Communications and Website

20. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website		☐ Yes ☐ No
Employee Newsletter(s)		☐ Yes ☐ No
Brochures		☐ Yes ☐ No
Direct mail (internal or home distribution)		☐ Yes ☐ No
Enrollment guide		☐ Yes ☐ No
Employee open enrollment meeting support and attendance		☐ Yes ☐ No
Benefits/HR staff training support		☐ Yes ☐ No
Video		☐ Yes ☐ No
Employee healthcare cost calculator worksheets (cost estimates)		☐ Yes ☐ No
Other (please list)		☐ Yes ☐ No

21. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

22. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

23. Describe your plan for the post-65 programs that you will offer to NDPERS retirees.

Plan Administration

24. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

25. Describe your proposed transition of care plan. At a minimum, the transition plan must address:
    a. Conditions or type of care that is typically transitioned;
    b. Individuals who are in a course of treatment;
    c. Transition process of current medical treatment;
    d. Communication of transition issues to all plan members.

26. What is your total commercial and Medicare health plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2012		
As of January 2013		
As of January 2014		

6.3 Eligibility and Billing

27. Are ID cards the sole means of determining member eligibility? If not, please describe.
28. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?
29. NDPERS will submit enrollment, billing and premium remittance via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Premium payment information will be provided on a data file that follows the HIPAA 820 file specifications. Files will be transmitted using a secure file transmission process. Please confirm that you can receive this data in that format and media. Please confirm your ability to conform to this process and identify any potential issues.

30. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

Customer/Member Service

31. Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. This unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. Describe the structure and organization and provide an organizational chart of the unit you are proposing.

6.4 Claims Administration

32. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	
Phone Numbers	
Days and Hours of Operation	
Number of Members Serviced	
Number of Employer Groups Serviced	
Ratio of Claims Unit Staff to Members Serviced	
Volume of Claims Processed Daily	

33. Will your organization identify a dedicated team of claims processors for the NDPERS account? If processors are shared with other clients, on average, how many clients does one team service? What is the average length of service of the claim processors?

34. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

35. Describe your claims processing system/platform and claims administration process.

36. How do you determine reasonable and customary ("R&C") charge allowances? What methodology is used (i.e., HIAA)? What percentile is used? How often are R&C schedules updated?

6.5 Reporting

37. Confirm your ability to provide the reports described in the RFP and provide samples.
38. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.
39. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing medical claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

6.6 Case/Utilization Management

40. Provide a brief overview of your utilization management programs, including pre-certification, concurrent review, discharge planning, and large case management.
41. What is the source of the criteria used for the following:
    a. Determining surgical necessity and whether a second opinion is required.
    b. Determining approved length of stay.
    c. What percentile of the data is used?
    d. Approximately what percentages of review cases are referred to a physician because the initial review and attending physician cannot reach agreement on the proposed level of care?
    e. Does this percentage vary between medical/surgical and psychiatric/substance abuse cases? If so, provide variances.

6.7 Health Risk Management Programs

42. Indicate in the table below if you currently provide the care or disease management program listed, the number of members from ND-based employers currently enrolled, the cost per participant, and its accreditation status.

	Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.		Program	Number of Enrolled Members (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
☐	Arthritis				☐	High Risk Pregnancy/ Prenatal Support			
☐	Asthma				☐	Hypercholesterolemia			
☐	Cancer				☐	Pain Management			

	Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.		Program	Number of Enrolled Members (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
☐	Congestive Heart Failure				☐	Renal Failure			
☐	COPD				☐	Smoking/Tobacco Cessation			
☐	Depression				☐	Weight Management			
☐	Diabetes				☐	Other, please indicate:			
☐	Low Back Pain				☐	Other, please indicate:			

43. Briefly describe each of the programs currently offered and the cost of each program. Do you currently track and report specific clinical outcome measurements for each of the conditions for which care/disease management is offered? Please list them.

44. Are you willing to customize your care management/DM programs and services for NDPERS? If so, please explain and provide an example.

45. Describe the programs offered to patients with rare and chronic diseases. Is this program outsourced? Who is the current vendor?

46. Describe in detail your ability to provide online wellness programs. Compare it to the existing program presently in the NDPERS program (see our website). Specifically identify any deviations from the existing program.

47. Describe Wellness incentives you offer. Compare and contrast that with the existing incentives.

48. Describe your ability to support PERS Wellness initiatives by providing the administrative services for:
    a. Tobacco Cessation program (This program is coordinated with the ND Department of Health)
    b. PERS Diabetes Program
    c. Dedicated Wellness Program Staff
    d. Prenatal program

49. Describe your ability to support the employer based wellness program and the wellness benefit funding program (see our website).

6.8 Network Accessibility and Disruption

49. We are requesting that vendors provide a GeoAccess network accessibility and disruption analysis outlining network access based on the access standards listed

below separately by North Dakota County. If you are proposing a combination of owned and leased networks, please provide your results separately by network. This GeoAccess analysis must be provided for your proposed NDPERS network(s). A census file has been provided in Appendix E for your use.

Provider Type	Access
Primary Care Providers (family/general practice, pediatrics, internal medicine and OB/GYN)	2 providers within 30 miles
Specialists	2 providers within 30 miles
Hospitals	1 hospital within 50 miles

Please provide the GeoAccess summaries in the table below as well as back-up detail (back-up detail on CD submission only) for employees who fall both within and outside the following access standards. Your match should include all valid zip codes in each of the counties in North Dakota that your network serves and in which participants reside. In addition, you should include only open practices in your analysis.

Percent of NDPERS Employees Meeting the Access						
Provider Type	**Family/ General Practice**	**Pediatrics**	**Internal Medicine**	**OB/GYN**	**Specialists**	**Hospital**
North Dakota						
County 1						
County 2						
County 3						
County 4						
County 5						
County 6						
County 7						
County 8						
County 9						
County 10						

50. Provide a listing or provider directory and link to the web for the provider networks you are proposing for NDPERS.

51. Identify and describe your national preferred provider organization.

52. Confirm your willingness to negotiate and maintain NDPERS-specific provider contracts to allow for cost control mechanisms and alignment of contract and plan years. Describe your process and approach for accomplishing this.

53. Do you anticipate any significant provider contract changes for 2015? Describe.

6.8.1 Cost, Quality, and Pay for Performance

54. Describe the programs and methodologies currently in place to gather and measure meaningful provider quality and efficiency data that can be shared with members.

55. Describe in detail the performance standards you currently have in place with your contracted physicians, provider groups, hospitals, and other providers. Outline the types of measures utilized, how you monitor and track these measures, how providers are held accountable, and how frequently the data is compiled and shared with the physicians and provider groups.

56. Describe your participation in pay-for-performance initiatives. To what extent do these activities impact the health care costs of NDPERS or claims incurred by its covered population?

6.8.2 Credentialing and Contracting

57. Briefly describe the initial credentialing process. How often are physician, hospital and other contracts (labs, imaging facilities, DME, home health care) reviewed?

6.8.3 Reimbursement and Discounts

58. Provide the reimbursement methodologies (by percentage) agreed to in your contractual arrangements to reimburse inpatient and outpatient hospital services (e.g., discount from charges, case rate, per diem, global DRG, fee schedule, etc.).

59. Provide the reimbursement methodologies (by percentage) used to reimburse professional services (e.g., fee-for-service from billed charges, fee-for-service with discount, percent of RBRVS, capitation).
60. Provide your estimate of discounts from paid charges in North Dakota.
61. Provide your estimate of percent of charges that will be processed in North Dakota under your fees schedule

62. Provide details on how prescription rebates are reimbursed to the plan.

6.9 Performance Standards and Guarantees

As described in Section I. Overview, of this RFP, health plan vendors are required to comply with performance standards and guarantees that include a financial incentive/forfeiture which is negotiated as part of the renewal process. See appendix H for a copy of these performance standards and guarantees. You are required to offer your performance standards and guarantees for the board's consideration using appendix H. It is a priority for the board to have a comprehensive set of standards and guarantees relating to this plan.

63. Please confirm you have completed appendix H and confirm your willingness to comply with the performance standards and guarantees or provide suitable alternatives. Identify any additional standards and metrics your organization would be willing to include.

6.10 Pharmacy Benefits Management Services

64. Describe your company's experience with administering pharmacy benefits. Provide a summary that includes the number of years that your company has provided such services, number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.
65. Describe your company's expertise and experience in implementing PBM services for a program that is comparable in size to the NDPERS program, based on the number of covered lives.
66. Describe your mail order pharmacy program and provide details on how you market this service.
67. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H?

6.10.1 Services Provided to the NDPERS

68. Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2015 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:
    a. Amount of time needed for implementing the new program
    b. Recommended activities/tasks and timing
    c. Responsibilities of the vendor and the NDPERS staff
    d. Transition with incumbent, including providing members 90 day notice regarding formulary changes, and the communication of transition issues to all plan members.
    e. Length of time implementation team will be available and accountable to NDPERS.
    f. Identify the staff members, by area of expertise, who will be assigned to the implementation team.

6.10.2 Formulary

69. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents. At a minimum include the following:
    i Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.
    ii Describe how drugs are evaluated for possible inclusion on the formulary.
    iii Describe the basis of your formulary development and maintenance?
    iv Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.
    v What is your definition of a Generic Drug?

vi What is your definition of a Brand Drug? Describe the composition of your review board/committee and how often do they meet and how are they selected to be a member.

6.10.3 Management of Clinical Programs

70. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.
    a. Drug Utilization Reviews - retrospective, concurrent and prospective.
    b. Disease Management
    c. Medication Therapy Management
71. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.
72. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	2013	2014 YTD
BOOK OF BUSINESS			
Generic utilization rate			
Generic substitution rate			
NORTH DAKOTA			
Generic utilization rate			
Generic substitution rate			

73. How many MAC lists do you have for pharmacies and clients? If more than one, which list will you use for NDPERS?

	Number of MAC lists
Pharmacies	
Clients	

74. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

6.10.4 Trend Analysis

75. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:
    a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs;
    b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers;
    c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.
76. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

6.10.5 Specialty Drug Program

77. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs.

6.10.6 Network Accessibility and Disruption

78. Submit a current listing of the participating pharmacies in North Dakota.
79. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?
80. Indicate which major chain stores are not included in your proposed network for NDPERS.

6.10.7 Medicare Part D

Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. fully-insured PDP, 800-Series EGWP, Direct-Contract EGWP)

6.10.8 HDHP/HSA

81. Describe how your organization will do the administration of the HSA option. What details are provided to individuals that select this option, the name of the service vendor and any other applicable information.

6.10.9 Economy to be effected

82. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?
83. Please identify the number of employees you will employ in North Dakota pursuant to this contract
84. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will spent outside the state.

Request for Proposals - Health Plan Administrator

FULLY INSURED - WITH & WITHOUT PRESCRIPTION DRUG COVERAGE

Proposers are required to complete the questions and cost proposal exhibits provided in this section. As described in Section IV., Proposal Submission, of this RFP, cost proposal exhibits (two (2) hard copies and one electronic copy) must be submitted in a separate, clearly marked sealed envelope to Deloitte Consulting only. The exhibits must be submitted in the prescribed format. Vendors may provide supplemental information but may not deviate from utilizing the provided Excel worksheets. Refer to Section IV. Proposal Submission for details. Instructions are outlined in the RFP and with each of the required exhibits (tabs).

Transparent PBM. NDPERS is interested in evaluating financial arrangements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of this Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements as well as elimination of spread pricing. When answering questions and completing exhibits related to your financial proposal, please indicate if your answer would differ under a transparent or a traditional pricing arrangement. NDPERS will give preference to transparent proposals.

The cost proposal consists of the following components and related exhibits:

- Medical & Rx Premiums (D1.1)
- Medical & Rx Premium Development (D1.2)
- Traditional Rx Terms (D1.3)
- Transparent (Pass-through) Rx Terms (D1.4)
- Medical (Only) Premiums (D1.5)
- Medical (Only) Premium Development (D1.6)
- Medicare Part D Group Prescription Drug Plan (PDP) Premiums (D2.1)
- Medicare Part D Group Prescription Drug Plan (PDP) Premium Development (D2.2)
- ACA Requirements (D3)

D1.3 TRADITIONAL PRESCRIPTION DRUG PROPOSAL

Proposing Vendor:

Assumptions:
- Retail and mail discounts are fixed and guaranteed
- PERS will not be assessed administration fees
- Dispensing fees are fixed at retail with guaranteed per script maximum and no dispensing fees at mail
- Bidder will pass through 100% of rebates and “rebate-like” revenues received from pharmaceutical manufacturers (defined as all revenue/financial benefits and credits received from outside sources attributed to the utilization of PERS or enrollment in programs. These would include but are not limited to all Manufacturer Administration Fees, Formulary Access Rebates (inclusive of any bundling), Market Share Rebates, Performance/Incentive Rebates, Data Fees, Compliance Program Funding, Clinical Program support/funding, Therapeutic Intervention funding, Education Fees, Marketing Grants for Clinical Studies, Specialty Drug Rebates, Specialty Clinical/Case Management Funding, Specialty Compliance Program funding, Research, Prompt Payment Discounts, etc.as a consequence of any relationship with PERS. Bidder will also include minimum rebate guarantees, preferably on a per paid claim basis (per brand basis may is also acceptable, however per rebatable claim basis is not acceptable).

Traditional Proposal - Contract Pricing Terms

Ingredient discounts based on the following definitions:	Confirm	If not "Confirm" Explanation:
Guarantees are based on the AWP and MAC (combined MAC and Non-MAC) discounts	Confirmed	
Guarantees include "Zero Balance Due" claims at the guaranteed AWP component discount and shall not be counted as AWP-100%	Confirmed	
Guarantees exclude all claims that adjudicate at the "Usual & Customary" price	Confirmed	
Brand discount guarantees exclude multi-source brand (MSB) drugs subject to MAC pricing; generic discount guarantees include MSB drugs subject to MAC pricing	Confirmed	
Calculations exclude specialty/biotech drugs, compound drugs, vaccines, claim audit recoveries, therapeutic substitution savings, COB savings, DMR savings	Confirmed

D1.4 PASS-THROUGH PRESCRIPTION DRUG PROPOSAL

Proposing Vendor:

Assumptions:
- Retail discounts and dispensing fees are 100% pass through
- Bidder may assess an administration fee if appropriate
- Mail service terms reflect a standard “traditional” proposal where discounts are fixed
- Bidder will pass through 100% of rebates and “rebate-like” revenues received from pharmaceutical manufacturers (defined as all revenue/financial benefits and credits received from outside sources attributed to the utilization of PERS or enrollment in programs. These would include but are not limited to all Manufacturer Administration Fees, Formulary Access Rebates (inclusive of any bundling), Market Share Rebates, Performance/Incentive Rebates, Data Fees, Compliance Program Funding, Clinical Program support/funding, Therapeutic Intervention funding, Education Fees, Marketing Grants for Clinical Studies, Specialty Drug Rebates, Specialty Clinical/Case Management Funding, Specialty Compliance Program funding, Research, Prompt Payment Discounts, etc.as a consequence of any relationship with PERS. Bidder will also include minimum rebate guarantees, preferably on a per paid claim basis (per brand basis may is also acceptable, however per rebatable claim basis is not acceptable).

Pass Through Proposal - Contract Pricing Terms

Ingredient discounts based on the following definitions:	Confirm	If not "Confirm" Explanation:
Guarantees are based on the AWP and MAC (combined MAC and Non-MAC) discounts	Confirmed	
Guarantees include "Zero Balance Due" claims at the guaranteed AWP component discount and shall not be counted as AWP-100%	Confirmed	
Guarantees exclude all claims that adjudicate at the "Usual & Customary" price	Confirmed	
Brand discount guarantees exclude multi-source brand (MSB) drugs subject to MAC pricing; generic discount guarantees include MSB drugs subject to MAC pricing	Confirmed	
Calculations exclude specialty/biotech drugs, compound drugs, vaccines, claim audit recoveries, therapeutic substitution savings, COB savings, DMR savings	Confirmed

D3 ACA Requirements

Proposing Vendor:

- **PLEASE CONFIRM THE ACA REQUIREMENTS BELOW WILL BE IMPLEMENTED AND PROVIDE THE ACTUARIAL IMPACT (IF ANY) OF EACH**
- **PLEASE CONFIRM THESE REQUIREMENTS WILL BE IMPLEMENTED**

NDPERS 2015-2017 ACA Implementation Impact

	Issue	*Description*	*NDPERS*			*Actuarial Impact (%)*
			Grandfathered Dakota Plan	**Not Grandfathered Dakota Plan**	**Not Grandfathered NDPERS HDHP**	
1	***Out-of-Pocket Maximum***	All member out of pocket costs including deductible, coinsurance, copays, and Rx are required to accumulate to the out of pocket maximum. Current separate Rx OOP maximum will be removed and Rx will apply to the overall OOP max. Non-formulary Rx sanction and infertility will not apply to OOP max.	**N/A**	**X**	**X**	
2	***Removal of Waiting Period***	Removal of all waiting periods associated with pre-existing conditions	**X**	**X**	**X**	
3	***Conversion Language***	There is no longer a specific conversion product, but there is still a conversion privilege used to purchase an individual metallic plan. This conversion privilege impacts what effective date a member can sign up once employment with NDPERS ends and ensures continuous coverage for members that apply within required timeframes	**X**	**X**	**X**	

4	***BlueCard (Applicable to BCBS Only)***	Federal law or laws in a small number or states may require the Host Blue to add a surcharge to the calculation. If federal law or any state laws mandate other liability calculation methods, including a surcharge, BCBSND would then calculate the Member's liability for any Covered Services according to applicable law.	**X**	**X**	**X**	
5	***20% Non-Par Sanction (Remove)***	Remove the 20% non-par reduction from the Non-Grandfathered plans to comply with the OOPM mandate.	**N/A**	**X**	**X**	
6	***Eliminate Medical Qualification***	PPACA mandates that all references to Medical Qualification be removed from all products and this ties to WPD's	**X**	**X**	**X**	
7	***Alcohol Misuse***	The USPSTF recommends that clinicians screen adults age 18 years or older for alcohol misuse and provide persons engaged in risky or hazardous drinking with brief behavioral counseling interventions to reduce alcohol misuse.	**N/A**	**X**	**X**	
8	***Required Screening for Hepatitis C Virus***	The USPSTF recommends screening for hepatitis C virus (HCV) infection in persons at high risk for infection. The USPSTF also recommends offering a one-time screening for HCV infection if: born between 1945 and 1965; or ever injected drugs; or received a blood transfusion before 1992.	**N/A**	**X**	**X**	
9	***Breast Cancer Preventive Medications***	The USPSTF recommends that clinicians engage in shared, informed decision-making with women who are increased risk for breast cancer about medications to reduce their risk. For women who are at increased risk for breast cancer and at low risk for adverse medication effects, clinicians should offer to prescribe risk-reducing medications, such as tamoxifen or raloxifene.	**N/A**	**X**	**X**	

10	***Lung Cancer Screening***	The USPSTF recommends annual screening for lung cancer with low-dose computed tomography in adults ages 55 to 80 years who have a 30 pack/year smoking history and currently smoke or have quit within the past 15 years. Screening should be discontinued once a person has not smoked for 15 years or develops a health problem that substantially limits life expectancy or the ability or willingness to have curative lung surgery.	**N/A**	**X**	**X**	

NOTE: The issues that affect the Grandfathered plans are shown in red.
All of the above benefits would be effective 7-1-2015.

Appendix F, Items F1 and F2 – Proposal Deviations (2 pages)

Proposers are required to submit deviations in two parts and under separate cover with their proposals using the exhibits that follow:

1. Item F1 – Contract/ASA deviations and exceptions must be described in detail, and include proposed alternative language.
2. Item F2 - Deviations from other RFP requirements must also be described in detail and submitted with your proposal.

   Use the exhibits provided in the following pages to submit specific deviations.

   In addition, proposers must submit:

3. Item F3 – Submit the redline version of the sample contract/ASA with your proposal reflecting the deviations identified in your response to Exhibit F1. Note that electronic and hard copy formats must be submitted with the cost proposal as described earlier in the RFP.

Proposal Deviations

Instructions:
Vendors must complete and submit two separate proposal deviations worksheets. Item F1 for exceptions and suggested alternatives to the terms and provisions in the sample contract/ASA and Exhibit F2 for deviations to other RFP requirements (plan designs, administration, etc.). Failure to include this information with your proposal may exclude your organization from further consideration. As noted in Item F3, vendors are also required to submit a redline version of the ASA that reflects the deviations and suggested alternatives noted below (as outlined in Section III., Proposal Contents, of the RFP).

Appendix F, Item F1 – Proposal Deviations to Sample Contract/ASA

Please complete the following worksheet for any and all deviations and exceptions to the required contract language and provisions as outlined in the sample contract provided with this RFP. Suggested alternatives must be included. Vendors should add additional pages as needed.

NDPERS RFP SAMPLE CONTRACT/ASA DEVIATIONS AND EXCEPTIONS		
Contract Section/ Number	**Description/Contract Language**	**Suggested/Proposed Alternative Language or Provision**

Appendix F, Item F2 – All Other Proposal Deviations

Please complete the following worksheet for all deviations and exceptions to the RFP requirements. Suggested alternatives or solutions must be included. Vendors should add additional pages as needed.

program with Department of Health • Create flyers for NDPERS web targeting specific disease/medical conditions • Organize the NDPERS Retiree Health Fairs . • Coordinate National Walk @ Lunch Day • Participate in COSE wellness fair at capitol each September		
Rx Services		

<u>Pharmacy Benefit Manager Programs</u>
• Integrated medical and pharmacy services
• Clinical programs
• Generic incentive programs
• Specialty pharmacy program
• RX mail order services
• Formulary program
• Drug utilization reviews
  • Retrospective DUR
  • Concurrent DUR
  • Prospective DUR
  • Guided Health Medication Therapy Management Program
  • Member rebate accounts
  • Rebates passed to NDPERS
Carrier has set up a Member Rebate Account (MRA) in the member's name. Accounts are set up at the member level. For every eligible brand prescription medication a member purchases at the point-of-sale (electronic claim), they will receive an appropriate portion of the manufacturer rebate associated
	https://www.myprime.com	

Current Contract Benefits	Reference Resources	Discuss and Identify comparable service offering.
with that particular medication into their MRA. Please note this program does not apply to COB or paper claims. • Establish a nationwide Select Pharmacy Network • Claims processing for Part D program		
Medical Management and Provider Services		
Medical Management • – Patient medical home • – rare and complex disease management • Disease management program for out of state members • member advocacy programs • Preauthorization's • Concurrent review/discharge planning • Prior approvals • Benefit inquiries • Therapy review process • Chiropractic review • Large case management • Prenatal Program with NDPERS specific benefits • Prenatal text messaging program • Provider news letters	https://www.bcbsnd.com/health-and-wellness-programs/mediqhome https://www.bcbsnd.com/health-and-wellness-programs/disease-management https://www.bcbsnd.com/health-and-wellness-programs/member-advocate http://www.nd.gov/ndpers/forms-and-publications/publications/grp-hlth-spd-actives.pdf#page=35 https://www.bcbsnd.com/health-and-wellness-programs/text4baby	

Current Contract Benefits	Reference Resources	Discuss and Identify comparable service offering.
<u>Provider Relations</u> • Carrier owned provider network7 • Total cost of care contracts • National network (total out of state discounts = Provider credentialing and contracting • Physician Quality Measurement Program • Physician Recognition Program • Patient Review of Physicians Program	http://provider.bcbsnd.com 97.7% of providers in Network 35% discount off in state changes. An NDPERS specific PPO network in addition to vendors network	
Medicare Part D		
• Special contract for administration of Part D product • NDPERS specific benefit plan design • NDPERS specific Part D online enrollments – NDPERS does handle enrollment, however carrier receives reports each week with any enrollment discrepancies and then works with the PDP vendor and NDPERS to rectify those. NDPERS and carrier both share in working with specific Part D enrollments. • NDPERS specific Part D billing – carrier handles the billing that come directly from Medicare Rx each month in a paper format. Carrier pays directly to Medicare Rx the premium amount requested on the bill. A dedicated Membership person that manually goes over the bill for discrepancies each month and will find any issues we may have with the bill. • Research member enrollment/disenrollment exception	http://www.nd.gov/ndpers/insurance-plans/medicare-rx.html	

Current Contract Benefits	Reference Resources	Discuss and Identify comparable service offering.

report
• Monthly meetings with Part D vendors
• Notification and tracking of late enrollment penalty (LEP)
• Notifications and tracking of Income-related monthly adjustment amount (IRMAA)
• Annual Adjustment to Part D rates based on the Federal subsidy and the Low Income Subsidy (LIS)
• Part D Reporting
  • Request for Information reports
  • NDPERS PDP Member Change reports
  • NDPERS PDP Response Error report
  • HICN reports
  • Gap/Cat
  • Process other internal and adhoc reporting
	Exhibit 17	

Health Savings Account		
Health Savings Account • Administration of HSA's • Administer payment of monthly invoice from NDPERS Cash Reserve Account •	http://www.nd.gov/ndpers/insurance-plans/group-health-hdhp.html	
Additional Administrative Programs		

• Tobacco Cessation Program
  • Grant application and contract
  • Enrollment
  • Claims processing
  • Reporting requirements
  • Invoices for grant reimbursement
	https://www.bcbsnd.com/search-preview/-/ndpers-tobacco-cessation	

Current Contract Benefits	Reference Resources	Discuss and Identify comparable service offering.

• RX Disease Management Program (About the Patient)
  • Eligibility reporting
  • Cost share incentive reporting
  • Administer payment of invoices from NDPERS Cash Reserve Account
	http://www.aboutthepatient.net/NDPERS-Program.html	

Miscellaneous		
Provide access to all subject matter experts and other appropriate personnel and make them available for attending board meetings, legislative, hearings, etc. as needed • Provide access to video or teleconference for Board meetings •		

Appendix H – Performance Standards and Guarantees

This section identifies the existing PERS performance standards and guarantees with the current plan administrator as modified to incorporate additional changes requested by PERS. Please indicate if you can match these standards/guarantees or suggest improvements or modifications in the space provided.

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
Cost Management:			
By December 31, 2014, 17% of NDPERS members have completed a Health Risk Assessment (currently at 15.5%).	$0.00	$15,000	
By December 31 2014, NDPERS will have a 5% point increase in the NDPERS group aggregate HRA wellness score.	$0.00	$10,000	
By December 31, 2014, HealthyBlue NDPERS group aggregate incentives paid for HealthyBlue redemptions will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	
2014 annual percentage average of NDPERS members receiving the Health Club Credit will increase by 10% over 2013 NDPERS rate.	$0.00	$7,500	
Health Outcomes:			
80% of the NDPERS population will be enrolled in a medical home.	$0.00	$15,000	
HEDIS-like measures breast cancer screening rates will be at least 80%.	$0.00	$15,000	
HEDIS-like measures cervical cancer screening rates will be at least 85%.	$0.00	$15,000	
HEDIS-like measures colorectal cancer screening rates will be at least 60%.	$0.00	$15,000	
Provider Network Management:			
BCBSND will maintain an NDPERS PPO network consisting of 92% or more of the in-	$0.00	$75,000	Amount incorporates a requested increase from the current level

Criteria	Value of Incentive	Value of Forfeiture	Confirm acceptance of standard/guarantee or propose an improved or suggested modification
state hospitals, MDs and Dos that participate in the Company's Par Network.			
BCBSND guarantees NDPERS a minimum provider discount (1-(Allowed/Billed)) of 30% for Non-Medicare contracts.	$0.00	$140,000	Amount incorporates a requested increase from the current level
Operational Performance:			
Claims Financial Accuracy will be 99% or greater.	$0.00	$25,000	
Claims Payment Incidence Accuracy will be 97% or greater.	$0.00	$25,000	
Claim Timeliness – claims processing within 30 calendar days will be 99% or greater.	$0.00	$25,000	
Average Speed of Answer will be 30 seconds or less.	$0.00	$25,000	
Abandoned rate will be 5% or less.	$0.00	$25,000	
Requested New Standards/Guarantees:			
Provide a standard by which interest rates will be set at a level at least as favorable to NDPERS as the current methodology	$0.00	$50,000	The interest rate utilized currently is based on the US Treasury Notes quoted by the Wall Street Journal
Provide a guarantee on Rx rebates that will be passed-through to NDPERS	$0.00	$10,000	
Total	**$0.00**	**$500,000**

North Dakota Public Employees Retirement System
Request for Proposals - Health Plan Administrator
FEE SCHEDULE DISCLOSURE

Proposers are required to complete the questions and claims repricing exhibits provided in this section. The exhibits must be submitted in the prescribed format. Vendors may provide supplemental information but may not deviate from utilizing the provided Excel worksheets. Instructions are in each of the required exhibits (tabs).

The fee schedule disclosure consists of the following components and related exhibits:

- Physician Reimbursement
- Inpatient Facility Reimbursement
- Outpatient Facility Reimbursement

North Dakota Public Employees Retirement System

Request for Proposals - Health Plan Administrator

PHYSICIAN REIMBURSEMENT

Proposing Vendor:

- **COMPLETE THE TABLE BELOW WITH YOUR AVERAGE NETWORK PHYSICIAN REIMBURSEMENT LEVELS ("ALLOWED AMOUNT").**
- **PROVIDE THE NON-FACILITY, NON-MODIFIER FEE SCHEDULE AMOUNT FOR EACH OF THE CARE SYSTEMS LISTED**
- **PROVIDE CONTRACTED RATES AS OF 1/1/2015**

Appendix K. Suggested Changes to Plan Design, Programs and Services

Vendors should match the current programs and services as closely as possible when providing proposals. This appendix is meant for vendors to offer suggested changes to plan design and identify the cost or cost savings associated with each suggestion. In addition, vendors can suggest or offer changes to the services along with identification of the benefits/cost or savings. This section is not meant to list deviations to required agreements or service offerings.

Appendix L – PBM Questionnaire

In order for your proposal to be considered and accepted, your organization must provide answers to the questions presented in this section. Each question must be answered specifically and in detail. Include both the question and the answer in your proposal response. An electronic copy of this questionnaire has been provided to facilitate your response.

Reference should not be made to a prior response unless the question involved specifically provides such an option. Proposers should refer to the earlier sections of this RFP before responding to any of the questions, to ensure that you have a complete understanding of the requirements with respect to your organization's proposal.

Vendors may include additional information that you consider relevant or useful to NDPERS. However, responses to all of the questions set forth below must be provided.

NDPERS is interested in evaluating financial arrangements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of this Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements. **When answering questions and completing exhibits related to your financial proposal, please indicate if your answer would differ under a transparent or a traditional pricing arrangement.** NDPERS will give greater preference to transparent proposals.

If this proposal results in your company being awarded a contract and if, in the preparation of that contract, there are inconsistencies between what was proposed and accepted versus the contract language that has been generated and executed, any controversy arising over such discrepancy will be resolved in favor of the language contained in the proposal or correspondence relating to your proposal. Vendors are reminded that **any and all deviations must be clearly identified and described in the RFP and the deviations worksheet provided in Appendix F.**

The questionnaire is broken down into the following 10 (ten) categories:

- Organizational Background, Strength, and Experience
- Implementation and Account Management
- Communications and Website
- Plan Administration
- Eligibility
- Customer/Member Service
- Claims Administration
- Reporting
- Case/Utilization Management
- Health Risk Management and Wellness Programs
- Provider Network
- Performance Standards and Guarantees
- Pharmacy Benefits Management Services
- Financials

1.1 Organizational Background, Strength, and Experience

1. Provide a brief description of your organization:
    a. Include your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business.
    b. Include the number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves.
    c. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).
2. Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.
3. Provide a copy of any State or Federal regulatory audit performed within the last two years.
4. Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the Minimum Contract Provisions in Appendix 1
5. Indicate whether your company has ever been or is currently a party to litigation regarding a pharmacy benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.
6. State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.
7. Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.
8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?
9. Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.

10. What ratings have you received from the following third party rating companies and organizations?

Rating Organization	Rating	Date of Last Accreditation / Rating
A.M. Best		
Standard & Poor's		
Moody's		
NCQA (by product)		
JCAHO		
URAC		
American HealthCare Commission		

11. Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.
12. Confirm that your proposal includes any and all deviations to the Minimum Contract Provisions (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).
13. Confirm that you will conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with beginning July 1, 2015.

1.1.2 References and Experience

1. Provide the following information on a maximum of three (3) of your largest pharmacy benefit plan clients for whom you provide pharmacy network, and administrative services on a self-insured basis. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.

    a. Name of employer sponsoring plan and location
    b. Type of services provided to plan sponsor
    c. Plan inception date
    d. Length of time as client
    e. Number of contracts and members participating in the plan
    f. Contact information (name, title, phone number, email address)

2. Provide the following information for two (2) of your largest pharmacy benefit plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.

    a. Name of employer sponsoring plan and location
    b. Type of services provided to plan sponsor
    c. Plan inception date
    d. Length of time as client
    e. Number of contracts and members participating in the plan
    f. Reason for termination
    g. Contact information (name, title, phone number, email address)

1.2 Implementation and Account Management

3. Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2015 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:

    - Amount of total time needed to effectively implement the program
    - Activities/tasks and corresponding timing
    - Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff
    - Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change
    - Length of time implementation team lead and members will be available to NDPERS

4. Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.

    a. The key individual representing your company during the proposal process;
    b. The key individuals on your proposed implementation team;
    c. The key individual assigned to overall contract management;
    d. The key dedicated individual or team members responsible for day-to-day account management and service;
    e. The key individual responsible for provider contracting; and
    f. The key individual responsible for provider relations if different than letter e. above.

5. Please provide the requested information for the functions that will be servicing NDPERS in the table below:

Area	**Geographical Location(s) and Organization Name (if out-sourced)**	**Hours of Operation (Specify PST/CST/EST)**	**Is this service Outsourced? Yes or No?** ***If Yes, provide name of company to which the function is outsourced***
Member Service			❑ Yes *Specify Company Name:* _____ ❑ No
Claims Processing			❑ Yes *Specify Company Name:* _____ ❑ No
Enrollment and Eligibility			❑ Yes *Specify Company Name:* _____ ❑ No
Management of Clinical Programs			❑ Yes *Specify Company Name:* _____ ❑ No
Specialty Drug Program			❑ Yes *Specify Company Name:* _____ ❑ No
Mail Order Program			❑ Yes *Specify Company Name:* _____ ❑ No
Other (Specify functional area)			❑ Yes *Specify Company Name:* _____ ❑ No

1.3 Communications and Website

6. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website		☐ Yes ☐ No
Employee Newsletter(s)		☐ Yes ☐ No
Brochures		☐ Yes ☐ No
Direct mail (internal or home distribution)		☐ Yes ☐ No
Enrollment guide		☐ Yes ☐ No
Employee open enrollment meeting support and attendance		☐ Yes ☐ No
Benefits/HR staff training support		☐ Yes ☐ No
Video		☐ Yes ☐ No
Other (please list)		☐ Yes ☐ No

7. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

8. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

1.4 Plan Administration

9. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

10. NDPERS recognizes that different settlement arrangements will be necessary to implement a self-insured program. Please describe your proposed settlement process.
11. What is your total commercial and Medicare pharmacy plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2012		
As of January 2013		
As of January 2014		

1.5 Eligibility

12. Are ID cards the sole means of determining member eligibility? If not, please describe.
13. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

14. NDPERS will submit enrollments via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Files will be transmitted using a secure file transmission process. The successful contractor must be able to receive this data in that format and media.

15. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

16. Please describe your standard (or proposed) financial arrangements with NDPERS under a self-funded arrangement including but not limited to: account requirements and process for claim payment, frequency of reimbursement to the administrator for claims paid, methodology for funds transfers, required reserves in claim account, etc.

1.6 Customer/Member Service

17. Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. If yes, this unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. If yes, describe the structure and organization and provide an organizational chart of the unit you are proposing. If no, please describe how these services will be provided.

1.7 Claims Administration

18. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	
Phone Numbers	
Days and Hours of Operation	
Number of Members Serviced	
Number of Employer Groups Serviced	
Ratio of Claims Unit Staff to Members Serviced	
Volume of Claims Processed Daily	

19. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan, HDHP/HSA) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

1.8 Reporting

20. Please provide samples of your monthly, quarterly, and annually standard reporting packages.
21. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.
22. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing pharmacy claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

1.9 Pharmacy Benefits Management Services

23. Describe your mail order pharmacy program and provide details on how you market this service.
24. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H.
25. Describe your methodology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

1.9.1 Formulary

26. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents. At a minimum include the following:
    - Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.
    - Describe how drugs are evaluated for possible inclusion on the formulary.
    - Describe the basis of your formulary development and maintenance.
    - Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.
    - What is your definition of a Generic Drug?
    - What is your definition of a Brand Drug?
    - Describe the composition of your review board/committee and how often do they meet and how are they selected to be a member.

1.9.2 Management of Clinical Programs

27. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.
    a. Drug Utilization Reviews (DUR) - retrospective, concurrent and prospective.
    b. Disease Management
    c. Medication Therapy Management
28. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

29. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

	2012	2013	2014 YTD
BOOK OF BUSINESS			
Generic utilization rate			
Generic substitution rate			
NORTH DAKOTA			
Generic utilization rate			
Generic substitution rate			

1.9.3 Trend Analysis

30. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:
    a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs.
    b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers.
    c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.
31. Describe your organizations Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

1.9.4 Specialty Drug Program

32. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS's current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs in Appendix D.

1.9.5 Network Accessibility and Disruption

33. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?
34. Indicate which major chain stores are not included in your proposed network for NDPERS.

1.9.6 Medicare Part D

35. Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. 800-Series EGWP, Direct-Contract EGWP).
36. How many EGWP plans does your firm manage?
37. How many members participate in the EGWP plans that you service?
38. Describe how Out Of Pocket ("OOP") and True Out Of Pocket ("TrOOP") expenses are applicable to EGWP PDP Participants for 2014 and the differences, if any, that can be expected in 2015 and beyond.
39. Describe your understanding of the restrictions placed on EGWP + Wrap plans by CMS.
40. Please describe the Part D enrollment process under your PDP: Are you able to automatically group-enroll members into Medicare Part D?
41. Please describe your Part D disenrollment process for both voluntary and involuntary disenrollments.
42. Please describe the Part D enrollment process under your PDP: Are there differences for members who "aged in" to Medicare while enrolled in your plan, and members who are Medicare-eligible when they first enroll in your plan?
43. Describe the changes in the plan design described herein, if any, that would be required to maximize collection of all available subsidies, reinsurance, discounts or rebates.
44. Describe your systems capabilities that allow coordination of benefits between Medicare Part D and a "wrap-around" plan at the point of sale. How is this handled for members who are enrolled in another Medicare Plan with a different PDP?
45. How often do you review the formulary under your Medicare plans?
46. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are the members identified, and how are they informed of their enhanced benefits?
47. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How are these members reported to the plan sponsor?

48. Describe your handling of members who are eligible for the low income subsidy available under Medicare Part D, specifically: How often are premium refunds issued to the plan sponsor?

49. Provide a copy of the proposed GWP formulary.

50. Describe the processes to collect funding from the following sources the EGWP PDP, including the timing and frequency with which such funds would be submitted to PERS.
    a. Direct Subsidy
    b. Coverage Gap Discount Program
    c. Catastrophic Reinsurance
    d. Low Income Cost Share Subsidies
    e. Low Income Premium Subsidies
    f. Manufacturer Rebates

1.10 PBM Financials

51. Bidder confirms the use of Medispan or another nationally available and nationally recognized reporting service of pharmaceutical drug information in determining the classification of drugs (e.g. legend vs. over the counter, generic vs. brand, single source vs. multisource) for the purposes of plan adjudication and the calculation of discount and rebate guarantees.
    a. Confirmed
    b. Not confirmed, see explanation

52. Bidder confirms that the discount guarantees proposed represent Medi Span/ First Databank post-settlement pricing.
    a. Confirmed
    b. Not confirmed, see explanation

53. Bidder confirms that for the purposes of reconciling guarantees, proposed AWP discount will be applied to each claim individually and shall not mean “Average AWP” nor “Effective AWP”
    a. Confirmed
    b. Not confirmed, see explanation

54. Bidder confirms Zero Balance Due claims will be reconciled at the guaranteed AWP component discount and shall not be counted as AWP-100%
    a. Confirmed
    b. Not confirmed, see explanation

55. Bidder confirms members will pay the lowest of the copay, “Usual and Customary” (U&C), or discounted ingredient cost plus dispensing fees at retail/mail.
    a. Confirmed
    b. Not confirmed, see explanation

56. Bidder confirms that specialty pricing will include ingredient cost discounts by drug with a minimum effective discount guarantee for all brand specialty drugs and a minimum effective discount guarantee for all specialty generic drugs.
    a. Confirmed
    b. Not confirmed, see explanation

57. Bidder confirms that pricing for Specialty Drugs added to the list on or after the date the proposal is submitted will not automatically default to a minimum discount in the therapeutic class.
    a. Confirmed

b. Not confirmed, see explanation

58. Bidder confirms that generic discount guarantees include the combined MAC and non-MAC pricing
    a. Confirmed
    b. Not confirmed, see explanation

59. Bidder confirms retail and mail discount guarantee calculations should exclude specialty/biotech drugs, compound drugs, and vaccines.
    a. Confirmed
    b. Not confirmed, see explanation

60. Bidder confirms that overages in any financial guarantee may not be used to offset any shortfalls in another financial guarantee. This includes guarantees within the same delivery channel (e.g.: surplus in retail brand discount will not be used to offset shortfall in retail generic discount)
    a. Confirmed
    b. Not confirmed, see explanation

61. Bidder confirms that dispensing fees proposed are per claim maximums and not averages.
    a. Confirmed
    b. Not confirmed, see explanation

62. Bidder confirms proposed financial guarantees are not tied to aggregate days' supply utilization at retail or mail (eg: rebates will not be impacted if the aggregate retail day supply at the end of the reconciliation period is 23 days instead of 30 days).
    a. Confirmed
    b. Not confirmed, see explanation

63. Bidder confirms that after two years of the contract, PERS will have the right to solicit pricing from the market. Should the results indicate a 2% improvement opportunity, PERS will have the opportunity to re-negotiate pricing.
    a. Confirmed
    b. Not confirmed, see explanation

64. Bidder confirms postage increases will not be passed on to PERS.
    a. Confirmed
    b. Not confirmed, see explanation

65. Bidder confirms that MAC pricing will be applied to generics dispensed at mail.
    a. Confirmed
    b. Not confirmed, see explanation

66. Bidder confirms proposed MAC list includes minimum of 95% of all generic drugs.
    a. Confirmed
    b. Not confirmed, see explanation

67. Bidder confirms that only one (1) MAC list will be used for PERS at retail and mail.
    a. Confirmed
    b. Not confirmed, see explanation

68. Bidder confirms that drug status as "Multi-Source Brand", "Single-Source Brand", "Brand Drug with Generics", and "Generic" will be used based on Medi-Span indicators.
    a. Confirmed
    b. Not confirmed, see explanation

69. Bidder confirms that all “Generic” drugs will be included in the “Generic Discount Guarantee” for purposes of guarantee reconciliation (this includes all “Single-Source Generics”, generics with limited availability, and generics that are subject to patent litigation).
    a. Confirmed
    b. Not confirmed, see explanation

70. Bidder confirms they are currently certified by CMS as an EGWP Administrator
    a. Confirmed
    b. Not confirmed, see explanation

1.11 Economy to be affected

71. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?
72. Please identify the number of employees you will employ in North Dakota pursuant to this contract.
73. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will spent outside the state.

1.12 Fiduciary Responsibility

74. Confirm your organization will assume full fiduciary responsibility for claim determination.

Appendix B: Response Template

1. Face sheet

Name of Proposer's Firm:	
Federal Tax I.D. Number:	
Principal Place of Business:	
Address:	
City:	
State and Zip:	
Contact Person:	
Title:	
Telephone:	
Fax:	
E-mail address:	

2. Minimum Requirements (please identify if you would be able to meet this existing service and if not what you would propose.

Minimum Requirements	Response
Electronic Data Collection and Reporting Requirements: Respondents must, at a minimum, meet the data collection and reporting requirements described in Section 1 under Reporting Requirements of the RFP.	
Vendor must be able to take current 834 electronic enrollment file (containing member eligibility) at no cost.	
Effective Date of Coverage: Respondents must be able to provide required coverages and services by July 1, 2015 and January 1 2016 for the PDP.	
Licensure: Respondents must have all applicable licenses required by North Dakota or agree to obtain necessary licensure prior to the effective dates of coverage.	
Term of Contract: NDPERS is required by state statute to solicit bids for medical benefit coverage for a specified term for a fully-insured arrangement and every other biennium for a self-funded arrangement. NDPERS has determined that the specified term for fully-insured arrangement shall be six years subject to two year renewals, however, NDPERS reserves the right to extend the agreement subject to negotiation with the successful vendor if the Board deems it necessary.	
Premium Rate Guarantees: For all insured proposals premium rates must be guaranteed for a period of two years, from July 1, 2015 to June 30, 2017. PDP rates will be developed each year based upon the federal subsidy.	
PDP rates: Must be submitted to PERS by September of each year.	
Non-Medicare Retirees: Rates are governed by state statue. Non-	

Minimum Requirements	Response
Medicare retiree single rate is 150% of the active member single rate; the rate for a non-Medicare retiree plus one is twice the non-Medicare single rate, and the rate for a non-Medicare retiree plus two or more dependents is two and one-half times the non-Medicare retiree single rate.	
Renewals: Renewals must be submitted to NDPERS in August of the year preceding the contract renewal date and in September of each year for the PDP.	
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	
Replicate Coverage: Respondent should replicate the existing coverage and financial terms for two years including an HSA arrangement. Variances and exceptions to existing coverage can be offered in appendix F item F2.	
Legislative Compliance: Respondents agree to comply with all provisions of the Health Insurance Portability Act of 1996 including, but not limited to providing certificates of creditable coverage. Respondents must also be in compliance with all HIPAA Privacy and HIPAA EDI requirements and be able to conduct all applicable employer/plan sponsor and provider transactions consistent with those requirements. Respondents will be expected to meet HIPAA security requirements when applicable to NDPERS. Respondents will also be expected to be in compliance with all ACA requirements	
Transition Management: Respondents agree, should they be selected, they will proactively manage the transition of coverage (e.g. claim accumulators, lifetime maximums, etc.) from the subsequent carrier.	
Administration: Respondents must agree to comply with existing administration of NDPERS. Any modifications needed to accommodate NDPERS data will be done at the vendor's own	

Minimum Requirements	Response
expense.	
Audit: NDCC 54-52-05 (10) relating to the audit authority of NDPERS.	
North Dakota Legislation Requirements: Respondent must meet all requirements in the North Dakota Century Code including 54-52.1 and all requirements in the North Dakota Administrative Code including 71-03. Specific recognition of 54-52.1-12 should be acknowledged.	
Ability to meet the specifications outlined in the RFP unless specifically noted	
Premium rates must be divisible by two.	
Subject matter experts and other appropriate personnel will be available to attend board meetings, legislative hearings, etc. as needed	

3. Affidavit of Non-collusion

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);

2. That the attached proposal submitted in response to the Group Medical Coverage Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;

3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and

4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

Responder's Firm Name: _____

Authorized Signature: _____

Date: _____

Subscribed and sworn to me this _____ day of _____

Notary Public: _____

My commission expires: _____

4. Conflicts of interest list
Responders must provide a list of all entities with which it has relationships that create, or appear to create, a conflict of interest with the work that is contemplated in this request for proposals. The list should indicate the name of the entity, the relationship, and a discussion of the conflict.

5. Compliance with Federal and State Laws Form

NDPERS — Federal and State Law Compliance Certification

1. The company shown below is or will be in compliance with Federal and State laws and does not knowingly violate North Dakota or United States Laws. The company shown below will obtain this certification from all subcontractors who will participate in the performance of this contract; and

I certify that the company shown below is in compliance with items 1 above and that I am authorized to sign on its behalf.

Name of Company: _____Date: _____

Authorized Signature: _____Telephone Number: _____

Printed Name: _____Title: _____

6. Location of Service Disclosure and Certification

STATE OF NORTH DAKOTA

LOCATION OF SERVICE DISCLOSURE AND CERTIFICATION

LOCATION OF SERVICE DISCLOSURE

Check all that apply:

- ❑ The services to be performed under the anticipated contract as specified in our proposal will be performed ENTIRELY within the State of North Dakota.
- ❑ The services to be performed under the anticipated contract as specified in our proposal entail work ENTIRELY within another state within the United States.
- ❑ The services to be performed under the anticipated contract as specified in our proposal will be performed in part within North Dakota and in part within another state within the United States.
- ❑ The services to be performed under the anticipated contract as specified in our proposal DO involve work outside the United States. Below (or attached) is a description of

  (1) the identity of the company (identify if subcontractor) performing services outside the United States;

  (2) the location where services under the contract will be performed; and

  (3) the percentage of work (in dollars) as compared to the whole that will be conducted in each identified foreign location.

CERTIFICATION

By signing this statement, I certify that the information provided above is accurate and that the location where services have been indicated to be performed will not change during the course of the contract without prior, written approval from the State of North Dakota.

Time to take charge of your health?

Help is a click away
Want to start eating better? Run a marathon? Maybe you just want to get up off the couch. The HealthyBlue website gives you tools for success, no matter where you are on the fitness scale.

You begin with a plan
Your participation begins with a health assessment. Then based on your answers, HealthyBlue creates a personalized health plan, tailored to your lifestyle and wellness goals. You won't have to wonder where to begin or what to do next...it's all outlined in the plan.

Earn rewards for your efforts
Better health is not the only reward you can expect. When you take steps toward your health goals, you earn points that can be redeemed for things like fitness gear or gift cards to Target, Barnes & Noble and others—up to $250 each year.

You'll get the information that's relevant to you

This web-based wellness portal provides you with many useful tools to help you take control of your health, reduce your health risks and help you live a longer, happier life.

Health logs
- Help in tracking blood sugar, blood pressure, cholesterol, lipids, heart rate and weight

Progress report
- Tracks health and wellness progress

Incentives
- Earn points for completing tasks

Logs
- Progress tracked through logs for what you eat and records of exercise results, including sets, repetitions and weight

Wellness workshops
- Interactive tasks about weight and stress management, diabetes, nutrition, smoking cessation and high blood pressure

Health Assessment
- Answer questions to identify and understand health risks
- Tracks nutrition, exercise, stress and safety, health and preventive health, tobacco, drugs and alcohol use, biometrics and willingness to change

Wellness challenges
- Walking, exercise or weight competitions between individuals, groups or locations

Nutrition
- Recipe assistance
- Meal planning
- Assessing nutritional needs

Exercise
- Exercise planner
- Exercise examples

You'll want to visit HealthyBlue regularly to:

- Participate in online wellness workshops and customized challenges
- Discover inspirational articles on healthy living
- Track your progress
- Watch your rewards accumulate and redeem them for gift cards

HealthClub Credit

What can I earn?

You can earn up to a $20 credit per month for visiting a NIHCA-affiliated health club. To earn this credit, you must exercise 12 or more days per month. (You are responsible to make sure your visits to the health club are recorded.)

How do I start?

Bring your BCBSND ID number to a participating health club, where you will receive and complete an enrollment form. You will also need to complete the Health Assessment annually on HealthyBlue to receive credit. Click here to log into HealthyBlue.

Exercise and credit schedule

You may sign up for the program at any time. Credits will follow the below schedule:

Activity month	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Verification and credit dispersed	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan

Note: If there are any changes to your BCBSND health plan, please let your health club staff know. You should also contact BCBSND at the number on the back of your ID card as it may affect your credit eligibility.

If you cancel your health club membership, or if the health club discontinues participation in the program, you will forfeit any unapplied credits.

How is the credit received?

There are different options, depending on your club's existing payment system. The credit can either be automatically deposited in your bank account or sent to the health club to be credited directly toward your membership.

I belong to a club with multiple locations. Can I work out at any location and still have it count toward my 12 days per month requirement?

Only workouts that take place at the location where you first enroll will count toward your monthly credit.

What do I do if I did not receive my credit?

Check with your health club first. Your health club receives a report that includes an error code number and description. Common reasons for not receiving credit include misspelled names, incorrect date of birth, failure to meet minimum visit criteria and no completed authorization and health assessment on file.

Which health clubs participate?

To view current health clubs that participate with NIHCA or to nominate a club go to www.nihca.org. A member, group, or BCBSND can nominate a club or identify a geographic region at which time NIHCA contacts the club to discuss NIHCA network membership.

Find A Club

FISCAL NOTE

Requested by Legislative Council

02/09/2009

REVISION

Amendment to: SB 2272

1A. **State fiscal effect:** *Identify the state fiscal effect and the fiscal effect on agency appropriations compared to funding levels and appropriations anticipated under current law.*

	2007-2009 Biennium		2009-2011 Biennium		2011-2013 Biennium	
	General Fund	Other Funds	General Fund	Other Funds	General Fund	Other Funds
Revenues						
Expenditures			$47,586	$30,263	$47,586	$30,263
Appropriations			$47,586	$30,263	$47,586	$30,263

1B. **County, city, and school district fiscal effect:** *Identify the fiscal effect on the appropriate political subdivision.*

2007-2009 Biennium			2009-2011 Biennium			2011-2013 Biennium		
Counties	Cities	School Districts	Counties	Cities	School Districts	Counties	Cities	School Districts
			$12,170	$6,693	$8,111	$12,170	$6,693	$8,111

2A. **Bill and fiscal impact summary:** *Provide a brief summary of the measure, including description of the provisions having fiscal impact (limited to 300 characters).*

The fiscal impact of this bill is the proposed enhancement of the prosthetics benefit in the PERS health plan.

B. **Fiscal impact sections:** *Identify and provide a brief description of the sections of the measure which have fiscal impact. Include any assumptions and comments relevant to the analysis.*

Section 1 of the bill is the proposed enhancement. The above fiscal impact is the additional premium and expense needed to support this improvement as determined by BCBS.

3. **State fiscal effect detail:** *For information shown under state fiscal effect in 1A, please:*

A. **Revenues:** *Explain the revenue amounts. Provide detail, when appropriate, for each revenue type and fund affected and any amounts included in the executive budget.*

B. **Expenditures:** *Explain the expenditure amounts. Provide detail, when appropriate, for each agency, line item, and fund affected and the number of FTE positions affected.*

As amended BCBS has determined that the estimated additional cost to add this benefit is $0.28 per contract per month.

C. **Appropriations:** *Explain the appropriation amounts. Provide detail, when appropriate, for each agency and fund affected. Explain the relationship between the amounts shown for expenditures and appropriations. Indicate whether the appropriation is also included in the executive budget or relates to a continuing appropriation.*

The appropriations are to support the expenditures as noted in "B" above.

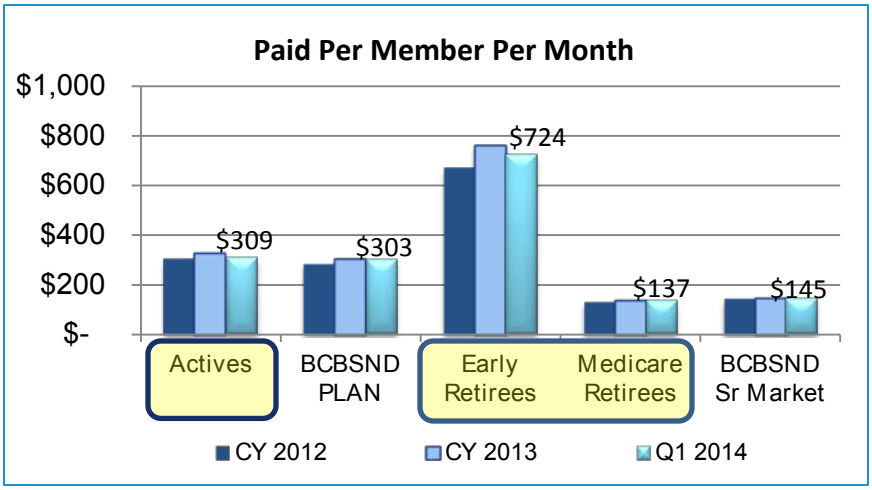
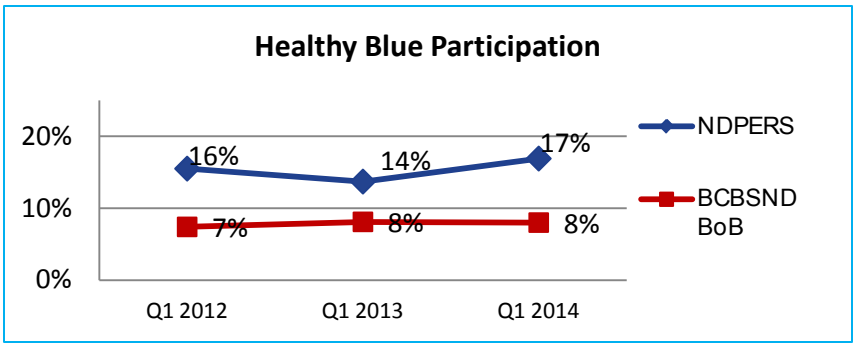
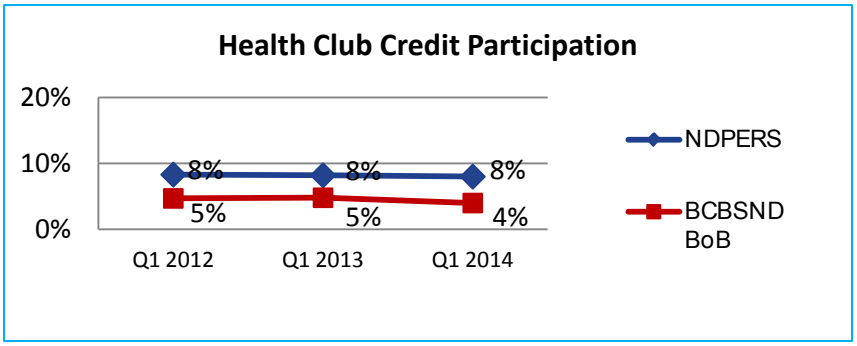
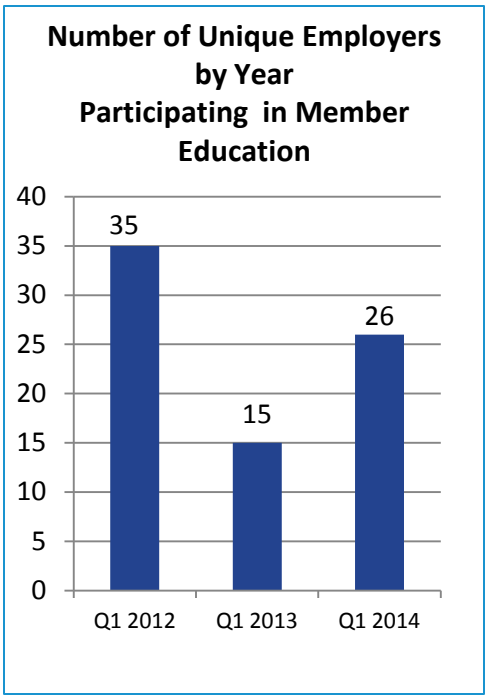
Medicare Retirees	7,854	8,136









Actives include Political Subs and State Employees

NDPERS Biennium Comparison

Paid through March 31, 2014

Incurred	Premium	Admin Fee	Interest on Surplus	Estimated Incurred Claims	Gain (Loss)	Gain (Loss) as % of Premium	Biennium Gain (loss)	% of Premium
July 09 - Jan 10	122,061	6,450	73	100,430	15,253	12.5%	38,094	9.0%
July 11 - Jan 12	133,866	7,102	19	120,700	6,084	4.5%	10,516	2.2%
July 13 - Jan 14	157,864	12,002	27	142,465	3,424	2.2%	N/A	N/A

Note: Reported in thousands

The July 11 - June 13 biennium is reporting a gain of $10.5 million with nine months of claims run out. Biennium gain(losses) are prior to risk sharing. It is important to note that the bienniums beginning with July 13 includes estimated claim reserves. Actual claims run out may vary from original reserve estimates.

