earn interest at a rate to be determined monthly, based on US Treasury Notes quoted by the Wall Street Journal. The monthly rate will be established at the close of the first trading day each month based on the closing yield to maturity of US Treasury Notes maturing 24 months hence. If there are multiple notes for that maturity, the rate will be based on an average. If there are no notes with that maturity, the next subsequent maturity will be used.

6.5 BCBSND will retain any surplus funds from the amounts identified in Column 4 of the attached table. Surplus funds retained by BCBSND shall earn interest at a rate to be determined monthly, based on US Treasury Notes quoted by the Wall Street Journal. The monthly rate will be established at the close of the first trading day each month based on the closing yield to maturity of US Treasury Notes maturing 24 months hence. If there are multiple notes for that maturity, the rate will be based on an average. If there are no notes with that maturity, the next subsequent maturity will be used.

Surplus funds described in the above section 6.5 not used by BCBSND to pay NDPERS Health Plan incurred claims plus retention will be subject to the Final Accounting as described in Section 7 of this Agreement.

6.6 Payments made pursuant to Section 6.3 and pursuant to Column 5 of the attached Table will be handled as follows:

BCBSND will dispense to Regional Advantage Services LLC, Medicare Part D premiums identified in Column 5 of the attached Table for type of contract for that month. Interest will not be paid on this account.

Funds described in section 6.6 are not subject to final accounting as described in section 7 of this Agreement.

6.7 BCBSND reserves the right to adjust premium rates, with a 90-day notice, for any changes in taxes and/or benefits imposed upon BCBSND for the NDPERS health plan by any Federal, State or Local government authority that impact BCBSND expenses and/or NDPERS health plan benefits.

7. **FINAL ACCOUNTING**

DRAFT

7.1 A continual accounting of NDPERS Health Plan experience will take place during the 2013-2015 biennium. Monthly reports of earned income less incurred claims and retention will be produced during the biennium and the twenty-four months following the biennium.

7.2 Within 31 days of 12 months after the end of the biennium (by July 31, 2016) BCBSND will provide an accounting which will result in an initial settlement of the biennium agreement as follows:

1. Earned Premium Income during the Biennium
2. Plus interest on Surplus Funds
3. Less Claims Incurred during the Biennium and Paid July 1, 2013 through June 30, 2016
4. Less Estimated Claims Incurred and Unpaid at June 30, 2016
5. Less Administrative Expense during the Biennium ($28.36 per contract per month)
6. Less Conversion Cost during the Biennium ($1.92 per Non-Medicare contract per month)
7. Less Service Charge during the Biennium ($9.58 per Non-Medicare contract per month and $2.16 per Medicare contract per month)
8. Less Disease Management Program fees during the Biennium ($1.40 per contract per month)
9. Less Wellness Program fees during the Biennium ($4.26 per contract per month)
10. Less PPACA fees during the Biennium ($21.54 per Non-Medicare contract per month)
11. If 1+2-3-4-5-6-7-8-9-10 of 7.2 is positive, the lesser of 50% of this amount or $1.5 million is retained by BCBSND. The remainder equals Refund paid to NDPERS.
12. If 1+2-3-4-5-6-7-8-9-10 of 7.2 is negative, the lesser of 50% of this amount or $3.0 million will be refunded by NDPERS to BCBSND.

Claims incurred and unpaid will be estimated by the mean of the latest three actual IBNR claims (Incurred But Not Reported) amounts for equivalent periods in the NDPERS history.

7.3 Within 31 days of 24 months after the end of the biennium (by July 31, 2017), BCBSND will provide an accounting, which will result in a final settlement of the biennium agreement as follows:

1. Earned Premium Income during the Biennium
2. Plus interest on Surplus Funds
3. Less Claims Incurred during the Biennium and Paid July 1, 2013 through June 30, 2017
4. Less Administrative Expense during the Biennium ($28.36 per contract per month)
5. Less Conversion Cost during the Biennium ($1.92 per Non-Medicare contract per month)
6. Less Service Charge during the Biennium ($9.58 per Non-Medicare contract per month and $2.16 per Medicare contract per month)
7. Less Disease Management Program fees during the Biennium ($1.40 per contract per month)
8. Less Wellness Program fees during the Biennium ($4.26 per contract per month)
9. Less PPACA fees during the Biennium ($21.54 per Non-Medicare contract per month)
10. Less any refund paid to NDPERS at initial settlement on July 31, 2016
11. If 1+2-3-4-5-6-7-8-9-10 of 7.3 is positive, the lesser of 50% of this amount or $1.5 million is retained by BCBSND for the July 1, 2013 through June 30, 2015 biennium. The remainder equals Refund paid to NDPERS. The maximum retained by BCBSND for the biennium is 50% of $3.0 million of gain.

DRAFT

12. If 1+2-3-4-5-6-7-8-9-10 of 7.3 is negative, the lesser of 50% of this amount or $3.0 million will be refunded by NDPERS to BCBSND. BCBSND retains all losses beyond $6.0 million and any estimated gains previously distributed to NDPERS are subject to refund back to BCBSND based on this final settlement. The maximum loss NDPERS is subject to is 50% of $6.0 million of loss.

The language in red was filed with the Insurance Department 6-2-14 Still waiting for approval.7-8-14

7.4 Within 31 days of 12 months after the end of the biennium (by July 31, 2016), BCBSND will provide an accounting of PPACA fees. This adjustment is in addition to the settlement calculated in 7.2. The calculation will be as follows:

1. Estimated PPACA fees paid by NDPERS during the biennium ($21.54 per Non-Medicare contract per month)

2. Less actual PPACA fees paid by BCBSND for the biennium including:

   a. Patient Centered Outcomes Research Tax will be calculated based on actual average Non-Medicare Members at the rate of $2.00 per Member per year for July 1, 2013 through June 30, 2014, and the updated amount for the following year (unknown at this time) for July 1, 2014 through June 30, 2015.

   b. Transitional Reinsurance Assessment will be calculated based on actual average Non-Medicare Members at the rate of $5.25 per Member per month ($63.00 annual) for January 1, 2014 through December 31, 2014, and $3.67 per Member per month ($44.00 annual) for January 1, 2015 through June 30, 2015.

   c. Health Insurer Tax will be calculated using NDPERS' portion of the premium used to calculate the bill from the Federal Government, grossed up by 20% for Federal Income Tax. The 2014 bill is based on 2013 premium. The 2015 bill is based on 2014 premium, and only half of that amount will be charged to NDPERS since this biennium ends June 30, 2015. (Illustrative Example for 2014 payment: Assume BCBSND receives a $10 million HIT tax bill in 2014 that is based on $1 billion of 2013 premium. If NDPERS contributed $200 million to the $1 billion of 2013 premium, then NDPERS would be charged 20% of $12 million – the $10 million HIT tax bill grossed up by 20% for Federal Tax. The same approach would be taken for 2015 except that only half of the amount would be used to account for half of the year.)

3. If 1-2 of 7.4 is positive, the remainder equals Refund paid to NDPERS. If 1-2 of 7.4 is negative, the remainder will be refunded by NDPERS to BCBSND.

4. The parties agree that the above identified PPACA fees are subject to modification by the respective federal agencies at any time. If the PPACA fees are so modified, the modifications shall automatically be incorporated into this Agreement without further action by the parties.

8. TERM AND TERMINATION OF AGREEMENT

8.1 The term of this Agreement shall be for a two year period from July 1, 2015~~3~~ through June 30, 2017~~5~~.

8.2 This Agreement may be terminated by mutual agreement of both parties, upon 60 days notice, in writing.

DRAFT

Either party may terminate this Agreement effective 90 days following delivery of written notice to the other party, or at such later date as may be stated in the notice, under any of the following conditions:

a. If funding from federal, state or other sources is not obtained and continued at levels sufficient to allow for purchase of the services or supplies in the indicated quantities or term. The Agreement may be modified by agreement of the parties in writing to accommodate a reduction of funds.

b. If federal or state laws, rules or regulations are modified, changed or interpreted in such a way that the services are no longer allowable or appropriate for purchase under this Agreement or are no longer eligible for the funding proposed for payments authorized by this Agreement.

c. If any license, permit or certificate required by law, rule or regulation, or by the terms of this Agreement, is for any reason denied, revoked, suspended or not renewed.

Any such termination of this Agreement shall be without prejudice to any obligations or liabilities of either party already accrued prior to such termination.

d. In the event of a breach by either party, other than for nonpayment of premium, the other party may terminate this Agreement by written notice to the breaching party. The breaching party has 31 days to fully cure the breach. If the breach is not cured within 31 days after written notice, this Agreement will immediately terminate.

9. PROVIDER NETWORK DISCOUNT ~~INTER-PLAN~~ PROGRAMS

SHP~~BCBSND~~ has a variety of relationships with regional and national PPO discount ~~other Blue Cross and/or Blue Shield Licensees referred to generally as "Inter-Plan~~ Programs~~"~~ Whenever a Member accesses health care services outside the geographic area SHP~~BCBSND~~ serves, the claim for those services may be processed through one of these discount ~~Inter-Plan~~ Programs and presented to BCBSND for payment in accordance with the rules of the ~~Inter-Plan~~ discount p~~P~~rograms policies then in effect. The discount ~~Inter-Plan~~ p~~P~~rograms available to Members under this Agreement are described generally below.

