

STATE PLANS TO COMPLY WITH THE 1999 OLMSTEAD V. L.C. CASE

This memorandum provides information regarding state plans to comply with the 1999 Olmstead v. L.C. case. In the 1999 Olmstead ruling, the Supreme Court recommended, but did not require, states develop Olmstead plans detailing how they will comply with the ruling. Some state-level courts have required their states to create a plan. Many states regularly update their Olmstead plans. Often a commission, task force, or other organized group of key stakeholders are responsible for updating a state's plan. The attached *Olmstead Implementation* document ([appendix](#)) provides information on an update of state plans.