It is expected that premiums will exceed claims in the first few months of the biennium. This is due to stable premium levels throughout the entire biennium and increasing claims during the biennium. At the mid-point of the biennium claims would be expected to be equal to premiums less admin fees and during the last months of the biennium, claims would be expected to exceed premiums

NDPERS Quarterly Trend Analysis

Paid through March 31, 2014

Twelve Month Moving Average				
Incurred Month	Est. Incurred Claim/Contract		Annual Trend	
	Actives	Med Retirees	Actives	Med Retirees
3/12	$759.75	$171.89	9.7%	0.9%
4/12	763.45	172.25	9.3%	1.0%

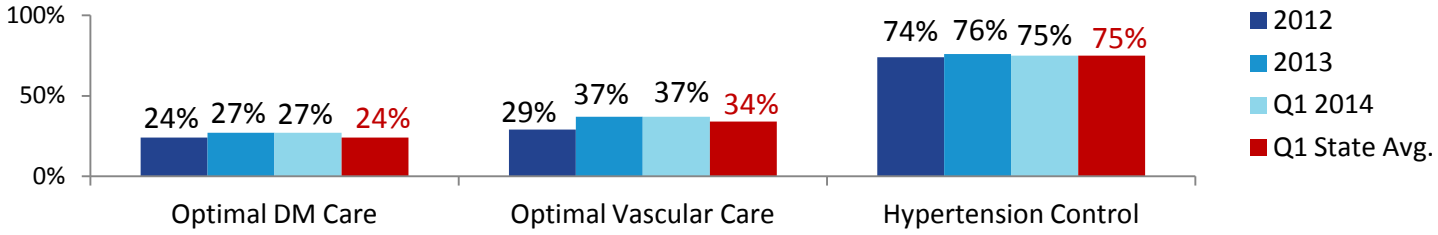
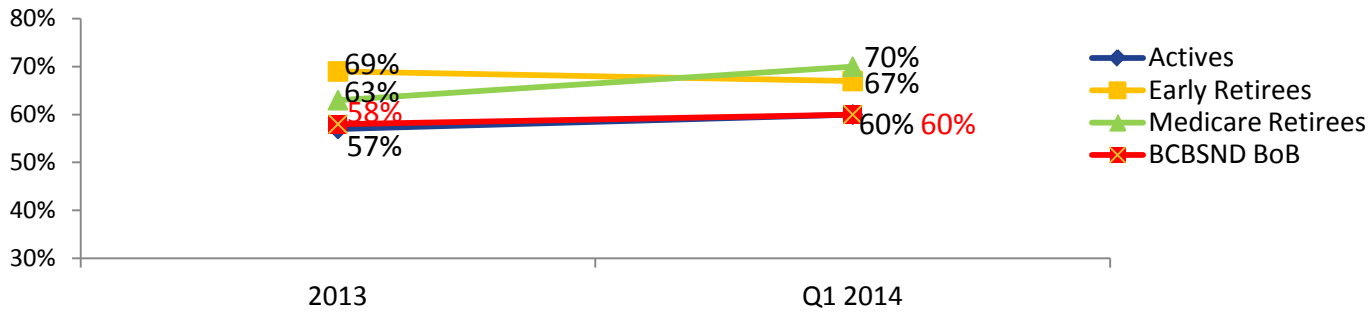
MediQHome Outcome Measures



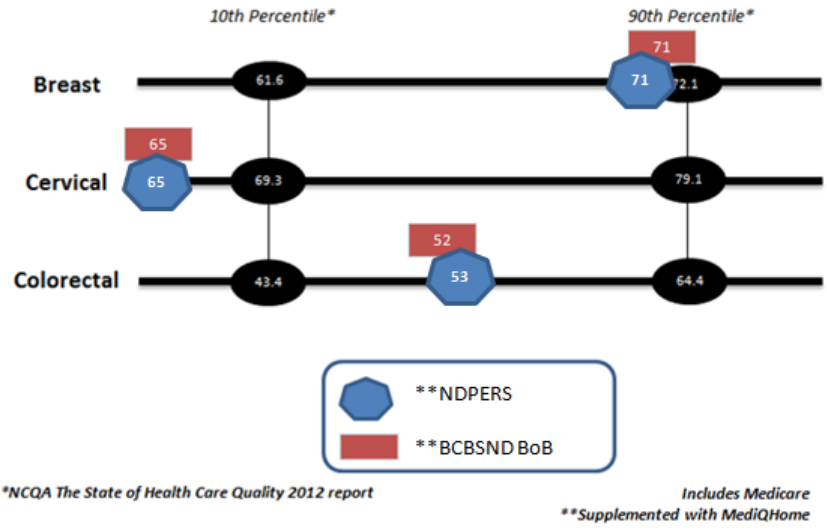
AccordantCare Participation – Rare and Complex Disease Management



- **533 eligible, 327 participating (overall participation 61%)**
- 2013 to Q1 2014 shows an overall increase in participation
  - Due to small population of the retirees, addition or decline of a few members could change participation percentage significantly

Preventive Cancer Screenings

Cancer screening compliance is at the BCBSND book of business but below the 2012 NCQA 90th percentile.

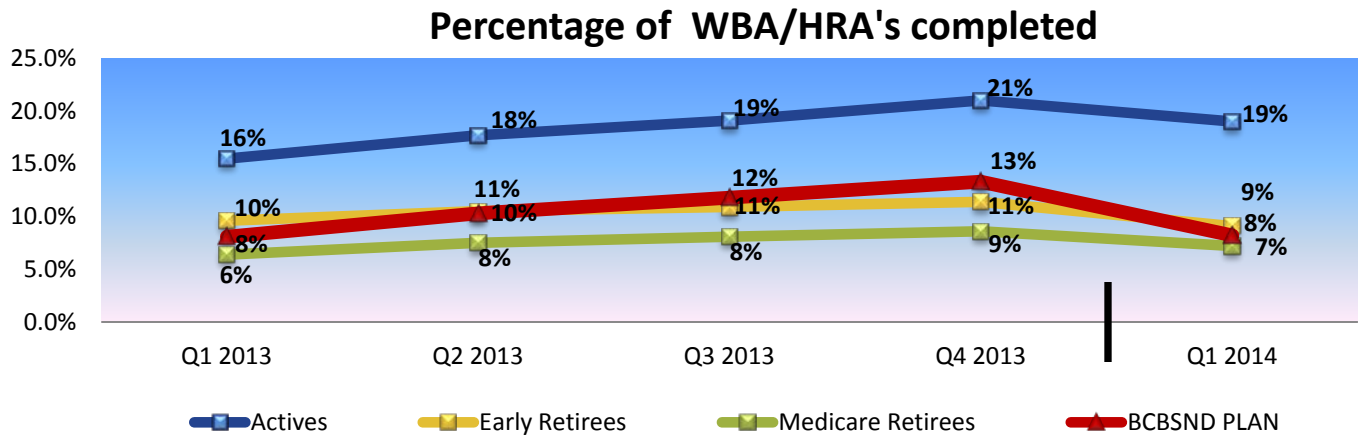


Wellness Programs

Through Q1 2014 (Jan-Mar), there was a total of 44,305 members eligible for the wellness programs, HealthyBlue and Health Club Credit. NDPERS member participation in both wellness programs is higher than the BCBSND Plan average.

HealthyBlue

- 17% (slightly down from 19% Q4) of <u>total</u> eligible members have completed a Health Risk Assessment (7,329 members).
  - BCBSND Plan HRA completion rate was 8% (also down from 13% in Q4)
- Point redemption through Q1 2014 - $48,086 in redeemed prizes

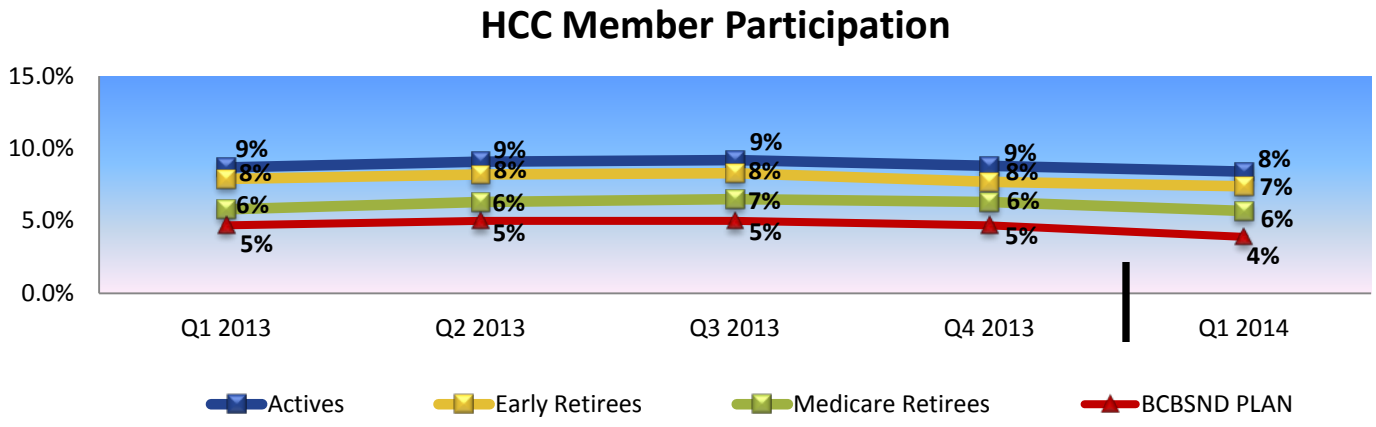


Q1 2014 begins over due to annual HRA completion requirement.

Quarters are cumulative to calendar year end

Health Club Credit

- 8% (same as Q4) participate in the Health Club Credit Program (3,478 members)
  - BCBSND Plan average is 4% (down from 5% Q4)
- Members receiving credit 61% (up from 55% Q4) - those participating in HCC exercise 12 or more days per month (2,137 members)
  - BCBSND Plan average is 63% (also up from 53% Q4)
- Health club credits paid through Q1 2014 - $114,661



Quarters are cumulative to calendar year end

Member Engagement

Member Education Representatives introduce programs that provide employees with valuable information and engages them in their health care. Along with making more informed health care decisions, these programs include valuable life skills.

Presentations are available for the following programs:

- Take Care of Yourself
- Walking Works
- Strength Training
- Beat The Bug
- Summer Safety
- Stress Management
- Medication Education
- Tobacco Cessation
- Wellness Programs (HealthyBlue/Health Club Credit)
- Nutrition Basics for a Healthier You
- **NEW!** "CPR and First Aid Basics"

2014 through Q1, 26 employer groups have held these educational programs and 10 employer groups have had a benefit overview meeting.

	Number of Employers	Member Education Programs & Benefit Overview	Member Attendance
Q1 2014	15	HealthyBlue /HCC	308
	15	Other	499
	15	Benefit Overview	

NDPERS Wellness Specialist

•Two week Walking Challenge in January/February – 1155 registered participants walked approximately 146 million steps.

• Cervical Cancer Screening & HealthyBlue HRA Reminder mailings

•Completed "Spring into Action" physical activity challenge May 1 – results will be released in the next quarterly review.

•NDPERS Wellness Coordinator monthly calls & newsletters

- **Call -** April featured a special guest from the NDSU Extension Service for a new nutrition program they are launching that is targeted at baby boomers.
- **Newsletter** - featuring the health topic of the month and additional resources for wellness activities.

•Conducted a Wellness Coordinator survey in February. 63% of coordinators have been in their role for three or more years. Nearly all of coordinators are satisfied with the resources provided to them through the monthly newsletters and conference calls.

•HealthyBlueHighlights, sent bimonthly through HealthyBlue, highlights monthly health topics and encourages members to participate in HealthyBlue workshops.

•Pebble promotion in HealthyBlue – electronic tracking device that automatically uploads into HealthyBlue

• Debut of Duncan's Digest – online health topic presentation in HealthyBlue

•Launched online video tutorial on HealthyBlue

•Gearing Up for Worksite Wellness trainings were offered in Fargo and Bismarck. Approximately 10 NDPERS Wellness Coordinators attended.

**Cancer screening rates were a culmination of MediQHome and Optum claims data*

Opportunities and Activities

Completed

- Gearing Up for Worksite Wellness trainings in Fargo and Bismarck.
- Two week Walking Challenge in January/February
- "Spring into Action" physical activity challenge
- Wellness Coordinator survey
- Cervical Cancer Screening mailing
- HealthyBlue HRA Reminder mailing
- National Walk at Lunch Day at Capitol with First Lady Dalrymple & Kathleen Wrigley
- New MyPrime.com website is now available

Ongoing Activities

- **New BCBSND staff member to provide additional support for NDPERS program management**
- **Case Management – dedicated NDPERS Case Manager, works closely with Member Advocacy Program (MAP)**
    - **83 cases reviewed/followed in last 12 months**
        - **Projected savings (soft & hard) - $237,060**
- **There are currently 9 members in the Member Advocacy Program (MAP) – an increase from 3 last quarter. Two additional MAP advocates have been hired as the need for their services continue to increase.**
- **HealthyBlue upgrade to log community event participation**
- A fruit & veggie challenge is scheduled for summer.
- Monthly NDPERS Wellness Coordinator calls and newsletters
- Specialty Pharmacy
    - NDPERS enrollment in Prime Specialty Pharmacy Care Management
    - Targeted mailings continue to identify new specialty users
- Accordant Care – continue to identify newly eligibly members

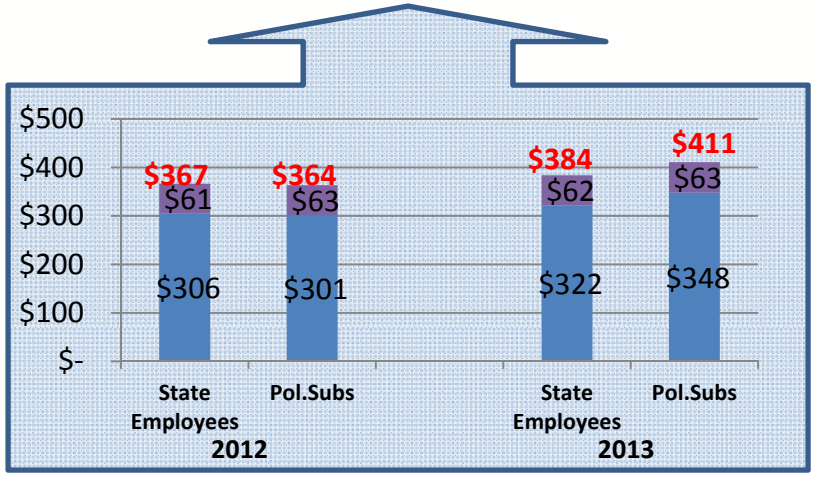
PPO PLAN
State & Political Subs

HDHP Plan
State Employees only



- Both the PPO & HDHP Plans saw an increase to enrolled members
- HSA dollars contributed by NDPERS reduces the member's out of pocket but adds to the over-all costs for NDPERS

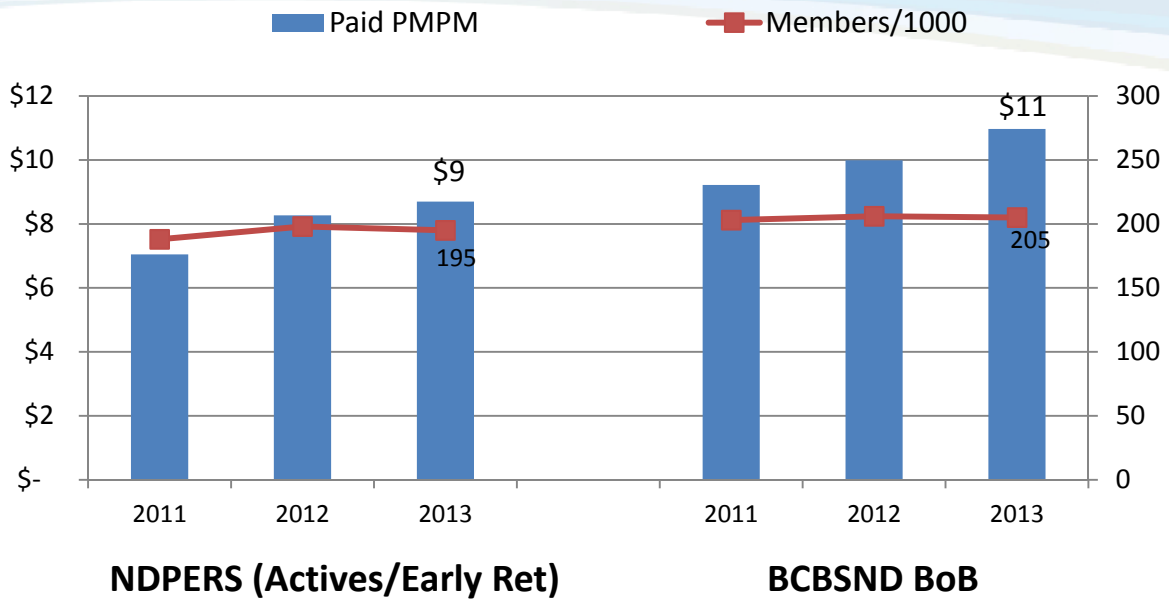
Restricted and/or Confidential

Outpatient ER Utilization

Consideration:

•Increase ER copay to $60

Current copay of $50 is lower than BCBSND standard copay - $75



• NDPERS PMPM is lower than BCBSND Plan average

• Small difference between ER copay ($50) and office visit copay ($25) may adversely affect utilization

Restricted and/or Confidential

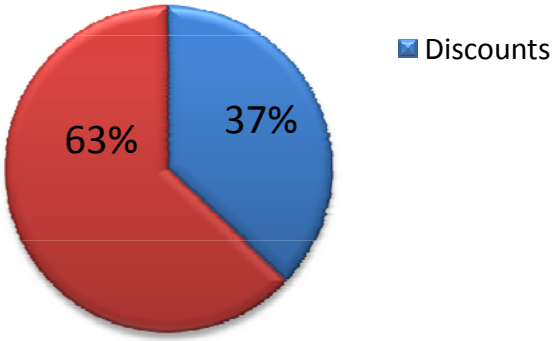
% Discounts off Total Charges*

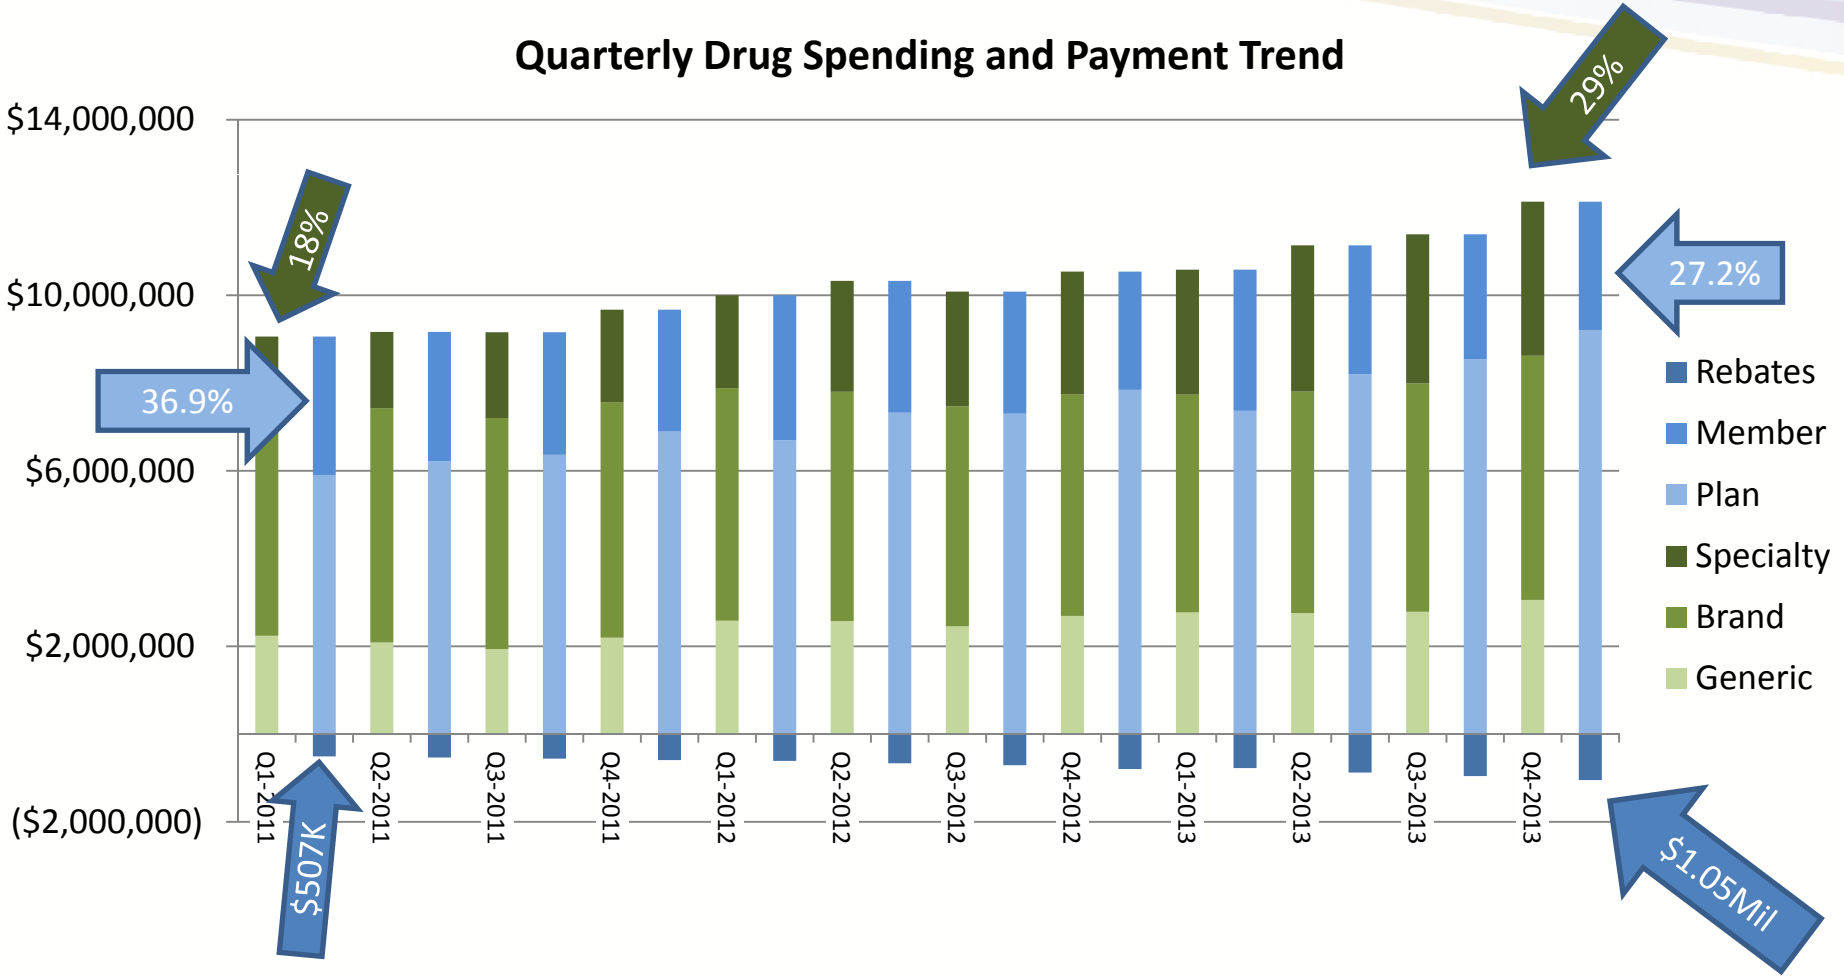


**Medicare Retirees excluded*

PHARMACY MANAGEMENT

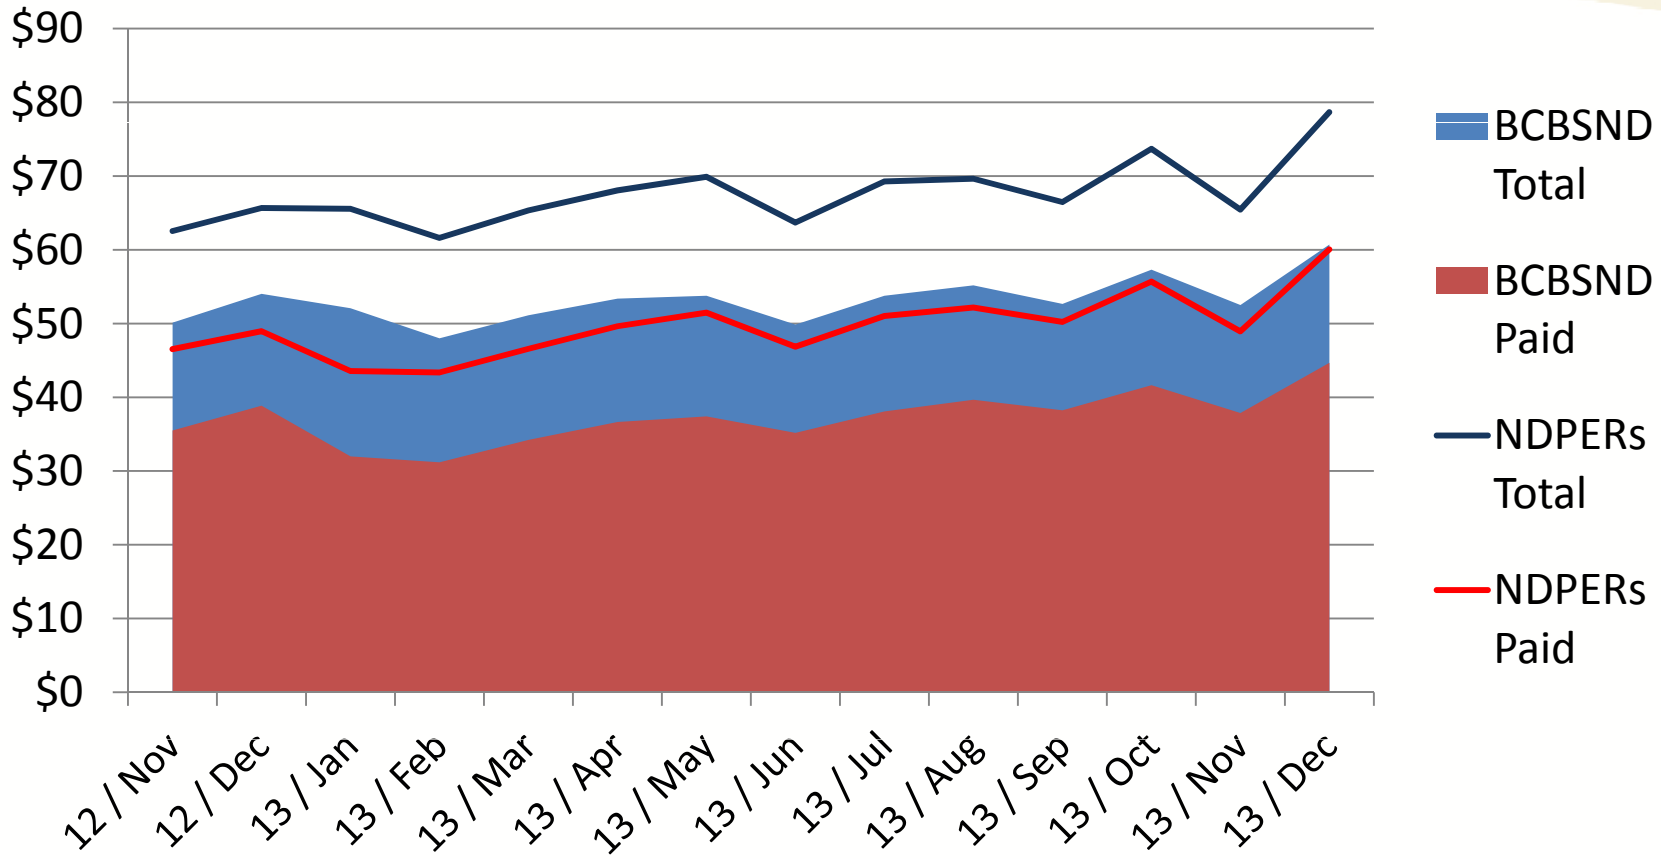
Quarterly RX Spending

- Annual RX Spending Trends have been 5-9% quarter to quarter since 2010.
- Overall trend is driven by separate trends in generic, brand and specialty.



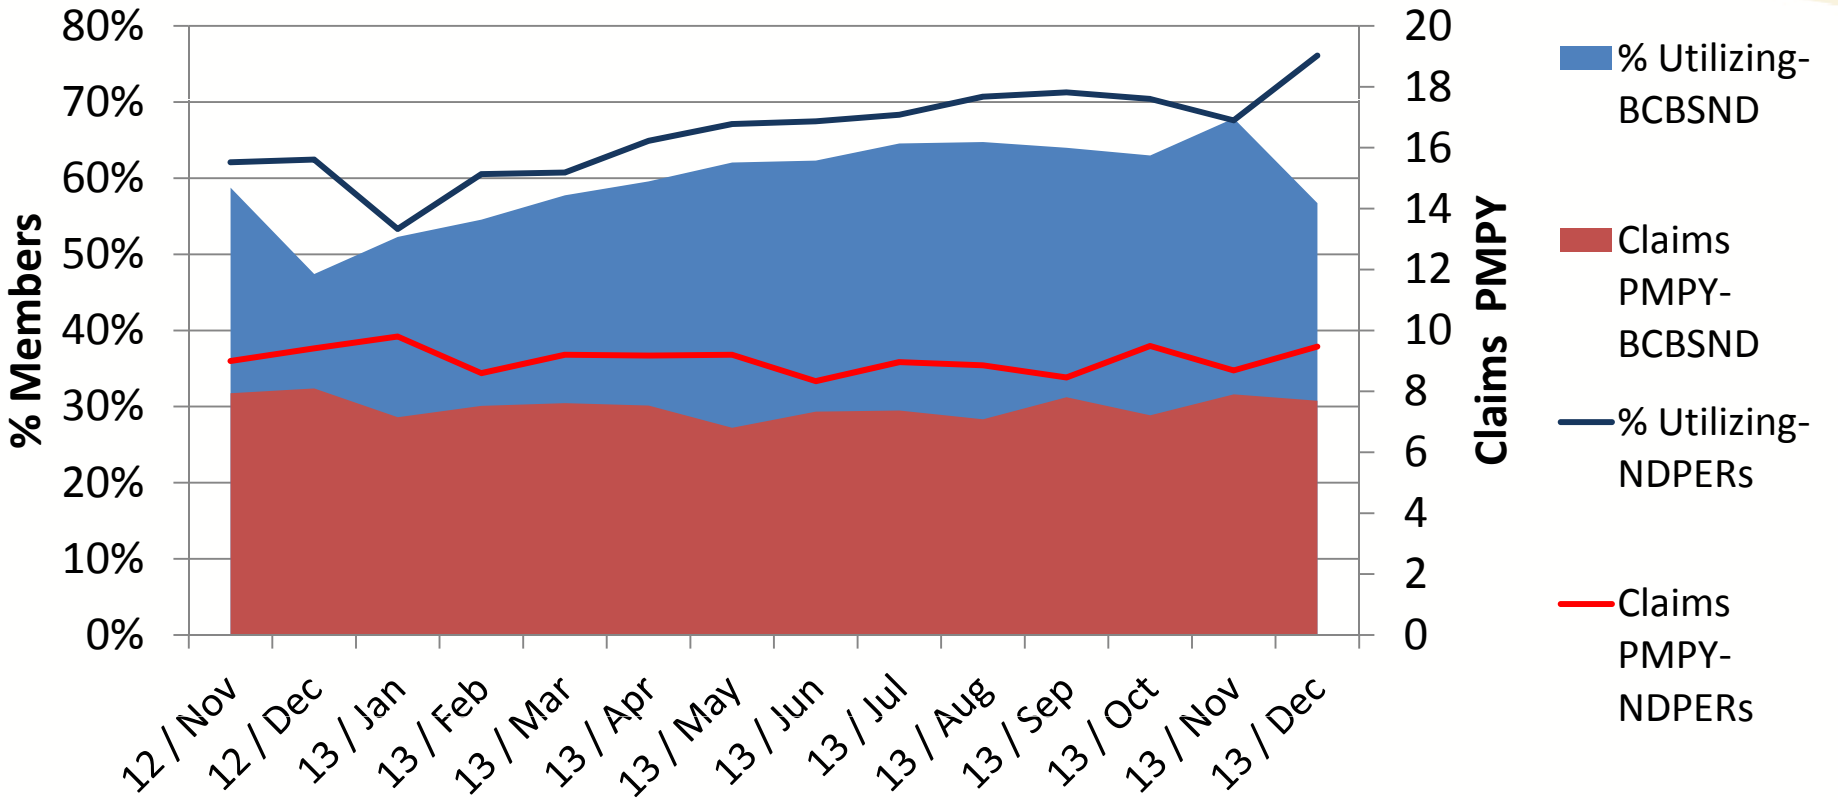
Monthly PMPM

PMPM Plan and total paid amounts average $10-15 higher than monthly plan values



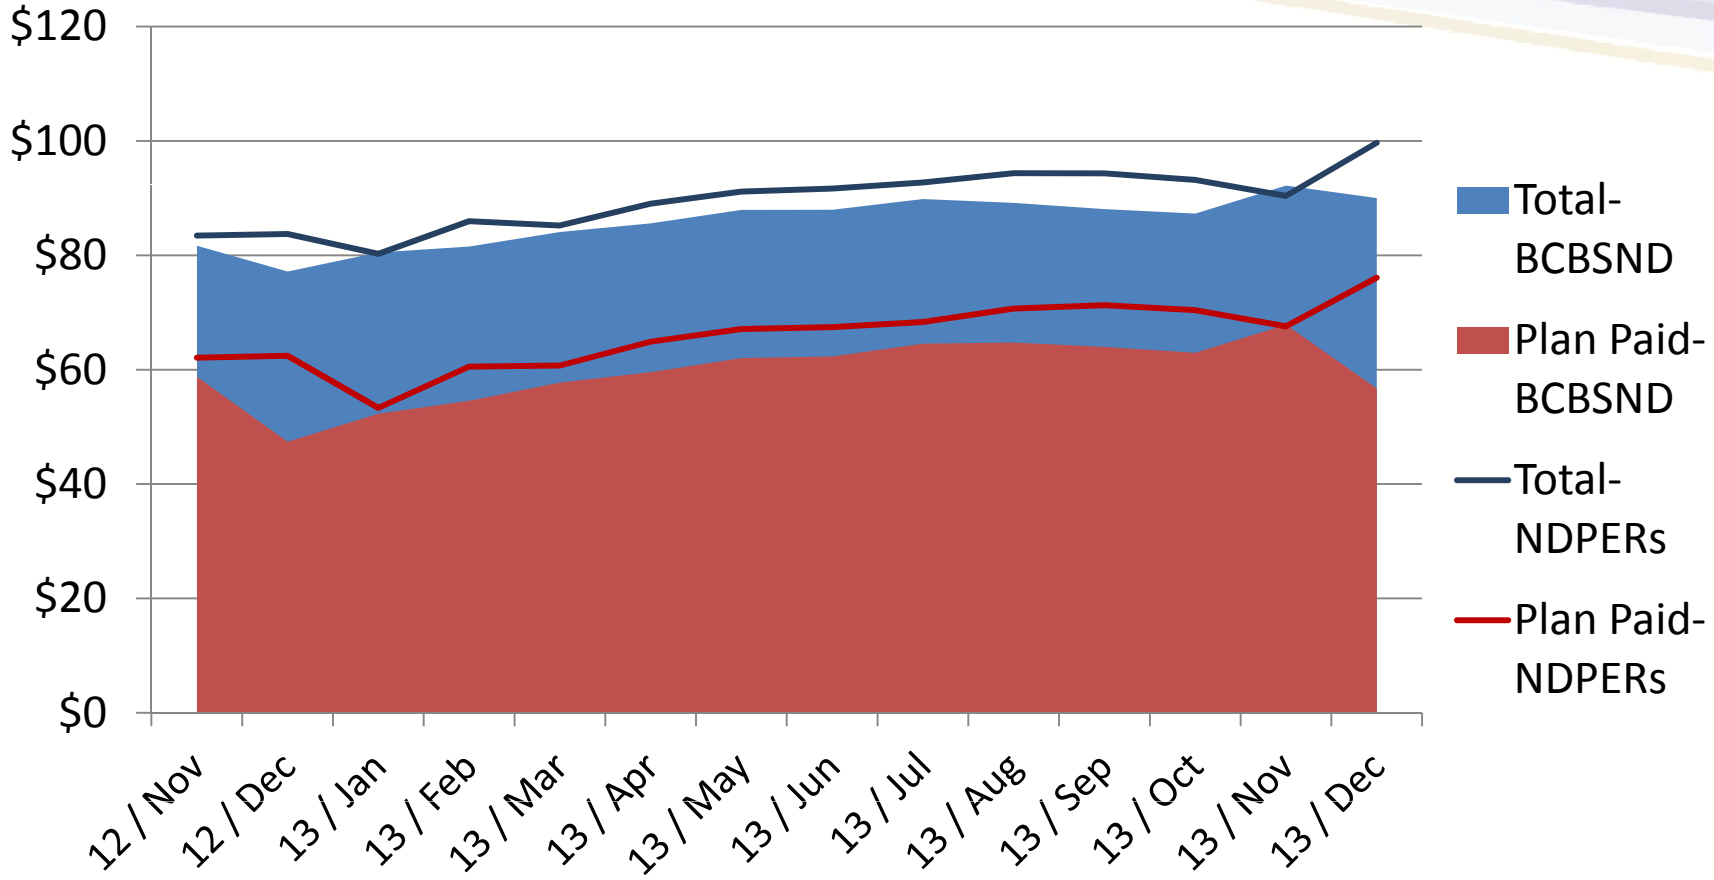
Monthly Utilization

Utilization outpaces BCBSND average in both % of members and claims per member measures



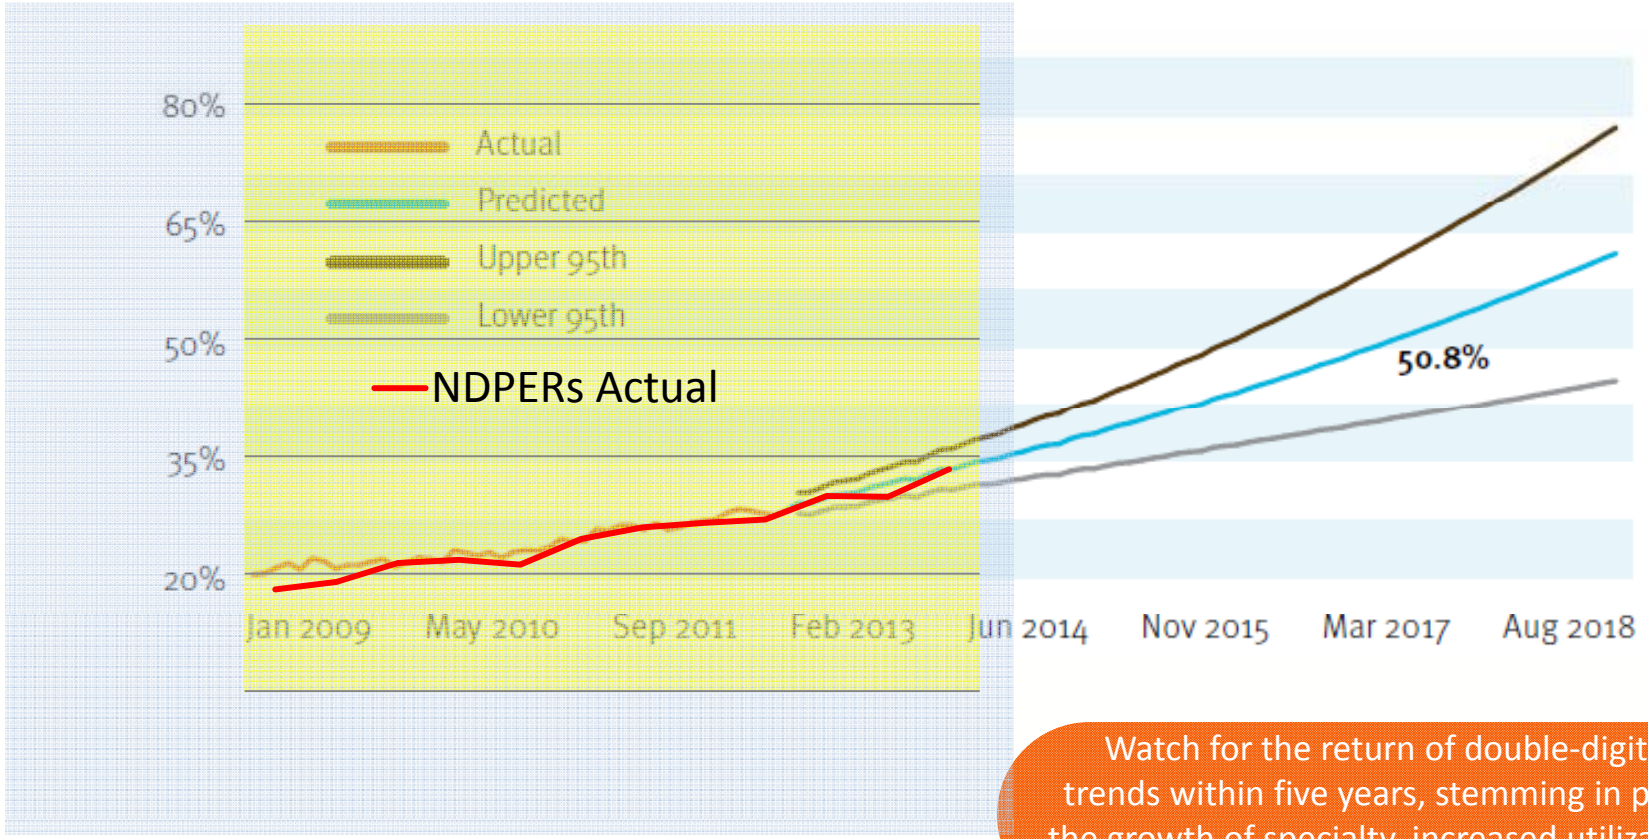
Monthly Claims Costs

Average claims costs are higher than plan average



By 2018, more than 50 percent of all drug spend will be specialty

Fig. 10 **Specialty drug costs as a percentage of total drug spend**



Watch for the return of double-digit drug trends within five years, stemming in part from the growth of specialty, increased utilization and aging baby boomers

Research on National Trends

Pick the right partner

Top-performing plans know

They can't do it alone. Top performers select a trusted advisor with comprehensive capabilities and deep connections to help them anticipate and address specialty drug challenges.

Partnership is essential

The facts are clear: specialty drugs will soon become the main drivers of increased drug spending and the focus of pharmacy benefit management. How well plan sponsors deal with this challenge depends in large part on the steps they take today.

The good news is that plan sponsors don't have to do it alone. A pharmacy benefit manager's role is to inform, advise, and—most importantly—manage drug-related cost and care challenges. That's why the most critical step in successful specialty pharmacy management is finding the right partner.

Characteristics of a good partner

The right kind of partner possesses a comprehensive set of capabilities and connections and demonstrates proven expertise in drug cost management; will engage and be responsive in interactions with members and clients; and can be expected to tell the unvarnished truth about what's going on.

Most importantly, the right kind of partner places a priority on people and their health, always considering what is best for them in every decision.

SPOTLIGHT

Coordinated care, aligned incentives

All sorts of problems can arise when companies put revenues before people. Without careful consideration of health outcomes and total costs, some of the tactics used to create drug pricing advantages can actually end up adding costs to the health care system.

Prime's relationship with Blue Cross and Blue Shield Plans allows us to be different. Not only does this unique connection set us free to do what's right for our members and clients, it also allows us to do what's right for the industry. Learn more.

Prime Specialty Campaign

PSP Campaign:

March 2013:
- 284 targeted NDPERs Specialty Utilizers.
- 33 new utilizers identified through close of 2013.
- PrimeSpecialty Pharmacy penetration remains low at 13% of claims.*

NDPERS

Memo

To: NDPERS Board

From: Bryan T. Reinhardt

Date: 6/10/2013

Re: 2012 BCBS Claims Review

Each year we conduct an audit to check the accuracy of BCBS claims processing. On March 19-20th, I was at the BCBS corporate office in Fargo to review a sample of 100 NDPERS claims. A list of the claim specifications is attached. Note that this is not a random sample of all claims, but a select sample from specific areas that we felt needed to be looked at. I focused on claims incurred in the year 2012. BCBS did a good job of having everything ready for me and having staff available to answer my questions and explain the claims payment process. The 2012 BCBS audit resulted in a small number of errors, similar to other recent reviews. These findings are detailed below:

Review Error Findings:

1. A WSI claim was processed incorrectly resulting in a wrong amount applied to a member's deductible ($122.60 should have been $68.88, the claim has been adjusted).

2. A claim did not process correctly. Programming logic for rated surgical codes billed with non-rated surgical codes is not working correctly. BCBS is working on this issue and will adjust the claim when the system is fixed.

All five out of five mammograms, Flu vaccinations, PAP tests, fecal occult tests, and HPV vaccine claims for Gardasil were paid 100% under the screening benefits. Two of the five cholesterol tests, one of the five blood sugar tests, and none of the five PSA tests, and were paid at 100% under the screening benefits. Note that the PSA tests are processed differently. The new screening benefits effective 7/1/09 need the 'routine' or 'preventative' diagnosis, but after the $200 allowance diagnostic procedures will be covered subject to member cost sharing. Note that if an office visit is charged along with the screening benefits, the office visit is not included in the $200 allowance and the member is charged the $25 copayment.

The HDHP claims reviewed had all costs go to deductible except for immunizations.

If you have any questions, I will be available at the Board meeting.

NDPERS 2012 Audit of 1/2012 – present BCBS Claims Processing

1. Blue Shield Chiropractic (2 claims)
2. Blue Cross COB (1 claim)
3. Blue Cross COB (3 with Medicare Member age 65+)
4. Blue Cross COB (3 with Medicare Member age <65)
5. Blue Cross COB (5 with Workers Compensation)
6. Blue Shield COB (3 claims)
7. Blue Shield COB (2 with Medicare)
8. Blue Shield COB (5 with Workers Compensation)
9. Blue Cross Psych (2 claims)
10. Blue Shield Psych (2 claims)
11. Blue Cross CDU (2 claims)
12. Blue Shield CDU (2 claims)
13. Blue Shield PAP (5 claims)
14. Blue Shield Mammograms (5 claims)
15. Blue Shield Fecal Occult Test (5 claims)
16. Blue Shield Cholesterol Screening (5 claims)
17. Blue Shield Blood Sugar Testing (5 claims)
18. Blue Shield PSA Testing (10 claims)
19. Blue Shield Colonoscopy (5 claims)
20. Prescription Drug Formulary (2 claims)
21. Prescription Drug Non-Formulary (2 claims)
22. Prescription Drug for “Gardasil” (HPV drug) (5 claims)
23. Prescription Drug for Flu Vaccine (5 claims)
24. Prescription Drug Medicare Part-D claims (4 claims)
25. Blue Cross 'Denied Experimental' (1 claims)
26. Blue Shield Physical Therapy (2 claims)
27. Claims for Durable Medical Equipment (2 claims)
28. Blue Shield from HDHP member (5 claims)

Total 100 Claims

Medicare Secondary Payer (MSP) Demand Letter & Employer Group

DRAFT ONLY
01-30-06

Medicare sends the MSP Demand Ltr to the Group

Group receives the MSP Demand *(Attachment 1)*

Group verifies the Employee's group coverage for dates specified within the Demand Letter and/or whether it is their employee

NO

Employer group responds to Medicare on Group Letterhead with Coverage information (Medicare will not accept a response regarding Coverage information from BCBSND -this needs to come from the group) *(Attachment 2)*

Medicare receives letter and determines whether or not to accept or decline the response

*Medicare ACCEPTS response from employer group; Medicare then sends closure letter directly to the employer group *(Attachment 3)*

CASE CLOSED

Medicare does NOT ACCEPT response from group; Medicare then sends a letter advising the group on reasons for non-acceptance *(Attachment 4)*

Group then forwards copy of their response sent to Medicare along with the denial letter received and the group authorization letter to allow BCBSND to further research on behalf of the group

YES

Group completes Authorization Ltr and Coverage Ltr forms along with the Complete Demand Letter/ case which is then mailed to BCBSND to the attention of Claims Research OR fax to 1-866-280-0091 to the attention of Claims Research

BCBSND receives Authorization Ltr and Coverage Ltr and Researches the case further

Once research is complete, BCBSND may need to process claims (checks cut to Medicare and/or provider) to complete the case

BCBSND responds in writing to Medicare (indicating check enclosed;EOBs enclosed, coverage information, etc.) *(Attachment 5)*

BCBSND sends group a notification letter advising that the case was researched and responded back to Medicare. Marketing Representative is also carbon copied *(Attachment 6)*

Medicare receives BCBSND's response letter and determines whether to accept or decline the response

Medicare ACCEPTS our Rebuttal/ Defense/Response

Medicare sends closure letter directly to the employer group and BCBSND (authorization is in place to receive from Medicare) *(Attachment 7)*

CASE CLOSED

Medicare does NOT ACCEPT response from BCBSND; a letter will be sent from Medicare to the group and BCBSND advising on reasons for non-acceptance *(Attachment 8)*

Depending on reasons for denial; the group or BCBSND researches further and responds back to Medicare

***NOTE:**
If employer group does not complete the Authorization/ coverage letter and send to BCBSND, then Medicare does not include BCBSND in any communications when sending information back to the groups.

NOTE:
If cases are not resolved in a timely manner; Medicare will apply Interest Owed which will accrue monthly.
Employer Groups should review the MSP Summary Data Sheet included in the Original Demand packet.
(Attachment 9)

NOTE:
If Noridian Administrative Services is the Medicare Contractor, BCBSND is typically carbon copied on the Demand Letter

NOTE:
The case can be sent onto Collections at anytime during this process; which it is then the group's responsibility to work directly with the Collection Agency in resolving

NDPERS Plan Options for 2015-2017

Table of Contents

Cost Impacts 7/2015
GF & NGF 2
Retain GF Status- Options 3-7
Summary of Options 8

NORTH DAKOTA PUBLIC EMPLOYEES RETIREMENT SYSTEM

ND

Blue Cross Blue Shield of North Dakota is an independent licensee of the Blue Cross & Blue Shield Association

Noridian Mutual Insurance Company

Cost Impacts 7-1-2015

Estimated
Percentage Change

Total Cost Impact if NDPERS loses Grandfathered Status* (incl. Rewrite) XXX%

***Further discussion and analysis is needed on the impact of the loss of small non-grandfathered political subs.**

Preventive @ 100%

- Infants & Children
- Adult/Adolescent (includes colorectal cancer screenings)
- Pregnant Women
- Men's Preventive Services
- Women's Preventive Services (includes contraception)

Rewrite Items required to be added:

1) Out of Pocket Maximum Accumulation (Non-Grandfathered PPO plans only)

- All cost shares have to accumulate to the out of pocket maximum.
- Deductible, Coinsurance, Copayments, Rx Copayments & Rx Coinsurance
- New out of pocket maximum amount - to account for the summed up cost shares

2) Removal of waiting periods for late enrollees (Non-Grandfathered)

3) Language Changes (no cost impact)

Total Cost Impact to NDPERS to add Rewrite (Status Quo - Retain Grandfathered Status)

Out of Pocket Maximum Accumulation & Removal of waiting periods for late enrollees

Non Grandfathered PPO **XXX%**

Removal of waiting periods for late enrollees

Grandfathered PPO **XXX%**

Non Grandfathered Plans HDHP **XXX%**

Options - while retaining Grandfathered Status

Prescription Drugs

Estimated PPO Percentage Change

1.1) Annual Premium Reduction to change RX Formulary Generic Copay ***XXX%***

From $5 copay to $10 copay

Rationale:

- Increase cost-sharing to adjust for inflation within this all categories
- Effect is due to a small change on a large volume claims

Plan Year	Generic Formulary Benefit Design
2011	**$5 Copay** plus 15% Co-insurance
2012	**$5 Copay** plus 15% Co-insurance
2013	**$5 Copay** plus 15% Co-insurance
Proposed*	**$10 Copay** plus 15% Co-insurance

**reflects re-pricing of 2013 claims at proposed benefit design*

1.2) Annual Premium Reductions to change RX Formulary Brand copay ***XXX%***

From $20 to $25 copay

Rationale:

- Increase cost-sharing to adjust for inflation of 51% in the Brand Formulary category since 2011.
- Effect is limited due to lower volumes, adjustment allowed on higher average claim amounts

Plan Year	Brand Formulary Benefit Design
2011	**$20 Copay** plus 25% Co-insurance
2012	**$20 Copay** plus 25% Co-insurance
2013	**$20 Copay** plus 25% Co-insurance
Proposed*	**$25 Copay** plus 25% Co-insurance

*******reflects re-pricing of 2013 claims at proposed benefit design*

Options - while retaining Grandfathered Status

Estimated PPO
Percentage Change

1.3) Annual Premium Reduction to change RX Non-Formulary Copay ***XXX%***

From $25 copay to $30 copay

Rationale:

- Cost shares are intended to steer towards generic and formulary (preferred) brands
- Maximum shift has smaller effect on this high dollar but low volume category

Plan Year	Brand Non-Formulary Benefit Design
2011	**$25 Copay** plus 50% Sanction
2012	**$25 Copay** plus 50% Sanction
2013	**$25 Copay** plus 50% Sanction
Proposed*	**$30 Copay** plus 50% Sanction

**reflects re-pricing of 2013 claims at proposed benefit design*

1.4) Annual Premium Reductions to change RX Formulary coinsurance maximum ***XXX%***

From $1000 coinsurance to $1200 coinsurance

Rationale:

- Co-insurance maximum adjustment is from $1,000 to $1,200 is allowed
- Increasing maximum helps adjust for inflation and specialty drug trends and projections

Benefit Design Strategy
Current Benefit design
Proposed Copays @$1000 Co-Insurance Max
Current Copays @ $1,200 Co-Insurance Max
Proposed Copays @$1200 Co-Insurance Max

Options - while retaining Grandfathered Status

Copayments

Estimated PPO Percentage Change

2) Annual Premium Reduction to increase emergency room copay: ***XXX%***

From $50 copay to $60 copay

Rationale:

- Provides an opportunity for better consumerism.
- Increasing copay from $50 to $60 is still well below the BCBSND standard of $75.

3) Annual Premium Reduction to increase office visit copay ***XXX%***

From $25 copay to $30 copay

Rationale:

- NDPERS rate per service is considerably higher than BCBSND BoB
- Most BCBSND BoB plans have a coinsurance also tied to the office visit
- $5 increase is a minimal increase to the member but significant for the NDPERS plan

Options - while retaining Grandfathered Status

Additional Options

Estimated PPO Percentage Change

- ***Annual Premium Reductions to change deductible:***

From $400 single/$1200 family to $425 single/$1275 family	***XXX%***
From $400 single/$1200 family to $450 single/$1350 family	***XXX%***
From $400 single/$1200 family to $500 single/$1500 family	***XXX%***

Rationale for NOT making this change at this time:

- NDPERS plan could make partial increases during 2015-2017 biennium as needed financially or save for the 2017-2019 biennium
- We feel it would be better to let the deductible build based on ACA guidelines and retaining Grandfather status
- 2013 Medical CPI numbers are not readily available. Limits above may continue to expand as new numbers are made available.

- ***Annual Premium Reductions to change coinsurance maximum:***

From $750/$1500 to $825/$1650 IN and $1250/$2500 to $1375/$2750 OON	***XXX%***
From $750/$1500 to $900/$1800 IN and $1250/$2500 to $1500/$3000 OON	***XXX%***

Rationale for NOT making change at this time:

- We feel this is better to let build based on ACA guidelines and retaining Grandfather status
- 2013 Medical CPI numbers are not readily available. Limits above may continue to expand as new numbers are made available.

- ***Add 5% Employee Contribution to Premium***

This would not impact actual premium but would reduce NDPERS premium expense.

Options - while retaining Grandfathered Status

Additional Options

Estimated PPO Percentage Change

- **Add Colorectal Cancer Screenings @ 100% beginning at age 50** — ***XXX% (Grandfathered)***

Rationale:

- Studies have shown that health promotion and disease prevention programs improve employee health and productivity and reduce long-term health care costs
- Survey results showed that Cost was the number one factor in deterring members from having a colorectal cancer screening
- This is a benefit increase therefore does not impact Grandfathered status

Estimated Percentage Change

- ***Gamification System –Healthcare University*** — ***XXX% (GF, NGF, & Medicare)***

Targeted to Subscriber & Spouse

Functionality:

- Gamified Benefits Education platform that educates consumers on topics from healthcare basics to consumerism
- Makes healthcare benefits education fun, easy and impactful through the use of videos, quizzes, interactive games and game mechanics (points, badges, leaderboards, etc.)
- Integration into the HealthyBlue system
- Curriculum Includes:
  - Health Insurance 101
  - Benefits Selection
  - Ways to Save
- Multi-format Delivery
  - Videos, quizzes, games
  - Booklets for print
- Additional Benefits
  - Multilingual Support
  - Member Behavior Reporting

MEMORANDUM OF UNDERSTANDING

TOBACCO CESSATION PROGRAM

THIS TOBACCO CESSATION PROGRAM AGREEMENT (TCP Agreement), is entered into this 1st day of July, 2013, by and between the North Dakota Public Employees Retirement System (NDPERS), a public agency created under North Dakota state law, and Blue Cross Blue Shield of North Dakota (BCBSND), a North Dakota nonprofit mutual insurance company, located at 4510 13th Avenue South, Fargo, North Dakota.