Typically when accessing care outside the SHP ~~BCBSND~~ service area, a Member will obtain care from health care providers that have a contractual agreement (i.e., "participating agreement") with the discount program~~local Blue Cross and/or Blue Shield Licensee in that other geographic area ("Host Blue")~~. In some instances, a Member may obtain care from health care providers who have not entered into a "participating agreement" with SHP directly~~a Host Blue~~. SHP~~BCBSND~~ payment practices in both instances are described below.

A. Regional and National Network Discount ~~BlueCard®~~ Program

~~Under the BlueCard Program, w~~When Members access health care services outside ~~within~~ the geographic area served by SHP, SHP ~~a Host Blue, BCBSND will remain responsible to the Group for fulfilling BCBSND's contractual obligations. However, in accordance with applicable Inter-Plan Programs policies then in effect, the Host Blue will be responsible for providing such services as contracting and~~ will adjudicate claims ~~handling substantially all interactions~~ with the health care providers who have entered into a "participating agreement" with anyone of SHP's discount network programs~~it~~ (participating health care providers). The financial terms of the Regional or National Network Discount~~BlueCard~~ Program are described generally below. Individual circumstances may arise that are not directly covered by this description; however, in those instances, SHP~~BCBSND~~'s action will be consistent with the spirit of this description.

DRAFT

Liability Calculation Method Per Claim - The calculation of Member liability on claims for Covered Services processed through the Regional or National Network DiscountBlueCard Program will be based on the lower of the billed charges of the Host Blue's participating health care provider or the negotiated price made available to SHPBCBSND by the Regional or National Network Discount programHost Blue.

The Regional or National Network discount programHost Blues may use various methods to determine a negotiated price, depending on the terms of each Host Blue's health care provider contracts. The negotiated price made available to SHPBCBSND by the Host Blue may represents a payment negotiated by a Regional or National Network discount program Host Blue with a health care provider that is the difference between the applicable contract rate and the participating provider's billed charges.one of the following:

1. \the actual price. An actual price is a negotiated payment without any other increases or decreases; or

2. an estimated price. An estimated price is a negotiated payment reduced or increased by a percentage to take into account certain payments negotiated with the provider and other claim- and non-claim-related transactions. Such transactions may include, but are not limited to, anti-fraud and abuse recoveries, provider refunds not applied on a claim-specific basis, retrospective settlements, and performance-related bonuses or incentives; or

3. an average price. An average price is a percentage of billed covered charges representing the aggregate payments negotiated by the Host Blue with all of its health care providers or a similar classification of its providers and other claim- and non-claim-related transactions. Such transactions may include the same ones as noted above for an estimated price.

Host Blues using either an estimated price or an average price may, in accordance with Inter-Plan Programs policies, prospectively increase or reduce such prices to correct for over- or underestimation of past prices (i.e., prospective adjustments may mean that a current price reflects additional amounts or credits for claims already paid to providers or anticipated to be paid to or received from providers). However, Tthe amount paid by the Member is a final price; no future price adjustment will result in increases or decreases to the pricing of past claims. The BlueCard Program requires that the price submitted by a Host Blue to BCBSND is a final price irrespective of any future adjustments based on the use of estimated or average pricing.

A small number of states require a Host Blue either (i) to use a basis for determining Member liability for Covered Services that does not reflect the entire savings realized, or expected to be realized, on a particular claim or (ii) to add a surcharge. Should the state in which health care services are accessed mandate liability calculation methods that differ from the negotiated price methodology or require a surcharge, SHP BCBSND would then calculate the Member's liability in accordance with applicable law.

Return of Overpayments - Under the BlueCard Program, recoveries from a Host Blue or from participating health care providers of a Host Blue can arise in several ways, including, but not limited to, anti-fraud and abuse recoveries, provider/hospital audits, credit balance audits, utilization review refunds, and unsolicited refunds. In some cases, SHPthe Host Blue will engage third parties to assist in discovery or collection of recovery amounts. The fees of such a third party may be netted against the recovery. Recovery amounts determined in this way will be applied in accordance with applicable SHP Inter-Plan Programs policies, which generally require correction on a claim-by-claim or prospective basis.

DRAFT

B. **Nonparticipating Providers Outside the SHP~~BCBSND~~ Service Area**

When Covered Services are provided outside of SHP's~~BCBSND's~~ service area by health care providers who have not entered into a "participating agreement" with SHP ~~a Host Blue~~ (nonparticipating health care providers), the amount the Member pays for such services will ~~generally~~ be based on ~~either~~ SHP's ~~the Host Blue's nonparticipating health care provider local~~ maximum allowed amount, which is the lesser of (a) the amount charged for a covered service or supply, or (b) reasonable costs as established by SHP. Members are responsible for any difference between the amount charged and SHP's payment for covered services. ~~payment or the pricing arrangements required by applicable state law. In these situations, the Member may be liable for the difference between the amount that the nonparticipating health care provider bills and the payment BCBSND will make for the Covered Services as set forth in this paragraph.~~

In certain situations, SHP~~BCBSND~~ may pay claims based on the payment SHP~~BCBSND~~ would make if the Covered Services had been obtained within the SHP~~BCBSND~~ service area. Such situations include where a Member did not have reasonable access to a participating health care provider, as determined by SHP~~BCBSND~~ in its sole and absolute discretion or by applicable state law. ~~In other situations, BCBSND may pay such a claim based on the payment BCBSND would make if BCBSND were paying a nonparticipating health care provider inside of BCBSND's service area (as described in the Member's Certificate of Insurance) where the Host Blue's corresponding payment would be more than BCBSND's payment to a nonparticipating health care provider within the BCBSND service area. BCBSND~~SHP may also in its sole and absolute discretion, negotiate a payment with such a health care provider on an exception basis. In any of these situations, the Member may be responsible for the difference between the amount that the nonparticipating health care provider bills and payment SHP~~BCBSND~~ will make for the Covered Services as set forth in this paragraph.

10. RETROSPECTIVE DISCOUNT PAYMENT

Regarding prescription medications or drugs purchased by Members under the terms of the Plan, BCBSND will pay the amount due to the pharmacy (or other prescription drug retailer) under the terms of the pharmacy provider participating agreement. The amount due to the pharmacy under the terms of the pharmacy provider participating agreement is that which is due at the time the prescription medication or drug is purchased by the Member. The amount due to the pharmacy under the pharmacy provider participating agreement is calculated without regard to any subsequent, retrospective manufacturer discount that may apply to the cost of the prescription medication or drug. The Plan Administrator acknowledges and agrees that, in some cases but not all, drug manufacturers may offer retrospective discounts to BCBSND on prescription medications and drugs purchased under the terms of the Plan. If a drug manufacturer makes a retrospective discount payment available, the Plan Administrator acknowledges and agrees that a portion of any such rebate may be retained by an entity that performs manufacturer discount program services on behalf of BCBSND under the terms of this Agreement. The Plan Administrator further acknowledges and agrees that, when made available by the drug manufacturer, another portion of the retrospective discount payment is retained by BCBSND. In its sole discretion, BCBSND may periodically refund to the Plan all or part of any rebate payments received. The calculation of any refund rests in the sole discretion of BCBSND.

In its sole discretion, and only in the case where a Member is required to pay Coinsurance as part of the Cost Sharing Amounts for each Prescription Medication and Drug provided under the terms of this Benefit Plan, BCBSND may periodically refund to Members a proportional amount of any retrospective discount payments received. The calculation and payment of any such

DRAFT

proportional refund rests in the sole discretion of BCBSND. The manner in which such retrospective discount program payment refund, if any, is distributed to a Member rests in the sole discretion of BCBSND. The Member waives any right, title, or interest in and to such proportional retrospective discount payment once the Member is no longer eligible for benefits under the terms of this Benefit Plan, and BCBSND may use its discretion and disburse any such retrospective discount payments as it deems appropriate and necessary in its administration of this Benefit Plan. The Member shall pay all Cost Sharing Amounts at the time the Prescription Medication or Drug is purchased, without regard to any potential retrospective discount.

11. **GENERAL PROVISIONS:**

11.1 This Agreement is between NDPERS and BCBSND and does not create any rights or legal relationships between BCBSND and any Member(s).

11.2 This Agreement, together with the Response to the Request for Proposal and any exhibits, attachments and amendments constitutes the entire Agreement between the parties. No promises, terms, conditions or obligations other than those contained in this Agreement are valid or binding. Any prior agreements, statements, promises, negotiations, inducements or representations, either oral or written, made by either party or agent of either party that are not contained in this Agreement are of no effect. No modification of the terms or provisions of this Agreement shall be effective unless evidenced by a written amendment, signed by an authorized officer or employee of NDPERS and BCBSND.

11.3 This Agreement shall be governed by and construed according to the laws of the state of North Dakota.

11.4 Failure of either party at any time to require performance by the other party of any provision of this Agreement shall not be deemed to be a continuing waiver of that provision or a waiver of any other provision of this Agreement.

11.5 No assignment of this Agreement in whole or in part may be made by either party without written agreement approved by both parties.

