<sup>1</sup>This amount represents new funding for male transition services in the eastern part of the state.

<sup>2</sup>Although no funding was appropriated for halfway house services during the 2005-07 biennium, these services were provided. Approximately \$1.5 million of the department's 2005-07 deficiency appropriation of \$4.1 million can be attributed to funding these services.

<sup>3</sup>Decreases in funding for these service areas is primarily due to funds being redirected to other treatment areas.

<sup>4</sup>These services are no longer provided. Funding previously used for these services has been redirected to other treatment areas.