RECITATIONS:

WHEREAS, the state of North Dakota, acting through the Department of Health, has received an appropriation from the state legislature in the amount of $80,000 for the purpose of funding employee tobacco education and cessation programs for state employees; and

WHEREAS, as it relates to this appropriation, the Department of Health has determined that NDPERS is to sponsor this tobacco cessation program based on its responsibilities related to the management of the group health plan and the program objectives for monitoring and containing health care; and

WHEREAS, because BCBSND is contracted with NDPERS to provide health care benefits to NDPERS Members (as defined by the Administrative Services Agreement between NDPERS and BCBSND) (ASA Agreement), NDPERS has determined that BCBSND is to act as the administrator of the tobacco cessation program.

NOW, WHEREFORE, in recognition of the mutual promises herein contained and for other good and valuable consideration hereby acknowledged by the parties hereto, NDPERS and BCBSND agree to the following.

I. RECOGNIZING THE TOBACCO CESSATION PROGRAM.

BCBSND acknowledges and agrees that it has reviewed the tobacco cessation program grant documents and that the program as outlined in the grant documents provides services consistent with the wellness initiative reflected in the Administrative Services Agreement between BCBSND and NDPERS.

II. TERM.

This TCP Agreement shall begin on July 1, 2013, and shall extend to June 30, 2015.

III. SCOPE OF PROGRAM.

The tobacco cessation program as outlined in this TCP Agreement shall be made available to state employees and their eligible family members that are at least 18 years of age. An estimate of the total number of eligible employees and family members and those anticipated will participate are outlined in the grant documents.

IV. BENEFITS AVAILABLE. Tobacco Cessation Benefits

pursuant to this TCP Agreement are as follows:

- $200.00 per Member/per Benefit Period for Department of Health approved counseling services if the provider charges for these services.
- $500.00 per Member/per Benefit Period for office visit, prescription drugs and over-the-counter drugs prescribed for tobacco cessation.
- $700.00 is the total amount of expenses available per Member/per Benefit Period under the program.

Each participant is eligible to participate in the tobacco cessation program for a maximum benefit of $700.00 for each 6-month period under the term of this TCP Agreement.

All funds shall be billed by and paid directly to BCBSND. NDPERS will not charge any fees to the tobacco cessation program nor will it administer any funds for the program.

BCBSND shall reimburse providers monthly based on the paper billings submitted by those providers. BCBSND will then submit the total claims received for reimbursement to the Department of Health on a monthly basis. The final invoice for services shall be submitted to the Department of Health no later than July 15, 2015. Funds shall be allocated on a first come first serve basis until all available funds are exhausted. Reimbursement shall be made to BCBSND on a monthly basis based on actual costs accrued by local providers for services provided to eligible state employees and family members plus the administrative fee paid to BCBSND up to a total maximum amount of $80,000.00.

A Member is eligible to participate in the tobacco cessation program during each of four separate benefit periods as follows:

07/01/2013 through 12/31/2013
01/01/2014 through 06/30/2014
07/01/2014 through 12/31/2014
01/01/2015 through 06/30/2015

The tobacco cessation program shall provide a combination of counseling to include initial assessment, physician office visit, nicotine replacement therapy, and prescription medication, if indicated, and follow-up support counseling as necessary by individual, group or telephone.

Re-treatment shall be made available within 6 months and will be the responsibility of the counseling program with reimbursement available on the same basis as during any initial treatment phase.

V. FEES.

As a result of the responsibilities assigned to BCBSND under the terms of the grant documents and this TCP Agreement, BCBSND shall be paid an administrative fee for administering the tobacco cessation program that shall be equal to nine percent (9%) of claims paid to providers to pay costs incurred by BCBSND as program administrator and granting entity. For example, if total claims submitted by the providers are $60,000.00, BCBSND will add a 9% administration fee for a total of $5,400.00.

VI. REPORTING.

BCBSND agrees to provide the following reports:

- Track each patient receiving therapy and level of therapy based on claims data.
- Report every six months to the NDPERS and Department of Health program results and participation rates.
- Work with an independent outside evaluator to evaluate program. Any administrative costs associated with collaborating with the outside consultant in evaluating the program would be borne by the program.

VII. OTHER TERMS AND CONDITIONS.

The parties to this TCP Agreement acknowledge, understand and agree that the terms of the grant award and grant documents in place between the Department of Health, NDPERS and BCBSND, including but not limited to terms that specifically relate to the administration, cancellation, termination and payment terms are hereby incorporated into this TCP Agreement and applicable to this TCP Agreement related to the tobacco cessation program as if fully incorporated herein.

Moreover, the parties acknowledge, understand and agree that the fees and charges provisions of the Administrative Services Agreement currently existing between the parties, including fees set forth for various wellness programs as approved and funded, are subject to specific funding provisions as set forth between the parties and as available, and are not subject to the final accounting provisions contained in the Administrative Services Agreement.

VIII. GENERAL PROVISIONS.

The following general conditions, covenants and obligations apply equally to both NDPERS and BCBSND under the terms of this TCP Agreement.

Time is of the Essence. Time is of the essence of each provision of this entire TCP Agreement and all of its terms and conditions.

Notice. Any notice required or permitted under the terms of this TCP Agreement shall, in all cases, be construed under the notice provision in the ASA Agreement.

Assignment. No party may assign this TCP Agreement, or any of the obligations or duties mandated under the terms of this TCP Agreement, without the prior written consent of the other parties hereto.

Waiver. No delay or omission by any party to exercise any right or power under the terms of this TCP Agreement shall preclude the exercise of such right or power in subsequent instances or be construed to be a waiver thereof. A waiver by any party hereto of any of the covenants to be performed by any other party shall not be construed to be a waiver of any covenant herein contained, and the waiver of any breach of covenant shall not be construed to be a waiver of any succeeding breach thereof.

Modification. Any modification of this TCP Agreement or additional obligations assumed by any party in connection with this TCP Agreement shall be binding only if evidenced in writing and signed by each party or an authorized representative of each party hereto.

Counterparts. This TCP Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all of which together shall constitute but one and the same instrument.

Recitals and Paragraph Headings. The recitals to this TCP Agreement are deemed to be an expression of the intent of the parties hereto, and to the extent the recitals create any duties for or obligations on the parties to this TCP Agreement, such recitals are deemed to be a part of the TCP Agreement. The titles to the paragraphs of this TCP Agreement are solely for the convenience of the parties and shall not be used to explain, modify, simplify or aid in the interpretation of this TCP Agreement.

Binding Effect. This TCP Agreement is binding on the parties hereto, and to their successors and assigns, including any parent or subsidiary corporation.

IN WITNESS WHEREOF, the parties hereto by their duly authorized representatives have executed this TCP Agreement as of the date first written above.

PHARMACY DISEASE MANAGEMENT PROGRAM AGREEMENT

THIS PHARMACY DISEASE MANAGEMENT PROGRAM AGREEMENT (PDM Agreement), is entered into this 1st day of July, 2013, by and between the North Dakota Public Employees Retirement System (NDPERS), a public agency created under North Dakota state law, and Blue Cross Blue Shield of North Dakota (BCBSND), a North Dakota nonprofit mutual insurance company, located at 4510 13th Avenue South, Fargo, North Dakota.

RECITATIONS:

WHEREAS, during the 2007 North Dakota legislative session, House Bill 1433 was passed and enacted into law, creating N.D.C.C. § 54-52.1-17. N.D.C.C. § 54-52.1-17 allows pharmacists and other qualified North Dakota health care providers to provide "disease state management" (DSM) to North Dakota public employees that suffer from chronic diseases and specifically have diabetes; and

WHEREAS, The North Dakota Pharmacy Service Corporation wants to offer a disease state management program of diabetes through delivery of services and support to individual North Dakota public employees (NDPERS Members) that have a chronic disease identified as diabetes (Type 1 or Type 2). To this end, the North Dakota Pharmacy Service Corporation desires to implement a program to increase access to health care, redefine how services are delivered, increase the participants' knowledgebase regarding their disease, increase the quality of life for participants, improve overall health status and medication adherence for their participants, and reduce health care costs on multiple levels for numerous interest groups; and

WHEREAS, the North Dakota Pharmacy Service Corporation in collaboration with the North Dakota Pharmacists Association, the North Dakota Society of Health-System Pharmacists, and North Dakota State University College of Pharmacy, Nursing and Allied Sciences, proposed an acting model to extend such disease management program to NDPERS Members; and

WHEREAS, NDPERS is interested in offering the services proposed by the acting model to NDPERS Members and reimbursing the North Dakota Pharmacy Service Corporation for the costs of administering this program out of the NDPERS reserve fund currently held in trust by BCBSND; and

WHEREAS, as it relates to this acting model diabetes disease management program, NDPERS is desirous of entering into this PDM Agreement to sponsor and extend the disease management program with BCBSND to administer certain facets of the program on behalf of NDPERS, including certain reporting requirements, program promotion, and cost reconciliation for the administration of the program based on the responsibilities of BCBSND in relation to its management of the NDPERS group health plan and the program objectives for monitoring and containing health care; and

WHEREAS, because BCBSND is contracted with NDPERS to provide health care benefits to NDPERS Members (as defined by the Administrative Services Agreement between NDPERS and BCBSND) (ASA Agreement), NDPERS has determined that BCBSND is best positioned to act as its agent in the administration of the diabetes disease management program.

NOW, WHEREFORE, in recognition of the mutual promises herein contained and for other good and valuable consideration hereby acknowledged by the parties hereto, NDPERS and BCBSND agree to the following.

I RECOGNIZING THE PHARMACY DISEASE MANAGEMENT PROGRAM.

BCBSND acknowledges and agrees that it has reviewed the diabetes disease management program established through N.D.C.C. § 54-52.1-17 and that the program as outlined provides services consistent with the wellness initiative reflected in the Administrative Services Agreement between BCBSND and NDPERS. BCBSND and NDPERS agree to extend the program through the term of this PDM Agreement.

II TERM.

This PDM Agreement shall begin on July 1, 2013, and shall extend to June 30, 2015.

III. SCOPE OF PROGRAM.

The duties and responsibilities of BCBSND in furtherance of the diabetes disease management program as outlined in this PDM Agreement shall be limited in nature as specifically set forth herein.

IV. FEES.

As a result of the responsibilities assigned to BCBSND under the terms of this PDM Agreement, BCBSND shall be paid a program promotion fee equal to its actual costs for its development and implementation of a plan to promote the diabetes disease management program contemplated through this PDM Agreement.

V. REPORTING. BCBSND agrees to provide the following reports:

A. Covered Drug List. A covered drug list with established criteria related to drugs by class.

B. NDPERS Member Eligibility List. A database to identify those NDPERS Members who appear to be eligible for the diabetes disease management program based on criteria developed and provided by NDPERS and/or its vendor, and on a monthly basis track those NDPERS Members eligible for the diabetes disease management program during the term of this PDM Agreement.

C. Co-Pay Report. A quarterly co-pay report that NDPERS and/or its vendor can use to reconcile appropriate co-pays incurred by eligible NDPERS Members to facilitate incentive payments under the diabetes disease management program, including coinsurance for diabetic testing supplies. BCBSND agrees to work with NDPERS to develop a reporting format that can be used by NDPERS and/or its vendor in administering the diabetes disease management program.

VI. PROMOTION.

Upon request and subject to approval by the NDPERS Board of Directors, BCBSND will provide promotional support for the diabetes disease management program services which may include but not be limited to agency notes, paycheck stuffers, e-mail notices, posters, and notices to home addresses to be distributed at periodic intervals throughout the term of this PDM Agreement. BCBSND shall be reimbursed its costs for these promotional activities and materials.

VII. PAYMENT RECONCILIATION.

Program costs such as provider payments, copay/coinsurance reimbursements and promotional charges are funded through the NDPERS cash reserve account maintained by BCBSND after authorization from NDPERS.

VIII. OTHER TERMS AND CONDITIONS.

The parties to this PDM Agreement acknowledge, understand and agree that the terms of the Administrative Services Agreement in place between NDPERS and BCBSND, including but not limited to terms that specifically relate to the administration, cancellation, termination and payment terms, are hereby incorporated into this PDM Agreement and applicable to this PDM Agreement related to the diabetes disease management program as if fully incorporated herein. This agreement is subject to specific funding provisions as set forth between the parties and as available, and are not subject to the final accounting provisions contained in the Administrative Services Agreement.

IX. GENERAL PROVISIONS.

The following general conditions, covenants and obligations apply equally to both NDPERS and BCBSND under the terms of this PDM Agreement.

Time is of the Essence. Time is of the essence of each provision of this entire PDM Agreement and all of its terms and conditions.

Notice. Any notice required or permitted under the terms of this PDM Agreement shall, in all cases, be construed under the notice provision in the ASA Agreement.

Assignment. No party may assign this PDM Agreement, or any of the obligations or duties mandated under the terms of this PDM Agreement, without the prior written consent of the other parties hereto.

Waiver. No delay or omission by any party to exercise any right or power under the terms of this PDM Agreement shall preclude the exercise of such right or power in subsequent instances or be construed to be a waiver thereof. A waiver by any party hereto of any of the covenants to be performed by any other party shall not be construed to be a waiver of any covenant herein contained, and the waiver of any breach of covenant shall not be construed to be a waiver of any succeeding breach thereof.

Modification. Any modification of this PDM Agreement or additional obligations assumed by any party in connection with this PDM Agreement shall be binding only if evidenced in writing and signed by each party or an authorized representative of each party hereto.

Counterparts. This PDM Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all of which together shall constitute but one and the same

instrument.

Recitals and Paragraph Headings. The recitals to this PDM Agreement are deemed to be an expression of the intent of the parties hereto, and to the extent the recitals create any duties for or obligations on the parties to this PDM Agreement, such recitals are deemed to be a part of the PDM Agreement. The titles to the paragraphs of this PDM Agreement are solely for the convenience of the parties and shall not be used to explain, modify, simplify or aid in the interpretation of this PDM Agreement.

Binding Effect. This PDM Agreement is binding on the parties hereto, and to their successors and assigns, including any parent or subsidiary corporation.

IN WITNESS WHEREOF, the parties hereto by their duly authorized representatives have executed this PDM Agreement as of the date first written above.

NDPERS WELLNESS BENEFIT PROGRAM AGREEMENT

THIS NDPERS WELLNESS BENEFIT PROGRAM AGREEMENT (Wellness Agreement), is entered into this 1st day of July, 2013, by and between the North Dakota Public Employees Retirement System (NDPERS), a public agency created under North Dakota state law, and Blue Cross Blue Shield of North Dakota (BCBSND), a North Dakota nonprofit mutual insurance company, located at 4510 13th Avenue South, Fargo, North Dakota.

RECITATIONS:

WHEREAS, the state of North Dakota, acting through NDPERS, and BCBSND, in an effort to create healthier lifestyles for NDPERS Members (as defined by the Administrative Services Agreement between the parties) (ASA Agreement) and to help contain health care costs, desire to promote, support and sponsor health and wellness initiatives; and

WHEREAS, pursuant to this Wellness Agreement, NDPERS and BCBSND have agreed to establish a Wellness Benefit Program related to health and wellness promotion for NDPERS Members subject to this Wellness Agreement; and

WHEREAS, the Wellness Benefit Program created through this Wellness Agreement between BCBSND and NDPERS anticipates there will be costs and fees associated with supporting such health and wellness programs provided to NDPERS Members and to be administered through this agreement with BCBSND.

NOW, WHEREFORE, in recognition of the mutual promises herein contained and for other good and valuable consideration hereby acknowledged by the parties hereto, NDPERS and BCBSND agree to the following.

I TERM.

The Wellness Benefit Program shall be effective from July 1, 2013 through June 30, 2015.

II. FUNDING.

The parties acknowledge, understand and agree that funding for the benefits and services extended through this Wellness Agreement shall be taken from the NDPERS cash reserve account maintained by BCBSND.

NDPERS agrees to pay costs associated with the benefits and services extended under this Wellness Agreement to BCBSND.

Program-related activities will be reimbursed based on the following schedule:

Calculation 1: 100% of the first $500 or actual program expenses, whichever is less, plus 75% of actual expenses in excess of $500 to a maximum benefit of $1,000

OR

Calculation 2: $2.00 multiplied by the number of contracts

The Wellness Committee will use the calculation that provides the best benefit to the state agency or political subdivision based on actual program expenses. The state agency or political subdivision will be responsible for expenses that exceed the maximum benefit allowed under either calculation method.

The parties acknowledge, understand and agree that the terms of the Administrative Services Agreement in place between NDPERS and BCBSND, including but not limited to terms that specifically relate to the administration, cancellation, termination are hereby incorporated into this Wellness Agreement and applicable to this Wellness Agreement as if fully incorporated herein except that the fees and charges provisions of the ASA Agreement currently existing between the parties, including fees set forth for various wellness programs as approved and funded, are subject to specific funding provisions as set forth between the parties and as available, and are not subject to the final accounting provisions contained in the Administrative Services Agreement.

III. OTHER TERMS AND CONDITIONS.

Applications for approval of benefits and services under the Wellness Benefit Program shall be submitted to the Bismarck NDPERS office to the attention of the Wellness Benefit Program Manager by each agency interested in establishing such a program.

A Wellness Committee shall be established to review any such applications submitted. The Wellness Committee shall be comprised of: two (2) NDPERS staff members, and one (1) BCBSND staff member. Upon appointment, the Wellness Committee shall establish criteria to ensure a uniform basis upon which it may grant or deny each agency application. Wellness benefits or healthy lifestyle programs, such as smoking cessation, nutrition, exercise, stress management, weight control, wellness education and the number of people affected by each program will be taken into consideration and shall be part of the criteria established by the Wellness Committee.

The applying agency will be notified by the Wellness Committee within thirty (30) days of application of the approval or denial of the proposed program.

Funds may either be distributed directly to the applying agency or, preferably, paid directly to the vendor providing said service or facilitating said Wellness Benefit Program.

All funds distributed shall be for Wellness Benefit Programs completed within the current 2013-2015 biennium budget.

Funds are available for agency group activities only and will not be available to specific individuals or to fund specific individual memberships in diet programs or health, athletic or fitness clubs.

Applying agencies that receive funds for a Wellness Benefit Program are required to submit to the Wellness Committee an evaluation of the sponsored program after its completion. The Wellness Committee will communicate an outline of the program funded and an evaluation of said program to

all state agencies and encourage participation in those programs showing positive results in wellness and healthy lifestyle habits.

IV. GENERAL PROVISIONS.

The following general conditions, covenants and obligations apply equally to both NDPERS and BCBSND under the terms of this Wellness Agreement.

Time is of the Essence. Time is of the essence of each provision of this entire Wellness Agreement and all of its terms and conditions.

Notice. Any notice required or permitted under the terms of this Wellness Agreement shall, in all cases, be construed under the notice provision in the ASA Agreement.

Assignment. No party may assign this Wellness Agreement, or any of the obligations or duties mandated under the terms of this Wellness Agreement, without the prior written consent of the other parties hereto.

Waiver. No delay or omission by any party to exercise any right or power under the terms of this Wellness Agreement shall preclude the exercise of such right or power in subsequent instances or be construed to be a waiver thereof. A waiver by any party hereto of any of the covenants to be performed by any other party shall not be construed to be a waiver of any covenant herein contained, and the waiver of any breach of covenant shall not be construed to be a waiver of any succeeding breach thereof.

Modification. Any modification of this Wellness Agreement or additional obligations assumed by any party in connection with this Wellness Agreement shall be binding only if evidenced in writing and signed by each party or an authorized representative of each party hereto.

Counterparts. This Wellness Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all of which together shall constitute but one and the same instrument.

Recitals and Paragraph Headings. The recitals to this Wellness Agreement are deemed to be an expression of the intent of the parties hereto, and to the extent the recitals create any duties for or obligations on the parties to this Wellness Agreement, such recitals are deemed to be a part of the Wellness Agreement. The titles to the paragraphs of this Wellness Agreement are solely for the convenience of the parties and shall not be used to explain, modify, simplify or aid in the interpretation of this Wellness Agreement.

Binding Effect. This Wellness Agreement is binding on the parties hereto, and to their successors and assigns, including any parent or subsidiary corporation.

IN WITNESS WHEREOF, the parties hereto by their duly authorized representatives have executed this Wellness Agreement as of the date first written above.

NDPERS Members Complete Sochi Fitness Challenge

More than 1,000 NDPERS members participated in the Walk to Sochi fitness challenge through HealthyBlue. They logged approximately 71,400 miles, which is enough to walk to Sochi, Russia and back to North Dakota—six times!

The challenge ran from Jan. 20 through Feb. 10 and was open to NDPERS members registered in HealthyBlue. Participants who registered and logged steps earned 300 HealthyBlue points.

Prevention, it's still the best medicine

Research shows that improving personal health habits can help prevent heart disease, cancer, stroke, injuries and other painful and costly conditions. Preventable diseases are taking a serious toll on our nation's health and health care system—robbing us of our quality of life and driving up costs.

Eating right, staying active, getting checkups, not smoking and using all the preventive benefits in your health plan are just a few examples of habits that can help you stay healthy and live longer.

- **Eat right and exercise.** Good nutrition and physical activity are essential to overall health, and can boost your brain as well as your brawn. Together, they give you energy, help you maintain a healthy weight, improve your mood and mental sharpness, and lower the risk of developing serious conditions like high blood pressure, high cholesterol, diabetes, heart disease and cancer.
  - Aim to fill half of your plate with fruits and vegetables. The rest of your plate should contain whole grains, lean meats and fish and calcium-rich foods. Avoid excessive amounts of salt, sugar and fats.
  - Try to exercise 30 minutes a day, five days a week.
- **Don't skimp on sleep.** Sleep makes you feel and function better and has many other physical and mental health benefits. Adults who get at least seven hours of quality sleep a night help protect themselves from the risk of heart disease, infections and obesity.
- **Kick bad habits.** Smoking and abusing alcohol or other drugs are high on the list of unhealthy habits that can cause serious medical problems.
- **Schedule annual exams.** Routine physicals and screenings help you stay on top of your health and catch problems early—before they lead to serious chronic health issues. And early detection often improves the chance for a successful recovery.
- **Keep up with immunizations.** Can't remember when you had your last tetanus shot? Adults need shots to prevent serious diseases. Find out what's recommended for your age group and protect yourself by keeping up to date.
- **Know your providers and help them know you.** Regular checkups and care are proven ways to prevent disease and help you stay healthy and live longer. If you don't already have a good relationship with a primary doctor, make an appointment to see one today. Ask about exams, tests and shots you may need. A primary care doctor who knows your health history and understands all your health care needs can help you catch health issues before they become serious.

Use your plan benefits to stay well

Depending on which health plan you have, it will include some, or all, of these benefits you can use to maintain your health:

- Blood pressure, diabetes and cholesterol tests
- Mammograms, colonoscopies and other cancer screenings
- Flu and pneumonia shots
- Online health and wellness tools
- Healthy pregnancy tips
- Disease management programs

Find more information at BCBSND.com/manage-my-benefits.

June is Men's Health Month

You can help all employees become more aware of preventable health problems that affect men and boys. Men die at higher rates from nine of the top 10 causes of death. What's more, men are far more likely to die in the workplace than women. Men make up 92 percent of workplace deaths.

- Visit http://www.menshealthmonth.org/ for great resources and tips on how to celebrate Men's Health Month.
- You can plan a Wear Blue Day at your workplace.

Choose your cover

Mother Nature is bringing us sunnier days and we are starting to spend more time outdoors. As we clean the yard, go for walks and attend sporting events, it's important we remember to "choose our cover."

We can pack up the stocking hats, gloves and winter coats—our skin needs new cover this spring and summer. Skin cancer is the most common form of cancer in the United States.

Skin cancer can be prevented. The best way to lower your skin cancer risk is to choose your cover:

- See shade from UVC rays, especially during midday.
- Cover up to protect exposed skin—wear lightweight, long-sleeved shirts
- Wear a hat with a wide brim
- Grab sunglasses that block both UVA and UVB rays.
- Apply sunscreen of at least SPF 30 and both UVA and UVB protection 15-30 minutes before sun exposure. Reapply every two hours.
- Wear UVA/UVB lip balm with SPF 30 or greater.

Make sure your family members choose their cover as well, especially our littlest ones. Make sure they are covered at daycare, while at recess and attending sporting events.

For more information, visit the North Dakota Cancer Coalition website. To learn more information about skin self-exams, visit the American Cancer Society website.

Protect your skin from sun damage.

Let your employees know that they can redeem their HealthyBlue points to purchase a Pebble.

Lt. Governor's Award applications due Aug. 1

The Lt. Governor's Award is a worksite wellness award that recognizes NDPERS agencies for their accomplishments in wellness. Healthy North Dakota provides the award.

Applications are due Aug. 1. Look for more information in the July NDPERS newsletter.

Healthy Recipes

Baked vegetable chips with yogurt Ranch dip

Try this fun, nutritious snack from the American Diabetes Association: Baked vegetable chips with yogurt Ranch dip.

These homemade veggie chips make a tasty snack. You can also experiment with other vegetables in this recipe like squash, beets or golden potatoes.

Prep Time: 20 minutes

This recipe serves 4

Ingredients

1 medium zucchini
1 medium parsnip
1 medium sweet potato, peeled
1 teaspoon salt (optional)
1/2 cup non-fat plain Greek yogurt
1/3 cup skim milk
2 tablespoons ranch dressing powder mix

Instructions

Preheat the oven to 200 degrees F. Coat three baking sheets with cooking spray. Set aside.

Slice the zucchini, parsnip, and sweet potato into 1/8 inch thick round slices. Use a mandolin for easy and consistent slicing.

Line one baking sheet with the sweet potato slices in a single layer. Line a second baking sheet with the zucchini in a single layer, and the third sheet with parsnips in a single layer. Spray the vegetables with cooking spray and season them with salt (optional).

Bake for 1 hour and then rotate the baking sheets. Bake until the vegetables are crisp and dry, about 30 to 60 minutes more.

Baking your own vegetable chips is easy and fun.

Stacy Duncan
NDPERS Wellness Consultant
Phone: 701-277-2884
Fax: 701-277-2292
Email: stacy.duncan@bcbsnd.com

While the vegetables are baking, whisk together the yogurt, milk, and ranch powder. Refrigerate the ranch dip until needed.

Let the vegetable chips cool before serving. Once the chips have cooled completely, store them in an airtight container.

Coming up in July

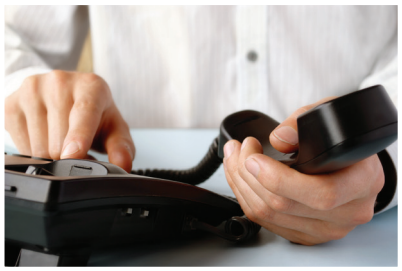
Consider promoting these events next month!

- UV Safety Month
- Fireworks Safety Month
- Juvenile Arthritis Awareness Month

A Partnership for Worksite Wellness

NDPERS and BCBSND are working together to support and provide you and your fellow employees the opportunity to have a healthier and more engaged worksite through Worksite Wellness tools. We appreciate feedback on all our wellness tools to serve your worksite better and welcome your suggestions.

Please take time to fill out surveys we may submit to you from time to time to evaluate these programs.



Don't forget to mark your calendar for the WC calls and webinars.

To: Carlson, Al H.
Subject: Amendments - HB 1436

Representative Carlson-

The following is a summary of the amendments to HB 1436 which will be sent to you and Representative Keiser tonight.

EMPLOYEE BENEFITS PROGRAMS COMMITTEE:

- Maintains the current membership of the EBPC;
- Limits activities of the EBPC to the interim between regular legislative sessions;
- Limits EBPC bill draft review so no longer reviewing bill drafts of individual legislators, but instead limit review to Executive and Judicial branch bill proposals and proposals of Legislative Management committees;
- Directs legislative standing committees to do reports on bills and amendments during legislative sessions;
- Expands duties of EBPC to include:
    - Quarterly meetings during interim;
    - Receipt of quarterly reports from PERS;
    - Receipt of executive budget proposals from PERS before each regular legislative session; and
    - Investigate possible changes to PERS plans.

PERS UNIFORM GROUP PLANS:

- Codifies in the PERS law that all PERS uniform group plan contracts and contract terms are subject to legislative appropriation and legislative changes;
- Clarifies under a self-funded health plan, the plan the Retirement Board is required to establish in transitioning to self-funded, may include consideration of funds extended to the Board by the Bank of North Dakota (per PERS testimony); and
- Clarifies the January 1, 2018, legislative directive to transition to a self-funded plan does not include the PERS retiree plan or the Medicare Part D plan (per PERS testimony).

I printed off a copy of the current PERS contract, and will spend some time reading through it to identify how the contract addresses legislative changes.

Let me know if you have any additional questions or concerns-

Jenn

Sixty-fifth
Legislative Assembly
of North Dakota

HOUSE BILL NO. 1436

Introduced by

Representatives Carlson, Bellew, Kasper, Keiser, Streyle, Vigesaa

Senators Bekkedahl, Casper, Laffen, Schaible

(Approved by the Delayed Bills Committee)

A BILL for an Act to amend and reenact sections 54-35-02.4, 54-52.1-04, 54-52.1-04.2, and 54-52.1-04.3 of the North Dakota Century Code, relating to the employee benefits program committee, public employee uniform group insurance health benefits coverage, and to provide for a retirement board line of credit; to provide a continuing appropriation; to provide for application; and to provide statements of legislative intent.

BE IT ENACTED BY THE LEGISLATIVE ASSEMBLY OF NORTH DAKOTA:

SECTION 1. AMENDMENT. Section 54-35-02.4 of the North Dakota Century Code is amended and reenacted as follows:

54-35-02.4. Employee benefits programs committee - Standing committees - Powers and duties.

1. ~~The~~During the interim between regular legislative sessions, the employee benefits programs committee shall ~~consider~~:

   a. Meet at least quarterly at the discretion of the chairman.

   b. Receive quarterly reports from the public employees retirement system on the activities of the public employees retirement system, including the status of and any proposed changes to its retirement system plans and uniform group insurance plans. Before each regular legislative session, the pubic employees retirement system shall present to the committee the executive budget proposals, including any anticipated changes, relating to retirement plans and uniform group insurance plans administered by the public employees retirement system. The committee shall consider and report on these activities and executive budget proposals.

   c. Investigate the feasibility and desirability of making changes to the retirement plans and uniform group insurance plans administered by the public employees

retirement system. The committee may request actuarial reports on the actuarial impact of possible changes and of plan design options.

d. Consider and report on ~~those~~ legislative ~~measures and~~ proposals sponsored by the executive branch, judicial branch, and legislative management over which ~~it~~the committee takes jurisdiction and which affect, actuarially or otherwise, the retirement programs of state employees or employees of any political subdivision, and health and retiree health plans of state employees or employees of any political subdivision. The committee shall make a thorough review of ~~any~~a ~~measure or~~a legislative proposal over which ~~it~~the committee takes ~~under its~~ jurisdiction, including an actuarial review. ~~The committee shall take~~

e. Take jurisdiction over any ~~such measure or~~such legislative proposal that authorizes an automatic increase or other change in benefits beyond the ensuing biennium which would not require legislative approval. The committee ~~must~~shall include in the report of the committee a statement ~~that~~ the proposal would allow future changes without legislative involvement. ~~The committee shall report its~~

f. Report the committee's findings and recommendations, along with any necessary legislation, to the legislative management and to the legislative assembly.

2. To carry out its responsibilities, the committee, or its designee, may:

a. Enter contracts, including retainer agreements, with an actuary or actuarial firm for expert assistance and consultation. Each retirement, insurance, or retiree insurance program shall pay, from its retirement, insurance, or retiree health benefits fund, as appropriate, and without the need for a prior appropriation, the cost of any actuarial report required by the committee or a standing committee as provided under subsection 6 which relates to that program.

b. Call on personnel from state agencies or political subdivisions to furnish such information and render such assistance as the committee may from time to time request.

c. Establish rules for ~~its~~ operation of the committee, including the submission and review of proposals and the establishing of standards for actuarial review.

3. ~~The~~During the interim between regular legislative sessions, the committee may solicit draft ~~measures and~~legislative proposals from ~~interested persons during the interim~~

~~between legislative sessions~~the executive branch, judicial branch, and legislative management, and may also study measures and proposals referred to ~~it~~the committee by the legislative assembly or the legislative management.

4. ~~A copy of the committee's report concerning any legislative measure shall, if that~~~~If a legislative measure or~~If a legislative proposal over which the committee took jurisdiction under subsection 1 is introduced for consideration by a legislative assembly, a copy of the related committee report must be appended to the copy of that measure ~~which is~~ referred to a standing committee.

5. A legislative measure affecting a public employees retirement program, public employees health insurance program, or public employee retiree health insurance program may not be ~~introduced~~submitted by the executive branch, judicial branch, or legislative management for introduction in either house unless ~~it~~the measure is accompanied by a report from the committee. A majority of the members of the committee, acting through the chairman, has sole authority to determine whether ~~any~~a legislative measure affects a program.

6. ~~Any~~During a legislative session, if a standing committee takes action on a legislative measure sponsored by a legislator or recommends an amendment ~~made during a legislative session~~ to a legislative measure ~~affecting~~which would affect a public employees retirement program, public employees health insurance program, or public employee retiree health insurance program ~~may not be considered by a standing committee unless it is accompanied by a report from the employee benefits programs committee~~, the standing committee shall consider the impact, actuarily or otherwise, of the amendment and may request the affected program provide an analysis of the impact of the amendments. If an affected program provides an analysis under this subsection, the program may pay for the analysis in the same manner as provided under subdivision a of subsection 2.

~~7. Any legislation enacted in contravention of this section is invalid and of no force and effect, and any benefits provided under such legislation must be reduced to the level current prior to enactment.~~

SECTION 2. AMENDMENT. Section 54-52.1-04 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04. Board to contract for insurance.

1. The board shall receive bids for the providing of hospital benefits coverage, medical benefits coverage, life insurance benefits coverage for a specified term, and employee assistance program services; may receive bids separately for prescription drug coverage; and shall accept one or more bids of and contract with the carriers ~~that in the judgment of~~ the board determines best ~~serves~~serve the interests of the state and ~~its~~the state's eligible employees. Solicitations must be made not later than ninety days before the expiration of an existing uniform group insurance contract. Bids must be solicited by advertisement in a manner selected by the board ~~that~~which will provide reasonable notice to prospective bidders. In preparing bid proposals and evaluating bids, the board may utilize the services of consultants on a contract basis ~~in order that~~to provide the bids received may be uniformly compared and properly evaluated. In determining which bid, if any, will best serve the interests of eligible employees and the state, the board shall give adequate consideration to the following factors:
   ~~1.~~ a. The economy to be effected.
   ~~2.~~ b. The ease of administration.
   ~~3.~~ c. The adequacy of the coverages.
   ~~4.~~ d. The financial position of the carrier, with special emphasis ~~as to its~~on the solvency of the carrier.
   ~~5.~~ e. The reputation of the carrier and any other information ~~that is~~ available tending to show past experience with the carrier in matters of claim settlement, underwriting, and services.
2. The board may reject any or all bids ~~and, in the event it does so,~~received under this section. If the board rejects all bids received, the board shall again solicit bids as provided in this section. ~~The~~
3. Under section 54-52.1-04.1 or 54-52.1-04.2, the board may contract with a health maintenance organization or establish a plan of self-insurance ~~for providing health insurance~~to provide hospital, medical, or prescription drug benefits coverage ~~only under an administrative services only (ASO) contract or a third-party administrator (TPA) contract~~.

4. A contract and the terms of a contract entered by the board under this chapter are subject to legislative appropriation and legislative changes.

SECTION 3. AMENDMENT. Section 54-52.1-04.2 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04.2. Self-insurance plan for hospital ~~and~~, medical, and prescription drug benefits coverage.

1. ~~The board may establish~~This section applies to a self-insurance plan for ~~providing:~~
   ~~a.~~ ~~Health insurance~~hospital, medical, and prescription drug benefits coverage;
   ~~b.~~ ~~Health insurance~~hospital and medical benefits coverage, excluding all or part of prescription drug benefits coverage; or
   ~~c.~~ ~~All~~all or part of prescription drug benefits coverage. The board shall establish a self-insurance plan under this section if so directed by the legislative assembly. The board may establish a self-insurance plan under this section if the board determines a self-insurance plan is less costly than the lowest bid submitted by a carrier for underwriting the plan with equivalent contract benefits.
2. ~~Any~~A self-insurance plan established by the board under this section must be provided under an administrative services only (ASO) contract or a third-party administrator (TPA) contract under the uniform group insurance program~~, and may be established only if it is determined by the board that an administrative services only or third-party administrator plan is less costly than the lowest bid submitted by a carrier for underwriting the plan with equivalent contract benefits. Upon establishing~~.
3. If the board establishes a self-insurance plan, the ~~board shall solicit bids for an~~term of the contract for administrative services only or a third-party administrator ~~contract only every other biennium, and the board is authorized to~~must be for two years and the board may renegotiate ~~an existing administrative services only or third-party administrator contract during the interim. In addition,~~the contract for one additional two-year term. The board shall solicit bids for the contract for administrative services only or a third-party administrator at least once every four years. If the board establishes a self-insurance plan, the board shall make individual stop-loss coverage insured by a carrier authorized to do business in this state ~~must be made~~ part of ~~any self-insured~~the plan. ~~All bids under this section are due no later than January first, and~~

~~must be awarded no later than March first, preceding the end of each biennium.~~ If the board solicits bids under this section, the board shall solicit bids for a contract for insurance or a health maintenance organization, or both. The board may transition from a self-insurance plan to a contract for insurance or a health maintenance organization if the board determines the self-insurance plan costs more than the lowest bid submitted for a contract or health maintenance organization plan with comparable benefits. All bids received by the board under this section must be opened at a public meeting of the board.

SECTION 4. AMENDMENT. Section 54-52.1-04.3 of the North Dakota Century Code is amended and reenacted as follows:

54-52.1-04.3. Self-insurance - Contingency reserve fund - Continuing appropriation - Bank of North Dakota line of credit.

~~The~~

1. If the board establishes a self-insurance plan under section 54-52.1-04.2, the board shall establish ~~under a self-insurance plan~~ a contingency reserve fund to provide for adverse fluctuations in future charges, claims, costs, or expenses of the uniform group insurance program. ~~The~~Annually, the board shall determine the amount necessary to provide a balance in the contingency reserve fund between one and one-half months and three months of claims paid based on the average monthly claims paid during the preceding twelve-month period ~~immediately preceding March first of each year~~. ~~The~~Annually, the board ~~also~~ shall determine the amount necessary to provide an additional balance in the contingency reserve fund between one month and one and one-half months for claims incurred but not yet reported. The board may arrange for the services of an actuarial consultant to assist the board in making these determinations.
2. Upon the initial changeover from a contract for insurance ~~pursuant to~~under section 54-52.1-04 or a health maintenance organization under section 54-52.1-04.1, to a self-insurance plan ~~pursuant to~~under section 54-52.1-04.2, the board ~~must have~~shall adopt a plan ~~in place which is~~ reasonably calculated to meet the funding requirements of this chapter within sixty months. Such plan may include consideration of funds extended to the board from the Bank of North Dakota. All moneys in the contingency

reserve fund, not otherwise appropriated, are appropriated for the payment of claims and other costs of the uniform group insurance program during periods of adverse claims or cost fluctuations. If the board transitions from a self-insurance plan to a contract for insurance or a health maintenance organization, the board shall adopt a plan reasonably calculated to meet the remaining liabilities of the self-insurance plan.

3. The Bank of North Dakota shall extend to the board a line of credit not to exceed fifty million dollars at an annual rate not to exceed one and three-quarters percent. The board shall repay the line of credit from health insurance premium revenue or from other funds, as appropriated by the legislative assembly. The board may access the line of credit, as necessary, to provide adequate reserve funds, to purchase stop-loss coverage, and to defray other expenditures of administration of the self-insurance plan.

SECTION 5. SELF-INSURANCE HEALTH PLANS - APPLICATION - STATEMENT OF LEGISLATIVE INTENT.

1. The retirement board shall establish a self-insurance plan for hospital, medical, and prescription drug benefits coverage under section 54-52.1-04.2, except for benefits for retirees and for Medicare part D. The self-insurance plan becomes effective January 1, 2018, is effective for a term of eighteen months, is subject to renewal and rebidding as provided under section 54-52.1-04.2, and must be based on the same plan design and benefits as the coverage in effect on July 1, 2017.
2. A uniform group insurance program contract for hospital, medical, and prescription drug benefits coverage in effect on the effective date of this Act terminates on December 31, 2017, after which the self-insurance plan under subsection 1 becomes effective.
3. Notwithstanding any law to the contrary, it is the intent of the sixty-fifth legislative assembly that the uniform group insurance program contract for hospital, medical, and prescription drug benefits coverage signed by the retirement board which becomes effective July 1, 2017, be limited in duration to a six-month term.

SECTION 6. HEALTH INSURANCE RESERVE FUND. The retirement board shall use available moneys in the fund created under section 54-52.1-06 for the purpose of financing the self-insurance plan established under section 5 of this Act.

SECTION 7. EXEMPTION. This Act is not subject to review by the employee benefits programs committee under section 54-35-02.4.

EMPLOYEE BENEFITS PROGRAMS COMMITTEE
REPORT TO THE 65TH LEGISLATIVE ASSEMBLY
REGARDING HOUSE BILL NO. 1436 AND
PROPOSED AMENDMENTS TO HOUSE BILL NO. 1436

Date: March 23, 2017

Original LC#: 17.1008.03000

Sponsor: Representative Carlson

Proposal: Requires the uniform group insurance program to become self-insured for an 18-month period beginning January 1, 2018, and ending June 30, 2019. The bill would change the duration of the coverage period beginning July 1, 2017, to 6 months. The bill also establishes a $50 million line of credit through the Bank of North Dakota that the Public Employees Retirement System (PERS) Board can use to fund reserves, purchase stop-loss coverage, or pay for other self-insurance expenses.

Proposed amendments to House Bill No. 1436 [17.1008.03001] limit activities of the Employee Benefits Programs Committee to the interim between regular legislative sessions and expand the duties of the committee to include quarterly meetings during the interim, receipt of quarterly reports from PERS, receipt of executive budget proposals from PERS before each regular legislative session, and investigation of possible changes to PERS plans.

Actuarial Analysis: The consulting actuary reported PERS would take on additional risk by becoming self-insured. The actuary reported PERS contingency reserves currently hold approximately $35 million and would require an additional $5 million to $6 million to meet the minimum reserve requirement. The actuary reported aggregate stop loss coverage at 120 percent could be purchased for $0.50 to $1.00 per contract per month. However, in the event that a 120 percent aggregate stop loss claim is made, PERS will have lost its entire contingency reserve as well as an additional 7.5 percent, or approximately $25 million.

The consulting actuary also reported if PERS becomes self-insured, the number of vendor contracts will increase the agency's administrative burden and would allow 2 additional staff positions to assist with the administration of self-insurance.

Committee Report: Unfavorable recommendation

Cheryl Stockert
Manager, Administrative Services
North Dakota PERS
400 East Broadway
Suite 505
Bismarck, ND 58502

Dear Ms. Stockert:

I am pleased to submit the enclosed proposal on behalf of Blue Cross Blue Shield of North Dakota (BCBSND) for the North Dakota Public Employees Retirement System (NDPERS). Our collaborative relationship is reflected in this proposal, as we work together to address both the cost of providing quality health care coverage and ways to encourage a healthier population among what is our largest group in North Dakota.

Our organization is committed to providing you with the best value, including:

- Unrivaled provider access with a network of over 99% of North Dakota providers supplemented with BlueCard, Blue Cross Blue Shield's broad national network.
- Dedicated service team while maintaining low administrative costs.
- Over 800 North Dakota based employees providing local service and expertise.

This proposal offers an enhanced innovative alternate profit sharing financial settlement option with NDPERS, as well as options representing solutions to holding down costs while encouraging maintaining good health:

- Focus on wellness; in depth detail is included on the wellness programs we have created specifically for NDPERS and are facilitating to encourage a culture of prevention rather than treatment such as the dedicated HealthyBlue portal for NDPERS.
- Pharmacy benefits management and options; with pharmacy costs constantly rising, additional options and guarantees around pharmacy coverage are included such as discounts, fees and rebates. The cost proposal is also priced with and without the pharmacy coverage.
- Quality and outcome based collaboration with providers; successful collaboration with providers continues to move North Dakota's health system toward compensation based on outcomes and quality rather than just paying a fee for service. Total Cost of Care contracts with the integrated health care systems and our innovative medical home program MediQHome are ongoing initiatives based on collaboration.

BCBSND has the staffing, infrastructure and contracts in place to ease the administration of the NDPERS Health plans and Wellness programs, without member disruption.

On behalf of BCBSND, I acknowledge receipt of the group health request for proposal (RFP) specifications and addenda, and confirm that the BCBSND proposal enclosed conforms to the RFP minimum requirements.

Finally, I want to sincerely and personally thank you and everyone at NDPERS for the long relationship our organizations enjoy, and look forward to further discussions regarding our proposal.

Sincerely,

Tim Huckle
President and CEO

2. Minimum Requirements (please identify if you would be able to meet this existing service and if not what you would propose).

Minimum Requirements	Response
Electronic Data Collection and Reporting Requirements: Respondents must, at a minimum, meet the data collection and reporting requirements described in Section 1 under Reporting Requirements of the RFP.	As the incumbent, BCBSND will continue to meet all NDPERS data collection and reporting requirements described in Section 1 under Reporting Requirements.
Vendor must be able to take current 834 electronic enrollment file (containing member eligibility) at no cost.	As the incumbent, BCBSND will continue to take current electronic enrollment at no cost.
Effective Date of Coverage: Respondents must be able to provide required coverages and services by July 1, 2015 and January 1 2016 for the PDP.	Acknowledged and Agreed.
Licensure: Respondents must have all applicable licenses required by North Dakota or agree to obtain necessary licensure prior to the effective dates of coverage.	BCBSND currently meets all necessary license requirements.
Term of Contract: NDPERS is required by state statute to solicit bids for medical benefit coverage for a specified term for a fully-insured arrangement and every other biennium for a self-funded arrangement. NDPERS has determined that the specified term for fully-insured arrangement shall be six years subject to two year renewals; however, NDPERS reserves the right to extend the agreement subject to negotiation with the successful vendor for another two years if the Board deems it necessary.	Acknowledged and Agreed.
Premium Rate Guarantees: For all insured proposals premium rates must be guaranteed for a period of two years, from July 1, 2015 to June 30, 2017 PDP rates will be developed each year based upon the federal subsidy.	Acknowledged and Agreed. BCBSND reserves the right to adjust premium rates and applicable benefits with 90 days notice based on any significant benefit changes or new taxes applied due to federal or state regulations.
PDP rates: Must be submitted to NDPERS by September of each year.	BCBSND typically submits the renewal rates in August for NDPERS Board review with Board approval no later than their September meeting. We will continue to submit no later than September of each year.
Non-Medicare Retirees: Rates are governed by state statue. Non-Medicare retiree single rate is 150% of the active member single rate; the rate for a non-Medicare retiree plus one is twice the non-Medicare single rate, and the rate for a non-Medicare retiree plus two or more dependents is two and one-half times the non-Medicare retiree single rate.	Acknowledged and Agreed.

Minimum Requirements	Response
Renewals: Renewals must be submitted to NDPERS in August of the year preceding the contract renewal date and in September of each year for the PDP.	Acknowledged and Agreed.
Contract Termination: Respondent's contract termination provision may not require more than 120-day notice and can occur only at renewal. NDPERS can terminate coverage at any time.	Acknowledged and Agreed.
Replicate Coverage: Respondent should replicate the existing coverage and financial terms for two years including an HSA arrangement. Variances and exceptions to existing coverage can be offered in appendix F item F2.	Acknowledged and Agreed. BCBSND has the ability to replicate all aspects of the current program. The only variations are based on state and federal law to comply with regulatory updates. These variations are noted in Appendix F – Deviations.
Legislative Compliance: Respondents agree to comply with all provisions of the Health Insurance Portability Act of 1996 including, but not limited to providing certificates of creditable coverage. Respondents must also be in compliance with all HIPAA Privacy and HIPAA EDI requirements and be able to conduct all applicable employer/plan sponsor and provider transactions consistent with those requirements. Respondents will be expected to meet HIPAA security requirements when applicable to NDPERS. Respondents will also be expected to be in compliance with all ACA requirements.	BCBSND currently meets all applicable provisions of Part I of the Health Insurance Portability and Accountability Act of 1996 that apply to health insurance carriers as required and that pertain to the NDPERS uniform group insurance program including, but not limited to, providing certificates of creditable coverage, and agrees to comply with any provisions that may be changed or amended in the future, including any requirements imposed through the ACA. BCBSND also currently complies with all HIPAA Part II Privacy and HIPAA Part II EDI requirements and conducts all applicable employer/plan sponsor and provider transactions consistent with these requirements. BCBSND currently meets insurance carrier HIPAA security requirements when applicable to NDPERS. BCBSND implemented the requirements of the HIPAA privacy rule as of April 13, 2003, as required under federal law, and the Electronic Transactions and Code Set Standards were implemented by the October 16, 2003, extended compliance date. The NPI standard was implemented on May 23, 2008. Requirements of the HIPAA security rule were implemented by April 20, 2005, and BCBSND is compliant with the provisions recently enacted under HITECH. BCBSND currently meets all applicable provisions of the ACA that have become effective and apply to health insurance carriers as required and that pertain to the NDPERS uniform group insurance program including, but not limited to, early implementation requirements and other provisions as these become required, and agrees to comply with any provisions that may be changed or amended in the future.

Minimum Requirements	Response
Transition Management: Respondents agree, should they be selected, they will proactively manage the transition of coverage (e.g. claim accumulators, lifetime maximums, etc.) from the subsequent carrier.	As the incumbent, this is not applicable.
Administration: Respondents must agree to comply with existing administration of NDPERS. Any modifications needed to accommodate NDPERS data will be done at the vendor's own expense.	Acknowledged and Agreed.
Audit: NDCC 54-52-04 (10) relating to the audit authority of NDPERS.	BCBSND acknowledges the authority of the board contained in Section 54-52-04(4), N.D.C.C., and is prepared to comply with these requirements subject to any limitations or restrictions imposed under federal law and to agreements in place between BCBSND and any third-party vendor performing administrative services on behalf of BCBSND. BCBSND agrees to submit to the audit authority of NDPERS set forth in Section 54-52-04(4), N.D.C.C., subject to any contract limitations existing at the time of the submission of BCBSND responses to this RFP contained in agreements existing between BCBSND and its vendors or providers during the terms of the health insurance included in this proposal. For the purposes of this provision, the term "providers" shall mean any vendors under contract with BCBSND to provide benefits and/or services utilized in the administration of the NDPERS uniform group insurance program. This term shall not be interpreted to permit any direct audit of health care providers under contract with BCBSND. Subject to the provisions set forth above, BCBSND will work with NDPERS to audit within reason (i.e. time, expense and frequency). In 2010, BCBSND allowed an audit of Prime Therapeutics for NDPERS pharmacy claims. The purpose of the audit completed by Tricast was to insure claims adjudication accuracy, proper rebate administration and pharmacy network performance. The audit results reported to the NDPERS Board were very favorable.

Minimum Requirements	Response
North Dakota Legislation Requirements: Respondent must meet all requirements in the North Dakota Century Code including 54-52; 54-52.1, 54-52.4 and all requirements in the North Dakota Administrative Code including 71-03 and other applicable State Laws. Specific recognition of 54-52.1-12 should be acknowledged	BCBSND agrees to meet all requirements of the North Dakota Century Code included in chapter 54-52.1, N.D.C.C., and all corresponding requirements in the North Dakota Administrative Code, including chapter 71-03, N.D.A.C., and other applicable state Laws pertaining to the administration of the NDPERS uniform group insurance program, subject to any limitations or restrictions imposed under federal law and those contained in the agreements in place between BCBSND and any third-party vendor performing administrative services or extending covered services on behalf of BCBSND to NDPERS. BCBSND extends specific recognition of and acknowledges Section 54-52.1-12, N.D.C.C., related to the ownership of medical records and related data of NDPERS employees, retirees and dependents, again subject to any limitations or restrictions imposed under federal law or contained in the agreements in place between BCBSND and any third-party vendor performing administrative services or extending covered services on behalf of BCBSND to NDPERS, particularly the directives included in the HIPAA privacy requirements as these relate to covered entities and the ownership, use and control of such data.
Ability to meet the specifications outlined in the RFP unless specifically noted	Acknowledged and Agreed.
Premium rates must be divisible by two.	Acknowledged and Agreed.
Subject matter experts and other appropriate personnel will be available to attend board meetings, legislative hearings, etc. as needed.	BCBSND teams of subject matter experts are available to NDPERS to attend board meetings, legislative hearings, etc. Our team of local professionals includes clinical, legal, compliance, actuarial, IT, and marketing. Your dedicated Account Manager will facilitate any requested attendance on behalf of NDPERS.

3. Affidavit of Non-collusion

I swear (or affirm) under the penalty of perjury:

1. That I am the Responder (if the Responder is an individual), a partner in the company (if the Responder is a partnership), or an officer or employee of the responding corporation having authority to sign on its behalf (if the Responder is a corporation);

2. That the attached proposal submitted in response to the Group Medical Coverage Request for Proposals has been arrived at by the Responder independently and has been submitted without collusion with and without any agreement, understanding or planned common course of action with, any other Responder of materials, supplies, equipment or services described in the Request for Proposal, designed to limit fair and open competition;

3. That the contents of the proposal have not been communicated by the Responder or its employees or agents to any person not an employee or agent of the Responder and will not be communicated to any such persons prior to the official opening of the proposals; and

4. That I am fully informed regarding the accuracy of the statements made in this affidavit.

Responder's Firm Name: Noridian Mutual Insurance Company

Authorized Signature: 
Date: 8/29/2014

Subscribed and sworn to me this _____ day of _____

Notary Public: _____

My commission expires: _____

4. Conflicts of Interest List

Responders must provide a list of all entities with which it has relationships that create, or appear to create, a conflict of interest with the work that is contemplated in this request for proposals. The list should indicate the name of the entity, the relationship, and a discussion of the conflict.	To the best of our knowledge, BCBSND is not aware of any entities with which we have a relationship that creates, or appears to create, a conflict of interest with the work contemplated in this proposal.

5. Compliance with Federal and State Laws Form

NDPERS — Federal and State Law Compliance Certification

1. The company shown below is or will be in compliance with Federal and State laws and does not knowingly violate North Dakota or United States Laws. The company shown below will obtain this certification from all subcontractors who will participate in the performance of this contract; and

I certify that the company shown below is in compliance with items 1 above and that I am authorized to sign on its behalf.

Name of Company: Noridian Mutual Insurance Company Date: 8/29/14

Authorized Signature:  Telephone Number: (701) 282-1539

Printed Name: Tim Huckle Title: President and CEO

6. Location of Service Disclosure and Certification

STATE OF NORTH DAKOTA

LOCATION OF SERVICE DISCLOSURE AND CERTIFICATION

LOCATION OF SERVICE DISCLOSURE

Check all that apply:

❑ The services to be performed under the anticipated contract as specified in our proposal will be performed ENTIRELY within the State of North Dakota.

❑ The services to be performed under the anticipated contract as specified in our proposal entail work ENTIRELY within another state within the United States.

✔ The services to be performed under the anticipated contract as specified in our proposal will be performed in part within North Dakota and in part within another state within the United States.

❑ The services to be performed under the anticipated contract as specified in our proposal DO involve work outside the United States. Below (or attached) is a description of

(1) the identity of the company (identify if subcontractor) performing services outside the United States;

(2) the location where services under the contract will be performed; and

(3) the percentage of work (in dollars) as compared to the whole that will be conducted in each identified foreign location.

CERTIFICATION

By signing this statement, I certify that the information provided above is accurate and that the location where services have been indicated to be performed will not change during the course of the contract without prior, written approval from the State of North Dakota.

Name of Company: Noridian Mutual Insurance Company

Authorized Signature: 
Printed Name: Tim Huckle

Title: President and CEO

Date: 8/29/14

Telephone Number: (701) 282-1539

Appendix C:
Questionnaire

Appendix C:

Questionnaire

In order for your proposal to be considered and accepted, your organization must provide answers to the questions presented in this section. Each question must be answered specifically and in detail. Include both the question and the answer in your proposal response. An electronic copy of this questionnaire has been provided to facilitate your response.

Reference should not be made to a prior response unless the question involved specifically provides such an option. Proposers should refer to the earlier sections of this RFP before responding to any of the questions, to ensure that you have a complete understanding of the requirements with respect to your organization's proposal.

Vendors may include additional information that you consider relevant or useful to NDPERS. However, responses to all of the questions set forth below must be provided.

NDPERS is interested in evaluating financial agreements based on the traditional approach to PBM pricing and pricing under a transparent arrangement. "Traditional" financial proposals should include guaranteed effective rate discounts, as well as specific fees and guaranteed rebate dollar amounts. "Transparency" for purposes of the Request for Proposal is defined as a full pass through to NDPERS of all monies paid to the PBM arising from all contracted arrangements. **When answering questions and completing exhibits related to your financial proposal please indicate if you're answer would differ under a transparent or a traditional pricing arrangement.** NDPERS will give preference to transparent proposals.

If this proposal results in your company being awarded a contract and if, in the preparation of that contract, there are inconsistencies between what was proposed and accepted versus the contract language that has been generated and executed, any controversy arising over such discrepancy will be resolved in favor of the language contained in the proposal or correspondence relating to your proposal. Vendors are reminded that **any and all deviations must be clearly identified and described in the RFP and the deviations worksheet provided in Appendix F.**

The questionnaire is broken down into the following 13 (thirteen) categories:

- Organizational Background, Strength, and Experience
- Implementation and Account Management
- Communications and Website
- Plan Administration
- Eligibility and Billing
- Customer/Member Service
- Claims Administration
- Reporting
- Case/Utilization Management
- Health Risk Management and Wellness Programs
- Provider Network
- Performance Standards and Guarantees
- Pharmacy Benefits Management Services

BCBSND has provided comprehensive responses to all questions presented. BCBSND has provided additional detail to certain questions that we believe would be pertinent to NDPERS in the evaluation process.

Transparent (Pass-Through) Pricing Summary

Two standard types of Pharmacy offers are most common in the Pharmacy Benefit Manager (PBM) industry: Traditional and Pass-through.