11.6 All notices and correspondence required or permitted to be given under this Agreement shall be given by personal delivery to the other party or may be sent by mail, postage prepaid to the other party at the following addresses:

NORTH DAKOTA PUBLIC EMPLOYEES
RETIREMENT SYSTEM
PO Box 1657
Bismarck, North Dakota 58502

BLUE CROSS BLUE SHIELD
OF NORTH DAKOTA
4510 13th Avenue South
Fargo, North Dakota 58121

11.7 Neither party shall be liable for any delay in or failure to perform under this Agreement due to an act of God or due to war mobilization, insurrection, rebellion, civil commotion, riot, act of an extremist or public enemy, sabotage, labor dispute, explosion, fire, flood, storm, accident, drought, equipment failure, power failure, fuel or energy shortages, unavoidable delay of carriers, embargo, law, ordinance, act, rule or regulation of any government, whether valid or invalid.

DRAFT

11.8 NDPERS hereby expressly acknowledges and understands that BCBSND is an independent corporation operating under a license with the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield Plans (the "Association"), permitting BCBSND to use the Blue Cross and Blue Shield Service Marks in the state of North Dakota, and that BCBSND is not contracting as an agent of the Association. NDPERS further acknowledges and agrees this Agreement was not entered into based upon representations by any person or entity other than BCBSND and that no person, entity, or organization other than BCBSND shall be held accountable or liable to NDPERS for any of BCBSND's obligations to NDPERS created under this Agreement. This paragraph shall not create any additional obligations whatsoever on the part of BCBSND other than those obligations created under other provisions of this Agreement.

11.9 If NDPERS or BCBSND creates benefit communications for Members, relating to the Certificate of Insurance attached as Exhibit A, such communications will be sent to BCBSND or NDPERS for comment prior to distribution. Either party will have 5 business days to comment on the communication. If one party fails to advise the other within that 5-day period, it will be presumed there are no comments on the communication. If NDPERS has a digital or online version of the Certificate of Insurance available to its Members, NDPERS agrees that it will not alter, modify or change the language of the Certificate of Insurance, and further agrees the Certificate of Insurance, attached as Exhibit A, will be the controlling document in the event of any conflict or liability that might arise as the result of any alterations, modifications or changes made by NDPERS. In the event a claim is paid based on NDPERS's modified or altered digital or online Certificate of Insurance, NDPERS is liable for all such claims. NDPERS further agrees that no waiver of this agreement is valid unless in writing and approved by BCBSND.

11.10 BCBSND will prepare Summaries of Benefits and Coverage for distribution to applicants and Members by NDPERS so that BCBSND, the Plan and NDPERS may all satisfy related disclosure obligations under federal law. It shall be the sole responsibility of NDPERS to distribute the Summaries of Benefits and Coverage in accordance with federal law, and the Plan Administrator acknowledges and agrees that BCBSND will rely upon NDPERS for compliance with the requirements for distribution of the Summaries of Benefits and Coverage to applicants and Members.

11.11 When coverage under this Agreement is terminated, BCBSND will, within a reasonable period of time, issue a Certificate of Creditable Coverage to the Subscriber until such time when the certificate is not required under state and/or federal law. Upon notification by the Subscriber of the ineligibility of a dependent, a Certificate of Creditable Coverage will be issued to the affected Member within a reasonable period of time. Certificates of Creditable Coverage may also be obtained from BCBSND upon request within 24 months after coverage is terminated. Certificates of Creditable Coverage will only reflect continuous coverage provided through BCBSND.

11.12 Upon the effective date of any final regulation or amendment to final regulations with respect to PHI, Standard Transactions, the security of health information or other aspects of the Health Insurance Portability and Accountability Act of 1996 applicable to this Agreement, this Agreement will automatically amend such that the obligations imposed on the Plan Sponsor, the Plan Administrator and BCBSND remain in compliance with such regulations, unless BCBSND elects to terminate this Agreement by providing the Plan Sponsor and the Plan Administrator notice of termination in accordance with this Agreement at least thirty-one (31) days before the effective date of such final regulation or amendment to final regulations.

DRAFT

12. **DISPUTES AND INDEMNIFICATION**

If litigation is filed regarding denial of benefits or otherwise, and BCBSND is named as the sole defendant, BCBSND will have the right to manage and have full control of litigation and to determine whether to pay, compromise, litigate or appeal the litigation. Except as otherwise provided in this Agreement, NDPERS and BCBSND each agree to assume their own liability for any and all legal or equitable claims of any nature including all costs, expenses and attorneys' fees which may in any manner result from or arise out of this Agreement.

NDPERS agrees that all Retrospective Discount Payments will be made to Members of the Plan. BCBSND agrees to indemnify NDPERS for any judgments against NDPERS solely arising out of NDPERS' decision to participate in the Retrospective Discount Payment program.

BCBSND shall secure and keep in force during the term of this Agreement, from insurance companies, government self-insurance pools or government self-retention funds, authorized to do business in North Dakota, the following insurance coverages:

1. Commercial general liability, including premises or operations, contractual, and products or completed operations coverages (if applicable), with minimum liability limits of $250,000 per person and $1,000,000 per occurrence.

2. Professional errors and omissions with minimum liability limits of $1,000,000 per occurrence and in the aggregate, BCBSND shall continuously maintain such coverage during the term of the Agreement and for three years thereafter. In the event of a change or cancellation of such coverage, BCBSND shall purchase an extended reporting period to meet the time periods required in this section.

3. Automobile liability, including Owned (if any), Hired, and Non-Owned automobiles, with minimum liability limits of $250,000 per person and $500,000 per occurrence.

4. Workers compensation coverage meeting all statutory requirements.

The insurance coverages listed above must meet the following additional requirements:

1. Any deductible or self-insured retention amount or other similar obligation under the policies shall be the sole responsibility of BCBSND. The amount of any deductible or self retention is subject to approval by NDPERS, upon request.

2. This insurance may be in policy or policies of insurance, primary and excess, including the so-called umbrella or catastrophe form and must be placed with insurers rated “A-” or better by A.M. Best Company, Inc., provided any excess policy follows form for coverage. Less than an “A-” rating must be approved by NDPERS. The policies shall be in form and terms approved by NDPERS, upon request.

3. BCBSND shall furnish a certificate of insurance to the undersigned NDPERS representative, upon request.

4. Failure to provide insurance as required in this Agreement is a material breach of contract entitling NDPERS to terminate this Agreement immediately.

BCBSND shall not cancel or modify the insurance coverage required by this Agreement without thirty (30) days’ prior written notice to the undersigned NDPERS representative.

DRAFT

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed, in their names by their undersigned officers, the same being duly authorized to do so.

Sixty-fifth
Legislative Assembly
of North Dakota

HOUSE BILL NO. 1436

Introduced by

Representatives Carlson, Bellew, Kasper, Keiser, Streyle, Vigesaa

Senators Bekkedahl, Casper, Laffen, Schaible

(Approved by the Delayed Bills Committee)

A BILL for an Act to amend and reenact sections 54-35-02.4, 54-52.1-04, 54-52.1-04.2, and 54-52.1-04.3 of the North Dakota Century Code, relating to the employee benefits program committee, public employee uniform group insurance health benefits coverage, and to provide for a retirement board line of credit; to provide a continuing appropriation; to provide for application; and to provide statements of legislative intent.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-35-02.4 of the North Dakota Century Code is amended and reenacted as follows:

54-35-02.4. Employee benefits programs committee - Standing committees - Powers and duties.

1. ~~The~~During the interim between regular legislative sessions, the employee benefits programs committee shall ~~consider~~:

   a. Meet at least quarterly at the discretion of the chairman.

   b. Receive quarterly reports from the public employees retirement system on the activities of the public employees retirement system, including the status of and any proposed changes to its retirement system plans and uniform group insurance plans. Before each regular legislative session, the ~~public~~ employees retirement system shall present to the committee the executive budget proposals, including any anticipated changes, relating to retirement plans and uniform group insurance plans administered by the public employees retirement system. The committee shall consider and report on these activities and executive budget proposals.

   c. Investigate the feasibility and desirability of making changes to the retirement plans and uniform group insurance plans administered by the public employees

retirement system. The committee may request actuarial reports on the actuarial impact of possible changes and of plan design options.

d. Consider and report on ~~those~~ legislative ~~measures and~~ proposals sponsored by the executive branch, judicial branch, and legislative management over which ~~it~~the committee takes jurisdiction and which affect, actuarially or otherwise, the retirement programs of state employees or employees of any political subdivision, and health and retiree health plans of state employees or employees of any political subdivision. The committee shall make a thorough review of ~~any~~a ~~measure or~~a legislative proposal over which ~~it~~the committee takes ~~under its~~ jurisdiction, including an actuarial review. ~~The committee shall take~~

e. Take jurisdiction over any ~~such measure or~~such legislative proposal that authorizes an automatic increase or other change in benefits beyond the ensuing biennium which would not require legislative approval. The committee ~~must~~shall include in the report of the committee a statement ~~that~~ the proposal would allow future changes without legislative involvement. ~~The committee shall report its~~

f. Report the committee's findings and recommendations, along with any necessary legislation, to the legislative management and to the legislative assembly.

