MONITORING THE STATUS OF THE STATE BUDGET

Beginning with the 1975-76 interim, a Legislative Management interim committee has been assigned the responsibility to review state budget information, including the monitoring of state revenues and the status of major state agency and institution appropriations. The Government Finance Committee has been assigned this responsibility for the 2015-16 interim.

As in previous bienniums, the committee's review could place emphasis on expenditures of major state agencies and other appropriations the committee might select. Budget areas the committee may wish to review include:

- Status of one-time funding items for the 2015-17 biennium.
- Potential one-time funding items to be considered by the Legislative Assembly in 2017.
- Status of expenditures of major agency programs.
- Federal funding received and anticipated to be received by state agencies.
- Projected revenues, expenditures, and fund balances of major state funds.
- Revised 2015-17 biennium revenue forecasts and preliminary 2017-19 biennium revenue forecasts.
- Other key budget issues for the 2017 legislative session.

Also completed and presented each interim since 1987-88 is a report on the status of agency compliance with legislative intent. This report includes the status of state agencies' and institutions' implementation of budget/programmatic changes and legislative directives contained in appropriation bills and other legislation and the identification of agency budget issues. These reports are also provided to members of the Budget Section for their information.

The type of reporting outlined above will provide the committee with early information on problem areas needing legislative consideration and action or may be the basis for legislation to be introduced to the Legislative Assembly in 2017.

Any proposed agreement must be submitted to the Legislative Assembly or, if the Legislative Assembly is not in session, to the Legislative Management or a committee designated by the Legislative Management for approval or rejection. **REPORT FROM THE OFFICE OF MANAGEMENT AND BUDGET ON FEDERAL FUNDS**

Section 54-27-27.1 (Appendix C) provides each executive branch state agency, excluding entities under the control of the State Board of Higher Education, receiving federal funds, shall report to OMB a plan to operate the state agency if federal funds are reduced by 5 percent or more of the total federal funds the state agency receives. The report must include information on whether the agency will request state funds to offset the decrease in federal funds. The report is not required to address a reduction in federal funds received by the agency which is a result of:

1. A decrease in caseloads or cost per case;
2. A change in the anticipated project completion date for a construction project qualifying for federal fund reimbursement; or
3. The completion of a one-time project funded in whole or in part by federal funds.

The Office of Management and Budget is required to report to the Legislative Management by October 15 of each even-numbered year on the reports received from state agencies under this section. The report must include a summary of the reports received from state agencies on how each agency will operate with the reduction in federal funds. The market equity increases must be prioritized based on a statewide plan prepared by OMB within the funding available in the pool. The plan must address occupational market disparities, economic growth areas, recruitment and retention challenges, and external pay inequities for employees who are critical to the mission of the agency. The plan must give priority to employees whose salary is in the first or second quartile of their assigned salary range and employees whose salary is below the average classified state employee salary level.

One-half of the market equity pool funding is available for market equity adjustments in July 2015, to be paid in August 2015, and any remaining funding in the pool is available for market equity adjustments in July 2016, to be paid in August 2016. The market equity adjustments must be provided after any general compensation increase authorized by the 64th Legislative Assembly for these respective months and are independent of the general compensation increases. Employees whose documented performance levels do not meet standards are not eligible for the market equity increases. Notwithstanding any other provision of law, OMB is required to transfer appropriation authority from the targeted market equity salary pool to eligible agencies for approved market equity salary adjustments. Employees in the following agencies are eligible to receive a targeted market equity salary adjustment under this section:
1. Adjutant General;
2. Veterans’ Home;
3. State Department of Health;

In addition, each agency receiving a distribution from the energy impact funding pool is required to provide a report to the Legislative Management regarding its plan to discontinue energy impact adjustments for employees at the end of the 2015-17 biennium.