Traditional pharmacy bids are typically characterized by "Spread" pricing where by the PBM will offer flat discount and dispensing fee guarantees accompanied by a $0 or very low fixed cost. The "Spread" represents the difference in discount quoted to the employer group versus the actual reimbursement by the PBM to the pharmacy. This Spread can be applied to both Brand and Generic drugs and dispensing fees and is a source of revenue generation for the PBM. This "Spread" revenue is typically utilized by the PBM to subsidize a higher Brand discount and to offer a low pharmacy fixed admin cost. By design, a Traditional deal is structured to generate a revenue stream for the PBM off variable claims costs that exceeds any subsidization to Brand discount and fixed pharmacy administrative costs. This excess revenue stream generation is not passed through or completely disclosed to the employer group.

Traditional pricing may be particularly appealing to employer groups that are focused on fixed costs and those that desire a very low pharmacy admin but are willing to experience higher variable claims spending. Since variable pharmacy claim spending is greater than 90% of the total spending associated with most employer groups pharmacy benefits, BCBSND groups typically elect for a Pass-Through (PT) pricing arrangement rather than a Traditional approach because of savings associated with variable claims spending .

In addition to Traditional "Spread" pricing, PBMs have the ability to manipulate their Brand and Generic definitions when they reconcile to discount guarantees. This strategy is utilized to quote a higher perceived Brand and Generic discount on a spread-sheet but does not translate into lower net drug spending. Most commonly, a PBM may re-bucket or exclude single source (generics from a single manufacturer), dual source (generics from 2 manufacturers), or tertiary source (generics from 3 manufacturers) generics from discount guarantee reconciliations to achieve artificially inflated discounts. This strategy is often used with Traditional "Spread" pricing arrangements to demonstrate perceived discount value and to mask the revenue streams associated with "Spread".

In contrast to Traditional pricing, BCBSND offers NDPERS a Pass-through (PT) pricing arrangement. A PT pricing arrangement is characterized by minimum effective discounts and dispensing fee guarantees and does not include Spread pricing. Since these are minimum effective guarantees, NDPERS would receive the full value of all BCBSND contracted pharmacy network rates and dispensing fees based upon the pharmacies that your members elect to utilize. Additionally, as Prime Therapeutics renegotiates the BCBSND pharmacy network, NDPERS would benefit from the full pass-through of any network enhancements we achieve for BCBSND throughout the year rather than upon anniversary date. This extra value is not typically passed through to an employer group in a Traditional bid. BCBSND's PT offer does not include any manipulation of Brand and Generic for discount reconciliation. This strategy is often used by other PBMs to artificially inflate their perceived discounts as documented above.

BCBSND currently offers what we define as a "transparent" approach to NDPERS based on our fully integrated Pharmacy Benefit Manager (PBM), Prime Therapeutics. The current model varies compared to the "transparent" model described in the RFP. Currently, BCBSND offsets Prime's administrative fee with a combination of funding levers in order to be revenue neutral while simplifying the administrative burden for NDPERS. BCBSND will provide pricing to illustrate both the current arrangement as well as the requested approach.

The true value of transparent vs. traditional pricing can be found in the Ingredient Cost Fact Sheet, found in Attachment 1 – Ingredient Cost Fact Sheet.

BCBSND understands that should an inconsistency be found, that favor would be given to the terms in this proposal. We are comfortable with this approach. As the incumbent, BCBSND administers all aspects of the current program with the only deviations noted based on regulatory changes.

6.1 Organizational Background, Strength and Experience

1. Provide a brief description of your organization, including your company history, organizational structure, services provided, location of headquarters, and length of time you have been in business. Describe any significant historical or future organizational developments (acquisitions, mergers, change in subcontracted vendors, etc.).

Company History
More than 70 years ago, Blue Cross Blue Shield of North Dakota (BCBSND) began as two separate pre-paid health care plans for hospital and physician services. The two companies merged in 1986 and, in 1998, converted to a not-for-profit mutual insurance company.

Organizational Structure
In 1998, BCBSND changed its corporate structure to a nonprofit, mutual insurance company and its name to Noridian Mutual Insurance Company (NMIC). The new structure gave members more ownership, plus allowed the company to pursue business in neighboring states as NMIC, while continuing to do business within North Dakota as BCBSND.

Throughout the history of Noridian Mutual Insurance Company, the corporation has established subsidiary and affiliated companies.

In 2002, NMIC established the wholly owned subsidiary Noridian Administrative Services, LLC (NAS) in order to pursue additional Medicare business and other government contracts. In 2013, Noridian Administrative Services, LLC was rebranded as Noridian Healthcare Solutions (NHS). Today, NHS processes over 119 million claims annually. They serve over 13.1 million beneficiaries in all 50 states and work with over 290,000 healthcare providers. NHS has 1808 employees, of which 1306 reside in North Dakota.

In 2008, NMIC bought a 51 percent controlling interest in Discovery Benefits, Inc. (DBI). DBI provides reimbursement accounts including flexible benefits, health savings accounts, health reimbursement arrangements, transportation/parking accounts and COBRA administrative services.

In early 2009, BCBSND together with Blue Cross Blue Shield of Nebraska, launched a health care technology company named CoreLink Administrative Solutions. The joint venture processes claims for the North Dakota, Nebraska and Wyoming Blue plans, and results in significant administrative efficiencies by delivering core systems solutions at lower costs and greater performance capability.

In 2011, NMIC acquired MDdatacor, Inc., a Georgia-based technology company that provides data-driven solutions for health care insurers and providers. MDdatacor has the ability to collect, store, manage and analyze patient medical information from the most comprehensive data sets available in the industry. The acquisition was part of NMIC's ongoing strategy to collaborate and innovate to find local solutions that will sustain accessible, high-quality health care for all North Dakotans for years to come. MDdatacor owns MDinsight, the primary technology platform that facilitates highly secure HIPAA-compliant information sharing among care providers participating in MediQHome, BCBSND's quality program based on patient-centered medical home concepts.

In 2014, NMIC sold MDdatacor to Symphony Technology Group, a technology and services-focused private equity firm. Symphony will integrate the MDinsight tool with other population health management and data analytics technology to offer new high value analytical software. NMIC will continue to utilize the MDinsight platform to power MediQHome and will evaluate other Symphony tools to determine their value in the North Dakota market.

Services Provided
BCBSND has expanded to a full-service benefits administrator and offers dental and vision insurance, group life insurance, disability benefits and flex benefit administration. Operations currently include actuarial, communications, claims processing, finance, information technologies, legal, marketing, medical management, member services, provider relations, provider services and even more sub-specialty services under each category, such as quality control and cost containment efforts.

Location of Headquarters
BCBSND began with a small office located in downtown Fargo in 1940. The corporate office is now located at 4510 13th Ave. S., Fargo, with additional service offices located across the state in Bismarck, Devils Lake, Dickinson, Grand Forks, Jamestown, Minot, Valley City, Wahpeton and Williston.

Future Organizational Developments
The Company continues to make investments to streamline administrative and operational expenses.

2. Vendors responding to this RFP must be able to substantiate their financial stability. Provide a copy of your audited financial statement or other financial information. Include, at a minimum, a Balance Sheet and a Profit and Loss Statement, together with the name and address of the bank(s) with which you conduct business and the public accounting firm(s) that audit your financial statements. Other sufficient information may include a written statement from a financial institution confirming the creditworthiness and financial stability of the vendor.

   Please see Attachment 2 – Audited Financials for a copy of our 2013 Audited Financials. The name and address of our public accounting firm is listed on the fourth page of the attachment. Our primary banking relationship is with Wells Fargo. The address is 406 Main Avenue, Fargo, N.D., 58103

3. Provide a copy of any State or Federal regulatory audit performed within the last two years.

   A Targeted Market Conduct Examination was conducted October 2013 through May 2014. As of August 4, 2014, NMIC has not yet received a draft report from the North Dakota Department of Insurance with the final audit results. BCBSND will provide NDPERS copies of the audits upon completion and request by NDPERS.

   In addition, over the past two years NMIC has been subject to review of its administration of the North Dakota Children's Health Insurance Program (CHIP), also known as the Healthy Steps program, to confirm that program administration is being done in compliance with federal regulation set forth in 42 CFR 438.358 and Section 402 of the CHIPRA 2009 Legislation. These reviews are conducted annually by a third party at the direction of the North Dakota Department of Human Services. NMIC has consistently improved its compliance scores during these reviews.

4. Confirm that your organization agrees to be accountable for everything stated in and submitted as part of your proposal, even if not specifically addressed in the proposed sample contract/ASA.

   BCBSND is accountable for everything stated in and submitted as part of our proposal, even if not specifically addressed in the proposed sample contract/ASA.

5. Indicate whether your company has ever been or is currently a party to litigation regarding a medical benefit plan contract or agreement. If so, provide details of the litigation or action. Failure to disclose this may constitute grounds for rejection of any proposal or termination of any contract.

   BCBSND participates through its subrogation/reimbursement processes as a plaintiff in numerous class actions. NDPERS should already be in possession of most of the details

requested in regard to this litigation. Aside from these subrogation/reimbursement cases, in the late 1990s, BCBSND was involved in some litigation resulting in a settlement that required certain language changes in its service agreement. Otherwise, to its best information and belief, BCBSND has not been and is not currently a party to litigation regarding a medical benefit plan contract or agreement.

As covered in local media, BCBSND is currently in litigation with a former Medical Director over wrongful termination. While the lawsuit is employment based litigation, it does make accusations about the administration of BCBSND medical benefit contracts. BCBSND did inform NDPERS directly about this suit and our position that the claims have no merit. BCBSND is heavily regulated by both state and federal agencies that perform frequent audits to insure controls are in place. We are confident in our position on this lawsuit.

6. State whether the vendor, its officers, agents or employees, who are expected to perform services under the NDPERS contract, have been disciplined, admonished, warned, or had a license, registration, charter, certification, or any similar authorization to do business suspended or revoked for any reason.

No, BCBSND is not aware of any disciplinary action against our officers, agents or employees that would impact any license, registration, charters or certifications necessary to provide the services outlined in this proposal.

7. Include a description of your organization's major short term strategic initiatives and your long term strategic business plan. Specifically address cost containment efforts.

Blue Cross Blue Shield of North Dakota's mission is to deliver affordable solutions to improve the care and health of those we serve.

We have a multifaceted strategy designed to help us meet this mission:

- Offer products that have the best overall value in the market;
- Curb cost of healthcare on behalf of our members;
- Keep administrative costs to a minimum while maintaining the highest level of service;
- Offer products and services that comply with all state and federal regulations.

Each of these aspects of the overall strategy has both short term initiatives and long term goals.

Offer products that have the best overall value in the market

Short term initiatives
BCBSND takes pride in offering the most comprehensive products and services at the best prices in the market. We continue to enhance the services we offer including additional local expertise in health and wellness, new analytics packages, and additional self service capabilities.

Long term strategy
As a strong local company, BCBSND understands what North Dakotans value and incorporate these values into everything we do. We offer comprehensive access to both local and national providers at the most competitive rates in the state. We offer products that both comply with state and federal laws and align with the needs of North Dakotans. As the health insurance market and the health care delivery system evolve, BCBSND is committed to evolving with North Dakota to continue to offer the best value to our members and customers.

Curb cost of healthcare

Short term initiatives
BCBSND has several initiatives we are working on to ensure our members are getting the most for their health care dollar. We are moving from MS-DRG to APR-DRGs to further

align our reimbursement with our population. We continue to work on the transition from ICD-9 to ICD-10 which will allow for more accurate coding to track outcomes. We are also working on an enhanced version of our outcome-based reimbursement model.

Long term strategy
BCBSND will continue to support primary care practices in their transformation towards a patient centered care model, as well as incent health systems in their efforts to streamline all health care services.

Keep administrative costs to a minimum while maintaining the highest level of service

Short term initiatives
BCBSND is completing an analysis of overall functional administrative expense levels to identify areas where expenses may be reduced. The evaluation has identified multiple claims and customer service projects that will increase efficiency.

BCBSND also will be evaluating print, mail and distribution costs.

Long term strategy
BCBSND will continually look for efficient utilization of administrative expenses to offset the continued pressure exerted on administrative costs from a variety of sources, including regulatory changes, IT investments to ensure an ongoing functional infrastructure, and investments to be able to respond to member and market demands in an increasingly competitive market.

Offer products and services that comply with all state and federal regulations

Short term initiatives
BCBSND is working directly with the North Dakota Insurance Department (NDID) to increase and improve communication as we navigate the multiple changes in federal regulations. This communication will ensure compliance, while enhancing audit performance, and allows for input to the NDID on policy, compliance and regulatory changes.

Long term strategy
Together with our Governement Relations team, BCBSND will continue to strengthen its relationship with the NDID to ensure, timely and well-supported products, rate and financial filings, and enhanced audit performance.

8. Describe how your organization differentiates itself from your competitors. Specifically, what makes your organization the best partner for NDPERS?

North Dakotans serving North Dakotans
NDPERS is the largest group we serve in North Dakota, and because of this relationship we have been able to devote a dedicated service team to serve you, backed by the additional support of our entire staff of almost 800 North Dakota-based employees.

As a North Dakota company, we understand what it takes to serve our members well, because they are our neighbors and friends. We're active and engaged in all communities we serve, contributing not just as employees, but as parents, neighbors, leaders, friends and volunteers. We know the local employer and provider markets; we routinely meet with the thought leaders and decision makers. When customers or providers call, we show up.

Leading North Dakota Health Care into a New Era
BCBSND is leading the state's health care industry into a new era by focusing on five strategic pillars.

1. **Affordability**
   Affordable health care remains a major concern as we implement the Patient Protection and Affordable Care Act (PPACA) of 2010. We are working with health care providers and other stakeholders to find innovative solutions so health care in the

future is more accessible, more affordable and more efficient, while maintaining the quality we have all come to expect. We understand this is a monumental task, but we believe North Dakota can become a model for the rest of the country because of our shared commitment to a sustainable health care delivery system.

2. **Stewardship**
   As North Dakota's largest health insurer, we understand the major role we play in the success of the state's health care system. We pledge to our members and to the entire state that we will be good stewards of the resources with which we have been entrusted. We will work toward greater access, greater affordability and even higher levels of quality in the health care system. We will continue to be good citizens of the state by promoting wellness and lending our expertise to improve the quality of life and health in North Dakota. At BCBSND, we understand that every dollar that goes toward operating expenses is a dollar that could be going toward health care costs. While the average operating expense for other health insurance companies is close to 14 percent, at BCBSND, the operating expense is only 8.2 percent. These savings are passed on directly to our members through lower premiums.

   We continue to work to reduce administrative costs without impacting service or quality by leveraging technologies and processes.

3. **Excellence**
   For decades, BCBSND has been the standard of excellence in the state's health insurance industry. We extend that same intensity of purpose and expectation of excellence to everything we do, from working to make health care more affordable to being a good corporate citizen. We have high expectations for ourselves and we intend to meet them.

4. **Collaboration**
   Health care accounts for approximately 17 percent of the nation's gross domestic product and is projected to double in the next 30 years unless we are able to bend the cost curve in a substantive way. For BCBSND members, approximately 8 percent of all premium dollars are spent on administrative costs. That means we need to work with all stakeholders—health care providers, government officials and our members, just to name three—if we are going to stem the unsustainable rate of health care inflation. We are working with a multitude of partners to help us accomplish this goal.

5. **Engagement**
   Communication is the key to engaging all the necessary stakeholders in the monumental tasks we face to curb health cost increases. BCBSND is working to spread

the message that the current system is unsustainable and that there are solutions we can implement to ensure we have the access, affordability and quality that everyone expects of our health care system.

High Customer Satisfaction
BCBSND has been a health insurance leader in North Dakota for over 70 years. One reason is when our members call, they reach a person, not a menu of options. That commitment to service allowed us to achieve a 95 percent customer satisfaction score from our members in 2013.

Our performance is well above accepted industry standards:

- 99 percent of claims were paid in 30 calendar days in 2013.
- 99 percent of all claims were paid correctly in 2013

NDPERS members benefit from an extensive statewide provider network, as well as the national BlueCard network
Because BCBSND holds the largest share of market across North Dakota, we are able to offer NDPERS an unrivaled provider network and the largest discounts available from any carrier that can serve NDPERS as well as special discounts that go beyond normal provider discounts in North Dakota.

NDPERS members also have access to the BlueCard national network which allows for discounts negotiated by other Blue Cross Blue Shield plans nationwide to be passed through to the member, as well as the knowledge that their insurance card will be accepted almost anywhere they travel.

Our successful collaboration is working to impact cost and encourage a healthier population
Our collaborative relationship of more than 37 years has also allowed us to continually develop initiatives, business practices and programming that are advantageous to NDPERS.

Alternate profit sharing financial settlement option
Our offer of an innovative alternate profit sharing financial settlement option is an example of the benefits of this collaboration. BCBSND is once again providing NDPERS with two profit sharing options:

1. Continuation of current profit sharing arrangement.
2. An alternative arrangement which offers NDPERS greater participation in product experience. Implementing this arrangement will result in your full participation in collaborative efforts to bend the cost curve, and ultimately lower medical costs.

Please refer to Appendix K for details on the alternate arrangement.

There will be no gap in service — or quality — to NDPERS members
Our 37+ years together have given us an important advantage, which we do not take for granted. We have been fortunate to share in NDPERS's history, and know the system, leadership, people, legislative processes, expectations and members.

We have welcomed your frank suggestions to refine and change our deliverables and all communications, as well as continue to look for ways to deliver greater value and service to NDPERS members.

HealthyBlue – dedicated NDPERS portal
The dedicated HealthyBlue portal created for NDPERS will encourage a culture of prevention rather than treatment. This online health tool features health logs, workshops,

educational information, health assessment and other tools to help NDPERS members take control of their health. Wellness and worksite wellness programs are continually being refined and expanded.

Statewide collaboration is focused on improving North Dakota's health care system

Because we believe that North Dakota solutions are the key to addressing the issue of health care costs, we're continually collaborating with doctors, hospitals and clinics to improve our health care system, including:

- MediQHome Quality Program, our innovative and award-winning medical home program, improves quality and reduces cost by providing incentives for quality outcomes, a departure from traditional fee-for-service billing. This program rewards doctors for closely monitoring their patients with chronic health conditions that account for much of the nation's rising health care costs.
- MediQHome was evaluated and received the Blue Cross Blue Shield Association's Blue Distinction Total Care designation ensuring our network of medical home providers meet nationally recognized standards for quality.
- Hypertension Quality Improvement Program, a collaboration with the American Health Association, the American Stroke Association and the North Dakota Department of Health, has reached more than 10,000 BCBSND members with hypertension in the partners' first collaborative outreach. This program is part of BCBSND's MediQHome program.
- Consumer Transparency Initiatives provide our members the ability to compare — and comment — on treatment and cost of care received across the state.
- Paperless Explanations of Benefits (EOBs) and Authorizations, which will reduce both time and costs in the communication and administration of your members' claims.
- The Member Advocacy Program, created by BCBSND for members facing life-changing medical events, begins with a dedicated Member Advocate proactively reaching out to members and offering them assistance. Knowing that these families are often unprepared for the flurry of bills and insurance statements that result from a major medical event, the Member Advocate helps resolve billing issues with medical staff and facilities, and monitors claims to make sure they are processed correctly.

Strength in Numbers

BCBSND is proud to be the state's largest health insurer, as demonstrated by these statistics from the North Dakota Department of Insurance:

- Individual Market: 78.3 percent BCBSND market share*
- Small Group: Fully Insured (2-50 employees): 86.0 percent BCBSND market share*
- Large Group: Fully Insured (50+ employees): 96.4 percent BCBSND market share*
- BCBSND group retention rate: 95.4 percent of all available renewal groups and 98.0 percent when considering those lost to competitor (May 2014 data).
- BCBSND covers 60.3 percent of all North Dakota residents**
- Medicare Supplement: 71.3 percent BCBSND market share***

* Based on total covered lives reported in the Supplemental Health Care Exhibit for 2013 (as reported to the National Association of Insurance Commissioners) for all companies selling health coverage in ND.

** Based on Mark Farrah Associates, Health Coverage Portal for fourth quarter 2013

*** National Association of Insurance Commissioners – Medicare Supplement Insurance Experience Exhibit, 2013.

This type of market position allows BCBSND to do things that other insurance companies can't—like work to transform health care in North Dakota by improving quality and driving down the rising cost trend.

Awards
Federal Employee Program (FEP) Awards:

The FEP Awards are presented annually by the Blue Cross and Blue Shield Association (BCBSA) to Blue Cross and Blue Shield plans that provide excellent service to federal employees.

Plan Excellence Award

The BCBSA's Plan Excellence Award is the highest form of recognition for overall plan performance presented to BCBS plans participating in the FEP program. Plan Excellence Award scores are determined by combining the scores plans receive in the Excellent Service Profile Award and the Excellent Strategic Profile Award.

BCBSND has won the Plan Excellence Award in eight of the last nine years and 15 times since the award was introduced in 1991.

Excellent Service Profile Award

The Excellent Service Profile Award measures member satisfaction, accessibility, timeliness and accuracy of claims processing and responses to member inquiries, reconsiderations and appeals.

BCBSND has received the Excellent Service Profile Award in each of the last 21 years.

Excellent Strategic Profile Award

The Excellent Strategic Profile Award measures benefit costs, administrative costs and market growth.

BCBSND has received the Excellent Strategic Profile Award for 20 straight years.

Brand Excellence Award

The Blue Cross and Blue Shield Association (BCBSA) Brand Excellence Award was created in 1995 to recognize Blue Cross and Blue Shield plans nationwide in categories promoting the Blue brands. These categories include attracting new customers, fostering loyalty to existing customers, expanding the Blue brands into additional lines of products or services, and provider satisfaction.

BCBSND has received the Brand Excellence Award nine times:

- 1995 – Overall Score
- 1996 – Overall Score
- 1997 – Overall Score
- 1998 – Overall Score
- 1999 – Overall Score
- 2001 – Overall Score
- 2006 – Member Retention and Provider Satisfaction Categories
- 2008 – Provider Satisfaction Category
- 2011 – Member Retention Category

Best of Blue Award

Since 1998, the BCBSA has received more than 630 entries for the Best of Blue Award from BCBS plans nationwide. Of these entries, only 54 programs were recognized as meeting the criteria outlined in the Best of Blue program. The winning entries showcased BCBS plans' continued innovation and dedication to improving our nation's health care delivery system. BCBSND received Best of Blue awards for FEP program administration/ winning the award ten times: 2000, 2001, 2005, 2006, 2007, 2009, 2010, 2011, 2012 and 2013.

9. Identify all services that are currently outsourced or subcontracted, the name of the vendor/partner, and length of the relationship. Describe how you ensure quality customer service and timely and effective issue resolution.

BCBSND routinely contracts with third-party vendors for additional services. As such, it has business associate agreements and other types of contracts in place. These detail the terms of the agreement, including scope of services and conflict resolution provisions. If quality or performance issues develop, the group notifies BCBSND, and it is BCBSND's responsibility to resolve the situation according to the terms of these agreements.

Claims Processing:
CoreLink Administrative Solutions is a health care technology company that processes claims for BCBSND as well as the Nebraska and Wyoming Blue plans. BCBSND and Blue Cross Blue Shield of Nebraska launched the company in 2009. CoreLink is headquartered in Fargo, ND with over 200 employees located in North Dakota. CoreLink is managed by a board of directors that includes representation from the participating Blue plans, who are also the only customers. As part of their regular agenda, the board reviews any productivity or process issues, and recommends resolution options.

Disease Management:
Accordant provides rare and complex disease management. BCBSND began a relationship with Accordant in 2010. Quarterly reports are available for utilization monitoring and quality assurance, as well as annual return-on-investment analysis. In addition, there is a grievance process defined for both member and provider complaints.

Healthways is the vendor for our Disease Management program for out-of-state members. The goal of our disease management program is to motivate members and providers to engage in healthy behaviors. Quality customer service and timely and effective issue resolution are ensured through weekly communications between BCBSND and the vendor including a regularly scheduled conference call and prompt access to Healthways personnel as needed. Member satisfaction, quarterly reports, quality assurance monitoring and return-on-investment analysis are provided by Healthways.

The MediQHome Quality Program contracts with MDdatacor (MDD) to provide a decision support platform called MDinsight. BCBSND has had a relationship with MDD since 2008. In October 2011, MDD was acquired by the parent company of BCBSND, Noridian Mutual Insurance Company (NMIC). In April 2014, NMIC sold MDdatacor to Symphony Technology Group. MDdatacor is SOC 2 compliant and the platform and data exchange is HIPAA compliant. Quality assurance checks are performed weekly and there is continuous communications between the providers, MDD and BCBSND. BCBSND is involved with testing upgrades and intermittent product development.

Pharmacy:
Prime Therapeutics, LLC, has been the Pharmacy Benefit Management vendor for BCBSND for more than 17 years.

ClearStone Solutions, Inc. provides consulting services, program management, medical mangagement, compliance and regulatory services to health insurance plans in the

government business sector builiding including Medicare Part D, Advantage and Medicaid products.

Wellness:
BCBSND has partnered with the following vendors to assist with providing the current wellness programs:

Cerner provides online wellness tool HealthyBlue. Contractual partner since December 19, 2012. Quality of customer service and timely and effective issue resolution are contractual obligations regarding telephonic support, site uptime, portal performance and issue remedying.

New programs are also available from Cerner. Services such as onsite basic medical screens and health coaching may provide an increased level of customization that integrates based upon the specific needs of the NDPERS population.

National Independent Health Club Association (NIHCA) provides administration of the BCBSND Health Club Credit program. Contractual partner since January 1, 2008. Quality of customer service and timely and effective issue resolution are contractual obligations regarding standards and support metrics and reporting.

10. What ratings have you received from the following third party rating companies and organizations?

Rating Organization	Rating	Date of Last Accreditation / Rating
A.M. Best	N/A	
Standard & Poor's	BBB+	May 2014
Moody's	N/A	
NCQA (by product)	N/A	
	N/A	
JCAHO	N/A	
URAC	Full Accreditation for Health Utilization Management Full Accreditation for Health Plan and Health Plan for Health Insurance Exchange	Through 9-1-2015 Through 6-1-2017
American HealthCare Commission	N/A	

11. What fidelity and surety insurance or bond coverage do you carry to protect your clients? Specifically describe the type and amount of the fidelity bond insuring your employees that would protect this plan in the event of a loss. Do you agree to furnish a copy of all such policies for review by legal counsel if requested?

BCBSND has a crime insurance policy in the amount of $5 million. Upon request, we agree to provide a copy of the policy.

12. Are any of the services you are proposing to provide to NDPERS contracted outside the U.S.A? Describe any business you do outside the U.S.A. and the financial impact, if any, of requiring those services to be provided within the U.S.A.

All services proposed are provided domestically.

13. Confirm that your proposal includes any and all deviations to the sample ASA (via submission of Exhibit F) and to the other RFP requirements (via Exhibit F, worksheet 2).

    Confirmed.

14. Confirm that you will to the best of your ability conform to the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010. Describe any provisions that NDPERS must be prepared to comply with beginning July 1, 2015.

    BCBSND is committed to serving as NDPERS's primary resource for information about Patient Protection and Affordable Care Act (PPACA) and the Health Care and Education Reconciliation Act of 2010 and will revise NDPERS's benefit plan, programs and systems to ensure compliance.

    Since the inception of ACA, BCBSND has provided NDPERS access to our subject matter experts to work through the ACA key provisions including the employer mandate, eligibility, look back periods, affordability and reporting requirements. A pilot workgroup was formed including representatives from NDPERS, the Office of Management and Budget, agency staff and BCBSND to discuss implementation requirements. In addition, other state agency and political subdivision representatives were invited to a special ACA forum in July, where BCBSND staff presented on ACA provisions along with other state staff.

    BCBSND has worked with NDPERS to successfully implement the initial provisions of PPACA, including:

    - Expanded eligibility for adult children up to age 26
    - Elimination of pre-existing condition waiting periods for members younger than age 19
    - Elimination of lifetime and annual limits for essential benefits
    - Elimination of cost-sharing for preventive services, screenings and care as well as routine immunizations recommended by various government agencies
    - Expanded coverage for women's preventive benefits for non-grandfathered plans
    - Compliance with the PPACA Summary of Benefits and Coverage and Uniform
    - Glossary provision
    - Transitional Reinsurance Assessments
    - Patient Centered Outcomes Research Tax
    - PPACA Insurer Fee

    BCBSND will continue to work with NDPERS to implement additional provisions as required under PPACA. The following provisions will impact NDPERS during the next biennium, including:

Provisions	Non Grandfathered Plans	Grandfathered Plan
USPSTF – Alcohol Misuse	Impacted	Not Impacted
USPSTF – Hepatitus C Virus Screening	Impacted	Not Impacted
USPSTF – Preventive High Risk Breast Cancer Drugs	Impacted	Not Impacted
USPSTF – Lung Cancer Screening	Impacted	Not Impacted
Out of Pocket Maximum Definition Update	Impacted	Not Impacted
Removal of Waiting Periods	Impacted	Impacted

Conversion Language Updates	Impacted	Impacted
BlueCard Language Updates	Impacted	Impacted
20% Non Par Sanction Removal	Impacted	Not Impacted
Medical Qualification Language Removal	Impacted	Impacted
Member Rights and Responsibilities Language Added	Impacted	Impacted

*Provisions do not apply to retiree plans

In addition, effective the next biennium, 7-1-2015 – 6-30-2017, due to the **Mental Health Parity and Addiction Act (MHPAEA)** final rule, we will be removing the age limits from Psychiatric Residential Treatment Services. Previously, this benefit was limited to members under age 21. This restriction was removed to comply with the MHPAEA final rule.

6.1.2 References and Experience

15. Provide the following information on a maximum of three (3) of your largest medical plan clients for whom you provide medical network, insurance, and administrative services. References of similar size and scope to NDPERS are preferred; one must be your largest public sector client and one must be your largest North Dakota-based client.

Name of employer sponsoring plan and location:	Titan Machinery Inc. Fargo, ND
Type of services provided to plan sponsor:	Health
Plan inception date:	1998
Length of time as client:	16+ Years
Number of contracts and members participating in the plan:	1,882 contracts; 3,745 members
Contact Information (name, title, phone number, e-mail address):	Randy Johnson, VP of Human Resources (701) 356-0130 Randy.johnson@titanmachinery.com

Name of employer sponsoring plan and location:	Fargo Public Schools Self-Funded Insurance Program, Fargo, N.D.
Type of services provided to plan sponsor:	Health
Plan inception date:	mid-1970s
Length of time as client:	37+ years
Number of contracts and members participating in the plan:	1,405 contracts; 3,744 members
Contact Information (name, title, phone number, e-mail address):	Sheryl Lehman 701-446-1038 lehmans@fargo.k12.nd.us

Name of employer sponsoring plan and location:	Border States Industries, Inc.
Type of services provided to plan sponsor:	Health and Dental
Plan inception date:	1985

Length of time as client:	28 years
Number of contracts and members participating in the plan:	1,292 contracts; 3,122 members
Contact Information (name, title, phone number, e-mail address):	Sherri Sandvig, VP Human Resources (701) 239-7467 ssandvig@border-states.com

16. Provide the following information for two (2) of your largest medical plan clients that have terminated services during the preceding 3-year period. References of similar size and scope to NDPERS are preferred.

Name of employer sponsoring plan and location:	Coventry Health Care
Type of services provided to plan sponsor:	Health
Plan inception date:	2002
Length of time as client:	12 Years
Number of contracts and members participating in the plan:	352 contracts, 829 members
Reason for termination:	Acquired by Aetna
Contact Information (name, title, phone number, e-mail address):	Francis Babin, Manager, Benefits (301) 581-5449

Name of employer sponsoring plan and location:	Essentia Health
Type of services provided to plan sponsor:	Health
Plan inception date:	Mid-1990s
Length of time as client:	15+ years
Number of contracts and members participating in the plan:	Approx 1,700 Contracts, 3,400 members
Reason for termination:	Moved to Corporate Health Plan
Contact Information (name, title, phone number, e-mail address):	Dr. Greg Glasner, President and CMO (218) 435-1212 Greg.Glasner@EssentiaHealth.org

6.2 Implementation and Account Management

17. Proposers must outline in detail the specific activities and tasks necessary to implement the NDPERS program. Be specific with regard to the following:

- Amount of total time needed to effectively implement the program

  30 days prior to the open enrollment session launch.
- Activities/tasks and corresponding timing

  As the incumbent carrier, no transition will be needed and system changes will follow BCBSND group renewal processes already in place.
- Responsible parties and amount of time dedicated to implementation, broken out by vendor and NDPERS staff

  As the incumbent carrier, all processes are in place to support the renewal of the NDPERS plan.
- Any transition activities required with incumbent carriers, including providing members adequate notice regarding current care or treatment plans at least 60 days prior to a change

  Not applicable to BCBSND as incumbent.

- Length of time implementation team lead and members will be available to NDPERS.

  BCBSND currently has a team of employees dedicated to NDPERS. Our NDPERS team will ensure a smooth implementation every step of the way.

18. Provide an overview of how the NDPERS relationship will be managed, both strategically and on a day-to-day basis. Include an organizational chart. NDPERS will give preference to vendors who are willing to assign a dedicated account management team and provide access to senior leadership. Designate the names, titles, location, telephone numbers, and email addresses for the representatives listed below. For the account service individuals listed (b, c, d, and e below), provide brief biographical information, such as years of service with your company, experience as it relates to this proposal, and the number of clients for which they perform similar services.

    Strategically, the NDPERS relationship will be managed to engage the boards and executives in direct communication on organizational needs and direction. We will continue to work with NDPERS to address cost trends, legislative items, new product concepts and other issues impacting the cost and quality of care and coverage. On a day-to-day basis, we will continue to provide a dedicated account executive, an account manager, group consultant, wellness consultant and access to all levels of management and the BCBSND Board. NDPERS members will continue to receive the high quality they've come to expect from our dedicated member services team. Please see "Attachment 3 – BCBSND Organizational Chart" for the BCBSND organizational chart.

    a. The key individual representing your company during the proposal process;

       Tim Huckle, President and CEO

       A team of executives play a supporting role. Please refer to "Attachment 4 – Biographies" for biographical information.

       <u>Executive Support Team:</u>
       - Denise Kolpack, Senior Vice President of Corporate Communications and Public Affairs
       - Chief Marketing Officer
       - Brad Bartle, Vice President of Actuarial & Membership
       - Mark Tschider, Vice President of Customer Support & Claims Administration
       - Sharon Fletcher, Senior Vice President of Health Network Innovation and Human Resources and Development
       - Renay Rutter, Executive Vice President of Enterprise Planning and Technology
       - Daniel Conrad, Chief Legal Officer
       - Brian Fellner, Executive Vice President and Chief Financial Officer

    b. The key individuals on your proposed implementation team;

       BCBSND has an established cross functional implementation team with leadership representation from all business units. This team will be led by a dedicated Project Manager, Lacey Hogness.

    c. The key individual assigned to overall contract management;

       Kevin Schoenborn, Manager, Consulting Services - Account Executive

    d. The key dedicated individual or team members responsible for day-to-day account management and service;

       Your dedicated Account Management Team will coordinate with the BCBSND implementation to ensure all aspects of the NDPERS benefit plan are implemented timely and accurately. They will be supported by a team of Subject Matter Experts.

Please refer to “Attachment 4 – Biographies” for biographical information.

Account Management Team:

- Kevin Schoenborn, Manager, Consulting Services – Account Executive
- Dorinda Card, Director of Key Accounts
- Onalee Sellheim, State and Public Program Manager – Account Manager
- Sonja Nyhof, State and Public Program Manager
- Jodi Crouse, NDPERS Large Group Consultant
- Michael Carlson, Manager of Health and Wellness
- Stacy Duncan, NDPERS dedicated Wellness Consultant
- Sheri Srnsky, Team Leader, Special Accounts, Claims

Subject Matter Experts:

- Michelle Bishoff, Director of Claims Administration
- Tom Christensen, Manager of Pharmacy Management
- Zach Keeling, Director of Marketing Operations & Product Management
- Linda Merck, Senior Actuarial Analyst
- Lacey Hogness, Business Implementation Lead
- Mike Potts, Director of Employer Consulting & Wellness Services
- Carman Bercier, Vice President Health Innovation and Practice Innovation
- Jackie Walsh, Vice President Clinical Excellence and Quality
- Pam Gulleson, Vice President of Public Affairs
- Megan Houn, Director of Government Relations
- Brent Solseng, Pharmacy Manager Marketing
- Shelly Stalpes, Manager Claims Administration
- Jim Wynstra, Director of Actuarial
- Heather Horner, Member Education Consultant
- Miriam Griffin, Member Advocate Specialist

Please refer to “Attachment 4 – Biographies” for biographical information.

e. The key individual responsible for provider contracting; and

Sharon Fletcher, Senior Vice President Health Network Innovation and Human Resources and Development

Please refer to “Attachment 4 – Biographies” for biographical information.

f. The key individual responsible for provider relations if different than letter e. above.

Please refer to question 18 e.

19. Please provide the requested information for the functions that will be servicing NDPERS in the table below:

Area	Geographical Location(s) and Organizaiton Name (if out-sourced)	Hours of Operation (Specify PST/ CST/EST)	*Is this service Outsourced? Yes or No? If Yes, provide name of company to which the function is outsourced*
Member Service	4510 13th Ave S. Fargo, N.D. 58121	Monday – Friday 8 a.m.-5 p.m.	No
Claims Processing	4510 13th Ave S. Fargo, N.D. 58121	Monday – Friday 8 a.m.-5 p.m.	No

Northern Plains Alliance / ClearStone Solutions	Eagan, MN	8 a.m.-8 p.m. 7 days a week CST and MST	Yes - Northern Plains Alliance / ClearStone Solutions

Communications and Website

20. Please complete the table below by providing a description of the pre-enrollment communication materials you will provide to support NDPERS during its open enrollment period:

Area	Description	Can it be customized for NDPERS?
Website	BCBSND will provide a dedicated page on its primary website (www.BCBSND.com) to provide enrollment information, FAQs, contact information, and additional items deemed necessary by NDPERS.	Yes

Employee Newsletter(s)	BCBSND will provide original content addressing relevant insurance issues for the NDPERS employee newsletter. The content will support NDPERS's pre-enrollment and enrollment efforts.	Yes
Brochures	BCBSND supplies a PDF of the NDPERS PPO/ Basic and the HDHP benefits grid on the NDPERS website.	Yes
Direct mail (internal or home distribution)	BCBSND will develop HTML-based flyers and information messaging for email distribution. BCBSND developers will provide these to NDPERS Information Technology personnel for distribution, to ensure complete coverage of the membership.	Yes
Enrollment guide	As the current carrier, BCBSND supplies NDPERS with underwriting criteria to administer its enrollment.	Yes
Employee open enrollment meeting support and attendance	As the current carrier for NDPERS, BCBSND has a dedicated NDPERS account manager who can attend all open enrollment meetings upon request.	Yes
Benefits/HR staff training support	BCBSND's dedicated NDPERS account manager provides a benefit overview to all NDPERS agencies and NDPERS HR/Payroll areas upon request.	Yes
Video	BCBSND can deliver audio-visual presentations, Brainshark, tutorials, and educational materials in multiple ways. Distribution can be by physical media (DVD, CD-ROM), web pages, personal media player downloads, or a combination. Online distribution can be through BCBSND or by delivery to NDPERS Information Technology personnel.	Yes
Employee healthcare cost calculator worksheets (cost estimates)	BCBSND will assist NDPERS in complying with the Summary of Benefits and Coverage and Uniform Glossary provision of PPACA. The Summary of Benefits and Coverage provides employees with health care costs and estimates for certain episodes of care.	Yes
Other (please list)		

21. Are you willing to provide communication and marketing resources to work with NDPERS in the development of NDPERS-specific member communication materials (educational, open enrollment, benefit plan related, ongoing communications)? Describe the resources, sample communications, and your proposed approach and strategy/plan.

BCBSND is willing to provide these resources to NDPERS. As the current carrier, BCBSND currently provides a variety of communication and promotional materials to NDPERS members. Several worksite wellness materials are available on topics including smoking cessation, healthy diet, exercise and other health and wellness topics. Materials include a monthly wellness article with related poster, brochure and table tent.

In addition, member education and engagement materials are offered at the workplace through BCBSND's member education programs. Presentation topics include:

- Take Care of Yourself
- Walking Works
- HealthyBlue
- Health Club Credit
- Strength Training
- Beat the Bug
- Summer Safety
- Stress Management
- Medication Education
- Nutrition Basics for a Healthier You
- CPR and First Aid Basics

Various programs include a giveaway item to support the message, such as a pedometer for the Walking Works program or strength stretch bands for Strength Training.

BCBSND provides all benefit plan materials, including Summary Plan Description booklets, information grids summarizing member benefits and ID Cards. Worksite enrollment meetings are available and delivered by the NDPERS Account Representative on request.

BCBSND will continue to provide ad hoc marketing and communication strategies and proposals for specific needs outside the scope of the RFP. These strategies are developed by Corporate Communications and Marketing staff in collaboration with NDPERS staff; for example, the Wellness Engagement with the Lieutenant Governor.

22. How much lead time is necessary for you to guarantee that ID cards will be received by members prior to the plan year effective date of July 1, 2015?

BCBSND guarantees delivery of ID cards to members before July 1, 2015, as long as all required enrollment information is received by June 14, 2015.

23. Describe your plan for the post-65 programs that you will offer to NDPERS retirees.

With nearly 6,200 Medicare retiree contracts in the NDPERS group, BCBSND is committed to working with NDPERS staff to enhance benefits for this important segment of its membership.

Over a period of years a “look-alike” group Medicare Supplement Plan F benefit plan was developed for those retirees ages 65 and older. BCBSND also collaborated with NDPERS staff to mirror the prescription drug benefits for retirees and implement a NDPERS customized Part D prescription drug group product. BCBSND was able to offer this prescription drug product through its participation in the Northern Plains Alliance. Doing so allowed NDPERS to receive Part D subsidies from the Centers for Medicare & Medicaid Services (CMS), which reduced the overall cost for the program.

In addition, post-65 members currently have access to the MediQHome disease management program in-state, the Accordant disease management program and an out-of-state (OOS) disease management program. Wellness programming such as HealthyBlue and Health Club Credit are available to retirees and spouses. These programs and events provide information to educate and engage NDPERS retirees in their personal health and wellness.

BCBSND will continue its collaboration with NDPERS staff on innovative product and program ideas to address the unique needs of this segment of NDPERS enrollment.

Plan Administration

24. Confirm that you will communicate legislative changes related to the operations of the plan in a timely manner, and describe the support staff and process.

    BCBSND will communicate federal and state legislative changes in a timely manner. BCBSND maintains close relationships with state and federal elected officials and their respective staffs. Our Government Relations team, Pam Gulleson and Megan Houn, monitor federal and state bills and promptly notify internal staff of potential changes that could impact the NDPERS health plan. Megan Houn works out of the Bismarck office and Pam Gulleson is based in Fargo. The Account Management Team notifies NDPERS staff of potential changes. BCBSND Legal staff will provide guidance on these issues, but recommends NDPERS communicate with its legal counsel to confirm. BCBSND's Actuarial Team will provide pricing on legislative changes. BCBSND Contract Administration staff also works closely with the North Dakota Department of Insurance on notification of these changes. The Account Management Team works closely with NDPERS staff throughout the process.

25. Describe your proposed transition of care plan. At a minimum, the transition plan must address:

    a. Conditions or type of care that is typically transitioned;

       As the incumbent carrier, this is not applicable.

    b. Individuals who are in a course of treatment;

       As the incumbent carrier, this is not applicable.

    c. Transition process of current medical treatment;

       As the incumbent carrier, this is not applicable.

    d. Communication of transition issues to all plan members.

       As the incumbent carrier, this is not applicable.

26. What is your total commercial and Medicare health plan enrollment? Complete the table below.

Dates	Commercial	Medicare
As of January 2012	429,425	35,824
As of January 2013	456,590	36,690
As of January 2014	467,297	37,485

Please note: we are assuming "Medicare" to mean Medicare Supplement business and "Commercial" to mean all other business excluding Medicare Supplement. *Also, these enrollment totals are as of the end of January for each year (i.e., January 31).*

6.3 Eligibility and Billing

27. Are ID cards the sole means of determining member eligibility? If not, please describe.

    No, ID cards are issued to employees when their applications are processed. Eligibility is determined using the information from the last application received from the employee plus any additions (e.g. newborns automatically added from claims information) and deletions (e.g. dependents removed when no longer eligible). Members will receive a letter of termination upon request or automatically when a member is terminated. Members can also call the BCBSND service unit to verify eligibility status or visit BCBSND's website.

28. If desired, can NDPERS update and maintain eligibility and check employee claim status online? Are there any special charges for access to and use of these tools?

    NDPERS can check employee status through The Healthcare Online Resource (THOR). NDPERS updates and maintains their eligibility through the 834 file which is sent weekly. There are no charges for these services.

29. NDPERS will submit enrollment, billing and premium remittance via a centralized electronic system. NDPERS will collect enrollment/eligibility information which will be provided to the successful contractor on a data file that follows the HIPAA 834 file specifications. Premium payment information will be provided on a data file that follows the HIPAA 820 file specifications. Files will be transmitted using a secure file transmission process. Please confirm that you can receive this data in that format and media. Please confirm your ability to conform to this process and identify any potential issues.

    Yes, BCBSND can receive this format. As the incumbent, this process is currently in place for NDPERS.

30. Please describe how you handle manual eligibility updates and the turn-around/timing of such updates.

    BCBSND can accept faxes, phone calls and secured email attachments. Eligibility updates can be processed immediately, if necessary; otherwise, they can be processed within 14 days.

Customer/Member Service

31. Confirm if you will provide and maintain dedicated customer service staff acceptable to NDPERS. This unit will provide dedicated local and toll-free telephone numbers and shall respond directly to member inquiries regarding benefits, claim status, selecting participating providers, and provide general assistance with navigating on-line and other resources available through the health plan and NDPERS websites. Describe the structure and organization and provide an organizational chart of the unit you are proposing.

    BCBSND will continue to provide and maintain dedicated NDPERS customer service/ claims processing staff and provide dedicated local and toll-free telephone numbers for members. The dedicated staff will also continue to respond directly to members regarding benefits, claims status, selecting participating providers, and provide general assistance with navigating online and other resources available through the health plan and NDPERS websites. The dedicated customer service unit consists of nine customer service representatives who handle the daily customer service inquiries and claims processing functions, one coordinator who handles day-to-day functions/training of the service unit and one team leader.

    Please refer to “Attachment 5 - NDPERS Service Unit - Organization Chart” for the organizational chart for the NDPERS Service Unit.

    Member Advocacy Program (MAP)
    The Member Advocacy Program (MAP) is designed to be proactive in helping members facing life-changing medical events, such as newborns with congenital defects, pediatric cancers, transplants and traumatic injuries. The program identifies and serves families in these circumstances by proactively reaching out to these members and offering assistance through a Member Advocate. These individuals help those families understand their medical bills and insurance benefits, contacts providers to resolve billing problems, and monitors claims to ensure they are being processed correctly. Because these families have complex claims, the program allows them to contact the member advocates directly by phone or email when they have questions. These member advocates works with Medical Management and Case Management staff to facilitate effective, compassionate and cost-effective outcomes.

The program not only guides members with high-dollar complex cases, but it also promotes high efficiency in claims processing, reduces member confusion and stress and saves members money. The Member Advocate manages customer expectations during an extremely difficult time in the member's life, strengthening brand loyalty and customer satisfaction.

Annual Member Satisfaction Survey

BCBSND conducts a member satisfaction survey of calls to the NDPERS Member Services Department. Member overall satisfaction with service has consistently been above 90 percent with 2013 performance reaching 95% satisfaction.

6.4 Claims Administration

32. Provide the following information regarding the claims administration unit that will handle the NDPERS account. If there is more than one claims processing location, provide information for each.

	Claims Processing Unit
Address/Location	4510 13th Ave S. Fargo, ND 58121
Phone Numbers	Toll-free: 800-223-1704 Local: 701-282-1400
Days and Hours of Operation	Monday-Friday 8 a.m.-5 p.m. Central Standard Time (CST)
Number of Members Serviced	The dedicated NDPERS Service Unit provides service to all 65,000 NDPERS members covered under the NDPERS Plan. During July 1, 2013, through June 30, 2014, the NDPERS Service Unit handled 33,246 calls.
Number of Employer Groups Serviced	NDPERS has a dedicated service unit that exclusively handles NDPERS claims and customer service.
Ratio of Claims Unit Staff to Members Serviced	The NDPERS Service Unit is comprised of nine Claims and Customer Service Unit Staff to provide service to all 65,000 covered NDPERS Members; a ratio of 1:7,222.
Volume of Claims Processed Daily	During July 1, 2013, through June 30, 2014, an average of 3,052 claims were processed per day; this includes systematic and manually processed claims.

33. Will your organization identify a dedicated team of claims processors for the NDPERS account? If processors are shared with other clients, on average, how many clients does one team service? What is the average length of service of the claim processors?

Yes, BCBSND currently has a dedicated NDPERS Claims and Customer Service Unit that does not handle any other clients. The service unit consists of nine representatives who handle the customer service and claims processing functions for the NDPERS group, a coordinator that handles the day-to-day activities of the service unit and one team leader. The average length of service for the claims processors is five years, ranging from one year to 17 years.

34. Confirm that you are able to administer the NDPERS designs (Dakota Plan and Dakota Retiree Plan) and benefit levels without manual intervention. If you are unable to administer the plan, you must specify any plan design deviations proposed as specified in the RFP.

Yes, BCBSND is able to administer the NDPERS plan designs for the Dakota Plan and the Dakota Retiree Plan as requested by the NDPERS group. Claims are processed with minimal intervention. During the time of June 1, 2013 through May 31, 2014, BCBSND's first pass rate was 80.76 percent, claims received that were automatically processed by our claims processing system. Claims that hold for manual intervention require additional research such as medical records, workers compensation investigation or other insurance information.

35. Describe your claims processing system/platform and claims administration process.

BCBSND utilizes a mainframe-based, claims processing system designed and operated by CoreLink Administrative Solutions, a jointly owned company of BCBSND and Blue Cross Blue Shield of Nebraska. CoreLink claims processing systems have been developed with the primary objective of providing optimal services to all business. The claims system is, in reality, several systems, designed around classes of providers and their unique billing forms. These systems share a common membership database, which contains extensive contract/member eligibility information. These systems also share a common cost share file where deductible and coinsurance amounts, benefits maximums and other accumulators are tracked. The system is an integrated system that handles all claim and contract types.

Most claims received electronically process automatically through our claims processing system, but some may require manual intervention. If information regarding claims data, eligibility, other party liability or benefit coverage requires intervention, the claim is suspended in the system for manual review and resolved by a claims adjudicator.

Online claims maintenance allows the resolution to be posted to the claim on the system to reinitiate the automated processing of the claim for payment. The claims systems are real-time capable and prepared for the immediate adjudication of claims if the customer has those needs.

6.5 Reporting

37. Confirm your ability to provide the reports described in the RFP and provide samples.

    Confirmed.

    Please refer to Attachment 6 for samples of the standard reporting package. In addition, BCBSND's Consulting Services will provide ad hoc reporting to NDPERS as needed.

    BCBSND also publishes a quarterly NDPERS Executive Summary report, for the NDPERS Board, recapping financial and trend analysis, health utilization, claims and inquiry timeliness, wellness programs, account management and member engagement activities. Annually BCBSND presents a comprehensive analysis to the NDPERS Board. This analysis includes information about the demographics and health of the NDPERS population, utilization, health management, program evaluation, and member engagement. Opportunities and recommendations are also offered for review. Please see Attachment 7 for a sample of these Executive Summaries.

    Understanding the impact of PPACA is the first step to developing a benefits strategy that aligns with the emerging landscape. BCBSND understands this and offers NDPERS a modeling tool to determine the financial incentives to retain or remove coverage. This tool considers employer and employee subsidies and penalties in combination with specific demographic and income data to determine the level of incentive. BCBSND Consulting Unit will be able to provide NDPERS with the results of this tool, as well as in-depth analysis of the outcomes and will work with you to determine a strategy that best fits the needs of NDPERS.

    In addition, if a sample report has not been included in this RFP due to the nature of the information (e.g. Annual Accounting Statement, Monthly Experience report of premium), BCBSND confirms that all current reports provided to NDPERS will continue to be provided.

38. Describe your online reporting capabilities. Please describe the data/information and types of reports that can be accessed and downloaded from your online system.

    BCBSND's full suite of standard reports and data feeds are available on a secure website (The Healthcare Online Resource) for staff to access.

    BCBSND also offers access to Health Intelligence, an online reporting tool that allows for benchmarking and has drill down functionality to examine outliers and unique trends. The comprehensive Employer Group module features demographics, cost, utilization and risk analysis in print-ready Employer Profile Reports that can be set up on a periodic basis. Please see Attachment 8 for a sample of the Health Intelligence Employer Profile report.

39. Explain your ability to comply with the NDPERS current data warehouse arrangement by providing medical claims and enrollment data to NDPERS in a format agreed upon between you and NDPERS no less than monthly.

    As the incumbent, BCBSND will continue to send monthly data files through THOR to NDPERS in an agreed upon format that includes claims and enrollment data.

6.6 Case/Utilization Management

40. Provide a brief overview of your utilization management programs, including pre-certification, concurrent review, discharge planning, and large case management.

Preauthorizations: Registered Nurses complete reviews for the services that require pre-authorizations in accordance with established clinical criteria. Examples include:

- Home health care
- Skilled nursing facility/swing bed/transitional care unit
- Hospice
- Medical/surgical inpatient admissions to facilities non-participating with BCBSND
- Inpatient rehabilitation
- Long-term acute care
- Psychiatric/substance abuse inpatient admission, residential treatment centers, partial hospitalization, intensive outpatient programs

Concurrent Review/Discharge Planning: Concurrent review may be conducted to ensure that ongoing treatment is appropriate and includes discharge planning. Members with lengthy hospitalizations, high-risk diagnoses, readmissions, psychiatric and substance abuse admissions are most often in this category. Working in conjunction with the member and their providers, our staff supports discharge planning by providing information on benefits available for those services determined to be medically appropriate and necessary for the member's continued care and treatment.

Prior Approvals: In addition to preauthorizations for admissions, the following services or procedures require pre-notification to assess for medical necessity and appropriateness:

- Assisted reproductive technology (in vitro fertilization)
- Chronic pain management programs
- Cosmetic surgeries
- Dental anesthesia and hospitalization for members age 9 and older
- Electric wheelchairs
- Growth hormone therapy/treatment
- Human organ transplants
- Insulin infusion pump
- Obstructive sleep apnea treatment, except for continuous positive airway pressure (CPAP)
- Osseo integrated implants
- Prosthetic limbs controlled by microprocessors and any prosthetic limb replacement within five years
- Prosthetic limbs replacement within five years
- Restricted use drugs
- Rhinoplasty

Because services in these areas can be misused or overused without effective outcomes, specific medical necessity criteria have been established for these services. The member's health care provider will substantiate the medical need for the procedure and provide documentation of this in a written request. The provider and member are notified of the prior approval determination in writing.

Benefit Inquiries: The Medical Management staff provides assistance to members and health care providers with benefit medical appropriateness and necessity determinations. Benefit inquiries are questions about services that do not require prior approval.

Registered nurses provide assistance to members and health care providers with benefits determinations for medical appropriateness and necessity. Benefit inquiries are questions about services that do not require prior approval.

Chiropractic Review: BCBSND employs a part-time chiropractor who is responsible for the oversight of chiropractic utilization and management, including determinations of medical necessity and chiropractic medical policies.

Utilization Management Oversight: Medical policies, federal and state mandates, and departmental policies and procedures are in place to assist with medical necessity reviews to ensure consistency is applied to all requests. Federal and state mandates have been instituted around security, privacy and timeliness. All policies and procedures are reviewed on an annual basis, and employees are required to become familiar with any changes to updated policies.

BCBSND holds URAC (formerly Utilization Review Accreditation Commission) Health Plan accreditation. This accreditation requires compliance with numerous standards, security and quality measures, and ensures that processes surrounding reviewing for medical necessity are followed closely and according to set guidelines. The Health Plan accreditation standards focus on provider network management, credentialing, member relations, utilization management, and quality management. Accreditation requires the ability to demonstrate services offered to members, establish goals, showcase performances related to access of care, and availability of providers.

Large Case Management: During the course of any year, only a small percentage of the population experiences catastrophic accidents or illnesses, yet this small group accounts for a large portion of all health care costs. BCBSND's Case Management program recognizes the high cost of admissions and the emotional impact on members who have long-term, serious illnesses. Case managers help members obtain effective alternative health care solutions that are medically appropriate and necessary.

BCBSND's Case Management Team, consisting of registered nurses and licensed social workers, help to advise, educate and assist members and their families as they coordinate their medical care and treatment plans. Case Management coordinators facilitate communication between members and providers and work together to ensure collaborative decision making that takes the member's wishes and provider's recommendations into consideration. Case managers also help reinforce the importance to members of following their physician's treatment plan, while educating members and allowing them to be actively involved in their medical care. The Case Management Team conducts assessments of a member's needs through on-site visits, telephone interviews and analysis of reports to determine if a member could benefit from case management. The type of services provided varies, depending on each member's need and situation. For example, the Case Management Team may provide assistance with discharge planning from an acute setting, provide a member with educational material regarding an illness, discuss alternatives to current treatment plans with physicians or provide benefits for a service that might not normally be offered by their regular benefit plan. All options for potential intervention are explored in collaboration with the member/family, providers, community resources and BCBSND team members as a means of improving the member's health status while potentially reducing costs. Participation with case management is voluntary and does not alter other health benefits offered by the member's basic health care plan. It is a collaborative effort between the member, the member's health care provider and BCBSND.

For NDPERS, in the time period, April 1, 2013 to March 31, 2014, 83 members were screened for case management needs. This included both active employees and retirees. Of these members, 28 were intensely followed by a case management nurse. Data is used to identify members with potential risk of high costs and hospital admissions and to prevent frequent ER usage. Calculating the difference between the anticipated expenditures if case management services had not been provided (the original course of action) and the actual expenditures incurred as a result of case management intervention, the program's estimated cost savings for this time period were $237,060. Cost savings for case management generally varies due to the differing severity of cases managed.

Now that there is a dedicated Case Manager, a variety of reports have been developed (and they continue to develop as needed) and we are providing proactive outreach to NDPERS members and their providers. Some of the new reports that have been developed include:

- ER visits – if a member has had more than 3 in the last month
- Top 10 highest at risk for inpatient – based on risk scores
- High dollar members – review those over $400K

These are some additional reports that the Case Manager currently receives:

- Prenatal Plus-monthly to those who are high risk
- Individuals identified for MAP program
- Inpatient if over 7 days – screen these to determine if outreach is needed

41. What is the source of the criteria used for the following:

    a. Determining surgical necessity and whether a second opinion is required.

    To determine surgical necessity for any procedure, the procedure is reviewed to determine if it is a nationally recognized standard of care—e.g. diagnosis of breast cancer with request for mastectomy. The standard of care is identified with input from local providers or specialty organizations. In addition, opinions and evaluations by national and state medical associations or consensus panels are researched.