2. To carry out its responsibilities, the committee, or its designee, may:

a. Enter contracts, including retainer agreements, with an actuary or actuarial firm for expert assistance and consultation. Each retirement, insurance, or retiree insurance program shall pay, from its retirement, insurance, or retiree health benefits fund, as appropriate, and without the need for a prior appropriation, the cost of any actuarial report required by the committee or a standing committee as provided under subsection 6 which relates to that program.

b. Call on personnel from state agencies or political subdivisions to furnish such information and render such assistance as the committee may from time to time request.

c. Establish rules for ~~its~~ operation of the committee, including the submission and review of proposals and the establishing of standards for actuarial review.

3. ~~The~~During the interim between regular legislative sessions, the committee may solicit draft ~~measures and~~legislative proposals from ~~interested persons during the interim~~

~~between legislative sessions~~the executive branch, judicial branch, and legislative management, and may also study measures and proposals referred to ~~it~~the committee by the legislative assembly or the legislative management.

4. ~~A copy of the committee's report concerning any legislative measure shall, if that~~If a ~~legislative measure or~~If a legislative proposal over which the committee took jurisdiction under subsection 1 is introduced for consideration by a legislative assembly, a copy of the related committee report must be appended to the copy of that measure ~~which is~~ referred to a standing committee.

5. A legislative measure affecting a public employees retirement program, public employees health insurance program, or public employee retiree health insurance program may not be ~~introduced~~submitted by the executive branch, judicial branch, or legislative management for introduction in either house unless ~~it~~the measure is accompanied by a report from the committee. A majority of the members of the committee, acting through the chairman, has sole authority to determine whether ~~any~~a legislative measure affects a program.

6. ~~Any~~During a legislative session, if a standing committee takes action on a legislative measure sponsored by a legislator or recommends an amendment ~~made during a legislative session~~ to a legislative measure ~~affecting~~which would affect a public employees retirement program, public employees health insurance program, or public employee retiree health insurance program ~~may not be considered by a standing committee unless it is accompanied by a report from the employee benefits programs committee~~, the standing committee shall consider the impact, actuarily or otherwise, of the amendment and may request the affected program provide an analysis of the impact of the amendments. If an affected program provides an analysis under this subsection, the program may pay for the analysis in the same manner as provided under subdivision a of subsection 2.

~~7. Any legislation enacted in contravention of this section is invalid and of no force and effect, and any benefits provided under such legislation must be reduced to the level current prior to enactment.~~

SECTION 2. AMENDMENT. Section 54-52.1-04 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04. Board to contract for insurance.

1. The board shall receive bids for the providing of hospital benefits coverage, medical benefits coverage, life insurance benefits coverage for a specified term, and employee assistance program services; may receive bids separately for prescription drug coverage; and shall accept one or more bids of and contract with the carriers ~~that in the judgment of~~ the board determines best ~~serves~~serve the interests of the state and ~~its~~the state's eligible employees. Solicitations must be made not later than ninety days before the expiration of an existing uniform group insurance contract. Bids must be solicited by advertisement in a manner selected by the board ~~that~~which will provide reasonable notice to prospective bidders. In preparing bid proposals and evaluating bids, the board may utilize the services of consultants on a contract basis ~~in order that~~to provide the bids received may be uniformly compared and properly evaluated. In determining which bid, if any, will best serve the interests of eligible employees and the state, the board shall give adequate consideration to the following factors:
   ~~1.~~ a. The economy to be effected.
   ~~2.~~ b. The ease of administration.
   ~~3.~~ c. The adequacy of the coverages.
   ~~4.~~ d. The financial position of the carrier, with special emphasis ~~as to its~~on the solvency of the carrier.
   ~~5.~~ e. The reputation of the carrier and any other information ~~that is~~ available tending to show past experience with the carrier in matters of claim settlement, underwriting, and services.
2. The board may reject any or all bids ~~and, in the event it does so,~~received under this section. If the board rejects all bids received, the board shall again solicit bids as provided in this section. ~~The~~
3. Under section 54-52.1-04.1 or 54-52.1-04.2, the board may contract with a health maintenance organization or establish a plan of self-insurance ~~for providing health insurance~~to provide hospital, medical, or prescription drug benefits coverage ~~only under an administrative services only (ASO) contract or a third-party administrator (TPA) contract~~.

4. A contract and the terms of a contract entered by the board under this chapter are subject to legislative appropriation and legislative changes.

SECTION 3. AMENDMENT. Section 54-52.1-04.2 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04.2. Self-insurance plan for hospital ~~and~~, medical, and prescription drug benefits coverage.

1. ~~The board may establish~~This section applies to a self-insurance plan for ~~providing:~~
   ~~a.~~ ~~Health insurance~~hospital, medical, and prescription drug benefits coverage;
   ~~b.~~ ~~Health insurance~~hospital and medical benefits coverage, excluding all or part of prescription drug benefits coverage; or
   ~~c.~~ ~~All~~all or part of prescription drug benefits coverage. The board shall establish a self-insurance plan under this section if so directed by the legislative assembly. The board may establish a self-insurance plan under this section if the board determines a self-insurance plan is less costly than the lowest bid submitted by a carrier for underwriting the plan with equivalent contract benefits.
2. ~~Any~~A self-insurance plan established by the board under this section must be provided under an administrative services only (ASO) contract or a third-party administrator (TPA) contract under the uniform group insurance program~~, and may be established only if it is determined by the board that an administrative services only or third-party administrator plan is less costly than the lowest bid submitted by a carrier for underwriting the plan with equivalent contract benefits. Upon establishing~~.
3. If the board establishes a self-insurance plan, the ~~board shall solicit bids for an~~term of the contract for administrative services only or a third-party administrator ~~contract only every other biennium, and the board is authorized to~~must be for two years and the board may renegotiate ~~an existing administrative services only or third-party administrator contract during the interim. In addition,~~the contract for one additional two-year term. The board shall solicit bids for the contract for administrative services only or a third-party administrator at least once every four years. If the board establishes a self-insurance plan, the board shall make individual stop-loss coverage insured by a carrier authorized to do business in this state ~~must be made~~ part of ~~any self-insured~~the plan. ~~All bids under this section are due no later than January first, and~~

~~must be awarded no later than March first, preceding the end of each biennium.~~ If the board solicits bids under this section, the board shall solicit bids for a contract for insurance or a health maintenance organization, or both. The board may transition from a self-insurance plan to a contract for insurance or a health maintenance organization if the board determines the self-insurance plan costs more than the lowest bid submitted for a contract or health maintenance organization plan with comparable benefits. All bids received by the board under this section must be opened at a public meeting of the board.

SECTION 4. AMENDMENT. Section 54-52.1-04.3 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04.3. Self-insurance - Contingency reserve fund - Continuing appropriation - Bank of North Dakota line of credit.

~~The~~

1. If the board establishes a self-insurance plan under section 54-52.1-04.2, the board shall establish ~~under a self-insurance plan~~ a contingency reserve fund to provide for adverse fluctuations in future charges, claims, costs, or expenses of the uniform group insurance program. ~~The~~Annually, the board shall determine the amount necessary to provide a balance in the contingency reserve fund between one and one-half months and three months of claims paid based on the average monthly claims paid during the preceding twelve-month period ~~immediately preceding March first of each year~~. ~~The~~Annually, the board ~~also~~ shall determine the amount necessary to provide an additional balance in the contingency reserve fund between one month and one and one-half months for claims incurred but not yet reported. The board may arrange for the services of an actuarial consultant to assist the board in making these determinations.
2. Upon the initial changeover from a contract for insurance ~~pursuant to~~under section 54-52.1-04 or a health maintenance organization under section 54-52.1-04.1, to a self-insurance plan ~~pursuant to~~under section 54-52.1-04.2, the board ~~must have~~shall adopt a plan ~~in place which is~~ reasonably calculated to meet the funding requirements of this chapter within sixty months. Such plan may include consideration of funds extended to the board from the Bank of North Dakota. All moneys in the contingency

reserve fund, not otherwise appropriated, are appropriated for the payment of claims and other costs of the uniform group insurance program during periods of adverse claims or cost fluctuations. If the board transitions from a self-insurance plan to a contract for insurance or a health maintenance organization, the board shall adopt a plan reasonably calculated to meet the remaining liabilities of the self-insurance plan.

3. The Bank of North Dakota shall extend to the board a line of credit not to exceed fifty million dollars at an annual rate not to exceed one and three-quarters percent. The board shall repay the line of credit from health insurance premium revenue or from other funds, as appropriated by the legislative assembly. The board may access the line of credit, as necessary, to provide adequate reserve funds, to purchase stop-loss coverage, and to defray other expenditures of administration of the self-insurance plan.

SECTION 5. SELF-INSURANCE HEALTH PLANS - APPLICATION - STATEMENT OF LEGISLATIVE INTENT.