    To determine surgical necessity for specific procedures, the procedure is reviewed to determine if it is a nationally recognized standard of care. The standard of care is identified with input from local providers or specialty organizations. In addition, opinions and evaluations by national and state medical associations or consensus panels are researched.

    If a request is made for a procedure where a medical policy is in place, the clinical information is reviewed against the policy criteria. If documentation supports medical policy criteria for that procedure, approval is given for that request. If criteria are not met for that procedure, all information is sent to the Medical Director for review of medical appropriateness and necessity.

    BCBSND's Internal Medical Policy Committee reviews medical technologies according to the following technology assessment criteria that have been established by the national Blue Cross and Blue Shield Association (BCBSA) and endorsed by BCBSND:

    1. The technology must have final approval from the appropriate government regulatory bodies.

    2. The scientific evidence must permit conclusions concerning the effect of the technology on health outcomes.

    3. The technology must improve the net health outcome.

4. The technology must be as beneficial as any established alternatives.

5. The improvement must be attainable outside the investigational settings.

The Blue Cross and Blue Shield Association's Technology Evaluation Center (TEC) provides scientific analysis and opinions of complex medical technology issues. This information allows plan medical personnel to make decisions about which treatments best improve a patient's health outcomes, resulting in efficient use of health care resources.

Peer Reviewed Journals
Part of the research includes published reports and articles in the authoritative medical and scientific literature. The quality of the body of studies and the consistency of the results are considered in evaluating the evidence. The evidence should consist of well designed and well conducted investigations.

If the procedure does not have a medical policy in place and there is a question regarding medical appropriateness and necessity, it is sent to a Medical Director for review.

In cases where medical necessity is uncertain and the member requests a second opinion, the second opinion is covered by the plan. Should BCBSND have uncertainty if the procedure is medically necessary, we may request that a member obtain a second opinion to assist in our determination.

b. Determining approved length of stay.

BCBSND does not assign length of stay for the medical or surgical preauthorizations. BCBSND uses InterQual criteria to determine medical necessity of the admission. InterQual products are a gold standard in evidence-based clinical decision support. Criteria cover the medical and behavioral health continuums of care, so they can be applied in a range of clinical situations. Pre-payment DRG audits are conducted and include Level of Care, Transfers and Readmissions. Claims are held in the system for the Nurse Reviewer to determine if the appropriate level of care was utilized, if the correct discharge disposition code was assigned and if it was a premature discharge or planned readmission.

BCBSND uses Behavioral Health Medical Necessity Criteria for psychiatric and American Society of Addiction Medicine (ASAM) Patient Placement Criteria-2R for Substance Abuse preauthorization and continued stay/treatment for all levels of care, including inpatient, residential treatment, partial hospitalization and intensive outpatient treatment. The Behavioral Health Medical Necessity Criteria have been developed based on current psychiatric literature, including the criteria of the American Psychiatric Association, the American Academy of Child and Adolescent Psychiatry and the American Society for Addiction Medicine or other relevant evidence-based literature or information. On an annual basis, or more frequently as needed, the Behavioral Health Medical Necessity Criteria and ASAM Patient Placement Criteria-2R are reviewed and approved by the Internal Medical Policy Committee of BCBSND and with input from the provider community consistent with BCBSND policies and procedures.

c. What percentile of the data is used?

National length of stay percentiles are not used. BCBSND does not assign length of stay for the medical or surgical preauthorizations as reimbursement is based on DRG methodology. For behavioral health, length of stay determinations are based on clinical information provided for each preauthorization. BCBSND will review the clinical information received based on all relevant and necessary resources received. If the clinical information supports the medical necessity of the service, authorization will be provided for an initial period, with review for continued stay, as needed.

d. Approximately what percentages of review cases are referred to a physician because the initial review and attending physician cannot reach agreement on the proposed level of care?

There were 1,768 cases referred to the Medical Director out of 16,212 preauthorization/ prior approvals, for a 10.9 percent for the time period, July 1, 2013, through June 30, 2014. Cases are referred to the Medical Director when the information submitted does not meet the established and published criteria for the requested procedure or admission.

e. Does this percentage vary between medical/surgical and psychiatric/substance abuse cases? If so, provide variances.

Out of the 16,212 preauthorizations and prior approvals, 6.7 percent (832) were referred to a Medical Director. For Behavioral Health, 25 percent (936) were referred to a Medical Director.

6.7 Health Risk Management Programs

42. Indicate in the table below if you currently provide the care or disease management program listed, the number of members from ND-based employers currently enrolled, the cost per participant, and its accreditation status.

The request for program cost per participant is answered in one of two ways in the table below, either with the term "Included" or the phrase "Built into claims experience."

The term "Included" signifies that the particular program is included in the administrative costs as indicated in BCBSND proposed rates in the rate section.

"Built into claims experience" applies to those programs that are part of BCBSND's MediQHome initiative. In these programs, the providers doing the care management work MediQHome requires are paid for this work through the BCBSND claims processes.

Program	Number of Members Enrolled (ND)	Cost per Participant	Accredited? If so, indicate accrediting organization.
Arthritis	Accordant 73 NDPERS members for Q4 2013 HealthyBlue - Online Coaching 24 members in 2013	Included HealthyBlue Included	National Committee for Quality Assurance (NCQA) Cerner Yes: URAC
Asthma	MediQHome (In-state): 6,185 members Healthways DM (OOS) 89 members in 2013 HealthyBlue - Online Coaching 306 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
Cancer	HealthyBlue – Online Coaching 875 members in 2013	HealthyBlue Included	Cerner Yes: URAC

Coronary Artery Disease	MediQHome (In-state): 1,370 NDPERS Members Healthways DM (OOS) 180 members in 2013 HealthyBlue – Online Coaching 601 members in 2013	MediQHome Built into claims experience Healthways Included HealthyBlue Included	MediQHome No Healthways Yes: NCQA Cerner Yes: URAC
Rare & Complex disease	Accordant Q4 2013, 313 active NDPERS members were included in the Accordant program	Accordant Included in Admin	Yes: URAC (Case Management) NCQA (Disease Management)

43. Briefly describe each of the programs currently offered and the cost of each program. Do you currently track and report specific clinical outcome measurements for each of the conditions for which care/disease management is offered? Please list them.

Accordant

BCBSND has contracted with Accordant to provide disease management services for complex and rare conditions. Accordant manages 17 diseases: amyotrophic lateral sclerosis (ALS), chronic inflammatory demyelinating polyradiculoneuropathy (CIDP), Crohn's disease, cystic fibrosis, dermatomyositis, gaucher disease, hemophilia, lupus, multiple sclerosis, myasthenia gravis, Parkinson's disease, polymyositis, rheumatoid arthritis, scleroderma, seizure disorders, sickle cell anemia, and ulcerative colitis.

Accordant offers personalized counseling and health evaluation to identify potential complications, a 24/7 nurse line, member education and self management techniques, and guidance finding resources. The company focuses on proactive care to avoid hospital admissions and crisis. Accordant nurses and social workers encourage member self-monitoring and management of disease-related symptoms and monitor compliance with current standards of care for the condition. Quarterly/monthly reports for clinical outcomes and participation are reviewed internally.

The cost of this program is included in the base administrative fee.

Prenatal Plus Program

Prenatal Plus is a voluntary educational support program for expectant mothers. Participants receive valuable information and support during their pregnancy supported by registered nurses. Participants screened as high-risk receive telephone calls on a monthly basis, whereas low-risk pregnancies receive outreach initially at 12-weeks gestation or at enrollment if a woman is beyond 12-weeks gestation, and again at 28-weeks gestation. There are multiple goals associated with the program, such as relaying as much education as possible to aid in a healthy pregnancy, encouraging collaboration with medical practitioners and early intervention for high-risk pregnancies. The expectant mother will receive a mailing, including a pregnancy calendar/journal, prenatal visit chart, pregnancy education, newborn care education, and a Taking Care of Your Child book.

BCBSND collects claim-based results (i.e. live births, caesarean section vs. vaginal delivery rates).

The cost of this program is included in the base administrative fee.

MediQHome Quality Program

MediQHome Quality Program (MQP) is a collaboration between BCBSND and providers to deliver the benefits of a patient-centered medical home.

A "medical home" is not a house, hospital or other building. Rather, it is a term used to describe a health care model in which individuals use primary care practices as the basis for accessible, continuous, comprehensive and integrated care. The goal of the medical home is to provide a patient with a broad spectrum of care, both preventive and curative, over a period of time and to coordinate all of the care the patient receives.

Providers who participate in MQP have access to MDinsight (MDI), an interactive decision support tool that organizes all available patient clinical data to create clinical summaries and quality reports specific to each patient. This interactive decision support tool stores information about care opportunities in one place and is easily accessible to the provider at the point of care.

MediQHome tracks the following clinical suites:

- Asthma
- Attention Deficit Hyperactivity Disorder
- Breast Cancer
- Cervical Cancer
- Chronic Heart Failure
- Colorectal Cancer
- Coronary Artery Disease
- Diabetes Adult, Adolescent, Child
- Hypertension Adult
- Hypertension Child/Adolescent
- Immunizations Adult & Adolescent
- Immunizations Childhood

BCBSND currently tracks and reports all clinical process, outcome measures and compliance rates for each clinical metric. They are available through the MediQHome MDinsight portal internally. In addition, providers currently have the ability to do their own organizational reporting for each of the clinical metrics through the MediQHome MDinsight physician portal. These reports are real-time based on clinical data submitted directly by the provider with minimal augmentation by claims data. Reports include patient specific care opportunities, goal progress reports and comparison information for all participants in the program.

BCBSND is focused on growing the program based on the overall vision which includes enhanced analytics, engaged providers, engaged members and quality outcomes.

The BCBSND plan for growth is a staged approach.

- Stage I
  - Collect baseline performance data.
  - Introduce risk adjusted care management fee for primary care providers with increased frequency.
  - Initial practice readiness assessment.

- Stage II
  - Practices must meet minimum requirements to enter stage II as determined from their readiness assessment and action plans to address gaps.
  - Introduction of total reimbursement targets.
  - Increasing care management fee amounts to offset fee schedule adjustments.
- Stage III
  - Practices must demonstrate medical home maturity through obtaining all components of advanced PCMH certification.
  - Maximum total reimbursement target maintained.

The cost for this program is included in the claims experience.

Out of State Member Disease Management

The goal of our disease management program is to create and maintain key desired behaviors of a population and of the providers who care for them. Our programs improve participant health status and participant provider satisfaction, thereby reducing health care costs and providing a positive return on investment. Specific clinical indicators for each program include improvement in the use of pharmaceutical therapies, improvement in testing values and improved participant satisfaction. Our programs incorporate all interventions necessary to optimize patient care and are based on the most up-to-date, evidence-based clinical guidelines.

Clinical outcomes for the following core conditions will be tracked and reported:

- Asthma
- Comprehensive Back Pain
- Coronary Artery Disease
- Chronic Kidney Disease
- Back/End Stage Renal Disease
- Chronic Obstructive Pulmonary Disease
- Diabetes
- Heart Failure

The cost for this program is included in the administrative fee.

Blue Distinction Total Care

In addition to this specific program, BCBSND is working with the Blue Cross Blue Shield Association to offer access to all Blue Cross Blue Shield value based outcome driven programs. Blue Distinction Total Care will provide national access to Blue value-based programs that are designed to demonstrate results in improving patients' health while managing costs. To earn the designation, each program must meet nationally consistent criteria for value-based reimbursement, accountability across the care continuum, patient-centered quality care and provider empowerment. Designated programs encourage a more collaborative, coordinated approach across the care spectrum – helping to ensure that employees and their families are receiving the right care at the right time. Access to these programs will be available to BCBSND members in 2015.

The cost for this program will be included in claims experience.

HealthyBlue

HealthyBlue includes all the functionality NDPERS expects from an online wellness experience:

- Exercise, food and weight trackers
- Enter and track their basic medical information like blood pressure, cholesterol and blood sugar
- Mobile application for smart phones
- "Community" function where they can find a diet buddy or talk to a dietitian or fitness trainer
- Online wellness workshops
- Customized challenges
- Articles to help members live a healthier life
- Meal planner for busy lifestyles

HealthyBlue includes specific online coaching programs including:

- Congestive Heart Failure
- Depression
- Diabetes
- Low Back Pain
- Hypercholesterolemia
- Weight Management
- Hypertension
- Coronary Artery Disease

BCBSND identifies and reports member participation subjective health scores, group aggregate health scores and member risk categories.

The cost for this program is included in the administrative fee.

Health Club Credit Program

BCBSND has contracted with the National Independent Health Club Association (NIHCA), a nonprofit organization that represents independently owned health centers across the nation, to administer this program. Each eligible member can earn up to a $20 health club credit per month when each member exercises at an NIHCA-affiliated health club 12 or more days in the month. Members are responsible to ensure their credits are recorded by the health club. Members are eligible for one credit a month and the credit amount cannot exceed the total monthly health club fee.

The cost for this program and the incentives are included in the administrative fee.

44. Are you willing to customize your care management/DM programs and services for NDPERS? If so, please explain and provide an example.

Yes, NDPERS has the ability to customize care management/DM programs. Healthways Disease Management is an example of customization being provided due to lack of geographical access to a MediQHome participating provider.

45. Describe the programs offered to patients with rare and chronic diseases. Is this program outsourced? Who is the current vendor?

BCBSND has contracted with Accordant to provide disease management services for complex and rare conditions. Accordant manages 17 diseases: amyotrophic lateral sclerosis

(ALS), chronic inflammatory demyelinating polyradiculoneuropathy (CIDP), Crohn's disease, cystic fibrosis, dermatomyositis, gaucher disease, hemophilia, lupus, multiple sclerosis, myasthenia gravis, Parkinson's disease, polymyositis, rheumatoid arthritis, scleroderma, seizure disorders and sickle cell anemia, and ulcerative colitis

Accordant offers personalized counseling and health evaluation to identify potential complications, a 24/7 nurse line, member education and self management techniques, and guidance finding resources. The company focuses on proactive care to avoid hospital admissions and crisis. Accordant nurses and social workers encourage member self-monitoring and management of disease-related symptoms and monitor compliance with current standards of care for the condition.

46. Describe in detail your ability to provide on line wellness programs. Compare it to the existing program presently in the NDPERS program (see our website). Specifically identify any deviations from the existing program.

BCBSND has contracted with Cerner to offer an industry leading health and wellness portal and mobile platform to NDPERS that has been branded HealthyBlue. NDPERS was transitioned to this enhanced platform in February 2012. BCBSND will continue to support this functionality throughout the next contract period. The HealthyBlue portal is customized with content and messaging specific to the NDPERS population. Enhancements in 2014 include the ability for members to report their physical activity using smart tracking devices such as FitLinxx and FitBit products. Enhancements also occurred within the HealthyNow mobile application that improves member experience and convenience.

47. Describe Wellness incentives you offer. Compare and contrast that with the existing incentives.

Through interaction on the HealthyBlue website and the BCBSND Health Club Credit Program (existing Wellness incentive design for NDPERS), members have the ability to earn up to $250 per year by participating in health and wellness activities. Members can receive up to $20 per month when exercising 12 days per month at an NIHCA-participating health club.

BCBNSD's online tools provide the ability to utilize a variety of points-based or utilization-based incentive models that reward participants for logging in, establishing action plans and completing assessments and sustained health management.

As a customization to earning points via online activity, NDPERS members also have the opportunity to earn points by engaging in wellness programs at their workplace.

This program is included in the base administrative fee.

Additionally, if appropriate and requested BCBSND has the capability to administer outcome-based wellness programs and incentives and has done so historically for multiple employer groups. Currently, multiple sources of data (clinical, claims and subjectively reported) are utilized to administer the participation and outcomes-based programs and incentives. BCBSND provides a comprehensive environment that administers the member experience, group level reporting and differing channels for application of incentives (online catalog, premium differential and HSA/HRA contribution).

48. Describe your ability to support NDPERS Wellness initiatives by providing the administrative services for:

a. Tobacco Cessation program (This program is coordinated with the ND Department of Health): BCBSND collects enrollment data and administers ID cards to the enrollees. BCBSND summarizes the subsequent claims information for counseling, physician visits and medication claims. A quantitative report is provided throughout the biennium,

presenting demographics of participants, biennium categories, expenditures and the overall program expenditures by biennium period. This is a separate Memorandum of Understanding (Tobacco Cessation Program agreement) and BCBSND will continue to work with NDPERS to administer this program.

b. NDPERS Diabetes Program: BCBSND has supported the About the Patient diabetes management program since its inception. BCBSND provided the initial project management expertise in all phases of program implementation, including initial identification of disease-eligible members, promotional materials and mailing lists. BCBSND continues to support the program by providing continuing enrollment eligibility, calculating member cost share reimbursement, disbursing funds for member cost share reimbursement and disbursing funds for provider reimbursement. In addition, BCBSND provides claim data for program assessment. This is a separate Memorandum of Understanding (Pharmacy Disease Management Program agreement) and BCBSND will continue to work with NDPERS to administer this program.

c. Dedicated Wellness Program Staff: BCBSND will continue to provide a dedicated Wellness Consultant to NDPERS to support and provide direction to the NDPERS wellness coordinators, develop and implement communications strategies and evaluate programs.

   New in 2014 was the creation and launch of the Lieutenant Governor's Worksite Wellness Award that is awarded to qualifying NDPERS Worksite Wellness agencies and or political subs for meeting tiered pre-determined criteria for programs that follow established best practices.

   Promotional/Educational Campaigns: Group Communication Materials - monthly health promotion campaign that follows recognized monthly health observances based on evidence-based medical guidelines. The materials are delivered directly to an organization for distribution to employees on a monthly basis. Targeted Outreach Campaigns – are provided directly to members who are identified as an opportunity for such things as cancer screening compliance and Did You Know campaigns.

d. Prenatal program

   Prenatal Plus is a voluntary educational support program for expectant mothers. Participants receive valuable information and support during their pregnancy supported by registered nurses. Participants screened as high-risk receive telephone calls on a monthly basis, whereas low-risk pregnancies receive outreach initially at 12-weeks gestation or at enrollment if a woman is beyond 12-weeks gestation, and again at 28-weeks gestation. There are multiple goals associated with the program, such as relaying as much education as possible to aid in a healthy pregnancy, encouraging collaboration with medical practitioners and early intervention for high-risk pregnancies. The expectant mother will receive a mailing, including a pregnancy calendar/journal, prenatal visit chart, pregnancy education, newborn care education, and a Taking Care of Your Child book.

   BCBSND collects claim-based results (i.e. live births, caesarean section vs. vaginal delivery rates).

   The cost of this program is included in the base administrative fee.

49 (A). Describe you're ability to support the employer based wellness program and the wellness benefit funding program (see our website).

BCBSND has a history of supporting NDPERS staff and Wellness Coordinators with the Employer Based Wellness Program and the Wellness Funding Program. The NDPERS Wellness Consultant at BCBSND assists employees and employers with their wellness initiatives. This consultant conducts monthly coordinator calls and annual workshops across the state, prepares monthly newsletters, assists with online wellness tools, develops various challenges for participants, coordinates monthly wellness stars and

other group communication items. The dedicated NDPERS Wellness Consultant also represents BCBSND on the Wellness Committee that reviews submitted applications. Recent examples of customized activities include:

1. Created additional functionality in HealthyBlue specifically for NDPERS members. (i.e. the Community Event Participation tracker)
2. Added in 2014 an online tutorial for HealthyBlue and quarterly BrainShark presentations on latest trends in Wellness.
3. Offer a discounted registration fee for NDPERS Wellness Coordinators attending Gearing Up.
4. Lt. Governor's Award was created specifically for NDPERS Agencies and Political Subsdivisions. Award winners receive FREE registration to ND Worksite Wellness Summit. We received 31 applications and will be presenting 24 awards.
5. Annually coordinate the National Walk at Lunch Day at the capitol in the spring and a Retiree Health Fair in the fall.
6. Created specific programs for NDPERS Wellness Coordinators such as, "Sit for 60, Move for 3", "Vaccination Awareness" and "Take the Stairs."

BCBSND has two Member Education consultants strategically located across the state to conduct worksite presentations for employees on various wellness related topic, in support of the Employer Based Wellness Programs. The NDPERS Wellness Consultant coordinates the awarding of employee participant voucher points to the BCBSND HealthyBlue Online Wellness Tool.

Once the funding application is evaluated and approved by the Wellness Committee, NDPERS staff provide notification to BCBSND to make payment out of the NDPERS Cash Reserve account held at BCBSND.

This program has a separate Memorandum of Understanding (NDPERS Wellness Benefit Program Agreement) and BCBSND will continue to work with NDPERS to administer this program.

6.8 Network Accessibility and Disruption

49 (B). We are requesting that vendors provide a GeoAccess network accessibility and disruption analysis outlining network access based on the access standards listed below separately by North Dakota County. If you are proposing a combination of owned and leased networks, please provide your results separately by network. This GeoAccess analysis must be provided for your proposed NDPERS network(s). A census file has been provided in Appendix E for your use.

Provider Type	Access
Primary Care Providers (family/general practice, pediatrics, internal medicine and OB/GYN)	2 providers within 30 miles
Specialists	2 providers within 30 miles
Hospitals	1 hospital within 50 miles

Please provide the GeoAccess summaries in the table below as well as back-up detail (back-up detail on CD submission only) for employees who fall both within and outside the following access standards. Your match should include all valid zip codes in each of the counties in North Dakota that your network serves and in which participants reside. In addition, you should include only open practices in your analysis.

The response provided to this question includes trade secret, proprietary, commercial, or financial information that is of a privileged nature and has not been previously publicly disclosed. This information is confidential and is prohibited from being

opened to the public. Please refer to the "Summary of Proprietary, Confidential and/or Trade Secret Information" for a summary/checklist of all specific items identified as trade secret as required under the "Unique Content Requirements – Requirement #5".

Please see "Attachment 9 - GeoAccess" for the electronic version on the CD submission for the back-up detail to the GeoAccess summaries in the table below.

50. Provide a listing or provider directory and link to the web for the provider networks you are proposing for NDPERS.

BCBSND has strong provider relationships through a variety of payer strategies. Our contracted network for NDPERS PPO currently includes 99.6 percent of all providers in North Dakota. BCBSND's business relationship is fostered by industry leading payment schedules and consistent claims payment accuracy and timeliness. The Provider Relations staff maintains strong relationships with providers by adhering to high standards for provider service, collaboration and responsiveness. The complete list of NDPERS PPO participating providers can be found under "Attachment 10 - NDPERS PPO Providers".

The link to the website for the provider networks is:
https://www.BCBSND.com/cgi-bin/ntwksearch.cgi — Under Health Plan select NDPERS PPO

51. Identify and describe your national preferred provider organization.

BCBSND contracts directly with providers within the state of North Dakota and one contiguous county into Minnesota, South Dakota and Montana.

Additional providers are available through a BlueCard Network arrangement with Blue Cross Blue Shield plans in other states. If a member travels out-of-state and has to receive medical treatment, the out-of-state provider can submit the claim to the Blue Cross Blue Shield plan in that state, which is known as the host plan. Through the Interplan Teleprocessing System, Blue plans from across the country can communicate to get the

claim paid just like a regular in-state claim. As long as the provider is a Blue participating provider, members receive the normal provider discounts negotiated by the host plan. Those BlueCard discounts saved BCBSND members over $228 million in 2013, In 2013, BCBSND processed more than 1.8 million BlueCard claims.

BlueCard also benefits members who travel out of the country and need to have services, through BlueCard Worldwide. The Blue Cross and Blue Shield Association contracts with a medical assistance vendor to negotiate rates with out-of-country providers.

52. Confirm your willingness to negotiate and maintain NDPERS-specific provider contracts to allow for cost control mechanisms and alignment of contract and plan years. Describe your process and approach for accomplishing this.

BCBSND has had relationships with North Dakota providers throughout its history. BCBSND contracted networks for NDPERS PPO currently includes 99.6 percent of all providers in North Dakota. These business relationships with providers are fostered by competitive payment schedules and consistent claims payment accuracy and timeliness. BCBSND maintains relationships with providers by adhering to high standards for provider service, collaboration and responsiveness.

Provider relationships have evolved to the point where BCBSND has contracts with providers that renew automatically. These contracts deliver what are believed to be the best provider discounts available in North Dakota as evidenced by BCBSND's strong market share in the state. These provider relationships also give NDPERS its own exclusive 5 percent discount in addition to standard BCBSND provider reimbursement.

53. Do you anticipate any significant provider contract changes for 2015? Describe.

BCBSND is leading a collaborative effort that will focus on strategies to influence cost, promote efficiency, improve quality of care and maintain member access to health care services. BCBSND launched Blue Value Partnership (BVP), a program designed to encompass our strategic objectives moving forward. Phase I of BVP starts in 2014 and includes advanced imaging performance measures to ensure appropriate utilization of high tech diagnostic imaging services (MRI, CT, PET scans, etc).

BCBSND wants to empower our providers and members to make changes that support lower cost and appropriately delivered care. BCBSND has identified several opportunities for future initiatives that would fit well into the BVP program. Future BVP phases and performances measures will be developed with the assistance of a clinician-lead quality committee.

6.8.1 Cost, Quality and Pay for Performance

54. Describe the programs and methodologies currently in place to gather and measure meaningful provider quality and efficiency data that can be shared with members.

The Blue Cross and Blue Shield system believes that engaging and empowering consumers to make more knowledgeable health care decisions is a fundamental priority. BCBSND is joining all Blue Plans across the country in participating in a collection of programs sponsored by the Blue Cross and Blue Shield Association, collectively known as the Consumer Transparency Initiatives. Each initiative is designed to give consumers a transparent view of the health care systems in their community. This will enable consumers to choose a facility and/or provider that best meets their needs.

Physician Quality Measurement (PQM) – This program displays physician performance measures to assist members in selecting a provider. The program is based on select HEDIS® physician performance measures selected by the Blue Cross and Blue Shield companies' clinical measurement experts. BCBSND has chosen to use measurement criteria available through the MediQHome Quality Program.

Please refer to Attachment 11 – Physician Quality Measurement for more details on this program.

Blue Physician Recognition (BPR) – complementary to PQM initiative – The BPR program is designed to reinforce Blue plans' commitment to quality by providing more meaningful and consistent information on physician quality improvement and recognition. Blue plans will identify groups and practices that have "demonstrated their commitment to delivering high quality and patient-centered care." In North Dakota, all participating MediQHome Quality Program participating providers will receive the BPR designation.

Please refer to Attachment 12 – Blue Physician Recognition for more details on this program.

Patient Review of Physicians (PRP) – PRP is an online tool for reading and writing reviews of physicians and professional providers nationwide. BCBSND members will need to log into our member portal to leave a review.

Please refer to Attachment 13 – Patient Review of Physicians for more details on this program.

National Consumer Cost Tool (NCCT) – The purpose of NCCT is to enable members to obtain information on estimated costs for common health care services. The categories or conditions will be based on the member's specific benefit plan, including total cost for service and out-of-pocket balance.

We all recognize the value of this transparency and our intention is to provide quality information to our members. BCBSND looks forward to progress on providing increased transparency and sharing useful quality data with our members.

55. Describe in detail the performance standards you currently have in place with your contracted physicians, provider groups, hospitals, and other providers. Outline the types of measures utilized, how you monitor and track these measures, how providers are held accountable, and how frequently the data is compiled and shared with the physicians and provider groups.

With more than 350 value-based programs in market or in development, Blue Plans are the undisputed market leaders in developing and executing groundbreaking forms of value-based care delivery that reward providers for improved outcomes. By encouraging more than 215,000 providers to shift from fee-for-service to incentive programs that drive improvements in both quality and costs, the Blues are improving the value of healthcare.

With the 2015 launch of Blue Distinction Total Care, these innovative programs developed by Blue Plans across the country will be integrated into a single nationwide solution for employers which BCBSND will be a part of.

Blue Distinction Total Care will provide national access to Blue value-based programs that are designed to demonstrate results in improving patients' health while managing costs. To earn the designation, each program must meet nationally consistent criteria for value-based reimbursement, accountability across the care continuum, patient-centered quality care and provider empowerment. Designated programs encourage a more collaborative, coordinated approach across the care spectrum – helping to ensure that employees and their families are receiving the right care at the right time.

BCBSND's local patient centered medical home program, MediQHome, was evaluated and received the BDTC designation ensuring our network of medical home providers meet nationally recognized standards for quality.

BCBSND has been a leader in encouraging the patient-centered care model through the MediQHome program over the last five years. The positive results have been remarkable.

For example, MediQHome contributed to a reduction in admissions from 2009 to 2010 of approximately 200 inpatient admissions. This accounts for about seven million dollars in savings.

MediQHome is a program aimed at improving the quality of care for patients with chronic conditions (such as asthma, ADHD, coronary artery disease, congestive heart failure, diabetes, and hypertension), as well as to increase compliance in preventive screenings (breast, cervical and colorectal cancer screenings and immunizations). Please refer to Attachment 14 – MediQHome Clinical Suites for more details on the MediQHome clinical suites.

Quality is measured through disease-specific metrics derived from evidence-based care guidelines. Reporting is provided to each provider group, with drill-down capabilities to individual providers, that details their quality performance, gaps in care by condition, and trending of performance over time. In addition, provider groups' quality scores are compiled in aggregate, ranked based on score, and then placed into tiers depending on their rank. Reporting is produced quarterly for metric trending and quality tiers.

Over 75% of North Dakota primary care physicians participate in MediQHome and are eligible to receive incentive payments twice per year. The incentive payments help compensate providers for the time and money spent on care management outside the traditional face-to-face visit. Providers who achieve improved clinical outcomes for their total patient population have the opportunity to earn additional revenue.

56. Describe your participation in pay-for-performance initiatives. To what extent do these activities impact the health care costs of NDPERS or claims incurred by its covered population?

BCBSND is developing a sustainable health care system which includes a pay-for-performance model. The intent of this initiative is to reduce the overall health care cost trend each year. The future system will include operational and payment strategies to influence overall cost, support reasonable provider profit, improve quality and maintain member access. Payment mechanisms will reward providers for quality and efficiency.

The MediQHome program will be expanded to all eligible providers and patients (including NDPERS members) in North Dakota and will provide the mechanism for physicians and care management teams to manage all aspects of a patient's health.

The current care management fee in MediQHome will evolve into other forms of payment including risk-adjusted care management fees, bundled payments and global payments. Providers will increasingly move from the current fee-for-service payment system to at-risk bundled and global payments such as capitation. Base payment levels for provider systems will be adjusted based on patient health risk levels and providers' clinical performance in relation to predetermined performance standards.

6.8.2 Credentialing and Contracting

57. Briefly describe the initial credentialing process. How often are physician, hospital and other contracts (labs, imaging facilities, DME, home health care) reviewed?

BCBSND reviews the credentials of all health care providers requesting participation according to BCBSND's internal credentialing policy. Providers are re-credentialed every three years. The credentialing/re-credentialing policy ensures the systematic review of health care providers requesting participation with BCBSND. The policy includes requirements and procedures for verifying a practitioner or provider by reviewing their qualifications to practice. The policy also includes procedures for verifying that practitioners have met eligibility standards and requirements such as education, licensure, professional standing, services, accessibility, utilization and quality.

The policy serves as guidelines for all BCBSND credentialing/re-credentialing decisions. The guidelines eliminate unfair business practices, such as prejudice in favor of or against individual circumstances or actions and promote consistency of interpretation and application of policy requirements. Issues of race, color, creed, religion, sex, national origin, marital status, disability, age, or sexual orientation are not considered during the credentialing/re-credentialing process. The policy is reviewed and submitted annually to the Quality Committee of the Board.

Provider contracts are updated as needed to meet regulatory requirements. Reimbursement notices are issued annually.

6.8.3 Reimbursement and Discounts

62. Provide details on how prescription rebates are reimbursed to the plan.

Prime negotiates rebates on behalf of BCBSND. Prime invoices manufacturers for rebates at the end of each quarter. Manufacturer payment timelines vary by contract, but they range from 30 to 105 days from the date of invoice. A single and final account reconciliation is made within twelve months following the end of the respective quarter. BCBSND remits to NDPERS rebates received from Prime less amounts credited to Member Rebate Accounts. The portion of rebates credited to a member's Member Rebate Account is a representative percentage of the cost share paid by the member on rebate eligible prescription medications. Money accumulated in a Member Rebate Account automatically reduces a member's out-of-pocket expense the next time a covered prescription drug is purchased.

6.9 Performance Standards and Guarantees

As described in Section I. Overview, of this RFP, health plan vendors are required to comply with performance standards and guarantees that include a financial incentive/forfeiture which is negotiated as part of the renewal process. See appendix H for a copy of these performance standards and guarantees. You are required to offer your performance standards and guarantees for the board's consideration using appendix H. It is a priority for the board to have a comprehensive set of standards and guarantees relating to this plan.

63. Please confirm you have completed appendix H and confirm your willingness to comply with the performance standards and guarantees or provide suitable alternatives. Identify any additional standards and metrics your organization would be willing to include.

BCBSND confirms we have completed and are willing to comply with the performance guarantees as outlined in Appendix H.

6.10 Pharmacy Benefits Management Services

64. Describe your company's experience with administering pharmacy benefits. Provide a summary that includes the number of years that your company has provided such services, number and type (governmental or private) of clients, the total number of eligible employees, and the total number of actual participants that your company currently serves. Identify those clients who are large employers with multiple payroll processing centers and Medicare Part D program support.

Prime has provided PBM services for BCBSND since 1998, when it began operation. In partnership with BCBSND, Prime's mission is to provide the highest quality care and service for NDPERS' members and empower NDPERS to make informed, cost-efficient decisions in health care management.

Currently, Prime serves 23 Blue Cross Blue Shield plans, 24 direct employers, 12 Medicare Part D sponsors, and 3 managed Medicaid clients, covering approximately 25 million lives. In North Dakota, Prime currently serves 211,927 eligible card holders and 404,840 lives.

Prime's comprehensive pharmacy programs cover the areas of claims processing, pharmacy network development and management, mail service, formulary management, manufacturer contracting, Medicare Part D and Medicaid services, specialty drug management, reporting, clinical programs, consumer-directed benefits, as well as many other customized services. BCBSND offers similar services to IBEW, Doosan, USW and Noridian.

65. Describe your company's expertise and experience in implementing PBM services for a program that is comparable in size to the NDPERS program, based on the number of covered lives.

Blue + Prime: A Better Way
The need for truly integrated care that enables medical and pharmacy benefits to work together has never been greater. Blue Cross and Blue Shield of North Dakota's (BCBSND)

in-house, connected pharmacy benefit manager (PBM), Prime Therapeutics LLC (Prime), is a national PBM providing optimal service to 25 million members. Prime is privately held by 13 Blue Cross and Blue Shield (Blue) plans including BCBSND.

Together, our PBM offering is based on stakeholder, not stockholder value. This means members and clients are our priority—not stockholders. We have and will continue to work closely with NDPERS to administer a pharmacy benefit strategy that meets the needs of your employees while reducing costs and managing overall health through our focus on the following:

- Unique Connections – We leverage our direct connection to deliver programs that coordinate across medical and pharmacy benefits to achieve better health outcomes
- Affordability – We keep pharmacy costs low so that medicines are more affordable for the members we serve
- Service – We deliver a superior experience making it easier for members to get the medicine they need

Unique Connections
At BCBSND and Prime, integration means a medical and pharmacy partnership that manages costs across benefits. There are several ways in which we demonstrate how our unique connection translates into cost savings, superior clinical results, and a best-in-class member experience:

Our Unique, Connected Approach
BCBSND and Prime make decisions together and provide our clients with one cohesive point of view instead of conflicting priorities. Our deep connection allows us to assess how pharmacy utilization and management programs impact overall medical experience and costs. Advanced integration capabilities provide additional value through a:

- Superior ability to identify and help members who are under/over-utilizing a medication or are at risk for an adverse outcome based on medical diagnosis (gaps in care)
- Seamless interface between programs for timely and accurate data exchange
- Trend reporting and management from a total combined medical and pharmacy care management perspective

GuidedHealth®
A prime example of integration and innovation is our GuidedHealth program. Using both medical and pharmacy data, GuidedHealth is a platform that delivers a suite of member-focused clinical programs to provide actionable clinical intelligence to physicians and members to improve outcomes and lower overall cost of care.

Integrated Product System (IPS)
Together, BCBSND and Prime offer collaboration and flexibility in integrating medical and pharmacy accumulators through our industry-leading IPS system. We are able to integrate deductibles, out-of-pocket (OOP) benefits, and lifetime maximums in real time and online at the point of sale to ensure compliance with 2015 Affordable Care Act (ACA) provisions. Our unique connection allows us to promote a seamless point-of-sale member experience that carve out PBMs struggle to accomplish.

Lower Pharmacy Costs

Industry-leading Drug Trend[1]
Prime's partnership and unique connection with Blue plans has driven stronger drug trend results than competitors every year since 2007; Prime's 2013 drug trend was only 3.3 percent.

A connected approach achieves better results[2]:

Drug costs are better controlled using a connected model. Simply stated, we are keeping medicine more affordable by leveraging our unique connection to secure deep discounts. We help our members take advantage of opportunities for lower cost, generic alternatives and the best preferred brand drug.

In July 2013, Prime conducted a study commissioned by The Blue Cross Blue Shield Association. The study compared the medical costs of members with carve-in pharmacy benefits with those of members with carve-out pharmacy benefits, as well as the rate of hospitalization and emergency department visits for members in both types of plans. Across the 1.8 million Blue members evaluated in self-funded plans administered by 25 Blue Plans, members with carved-in vs carved-out pharmacy benefits experienced:

- A statistically significant 11% lower per member per year total medical costs[2]
- 9% lower rate of hospitalizations[2]
- 4% lower rate of emergency department visits[2]

Please see Attachment 15 – Pharmacy Carve-in for a study that shows advantages of carve-in pharmacy benefits.

Benchmark Studies Prove Lower Cost through Blue + Prime

BCBSND and Prime's focus on a low net cost formulary and benefit designs that encourage the use of low cost generic medications, continue to drive BCBSND to the lowest ingredient cost per prescription. A recent benchmark study showed that both Prime and BCBSND lead the industry with lowest ingredient cost as shown in the graph below:

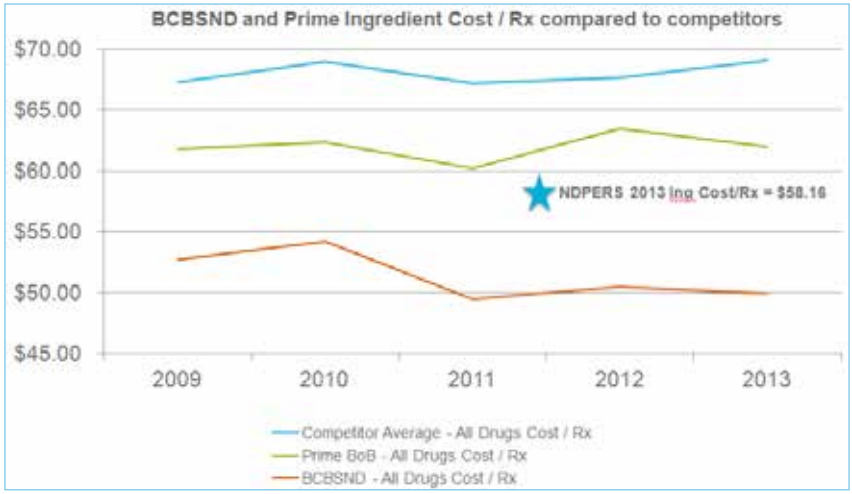

Figure 1. Lowest Ingredient Cost. We aim to have the industry's lowest ingredient cost for drugs[3]

Service Excellence

Highest Rated PBM by PBMI[4]

The Pharmacy Benefit Management Institute (PBMI) 2013 Pharmacy Benefit Manager Customer Service Research Report identified that employers rated Prime Therapeutics as the highest of all large pharmacy benefit managers (over 20 million members) in key satisfaction measures as shown by the following:

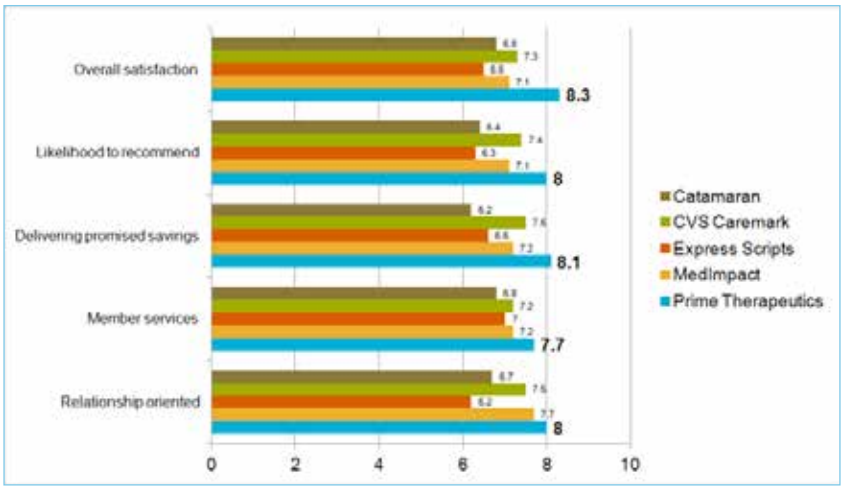

Figure 2. High Employer Satisfaction. Prime leads the industry in employer satisfaction.[4]

Prime also received the highest ratings in the following categories:

- Delivering promised services
- Flexibility
- No conflict of interest issues
- Account management
- Management reporting

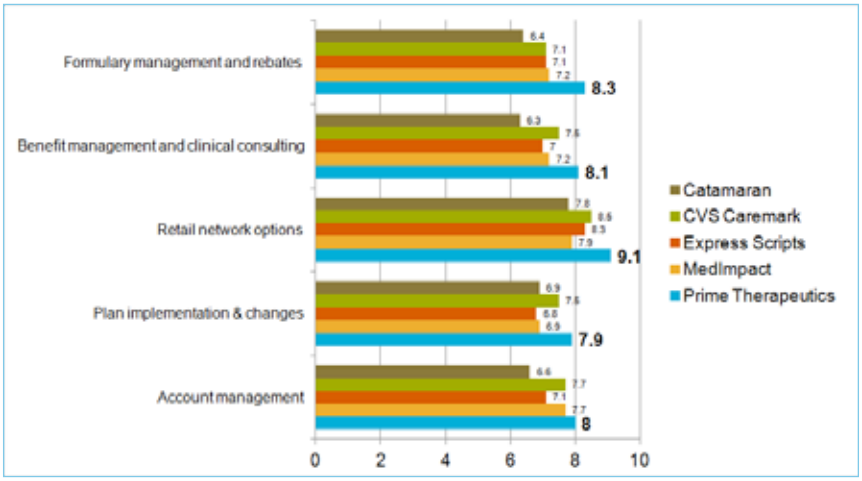

Figure 3. Core Service Satisfaction. Employer satisfaction with Prime core services surpasses competitors[4]

Likewise, additional core services areas where Prime scored highest:

- Web site for members
- Consumer education tools
- ID card production and distribution
- Drug utilization management programs
- Management reports
- Eligibility data management
- Trend management programs (tied for highest score)

In 2014, Prime is proud to have again received this distinction for the 2nd year in a row from PBMI.[4]

A Better Way
The Blue + Prime model is built on connections between medical, pharmacy, and health initiatives, instead of managing drugs as a disconnected component that is merely "tacked on at the end."

We focus on keeping pharmacy costs low, providing excellent client and member service, and leveraging our unique connection to deliver programs that lead to the best health outcomes. Simply stated, we offer NDPERS the means to manage drug costs within the overall context of your health plan. No carve-out, disconnected vendor can make that promise.

Prime's proven implementation success is driven by these key factors: minimal member disruption, managed organizational impact, and high client satisfaction. We are consultative and collaborative in our approach based on implementation success. Our proven implementation methodology is based on project management, implementation best practices, and PBM industry experience. Additionally, we provide documentation and reference materials throughout the implementation, and actively communicate with each client in an organized and consistent approach. These elements provide an assurance to our clients that we will provide a seamless implementation through strategic planning and detailed design. In addition to successfully implementing NDPERS, Prime has helped implement multiple clients of comparable size to NDPERS or larger, with a high degree of satisfaction as outlined below.

Client	Membership	Effective Date	Service Offering
Blue Cross and Blue Shield of South Carolina	1.1 million lives	1/1/2014	Medicare Part D Services
Horizon Blue Cross and Blue Shield of New Jersey	1.1 million lives	1/1/2014	Full PBM Services
Capital Health Plan	68,000 lives	1/1/2014	Full PBM Services
Johnson Controls	92,000 lives	1/1/2013	Full PBM Services
General Dynamics	104,000 lives	1/1/2013	Full PBM Services
Hormel Foods	20,000 lives	1/1/2012	Full PBM Services
Blue Cross and Blue Shield of North Carolina	1.1 million lives	4/1/2012	Full PBM Services
University of Minnesota	40,000 lives	1/1/2011	Full PBM Services
Blue Cross and Blue Shield of Alabama	73,631 lives	1/1/2011	Medicare Part D Services

Client	Membership	Effective Date	Service Offering
Blue Cross and Blue Shield of Tennessee	16,665 lives	1/1/2011	Medicare Part D Services
Blue Cross and Blue Shield of Alabama	1.8 million lives	7/1/2010	Full PBM Services
Blue Cross and Blue Shield of Montana	186,000 lives	1/1/2009	Full PBM Services
HCSC (Oklahoma)	200,000 lives	1/1/2009	Full PBM Services

Quality is Key
Both BCBSND and Prime provide a high level of quality assurance throughout the integration process. We do so by leveraging experienced resources to guide activities for the duration of the project. Our thorough testing methodology embeds detailed business validation activities into each workstream. As part of operational readiness planning, we leverage go-live verification checklists for each workstream and monitor key system statistics for historical data loads. We also actively apply lessons learned from historical experience to instill proactive risk mitigations and ensure smooth member transitions.

A successful business integration followed by an ongoing PBM program is dependent on getting a client's program set up correctly the first time. Before business integration activities occur, we meet with clients to understand their business objectives, benefit structure, system capabilities and challenges.

Other elements of a successful implementation include:

- **Regular communication** between BCBSND and our clients
- **Effective project management** to ensure all aspects of the transition are occurring smoothly and meeting timelines
- **Rigorous testing** of all systems, platforms, and data connections to ensure members will experience little to no disruption

66. Describe your mail order pharmacy program and provide details on how you market this service.

Through BCBSND's mail pharmacy, PrimeMail, we will continue to offer NDPERS the features and advantages you have come to expect from Prime, including cost savings, enhanced customer service, convenience, consultation, and timely and accurate dispensing.

PrimeMail's program philosophy is simple: provide the highest quality care and service for members. As your members have already experienced, PrimeMail's member-friendly, customer-centric solution includes a new member welcome (on-boarding) program, automated calls upon receipt and shipment of an order, refill reminders, and physician/prescriber outreach programs for new and existing members.

Cost Savings
As your home delivery pharmacy provider, PrimeMail continues to provide efficient, convenient, and low-cost approaches to filling your drug prescriptions. Our competitive discounts on brand-name and generic drugs are provided with no dispensing fees. Prime is committed to helping NDPERS add specific mail benefits should you choose to use this channel for savings purposes, including consulting on various plan design modeling options for this benefit. The cost savings, combined with a quality process superior to retail pharmacies and the convenience of internet, mail, or automated phone ordering create a highly valuable pharmacy solution for your members.

PrimeMail also offers a therapeutic substitution program for NDPERS members that targets long-term maintenance medication users for several drug classes. The Generics at Mail program promotes the use of generic and low-cost brand drugs that provide the same therapeutic outcome as more expensive brand drugs and saves your members money. The program typically has two components: letter-based member education followed by phone-based intervention.

Enhanced Customer Service
Enhanced customer service is a key component of PrimeMail's core values for mail order. NDPERS members will continue to receive the best in mail order customer service. PrimeMail customer service representatives (CSRs) are highly qualified, dedicated professionals available 24 hours a day, 7 days a week. NDPERS members have come to rely on knowledgeable CSRs and registered pharmacists who can address any mail service inquiries, including order status and drug-specific information.

PrimeMail recognizes that the growth of mail service as a pharmacy delivery channel creates a parallel need for PrimeMail to enhance value to clients and members. In the face of this pressing reality, Prime continues to invest in new technology and research, and ever-improving methods for putting mail service to the best possible use. NDPERS and your members will continue to benefit from the wide variety of features and benefits offered by PrimeMail.

Convenience
PrimeMail provides safe, convenient, cost-effective home or workplace prescription delivery. Members who require long-term or maintenance medications find the mail service program particularly effective in serving their needs. To this end, PrimeMail offers:

- Secure and HIPAA-compliant ordering, operations, packaging, and shipping that provides members with confidence and peace of mind
- Clear member-friendly communications that ensure ease of use and increase prescription mail service benefit awareness
- Member web sites that provide convenient access to refill ordering, order status, and other health and drug information
- PrimeMail's acceptance of prescriptions through e-prescribing serves as an administrative efficiency for physicians/prescribers as well as helping reduce cost and improve health care delivery of pharmacy benefits; BCBSND and Prime recognize that with mail service pharmacies growing faster than any other delivery channel, the need to enhance value for all audiences is also growing; as such, Prime continues to invest in new technology, research, and ways to best use mail service
- The ability for members to order larger quantities of their medication at one time, depending on benefit design (e.g., 90-day supply through mail vs. 30-day supply at retail)

Consultation
Your BCBSND Account team will continue to ensure all aspects for your mail program is meeting your overall goals and member needs. By utilizing PrimeMail, you receive the following advantages:

- Consultation on your mail service benefit and UM programs in the context of your overall pharmacy management goals
- Member communication that eliminates confusion and disruption to members and supports your mail utilization goals throughout the life of your program

Accurate and Timely Dispensing
PrimeMail's workflow management system provides enterprise-wide access to all mail service prescription documents throughout the dispensing process. All documents are

scanned with the order, including the check and any notes. This ensures no information is separated from the order, allowing PrimeMail pharmacists to ensure the accuracy of each order. This unique feature of the PrimeMail facility also allows CSRs to verify the status of a member's prescription and to answer questions regarding his or her order throughout the dispensing process. PrimeMail delivers new prescriptions more than one day faster than the competition and delivers refills nearly one-half day faster. Ongoing quality measurement of our mail service operational setup and configuration functions reveals consistent dispensing accuracy rates of 99.99%.

67. Describe your PBM rebate process. NDPERS is requesting that you provide a rebate guarantee in appendix H?

On behalf of BCBSND, Prime has arrangements with pharmaceutical manufacturer companies for rebate dollars. Prime receives a rebate management fee from manufacturers for services rendered in connection with rebate contracts, such as performing market share analysis required to calculate rebates and consolidating billing for clients. Prime does not accept any other (direct or indirect) manufacturer funding for clinical programs or research, nor do we maximize rebates at the expense of overall low net cost.

Rebate Calculation: Currently, Prime calculates and remits an initial estimate of rebate, less a $0.39 per paid claim rebate program management fee, within 60 days following the end of the respective calendar year quarter. Total rebate dollars available are comprised of group retained and member rebate amounts. NDPERs retained rebates are deposited into NDPERs cash accounts.

Prime negotiates rebates on behalf of BCBSND. Prime invoices manufacturers for rebates at the end of each quarter. Manufacturer payment timelines vary by contract, but they range from 30 to 105 days from the date of invoice. A single and final account reconciliation is made within twelve months following the end of the respective quarter. BCBSND remits to NDPERS rebates received from Prime less amounts credited to Member Rebate Accounts. The portion of rebates credited to a member's Member Rebate Account is a representative percentage of the cost share paid by the member on rebate eligible prescription medications. Money accumulated in a Member Rebate Account automatically reduces a member's out-of-pocket expense the next time a covered prescription drug is purchased.

Processing Schedule and Reporting: Rebate deposits are reported in the rebate column of the Calculation of Interest on State Group report and in NDPERs quarterly executive summaries.

Prime negotiates rebates on behalf of BCBSND. Prime invoices manufacturers for rebates at the end of each quarter. Manufacturer payment timelines vary by contract, but they range from 30 to 105 days from the date of invoice. A single and final account reconciliation is made within twelve months following the end of the respective quarter. BCBSND remits to NDPERS rebates received from Prime less amounts credited to Member Rebate Accounts. The portion of rebates credited to a member's Member Rebate Account is a representative percentage of the cost share paid by the member on rebate eligible prescription medications. Money accumulated in a Member Rebate Account automatically reduces a member's out-of-pocket expense the next time a covered prescription drug is purchased.

6.10.1 Services Provided to NDPERS

68. Describe the timetable and specific tasks involved to have the NDPERS' program operative for the July 2015 Plan Year. Include a detailed implementation plan and business plan or timeline related to prescription drug coverage including Medicare Part D program support. At a minimum be specific with regard to the following:

    a. Amount of time needed for implementing the new program

    b. Recommended activities/tasks and timing

c. Responsibilities of the vendor and the NDPERS staff

d. Transition with incumbent, including providing members 90 day notice regarding formulary changes, and the communication of transition issues to all plan members.

e. Length of time implementation team will be available and accountable to NDPERS.

f. Identify the staff members, by area of expertise, who will be assigned to the implementation team.

As the incumbent, BCBSND has the staffing, infrastructure and contracts in place to continue the NDPERS health plan for 2015 - 2017 biennium and beyond. BCBSND and Prime will be able to continue the program without disruption.

For NDPERS members, BCBSND and Prime offer a seamless experience—providing exceptional service, helpful information and pharmacy drug benefits—with a single member ID for both medical and pharmacy benefits. Integration of pharmacy and medical benefits reduces duplication of several enrollment and eligibility functions and simplifies coordination of benefit limits. Integrated plans are able to implement consistent medical policy regardless of where services are delivered. Finally, integrated pharmacy and medical benefits have been shown to decrease costs, emergency room visits and hospitalizations compared to members with "carve-out" pharmacy benefits.

As the incumbent, BCBSND also has staffing, infrasture and contracts in place to continue the Medicare Part D program without disruption.

6.10.2 Formulary

69. Provide details and the capabilities of your organization to provide a formulary that is at a minimum equivalent to and as comprehensive as the current formulary used by the NDPERS program. Provide sample formulary documents.

NDPERS currently utilizes the standard BCBSND Formulary, which provides members with broad access to safe, medically necessary products. This formulary is a list of medications which represent the current clinical judgment of physicians and other experts in the health care arena. See "Attachment 16 – Drug Formulary."

At a minimum include the following:

i. Describe your policy regarding formulary changes and your procedures for educating and notifying members. Indicate how often the formulary is changed.

New drugs slated to be added to the formulary are typically reviewed as soon as possible after market launch, with all new agents reviewed within 180 days of availability on the marketplace. Some drugs may be held for a quarter to be reviewed on-cycle with drugs in the related therapeutic class according to the Prime National P&T Committee.

The Prime P&T Committee meets quarterly to review and update the Clinical Threshold List and the Medicare Part D formularies. P&T bylaws also permit ad hoc meetings as necessary. The P&T Committee reviews all therapeutic classes annually, with the reviews distributed equally between the four meetings.

Communicating Changes
The best method of formulary communication for all audiences (members, physicians, and pharmacists) is the actual formulary. Members, physicians, and pharmacists can find our formulary at MyPrime.com integrated with BCBSND's web site, www.BCBSND.com. Our web site contains the most current formulary and any changes made to the formulary.

Communicating to Members
BCBSND provides formulary information, including updates about deletions and additions, through www.BCBSND.com. Our web site is linked to MyPrime.com, the member pharmacy web site. With the member-directed web site, members have the advantage of using the online formulary search feature to search from the group-level formulary (specific to your benefit design). Benefit-specific information provides members the most accurate formulary status possible.

Communicating to Physicians
BCBSND posts the formulary and any updates on our web site. Physicians can also go to Prime's corporate web site, www.primetherapeutics.com, directed at physicians/providers, for updates. In addition, BCBSND provides formulary publications for inclusion in mailings developed for physicians.

Communicating to Pharmacies
Prime Perspective, a quarterly newsletter, is distributed to all network pharmacies. Prime Perspective includes formulary updates, plan announcements, benefit updates, and other information to support claims processing. The newsletter and formulary can also be found on the Prime corporate web site and by going to www.BCBSND.com.

ii. Describe how drugs are evaluated for possible inclusion on the formulary.

Clinical guidelines are one of several information sources incorporated into Prime's chapter reviews and Clinical Threshold List (CTL) when evaluating drugs for possible inclusion in the formulary. Prime's Clinical department conducts full chapter reviews, then distills the information down to key points for notation in the CTL placement. New drug monographs are also completed for any new to market drugs and incorporated into the chapter review and CTL.

The methods used to gather data and consider the evidence for the drugs in each chapter review and CTL are the same for all drug classes; Prime's Senior Clinical Pharmacist is responsible for a chapter review and conducts a literature search for new information since the last annual review. This literature is considered based on the following hierarchy:

- Randomized Clinical Trials (RCTs)
- Guidelines
- Systematic reviews and meta analysis
- Other information including observational studies/case control studies/retrospective analysis, tertiary references, and expert opinion

Other review considerations include:

- Guidelines providing direction for drug therapy in a disease state treated with drugs across more than one class are considered for all applicable classes
- Evidence-based practiced guidelines are favored over consensus practice guidelines as they detail a comprehensive search of the literature, an evaluation of the quality of individual studies, and recommendations supported by the evidence
- Consensus practice guidelines contain recommendations based on practice or expert opinions that typically do not include the rigor of evidence-based guidelines
- The most current clinical practice guidelines are given the most consideration
- Guidelines reflecting current clinical practice in the United States are favored over guidelines written in foreign countries; where no United States guidelines exist, foreign guidelines may be referenced

- Guidelines written by nationally recognized organizations, government agencies, and specialty groups are favored over guidelines produced by journals, small unrecognized groups, or pharmaceutical manufacturers

iii. Describe the basis of your formulary development and maintenance?

Formulary decisions are made using an integrated process involving both the BCBSND Pharmacy and Therapeutics (P&T) Committee and Prime's National P&T Committee. Prime's Clinical Department, Pharmacy Trade Relations Department and Product Review Committee thoroughly research formulary considerations (content and composition) before recommendations are made to Prime's P&T Committee. The decisions of the Prime National P&T Committee become recommendations to the BCBSND P&T Committee, which makes final formulary decisions.

BCBSND P&T Committee
There are nine members of the BCBSND formulary committee, comprised of three representatives from BCBSND, three practicing physicians, and three practicing pharmacists. The practicing physician and pharmacist members are selected based on credentialing and reputation in the community. A BCBSND Medical Director serves as chairperson. The BCBSND representatives are salaried employees of BCBSND. The practicing physicians and pharmacists receive an honorarium for meeting attendance.

Prime P&T Committee
Prime's National P&T Committee is composed of an independent panel of physicians and pharmacists representing diverse geographic locations. Prime's Blues clients select their own representative while Prime selects practitioners from highly credentialed specialists representing high-prescribing clinical disciplines. The P&T Committee voting membership must consist of at least 50 percent practicing physicians/pharmacists. Practitioners must spend at least 50 percent of their time in direct care, or be academicians with a clinical focus.

Each voting Prime P&T Committee member not affiliated with Prime's Blues clients is eligible to receive an honorarium. Each voting Prime P&T Committee member is eligible to receive expenses to cover travel and lodging. When the voting P&T Committee member is employed by a client, the client will determine whether to accept expense reimbursement.

iv. Provide specific information where a higher cost option of therapeutic equivalent drug has been included in your formulary and provide rationale for doing so.

We have a very structured process for formulary development, which ensures decisions are first based on safety, efficacy, uniqueness, and then cost – all clinically superior and comparable drugs are evaluated financially for formulary consideration; drugs considered unsafe or clinically inferior are not considered for formulary inclusion. For those decisions in which cost becomes a consideration, Prime utilizes a net cost modeling tool which helps determine the true cost of a drug product or class of products by taking into account network discounts, utilization, market share projections, and any available manufacturer discounts. Therefore, there may be drugs on the formulary that have a higher AWP than other alternatives when the net cost modeling has demonstrated an overall lower net cost.

v. What is your definition of a Generic Drug?

Generic drugs are defined as having a "Y" code in the Multisource Code Indicator on Medispan. Unlike some alternative PBMs, with BCBSND/Prime this definition applies to **not** just claims adjudication but also to discount reconciliation.

vi. What is your definition of a Brand Drug? Describe the composition of your review board/committeee and how often do they meet and how are they selected to be a member.

Brand drugs are defined as having an "M, N, or O" code in the Multisource Code Indicator on Medispan. Any modifications to the process are renewed by Prime's executive committee.

6.10.3 Management of Clinical Programs

70. Provide information that demonstrates your organization can effectively administer the programs listed below in order to partner the pharmacist, other health professionals and the member to ensure the optimum therapeutic outcomes for our members. Also provide information that demonstrates your organization's ability to promote the safe and effective use of medications, and help our members achieve targeted outcomes.

Our integrated medical and pharmacy offering delivers programs that coordinate across medical, pharmacy, and health care benefits to achieve better outcomes and lower total cost of care. We are able to work collaboratively (due to aligned incentives, and ability to share data) to understand member needs, and engage the member and physician with information in ways that can lead to improved health outcomes. Our robust suite of clinical programs is described below:

GuidedHealth® Clinical Programs
GuidedHealth is a series of clinical programs and reporting tool that delivers a suite of innovative, member-focused clinical programs to provide actionable clinical intelligence to physicians and members to improve outcomes and lower overall cost of care. Based on program selection, an inclusive Health Guide is generated that aggregates all drug therapy opportunities at the member level, resulting in fewer, more meaningful contacts for physicians and members. We also have the unique ability to integrate data generated from GuidedHealth to enhance our member and physician engagement strategies.

GuidedHealth directly links our engagements to the achievement of specific health outcomes and total cost of care measures and reports the value of those specific engagements, including pharmacy cost, outcomes, adherence and medical cost avoidance setting a standard for integrated reporting not yet seen in the industry today.

How It Works
GuidedHealth's program modules for BCBSND (described below) help physicians, members and NDPERS identify opportunities for better management of pharmacy utilization, resulting in improved member outcomes and overall reduction in health care costs.

Program features include:

- A robust intake process for the import of medical, lab and pharmacy claims data in an efficient manner
- A rich workflow application that can manage all of the activities (i.e., develop and send action plans) as well as monitor the results of any interaction
- The ability to send results (e.g., gaps in care) electronically or by letter to physician (program specific) or other host system
- Ability to deliver activity reports and show results including savings, outcomes, adherence and medical cost avoidance setting a standard for integrated reporting

Modules and Program Overview
The clinical programs within GuidedHealth include traditional retrospective drug utilization review (DUR) programs as well as adherence and cost management programs. All programs are developed using evidence-based medicine and nationally recognized

drug compendia and guidelines. They have been organized into modules that focus on overutilization, underutilization, drug safety, and cost management opportunities.

Below are some of the clinical programs that are available through GuidedHealth. Additional program detail is provided for select programs as well.

- *Overutilization Module*
  - Controlled Substance Alerts
  - Triple Therapy Alert
  - Psychotropic Polypharmacy
- *Underutilization Module*
  - Asthma Inhaled Corticosteriod Use
- *Drug Safety Module*
  - FDA MedWatch
- *Drug Cost Management Module*
  - Generic Opportunity
  - Preferred Brand Opportunity

Targeted Adherence program
Provided through GuidedHealth is our Targeted Adherence program, which supports drug adherence and improves the quality of care for members. This program incorporates medical claims data that allows identification of members with a chronic disease state (cholesterol, depression, diabetes, hypertension, and respiratory) who are at the highest risk of suffering a future adverse medical event. It is these high risk members that will gain the largest benefit from being adherent to their medications, as supported by the medical literature. These high risk members are assessed for adherence to their current prescription medications for those specific disease states.

Analysis of pharmacy claims data reveals a proportion of days covered (PDC), which provides an accepted measure of whether a member is taking his or her medication on a regular basis based on a number of factors (e.g., prescription fill rates, days supply).

If an adherence issue is identified (i.e. less than 80% adherence with medication therapy), the member and/or physician can be sent a targeted letter designed to improve adherence. The goal of this program is to increase appropriate utilization of prescription medications and may result in increased pharmacy spend. However, reporting for this program will also evaluate medical cost avoidance, in addition to adherence rates.

Targeted Gaps in Care Program
Also provided through GuidedHealth is the Targeted Gaps in Care program, which encourages appropriate drug utilization in chronic disease states and improves the quality of care for members. Similar to the Adherence program, the Gaps in Care program incorporates medical claims data that allows identification of members with a chronic disease state (cholesterol, depression, diabetes, hypertension, respiratory, and epilepsy) who are at the highest risk of suffering a future adverse medical event. These high risk members gain the greatest benefit from using medications to treat their condition, as supported by the medical literature. The pharmacy claims of these high risk members are then evaluated to identify members who have a gap in care (i.e., are not currently receiving a recommended medication for their chronic disease state). If a gap in care is identified for a member, their physician can be sent a letter to encourage appropriate medication use. The goal of this program is to increase appropriate utilization of prescription medications and may result in increased pharmacy spend. However, reporting for this program will also evaluate medical cost avoidance, in addition to closure of gaps in care.

Continuity of Care
The Continuity of Care program is designed to supplement existing step therapy programs. The objective of the program is to identify members who have not filled a pharmacy claim for a chronic disease medication subsequent to having a prescription claim reject for failure to meet step therapy requirements. For those members who have failed to fill a prescription for the targeted drug or a suitable alternative, we can provide follow-up outreach to the physician. The goal of the program is to ensure that members are not walking away from therapy due to a step therapy program and to increase the utilization of chronic disease medications as appropriate.

a. **Drug Utilization Reviews - retrospective, concurrent and prospective.**

BCBSND and Prime offer drug utilization review (DUR) services including retrospective, concurrent, and prospective as described below.

Retrospective Drug Utilization Review
Retrospective drug utilization review (DUR) programs are designed to manage drug utilization and identify potential misuse and abuse. Potential intervention opportunities are identified by reviewing medical and pharmacy claims history for specific aberrant prescribing patterns in targeted diseases such as asthma, depression, and hypertension. Physicians and/or members are then targeted for an intervention to encourage more appropriate utilization.

The retrospective DUR program, rooted in evidence-based medicine and national guidelines, provides enhanced value to clients and members; we offer numerous retrospective DUR programs through our GuidedHealth platform. Multiple programs can be run at the same time and the actionable clinical intelligence can be summarized to the prescribing physician in one "Health Guide" aggregated at the member level. Quarterly reports are provided showing not only the number of drug therapy problems identified, but also the number of engagements and outcomes/savings.

Concurrent Drug Utilization Review
The concurrent DUR program screens prescriptions at the point of sale for potential drug problems. If a DUR edit flags a claim in the claims system, a message is displayed online for the pharmacist to identify the potential conflict before the member receives the medication. Concurrent DUR edits categorize potential interactions by severity, onset, documentation, and if the drugs were dispensed from the same pharmacy and same prescriber. Each of these categories has multiple layers and each combination can be attached to a unique response. This is particularly effective for member interventions.

The pharmacist then explains the message to the member and, if applicable to the benefit design, the prescription is denied for coverage. Most concurrent DUR edits, however, are set as informational only in which pharmacists use their professional judgment in dispensing medication.

Prime complies with NCPDP specifications for online DUR and supports all available Medi-Span concurrent DUR edit modules. Medi-Span classifies drug interaction severity based on drugs. The claims system can store multiple messages for handling edits (i.e., override allowed). Receipt of the messages is based on capabilities of the pharmacy software.

Concurrent DUR Screening Categories
Concurrent DUR edits fall into standard screening categories, under which there are multiple edits based on individual drugs. Edits include:

- **Drug-to-drug interaction** - Checks for interaction between drugs based on the sensitivity level of the interaction

- **Drug –to-gender caution** - Identifies contraindications based on a member's gender
- **Duplicate therapy** - Checks for use of multiple drugs from the same therapeutic category
- **Duplicate prescription** - Checks for ingredient duplications (based on exact Generic Product Indicator)
- **Drug-to-age caution** - Identifies contraindications for specified age groups. A priority level may also be specified based on contraindication
- **Dosage/duration** - Compares the dosage on the claim to the recommended dosage for the member's age group and then determines whether to send a response*
- **Drug regimen compliance** - Checks to make sure the member is not underutilizing a drug. Reviews member claims history to determine if he or she has received the same drug and if he or she is receiving the new refill within a certain number of days since it was last filled
- **Drug-inferred health state** - Determines if the submitted drug or a profile drug conflicts with inferred health state (e.g., pregnancy)
- **Additive Toxicity** – Calculates the daily dose of acetaminophen across all active prescriptions and identifies claims above the FDA maximum dose.

** If a claim exceeds the established threshold of a category, it will be rejected and return a message instructing the pharmacist to verify the quantity or days supply.*

All participating network pharmacies, including PrimeMail, access the same claims system, online and in real time, for concurrent DUR. Whichever pharmacy a member uses that transaction becomes a part of his or her complete profile. Claims are checked against the current and comprehensive profile for each member.

Prospective Drug Utilization Review
We view prospective DUR as a combination of clinical programs for member education and appropriate use of medications. We have many prospective and proactive programs in place to ensure members are on appropriate drug therapy with varying levels of engagement. These include the following programs:

- **Prior authorization** - designed to effectively manage high-cost medications that have an actual or significant potential for misuse, overuse, or inappropriate use and that could be of clinical, economic, or safety concerns (or a combination of these).
- **Step therapy** - takes a "step" approach to providing members a drug to help treat their condition. This means that members may first need to try a first-line drug before coverage is provided for a second-line drug. A first-line drug is usually a generic drug (or preferred brand if generics are not available) and represents a more cost-effective alternative for the member and NDPERs.
- **Quantity limits** - promotes safe and effective drug use and reduce waste by limiting certain prescriptions to a pre-determined quantity limit or duration
- **Concurrent DUR** - provides point-of-sale messaging to the member and pharmacists regarding potential drug problems (e.g. drug disease interaction, high dose, drug-age interactions)

Other strategies focused on ensuring members are taking appropriate medications include:

- **Member education collateral** – online resources and webinars are available for specific drug categories via our web site

- **Formulary management** - our Clinical teams and P&T committee evaluates every drug for our formulary including assessing safety and efficacy

Additionally, our clinical staff continually monitors industry intelligence regarding the most likely scenarios for patent expirations and generic launches; we can help NDPERS anticipate changes to generic utilization rates and identify new program opportunities. Further, we track industry intelligence regarding the most likely scenarios for anticipated new drug releases and OTC switches. We use all of this information to forecast trend and to look for opportunities to change or implement clinical programs.

b. **Disease Management**

Prime partners with BCBSND to provide pharmacy support to Health Risk Management programs. In addition, BCBSND and Prime's Retrospective DUR program, Adherence Program and Efficiency Program provide components of disease management in order to help increase the quality of life for members. These can be used as stand-alone pharmacy programs or in conjunction with other BCBSND disease management programs.

Retrospective DUR
BCBSND and Prime's retrospective DUR programs identify potential intervention opportunities through medical and pharmacy claims history for specific aberrant prescribing patterns in targeted diseases, including asthma, high cholesterol, depression, diabetes and hypertension. This information is used to target physicians and/or members for an intervention to encourage more appropriate utilization.

Each retrospective DUR is unique and the method used to identify opportunities for intervention depends on the specific goal of the program. Typically, the intervention method is a prescriber mailing. DUR programs are generally conducted on a quarterly basis.

Adherence Program
BCBSND and Prime offer an Adherence Program to support drug adherence and improve the quality of care for members. This program provides standard adherence reporting in the following five drug categories:

- High blood pressure
- High cholesterol
- Depression
- Diabetes
- Respiratory disorders

The program can be expanded to include additional information from medical claims data that allows detection of diagnosed members not receiving therapy.

An analysis of pharmacy claims data reveals a medication possession ratio (MPR), which provides an accepted measure of whether a member is taking his or her medication on a regular basis based on several factors (e.g., prescription fill dates, number of days supply). The Adherence Report then charts client-specific data on the MPR rates of an entire member population taking a particular medication.

The Adherence Report may reveal good adherence, defined as 80 percent compliance or better, among NDPERS members, whereby intervention may not be required. If an adherence issue is identified, the member and/or physician can be sent a targeted letter designed to improve adherence. Adherence reporting and information are sent on a quarterly basis.

Efficiency Program
BCBSND and Prime offer a pharmacy solution to contain costs while preserving quality through the Efficiency Assessment, which uses total health care costs to guide pharmacy benefit management decisions. Using an integrated medical and pharmacy risk stratification tool, an Efficiency Report is produced that stratifies member utilization by risk within each core drug category. This report provides an efficiency ratio with a marker for NDPERS to see the proportion of pharmacy dollars spent to treat high-risk members.

The efficiency assessment provides a single metric demonstrating how efficiently NDPERS is spending pharmacy dollars within the targeted core drug category. Goal number and desired outcomes are tailored specifically to NDPERS. The Efficiency Report and the efficiency ratio metric assist NDPERS in deciding which pharmacy management programs and benefit designs are most appropriate.

GuidedHealth Medication Therapy Management Program
BCBSND provides NDPERS with the unique advantage of medical and pharmacy benefit managers working together in ways that a typical pharmacy "carve-out" program does not provide. BCBSND and Prime focus on pharmacy management in the context of total health spend, which means pharmacy is leveraged to positively impact medical outcomes. Understanding total health spend—the inter-relationship between pharmacy costs and medical costs—helps BCBSND better manage NDPERS' benefits.

BCBSND and Prime provide additional data integration for prescription and medical claims through our GuidedHealth Medication Therapy Management program (MTM). MTM is defined as taking an active role in supporting members and working with pharmacy providers and prescribers. The proposed program has five major components:

- A clinical rules engine that can apply clinical rules and define gaps in care
- The gaps in care can be stratified into low/medium/high-risk levels
- A rich workflow application that can manage all of the activities (i.e., develop and send action plans), as well as monitor the results of any interaction
- The ability to send results (e.g., gaps in care) electronically or by letter to a provider or other host system
- Ability to deliver activity reports and show return on investment results

71. Does your organization perform retrospective DUR for all claims of a given client? Please provide frequency of retrospective DUR.

Yes, BCBSND's and Prime's retrospective DUR programs work by identifying potential intervention opportunities using all claims. Medical and pharmacy claims history are reviewed for specific aberrant prescribing patterns in targeted diseases. Physicians and/or members are then targeted for an intervention to encourage more appropriate utilization.

Through GuidedHealth, we can perform retrospective DUR on any level of claims as defined by NDPERs. For instance, 85% of Prime's book of business utilizes the retrospective DUR program.

Retrospective DUR programs are reviewed as needed, but at least quarterly, by Prime's Clinical department on BCBSND's behalf, for possible changes or enhancements. In addition, the program portfolio is reviewed annually and new programs are added (generally 2-4 per year) and some may be deleted if no longer relevant or if there is lack of use.

72. What is the generic utilization and substitution rate for your overall book of business nationally and in North Dakota?

BCBSND's and Prime's comprehensive generic programs and built-in collaboration with clients help increase utilization rates and build awareness of cost savings for generic products. The chart below details the generic utilization and substitution rates for Prime's overall book of business nationally and in North Dakota.

	2012	2013	2014 YTD
Book of Business			
Generic Utilization Rate	78.3%	80.9%	**82.7%**
Generic Substitution Rate	97.8%	98.1%	**98.2%**
North Dakota			
Generic Utilization Rate	77.7%	80.4%	**82.2%**
Generic Substitution Rate	98.1%	98.5%	**98.5%**

73. How many MAC lists do you have for pharmacies and clients? If more than one, which list will you use for NDPERS?

	Number of MAC lists
Pharmacies	1
Clients	1

Prime offers one MAC list unlike our competition that may use different lists to obtain a pricing spread. For pass through pricing bids, Prime passes through the full value of our MAC pricing to our clients, therefore, only one comprehensive MAC list is necessary. Within this list, we offer the highest discounts possible on thousands of generic drugs, of which we actively monitor and update regularly to ensure the latest clinically safe medications are made available to our members.

As a current client, NDPERS benefits from Prime's aggressive and comprehensive MAC program. The MAC list, used at both mail and retail, includes nearly 2,150 drugs by GPI, representing more than 128,000 active drugs by NDC, which covers 239 generic classes.

74. Describe your methology for pricing (AWP, AAC, WAC, etc.)? Please explain in detail.

AWP is defined as the price calculated by national reporting services for each drug in the market; Prime uses Medi-Span as the drug pricing source for AWP pricing information.

6.10.4 Trend Analysis

75. Your organization must be able to provide NDPERS with a comprehensive, annual trend analysis report as background for making pricing decisions. At a minimum the report must:

    a. Contain extensive utilization and drug spend data that presents future trend drivers, both industry wide and specific to our programs;

    b. Provide information on the generic pipeline, drug indication changes that may affect drug utilization, specialty drug utilization trends, new drug introductions and other similar trend drivers;

    c. Show the impacts of, and provide recommendations for addressing price inflation, rebate performance and other pricing related drivers, in addition to pharmacy network trends and opportunities.

Confirmed. BCBSND and Prime have new reporting that will be available to NDPERS in 4Q 2014. These reports include an executive summary, information on specialty utilization and drug spend, non-specialty utilization, generic utilization, distribution channel information, a ranking report, and a series of summaries. A sample of this Employer Group Report (EGR) package is included as Attachment 17 – Pharmacy Reporting.

All reporting will continue to provide a variety of quarterly and annual reports that outline NDPERS member utilization at both PrimeMail and Prime Specialty Pharmacy for mail order and specialty drug usage, highlighting performance, statistics, and key trends. Your specific goals will be assessed against the metrics contained in these reports, to ensure that all objectives are met.

Group Summary Reports
Group summary reports illustrate NDPERS' plan performance related to cost, ingredient cost, utilization, clinical, and payment trend. Group summary reports include the following information:

- Brand and generic utilization
- Cost, utilization and PMPM amounts
- Basic statistics
- Prescription costs
- Total trend by period cost and utilization components
- Total paid trend
- Top 20 therapeutic classes by drug spend

Additional Report Options
We can also provide you with the following reports depending on your specific needs:

- Member Prescription History
- Top Drugs by Brand Name
- Drug Market Share
- Top Drugs by Label Name
- Top Therapeutic Classes

Benchmark Reports
As we have previously done with other Benchmark Reports provided to NDPERS, we assess the three components that drive trend (inflation, utilization, and drug mix). Our clinical programs are positioned to impact utilization and drug mix while inflation is impacted by programs for retail networks, 90-day utilization, and formulary adherence. Benchmark data is analyzed to assist you in the selection of clinical programs to positively impact trend for all drug spend or by therapeutic category.

Generic Opportunity Reports
With our Generic Opportunity Reports, we can help you analyze current generic utilization, target a specific growth strategy, and map out the benefit plan changes to help to continue to meet your goals. Using a unique predictive modeling tool to identify and prioritize generic potential with each therapeutic category, a Generic Opportunity Report is generated, providing the following:

- Generic drug spend overall
- Generic drug spend by the core therapeutic categories
- Average costs for generic and brand-name prescriptions by category
- Generic target ranges (low, medium and high, by category)
- Estimated potential cost savings by generic threshold (by category and in total)

As you know, generic utilization opportunities can differ significantly by therapeutic category. Ranges for each category are set based on the availability of effective generics combined with the benchmark assessment of many plan sponsors. For many diseases and conditions, several effective generic options exist while few or no generics are yet available for other conditions. The availability of multiple generics in the same category can lower costs even further. NDPERS can continue to select a category or categories for Prime to focus on, of which we will design a strategy to help you move from point A to point B.

Specialty Program Reporting
As you have experienced as a Prime Specialty Pharmacy client, our comprehensive specialty program has a broad array of specialty reports including specialty spend and utilization reports, which provide the critical ability to analyze overall performance and individual components of specialty services.

Examples of specialty reports include the following:

- Demographics for specialty members
- Quarterly spend by benefit
- Total pharmacy and medical spend
- Spend by disease category
- Specialty category trends
- Specialty utilization
- Top 10 prescribers
- Medication adherence

76. Describe your organization's Trend Analysis reporting capabilities. Provide sample reports that reflect your organization's ability to provide thorough trend analysis for NDPERS.

Prime's consulting analytics staff works closely with pharmacists in Prime's Clinical department to produce benchmark statistics and savings reports that are meaningful to NDPERS. By using your claims data, we provide trend reports that include the following information:

- Drug and financial trends against Prime's book of business
- Trends by specific employer groups
- Line of business for cost drivers (e.g., top drugs, top therapeutic classes, most prescribing physicians, highest cost members, etc.)
- Annualized and quarterly trends
- Quarterly ranking by cost, volume, and PMPM line of business
- Open, closed, and tiered formulary/copay design comparison

Pharmacy benchmark data is included in year-end performance reports where it is important to measure key performance statistics at a high level. Prime's trend assessments are clinically informed and include both Traditional and Specialty Trend assessments, focusing on the top therapeutic categories in terms of drug spend and opportunity for change. In addition, any specific drugs of interest can be analyzed.

Prime also publishes an annual report on pharmaceutical industry trends and topics that specifically reports drug trend analyses for Prime's commercial book of business and relevant industry information that is used directly to diagnose your specific trend. Examples of topics provided include key drivers of trend, drug development pipeline, new drugs, patent expirations, affects on high cost therapeutic categories, and modeling of select therapeutic class trends.

The following table identifies examples of year-end performance reports that are available to you as clients of BCBSND and Prime:

Name of Report	Frequency Provided	Purpose of Report
Financial Summary	Quarterly/Year-end	This section includes information for the previous six months on drug ingredient charges, drug ingredient allowances, dispensing fees, subscriber liability, plan paid amount, and plan savings.
PMPM Utilization	Quarterly/Year-end	This graph illustrates the number of prescriptions paid and the dollar amount paid for the previous six months.
Plan Paid PMPM	Quarterly/Year-end	The graph depicts how much the plan paid on a PMPM basis.
Brand / Generic Drug Utilization	Quarterly/Year-end	This analysis shows you the percentage of multi-source medications being dispensed and breaks them out by generics, physician DAW, and member DAW. We will provide recommendations based on the utilization.
Formulary Compliance Rates	Quarterly/Year-end	This report illustrates your formulary compliance rate over the past six months and provides a clinical summary of high-cost and high-volume prescriptions.
Member Demographic Profile	Quarterly/Year-end	This graph compares the age and gender composition of your plans to the Prime average and shows how your composition affects utilization.
Top 20	Quarterly/Year-end	This graph shows top 20 lists by: • Therapeutic class by volume • Therapeutic class by cost • Brands • Generics

6.10.5 Specialty Drug Program

77. Describe in detail how your organization will manage specialty and compound drugs based on NDPERS' current plan design. Provide detailed information about your organization's capabilities to administer a specialty drug program. Indicate specific results your specialty drug program has achieved for your current and past clients in terms of reduced program costs (quantitative and qualitative). Include details about the Specialty pharmacy you contract with. Provide your listing of "Specialty" drugs.

As your specialty drug pharmacy vendor, all components of the Prime Specialty Pharmacy are integrated, providing NDPERS with a convenient specialty pharmacy solution that supports a goal of keeping specialty medicines affordable, delivering a superior member experience, and leveraging unique connections while balancing the real-world financial and logistical considerations affecting you and your members.

Together, BCBSND and Prime have been providing NDPERS with a connected specialty drug management program that focuses on total cost management, clinically-powered decisions, and superior specialty pharmacy and member care. We are proud to continue to provide you with a comprehensive approach to specialty drug management that spans both medical and pharmacy benefits.

Three core capabilities have helped NDPERS receive a solid foundation for your specialty drug management program:

- **Total cost management** — We work across the medical and pharmacy benefit divide with the goal of lowering the total cost of care, not just pharmacy costs. Our integrated model also gives us greater buying power. And we use it every day — along with direct manufacturer contracts — to secure better discounts, and lower ingredient and program costs.
- **Clinically powered decisions** — Our decisions are driven by clinical facts. Our focus is on NDPERS members and we encourage them to take their medicines safely, the way they were prescribed — which leads to better outcomes and greater peace of mind.
- **Superior specialty pharmacy and member care** — Prime Specialty Pharmacy provides NDPERS with a simpler way to get the medicine you need affordably, as well as coordinated care, specialized education and access to experts any time, day or night.

In addition, BCBSND and Prime continue to focus on specialty drug costs across the medical and pharmacy benefit, providing the following value:

- Improved member safety, adherence; better health outcomes
- Coordination of care across member, doctor, pharmacist and care teams
- Education and support to manage condition that promotes better health, reduced absences and improved employee productivity
- Affordable medicine and lower out-of-pocket costs
- Reduced prescription-related doctor burden, making it easier for doctors to provide care
- Eco-friendly packaging that costs less to mail, ship and store, and regulates temperature better than foam packaging
- Decisions that are grounded in clinical research
- Consultation from reputable clinical experts
- Improved safety and adherence and better health outcomes
- Better discounts, lower ingredient cost and program costs
- Direct contracts with rebate manufacturers
- Access to limited distribution drugs

We have included a Specialty Drug Fee Schedule as Attachment 18 – Specialty Drug Listing

Specialty Pharmacy Achievements — Savings
In 2013, Prime realized nearly $400 million in savings related to Specialty Drug classes via programs and services, when looking across our commercial book of business. On behalf of our Blue plan clients like BCBSND, Prime is able to recognize and quantify savings from utilization management programs, manufacture revenue and specialty pharmacy discounts for each specialty category, including the following: Autoimmune, Multiple Sclerosis, Growth Hormones, HIV, Cancer-Oral, Hepatitis C, Pulmonary Hypertension, Fertility & Pregnancy, Hemophilia, Immune Globulins, Anticoagulants, Blood Modifiers, Nausea & Vomiting, Lung Disorders, Cystic Fibrosis, Enzyme Deficiencies, Visco Supplements, Cancer-Injectables, and other high cost drugs.

Prime tracks and reports savings from utilization management programs (prior authorization, step therapy, quantity limits) by assessing the ongoing (post-implementation) differences between plan-paid costs, PMPM costs, and utilizing members, and comparing these with baseline (pre-implementation) and benchmark data for the specific drugs involved in the UM program.

In addition, Prime Specialty Pharmacy can assess the savings impact from moving specialty claims from the medical benefit to the pharmacy benefit.

Specialty Pharmacy Achievements — Positive Clinical Outcomes
Another example of a successful return on investment for NDPERs is the joint effort of BCBSND and Prime Specialty Pharmacy's Oral Oncology Management Program. This has provided a higher level of member care for NDPERS members than other programs on the market through a split fill program focused on high-cost therapies that are poorly tolerated. When therapy begins, the member will receive a partial fill, (typically 16 days of a 28 day cycle) with a pro-rated cost share amount. Before completion of the partial fill, the clinical team engages with the member to assess tolerance and continued course of treatment. If there are serious side effects, an alternative plan of action is coordinated along with the physician, improving outcomes, preventing waste and avoiding unnecessary costs for the member and the plan.

Additionally, care management services identify members at risk for depression. Depression is recognized as a predictor of overall outcomes and our nurse assessments identify members at risk. Once identified, the care managers notify the health plan for further assessment. Program benefits include:

- **Optimized member and clinical management** – Through clinical protocols that are executed at pre-determined intervals during the member's medication therapy, adverse events are recognized early, and NDPERS members are provided access to valuable clinical support between physician visits to address therapy adherence issues including regimen compliance and persistency.
- **Enhanced physician support** – It is not uncommon for physicians to have concerns about a member's ability to take oral oncology medications as prescribed, recognize a medication side effect, or seek medical attention when experiencing an adverse reaction. This program offers supplemental clinical expertise and enhanced communication with physicians throughout the member's medication regimen. Physicians are contacted when required by protocol focusing on member adherence, adverse reactions, or side effects experienced. Details including the Medication Possession Ratio (MPR) while the member was on therapy, interventions performed, and the date that therapy was started (and discontinued) can also be provided.

Compound Drug Management
Prime has been at the forefront of compound drug management, including presentations at different industry fraud groups over the past couple of years. Since February 2013, pharmacy credentialing practices have been enhanced and, throughout 2013, clients have been closely advised on benefit design options that have led to a significant reduction in compound costs.

Compound Drug Pricing Process
Compound drugs are priced online at the point of sale and in compliance with HIPAA transaction standards known as D.0 from CMS and NCPDP. With D.0, each ingredient has to be submitted in the claim, allowing up to 25 ingredients per compound claim.

By using multiple ingredients, the claims system considers all submitted ingredients and associated costs when processing and pricing the claim. Processing compound drugs as multiple ingredients also allows greater precision in determining what is covered. For example, a compound drug that contains ingredients in which the FDA has evaluated as less than effective, the claims system can deny a compound drug that contains such an ingredient. The compound claim is then reimbursed at the negotiated contract rate for compound medications.

In addition, to ensure costs are not inappropriately inflated, we offer NDPERS members a compound management strategy with the following additional levers:

- **Strong network credentialing:** we contract with and hold retail network pharmacies to high standards, including credentialing criteria and NCPDP national claims processing standards as well as compliance with state and federal laws.
- **Compound pricing compliance:** this is measured through the comprehensive pharmacy audit program, which includes a daily (pre-payment) claims review, quarterly audit profile, on-site audits, and desktop audits. In addition, pricing of compound drugs is reviewed during quarterly claims profile audits.
- **Benefit strategies:** We will continue to work with NDPERS on specific benefit strategies to best meet your needs; for example, a "reject" list.
- **Claims system edits:** Several claim system edits are in place to ensure each compound claim is priced correctly and does not exceed cost limitations. In addition to basic benefit exclusions (e.g., cosmetic drugs, etc), there are also certain classes of drugs that will not be covered as part of a compound including but not limited to opioid pain medications, erectile dysfunction medications, antibiotics, weight loss agents, and anticoagulants. We also have back-end audit processes in place to review compound claims. All compounds may be subject to review and approval.

6.10.6 Network Accessibility and Disruption

78. Submit a current listing of the participating pharmacies in North Dakota.

    Please see "Attachment 19 – Pharmacy Network" for a current listing of participating pharmacies in North Dakota.

79. How are pharmacies selected for inclusion in your network? Would your organization be willing to contract with additional pharmacies if there are geographic locations where participants live but which do not have access to one of your pharmacies?

    Pharmacies are considered for inclusion in our network in several ways. For instance, NDPERS and your members can request network pharmacy additions by contacting your BCBSND Account team or by sending an email through MyPrime.com.

    Prime also receives requests for pharmacy additions from various other sources including:

    - Non-participating pharmacies
    - Prime's analysts who identify a non-participating pharmacy that has significant utilization for NDPERS. We identify these particular pharmacies for solicitation into the network by matching Quest Analytics Suite (Geo) graphical locations of NDPERS members with available pharmacies that are not yet participating
    - Prime utilizes the NCPDP pharmacy database to identify any newly opened pharmacies nationally.

    Once identified for possible addition to the network, Prime sends the pharmacy an application within two business days. The application requests the pharmacy to complete the following steps:

    1. Complete the credentialing application
    2. Provide copies of current DEA license, state pharmacy license, location information, insurance coverage, and pharmacist's license(s)

    The completed credentialing application is verified by the Credentialing staff and if the pharmacy meets the credentialing criteria, a Pharmacy Participation Agreement is sent to the pharmacy.

    Once an agreement is in place, the pharmacy is typically added within five to seven business days of receiving an executed contract. Once a pharmacy is contracted, the pharmacy is provided with a Pharmacy Provider Manual (also available on Prime's corporate web site for pharmacies). The manual contains policies, procedures, and expectations of network pharmacies.

80. Indicate which major chain stores are not included in your proposed network for NDPERS.

Not applicable. All major pharmacy chains are included in our broad, national network, utilized by NDPERS.

6.10.7 Medicare Part D

Describe the ability of your organization to provide Medicare Part D coverage for Medicare eligible retirees enrolled in the NDPERS group health insurance program. Identify any subcontractor that would be used to provide Medicare Part D coverage to the NDPERS Medicare eligible retirees and note that NDPERS reserves the right to approve the subcontractor. Also identify what type of plan would be used (e.g. fully-insured PDP, 800-Series EGWP, Direct-Contract EGWP)

BCBSND's Medicare Part D program is managed by Northern Plains Alliance (NPA), which includes Blue Cross Blue Shield of Minnesota, Blue Cross and Blue Shield of Montana, Blue Cross and Blue Shield of Nebraska, Blue Cross Blue Shield of North Dakota, Blue Cross Blue Shield of Wyoming, Wellmark Blue Cross Blue Shield of Iowa and Wellmark Blue Cross and Blue Shield of South Dakota. The program meets the Centers for Medicare & Medicaid Services' (CMS) requirements. NPA continually monitors CMS guidelines for any changes and develops additional services that enhance the Medicare Part D member experience.

NDPERS will continue to benefit from a wide range of Medicare Part D products and services provided by BCBSND and NPA, including:

- A national network with more than 60,000 contracted, credentialed pharmacies. The pharmacy network includes retail, home infusion, long-term care and Indian/Tribal/Urban pharmacies. Included in the retail network are many independents and large, national chains. The network also includes a centralized mail order pharmacy process that has several distribution points around the country for quick fulfillment of member orders.
- Formulary management
- Claims payment using lower-of logic
- Maximum Allowable Cost (MAC) Program
- Clinical management
    - Utilization management
    - Drug utilization review
- Member services
    - Toll-free telephone access to member service
    - Appeals
    - 24-hour access to a pharmacist via toll-free telephone service
    - Pharmacy benefit materials, including direct claim forms, explanation of benefits, and coordination of benefit forms
    - Individualized one-page pharmacy disruption summaries
    - Abridged formulary and associated member materials
    - Provision of CMS-required enrollment and disenrollment notices
    - Member-directed, secure website
    - Coordination of benefits at the point of sale
- An 800-Series EGWP plan is currently administered for NDPERS.

6.10.8 HDHP/HSA

81. Describe how your organization will do the administration of the HSA option. What details are provided to individuals that select this option, the name of the service vendor and any other applicable information?

    As the incumbent carrier, BCBSND will continue work with Discovery Benefits to administer the HDHP/HSA option for NDPERS members.

    Standard enrollment materials include an HSA Employee Guide that explains the plan in simple to understand language. The Guide includes a list of eligible items, information about how to contact Discovery Benefits, how to request a distribution of funds and contribution limits per IRA guidelines. Additional materials are also available on Discovery Benefits' website. Employers may download materials to post on their intranet site.

    Participant demographic and contribution information is provided to Discovery Benefits electronically by NDPERS staff. Files are uploaded through the employer portal file import feature. Participant elections and changes uploaded electronically can be viewed by the participant online via the employee web portal once the update has occurred.

    In addition to requesting withdrawals online, each HSA account holder receives two debit cards for making eligible medical expense purchases directly from the HSA. The debit card is multi-purpose, meaning the card can also be used for a limited flexible spending account (FSA), limited HRA and dependent care FSA if the participant is also enrolled in one of those accounts with Discovery Benefits. Expenses would then be automatically paid from the appropriate account with only one submission.

    A separate invoice is created for HSA account fees and submitted to NDPERS for payment on a monthly basis.

6.10.0 Economy to be effected

82. Please indicate if you will have an office in North Dakota and where most of the work on this contract will be done?

    BCBSND is headquartered in Fargo, ND. Most of the work for this contract will be done in our home office. In addition, we have 8 regional sales and service offices throughout the state that are available to NDPERS members as needed.

83. Please identify the number of employees you will employee in North Dakota pursuant to this contract.

    BCBSND employs over 800 employees in the state of North Dakota to service our 500,000 members. NDPERS represents over 62,000 of our members or about 12% of our book of business.

84. Of your total administrative fee please estimate the amount that will be spent in North Dakota and the amount that will be spent outside the state.

    Nearly all aspects of the administration of the NDPERS account are done within the state of North Dakota. All business functions and system support are handled by our local team. We do partner with a limited number of vendors to ensure NDPERS has a complete solution for your health benefit plan. We work with Cerner, MDdatacor, and Accordant to power certain aspects of our population health management tools. From a cost perspective, these partners make up less than 3% of the total spend. This would equate to approximately 97% of administration of the medical plan done within the state of North Dakota.

Appendix E:
NDPERS Program Information

Appendix E:

Member Statistics

Blue Cross Blue Shield of North Dakota acknowledges receipt of the Sample Contract/ASA.

Appendix G:
Existing Contract Benefits

Appendix G:

Contract Benefit Match

Existing contract benefits (plan design, wellness, services, standards, etc.) this section identifies the existing PERS plans contract benefits. Please indicate if you can match these benefits/services and if so with what resources and if not what specifically you would not be able to provide.

Current Contract Benefits	Reference Resources	Discuss and Identify Comparable Service Offering.
NDPERS Specific Plan Designs		
• Actives and Pre Medicare Retirees Medical Plans • PPO/Basic Plan – Grandfathered • PPO/Basic Plan – Non Grandfathered • Active and Pre Medicare Retiree Rx plan	http://www.nd.gov/ndpers/insurnace-plans/group-health-ppo-basic-grandfathered.html http://www.nd.gov/ndpers/insurance-plans/group-health-ppo-basic-non-grandfathered.html	As the incumbent, BCBSND will continue to administer these Benefit Designs.
Wellness Program Dedicated Wellness Website and program similar to existing program with incentives, health club membership and employer efforts Employer Based Wellness Program	http://www.nd.gov/ndpers/insurance-plans/employer-based-wellness.html Exhibit 1 Exhibit 2	As the incumbent, BCBSND will continue to administer these wellness programs.
HDHP/HSA Option for State agencies	http/www.nd.gov/ndpers/insurance-plans/group-health-hdhp.html	As the incumbent, BCBSND will continue to administer the HDHP as well as work with DBI (Discovery Benefits Incorporated) to administer the HAS. Monthly HSA administration fees are approved by NDPERS staff and paid out of the NDPERS Cash Reserve Account.

RX Disease Management Program (About the Patient) • Eligibilty reporting • Cost share incentive reporting • Administer payment of invoices from NDPERS Cash Reserve Account	http://www.aboutthepatient.net/NDPERS-program.html	As the incumbent, BCBSND will continue providing administrative support for the RX Disease Management program under the current terms of the Memorandums of Understanding. Payments for the RX Disease Management Program come from the NDPERS Cash Reserve Account
• Provide access to all subject matter experts and other appropriate personnel and make them available for attending board meetings, legislative, hearings, etc. as needed • Provide access to video or teleconference for Board meetings		As the incumbent, BCBSND will continue to provide these services.

Appendix H:
Performance Standards and Guarantees

Appendix K:
Suggested Changes to Plan Design, Programs and Services

Appendix K:

Suggested Changes to Plan Design, Programs and Services

Vendors should match the current programs and services as closely as possible when providing proposals. This appendix is meant for vendors to offer suggested changes to plan design and identify the cost or cost savings associated with each suggestion. In addition, vendors can suggest or offer changes to the services along with identification of the benefits/cost or savings. This section is not meant to list deviations to required agreements or service offerings.

Alternate Settlement Arrangement

As outlined in Appendix D of this proposal response, BCBSND is proposing an alternate settlement arrangement, which will increase NDPERS participation in the pharmacy program and reduce the service charge required to administer the 2015-2017 program. Under this proposed arrangement, the range will be increased to plus or minus $10 million and will be symmetrical. Details are outlined below:

- Gain – BCBSND and NDPERS share 50%/50% in the first $10 million; NDPERS retains 100% of all gains over $10 million.
- Loss – BCBSND and NDPERS share 50%/50% in the first $10 million; BCBSND assumes 100% of all losses over $10 million.

Transparent Pharmacy Benefit Management Program

BCBSND's base proposal, outlined in Appendix D1.4, is based on the current, pass-through PBM funding arrangement between BCBSND and NDPERS. Partial rebate withhold, retention of Manufacturer Admin fees and pharmacy transaction fees are utilized to offset the the majority of the PBM administrative fees assessed to BCBSND by Prime Therapeutics LLC. BCBSND continues to offer NDPERS the pass-through of the BCBSND negotiated rates with Prime Therapeutics LLC as it relates to mail service operations and specialty pharmacy. As an alternative arrangement, a pass-through program that aligns with the RFP request for 100% pass-through of rebates, retail network pharmacy transaction fees, and manufacturer admin fees is outlined below.

	2015-2017 Estimates, Proposed Pricing Arrangement (Appendix D1.4)	Alternative Transparent Program	Adjustments to RX Admin and Financial Guarantees based on Alternative Program Election
RX Administrative Fee	$0.00	Increase Admin Fee by $3.40 PCPM. Decrease Claim Projections by $3.40 PCPM to Reflect Increase in Rebates, MAF and Pharmacy Transaction Fees. Nets No Change to Overall Rate	
Rebates	"Partial Rebate withhold by BCBSND"	"100% Pass-through of Rebates."	Appendix D1.4 Total Rebate+MAF/Branded Rx Y1: $64.81 Y2: $73.49
Manufacturer Administrative Fees (MAF)	"Retained by PBM"	"Pass-through of the value of Manufacturer Admin Fees"	
Pharmacy Transaction Fee	"Retained by PBM"	"Pass-through of the value of Pharmacy Transaction Fees"	No impact to RX financial guarantees

Benefit and Cost Sharing Changes

Modification	Rate Change
Annual premium change to increase Deductible (GF & NGF PPO):	-0.6%
from $400 single/$1200 family to $450 single/$1350 family	-1.1%
from $400 single/$1200 family to $500 single/$1500 family	
Annual premium change to increase Coinsurance Maximum (GF PPO only):	-0.5%
from $750/1500 to $900/1800 IN and $1250/2500 to $1500/3000 OON	-1.0%
from $750/1500 to $1050/2100 IN and $1250/2500 to $1750/3500 OON	
Annual premium change to increase Out-of-Pocket Maximum (NGF PPO only):	-0.5%
from $2150/4700 to $2300/5000 IN and $2650/5700 to $2900/6200 OON	-1.0%
from $2150/4700 to $2450/5300 IN and $2650/5700 to $3150/6700 OON	
Annual premium change to increase Office Visit copay (GF & NGF PPO):	-0.4%
increase by $5.00	-0.8%
increase by $10.00	
Annual premium change to increase Emergency Room copay (GF & NGF PPO):	-0.03%
increase by $10.00	-0.09%
increase by $25.00	
Annual premium change to increase RX Formulary Generic copay (GF & NGF PPO):	-0.4%
from $5 copay to $7.50 copay	-0.7%
from $5 copay to $10 copay	
Annual premium change to increase RX Formulary Brand copay (GF & NGF PPO):	-0.05%
from $20 copay to $22.50 copay	-0.1%
from $20 copay to $25 copay	
Annual premium change to increase RX Non-Formulary copay (GF & NGF PPO):	-0.03%
from $25 copay to $27.50 copay	-0.05%
from $25 copay to $30 copay	
Annual premium change to increase RX Formulary coinsurance maximum (GF PPO only):	-0.05%
from $1000 to $1200	-0.1%
from $1000 to $1500	
Annual premium change to cover Colonoscopy Screening 100%, once every 10 years:	$2.50
beginning at age 50 (cost per GF contract per month)	$3.00
beginning at age 45 (cost per GF contract per month)	
Loss of Grandfathered Status (GF PPO only):	3.7%
(no cost-share on Prev. Svcs & Women's Preventive mandate & ACA mandates)	

Note: When combining changes, the resulting rate effect may be less than the sum of the factors listed.

Prescription Drug Benefit Modifications – Decrease Range (From 0.5% to 6.5% of Rx Claims)

BCBSND and Prime are continually partnering on behalf of our clients to seek improved pharmacy access while saving our clients money. Described below are several options that can offer meaningful savings for NDPERS.

- **Prime Select Network**
  Prime currently maintains the BCBSND Select Network for BCBSND employer groups. This broad BCBSND pharmacy network includes a subset of rural pharmacies that are reimbursed at a higher rate to ensure pharmacy solvency. These generous rates are beneficial to North Dakota pharmacies and do not create spread margin retained by Prime or BCBSND; by doing this, both BCBSND and NDPERS show support for instate, North Dakota pharmacies. However, BCBSND is willing to remove these higher rates provided to North Dakota pharmacies at the request of NDPERS in lieu of applying improved pharmacy financial performance guarantees to demonstrate our commitment to enhanced savings.

  Should NDPERS transition to Prime's Select Network, there will be no disruption in retail pharmacy availability, as both the BCBSND Select and Prime Select Networks contract with the same pharmacies.

- **Minimum Reimbursement Level**
  BCBSND provides a minimum reimbursement level to ensure that retail pharmacies remain solvent and to ensure continued member access in rural areas. The impact of this minimum reimbursement results in dispensing fees paid to the pharmacy as listed in the base proposal. At the request of NDPERS, BCBSND is willing to remove this deeper reimbursement to network pharmacies. Impacts to the removal of the minimum reimbursement level will result in overall lower aggregate dispensing fees.

- **Extended Supply Network**
  As an alternative to traditional mail service, an extended supply network (ESN) involves the creation of a subset of the BCBSND Select Network whose goal is to retain the sole ability to dispense drugs for greater than a one month supply (e.g., 90-day retail network). With the implementation of an ESN network, all pharmacy claims for greater than a one month supply are limited to fulfillment through an ESN provider. In addition, in exchange for slightly reduced pharmacy availability, an ESN network provides enhanced discounted savings on medications. Furthermore, ESN networks have been shown to improve adherence by 7% to 10% when compared to 30 day supplies. Unlike other PBMs that offer enhanced rates for only claims >84 days supply, BCBSND extends this opportunity to all claims greater than a 1 month supply. *If any of the above options are selected BCBSND will provided modified RX financial guarantees.

- **Prime Specialty Pharmacy – Exclusive Specialty Arrangement**
  When it comes to specialty drug benefits, BCBSND and Prime recommend an integrated, consultative approach to managing specialty pharmacy that only a carve-in relationship provides. We believe that with our exclusive carve-in offering, NDPERS will have a more complete picture of each member's health enabling better decision making for the management of specialty drugs, while keeping costs as low as possible.

  Our comprehensive approach to managing specialty addresses both medical and pharmacy benefit coverage with recommendations as to which benefit is most appropriate for a particular specialty drug. We have a complete package of care management programs designed to promote appropriate use, while managing the costs, of these expensive therapies.

  Should NDPERS choose Prime's Exclusive Specialty Pharmacy, BCBSND can increase the aggregate specialty discount guarantee to 17.0%. The Aggregate Specialty Discount is a Composite Brand /Generic Discount for both (Select & Rural Networks). We are defining the Aggregate Specialty Guarantee to be ((Specialty Discount Guarantee – Actual Specialty Discount (including all drug categories)) * Specialty AWP. Guarantees only apply to drugs dispensed through Prime Specialty Pharmacy under an exclusive relationship and as defined

by the Prime Exclusive Specialty Fee Schedule. Dispensing fee will be $0.00 for those drugs dispensed through Prime Specialty Pharmacy. Guarantees will be reconciled annually and applied in aggregate. Specialty drugs dispensed through the medical benefit will not be included in this guarantee reconciliation. Employer demographics and geography will remain actuarially consistent. Overall Specialty Discount guarantee will not include any new specialty drugs brought to market and added to the specialty list during the term of the contract. Overall Specialty Discount guarantees will not include any limited distribution drugs. Specialty volume changes must be less than 10% as compared to the data and claims experience provided by the client.

- **Mandatory Mail Benefit**
  Modify the pharmacy benefit to require mail order for maintenance medications filled for 90 days supply and change retail copays to 1 per 34 day supply.

Removal of Member Rebate Accounts

Historically, a portion of rebates have been returned to NDPER members in the form of a Member Rebate Account or MRA. If requested, BCBSND is can stop passing the rebates on to the members. By doing so, rebates currently applied to MRA accounts would be redirected to NDPERS cash account.

Opportunity	Estimated Financial Performance (Appendix D1.4)	Estimated Projected Total Savings
Remove member rebate accounts (MRA)	We anticipate no impact as rebates listed within our baseline proposal are currently representative of both member (MRA) and NDPERs group allocations	Increase to NDPERS cash account of up to $600,000.

Wellness Modifications – Increase or Decrease Cost Based on Design

As noted in Question 47 of Appendix C – Questionnaire, BCBSND has the capability to administer outcome-based wellness programs and incentives, and has done so historically for multiple employer groups. Currently, multiple sources of data (clinical, claims and subjectively reported) are utilized to administer the participation and outcomes-based programs and incentives. BCBSND provides a comprehensive environment that administers the member experience, group level reporting and differing channels for application of incentives (online catalog, premium differential and HSA/HRA contribution).

Ingredient Cost Fact Sheet

PRIME THERAPEUTICS®

Fact Sheet Study finds Prime has lowest ingredient cost per prescription

Pharmacy benefit arrangements are notoriously complicated. It can be tricky to distinguish drug costs from program expenses. Rebates and "spread" pricing arrangements can obscure actual costs and the accuracy of reported savings. And while drug trend can show how much and how quickly costs are growing, it can't reveal how those actual costs compare.

Ingredient cost measure offers a clearer view into pharmacy spending
By stripping away administrative and other program-related fees, ingredient cost offers a clearer view into pharmacy spending. With rebates included, the "net" ingredient cost per prescription provides a precise picture of the cost of drugs used by plan members.

Because it is based on actual drug costs, ingredient cost is useful in monitoring plan performance. It is also the best way to compare the performance of different pharmacy benefit managers (PBMs).

Independent study finds Prime and its clients outperform the industry in ingredient cost
Prime commissioned a study of the prescription drug costs of leading PBMs. Generic rates, network discounts and ingredient costs were compared against those of Prime's commercial book of business.

Key Results

The study found Prime had a ***$6.74 lower net ingredient cost*** *per prescription than the competitor average.*

Over the past three years, Prime has ***consistently*** *achieved lower net ingredient costs.*

The study found that Prime's net ingredient cost was the lowest – beating the competitor average by more than $6 per prescription. Analysis over three years showed that Prime's net ingredient costs were consistently the lowest (Figure 1).

Fig. 1 Net ingredient cost per prescription (Rx)

	Competitor avg.	Prime	Savings per Rx
2011	$61.77	$55.86	$5.91
2012	$62.13	$58.50	$3.63
2013	$63.58	$56.84	$6.74

Low net ingredient costs a result of Blue + Prime collaboration
Prime works with several leading Blue Cross and Blue Shield Plans across the nation. These plans hold strong positions within their regional health care markets. Prime focuses this market dominance and uses it to negotiate extremely competitive discounts with pharmacies and manufacturers. Blue Plans also influence key formulary, utilization management and benefit decisions that help control drug costs.

Trust, alignment and cooperation between Blue Plans and Prime help make medicine more affordable. On average, Blue + Prime members and clients collectively saved $6.74 (over what they might have paid using a competing benefit manager) on every prescription in 2013.

©Prime Therapeutics LLC 12/13

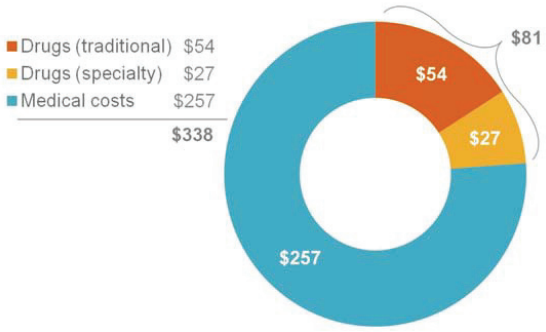
Generics help generate low ingredient costs
High generic dispensing rates and strong generic discounts contribute to Prime's low ingredient costs. Competitors were found to have higher discounts on traditional brand-name drugs. But with ever-smaller numbers of brand-name drugs being dispensed, brand discounts did not alter the results.

Drug costs a growing factor in health care spending
Prescription drugs are a key part of total health care costs. Drugs account for nearly one-quarter of all health care spending (Figure 2).[1]

Health spending in the United States has risen quickly over the past several years, and is expected to continue to grow. Drug spending is increasing as more high-cost specialty drugs are being used to treat a wide range of chronic illnesses.

Plan sponsors are looking to effective pharmacy benefit management as a way to tame growing health care expenses. And one of the easiest ways to cut spending is to *start with the lowest costs possible.*

Fig. 2 Average health care costs per member per month



Affordable medicine is part of Prime's purpose
Keeping costs down is just one of the ways Prime helps people get the medicine they need to feel better and live well. Prime follows a straightforward approach to deliver lower costs in a high-quality environment. We use our unique connections with Blue Plans to manage pharmacy in the context of total health. These efforts make a big difference in our members' and clients' health care costs.

To learn more about how Prime fulfills its commitment to make medicine more affordable, talk to your Prime representative or visit PrimeTherapeutics.com today.

About the study

Prime commissioned an independent third-party consultant to study the prescription drug costs of three national stand-alone PBMs and one captive PBM. Using data from the consultant's proprietary data warehouse, the study compared blinded data against Prime's full-service commercial book of business.

The study looked at the first quarters of 2011 through 2013. To ensure consistency, all prescriptions were classified as brand-name or generic based on Medi-Span definitions. Claim counts were adjusted to reflect consistent days' supply.

[1] Average for Prime's full-service commercial book of business, FY 2012; derived using combined medical and pharmacy data.

Independent Auditor's Report

To the Board of Directors
Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota
Fargo, North Dakota

Report on the Financial Statements
We have audited the accompanying statutory statements of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota (the Company), which comprise the statutory statements of admitted assets, liabilities, and policyholder surplus as of December 31, 2013 and 2012, and the related statutory statements of operations and changes in policyholder surplus, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting practices prescribed or permitted by the North Dakota Insurance Department. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles
As described in Note 1 to the financial statements, the financial statements are prepared using accounting practices prescribed or permitted by the North Dakota Insurance Department, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the statutory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles
In our opinion, because of the significance of the matter described in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota as of December 31, 2013 and 2012, or the results of its operations or its cash flows for the years then ended.

800 Nicollet Mall, Ste. 1300 | Minneapolis, MN 55402-7033 | T 612.253.6500 | F 612.253.6600 | EOE

Opinion on Regulatory Basis of Accounting
In our opinion, the financial statements referred to above present fairly, in all material respects, the admitted assets, liabilities, and policyholder surplus of Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

Change in Accounting Principle
As discussed in Note 1 to the financial statements, during 2013 the Company changed its method of accounting for its pension and postretirement benefits as required by Statements of Statutory Accounting Principles (SSAP) No. 92 and 102. Our opinion is not modified with respect to this matter.

Emphasis of Matter
As further discussed in Note 16 to the financial statements, the Company's wholly owned subsidiary, Noridian Healthcare Solutions, LLC, entered into an agreement for consensual exit from a significant contract with the State of Maryland, through the state's health insurance web-based marketplace. The Company is a party to this exit agreement with the State of Maryland. Management's assessment of the likelihood that claims will be made in conjunction with this exit and the probability of loss is discussed in Note 16 to the financial statements. Our opinion is not modified with respect to this matter.

Note 1 - Summary of Significant Accounting Policies

Nature of Operations

Noridian Mutual Insurance Company d/b/a Blue Cross Blue Shield of North Dakota (Company or NMIC), a member of the Blue Cross and Blue Shield Association, an association of independent Blue Cross and Blue Shield plans, is incorporated as a mutual insurance company under the North Dakota Nonprofit Corporation Act and is subject to regulation by the North Dakota Insurance Department (Department).

The Company is organized to carry any lines of insurance now or hereafter authorized by the laws of the State of North Dakota and has the ability to market products in states other than North Dakota. The Company provides individual, group and association health insurance and pharmaceutical benefits under traditional and preferred provider organization contracts. The Company contracts with hospitals, physicians and other providers of health care in order to obtain discounts for subscriber members.

The Company also performs administrative services such as billing, collection and claim processing for other Blue Cross and Blue Shield plans, various governmental agencies and various fully and modified self-insured groups within the State of North Dakota. This administrative services business represents a significant portion of their business.

Basis of Financial Reporting

The Company prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by the North Dakota Insurance Department.

The North Dakota Insurance Department recognizes only statutory accounting practices prescribed or permitted for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the North Dakota Insurance Law. The National Association of Insurance Commissionsers (NAIC) Accounting Practices and Procedures Manual and statutory accounting principles (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of North Dakota. The following are some of the significant differences between NAIC SAP and accounting principles generally accepted in the United States of America (GAAP).

a) Investments in bonds are generally carried at amortized cost, while under GAAP, they are carried at either amortized cost or estimated fair value based on their classification according to the Company's ability and intent to hold or trade the securities;

b) Acquisition costs, such as commissions and other costs related to acquiring new business, are expensed as incurred, while under GAAP, they are deferred and amortized to income as premiums are earned;

c) NAIC SAP requires an amount be recorded for deferred taxes, however, there are limitations as to the amount of deferred tax assets that may be reported as "admitted assets"; and a federal income tax provision is required on a current basis for the statutory statements of operations;

d) Assets are reported under NAIC SAP at the "admitted asset" value and "non-admitted" assets are excluded through a charge against unassigned surplus, while under GAAP, "non-admitted assets" are reinstated to the balance sheet, net of any valuation allowance;

e) Comprehensive income and its components are not presented in the statutory financial statements;

f) Wholy-owned subsidiaries are reported under NAIC SAP as an investment, while under GAAP, wholly-owned subsidiaries are required to be consolidated;

g) The Defined Benefit Plan is currently accounted for under the guidelines of Statement of Statutory Accounting (SSAP) 102 and 92 for NAIC with certain limitations as to whether assets are admitted, as opposed to Accounting Standards Codificaton (ASC) 715 for GAAP accounting.