1. The retirement board shall establish a self-insurance plan for hospital, medical, and prescription drug benefits coverage under section 54-52.1-04.2, except for benefits for retirees and for Medicare part D. The self-insurance plan becomes effective January 1, 2018, is effective for a term of eighteen months, is subject to renewal and rebidding as provided under section 54-52.1-04.2, and must be based on the same plan design and benefits as the coverage in effect on July 1, 2017.
2. A uniform group insurance program contract for hospital, medical, and prescription drug benefits coverage in effect on the effective date of this Act terminates on December 31, 2017, after which the self-insurance plan under subsection 1 becomes effective.
3. Notwithstanding any law to the contrary, it is the intent of the sixty-fifth legislative assembly that the uniform group insurance program contract for hospital, medical, and prescription drug benefits coverage signed by the retirement board which becomes effective July 1, 2017, be limited in duration to a six-month term.

SECTION 6. HEALTH INSURANCE RESERVE FUND. The retirement board shall use available moneys in the fund created under section 54-52.1-06 for the purpose of financing the self-insurance plan established under section 5 of this Act.

SECTION 7. EXEMPTION. This Act is not subject to review by the employee benefits programs committee under section 54-35-02.4.

3/27/17

2

Amendment to House Bill 1436

The Bank of North Dakota shall extend to the board a line of credit not to exceed fifty million dollars at an annual rate not to exceed three percent for a two year term or four percent for a five year term. The board shall repay the line of credit from health insurance premium revenue or from other funds, as appropriated by the legislative assembly. The board may access the line of credit, as necessary, to provide adequate reserve funds, to purchase stop-loss coverage, and to defray other expenditures of administration of the self-insurance plan.

Biennium	Monthly Premium	Percentage Change from Previous Biennium
2001-03	$409	16.9%
2003-05	$489	19.6%
2005-07	$554	13.3%
2007-09	$658	18.8%
2009-11	$826	25.5%
2011-13	$887	7.4%
2013-15	$982	10.7%
2015-17	$1,130	15.1%
2017-19 executive recommendation	$1,249	10.6%

The percentage increase to maintain the existing health insurance plan benefits is 17.4 percent for the 2017-19 biennium. To reduce this percentage increase, the Governor is recommending increasing member out-of-pocket expenses to reduce plan costs by $49.61 per contract, per month, which would reduce the overall increase by 4.4 percent.

The Governor is also recommending using Public Employees Retirement System (PERS) health insurance reserves to pay an additional $27.31 of premiums per contract, per month, which would reduce the overall increase by 2.45 percent. The Governor is using approximately $18.0 million of the estimated $35.0 million in health insurance reserve funds to reduce the premium rate increase. Of the $18.0 million utilized, $10.5 million relates to state employee health insurance plans, $4.4 million relates to political subdivisions, and $3.1 million relates to retiree health plans.

EMPLOYEE ASSISTANCE PROGRAM

The monthly rate for the employee assistance program remains at $1.54 per month, or $18.48 annually.

LIFE INSURANCE

The monthly rate for life insurance provided to state employees remains at $0.28 per month, or $3.36 annually.

UNEMPLOYMENT INSURANCE

Funding is included for unemployment insurance for state employees at a rate of 1 percent of the first $6,000 of an employee's annual salary ($60 per year or $120 per biennium maximum). No unemployment insurance was collected on state employee salaries during the 2013-15 and 2015-17 bienniums.

Retirement - We pay - 11.12 - State
3% Employee
50/50

TOTAL COMPENSATION CHANGES COST

The schedule below provides the total cost of major compensation changes recommended in the 2017-19 executive budget.

	General Fund	Special Funds	Total
Salary increase of 1 percent, effective July 1, 2018	$5,447,422	$6,411,108	$11,858,530
Health insurance premium increases	20,924,659	24,626,376	45,551,035
Total	$26,372,081	$31,037,484	$57,409,565

FULL-TIME EQUIVALENT POSITIONS

The 2017-19 executive budget includes a total of 15,937.69 FTE positions, an increase of 4,100.12 FTE positions from the 2015-17 authorized level of 11,837.57 FTE positions. The total number of FTE positions for the 2017-19 biennium now reflects certain higher education positions that were previously not reflected in the budget.

The 2017-19 executive budget recommended FTE level of 15,937.69 is an overall decrease of 551.56 FTE positions compared to the adjusted 2015-17 biennium total, including a decrease of 315.27 FTE positions in higher education and a decrease of 215.61 FTE positions in all other state agencies.

The reduction of 215.61 FTE positions resulted in a decrease of $29.0 million, of which $15.9 million is from the general fund.

Major changes in FTE positions, excluding higher education, are as follows:

Agency Increases	2015-17 Authorized FTE Positions	2017-19 Executive Budget	Increase
301 - State Department of Health	365.00	381.00	16.00
530 - Department of Corrections and Rehabilitation	836.29	846.29	10.00
475 - Mill and Elevator Association	147.00	153.00	6.00

Agency Decreases	2015-17 Authorized FTE Positions	2017-19 Executive Budget	(Decrease)
380 - Job Service North Dakota	237.76	181.61	(56.15)
180 - Judicial branch	391.00	354.50	(36.50)
640 - Main Research Center	361.12	336.12	(25.00)
405 - Industrial Commission	121.75	105.25	(16.50)
125 - Attorney General	250.00	234.00	(16.00)
630 - North Dakota State University Extension Service	265.98	252.98	(13.00)
627 - Upper Great Plains Transportation Institute	54.98	43.88	(11.10)
628 - Branch research centers	120.29	110.29	(10.00)

HB 1436 4-3-17 #1

Self-Funded vs. Fully-Insured state employee health plans
A self-funded health plan means that insurance is not purchased, but rather, the state insurance contributions are pooled into a state-owned reserve fund to pay claims and administrative expenses. Any money that isn't used to pay claims or administrative expenses stays in the fund.

In a fully-insured plan the state will pay premiums based on projected claims, but won't experience the benefit if the claims come in lower than expected. North Dakota Public Employees Retirement System (NDPERS) has for many years participated in the program's financial results, in most cases by receiving excess gains and accumulating reserves, and in some cases sharing underwriting losses and funding these out of accumulated gains.

What is the value of self-funding?
All 50 states provide health insurance coverage for state employees, with 49 of 50 offering self-funded and/or partially self-funded plans. North Dakota is the only state in the nation that offers only a fully-insured plan, and doesn't offer a self-funding option.

Self-funding is a proven, cost-effective method for providing employee benefits and is the preferred choice of the state's largest employers. Employers choose self-funding to control costs, save money and customize benefits. Plans can also keep their grandfathered status when transitioning to a self-funded plan, as long as they continue to meet grandfathered guidelines.

Tax savings
The Health Insurance Tax (HIT) impact averages 2.5-3% and applies to fully insured plans only. Self-funded plans do not pay the HIT tax, realizing direct savings.

No profit margin or risk charge
The profit margin and risk charge of an insurance carrier are eliminated through self-funding. Instead of paying a risk charge to the insurer in a self-funded arrangement, the sponsor will accumulate reserves by retaining program gains. These gains will provide cushion against occasional higher than expected claims not covered by stop-loss.

Health savings incentives
With fully-insured plans, wellness initiatives generally do not result in significantly lower health insurance costs. However, in a self-funding scenario, an overall improvement in employee health can lead to a reduction in claims, which feeds back into the plan's reserve funds. If those trends continue, there may be a reduction in the necessary contributions made by the state.

Risk management stop-loss programs
Managing the risk in self-funded plans is key. Heightened risk occurs when claims are higher than anticipated or when a plan is underfunded. Managing these risks are especially important with self-funded plans. Individual stop loss and aggregate stop loss levels can be purchased based on the state's comfort level and risk tolerance. The level of risk can be adjusted over time as their tolerance changes with the premium dependent on their level of tolerance.
Recommended risk management tools to support self-funded options include:

- adequate contributions into the pool
- securing stop-loss coverage
- building adequate reserves
- working with experienced consultants who specialize in self-funded groups

Carlson, Al H.

To: Carlson, Al H.; Delzer, Jeff W.
Subject: Health insurance premiums

Rep. Carlson:

The total funding included in Governor Dalrymple's 2017-19 executive budget for health insurance premiums is $477.3 million, of which $219.2 million is from the general fund. This is an increase of $45.6 million, of which $20.9 million is from the general fund compared to the 2015-17 biennium budget. Monthly premium rates are increasing by $119.25 or 10.6% from $1,130.22 in 2015-17 to $1,249.47 in 2017-19.

Let me know if you have any other questions.

Subject: Attached Sanford Contract Portion

Representative Carlson-

Here is a screen shot of the current contract PERS has with Sanford, relating to the escape clause:

8.2 This Agreement may be terminated by mutual agreement of both parties, upon 60 days notice, in writing.

Either party may terminate this Agreement effective 90 days following delivery of written notice to the other party, or at such later date as may be stated in the notice, under any of the following conditions:

a. If funding from federal, state or other sources is not obtained and continued at levels sufficient to allow for purchase of the services or supplies in the indicated quantities or term. The Agreement may be modified by agreement of the parties in writing to accommodate a reduction of funds.

b. If federal or state laws, rules or regulations are modified, changed or interpreted in such a way that the services are no longer allowable or appropriate for purchase under this Agreement or are no longer eligible for the funding proposed for payments authorized by this Agreement.

c. If any license, permit or certificate required by law, rule or regulation, or by the terms of this Agreement, is for any reason denied, revoked, suspended or not renewed.

Any such termination of this Agreement shall be without prejudice to any obligations or liabilities of either party already accrued prior to such termination.

d. In the event of a breach by either party, other than for nonpayment of premium, the other party may terminate this Agreement by written notice to the breaching party. The breaching party has 31 days to fully cure the breach. If the breach is not cured within 31 days after written notice, this Agreement will immediately terminate.

TESTIMONY OF NDPERS
ENGROSSED HOUSE BILL 1436

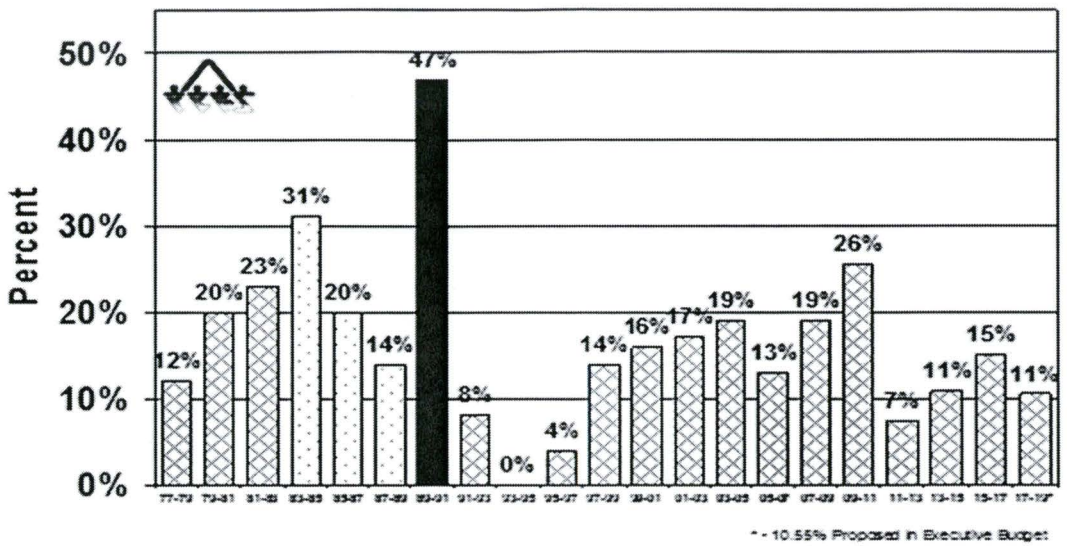
Madame Chair, members of the committee my name is Sparb Collins. I am the Executive Director of the North Dakota Public Employees Retirement System (NDPERS). I appear before you in a neutral position on this bill. While the board recognizes that it is your decision to decide the policy on the states bidding process and therefore defers to your guidance, they do note that the existing process is sound and provides for maximum competition for the states health plan business by allowing fully insured proposals to compete with each other and self insured proposals to compete with the fully insured. The board notes that this bill would limit that competition to self insured only. The board further notes that by limiting competition an unintended consequence may be the limitation of price competition for the plan. There are many considerations to this change that deserve careful study before making a change since the implications can be significant. The board is not opposed to self insure but does believe further study would help to clarify if this is in the best interest of all to have it as our sole option. Attachment #1 is information from our consultant, Deloitte that was given to the Legislative Employee Benefits Committee.

My comments will be in the following areas: 1) Plan history and rates; 2) fully insured vs. self-insured compared to the PERS hybrid contract; 3) PERS modified or hybrid contract performance, and 4) PERS staff observations.

1) Plan history and rates

The health plan has gone through three stages since about 1977. It was a traditional fully insured plan from 1977-83; it was self-insured from 1983-89 and it has been under the modified or hybrid fully insured contract since July 1989. The following table shows the rate increases over this time period.

State Health Premium Percentage Increase
From Previous Biennium
(Excludes Plan Design Changes)



* - 10.55% Proposed in Executive Budget

The 1989 biennium was the transition biennium from self-insured to the modified or hybrid fully insured plan.

While the plan was self-insured (83-89), it ran out of reserves in the 1987-89 biennium and medical claims could not be paid in a timely manner. Specifically we were not able to pay claims when they came due to the provider community. This situation raised significant concerns with members, providers and the legislature. The state had to put money into the plan so that claims could be paid since all reserves were gone and there was no other source of cash flow. Section 4 (3) of the bill provides a funding mechanism to address this situation under this proposal, specifically, a line of credit with the Bank of North Dakota.

As we look at the years the plan was self-insured, the plan's average increase was 21.7%. If we look at the years the plan was fully insured without the transition biennium, we see the average increase was 14%. With the transition biennium it was about 16%. These numbers do not indicate on their own that one method is superior over the other but they do show that neither on their own have an inherit advantage.

As we look at other states around us, we see how the family premium rates for PPO plans compare.

State	State Payment	Total Family Premium
South Dakota	$722	$1047
Idaho	$860	$979
Montana	$1054	$1381
North Dakota	**$1130***	**$1312****
Colorado	$1230	$1783
Minnesota	$1467	$1659
Nebraska	$1551	$1963
Iowa	$1689	$1987
Wisconsin	$1702	$1911
Wyoming	$1714	$1947

*Flat rate payment

** Equivalent Premium

It is our understanding that with the exception of ND, the others are self-insured. Here again, there are many variables that contribute to costs beside funding method which can include plan design, open/closed networks, number of providers, etc. But again, we do not see anything here that makes our unique funding method inferior to other self-insured plans.

2) Fully Insured vs Self-Insured vs PERS Hybrid Contract

Generally, employers have a choice between being fully insured or self-insured. As a result all employers fall on one side (fully insured) or the other (self-insured). However, PERS is unique in that it did not agree to a traditional fully insured contract. Instead it developed a unique contract that attempts to incorporate the best of both in a hybrid or modified contract. The following are the advantages of a traditional fully insured contract and are a part of our Hybrid or modified contract:

Advantages of Fully Insured

Disadvantages to self insurance

			PERS
1	Risk	Employer is not at risk for financial Losses	X
2	Employer must retain IBNR	Additional liability for IBNR (set NDCC at 1 to 1 1/2 months of claims or 26.8M to 40.2M)	X
3	Employer must have a reserve account	Employer must maintain and fund a reserve account Set In ND statute (40.2M to 80.4 M)	X
4	Employer does not have to maintain cash flow	Uneven cash flow due to fluctuation of claims from month to month - Potential that claims may be higher than funding	X

. If we were self-insured we would have these advantages, those with an "x" are a part of our modified or hybrid fully insured contract.

Advantages of Self Funding

(Disadvantages of Fully Insured)

			PERS
1	Reduction in taxes	Additional taxes are eliminated (HMO, state premium tax, MCHA)	X
2	Avoid ACA Fees	The Health Insurer tax from the ACA is not required from self-insured plans	
3	Administrative fees/risk fees	Some self funded plans see a decrease in administrative fees due to the elimination of built in risk charges	
4	Reserves/IBNR are held by the employer	Any investment income generated is retained by the employer	X
5	Flexibility	Allows for greater flexibility in plan design, incentive arrangements and contractual provisions	X
6	Pass through savings	Employer benefits from provider discounts, rebates and other favorable reimbursement mechanisms with full disclosure	X
7	Mandates	Do not have to comply with state mandates	X

Mandates: Are directly put into the PERS Statute by the Legislature instead of being handled through the insurance process

. Please note that #2 is likely to go away if f the repeal of the affordable care act is repealed and concerning mandates, those are directly provided by the legislature relating to PERS. As shown, our modified or hybrid contract already incorporates many of the advantages of self-insurance. Based upon the above, if we were self-insured we would gain the following:

Avoid ACA Fees	**The Health Insurer tax from the ACA is not required from self-insured plans**
Administrative fees/risk fees	**Some self-insured plans see a decrease in administrative fees due to the elimination of built in risk charges**

But we would lose the following advantages of being fully insured:

1	Risk	Employer is not at risk for financial Losses
2	Employer must retain IBNR	Additional liability for IBNR (set NDCC at 1 to 1 1/2 months of claims or 26.8M to 40.2M)
3	Employer must have a reserve account	Employer must maintain and fund a reserve account Set In ND statute (40.2M to 80.4 M)
4	Employer does not have to maintain cash flow	Uneven cash flow due to fluctuation of claims from month to month - Potential that claims may be higher than funding

3) PERS Hybrid Contract Performance

As we look at the existing PERS hybrid contract performance since the 1995 biennium, we can examine how the plan performed when there was positive performance vs when the plan had or could have negative performance.

Positive Performance

The following table shows the history of the plan since the 1995 biennium.