The State of North Dakota has adopted certain prescribed accounting practices, which differ from those found in NAIC SAP. Specifically:

1. Electronic data processing systems are allowed to be depreciated over a period not to exceed five years whereas under NAIC SAP the period cannot exceed three years (see Note 6),
2. North Dakota Century Code 26.1-05-19(33), commonly referred to as the "basket clause," provides for "Loans, securities, or investments in addition to those permitted in this section, whether or not the loans, securities, or investments qualify or are permitted as legal investments under its charter or under other provisions of the laws of this state. The aggregate admitted value of the Company's investments under this section may not at any one time exceed seven percent of the Company's admitted assets, or the amount equal to the Company's policyholder surplus in excess of the minimum policyholder surplus required by law, whichever is less,"; and
3. North Dakota single state domestic insurers are permitted to account for long-term certificates of deposit (CD's) as cash under certain conditions described in the North Dakota Department of Insurance Bulletin 2003-3 and will exempt CD's generally from the NAIC Securities Valuation Office (SVO) filing requirement. In compliance with this permitted practice, $3,000,000 in certificates of deposit have been reclassified from Schedule D – Investments to Schedule E – Cash as of December 31, 2013 and 2012. The Commissioner of Insurance has the right to permit other specific practices, which deviate from prescribed practices.

A reconciliation of the Company's net income and policyholder surplus between NAIC SAP and practices prescribed by the North Dakota Insurance Department is shown below:

	2013	2012
Net income (loss), North Dakota Insurance Department prescribed practices	**$ (80,788,000)**	$ 22,093,000
Depreciation of EDP equipment	**(1,187,000)**	(173,000)
Net income (loss), NAIC SAP	**$ (81,975,000)**	$ 21,920,000
Policyholder surplus, North Dakota Insurance Department prescribed practices	**$ 199,088,000**	$ 271,967,000
Depreciation of EDP equipment	**(4,210,000)**	(3,023,000)
Invested assets-basket clause	**(9,442,000)**	(4,681,000)
Policyholder surplus, NAIC SAP	**$ 185,436,000**	$ 264,263,000

Revenue and Expenses

Premiums are recognized as revenue over the premium-paying period of the policies. Claims are recognized as expenses as incurred. Expenses, including acquisition costs related to acquiring new business, are charged to operations as incurred. Investment income is recognized as earned, net of related investment expenses.

Cash and Invested Assets

Investments in bonds not backed by other loans are carried at amortized book value using the scientific method with the exception of bonds with a NAIC rating of 3 through 6, which are carried at the lower of amortized book value or market. Loan-backed bonds are carried at amortized cost using the retrospective method.

Unaffiliated common stocks are carried at market value as determined using market prices published by the NAIC SVO.

For investments carried at market value, the related unrealized appreciation or depreciation is reflected in policyholder surplus. For investments carried at amortized book value, cost is adjusted for amortization of premiums and accretion of discounts, which are recognized as adjustments to interest income. Realized investment gains and losses determined on the specific identification basis are included in other income in the statement of operations.

The Company's investments in unconsolidated subsidiaries are carried at their underlying audited generally accepted accounting principles equity value in accordance with SSAP No. 97 – *Investments in Subsidiary, Controlled, and Affiliated Entities* and SSAP No. 48 – *Joint Ventures, Partnerships and Limited Liability Companies*. The Company's investment in Noridian Healthcare Solution, LLC (NHS) is then reduced for the effect of remaining non-admitted assets that had been transferred to NHS upon original formation of the entity per agreement with the North Dakota Insurance Department. As of December 31, 2013 and 2012, remaining non-admitted assets relating to the investment were $0 and $110,000, respectively. The Company's investment in its wholly owned subsidiary Twenty First Century Information Solutions (Twenty First) is carried based on the statutory equity of CoreLink Administrative Solutions, LLC of which Twenty First owns 50% and MDdatacor, Inc. (MDD) of which Twenty First owns 100%. The Company's share of unconsolidated undistributed earnings is reflected in policyholder surplus. Earnings from the subsidiaries are only recognized as income by the Company when received in the form of dividends or distributions.

Cash equivalents are highly liquid investments with a maturity of three months or less when purchased. Accounts at each institution are insured by the FDIC up to $250,000. At times during the year, the Company's balance exceeded this limit. The Company does not consider this a material risk.

Certificates of deposit are considered to be cash, provided 1) the issuer of the certificate of deposit is a solvent bank, trust company, savings and loan association, or credit union that is insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or the National Credit Union Administration; 2) the aggregate amount of funds deposited by the domestic insurance company, as certificate of deposits or in any other form, with any single issuer does not exceed $250,000; and 3) the certificate of deposit is payable only to the named depositor which is the domestic insurance company. If these conditions do not exist the certificates of deposit are classified as bond investments.

Short-term investments, which mature in one year or less, are carried at book value, which approximates market value.

Real estate investments are carried at cost, less accumulated depreciation and encumbrances. Depreciation of investment properties is calculated, on a straight-line method, over an estimated useful life of 20 to 50 years for buildings, 15 to 50 years for building improvements and 20 years for land improvements.

Fair Value of Financial Instruments

The Company recognizes and measures assets and liabilities required to be recorded at fair value using the framework prescribed by SSAP No. 100, *Fair Value Measurements*.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques should maximize the use of observable inputs and minimize the use of unobservable inputs.

A fair value hierarchy has been established, which prioritizes the valuation inputs into three broad levels. Level 1 inputs consist of quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the related asset or liability. Level 3 inputs are unobservable inputs related to the asset or liability.

Investment Income

Investment income consists primarily of interest and dividends. Interest is recognized on an accrual basis and dividends are recorded as earned at the ex-dividend date. Accrual of income is suspended for bonds that are in default or when the receipt of interest payments is in doubt. Realized capital gains and losses are determined on a specific identification basis and recorded in operations.

Premium Income

Subscriber fees are billed in advance of their respective coverage periods and recorded as uncollected premiums until collected. Income from such fees is recorded as earned during the coverage period. Premiums received in advance represent the portion of fees, which will be earned in future periods, which varies from one month to one year depending upon the due date and the number of months of coverage provided by these fees.

Policy and Contract Claims

Aggregate reserves for policy contracts have been adjusted to reflect claims incurred but unpaid at year-end, which includes claims in process, unreported claims, claims of currently hospitalized patients and premium deficiency reserve. The amount of this liability has been estimated by the use of accepted actuarial methods utilizing statistics developed from prior claim payment experience. Estimated claim processing expenses relating to incomplete and unreported claims are being accrued currently as an expense. Differences between actual and estimated claims are charged to operations in the year that the differences, if any, become known.

Premium Deficiency Reserves

When the expected claim payments and administrative expenses exceed the premiums to be collected for the remainder of the contract period, a premium deficiency reserve is recorded for the deficiency, with a corresponding charge to operations. The Company does not utilize anticipated investment income as a factor in the premium deficiency calculation.

Income Taxes

The Company's federal income tax return is filed on a consolidated basis with NHS, Noridian Insurance Services, Inc. (NISI), Twenty First and MDD. The consolidated group's liability is apportioned among the members in accordance with the ratio which that portion of the consolidated taxable income bears to the consolidated taxable income based upon separate return calculations with current credit for net losses. Intercompany tax balances are typically settled annually in the third quarter. The Company includes 50% of the taxable income/loss of CoreLink Administrative Solutions, LLC in the calculation of income tax due.

The Company will recognize future accrued interest and penalties related to unrecognized tax benefits in income tax expense if incurred. Under normal circumstances, the Company is no longer subject to Federal tax examinations by tax authorities for years before 2010.

The Company undergoes an annual analysis of various tax positions, assessing the likelihood of those positions being upheld upon examination with relevant tax authorities.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for statutory and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. The tax effect of deferred tax assets and liabilities and the changes between years is reflected in policyholder surplus.

SSAP No. 101 – *Income taxes – A Replacement of SSAP No. 10R and SSAP No. 10,* is effective for 2012 interim and annual financial statements and beyond. The new standard included revised guidance for tax contingencies, and the non-elective deferred tax asset admissibility test along with significant modifications to the deferred tax assets admissibility test and disclosure modifications. A change resulting from this adoption was accounted for prospectively and reflected as a change in accounting principle in accordance with SSAP No. 3 – *Accounting for Changes and Corrections of Errors*. The adoption of this pronouncement in 2012 did not have a material impact on the financial statements.

Data Processing Equipment

Data processing equipment and operating and nonoperating software are carried at cost less accumulated depreciation. Depreciation expense is computed using the straight-line method over the lesser of the estimated useful life of the related asset or five years for EDP equipment and operating system software. Depreciation expense for nonoperating system software is computed using the straight-line method over the lesser of its estimated useful life or five years as permitted by the North Dakota Insurance Department.

Non-Admitted Assets

Certain assets, primarily prepaid pension assets, furniture and equipment and nonoperating software are designated as "non-admitted" under statutory reporting requirements. These assets are excluded from the statutory statements of admitted assets, liabilities and surplus by adjustments to unassigned surplus.

Expense Reimbursements

The Company allocates its operating expenses by various lines of business to determine the expense reimbursements due from affiliates where the Company provides services or acts as a fiscal intermediary, from other federal health programs, and other cost based reimbursable lines of business.

Advertising Costs

All advertising and promotion costs are expensed when incurred. Advertising expense amounted to $2,623,000 and $2,875,000 for the years ended December 31, 2013 and 2012, respectively.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Material estimates susceptible to significant change include:

- Aggregate reserves for policy contracts;
- Deferred tax assets and liabilities;
- Pension and postretirement benefits;
- Fair market value of investments;
- Cost allocation and;
- Property, plant, and equipment depreciation.

Current Vulnerability Due to Certain Concentration

The Company operates in a business environment, which is subject to various risks and uncertainties. Such risk and uncertainties include, but are not limited to, interest rate risk, market risk, credit risk and legal and regulatory changes.

The Patient Protection and Affordable Care Act (PPACA) signed into law on March 23, 2010 and largely upheld by the U.S. Supreme Court on June 28, 2012, continues to transform the North Dakota health insurance marketplace as well as the Company's operations in several key ways. A large percentage of the uninsured will be eligible for coverage and subsidies will support the purchase of insurance for many. Medicaid eligibility can be expanded at the discretion of each state. New regulations are reducing carrier margins and the flexibility of health insurance products. The market for insurance will be an increasingly retail market with sales directly to consumers through government-regulated exchanges. The Company continues to analyze, implement and comply with PPACA requirements.

The Company mainly markets to the large group and individual segments of its market. Many of the large groups have chosen a self-insured coverage option. This self-insured coverage results in a diminished medical risk exposure.

Provider Advances

In accordance with SSAP No. 84 – *Certain Health Care Receivables and Receivables Under Government Insured Plans*, the Company considers provider advances admitted assets if the amount of the advance is supported by a contract, as well as claims incurred and payable to the hospital. Provider Advances in the amounts of $5,150,000 and $7,250,000 were recorded as of December 31, 2013 and 2012, respectively.

Change in Accounting Principle

The NAIC has adopted SSAP No. 102 - *Accounting for Pensions, a Replacement of SSAP No. 89* and *SSAP No. 92 Accounting for Postretirement Benefits Other Than Pensions, a Replacement of SSAP No. 14* effective for reporting years beginning in 2013. This revised guidance requires reporting entities to recognize the funded status (excess of the projected benefit obligation over the fair value of plan assets) of the Company's pension, supplemental retirement program and postretirement health plans (the plans) on the balance sheet as a liability. The Company adopted these new standards effective January 1, 2013 which increased the liability recorded for the plans. The Company estimates the total transition liability associated with the funded status of the pension plan to be approximately $8,656,000 as of December 31, 2013. The new requirements allow the recognition of the liability over a period not to exceed 10 years with provisions for minimum required recognition amounts. The impact of adopting this standard is recognized as a change in accounting principle with a decrease to surplus of $1,943,000 related to the pension plan and $3,070,000 related to the supplemental retirement program during the year ended December 31, 2013. A remaining transition obligation of $6,713,000 related to the pension plan remains unrecognized at December 31, 2013. In addition, $19,884,000 is recognized as a reduction to surplus as a result of eliminating previous non-admitted assets and establishing contra-assets for the overfunded portion of the plans.

Note 2 - Cash and Invested Assets

Investments

The classification of bonds and equity securities shown in the balance sheet at December 31, 2013 was as follows:

	Book/Adjusted Carrying Value	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
December 31, 2013				
US Government Bonds & Notes	$ 20,744,000	$ 858,000	$ 79,000	$ 21,523,000
Industrial & Miscellaneous Bonds	139,576,000	5,515,000	1,523,000	143,568,000

	$ 26,502,000	$ 1,013,000	$ 15,276,000	$ 40,563,000	$ 41,778,000	$ 41,576,000

Proceeds from the sale of investments were $167,388,000 and $106,098,000 in 2013 and 2012, respectively. Gross realized gains of $17,551,000 and $5,984,000 and gross realized losses of $1,542,000 and $3,127,000 were realized on the sale of investments during the years ended December 31, 2013 and 2012, respectively.

The Company regularly reviews its investment portfolio for factors that may indicate that a decline in fair value of a bond investment below its cost basis is other than temporary. Based on an evaluation of the prospects of the issuer, including, but not limited to, the Company's intentions to sell or ability to hold the investments; the length of time and magnitude of the unrealized loss; financial condition and near term prospects of the issuer and the credit ratings of the issuer of the investment. During 2013 and 2012, the Company incurred $0 and $390,000 of other-than-temporary losses on its investment in bonds, respectively.

The Company considers various factors when considering if a decline in the fair value of a common stock security is other than temporary, including but not limited to, the length of time and magnitude of the unrealized loss; the volatility of the investment; analyst recommendations and price targets; opinions of the Company's investment managers; market liquidity; and the Company's intentions to sell or ability to hold the investments. To the extent the Company determines that a security is deemed other-than-temporarily impaired, the difference between amortized cost and fair value is charged to earnings. Based on an evaluation of these factors, the Company has concluded there are no investments in non-affiliated common stocks at December 31, 2013 that need be impaired.

Based on management's analysis, in 2013, the Company concluded that its investment in NHS was other than temporarily impaired (OTTI) in accordance with SSAP No.97 - *Investments in Subsidiary, Controlled and Affiliated Entities*. The facts and circumstances leading to impairment include the length of time the investment was in an unrealized loss position as well as recent operationg losses, as NHS recognized approximately $51,000,000 of contract losses during 2013 based on ASC 605-35, percentage-of-completion method of accounting. In particular, as discussed in Note 16, uncertainties exist associated with contracts that impact the evaluation of NHS fair value. In accordance with SSAP No. 97, the investment in NHS was written down to its fair value at December 31, 2013. The amount of the OTTI recognized as a realized loss was $78,007,000 representing $63,625,000 of previously recognized unrealized losses and $14,382,000 of equity investment in subsidiary resulting in a $0 carrying value of NHS as of December 31, 2013. The fair value of the investment was determined in accordance with SSAP No. 100 - *Fair Value Measurements*.

Mortgage and Other Asset-Backed Securities

The Company has $10,327,000 and $14,644,000 of mortgage and other asset-backed securities in its portfolio at December 31, 2013 and 2012, respectively.

The scheduled maturities of bonds at December 31, 2013 were as follows:

	Amortized Cost	Fair Market
Due less than one year	$ 15,697,000	$ 15,908,000
Due over one year through five years	72,400,000	75,486,000
Due over five years through 10 years	64,294,000	65,204,000
Due over ten years	7,929,000	8,494,000
	160,320,000	165,092,000
Mortgage and other asset-backed securities	10,327,000	10,915,000
	$ 170,647,000	$ 176,007,000

Securities may be disposed of before contractual maturities due to sales by the Company or because borrowers might have the right to call or prepay the obligation with or without prepayment penalties. Maturities of mortgage-backed securities depend on the repayment characteristics and experience of the underlying mortgage loans.

Real Estate

	2013	2012
Occupied by the Company	$ 49,964,000	$ 49,387,000
Leasehold improvements	1,540,000	1,011,000
	51,504,000	50,398,000
Accumulated depreciation	(26,334,000)	(24,285,000)
	$ 25,170,000	$ 26,113,000

The total real estate above includes admitted and non-admitted assets. Admitted assets consist of $49,964,000 and $49,387,000 and related accumulated depreciation of $25,461,000 and $23,569,000 for 2013 and 2012, respectively. Net admitted assets total $24,503,000 and $25,818,000 for 2013 and 2012, respectively. The remaining assets of $1,540,000 and $1,011,000 and related accumulated depreciation of $873,000 and $716,000 for 2013 and 2012, respectively, are non-admitted.

Depreciation expense relating to real estate for the years ended December 31, 2013 and 2012 was $2,058,000 and $1,996,000 respectively, of which $1,326,000 and $1,435,000, respectively, has been allocated to and reimbursed by other users.

Investments in Affiliates

On April 4, 2013, Noridian Administrative Services, LLC changed its name to Noridian Healthcare Solutions, LLC (NHS). NHS is organized as a limited liability company and is wholly owned by NMIC. NAS is a multi-state processor and fiscal intermediary/carrier for the Medicare and Medicaid Programs, which are administered and monitored by the Centers for Medicare and Medicaid Services (CMS).

At December 31, 2013, the Company owned 100 percent of the outstanding common stock of Noridian Insurance Services, Inc. (NISI), an insurance agency.

At December 31, 2013, the Company owned 100 percent of Twenty First Century Information Solutions. Twenty First Century owns 50 percent of CoreLink Administrative Solutions, LLC and 100 percent of MDdatacor, Inc.

At December 31, 2013, the Company owned 51 percent of the outstanding common stock of Discovery Benefits, Inc., an employee benefits administration company.

Note 3 - Fair Value Measurements

There are three general valuation techniques that may be used to measure fair value, as described below:

1. Market approach – Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. Prices may be indicated by pricing guides, sale transactions, market trades, or other sources;

2. Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (replacement cost); and

3. Income approach – Uses valuation techniques to convert future amount to a single present amount based on current market expectation about the future amounts (includes present value techniques and option pricing models). Net present value is an income approach where a stream of expected cash flows is discounted at an appropriate market interest rate.

Following is a description of the valuation methodologies used for assets measured at fair value.

Industrial & Miscellaneous Bonds: Valued based on NAIC market values. For those securities not actively traded, quoted market prices of comparable instruments or discounted cash flow analysis are used based upon inputs that are observable in the markets for similar securities. Inputs include benchmark yields, credit spreads, default rates, prepayments and non-bonding broker quotes.

Mortgage & Other Assets Backed Bonds: Valued based on Residential Mortgage Backed Securities modeling file provided by the NAIC. The prepayment assumptions used for single class and multi-class mortgage backed/asset backed securities were obtained from broker/dealer survey values. These assumptions are consistent with the current interest rate and economic environment.

Preferred Stock: Valued based on NAIC market values.

Common Stock Unaffiliated & Mutual Funds: Valued based on NAIC quoted market values. If NAIC market values are unavailable then value is determined based on the underlying equity.

Common Stock Affiliated: Value is based on the underlying equity of the affiliate.

Other Invested Assets: Value is based on the underlying equity of the related entity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of the future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes to valuation methods used during 2013 or 2012.

The table below reflects the fair values and admitted asset values of all admitted assets and liabilities as of December 31, 2013 and 2012 that are financial instruments.

	2013				
	Aggregate Fair Value	Admitted Asset Value	Level 1	Level 2	Level 3

Note 4 - Receivables

Pharmaceutical Rebate

The Company has contracted with a pharmaceutical benefits manager to provide pharmaceutical services and obtain pharmacy rebates from drug manufacturers. The estimate for the fourth quarter of each year is based on the previous quarter's actual prescriptions, which are confirmed/invoiced by the Company's pharmaceutical benefit manager. At December 31, 2013 and 2012, the Company had total pharmacy rebates receivable of $8,100,000 and $5,947,000, respectively, of which $7,141,000 and $5,303,000, respectively, is an admitted asset. The pharmaceutical rebate receivables, by quarter, are as follows:

Quarter Ending	Estimated Pharmacy Rebates	Pharmacy Rebates Invoiced/Confirmed as an admitted asset	Actual Rebates Collected Within 90 days of Invoicing/Confirmation	Actual Rebates Collected Within 91 to 180 days of Invoicing/Confirmation	Actual Rebates Collected More Than 180 Days of Invoicing/Confirmation
12/31/13	$ 3,300,000	$ -	$ -	-	$ -
9/30/13	3,100,000	3,841,000	-	-	-
6/30/13	2,900,000	3,352,000	2,292,000	636,000	-
3/31/13	2,800,000	2,984,000	2,328,000	232,000	-
12/31/12	$ 2,700,000	$ 3,187,000	$ 2,689,000	$ 334,000	$ 87,000
9/30/12	2,600,000	2,875,000	2,603,000	181,000	57,000
6/30/12	2,500,000	2,777,000	2,306,000	173,000	299,000
3/31/12	2,500,000	2,581,000	2,282,000	121,000	178,000
12/31/11	$ 2,200,000	$ 2,760,000	$ 2,188,000	$ 214,000	$ 358,000
9/30/11	2,200,000	2,455,000	2,276,000	87,000	92,000
6/30/11	2,000,000	2,410,000	2,281,000	100,000	30,000
3/31/11	2,000,000	2,275,000	2,039,000	147,000	89,000

The Company has contracted with a pharmaceutical benefits manager to provide pharmaceutical services and obtain pharmacy rebates from drug manufacturers for the Medicare Prescription Drug Program. The estimate for the fourth quarter of each year is based on the previous quarter's actual prescriptions, which are confirmed/invoiced by the Company's pharmaceutical benefit manager. At December 31, 2013 and 2012, the Company had total pharmacy rebates receivable of $2,793,000 and $2,247,000, respectively, of which $2,746,000 and $2,172,000, respectively, is an admitted asset. The pharmaceutical rebate receivables for the Medicare Prescription Drug Program, by quarter, are as follows:

Quarter Ending	Estimated Pharmacy Rebates	Pharmacy Rebates Invoiced/Confirmed as an admitted asset	Actual Rebates Collected Within 90 days of Invoicing/Confirmation	Actual Rebates Collected Within 91 to 180 days of Invoicing/Confirmation	Actual Rebates Collected More Than 180 Days of Invoicing/Confirmation

12/31/12	$ 1,086,000	$ 1,160,000	$ -	$ 1,160,000	$ -
9/30/12	1,039,000	1,081,000	-	1,016,000	65,000
6/30/12	982,000	1,039,000	-	1,005,000	33,000
3/31/12	817,000	980,000	-	940,000	40,000
12/31/11	$ 1,014,000	$ 1,091,000	$ -	$ 1,086,000	$ 5,000
9/30/11	1,045,000	1,072,000	-	1,066,000	6,000
6/30/11	956,000	1,040,000	-	1,044,000	(3,000)
3/31/11	849,000	988,000	-	989,000	(200)

Note 5 - Federal Employees Program

The Blue Cross and Blue Shield Federal Employees Program (FEP) is an insurance contract between the federal government and local Blue Cross and Blue Shield plans. The Blue Cross and Blue Shield Association acts as an agent for the local plans in the capacity of contracting with the government and providing other resources necessary to fulfill the agency relationship. The Company includes its share of the full amount of assets, liabilities, revenues, and expenses resulting from this contract in the financial statements. A liability and an offsetting asset (Federal Employees Program) have been recorded in the statements of admitted assets, liabilities, and policyholder surplus related to claims liabilities and related assets held. Premium income, investment income, and administrative expenses have been included in the statements of income to reflect the Company's portion of the FEP results. As of December 31, 2013 and 2012, the Company held assets in connection with the program of $28,696,000 and $26,498,000, respectively. The related liabilities are included in contract claim reserves for accident and health policies and aggregate reserve for accident and health policies. Additionally, the Company had recorded receivables of $1,301,000 and $1,178,000 as of December 31, 2013 and 2012, respectively, related to reimbursable claims for the program.

Note 6 - Equipment and Software

	2013	2012
Electronic data processing equipment and software	**$ 47,461,000**	$ 39,831,000
Furniture, fixtures, and equipment	**19,120,000**	17,175,000
Automobiles	**192,000**	137,000
Telephone	**3,629,000**	3,157,000
Depreciable software	**40,688,000**	32,050,000
	111,090,000	92,350,000
Accumulated depreciation	**(82,805,000)**	(75,880,000)
	$ 28,285,000	$ 16,470,000

The total amount of equipment and software above includes admitted and non-admitted assets. Admitted assets consist of electronic data processing equipment and software of $47,461,000 and $39,831,000 and related accumulated depreciation of $35,951,000 and $32,497,000 for 2013 and 2012, respectively. Net admitted assets total $11,510,000 and $7,334,000 for 2013 and 2012, respectively. The remaining assets of $63,629,000 and $52,519,000 and accumulated depreciation of $46,854,000 and $43,383,000 for 2013 and 2012, respectively, are non-admitted.

Equipment and software depreciation is calculated, on a straight-line method, over an estimated useful life of 3 to 15 years. Depreciation expense for the years ended December 31, 2013 and 2012 was $6,998,000 and $7,537,000 respectively, of which $4,769,000 and $6,327,000 has been allocated to and reimbursed by other users.

Electronic data processing equipment and depreciation reflect amounts prescribed or permitted practices that depart from NAIC Accounting Practices and Procedures Manual, see Note 1.

Note 7 - Lessee Operating Leases

The Company leases office space under various non-cancelable operating lease agreements that expire through March 31, 2018. Office space rental expense for 2013 and 2012 was approximately $772,000 and $389,000, respectively, of which $107,000 and $0 has been allocated to and reimbursed by other users in 2013. The Company leases computer and office equipment under various non-cancelable operating lease agreements that expire through June 30, 2016. Computer and office equipment rental expense for 2013 and 2012 was approximately $5,574,000 and $5,561,000, respectively, of which $4,388,000 and $4,688,000 has been allocated to and reimbursed by other users.

At December 31, 2013, the minimum aggregate rental commitments net of amounts allocated to others are as follows:

Years ending December 31,	Real Estate Leases	Equipment Leases
2014	694,000	967,000
2015	627,000	900,000
2016	355,000	212,000
2017	345,000	199,000
2018	86,000	132,000
	$ 2,107,000	$ 2,410,000

Certain rental commitments have renewal options extending through the year 2018. Some of these renewals are subject to adjustments in future periods.

Note 8 - Lessor Leases

The Company owns one site that is leased to affiliated companies. Prorated operating costs are charged to affiliated companies through administrative service agreements and subsequently reimbursed to the Company.

The cost and carrying amount of these properties is approximately $14,078,000 and $6,217,000 as of December 31, 2013 and $13,615,000 and $6,764,000 as of December 31, 2012 as listed in the investment summary at Note 2.

There are no future minimum lease payment receivable arrangements.

Note 9 - Employee Benefit Plans

Pension Plan

The Company has a defined benefit pension plan covering a significant number of its employees. The plan was amended to exclude NHS employees hired on or after September 1, 2006. The plan was amended to exclude all Noridian employees hired on or after January 1, 2010.

The benefits are based on years of service and the employee's final average compensation. The Company's funding and accounting policies are to contribute annually the minimum amount required by applicable regulations plus such additional amounts as the employer may determine to be appropriate from time to time and to charge such contributions to expense as allowed under statutory accounting principles.

Prior to 2001, the Company was allowed under statutory accounting principles to recognize pension costs equal to the amount of the contributions paid to the plan. Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

A summary of pension plan disclosures is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 164,716,000	$ 145,977,000
Service cost	7,522,000	7,692,000
Interest cost	6,328,000	6,592,000
Benefit payments	(852,000)	(8,878,000)
Settlements	(14,600,000)	-
Actuarial losses (gains)	(12,182,000)	13,333,000
Projected benefit obligation at end of year	$ 150,932,000	$ 164,716,000
The actuarial gains (losses) are a result of changes in actuarial assumptions, primarily changes in the discount rate, and the impact of differences between actual and anticipated experience.		
Accumulated benefit obligation	$ 121,688,528	$ 132,757,000
Change in plan assets		
Fair value of plan assets at beginning of year	$ 130,480,000	$ 107,701,000
Actual return on assets (net of expenses)	15,249,000	16,457,000
Employer contributions	12,000,000	15,200,000
Settlements	(14,600,000)	-
Benefit payments	(852,000)	(8,878,000)
Fair value of plan assets at end of year	$ 142,277,000	$ 130,480,000
Funded Status		
Overfunded		
Assets		
Prepaid benefit cost	$ 36,123,000	N/A
Overfunded program contra-asset	(36,123,000)	N/A
Total Assets	$ -	N/A

	2013	2012
Underfunded		
Liabilities Recognized		
Accrued benefit liability	$ 1,943,000	N/A
Unrecognized liabilities	$ 6,713,000	N/A
Components of net periodic benefit cost		
Service cost	$ 7,522,000	$ 7,692,000
Interest cost	6,328,000	6,592,000
Expected return on assets	(9,245,000)	(8,518,000)
Amortization of transition obligation	630,000	630,000
Amortization of prior service cost	403,000	403,000
Amortization of actuarial loss	4,585,000	4,304,000
Loss recognized due to settlement or curtailment	3,720,000	-
Total net periodic benefit cost	$ 13,943,000	$ 11,103,000
Items not recognized as a component of net periodic cost		
Beginning of the year	$ 72,302,000	N/A
Net transition asset or obligation recognized	(630,000)	N/A
Net prior service cost or credit recognized	(403,000)	N/A
Net gain and loss arising during the period	(18,186,000)	N/A
Net gain and loss recognized	(8,304,000)	N/A
Items not yet recognized as a component of net periodic cost		
End of the year	$ 44,779,000	N/A
Amounts in unassigned funds (surplus) expected to be recognized in the next fiscal year as components of net periodic benefit cost		
Net transition obligation	$ 630,000	N/A
Prior Service Cost	403,000	N/A
Net actuarial loss	2,315,000	N/A
Amounts in unassigned funds (surplus) that have not yet been recognized as components of net periodic benefit cost		
Net transition obligation	$ 4,409,000	$ 5,039,000
Prior Service Cost	1,920,000	2,323,000
Net actuarial loss	38,450,000	64,940,000
Items not yet recognized as a component of net periodic cost	$ 44,779,000	$ 72,302,000

	2013	2012
Weighted average assumptions used to determine net periodic cost during the year		
Discount rate	4.00%	4.75%
Expected return on assets	7.00%	7.50%
Rate of compensation increase	Graded; 4% - 9%	Graded; 4% - 9%
Weighted average assumptions used to determine projected benefit obligations at December 31		
Discount rate	4.75%	4.00%
Expected return on assets	7.00%	7.00%
Rate of compensation increase	Graded; 4% - 9%	Graded; 4% - 9%

At December 31, 2013, the basis of the overall expected long-term rate of return on assets assumption is a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the trust invests in and the trust's target asset allocation. This rate is net of both investment related expenses and a 0.10% reduction for other administrative expenses charged to the Trust.

At December 31, 2013, the assumed target asset allocation for the program is: 44 - 56% equity securities, 34 - 46% debt securities and 6 - 14% other securities. Using a mean-variance model to project returns over a 30 year horizon under the target asset allocation, the 35th to 65th percentile range of annual rates of return is 6.2% - 7.8%.

At December 31, 2012, the basis of the overall expected long-term rate of return on assets assumption is a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the trust invests in and the trust's target asset allocation. This rate is net of both investment related expenses and a 0.10% reduction for other administrative expenses charged to the Trust.

At December 31, 2012, the assumed target asset allocation for the program is: 44 – 56% equity securities, 35 – 45% debt securities and 6 – 14% other securities. Using a mean-variance model to project returns over a 30 year horizon under the target asset allocation, the 35th to 65th percentile range of annual rates of return is 6.2% - 7.8%.

The Company's pension plan assets are invested in the Blue Cross Blue Shield National Retirement Trust. The Company's pension plan weighted-average asset allocations at December 31, 2013 and 2012 by asset category are as follows:

	2013	2012
Equity securities	53%	46%
Debt securities	37%	40%
Real estate	7%	6%
Other	3%	8%
Total	100%	100%

The investment program for the Blue Cross Blue Shield National Retirement Trust is based on the precepts of capital market theory that are generally accepted and followed by institutional investors, who by definition are long-term oriented investors. The philosophy holds that:

1. Increasing risk is rewarded with compensating returns over time and therefore, prudent risk taking is justifiable for long-term investors.

2. Risk can be controlled through diversification of asset classes and investment approaches as well as diversification of individual securities.

3. Risk is reduced by time, and over time the relative performance of different asset classes is reasonably consistent. Over the long term, equity investments have provided and should continue to provide superior returns over other security types. Fixed-income securities can dampen volatility and provide liquidity in periods of depressed economic activity.

4. The strategic or long-term allocation of assets among various asset classes is an important driver of long-term returns.

5. Relative performance of various asset classes is unpredictable in the short-term and attempts to shift tactically between asset classes are unlikely to be rewarded.

Investments will be made for the sole interest of the participants and beneficiaries of the programs participating in the Blue Cross Blue Shield National Retirement Trust. Accordingly, the assets of the Blue Cross Blue Shield National Retirement Trust shall be invested in accordance with these objectives:

1. To ensure assets are available to meet current and future obligations of the participating programs when due.

2. To earn the maximum return that can be realistically achieved in the markets over the long term at a specified and controlled level of risk in order to minimize future contributions.

3. To invest assets with consideration of the liability characteristics in order to better align asset and liabilities.

4. To invest the assets with the care, skill, and diligence that a prudent person acting in a like capacity would undertake. The Blue Cross Blue Shield National Retirement Trust Committee acknowledges that, in the process, it has the objective of controlling the costs involved with administering and managing the investments of the Blue Cross Blue Shield National Retirement Trust.

The Company expects to contribute $0 to its pension program in 2014.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Estimated Future Benefits Payments	2013
2014 Payouts	$ 9,959,000
2015 Payouts	9,517,000
2016 Payouts	9,725,000
2017 Payouts	10,428,000
2018 Payouts	10,709,000
2019 Payouts to 2023	58,445,000

The fair value measurements of the plan assets at December 31, 2013 are as follows:

Asset Category	Quoted Prices In Active Markets for Identical Assets Level 1	Significant Observable Inputs Level 2	Significant Observable Inputs Level 3	Total
Government Obligations	$ 2,615,000	$ 6,478,000	$ 81,000	$ 9,174,000
Corporate Obligations	-	6,430,000	2,000	6,432,000
Partnership/Joint Venture	-	-	1,983,000	1,983,000
Limited Liability Corporations	-	7,780,000	-	7,780,000
Real Estate	-	-	5,498,000	5,498,000
Registered Investments	11,445,000	27,421,000	-	38,866,000
Common/Collective Trusts	-	51,771,000	-	51,771,000
Hedge Funds	-	9,439,000	-	9,439,000
Common Stocks	10,322,000	-	-	10,322,000
Preferred Stocks	245,000	-	-	245,000
Forward Foreign Currency Contracts	4,000	-	-	4,000
Interest-Bearing Cash	754,000	-	-	754,000
Derivatives	-	9,000	-	9,000
Total Assets Measured At Fair Value	$ 25,385,000	$ 109,328,000	$ 7,564,000	$ 142,277,000

The fair value measurements in Level 3 of the fair value hierarchy are as follows:

	Beginning Balance 1/1/2013	Transfers into Level 3	Transfers out of Level 3	Return on Assets Still Held	Return on Assets Sold	Purchases	Issuances	Sales	Settlements	Ending Balance 12/31/2013
Government Obligations	$ 88,000	$ -	$ -	$ (8,000)	$ -	$ 16,000	$ -	$ -	$ (15,000)	$ 81,000

Real Estate	5,070,000	-	-	699,000	52,000	1,122,000	-	-	(1,445,000)	5,498,000
Hedge Funds	2,402,000	-	(1,805,000)	288,000	438,000	413,000	-	-	(1,736,000)	-
Total Plan Assets	$ 9,394,000	$ -	$ (1,805,000)	$ 1,068,000	$ 490,000	$ 1,903,000	$ -	$ -	$ (3,486,000)	$ 7,564,000

The following is a description of the valuation techniques used for the signifant qualified pension assets measured at fair value utilizing, and classified as, Level 1, 2 or 3:

Cash and Short-Term Investments – Cash and short-term investments include interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest.

Investments Traded in Active Markets – Common stock, preferred stock, fixed income securities including government and corporate obligations, options and futures traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of each period presented. Securities traded in markets that are not considered active are valued based on quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. Securities that trade infrequently and therefore have little or no price transparency are valued using the Trust's investment managers' best estimates. In general, corporate obligations are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in government obligations are estimated using best available trade data. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. Investments in other equities are based on quoted market prices.

Real Estate Investments – Fair values of real estate investments are based on the quoted redemption values of the participation units in real estate funds owned by the Trust. Redemption values principally represent the appraised values of real estate investments held in the real estate funds.

Hedge Funds – Hedge fund investments represent investment in hedge fund of funds and investments in portfolios investing in a range of stocks, bonds, distressed corporate debt, government debt, emerging market equities, currencies, commodities, commodity and financial futures, options, forwards, swaps and derivative instruments. Hedge fund of funds investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund (including investments in a master fund that is primarily comprised of hedge funds) minus its liabilities and then divided by the number of shares outstanding. In general, portfolio securities for which market quotations are readily available are valued at market value. If market quotations are not readily available, the fair value is determined based on other relevant factors, including deal price quotations, price activity for equivalent investments and valuation pricing models.

Registered Investment Companies – These are investments valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund minus its liabilities, and then divided by the number of shares outstanding.

Limited Liability Corporations – These investments are valued at estimated fair value which, based on the appraised values, approximates market price and other market information pertaining to their underlying investments at December 31. Because of inherent uncertainty of valuing these investments and certain of the underlying investments, the Trust's estimate of fair value may differ from the values that would have been used had a ready market for the investment existed. The financial statements of these investments are audited annually by an independent public accounting firm.

Partnership /Limited Liability Company Interests – These investments are valued at estimated fair value which, based on the appraised values, approximates market price and other market information pertaining to its underlying investments at December 31.

Common/Collective Trust Funds – Common/collective trust funds represent investments with various investment managers. Units held in common/collective trusts, including stable value funds, are valued at the unit value as reported by the investment managers as of December 31.

Futures and Forward Contracts – The Trust may, from time to time, enter into equity futures contracts, forward foreign currency contracts, and forward contracts to purchase government agency obligations for trading purposes. Equity futures contracts are used as a means to replicate the performance of the broad stock market and to reduce transaction costs associated with rebalancing an indexed portfolio when there are cash inflows or outflows. Forward foreign currency contracts are used to manage the risk of foreign currency fluctuations and to ensure that adequate funds, denominated in the local currency, are available to settle purchases of foreign securities. Forward contracts to purchase government agency obligations are used to take advantage of market yield premiums available for delayed settlement contracts.

Equity futures contracts, forward foreign currency contracts, and forward contracts to purchase government agency obligations are stated at market value as determined by prices quoted on national security exchanges. Equity futures contracts are marked to market, and fluctuations in the value are recognized as realized gains or losses that are settled daily with cash through a margin account. Forward foreign currency contracts are valued at fair value, as determined by the Trust's investment managers (or independent third parties on behalf of the investment managers), using quoted forward foreign currency exchange rates. At the end of each period presented, open contracts are valued at the current forward foreign currency exchange rates, and the change in market value is recorded as an unrealized gain or loss. When the contract is closed or delivery taken, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Foreign Investments – Investments denominated in currencies other than the U.S. dollar are converted using exchange rates prevailing at the end of the periods presented. Purchases and sales of such investments are translated at the rate of exchange on the respective dates of such transactions.

Supplemental Retirement Program

The Company has an unfunded Supplemental Retirement Program (SERP) intended for certain employees that meet the required provisions set forth in the program.

Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

Information related to the SERP is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 4,987,000	$ 3,952,000
Service cost	294,000	338,000
Interest cost	211,000	222,000
Program Amendments	224,000	2,276,000
Benefit payments	(328,000)	(1,043,000)

Net actuarial loss	361,000	268,000
Items not yet recognized as a component of net periodic cost	$ 3,070,000	$ 3,260,000

Weighted average assumptions used to determine net periodic cost during the year	2013	2012
Discount rate	4.00%	4.75%
Rate of compensation increase	Flat; 5.00%	Flat; 5.00%

Weighted average assumptions used to determine projected benefit obligations at December 31	2013	2012
Discount rate	4.75%	4.00%
Rate of compensation increase	Flat; 5.00%	Flat; 5.00%

The SERP is funded on a pay-as-you-go basis. Therefore, no assets are accumulated to pay benefits under the program and no assumption regarding the expected return on assets is relevant.

The following benefit payments, which reflect expected future service and employer contributions, as appropriate, are expected to be paid:

	2013
Estimated Future Benefits Payments	
2014 Payouts	$ 9,000
2015 Payouts	186,000
2016 Payouts	760,000
2017 Payouts	25,000
2018 Payouts	4,602,000
2019 Payouts to 2023	655,000

Retiree Health Benefits and Life Insurance Plans

The Company provides certain health care and life insurance benefits (postretirement benefits) for retired employees. Substantially all employees may become eligible for these benefits if they reach retirement age while working for the Company. Life insurance benefits are generally set at a fixed amount. In 2003, the Company established a Noridian Mutual Insurance Company Retiree Voluntary Employee Beneficiary Association Trust (VEBA Trust) to fund this Plan. The Plan was amended to exclude any new employees hired after January 1, 2006. In January, 2010 the Plan was amended to phase-out the Company contribution for health care insurance for retirees over a ten year period, beginning in 2012 with a ten percent reduction each year. The health plan was remeasured on October 1, 2012 to reflect a 10% decrease in retiree premiums in 2013 and a change in prescription drug coverage.

Beginning in 2001, the Company was required to adopt statutory accounting principles which recognize the funded status of the Plan as allowed under SSAP No. 89 – *Accounting for Pensions*. The Company has elected to amortize the incremental liability resulting from the change in accounting principle as a component of net periodic pension cost over a period of 20 years. Effective January 1, 2013, the Company adopted SSAP No. 102 – *Accounting for Pensions*. SSAP 102 replaces SSAP 89, with the change in accounting principle requiring recognition of the projected benefit obligation and underfunded status to surplus.

Information related to the postretirement benefit plan is as follows:

	2013	2012
Change in projected benefit obligation		
Projected benefit obligation at beginning of year	$ 16,928,000	$ 19,835,000
Service cost	799,000	1,143,000
Interest cost	833,000	713,000
Benefit payments	(1,452,000)	(1,488,000)
Medicare Part D subsidy received	124,000	118,000
Adoption of new SSAP -nonvested benefit obligation	10,714,000	-
Plan amendments	-	3,473,000
Actuarial losses (gains)	(9,318,000)	(6,866,000)
Projected benefit obligation at end of year	$ 18,628,000	$ 16,928,000
Change in plan assets		
Fair value of plan assets at beginning of year	$ 43,390,000	$ 40,393,000
Actual return on program assets	3,888,000	4,615,000
Benefit payments	(1,346,000)	(1,618,000)
Fair value of plan assets at end of year	$ 45,932,000	$ 43,390,000

Items not yet recognized as a component of net periodic cost	$ (16,229,000)	$ (15,987,000)

Weighted average assumptions used during the year to determine net periodic cost

	2013	2012
Discount rate	4.25%	4.75/4.25%*
Expected long-term rate of return	4.50%	5.00%
Health care trend rated-medical		
Trend for next year (pre-65/post-65)	8.00%/7.00%	8.00%/7.00%
Ultimate trend	5.00%	5.00%
Year ultimate trend reached (pre-65/post-65)	2021	2021/2022
Rate of compensation increase	Graded; 4%-9%	Graded; 4%-9%

	2013	2012
Weighted average assumptions used to determine projected benefit obligations at December 31		
Discount rate	5.00%	4.25%
Health care trend rated-medical		
Trend for next year (pre-65/post-65)	7.75%/6.75%	8.00%/7.00%
Ultimate trend	5.00%	5.00%
Year ultimate trend reached (pre-65/post-65)	2021	2021

*Effective October 1, 2012, the health benefits portion of the plans were remeasured due to plan changes as previously discussed, utilizing a 4.25% discount rate at that date. The life benefits portion of the plan is continuing to be remeasured at December 31, using a 4.75% discount rate.

The Company selected an overall expected long-term rate of return on assets assumption of 4.5% using a forward-looking approach based on the current long-term capital market outlook assumptions of the asset categories the Plan invests in. This rate is net of both investment related expenses and taxes.

Assumed health care cost trend rates have a significant effect on the amounts recognized for the health care plan. A one-percentage point change in assumed health care trend rates would have the following effect on the Retiree Health Benefits and Life Insurance Plans as of December 31, 2013:

	1% Increase	1% Decrease
Effect on total of service cost and interest cost components	$ 263,000	$ (201,000)
Effect on postretirement benefit obligation	2,052,000	(1,627,000)

The investment for the VEBA Trust shall be invested in such securities or in such property, real or personal, tangible or intangible, as the Trustee shall deem advisable, provided, however, that investments shall be so diversified as to minimize the risk of large losses unless under the circumstances it is clearly prudent not to do so in the sole judgment of the Trustee.

The 2014 target asset allocation for the VEBA Trust is as follows:

Equity securities	40% - 60%
Debt securities	40% - 60%
Cash	0% - 5%

The VEBA Trust is administered by Bank of the West and has asset allocations of 53% equity securities, 42% debt securities, and 5% other, as of December 31, 2013.

The Company expects to contribute $0 to the VEBA Trust in 2014.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid:

Estimated Future Benefits Payments	
2014 Payouts	$ 1,554,000
2015 Payouts	1,486,000
2016 Payouts	1,419,000
2017 Payouts	1,319,000
2018 Payouts	1,238,000
2019 Payouts to 2023	5,758,000

The fair value measurements of the plan assets are as follows:

Asset Category	Quoted Prices In Active Markets for Identical Assets Level 1	Significant Observable Inputs Level 2	Significant Observable Inputs Level 3	Total
Government Obligations	$ -	$ 7,974,000	$ -	$ 7,974,000
Corporate Obligations	-	3,323,000	-	3,323,000
State & Municipal Obligations	-	1,943,000	-	1,943,000
Registered Investments	21,345,000	-	-	21,345,000
Common Stocks	11,150,000	-	-	11,150,000
Interest-Bearing Cash	197,000	-	-	197,000
Total Assets Measured At Fair Value	$ 32,692,000	$ 13,240,000	$ -	$ 45,932,000

The following is a descprtion of the valuation techniques used for the signifant qualified retiree health benefits and life insurance plan assets measured at fair value utilizing, and classified as, Level 1, 2 or 3:

Fixed Income Obligations - These are bonds whose value is derived from similar bonds that are publicly traded, collateralized debt obligations, as well as certain structured liabilities where the inputs to the valuation are primarily based on readily observable pricing information.

Registered Investments and Common Stocks - This includes SEC registered mutual funds, exchange traded funds tracking domestic or international equity indices, and individual equities held in the form of common stock of companies on any of the nationally/internationally recognized stock exchanges and/or the over-the-counter markets. The fair values are based on a review of unadjusted quoted prices for identical assets in active markets.

Cash and equivalents - This category includes cash and money market fund holdings. The fair values are based on a review of unadjusted quoted prices for identical assets in active markets.

Defined Contribution Plans

The Company has a qualified defined contribution pension plan covering substantially all of its employees. The Company will match up to 4% of an employee's eligible compensation. The Company's contribution to the Plan was $4,300,000 and $3,600,000 for 2013 and 2012, respectively. At December 31, 2013 and 2012, the fair value of plan assets was $145,287,000 and $121,452,000, respectively.

The Company established a qualified defined contribution pension plan on September 1, 2006. The Plan was established to cover NHS employees hired after September 1, 2006 who are not eligible for the defined benefit pension plan. The company contribution is a discretionary amount as determined by the Company from year to year. The Company's contribution to the Plan was $482,000 and $510,000 for the years 2013 and 2012 respectively. At December 31, 2013 and 2012, the fair value of plan assets was $3,650,000 and $2,689,000, respectively.

Note 10 - Administrative Services Contracts

Administrative Service Only Contracts

	2013	2012
Gross reimbursement for medical cost incurred	$ -	$ 1,648,000
Gross administrative fees accrued	-	2,113,000
Total net loss from operations	$ -	$ (465,000)

Self Insured Plans

	2013	2012
Gross reimbursement for medical cost incurred	$ 493,591,000	$ 405,853,000
Gross administrative fees accrued	28,304,000	23,448,000
Gross expenses (claims and administrative)	(523,879,000)	(432,222,000)
Total net loss from operations	$ (1,984,000)	$ (2,921,000)

As of December 31, 2013 and 2012, unpaid claim liabilities of $61,270,000 and $52,100,000, respectively, and corresponding receivables from self-insured groups for the same amount have been established but are not recorded in the financial statements.

As of December 31, 2013 and 2012, the Company reported a net gain of $5,688,000 and $14,787,000, respectively, on Stop Loss coverage associated with the Insured Portion of Partially Insured Plans.

Cost Reimbursement Contracts

Revenues from the Company's Civilian Health and Medical Program for the Uniformed Services administrative contracts for 2013 and 2012 were $201,000 and $472,000, respectively.

In addition, the Company is a member of the BlueCard Program and by agreement processes subscribers' claims for other Blue Cross and Blue Shield Plans. The claims, of $186,667,000 and $152,811,000 in 2013 and 2012, respectively, were processed for others and the related reimbursements have been excluded from the statutory statements of income. The Company's operating expense reimbursement for BlueCard was $7,497,000 and $7,284,000 in 2013 and 2012, respectively.

The Company also has administrative agreements with affiliated and related companies that are disclosed as related parties.

Note 11 - Reinsurance

Unsecured Reinsurance Recoverable

The Company does not have an unsecured aggregate recoverable for losses, paid and unpaid including incurred but not reported (IBNR), loss adjustment expenses and unearned premium with any individual reinsurers, authorized or unauthorized, that exceeds 3% of the Company's policyholder surplus.

Medicare Advantage/Medicare Part D

In 2006, the Company joined with Blue Cross Blue Shield of Minnesota, Blue Cross Blue Shield of Montana, Blue Cross Blue Shield of Nebraska, Wellmark, Inc., Wellmark of South Dakota, and Blue Cross Blue Shield of Wyoming to create a joint enterprise, Regional Advantage Services, LLC for the purposes of administering the Blue Cross Blue Shield Northern Plains Alliance Medicare Advantage and Medicare Part D Program.

There are multiple agreements in place among these entities that may involve transfers of revenue. These agreements fall into three main categories:

1) The allocation of CMS risk-sharing payments involves the distribution of payments to/from CMS that are calculated based on variances in financial experience from amounts bid for Medicare Advantage and Medicare Part D products. The Company currently has no risk-sharing payable to CMS. As of December 31, 2013 and 2012 the Company has risk sharing receivables recorded of $1,218,000 and $542,000, respectively.

2) The pooling of catastrophic claims involves the pooling of claims with amounts paid in excess of $100,000. The Company currently has no receivable recorded relating to the pooling of large claims.

3) The limited gain-sharing portion involves the potential transfer of portions of financial gains arising from Medicare Advantage and Medicare Part D products to other entities that incurred losses on the same. The Company currently has an $84,000 risk-sharing payable to the other plans in the region.

Reinsurance Assumed and Ceded

The Company entered into an agreement with MedAmerica Insurance Company in 1999 to offer long-term care insurance that would be 100% ceded to MedAmerica. Reinsurance ceded could become a liability to the Company in the event the reinsurer is unable to meet the obligations they have assumed. Claims paid by MedAmerica in 2013 and 2012 were $429,000 and $451,000, respectively. MedAmerica established claim reserves of $1,290,000 and $1,008,000 for 2013 and 2012, respectively.

Note 12 - Aggregate Reserves for Policy Contracts

Activity in the liability for aggregate reserves for policy contracts (excluding unpaid claims adjustment expenses and premium deficiency reserves) is summarized as follows:

	2013	2012
Balance at beginning of the year	$ 138,360,000	$ 119,978,000
Incurred related to		
Current year	1,105,643,000	1,009,239,000
Prior year	(8,175,000)	(12,163,000)
Total incurred	1,097,468,000	997,076,000
Paid related to		
Current year	959,563,000	870,890,000
Prior year	130,387,000	107,804,000
Total paid	1,089,950,000	978,694,000
Balance at end of the year	$ 145,878,000	$ 138,360,000

The decrease in the provision of insured events of prior years of $8,175,000 as of December 31, 2013 and $12,163,000 as of December 31, 2012 is a result of ongoing analysis of recent loss development trends and re-estimation of unpaid claims on fully insured and risk sharing agreements and resulting from loss development trends better than estimated.

Note 13 - Income Taxes

The components of the net deferred tax asset/(liability) at December 31, 2013 and 2012 are as follows:

	2013			2012		
	Ordinary	Capital	Total	Ordinary	Capital	Total
Gross Deferred Tax Assets	$ 33,900,000	$ -	$ 33,900,000	$ 23,600,000	$ 2,100,000	$ 25,700,000
Adjusted Gross Deferred tax Assets	33,900,000	-	33,900,000	23,600,000	2,100,000	25,700,000
Deferred Tax Assets Nonadmitted	20,400,000	-	20,400,000	19,000,000	2,100,000	21,100,000
Subtotal Net Admitted Deferred Tax Asset	13,500,000	-	13,500,000	4,600,000	-	4,600,000
Deferred Tax Liabilities	-	6,600,000	6,600,000	-	-	-
Net Admitted Deferred Tax Asset	$ 13,500,000	$ (6,600,000)	$ 6,900,000	$ 4,600,000	$ -	$ 4,600,000

The change in the components of the net deferred tax asset/liability between December 31, 2013 and 2012 is as follows:

	Change		
	Ordinary	Capital	Total
Gross Deferred Tax Assets	$ 10,300,000	$ (2,100,000)	$ 8,200,000
Adjusted Gross Deferred tax Assets	10,300,000	(2,100,000)	8,200,000
Deferred Tax Assets Nonadmitted	1,400,000	(2,100,000)	(700,000)
Subtotal Net Admitted Deferred Tax Asset	8,900,000	-	8,900,000
Deferred Tax Liabilities	-	6,600,000	6,600,000
Change in Net Admitted Deferred Tax Asset/(Net Deferred Tax Liability)	$ 8,900,000	$ (6,600,000)	$ 2,300,000

The admission calculation components under SSAP No. 101 as of December 31, 2013 and 2012 is as follows:

	2013			2012		
	Ordinary	Capital	Total	Ordinary	Capital	Total
Federal Income Taxes Paid In Prior Years Recoverable Through Loss Carrybacks	$ 3,700,000	$ -	$ 3,700,000	$ 4,600,000	$ -	$ 4,600,000
Adjusted Gross Deferred Tax Assets Expected To Be Realized (Excluding The Amount Of Deferred Tax Assets From above) After Application of the Threshold Limitation (The Lesser of 1 and 2 below)	3,200,000	-	3,200,000	-	-	-
Adjusted Gross Deferred Tax Assets Expected to be Realized Following the Balance Sheet Date	3,200,000	-	3,200,000	-	-	-
Adjusted Gross Deferred Tax Assets Allowed per Limitation Threshold	-	-	-	-	-	-
Adjusted Gross Deferred Tax Assets (Excluding The Amount of Deferred Tax Assets From above) Offset by Gross Deferred Tax Liabilities	-	6,600,000	6,600,000	-	-	-
Deferred Tax Assets Admitted as the result of application of SSAP No. 101	$ 6,900,000	$ 6,600,000	$ 13,500,000	$ 4,600,000	$ -	$ 4,600,000

The change in the admission calculation components is as follows:

	Change		
	Ordinary	Capital	Total
Federal Income Taxes Paid In Prior Years	$ (900,000)	$ -	$ (900,000)
Adjusted Gross Deferred Tax Assets Expected To Be Realized (Excluding The Amount Of Deferred Tax Assets From above) After Application of the Threshold Limitation (The Lesser of 1 and 2 below)	3,200,000	-	3,200,000
Adjusted Gross Deferred Tax Assets Expected to be Realized Following the Balance Sheet Date	3,200,000	-	3,200,000
Adjusted Gross Deferred Tax Assets Allowed per Limitation Threshold	-	-	-
Adjusted Gross Deferred Tax Assets (Excluding The Amount of Deferred Tax Assets From above) Offset by Gross Deferred Tax Liabilities	-	6,600,000	6,600,000
Change in Deferred Tax Assets Admitted as the result of application of SSAP No. 101	$ 2,300,000	$ 6,600,000	$ 8,900,000

	2013	2012
Ratio Percentage Used To Determine Recovery Period and Threshold Limitation Amount	343%	505%
Amount Of Adjusted Capital and Surplus Used To Determine Recovery Period and Threshold Limitation Above	$ 192,188,000	$ 267,400,000

The provision (benefit) for income taxes consist of the following major components for the years ended December 31, 2013 and 2012:

	2013	2012
Federal	$ 622,000	$ 3,484,000
Federal income tax on net capital gains	3,202,000	571,000
Other	(802,000)	499,000
Federal and foreign income taxes incurred	$ 3,022,000	$ 4,554,000

The effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities are as follows:

	2013	2012	Change
Ordinary			
Discounting of unpaid losses	$ 600,000	$ 450,000	$ 150,000
Fixed assets	5,700,000	2,600,000	3,100,000
Compensation and benefits accual	3,800,000	4,100,000	(300,000)
Net operating loss carry forward	9,600,000	6,900,000	2,700,000
Other (including items <5% of total ordinary tax assets)	600,000	350,000	250,000
Intangible Assets - Subscriber and provider contracts	5,700,000	5,800,000	(100,000)
Prepaid Expenses	4,100,000	3,400,000	700,000
Premium Deficiency Reserve	3,800,000	-	3,800,000
Subtotal	33,900,000	23,600,000	10,300,000
Nonadmitted	(20,400,000)	(19,000,000)	(1,400,000)
Admitted ordinary deferred tax assets	13,500,000	4,600,000	8,900,000
Capital:			
Investments	$ -	$ 2,100,000	$ (2,100,000)
Nonadmitted capital deferred tax assets	-	2,100,000	(2,100,000)
Admitted capital deferred tax assets	-	-	-
Admitted deferred tax assets	13,500,000	4,600,000	8,900,000
Deferred Tax Liabilities			
Capital			
Investments	6,600,000	-	6,600,000
Net deferred tax assets	$ 6,900,000	$ 4,600,000	$ 2,300,000

The change in the net deferred income taxes is comprised of the following:

	2013	2012	Change
Gross deferred tax assets	$ 33,900,000	$ 25,700,000	$ 8,200,000
Total deferred tax liabilities	(6,600,000)	-	(6,600,000)
Net deferred tax assets	$ 27,300,000	$ 25,700,000	1,600,000
Tax effect of unrealized gains			3,900,000
Change in net deferred income taxes			$ 5,500,000

The provision for federal and foreign income taxes incurred is different from that which would be obtained by applying the statutory Federal income tax rate to income before income taxes. The significant items causing this difference are as follows:

	2013	2012
Provision computed at the statutory rate	$ (27,218,000)	$ 9,327,000
Benefit of the 833(b) deduction	(2,900,000)	(3,577,000)
Effect of permanent differences including impact of disregarded entity	33,942,000	(980,000)
Other provision	(802,000)	(216,000)
Total Statutory income tax provision	$ 3,022,000	$ 4,554,000

The Company has an alternative minimum tax (AMT) credit carryforward of $50,353,000 that may be carried forward indefinitely to reduce future regular federal income taxes payable. The Company also has $27,500,000 of operating loss carryforward that expires between 2018 and 2030 that may be used to offset future regular taxable income.