History of Health Plan Design changes and Buydowns Year	State premum % increase	Plan Changes	Buydown*
2016 (2017-19) Renewal	Proposed 10.5	Proposed: Plan design changes that would shift about 30% of the total increase to member out of pocket	$18.67 per active contract Proposed
2014 (2015-17) Full Bid	15.13		
2012(2013-15) Partial bid - Fully Insured Only	10.72		$20.04 per active contract
2010 (2011-2013) Renewal	7.40	Additional benefit requirements in the Health Care Reform Bill and the Mental Health Parity Act.	
2008 (2009-2011) Renewal	25.50	Eliminated EPO	$.14 per active contract
2006 (2007-2009) Renewal	19.00	Increased Cost Sharing	
2004 (2005-07)Full bid	13.00	Plan design changes added $1,000 RX coinsurance maximum	$24.52 per active contract
2002 (2003-05) Renewal	19.00	Plan design changes	$10.00 per active contract
2000 (2001-2003) Renewal	17.00	Increased Cost Sharing	
1998(1999-2001) Full bid	16.00	Increased Cost Sharing	$9.35 per active contract
1996 (1997-1999) Renewal	14.00	Increased Benefits & Lifetime Maximum	$20.71 per active contract

The shaded biennium's are those in which the plan returned refunds to our participating employers/members that developed due to the hybrid contract we have and the boards/vendors management of the program. Of the last 11 biennium's, we have refunded money back to our employers/members in 7 biennium's through premium buy downs (including the proposal for this biennium). You can see the amount of premium buy down that we have provided the state in each of those bienniums. This is a direct savings that has resulted due to positive plan performance and has been shared with the state to reduce the cost of our health plan. This is what would happen under a self insured plan and happens under our modified contract since this is one or our unique aspects.

In the past 10 years alone, we have received approximately $50 million of returned premiums under our hybrid contract. Of this amount, $11 million was used to buy down premiums in the 2013-15 biennium's and approximately $~~17~~ 15-16 million is being proposed for buy down in the 2017-19 biennium's. If the plan was self-insured and these gains would have occurred, they may not have been available to be refunded since they may have had to be retained for the required reserves as set out in NDCC 54-52.1-04.3.

Negative Performance

The second area to look at is when the plan has or would negatively perform. In the current biennium, the plan is projected to lose about $70 million (based upon current estimates). If the plan was self insured with Sanford with the same loss experience we would have had stop loss insurance to offset some of the above losses. The statute requires that we carry individual stop loss. We could have had purchased this at the $1 million deductible level or we could also purchase stop loss at the $750,000 level or $500,000 level.

We could also get aggregate stop loss (see discussion from Deloitte – attachment #1). This coverage is usually purchased for claims exceeding 115% to 120% of expected claims. This means we would be responsible for claims up to that level and after the reinsurance would kick in.

If we apply the following assumptions to the current biennium we find that most of the above loss (about 60 million at self insured) would have accrued back to the state this biennium after the estimated individual stop loss payments and since the aggregate stop loss would not have kick-in:

- Actual claims and administrative expenses from 7/1/15 – 2/28/17 provided by Sanford Health Plan were used
- Sanford's estimated incurred but not reported (IBNR) claims were used
- Average claims from the most recent 12 months were trended forward to estimate claims for March through June 2017
- ACA Health Insurer Tax (HIT) was removed

- Assumed individual stop loss insurance at a $1M deductible and aggregate stop loss at a 120% attachment point was purchased
- Assumed $3.7M in individual stop loss reimbursements per year based on actual large claims experience during the first 12 months of the biennium

This does not mean the same level of loss would occur with a different carrier or vendor but we do know something would have to be dramatically different. Since over 90% of the plans costs are associated with provider reimbursement based upon plan utilization this means that we would have had to significantly reduced provider payments or dramatically restricted utilization by us the members.

By contrast pursuant to our hybrid contract, we will be liable for only $3 million of this loss. For the next biennium we have negotiated this provision out of the contract and we will be liable for no losses. Recognizing that when a plan takes a loss, reserves should be increased, we have negotiated with Sanford for the next biennium that it will increase its reserves by $30 million effective July 1 of this year.

Based upon the above, it appears that if the plan would have been self-insured under Sanford this biennium, a loss would have accrued to the state and going forward reserves would need to be increased since they could have been exhausted.

2017-19 Business Plan

Using the historical process (the hybrid or modified contract), PERS has submitted a business plan for contracting going forward that will assure the State it will not incur any losses for the health plan in the 2017-19 biennium and that there will be no required reserving pursuant to NDCC 54-52.1-04.3.

In the proposed legislation, there is no business plan that has been developed by developed by PERS as yet and we will, therefore, rely on the board to develop a plan starting in May. This plan will be contingent on the results of the extension and the bidding process for 2017-19. Since the outcomes of these processes are unknown we cannot guarantee that we will not have losses in 2017-19 as has been guaranteed with the existing business plan. We also cannot guarantee coverage for the transition period (discussed below). We also will have to request from the state additional reserves, as we have done with Sanford and as directed by the legislature in NDCC 54-52.1-04.3 (discussed below).

4) PERS Staff Observations

Staffing

The PERS board included in the 2015-17 Budget request and in the 2017-19 request, contingent authority to hire staff if the plan is self- insured. Since we contracted for a fully insured plan, it was taken out. Please see attachment #2. **If this bill is to move**

forward we would request that this be added to the agency's appropriation in this bill.

Reserves

NDCC 54-52.1-04.3 requires the board to develop a contingency reserve fund. It also states "Upon the initial changeover from a contract for insurance pursuant to section 54-52.1-04 to a self-insurance plan pursuant to section 54-52.1-04.2, the board must have a plan in place which is reasonably calculated to meet the funding requirements of the chapter within sixty months". Preliminary analysis suggests that self-funded premium rates may need to be increased by.86% to 3.14% in order to build reserves to the required level. The high end accounts for the use of contingency reserves to buy down premium. Consequently, it should be noted that this would be an additional consideration in the bidding process.

Since the statute was changed to include the borrowing authority from the BND in this calculation, the minimum reserve requirement may be satisfied if no reserves are used this biennium to buy down premium. Since this is already in the legislative budget we changed our fiscal note to get our cash reserves back to $30 million. We would request that an appropriation be added to this bill to provide the necessary funding if this bill is to move forward or else we will be behind before we start.

In addition it was noted in the floor discussion on the bill on the House side that according to the Insurance Department:

> *"A line of credit is not acceptable to meet reserve requirements for any company domiciled in North Dakota. It is also not allowed for MEWAs, which is what I am assuming that if the state goes to self-funding, the trust established for 1436 would be regulated under in addition to the reserve requirements in 1436. If the line of credit should be drawn on for any reason, it would immediately become debt, and therefore a liability for the trust. Using it to satisfy the two reserve funding requirements, while apparently acceptable in the draft version of 1436, is not consistent with the laws regulating insurance"*

Consequently this will need to be more fully reviewed by the legislature and the board and would have an impact on our fiscal note and our requested additional appropriation request.

Transition Period

This would require PERS to go to bid and change the plan from the existing arrangement to a new arrangement. The proposed bill moves the start date of the coverage period to January 1, 2018. The current renewal offer from Sanford assumes a 2-year coverage period beginning July 1, 2017. Sanford may require a different premium rate to insure a

six month period than was agreed upon for a 2-year period, or they may be opposed to insuring the plan for that period. This may require using additional reserves or borrowing from the BND.

The PERS attorney has also reviewed this provision and indicated that if PERS was unable to negotiate an extension with the existing carrier, it could not consider self-insurance for the interim time period under existing statute unless a full bid process was undertaken. The board would have to start a new bid process upon notification that they could not extend the contract, which could not be completed by July 1. The result would be no coverage for any of our members until a new arrangement could be reached, pursuant to existing statutory requirements. **Additional statutory authority is required to resolve this issue in this bill and we would request that it be added if the bill is to move forward. Without such authority it is possible that we may not be able to place the plan by July 1 for the transition period and our members would not have health insurance.**

Implementation Timeframe

Given the size and complexity of the NDPERS plan, changing carriers is a significant effort. I have brought along a copy of the implementation plan used most recently and will leave it with the committee. You will note that it is extensive and takes time to complete all the steps. As this demonstrates, there are many variables that must be worked through to ensure that a transition does not create difficulties in the continuity of care or benefits for participating members. At a minimum, most carriers have indicated that 90 days is necessary, with the NDPERS preference being 120 days or longer, in order to ensure continuity of coverage during the course of the transition. **Extend the Implementation/Bid timeframe to 12 months with a July 2018 effective date.**

Bid Timeframe

An effective bid process must allow sufficient time for the following:

1. Preparation of the Request for Proposals (RFP)
2. Marketing the RFP
3. Allowing time for interested parties to review the RFP
4. Allowing interested parties to submit questions and receive responses
5. Allowing the interested parties sufficient time to prepare final proposals once questions have been answered
6. Time for review of the proposals by
    a. Consultant
    b. NDPERS Staff

c. NDPERS Board

7. Allowing time to interview the bidders and get best and final offers.
8. Time for unexpected contingencies. (For example in 2014/15, NDPERS rejected all fully insured bids and rebid the plan for a second time)

The timeline for the last bid is below. This demonstrates that the process can take over 6 months in the event there is a rebid (this does not include the time to prepare the bid).