The Company has income taxes incurred of $200,000 in 2013 and $3,500,000 in 2012 that will be available for recoupment in the event of future net losses.

The Company's federal income tax return is filed on a consolidated basis with NHS, Twenty First, MDD, and NISI. The Company includes 50% of the taxable income/loss of CoreLink Administrative Solutions, LLC in the calculation of income tax due.

The method of allocation is described as the Taxable Income Method, under which the group's tax liability is apportioned among the members in accordance with the ratio which that portion of the consolidated taxable income attributable to each member having taxable income bears to the consolidated taxable income based upon separate return calculations with current credit for net losses. Intercompany tax balances are settled annually in the third quarter of the subsequent year. Under the tax sharing arrangement, the subsidiaries have the ability to recoup taxes if losses are incurred or use carryforward losses to offset future taxable income.

Note 14 - Related Party Transactions

The Company provides marketing and administrative services, building facilities, equipment, and data processing to the following companies. In accordance with administrative agreements, expenses are determined by a cost accounting system, which allocates operating expenses to the companies based on estimates of actual utilization.

The net amount due from (to) the Company are as follows:

	Admitted Amounts Due From (to) at December 31 2013	Admitted Amounts Due From (to) at December 31 2012

Discovery Benefits, Inc	**29,000**	150,000
	$ 72,154,000	$ 119,224,000

The Company donated administrative services to The North Dakota Caring Foundation. The services donated were $236,000 and $216,000 for 2013 and 2012, respectively.

Certain board members are also management personnel for entities in which the Company conducts certain business.

Note 15 - Retrospectively Rating Contracts

The Company estimates accrued retrospective premium adjustments for its group health insurance business through a mathematical approach using an algorithm of the Company's underwriting rules and experience rating practices. The Company records accrued retrospective premium as an adjustment to earned premium. The amount of net premium written by the Company at December 31, 2013 and 2012 that are subject to retrospective rating features was $256,648,000 and $237,058,000 which represented 21% and 24%, respecitively, of the total net premium written.

Note 16 - Commitments and Contingencies

On June 28, 2012, the Company entered into an agreement to guarantee a letter of credit taken out by NHS. The letter of credit is a requirement for a contract NHS has with the State of Iowa. The amount of the letter of credit is $1,739,000. The letter expires on June 30, 2014. NHS is currently meeting all contractual obligations related to this contract.

On October 17, 2011, the Company entered into an agreement to guarantee up to a $6,000,000 line of credit taken out by MDD. In 2013, the line of credit limit and guarantee by the Company was raised to $8,000,000. As of December 31, 2013 the amount of the line of credit balance outstanding was $8,000,000. The line of credit matures on December 16, 2015. See Note 17 for subsequent events related to sale of membership units of MDD.

The Company's wholly owned subsidiary, NHS, was the prime contractor in building the State of Maryland's health insurance web-based marketplace (MDHIX). On December 31, 2013, the State issued a cure notice to NHS regarding alleged performance issues. NHS disputed and continues to dispute the State's claims. NHS successfully negotiated a consensual exit from the MDHIX contract as of February 24, 2014. The Transition Agreement associated with this negotiated exit provides that NHS and the State agreed to a standstill until August 22, 2014 (the "Standstill Period"), with regard to the assertion of any legal claims by any party against any other in connection with the Contract. The Company is a party to that exit agreement with respect to its efforts to support transitional data hosting services required by the State's new prime contractor, QSSI. NHS believes that it is probable that one or more material claims will be asserted by the State against NHS, and NHS will assert one or more material claims against the State. The Company believes that it is also possible that the State may assert material claims directly against NMIC for damages. However, the facts do not indicate that an unfavorable outcome for the Company is probable based on any such claims, nor is it reasonably possible to estimate a range of outcomes that may occur as a result of such claims. Counsel for both companies are of the view that, assuming that such claims will be asserted, it is not possible to determine either the probability of a favorable or unfavorable outcome or to estimate any gain or loss associated therewith.

On February 24, 2012, the Company entered into an agreement to guarantee a performance bond taken out by NHS. The performance bond was a requirement for a contract NHS has with the State of Maryland (the state) to build the State's Health Insurance Exchange. The amount of the performance bond is $10,000,000. The bond was originally set to mature on February 22, 2014 but was extended to October 22, 2014. In February 2014, NHS and the state came to an agreement for NHS to exit the contract as of February 24, 2014. Under terms of the agreement, both parties agreed to stay any legal proceedings in regard to the contract until August 22, 2014. No reasonable estimate can be made at this time regarding the potential liability, if any, or the amount or range of any loss that may result from the negotiated exit of the contract. In accordance with SSAP No. 5R – *Liabilities, Contingencies and Impairments of Assets*, an accrual of $5,000,000 was recorded based on management's assessment of the uncertainty surrounding implementation of call provisions of the bond, and the guarantee agreement between the Company and the surety company. The amount recorded represents the midpoint of the range of the bond in accordance with treatment prescribed in SSAP No. 5R. Subsequent to year end, the bond issuer has requested and the Company has placed $10,000,000 as funds on deposit with a financial institution.

The Company has committed no reserves to cover contingent liabilities that may arise from guarantee fund assessment amounts as amounts would not be material to the Company.

The Company is involved in various claims, lawsuits and proceedings that arose in the ordinary course of business. While these actions are being contested, the outcome of individual matters is not predictable with assurance. The Company does not believe that any liability resulting from any of the actions will have a material adverse effect on its financial position, operating results, policyholder surplus, cash flows or liquidity.

Note 17 - Subsequent Events

Subsequent events have been considered through June 26, 2014, which represents the date the statutory basis financial statements were available to be issued.

On January 1, 2014, the Company will be subject to an annual fee under section 9010 of the PPACA. This annual fee will be allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1, 2014. As of December 31, 2013, the Company has written health insurance subject to the PPACAassessment and expects to conduct health insurance business in 2014. The Company estimates their portion of the annual health insurance industry fee to be payable on September 30, 2014 to be $13,500,000. This assessment is expected to decrease risk based capital by approximately 24 points.

Twenty First entered into a membership interest purchase agreement on March 31, 2014 to sell all membership units of MDD to Symphony Performance Health Inc. (Symphony). The sales price was $10,000,000 payable in cash at closing, a $5,000,000 senior secured promissory note payable on the third anniversary year from closing date, and a $1,500,000 secured promissory note payable on the fifth anniversary year from closing date. The Company also has the potential to receive an additional $12,500,000 from the sale based on customer and revenue earn-out provisions. The transaction is expected to increase the Company's surplus by approximately $13,600,000 in 2014.

During March of 2014, the Company signed an agreement to sell its ownership share in TriWest Alliance, Inc.(TriWest). The Company will record a realized gain of $16,389,000, however, the impact on surplus will be a decrease of $128,000 after reversing the unrealized gain of $16,518,000 that was previously recognized. Under the agreement, the Company received $12,265,000 in March 2014 and a note for the remaining sale amount of $5,256,000. The Company expects the note to be settled before year end 2014.

Note 18 - Annual Statement Variance

There were classification differences between the accompanying statutory financial statements and the Company's statutory filing as of December 31, 2013 and 2012. These differences related to classifications represented on the statement of cash flows. These variances had no effect on the statutory statements of admitted assets, liabilities, and policyholder surplus or the statutory statements of operations and changes in policyholder surplus.

Note 19 - Statutory Surplus

The North Dakota Insurance Department imposes minimum risk-based capital requirements that were developed by the NAIC. The formulas for determining the amount of risk-based capital specify various weighting factors that are applied to financial balances or various levels of activity based on the perceived degree of risk. At December 31, 2013 and 2012, the Company is in compliance with all capital requirements.

CPAs & BUSINESS ADVISORS

Independent Auditor's Report on Supplementary Information

The Board of Directors
Noridian Mutual Insurance Company
d/b/a Blue Cross Blue Shield of North Dakota
Fargo, North Dakota

We have audited the statutory financial statements of Noridian Mutual Insurance Company as of and for the years ending December 31, 2013 and 2012, and our report thereon dated June 26, 2014, which expressed an unmodified opinion on those financial statements appears on page 1. Our audits were conducted for the purpose of forming an opinion on the basic statutory-basis financial statements taken as a whole. The accompanying supplementary information included in the *Supplemental Schedule of Investment Risks Interrogatories* and the *Summary Investment Schedule* including the notes to supplementary information on pages 56 through 60 are required to be presented to comply with the National Association of Insurance Commissioners' Annual Statement Instructions and the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual and are not a required part of the basic statutory-basis financial statements. Such information included in the schedules referred to above is the responsibility of management, is presented for purposes of additional analysis and was derived from and relates directly to the underlying accounting and other records used to prepare the statutory financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other procedures in accordance with the auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic statutory financial statements taken as a whole.

Eide Bailly LLP

Minneapolis, Minnesota
June 26, 2014

Brian Fellner is executive vice president and chief financial officer at Blue Cross Blue Shield of North Dakota. His responsibilities include the oversight of the Company‘s financial statements, budgeting, treasury, and investment functions. Before joining BCBSND in 2013, Fellner was senior vice president of Enterprise Services at American Enterprise Group in Des Moines, where he was Chief Financial Officer and was responsible for the oversight of all corporate services functions. His background includes over 20 years of leadership and management experience within the Financial, Insurance and Health Care industries, including executive roles at Great West Life & Annuity Insurance Company, Pinon Management (a recognized leader and innovator in the long term care), and Pinon Health Network (where Fellner was a co-owner). Fellner commenced his career with Myers & Stauffer, a public accounting firm that specializes in healthcare auditing and consulting for State and Federal governments. Fellner also served as an adjunct faculty member at the University of Colorado Graduate School of Health Administration. Fellner is a certified public accountant, with additional professional certifications in managerial accounting and internal auditing. A graduate of the University of Colorado, Fellner holds a bachelor's degree in business administration and a master's degree in accounting.

Sharon Fletcher
Senior Vice President of Provider Relations & Reimbursement
Fargo, N.D.
Phone Number: 701-277-2698 (office)
Sharon.Fletcher@bcbsnd.com

Sharon Fletcher joined BCBSND in May 2012. As the SVP of Medical Management and Provider Reimbursement her role is to provide strategic oversight of and leadership for the division. Since 2011 Sharon worked as senior project director for Stanley Black and Decker Healthcare Solutions in New Britain, Conn., where she provided strategic consulting for health care organizations to help them implement long-term process capabilities that create efficiencies. Fletcher spent the previous four years working at Altru Health Systems in Grand Forks as manager of Learning and Organizational Development, Excellence and Effectiveness.

She has 23 years of experience in the human resources development, organizational development, strategic leadership and communications fields. Fletcher has held various senior level positions in the airline and technology industry.

Fletcher earned a doctorate in organizational leadership and behavior from Northcentral University in Prescott. Arizona. She earned a master of science degree in Human Resource Management and Labor Relations from La Roche College and an undergraduate degree in business management from Point Park College, both in Pittsburgh.

Miriam Griffin
Member Advocate Specialist
Fargo, N.D.
Phone Number: 701-277-2362 (office)
Miriam.Griffin@bcbsnd.com

Miriam Griffin is accountable for the development of, and responsibilities in relation to, the Member Advocacy Program (MAP). She also maintains her own case load of members experiencing unique medical circumstances. Griffin joined BCBSND in February of 2009 as a member services telephone representative. In January of 2011, Griffin moved into her current role, where she created and developed the procedures and standards currently being used today in MAP. Griffin holds a bachelor's degree from NDSU, and has completed company offered courses in the Lean Six Sigma management strategy.

Pam Gulleson
Vice President, Public Affairs and Government Relations
Fargo, N.D.
Phone Number: 701-277-2990 (office)
Pam.Gulleson@bcbsnd.com

Pam Gulleson is vice president of Public Affairs at Blue Cross Blue Shield of North Dakota. She is responsible for public affairs at the enterprise level, including corporate advocacy strategy, managing external business and government relations at the local, state and federal level, and public relations efforts for the organization. Before joining BCBSND in 2012, she served in the North Dakota State House of Representatives for 16 years and as chief of staff for North Dakota Senator Byron Dorgan for nine years. Other positions held by Gulleson include director for allied health programs for the North Dakota State College of Science, licensed nutritionist and director for nutrition programming at the Sargent and Ransom County Public Health offices in North Dakota. A graduate of North Dakota State University, Fargo, Gulleson holds a bachelor's degree in nutrition and education. She also completed master's coursework in Public Policy Administration from the North Dakota University System and the Minnesota State Colleges and Universities system. Since 1980, Gulleson has been a partner in a North Dakota ranching and farming business with her husband and their three sons.

Lacey Hogness
Project Manager
Fargo, N.D.
Phone Number: 701-282-1325 (office)
Lacey.Hogness@bcbsnd.com

Lacey Hogness has been with BCBSND since 2008. She has been a project manager for 2 years. In this role, she manages assigned corporate projects and activities that must be addressed in order to complete project deliverables within established timeframes. In addition, she is the one of the primary employees responsible for the coordination and implementation of the state and public accounts. Prior to this position, she worked in claims and quality assurance. She has a bachelor degree in business administration from Minnesota State University of Moorhead.

Heather Horner
Member Education Consultant
Bismarck-Dickinson-Williston-Minot, N.D.
Phone Number: 701-255-5575 (office)
Heather.Horner@bcbsnd.com

Heather Horner has been the Member Education Consultant for the western half of the state since March of 2011. As a Member Education Consultant, Heather meets with employees and provides concise, easy-to-understand information about how insurance works, what drives costs and what they can do to reduce their health care costs. She can tailor a presentation by including the group's utilization statistics and information about how the group compares to statewide averages and peer groups. Before working at BCBSND she worked as the Wellness Director for Anytime Fitness.

Megan Smith Houn
Director of Government Relations
Bismarck, N.D.
Phone Number: 701-255-5548 (office)
Megan.Houn@bcbsnd.com

Megan Smith Houn is the director of Government Relations. She develops and maintains cooperative relationships with local, state, and federal officials, agencies and other health care related entities in both the private and public sectors on behalf of BCBSND. She communicates BCBSND's position on issues which impact the health care and reimbursement system and advocates on issues on behalf of BCBSND's members. A native of Bismarck, N.D., Smith Houn is a graduate of Baylor University in Waco, Texas, with a Bachelor of Arts degree in international relations. She has nearly fifteen years of experience in health promotion programs and working with policymakers. Before joining BCBSND, she served as the executive director of Tobacco Free North Dakota in Bismarck, where she led a successful campaign to pass the statewide initiated measure for smoke-free workplaces. Prior to that, she was the grassroots relationship manager for the American Cancer Society Cancer Action Network in Bismarck from 2005 to 2010.

Tim Huckle
President and CEO
Fargo, N.D.
Phone Number: 701-282-1539 (office)
Tim.Huckle@bcbsnd.com

Tim Huckle is President and Chief Executive Officer of Blue Cross Blue Shield of North Dakota (BCBSND). He directs and oversees all operations of the company, subsidiary and affiliated companies. He is also responsible to set corporate goals with the Board of Directors and develop corporate strategy. Huckle has more than 28 years of experience in the health care industry. Beginning as a work management specialist in 1986, he steadily moved up through the ranks at BCBSND, holding a number of key leadership positions within the company, including vice president, executive vice president and chief operating officer. His extensive management experience in a variety of departments, strong people skills, and ability to adapt to and embrace change, have served—and continue to serve—the company well. A graduate of the University of North Dakota, Grand Forks, Huckle holds a bachelor degree in business administration.

Zach Keeling
Director of Marketing Operations & Product Management
Fargo, N.D.
Phone Number: 701-282-1138 (office)
Zach.Keeling@bcbsnd.com

Zach Keeling is responsible for the development and implementation of BCBSND's full product portfolio. He and his team are also accountable for all operational activities within Sales and Marketing including marketing systems, market research, reporting and compensation. Keeling joined BCBSND in 2011. Prior to BCBSND, Keeling worked at Coventry Healthcare in Omaha, NE and MVP Healthcare in Schenectady, NY. Over the past 12 years, Keeling has held multiple leadership roles in Actuarial, Product Management, Sales and Marketing. A graduate of Doane College, Crete, NE, Keeling holds a bachelor degree in Mathematics and Economics.

Denise Kolpack
Chief of Staff and Senior Vice President of Communications and Public Affairs
Fargo, N.D.
Phone Number: 701-282-1485 (office)
Denise.Kolpack@noridian.com

Denise Kolpack is chief of staff and senior vice president of Communications and Public Affairs at Blue Cross Blue Shield of North Dakota. As chief of staff, she serves as liaison to executive staff across the enterprise, works with governing boards across the enterprise and serves as a strategic partner on all significant issues and programs. She also oversees the company's Creative Services and Document Services departments, which are responsible for advertising, public relations, internal communications, websites, video and audio, writing and editing, graphic design, and corporate print and mail services. Kolpack joined BCBSND in 2006 as assistant vice president of Corporate Communications and was promoted to vice president in 2007. Before joining BCBSND, she was donor recruitment director with United Blood Services, N.D., campaign manager for the Heidi Heitkamp for Governor campaign in North Dakota in 2000, and worked with the North Dakota Newspaper Association, the North Dakota Water Coalition and Kranzler-Kingsley, all in Bismarck. A graduate of the University of North Dakota, Grand Forks, Kolpack holds a bachelor of arts degree in marketing and a minor in political science.

Linda Merck
Senior Actuarial Analyst
Fargo, N.D.
Phone Number: 701-282-1137 (office)
Linda.Merck@bcbsnd.com

Linda Merck has worked in the Actuarial Department since she joined BCBSND 26 years ago. She assists with the NDPERS rate analysis, prepares the rate exhibit for the Administrative Service Agreement and assists in the implementation of the rate changes each July and January.

Mike Potts
Director, Employer Consulting and Wellness Services
Blue Cross Blue Shield of North Dakota
Fargo, N.D.
Phone Numbers: (701) 277-2065 (office)
Mike.Potts@bcbsnd.com

Mike Potts oversees Employer Consulting and Wellness Services at Blue Cross Blue Shield of North Dakota. He provides direction to a dedicated Consulting Team that includes a Pharmacist, Wellness Professionals, Large Group Consultants and Education Consultants. The team supports employer benefit plan goals by providing value-added analysis of various group data to identify improvement opportunities and recommendations. The recommendations include services and programs designed to optimize plan design, increase member engagement, improve health status and reduce long-term cost trends. Most recently, he has been educating group leaders on the impact of the Affordable Care Act. Mike has been with BCBSND for over 23 years. He brings a diversity of experiences to his current role. Prior to his current position, he spent 14 years overseeing the Provider Relations department at BCBSND. He has also held a number of positions in internal operations, marketing and with local provider organizations. Mike holds a Bachelor of Arts in Communications from the University of North Dakota and an MBA from the University of Mary.

Renay Rutter
Vice President of Enterprise Administration
Interim Vice President of Enterprise Strategic Services
Fargo, N.D.
Phone Number 701-297-1634 (office)
Renay.Rutter@bcbsnd.com

Renay Rutter was hired in May 2013 as VP of Enterprise Administration and presently also serves as Interim VP of Enterprise Strategic Services where she leads Enterprise Information Technology teams (350 employees) including IT strategy and solution delivery; security; helpdesk services; enterprise project management, budgeting and governance; and corporate facility services. Prior to joining Noridian, Renay's entrepreneurial background included 25 years of senior and C-leadership roles in high tech industries such as software, legal business process outsourcing and customer service. Renay holds a bachelor degree in Business Administration.

Kevin Schoenborn
NDPERS Account Executive
Fargo, N.D.
Phone Number: 701-282-1172 (office)
Kevin.Schoenborn@bcbsnd.com

Kevin Schoenborn has been employed by BCBSND since August 1986, gaining over 28 years of experience in the health care industry. Since August 2008, he has served as the account executive for the NDPERS account, coordinating activities internally at BCBSND and with NDPERS staff. Prior to his account management role, Schoenborn was the dedicated large group consultant for NDPERS for eight years. In addition, he spent several years as a research analyst assigned to the NDPERS account for reporting purposes.

Onalee Sellheim
State and Public Programs Manager
Fargo, N.D.
Phone Number: 701-282-1154 (office)
Onalee.Sellheim@bcbsnd.com

Onalee Sellheim has been employed by BCBSND for 28 years. During that time, she has served in a number of capacities in the Claims Department, including eight years in the NDPERS Service Unit as a customer service representative and senior coordinator. She has also spent nine years servicing the NDPERS account in the Marketing division's Consulting Service Unit. In addition Onalee has now taken on the FEP Account as well.

Brent Solseng
Pharmacy Manager-Marketing
Fargo, N.D.
Phone Number: 701-282-1911 (office)
Brent.Solseng@bcbsnd.com

Brent Solseng, Pharm. D. has over 20 years combined experience in retail, hospital and managed care pharmacy. He is the Pharmacy Manager in Marketing for Blue Cross Blue Shield North Dakota where he is responsible for key account reporting and employer group consulting. Brent joined the BCBSND Medical Management division in June 2004. His primary responsibilities were delivery of education and performance reporting to prescribers and pharmacists. Brent worked on design and delivery of evidence-based presentations, prescribing reports and programs promoting judicious use of cost-effective therapies to North Dakota health care providers in the role of Academic Detailer. Brent transitioned to his current position in Marketing in March of 2011. As the Manager of Pharmacy Consulting, his work is centered on employer group reporting, program implementation and support. Currently Brent describes utilization and program performance in light of drug industry trends to BCBSND’s largest employer clients.

Sheri Srnsky
Team Leader, NDPERS/FEP Service Unit
Fargo, N.D.
Phone Number: 701-277-2423 (office)
Sheri.Srnsky@bcbsnd.com

Sheri Srnsky has been employed with BCBSND since May of 2000. During that time, she has served in a number of capacities within the company. Sheri has served in the Claims Service Unit for nine years, including four years as a customer service representative, four years as a service unit coordinator, six months in Operation Support, and the last 7 months as a Team Leader (NDPERS/FEP).

Shelly Stalpes
Manager Claims Administration
Fargo, N.D.
Phone Number: 701-282-1476 (office)
Shelly.Stalpes@bcbsnd.com

Shelly Stalpes has been employed by BCBSND since 1985. During that time, she has served in a number of capacities in the Claims Department, including 17 years as team leader of Special Accounts (NDPERS and FEP). She became manager of the Claims Service Units in March 2008. As manager, Stalpes oversees six dedicated claims and customer service units, including the NDPERS Service Unit. She holds a bachelor degree in Business Administration from Minnesota State University Moorhead.

Mark Tschider
VP Customer Support & Claims Administration
Fargo, N.D.
Phone Number: 701-282-1980 (office)
Mark.Tschider@bcbsnd.com

Mark Tschider has been with BCBSND since 1989 and he has been the VP of Customer Support and Claims Administration for 4 years. Tschider spent his early years at BCBSND working with process and efficiency improvement projects in Claims Operations. From 1994 to 2010, he worked in BCBSND's Development and Business Strategies Division and was involved in implementing large corporate initiatives, including NDPERS project implementations. During 2009, he spent a year working with CoreLink during the startup of the company, he became heavily involved with BCBSND's Claims, Membership and Member Services systems and processes. In his current position, Tschider's responsibilities include providing oversight to the NDPERS Claims and Member Services department. He is responsible for continue improving the productivity, efficiency and quality of work BCBSND does in the high-performing areas of Claims and Customer Support.

Jacquelyn Walsh
Vice President of Clinical Excellence and Quality
Fargo, N.D.
Phone Number: 701-277-2786 (office)
Jacquelyn.Walsh@bcbsnd.com

Jacquelyn Walsh has been employed by BCBSND since December 2012. Prior to coming to the Plan, she worked in various nursing executive roles on the provider side for 36 years. Ms. Walsh provides leadership to management and clinical staff related to network provider relations, care management and quality to ensure the division’s efficient operation and to achieve desired outcomes in the work processes of medical and network policy development and implementation. She is also responsible for Plan accreditation and regulatory management with regard to the Plan’s commitment to a validated standard of excellence in the industry.

Jim Wynstra
Director of Actuarial
Fargo, N.D.
Phone Number: 701-277-2213 (office)
Jim.Wynstra@bcbsnd.com

Jim Wynstra joined BCBSND in August 2009. He has worked in the actuarial field since 1991. Prior to working at BCBSND, he worked at HealthMarkets located near Fort Worth, Texas. Before that, he spent 15 years working at Trustmark Insurance Company in Lake Forest, III. He has experience with pricing, reserving, financial forecasting and loss ratio experience analysis. Both Trustmark and HealthMarkets do business in multiple states, so he has experience with various insurance regulation environments as they relate to small-group and individual health insurance. Wynstra reports to the VP of Actuarial & Membership and manages an actuarial staff of eight with responsibilities including reserving, pricing and renewal increases.

Blue Cross Blue Shield of North Dakota is an independent licensee of the Blue Cross & Blue Shield Association

Noridian Mutual Insurance Company

Substantial legislation (Health Insurance Portability and Accountability Act and Graham Leach Bliley) has taken effect regarding the protection of personal health information. Blue Cross Blue Shield of North Dakota has worked diligently in the past to protect the privacy of personal information, and we are continuing to do so. We have reviewed the different reports and studies that we make available to our groups with respect to this legislation, and have made changes where necessary.

To ensure we are providing the “minimum necessary” information, as outlined by this legislation, we are asking you to review the reports you receive from us. If there are specific reports you have not used, or possibly will not be using in the future, we can discontinue those specific reports. We understand that you need information to make informed decisions regarding the benefits and funding of your employer group health plan. We will continue to provide that information to the best of our ability.

Effective 7/1/2013, dental and vision products from The Dental Service Corporation of North Dakota (DSC) and North Dakota Vision Services, Incorporated (VSI) began transitioning to Blue Cross Blue Shield of North Dakota (BCBSND) on the group's anniversary. Dental and Vision reports may contain a blend of data from any combination of DSC, VSI and/or BCBSND dental and vision products.

Please contact one of the Marketing Consultants if you have any questions or concerns.

Definitions of Terms

Membership: Defined as total active contracts as of the most recent full month.
ND Membership: Defined as the number of members who reside in North Dakota.

Members in a Medical Home: The number of group members who are in the MediQHome program and attributed to a physician.
Members in a Medical Home with a Targeted Chronic Condition: The number of members in a Medical Home who have one or more of the six targeted chronic conditions.

Six Targeted Chronic Conditions: Asthma, Attention Deficit Hyperactivity Disorder, Coronary Artery Disease, Congestive Heart Failure, Diabetes, and Hypertension. These conditions are further stratified by age to create clinical suites.

ADHD: Attention Deficit Hyperactivity Disorder
ASTH: Asthma
CAD: Coronary Artery Disease
CHF: Congestive Heart Failure
DM: Adult Diabetes
DMA: Adolescent Diabetes
DMC: Childhood Diabetes

HTN: Adult Hypertension
HTNCA: Child or Adolescent Hypertension

Single Chronic: Members who are only in one of the targeted chronic condition suites.
Multiple Chronic: Members who are in more than one of the targeted chronic condition suites.

Non-Targeted: Members who are not in any of the targeted chronic condition suites, though these members may have conditions outside of those targeted by the MediQHome program.

BMI Ranges:

- **Normal:** less than or equal to 25
- **Overweight:** between 25.01 and 29.99
- **Obese:** between 30 and 34.99
- **Morbidly Obese:** greater than or equal to 35

State Comparison: Includes all commerical BCBSND book of business plus FEP, for members under age 65 residing within the state of North Dakota (zip code beginning with 58). Medicare members are excluded.

NDPERS Biennium Comparison

Paid through March 31, 2014

Incurred	Premium	Admin Fee	Interest on Surplus	Estimated Incurred Claims	Gain (Loss)	Gain (Loss) as % of Premium	Biennium Gain (loss)	% of Premium
July 09 - Jan 10	122,061	6,450	73	100,430	15,253	12.5%	38,094	9.0%
July 11 - Jan 12	133,866	7,102	19	120,700	6,084	4.5%	10,516	2.2%
July 13 - Jan 14	157,864	12,002	27	142,465	3,424	2.2%	N/A	N/A

Note: Reported in thousands

The July 11 - June 13 biennium is reporting a gain of $10.5 million with nine months of claims run out. Biennium gain(losses) are prior to risk sharing. It is important to note that the bienniums beginning with July 13 includes estimated claim reserves. Actual claims run out may vary from original reserve estimates.

It is expected that premiums will exceed claims in the first few months of the biennium. This is due to stable premium levels throughout the entire biennium and increasing claims during the biennium. At the mid-point of the biennium claims would be expected to be equal to premiums less admin fees and during the last months of the biennium, claims would be expected to exceed premiums

NDPERS Quarterly Trend Analysis

Paid through March 31, 2014

Twelve Month Moving Average				
Incurred Month	Est. Incurred Claim/Contract		Annual Trend	
	Actives	Med Retirees	Actives	Med Retirees
3/12	$759.75	$171.89	9.7%	0.9%
4/12	763.45	172.25	9.3%	1.0%

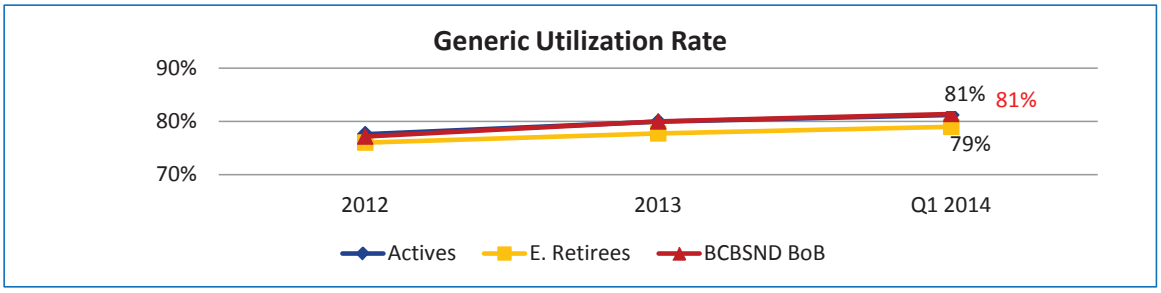
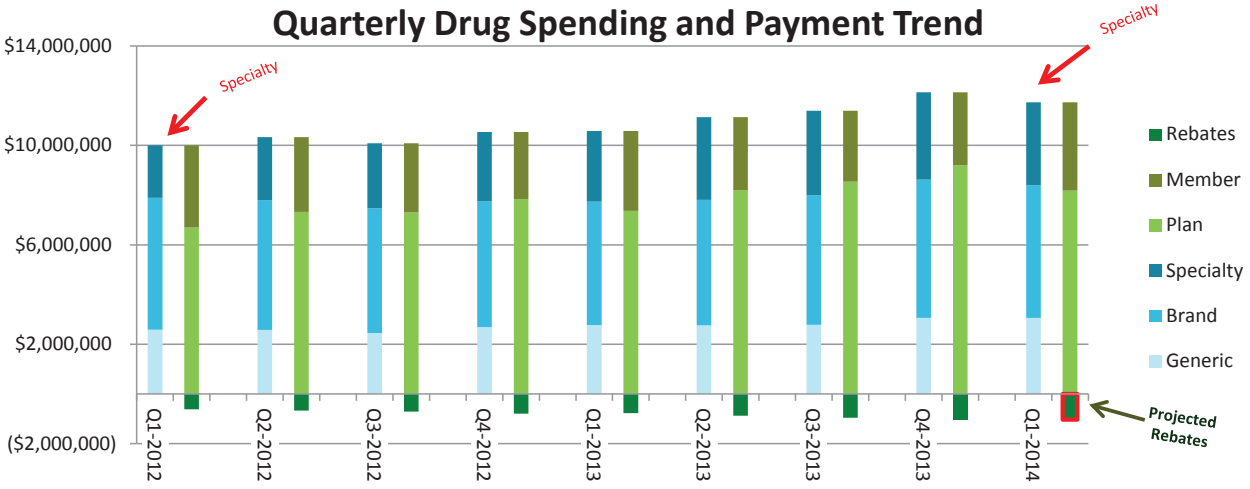
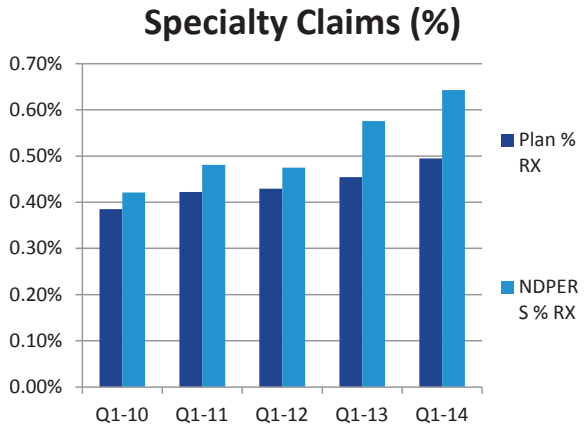
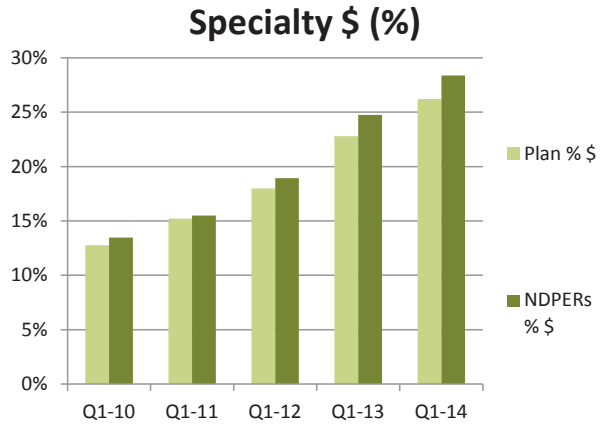
Prescription Drugs





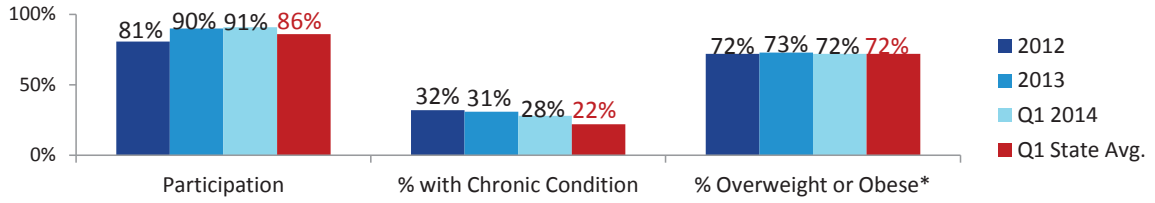
- Specialty spend continues to increase
- Plan (NDPERS) costs are increasing – benefit design may not be keeping up with inflation
- Rebates have also increased



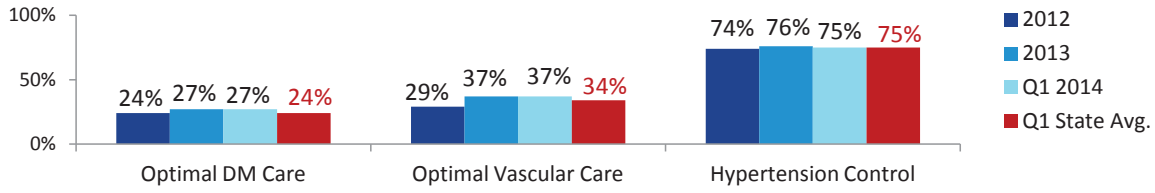


Health Management

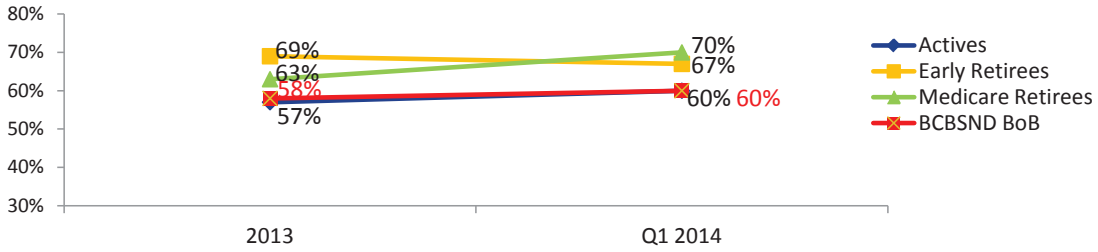
MediQHome Key Measures



MediQHome Outcome Measures



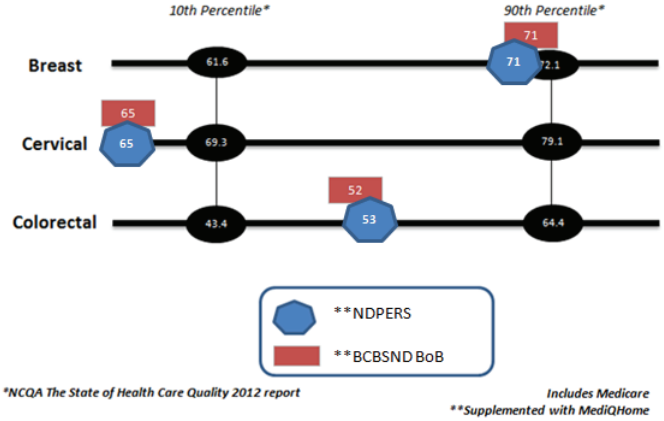
AccordantCare Participation – Rare and Complex Disease Management



- **533 eligible, 327 participating (overall participation 61%)**
- 2013 to Q1 2014 shows an overall increase in participation
  - Due to small population of the retirees, addition or decline of a few members could change participation percentage significantly

Preventive Cancer Screenings

Cancer screening compliance is at the BCBSND book of business but below the 2012 NCQA 90th percentile.

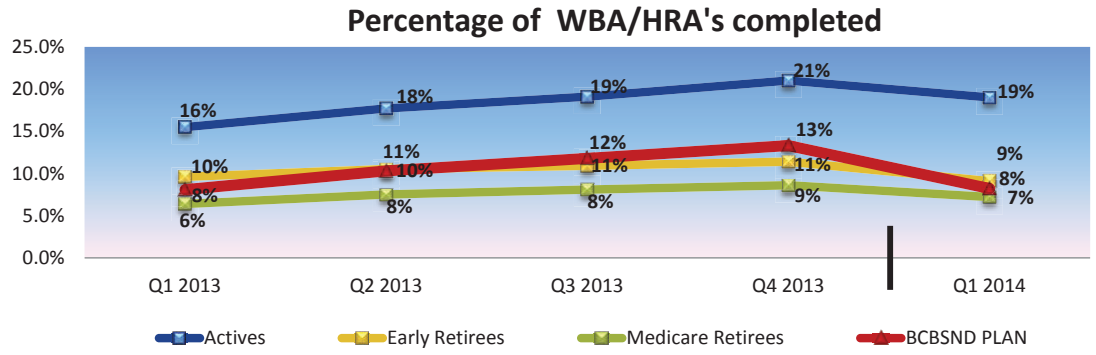


Wellness Programs

Through Q1 2014 (Jan-Mar), there was a total of 44,305 members eligible for the wellness programs, HealthyBlue and Health Club Credit. NDPERS member participation in both wellness programs is higher than the BCBSND Plan average.

HealthyBlue

- 17% (slightly down from 19% Q4) of <u>total</u> eligible members have completed a Health Risk Assessment (7,329 members).
  - BCBSND Plan HRA completion rate was 8% (also down from 13% in Q4)
- Point redemption through Q1 2014 - $48,086 in redeemed prizes

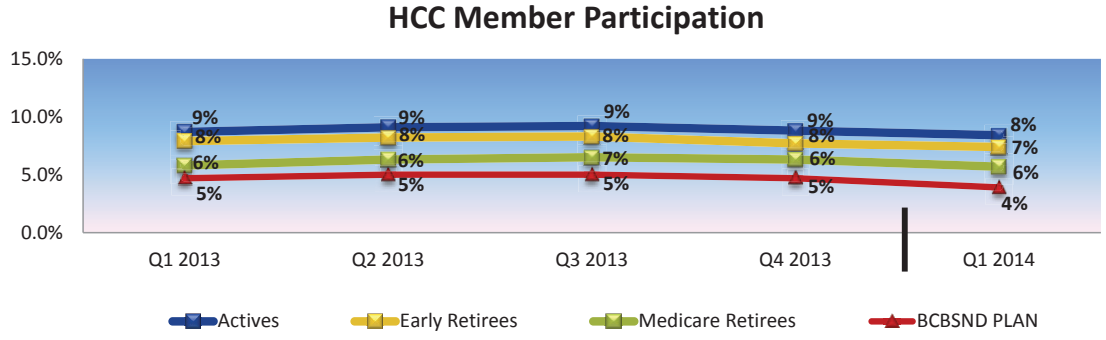


Q1 2014 begins over due to annual HRA completion requirement.

Quarters are cumulative to calendar year end

Health Club Credit

- 8% (same as Q4) participate in the Health Club Credit Program (3,478 members)
  - BCBSND Plan average is 4% (down from 5% Q4)
- Members receiving credit 61% (up from 55% Q4) - those participating in HCC exercise 12 or more days per month (2,137 members)
  - BCBSND Plan average is 63% (also up from 53% Q4)
- Health club credits paid through Q1 2014 - $114,661



Quarters are cumulative to calendar year end

Wellness Programs Cont'd

Member Engagement

Member Education Representatives introduce programs that provide employees with valuable information and engages them in their health care. Along with making more informed health care decisions, these programs include valuable life skills.

Presentations are available for the following programs:

- Take Care of Yourself
- Walking Works
- Strength Training
- Beat The Bug
- Summer Safety
- Stress Management
- Medication Education
- Tobacco Cessation
- Wellness Programs (HealthyBlue/Health Club Credit)
- Nutrition Basics for a Healthier You
- **NEW!** "CPR and First Aid Basics"

2014 through Q1, 26 employer groups have held these educational programs and 10 employer groups have had a benefit overview meeting.

	Number of Employers	Member Education Programs & Benefit Overview	Member Attendance
Q1 2014	15	HealthyBlue /HCC	308
	15	Other	499
	15	Benefit Overview	

NDPERS Wellness Specialist

•Two week Walking Challenge in January/February – 1155 registered participants walked approximately 146 million steps.

• Cervical Cancer Screening & HealthyBlue HRA Reminder mailings

•Completed "Spring into Action" physical activity challenge May 1 – results will be released in the next quarterly review.

•NDPERS Wellness Coordinator monthly calls & newsletters

- **Call -** April featured a special guest from the NDSU Extension Service for a new nutrition program they are launching that is targeted at baby boomers.
- **Newsletter** - featuring the health topic of the month and additional resources for wellness activities.

•Conducted a Wellness Coordinator survey in February. 63% of coordinators have been in their role for three or more years. Nearly all of coordinators are satisfied with the resources provided to them through the monthly newsletters and conference calls.

•HealthyBlueHighlights, sent bimonthly through HealthyBlue, highlights monthly health topics and encourages members to participate in HealthyBlue workshops.

•Pebble promotion in HealthyBlue – electronic tracking device that automatically uploads into HealthyBlue

• Debut of Duncan's Digest – online health topic presentation in HealthyBlue

•Launched online video tutorial on HealthyBlue

•Gearing Up for Worksite Wellness trainings were offered in Fargo and Bismarck. Approximately 10 NDPERS Wellness Coordinators attended.

Performance Standards and Guarantees

Opportunities and Activities

Completed

- Gearing Up for Worksite Wellness trainings in Fargo and Bismarck.
- Two week Walking Challenge in January/February
- "Spring into Action" physical activity challenge
- Wellness Coordinator survey
- Cervical Cancer Screening mailing
- HealthyBlue HRA Reminder mailing
- National Walk at Lunch Day at Capitol with First Lady Dalrymple & Kathleen Wrigley
- New MyPrime.com website is now available

Ongoing Activities

- **New BCBSND staff member to provide additional support for NDPERS program management**
- **Case Management – dedicated NDPERS Case Manager, works closely with Member Advocacy Program (MAP)**
    - **83 cases reviewed/followed in last 12 months**
        - **Projected savings (soft & hard) - $237,060**
- **There are currently 9 members in the Member Advocacy Program (MAP) – an increase from 3 last quarter. Two additional MAP advocates have been hired as the need for their services continue to increase.**
- **HealthyBlue upgrade to log community event participation**
- A fruit & veggie challenge is scheduled for summer.
- Monthly NDPERS Wellness Coordinator calls and newsletters
- Specialty Pharmacy
    - NDPERS enrollment in Prime Specialty Pharmacy Care Management
    - Targeted mailings continue to identify new specialty users
- Accordant Care – continue to identify newly eligibly members

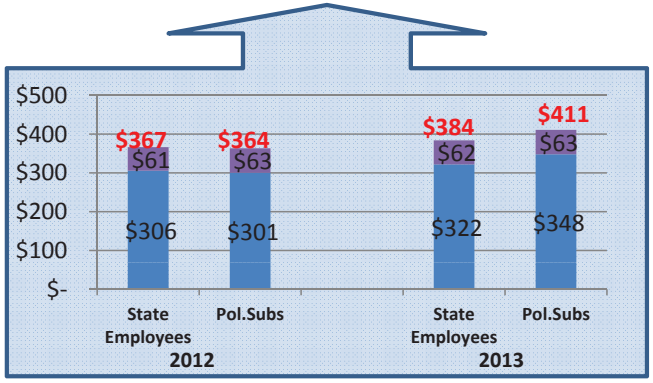
PPO PLAN
State & Political Subs

HDHP Plan
State Employees only



- Both the PPO & HDHP Plans saw an increase to enrolled members
- HSA dollars contributed by NDPERS reduces the member's out of pocket but adds to the over-all costs for NDPERS

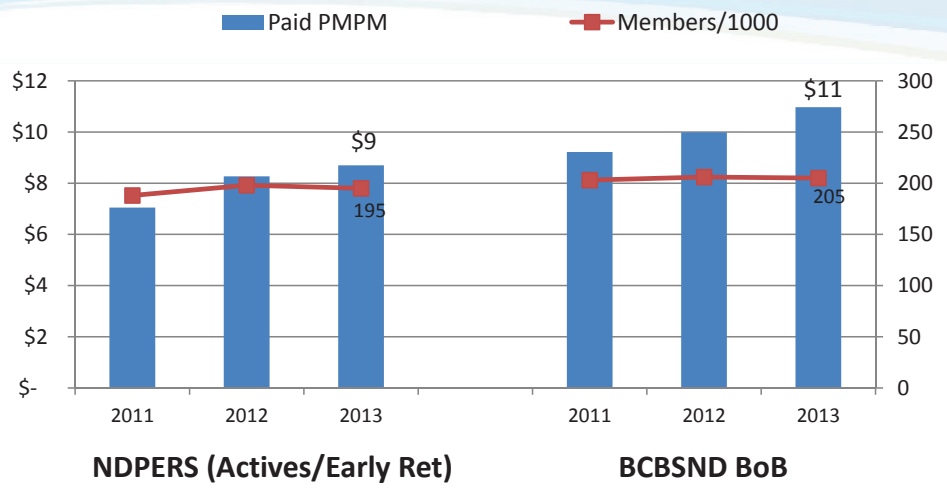
Restricted and/or Confidential

Outpatient ER Utilization

Consideration:

•Increase ER copay to $60

Current copay of $50 is lower than BCBSND standard copay - $75



• NDPERS PMPM is lower than BCBSND Plan average

• Small difference between ER copay ($50) and office visit copay ($25) may adversely affect utilization

Restricted and/or Confidential

Best practices
7
Pick the right partner
Top-performing plans know
They can't do it alone. Top performers select a trusted advisor with comprehensive capabilities and deep connections to help them anticipate and address specialty drug challenges.
Partnership is essential
The facts are clear: specialty drugs will soon become the main drivers of increased drug spending and the focus of pharmacy benefit management. How well plan sponsors deal with this challenge depends in large part on the steps they take today.
The good news is that plan sponsors don't have to do it alone. A pharmacy benefit manager's role is to inform, advise, and — most importantly — manage drug-related cost and care challenges. That's why the most critical step in successful specialty pharmacy management is finding the right partner.
Characteristics of a good partner
The right kind of partner possesses a comprehensive set of capabilities and connections and demonstrates proven expertise in drug cost management; will engage and be responsive in interactions with members and clients; and can be expected to tell the unvarnished truth about what's going on.
Most importantly, the right kind of partner places a priority on people and their health, always considering what is best for them in every decision.
SPOTLIGHT
Coordinated care, aligned incentives
All sorts of problems can arise when companies put revenues before people. Without careful consideration of health outcomes and total costs, some of the tactics used to create drug pricing advantages can actually end up adding costs to the health care system.
Prime's relationship with Blue Cross and Blue Shield Plans allows us to be different. Not only does this unique connection set us free to do what's right for our members and clients, it also allows us to do what's right for the industry. Learn more.

Performance Standards and Guarantees

44

Measure	Goal	12/31/2013
Cost Management (measurement period : by 12-31-14)		
HRA Completions	17%	19%
HRA Score	5% point increase in the 2013 NDPERS group aggregate HRA wellness score 55	52
HealthyBlue - incentives paid	10% increase over 2013 incentives paid $581,798	$528,907
Health Club Credit - members receiving credit	10% increase over 2013 members receiving credit 2,177	1,979
Health Outcomes:		
Members enrolled in a Medical Home	80%	90%
Breast Cancer Screening Rates*	80%	86%
Cervical Cancer Screening Rates*	85%	99%
Colorectal Cancer Screening Rates*	60%	70%
Operational Performance:		
Claims Financial Accuracy	99%	98%
Payment Incident Accuracy	97%	99%
Claim Timeliness	99%	99%
Average Speed of Answer (in seconds)	30 seconds or less	25
Call Abandonment Rate	5% or less	2%
Provider Network Management:		
NDPERS PPO network	92% (or more) participation	99.6%
Provider Discount for non-Medicare contracts	30% or more	53%

**Cancer screening rates are a culmination of MediQHome and Optum claims data*

Green – meeting goal
Red – below goal
Purple – neither above nor below

Sample of Health Intelligenc Employer Profile Report

Employer Profile

Report Timeframe: 01/01/2012 - 03/31/2014

Employer Name: SAMPLE GROUP

Employer ID: 019301

Product: PREFERRED BLUE PPO

Member Category 1: ALL

Member Category 2: ALL

Average Number of Members: 3,943.3

Average Age: 29.2

Relative Health Risk: 0.99

Index of Reports

Section 1: Summary Reports

Executive Summary
Account Summary
Membership Trend by Contract Type
Summary Trend by Major Type of Service
Membership Distribution by Age and Gender
Membership Health Risk Distribution
Medical Claims Distribution
Quality

Section 2: Financial Reports (Paid Period Based)

Financial Overview
Claim Cost by Age, Gender and Relationship to Contract Holder
Claim Lag
Premium and Claim Cost Analysis

Section 3: Cost and Utilization Detail Reports

Top 20 Episode Families Ranked by Cost
Total Costs by Disease
Disease Related Costs
Top 20 Facilities
Top 20 Providers
Top 15 Specialties
Network Utilization
Provider Cost Savings and Employee Cost Sharing Analysis
Medical Cost and Utilization by Detailed Service Category
High Cost Cases

Index of Reports

Section 4: Pharmacy Reports

Pharmacy Overview
Pharmacy Cost and Utilization by Formulary and Tier
Top 20 Prescriptions Ranked by Cost
Pharmacy Cost by Therapeutic Class

Section 5: Appendix

Report Descriptions
Report Glossary

Employer Name: SAMPLE GROUP

Glossary

Term	Definition
Allowed Amount	Total amount allowed under the medical plan including the employee paid portion of deductibles, co-pays, coinsurance, the employer paid portion (paid amount) and COB. Allowed amount does not include plan and administrative exclusions such as duplicate claims, ineligible claims, network discount savings and R&C savings.
Average Age	The average age of the members covered under the plan for the reporting period.
Average Cost per Contract	The total cost divided by the average number of contract holders for the reporting period
Average Cost per Episode	The total cost divided by the number of episodes.
Average Cost per Member	The total cost divided by the average number of members for the reporting period
Average Days Supply per Prescription	The number of days supplied per prescription.
Average Length of Stay (ALOS)	The number of days, counted from the day of admission to the day of discharge, that a plan member is confined to a hospital or other facility for each admission. Number of inpatient days divided by the number of inpatient admissions.
Average Members per Contract	Number of members associated with a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore fractional or partial members will be associated with a contract holder.
Average Members per Family	Number of members enrolled under family coverage for a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore fractional or partial members will be associated with a contract holder.
Average Number of Contracts	Number of members defined as a contract holder. The number of months each member was enrolled during the reporting period is used in the calculation therefore a fractional number of contracts will be reported.
Average Number of Members	Number of members enrolled during the reporting period. The number of months each member was enrolled during the reporting period is used in the calculation therefore a fractional number of members will be reported.
Benchmark	Comparative cost and utilization statistics based on the experience of similar member populations. Benchmarks are adjusted for the plan sponsor age and gender mix and mix of episodes as appropriate for comparative purposes.
Billed Charges	Total amount of charges requested or billed by the provider for services.
Brand	A prescription drug that has been patented and is only available through one manufacturer.
Capitation	A method of paying for healthcare services on the basis of the number of patients who are covered for specific services over a specified period of time rather than the cost or number of services that are actually provided.
Coinsurance	A specified percent of costs that a member must pay out-of-pocket for services once a deductible is met.
Completed Episode	An episode of care is termed “complete” based on the absence of treatment for a medical condition for a specified period of time.
Compliance Rate (Quality)	Percent of recommended treatments received by the member population. Ratio of the Quality Opportunities-With Compliance to Total Quality Opportunities.
Contract Holder	The individual in whose name a contract is issued. The employee covered under an employer's group health contract. The contract holder (or subscriber) can enroll dependents under family coverage.
Co-payment	A specified dollar amount that a member must pay out-of-pocket for a specified service at the time the service is rendered.
Cost per Encounter	Total cost divided by the total number of encounters.
Cost per Episode	Total Cost divided by the number of episodes.

Cost per Member per Month (PMPM)	Cost divided by the number of enrolled member months during the reporting period.
Cost per Prescription	See Cost per Encounter
Deductible	A specified dollar amount that a member must pay out-of-pocket each year for covered services before the health plan assumes any liability for the cost of covered services.
Disease Related Costs	Cost of services related to a specific disease.
Employee Cost Sharing	When an employee pays out of pocket for a portion of the covered medical expense. Deductible, coinsurance, and co-pay are all forms of employee cost sharing.
Encounters	A contact between a patient and the health care system for a related set of service(s) for one or more medical conditions that occur in a given day for a member. For Outpatient Facility, Professional, and Ancillary Type of Services, each related set of visits and services per day is a single encounter. For Inpatient Facility, each confinement is a single encounter where confinements can span multiple days. For Pharmacy Type of Services, each service or prescription is a single encounter.
Encounters per 1,000 members	The encounter rate per 1,000 members. The number of encounters divided by the average number of members in the reporting period multiplied by 1,000.
Episode Families	An Episode Family is a group of related episodes of care.
Episode Treatment Group (ETG)	A clinical classification methodology combining medical and pharmacy services into mutually exclusive and exhaustive categories called episodes of care.
Episode(s) of Care	The unique occurrences of a medical condition or disease for a patient and the services involved (e.g. provider visits, labs, hospitalization, medications) in diagnosing and managing their treatment.
Formulary	Preferred Drug List of brand-name and generic medications that have been rigorously reviewed and selected by a committee of practicing doctors and clinical pharmacists for their quality, cost savings, and effectiveness.
Formulary Utilization	The percentage of total prescriptions that were dispensed on the Formulary list.
Generic	A drug which is the pharmaceutical equivalent to one or more brand name drugs. Such drugs have been approved by the Food and drug Administration as meeting the same standards for safety, purity, strength and effectiveness as the brand name drug.
Generic Utilization	The ratio of prescriptions that were dispensed as generic to the total prescriptions available as generic.
Health Risk	See Relative Health Risk
In-Network Utilization	Percent of costs performed by participating providers at the time the claim was incurred.
Loss ratio	Total claim cost divided by total premium
Mail Order Utilization	The percentage of total prescriptions that were ordered and dispensed through the mail
Member Months	A cumulative total of monthly membership for the reporting period.
Non Formulary	All other medications not included on the Formulary or a Preferred Drug List.
Out-of-Network	Services performed by non-participating providers at the time the claim was incurred.
Percent Formulary (Scripts)	See Formulary Utilization
Percent Generic (Scripts)	See Generic Utilization
Percent In-Network Costs	See In-Network Utilization
Percent Mail Order (Scripts)	See Mail Order Utilization
Prescriptions per 1,000 Contracts	The prescription rate per 1,000 members. The number of prescriptions divided by the average number of contracts in the reporting period multiplied by 1,000.
Prescriptions per 1,000 Members	See Encounters per 1,000 Members
Provider Cost	Amount reimbursed to the provider by the plan

Provider Cost Savings	The total savings to the plan sponsor due to the application of negotiated discount arrangements with contracted providers and R&C savings. Billed Charges less Allowed Amount.
Quality Opportunities	Number of treatments recommended by evidence based medicine guidelines and national standards of care for each member based on their clinical condition (case).
Relative Health Risk	Average member's relative health risk during a period of time using information about their mix of diseases and conditions for that same year.
Service Category	See Type of Service
Therapeutic Class	A method of classifying a drug according to its therapeutic action in the body.
Tier (Pharmacy)	Payment Tier Drug was assigned to at the time of purchase.
Total Medical Cost	Total medical claims costs including Facility Inpatient, Facility Outpatient, Professional Services and Ancillary Services.
Total Pharmacy Cost	Total retail pharmacy costs. Drugs administered in an office setting (e.g. allergy shots, immunizations) are included in medical costs.
Type of Service (TOS)	Type of Service categories are assigned for medical claims based on Major type of services and the procedure codes used in describing the service. The four major types of service used in categorizing medical claims are 1. Facility Inpatient; 2. Facility Outpatient; 3. Professional Services; and 4. Ancillary Services. After assigning a service to these categories, CPT, HCPCs and Revenue Codes are used to further differentiate services at four separate levels.
With Compliance (Quality)	The number of recommended treatments actually received by the member population.