- July 9, 2014 – Fully-insured Bid issued
- August 13th – Self-insured Bid issued for medical and prescription drug plans
- September 4th – Fully-insured Proposals Due
- October 10th – Self-Insured Proposals Due
- October 21st – Staff interview with BCBS and Sanford (Fully-insured)
- October 23rd – Board Rejects Fully-insured Bids, and issues a new RFP.
- October 29th – Fully-insured RFP released
- November 19th – Fully-insured Proposals due
- November 24th – Staff interview with BCBS and Sanford (Self-Insured)
- November 25th – Staff interview of PBM vendors
- December 4th – approved sending PBM contracts
- December 18th – NDPERS Board reviewed the Health plan bids
- January 2, 2015 – Best and Final Offer (BAFO) responses due
- January 5th – NDPERS Board Interviews BCBS and Sanford (fully-insured)
- January 15th – NDPERS Board interviews PBM vendors
- January 19th – NDPERS Board members and staff conduct a site visit of Sanford Health Plan
- February 5th – NDPERS Board reviews proposals (fully-insured, self-insured, Rx)
- February 13th – NDPERS Board continues its review of proposals (fully-insured, self-insured, Rx)
- February 19th – NDPERS Board awards bid

This timeline will be shorter since it is only for self insured bids. In addition to adding the above requested time for the implementation timeline we would also need time to have an effective the bid process.

Extend the Implementation/Bid timeframe to 18 months with a January 2019 effective date for the bid timeframe and implementation timeline.

Legal Issue

There may be concerns with Section 18 of Article I of the North Dakota Constitution relating to impairment of contract. **This could be resolved by stating this is not effective until July 2021.**

Membership

No effect on membership except for the change of vendor if determined in the bid.

Potential impacts relating to other legislation considered this session

HB 1023: As passed by the Senate no conflicts exist with HB 1023. However as proposed by the House conflicts do occur. The following are some of those conflicts with the House version. The changes proposed in Sections 27 and 28 of 1023 increase oversight of PERS by the employee benefits programs committee as well as communication between the two entities. While not a conflict in law, the changes proposed in Section 1 of 1436 are a conflict in policy as these changes reduce the impact of such oversight and communication. The changes proposed in Sections 32 and 33 of 1023 would result in a sole fiduciary oversight of the PERS office, and as previously indicated there are fiduciary responsibilities implicated in administration of the health plan. The requirement to initiate a plan of self-insurance under 1436 increases the potential for conflicts of interests under the governance structure established by 1023. Sections 5 and 33 of 1023 restrict PERS from using health reserve funds under 54-52.1-06 to reduce premium cost, while 1436 authorizes PERS to use them for funding a self-insured plan only. In addition, a less obvious conflict stems from the fact that 1436 requires a self-insured plan beginning 1/1/2018 to have the same benefits available under the plan in effect on 7/1/17. As previously indicated, if PERS is unable to use the reserves to buy down premiums this will result in a loss of grandfathered status and a corresponding change in benefits effective 7/1/17. Therefore, the self-insured plan will only be providing the reduced benefits available under a non-grandfathered plan.

HB 1406: This did not pass the Senate. The provisions of 1436 contradict two provisions of 1406 as proposed. 1406 limits a contract for insurance, whether under a fully-insured, HMO, or self-insured plan to two years only. Whereas, Section 3 of 1436 permits a 2 year contract and one 2 year renewal under a self-insured plan. 1406 restricts the group insurance plan design to only that which can be purchased with funds appropriated by the legislative assembly. Whereas, Sections 4 and 6 of 1436 permit, under a plan of self-insurance, the board to have access to a line of credit, and use reserve funds to maintain coverage levels in effect on 7-1-17.

HB 1407: This did not pass the Senate. However 1407 as proposed would have restricted the term of the contract for a fully-insured plan to 2 years; it also indicates it is intended to apply to a fully-insured contract in effect on the bill's effective date. This contradicts Section 5 of 1436 which restricts such a contract to 6 months

HMO's: PERS presently has one HMO that is a part of the plan. Not sure if the proposed wording would allow us to maintain that option or require us to drop it if self-insured.

This bill was reviewed by the Employee Benefits Programs Committee and given an "unfavorable" recommendation.

Madame Chair, members of the committee this concludes my testimony and as noted if this bill is to move forward we would request the above minimum changes. Thank you for providing me this opportunity.

Memo

Date: March 13, 2017

To: Sparb Collins, Executive Director

NDPERS

From: Josh Johnson and Jon Herschbach, Deloitte Consulting LLP

Subject: ACTUARIAL REVIEW OF PROPOSED BILL 17.1008.03000 (HB1436)

The following summarizes our review of the proposed legislation.

OVERVIEW OF PROPOSED BILL

The proposed bill would require the uniform group insurance program to become self-insured for an 18-month period beginning on January 1, 2018 and would change the duration of the coverage period beginning July 1, 2017 to 6 months. The proposed bill also establishes a $50,000,000 line of credit that the board can use to fund reserves, purchase stop loss, or pay for other self-insurance expenditures.

STOP LOSS

It is mandated that NDPERS must purchase individual stop loss if the plan becomes self-insured. Individual stop loss limits the plan's liability for each members' cost of medical and pharmacy claims to a specific deductible amount. The deductible is selected based on the amount of risk the program wishes to bear. A lower deductible limits the plans exposure more but also costs more.

NDPERS could also choose to purchase aggregate stop loss. Aggregate stop loss limits the plans total exposure to a percentage of expected claims, called the attachment point. Common attachment points are 120% and 125% of expected claims. Expected claim amount and the attachment point are calculated by the stop loss insurer. The plan sponsor does not have any input into this process.

Estimated per contract per month (PCPM) rates for stop loss insurance are listed in the table below:

Individual Stop Loss

Deductible	Estimated Cost (PCPM)
$500,000	$28 - $35
$750,000	$15 - $20
$1,000,000	$7 - $10

Aggregate Stop Loss

Attachment Point	Estimated Cost (PCPM)
120%	$0.50 - $1.00
125%	$0.40 - $0.75

CONTRACTS

Currently NDPERS has contracted health insurance from a single vendor. If NDPERS becomes self-insured, they will need to contract with different vendors for several different services based on best-in-class quotes/bids. This would include medical plan administration, pharmacy benefits management, stop loss insurance, wellness program and could include additional vendors for other optional services. Increasing the number of vendors' contracts will increase NDPERS' administrative burden and would create additional consulting fees for RFP analysis assistance. In the past budgets, NDPERS has included authority for two additional staff to be added to assist with the administration of self-insurance.

ADDITIONAL RISK

NDPERS would take on additional risk by becoming self-insured. If the plan's claims cost exceeds premiums, the plan's reserves will be spent down. NDPERS is required to maintain a contingency reserve equal to a minimum of 1.5 months of claims (12.5% of annual claims). If the contingency reserve is below this level at any point, premiums must be increased in subsequent biennium periods with a load that will build the reserve back up to the statutory minimum. Currently, NDPERS contingency reserves hold about $35M and would require an estimated additional $5-6M to meet the minimum requirement.

Stop loss insurance mitigates self-insurance risk but the only way to eliminate risk is by remaining fully-insured. Commonly, the lowest attachment point available for aggregate stop loss is 120%. As an example, in the event that a 120% aggregate stop loss claim is made, NDPERS will have lost its entire reserve (12.5% of annual claims) as well as an additional ~7.5%, which is approximately ~$25M. These scenarios are not common which is reflected in the pricing (estimated premium for 120% on a group of this size is $0.50-$1.00 PEPM). However, it is important to illustrate the risk exposure that remains to NDPERS even with stop loss insurance purchased.

Self Funded Insurance (2.0 FTEs)

The health insurance environment continues to change and evolve.

If the decision is to go self insured we know that it will have an effect on PERS agency operations. The following are some of those effects:

- ACA compliance – reporting requirements
- Additional audit requirements to ascertain whether PBM has complied with the term of its agreement with regard to:
  - Pricing
  - Obligations to satisfy annual guarantees
  - Financial benefit guarantees related to subsidies, claims processor fees, manufacturer discounts, rebates, service fees
  - Medicare Part D obligations related to LIS, LIC, and TrOOP
  - Accuracy related to the management of NDPERS data
  - Satisfaction of average annual guarantees
- Monitoring activities to include:
  - Pricing of newly available generic drugs to ensure we are receiving the lowest cost from PBM
  - Attendance at quarterly meetings to negotiate drug additions or deletions, modify any previously agreed guarantees to capitalize on any improvements
  - Changes in formulary
  - Financial benefit and DIR guarantees (at least annually)
  - Implementation of new programs to improve drug coverage, improve health of plan participants, reduce costs;
  - Develop programs to decrease purchase of specialty drugs and review responsibility for quarterly prescription drug reports.
  - Assess to feasibility of negotiating independent contracts with pharmaceutical manufacturers to obtain better financial benefits.
  - General responsibilities in connection with Medicare Part D Plan to include CMS compliance.
- Liaison responsibilities between member and 3rd party vendors:
  - Increased member communications (calls, correspondence, e-mails)
  - Assistance with member inquiries (coverage, denials, appeals, complaints)
  - Documenting procedures and policies developed in response to various issues to ensure consistent operating protocols.

- Mandate requirements
- Plan Design maintenance

Consequently, this optional request proposes two FTE. One would be to oversee the self insured contracts. Specifically, the Rx contract would require a more active role by the agency. We would anticipate this would be an individual with a medical background and a particular expertise in Rx. The second position would be for a member service specialist in the health insurance area. This individual would be responsible for working with our members and employers in explaining and resolving issues with the group medical plan and Rx plan. Here again we would be looking for someone with a medical background.
